\* Originally given as *tal*; Dee noted “fortè med”; in the diagram of the table on fol. 94vo with the letters in Roman script, *o*, the letter corresponding to *med* is quite clearly written.

† Gon cum puncto is given in a marginal note as Sloane MS. 3188 fol. 19vo for the Latin *y*. On fol. 97 the **└** in the inner (“skin”) section of the Heptarchic Lamén is written with a small dot in the lower angle.
