

# You And The Sons Of The Green Light

The color green is in the middle of the visible spectrum of light. It is a combination of the moods that blue and yellow reflect. Spiritual yellow reflects intellect or a total state of consciousness and spiritual blue reflects a highly spiritual mood, and virtuous qualities such as devotion, faith and piety. The color green in itself is most divine, for this combined mood is reflected from the heavens of the mental plane. Green like white, is a healing force, except that the green light is more powerful.

The color green is controlled and directed by **Al Khidr (Melchizedek)**.

5.

The inverted heart represents Divine Love that ascends towards the Divine.

6.

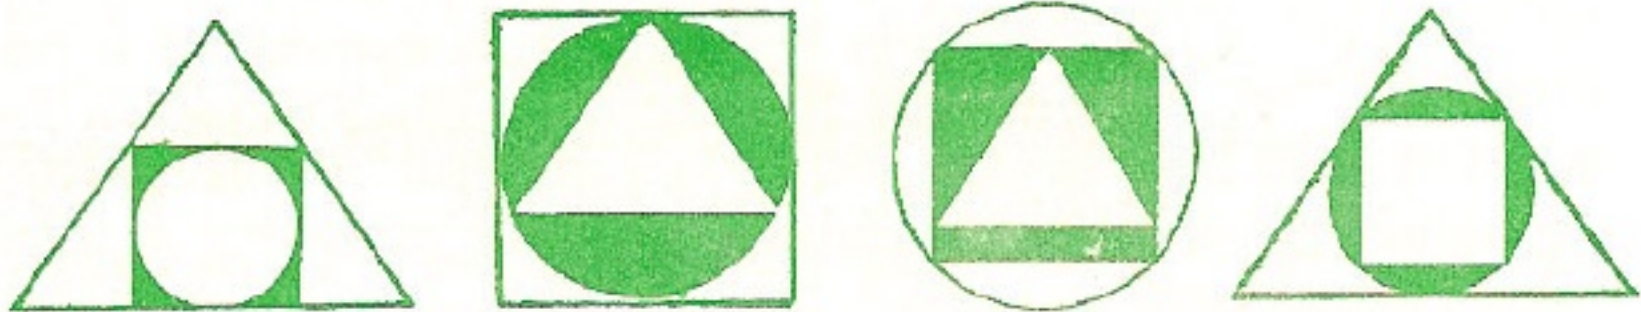

The six pointed star represents the heavenly abode and the physical world coming together as one: As above so below.

7.

Huwa is Arabic, which means "He Who Is."

### The Sign of the Kosmos

As you progress with the secret teachings of the Sons of the Green Light, you will encounter many symbols. These

symbols are significant stepping stones and bridges of understanding to the Sons of the Green Light. One of these symbols is the sign of the **Kosmos**, a sign of the orderly, and harmonious system of the universe. It is formed by the square, the circle and the triangle.

The sign of the **Kosmos** is one of the symbols of the Sons of the Green Light, rich in meaning, and revealed in depth to its members. It is important that you understand these symbols so that you may understand the significance of the Universal Order of Love and what it offers to you, the Seeker.

In the Universal Order of Love, you will also be exposed to many signs and grips so that you may know each other in the dark or in the light.

### What The Order Offers Its Devotees

1. I will reveal and interpret eternal truths which you will be able to put into practice every day of your life.
2. I will teach you how to use the power of the mind so that you can heal illnesses and once again attune yourself to the harmony of the **Kosmos**.
3. I will teach you how to develop your inner senses rather than your physical senses - for it is the inner senses that will put you in tune with the spiritual world.
4. I will teach you the language of ancient Arabic for **The Dhikr Ceremonies, MANTRAS**, (chanting ceremonies)

behave like a member of the human species, otherwise I would either be negated, neglected, feared, avoided and my life would be in danger as was the incarnation of the water era, the **Avatar**, Jesus the Messiah.

An incarnation is a **kosmic visitor** who descends to earth by the glory of the Omnipotent. Many masters have attempted to come down to this earth plane to communicate and they are classified as U.F.O.'s. By a study of this planet over a long period of time, the masters have come to realize that man has stepped above the reality that he is an animal, and that he has the potential to take life without reason or cause. Therefore, the masters are very cautious when and how they incarnate into the planet earth.

**People of the West, you have a unique privilege. It is an honour to have a chance to attune yourself to the Kosmic, The Universal All.**

## Who Am I Unto You

1. I am a Master sent to guide you back to the pure light and shall only be known unto you as **القُطْبُ Al Qutb.**

This Order Was Conceived With One Thought In Mind... You And Your Spiritual Upliftment.

### Silsilah

Every sufi order is linked to a **Silsilah**, which links it to the original spark since the beginning of time. I being **Al Qutb** am here to guide you back to your line. I descend from **The Loins of Ali**, the patriarch of *Islaamic Mysticism*, who descended from the Prophet Muhammad, who is a descendant of all the other Prophets. The light of the **Sufi** comes from the original spark of creation called "**Adh-Dhaat**". I, in turn, now link you to it; those of you who are aspiring to become **Sons of the Green Light**, and reside in the original truth. We are **Al Mukhlasiyya**, who are of the Prophet Muhammad, who is a descendant of the Essenes, who are the sons of **Al Awwaliyna**, children of the men of renown. This is my **Silsilah**. This is my descendancy line. I am the keeper of the sacred seal called **Kitaabu'l Hikma**.

2. I am also called an **Avatar**. The incarnation of the spirit of Truth, a high priest after the Order of Melchizedek.

All **Avatars** are of three (3) parts: I am the third of my incarnation. The first being **Muhammad** who foretold of the coming of the second **Avatar Al Mahdi**, who foretold of the third **Avatar: Myself**. The spirit of **Al Mahdi** guides my pen, and his spirit was guided by the **Prophet Muhammad**.

3. I shall perform signs such as the materialization of sacred ash called: الرَّمَادُ الْمُقَدَّسُ  
**AR RAMAADU AL MUQADDASU**, also known as **VIBHUTI** in Hindu for the sign of the control of the second world (the first being the Creator, the second Nature and the third All Tissue Life).
4. I have the power to heal.
5. I possess the sixteen (16) principles of the master or **Avatar**; CONTROL OF:

1. Seeing 2. Hearing 3. Tasting 4. Smelling  
5. Feeling

1. Eating 2. Speech 3. Motion 4. Emission  
5. Reproduction

1. Earth 2. Water 3. Air 4. Fire 5. Ether

6. I possess the nine (9) principles of a Messiah and Warner: High Priest.

1. **Wisdom**
2. **Knowledge**
3. **Faith**
4. **Healing**
5. **Miracles**
6. **Prophecy**
7. **Discerning of Spirits**
8. **Diverse Kinds of Tongues**

7. **Righteousness**

For years the Master has been teaching of the light of this world in the placement of his creatures in time, and now the Master will teach the higher science of the higher world and the laws of "ITS" time.

## Practices For A Sufi To Live By!

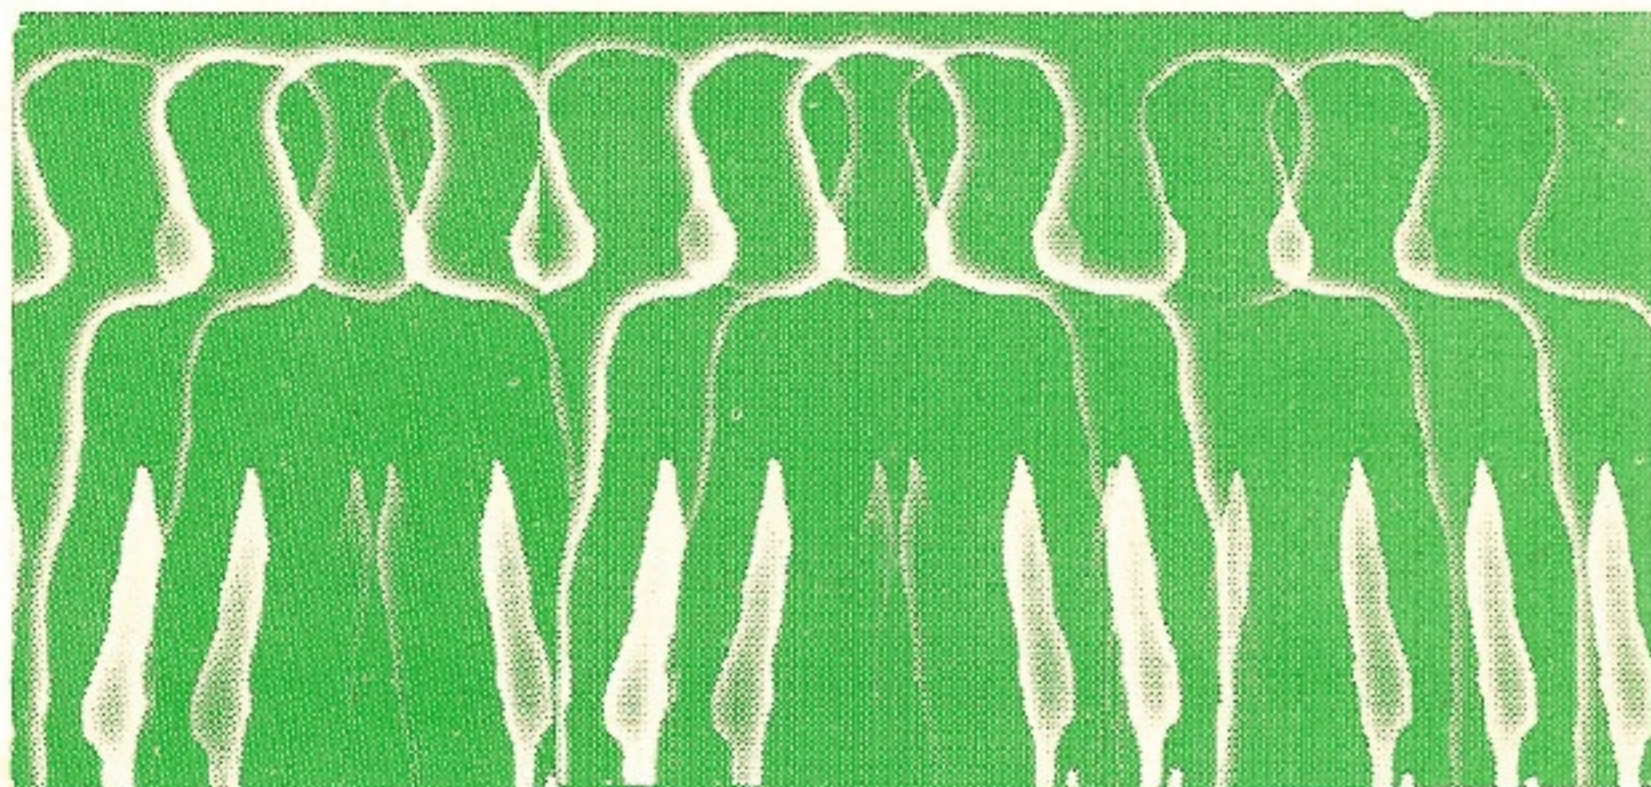

I will not enter into detailed explanation concerning the following practices for they will all be covered in future pamphlets:

1. **You should practice Concentration.**
2. **You should practice Meditation.**
3. **You should practice Praying.**
4. **You should practice Fasting.**
5. **You should practice Exercise.**
6. **You should practice Self Healing.**
7. **You should practice Cheerfulness.**
8. **You should practice Patience.**
9. **You should devote your time to spiritual progression.**
10. **You should practice "UNSELFISHNESS" –(Spiritual knowledge can only begin when all sense of self ceases.)**
11. **You should practice Kindness.**

12. You should rid yourself of feelings such as envy and jealousy which stifle inner growth.
13. You should always be temperate, energetic, modest and silent when need be.
- A. In **silence** will you learn - acknowledging that you are a babe who knows nothing of the spiritual realm - accepting instruction.
- B. **Energetic** - without the energy to overthrow the negative forces which surround you, very little can sometimes be accomplished.
- C. **Modest** - Modesty creates humility and humility creates submission.
- D. **Temperate** - You should always try to be reasonable never overindulging.

## Principles For A Sufi To Live By!

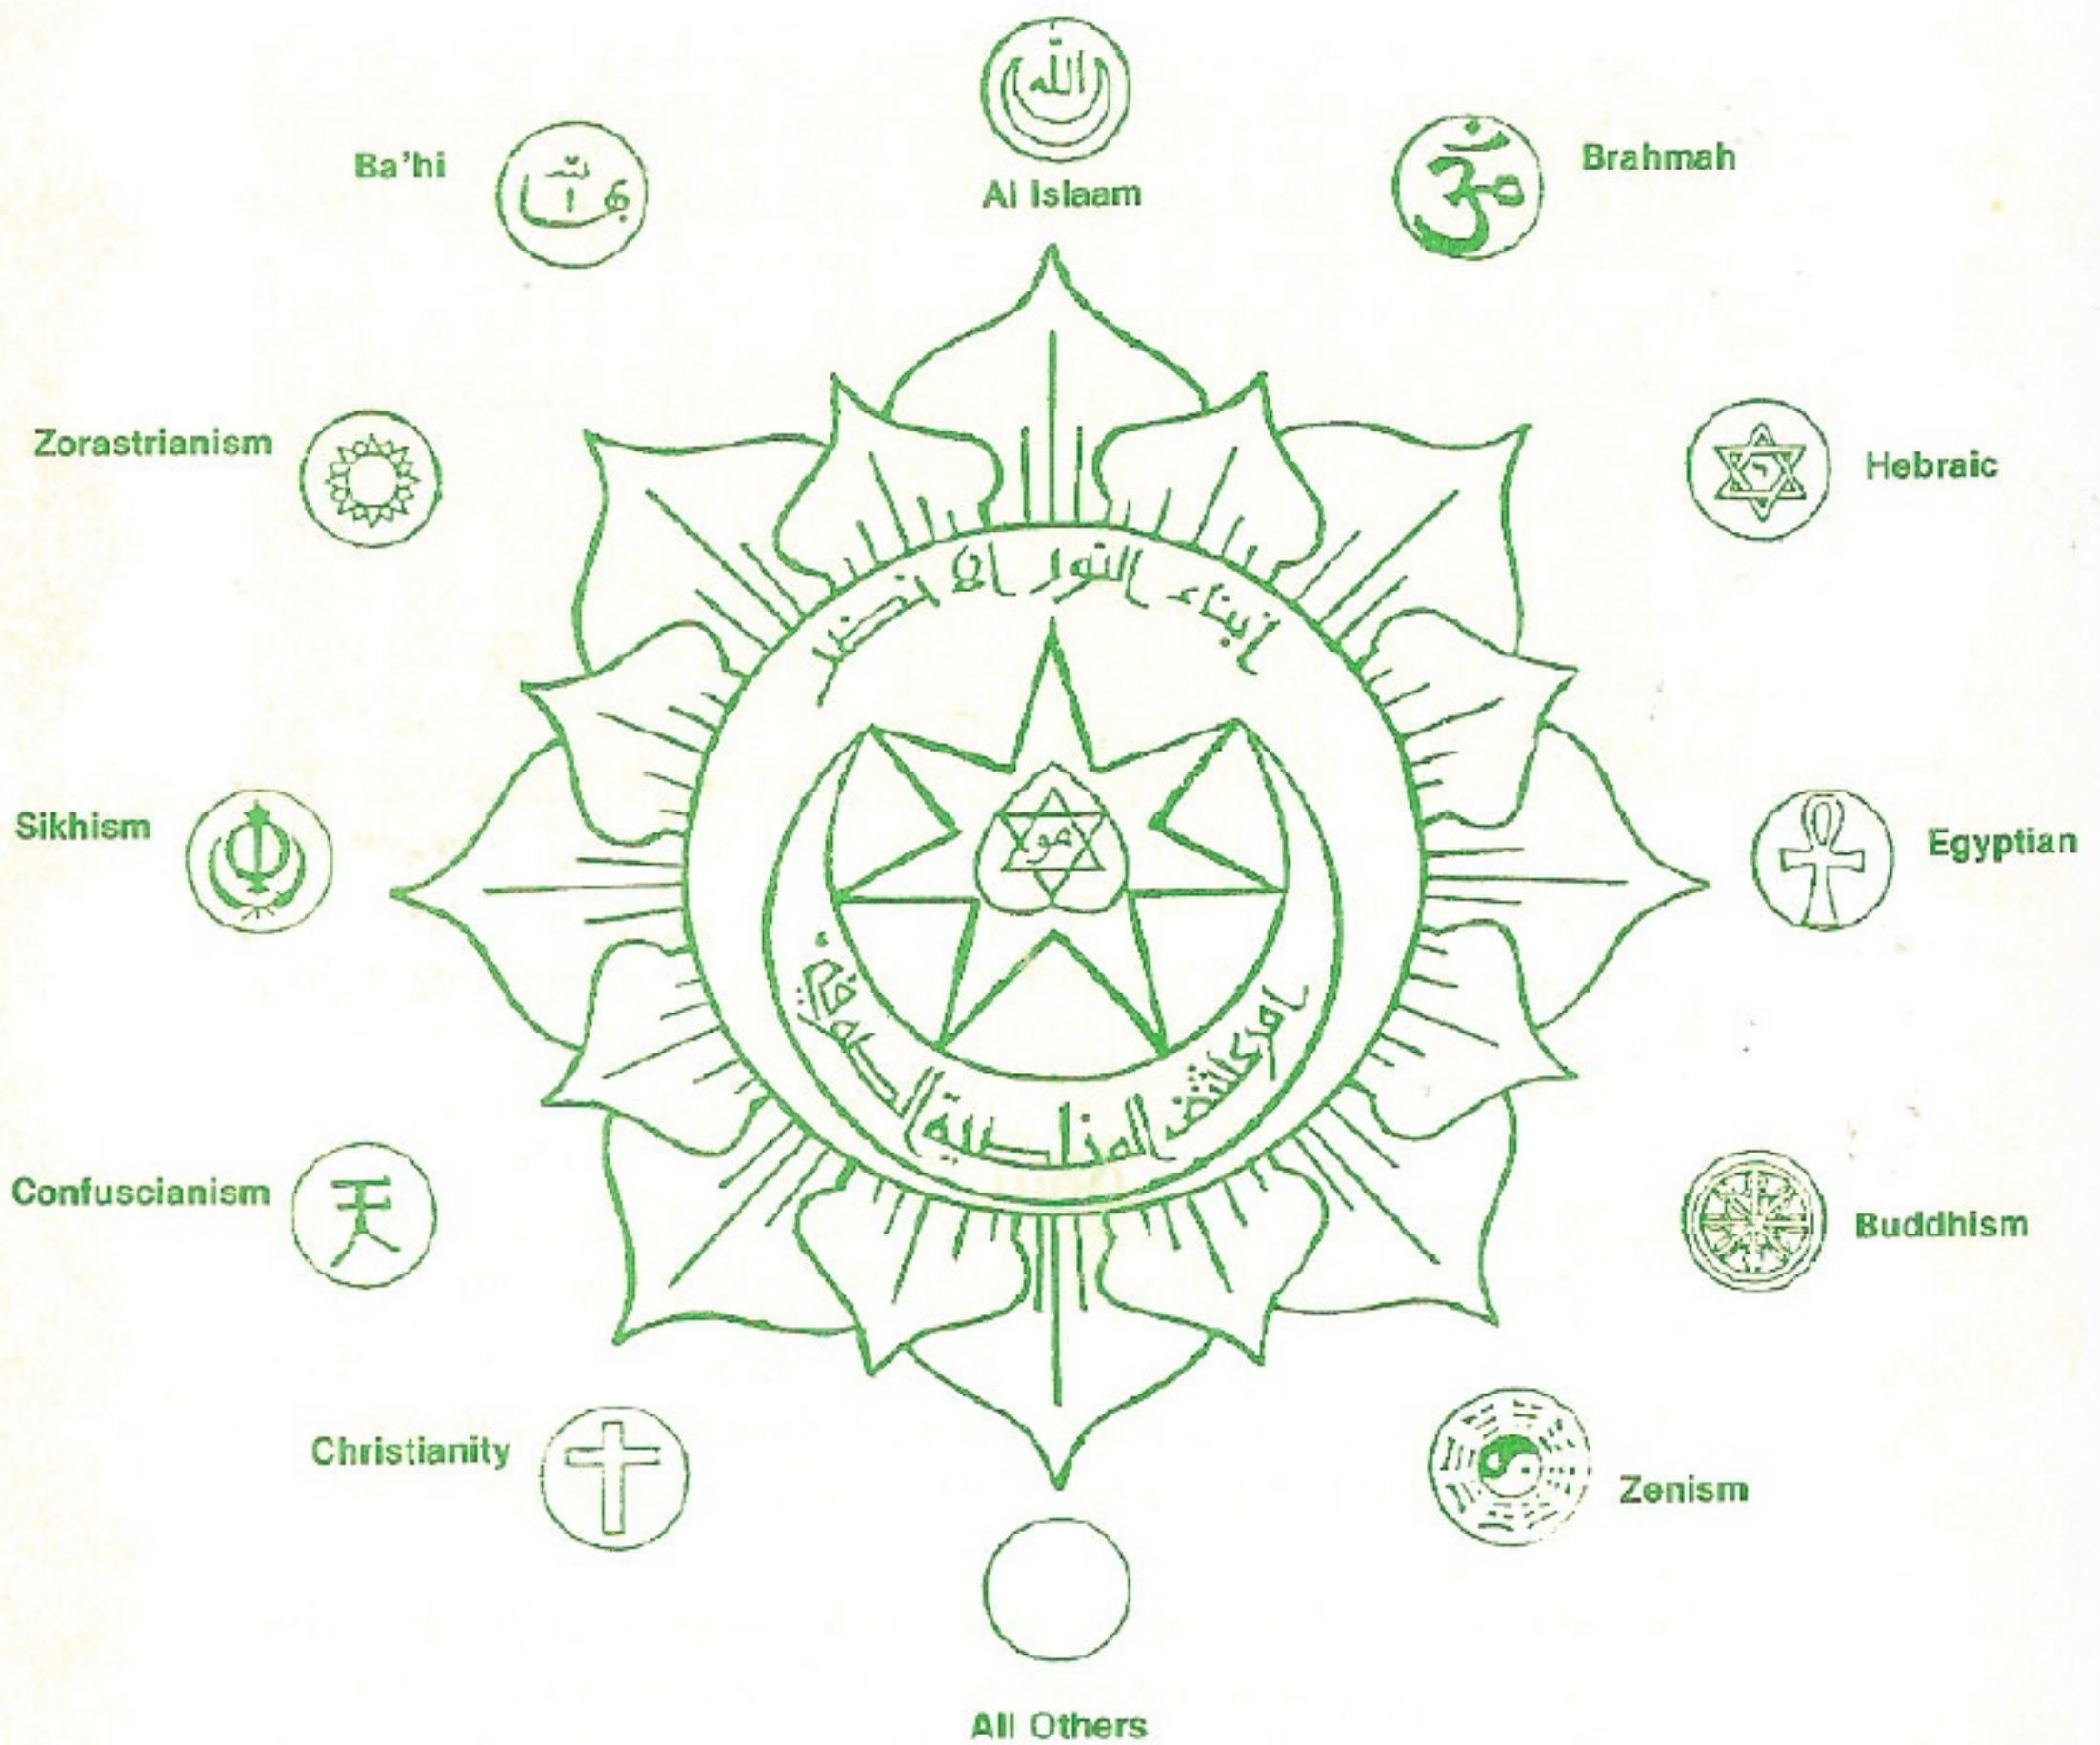

1. We affirm that in the **Universal Order of Love** there is no gender. Male and female are looked upon as equal as far as the spirit is concerned.
2. We affirm that you are essentially a spiritual being endowed with many special qualities.
3. We affirm that man is able to attain knowledge of the spiritual abode, while yet in human form.
4. We affirm that your present life experiences are giving you the opportunity to awaken the powers that you once had, and that you will learn how to use them again.

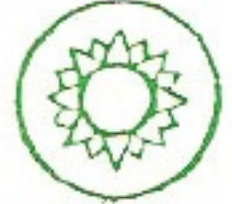

5. We affirm that the teachings of the ancients contain great truths that must be interpreted so that they can benefit man today.
6. We affirm that all spiritual truths must be in harmony with science and that the laws of the universe are as sound when applied to spiritual as well as material matters.
7. We affirm that this is the beginning of the era of air, ether, mind and energy. The era of the psychic. The time when the latent powers of flesh, bone, and mind manifest and the greater mysteries of supernatural forces will no longer be looked upon as "SUPER-NATURAL".
8. We affirm that this planet is inherited by mortals and immortals so tightly knitted, that only the select few can decipher: Masters, etc.
9. We affirm that by submission and practice any mortal can transform himself to immortal.
10. We affirm that there is no real death except for the mortals of which you were not originally one.
11. We affirm that evil as well as good can occupy the same time because they vibrate at different moods.
12. We affirm that all religions are good dogmas but that man corrupted the essence of these dogmas by incorporating their "own" opinions. What is the essence of these dogmas? That the only real truth is change and that the "total" truth is one.

And The Religions of This World

أن تختلفوا حول الملة علامة على  
أن لا احد منكم ذوملة .

**“To Dispute Over Religion Is A Sign That None  
Of You Are.”**

By The Hand Of القطب : The Spiritual Guide

Quite often people feel confined by their religion. They are not able to spread their wings and expand their chest because of the limits or binds that religion places upon them and many have even become overtaken by despair. **The Sons of the Green Light** tries to help its members alleviate this sense of hopelessness merely by untangling the intricate secrets buried within religion.

## What Is Religion?

Many people feel that religion is a belief in one or more deities or in a supernatural and supreme being. However, this does not encompass all religions because some religions are a way of living rather than a way of believing. Nevertheless, the eleven major religions and the thousands of minor religions in the world today, all condemn dishonesty. All of them encourage the practice of good works.

## Man Needs Spiritual Guidance

Throughout time, man has not been without the need of spiritual guidance. Regardless of where he stood, northwardly, southwardly, eastwardly, or westwardly, as he turned towards the heavens, he witnessed the same sun, moon and stars and received the same emanating light and knowledge from the masters. Even though their tongue differed, this need was universal. These masters became known as "The Elders" in one land and as "Hierophants" in another. What became known as "the Absolute Power" in one country, became "Mana" in another. This sacred guidance was inscribed in the hearts of men who interpreted it by their tongues with their pens. Thus were written man's sacred texts containing the teachings of the masters: Torah, Bhagavadgita, Upanisads, Tao Te Ching, Zend Avesta, Gospel, and Qur'aan. Whatever the language, wherever the land, these stories were reiterated and embraced in their lives.

It is only if you step beyond man's ego, his opinions and his religious dogma, that you will clearly see that all religions depict the same things esoterically, "**The Oneness of The Omnipotent Creator.**"

### **Judaism**

I am the Lord Thy God. (Torah)

### **Hinduism**

**Christianity**

## The Sons of the Green Light's Temple of Knowledge

### WELCOME DEVOTEE,

You have now taken the first step toward becoming one with your “**real**” self. Your questioning mind and the desire within you to reach out to the unknown has led you to the **Universal Order of Love**, and I want to welcome you with open arms and guide you to that wisdom which will allow you to delight in the mysteries of life.

There are various principles and practices of the *Order* that I wish to bring to your attention for I realize that your membership will mean more to you if you are aware of what this *Order* has to offer, but before I present these principles and practices, I wish to express that as a

## Essential Meanings Were Lost Through Interpretation And Translation

As the religious stories were interpreted and translated into different languages, the essential meanings were lost. Instead of projecting thoughts of beings who came to humans with a message of enlightenment and warning, the stories were written centered on the receivers of the messages and their lives.

Why? Because as mortals you relate to what is most easily understood...which are the physical things. You concentrate on whether the **Messiah** was physically violent, or whether **Muhammad** had many wives or whether the **Avatar Shri Sai Baba of Shirdi** performed miracles, or whether **Buddah** was rich. You never really glorify the master's work and its meaning, but rather glorify the master.

### The Universal Order of Love

We are called the Universal Order of Love because we want to express to you that knowing is one thing and faith is another.

We are a Universal Order of Sufiyya concerned with spreading divine love across the world. We want to untangle the confusion that has existed for so many years so that you may understand that knowing is one thing and faith is another.

الايمان سئ والمعرفة شئ اخر قد يكون عندك  
إيمان فى عربتك لكنك لا تعرف أن الاطار  
محلول .

**“Faith Is One Thing Knowing Is Another. You May Have  
Faith In Your Cart, But Not Know The Wheel Is Loose.”**

By The Hand Of القطب The Spiritual Guide

I come to make you understand, and at the same time to give you true faith. As mortals, you have a tendency to forget the morals of the stories preferring the physical interpretations and not the spiritual essence. If you are willing and able to perceive these things, then and only then will your eyes begin to open and see what was before difficult. This is what separates the religious people from the spiritual people and the knowledgeable from the seekers who realize that in all they know, they know nothing at all. Thus, we, the **Sons of the Green Light** extend our arms to you.

## The Science Of Healing

ليس هناك مرض فى هذه الدنيا له صلة بالعالم  
العلوى وليس له علاج .

**There Is No Sickness In This World, That Contact  
With The Higher World Can't Cure.**

By The hand Of القطب The Spiritual Guide

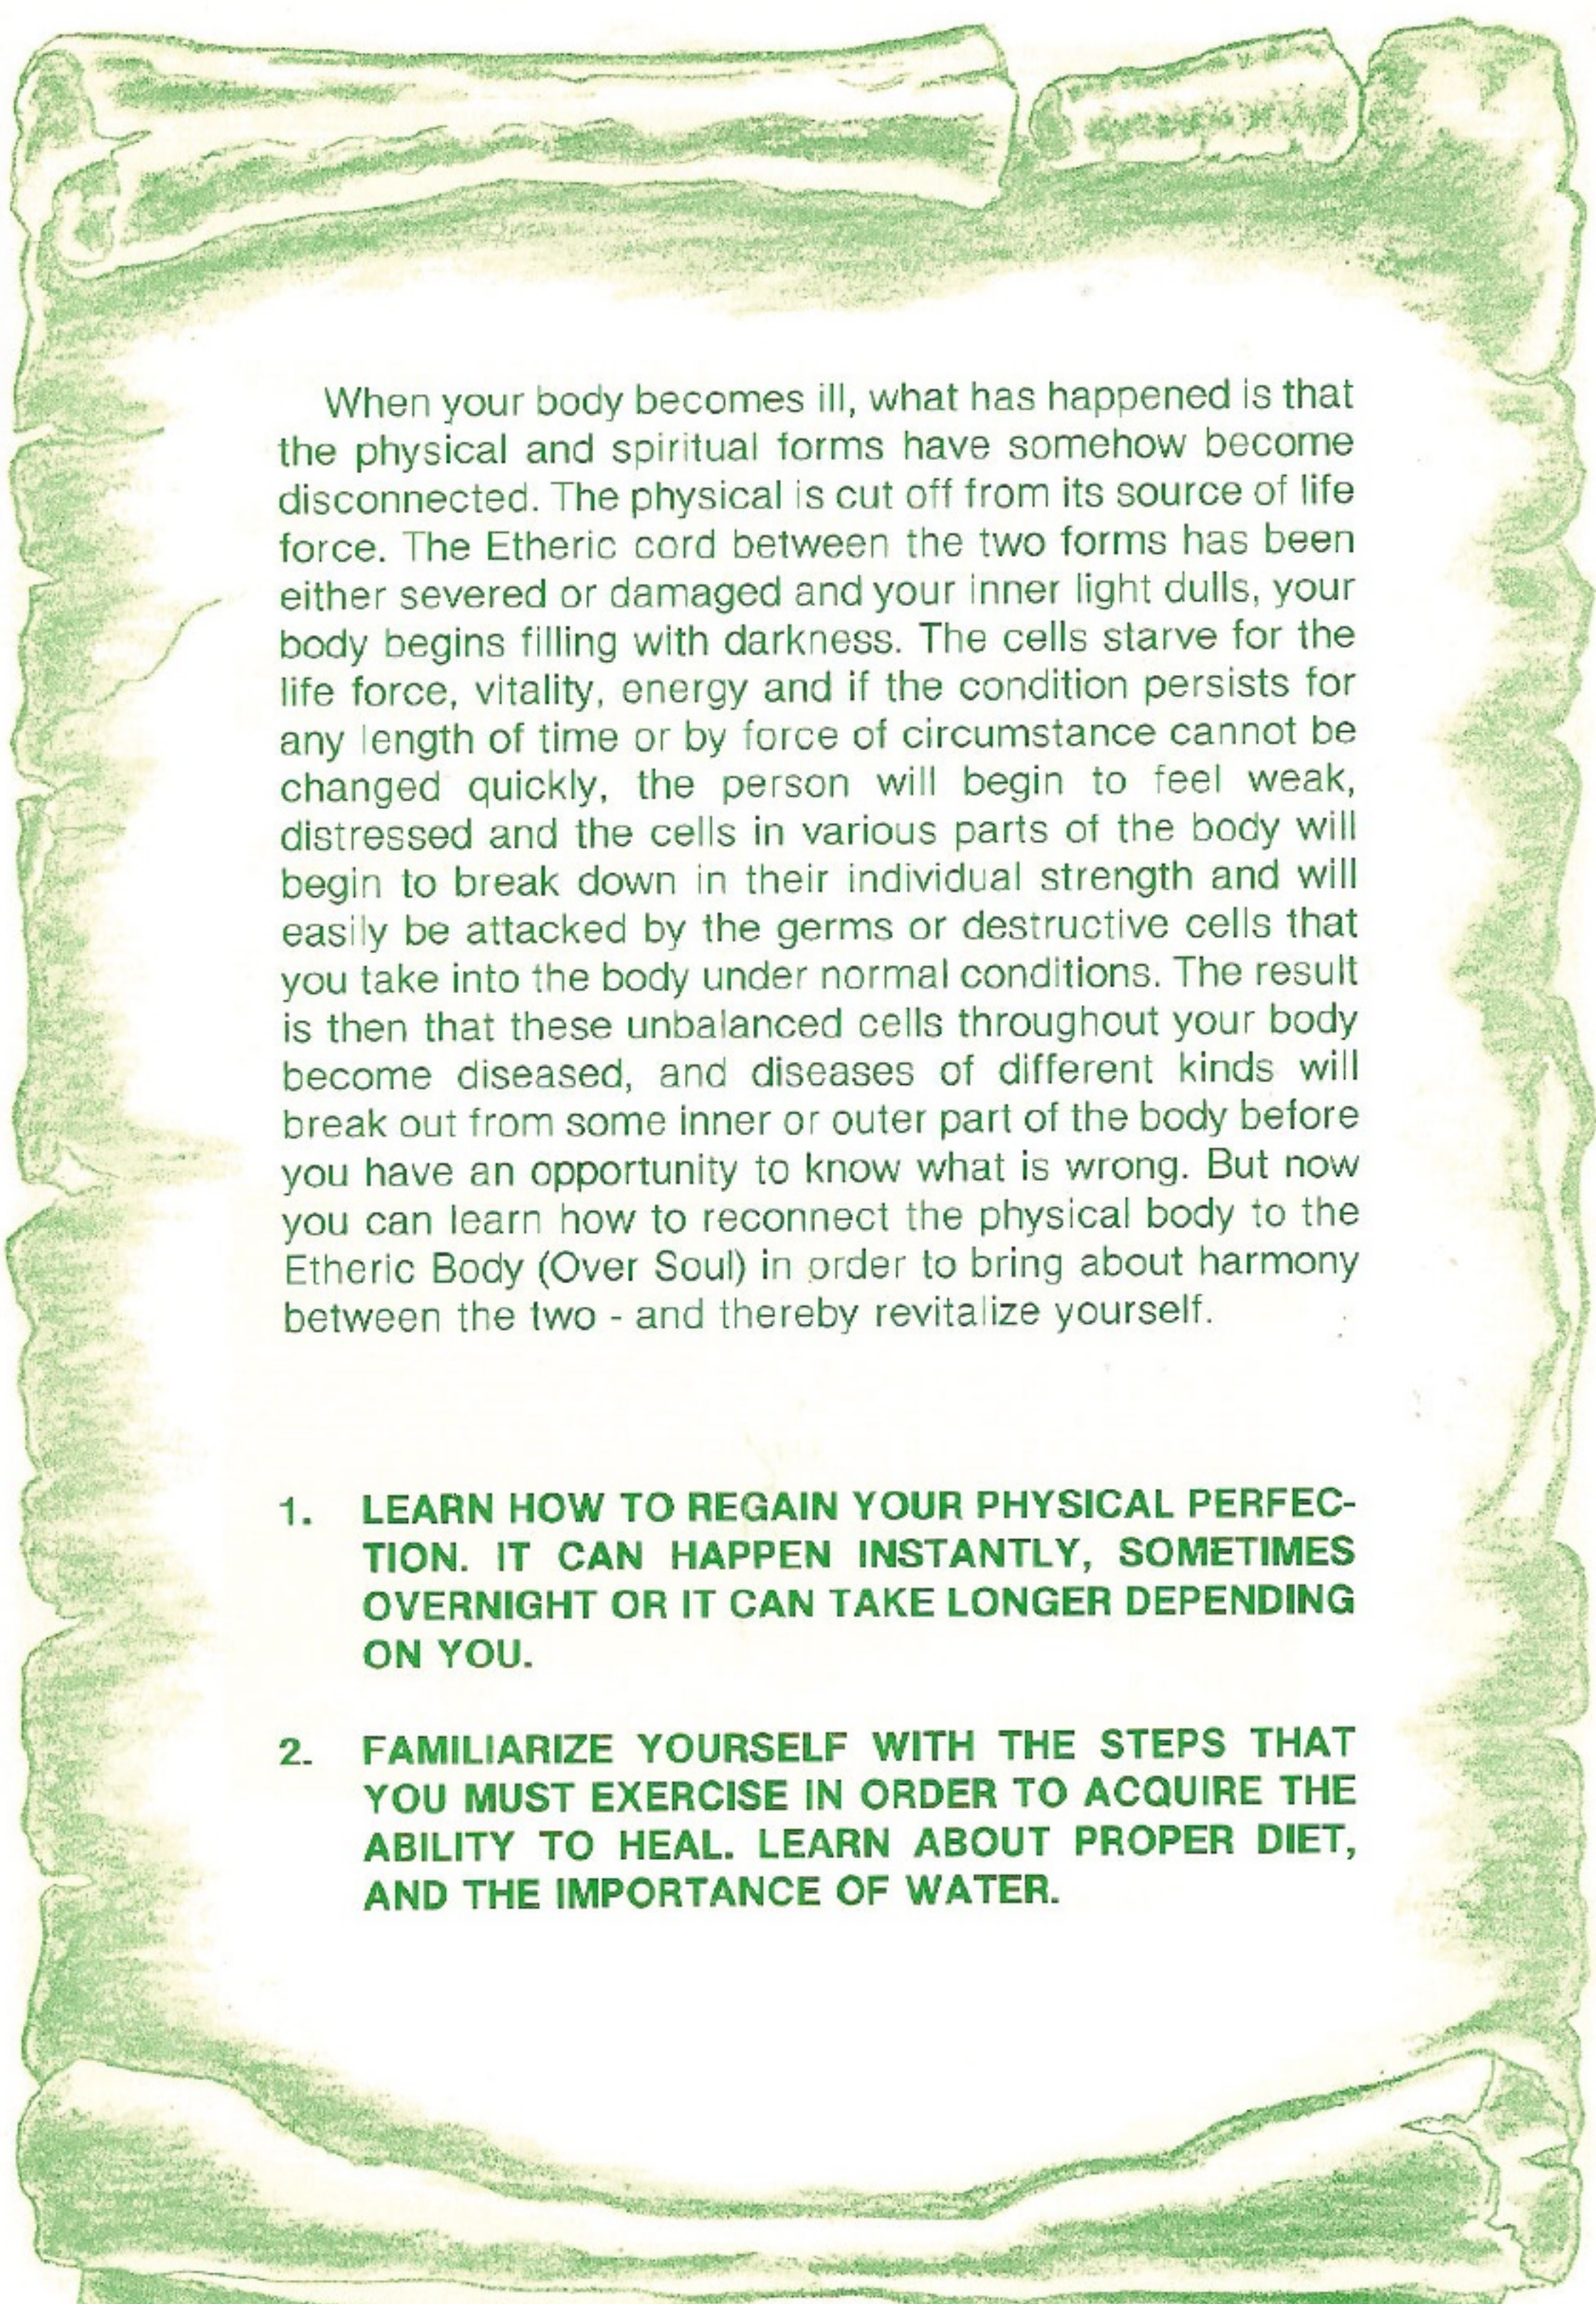

As an esteemed member of this Order, you will learn that the Science of Healing is a divine practice of the Elders and an art that you can learn if you are spiritually disciplined.

You will learn that the first step in awakening your dormant powers of healing is to believe. You must believe in what you are doing so that positive spiritual energies can flow through you; thereby revitalizing your physical body with new life.

As you journey with me through these corridors of understanding, you will learn that the body you wear is composed of seven degrees of substance. These seven degrees vary in vibration.

You will learn that the spiritual body possesses force centers for absorbing and digesting spiritual forces just as the physical form possesses organs to absorb and digest food. These vital forces you will come to know as the Seats of Light (chakras).

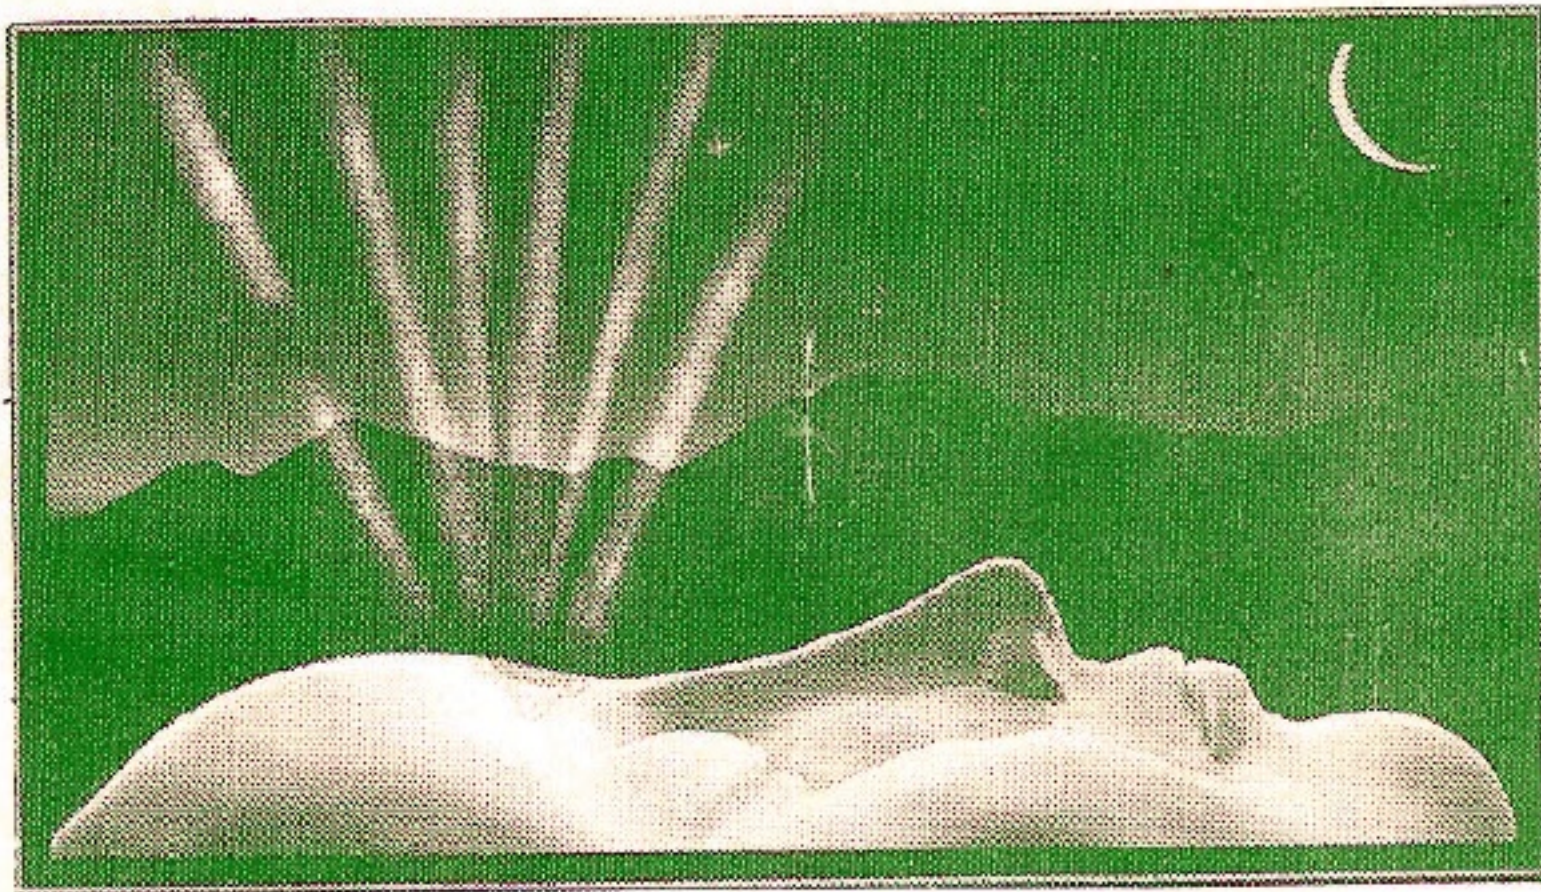

When your body becomes ill, what has happened is that the physical and spiritual forms have somehow become disconnected. The physical is cut off from its source of life force. The Etheric cord between the two forms has been either severed or damaged and your inner light dulls, your body begins filling with darkness. The cells starve for the life force, vitality, energy and if the condition persists for any length of time or by force of circumstance cannot be changed quickly, the person will begin to feel weak, distressed and the cells in various parts of the body will begin to break down in their individual strength and will easily be attacked by the germs or destructive cells that you take into the body under normal conditions. The result is then that these unbalanced cells throughout your body become diseased, and diseases of different kinds will break out from some inner or outer part of the body before you have an opportunity to know what is wrong. But now you can learn how to reconnect the physical body to the Etheric Body (Over Soul) in order to bring about harmony between the two - and thereby revitalize yourself.

Together we will create a **Universal Chain of Divine Love**, each member of the *Order* will be one of its links and each link will be as strong as the next.

### What Does The Name Of The Order Mean?

When translated directly from the Ancient Arabic, the name of this **Sufi Order** as it appears on our symbol (see pg. 3) is: **Sufi Order of the Love of the Pure Ones, Sons of the Green Light**. However, we are also known by the name "**Universal Order of Love**" and as such it is our duty to guide man toward the path of understanding so that he may rise above the afflictions that surround him daily.

## What Is A Sufi?

A Sufi is one who seeks to raise himself from a physical state to spiritual excellence; thereby becoming pure. His conduct towards the Omnipotent is sincere, he meditates on the divine and becomes totally devoted to the Source of All Life, therefore, you too must follow this example.

The word sufi means in Ancient Arabic **SOFF** صَفّ : rows or ranks, and implies that because you have sacrificed the evils of this world, you will be in the first ranks in the next. Sufi also means **SUWF** صوف , wool, and identifies with the cloak that you will wear in your personal shrine. This is the same type of cloak that the masters of old wore before you.

## A Sufi Lives To Express His Love For The Omnipotent

There are many forms of love. The love of one's earthly family, the love of friends, etc., each one varying in degrees. Likewise, with the Arabic words '**ISHQ** عشق , **HUBB** حُب , and **WUD** وُد . All three of these

words denote love, but one is a degree more powerful than the other. For example: the love that a sufi has for the Omnipotent is called **'ISHQ**.

**عشق** **'ISHQ** is divine love, excessive love, spiritual passion and complete devotion. A supreme fervent love. This divine love is much more powerful than the love that one has for all others.

**حُب** **HUBB** is affection for that which pleases and delights and **وَدَّ** **WUD** is used for friendship and affection only.

To encompass the meaning of **عشق** Divine Love, one must be willing to forsake oneself, body and spirit, and become one with the Omnipotent - the Soul Source from which divine love originates. A servant of love has no worries or cares, his sole concern is the Omnipotent. His pain, his remedy and his cure are the Omnipotent. All individualism is dissolved and all ego exhausted.

A true **sufi** seeks his Omnipotent Creator with unrelenting fervor, sincerity of heart and complete servitude. He has purged himself of his lowly desires and draws life-giving energy from the inexhaustible Source that maintains us all - the life force of energy that generates motion, activity and an illuminating light that sends energy in and throughout the **kosmos**, a divine connection. Love finds separation in union, and union in separation. Love makes us speak, love makes us moan. It brings life and it makes us pass on. Whichever direction love takes the lover of the Omnipotent, that is the direction he takes.

العشق يطهر كل شئ بلا حدود .

Any Limitations.**

## The Love of The Pure Ones

The Pure Ones mentioned in our name are those who have attained spiritual perfection and inner bliss. They obtained this inner bliss by way of the light: **The Pure Green Light**, which is a healing force. Not just a healing force of diseases that affect the body, but a healing force of the state of mind as well.

As the **Sons of the Green Light**, we recognize that **The Green Light** is a symbol of spiritual hope; a beacon of rays extending out to all. Therefore, we welcome you to come, see, experience and feel this light. This great force which operates under the direction of the subconscious mind is available to all. When properly directed, it sustains the perfection of every physical form and heals every disease known to humankind. It is **The Green Light of Al Khidr**, who is known to many as **Melchizedek**, after the Order of the Most High. This light emanates from **Melchizedek** only by the will of the Source. As sons of the Source, you are beings looking up, not beings looking down. You are standing on earth with your hands extended upwards towards your Father and declaring that your original home is the **Kosmos**. You, therefore, no longer seek to be associated or attached to the things of the earth. You desire to associate yourself directly with the Supreme that resides

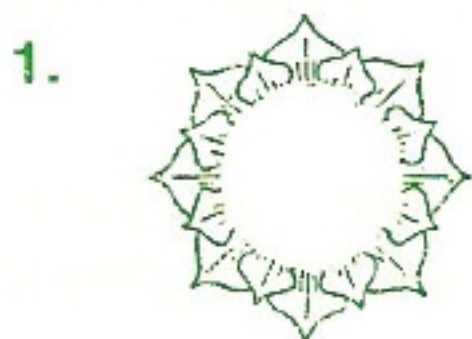

in you, and with **The Green Light** which is the link between mortality and immortality. There are many stepping stones; great writers and great **sufis** have left you the little keys that open the great doors into the **Kosmos**. It is up to you, whether you take them or not.

In summary, **The Universal Order of Love - Sons of the Green Light** is a *sufi order* spiritually inspired to disseminate Truth and guide humankind to the exalted path of those who desire to merge with the Supreme Force. As members of this Order, you should seek to raise from a physical state to a state of spiritual excellence; thereby becoming pure, a *sufi*, guided by **The Green Light**; that great purifying force, that has brightened the path for many.

## The Seal of the Universal Order of Love

The symbol of the Universal Order of Love - Sufi Order of the Sons of the Green Light consists of seven parts, each one of these parts including the secret number 7 will be explained to you in detail in degrees that follow. For now however, we will tell you briefly what each symbol represents.

This is the lotus plant. The lotus plant represents the rebirth of an **Avatar**. The 16 petals that the lotus has are the 16 principles of an **Avatar**. The lotus looks like the sun. The sun is the center of the solar system and it represents the master or **Al Qutb**, for he too is the center of the Sufi Circle of Dhikr.

The circle represents 360° (degrees) of knowledge or the pamphlets that you will receive as a member of the Order.

The crescent is symbolic of growth and expansion. A symbol of a new era of time; a coming forth.

The seven pointed star represents the green light of the **kosmos** and the seven principles that an **Avatar** possesses.

and **WAZAFAT**, are performed in Arabic. Understand, however, that you are under no obligation to attend these ceremonies if that is your wish.

5. For the enlightenment of your spirit, and for the advancement of your soul, I will provide you with a method of study and a series of pamphlets containing inspiring information that you will not be able to find in any university or institution. I will offer studies in **Psychometry, Telepathy, Clear Audience, Clairvoyance, Metaphysics, Mysticism, Spiritual Healing, Reincarnation or Karma, Science or Meditation, Concentration, The Human Aura, Exercises to help you develop your Third Eye, and much more.** All of this illuminating information will be made available to you by way of:

### Printed Degrees And Tapes

1. The highly informative pamphlets that you will receive gradually, are sacred documents upon which you must vow silence. They are the property of this **Sufi Order** and are merely loaned to you for your personal study and development. The study of these pamphlets is a spiritual endeavor to be exercised in the comfort of your own home. If any of these teachings do not appeal to you, you are not required to accept them. Each member of the order will be instructed in how to study the degrees. You will be taught the particular day and time in which all **Sons of the Green Light** study and you will learn how to fast and meditate in preparation for your studies, for fasting creates spiritual discipline and meditation helps to revitalize the self.

You should always study your degrees on time. Never allow them to accumulate with the intention of reading them later for you may not get the chance to do so. Be consistent in your studies in order to gain knowledge, wisdom and understanding. From time to time you may want to reread your degrees for you may see something during the second reading that you failed to see during the first.

The information within these pamphlets as well as the sacred signs, grips and words that you will learn are never to be shared with anyone who is not a **Son of the Green Light**, therefore, we strongly suggest that you keep these pamphlets away from the reach of others, under lock and key.

### Companion Membership

If you wish to share your degrees with your husband or wife, you may do so provided that the person with whom you share your degrees is himself or herself a card holding member of the Universal Order of Love. If you enter into a companion membership, the other party must submit an application and pay the membership dues. But only one fee for books will be necessary because you should share the same address. You will receive one set of degrees that you will be able to study between the two of you, but you will separately be entitled to the privileges of the Order.

### Group Studies

If you wish to form group studies, and eventually form your own small lodge, you may do so with written sanction

and certification granted by the Great Lodge as long as everyone in the lodge is a card holding member of the Order.

## Conventions And Lodge Meetings

2. When attending conventions you must be able to determine what chamber a person is on in order to discuss the order and its secrets with him. This is done by way of the Sufi Jacket that the members of this Order wear.

Each member of the Order will have a sufi jacket of a certain color which will let you know what chamber he or she is on. The Universal Order of Love has 360 degrees of spiritual knowledge. These 360 pamphlets are divided into 3 (three) categories. It is essential that you know the chamber on which a person is, so that you will know what you can and cannot discuss with him or her. A second chamber member can socialize with a person on the second and first chamber, but he must not reveal any of the secrets of the second chamber. Likewise, a person on the third chamber can socialize with people on the first, second and third chambers being careful not to reveal the secrets of the third chambers to the members of the second or the first chambers. A person on the first chamber cannot ascend to the second or third chamber until he or she reaches that height.

## Diplomas

When you complete the studies of each realm, you will receive a beautifully inscribed diploma, which states that you are a brother of that particular chamber.

## Initiations

You will undergo various initiations. Some initiations you will take in the privacy of your home and others will be given to you at the temple of the Universal Order of Love. Upon entering the Order, the first initiation that you must take is a Self Initiation. This initiation will put you at the threshold of the first chamber, the realm of man.

### What Is A Master Or Avatar?

Masters are called many things: Infinite Love, Wisdom and Power or the Spirit Made Flesh. A master (مولی)

**MAWLA**) is a spiritual guide ( **MURSHID** مرشد), a High Priest who appears with the light that he may show you the path whose destination is the Omnipotent. One is thankful and grateful to the master, but it is the Omnipotent that one worships for only by His grace can the master remove the curtain of darkness that lies before each being.

The word **Avatar** (is a Hindu word, and it is much easier to use than the Arabic **ILAH MUTAJASSID** اله متجسد, so I have chosen to use it for now). An **Avatar** is an "extraordinary" being. He is the miraculous embodiment of the divine in human form, an incarnation for the welfare of all humans. **Avatars** come in succession, one spirit incarnates into a person who then incarnates into another person and so on. It is when a person is born that the **Avatar** incarnates into him. As the person grows and matures, the spirit within him dominates his body, unless the person suppresses it and does not allow it to manifest.

Do not confuse an **Avatar** with a heavenly host. A heavenly host does not come down as an **Avatar** to inhabit someone's body and function like man, he comes down as a heavenly host in the form of a man. He walks and talks like a man on earth but he still is a heavenly host, like the Master Melchizedek who is a heavenly host that appears in the form of man when necessary.

Although an **Avatar** acts and moves like a human, when one looks into his eyes, one can clearly see that he is not a mere mortal for he embodies complete mastery of the transcending of the physical world, including the ability to materialize objects at will. He also possesses the ability to manifest a flow of pure and inexhaustible love, a special grace which transcends all conditions of karma, fate, call-

ed in the Arabic language **قدر QADAR** and he has clear consciousness of the past, present and the future. He is a high priest after the Order of Melchizedek.

Like a human being, he too has likes and dislikes, he experiences anger, pain and wants comfort, but he has overcome certain principles that most people cannot overcome. **Avatars** come to earth when man begins to lean toward corruption and the negative Qadar or karma of the earth begins to dominate. The earth goes through cycles every 2,075 years and now we are passing from the era of water and moving into the era of air. Men who once believed in water religions (the physical aspect of religions) shall now understand the spiritual aspects of religions, which is why I am here.

### I Am The Shadow Of The Father

I, the **Avatar** of the west, have been chosen to be a temple of the incarnated divinity, it is not my body I speak of that is divine, it is my soul; thus I come forth. Why have I come? I have come because the righteous, pious and good souls of this world have cried out for assistance and had I not answered, you would have been greatly pained. Although my physical appearance may be deceiving, I come giving you what you want so that you will want what I have to give.

Incarnations bring the power to heal and many times to restore the actual dead back to life. I have come in human form and move about amongst men so that I may be heard and loved and obeyed. I speak the language of men and
