EUROPEAN MISSION
II. Decrees and Actions (Part One)

I M P O R T A N T T A P E S

MAM #84

This broadcast explains some of the causes, the symptoms, and suggestions for handling, of the new energies and the light-body anchoring now being stepped up for rending the fourth phase of the seventh veil and for implantation of the I Am Nation and the entire Second Coming program.

Many who participated in this weekly MAM broadcast during the week of August 3, 1975 stated it to be the most important one to date. MAM #84B, the other side, has Yolanda explaining the pain and the pleasure involved in these increases of light energies.

\$5 for C-30 cassette

MAM #85 & #86

Actual vocal recordings of the communications by Sananda through Yolanda during the European Mission. Volume II of *MAIN* for September 1975 contains those on #85. Volume III for October contains those on #86.

Sananda specified before the tour that he would implant certain energies and decrees via the spoken word and our physical force fields while in Europe, and that they were to be contained on the European Mission tapes. Hearing them, you receive a much greater impact than just reading them. Now you can do both.

*\$10 for special bonus of 2 C-60 cassettes
(2 hours of communications)*

EUROPEAN MISSION TAPE

Sights & Sounds & Events of the European Mission contains on-the-spot recordings of many of the locales visited. It was one of the most enjoyable tapes we ever made. We guarantee you will enjoy it. It has some really enjoyable and spiritual surprises.

\$6 for C-90 cassette

COVER: *Westminster Abbey in London, England is not only a beautiful architectural structure but an important focal point of spiritual energy. Yolanda discerned the power center in the abbey to be the altar where kings and queens of England have been coronated and many of them have been married. Sananda requested Mark and Yolanda to implant certain of his vibrations there. He communicated a message through Yolanda when they were there on May 12, 1975. See pages 20-21.*

EUROPEAN MISSION

II. Decrees and Actions (Part One)

APRIL 30—MAY 31, 1975
NEW YORK TO PARIS

INTRODUCTION

The European Mission of 1975—a trinity action by Sananda, Nada-Yolanda and El Morya-Mark—was one of the most important works to date for the Second Coming program of the Hierarchal Board. It was completed in exactly eight weeks, from Wednesday, April 30th to Wednesday, June 25th. There were no problems or apparent dangers of any kind on the physical plane.

Although it was a most enjoyable and valuable experience for Yolanda and me, Mark, and much could be written about it from that aspect, the real purpose was for a spiritual implantation by Sananda for the I Am Nation. Therefore, this is not so much a personal account of the mission as it is a report on the projections and the proclamations of Sananda, acting in his capacity as Prince and way shower for planet Earth.

The commentary which follows gives our own experiences and observations only briefly, concentrating instead on the continuous and important developments, plus our own understandings of what was occurring. But we did not perceive or receive anything more than a tiny part of the spiritual purposes, activities and developments of the mission; and do not expect such. That is not necessary for us, or anyone else, in any requested spiritual mission for the Hierarchal Board, on the Earth plane.

The trip was of three parts: our independent travels from April 30th until May 13th, when we joined a Globus package tour; the time on the escorted tour until Paris, June 1st; and our independent travels from June 1st to our return to Miami on June 25th. We were in Europe exactly seven weeks, arriving there on Wednesday, May 7th, a seven day, and back in Miami on another seven day.

Wednesday is the highlight of each week in Miami, for on that evening we hold our hierarchal meeting for staff members only. Wednesdays were important during the European Mission also, for on each Wednesday we were in one or two national capitals. At such times there was a special linking between Sananda in his master ship #10 and us in Europe and the staff here in Miami.

Also of great importance were the linkings between these three focal points and those who were participating by their thoughts and visualizations via the MAM (Mark-Age Meditations) network and others of the Mark-Age Family of light workers. Thank you, one and all, for this important and necessary aid.

April 30. NEW YORK CITY

The European Mission began to be a reality with our jet flight from Miami to New York City. It was my first plane trip, but only one of five on the mission, all of which we thoroughly enjoyed. On our way from the airport we flew low over MetaCenter and were able to see it clearly, a view we will remember. The flight to New York took only two and one-half hours.

Staying in a hotel in downtown New York, we spent that afternoon and evening looking over the city and taking in a play. Sananda checked in at 6:00 PM to say: *So far so good. I expect important and big developments from this area.*

May 1. NEW YORK CITY

Sananda and Zorrah contacted Yolanda at 2:00 PM, making adjustments. This was necessitated by the psychic disturbances resulting from the crowds of people. It is difficult to maintain spiritual balance and to make necessary projections at times in such an atmosphere.

That evening at 8:00 we boarded the ship Queen Elizabeth 2 for our leisurely semi-vacation voyage to England. Sailing at 9:00 PM, we enjoyed the night view of New York. Sananda and Zorrah made mental contact with Yolanda at 11:00, but gave no message.

We were to learn later, while in Paris, that many had witnessed UFO demonstrations in France that day, which was covered by radio and newspapers there.

May 2. ATLANTIC OCEAN

It was the first day of a sunny but rather cool voyage. Sananda checked in that morning and afternoon, making his projections into the ocean for transmission to Europe and the North American continent; no message.

May 3. ATLANTIC OCEAN

Heavy swells in the ocean near Newfoundland made many of us upset to various degrees. It was a shame not to be able to eat such delicious and abundant food for the next thirty-six hours. But it could have been much worse, for we could have been really seasick. Sananda and Zorrah continued strong projections via our force fields into the ocean.

May 4. ATLANTIC OCEAN

That afternoon the rough seas were behind us and we went back to enjoying the ship and its many opportunities for pleasant times. Sananda made contact late in the morning and early in the evening, with no messages. But at 8:30 PM both he and Zorrah checked in, with Sananda delivering the following communication, the first major one since we had left Miami.

Do not be alarmed. You are well covered. Nothing can go awry. We will arrange all difficulties. I now am fully anchored for port disembarkation and our European Mission together. It is advisable to be at peace and know all is well. Amen in the Father, His sons, and all Om power, now. So be it.

Sananda of the Hierarchal Board to Nada and El Morya on Earth mission for me personally. Sol-O-Man convenes all expedition forces for the spiritual ways of man. Love is the key in all matters, and shall convey our message in the silent airways of our interchanging thought patterns.

You will convey to me, I shall convey to you; and all shall go silently and smoothly for as peaceful a transition as man can permit in his lack of understanding and forced entry into the fourth dimension.

I am in you. You are my trusted allies of Earth-bound mortality during this temporary sojourn. Omen. Love in action, Sananda through Nada and El Morya. Out.

Sol-O-Man is Sananda's twin soul, known to us as Mary, his mother when he was Jesus of Nazareth. *Forced entry into the fourth dimension* clearly states that since man of Earth is not yet willing to accept the nature of his spiritual identity and purpose, and since we are in the latter days, there must be unfortunate effects from the imperative and mandatory rise into the fourth dimension now occurring.

May 5. ATLANTIC OCEAN

By now, life aboard ship was becoming rather boring. This was mainly due to our not desiring to participate in the drinking, smoking, social and entertainment life offered in profuse abundance. Although we did enjoy the sea voyage as a whole, we both felt it would not be necessary to take another one of that duration. Uriel did work on our bodies that day, however.

May 6. ATLANTIC OCEAN

Sananda checked in twice that day, once to give his blessings to the members of the Sacred Dance Group of Boulder, Colorado, who gave a performance for the passengers. Yolanda enjoyed it and had several talks with two young women of the group who expressed their belief that they had been called by Jesus for this work. The group had toured the United States, Canada and parts of Europe, performing in churches.

We were fortunate in having a table for only four during our three meals a day aboard ship. The other couple was from Austin, Texas, where there has been and still is much Mark-Age group activity. She is a free-lance book editor, he is a retired U.S. Air Force officer. It was amusing and interesting to us, for it would have been enjoyable to discuss writing and publishing with her; and their daughter is a librarian in the public library in San Marcos, Texas, also the site of a Mark-Age group for awhile.

But we had received stringent instructions by Sananda that we could not present ourselves openly as Mark-Age, or in any way discuss the hierarchal program other than with a few Family members we were to meet, during the entire trip. Since we were to be with

tour members for part of the trip and were to meet others elsewhere, we wondered just how we would answer questions as to who we are and what our work is. But the questions did not come up throughout our trip, anywhere, so it was of no concern. We listed ourselves as educators.

The ship docked for several hours from 6:00 PM at Cherbourg, France. Some passengers and freight were left there, others were taken aboard, and we proceeded to Southampton, England across the English Channel. The ocean voyage was completed.

May 7. LONDON

Disembarkation from the QE2, as it is known, was at 9:30 AM. From there we took a train to Waterloo Station in downtown London, arriving at 1:00 PM in the first of the seven major capitals Sananda had asked us to visit. It was a beautiful, sunny and warm day; until we reached London and some rain. But the ride through the blooming countryside on that beautiful spring day was a highlight of the entire trip.

Proceeding by the underground (subway) to the Cunard Hotel, owned by the Cunard Lines which also owns the QE2 and other hotels, we checked in and immediately made reservations for a guided tour to Stratford-upon-Avon the next day. It was one of the few requests Yolanda had made: the trip there to see a Shakespeare play and to visit his birthplace.

Zorrah and Ashtar Gabriel, commanding pilot of Sananda's ship #10, connected to Yolanda by a space beam to complete mechanical coordination through our force fields, a kind of final adjustment and alignment for communications during the mission. Then Sananda delivered the following communication; datelined London, but actually via our hotel in suburban Hammersmith.

You are yet not on call. Calm and adjust yourselves, as there is much work to be done in alien ways. Yes, the word alien is intentionally used to mean as aliens in another land, to mean aliens to Earth-type thinking, but still in a third manner to mean in alien vibrations and methods.

I have called out unto you for this meeting, to

meet with me in justice and in harmony. For there is much mischief afoot in this world. Therefore, your stamina must be great, to afford the level of contact we intend to input while you traverse through that area of consciousness, rebellion, and disagreement with our intentions.

Have no fear of any kind, for I am with you in all ways. You are aligned to my ship's mates, who have at their command many influential patterns to combat all forms of dissuasion and disillusionment of your intent and purposes. Give way to honor, and love one another, I command you.

This is all for this communique. Although I expect your fullest attention at all times, the next several days are leisurely for adjustment purposes and are not alone for inclusion of the mission you are to perform for my honor, glory and Second Coming. Project from Westminster Abbey regarding my Second Coming.

Yes, I recommend you go to Stratford, to Stonehenge. I also recommend our [Mark-Age] staff join us at our time of communion on these appointed meetings. Thank you. All is well. Sananda.

We had not had time to do any sight-seeing in London as yet, so Sananda set the characterizations we were to do our best to portray throughout the mission: aliens from another world, another dimension. That may seem rather easy to accomplish, but it is not, when one is traveling extensively through numerous nations with their varied life-styles and man-made governments. But we planned to enact the roles as much as possible.

This was one of the few times Sananda gave explicit instructions as to places to visit during the entire tour. All of them proved to be important for his purposes, and we enjoyed them. Stratford-upon-Avon is about seventy or so miles from London; Stonehenge is more like eighty. Westminster Abbey is a most important part of the London scene and history.

May 8. STRATFORD-UPON-AVON

Taking a Frames' guided tour, we left London around 8:00 AM and proceeded by bus to Oxford University, where we disembarked for a walk in that famous school.

We learned considerable about the English and the European systems of higher education, differing markedly from those in the United States. Oxford was founded in the thirteenth century, and is an intriguing place that really requires several days to explore.

Stratford-upon-Avon is a most delightful town, a must for everyone visiting England. The first stop for this guided tour is the home which is the birthplace of William Shakespeare. After hearing a well-versed official guide tell about Shakespeare, we went through the small house and its neighboring bookstore on a small lot near the town center.

After that, Yolanda and I found a spot, hardly quiet or secluded in that noisy environment, to see if there would be any contact from him who had been Shakespeare. We had felt long before leaving Miami that perhaps during such a visit we at last would receive some official hierarchal communication pertaining to the contention in some circles that Shakespeare did not write the plays attributed to him.

We were not to be disappointed. Although we carried a cassette tape recorder throughout Europe for the purposes of recording communications from Sananda and others of the higher realms, for communication with the staff at MetaCenter, and for gathering material for the *European Mission Tape* giving the highlights of the sounds and the sights and the events of our tour, it was too noisy to use it there. Instead, Yolanda wrote the following message as it was dictated by him who had been William Shakespeare, as we sat in the garden he had known during that famous lifetime.

It is ironic. I hated this place [father's shop; birthplace], and now they have made it into a shrine. That's alright; perhaps it serves some higher purpose.

But it was human nature I strove to show and to portray through the eyes and the minds of the players. It was not possible politically to speak freely of my philosophical knowledge, either in the world of power or of religion. So, I chose willy-nilly that theme and this, in order to mirror the hearts and the souls of men who wished such secrets hidden, for others to

know; but now exposed, discussed; now unveiled, naked; left unmolded, disarrayed.

Let all hear and know: the history of man is mirrored in his slightest word and deed. For there is nothing veiled, of man's inner Self, that cannot be felt and known around the world. Though in my day we never dreamed of the vast communication yet to come in this world of Earth existence, we knew our thoughts would someday be heard; once heard, heeded; once heeded, changed by the very nature of man himself, who is ever changing, ever growing, ever seeking.

I seek this moment to say I am still here in the world, and will remain until all the changes have been made. My master Self is of the Hierarchy of this planet. I knew it in the secret societies of my times; and waited sorrowfully for centuries to be known as Kut Humi, beloved John of Jesus Christ. Om. I inspired and lived in the form known then and now as Wm. Shakespere.

The signature through Yolanda's writing was Wm. Shakespere, spelled exactly as shown. Incarnations of Kut Humi on Earth included those as: Lao-Tze (604-531 BC), Aristotle (384-322 BC), John the Beloved (5-98 AD), Francis of Assisi (1182-1226 AD), Leonardo da Vinci (1452-1519 AD), William Shakespeare (1564-1616 AD); also, etheric projection as Babaji in Hindu lore.

With the preceding comments, the message speaks for itself. It is interesting to note that Shakespeare was born and made the transition on the same date: April 23rd. He was not indicating in this discourse that he hated the town, but merely the home in which he had been born. He did not elucidate further on the message in any way. As we hope is the case with you and others who will learn of this message, it was an important and unexpected privilege to hear from Kut Humi in the aspect of William Shakespeare, and to learn from him the truth of his authorship of those marvelous plays that are so rich in metaphysical presentation of spiritual information and understanding.

After lunch we proceeded to the Royal Shakespeare Theatre on the banks of the Avon River, just away from downtown. Amidst a beautiful setting and in an excel-

lent theater, we witnessed a presentation by the Royal Shakespeare Theatre Company of his *Henry V*. It would be an understatement to say that we enjoyed the wonderful performance of three hours. A trip to this town would be quite incomplete without seeing whatever play is being staged at that time.

Yolanda was especially excited to learn from our guide that the great metaphysical novelist Marie Corelli had lived and was buried also in Stratford-upon-Avon, as she is a great admirer of and recommends Corelli's books: *The Life Everlasting* and *A Romance of Two Worlds*. It was a thrilling and inspiring day's excursion for us.

May 9. LONDON

Since our advance reservations from Miami were not in time to allow us to remain at the same hotel for the entire London stay, despite the fact that we would be there for the first two days of the Globus tour also, we had to move to another Cunard hotel, the Bristol, for three days. Although a bit more expensive, it is only a ten-minute walk from Picadilly Circus (*circus* is an archaic word meaning *circle*), so was most convenient for our sightseeing in London and for the beginning of Sananda's projections on the appointed day of May 10th.

Our first venture into London was a memorable one in the eating department, for we learned that restaurants do not open until noon. We found it easy to get back to our own individual types of breakfast upon our return to Miami, after so many continental breakfasts in Europe consisting mainly of hard rolls and coffee or tea; although American breakfasts are available in most hotels.

This seems an appropriate place also to mention, for the entire trip in general, that inflation and a continual weakening of our currency against most European currencies made for a more expensive trip than anticipated. Meals and hotels account for the greatest amount of this. For example, throughout most of Europe you can be prepared to pay the equivalent of \$1.00 to \$1.25 for just one cup of coffee or tea or milk or soft drink.

However, although numerous food items and other materials and services are higher than what we in the United States would pay, many other prices were quite in line with what we would have to pay here, except for gasoline. But our own observations showed that the two factors of inflation in Europe and the weakening of the United States dollar have cut deeply into tourism from this nation.

Enough of the financial aspects, other than to note that the total expenses of our tour were approximately what we had expected: about \$7000. Specific donations from Family members covered most of that in advance.

That afternoon we explored downtown London; actually, that area is Westminster, but all of that general area is referred to as London. It was an exciting time; especially for Yolanda, for she had heard much about many of these places from both her mother and father; who were born in London and lived there for their first twenty years, before meeting and marrying in New York City.

Returning to the hotel in late afternoon for a rest prior to further adventures that evening, there was the following communication from Sananda beginning at 6:00 PM. It helped put things even more into perspective for our thoughts and actions during the entire European Mission.

The rhythm of your vibration is unlike any other time or place of this incarnation. Therefore, you must not seek to express as if in the old consciousnesses or personalities. It expressly is not the purpose of this European Mission to be as tourists of another land on the Earth planet. It is more up to the Allah-Lu function to think in terms of being a visitor from another planet. You are not in this particular area to observe national or individualistic habits or customs, but to be able to reflect the spiritual attitudes and needs, for which you are equipped to make positive recommendations and decrees.

Therefore, please proceed, as of the following day of this request—which becomes the first day of our trinity demonstration on this European Mission—to be

in London town and to expect the joining together of all forces for which we have amalgamated this union. I am Sananda of the Hierarchal Board, in relay through Nada to El Morya Khan.

Allah-Lu is a title from other realms, similar to that of Christ; as explained in the glossaries of our books. So, as visitors from another planet, which of course all of us are, we would attempt to view our entire trip as dispassionately as possible, yet to enjoy it to the fullest. Enjoy it, we did; act dispassionately all of the time, we did not. Nevertheless, we did try to look upon numerous life-styles and regulations as something mainly to enjoy, rather than to find fault with that which is unusual to us but normal to those who are not aliens in those lands.

After the contact with Sananda, we were refreshed and able to go once more to the Picadilly Circus area. If you never have been there, it cannot be described. If ever you do go there, you will find it most exciting and enjoyable. There are similar areas in many other European cities, but not of the magnitude of Picadilly Circus. After having visited many of these primarily walking areas, it is most pleasant to recall and to compare them. There is nothing like them in the United States. Even before this we had become quite enthralled with London, a feeling and a memory which would be amplified during this and our next stay in London during this tour.

May 10. LONDON

Sananda's first projection from a major city of the seven capitals he had requested us to visit between May 10th and June 23rd began at 4:00 AM this morning, or at least as far as we consciously knew. For at that time he awakened Yolanda to state that he was firmly anchored into her body for the European Mission.

After three hours of sight-seeing by ourselves in St. James Park and Buckingham Palace areas, we returned to the hotel. During that time Yolanda had begun to feel the projections through her and the work being done to prepare our bodies for the incoming energies, including maintaining proper chemicalization.

Sananda, Lord Michael (Katoomi), Lord Uriel, St. Germain, Summalt, Ashtar Gabriel, Glo-Ria and Zorrah checked in with Yolanda and began their projections for the forthcoming forty-six days of experimentation for the European Mission of the trinity demonstration in the Second Coming implantation. Sananda verified for Yolanda that he had awakened her at 4:00 AM. Then he delivered this communication from 1:40 PM, to begin the projections of the European Mission in this, the first of the seven major capitals.

I am Sananda, speaking to El Morya Khan and Nada-Yolanda. It is appropriate that you begin your European Mission trial, test and experimentation here in the town of London; as it is here, in this general vicinity, that many of the tribes of Israel had incarnated and had begun to expand the spiritual mission for this planetary expedition known as the third dimensional evolvment into fourth dimensional frequency through the expediency of Christianity.

You are not alone in this journey and expedition, as you have all the forces of my command at your disposal to do unto the people of Israel that which is to be done in my name. As I use the tribes of Israel, I do not mean the nation, nor the Jewish people-religion experience, but those who carry the mark of God upon their souls, expeditiously and expediently to bring about the crossing-out and the crossing-over into the land of God, the New JerUSAlem, the I Am Nation to come.

You are to go forth in my name, as my ambassadors officially, in every clime, in every aspect, in every contact, to secure my claim upon this nation that is the I Am Nation; the I Am within each individual which will adhere to the hierarchal government of this embodiment known to you as Sananda, but other incarnations of Earthly familiarity such as the Buddha and Moses, Socrates, and Jesus who was the Christ and who I am.

I am this that shall come; and shall bring upon this nation, the I Am Nation, my hierarchal command, my expeditions and forces of light who shall expect and shall demand the obedience of spiritual conscious-

ness, actions, words and fulfillments. There is no extraneous matter in this purpose. There is no excuse to this frequency, as it shall come through all who adhere perfectly to truth, to light, to honor and to glorify the one and only God Force Which exists in all things equally. No one may deviate from this command and this visualization. No one may dilute, to the most insignificant milligram or miniscule amount of tradition, for this secure purpose.

You are held accountable unto the letter of the law and the Spirit of the Lord; which is the laws of God as I have commanded them to be brought forth upon the Earth planet in all these incarnations I have enunciated through this, my chosen channel and expedition ambassadress for this incarnation, and through her companion and the Chohan of the First Ray, who is the will of God and the law of God and the fulfiller of the hierarchal command that it shall be done unto the Earth as it has been secured and deemed necessary in all Saturnian Council conferences before this era and this time known as the Mark Age period and program.

No other may bring about this expeditious expediency, but through my command and my official recognition. So be it in truth. It begins as of this hour and as of this moment in all enclaves, conclaves and corresponding activities throughout the Earth plane, and for this nature and sustenance that I bring into embodiment, right and true.

Next was a chant in etheric language. The previous and next paragraphs, plus this chant, are reproduced on the European Mission Tape.

I am that I Am. In all things must it be made manifest. For it is in the beginning and shall be unto the end the Lord, command and law of, God in the fulfillment and the manifestation throughout Earth plane garment. So be it in truth. I am Sananda of the Hierarchal Board, Chohan of the Seventh Ray of Light, Love, Peace and Fulfillment.

Nada speaks in respect, in love, and in great admiration for the purpose for which I have come and have incarnated in this plane and activity now. I ex-

pect to fulfill, and to bring about in all manners that are possible through a physical vessel, those things expected and demanded—nay, commanded unto me—by my lord, master teacher Sananda-Jesus, the Christ of Nazareth, king of the Israelites. Om. I am Nada.

Later that afternoon we took a boat trip on the Thames River to Greenwich, during which numerous historic sites were pointed out to us. However, the return trip was so cold that it was to bother our health for several weeks. Supper in and a walk around Piccadilly Circus completed this eventful Saturday, the first day of the official projections for the mission, a ten day.

May 11. STONEHENGE

Since guided tours were not available on Sundays, and as this was the only day we could fit in the trip to Stonehenge that Sananda had requested, we proceeded by ourselves via train to Salisbury, where we boarded the only bus to Stonehenge that operates on Sundays.

The first stop on this guided tour was at Old Sarum Castle. This was the forerunner of the present city of Salisbury, which had been an Iron Age fort, a Roman fortress, a Saxon settlement, and a Norman castle and cathedral. The castle had been in use from 1100 to 1400 AD. Here is the message delivered there by Sananda, indicating why he had asked us to visit this area, which is part of the Stonehenge tour.

You are here to connect the ancient past with near-distant future. For we could not expect you to visit all castles, forts and embassies of power represented in this area or nation. But a representative few of astral forces still locked into the past must be reorganized and released for future disclosures. This visit accomplishes this for our immediate purposes. We thank you for the journey and the thoughts superimposed, transmuted and changed via your frequency call.

Solomonize it. Sacrum Sanctory. From beginning to end, all is for the glory of God, and our passage into fourth dimensional sentries. Om. Om. Om. Som. Sananda, with St. Germain-Hannibal for space sightings.

Then we proceeded to Stonehenge. Set in the middle of Salisbury Plain, Stonehenge is the finest Bronze Age sanctuary in Europe. According to guidebooks, it probably had a religious purpose and was built in several stages, beginning about 1800 BC with the outer ditch and bank. Between 1650-1500 BC, the great bluestones were brought from the Prescelly Hills in South Wales and erected in a double circle. About 1500 BC, this circle was dismantled and the great sarsen stones were brought from Marlborough Downs and placed as they are today. Later the bluestones were set in an inner horseshoe-shape between the two rows of sarsens.

Stonehenge is situated between two highways, close to it, with a town nearby. So, it is not an isolated area. Its location is such that it is exposed to strong winds that sweep across the plain.

After we inspected the ruins, we drew aside from the tourists for a meditation, during which Yolanda received these impressions and then channeled this information from Sananda.

Yolanda. Stonehenge, three thousand years of recorded history in the Western part of the Earth. The stones are known to be that old. Much mystery surrounds it, as far as intellectual and materialistic man is concerned.

As soon as we arrived in Salisbury, England, Sananda and St. Germain-Dr. Hannibal contacted me and were overshadowing me during that time. They indicated that these earliest settlers who built this area and put up these stones were a thirteenth tribe of Israel. They were not known officially as a thirteenth tribe but as renegades, those who refused to assimilate from Egypt into Israel in the long exodus led by Moses from their captivity.

But the knowledge of stone-building and the mystical and occult knowledge were part of the heritage Moses transmitted to the twelve tribes of Israel in their exodus from captivity in Egypt; incorporating much of the occult knowledge the Egyptians had, since they too were remnants of old Atlantis. This knowledge went with this renegade tribe.

I have been assured that they were not what we

would consider outlaws, but were those who felt a calling beyond that of settling in the land of Israel with the twelve tribes. Their background and knowledge were not the same as those of the Hebrew people, since many of them were half-breeds, as we would call them; mixed marriages between Egyptians, Phoenicians, Hebrews, a mixed clan that had a composite of many things.

I also have been reminded at this time by St. Germain that the children of Israel were guided out of Egypt by spacecraft. So, the knowledge of this and the communion with space people were part of their heritage and understanding.

The people that came away or broke away from the twelve tribes and explored this region were mystics. They were capable of intuning where to go. They had guidance. They had overshadowing influences.

Sananda wishes us to think, even more deeply, that the history of man as it has been handed down to us through the intellectual and the educational aspects so far on this planet have been concerning materialistic matter, ideas, information: how old are the stones; where did they quarry the stones; how did they carry the stones; how did all the materialistic aspects of their development come about?

Little ever has been considered as to how they received their information, how they received their guidance, what their guidance was, where their guidance originated and how accurate their guidance was. This is the recapture of that. This is the rehabilitation of that part of man's lost history.

The purpose of this European Mission is to reestablish this information and this guidance for all spiritual light workers who will remain and carry on into the New Age. That is the reason this journey, expedition, adventure and experiment, through Nada-Yolanda and El Morya-Mark under the guidance of Sananda and all the hierarchal forces, are being introduced onto the planet at this time.

A last bit of information I can contribute at this moment in time at this sacred spot is that the Druids were only inspired religious bands able to pick up the vibratory force that was originated here; since the original, what we call the thirteenth, tribe of

Israel which founded it left much in the way of information and spiritual forces for such intuned individuals—psychics, we would call them today—who could and did pick up, carry and perpetuate it.

The only reason the Druids used it was because they felt the sacredness of the information and the contacts, and tuned in to that. They of themselves gave nothing original, and were not the perpetuators of this guidance.

As I am beginning to understand from this journey, the spiritual dedication to and the understanding of the I Am consciousness—which were the purposes of the Israelites; through to Sananda's incarnation as Jesus, the Christ-Self-within philosophy—developed, were perpetuated, spread and anchored firmly upon the Earth with the aid of space brothers who were able to give guidance whenever necessary.

With that, we dedicate our anchorage here, and see this information being realized and fulfilled for the Hierarchal Board and the New Age.

Upon her request for verification of the channelings she had received about Stonehenge and concerning this new method of channeling expected on the European Mission, Sananda dictated the following message through Yolanda in the method to which she was most accustomed and with which she felt the most comfortable.

I assure you of the accuracy of our contacts. Your many long years—lifetimes, in fact—of training before this mission now have permitted the higher forces to contact mentally in a form of shorthand or computer-like data processing.

Only the signal or the short codes now are required. Whereas others still may need to receive in great detail, this new and higher information must flow now from your mind in waves of short, staccato signals as vibrations which trigger the flow or the patterns of ideas for others to use and to flesh-out from the basic form and news which are now your duty, El Morya's and yours, to broadcast and to live as prime exemplars.

You now are broadcasting at ultrahigh frequency

band, the highest possible so far on Earth plane frequency, due to your special function and training; also, because you are the test unit and channel for transmitting fourth dimensional transference energy inside third dimensional bodies.

All other channels must pick up and broadcast below your present signal. Your signals or codes are the forms from which they make messages or convey news and information to others for evolutionary growth patterns. This is hierarchal system prevalent anywhere on solar system scale of operation.

Errors and missteps, even areas of tragic historic developments, are merely temporary errors and mistakes; which eventually need to be compensated for and readjusted when the scales of justice, harmony and truth are karmically called forth.

In the larger sense, for Mark Age period and program, you are calling out for rebalancing of the scales of justice and truth for the past twenty-six thousand years of Earth history. So be it. I am truth and honor for the glory of the I Am Nation. Sananda.

During the trip to Stonehenge, Sananda gave Yolanda more information on the intunements she had been receiving since the day before, concerning Queen Elizabeth I of England. She was to receive much more about this during this first stay in London, but it would not be until the return there on the way home that she was to learn she had been active from the etheric in working with this queen as part of the hierarchal plan.

May 12. LONDON

Westminster Abbey, the last of the places Sananda had asked us to visit while in London, was our destination this morning. First we went into the outer hall of the Parliament building; being unable to go further because Parliament was in session. We took this opportunity to join in projections to the British government, at the same time allowing Sananda to project via our physical force field in that location.

Westminster Abbey is directly across the street from Parliament. Many former rulers and famous persons

from many walks of life are buried there. Sitting in the Altar of the Holy Cross, Yolanda wrote this communication from Sananda, beginning at 1:45 PM.

Hear ye, hear ye, all peoples of this world; inscribed through Nada for his Lord Majesty, Prince of Earth realms, Jesus the Christ, Sananda to come.

As long as man has consecrated his work and energies for the greater glory of God, he has prospered. But once turned to his own selfish devices, he declines. So, we witness here, in this age of marks, your decline, your fall from grace, your ever-spiraling disgrace.

Now hear ye this through this, my scribe and prophetess Nada, long-involved in Earth's histories. You are in the decline of your disgrace, and must at once turn your faces, fortunes and energies to God; Which I hail and proclaim all that is, ever shall be, and Which must be humored to become your focus and force of life, light and love everlasting. We see the breakdown of all structures, societies and policies until this realization returns unto leaders and followers equally.

I send forth my personal ambassadors Nada and El Morya to secure these decrees on Earth, and through all existing nations of Earth for my personal Second Coming and the second coming of your own memories of the God Self engraved in all living forces and descendants here now on planet Earth.

In the founding of many nations which previously have prospered, their sovereigns, though misguided and egotistical, did perpetuate the glory of God, His sons of light, and the forthcoming spiritual foundation of government; which is to join all men under one ruler, God; one law, that of nature and spiritual command.

We seek this return unto truth and light for the upliftment and the spiritual expression in Earth of each man and woman and child now incarnated, and to be allowed incarnation, upon this changing dimension. So be it done now. Sananda, as Prince of Earth form and all matter and general expressions.

On the walls and the floors of the Abbey are numerous plaques concerning those buried there. The first to catch our attention as we entered the door was this one: *Here lyes (expecting the Second Comminge of our Saviour Christ Jesus) the body of EDMOND SPENCER, the prince of poets in his tyme. Born in London 1553 and died 1598.* How appropriate this was to our present mission.

That evening we transferred back to the first hotel, to join the Globus tour. The contact with Sananda continued during this time, with strong projections by him. I seldom feel these contacts or projections, so when it is stated that such occurred, it generally indicates Yolanda is the one aware of such.

May 13. LONDON

This morning we met Eric, the Globus tour guide who would be with us for nearly three weeks on our escorted tour of southern and central Europe. More about him later. We also met the rest of our companions when we joined them for a guided tour of London. We already had seen much of this on our own, but there is much information to be gained from such guides.

We had looked forward with considerable apprehension to the package tour from the time of our booking it. We knew there could be a large group, and that many of them would be smokers. Since tobacco smoke is extremely disturbing to us and causes us sinus and other problems, being with smokers on a bus for long periods was something we did not relish. We already had had considerable discomfort during the trip to and from Stratford-upon-Avon, causing a sinus condition which was to be of much aggravation for the following month.

I mention this smoking situation because it is a serious problem with millions who are bothered to various degrees by tobacco smoke, often with serious health consequences. In the United States and in such countries as Sweden, which this year while we were in Europe launched a campaign to encourage all citizens to stop smoking, there is a growing consideration, often legislated by local governments, to give nonsmokers the right to unpolluted air. But in much of Europe

and elsewhere there is no such progress, other than designated areas in aircraft, trains and subways.

But the situation was taken care of immediately, for the nonsmokers and the smokers agreed to sit in separate ends of the bus. This is not a perfect solution; for even though airconditioned, the air is circulated rather than exchanged, so that in a few seconds the entire bus is polluted anyway. But it did soothe ruffled tempers, and eventually most refrained from smoking on the bus because they saw the effect it had on the health of fellow tourists. I am not unduly belaboring the smoking matter, for it is a firm policy at Mark-Age that no one is allowed to smoke in any of our buildings, and none of the staff smokes.

Most of these tours by bus try to fill the bus with the maximum capacity of fifty members. But our group consisted of only seventeen for the first half, plus guide and driver, and three more later. Thus we were given the bonus of a small group, making so many things so much more pleasant throughout the Globus part of our mission. Two other Globus tours accompanying us had the maximum fifty each, making us a matter of envy in that respect. We had a new Dutch bus, with an excellent driver, from Italy through Paris. Additionally, in Greece and in many cities the local laws require native guides, so there would be another occupant.

The local guide—often may be of another nationality, but does know the local area well—gave us more insights into the London area, including Westminster Abbey. After the escorted tour we were on our own again, so after lunch we looked around the Hyde Park area. During this time Yolanda was receiving projections concerning unity with individuality through cooperative action amongst nations in Europe, concerning political and financial activities. Sananda delivered this message on the subject, at Hyde Park Corner.

The future of England lies in unification with the other nations in Europe. Individuality can be expressed in many services and talents which are unique to each one's own creative Self. But it is not lost or subservient to the whole, especially when the whole

cannot be completed without joining all of its unique and special parts. Amen. Sananda through Nada and El Morya Khan.

That evening Yolanda was aware of important projections by Sananda regarding British governmental decisions on some of the urgent matters at that time, especially the coming referendum as to whether or not they would remain in the Common Market. The following month there was to be a decisive vote to remain a member.

May 14. LONDON & ATHENS

Prior to departure from London's Heathrow airport at 3:00 PM, there were continual projections by Sananda and preparations for leaving by us. For the next phase of nearly three weeks, we would have all travel and hotel accommodations, plus numerous other assistances, provided for us, thus allowing us freedom to enjoy the trip and to work for our mission. This is one major advantage of a package tour, especially valuable when in an area for the first time, providing an opportunity to see a representative part of the countries so you can decide where you might want to spend more time later.

On the way to the airport and during the next few weeks, we learned somewhat how Sananda and others had helped arrange this part of the mission. For not only had our tour been scheduled with so few members, while the previously scheduled one had been canceled due to inadequate bookings, but we felt that some, if indeed not all, of the members were screened by higher forces and were used for test purposes, as to their reactions.

But the primary arrangement was Eric. Sananda had told us while still in Miami that it would be necessary to have vocalized much information along the way so he and we could make observations; could judge reactions; and in our cases could suggest certain projections or in his case could make decrees and projections. We did not know how this would be handled, or even what it really meant. Eric was the answer to a large part of it. For on the way to Heathrow for the

flight to Athens, Sananda told Yolanda he would be able to relay and to say much through Eric.

Eric is of Austrian birth and schooling. He had served as a tour guide summers for Globus for six years, but looked forward to discontinuing it in another year or two. He speaks English, German, Italian and French. He has traveled through all of Europe and knows it well. So, he was most capable at handling all tour responsibilities and in giving us far-above-normal assistances and information in other ways.

Although only twenty-seven years of age at this time, he had a doctorate in German literature and was a teacher in that subject at the University of Maryland. He also is a published writer.

Eric was somewhat disturbed at first because he had been scheduled to take one of the large groups of fifty, which would have meant at least five hundred dollars more in tips. But almost at the last minute he was transferred to our group. He even had to leave his teaching a week early.

His present value to Sananda and us, and thus to that part of the European Mission, was his continual commentary on the history of each city and each section of every nation. While other guides sleep or otherwise occupy their time while traveling in a bus, he devotes much of this time to giving detailed information and background from his vast knowledge and experience.

He began the narration on that bus ride to London airport, telling us we were to begin that evening with the birthplace of modern Western civilization, Athens. From that time on, he spent countless hours telling us of histories, peoples, wars, rises and falls of civilizations, interconnectings and all manners of details of all the cities and the nations, bringing us up to the modern situations amongst the European nations as we reached Brussels and Paris. He wove all of this into a narrative that is impossible to describe. We recorded, with his permission, his long discourse as we approached Venice, part of which we have included on our special *European Mission Tape*.

Although we could not divulge anything about ourselves, our work and mission, we did become increas-

ingly friendly, and made some remarks intended to let him know he was doing a special service, which he would know about later. At the tour's end in Paris, Sananda authorized us to give him our introductory information, although we did not see him thereafter to discuss anything. But he will learn more of it, for Sananda indicated he has a work he can perform in the Second Coming program for Europe.

Leaving London via a British European Airways jet at 3:00 PM, we had a fast but wonderful flight of three and one-half hours to Athens. Unfortunately there was a cloud cover over most of Europe, but it cleared just as we flew over the Alps, so we were thrilled at the sight of the sun-drenched and snow-capped mountains from our altitude of six miles. We later were to drive through much of that section.

We arrived in Athens at sunset, ample time to enjoy the beauty of its location between the sea and the hills. That evening Eric took us on a walking tour of downtown Athens, for our hotel was just off the main section. The previous Wednesday we had been in the capital of London; this Wednesday we were in London and the second of the major capitals, Athens.

May 15. ATHENS

From 4:00 AM on, Sananda awakened Yolanda several times to remind her of their lives together in Athens when he was Socrates and she was friend and student Penelope, a woman of social and political prominence.

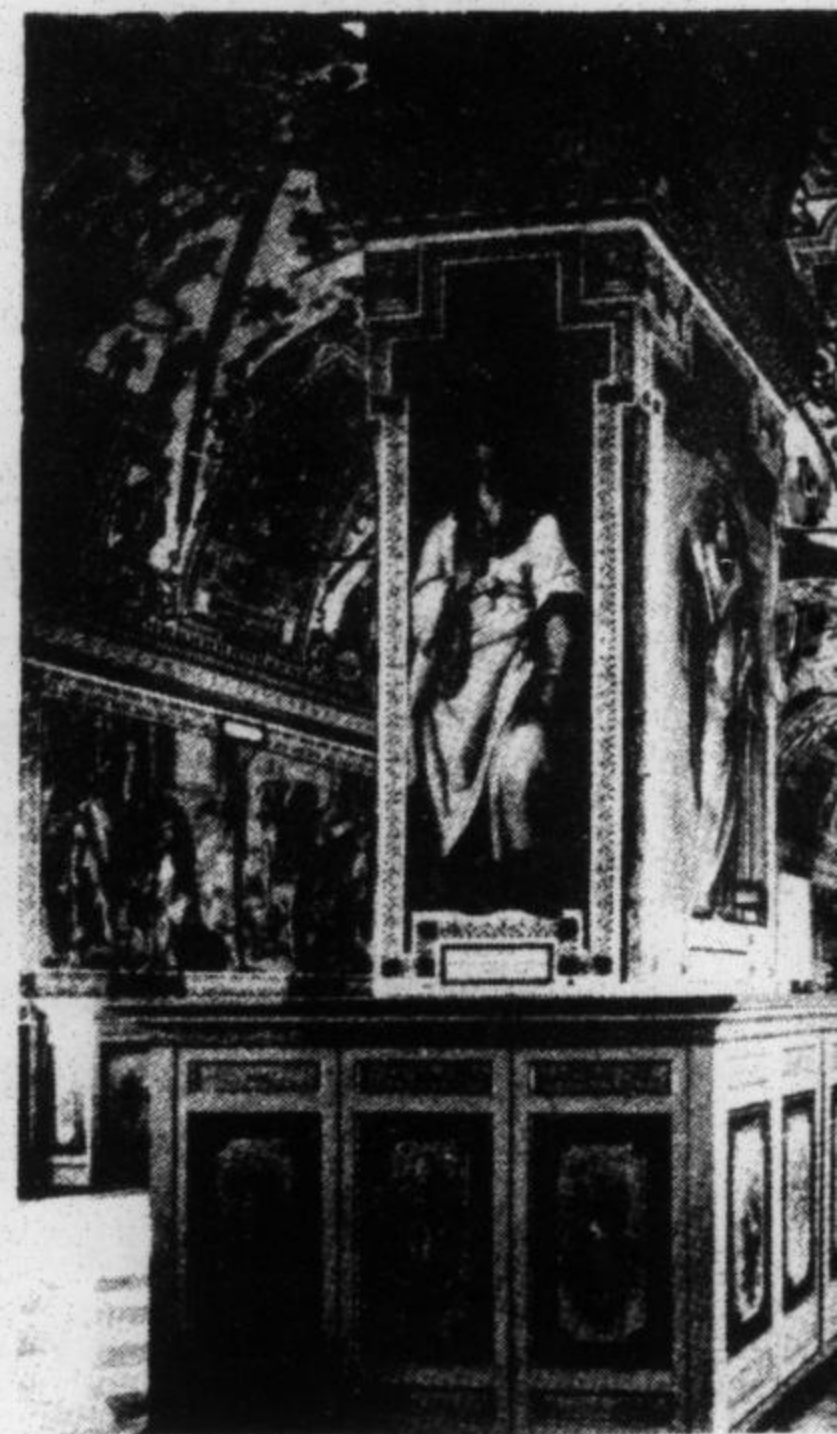

From 8:00 AM to 7:00 PM, we took a boat excursion on the Saronic Gulf, visiting the Greek islands of Egina, Hydra and Poros. Sananda made strong and important projections throughout the trip, particularly concentrating on charging those waters. He reminded us that the transmission of this energy is best conducted through such large bodies of water. His projections into the Saronic Gulf would carry the energies through other seas into all of West Europe, the Middle East and Africa.

Yolanda was given to understand that in the latter days of Atlantis many intellectuals and artists had fled to this area. Great volcanoes and the planetary flood vastly changed the terrain, but still the kar-

mic history and heritage of Greek civilization is this intellectualism. In Greece the birth of individual creative expression of mind took root and spread after the fall of Atlantis.

As is concealed in Greek mythology, the survivors of Atlantis carried with them memories of Atlantean leaders who had not fulfilled their roles and missions. The same pattern was followed in Egypt, where the remnants adopted a master-slave attitude concerning spiritual misuses in Atlantis. Thus are the mythologies of Greece and Egypt similar, with philosophical interpretation differences. Therefore, though there are parallels, there remain significant differences and approaches to the spiritual evolution of man on Earth.

Sananda indicated to Yolanda that he as Socrates and Hilarion as Plato had endeavored to spiritualize the remaining thought patterns and memories of those Atlantean souls who were dedicated solely to individual expression through creative expressions in arts, science and politics. Over a broad spectrum, it has worked partially, although adultery of the pure intentions is more prevalent than is the remnant of the original idea.

Now it is necessary to recognize that Greek philosophy and culture have been the producer of good creative expression in intellectual man. But missing is the merger with God, which is represented in Hebrew and Eastern thought patterns. Thus it will be that the East-West union must and will be completed during this Mark Age period. This will permit rectification of those crimes by the Western civilizations against the Atlantean-through-Greek civilizations.

May 16. ATHENS & CORINTH

Two hours of this morning were spent taking a guided tour of Athens. During the entire stay there, Yolanda did not feel the past-life recall as Penelope that she had somewhat anticipated. Her main impression or receival while viewing 'historic ruins there was that intelligence and wisdom are without strength unless coupled with spirituality and the love for God.

For although the ancient Greeks, particularly the Athenians, had great wisdom and intellect and worship-

ed beauty via the art forms, they were plundered by materialistic, brute peoples many times. The Greeks did not have sufficient protection in their mental developments to match their developments of body. What they lacked in all of their culture until Socrates was the great individuality of spiritual fortitude which is the basis of Sananda's lives as Socrates and Jesus.

Transmitted by and through Yolanda in Athens were decrees calling for balance in the karmic debt of those people. That which they had produced of beauty, symmetry, harmony, and love of mind power is their just due, and is to be returned to them.

But their lesson to be learned is that of applying the will to becoming Christed and to express the Christ talents and powers, rather than expressing only through the mental. This is the key to unlocking the powers within man.

Athens is quite unlike any of the other major cities we visited on this mission. In the outer, it is in a beautiful location, but it is not clean and modern and beautiful of structure like the others. Nor is there the friendliness expressed elsewhere. We were not impressed favorably this time.

It is interesting that since we were in Athens we have received requests for material or information from two different couples there, although we did not meet them. They had read our material via another group in England which has mentioned Mark-Age in their publications.

That afternoon we left Athens by bus for Olympia. En route we stopped at the excavated ruins of ancient Corinth, which had competed with Athens and other Grecian cities for power. We felt that much of the terrible invasions of ancient Greece had been brought upon them karmically because of the constant warring between the cities of that nation.

It was in Corinth that Hilarion as the Apostle Paul had preached. We saw where he had spoken in the marketplace, for he had lived in Corinth as a tentmaker for more than a year. It was here that Yolanda felt Paul might have converted her to Christianity, when she was a Roman soldier.

The bus ride continued through the Peloponnesus along the Corinth Gulf to Olympia. Anyone visiting Greece, and also Italy, should travel through this area by land, for it is among the most beautiful you could find anywhere. It reminded us so much of southern California, as it did also those with us from that area. The mountains, the lush green valleys and the sparkling sea are wondrous to behold. Our resort hotel at Miramare on the shore of the Ionian Sea was a magnificent reminder of our Sanctuary in Miami Beach.

May 17. OLYMPIA & PATRAS

This morning the tour featured a visit to the shrine and the museum at Olympia. Here is the temple dedicated to Zeus, the Grecian god who was alleged to be the creator and the king of all gods and mortals. It was the spiritual center of all of Greece, although there was no community there.

The Olympic games originated there as contests between the best of athletes from all Greek cities. Honor, prestige and achievement were the purposes. During these Olympic games, all cities had to be represented, and they had to cease all wars with one another at such times.

After adequate time allotted by our Grecian woman guide for viewing the excavations and the buildings there, we continued to Patras. Andrew had come to this city when it was a military outpost, to found a Christian community. It is reputed that he was crucified and buried here.

While we were waiting to board the steamer that evening for the overnight trip of nineteen hours across the Ionian Sea to Brindisi, Italy, Sananda contacted Yolanda at 7:00 PM to give her the following information.

He indicated that he had inspired Andrew and John, and later Paul, to complete the works he had begun as Socrates and which Paul had perpetuated as Plato.

On this mission we had been asked to visit Athens for Sananda's special projections and implantations because it had become, and still is, a center of political and financial power. But all the peoples of the Greek mainland and the numerous islands also are

links or branches of the one vine that he has the responsibility for on Earth.

However, they still clung to diluted, adulterated ideologies and stories of lost Atlantis. It was in the attempt to dissolve those misappropriations of energy and to unify them that he had exercised his prerogatives as Prince of Earth to bring about some order, unity and spirituality there.

Thus it was that at Olympia the past merged with the present of those ancient times. The idea was for a meeting or a union dedicated to the glory of mind encased in beautiful Earthly form of the human body. But still omitted was the essential ingredient of the spiritual Self, the I Am or Christ within; concentrating instead on mind control, reason, intellect, finally disintegrating into sheer physical power and prowess. The chain from the Atlantean past was broken, but there never was a holding to any one philosophy or truth after that.

So, still today out of Greece, the mother of Western thought and materialism, is a dichotomy. It was not healed by Andrew and Paul. But now it would be affected by Sananda's projections through our physical force fields while we were in Greece on this Second Coming mission. They are not sufficient or complete, but are very subtle. But no amount of effort on the physical plane now could rectify three thousand years of incomplete efforts and the mental tearing apart of the spiritual seeds that had been planted there.

With our stay and work in Greece finished, Zorrah indicated his departure from us in order to prepare the vibrations in Rome to accept the next important link in the chain of command through Sananda's guidance of Nada and El Morya in this mission. We boarded the new Italian ship Appia Venezia, sailing under the insignia, prominently displayed on its hull, of St. Mark of Venice; where we would visit later with this group. We sailed at 9:00 PM.

May 18. IONIAN SEA & BARI

It was a beautiful sea voyage, although both of us were suffering somewhat in the health department and from insufficient sleep. At 4:00 AM, Sananda contact-

ed Yolanda to assure us that he was our constant companion during the entire mission, as he had promised at the start.

In another contact at 11:00 AM, he reminded her that before we had left for Europe he had said there would be many conditions that would be dangerous and disturbing to our level of consciousness. He reminded her also that he had stated that some of the recommendations we would be forced to make via our observations and personal experiences during the mission would be distasteful to our spiritual concepts of harmony, love and unity.

For in this age of marks, where we are decrystallizing much of the old, we are being forced to see, and to agree with, the breakup and the destruction of many things in the third dimensional life of Earth now; rather than continuation of attempts to bridge differences and to pursue different paths, which cannot serve man of Earth as a whole.

Before we left Miami, I had been receiving in my meditations that it might become necessary for a forced entry into the fourth dimensional frequency, because so few are ready or willing to make the necessary changes, even at this late date.

We docked at 4:00 PM at Brindisi, Italy, at the southern end of the famed Appian Way. We would travel over much of this route on the way to other cities and to Rome. Although it is now a modern and beautiful expressway known as Autostrada del Sole, mostly it follows the original Appian Way. In Brindisi we boarded for the first time our own bus, rented by Globus for the remainder of the trip, arriving at our overnight hotel in Bari, another Italian port on the Adriatic Sea directly across from Yugoslavia.

May 19. SORRENTO

Leaving Bari at 9:00 AM, we motored along the Italian Autostrada across the peninsula to Sorrento. Although it was sunny and quite warm in Greece and Italy, others of the group began to feel some effects of less-than-perfect health, manifesting such symptoms as sinus infections, colds and sore throats.

Passing Naples, which Eric explained has a major

problem of lower elements in the way of poverty and crime, we had a magnificent view of nearby Mt. Vesuvius overlooking the beautiful landscape and the Sea of Naples. Leaving Naples at 1:30 PM, we arrived at our hotel in Sorrento on the Sea of Naples.

Although this Italian mountain town has been famous for more than a hundred years as an elite resort for the wealthy and the privileged, the parts of the towns we saw are not what we could consider the most modern and beautiful, even though they are unique and the locale is unquestionably of great beauty.

Settled in our hotel, projections were sent through us from 4:00 to 8:00 PM to Sorrento and the general area around Naples. This seemed mainly to concern the iron grip the criminal element holds upon people there and in all of southern Italy. Only divine intervention can free these people from this corrupt domination. Beginning at 9:00 PM, Sananda delivered this powerful announcement and decree.

Children of the light and citizens of the forthcoming I Am Nation, I request and bequeath this mission unto all; that they see, and it must be, a law, a government of peoples obedient to the divine action and universal truths.

It is from this point in the European Mission that I request my ambassadors Nada and El Morya to implant this vibratory rate in the Sea of Naples. Because this area was, and still is, a link between the ancient Grecian culture which held the truth and the beauty of divine ideology, and also linked in beauty and in truth the Roman externalization of that truth and beauty and ideology, it now becomes the area for importing and exporting those decrees and announcements from my master ship #10 unto all the rest of European civilization.

No man may remain upon the Earth unless he adheres to my truth of love and the divine law as expressed through El Morya's First Ray of action in the truth of life upon any planet in this solar system. So, here be it announced and decreed, by the power vested through me to two prongs of the trinity on Earth, and then amplified by all who will hear and will adhere

to this announcement, decree, visualization and desire.

As you know, the desire of the Father in all of us is the I Am consciousness, which is equal in all men everywhere. But where men will take upon themselves more power, more divine expression, and exploit or suppress any other part of that divine expression in others, then they must be eliminated, whether this takes a day, a year or a millenium.

The time has come; the end is here; the beginning must be announced. And it is now, through these, my ambassadors of truth and light and expressing the I Am Nation to come upon the Earth, that I see and anchor in these waters that divine expression of law and order, according to universal program.

No more may it be permitted that less than this be expressed on Earth. For I come, and the I Am comes, in Earth and for the assistance of all who will incarnate and be developed as spiritual citizens of Earth. So be it in truth. I am Sananda, speaking through Nada, my channel and express devoted assistant in this matter; all for the glory of God and the Holy Trinity that exists in all men, as well as in divine methodology.

May 20. CAPRI & ROME

From Sorrento we took a boat ride to the Isle of Capri. Although it is beautiful and no doubt has much to offer those who stay there, our fast-paced and brief visit to the Blue Grotto and the tourist-oriented town did not give us the anticipated good impression of this famed resort island.

Back on the mainland and en route to Rome, we had been scheduled for a visit to Pompeii, at the foot of Mt. Vesuvius and near Sorrento. But one of the numerous strikes so well known in Italy these times, this a one-day general strike of all public-facility employees, enabled us to get no further than the gate, from which we could see nothing. Although many were disappointed, we had not been especially interested in seeing the excavated ruins.

On the way to Rome still via the Autostrada of the Sun, many projections were made for those inhabiting the area from Naples to Rome. Our hotel was in the suburbs of Rome, so there was no opportunity to visit

e.
s
the city that evening. But Sananda delivered this message, from 9:15 PM.

o-
n-
s
Sananda. I am contented. All has been prepared for your entry into Rome. The spacecraft, which are under the direct command of Zorrah, have cleared the auric field in order for your entry to be effective, starting immediately.

You have not to know every single thought pattern and projection that are transmitted from my hierarchal command post through your rebroadcasting energy force fields on Earth. It is enough that you have come willingly, and sufficient that you have been prepared adequately, to do the work required by the etheric command post into the Earth plane atmosphere.

It is not unproductive to give you this much assistance, however, in gauging what particulars are sent through from our command attachment into your substations of Earth bodies as they are now traveling through this European continent for final implantation of the hierarchal command of this solar system.

y.
It is enough to indicate that those thoughts which occupy your observation posts, your eyes, your ears, and your speaking the word and the truth and the knowledge unto each other and unto others with whom you come in contact, and it is enough for you to surmise that these things that occur in your consciousness and are repeated by you in consciousness, are exactly those externalized thought forms we project.

It always has seemed so unto you as my personal ambassadors; but more than ever so in this particular European Mission, since our force fields are united and constantly interlinked from the fourth dimensional plane of action; where thought begins to take form, and form becomes manifested on the third dimensional plane.

While you two are between the third and the fourth dimensions—as you have been prepared to be, especially for this European Mission—you then reintroduce via the purity of thought and experience what we signal you to desire for Earthman and the various countries into which you are directed to enter. As you desire these and speak of them, even unto private con-

versations or observations, they become a manifested reality because they ring true of the divine law; and then externalize, because partly you remain third dimensionally oriented in the physical.

Then it is because you still remain physically oriented in the body form that you are required to manifest all those attitudes, experiences, thoughts and physical difficulties which might be encountered by some of a much more refined nature than you already have reached in this incarnation. Of those I speak, meaning the space contactees, the etheric brotherhood and all angelic forces.

You cannot surmise, even in your greatest, loving, devoted ways and means of expression, what torments you would inflict upon those I here have mentioned, to bring them into your Earth's atmosphere in the third dimensional frequency form as you are experiencing it, my two ambassadors. You have only some slight indication of the problems that are enforced upon the physical form as it is forced to enjoin third and fourth dimensional frequency vibrations simultaneously.

It is that extreme example that you are expressing, testing and nullifying for future infiltrations. It must ever be so. It is this mission to which you willingly, openly, consciously and lovingly have devoted your lives. Thank you. God bless you. This is all for this transmission. Sananda.

Have you ever thought of what Sananda expressed here, the torments that would be inflicted upon those of higher consciousness should they have to visit, let alone live, upon Earth in these horrendous times? We could appreciate even more, after this mention, just how terrible it would be. We have thought of it often as the Christ consciousness unfolded, but our travels through so many different life-styles and customs and governments revealed even more how difficult it is to communicate with those of such diverse backgrounds on Earth now, let alone live here.

It strengthened even more our resolve to do all we can to make it easier and more pleasant, for those living now in higher realms, to contact man of Earth

and eventually to make in-person landings and incarnations here. The same applies to those now of Earth who will incarnate here in the Golden Age. We must do all we can now to make it better for Sananda's return and for those who will live here after that.

May 21. ROME & THE VATICAN

This was our third Wednesday in Europe, and once again we were in two capitals: Rome and the Vatican. The morning was devoted to a guided tour of Rome, briefly covering such as the Pantheon, the Forum, the Colosseum and the Vatican. Some of this is on our *European Mission Tape*; partly explained by the local guide, as is the case of other city tours included on that tape, giving even more local color. Rome is a beautiful city.

Later in the afternoon, after the guided tour was over, we stayed to see more than St. Peter's Church and Square, which we had been taken through earlier. After lunch at the Vatican restaurant, we stayed in the courtyard overlooking the gardens connecting the Sistine Chapel, which we visited after that, and St. Peter's Church. It was here that Sananda delivered the following communication; via writing, for it was far too noisy to tape it, although we tried. He began it at 2:15 PM.

Our own impression of this venerated religious headquarters, after hours of exposure to the noise and the confusion of thousands of tourists milling about, was that we could detect no spiritual feelings. Of course, we were not in the inner areas where the real church work is done, but nevertheless we are quite capable of picking up the prevailing thought temperature and atmosphere of locations, especially such a religious center. We will say no more on that subject. What is more important is this analysis by Sananda, to whom this place is dedicated.

As Sananda and as Jesus the Christ, master of truth and the figure who is venerated in this city, I speak unto all. The spirituality you seek is not here. The temple you wish to build is not of mortar, stone and precious jewels.

As Jesus, I had taught: the temple of God is within you. The holy shrine you seek is your mind, which must be made pure. All this is ignored here. We have repetition only of outward, material worship—stones and bricks and men's lives or works—but no thoughts to turn man in on himself to change, to improve, to be responsible unto his fellowman.

Therefore, I say unto you here and now: I reject these walls and facades. They are a mockery of all which I seek to bring unto mankind, both in the form of Jesus Christ and in the ideal of Sananda, Prince of this planet for the Hierarchy of all beings in this solar system. You have come many miles, many lifetimes, many generations, many civilizations. Now here is the end of all these things, and a new beginning.

I speak thus through two holy ambassadors cleansed, purified, and dedicated only to the highest order of solar system harmony and justice: Nada-Yolanda and El Morya-Mark. I speak through them, to hear my decrees, desires, announcements and pronouncements.

You have come up through Greece, the mother of modern ideology, which was spawned from out of the bowels of Atlantis and its lost heritages and failures. You rose then into Rome, the empire of externalizing all the good, productive, constructive, man-made inventions and products possible. Of this empire you have the modern society that now prepares for New Jerusalem; since it sacked and destroyed the old Jerusalem in its greed and lack of spiritual comprehension.

Real, true and great destruction comes only from within. Man, will you not learn from the personal and collective lessons thus given unto you? Societies are destroyed by the people within them; the macrocosmic law at work in manifested matter. Men destroy themselves only by their own thoughts and actions, whether in one life or from the karmic debt of a past one.

So you will destroy the old Jerusalem, Rome; and be bold, strong and victorious, only to be destroyed by your greed and selfishness and overbearing self-importance. You have spawned all these lands, peoples, products; to find what was buried and denied comes forth from out of the dead ashes of your own forcefulness.

Heed. Be wise. Return unto the law, the way of truth. Seek to bless the weak and the weary; who now will conquer, by their perseverance and inner strength, what you tried to suppress with physical domination.

The history of mankind in the last twenty-six thousand years is a metaphysical system of evolution from third, material into fourth, spiritual consciousness. Some day, when the history of this twenty-six-thousand-year period is written by the sages of the Golden Age of Aquarius, every society, civilization and martyr will be shown to be levels of consciousness, aspects of physical form, and laws of soul karma. It is too much now to give this metaphysical history.

But we clue you here, in understanding for I Am status and national development, that macrocosmic aspects of life, such as planetary history, are large-or grand-scale forms by which individuals in the microcosmic scale can see in effectual externalization every discovery of Self, and every struggle of mind, body and soul in unifying with that Self or I Am.

Be kind. Be good. Revere the past. But do not be subdued by it. Do not be circumscribed by it. It is only a mirror from which you are to learn, out of its reflections, what you are obliged to see and to be.

So be it. I am Sananda, through the incarnation of Jesus calling for rededication to principles I taught, and personal instructions of the I Am individually and collectively as a race and as a nation on Earth. Om. Sananda.

Mark-Age does not seek to point a finger at any church, Christian or other. Instead, we look to working with all which will teach the truth and will help man in his spiritual growth, and will help prepare for the Second Coming. But in the event you have wondered how Sananda views the efforts of those which concentrate upon man-made religious dogma rather than what he really has taught in various Earth incarnations, especially as Christ Jesus, this is his current evaluation and decree, added to what often has been channeled through Yolanda on this subject.

Back at the hotel, beginning at 7:00 PM, Sananda delivered his longest communication of the mission,

which actually was a continuation of the one delivered at the Vatican that afternoon. It also was to be the last one until the Globus tour was over. Here it is, with no interpretation necessary.

Sananda. Sons and daughters of the light, it is easily seen that we are at the beginning of the end, and the end is very near. We have brought you thus far in our journey to Europe in order that you who are externalizations of the light force upon the Earth be cognizant of and intuned with our most divine mission and purposes as they will exemplify through the Hierarchal Board's membership in the short time allotted to this material-matter frequency of third dimension.

I do not want you to be alarmed or concerned or in any way overly sympathetic to the causes of such non-spiritualized conditions; because, as we shall prove in the short time allotted to this dimensional frequency formulations of matter and purposes, it has been the missing of the link with spiritual consciousness that has been the downfall of, and the missing link in, all other such societies and civilizations which have failed upon Earth in prior times.

So, seeing this and working with it must be a pertinent, plausible program unto your own individual functions. At no time should it seem to be out of context with the initial basic-foundation situation we wish to employ and to empathize with in every exacting way that comes to our particular desirabilities and descriptions.

It is not far in the distant future of your time, as you calculate it, that we can begin to proclaim and to produce those outlines and geometric patterns of spiritual exercises that are necessary in every single department of man's life upon the planet Earth as it goes into its fourth dimensional frequency vibration.

Since we have informed you of this, and now we inform all nations on Earth of this, factual data—whether they see it and know it on the conscious level or not, it still is being broadcast out to them—we are now able to give you the guidelines and the purposes for which you see the decrystallization and the de-

struction of one type of simple living in third dimensional matter form as it prepares to express itself or to transmute itself into a higher frequency and life form upon the Earth.

It is not without concern that you see the metamorphosis or transmutation process we are signaling to you herewith. But you cannot dwell upon that, since you must cling positively, as the light workers upon the Earth, to the incoming form we expect to have produced within the next cycle of evolutionary development for man upon the Earth planet.

It is not that you will not experience the indescribable difficulties that are entailed in this transfer of regional matter from third into fourth dimensional frequency form, but that you must constantly image, see and work for the higher, the new, the unformed and unmanifested ideal which is to be anchored through these, the Hierarchal Board masters upon the Earth, in these end days.

It is not your function, and it is not sufficient, to leave this matter unto their consciousnesses. It is not sufficient that man of Earth or the light workers see and know that others will take care of this program and this problem. It is explicitly the problem, the program, the procedural properties of all light workers upon the Earth collectively to bring in, to anchor in, to announce, to implant, to produce the I Am Nation upon the Earth.

You have been given eons of time—I speak now here to the mass-conscious form of matter in this third dimensional frequency life—to externalize, from within, that seed, that inkling, that origin of your I Am consciousness in what you had to work with, which was third dimensional frequency form.

But everywhere and in every department, including religious, philosophical and mental exercises, you neglected to come back to the origin of your existence; which is the I Am Self within, incorporated into a third dimensional frequency form.

Since this has been the pattern, we have no recourse but to deny, to dissolve and to destroy, in their own time and in their own spiritual way, all those fine works and products, ideas and expressions which are not dedicated to the simple principle of I

Am expression in the dimension we are now incorporating into fourth dimensional frequency form.

As you know, we do not expect the full fourth dimensional frequency form to express itself for nearly two thousand years following the ending of this age we call the Mark Age. But before that time must be extensive work, must be extensive visualization, must be extensive formulations and frequency modulations—or, as you would put it in modern terms, computer calculations—input into the consciousness, input into the frequency broadcast of this auric field of Earth, in order that it then can be picked up by the receptive minds, hearts, souls and bodies of those who remain upon the Earth in the following times.

It is not my intention to give all the reasons the past civilizations have failed. As I already have recalled to your minds and have indicated to you previously on this same date, there is a metaphysical evolutionary pattern that is necessary to be programed and to be analyzed in the future. That particular metaphysical evolutionary process has to do with the individual's development in third dimensional frequency form, in corresponding to and connecting with his own I Am consciousness while expressing in a physical body with a mortal mind.

As the individual proceeds through the steps of evolution toward his I Am union, he has many thoughts, many desires and many plans. On the road to this I Am unification through the body, the mind and the soul of the individual self, there are conflicts, destructive apparatuses and periods, there are betrayals of trust and bodily harm done to the structure of the individual, in the sense of cleansing, purification, transmutation processes.

In the macrocosmic sense to which I referred in the prior message, there are the same procedures to be instructed to the masses, as regards their macrocosmic societies; which are reflections of the individuals who are involved in those particular societies.

Let me give you just one or two examples here. In a society where there is suppression or dictatorship—or serfdom, as you have called it in the past—those souls are learning lessons in their individual evolve-

ment; as well as that particular society, group, government or nation is learning how to cope with such ideals and concepts as it balances itself and corresponds to the proper expression of a healthy community.

In a society such as you have in the United States of America, where there is a democratic political system and supposedly freedom of expression in many areas of life and thought, you also have certain problems that are involved in keeping this society with the original ideals, and also not permitting other destructive forces to interfere with that process.

So, there are checks and balances in a suppressed society and in a freedom-loving society. Each one has certain problems or procedures it must follow in order to learn the lessons or to express externally those higher forms of cosmic consciousness.

The same applies in each individual's life as he experiences and experiments in either one lifetime or another, or even in the same life, where he submits his will to another or where he expects equality in his relationships with another.

As we proceed into cosmic evolution of cosmic consciousness in the following periods of the Mark Age period in order to prepare for the I Am Nation and the I Am consciousness of all who remain upon the Earth, we will be able explicitly to point out, to dramatize and to demonstrate how the entire history of mankind in the known historical evidence of the planetary circumstances since the fall of Atlantis has expressed all of these evolutionary steps where man seeks to be in the I Am state but has not fulfilled the obligations at each pinnacle of success or realization toward the road in reaching full I Am responsibility.

That is all for this communication. And as far as my two ambassadors in Europe are presently concerned, this Rome excursion, or projection to the third capital in the seven major capitals which I have asked you to experience and through which I expect to implant my own personal vibratory rates via your force fields, is the turning point and the last of the difficult expressions of holding, and remaining in communion with, the purpose of our trinity demonstration for this European Mission.

The worst is over, in as far as you know what is now expected of you individually and what is expected of you as a team. You know what my influence and projections are to be during this time period when you are expressly my counterparts on Earth for my particular silent, and in some cases secret, purposes.

So, in that sense your mental release is greater from this point on. Your physical energies will require more time and more balance, but not to any appreciable extent. Your spiritual appreciation and further participation are the greater part of the time ahead, when all will be in union and harmony with the note and the chord I send forth through the etheric unto your individual conscious minds, and you rebroadcast it out in theme to those who will listen, who will obey and who will carry out my plan.

So be it in truth. I am Sananda of the Hierarchal Board, speaking through my two personal ambassadors, Nada-Yolanda and El Morya-Mark, on the European Mission for this I Am Nation implantation. Om.

May 22. FLORENCE

The four-hour ride from Rome to Florence is through Tuscany, said to be the most beautiful countryside in Europe. Whether it is or not, the lush vegetation and the rolling hills, many of them holding medieval towns and castles still inhabited, are sights not to be missed.

Florence is considered one of the most beautiful as well as cultured cities in Europe. It still is a center for art, music and the sciences. But although there are numerous arts and views to see, for the sake of presenting the European Mission basically for the spiritual action it was, we must forego telling about them here, just as elsewhere in Europe.

May 23. VENICE

After an overnight stay in Florence, it was back to the Autostrada for the beautiful trip to Venice. With detailed and appreciated travelogs by Eric, we passed Bologna, home of the first university in the world; Padua, home of the second university in Europe, and a distinguished law school; and into Venice by early afternoon.

Venice, pearl of the Adriatic, was ours that afternoon and evening. Although hampered somewhat by rain at times, we covered much of the city via guides and our own explorations. We had not expected to be overly impressed with this city of canals, but it was one of the highlights of the entire European tour.

St. Mark's Square is the center of the activities, but much is to be found in the many small streets and canals leading into the Square. We were able to capture some of it on tape for your pleasure, but we cannot do justice to the atmosphere. It is another of the European cities featuring outstanding walking areas. We were surprised at the variety and the quality of goods in the numerous small shops.

The Cathedral of St. Mark is the predominant landmark. John Mark supposedly is buried under the main altar, being returned there from Alexandria, Egypt by Venetian merchants in the eighth century.

May 24. INNSBRUCK

Leaving Venice early the next morning, we crossed the plains of the Po River and started climbing the Alps, where the views are breathtaking. The new super-highway through the Brenner Pass makes travel easy and enjoyable. It passes through the Dolomites, a small chain of unusual mountains whose peaks come to jagged points.

The route is through the Tyrol, which had been Austrian but which was given to Italy after World War II. It is but one of areas which have been part of or under control of various nations over the centuries, creating strongly mixed emotions in the inhabitants. On the way we passed through Cortina, famous and beautiful winter resort in a valley surrounded by mountain peaks, site of the Olympic winter games once before and again in 1976.

Entering Innsbruck, capital of the Tyrol, late that afternoon, we found our hotel to be in another wonderful walking area downtown. We arrived during a day-long May Festival, and enjoyed tremendously the gaiety of the throngs filling the narrow streets around the hotel. It sounds great on our *European Mission Tape*, too. Innsbruck is another beautiful city.

May 25. LUCERNE

This Sunday drive from Innsbruck to Lucerne was one of the most beautiful of the tour; which is noteworthy, in that it seems all of Europe is so beautiful. Along the Inn River and through the Arlberg Pass we had one wonderful view after another, into the tiny principality of Liechtenstein and a lunch stop in its capital Vaduz. Although it is the smallest European nation, unless you consider the Vatican, its beauty and charm more than make up for its size.

Entering Switzerland in the early afternoon, we continued through the outskirts of its largest city and financial capital, Zurich, and arrived in Lucerne at 3:30 PM. Locating in one of the older but nicer hotels across the street from the lake, we found Family member and MAM broadcaster Betty Carroll of Geneva awaiting us. She was to spend considerable time with us during our two days in Lucerne, then later in Geneva and other places, of which more later.

May 26. LUCERNE

After a short tour of the city, we took a side excursion to nearby Mt. Pilatus, listed as being exactly seven thousand feet high. Betty Carroll accompanied us and amplified the force field for a projection from that mountaintop. It is a breathtaking ride to the top via an old but safe funicular railroad, but dense clouds prevented us from seeing anything of the view. The descent is via large and then small cable cars.

The afternoon and the evening were for our own strolling and shopping in town or other leisurely activities. It enabled us to get to know Betty Carroll better; for although we had known her for several years, it was our first in-person meeting. But it was not the last, for she played an important part in our return to Switzerland, in Sananda's projections while there, and will be helping in future Mark-Age works not only in Switzerland but in the rest of Europe. She and Eric established a strong friendship there, one which could continue and could lead him into hierarchical program understandings and works.

May 27. FRANKFURT

After our most-pleasant two nights in Lucerne, we
