IMPRESSIONS OF MAIN

● Congratulations on your first issue of MAIN magazine! It is beautiful, truly beautiful. Thank you, also, for reviewing my book, *Many Lives, Many Loves*. I am glad that you drew attention to what I consider to be important points.

Gina Cerminara

● Your new magazine can become a manual and guidebook to those seeking the key to open the door to the kingdom of the Spirit.

MAIN with the proper approach and right kind of effort can become a light and the voice of the word to help the world's people find the path to peace, brotherhood and plenty for all.

The word of the great law is the tree. MAIN can be the leaves of the tree to cure the ills of the people and the nations; talking leaves bringing the message of the kingdom of the Spirit to all whose ears and hearts are open to the message.

Lightfoot Talking Eagle
Mahanoy City, Pennsylvania

● The whole magazine to me is the correlation between prophecies, channelings and spiritual teachings. It is the reality of life on planet Earth right here and now.

This especially shone through for me in "And The Young Shall Prophesy" in *Youth In Action*, *Marks Of This Age*, *Healing Haven* and the "Weeping Madonna" and "Romantic Triangle" in *Family Mail*.

The letter on the romantic triangle, I feel, will touch people. It demonstrates how to relate real-life

difficulties to spiritual truths and teachings. It makes truth real in an everyday context. It helps the rest of us to see it acted out through prayer and decrees.

I also was impressed with the variety of levels in MAIN. Much of it was fairly basic, yet presented in new angles, especially in conjunction with certain other more-advanced material such as Glo-Ria's communication on Apollo 17: A Spiritual Initiation.

Thus it should be possible to reach a broader range, to open beginners to higher understandings in a natural way through exposure and relationship or association of more-advanced material with that which they do understand, and to have enough new, current materials that advanced students will maintain their interest.

In addition, it reaches into many different aspects of the spiritual program. In the first issue it touches the Roman Catholic Church, the fundamentalists, yoga, secular governments, free schools, the average person in polls and surveys (Marks Of This Age), modern psychology and psychiatry, as well as the Hierarchal Board and its spiritual plan as given through Mark-Age.

Re Views On Heather Buckley's books was a unique way to open the mind to higher things by giving another living demonstration and specific example of how her present Earth work actually relates to her soul evolvment beyond this lifetime, or even this planet. It really broadened the outlook, and brings it again to something very specific: a prophecy fulfilled.

All in all, MAIN is an enactment of the spiritual program I believe in and am totally dedicated to. It is the light workers in action.

Aurora-Dale Trischka

The Hierarchy and Mark-Age directors were so impressed with this enthusiastic twenty-two year old Family member's insight and dedication that she was invited to join the full-time staff at MetaCenter. She works in the mail department, answering your correspondence and filling your orders. For the September issue of MAIN she is preparing an in-depth study on how to introduce Mark-Age materials on high school and college campuses. If you have any ideas, suggestions or experiences, please write to her in Miami.

FOUR NEW FULL-TIME RESIDENT STAFF MEMBERS were added to our Miami MetaCenter operation in January 1973: Thelma Meyer, who has been a part-time volunteer typist for years; Dale Trischka, who was a member of two Mark-Age groups in Syracuse, New York and who was a part-time worker at MetaCenter in summer, 1972 (see her letter on pages 2 & 3); Sharon Phipps, a Miamian who was a part-time worker in 1972; and Harvey Hayes, a part-time worker for us before going to Houston, where he established a Mark-Age group which still is functioning. You will learn more of these valued members in a future issue.

YOLANDA AND MARK ARE IN SOUTHERN CALIFORNIA for a wide variety of hierarchal program purposes and functions. After an initial series of conferences they went into a prescribed retreat and rest for two weeks in order to receive hierarchal guidance for *University Of Life, MAM, Mark-Age Centers* and other unfolding new projects. Even before the retreat there were numerous inklings of fascinating vast new programs all of us are waiting to see outlined and sent along to you for our cooperative performing.

En route they stopped in Houston, Texas for a day of conferences with Charles Poland and Ken Hatfield, leaders of Mark-Age of Austin, plus several members from there; Charlotte Turner and Tom Peryam, leaders of Mark-Age of Houston, and also met other members at the weekly *MAM* meeting; and via telephone with Nancy Goldman and Jimmie Chatman, two of the leaders of the Mark-Age of Marshall. Sorry there was no opportunity to visit with other Mark-Age Texas members and groups, but the stop in Houston was an unexpected one which came up just before leaving Miami, as follows.

Charles, Ken and Tom had made contact with Harry Jones, business manager of astronaut Edgar Mitchell's new spiritual-scientific organization EDMA, to acquaint them with Mark-Age. A letter and phone call from Harry to Miami resulted in a visit by Yolanda and Mark with Edgar and Harry in their Houston offices. EDMA also is moving to California, in the Palo Alto area, from where we anticipate expanded contact and mutual cooperation in spiritual works. There will be a lengthy report on this in the May issue, dedicated to breakthroughs in science and health for the New Age.

MARK-AGE AND UNIVERSITY OF LIFE buildings and properties still are needed in southern Florida and southern California, and probably in other states and nations in the near future. The largest donation for this purpose to date is \$3000 from the leader of Mark-Age of Chicago, but contributions of other sums also are coming. We hope many more of you will add your names and vibrations to the invisible and not-to-be-published, but nevertheless very real, list of donors.

MAM GROUPS IN OTHER COUNTRIES now include Canada, Denmark, England, France, Germany, Italy, Puerto Rico and Switzerland. *MAM* tapes have been in the 150-170 range for several months, with a new expansion expected as soon as new projects now being prepared are put into operation. We wish it were really possible to tell you how much this program has meant to so many and how it already has done so much to prepare the way for the Second Coming and the mass educational program, both through the *MAM* tapes and those who share the programs later in our publications.

Incidentally, for the time being there will be no more separate *MAM* publications, but all *MAM* news and communications will be contained in *MAIN* beginning with this March issue. In this way we can reach, and share *MAM* with, many more light workers and potential *MAM* participants.

Symbology

SPIRITUALIZING EARTH

In celebration of our receiving of *The Master Plan For The Spiritual Earth*, we have published the Earth Day poster for 1972 by Bob Hieronimus on our March 1973 issue of *MAIN*. We selected this because it contains the symbols of what light workers and groups are projecting for the Age of Aquarius. Thus, this poster is an allegory which tells our story.

At the summit is Aquarius: altruism, brotherhood, and the love all men have for one another. Aquarius is pouring its energies over a very ancient glyph, a symbol which illustrates *a minute for peace*.

The symbol for *a minute for peace* is one of the most ancient esoteric symbols known to man. Around a central circle, six overlapping circles combine so that parts of each of the six circles form a six-petalled lily, a symbol for purity, in the center of a seventh circle. All seven circles are encompassed by a larger one.

The circle symbolizes Spirit, infinity, that which has no beginning and no end, the Spirit of God Which manifests on the physical plane in many forms. Six is a symbol of harmony, balance and beauty. It symbolizes the six days of creation.

The seventh circle symbolizes the seventh day upon which God rested. "And God blessed the seventh day and sanctified it; because that in it He had rested from all His work which God created and made." The seventh day is a day of peace. Therefore, our symbol relates *a minute for peace*. Seven is also a symbol for *victory* and is often repeated throughout the sacred literature of all nations.

The symbol of the Mark-Age unit is a seven in a circle, commemorating the seventh and final spiritual step

on the physical plane for completing a step in evolution. It also heralds the coming of the chohan of the Seventh Ray, Sananda-Jesus, who returns for the second coming of Christ consciousness to Earth.

The larger, eighth circle is the number of regeneration, just as it is the eighth sign of the zodiac, Scorpio. The process of the seven circles (peace) is therefore the process of regeneration or rebirth.

The *minute for peace* symbol rests upon the temple of Stonehenge, which both exoteric and esoteric sciences presently believe to be, at the very least, an astronomical computer for computing solar and lunar eclipses, even to this day. It is presently thought to be far older than first suspected. It was an Earth temple.

Stonehenge is based upon yet another ancient temple, the Great Pyramid; which was constructed, according to the ancients, "to measure all the heavens and Earth." It was not merely a tomb for the pharaoh Cheops but a temple used by the mystery schools in Egypt.

Recently the pyramid shape has attracted the interest of scientists in France, Great Britain and Czechoslovakia due to its abilities to dehydrate organisms. The Great Pyramid was also an Earth temple and, like Stonehenge, is oriented toward the vernal equinox.

The planet to the right in the picture is Jupiter. Jupiter symbolically is the great beneficent of the planets. It symbolizes expansiveness, and therefore philosophy and religion, those things which expand man's awareness of himself and his environment. Man during the Age of Aquarius plans to approach this planet symbolically and figuratively.

To the lower left is the moon. The moon symbolizes the lower personality of man. It is in the process of being conquered by man physically and philosophically. This is why the *waters of Aquarius* have surrounded it.

To the left, above the moon, is the planet Mars. Mars is a symbol of activity and energy, thus courage, strength and war. The *waters of Aquarius* reach out toward Mars, just as the nations of this world focus on that planet in space exploration.

The galaxy above Mars is like our own. Within it are contained millions of inhabited planets like Earth. A galaxy (Milky Way) has been used as a symbol for a path,

a bridge, a road to the Deity, the God within. It symbolizes the bridge to a higher state of consciousness. Aquarius looks toward this galaxy in hopes that altruism can be spread throughout the entire universe.

Inside the Great Pyramid is written in the languages of twenty-five nations, the words *Earth Day*. Beneath the Great Pyramid is written, in the same twenty-five languages, *vernal equinox*.

The vernal equinox is of special cosmic importance, for on that day the Earth's daylight period becomes greater than the length of night. From that point on, daylight increases until the summer solstice, when maximum daylight is experienced.

Symbolically this allegory relates the idea that light (daylight) has triumphed over darkness, knowledge has triumphed over ignorance, truth has triumphed over falsehood, and the God Self within man has triumphed over man's lower passions or earthliness.

BOB HIERONIMUS, artist, president and teacher of *AUM*, an open-school forum specializing in Aquarian courses, is the leader of *Savitria*, a beautiful in-city New Age commune, and is a Mark-Age Family member. He designed the 1972 *Earth Day* poster for *WE (World Equality)*. A future in-depth interview about Bob's life and works for the Aquarian Age is scheduled for the *MEET* section of a future issue of *MAIN*. Meanwhile, other articles on symbolism by him will be featured from time to time in this special section.

METACENTER NEWS continued from page 5

Europe for nearly two months. He will return to southern California to devote his full-time efforts to University Of Life. There will be a detailed report on his and Claude Guenat's functions in the April issue. Meanwhile are there any offers of accommodations by Family members in southern California for Francis and/or Claude for forthcoming works and lecture tours? Let us know via Miami headquarters.

Dear MAM broadcasters and friends in the light. I am Nada speaking. As you near the end of this six-week cycle, already predicted and presented unto your conscious minds as the most important and most horrendous turning point in the entire twenty-six-thousand-year hierarchal-program cycle, we know that you have seen the results and can now comprehend the purpose and the warnings for preparing that which we have put before you.

G
E

You would begin to understand more fully if you could view the entire planet as a place in space on which you were not a part and were not an inhabitant. But since you are, you almost never can have the totally objective viewpoint that is necessary and desirable in these readings of the last phases of the four veils that are left to be rent.

You have been told that it may take another two to four years for the entire mass consciousness to react and to respond and to reformulate themselves from these readings, and that is true. But we speak, those of us from a higher consciousness, to those who are alert and aware and awakened to what is about to pertain to the mass consciousness on Earth and the race of man, as well as all life form.

You must prepare yourselves in advance. You must look at all signs, symbols and marks of the age as they come to your attention. Leave nothing to chance. Leave nothing to happenstance. Forget the word *circumstantial* because it is not true that things are occurring out of hand upon the planet.

Δ "(Nixon and Kissinger) have a spiritual obligation to the planet, due to previous commitments and assignments...when the Atlantean civilization needed their particular functioning....Therefore, we have been able to arrange certain negotiations to take place within your orbit (Miami)...."

"Areas are more able to hold the vibratory influence of thought patterns projected out from individual sources when there is a geographic similarity or closeness, such as there is in the case with your presidential headquarters in the near vicinity of this actual broadcast and energy influence....We are asking you to reset the patterns."

--*Sananda through Nada-Yolanda; Miami, Florida; January 13, 1973, 7:30 P.M. (See: MAM Programs section in this issue of MAIN, pages 24-27.)*

Δ Henry Kissinger met with President Nixon later that night at the presidential home on Key Biscayne, Miami, Florida to finalize negotiations on the cease-fire treaty in Viet Nam.

The President returned to Miami on January 28th to lead the nation in prayer at 7:00 P.M., as the peace treaty was being signed in Paris. In his meditation ceremony Mr. Nixon mentioned that it was significant the time selected was 7:00, as seven is the biblical symbol for the completing of physical steps for spiritual completion. (See symbolism of the seven in this issue of MAIN, pages 6-8.)

Before Nixon and Kissinger departed for China in February 1972 from San Clemente, Calif., Mark and Yolanda were projecting success for their mission from their retreat in Laguna Beach, fifteen miles north of them.

LYNDON B. JOHNSON

Δ "Coping with East-West coordination is to be (President Johnson's) biggest contribution to the world, as well as to the American role in the political arena....

"The President will not live (long) after his term or terms of office. He will complete, or not, what he has come into this life experience to accomplish while in this position. His purpose for incarnation lies in the Presidency, and personal karmic relationships are not greatly involved....

"Therefore, there is little purpose to his remaining in physical embodiment for any considerable period of time outside of this office.

"In no sense would this be sad, as a soul has certain works to do, and after having done them (according to and in relationship with the forces that influence or contribute or benefit from that work or mission) there is no spiritual purpose served in retaining a material vehicle. The soul then progresses to higher degrees of expression, works, functions and vessels.... Although the soul may seem to fail in his mission, it may not be due to his own efforts."

-- *Nada-Volanda* soul intunement on May 31, 1965;
Soul Records of Heads of State (out of print).

Δ Former President Lyndon B. Johnson passed on at his LBJ Ranch in Texas on January 22, 1973 at age 64, exactly four years to the day he left office and only five days before the signing of the peace treaty in Southeast Asia. Peace had been his greatest hope and ambition, and proved to be the greatest stumbling block in completing his political career. Experts agree he was obsessed with finding a peace formula, but was blocked by others.

A close friend reported, "No man living ever wanted peace as much as he did." Mrs. Johnson announced that her husband had received a personal telephone call before his death from President Nixon, informing him that a final agreement for peace had been reached.

The organizing of his papers for the LBJ Library at the University of Texas in Austin recently was completed. Mr. Johnson lived in virtual seclusion since retiring from public office, and often spoke of his preparations for and expectations of his impending transition.

RE VIEWS ON

BOOKLETS

RIVER OF LIFE: Water, the Environmental Challenge.

(U.S. Department of Interior Environmental Report 1970, Catalog #I 1. 95:6-\$2.00 to U.S. Govt. Printing Office, Division of Public Documents, Washington, D.C. 20402)

This is an urgent and important message for all interested in the role of water on planet Earth for the survival of man and all life form. It is beautifully illustrated with full-color photos; as well as poetically written, in places.

It is the story of water as one of the four basic elements of Earth life, the quality of it and man's use of it for good in phases from food to power to recreation.

The concern of elected government officials (quoting Presidents, Governors,

Senators and Congressmen) outlines the U.S.A.'s contributions in providing dams and reclaiming arid areas for agriculture.

Since the people of Earth must be responsible for health of the planet, this is important reading for all of us, especially those in the ecology movements.

MAGAZINES

U.S. NEWS & WORLD REPORT. David Lawrence, editor of this national business weekly, appealed to the American commercial world: "Prayer can remind us of the presence of God inside ourselves. Prayer is an influence that can turn our minds from evil thoughts--from selfishness to unselfishness.

Then Lawrence emphasized what New Age workers, link-in their lights together, know and practice: "We need to awaken the American people to the fact

that this is an occasion for prayer, not only on every campus but in every home, every day -- a prayer that we may see the right course and carry out the mission which God wishes us to fulfill for human welfare. We have been omitting the greatest demonstration of all -- mass prayers by young and old together, so that we may sense the spiritual power which can bring salvation to the troubled world of today."

"Is it not time to accept the guidance God gives to those who seek it? Is it not time to stress a dependence on spiritual influence as the best way to achieve both internal and external peace?"

"We need God's help. It is available to us if we will only make ourselves aware of His spiritual presence in our lives...."

FILMS

STORY OF JESUS. Johnny Cash, famous singer from Arkansas, film star and pioneer for concerts for prison inmates, made a 90-minute feature film on Jesus at the holy sites in Israel and occupied Jor-

dan in order to portray "the man, as a real man, very human; and as a divinity, very divine."

Cash, who invested a half-million dollars himself, narrates and sings but does not appear in the film, explained his reasons: "The Jesus revolution is the best thing that's happened to America this century.... There was a great need in the United States for a spiritual revival, because the whole country was becoming so materialistic, so consumer-product minded."

"This movie aims to convey the message of the Christ: 'That you worship God and that you love your neighbor.'"

BOOKS

LAST WHOLE EARTH CATALOG: Access To Tools. Editor Steward Brand, winner of the 1972 National Book Award, does not expect to keep the book's \$800,000 profits. SPACE

VISITORS

INTERDIMENSIONAL

SPACECRAFT LANDINGS

MARK: This is a special hierarchal informational release to *MAM* broadcasters and the Mark-Age Family, as well as to any others also interested. Thus, we will take this space to talk with you about the space program of the Hierarchal Board.

As most of you know, the space program has been one of the most stimulating and informative, as well as intangible, aspects of the hierarchal plan and program, especially through Mark-Age. It has figured in countless talks, discussions, communications, publications and plans in and through and by the Mark-Age unit. We feel it is true that we at Mark-Age have been more concerned in all ways with *Operation Landing Light* than has anyone else on Earth, for it has been such an important and integral part of our operations.

So, we had been looking toward the actual physical landing of hierarchal spacecraft no later than 1972, and our concern increased as 1972 moved along. When landings did not occur -- although we had heard various alleged reports of such that we did not accept -- in January 1973 we began looking back over the Mark-Age communications pertaining to *Operation Landing Light* and to asking for further information concerning it from the Hierarchy; for we know that so often the mortal consciousness does not understand the true meaning of some of the communications, coloring them with logical reasoning or interpretations or desires.

The first such looking-back was to the communications excerpted in our book *Mark-Age Period And Program*. May we suggest you also review pages 181-184, especially in view of what is contained in this *MAM* broadcast? In

these communications in *MAP* we find, on page 184, that the goal had been *Landing Light* no later than 1972.

Of course, we know from hierarchal plan experiences, not only in this present era but from many lifetimes and plans in the past twenty-six million years, and particularly in the last twenty-six thousand years of the present hierarchal plan, that not all goals for the upliftment of man on Earth have been able to be met within the desired time; and a great many never materialized at all, or had to be substantially altered. But more of that a little later in this broadcast.

On page 183 of *MAP* is the excerpt entitled "Landing Light In Four To Seven Years." This specifically states that the Somaltic Command would bring about *Operation Landing Light* in the next four-to-seven-year cycle. This was delivered by Sananda on July 19, 1967. Thus, the full seven years designated would extend until the middle of 1974, which we also know now to be the rending of the fourth phase of the seventh veil.

As I said, we had been asking for Hierarchal Board comment on what the status of *Operation Landing Light* was, inasmuch as there had been no manifestation of it by the beginning of 1973. Without our further asking specifically about it, Sananda delivered a lengthy communication, touching on a variety of subjects, through Yolanda on January 13, 1973. I will give brief comments on several of the items he covered relating to the space phase, and will present most of his statements exactly as delivered through Yolanda, copied from the original tape-recording of the vocal channeling.

Sananda started by saying that they were aware of our asking about the space phase, which they had promised and which, he said, is still in the process of manifesting. He noted that much had taken place in the space program during the prior two or three months, but that such had not come to our attention as yet. He specifically stated that it is true there had not been any landings that would change the course of human events on the Earth planet.

SANANDA: As you have been instructed in the past, that which you send forth, that which you image, that which you realize, that which you decree and desire from spiritual consciousness and true motivation and emotional

clarity is to be made manifest physically, must be made manifest physically. For this is the divine order of things, regardless of whether you have seen this to bear fruit or not. It must eventually bear fruit.

Therefore, we have instructed you time and time again to remain as pure as possible in your motivations, desires and instructions. We have desired you to broadcast that which you truly understand from spiritual interpretation and spiritual needs and desires, which includes all mankind and all creations on the planet.

But we also have informed you specifically time and time again that that which will be made manifest through the further anchoring and physical landing of spacecraft physically can be horrendous and detrimental to a great many in the consciousness they are expressing at this period of their evolvement.

That means precisely, and as you must interpret spiritually: if you have a landing of craft radiating spiritual energies into mass confusion, you will destroy many vehicles, many mental balances and emotional forms as they are growing and perfecting through the cleansing process that becomes the New Age and the new era of vibratory frequency for all life upon the planet.

It is not in any way to deny your expectations or to pacify any future or past promises. It is an explanation of what is transpiring at the present moment. It is consciously recorded and received by you that we all, from the Hierarchal Board and the spacecraft commanders level, have endeavored to put every effort to *Landing Light Operation* by the end of 1972. This is as you record your calendar, and we still stand by our concept of time recorded by you.

But since you must qualify and interpret spiritually, according to our instructions for years and through your past incarnations and karmic evolvement of who you are and what you do know spiritually, you must correlate that time clock with all other matters that concern your instructions and understandings.

We might put it in this manner. Even though the calendar for your Earth planet at this time and this civilization records the fact that you have moved into a new year, it in no way means that we are hampered by or under the command of such arbitrary man-made rules and

regulations. And yes, this is not a stepping away from our promise and our instruction. It is merely a qualifying, instructional, corresponding corroboration of what we are involved in and what our responsibilities are.

MARK: Sananda went on to say that therefore we would have to follow suit on the physical plane. He likened it in part to Yolanda and I preparing to travel to southern California the first week in February 1973 to establish the *University of Life* branch-office operation.

He asked that if we were given the instruction to leave Miami on a specific date, but some outside event or situation occurred meanwhile that would endanger our lives or the future progress of the Mark-Age unit and its safety, would we still leave on that date, that had been given really only as a guideline, or would we use spiritual and intelligent comprehension as to adhering strictly to that date? Then he gave the following as yet another example.

SANANDA: If you were asked to broadcast out on a wide scale an announcement of a landing at a specific time and place, and then events occurred that would make this most difficult and hurt more than it would help, would you not be asked to retract or to back away from such a statement and a position as Hierarchal Board statesmen and spokesmen?

Indeed, you would use spiritual judgment, through your personal knowledge of events and reactions and situations, through the mortal consciousness of mankind with whom you are associated, even though in many cases you feel that association is one of aliens to your involvement and evolvment.

Again, we add another point in fact on this particular subject. In order to fulfill our prophecy, prediction and preparation, we have allowed and have permitted numerous events in the race consciousness via the inner plane receivings of *Operation Landing Light*. A number of influential people, concerned individuals, and broadcasting elements of consciousness have been given instructions in dream and vision and intuition, and in finding sources of information of an extra-special nature, during the predicted time we have allowed.

This was not a preparation for the outer manifestation of *Operation Landing Light*, but a substitute. This again is wisdom and truth, and the responsibility of individuals who can conceive of the importance of their instructions from Spirit and of the decisions of a Hierarchical Board nature when such an event that is given to you in the way of an international and planetary program is concerned; meaning that *Operation Landing Light* substituted in this manner for the time being in order to fulfill that which was prophesied.

We gave a time in which we coordinated and expressed our highest and dearest endeavors and goals; that was, that by the end of 1972 to proceed with *Operation Landing Light*. In order to fulfill that destined prediction and to fulfill the energy we had produced through you and through myriads like you around the planet, channels such as this one, we did allow for and we did project many, many inner plane experiences through dreams, visions, and the finding of materials in an unexpected manner, through individuals that can change the acceptance level for the mass consciousness.

This could not possibly be brought to your attention in a gross manner; and when I use the word *gross* here I mean by volume. How many people could you personally contact and communicate with, and ask them to recall their dreams and visions and their recent intellectual acceptances of these matters? But this has been via our influence. This is not diametrically opposed to freewill choice. This is not forcing certain issues that could harm or that would involve us karmically.

It is within our right and jurisdiction to do this, and we have done so in hundreds -- thousands, for that matter -- of cases. But you will not know all of them. You merely have been given enough symbolic references, and have received enough within this unit's comprehension, to accept this as a complete fact and truth.

-- Sananda; Miami, Florida; January 13, 1973

TEAR-OUT
BROCHURE

MASTER PLAN for the SPIRITUAL EARTH

We are created of Spirit. Therefore, we are children of this Spirit, or God, Light, Energy.

We have many forms and experiences in our eternal life. This solar system is but one of many. Within each solar system there are grades or planes of existence for lessons of life eternal to be learned and to be mastered.

Mankind is one species or race of this Creative Force called Spirit. We are a cohesive, unified whole. Separated into two sexes, several colors, many nationalities and religions, nevertheless we are one creation, the Son of God.

Lessons, laws, natures, talents and powers of the Son of God are revealed through the prophets and the sages of all races, religions and nationalities.

These have been the paths or grades or levels that now, in this present age or period of time, are to become unified once more, as they were and are and always shall be, originating from the Source of all.

So, it comes to pass now, in the season of spiritual rebirth, the Christ mass for all of mankind, that a new revelation and plan can be set forth. It is to

**SEE AND BE IN '73,
AND FOR ALL ETERNITY.**

This means to see one's spiritual Self as a reality and to be that spiritual or Christed Self in every thought, word and act beginning in 1973, and from then through eternity. The Master Plan is in five parts:

MAIN. The Father principle, giving forth the ideas, news and information. *MAIN = Mark-Age Inform-Nations*, the media aspect of the spiritual government as received through Mark-Age, linking the one hundred and forty-four thousand demonstrators of light and truth.

MAM. The Mother principle, which speaks the words and makes the decrees, sets the mold for action. *MAM = Mark-Age Meditations*, a broadcasting network of weekly programs for light workers who pray together in unison, meditating upon and decreeing for desired plans to

come into physical manifestation.

LIFE. The children of the Mother-Father Creator studying, working for and perfecting their mastership as true sons of the light. *LIFE = University of Life*, applying spiritual laws, wisdom and experience on this planet to the twelve departments of life as they will express spiritually in the New or Golden Age of Aquarius, in order to learn how to demonstrate man's spiritual talents and heritage as the Son of God.

The twelve departments or schools of *LIFE* are:

BEING: the study of the nature of Spirit, with development and use of the Christ or fourth dimensional senses and talents by the individual.

EDUCATION: the institution of spiritual educational programs and systems.

GEOPHYSICAL: the study, control and development of land, sea and space.

GOVERNMENT: the study of the spiritual, inner plane government of our solar system and how to pattern local, state, national and international governments on the same principles, ideas and experiences.

GUIDANCE: assistance in determining courses of action for individuals, organizations and governments based on spiritual laws.

HEALTH: teaching eternally perfect health of mind, body and soul and how to attain and to maintain it.

LIVING: increasing the enjoyment of abundant spiritual living through entertainment, recreation, fine arts and other means.

LOVE: instruction and demonstration in the nature and use of divine love in personal relationships on Earth.

PROTECTION: the invocation of divine protection and the teaching of how to secure it for one's self and others. This includes weather and other natural-environment needs.

RELIGION: the practical metaphysical interpretation of all true religions, in a nonsectarian manner.

SCIENCE: the bringing forth of spiritual-scientific principles and products.

SUPPLY: the teaching and demonstrating of man's ability to control material needs and products, both natural and manufactured.

HEALING HAVEN. The purifying methods of the past-life record and of the present embodiment of each one are necessary to make ready for the coming new vibration, the fourth dimensional frequency, which is the expression of Christ or cosmic consciousness through mortal man. This must be a coordination in practical application of all known healing techniques to re-create the whole (holy) person: soul, mind and body under one Spirit.

CENTERS OF LIGHT. The New Age vehicle for carrying out the Master Plan in local communities is through individual and independent centers which disseminate the tools and facilities of the first four functions, which teach and demonstrate how to manifest individually and locally a new spiritual life for all on the Earth planet. The Centers of Light are coordinated and linked through *MAIN* magazine and the *MAM* network of weekly broadcasts.

PARTICIPATION

There is no one on Earth who cannot participate in helping to bring about a spiritual Earth. Since each one is created of Spirit, the individualized spirit within each has a plan, a goal, a part that must be played in this Master Plan which equally concerns each and every one.

MAIN. No matter where you are, who you are, what your personal background, you can become informed of the news and the developments to spiritualize the Earth and can share this good news with others.

MAM. *"Where two or more are gathered, there I Am."* The spiritual and the physical you are the two gathered to pray, to decree, to call out, through mind-to-mind contact and linking, the plans and desires for the spiritual blueprint in every department of expression of life on Earth.

LIFE. Regardless of age or past education, each one has lessons to be learned for advancing his spiritual unfoldment. Lessons are for each one's individual pace and abilities; even the infirmed and retarded, for all are sons of God.

HEALING HAVEN. Each one is responsible for learning how to heal himself and others in soul, mind and body, for all parts are interrelated. "*Be ye perfect, as our Father in heaven is perfect.*"

This is a service needed by all, and for all to share with others, for the world is sick because men's souls, minds and bodies are sick.

Only by healing all these aspects in coordination, especially soul conditions, can we have a wholeness (holiness) as true children of our Creator. Soul-healing is the basic underlying principle behind all the other functions. Therefore, *HEALING HAVEN* serves all the other functions and activities in the Master Plan.

CENTERS OF LIGHT. This takes leadership, training, willingness, humility and experience. In this we aid each other, share information and experiences, by developing educational centers in which we can utilize all the tools developed through *MAIN*, *MAM*, *LIFE* and *HEALING HAVEN*.

O P E R A T I O N S

All five functions already are in operation. This is not a dream. It has been planned by the masters of wisdom, the masters of spiritual sciences, for the past one hundred and fifty years of our recent historical time. So, it is in partial operation now.

MAIN has issued monthly educational and informational news and teachings since June 1960. In January 1973 *MAIN* magazine was launched to cover news, information, educational and spiritual guidelines for the linking of light workers and groups throughout the planet in preparation for the Second Coming and the New or Golden Age of Aquarius.

MAM was inaugurated in May 1972. It features a weekly, fifteen-minute taped broadcast on topics of current hierarchal-plan news, developments and information, activities of other participants, spiritual space program, Second Coming, spiritual analysis of worldly current events, and so forth. All network broadcasters play the identical tape program during the same week in homes, schools, centers, churches and private meditation groups. This simultaneous action reinforces prayers,

decrees and visualizations of thousands around the planet, unifying and linking with the one Source, God.

HEALING HAVEN. Since before official operation of Mark-Age began, the directors and the associates have been engaged in healing methods and spiritual techniques. From 1960, soul, mental and physical healing has been one of the predominant efforts daily by the Mark-Age Health Department for all members and participants. Natural living is the fundamental policy consistently recommended for all who are associated with our activities.

Also, since 1960 the Mark-Age Science Department has researched new and advanced techniques in aiding mental, physical and soul healings. None of this has been publicized. But, beginning in 1971 the two departments together began to develop plans for seminars, councils, retreats and havens where these methods can be demonstrated and taught to those who work in the healing professions.

Properties, buildings and facilities are being gathered and New Age healers are being introduced and linked for future coordination.

CENTERS OF LIGHT. Mark-Age MetaCenter in Miami has been a public center of information and education for local workers and for visitors from around the world since 1960.

Until the present we have inspired, have directed, have taught and have encouraged light centers to open and to operate in various nations. None of them are controlled by the Mark-Age organization, but many throughout the planet coordinate with our activities and seek our guidance for further developments, growth and operational procedures.

This is part of the spiritual government's direction to link light workers and groups under the Hierarchal Board's plan and program for Earth: *The Master Plan For The Spiritual Earth.*

The tremendous acceleration of interest in spiritual, occult, metaphysical matters among many peoples and classes of Earth lately has been a direct result of the concentrated and deliberate prayers, decrees and visualizations of thousands of light workers since 1960. This is a demonstration of effectiveness and the

potential of *MAIN* and *MAM*.

The need and the desire for opening new centers of light in every community on Earth has multiplied beyond measure. Mark-Age is consulted daily for methods, techniques, tools and materials for this purpose and need. (See our *Group Guidelines For New Age Light Centers* booklet on organizing, conducting and participating in New Age groups. \$1.00.)

Here again we offer *MAIN* publications, including the new magazine issued ten times yearly, communications booklets, hardcover books, our own as well as recommending basic texts of other groups, organizations and publishers for this hierarchal plan and program.

MAM tapes are played frequently, day or night, to varying levels of study groups and meditation sessions, and lent to those who are confined.

UNIVERSITY OF LIFE literature is being developed for these centers and study groups. Three textbooks available are our *How To Do All Things, Your Use Of Divine Power; Evolution Of Man, 26 Million Years On Earth;* and *Mark Age Period And Program, Entrance To The Golden Age Of Aquarius.*

At least three other hardcover textbooks are ready for the printer, with about six more manuscripts being prepared at present, one of which includes *Primer For The New Age.*

Teachers and administrators of considerable academic background, but also with high spiritual qualifications and dedications, are in the process of developing courses for all grades of understanding and levels of unfoldment. (See our *University Of Life, A New Age Open School Teaching Mastership Of Life* booklet covering the twelve-year mass educational program under the direction of the Hierarchal Board. \$1.00.)

WHERE ARE YOU?

The time is short, and all must become informed, awakened, prepared and cleansed to go into their Sonship relationship with God and their brotherhood relationship with all other creations on Earth. That is the function and the purpose of the Age of Aquarius. One hundred and forty-four thousand light workers must begin to:

**SEE AND BE IN '73,
AND FOR ALL ETERNITY.**

Therefore, needed immediately to implement this *Master Plan For The Spiritual Earth* are:

1). Trainees to learn how to work in the light, for the light and with the light.

2). Funds to expand the five phases of operation which now are functioning, in one degree or another, as already outlined. These funds will help in connecting or linking with other light groups and workers who are complementing and supplementing either the five fundamental operations or one or more of the twelve basic departments or schools of life within this plan for spiritualizing all Earth expression in the New Age.

3). Teachers who are qualified and have proven their talents and merits in preparing new courses, opportunities or classes in all areas and functions mentioned.

4). Properties, buildings, equipment and services to implement the growing needs in spreading this good news of the Second Coming and the New or Golden Age of Aquarius.

1 9 8 3 G O A L - M A R K

It was revealed to Nada-Yolanda during the Apollo 16 and 17 flights in 1972 that the spiritual purpose behind these Earthman-on-the-moon landings was to coordinate and to link with a wave of new souls who desired to be born onto the Earth. These are astral beings waiting on the way station of the moon for Earth vehicles they can occupy during the next twelve years. (See our *Spiritual Space Program* brochure, 35¢; *University Of Life* booklet, \$1.00.)

These groups of souls are of a higher, more spiritual nature than is prevalent on Earth today. They actually are the new race for the New Age of Aquarius. Their level of soul evolvment is of the fifth and sixth astral planes, where spiritual understanding and demonstrations are accepted facts and daily expressions.

Their natures, needs and desires will require opportunities for them to relate to and to align with, and to aid them in preparing for third dimensional Earth

living, with its incoming fourth dimensional consciousness; which normally expresses as cosmic consciousness, with the inherent spiritual talents of true sons of God.

Therefore, the light workers now incarnate upon the Earth in positions of authority, power and understanding must make the planet and its facilities, in all aspects of daily living, ready and spiritually functioning for these new groups of souls who already are beginning to incarnate.

The children of the next twenty years will recall from their soul memories and karmic patterns the decrees and the instructions from the spiritual government of our solar system to set forth and to establish a new heaven on a new Earth.

Our responsibility is to provide the means and the teachings gleaned from the best of all spiritual sources since the beginning of time on this planet for them to use and to apply in their special soul missions in order to fulfill *The Master Plan For The Spiritual Earth*.

A U T H O R I Z A T I O N

The background directions, the information and the spiritual blueprint for accomplishing the Master Plan were given via consciously channeled mental-telepathic communications through Nada-Yolanda, primary prophetess and channel for the Mark Age period and program.

This has been published separately in a series of discourses from the spiritual government (Hierarchal Board) of our solar system, comprising those ascended masters, so-called saints, and angelic guardians who supervise the soul evolvement of all individuals and of the race as it grows, learns and develops on all planes, planets and dimensions of our solar system.

The Master Plan For The Spiritual Earth is a soft-cover booklet provided for Mark-Age Family members and supporters (those who contribute \$15.00 U.S. or \$17.00 foreign, or more, yearly to our activities), or available for \$1.00. It contains the authorization, the guidelines and the directions of the Hierarchy to the light workers of Earth as received during late 1972. All who work for the betterment of mankind on Earth should read it and use it now.

MAM Programs continued from page 9.

All things are happening within the hand of fate, karma, cause and effect, call it what you will. For that which is happening to you individually and to the race as a whole is part of a pattern that must be examined and worked with.

If you find negligence, negativity and error conditions, then wipe them out instantaneously in your thoughts, in your emotions and in your physical lives. Otherwise, the consequences will be more severe for those of spiritual consciousness than they will be for those who are not aware that the program is actually in effect and coming through the last, most difficult phase of its preparation period.

You who are of the light and centered in the Hierarchal Board's concentration must know that you are in the act of demonstration and manifestation. Therefore, you are responsible unto your higher Selves, to Spirit above all, and to the karma of the race, to bring about this full-manifested and blooming glory of love in action.

I have given my authority unto this channel, which is my own instrumentation and externalization of physical being, for the light form to be made manifest in this era and time now ahead. That means many horrendous experiences and awarenesses are to be forthcoming in anything less than light, love and truth.

If this be so for one, may it not be so for all others? If this be so for an individual, will it not be so for an entire race? Collectively speaking, if you join with this light bearer which I am and through which I work in this way, you amplify it, broadcast it and bring it to bear in multitudinous ways with manifested magnificence wherever you shed your thoughts collectively and your good will in unified manner.

That is all you can do and that is all that is required of you as we face the most difficult era of time in the entire planetary change-over from third into fourth dimensional consciousness. You must be aware of this personally and collectively.

That is why I require, and broadcast in this manner, that you alert yourselves and bring about a fully manifested truth vehicle, not only as an individual through whom I am

speaking but as a collective unit. The MAM broadcasters are that collective unit of light. The MAM broadcasters must magnify this light, this truth and this energy focus.

If it comes through singly, then a single individual is responsible for the consequences and the reaction. No one individual may be held responsible for that mass reaction. It is not possible. It is not part of Spirit's plan.

The plan of the Aquarian Age is to bring about unified, collective, coordinated and cooperative action and thought patterning. Therefore, we begin as a unit, through this particular vehicle; and here I am not speaking of the personal vehicle, but the vehicle of the collective unit known as the Mark-Age Meditations network.

You who are the broadcasters of light working in this magnificent way can bring about the change-over, and will help to bring about the change-over, taking a collective responsibility now through this light focus of collective energy focuses; not one individual, but one individual united in and through a collective consciousness of purified beings dedicated to a single purpose that makes a single light and an individual unit.

That will be your understanding and that will be an exceptional result by your analyzing and interpreting the signs of these past six weeks of agony, of horrendous changes, of simple and courteous posts that come to your attention. As you travel any road you watch for all the signposts. These are to what I am referring. So, watch the signposts on the road to this glory that you are traveling as individuals and as a group or individual unit of light.

The signposts are everywhere around you, in your lives and in the lives of all others. This must be your responsibility. It shall be our responsibility together to point them out, to analyze them, to work for their expression on the outer where good is made manifest, and to root them out and nullify them where they will not work for good and higher functioning for all equally upon the planet. I ask that you individually and we collectively meditate upon this point un-

ceasingly from now until the end of this century. Amen.

TURNING-POINT DECREE

MICHAEL: I Am that I Am, so speaketh the Lord God in Jehovah, light consciousness. May you now begin to express what has been in all eternity, and from the beginning and will be through the end time. We are not supposing any circumstances which could ever alienate or alter this course.

We begin first by seeking that light and recalling that image. For what we see must be. I am Lord Michael addressing this conclave of Hierarchal Board spiritual associates in this rending of the fourth phase of the seventh veil.

Regarding all light workers and program servers, I challenge and decree that this effort and this moment be marked and act as a turning point for ever and ever in you, and that what is in you may be amplified and broadcast unto the masses of humanity who do not know of this approach and concept, but can be and will be awakened by your concentrated efforts and undeviating principles.

Because of you they shall become what you see for them and know eternally are their rightful places and heritage. You may never see otherwise. You must begin now, as of this moment, and not deter a single second in that time, from this moment forward, in seeing what must be in 1973.

I adhere to this. In my adhering to it, it adheres to you. In your adhering to it you make it become necessary and probable and inevitable for all who follow in your footsteps.

Let me make this perfectly clear unto you all who seek this guidance and know this knowledge from within. You are stepping forth as light workers and program servers from this moment of 1973 to begin to rent the fourth phase of the seventh veil. But since you will not see it manifesting physically and mentally and emotionally in your personal, physical lives for some months or years, you cannot neglect or

deter from that route that you have selected, and which we support you in because you have selected rightly and have intuned properly.

It is a difficult situation, in all cases, to adhere to a route or a road that no one else can see except those who are your family of God and your fellow light-servers and program workers. You therefore more and more will become dedicated to each other.

You will be like the Master Jesus in Palestine, saying to his mother and father, his sisters and his brothers: Who are my family members, but those who seek and do the will of God? He could not turn from those who followed the same route he was following, in order to serve anyone or anything less than that decree and determination.

Even though his parents and his family and his closest and dearest friends, in and through all the roads and the byways that he traveled and traversed in his ongoing mission, knew of the coming messiah and believed in the miracles and wonders which he personally performed, they all still had not dedicated all of their time and energy to this mission and this role; whereas other disciples did cease and desist in their efforts of mortal ways and sought only the spiritual role, the spiritual conditions and the spiritual services he was teaching and demonstrating in his life in that span more than two thousand years ago.

But now your time has come. Your demonstration is here. Your fulfillment must be the renting of the fourth phase of the seventh veil. Until you take that first step on the route toward this destination you cannot expect to reach the goal and the end sphere of it.

Be then cognizant that your traveling companions are those who are as dedicated as you are, and that you must adhere to them and their wills and wishes, to their roles and their missions, to their exceptional single-mindedness and desire to bring this goal into view for all mankind to see. For what those light workers and program servers see will be, not only in '73 but for all eternity.

Again, be like Jesus of Nazareth when he cried out, 'I,

if I be lifted up, lift all men unto me," meaning that where you reach in consciousness, what you demonstrate and fulfill for your selflessness will be as a road sign, a post mark for all others to reach and to use as guides.

Let this be your line of demarcation in everything you do. What you do, what you think, what you say, what you desire has to be a signpost and a demarcation for all others to come into view and to handle and to expect. For if you were beating a path in a wilderness, hoping others would follow, would you not put signposts that were readable, and helpful and exceptionally clear, in order that others might not fall into the traps and pitfalls or meet up with the dangerous areas that nearly had destroyed you or had hurt you or had bewildered you on this particular and difficult road? You know this would be common sense and is practical.

Therefore, is it any less practical or is it less sensible for you to do this on the spiritual route toward human destiny and fulfillment, which is the Christ within? I Am that I Am, so speaketh the Jehovah witness within you, the Christ speciality that you are and must be for ever and ever. Amen.

I am Michael, the titular head of the solar system Board of Directors guiding the evolutionary race into further evolution, further consciousness, further service and further satisfactions of God expression in mortal developments.

A decree and announcement from my position and consciousness, therefore, makes it mandatory for every soul within this solar system to follow and to adhere to. This means, then, from this date and moment in time and for all the ensuing moments and time throughout history until all reach Christ consciousness, you must enjoy, and enjoy with one another for, this mission.

It must be explained to you, in your consciousness, that when a hierarchal decree and announcement goes forth as in this instance, it sets a pattern and a vibratory frequency that cause all souls within this system to hear and to reverberate to its resonance, in order that they vibrate to it and respond and recall it within for manifestation without.

This also is the seeing and being. The resonance of this decree causes a memory pattern within to be visualized and accepted. Once visualized, once felt, once accepted it becomes that in action, wherever you or any other soul are expressing in outer form. That is the impact and power of such.

It is also the grave responsibility that such as I, in this Hierarchal Board role for the present moment, enact and am responsible for. But I am responsible for it unto all living creatures. And all living creatures are responsible to me, as I am responsible for them, for this purpose, this goal and this inevitable destiny. I Am that I Am means that what I am must be existing and resounding in your spiritual, I Am Self. Om. Om. Om. So be it. It is done, according to my word, decree and spiritual I-Amness.

MARK: On January 23, four days after reading this message and just after President Nixon announced the Viet Nam ceasefire, I was looking through our *Mark Age Period And Program* book. On page 124 is the message from Lord Michael announcing the opening of a ten-year cycle of demonstration that would be the most essential turning point of karmic evolvment for any soul on Earth, that would involve millions of years of future incarnations. Please read this, dated June 19, 1963.

ENDING OF WAR

YOLANDA: On the night of January 13, 1973 I was contacted by Sananda; along with Katoomi or Lord Michael, titular head of this solar system's spiritual government. This occurred just a few hours before Henry Kissinger, personal emissary of President Nixon to the Paris peace talks on Viet Nam, arrived in Key Biscayne, suburb of Miami, to begin final talks for what was to become the cease-fire treaty. Here are excerpts from that discourse by Sananda, which also covered other topics.

SANANDA: You have been called together, and meet with my forces in ship #10 over the hierarchal focal point of spiritual Atlantean vibrations, in the Miami headquarters of Mark-Age, in order that special features and discourses, thoughts and programs be channeled to the president of the United States and his personal emissary for peace negotiations in the Southeast Asian portion of your globe known as Earth. It has not been happenstance or coincidental that many negotiations and projects have taken place in this (Miami) immediate vicinity or area.

First of all, they both have a spiritual obligation to the planet, due to previous commitments and assignments that were not handled properly or spiritually when the Atlantean civilization needed their particular functioning. Therefore, you are being instructed and informed at this time that these two souls are old inhabitants of this area, obligated to one another, to the race of man and to the planetary governmental political forces that come and go, rise and fall, reach peaks and decline in eras known unto you for your Earth historical data.

There are no two situations that can occur more demanding than peace in Israel and Egypt and peace in Southeast Asia. These two areas of conflict represent some of the most karmic, horrendous ever to be visited upon your planet in recent history, because of the modern technological advances.

That is why it has been brought to bear upon you in the Miami spiritual headquarters to work upon it, for it relates to similar tides and times when Atlantis was being washed away because of its error conditions and faults.

We know we could and should give you some historical evidence for this, but more important matters at this time cannot be postponed. Therefore, we wish to get on with the essential concepts which have to be relayed in this conclave and confidential session.

Mighty and more forceful and fearsome forces are in readiness to take advantage of the planetary situation as it exists now. But this may not be permitted. According to our

decrees and announcements through this unit and particularly under Lord Michael's instruction to El Morya in past broadcasts, he is to visualize and to realize, broadcasting daily, the end of all armed conflict of a global nature, which affects all of the spiritual progress of mankind upon the Earth at this time.

Therefore, we have been able to arrange certain negotiations to take place within your orbit of influence. That does not mean that your thoughts cannot be projected to the ends of the universe, if properly conceived and with the right energy, emotions and consciousness, where they are applied for the highest purposes of all creation involved in those expanses.

But it is obvious that symbols are used, areas are more able to hold the vibratory influence of thought patterns projected out from individual sources, when there is a geographic similarity or closeness such as there is in the case with your presidential headquarters in the near vicinity of this actual broadcast and energy influence.

For years we have tried to instruct you and to show you that your energies, thoughts, projections and auric influence are mighty when believed in, worked at and protected. But unless you have the faith and the energy to perceive this and to accept it in the context in which it is given, then you cannot always appreciate what we see and what we know to be on the Earth through the influence of the spiritual, mental and emotional energies set forth in that higher consciousness which you portray and must evolve to in all cases.

That means we wish to use this unit for the solidification of these plans and negotiations as much as possible. It had been brought to your attention through this channel and the channel we nominate as Astara-Astrid, second in line and command for receiving hierarchal broadcasts and energies through this unit's influence.

When Astara-Astrid and Nada-Yolanda were in the vicinity of Orlando, (Orange County) Florida, we anchored Seventh Ray energies to be broadcast out for this particular purpose. That was in the period just prior to your celebra-

tion of Thanksgiving or harvest cycle. All of you are familiar with the energies we asked you to participate in at that time.

It was solidified, it was anchored, it was conceived of in truth and purposefulness, because the area we just have named in central Florida is energized by certain spacecraft forces through the lake area that is typical and singular in that case or in that area physically.

For years we have instructed those of this unit that much good and much purposefulness was indicated for the Orange County area. So you have seen it come to pass. Although you have not seen the outer manifestation on the physical plane as yet, you will, in time and with patience.

So, backtracking to that period of time and updating up to this moment of historical energy, January 13th at 8:00 P.M. E.S.T. in Miami, you have an historical event taking place that shall change the course of Earth's history, as you now politically know it.

If that is not for your own confidences, insights, convenience then it is not our concern to deal with the differences in the consciousness and the application of it; meaning here, specifically, you are not called to this conference, you are not part of any presidential advisory committee. But that is not the fault of our energies, and projections and desires, and shall not occur in the immediate circumference of time; but may, as your future roles and missions demand, if the planetary plan proceeds according to our desires and intentions.

YOLANDA: During the next two days we at MetaCenter worked spiritually with light projections for all the negotiators and officials concerned with completing this peace treaty in Southeast Asia. On January 15th there was a halt to the air raids on North Viet Nam, and on January 23rd Henry Kissinger, as representative for the president of the U. S. A., initialed the cease-fire treaty.

WAR IN THE SOUL

YOLANDA: Wains (James H. Speed in the present incarnation) and his wife Lillian were touring the Holy Land during Christmas week 1972. On December 27th he placed a telephone call to MetaCenter in Miami to El Morya-Mark, representing the will of God on Earth. On the night of December 29th, during a public meeting at MetaCenter, Wains in the high Self channeled this discourse through Astara-Astrid.

WAINS: I greet you, my family of light.... I as spokesman desire to speak of the war in the holy land, that which is in the soul of mankind. It is that soul that has irreverent and difficult degrees of relating to the past and to the future that is this particular subject. Man, in his soul cleansing of karmic patterns and ties, is now finding that much uprooting and systematic change are due him. He is learning to look inside, to evaluate, to return the dues due to Spirit, and to eliminate all that is not for spiritual activity.

It is rather ridiculous for sons of God, who are incarnated upon this planet Earth, to be embattled in a physical, bloody affair over soul karmic patterns. But this nevertheless is what faces mankind, and will face mankind until it is laid to rest and brought into an area of correction and degree of elimination.

Embattlements raised, and working in defense from another's embattled defense, distrust, miscalculations, apprehensions and fear, run rampant across the nations and signify upheaval. This upheaval is necessary to alert man to the ridiculous nature where he has placed himself.

When you view war as we view it from above, you see in it this ridiculous and sickening situation. For it is a sign that hatred still is embedded within the hearts of man. Distrust, and unbelief in the Father-Mother God Creator in every particle of that particular ailing area are still in view. We long to hold each man close to us so as to comfort, to love, and to eliminate all fear. It is within man that this hatred lies, that these areas of imbalance are housed. This must be uprooted.

Although war as a symptom of underlying cause is still predominant upon the Earth in many lands, the most sickening one to the hearts of those who seek good, seek God, is that which is in the Holy Land, for it signifies what was to be the New Jerusalem so long ago.

We have found that this still must be cleared up and be disencumbered from all soul karmic records. Each person who does love God within himself and each other soul knows of that which I speak. For we in truth are here to work upon this planet that has these ailments.

As the turmoil and the upheaval do take place in each person's life, as well as in nations, you are to hold fast to your protection, to hold fast to your strength and indivisible nature, and to know that this nature is embedded in the Godhead. You are to realize that it shall come to pass that war will come to an end; and, as all has been uprooted, cleansed and transmuted into light, the Earth shall know peace.

But because this processing may take some time, you as strength bearers must hold this light, must hold this vision of truth to come, and let the seething, the boiling and the uprooting take place. You have no recourse. This is your action from this day onward: to hold the view of the future outcome and to let these items aforementioned occur and cleanse.

Because difficulties upon the Earth must be brought to the surface, you are not necessarily to react to them but to act because they are there to be worked upon; to act sensibly and spiritually to lift and to cleanse and to enlighten each one, each factor, each item so presented.

As this is seen symbolized and rightfully cleansed you shall see the overturning, and the humming of perfection enter into a healing stage, and a haven be made for the rest period that we all so anxiously await.

The land of the holy lies within each of us. We must make sure and positive that no war, embattlements, defenses, emotional turmoils or sickening natures lie within each one of us. For we are sons of the light. We are holy in His eyes.

We must cleanse all that enters our insight, to become unencumbered and lifted. To be effective we must effect change within. To be strong, invincible, strength bearers of light we must as one mind unite and see that we be raised in purity and in total dedication to that aforementioned perfection we have patterned ourselves to become.

As a master is above, so must he be below. To be a master coming from that direction upward, he must unclasp the attitudes, the disagreements, the apprehensions, the insecurities and all that is holding him anchored to mortal, third dimensional frequency. He must keep his anchor in the light and through his physical body simultaneously.

This is what you are working on, and this is what I am working on through my physically embodied personality. For we are joined together in like purpose and are in various shades and stages of this lifting process, and need each other desperately from that level to hold the insight and vision of perfection so we might dwell evermore in His kingdom.

YOLANDA: Two and a half weeks after this discourse by Wains, Prime Minister Golda Meir of Israel held an unprecedented diplomatic meeting with Pope Paul at the Vatican. Three weeks after Christmas, King Hussein of Jordan said, "The time is right to seek a Middle-East peace settlement Another war would be a disaster The world is in the mood for peace and fruitful cooperation." So be it.

CATASTROPHIES

MARK: MAM broadcasters, Mark-Age Family members, other light workers and all mankind of Earth, the subject of this MAM program is one of tremendous interest and concern to all of us.

We know we have been in the latter-day period for the past twelve years, at least, and will be in them until the Second Coming of Sananda as Jesus the Christ, around the

year 2000 A.D. Those of us who have been aware of the hierarchal plan and program, as taught and demonstrated by Mark-Age and many other light groups and workers throughout the world, have been aware of the catastrophies prophesied since the late 1950s, at least.

At first we interpreted these catastrophies to mean primarily natural ones on the physical plane, such as millions of people being lost in such dire events as earthquakes, tidal waves, wars, plagues and other horrendous things. And millions indeed have perished from these in the 1960s alone.

But soon we came to realize that the really horrendous — which means horrible, dreadful — catastrophies prophesied are those occurring in the mental and emotional bodies or natures of man. We were told from higher planes that these were the catastrophies referred to, not just the physical ones. For far more happens for both good and bad in the mental and emotional realms within man's consciousness than ever manifests in our physical world.

The same is true with these prophesied catastrophies. We are told many of these horrendous catastrophies need not manifest if man would set his mental and emotional house in order. Let us hear from Nada on this, as delivered on January 17, 1973.

NADA: A blessed balance to all Mark-Age Meditation network participants. I have been asked by Hilarion to speak to you on this occasion as Nada of the Karmic Board because issues are arising concerning the health of the soul of mankind. Our obligation as projectors of light and a unified unit of light broadcasting Hierarchal Board decisions, needs, announcements and decrees is the obligation of all who participate in this light network.

Hilarion, as you know, is the chohan and director of healing vibrations under the green ray of the Fifth Ray of healing, balance and unity. So, of course, he is concerned, and issues forth his desires unto me, that unity be our purpose as a band or a group of light servers on Earth; but, more than that, to unify with our own Christ Self within and to endeavor in every effort to see that all mankind is uni-

fied with his higher Self within, regardless of what it will take and how difficult it may seem unto the mortal, physical, emotional and mental strata of mankind expressing on the Earth planet in these end days.

Therefore, in my capacity as a member of the Karmic Board which reviews the history of man personally and collectively, I too see this great need of the Fifth Ray aspect of healing and karmic cleansing. In this sense we work as one for this overall goal and purpose.

You, unified with us and part of this MAM network, work in a unified, balanced, harmonious way under the Fifth Ray auspices and in cooperation with the Karmic Board for your own evolvment and for the expression of man from a physical, mortal expression into a spiritual, immortal expression; which is what the Mark Age period and program is all about.

Now you see around you all manners of problems, difficulties and catastrophies. What catastrophe? some of you say, particularly those of intellectual consciousness or skepticism. What, the usual catastrophies that mankind always has had around him since the beginning of time? Or are you more perceptive, and can you see finally that the catastrophies predicted and prophesied for thousands of years, in all scriptural references, are the catastrophies of mind and soul, particularly?

Yet, even the body will respond to these catastrophies upon the Earth, for indeed the mental stress and strife of mankind are almost more than the race can bear. Many individuals are not balanced, even though they operate in some manner according to physical requirements.

The pollutions in the Earth today are so severe as practically to destroy the plant, animal and physical life of man as he is expressing now. Of these catastrophies do we speak. You must see and know that all of this is not physical karma, nor mental misimaging, but is karma in a very extreme sense of soul conditions being brought down to bear upon the physical, mental and emotional lives of those who are presently incarnated on the planet.

Those catastrophies are the ones to which we are referring. Many avenues of service have been opened to mankind to alleviate these soul karmic conditions, for he brought about these conditions by past civilizations, societies and ideas of error and wrongdoing from other eras and places, and because of his stubborn adherence to physical laws rather than to spiritual ones.

These things are very acutely concerning the Hierarchal Board, incarnate and in the etheric planes as well as those in the angelic, celestial realms. Therefore, although we have assisted in bringing this information in a general way to most conscientious, spiritually minded individuals on Earth, too much of it has not been broadcast out, refined properly, cleared and cleansed from the idea intended and practiced in the highest spiritual intentions.

Yet, all of this will change, in time. In the first place, and most important emphatically to secure, is that the karma and soul problems of man are the cause of the physical, mental and emotional problems now prevalent and which we term catastrophic on the Earth.

Therefore, you who are of the light must begin to see and to project the cleansing and the purification from the soul karmic aspect of the individuals involved, and the race as a whole. For this we require united strength.

This is where the Fifth Ray under Hilarion, and myself as the Karmic Board member incarnate, have to work together and to urge you, all of you, to work together with us. That means we must project and protect all that is right, good and harmonious wherever we see error or difficulty and disharmony.

If in your own consciousness you see and you know an area that needs cleansing, work first and foremost for the soul karmic condition. Then, watch from there that, with the spiritual injection of light and the highest purpose of divine law in action, you will have the manifestation corrected mentally, emotionally, and then physically.

Unfortunately — or perhaps we should say fortunately, since it is divine order and harmony — the physical aspect is the last to respond to this injection and projection of the

light form and force. So, although the physical seems usually to be your utmost concern and problem, it is not so. That will correct itself, provided you each individually and all of us collectively will work mentally and emotionally with spiritual law in mind.

Let us then go into meditation seeing this horrendous battle between the dark side of our condition enlightened by the truth, enlightened by understanding, enlightened by love. For love is the key to all things. Should we love the God within us as much as we love the mortal realm in which we are expressing, all things would be properly balanced and automatically corrected.

But until we can raise ourselves up to understanding what this portends and takes in the form of discipline, we will have to wait and to work through and to suffer extremely.

Yet, this suffering cannot go on forever, and will be alleviated as soon as we as a unit of light, the Mark-Age broadcasters of light through the MAM network, bring this in a unified, collective manner to bear upon the entire race. Then we can see the results, we can accept the law of balance and see the harmony express outwardly in every form of life upon the planet, including the mineral, the vegetable and the animal kingdoms under us.

You have this pattern and security in you. Now is the time to express it outwardly and to fulfill the mission for which we have come. On this occasion it is my prerogative to announce that two years of time will be required to help formulate this pattern. Many will suffer and many will pass on to other realms, due to the error conditions now prevalent and the fact that a great many aides and assistants that are being prepared to help overcome these conditions will be thwarted in their efforts.

So, it is our problem and our challenge — and don't we all prefer that term *challenge* rather than *problem*? — to correct this condition and to lessen its effect and, God help us, to shorten the time. For man needs every aid and assistance in cleansing the karma and the soul problems he

has brought about himself. No one has a problem that he is not able to correct or that he has not helped to contribute in making this what it is.

Therefore, we seek the assistance of God within, the Hierarchal Board that loves and guides us, and we seek each other everywhere we can find the light and the beacon of truth that shines for us to connect with, to link with, for we are the linking of lights in action. Amen.
