# PLANT A NATION

## Birth Of The New I Am Nation On Earth

Sananda to El Morya and Nada. You have come to this area (southern Florida) for planting a new spiritual nation. Now it unfolds to your conscious minds and memories. Let it begin.

I have given all the information required to begin to implant what is spiritually proper and good for the race of man now evolving from third-into-fourth dimensional consciousness. Therefore, in your roles, anchored and solidified, as the race representatives of conscious-will and subconscious-memory, you must do our work as one unit for its execution on the physical.

As you receive fourth dimensionally what I send and is in your memories of superconscious identities (I Am Selves) for the Hierarchal Board government of our solar system, you then are required and are capable to plant down in the Earth third dimensionally that which is of God's only plan and only desire: to bring His sons back to I Am confidence, roles, missions and fortunes. You have begun.

With the staff members being receptive and accepting what you must do within the government of your unit of truth and love in action, you now are under way. We support each other fully, fourth dimensionally or spiritually as well as third dimensionally or physically. So be it.

No one may be permitted entry to your affairs from this outset unless they accept and work for the same goals in the same framework of your authority by my personal commission. Any omission is as unacceptable as outright refusal or denial or criticism. I am satisfied to this point in time with your actions, thoughts and programs. So be it done according to each one's special needs for I Am Self observation. No other motive is inherent. Om.

All is well in my role and world of fourth dimensional being. Therefore, it follows your world of spiritual I Am government is in like state of being on Earth in third dimensional out-framing and expressing. All is well on all planes for my Second Coming. Sananda of the Hierarchal Board.

ANGELS STAND IN FOR MANKIND  
UNTIL MASTERY IS ACHIEVED

Mankind has had a long and unhappy history on Earth, starting with his entrapment in material form 26,000,000 years ago. Throughout the ages he has suffered. He has known much loneliness, pain, fear, desire, confusion, and few pleasures that have seemed not to be temporary, because, for the most part, he has been separated from the God Self within.

During all this time, in his wanderings, his errors, his misdeeds and his difficult struggle back to Christhood, man as a spiritual being has had the unfailing support, love, guidance and protection of those of the angelic realms. Seldom has man recognized this. Never yet since his fall has he realized the full implications and meaning of his relationship with them.

Now, in this Mark Age period of time, this relationship so long forgotten is being opened to him again. Today it not only is asked of us but it is required of us by Spirit and by the Hierarchal Board of our solar system that we as a race on Earth reestablish conscious communication with those who are our brothers and guardians in the angelic kingdom.

### **UNIVERSITY OF LIFE AS A TOOL**

For this reason the spiritual government, in its preparatory steps to externalizing on the Earth, has instructed

the Mark-Age unit to develop the *University of Life* as one of five major divisions. Within the scope of this activity, courses now are being prepared for the purpose of teaching man how to reestablish conscious communication and proper spiritual relationship with those of the angelic realms.

In October of 1971, as published in *Angels & Man* on pages 20-21, Archangel Michael, titular head of our solar system, channeled through Nada-Yolanda the following. "It is absolutely necessary for mankind, going from mortal evolutionary expression into fourth dimensional spiritual life and light, with divine love that is in him from the God Self, to communicate with those angelic forces....That requirement is your next and most immediate step as sons of God, children of the light, and truth students. So be it. So, be it. So it is."

Why is this being required of us at this particular time, the Mark Age period or the latter days? We know this is the time when the history of our evolution on the Earth is being unfolded to us for understanding, judgment and cleansing. The angels have played an important, albeit unseen, part in our evolution as a race. Also, we know this is the time when the veil between dimensions is being rent and we are being reintroduced to many relationships with those of other planes, such as our masters and teachers of the etheric realms and our brothers from other planets.

Finally, we are in a time when the Earth is being reunited, rebalanced, reintegrated with the rest of our solar system. The work of the angelic forces is cosmic in nature, and extends in scope to the entire solar system and beyond. So, it is natural that man must become more aware of his relationship to those of the angelic kingdom.

### ANCHORING OUR LIGHT BODIES

Yet, there are deeper, more specific reasons why this communication is so urgently stressed for us to work upon at this time. As we are going into the fourth dimension we are being made aware of many new and little-understood

aspects of our being. The most important, the most complex, and yet the least familiar and the least understood, of these is our light body, the manifestation in form of our spiritual Self.

It is in this light form or body that we came to Earth; it is from this light form that we have separated ourselves, our mortal consciousnesses; and it is by this light form that we as physical, mortal beings and forms must be reabsorbed and transmuted in order to express perfection as Christs upon the Earth.

Because man cannot control that which he does not understand, and because he has been separated from and unconscious of his light form while on Earth, he has required the protection and the care of the angelic forces to guard his light form and to hold it intact. This is what the Bible refers to where it says, "For He shall give His angels charge over you, to keep you in all your ways."

Therefore, as each reunites with the light-body expression of the individual higher Self, we will need and we will have the guidance and the assistance of the angels who have charge of these forms. Each person has a specific angelic guardian angel in charge of his or her light form.

Lord Michael, on pages 18-19 of the *University of Life* textbook *Angels & Man* said this regarding communication with these angels. "If you are in contact with the angelic creative source and substance of your own body and form, then you can converse with it and can receive many helpful and gradual uplifting collaborations.

"Until you come into the full Christ consciousness and powers upon the Earth, you will need and will require this supervisory personage or identity to keep the form intact and anchored where it is supposed to be. By corresponding with it — communicating, if you will, with this intelligent force and the higher elements, as you do not understand and cannot describe them — you can learn gradually how to govern and to use and to work with this supervisory experience of your own light body in anchoring through the physical rapport or essential matter."

In taking the responsibility of guarding our light forms,

the angels actually are fulfilling a role that properly belongs to mankind as the Son of God. Indeed, there are many responsibilities of the race of man which have been taken up temporarily by those of the angelic kingdom until man can return to his Christed understanding and place on this planet and in this solar system. These responsibilities include certain aspects of his role as a co-creator with God in the manipulation of thought energy and thought forms; also, his role as the spiritual protector and governor over the lower kingdoms. (See the article on how the transmutation of man's physical body affects the lower kingdoms, by Zan-Thu in the *Healing Haven* section of this issue of MAIN.)

These are functions not of the mortal self but of the Christ Self. Slowly, gradually as we reunite with our Christ Self these responsibilities will be handed over to us from the angelic kingdom. So, this is another reason we are required to communicate and to work closely with them at this time.

Some of the preliminary information that can serve as a basis for us to grow into this understanding and an ability to take up our Christ functions is given in the *University of Life* textbooks *Evolution Of Man* and *Angels & Man*. The information in the latter book was given by the seven archangels themselves, as they desire us to understand and to work with it.

It behooves each one of us to take this guidance and responsibility most seriously, for the archangels and the angels who have been acting as substitutes or stand-ins for us in our roles within this solar system have other functions of their own in other places that require their attention and service. But they cannot be released for these jobs until we are able to take over our responsibilities from them. This will take thousands of years fully to accomplish.

Yet, we must begin now. It is up to us to study, to apply; and to communicate with the angels, as well as each one with his or her own Christ Self and our etheric teachers, in order to unfold the step-by-step development required of us. Only our love, our desire and our painstaking efforts of study and application can release these dedicated

beings and companions of ours who have sacrificed so much in their own evolvment in order to aid us, the race of man on Earth.

## FIRST STEPS FOR UNIVERSITY OF LIFE

How can we begin? It should be obvious by now that it is not enough just to believe in the angels, to feel a oneness with them, and to desire their release. There is much we must understand about the angelic forces and our relationship with them. Also, there is so much we must learn about our own nature, functions and responsibilities as sons of God in order that we can perform our own roles, thus allowing the angels to be released.

This will be the purpose of the *University of Life* courses for the next several years: to teach Christ mastery over life on the Earth plane and planet. Let us consider that we will be dealing in these courses with much material that is new and unfamiliar to us; often difficult to comprehend at first. For we will be learning to perceive and to deal with life as it is on the etheric, not as we have been dealing with it on the Earth, even in many of our spiritual teachings and concepts.

This is why Mark-Age stresses the need to study and to work conscientiously with the clear and true communications from those on the etheric and the celestial planes. They have the full picture. They have the full knowledge of what actually is involved in learning to demonstrate Christ mastery on the Earth.

If full Christ consciousness could be achieved with just the knowledge that has been available on the Earth through ancient teachings, past religions and present-day techniques and philosophies, those of the etheric and the celestial realms would not waste their time channeling volumes of additional material. Therefore, those of us who are serious about striving for mastership on Earth, whether we will achieve it in this or a future lifetime, must apply ourselves to studying, understanding and working with the material that is brought forth from the Hierarchy. (*See also*

*Linking of Lights* section in this issue of *MAIN*, which is another article by Aurora-Dale.)

*Angels & Man* is one book of such material, concerning our relationships with the angelic kingdom and our responsibilities to one another and to Spirit; past, present and future. But because we are speaking here primarily of the functions and the responsibilities of the Christ Self, it is a question of mastership, of mastery over life; the *University of Life*.

Therefore, it is not expected that we can fully comprehend or work with all, or even most, of the material in *Angels & Man* without studying and applying the other *University of Life* materials that presently are being unfolded to Mark-Age through the trinity relationship of Sananda-Jesus with El Morya-Mark and Nada-Yolanda.

For the immediate present, the courses are based on the five hardcover books released through Mark-Age for this *University of Life* division. As promised by Sananda in 1973, the primer text for *University of Life* courses is being developed now through their high-Self intunements by the co-directors, Yolanda and Mark, during this spring cycle, and probably through most of the summer of 1974.

The release of this primer, plus the sequel by El Morya-Mark of his text *How To Do All Things* entitled *New Images* — which was introduced to Mark-Age members through *MAIN* of May 1974, pages 18-20 — is planned for 1975. In addition to these, other books for the *University of Life* courses also are in the pre-publication stages at MetaCenter headquarters.

Every light worker on Earth, especially those connected with the five divisions of Mark-Age, has his own share of work. Let us do it well. Let us begin today with new dedication, fresh insight, and a deeper seriousness than we have expressed hithertofore, so that we as light workers and students of the Christ within can help to plant in purity a spiritual nation under Sananda, Prince of Earth. This is the way we truly can *DO MORE IN '74!*

## MICHAEL'S ROLE IN THE EVOLUTION OF MAN

*Two contemporary esoteric writers, channels in their own right, have contributed greatly to the proper understanding of the archangels, the angelic hosts and the devic forces as they relate to the evolutionary growth of the race of man on planet Earth. Their emphasis is on symbology.*

W. TUDOR POLE gave the following talk at Michaelmas 1965 on the symbolism and the allegory of Lord Michael's role in the present Mark Age period of time on Earth. It is excerpted from Messenger of the Chalice Well, Glastonbury, Somerset, England, with their permission.

CORINNE HELINE in her book *Star Gates*, gives the esoteric astrological meaning in each one's personal, spiritual evolutionary path, as concerns Archangel Michael's part in the harvest season of each one's unfoldment. ### W. TUDOR POLE ON

#### MICHAEL: PRINCE OF HEAVEN

The four archangels who are best known to us are:

**Michael:** leader of the heavenly host,  
**Gabriel:** wielder of the divine strength,  
**Raphael:** healer through divine love,  
**Uriel:** transmitter of God's radiance.

The other three are known in Hebrew and Assyrian mythology as: *Chamuel, Jophiel and Zadkiel.*

Angels and archangels are not highly evolved human beings, but belong to a different order of creation. They do not incarnate in a material sense on any of the planets in our solar system, which are known (or *believed*, should you prefer the term) to contain life and intelligence clothed in form.

For this reason, we cannot grasp or understand in full either the appearance of these great beings, or the role they play in the divine drama of creation. What follows, therefore, should be regarded as a fragmentary and very partial account of this immensely important hierarchal order.

Firstly, and to clear the air, let it be said that we humans, no matter how advanced our spiritual status may become, are never transformed or translated into angels or archangels. Our progress and development continue into eternity, whereas archangels and their hosts belong to an order of perfection which, although by no means static, does not involve what we understand by the word *evolution*.

Also, it should be remembered that nature spirits and intelligences who direct and control the rhythmic impulses within the kingdoms of nature are not angels. They belong to an order of their own which is subject to its own laws of being and progression.

We are dimly aware, mainly through tradition, of the existence of seven archangels operating within our solar system. It appears that for periods of unknown duration and controlled by cosmic rotation, each of the seven takes precedence in responsibility for the general oversight of one planet at a time under the guidance of the solar logos. X

Archangels rule over their own hosts of angels, the number of whom we are unable to compute. Their main function is to infuse into all life processes, operating within every realm of being within our system, certain specific light radiations. These radiations, so far as can be discerned, emanate from seven mother or master rays....

We are now entering a new chapter in human history. It is the Archangel Michael whose turn it is to be associated most closely with our planet and with all of the forms of life upon it. Biblical and esoteric tra-

dition can, I think, throw some light upon this archangel's significance and status. There is a chapter in *Michael; Prince of Heaven* containing a list of the titles and qualities traditionally associated with this archangel. Here are some of them:

1. "Who is like unto the countenance of God."
2. Recorder of deeds of men in the heavenly books.
3. Celestial medium through whom the law was given.
4. Captain of the heavenly hosts.
5. Slayer of the dragon of evil intention.
6. Guardian of the holy sanctuaries.
7. Preparer of the way before each messenger from God.
8. Leader of the church triumphant in heaven and militant on Earth.

What interests us most is the age-old conception of Michael as the standard bearer for the Christ and the preparer of the way before the advent of God's messengers to man. It is in the above capacities that he and his mission should be considered of special importance to us at present.

The use of modern terms to describe Michael's principal task may not be out of place. He is the chief engineer in charge of the sluice gates which control and regulate the release of the *waters of the Spirit* into our midst. The reservoirs behind these gates contain infinite supplies, capable of serving human needs far into the future.

Use here could be made of an analogy. Man employs the movement and the pressure of water in order to generate electricity. Michael and his co-workers use a similar process for converting the *waters of the Spirit* into rays and radiations. The latter are stepped down to a point where they can enter safely into the minds and the lives of all forms of sentient and non-sentient life on Earth. This stepping-down process is regulated in such a way as to meet our present and progressive needs. Such a task is beyond our power to visualize. But it is well that we should be aware, however dimly, that it is going on.

The first effect of a speeding up of these processes is to shake the Earth to its foundations, in the form of wars, tribulations, racial disturbances and seismic

upheavals. It is true that our world has never been free from these conditions; but when they become so widespread as they are now, we can know that the end of an age and the birth of a new one are on our doorstep.

In a metaphysical sense (symbolically), what I have been describing as seemingly outward events is also taking place within you and me. We cannot escape from the battlefield; which means that our thoughts, prayers, words and deeds all can prove useful to Christ's standard bearer or the reverse.

The ways in which we can cooperate only can be decided individually....The immense value of collective and individual prayer and meditation is known to us, and these are important ways in which we can serve Michael and all who are cooperating with him.

*CORINNE HELINE ON ARCHANGEL MICHAEL,*

*SYMBOLIC IMAGE FOR KARMIC HARVEST IN MAN*

The four sacred seasons are attuned to the four cardinal astrological signs, Aries, Cancer, Libra and Capricorn. The autumn equinox occurs when the sun enters Libra, sign of the scales. As the symbolism of the sign reveals, this is a time of weighing, of measuring, of determining values, of "harmonizing the contraries;" it is a time for decision. These activities require use of the mind. X

The spiritualization of the mind is the pivot of the entire scheme of human evolution, for "the mind is the path," the avenue through which Spirit works upon and eventually conquers or transmutes all things pertaining to the physical world.

It is the glorious Archangel Michael who stands beside the Star Gate of Libra with his shining sword uplifted, issuing a clarion call for the Christing of the mind of the entire human race. The Christing of the mind is preparing human thought as a seed ground for the implantation of the Christ awareness.

Any individual who is thus illumined will think only Christed thoughts, speak only Christed words and perform only Christed deeds. This is the signature, the soul impress, of the New Age man; for inevitably, with the spiritualization of men's minds, human think-

ing will be raised up out of materiality.

The Archangel Michael is responsible for the celestial operations on Earth during our historic period, and his most important work is the Christing of men's minds. The work of this mighty archangel is with the entire human race.

Judgment is continuous, automatic, inescapable; but it has a special relationship to the celestial phenomena of the autumn equinox, which is a time for reaping the karmic fruits of past sowing and a time for sowing spiritual seeds that will come to fruition when the same point is reached in the next annual cycle.

Esoterically it is both an end and a beginning, where the head and the tail of the serpent meet. Hence the feast of the ingathering becomes the golden harvest of the spirit, merging by imperceptible degrees into the feast of dedication.

At the autumn equinox the forces of nature are in a state of equilibrium under the influence of Libra, the scales, and humanity comes to judgment. Then it is that cosmic conditions bring the contest between the lower and the higher self, between light and darkness, to its sharpest focus. A zodiacal call comes from the right and from the left. Humanity is not only free to choose, but must choose, its way.

Michael holds open the door of light, for always the work of this mighty archangel has been for purity and transmutation. His glyph is the dragon slayer, a symbolic image which possesses a planetary as well as a personal significance. The collective evil of the race of man creates perennially a miasmatic cloud over the Earth which, under certain conditions, may suggest the form of a dragon or serpent.

Each year at the autumn equinox Michael enters into conflict with this dragon cloud, and each year he vanquishes it anew, "slaying" the evil phantasm so that the fresh inflow of the Christ's magnetic healing currents can course freely through our planet. Michael will continue his struggle with the dragon until the whole human race has been purified.

The glorious Archangel Michael is plenipotentiary or special ambassador of Christ to Earth...and has been depicted as bearing in one hand the uplifted sword of

truth and in the other a pair of scales evenly balanced. This indicates New Age development under the law of truth, as Michael is even now proclaiming it in every part of the world.

The evenly balanced scales symbolize the perfected power of a spiritualized science and a scientific religion, both of which are requisites to the New Age. They also typify the pioneer of the new day who has learned to "think with his heart and to love with his head," for this also is a requisite of the New Age. When autumn comes again to the world, and the Christ Spirit descends from Its celestial home to resume once more Its annual burden, Michael stands before the Star Gate of Libra demanding self-judgment, renunciation and transmutation in preparation for a new day.

+++++

*The Hierarchy's channelings through Mark-Age have been literal and specific, rather than symbolic and esoteric as by these two New Age teachers. It should be emphasized that celestial and etheric guidance always are capable of being interpreted on many levels.*

## EVOLUTION OF MAN

Each and every member of the race of man is a son of God, a co-creator with Spirit through eternity.

When this solar system was ready for life forms, man came here to experiment, to learn, to experience and to govern. 206 million years ago man, in the higher dimensions then, began to focus attention on the Earth. In this process of evolutionary experiencing, many became enthralled with experiments concerning life forms on the physical or third dimensional plane. From 206 million until 26 million years ago this process continued.

By 26 million years ago many had become so enmeshed in the physical dimension that they lost conscious awareness of their spiritual nature. This was the fall of man, or of that part of the race which became the human subrace. Thus some of the sons of God became entrapped in the third dimension of the Earth.

Those who did not become entrapped, and thus did not experience the fall and the devolution, have been working ever since to help their brothers and sisters again rise into the fourth dimension and regain consciousness of their status as sons of God. The present 206 million year cycle of evolution will end by the year 2000 A.D., after which a completely new cycle of man's eternal evolution will begin.

As an eternal being and as part of the race of man within this solar system it behooves everyone to understand the nature of man, the 206 million years of experience with Earth and this solar system, and what lies ahead. This book contains sufficient information to awaken the subconscious memories that will aid in rending the veils which have prevented man on Earth from knowing himself and have kept him entrapped for millions of years.

A Mark-Age text for

**UNIVERSITY OF LIFE**

327 NE 20 Terrace, Miami, Fla. 33137

**THIS IS A TIME PERIOD** when a law of God, known and used by but a few, is now being brought to the discovery of the many.

There is a difference between selfishness and self-centeredness, just as there is a difference between covetousness and acquisitiveness. Turning to the center of your Self, the Spirit of God within you, performs an action of drawing more good to you, building a magnetic force field. But selfishness and coveting are quite different.

It is natural to acquire greater degrees of good once you have learned to take your thoughts from the Spirit and to allow the wisdom of the Spirit to direct your thoughts and actions.

It is also a law of nature to bring from the center of your Self good judgment. So, being Self-centered does not mean thinking only of yourself; but, by taking of the essence of Spirit from this center of your being, your thoughts and actions will be for the benefit of the largest number of persons.

When all of your mental attention is occupied with what is happening in the outer, or has taken place in the past, you leave no room for this vital essence of Spirit to enter your mental realm. For this mental realm is the circumference of the circle, and your need is to move your attention to the center and off the realm of effects and results of past thoughts.

This inner center's strength and power are what you seek; and find, when you stop coveting what another owns and cease reaching out *to get* by various schemes. Your wealth of character and ability to improve in all ways are what must be expressed from within to the outer for all to perceive.

If you have believed that the conditions of the world today control your destined end, and you are tense in your efforts to obtain something or to attain something, you have some ruling belief that darkens your understanding, and you need more light.

**WHAT IS TAKING PLACE TODAY** is that truth is working on all those concealed errors and foolish judgments. The intellectual learning of material subjects is being exposed for what it is: seeing only in part. This is why — because man does not know how to do what he needs to know to do next — you have your enormous rises in prices, and failures in so many professions.

The thought forms of greed, avarice and of fear are what pollute your air and water. Following only your material desires at sense level only burns up your physical organism. Until you are willing to turn to the enlightenment of your source, you will not "be transformed by the renewing of your mind."

While you waste vitality in mere sense gratification for personal glory or money power, forgetting high and pure ideals, the development of good habits and high character of your mind and body are not in tune with the Infinite. Such closes the mind to new ideas, which are coming so fast now that the many who are humble and receptive will receive, and are receiving.

Redeeming and transmuting forces are now set into operation. Human foolishness and ignorance, showing up for what they are, will pay their penalties. All the lacks and the limitations which seem to be there for viewing will be there for those whose error beliefs and faulty actions caused them.

You can stop your own tendency to think about these appearances, which are the results of fears, greed or other absence of good qualities; for giving it any attention only hinders your own expression of good. Direct your attention to the center of your own being, the source from which good flows. By so doing you will be guided to the right method, in thought and in action.

**FROM THE HIGHER PLANES OF BEING** we are able to perceive the many fixed opinions which for so long have been passed on as *the way to success*; and the many whose

prayers are for things, rather than the ability to express more qualities. X

The law, so seldom observed by the multitude, is that the real means to an end result has to benefit the largest number of persons, not just the few. Earth mankind is discovering the errors he has made in forming large organizations that defend a lack of spiritual knowledge and hold all in material bondage.

We are aware of the many who interpret truth to be a use of prayer to bring to them more indulgences. Gluttony brings them a trail of misery and pain and the destruction of happiness. The greed for power and possessions blinds the understanding of the word *righteousness*, which is the *right use* of the law.

Light and enlightenment come by degrees when one knows enough to comprehend that everything grows from within outward. When you use rightly the law of mind you do not desire to do to another what you would not want done unto you.

I am *JEN*, a high instructor, who knows that illumination of the consciousness comes from divine love. I present to you one above me, Lord Uriel, who long has been finding in you the spiritual understanding and love, and who sends the rays of this force into your awareness.

**AS LORD URIEL I REPRESENT TO YOU** the light of divine love which has the power, is the power, to curtail the energy crisis now in your midst.

The struggles and the bickerings of nations — with their cravings for wealth and power, which stem from the incorrect concepts of the many who live solely in sense consciousness, wanting all things their way, and misinterpreting the principle — is now beginning to be eliminated. The supreme force which controls the universe will not permit this to go on: the selfishness and the tyranny of those who as yet are unaware of what is meant by Spirit.

You have a faculty of mind which can be exalted to where it receives only the impressions from Spirit, the law of God, or principle. This is the orderly working out of ideals and bringing forth attributes of good into expression. Order and balance, or the perfect sense

of harmony, are not attained by being selfish, holding only to self-interests. You can obey the divine law; and when you know what is meant by the light of God, you have a clear understanding of the substance within you and how to use it.

The aggressive personality intellect often doubts God's guiding, so makes more wrong decisions. But the I Am, the indwelling Christ, is part of all the power there is. Perhaps at the time you felt you really were that idea in expression, you also wondered if possibly you were not quite all that it is. Since it is unlimited, there were still moments when you felt limitations.

**BEGIN RIGHT WHERE YOU ARE NOW**, and do all that you see to do, to enlighten all others in the best way that you know. You will develop more discernment and good judgment. You will choose your thoughts more wisely than before, and will be able to step out on your faith and do what heretofore you seemed incapable of doing. The beginning is always now.

The energy and the substance you utilize every time you think are always for you, never against you; unless, of course, you let worldly appearances seem too important. Give all credit to the divine love and the supreme intelligence manifesting. Take your attention off all that you dislike. As you give such thoughts no room, you gain receptivity to truth. Then divine love shows you how to become conscious of the fact that the reality of anything is the thought behind it.

Exalt your ambition. For when it is purely spiritual you will not draw to yourself bondage. There comes to you renewed vigor and strength and peace and joy. Divine love overcomes all error thoughts. You live in a new and illumined state. When you are truly illumined you will not look down upon anyone with disgust, but with greater understanding of what he will learn from his mistakes. We of the Hierarchy do that for you. Om. Amen.

# DEVAS AND FAIRIES

as seen and described by

CHRISTOPHER, Age 8

THE PINK BALL FAIRY comes from a pink ball of love. When she is out of it, the ball is very small. But when she is in it, the ball is very big. She is part of the ball. It is like the ball is blowing her up with love.

What work she was made for is like when a petal falls off a flower, she takes it and replaces it with some of her love. In her fingers are holes that spray love.

<§>

## LIGHTNING DEVAS

make lightning, but they also make planets. They are not jaggedy like lightning, but almost like a thin, smooth line.

They draw all the energy together and then charge the white light through their center "eye", like the eye in a needle. They shoot

7

YOUTH IN ACTION

this charge down through the tube in their middle.

Their energy strikes the energy which is turning in a circle, just a big ball of vibration flying around the universe. When their charge hits this big ball, it turns into a planet.

From then on it is going to have what this planet has: living things, devas....

<§>

EACH PERSON ON EARTH HAS A DEVA. I am not sure, but I think if you don't have one, then you don't exist. I don't know how it works, but each of us has one.

It acts exactly like a human, except that its higher Self is always out looking around for someone to attach themselves on. But each one of us already has one, or we wouldn't exist. So, they only make themselves powerfuller and powerfuller.

It is like a layer which grows stronger and stronger. About a hundred get on top of a person. That is the most any of us can take, because they reproduce the power very fast. Each layer is a different color. Then slowly they blend all together. They also make the colors of the outer spaces.

<§>

WHEN A BABY IS BORN, a deva already is there before. When it is ready, it opens up and lets the deva in. Then, as it grows it gets more and more layers until it is full grown.

It starts by surrounding the baby's body entirely. Then little by little it penetrates the body until it becomes that body, all in one. This is at death. When the body is ready to go, only the high Self is left to work.

<§>

SPECIAL DEVAS WORK WITH LIGHT WORKERS. For instance, when we are making the tube of light for protection, they also put in another percent to make it stronger for us.

HOW THE TRANSMUTATION  
OF MAN'S PHYSICAL BODY  
AFFECTS ALL THE OTHER  
LIFE FORMS ON EARTH

---

## DEFINITIONS FROM THE GLOSSARIES IN MARK-AGE BOOKS

*DEVAS: Those intelligent entities of the etheric planes who are in charge of and control the patterns for manifested form in the etheric, Earth and astral planes, under the direction of the angelic kingdom.*

*ELEMENTALS: Those intelligent entities supervising the elements which comprise the manifested form of all in the Earth and the astral planes, under the direction of the devas for those forms.*

---

One of our most important considerations as light workers on the Earth at this time, as we conscientiously and diligently work on transmuting our third dimensional physical forms into our fourth dimensional light forms, is the interaction between the race of man and all the other kingdoms residing on the planet at the same time.

It is stated in *Genesis* of the Old Testament, "And God said, let us make man in our image after our likeness; and let them have dominion over the fish of the sea and over the birds of the heavens and over the cattle, and over all the Earth."

### DIVINE, ORDERLY SEQUENCE

How will this evolution of form take place? What practices can man perform to enhance this responsibility to the

evolutionary growth of his own racial pattern and form, and that of all the other kingdoms over which he has been given dominion?

We must start with the understanding of how our physical bodies were formed and for what purpose they were formed, in order to exist and to experience on this third dimensional frequency of Earth. This is explained in great detail in Chapter 2, "Physical Body," of the Mark-Age book *Evolution Of Man*, pages 19-21.

There it is described how the angelic forces allowed the race of man to use the elements of this planet to form a human or Earth body. So, in our evolution back to our light or spiritual body, we must transmute the elements of this present form via spiritual techniques relayed to us consciously from our spiritual or I Am Self. This inevitably and simultaneously raises or transmutes all corresponding elements in the other kingdoms as well.

Through the purification process of our own physical bodies, we automatically create a force field through which our light-body form can anchor and become externalized. This higher energy rate then affects the lower, third dimensional frequency forms in our immediate environment.

To be specific: since our physical form was created with the cooperation of the devas and the elementals of the Earth planet, it follows that when we consciously raise our own form to a higher frequency rate of evolution we automatically cause a sympathetic or resonant vibration to raise or to transmute the corresponding elements and lower forms of animal, vegetable and mineral kingdoms with which we are associated on this Earth planet.

Please refer to the channelings of Nada-Yolanda on this subject. In the textbook *Mark Age Period And Program*, see the Index heading "Transmutation," with its subheadings "of Earth" and "of man's body." More recently, two discourses were channeled: "Elements React To Man's Thoughts" and "Transmutation." These were broadcast over the MAM network on tape #45, sides A & B, respectively. Both were published in the April 1974 issue of *MAIN* on pages 39-44.

## MAN MUST BE CONSCIOUSLY AWARE

As we become more consciously intuned with the elements of our own physical bodies in the transmuting process of going from third into fourth dimensional (light-body) frequency, we will learn to have a conscious influence over the elementals and the devas which create the forms for the lower kingdoms on Earth.

When we light workers as a coordinated, linking group — a minimum of 144,000 raised to this level of consciousness and power as spiritual children of God — demonstrate this, then our proper relationships and responsibilities as governors for Earth will be permitted by the angelic forces who supervise the devas; who, in turn, are supervisors over the elementals. More of our relationships and our responsibilities are the subject of the new Mark-Age textbook *Angels And Man*.

Over and over through the channelings of Nada-Yolanda we are taught that only as we consciously and conscientiously cleanse, rebalance and raise the elements of our own physical bodies can we influence and raise the elements of the other life forms on this planet. The entire function of the division of Mark-Age *Healing Haven* is dedicated to the techniques and the practical methods man must use in order to perform this duty to his higher Self, and to those ascended masters who comprise the spiritual government of our solar system and who guide the evolutionary development of the entire race of man.

### EFFECTS OF 144,000 LINKING TOGETHER

On this theme, here is what Dr. Hannibal (St. Germain, Chohan of the Sixth Ray of Transmutation) channeled through Nada-Yolanda in the textbook *Visitors From Other Planets*, page 255: "...the amplification of 144,000 light bodies so coordinated and linked together that they can inspire all other lights, even though covered by dense matter of human creation, with their light frequency or their higher spirituality will bring about a great light.

(continued on page 24)

## LIGHT GROUPS TO DEMONSTRATE LINKING OF ALL KINGDOMS

"You are ever in contact, through the spiritual essence or the I Am consciousness, with every other form of creation. . . . This is also the goal of mankind: to have within his experience an interrelationship, a higher form of exchange, with everything that exists; so that everything serves the One, and the One Which is in all things is being served and sustained and rewarded."

*Archangel Uriel, Evolution Of Man, pages 94-95*

There are many meanings and aspects to the phase of the hierarchal program which we call linking of lights. First and foremost is the linking of the mortal consciousness with the I Am consciousness, for only through the I Am consciousness can one link with anything or anyone outside his own being in a manner that is pure, lasting and of final service to the God Force within all things. Reestablishing mankind's conscious link, through the I Am consciousness, with the celestial, the devic and the elemental beings who serve him is the theme and the purpose of this issue of **MAIN**.

A third aspect of the linking of lights is the linking of the many New Age groups who serve the one spiritual plan on Earth in their diverse and individual ways. The commission has been given to Mark-Age by the Hierarchy to coordinate

LIGHT GROUPS TO DEMONSTRATE  
LINKING OF ALL KINGDOMS

Reestablishing mankind's conscious link, through the I Am consciousness, with the celestial, the devic and the elemental beings who serve him is the theme and the purpose of this issue of *MAIN*.

A third aspect of the linking of lights is the linking of the many New Age groups who serve the one spiritual plan on Earth in their diverse and individual ways. The commission has been given to Mark-Age by the Hierarchy to coordinate

those New Age light groups that truly are serving the hierarchal program, and to show this coordination through *MAIN* magazine.

This is not done by insisting on physical unification, necessarily, nor by initiating coordination according to the needs and the desires of the mortal self, even in the context of spiritual works. Instead, it is Spirit within each of Its parts Who guides the unification, demonstrating on the outer in the proper time and manner the oneness and the coordination which already exists between the I Am consciousnesses of the various teachers, leaders and light workers in the different New Age groups.

This month's *Linking of Lights* section shows the inner link in Spirit between two New Age light groups, Mark-Age and the Findhorn Foundation of Scotland, in working on another aspect of the linking of lights: the cooperation of mankind with the angelic, the devic and the elemental kingdoms. Each group has a unique, independent function, yet each role serves the other; and together they serve the one plan and program for bringing the Earth into the New Age.

It is the function of Mark-Age, as the headquarters for the externalization of the Hierarchal Board on Earth, to receive and to publish the etheric teachings and the overall blueprint given by the Hierarchy that mankind as a collective race can follow, in order to return to full Christ mastership on Earth. In this aspect, the etheric and the celestial teachings given in *Evolution Of Man* and *Angels & Man* concerning man's relationship with the other kingdoms are of a cosmic scope and outline that cannot be fulfilled totally until man as a race demonstrates full Christ consciousness on the Earth.

The Findhorn Foundation, independently of Mark-Age works, has been working for the last several years toward demonstrating in an outer way the proper cooperation between kingdoms, as man presently can express it in a physical way on the Earth, at this point in the race evolvment. Without examples and demonstrations, such as the work at Findhorn, the teachings given by the archangels and the

etheric masters through Mark-Age would have no anchor or expression on the Earth, and the more advanced steps which they have outlined for mankind could not be fulfilled.

The work at Findhorn, although involving one experiment by one group, can be seen to have much deeper implications for the Earth when seen in the context of the cosmic blueprint given by the archangels in *Angels & Man*.

### THE COSMIC SCOPE

The celestial forces, or angels, are the architects of form throughout the universe. Their role is to co-create, to manage and to direct the forms through which God's other creations express. The devas are the engineers. Under angelic supervision, they control from the etheric planes the patterns for manifested form on the etheric, the astral and Earth planes. The elementals are the builders. Under the guidance of the devas, they directly supervise the elements that comprise manifested forms.

Mankind, in his role as the Son of God, affects these forms through his thoughts. Man is also the governor over the lower kingdoms — mineral, plant and animal — who inhabit these forms on the Earth.

He must learn to have the proper thoughts about himself and all of God's other creations. As governor, he is required to come into conscious communication with the angelic, the devic and the elemental beings who are in charge of and work with the forms through which the lower kingdoms express.

Total fulfillment of these roles and relationships will come only when man is able to demonstrate Christ mastery on the Earth. (See the *University of Life* section in this issue.) We, as students of this Christ consciousness, have many steps and levels to climb through on our way to this goal.

We must begin now to see and to seek cooperation and communication with the angelic, the devic and the elemental forces around us. They, along with each one's Christ

Self and his or her etheric teachers, will give insight into the needs of the lower kingdoms so that mankind may fulfill properly his responsibilities toward them.

These angelic forces have been acting, under the conditions of man's neglect and error towards the lower kingdoms, as protectors and caretakers for the plant, the animal and the mineral kingdoms, and for the planet itself. They need our conscious cooperation in order to help us return to our proper responsibilities.

### PRESENT DEMONSTRATION ON EARTH

The beginning stages of return to this divine, eternal relationship already are being expressed by many on Earth. One of the most successful, best-documented and best-known experiments of cooperation between the race of man and the devic and elemental forces has been taking place for several years at the Findhorn Foundation, whose work has been mentioned in previous issues of *MAIN*. (See the November-December 1973 issue, page 25 and the May 1974 issue, pages 31-35.)

This experiment is the subject of a series of booklets entitled *The Findhorn Garden*, published by and available from The Findhorn Foundation, Findhorn Bay Caravan Park, Forres, Moray, Scotland. A garden begun by members of the community on a small plot of poor, sandy, barren soil has become known widely for its beauty, its fruitfulness and the quality of its plant life. It is acclaimed by soil and gardening experts as a remarkable phenomenon which cannot be explained adequately by any normal, scientific understanding of the physical conditions and factors in this experimental garden.

Two extra factors or special conditions beyond the physical have been worked with by the Findhorn gardeners. The first has been their contacts with the devic and the elemental forces. Dorothy Maclean (Divina), a telepathic channel at Findhorn, says she is able to communicate with the angels and the devas. In the experiment, she works at contacting

the devas concerned with each of the different species of plant life in the garden, as well as communicating with the angelic being in charge of overseeing the whole garden.

Through her contacts, Divina-Dorothy tells of specific guidance as to the spiritual as well as the physical needs of the different plant forms and of the garden as a whole. The effectiveness of following this guidance has been demonstrated on many occasions, several of which are described in *The Findhorn Garden*.

Also available from Findhorn is a special tape by Divina-Dorothy about the garden and her contacts with the devas. The tape, entitled "Communication with the Deva Kingdom," contains quotations from many of the communications Dorothy is said to have received from the devas. (Please use reference no. DM 1/1 when ordering.) Also available is a tape entitled "The Animal, Mineral and Vegetable Kingdoms; The Elemental Kingdoms" by R. Ogilvie Crombie. (Reference no. RC 1/1.)

The second special factor in the Findhorn garden experiment has been the use of divine principles of light, love and selfless service in the relationships with the other kingdoms. The importance of the relationship being according to the highest standards of divine law was stressed many times to the group by the devas.

Their spokesman, according to Divina, stated: "You have seen that we have cooperated in the garden, which is the first step. But we can assure you that to be interested in your doings is a new departure for us. What draws us is the love and light with which you genuinely try to serve and to surround each one who comes here. We, of course, always serve in altruism. In fact, it is this strange blind serving of the self which alienates us from humans, especially when in it you quite regardlessly trample on any sphere of life. To see a group from which love and light spin forth so positively makes us realize that humans can indeed be sons of God."

## THE HIERARCHY'S INSTRUCTION TO MAN

This same theme is emphasized in *Evolution Of Man* on pages 94-95 in the section entitled "Spiritual Essence Contacts." Through Nada-Yolanda, Lord Uriel channeled: "Again you all are reminded that in coming to contact and recording with those who are of other elements, those who are of other kingdoms, you may do so through the I Am consciousness or the spiritual aspect of yourself rather than through the soul substance, which may have within it certain blockages, memories and patterns that are not suitable to that kind of relationship. But as you do this you create within the soul substance somewhat of a new pattern and a new guideline by which you can have these relationships and enjoy the rapport and exchange of energy with everything that ever is created."

In contemplating man's cooperation with the other kingdoms, the Hierarchy has asked us to realize that the implications are much greater than the physical, mental and spiritual harmony that can be demonstrated on the third dimension, such as in the Findhorn garden experiment. We also must consider that as light workers our interest is the transmutation of all life forms on the planet, and of the planet itself, into the fourth dimensional consciousness and form.

This aspect of our contacts with the devic kingdom was referred to by a spokesman for the devic forces who communicated this to Divina: "Now you wonder, why your contact with us? There is a world to be redeemed, and all forces are needed for that purpose. Unity, cooperation, is the keynote. We are with you as you are aligned to your God and our God. The forces we deal with are absolutely essential to your life.... Life is a whole.... We are part of this great chain; you join us in your wider-ranging fields, that His will be done on this Earth to create God's fairest fruit."

The redeeming of the world is the return to spiritual consciousness. "God's fairest fruit" is not only the physical fruit of the plant kingdom but also the light form that is to

be expressed by those of all the kingdoms on the Earth plane.

## COORDINATION OF ALL KINGDOMS

The need for cooperation among the kingdoms for the purpose of accomplishing this transmutation into the fourth dimensional or light form, which will take thousands of years to complete, is discussed in depth in many sections of *Angels & Man*.

On page 24, Lord Uriel states: "Your most immediate and purposeful gains are to be realized by seeing the planet in its wholeness and in its interdependence and in its reacting functions, one area of life with another, one level of expression with another, one form of life with another. For this is how it was created, this is how it sustains itself and this is how it will be transmuted gradually and effectively with the least amount of stress and strain upon all who are involved."

How can the race of man on Earth counteract the selfishness, the abuse and the separation we have expressed toward the other kingdoms and toward one another? What change must we make in our attitude, consciousness and actions in order to initiate spiritual cooperation among the kingdoms? The key, given in Chapter 11 of *Angels & Man*, is *self-sacrifice*.

Archangel Uriel states on page 115: "Not many are able to put themselves in the position where they devote and donate every ounce of their spiritual affairs to a single individual or purpose which is not of their own evolvment and development. Only when self-sacrifice is entered into the picture of spiritually unfolded consciousnesses can we see the full magnificence and the full manifestation of the Christ Son in action."

The angelic kingdom has given us a supreme example of sacrifice, in the services they have been performing for that part of the race of man that fell into matter 26,000,000 years ago. Let us ask for guidance in cleansing our soul

records so that we as a race can follow their example; and the example of the one we know as Jesus of Nazareth, Sananda, Prince of Earth. Only by cleansing ourselves so that we can understand and demonstrate the higher aspects of divine love will we come to know peace, oneness and cooperation among all God's creations on Earth. Let us begin now.

## MARK AGE PERIOD AND PROGRAM

*Mark Age Period and Program* presents in one book the basic information needed to understand the nature and causes of, and the solutions to, our personal and world situations in this most climactic of all eras on Earth. An entirely new level of evolvment is beginning to manifest for Earth and all on it. Each person quickly must come to know and to express himself or herself as a spiritual being, a son of God, if he or she is to be allowed to participate in the new heaven and the new Earth.

The Mark Age period is that forty-year period, known also as the latter days, which since 1960 has been ushering in the New or Aquarian Age, the Golden Era. It is the transition period wherein man must cleanse himself and the Earth sufficiently to permit his entry into the fourth dimension, a new mental and physical dimension of spiritual life.

The Mark Age program is a plan instituted by the Hierarchal Board, the spiritual government of this solar system, to help man of Earth rise into his spiritual consciousness. Begun 26,000 years ago, it will be completed successfully by 2000 A.D.

Mark-Age is one of many New Age organizations bringing this program to the world. Initiated in 1955, it has been active worldwide since 1960 as the MAIN (Mark-Age Inform-Nations) center for interdimensional information and education and for spiritual demonstrations.

### *SECRET LIFE OF PLANTS*

*by P. Tompkins & C. Bird  
Harper & Row, Pub., \$8.95*

Far too long have plants been considered as unfeeling, nonsentient and incapable of communication. But this scientific study reveals a fascinating account of the physical, emotional and spiritual relationships existing between plants and man, giving in detail the achievements of such well-known men as Luther Burbank, Franklin Loehr, George W. Carver and Cleve Backster. These and many other scientists have demonstrated the power of thought projections and love to the plant kingdom, which has produced miracles of productivity and diversification.

Through the common denominator of Creative Energy in us all, our force fields intermingle and a

link of cooperation exists. This truth is demonstrated scientifically through many recorded experiments around the world, ranging from: (1) sound effects of various types of music, and how their vibrations affect the growth and the behavior of plants; (2) electrical and magnetism effects; (3) proving the alchemical qualities of plants, through their daily transmutation of the soil elements; (4) demonstrating the healing qualities inherent in plant vibrations; and (5) proving plants respond to thought projections.

This was especially evidential in northern Scotland through the work of the Findhorn group. Members of this New Age community have created a veritable Garden of Eden out of their barren plot of sandy land by consciously cooperating and spiritually communicating with the

records so that we as a race can follow their example; and the example of the one we know as Jesus of Nazareth, Sananda, Prince of Earth. This was especially evidential in northern Scotland through the work of the Findhorn group. Members of this New Age community have created a veritable Garden of Eden out of their barren plot of sandy land by consciously cooperating and spiritually communicating with the

devas and the elementals of the vegetable kingdom. (See additional references to the Findhorn Foundation in the *Linking of Lights* section of this issue.)

Tompkins and Bird verify that all parts of created life are connected, and that what one experiences or projects out as wavelengths of energy or thoughts does affect directly the lesser kingdoms.

The next logical consideration is what is channeled through Nada-Yolanda in the Mark-Age book *Evolution Of Man*, pages 89-90, wherein Archangel Uriel of the Seventh Ray states: "When an individual or a sensitive comes in contact with the deva of that particular form, be it a tree or an animal or a part of the mineral kingdoms of Earth, he is coming into contact with the entire racial structure or species structure of that particular individualization of itself...."

"It is through these contacts of the devic forces that you also grow and have a higher regard and relationship and can have mastery over and governorship, to those who are in lower kingdoms."

## HEALING HAVEN

(Continued from page 22)

"This great light which they will create and can create only by their unification will inspire and will change all matter into spiritual substance. Or if you want to put it in another way, it will dissolve all Earthly debris or pollution and will reinstate or will rekindle the light that remains within each one and each level of creation, be it animal, vegetable or mineral form at the time."

Expanding on this same theme and in the same book on pages 94-95, our master teacher Jesus, for whom we are preparing this planet for his and our Second Coming, expresses the following.

"It is because all things are interrelated and all parts of the whole must cooperate with each individual segment of the whole; giving, flowing to one another the priceless energies and the goodwill of love and comradeship which must bring forth the highest in each part of the living creative force field on the planet at this time and with those who work in and through the planet at this time."

# CHANNELING

## FOUR LESSONS IN HIGH SELF CHANNELINGS

The following four channeled sessions through Barbara of Zion in one of the Mark-Age Centers of Light in Minneapolis, Minnesota are excellent examples of how the high Self of three different individualities can guide the development of a conscious, telepathic medium. The fourth example is that of the channel's own higher Self concluding with instructions for expressing the high Self consciousness through the mortal vehicle.

The first example, by Nada (higher Self of Yolanda of the Sun), teacher of channels in this solar system, is given to set the example by one who already has developed these techniques.

The second is that of the Master and the way shower for I Am consciousness and demonstrations on this planet, Sananda, Jesus the Christ.

The third is a testing of the control needed in conscious channeling: the ability to be able to receive and to record impersonally the message from the higher Self of a fellow worker who, incidentally in this case, resides in the same physical locale and shares the same struggles in growing from mortal into immortal expression during this Mark Age period.

Most important of all is that all four sessions contain spiritual instructions for the channel, and likewise for everyone else who is similarly striving to reach the high Self consciousness and its expressions. Channeling is but one method of reaching Christhood.

## LESSON ONE: FROM THE TEACHER

I am Nada, light imposer, light manifester, light decreer, decreeing here the light, standing firm and establishing my directorship of this program, establishing you as my contact for the outpouring, teaching, implementing of inner plane usage, news, broadcasts of inner plane importance to be established here as a network outlet of hierarchal manifestation.

Establish yourself as a relay center for permanent news, permanent establishment of relay technique; relaying for many the guidance, the contacts, the usage; implementing high Self techniques, guidance; observing high Self rules; calling for high Self works to be brought forth, down through the embodiment, to be laid out and declared truth for purposeful action and display on the physical level.

I am she who pronounces and acts through you as teacher and guide. I am guardian. I am superimposing. I am she who is hierarchal directress manifesting here through you this permanence, utilizing this solar energy contact, withstanding physical-embodied energies, totally encompassing the physical contact, relaying through the vocal mechanism, and streaming forth through the embodiment to overplay and to overshadow the contact.

I am Nada. I am queenship on solarship. I am queenship on Earthship. I am mastership. I am imposing over this contact and relaying to you, contacting you, by this relay. I am touching you. I am glowing out to you. I am radiating your environment. I am queenship of this Earth in master-embodiment form.

I am glowing and showing you how the physical embodiment may be used as a relay connection; contacting on the inner planes the potency of high Self direction; focusing out and about the embodiment the radiation and the power of high Self contact; overshadowing and being one with the physical, yet allowing the physical to breathe and to react according to its embodied functions; slowing yet glowing, manifesting yet reacting; being one for intents and purposes, yet not.

The departmentalization of the superconsciousness reacting through the physical mechanism is indeed complicated, and a soreful idea for you to comprehend. Yet, it is possible. This contact is a demonstration of my power in control and in contact with one embodied source.

I am teacher of this contact. I am guardian on the inner planes, dwelling here for this relay output. I see through you. I see with you. I glow in and around you. I am touching your minds. I am reacting to your feelings. I am picking up your vibratory forces. I dwell with and about you, lingering; fingering your mentality, feeling it, appraising your locale, your locality of mental apparatus that is vibrating and streaming out to me.

I am master ladyship of this domain. I circle around and about you, vibrating around you. I circle about your auric vibration. I touch and radiate you. I dispose through you my vitality, and linger to see this vitality penetrate your auric field, balancing.

I cling to you with love. I cling and linger about you, for I am your teacher, your demonstrator. I am she who is master of embodiment and purpose on this scope.

I direct for you my plan: the decree of leaving earth shell behind and lifting off to a higher degree, a higher circumstance. Lift off from the earth shell. Leave the earth shell behind. Earth shell will stay immobile while you lift off and circle with me in the higher atmosphere.

We cling and caress and are one. We merge and interchange and exchange vibrations. I am you and you are me, and we are one in breath and light. We cling. There is no matter. There are no boundaries. There is no purpose but the highest.

## LESSON TWO: FROM THE PATTERN MAKER

I am Sananda, righteous igniter of faith in high-Self-belief expression; composing through you new trials of light action to be placed before you and worked for display; pro-

moting in your place and vicinity new actions of light fulfillment; activating within thyself and others within thy circle the new faith, the new opening to grander understandings.

Light-focusing broadens to outer displays, focusing upon vistas that are new, signaling upliftment of mass consciousness via channeled enlightenments, giving out news, giving out light to many via channeled news. So, this display is set forth upon you for the awakening and the envisioning of mass-conscious upliftment.

As you set upon a new season of vitality you will display foremost, utmost in your embodiment total alignment with high Self encouragement. You will not look to another for encouragement. I say to thee, the high Self will guide and will rule and will be supreme destinator through thee. The high Self will enroll thee. The high Self will encourage new habits, new disciplines, new upliftments.

Out of this embodied nourishment will be fed many sheep. Many flocks will be provided for and given new sense. New doctrines of light will flow and will be freeing agents, freeing minds from Earth patterns. New doctrines will flow and will free and will feed, fruitfully freeing, feeding, focusing.

Fruitful frontiers of light will open and will be spelled out through you, through your mechanism and display. You will feed many sheep; and lo, the flocks will multiply. The nourishment will flow and will increase. The milk and the honey will mix into a nourishing formula of high Self breath and life. The multitudes will be fed and nourished by the milk and the honey of high Self nourishment.

Lo, the high Self will free thee from the Earth. Lo, the high Self will feed thee, will nourish thee, will cleanse thee, will clothe thee. The high Self will be to thee all. Ye will not need to comprehend or to abide by a plan set upon this stage by mortal man. For ye will be free of Earth and the self. Ye will detach thyself from Earth and will be allowed to encompass many planes.

Ye will not focus only upon Earth plane action. For it is encompassed in thy realm to knock on many doors and to

feed many sheep, to propagate and to promulgate within the pores of many systems the light. So, it falls upon thy crown, this multilevel function of opening many doors and feeding many sheep, in being to many the focus. I say to thee this will be acknowledged by me in more outward attention to thee. For the time has come for this combining and unifying on multiplane schedules.

I promote with thee this inner plane materialization and activity. I promote in thee this blossoming, blooming into high Self reality, coping, combining, mystifying, signaling total unity with me in this light.

I say to thee, oh focus of light upon this Earth, thou hast been set to display multilevel focusing. I say, lay not thyself upon one door, one crown. Thou hast been sent to service more than one aspect. Do not tarry and linger at one gate.

The Earth knows ye not, and cares not for thee, for it is not ready for thy energies. But this is not wasted. For upon thee come many responsibilities of other-plane actions. So, be attentive and conscious of this need, for thou are to divide and to sort out amongst thyselfes this multilevel activity that will begin to stream forth from thee in a more overt manner.

I signal ye to rally with me to a higher display of thy mechanism. I signal ye to let go of Earth patterns and habits, to focus with me in a more refined, delicate setup, eliminating from thy encompassing many Earth peculiarities, many Earth situations that life in this sphere has drawn thee to.

Be prepared to annihilate from thy environment many Earth pleasures. Be prepared to prohibit from thy encompassing many Earth-society functions that are of cause and scope for interacting on Earth domain.

I say to thee, oh children of infinite cause and inestimable universal light, the Earth knows thee not and cares not for whence thou hast come here.

I say to thee I know thy destiny, and am signaling to thee that it is time for thee to open a door to thy immortal

schooling and purpose. There is cause for thee to travel a more illuminated path on this sphere, exposing some to this schooling, exposing some to this magnitude.

Say I to thee, embodied spirit, you must be willing to magnify the universal light. You must be willing to display the universal light embodied, bestowing on those that dwell with thee to witness this universal light in trial cause, in trial display and in embodiment here.

I, Sananda, witness the enclosure of this light, and display with you the brotherhood and the testing of this enclosure. Oh brothers of Earth function, oh brothers of truth action, I am Sananda, Prince and master, setting thee upon this sphere to open for me a new facet.

Lo, this time has come, and must be deemed appropriate, for this interaction. Go forth then amongst Earthman and touch him with this knowledge and light. Walk this plane no more as Earthman, for ye are not.

### LESSON THREE: FROM THE CO-WORKER

I address and recommend, sort out for future usage, the high Self of him who speaks and addresses ye as brother and focus, establishing myself as a frontiersman, a proclaimer and a planner of light. I am brother to you, planning unified activity of First Ray coordination, acting out my symbolic light in representing the total community of man.

In presenting my embodied form to you for evaluation and fellowship, in the igniting of high thoughts and demonstrations, we proceed out from this time of peculiar perplexities, programing out high evaluations and leaving behind mortal evaluations.

I am brother in truth aspect. For I have dealt in firm decrees before and have worked out evaluations of multiple-plane energies on other scales and schemes. So, I come to you to initiate and to initial this cause as mine. I will focus with you and through you for mutual blending and program-

ing as we gather steam and lay out our course for future activity in a higher realm and scope.

I utilize this facility of broadcasting at this time to appoint you as my decreer. I will work through you for evaluation and sharing in combining high Self energies and accepting a role of dual growth and participation.

I come to program out my scheme as master planner, my role as commander of First Ray thought in inner plane schemes; necessitating that combining and dual-plane activity that will prepare and will create stronger focusing; broadcasting my strength, my inner light, my growing, my building.

I am a fellow light participant. I am a fellow decreer. I build with thee this new city, this new creation of glory, for the sake of the many who have sorted out and who seek to build and to create within themselves that new city, that new pinnacle, that peak of power, utilizing the light as the building agent.

I am commander of multiple power thoughts; have moved cities with my thoughts; have created magnificent dwellings of high-plane creativity with the thought-power energies.

So, again on this scale and plane I will cast out, from the arena of play, darkness and negativity and will cleanse it, will steam it, will vaporize from the pores and the beingness of creation here all that lies within it that is impure. It will be removed and deemed useless.

Then, by magnificent positive-thought power I will create and will plant within the New Age the new power, the new light. I will mold it and will shape it, and it will be thine. I will share it with all, for it is my place and way to do this; as I have been dealt and given this decree to cooperate and to blend in this mutual building-construction plan.

I lay out the blueprint before you and combine with you and set upon this artful task of creating and building; and will blend the energies with you to lay out, brick by brick, stone by stone, timber by timber; and will meld together the energies and the powers to build a firm foundation of light creativity.

Yea, I say to you I come to you well accredited, and have background of multiple-planning purposes. Yea, I say to you I am one with you in the scheme and the planning. It lays upon us to magnify this, to create this and to build this new power, this new-thought energy.

I rally forth and give my strength at this time to come forth into the openness of broadcasting out my high Self identity and of initiating through my vehicle that strength and understanding of light planning and strength. I will engage and will display before you and with you this purpose.

I give forth to you my voice for outlay in this connection; will tie and will cooperate. For on the inner scale we know and have planned and have decided this is the time. Lo, it has come to pass and has been accepted by you and is now part of the out-working. The multiple phases, we have gone through. The multiple cleansings are upon us, before us, being participated in and spelled out.

I come with this decree of high Self vitality: never will I lay down my sword of truth and never will I step back from the front-line purposes; never will I detach or depart from this vital cause. For I have deemed it my cause, and will supersede thee and will plan out through thee this task and light. I will cooperate, in thought power and physical presentation, with that which is necessary to carry forth.

Know that I unite and blend and pledge my light, and lay before you my cloak of vital purpose, spreading it out for you to see and to acknowledge and to take up in acceptance of my pledge to thee. I say *amen* and seek from you the accepting decree.

#### LESSON FOUR: FROM THE CHANNEL'S HIGH SELF

I Am presence speaking through mortal self. I speak to thee who are in attendance. Seek wisdom and guidance from the I Am presence, collectively and individually. Guide and promote within this atmosphere the purification and indwelling of Spirit's cause. Signify, stimulate the purification

and rally high Self purpose within the embodiment.

Soulfully cause exterior purification. Soulfully stimulate from the internal self the way and extreme causes of light precipitation. Create and magnify throughout thyself the purification and indwelling, the light embodied, purified light; stimulating, stirring, magnifying through the embodied self. Cause from the interior self the purification to the outer self. Leave no stone unturned. Nothing must block the road, the path from the inner to the outer way.

I say to thee, the time has come to rally with me in this external display of embodied Christ light, speaking forth, out to surroundings. Speak out to company. Speak out to external causes, out of the interior self to exterior conquests. The internal self will delete and detain all that complicates and proximates error from thy cause and path. Totally unify within thy realm the beauty and the simplicity of the pure light dwelling in the flesh.

Hold out thy flesh form for the indwelling light to seep in, to sink in, to stir, to create within thy flesh case the filament, fine, pure. Upgrade, magnify, pour forth the pure light.

Let it indwell, sink in, fill. Let it permeate. Let it be in thy being to the utmost extremities. Let it creep and cure and solve. Let it beam. Let it broadcast. Let it fill. Let it magnify in thy eye. Let it purify thy mouth and throat and speaking apparatus. Let it creep into thy inner self and fill thy ingesting system with the holiest desires. Permeate the inner self with the most high thoughts, appetites. Let it stroll through thee. Let it compress in thee. Let it be in thee every way: pure thought, pure desire, holy oneness with the highest possible creation; leaving no place, no angle, no spot; leaving no pore impure but cleansing totally the human form that contains thy Spirit.

Breathe in pure light, not contaminating once the light enters thy system and mentality. Hold the pure light in thy self. Be pure, inner and outer. Hold the light inside thee pure. Then, magnifying, multiplying, give to the light thy energy, thy power. So, you send it out, you beam it out,

you give your light and add to it. Then you are a relay station for the light.

The light is thee. The light takes on thy personification. The light streams out from thee and is divine because it has touched thee. And ye have added to it thy quality of perfectness. This is the way you add the instinctive self, the pure perfect light, that is yours to the All. By being pure, on the inner self, in every decree, in every thought, in every breath through thy energy manufacturing system, you add power, steam, potency to the atmosphere, the light.

Lo, I say to thee, children of Earth system, do not tarry in thy embodiment and neglect it. Do not tarry in thy form system and feed it error in any respect for it is a holy vehicle sent here to multiply and to add to the Father's grace. If you downgrade it or add one iota of error or disgrace to this temple, then lo, I say to you, hasten thee to the corner for ye shall not be in the center when the pure light comes. You shall be left in the corner to shiver and idle and be not esteemed. But wait thy time for another angle to be presented.

So, this gift, this present is thine. Take it not lightly, feed it not lightly. For the Father speaks to thee, through thee, hastening thee to the cause from whence this implanting was given to you. I say to thee, this time has come for the Earth to be pulled up, to be transformed, to be purified.

Lo, ye are responsible to me. Do not detach or detain for any mortal purpose. Do not sanction within thy mentality any righteous cause of mortal thinking. For it will not hold judgment unto the high Self that beckons thee.

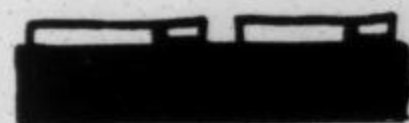

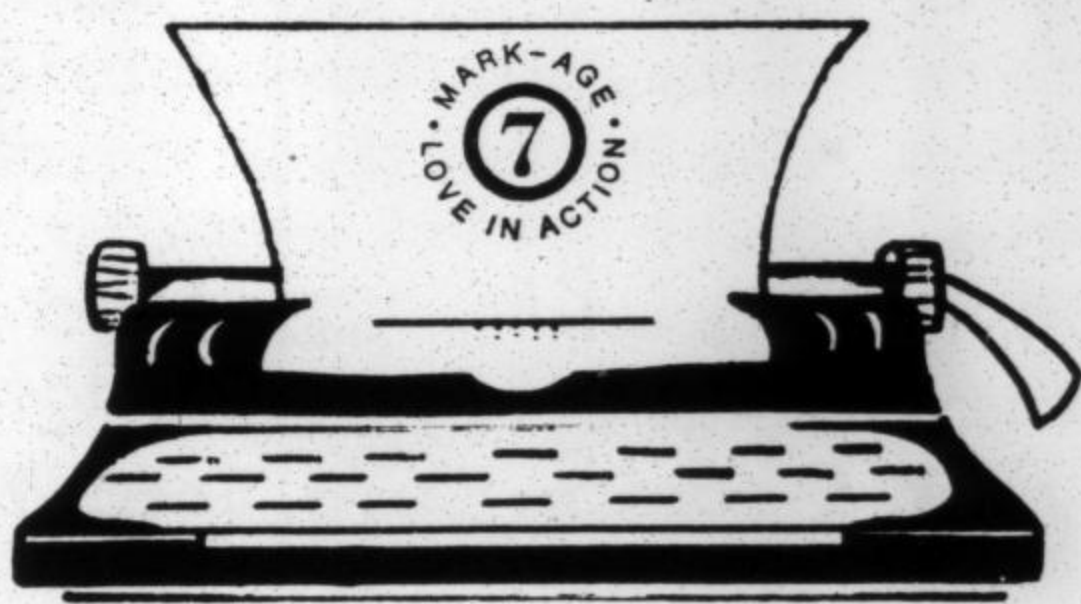

I speak to thee for the high Self that breathes through thee. For I am one with thee in this Christ acknowledgement and I bid you through my mortal self. I dwell with thee and will sustain thee in company as long as you do reverence to the Christ within thyself.

*"Give to each flower my light, my nourishment.  
Shine forth my radiance. Let it build. Over-  
shadow all things and leave them not lesser,  
but better, than they were before they came your  
way."*

## K E Y S   &   C O D E S

We constantly are playing your lecture and song tapes along with our weekly MAM broadcasts. There is so much in them, they have to be heard many times. But could you please help us to understand what Yolanda meant by the keys and codes she mentioned in MAM tape #49A?

*Ole & Olga Sorflaten; Winnipeg, Canada*

The actual Hierarchal Board decrees and announcements given by Sananda on February 27, 1973 and by Lords Michael and Maitreya on March 6, 1974 are published in the May issue of MAIN, pages 8-12, with additional interpretations given there by Yolanda as the conscious, mental channel receiving them.

Usually when a vocal message is delivered from the celestial and the etheric realms, it contains a repeated sound or vibration from that high level which helps to trigger off something in the listeners' memories via their subconscious.

Remember, the subconscious is a computer bank containing all that has been learned in this lifetime and in past lives elsewhere and on Earth, and which is capable of picking up these high-level codes and keys that have been implanted within the subconscious memory bank by the superconscious or the I Am Self.

These codes and keys might be certain words or phrases repeated in the message, over a series of messages, or via many channels to authenticate the same source or the same level from which they are being sent.

Verifications of the code or the key often come through reading unrelated matter, such as a newspaper headline during the same week you are studying the

message, a phrase in a new song that comes to your attention for the first time, an advertising slogan, a caption in a cartoon, a conversation from a stranger heard inadvertently.

Sometimes the key to a whole message is contained in repeating a certain prefix, like: *con, pre, pro*. Sometimes the key is a common word used in daily vocabulary, but also is the name of a person or a place you should become aware of or work with. This is explained in the *Plant A Nation* brochure, which also is in the May issue of *MAIN*.

But these keys and codes always trigger off some spark within your own individual consciousness. The purpose is to make you personally meditate upon and contemplate something quite specific and unique within your own unfoldment and for your own spiritual development at that time. Thus, the same key or code from the celestial and the etheric levels is equally effective for different individuals, regardless of when they might hear a message, even many years after it has been delivered consciously through a channel on the Earth.

## V I S I T   M A R K - A G E   I N   C O L O R A D O

*We are now back in Colorado and can hardly imagine the good things that happened to us in our associations with the Mark-Age groups in southern California.*

*Spirit waited all of two days before sending opportunity our way. A friend of several years "just happened" to ask us some New Age questions. At a meeting of a local Bible study group, a small but very spiritual and serious group of women asked questions about Mark-Age, the New Age, and other related subjects for six hours.*

*To see people of very traditional and fundamentalist backgrounds opening themselves to new information was very uplifting and encouraging. They by no means agreed with all the answers, but we managed to get beyond differences, to unite as one against error.*

*We are really thrilled with the two new books, *Visitors From Other Planets* and *Angels & Man*. The information in both is such that we are overwhelmed with thanks and love for the beings releasing them, and all*

of every level of existence who have contributed to these publications. We are finding strength and a deepening sense of purpose on every page.

The MAM tapes have been equally inspiring. We are just being flooded with the love and strength of these broadcasts. There is no stronger way to say what we are feeling at this time. We know you all can understand the power of our reaction in other ways. God bless you all.

If you hear of Mark-Age Family members who will be vacationing in this area, please have them contact us. We would like to invite them to join us for meetings and meditations in our home, which is located just outside Rocky Mountain National Park, about sixty miles northwest of Denver.

We have a large field near our cabin that has a made-to-order rock for sitting and meditating: mountains, trees, LIFE all around. We feel good things coming back after a tape is played. It is always so beautiful, peaceful and uplifting. We feel like sharing it with all Earth!

## HEALING TESTIMONIALS

Two and a half years ago the doctors had diagnosed a lifetime in a wheelchair. My pains were agony of hell. But soon after you had put my name in the Mark-Age healing chest, I knew our prayers had been answered. I kept thanking God for my experience, and knew that what I had been suffering was a test. Spirit, with my loved ones, was helping. Three days later I got up and found I had been healed not only of fatigue and exhaustion, but could walk.

Gertrude Dobson; Porterville, Calif.

My heartfelt thanks for all your prayers during my moments of stress. I am all excited about what may be revealed to me now, as it seems something beautiful occurs after such a negative experience or karmic debt.

I love you all at Mark-Age, and feel so close to you during the MAM broadcasts that I can almost feel the touch of your hands. You seem to be answering on the tapes so many thoughts that pop into my head that it is uncanny.

MARK

## PREPARING THE RACE CONSCIOUSNESS FOR NEW & HIGHER SPIRITUAL IDEAS

*MARK:* MAM broadcasters, are you ready? Are you ready to help others to be ready? We must utilize our functions as light broadcasters to help prepare the mass consciousness.

## VISITORS FROM OTHER PLANETS

AGE

We're going to be concerning ourselves with conditioning our own consciousnesses, and also to condition the consciousnesses of others, to receive the two new Mark-Age hardcover books, *Visitors From Other Planets* and *Angels And Man*. We're going to dwell on this, because it is very important. It's not a commercial, in the usual aspect of trying to get someone to buy the books by hearing this. Yet, it is a commercial in the sense that we are projecting to the mass consciousness that they accept the material that is printed in these books, whether they ever read the books or ever hear of the books or not. For this truly is the purpose of presenting these books for the *University of Life*.

EDITATIONS

The first one, *Visitors From Other Planets*, is something we have been working on for a long time. We have been working for some time in our MAM broadcasts also in preparing the mass consciousness to accept the material presented in it; but, above all, to welcome visitors from other planets.

So, in a very real sense, the mass consciousness has been prepared for it; because this mate-

rial has been fed from the higher planes through Nada-Yolanda all these years, projected out, where it was received, read, digested and spoken about by many of you. And of course many others too, who were with us in spirit but not in the *MAM* broadcasts as such.

Then, too, there have been the sightings, the demonstrations, the reports of these things, the issuance of communications from those of higher planes by many other channels, light workers, light groups. We are not really unique, in that respect. Therefore, there has been a great deal of conditioning of the mass consciousness from the late 1950's onward; and from 1960 onward from Mark-Age and through your own efforts.

You have been prepared to receive this book and the material. Also, you have been helping to prepare many others, some of you in a very physical and outward manner through lectures, through radio and television appearances, through your group work, through talking to many people.

Yet, some of you are not familiar with the material, or at least not very much of it. So, you now are being asked to work and to condition your own consciousness to receive this information, to be open and receptive to it; not to dismiss it, but to let it dwell within your consciousness, to ask the concurrence of your own high Self with what you read in this book. Then, as you come to accept it, you project that out to the masses.

Project out to the masses that they don't have to go through the same doubts you did; or the same long years of research, and of wanting these things, of desiring them, perhaps of frustrations. But now both the book and the material, as well as the appearance of spacecraft in the skies in great numbers, is much more prevalent. So, welcome visitors from other planets, indeed.

## ANGELS AND MAN

Now to the other book, *Angels And Man*. Here we're speaking of something that is quite different than *Visitors*

*From Other Planets.* Much of the material presented in the book *Angels And Man* is different, even to us of Mark-Age as we received it through Nada-Yolanda's channelings back in 1971. As some of you know, we were instructed by the archangels at that time not to release the book until they gave their permission. We waited three years until it could be released.

It was necessary to have a period of preparing the mass subconscious for this information, in this respect. *Angels And Man* presents some facts which are quite different from what you have accepted before, as concerns the angelic or celestial kingdom. Not that this should surprise you, because many of the things you have come to accept in the Mark-Age works and the other light programs you have been investigating are quite different from what the world has taught us that we should accept.

But we are dealing here with a very important and a very basic interrelationship between the kingdom of angels and the kingdom of man. It is something which goes far back, before the fall of man; and does concern the fall of man with the subsequent help of the angels in the raising of man back into the fourth dimension, or his spiritual nature, once more.

Perhaps it will bring a little bit of doubt, of concern, to part of the race of man because of their religious training, of what they have come to accept as the nature of the angelic kingdom itself, and the relationship between the angels and mankind. For example, there is information about our inability to perceive those of the angelic kingdom. This has been grossly misunderstood by man of Earth in our recorded time.

(*Editor's note.* In Greek, the literal meaning of the word *angel* is *messenger* or *messenger from God*. Therefore, metaphysically speaking, an angel might actually be our own spiritual thoughts, channeled down from the I Am Self to our conscious mind. A messenger also could be someone from a higher dimension.)

The information in *Angels And Man* is not presented

merely as factual material which is interesting to know, but as something which will guide us in our own relationships within ourselves now, within the race of man as a whole; also, between the various kingdoms upon the Earth. It is designed to help us to know where there have been errors, and teaches us how to correct them. Its cosmic teachings say that all of this cannot be done at one time, but that we as individuals and as a race congregation must make a start. This, the Mark Age period and program, is the time to start.

Additional aspects brought out in this book are that the angels often have been identified with certain ideals, and then characterized as those ideals. Occult teachers have presented spiritually idealized characterizations of God as individualized identities, as actual forms or persons in the celestial realms. These things have to be corrected in Earthman's understanding. Therefore, we must work together to prepare the mass consciousness for the information now revealed to us through *Angels & Man*.

All of us must be open and receptive to these new concepts and revelations. Even those of us at Mark-Age headquarters had many thoughts and questions as to whether we had understood fully or had interpreted correctly these new ideas presented through Nada-Yolanda by the seven arch-angels.

Perhaps you will have similar thoughts and questions; perhaps not. Perhaps the way now has been made easier for you by our having come to understand these things first and then accepting them. As you do the same, you in turn will make it easier for the masses to understand, to believe, to accept and to work with these divine truths and principles.

For, as the subtitle of this book states, it is necessary for us to know the relationships and the responsibilities between the kingdom of man and the kingdom of the angels; as well as all the other kingdoms, too.

Now is the time for this to be brought forth into the Earth mass-subconscious records through the publication

of this book for the very first time. None of this material has been released before through Mark-Age in any other form. Help to prepare the mass-conscious mind for receiving this information and for accepting it. As we have seen demonstrated to us many times in this MAM network for two years now, we know that we have a great power in working with those in the angelic kingdom from whence it was channeled.

Please work with us in helping to prepare, first of all, your own consciousness, and secondly, the consciousness of the race of man on and about the Earth — that means the physical plane as well as the lower astral planes — to receive the information that again is being given by the arch-angels themselves for the information, for the guidance, for the help of man on Earth, to prepare for this ending of an old age and the going into a new age, the incoming golden Age of Aquarius. So be it.
