The "Proceedings" is mailed free to those people who request it and financially support its printing by contributions. There is no subscription rate. All donations, checks, money orders, contributions and bequests should be made to the Ministry of Universal Wisdom, Incorporated.

---

"PROCEEDINGS" are published by the Ministry of Universal Wisdom, Inc., at Yucca Valley, California. Printed in U.S.A. Business and Editorial offices: College Utility Building. George W. Van Tassel, Director; Darlene J. Wing, Secretary-Treasurer; G.W. Van Tassel, Editor. All rights, including translation, reserved. Manuscripts and photographs from our members or friends must be accompanied by a self-addressed, stamped envelope. As we do not employ solicitors nor representatives, please address all correspondence concerning "Proceedings", contributions, donations, bequests, etc., directly to:

THE MINISTRY OF UNIVERSAL WISDOM, INC.  
P.O. Box 458, Yucca Valley, California, 92284  
U.S.A.

## THE WISDOM OF TIME

Time has no boundaries. Neither does it have dimensions such as length, breadth, or depth.

Time is absolute in its cosmic immensity. It was, before galaxies were formed, before life existed in any of its multitudeness forms.

Time spells the wisdom of its eternal essence as it encompasses and permeates all energy and matter.

Motion, in orbits, cycles, and revolutions are manifestations of action in times endless stillness. Nowhere does time move. If time moved the universe would collapse.

Wisdom, being the eternal intelligence, and impregnated within the essence of time, is the womb through which experience is born. Motion is the fluid drive between wisdom and time, which makes it possible for order to be manifested and comprehended through matter and energy.

When one can grasp that they are part of time, being in it, and saturated by it, then understanding begins to leak in and verify that they are eternal creatures of matter and energy. That which is can never not be.

Motion cannot be subject to time, but it can move in times stillness and be separated in measurements of motion, by the living creature composed of motion, time, and experience.

Atoms exhibit motion, change, and order, which the wisdom of still time gave them in order to manifest energy in matter form. Matter exhibits itself as solids, fluids, and gases within each of their limits, so energy can manifest through difference environments.

Nothing can be lost in time, but it must change in order to conform to the environmental cycles of motion, which the wisdom of eternal time established in order to maintain order in its static infinity.

Life here, is the change expressed by the energy form coming through birth, to manifest in an environment of matter requirements on a material planet. Death is the cycle change that allows the energy form to be free from the dense body of matter manifestation here.

Here and there are the same place, when viewed from opposite sides of the same street. Life and death are the street with opposite sides. Here and there are the same place in static eternal time. They are only separated by living creatures in order to have opposites to choose between to express their right of free choice.

Reciprocation, is part of the law of wisdom in still time. Every action has an equal and opposite reaction. Energy gives matter motion. Motion is the mother of experience. If nothing moved, it would only experience the boredom of the sameness of no change.

Efforts to manipulate peace through legislation and man-made actions will result in war as an equal and opposite effect. Peace was there all the time until creatures messed it up, by trying to make it come about as a contrast to war after the destruction.

Wisdom does not advertise itself. Neither does it allow its eternal essence to be tampered with. This is demonstrated by the mouthings of peace by creatures while their actions are producing destructive weapons of war.

Destiny fulfills the order of wisdom, in still time, through the change and interchange of motion in matter and energy.

## "PROCEEDINGS"

This issue of the "Proceedings" starts the 19<sup>th</sup> year of its publication. This is a long time to write a paper that depends upon it's readers to keep it going by donations.

All of our friends are to be complimented for their contributions over the years. Your Director and staff thank each one of you.

## THE "INTEGRATRON"

Slow, steady progress is being made on the "Integratron". We are making a major engineering change on the electro-static armatures. When we designed the machine, in 1957, we incorporated the Wimshurst principle for our high voltage requirement.

A.D. Moore came up with an improvement on the Wimshurst principle, ten years later, and has published a book on his experiments. The book is titled "Electrostatics", and sells for \$1.45 through any technical bookstore. Moore's "Dirod" system reduces electrical losses, which are quite high, from the edges of the flat segments on the Wimshurst principle. His "dirods" increase the capacity about three times with the same spacing as the segments.

On our spinner system, two opposite rotating actions were necessary. Under the Moore system, only one spinner is used, and this change was possible by raising our ground plane up beneath the spinner as a counterpoise. The Moore system gives us much higher voltage with half the action, and we have a spare armature ring.

Our "dirods" are six inches in diameter and 30 inches long, made from aluminum pipe.

As soon as this improvement is completed, we will print a picture of it in the "Proceedings". There are 64 tube "dirods" replacing the 64 flat Wimshurst segments. Dielectric strength is increased as the center-line spacing is the same on both, so we have changed from 10 inch wide flat to six inch round and gained four inches between centers in insulation.

This may not make much sense to some of our readers but to others it is very important information.

## ANOTHER YEAR

We wish to extend to all of our readers a most spiritually uplifting Christmas, and a healthy prosperous New Year.

## LECTURE TOUR

In the last issue of the "Proceedings" we asked our readers to contact us if they could arrange a lecture "WEST of the Mississippi river".

We had a response from seven cities, so we set a schedule and completed the tour in five weeks. Your editor lectured in Phoenix, Oklahoma City, Topeka, Chicago, Sioux City, Iowa, Denver and San Francisco. Yes, we know Chicago is east of the Mississippi, but people from Chicago responded and it was close to our other route.

We found out several things on this tour that show the state of the nation. One was that it is extremely expensive to travel. Because of this we noted major highways, between large cities, do not have anywhere near the traffic they did six years ago.

Motel owners, and managers, admitted things are getting tough and we noted a number of closed motels along the highways. Motels that have restaurants, have closed them in many cases because the restaurants were not breaking even.

The one thing that predominated beyond the economic stress was the apathetic way people are acting. We noticed the general attitude was that a large percentage of the people don't care about what happens in the world, don't care who is elected in offices, don't care who runs what, or how it comes out. The general attitude was to keep getting a buck today, in anyway they could get it, and let tomorrow take care of itself. This is not the American initiative that built this country. The overall attitude was "I don't want to get involved". What they didn't seem to notice was that they were involved in the credit system up to the hilt. Their insecurity was in their pocket wherever they went.

After this tour I am inclined to shorten my predictions. Things are going to happen sooner than I foresaw.

We want to thank all of the wonderful people who worked on arranging the lectures, and especially those who entertained and accommodated us.

## SURVIVAL

"Coming events cast their shadows before them".  
This adage is as old as time.

Let's take a look at the situation from your view point and mine. Anytime you walk toward the light your shadow is behind you. When the shadow is cast before the event you can see it because you are walking away from the light, and the further one goes the darker it gets.

The world's leaders are walking away from the spiritual light of insight into the materialistic darkness of chaos. What do these shadows show?

1. Prominent political figures from all nations running to and fro, passing on the mouth to ear information in a last ditch effort to save a collapsing world economy.

2. Meeting in Rome - the top 10 nations to plan the future of an economic system already beyond the point of no return.

3. Nations supplying both sides in conflict, with money and military goods.

4. Supplies and industrial needs, agricultural products, and metals, needed in war, being sold to "the other side". Perpetuating the economy, if it kills us.

5. Political heads of nations ignoring the social, and economic needs of their own people. 1972 - Twenty-one billion dollars for military purposes. This is twenty-one thousand million dollars for one year.

6. 1971 - just closing - about twentynine billion dollars in the red.

7. School systems short of public funds while radicals burn the buildings. This is loss of control.

8. Major city businesses, gas stations, and bus lines posting notices, "Credit cards only from 10 P.M. to 7 A.M." "Tokens only, no cash".

9. Bank robberies, and bank burnings and bombings.

10. Murders, rape, kidnappings, hijackings, and corruption on the increase.

These are the 10 un-Commandments that are the result of no foresight, no spiritual foundation, no morals, and no natural law.

The philosophy now is, that if we walk far enough away from the light, the shadow will disappear in the darkness.

Your editor received a survival plan issued by the State for each separate County. As far as I can check, it appears it wasn't mailed to everyone. It is a sixteen page paper, like a newspaper in size.

The front page says "Community Emergency Plan". "Earthquakes, Floods, Fires, Nuclear Attack". "Save this plan it may save your life". It is approved by twelve mayors of the major cities in San Bernardino County, California. It is prepared by, Office of Emergency Services, State of California.

The first four pages are devoted to natural disasters; earthquakes, floods and fires. The last ten pages are about survival in a nuclear attack.

There are five public underground shelters shown on the map. These are at Oro Grande, Victorville, Lucerne Valley, Cedarpines Park Area, and Barstow. The public shelters are located in yellow areas on a red background of the County. Then it says "Public shelter is available only if you are in one of the yellow areas marked with a letter. If you are not in one of these yellow areas, you should have your own shelter."

Then the real shaker comes out, as if they already know where the bombs will fall, because it says, "From the time the attack warning signal is sounded, you will have a total of one hour to get to your shelter, public or private". Further it states;

"Do Not use your car to go to your shelter. Walk To Your Shelter". Then a list of things you should take, and not take, with you into the shelter are listed. These are supposed to last for up to two weeks. The final warning in preparation is to do it NOW.

Anyone in California who didn't get one of these papers should write to get one for their county. We do not know if they are available in other states. Californians should write to the Office of Emergency Services, Sacramento, California.

The thing that struck me in examining this survival plan is that everything seems to be so definite as to time, as if the officials already know it is going to happen.

The Bible says: "Get out from among them". After staying in seven major cities, on our lecture tour, I know chaos will prevail in cities if we have an atomic attack. If I were a retired person, and lived in any city, I would be getting out. Others must make their own decisions.

#### GIFT EXCHANGE

One of our dedicated readers, who has received the "Proceedings" since it's inception, on October 15, 1953, has come up with a real prize.

He has shipped all of his copies to us free, to be used to acquire money for the "Integratron". For the purpose he intended, we are going to mail these original copies on to the first person who donates a thousand dollars, or more, toward the "Integratron" research.

This is a chance to get 18 years of the original printing of all copies, in four ring bound sets.

We want to thank this 73 year young associate for his contribution. Postmark date on the letter will determine who is first. Any other gifts beyond the first dated will receive a letter of acknowledgement and thanks. These funds will also go into the research.

## THE SECOND COMING OF CHRIST

In these latter days, of a civilization that has engineered its own problems with no solutions, we are all part of the problem.

Individual problems increase annually, and these are only samples of the amplification of national and world problems.

In the time of the Christ, called Jesus, the disciples asked him, "Tell us, when shall these things be? and what shall be the sign of thy coming, and of the end of the world?" Matthew 24:3. Jesus answered and said, "Take heed that no man deceive you". In other words, learn to discern between the true and the false. This is the most difficult thing to do because the false uses secrecy, unlimited money, and lies to confuse the issues.

"For nation shall rise against nation, and kingdom against kingdom: and there shall be famines, and pestilences, and earthquakes, in divers places." St. Matthew, Chapter 24. This chapter should be read in its entirety.

These things are here now. Pakistan versus India; Arabs versus Jews; Irish Protestants versus Catholics; Southeast Asia Catholics versus Buddhists; North versus South and East versus West; and earthquakes all over the world. Unknown diseases, fallout, chemical and oil contamination. These should be signs enough.

Christmas is supposed to be the reverent remembrance of the anniversary of the birth of Jesus. It has become the biggest commercialized time of the year and the most hypocritical day of the year.

Where is this Christ who is coming again? For centuries people have been professing his return. "Watch therefore, for ye know neither the day nor the hour wherein the Son of man cometh", it says in Matthew 25:13.

"Then shall he say also unto them on the left hand, Depart from me, ye cursed, into everlasting fire, prepared for the devil and his angels." Matthew 25:41. So it appears Jesus had separated people into rightists and leftest groups.

The whole world is divided into one thing or another. What did Jesus say about this? In St. Mark 3:24,25 and 26, "And if a kingdom be divided against itself, that kingdom cannot stand. And if a house be divided against itself, that house cannot stand. And if Satan rise up against himself, and be divided, he cannot stand, but hath an end."

So we have Protestants and Catholics, who both profess Christ, fighting each other in North and South Ireland. We have a Senate, and a House of Representatives, divided between Democrats and Republicans. Satans destructive weapons of war are divided between nations to maintain "a balance of power".

St. Luke 17:29 and 30, says, "But the same day that Lot went out of Sodom it rained fire and brimstone from heaven, and destroyed them all." "Even thus shall it be in the day when the Son of man is revealed."

Sodom and Gomorrah were destroyed by atomic bombs in another time, so this indicates we will have atomic war under way when Christ returns.

"And when ye shall see Jerusalem compassed with armies, then know that the desolation thereof is nigh." St. Luke 21:20.

Jerusalem is encompassed and surrounded by armies in the Holy land. Jer-U.S.A.-lem, the mother of the next age, is also surrounded by enemies, armies, and missiles.

Jesus said in St. John 7:7, "The world cannot hate you; but me it hateth, because I testify of it, that the works thereof are evil." In St. John 8:23, Jesus said, "Ye are from beneath; I am from above: ye are of this world; I am not of this world."

One can readily see why Christ hasn't returned before now, because he was crucified when he was here, and he has to wait until conditions engineered by the destructive forces reaches its climax.

Many people question the fact that Christ will ever return. They cannot grasp how anyone can be alive for nearly 2000 years, in some other place, when the life span here is so short.

Once one understands the spirit, and accepts eternal life, they will grasp the fact that time as we know it relative to measurements of motion, does not exist as years in the eternity of life. Today, was tomorrow yesterday. Eternity has no labels of today, yesterday, tomorrow, or years.

Conditions of events, in cycles of repetition, are the things that bring about "The Second Coming of Christ" and "the second birth".

The events which would occur before Christ returned, as listed in the Bible, are occurring now.

St. Luke 17:24 says, "For as the lightning, that lighteneth out of the one part under heaven, shineth unto the other part under heaven; so shall also the Son of man be in his day." This again sounds like the light of atomic flashes.

In St. John 1:51 Jesus said, "Verily, verily, I say unto you, Hereafter ye shall see heaven open, and the angels of God ascending and descending upon the Son of man." This is evidenced in our time by the thousands of landings and millions of sightings of U.F.O.s, or "flying saucers" around the world.

Concerning "Christ's Second Coming", Chapter 5: 2 and 3, of First Thessalonians says, "For yourselves know perfectly that the day of the Lord so cometh as a thief in the night." "For when they shall say Peace and safety; then sudden destruction cometh upon them, as travail upon a woman with child; and they shall not escape."

Now if Jesus returned, and walked among us "like a thief in the night", we would not know he was among

us if he desired to analyse the situation without anyone knowing it. "When they shall say Peace and safety" is as obvious to anyone at this time. The word "Peace" has been used more in the last ten years than it has before in history.

Revelations 1:7 says, "Behold, he cometh with clouds; and every eye shall see him, and they also which pierced him: and all kindreds of the earth shall wail because of him. Even So, Amen."

The condition also exists today, where it didn't before, for "every eye to see him", because we have world-wide television by satellite.

Whether one believes in Jesus, as the Christ, or whether they believe he will return, or not, is the choice of the individual. None can believe for another.

Hebrews 13:2 says, "Be not forgetful to entertain strangers: for thereby some have entertained angels unawares."

### "What's Going On"

"Shock Lung" will be a major health hazard in a few years as a result of plastic wrapped foods and plastic coated cartons for fluids, meat, etc. Plasticizers used to make plastics flexible can be absorbed from containers by fluids, wrapped meats, and absorbed internally hindering the flow of blood in the lungs.

What happened to all the birds, chipmunks, rabbits and gophers? Driving up highway 95, from highway 66 to Las Vegas and Reno, Nevada, its rare to see a bird or animal. This is the Yucca Flats Atomic Test Area. There is about one wild animal now for every one-hundred, 20 years ago. Between Las Vegas and Reno one gets kind of nauseous passing near the atomic test area.

The Bible says "in the latter days "a third of the birds of the air shall die, and a third of the fish of the sea". So between fallout, pesticides, enzymes, oil slicks, and germicides ending up in the ocean, the fish are depleteing rapidly. About a third of the birds of the world live on fish, so they die from eating the contaminated fish.

Secrecy to prevent anyone from finding out anything about the "White Line", near the equator in Ecuador, has been increased to the point where one would have to go to Quito, Ecuador and have the natives lead you to the area.

The "White Line" is an area where earth gravity ceases to exist and information indicates that if one walks onto the line they fly off into the sky and out into space.

The fact that this area is practically on the equator conforms to our research into the "time zone"; which also is the equator of the third plane of reference perpendicular to the electric flow and the magnetic pattern.

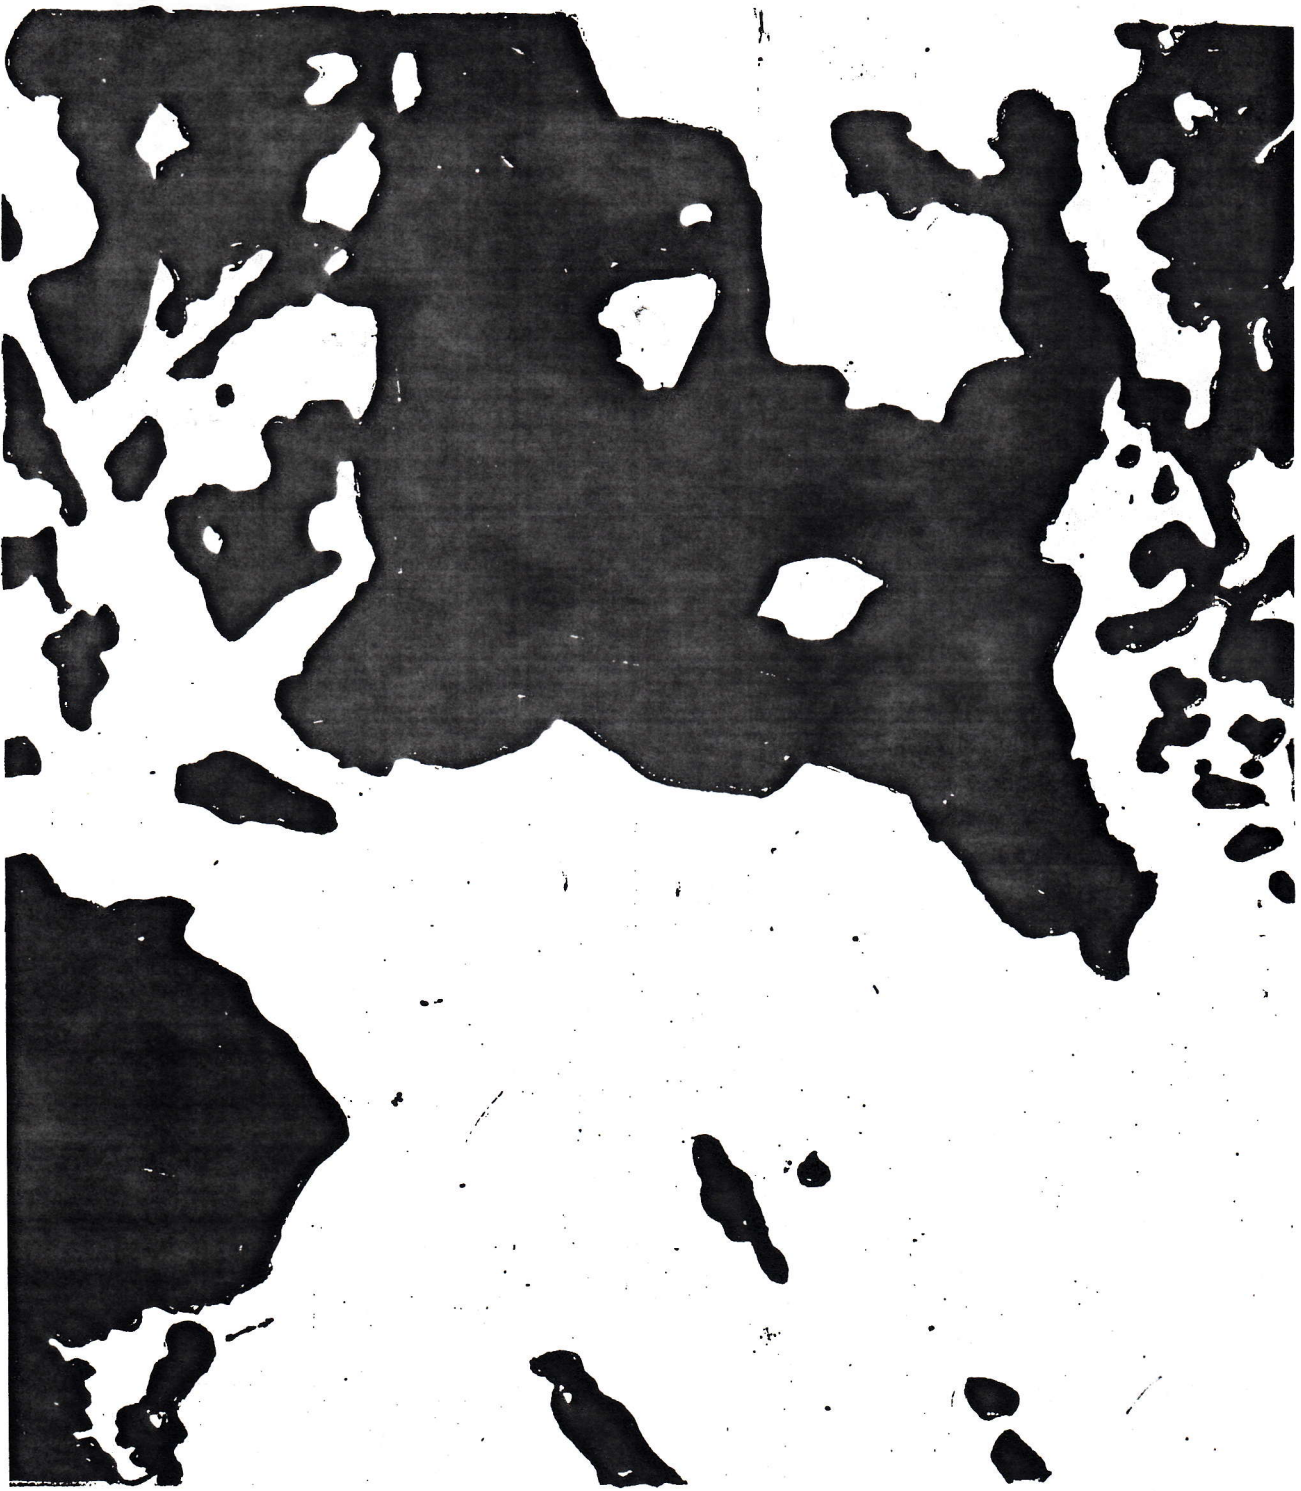

One of the advanced research "saucers" built in secrecy by the government, was seen cruising up the Crosstown Expressway in Oklahoma City at 10:30 P.M. on April 2, 1971. It was about 300 feet above the ground and moving at about 60 miles per hour.

The craft was observed by Morris Heflin, two motorcycle officers who appeared to be following it, and possibly many other people. The identification number, in good old English numerals, IX-1478 was plainly visible on the craft. (This information taken from the "Kansas Oklahoma Newsletter.")

We have said since the middle 1950's that Military Advanced Research copied the space saucers that were hauled back to Wright Patterson Field at Dayton, Ohio, and were flying experimental earth-made saucers since 1956.

The "Red Tide" is killing fish by the millions on both coasts of the United States and on other continental beaches. "Red Tide" is caused by the sudden increase of billions of one-celled animals called bymnodinium breve. This sudden increase may be the result of atomic fallout from above, or atomic wastes dumped in the oceans.

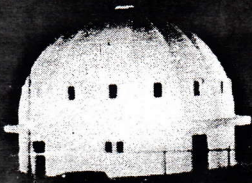

The Senator from Alaska admitted on television that the Eskimos are contaminated with radiation from atomic bomb tests, because the meat they eat is contaminated from fallout.

Stand this page up across the  
room from you and see Christ emerge.
