*The Faceless*

*Cosmic Clock*

MORTALS BOUND IN DENSITY. Who would be the cause, who would bide my time. The tree of thee in me stops not its growth. Though my parts would add to my divisions, my faceless cosmic clock records no time. — For man is not a cause but rather a result of me. For I alone am cause of things to be. And though thou mortal man would wind my clock of destiny, and set the powder keg of destruction at my feet... How can he know the woe? For I alone am cause and man is the result of me, bound to destiny. And in destruction bent reverses course and all the Light spent in his being is hidden by the curtain of ignorance drawn before me. Though I alone am cause, my wrath is not aroused. I tear the shroud, I bring man back through birth within the Light and test my right expressed in progression of my parts. — I write the drama, man plays the fool, then I applaud and make the tool sharper to my cause through experienced results. Man cannot set my clock for I alone can read the time of my Eternity. And so it is: I set the stage; I play the parts; I cause the curtain to come down while man sits in the audience of  
*My Universe - applauding  
 not knowing why.*

### HALLUCINATION SOURCE

EXTERNAL SOURCE HALLUCINATION - A common definition of hallucination that prevents it from being noted is a psychological sequence of activities triggered by an external source and is the same classification as delirium tremors and other abnormal delusions. This prevents valid experiences resulting from social fear.

### NOTICE TO MEMBERSHIPS

The research membership associated within the college are not associated within another whether they be a Church organization or corporation. Our only affiliation is with full time Integretron Projects and the outgrowth of the original formula given to George W. Van Tassel by Solgonda. The ideals remain the same, and the God Power in the reason for this project continue also. It is this power that must be realized for use and finalizing. The Calendar cannot program us as this is a right not a want situation. Man is entirely too selfish for proper judgments at this phase but man is unable to fool God with human ideas. So we must evolve in the way of His Perpetual Progression or go backward to man choice. May we remind you again, babies and children often express wisdom better than adults thus wisdom is not confined to size, age or place of happening.

### FEDERAL RELOCATION ARC

This is the official title given to a secret and incredible network of 96 underground cities. These were built to protect approximately 6,500 government officials in case of nuclear war. It seems that even the Senate Subcommittee on Constitutional Rights is unable to obtain any information regarding these cities except that they are complete in every detail. All departments of the Executive Branch have underground counterparts throughout Pennsylvania, Virginia, West Virginia, Maryland, and North Carolina. Operating expenses go into the millions.

Free energy principles could slow present powers (oil, gas atomic, \$). This could slow industry of tires, axles, springs, internal combustion engines, radiators, generators, starters of autos alone.

### LIFE EVER IS

Since the last issue of the "PROCEEDINGS", we are aware of many special friends having left this plane. I prefer to say that their vitality is transferred and we do especially express our true love and recognition with them. Death is a word of a singular balance and I cannot recognize it as being whole or complete, but rather a phase that shows beautiful colors. Soul progression shines thru the personal evaluation phase that one must experience alone after a mate has left this plane.

---

I keep being reminded of a small sentence in a main thesis written by Col. Bearden. His vocabulary often stirred up more thinking than the Russian Physicists developed.

---

One of the most startling and potent people I ever knew was Helen Keller. She taught even as she learned the brilliance and beauty of faith for it climbed over the top of any lesser emotion and impacted into the magic world of thinking beyond the sad limited strata man knows. Although much of her foundation for religion or philosophy seemed to be evolved around the Swedenborg Foundation, the unique and dynamic personality shines thru all her thinking of the creative essence we know as God and praise to God. One day I will recount experiences into vision that I gained by having known this great soul, Helen Keller.

" - Night is drawing nigh -  
For all that has been - Thanks!  
To all that shall be - Yes! "  
. . . . Dag Hammarskjold

"Detente" in today's English means, "stall until we can get the nations programmed to each play their part according to the plan of war."

### NATURAL LAW!:

So money is the monster responsible for secrecy, welfare, . . . unsocial insecurity, loans, national debt, interest, international trade, phoney energy crisis, and war. Why are beneficial things in life so hard to finance?

Gravity nullification in cars, and spacecraft has been successfully used in secrecy since the 1950's. Why? Because these principles would eliminate tire companies, paving construction, chemical firms, steel company products and gasoline stations.

Living cells, in a life level of their own can only respond and confirm to natural laws. They do not need radio or telephone to communicate; neither do they have courses in chemistry or physics. They have no A.M.A., doctors, Health, Education and Welfare or any level of education, unions or politics. They only respond to the natural laws of reaction, reciprocation, polarity, balance and survival. Life that makes stationary and mobile conglomerates of themselves, function.

Jeno and Madeline Barnothy, and other researchers, are getting the same results as the negative ions are getting with magnetic fields. Actually the magnetic fields polarize the ions and the ions get the results. George Lakovsky, Nikola Tesla, Dr. George Crile demonstrated that humans extract the electrical charge from the atoms within the spectrum that we call oxygen. This electric and magnetic charge is then picked up by the cells in the blood, which are capacitors. As they circulate in the bloodstream and lymph they in turn discharge electric activity.

Seeds found in ancient tombs, several thousand years old, have been planted and grow as if they came from last years plants.

Magnetotherapy basically consists of applications of low frequency magnetic fields: 50 Hz sinusoidal fields, pulsating fields of 50 to 100 Hz, periodically interrupted fields, also rotating magnetic fields.

### ERRONEOUS ZONES

Biologist Leslie Orgel's theory of aging causes us to wonder if we may have more "Erroneous Zones" than we realize. Biologist Orgel believes that aging may be the result of accumulated information errors of information being processed in the body. These may arise from DNA source losing itself in translation of genetic information between body constituents and itself. Are we to believe nothing can be done about it? Most medical and biological opinion indicate "genetic deterioration" may be slowed but not reversed. Our theory indicated this is but a portion of a truth and not one we care to accept at this point.

A true scientist when discovered does not have in mind that there is a "padlock" to be placed on his information somewhere along the way, (unless it serves politics, pocket or pornography).

---

Our electrostatic machine is based on other research conducted over the past 50 years, including scientists Tesla, Dr. A. D. Moore, Dr. George Crile and Dr. George Lakovsky.

---

A biological science not easily grasped is that the brain is a bio-transducer that can transcend from mundane human thinking and thought reception.

by George W. Van Tassel

A recent and courageous translation of Matt. 3:2 reads, "Repent ye for the Kingdom of Heaven is at hand"), consider a translation by Berger which reads, "Change your hearts, for communication with God's Spirit World is at hand."

### QUOTE AND ECHO

What lies behind us and what lies before us are tiny matters compared to what lies within us. (And what lies within us. . is the NOW power - Your Presence).

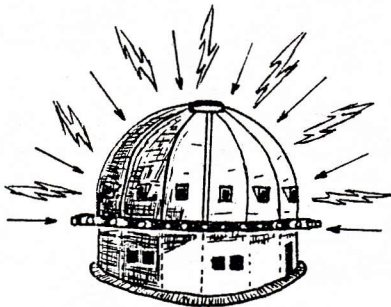

Not what we have, but what we enjoy constitutes our abundance. ("Status" is the biggest bag of vacuum that ever was.)

In every triumph, there is a lot of try. (You gain your omph much later on!)

A really contented man has all his yesterdays filed away, his present in order, and his future subject to instant revision. (A great man is one with an open mind, and can immediately change his mind and his word if a new, clearer and superior vision emerges on his horizon.)

Life's heaviest burden is to have nothing to carry. (Divine responsibility is the only Freedom there is.)

Whatever your past has been, you have a spotless future. (Therefore don't let evil Karma from the past and yet to be endured cause you to do new spotful or spiteful things.)

**MEMBERSHIP:**

To (re)member (or put together again) and in a bonified re-shipment back into the minds of men, The Ancient Wisdom, the Laws that are God, and the Divine Admonitions of our Angel Kingdom levels . . . our "Heavenly Host," who have built and supervise our creation for us, under GOD . . . we heartily sound the call and the opportune invitation for more MEMBER-SHIP - for the CAUSE:

The cause of RE-MEMBERING this world, now torn in the dismemberment of hate and fear - culminating in both the disintegration of the Holiness of God's Atoms - the disintegration of moral ethics - all of which can, as things ARE, only end - (without your HELP) in the END of mankind here.
