**AN IMPORTANT MESSAGE FROM
MUTUAL OF CHARTER ARMS
DEATH INSURANCE**

Hey Frank, did ya hear the news about Jimmy?

Jimmy? what happened to him?

Well, he went to the hospital to get his tonsils out and they screwed up the anesthetic an' put him in a coma.

Gosh, that's terrible. Is he gonna be alright?

I'm afraid not... 'cause when the doctors figured out what they'd done, they panicked and tried all sorts of goofy stuff to get Jimmy out of the coma--things like animal brain cell transplants, gamma-rays, and laser brain surgery. The upshot of all this is that now Jimmy's not only in a coma, he's also brain-dead.

Damn! what are they going to do now... let the rest of him die, too?

No fucking way. Those quacks have got him where they want him. It's costing Jimmy's wife \$10,000 a day just to keep him hooked up to all the life-support equipment. They're not going to let a goldmine like Jimmy just up and croak.

Doesn't Jimmy's medical insurance cover the expenses?

Sure it does... up to \$75,000, which now days is the equivalent of a week in the hospital. Hell, in the condition he's in now, he could live for years. I'll tell you one thing though, what happened to Jimmy could've been prevented for less than \$5 a month.

How so?

If Jimmy had had a policy with Mutual of Charter Arms, like I do, he wouldn't have stayed a vegetable for long. The minute that it was verified that he was brain-dead, the local Mutual of Charter Arms office would have sent out an agent to dispatch him in the quickest, most painless way possible.

No kidding... but what about people who are terminally ill; but, are still in possession of their mental faculties?

Well, if a policyholder is terminally ill and in pain; and, the doctors are just prolonging it in order to get every nickel they can... Mutual of Charter Arms will see to it that the policyholder gets whatever they need to help them shuffle off this mortal coil--sleeping pills, a gun, anything they desire.

And how much did you say this all costs?

Only 5 bucks a month--less than the cost of an aspirin tablet in the hospital.

Gee, how can I become a policyholder?

Just call the toll-free number below and then you can enjoy the peace of mind that comes with being a Mutual of Charter Arms policyholder.

HOLY SHIT

Thousands of pilgrims are flocking to upper New York state to view this likeness of Jesus Christ which mysteriously appeared on several sheets of bathroom tissue. The owner of the tissue, Mrs. Georgia Logsdon, claims that the likeness of Christ appeared while she was suffering from a severe case of intestinal influenza.

"I had been sick for days", Mrs. Logsdon recounts, "And had spent most of my time in the bathroom."

"After one of many particularly violent bowel movements, I prayed to Jesus that I would get over this malady quickly. In the process of cleaning myself I noticed that a section of the soiled sheets bore a striking resemblance to Jesus. I knew then that my prayers had been answered."

Mrs. Logsdon reports that upon gazing on the visage of Christ, her intestinal problems abruptly ceased. The healing power of the mysterious image is not only limited to Mrs. Logsdon. Her husband, Edward, also claims of being relieved of hemorrhoid pain after seeing the tissue. A neighbor, Viola Henderson, states that her dog, Speezo, was cured of ringworm after he sniffed the image.

IF SHE WAS A HORSE, WE'D SHOOT HER.

At one time Jean Kirkpatrick was as healthy and happy as a person could be. She was free spirited and filled with a zest for life. But that is all in the past; for, Jean has contracted Authoritonitis.

Authoritonitis is a condition in which one of the hemispheres of the brain (either left or right) becomes inflamed and begins to swell rapidly. As the hemisphere swells, it attempts to dominate the other parts of the brain; and in the process, constricts those sections of the brain in charge of autonomic functions (breathing, heartbeat, glands, etc.) to a point that they malfunction. When this occurs, a person afflicted with Authoritonitis becomes so bloated with poisons and waste products that the body can no longer eliminate them (And you thought those wattles on William F. Buckley's neck were just fat!). The skin soon loses its elasticity and begins to hang loosely from the body giving the victim a certain bloodhound-like appearance (See above picture.). The sufferer's disposition, no matter how congenial, turns ugly; and, the swollen hemisphere becomes obsessed with not only dominating the entire brain of the victim, but also desires to dominate the brains of other people. At this point; however, the body usually collapses due to the massive accumulation of poisons and the sufferer dies.

There is not much we can do for Jean. We can indulge her and try to make her last days of life as painless as possible; but, as you can clearly see, her time is about up.

Tragedies like Jean's can be avoided if you know the Five Warning Signs Of Authoritonitis:

1. You secretly watch and enjoy old re-runs of "Death Valley Days".
2. You spend hours, even days, trying to differentiate between authoritarian and totalitarian.
3. You begin having erotic dreams about Eva Braun.
4. You start referring to Jerry Falwell as "that liberal pinko".
5. You find yourself humming "America Uber Alles" while in the shower.

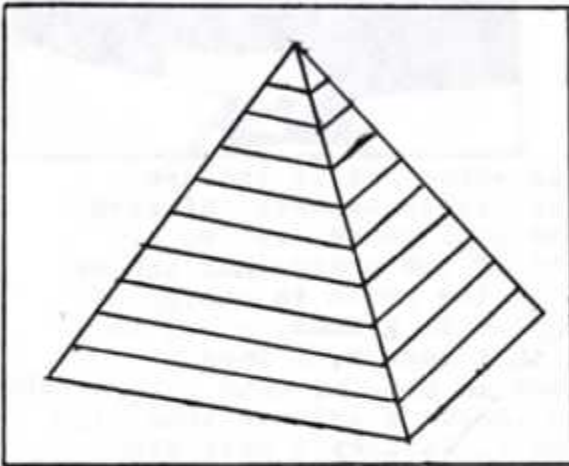

If you answered "yes" to one or more of these questions, you should contact a physician immediately.

For more information about Authoritonitis and its prevention write: The Authoritonitis Institute, P.O. Box 764, Roanoke, VA 37862.

If you take the area of the Great Pyramid of Cheops, divide it by pi and then multiply it by 144 (the number of oz. in a regular twelve pack) you come up with the number 5672213-- the same number as the phone number of the head office of Budweiser!

2. The Cave Paintings Of Madrid

In the caves just north of Madrid are paintings done by Neolithic people over 25,000 years ago. Among the representations of woolly mammoths, giant cavebears and huge ground sloths are strange drawings of what appears to be space-suited creatures carrying six-packs.

The sacred Pull-tab of the Incas has been carbon-dated as being over 1200 years old. Legend has it that the pull-tab was left behind by the bearded god Taokenukka who appeared one day with several cases of "bitter golden water". Although the Incas had some knowledge of the science of brewing, it is generally agreed by experts that 8th century Inca civilization did not possess the knowledge or technological means to produce a pull-tab of such sophistication.

4. Jukastumbiditswo

The Australian Aborigines also have legends of suds bearing beings from outer space. On a desolate plain in Australia's outback, approximately 350 miles due east from Sidney is a large boulder with a hole carved in it. The hole's size and shape are not dissimilar to that of a keg of beer. The aboriginal name, Jukastumbiditswo, translates into english as "Cask of Dreams". A compass when placed inside the carving will spin wildly. Natives report that when a person's head is placed inside Jukastumbiditswo a dizziness overcomes them along with a violent urge to urinate.

Introducing The

TM
PATENT PENDING

The PIG is filled with an organic, highly absorbent material. When the PIG comes in contact with oil or most liquid wastes, it immediately begins to absorb.

The PIG absorbs quickly and continuously. Unlike typical loose absorbent, there's no need to keep fresh material in contact with the spillage. The unique wicking action of the PIG does it for you.

Here's the simple truth. The PIG is 3 to 4 times more absorbent than the leading loose-spread absorbent.

One of the most attractive benefits of the PIG is the ease of use. It can literally be thrown in place, allowed to work and a simple "grab" is all the clean-up required.

In addition to all its other capabilities, you'll find the PIG cooperative. It stays neatly put where it's needed, easily molding to strange shapes and even hugging difficult corners. Put it down, let it work hard, and then toss it away.

- "I was surprised at just how much oil the PIG actually absorbed.
- Pollution Control people are happy because PIGs are easier and cheaper - to dispose of.
- "The production personnel really like them as we have found the PIG much easier to use than the loose absorbents.

**PIGs are 46" long each — approximately 3" in diameter
40 PIGs per box**

Please Note: The PIG must be disposed of in compliance with local, state and federal regulations. Because various fluids absorbed may be of toxic or hazardous nature, NEW PIG Corporation does not recommend disposal procedures.

Missionary: Good afternoon. We are representatives of The Church of Jesus Christ of Latter-day Saints. We would like to share a successful family program with you and your family, without any obligation on your part and with nothing to buy. May we come in for a moment?

Brown: Well, I dunno. I'm pretty busy showing the kids how to bite the heads off of chickens.

Missionary: Wonderful. Our message is for families of all faiths. May we come in?

Brown: Alright, but don't get too near Leroy Jr.'s cage. I ain't fed him yet today.

Missionary: *Mr. Brown, would you be surprised if we told you that Jesus Christ created the earth?

Brown: Would you be surprised if I told you that you're standing in dogshit?

Missionary: Do you feel that you have faith in the Lord?

Brown: Not since Elvis done up an' died.

Missionary: How can we show our faith?

Brown: Stay right there while I get my chainsaw.

Missionary: We mentioned four basic principles and ordinances of the gospel. What is the first of these principles?

Brown: There's a sucker born every minute.

Missionary: Do you want the blessing of baptism?

Brown: Wow, is that like a golden shower?

Missionary: Mr. Brown, what follows baptism?

Brown: A Shetland pony.

Missionary: Do you feel the gift of the Holy Ghost is a blessing worth working for?

Brown: Hey, I thought if I converted before midnight tonite, the gift of the Holy Ghost was included at no extra cost.

Missionary: What are the different ways the Lord has provided for us to learn truth?

Brown: National Enquirer, True Detective and Soap Opera Digest.

Missionary: How do you plan to use them in seeking the truth?

Brown: Well, we were out of toilet paper....

Reverend Speezo

Is your life a mess? Have the bills piled up, the roof started leaking and your children are hungry? Are you vexed because no matter how much you pray, the Lord does not answer you? Well, the Lord cannot answer prayers He does not hear. And he cannot hear your prayers unless you are near Him. And you cannot be near to the Lord unless you are following Him.

That's right. To receive the blessing of God, you have to follow Him through thick and thin, giving him your unswerving devotion every step of the way. No matter what obstacles Satan places in your path, you have to have the faith to overcome them and stay close on the heels of God. Nobody said it would be easy; but, the rewards, both material and spiritual, are greater than you can ever imagine.

I can hear you saying now, "Reverend Speezo, I want to follow the Lord but I have fallen off the path and have gotten way behind. Can you help me catch up?"

Well dear friend, there is still time for you to catch up with God ;but, you will have to run... run like the wind. You will need help ;and, that is where reverend Speezo comes in.

I have compiled a special home Bible study-guide entitled "Run for Christ's Sake" which will help you regain your footing and once again be in lockstep with the Lord. Along with the study-guide comes a set of "Run for Christ's Sake" miniature running shoe lapel pins. They are made of the finest alloys and polymers available ;and, your friends will swoon with envy at the very sight of them.

Yes, Reverend Speezo wants you to have the "Run for Christ's Sake" home Bible study-guide and the running shoe lapel pins but that is not all. In addition, to help you through your present hard times, the staff here at Reverend Speezo's Ministry of God will personally take your troubles to the Lord. Print your name and address, check your prayer needs and I and my staff will pray for an end to your problems.
