

WE ARE THE LIGHT OF GOD MADE VISIBLE ! ALLELUIA!

INVISIBLE LIGHT

DWAL KUHL: I would like this evening to dwell upon an important subject. I would like to speak to you about LIGHT. You will be thinking, "Oh, we have heard so much about LIGHT," and yet, my beloved, you have hardly begun to understand the science of Light.

There are in your library volumes of a treatise which I wrote through another channel (Alice Bailey) on the Seven Rays of Light. At the time when I wrote this through her, man was just beginning to experiment with the spectrum. The light below that which your instruments have been able to detect spreads outwards into other manifestations; but between the areas of sound, radio and light and above the areas of light there are many vibrations which the Masters are able to respond to. I use the term "Master" because you are familiar with it.

This term of Master, of course, means one who has attained a high state of initiation in the wisdom of At-One-Ment, and the understanding of the laws of the Omniverse. We who have progressed more highly in these laws (as you have done) manifested on Earth through many generations and many experiences. We, too, are members of the Golden Legion.

You in your higher selves know much more about Light than you know in your present expressions. There are available to you charts and treatises upon the extension of vibration, beginning with the sixteen oscillations per second which is your lowest sound, and continuing up beyond your highest light. You will know, of course, that the etheric radiations of light are invisible to you. You have been experiencing some of these in your meditation through the inner senses, but you are, perhaps, not aware of the fact that IMMANUEL and these Stars who are coming into your consciousness have to go into the higher etheric realms of thought in order to be able to contact LIOLIA. Just as you have been finding your way through the etheric or (as some have called them in times past) the astral projections, just as some of you have made your way out of the aura of the planet and into the higher consciousness of the body of IMMANUEL, so IMMANUEL must make his way out of his consciousness, up into what to him would be clairaudience and clairvoyance, in order to contact the Light of LIOLIA.

When you come out into the body of IMMANUEL, however, you are able as atoms, or electrons, or as waves of light to travel from one Solar System to another, and thus it is possible for you to approach an understanding of the high Spiritual Centers of Galaxies. For this reason Olena came to you as a

very high vibration like crystal discernable only as you might discern a highly polished glass, almost invisible to you in certain angles and in certain lights. We are freer or less limited in our present expressions in the etheric, for we only come occasionally at the present into those bodies that are available to us on your level.

I wish to bring to you the wonder concerning light itself in that which is invisible to any instrument that you have at present in your manifestation. Devices will continuously be brought through that will enlarge your understanding of the spectrum. That which man now considers the spectrum of a Star or of the Sun is but a very narrow band of this expression, for there are the above and below vibrations, those which your devices of the future may be able to detect.

For those who are on a level of the Brotherhood of the Suns, the light is as visible from one sun to another as you see each other; that is, all of the light of IMMANUEL from the lowest register to its highest is visible to SOLOGA, but each of these must go into the higher spiritual senses to be able to contact the light of the Spiritual Centers of Constellations or Galaxies. To them the constellations are not what you would see and what you have on your star maps, which, of course, must be quite confusing to you. Betelgeuse spoke of such a Center of a star group. They have to go into their clairvoyant senses to be able even to contact that higher Spiritual Center, just as you have to in order to contact the Earth itself.

Now I only wish to open this subject of light for your study that you may alert to your scientific writings and to the explorations of your men of science, both in the material science and also in that of the spiritual emanations. You also are spiritual scientists exploring so far out in the spiritual understanding that there are thousands upon thousands who simply can not at all accept what you now are learning. I was with the channel when a member of your group in another meeting said, "Well, I know that some of the things that you have brought to us have never been heard by man before." This is sometimes possible, and yet in the long experience of the Masters upon the Earth, you may be sure that most of what may be told you has come to them in at least glimpses and inklings in the Earth manifestation.

Now I too will say SOLOGA to you; for understand, my beloved ones, that all words that are spoken are the Voice of GOD expressing to the mind of man. May I repeat that? All words that are spoken are the Voice of GOD expressing to the mind of man.

TO GOD ALONE THE GLORY!

THE LARGEST STAR

SOLOGO: speaking to my beloved ones, little suns shining in the brightness of the MOST HIGH GOD. First of all I wish to congratulate the Group of

SOLOGA on passing the severe test of the past week. These tests must come; and as you have decided in your interpretation, such tests do bring wisdom. All tests of this kind which come to you are to be met unemotionally except perhaps with joy and gratitude that you are so close in your understanding of GOD that you do know it is but a daily assignment and an opportunity by means of which you can grow. I do not know whether you realize it or not, but in years gone by, you would not have been able to pass this test with the calmness that you did at this moment. You may be sure that your own dear Forces of Light and the Angels of His Presence were with you, and your own Higher Selves took a firm grip upon you that you be not disturbed by the thought of almost instantaneous annihilation which could have been possible had it not been for the strong work of the Forces of Light. (This refers to a warning that we must prepare for exodus from Miami which came from a loving group in a distant area before the Cuban crisis).

Beloved ones, I come this evening to introduce to you a very large Star. This Star is the largest one that your astronomers have been able to discover and measure in your heavens. Its magnitude is very, very great. Its absolute magnitude is many times that of your own, and much greater than the great Star Betelgeuse of which I spoke to you last week. This particular star is also to be found in the constellation Orion, but while Betelgeuse is 300 light years from you and has a magnitude of some minus 3.9, this star is 540 light years distant, and has a magnitude of minus 5.8 which is much larger than the star which addressed you last week. The new star's name is Rigel (Ri'jel). I am using the pronunciation given in your dictionary, although the Being Himself often uses the pronunciation, Ri - je'1 when he speaks of himself, for this is the way that word used to be pronounced on the Earth at the time when he was in conscious communication before. This star is blue-white, very, very powerful, young, vigorous and full of life, one whose power coming to you is extremely beneficial and helpful in the work of IMMANUEL in the Earth today.

I shall not speak long tonight for I have said so much to you in times past, but I must always tell you that I bring you all of the Love of the Masculine and Feminine Aspect of the Star Sirius, and all the Love of the MOST HIGH GOD, coming to me directly and also through my Father-Mother Star, LIOLIA.

LIOLIA has not spoken to you for some little while. This is because it was important to introduce each of these Twelve Stars. However, it might be considered a testing time, for so often when a name is not spoken, then we forget. Do not fail to sing and chant and send forth that Name daily, for it must come into the vibration of men of Earth before they can progress.

You have been asked how long it will be before these things will be fully accepted. You have been told that it might be two or three hundred years. You have also been told that many more people will be coming to you of their own accord in five years. Time is not of importance. The important thing to you

is that you do your best from day to day to send forth the word as it has been given in your group, SOLOGA.

I hope that each of you are repeatedly going over the SOLOGRAPHS for there were so many different little commandments, instructions and requests given you that if you do not make a list of them or continually review them, that which may be most beneficial to you personally may slip away from you. I am so happy in your progress, in your faithfulness, in the solid foundation which you have built, and so happy that we are here to assist you.

I wish you to know that all of us will be upholding you in your effort in the Vesper Services. Please do not feel that this is unimportant. Please understand that this ordained in the Council of the Golden Legion that you should begin these services now and that you should introduce to the mind of Earthman the Universal Church of the Word of GOD expressed in all existence. We shall be there to help you. If there is no one there but the channel, there will be a cathedral full of Beings of Light to fill up your audience. Be faithful in this Chapel Service. It will be blest by the MOST HIGH GOD, and be a seed which will grow into a great and flourishing Tree of Life for the nations. SOLOGA! May each of us and all together fully express the Word of the MOST HIGH in our daily existence.

UP UP AND UP SPIRITUALLY

THE STAR RIGEL: My beloved children of Light, I, the Star RIGEL, come to you tonight with a message of joy, of love, of GOD-In-Action in your life. My brother SOLOGO has introduced me to you as a young Star, but a very large Star. If this were a school room and I were permitted, I would say, "What, then, do you know about me?" I will tell you that the fact that I am the largest Star in your sky will tell you that I am a very old soul as a star. Since I am blue-white, that will tell you that I am young and vigorous as a star in this incarnation. Yet, my beloved, I am fully aware that this is my last service as a star, and that next I shall become a center of a constellation.

You can see me in your winter skies. I hope the first time that your sky is not clouded you will look out at me at the end of your meeting. If you know where to find Orion, you will remember that my brother, Betelgeuse, is the right shoulder. I am what would be the left knee straight across cornerwise from Betelgeuse. You have been told that Betelgeuse is 300 light years away from you in material space-thought and that I am 540 light years or almost twice as far, and yet when you look at us you will not be able to see any difference in our size or brightness except that I am blue-white and Betelgeuse is red. You will be able to distinguish these colors, I think, with the naked eye for all who look at us do see them.

As a young star, in my last incarnation as a star, I am specializing in creative activity and dominion, for in my next incarnation which will be my

first as the center of a constellation, it will be necessary for me to draw to myself the components of that constellation. Now this does not mean that the star forms will change in your life time. Your life on Earth is but the flick of an eyelid. My life will extend for ages upon ages before I, too, finally become a deep red star, then pass from material sight into a higher vibration.

Then will come a period of rest, of meditation and preparation within the body of LIOLIA, in the Realms of Light, the Spiritual Planes around that great Spiritual Center of our Galaxy. When it is time and I am ready and LIOLIA gives me the commission, then I will be assigned a place within the body of LIOLIA within which to establish a constellation. Perhaps, some of you by that time will be wandering my way; only GOD knows.

I give you so much Love. I Love you with all the vigor of a great, shining young, energetic, zealous Thought in the Consciousness of GOD. I Love you with so much power that I must restrain myself to keep from giving you too much for your little, delicate Earth organisms. I express myself with great vigor, with great power. Just as a young athlete in your country which so admires the athletes might express himself in extreme vigor, in running, in jumping, in the contests of skill and of power. So I express myself wherever I turn my consciousness.

Of course, I have a very large Solar System. Not only do I have a large Solar System, but I have drawn to me a Companion Star and am what you know as Binary, or two stars revolving around a common center. This is preparation for a later expression in the androgynous, a Central Sun of a Constellation.

You see, as we go up, we continually are joining another who has also come up. You gather to yourself your twin soul or twin ray. When you become a planet, then in your progress you finally gather to yourself your twin ray on a planetary level. This you have been told, for IMMANUEL is thus beginning to establish ties of Light with Purple-Pleone. Then, as you go further, you draw yourself a Sun who will be your complement in the Spiritual Center of a Galaxy, and so on, up, up and up. We progress with no ending to it, for the Consciousness of the MOST HIGH GOD is Infinite, and that which to you seems infinite space enlarges and enlarges as you go further and further in your concepts, and as your consciousness is able to take in such thoughts.

There is one in your group who is my representative in your material plane of SOLOGA. She has had her time in my Starhood, but not in my present incarnation. She brings my characteristic, my light, my vigor, my zeal, my GOD-In-Action characteristics into your Group. All of you are GOD-In-Action. All of you express GOD just as HeShe desires you to express at this moment. Never doubt that anything that you may see or hear is GOD expressing Himherself to you or through you. Rest in this. Know this. Be filled with this thought.

I will not say that she is the only one of you who have been in my Star-

System, for remember, you are Wanderers. Most of you have been in several Star-Systems, and some of you have been in many. It was said that your channel had had a time in each of the Twelve Stars who will speak to you, but that does not mean that is the only place that she has been, or that she is the only one who has been in Twelve Stars, but her experience included these definite Twelve as well as others. Think of us as One, One in the body of GOD. If we as stars are what you can see at so great a distance and if we were all gathered together in one place, what a tremendous shining that would be! Then on a spiritual level, think of the marvelous Light of the MOST HIGH, the Limitless Light of which substance you and I are made, and be amazed at the greatness of our Father-Mother GOD.

I come to stimulate in each one of you the joy of creativity, and I will come again to talk about creating and creativity on the mental plane. I give you the blessing of all the Brotherhood of Suns. I give you the Love of the MOST HIGH GOD as expressed through me, and my Love also. Yes, you may call me Ri-jel, and you may call the feminine aspect Ri-jel-a. Let us drop the long "I" sound for that and call it Ri-jel-a. This is the reason I often pronounce my name as Ri-jel, because it is easier than to say, Ri-jel-a.

May GOD bless each one of you in every moment of your existence.
SOLOGA! Together we stars must do our best at shining. 10/30/62

In the meditation period following this message, I, the Onlooker as a representative or symbol of man, was drawn upward on a beam of love from LIOLIA into the Star Rijel. At first I experienced such a feeling of youthful zest, vigor, activity and vitality that I felt that the whole meditation group were there with me dancing in joy. In Rijel everything is creative activity. Beings of Light who inhabit this Sun Realm were all making things with thought. All were in communication mentally with each other. When one conceived an idea all the others shared, encouraged and applauded yet kept on with their own projects. When one completed something all admired and appreciated the results of his efforts. There was no criticism or embarrassment since all had advanced to the point of pure love and empathy.

They asked me, "Why don't you try it? Just think of what you want to make." I chose a bird for I thought its outlines would be simple. "What color shall it be?" they asked. I decided on harmonizing shades of violet with iridescent lights of green, rose and gold. "What kind of tail shall it have?" they prompted. I thought of a rather small replica of an Australian lyre bird. "Any top know?" someone asked. I selected the intriguing head-dress of an African dancing crane. There before me my lovely bird preened and admired himself.

I was then confronted with a creator's sense of the responsibility. "Who will care for it for I cannot take it back with me or stay here to feed it?" I asked. No one answered me. I thought of a loved rose cockatto and there he was before me. A cardinal suddenly appeared and his silver notes rang out.

I felt the pleasure of all as he sang. A tiny golden canary flitted into view. I said, "I must stop this thinking before we have to build an aviary." Then they explained.

You think of an object. It becomes real to you through your thought as long as you contemplate it. GOD is thinking you, contemplating you. As long as He holds you in thought in this form you remain as you are. When He releases you in contemplation, the Earth pattern of the physical returns to the substance of the Limitless Light to be transvolved into some other form, but the Higher Self abides in the more permanent thought of GOD about Himself. To GOD your Earth life is but the flick of an eyelid in eternity, a quick resume of certain experiences to be released from the thought when the essence is extracted and the lesson learned. The birds which you hold in thought are the Substance of GOD, His Life and Law expressing through His desires lived in you. When you release them from your thought you give them back to the ALL and leave them there. They are GOD'S; He will maintain them or transvolve them as He desires. Both they and you are His Responsibility, not yours.

In a second meditation period I was again taken to Rijel and told to think of the thing I most wanted to enjoy for myself. What I desired was to experience a device which would translate thought into color and sound at the same time. I thought of a great organ capable of this, and immediately an enormous instrument loomed in front of me. It was black to symbolize feminine receptivity. Beings of Light gathered around to enjoy my performance but I was overcome with stage fright, and found myself back in my chair in my human consciousness. However, I was drawn back immediately. They said, "Forget the organ and the audience. Just begin to pray." As I said, "Oh, beloved Father-Mother GOD", a great thrill of sound ran up and down the keyboard and all the colors of the rainbow flashed around us. Very reluctantly I returned to the group meeting and the dear ones waiting for me. I know the Higher Self finished the prayer on a grander vibration than the Earth Consciousness is permitted at present.

OVERCOME THE ANTI-CHRIST

GABRIEL AND MICHAEL: standing together as one in brotherhood to bring you the power broadcast. While you have passed through one great test, there are many others to come. While your seeming enemy has retreated for the moment, he has not given up. Your enemy from which you were shielded in the vision last week, is not a person, not a human nation, but is the Anti-Christ, that which denies the presence of GOD, the Allness of GOD, the Oneness of GOD, that which says within itself, "I am a separate will; my will is of me, myself, and not of GOD." This is the anti-Christ.

This anti-Christ can be found on all sides, even in your Christian country, for it is an ignorance of your At-One-Ment in the Mind of GOD. The great battle of the present is to overcome the anti-Christ. This is the battle for

which the Angels have girded themselves. This is the battle which has called all Angels into your vibration to help to lift you out of this dungeon of ignorance that you have been thrust into by the misunderstanding of what Jesus and other teachers have tried to bring to you.

Therefore, we send forth into the Earth the thought that all men are only GOD expressing Himself. If the people of China knew this, they would not be fighting India, for GOD is Supreme. He has infinite resources. There is enough for everyone - always enough within the Exhaustless Riches of the Limitless Supply of the Divine. Therefore, in sending forth we must continually tell the mind of man that man is an expression of GOD.

Many who read the SOLOGRAPHS are not ready yet to accept this. Many who accept the thought superficially and say, "Yes, this is so," have not yet driven it into the subconscious so that they may act upon it. In fact, not any one of you has yet completely demonstrated the fact that GOD is living your life. You have done well; you have done better than we could expect, and we congratulate you, but you have not yet begun to fathom what this knowledge can mean to you.

Tonight, we direct our thought particularly to Cuba where the man Castro must find grace within himself to accede to the United Nations; and to India where the people of that country must make a choice, for there are tests for nations as well as for individuals.

10/30/62

MAN'S THOUGHT MAKES THE ANTI-CHRIST

IMMANUEL: My beloved children of Light, cells in My body of Light, I come to you in thought and awareness with such joy tonight. I AM IMMANUEL, speaking to you in both the masculine and feminine as One. Together, we greet you as a perfect Oneness. We bring you our Love, our congratulations on the wonderful way in which you have sent forth our Light and the way in which you have been steadfast and held your position in the time of testing. Remember that you you must be tested for the knowledge, the wisdom, the skill, and the determination which you must have to carry forward the work ahead of you.

We are so happy that the Earth itself, the Christ-Earth, has also stood this test, for it is the meditation of the Christ-Earth as well as the other sources of Light which has helped to restrain the anti-Christ in the thought of the aggressor, and put wisdom in the minds of those men in the Kremlin who had to make the decision.

We wish to commend your government for the stand taken that you would be a beacon of Light for the freedom of man. In reality, the freedom that you are defending is the freedom to be what you want it to be, to be what the MOST HIGH GOD directs you to be. I would not say this is religious freedom only, for it is so much more. Instead of church and religion being a separate compartment in your life as you progress, religion almost loses itself in the great

scientific unfoldment of the Goodness of GOD.

Man in a state of separation has to divide his life; he has a business life, a home life, a church life, a political life, a social life - little compartments in which he is a different person, perhaps associating with different people and showing a different face in each one. As you progress, as you become more at one with GOD, then all is united in that Oneness. All of life is devotion, is worship, is service, is freedom, is creativity, is family love, is devotion to whatever work lies before you at the moment. I, your Sun, the source of the physical life, the Light which is life-giving, and without which the Earth itself could not exist, I, who give you the life also give you the knowledge that we together express the Light of GOD. Even as Jesus, your Way-shower, has reached that point of evolution where you have called him Christ Jesus, so the Earth is Christ Earth, and we are the Christ Sun for you. We express the Christ Consciousness in its completeness and wholeness in this Solar System, and we are moving upward surely, for we know our Oneness with GOD. We know that the only Light we have, the only being we can express is GOD Himself. Thus, existence becomes worship and devotion to the very best that we can conceive.

I would call you to your part in the battle against the anti-Christ in your locality. You will remember that one of your number saw one-third of the Earth as a hollow, empty crater. This is the place where politically the state denies to man the right to believe in GOD; where the state itself teaches that the belief in GOD is an outworn superstition. In this belief man has thrown over his true existence for were this so, not one of those people who accepted this thought would be anywhere. Not in the physical manifestation or even in the spirit world, for all there is to their being is GOD. Therefore, I would ask you each day to tell them from where you are, to speak to them and tell them that there is nothing to them but GOD, and his goodness expressed.

The anti-Christ in itself is not real. It is only man's thought that makes it real. The anti-Christ is ignorance, is separation from GOD. This was depicted in your Bible when Jesus said He saw Lucifer cast out from Heaven into the Earth, meaning that in Heaven the knowledge of GOD is perfect, but in the Earth the ignorance of separation was to rule for a time. The anti-Christ is this ignorance. Sad as it may seem, in some of your most loyal and devoted churches the thought is preached that man is one thing and GOD is a complete, separate, other thing. Therefore, we must fight this thought with the true thought and with the Word.

How can these people be taught unless the Word of GOD goes forth to teach them? Many will pass from this life on that level, and will have to resume their experience in a place prepared for them. As the New Age progresses, and the understanding spreads that GOD'S will is the only will that ever can express, then the New Age will come into its golden creativity, its perfect-

ion of brilliance, its youthfulness in man's unfoldment and man's dominion.

You have a very important part in this, beloved ones of SOLOGA, for it is for you to give forth this Word with power to the whole Earth. This has been held in some of the ancient mystery schools, passed down from chosen ones to chosen ones, guarded, kept secret, because man was not ready for it, and like the swine would turn and rend those who gave the pearls. Now it is for you to give forth to all without price, and without payment except the love gifts which the heart of gratitude must share.

Together, we, your Father-Mother IMMANUEL-IMMANUELA, speaking to you from the Highest Spiritual Plane of this Solar System do bless you, do promise you our support as you carry out this task. Thus, we give to each one who hears or reads, a blessing from the MOST HIGH GOD that you may be protected, that you may be given your daily bread, your needs, contentment, that you may not thirst spiritually, but that you may be filled with the Light and the Love of the MOST HIGH GOD. Together, you and I say SOLOGA! We are the Word of GOD expressed at this moment and for our time and place.

A HEALING PRAYER

JESUS: Beloved ones in Light, this is Jesus speaking to you. Know that when I come, Mary is always present. Know that we enfold your group now. Know that the masculine pole of any magnet turns toward the North, and therefore, at the North I would be standing, and at the South would be the feminine expression. Know that the masculine is always the projecting, and the feminine is always the receiving. Know that you, yourself, may be both masculine and feminine in that you receive through the left hand which would be the negative and feminine, and project through the right hand which would be the positive and masculine. Also, know that you may receive through the head centers, through the top of the head, and project through the heart or the solar plexus; so that, again, you are like the one, the perfect magnet, having the North and South Poles, the masculine and feminine aspects.

Since this is the age of receiving, it is therefore important that there be a preponderance of the feminine at the moment, to give forth that which they receive. There will be more feminine healers and channels at the first, that the fullness of the Light of LIOLIA and the New Arc of Consciousness may be received at this time. Now, if you are fully aware of the fact that we are one together, you in us, that we, Jesus-Mary, take you as one into the consciousness of GOD, then we shall pray together.

Oh, our beloved FATHER-MOTHER MOST HIGH AND MOST HOLY, we know that you know. We know that you know every condition in these bodies, every desire of the heart, every thought of the mind, every yearning of the Spirit, every trial and every test. Oh, may these beloved ones open themselves to the full knowledge of Thy presence in them! May they know that Thou

dost express Thyself in every little cell within the body, in every blood corpuscle, in every tissue, every bit of bone marrow or bone tissue, every tiny bit of skin or hair, in every thought, in every word, for Thou art all there is, all of us and all of them. Oh, FATHER-MOTHER, we pray Thy blessing upon these, Thy little seeds unfolding in Thy Love, in the shining, the blessed dew of Thy righteousness and Thy goodness, watered by Thy truth. May they grow into great trees to flourish, to shelter, to shade, to give life to the thousands who need what they have to give.

Oh, FATHER-MOTHER beloved, enlarge them, enlarge their consciousness, enlarge their power to give, enlarge their healing capacity! They are Thy messengers of Light. FATHER-MOTHER, we ask Thy blessing and we symbolize our asking by reaching upward to receive of Thy Light, that together we who are the negative poles, receiving from Thee, the masculine giving, may draw down Thy great gift to share with each other, to share around this circle and with those who are in our hearts, and those who are in our shrine. Oh, FATHER-MOTHER GOD, such Love Thou hast given us, such beauty, such joy, such healing power! May we, each one, know we have this healing power, and may we use it in faith that it is Thee working in us and not we, ourselves, for by ourselves we can do nothing, but as one with Thee we can do all. Oh, our FATHER-MOTHER we thank Thee; we bless Thee; we praise Thy Holy Name forever!

Will you join me in Alleluja! Alleluja! Alleluja! Amen

GOD IS MATURING YOU

SOLOGO: My beloved children, I greet you in the flowing Love of the FATHER-MOTHER GOD for indeed we are GOD-IN-ACTION. You have been saying that all there is, is GOD. You have been saying that there is just one great consciousness, the All-Consciousness of the ALL. Can you then understand a consciousness so vast and yet so comprehensive that it includes all of the galaxies, all of the solar systems; and yet is aware of the tiniest electron or component of the atom? Then you will understand that all that seems to

exist, materially, is but the thought of this great Consciousness expressing Itself. As long as the ALLNESS OF THE ALL, the MOST HIGH GOD, thinks me as the Star Sirius, I shall remain as such. As long as the MOST HIGH GOD thinks of you in your present pattern and vibrations and holds you in contemplation, you will remain as such. When the thought of you changes you will change. In other words, you are not acting independently, but GOD is living you. You are benefitting as a person; you are enjoying this life; you are growing; you are developing; and yet GOD is developing you as Himself.

Your little Light in the physical on Earth is just a quickly drawn breath in comparison to the length of time of GOD'S existence and contemplation. Perhaps you have spent a long time planning a business, writing a poem, or contemplating a speech, an arrangement of a room, or a diagram of something that was important to you. During the time you contemplated that, it existed as real in your mind; so you exist as real in the Mind of GOD. Hiser scheme of time, Hiser concept of time, is so different from yours that in eternity there is no sense of time as you know it, so that your whole long life is but a moment.

I know that some of you have thought about a certain project and kept it in mind for days or weeks, or for sometimes even years before you finally released it. GOD is contemplating you. He is seeing through your eyes. He is maturing you. He is developing you. You were a seed planted in this atmosphere, in this particular season, in this particular soil, and GOD is maturing you to bear fruit in this particular locality of time and space. I thought if I were to dwell upon this for a few minutes for you - I believe I did not give you My name, SOLOGO - I thought it might enable you to understand what you were discussing before your meeting began.

You cannot say often enough the statement that Jesus made, "I and My Father are One" In all the different ways that you can express this, think it and live it, you will be maturing yourself through the thought of oneness with GOD. You will be falling in with the current of GOD in your life. GOD works through you and with you.

You will be saying, "Is it not even possible for me to resist Him?" You have been told you have free will, and yet in reality your desires are the desires of GOD. Time is so long in eternity. You are given choices as to when and what in the way that you will mature; but all the time GOD is living you, and in reality it is His choice through you. When you fully understand this, you will become so strong, so aware, that nothing will trouble you further and nothing will stand in the way of opening those wonderful memory banks and those wonderful abilities which are really yours.

Yes, in the time to come, many young people will come into the New Age without the limitations which you have, but you chose to come at this time, for a reason and a purpose. Perhaps you are just as fully developed as these others, but you came to be what you are; and to do that, you had to come

limited. May I be personal? Had one of you come in with all of her skills and abilities, her Forces never could have kept her at the crossroads of humanity where she stands day after day to give forth light and blessings. If you will look about among your members, you will find those who have served widely, who have met people in business in the flow of life coming and going. In some way or other every one who comes to your group, although seemingly humble, was put in a place where the Light could pour forth, unsolicited, unnoticed and altogether unconsciously on your part into the largest number of people possible.

Be happy that you are as you are. The greatest treasure that anyone on Earth can have is the full, complete awareness of GOD living his life, of his oneness with the ALLNESS OF THE ALL. All the limitations that you seem to manifest come from a feeling of separation from GOD. This has been necessary, as I said, for you can progress only as far as your soul permits you in this life. Some of you are here to learn a special lesson. Some must learn patience, some endurance, some are building the mental bodies more strongly. Some are serving in other ways, learning humility, being purified and expanded through the experiences that come to you. My beloved ones, rejoice! Rejoice in the wonderful opportunities that you have to learn of your partnership with the Advanced Ideas of GOD who have lived what you are living through and gone on, and yet have not forgotten to look back and comfort and help those who serve as they did once upon a time.

As SOLOGO, your special sponsor for activity under IMMANUEL and LIOLIA, I come tonight to introduce another Star. This Star is ALTAIR in the constellation Aquila, or The Eagle. ALTAIR is some sixteen light years away. It is ten times larger than your Sun. If you have been meditating upon, remembering, classifying, and trying to follow the instruction that you have been receiving, you will be wondering whether that means that ALTAIR is ten times older than the Sun. This is not necessarily so. If progress were as rapid as possible, it might be so. But it is probably not so, for there are so many times that we have to go back over our lessons. We have to repeat them until they have matured within us, until we can live them, until they become a part of us.

I am sure that you will be aware that this is even more important for those who ensoul a sun, for if they make a mistake the consequences may be quite far reaching. We try to go slowly and be sure of ourselves. We would rather remain two or three incarnations in the same type than progress before we are sure we are capable of handling the more advanced situations. You do not realise this, but it is true of man as well, for often man reincarnates to learn again that which he has already mastered. It is often called a refresher course, I believe, or post-graduate work. You come again and again to learn patience, humility, love, giving, healing and Oneness with GOD.

Although Jesus announced that man is one with GOD, there have been

very few who really understood it. Those who were of the inner circle of the Qabala and the Tarot had these statements. Your Meister Eckhart was called a God-intoxicated man, and yet, though people were enthralled by his preaching, they were unable to live what he said. Down through the centuries since Jesus' pronouncement, very few have attempted to apply His words to themselves and to live them. You are, therefore, the most fortunate of all people since those who listened to him, for you have the opportunity to share these truths and to know them so fully that they can bear fruit in your life and in the lives of all mankind. Now I shall step aside and let my brother ALTAIR speak to you.

THE GOD-SELF WITHIN

ALTAIR: Most beloved suns of Light, shining in the beauty of the Christ-Consciousness and the GOD-Self expressing through you, it is such a pleasure, such a delight to be able to send you my thought, which is of course GOD thinking through me, out into your level of vibration. You who are messengers of Light, voices for the Brotherhood of Stars, I greet you with all the Love, partnership and brotherhood of one Sun to another.

My name is ALTAIR. We choose our names to have meaning for you. We have impressed upon the minds of those who named us, words that would be of importance in the years to come. You are aware that some words have progressed from one language to another in various forms. You speak of the HIGHEST OF THE HIGH. Perhaps you will remember that the Angels sang at the birth of Jesus, "Glory to GOD in the highest." They meant the HIGHEST OF THE HIGH, the same words that you are using. In Latin, this word would become Altissimus, THE HIGHEST OF THE HIGH. Altair comes from that root, high, the highest. The A stands for Alpha and Omega; the I is the Hebrew Yod or open giving hand which is the first letter in the name Jehovah; the R is the letter assigned to the Sun. Air is the symbol of the present New Age for men of Earth. You see there is so much for you to meditate upon in any name if only you will try to find it.

I look to the HIGHEST OF THE HIGH. Just as IMMANUEL-IMMANUELA are really your Father-Mother GOD, for you live and move and have your being in the body of this Sun of your Solar System, this Spiritual Body of the System; so in the same ratio LIOLIA is my Father-Mother, the ALLNESS OF THE ALL, the HOLIEST OF THE HOLY. Know that all must reach as high as they can reach; all must reach as high as the concept is possible to him. No matter what you look toward, you are looking for the HIGHEST OF THE HIGH. As you look for this, you look upward and outward to something beyond yourself, and yet it is truly that which is within you.

As one of the Twelve, the Brotherhood of the Suns, who gives support to IMMANUEL, I have been in your meditation group observing many times. I was present when your channel told you to go within and find the GOD-Self.

When she did this, she found within herself a great rushing of flame as though it were coming from a volcano. Beside it she was the size of a tiny child. She puzzled over this and was utterly unable to understand. This was our attempt to show her that the great Living Fire, the Life-Force of the ALLNESS OF THE ALL is the GOD-Self of every manifestation of existence. Again, you were told to enter a cathedral and find your GOD-Self within that cathedral. She was unable to enter because the Light was blinding, and she was told that she could not go in there. She could not understand this. She was again being shown more brilliantly that the true self is GOD and that in the little human pattern, which would be scorched by the fire, it is not possible for you to remain in this pattern and still experience the great Fire of the HIGHEST OF THE HIGH; the Life-Force would be too great. The assignment was given with a purpose. What your channel was supposed to bring back to you was nothing of herself, personally, but the understanding that within each one of you the GOD-Self is a blazing fire, a Sun. For that reason, I greet you as brother suns.

You have been told that I am larger than IMMANUEL. This would indicate to you that I have had more incarnations as a sun. I know that you become confused, and it is only by the comparison, "As above, so below; as below, so above", that you may be able to understand. Just as you can conceive of yourself living your type of life again and again and again, so conceive of a Sun, living as a Sun, through its period of expression, then going into a rest time and returning again as another Sun for that length of time. When you think of your life, I believe you have something that says, "Man's life is three score and ten", and yet many of you go much beyond that. Some of us live in one incarnation for billions of years. This is beyond your concept of time, but you can understand it relatively.

For achieving Sunship I take no credit. I fully understand that of myself I am nothing, I think nothing, I do nothing, for I am GOD-IN-ACTION. I am Hiser Life in action, Hiser Love in action, Hiser Light in action, and Hiser Law in action. I AM, and when I say "I", GOD is saying "I" through me and I know this. When you say "I", GOD is speaking "I" through you, but the difference is that you do not know this fully.

How can you become aware of this? Only by meditating upon it, by saying over and over, dwelling upon it, applying it to every situation, only by living it to the best of your ability. Not one of you have really begun to do this. You are just getting the first faint glimpses of the cosmic sunrise of understanding in your life at present. Those who come after you will be able to grasp and apply more readily, for they will come with less limitations and they will have the adjustment to the Light of LIOLIA which is preparation for full understanding of this truth.

We sent your channel searching through book after book today in trying to find out some information concerning me, Altair. In the feminine, the word

would be Altaira. I am a white star which will tell you that I am of an age comparable to young man-or-womanhood. I have much to experience, much to live, many happy ages of adventure, of exploration, of thought, of creativity, of life, love, light and law to express. I have many wonderful years to serve those about me in my own beloved system of planets and in other Star Systems, and to serve my wonderful Spiritual Central Sun, LIOLIA and the MOST HIGH GOD.

One of the things we learn as suns, which you have not fully learned, is to send out love to each one of our planets. The planets to us are organs within our body. Do you send love to the organs within your body, My beloved? If you have not begun doing so, then you should; for just like the roses, they will grow better if they are loved. They will serve you better if they are loved. Man through the ages has made that mistake. He has castigated his body, trying to drive from it the very GOD-Life within it, trying to reach Divinity through hating his flesh. It would be impossible to reach GOD through causing suffering through abuse. Oh, poor man! The things he has done to himself because of the thought of separation, the deadend streets he has gone down in his great desire to find his way back into oneness with GOD! Now it is possible for him to know, whereas, in the past this knowledge had to be hid.

In a few years - well, to me it would be a few - perhaps two or three centuries, there will no longer be the secret hidden wisdom, for the wisdom of GOD will be on the lips of babes. How can one say, "Swear never to tell this" to someone who has been telling it from babyhood. That which has been the most carefully guarded secret of the ages will be spoken from the lips of children. Nothing will be hid from man when the Light of LIOLIA has been fully adapted, received, adjusted and accepted.

My brother SOLOGO, and I have spoken to you at length. We wish to thank you for your kindness, your patience in listening. We hope what we have said has been worth the time we have taken. Together we say to you, SOLOGA! All words that come from our minds are GOD speaking the Word to Himerself in you.

11/3/62

In the meditation period following this message from ALTAIR, the Onlooker was in the Star at once as though the Star were in the meditation room. First, she was aware of a lot of young people holding hands as in a circle. They were not standing in a circular pattern, but just were together. They were laughing joyously and moving with a feeling of dancing although there seemed to be no regular pattern discernable. One part would surge toward another part and back seemingly without any other purpose than a joyous sharing. They kept repeating the thought "Togetherness!" The Onlooker asked, "Is that what you are learning in Altair?" They flashed back a happy affirmative and explained that Stars, the same as people, take some particular aspect to work on during one certain incarnation, and that souls migrate to

that Star who desire to specialize in that learning. The Onlooker wondered, "How does it work? How do you work at togetherness?" The answer was that they share in mind. Whatever they are doing is shared as if they are all one together.

The Onlooker, being limited by human body-thought having hands and feet and expecting physical action, still could not understand. They explained further. It works first in understanding that we are together in rapport, in sympathy. It works first in thinking. We would think, "Well, now, we are together with this one. How is he thinking about this?" We try to match consciousness with him as much as possible and build up an empathy with him. If he has a question we too study with him and pool our thinking until the question is answered. If he is trying to create him and pool our thinking until the question is answered. If he is trying to create we share in the project, always helping never taking over, and he shares with us.

The Onlooker persisted, "First there is this sharing of understanding, but how do you put it into action?" They gathered round to demonstrate. They said, "You think of a question and then we will think of it with you and see if we can help you understand the combined action in thinking." The Onlooker realized that this is what happens in every Group Meditation Meeting when experiences are told and all together try to find the hidden meanings. She searched for a question that was really puzzling her. She remembered a message from Helios and Vesta through Zelrun of Universarian in which spheres around a celestial body were mentioned. She asked for clarification of this whole matter. From the group thinking in togetherness she learned that IMMANUEL is the name for the highest spiritual consciousness ensouling our whole Solar System. Helios and Vesta are Greek names given to the high spiritual consciousness which ensouls the Sun, Sol. We have been told of spheres or planes around the Earth. Such spheres, planes or bodies exist for each different grade of advancement or spiritual development. (Some in our group have been seeing circles of radiation, symbols of this, around any source of light.)

To make this concept clearer the Group in Togetherness asked that the Onlooker be shown the meaning of such spheres or planes. In response there appeared Beings of Light all representing Altair, but in height like the steps of a ladder. One Being was tall as one step, the next as tall as two steps, etc. This was a colossal ladder for the first towered way above us, and the highest was so tall we could only see a robe extending upward out of sight. Each individual Being grew more crystalline in Light. They spoke to us as one. The Onlooker asked "What do you do in each one of these realms?" They answered, "We live! We have lessons to learn and problems to solve on our level just as you do on yours." We asked, "What do you learn?" They replied, "Humility, creativity, faithfulness, endurance, patience, only on a higher level with a greater understanding and in more complex problems. Perhaps you can understand it through a comparison with mathematics. You study mathematics in

every grade in school, but the two - and - two - are - four of the first grade is quite different from advanced calculus in college. So, much more humility is needed in ensouling a star." (Here the Onlooker remembered a time in another group when one channel representing man sat in a chair to bring through a message; another channeling for IMMANUEL sat humbly on the floor while speaking; and still a third representing the Central Sun of a Galaxy was impelled to stretch himself out flat on the floor.) All of these Beings which were shown us were the Higher Selves or Expressions of GOD on various levels as the Atar ALTAIR. GOD must express Himself in all levels, planes or spheres.

On the second evening of meditation under the influence of the Star ALTAIR, the Onlooker saw nothing, but became aware of heightened bodily sensation of being drawn into a oneness, a togetherness in such love, such joy, such delight, that every cell in her body seemed to be humming in tune with a happy song of the whole group in ALTAIR. This grew and grew until she began to try to pour it out upon all the others sitting in meditation at the Group Meeting. A great desire was implanted in her to always be able to project such a sense of belonging to anyone who should ever come into her presence.

PRAYER FOR ASIA IS ALWAYS IMPORTANT

EL MORYA and IXUTEL: We are speaking, but there are many others who express under the Ray of Power who are here to strengthen the group tonight. You are aware of the situation in India. This is more serious than you have thought or desired to dwell upon.

India is at a great distance. While you have the air travel, yet it takes a great deal more to provide India with what is needed than it took in your previous engagement to provide the European countries with assistance. Through the crisis in Cuba, the Chinese were able to slip in the back way and get a good start while the rest of the world was so concerned over the possibility of an immediate nuclear war. You will remember how Russia infiltrated China and how there were conquering war lords from the North, the central desert regions and from Mongolia who swept over the republic of China and drove out the American-supported forces, now in their last stronghold on the island of Formosa.

In the same way the Chinese and the Russians hope to grab all of Asia. This is the first objective. The Russians are very eager to take Turkey. They wish to take all land straight down through Arabia and the other countries there that they may absorb the oil resources of that region. They would like to keep the western nations busy haggling over Berlin and Cuba while they steal Asia, if it were possible.

For this reason, from the first contact with your channel some five years ago, we instructed her to pray for Asia. This she gave forth to the group where she was then developing; but it was not received as an authentic message.

If you will look back over the years, the seizure of China, the difficulty in the loss of French Indo-China, the difficulty in Viet Nam and Laos, you will realize that the request was extremely important. It is just as important today as it was then.

This is one of those peak times which you have in your SOLOGRAPHS. You were directed yesterday to send power to European Russia and in the land south of it. This was partly in anticipation of the explosion of certain atomic devices, and partly due to the psychic storm generated there by fear that the United States would initiate a nuclear war. Now that crisis has been controlled; and tonight we shall send to China and India, to Asia, and to Russia, for there is where the anti-Christ is most deeply seated; there and in Peiping. When you send love, peace and instruction that GOD is the life of all men, always send to the Kremlin and to the men in Peiping who head the communist party, for at the present time the anti-Christ is centered in the thought of those who deny the existence of GOD. This you have been told, but this I wish to reiterate.

When I say "I", I am speaking as one, although two, for we who serve in the Golden Legion or the White Brotherhood, are so aware of our oneness with GOD that "I" includes all. Until you have learned this, it is wise for us to remember to say "we", meaning all of your group, your teachers, and your consciousness of being one with mankind.

JESUS DEDICATES A MERCY SEAT

JESUS: speaking - Jesus-Mary as one, but I use the term Jesus because you are aware of the great stir to prepare for the coming of Jesus, and I have come as Jesus to group after group, even as I have come to you. I have dedicated the picture of me which is hanging on your wall, and tonight I wish to dedicate the stool which has been purchased at my inspiration as a healing implement. (This is a small wooden stool with no back to facilitate the laying on of hands.)

FATHER-MOTHER GOD MOST HIGH, we ask Thy power, Thy blessing, Thy hallowing Light to be centered here now. We ask that each atom of Light that composes this healing Mercy Seat may be filled with Thy healing power. We dedicate this bit of Thy Light in the pattern of wood to Thy Healing Mission for mankind. We who stand around this circle - we as healers serving this group of Thy children - do say together, "We dedicate this Mercy Seat to the healing service of the GOD MOST HIGH in this Cottage Chapel and in this Temple of the Living GOD. (The channel interposes: I am very aware of the Circle of the Twelve Suns sending their Light here especially. I am very aware of great power. I hope you are feeling it.)

JESUS speaking again: My beloved ones, all we have to do is to fully realize that GOD is all there is to us. Therefore, as I pray, think "GOD is there" and then substitute the place you want healed or strengthened, or the

person for whom you are praying.

BELOVED FATHER-MOTHER GOD, Thou knowest all things, Thou knowest how these children of Thine love thee. Thou knowest their conditions, their needs, their desires. We speak to Thee in each one of them. We say, Father, reveal Thy perfection in each one now. We know Thou dost and we thank Thee.
Amen

PRAYER PEAKS FOR APRIL

IXUTEL: Easter Sunday is always an open door to the hearts of all church-going people. The commercial world draws in all the fashion minded subconsciously with their emphasis on new clothing for Easter. In the areas where seasonal changes are prominent the promise of Spring climaxes in the uprush of hopes for greater freedom and a more favorable climate after the release from Winter. Any lifting of the spirit makes man and nature more receptive and provides an opportunity which the Forces of Light always use to the best advantage.

We who are expressing in the freedom and vision of the etheric planes watch in awe, amazement and delight as the great Central Sun of our Galaxy pours the magnetism of Hiser Love in Golder Light so lavishly over all of the Earth. As each outpouring of this magnitude takes effect, adjustments must be made. There are times of crisis as error is revealed and all make their choices. Then the debris is swept back into the Substance of the Omniverse and a time of peace ensues.

Until a week after Easter everyone who is awake to his opportunities should pray that the Earth and all within its aura may be receptive to the stimulation of LIOLIA and responsive to the higher vibrations penetrating them. These rays stimulate the best impulses, clear to the higher vibrations penetrating them. These rays stimulate the best impulses, clear to the higher harmonies of the ALLNESS OF THE ALL. Everyone should continually project thoughts of love, peace, atonement, brotherhood, harmony and enlightenment. Envision the Earth bathed in liquid gold, the Healing Love and Light of LIOLIA.

Weather conditions, accidents, earthquakes and all such catastrophes are the response of the Earth's physical body to the wounds caused by disturbed thinking. For this reason messengers of Light must do all that they can to hold the balance by sending out powerful projections of good.

The present crisis building in western Europe is a result of the continual pressure of the "divide and conquer" techniques of the Communists who are always alert to probe the weaknesses of leaders and nations and to apply their pressures where there is a possibility of breaking the solidarity of the forces checking their advancement. Kruschev, in withdrawing from the horrors of all-out atomic destruction, has been forced to go underground and is working with insidious methods of hidden treachery hoping to creep like a fire through

the grass roots until he can take over a nation. He must prove his methods more successful than China's demands for open aggression. These two forces hold each other in check to some extent, but all Groups of Light and all solitary messengers of Light working alone should daily pour the force of their broadcast with great strength upon all Communist leaders. Pray that the truth may be revealed and that all nations and peoples may be strengthened to resist the encroachments of the anti-Christ forces within their borders.

Be not dismayed by prophecies of disasters. Do your best in sending forth the Light of GOD and together we shall conquer the causes and strengthen the structures to withstand all onslaughts as we have done in the past. 3/6/63

A TIME OF NECESSARY CONFUSION

With the waning of the old and the influx of so much new Light many of us find it hard to keep our balance and weave together an acceptable fabric of truth with which to clothe our yearnings for greater understandings and spiritual development. Many voices are clamoring in our ears in such confusion that we find it hard to think as calmly and reason clearly.

Each generation has to discard from the old ideas that which is no longer serviceable in a changing culture and enlarging concepts. I remember my dismay when my father who was a Methodist minister offered my son a dollar to beat up a boy who had been annoying him. Beneath the temptations of the money and the irritations of the situation added to his admiration for the manhood which his grandfather represented, the boy's own rapport with his Higher Self enabled him to refuse and avoid the trap thus set by a well-meaning relative.

Our compatriots, our associates and our friends all press their opinions upon us and the many voices who sincerely think they have the only truth try to save us. Those who have developed channelship must have faith in that which is given them or they cannot continue their work. Beneath the seeming glamour of channelship is the great responsibility to discriminate the true message from the interference of the ego and its old idea patterns. Many channels have received seeming contradictions; many have voiced dire prophecies which have not come true; many have been swept up in the mass yearning for the exciting, the different or the wishful thinking for escape from the problems or monotony of a workaday world. Added to all these are the human frailties and lessons yet to be learned which beset all channels. No wonder others have a hard time finding their way through all these conflicting voices.

The big challenge of the present is discrimination. We have been given a mass of detail to sort and choose the true from the false. How can we do this? First of all, we must withdraw from any personal angle as much as possible, and from any emotional involvement that would cloud our thinking. Personal ambitions, desire for acceptance, desire to be first in our field, irritation at those who challenge us by disagreement, all are traps which block our progress. Those who read and accept are channels as well as those who

give forth. All must continually examine every pronouncement in the light of proven realities. All must reason clearly and unemotionally from the highest type of basics which they have built into their character through wisdom and experience. All must rise out of the personal self and attune to the GOD-Self of all if we are to work our way out of this confusion in love and in peace. In the light of the expanse of experience in the Omniverse our little claims to grandeur from the past seem rather insignificant and tawdry. Let us accept each of us as we are, respect and love the good in each and overlook all else, leaving it to the Higher Forces to reveal the truth in the proper time.

When a channel contacts the aura of another planet or Sun we are in touch with all the memory of that Entity and may report life or conditions not now existing in the physical planet or not apparent to men in our present state of physical organization and equipment. Let us then not be too quick to judge or condemn. All of us are subject to error and all of us report the truth to the best of our ability. Instead of condemning let us retire in prayer and meditation to seek from the Highest we can reach, the guidance which will bring us all into a unified effort for good.

YOUR PRIMARY MISSION

THE ANGEL GABRIEL: speaking for a moment before conducting your power broadcast. You know you have been alerted to watch your news media. There are those who say, "I do not wish to pay any attention to the news because it gets worse and worse and is so confusing. I cannot be bothered with such a low vibration." Beloved ones, you have come here with a great mission, to send forth Light to those places that are most needing it. Watch where the difficulties are. As soon as you hear of anything, a storm, an atomic test, a battle, a difficulty of any kind, a disagreement among powers, an infringement of rights, begin at once to send to that spot. This is your primary mission upon the Earth at this time.

This matter of the Earth progress will continue for some forty or fifty years yet. You are anchor people, anchor points to hold peace, quiet and power on your level. You are extremely important. We cannot urge you enough to open your thoughts to this sending. Do not try to send yourself or your own power; just open and let the power of GOD flow through. If you direct it in thought in this simple way, then you may turn aside with your conscious thinking to something else, but your vehicles will be open to the flow of power all day long. May GOD bless you most richly in this activity. Remember it is your world and you have come to serve it. SOLOGA! In the Word of GOD we serve together.

The Father that dwelleth in me, He doeth the works." (St. John 14:10)

CHRIST IS RISEN IN US!
 ALLELUIA!

I AM THE RESURRECTION AND THE LIFE

JESUS: My beloved ones, I your brother Jesus of Nazareth do welcome you again to this holy time which we enjoy together. Always it is such a joy to me to come into your vibration as we think of our FATHER-MOTHER-GOD together. It is such a joy to be with those who are willing to receive and whose souls await breathlessly the Word of Life that they may impart it not only to the sheep of this fold in this planet, but to those where they shall yet serve throughout the Omniverse, throughout the Wholeness of our FATHER-MOTHER-MOST HIGH.

Today we will talk about those words which I spoke to Martha so long ago when I said, "I am the resurrection and the life." Precious ones, I wish you to carry these thoughts with you that you too may meet me at the sepulcher, perceive your place in the symbolism and send forth the true understanding of Easter to the consciousness of this plane where you are.

Man in the darkness of his confusion, in the error that has overcome him, has seen only the outward appearance, only the symbols. He has not understood the true message of Easter. He has thought, "On this day one man who was not a man at all, but so high a part of the Divine that we must consider him as GOD, managed to resurrect himself; but this was a mystery beyond mysteries which we can never understand." As Easter approaches men's minds drift in confusion thinking, "Jesus died to save me from my sins; therefore I give him all my love. Oh, how I wish I could be worthy of such a sacrifice!" Thus they miss the true meaning of that which I suffered to show them.

You will remember that the key is to be found in the word "Way-shower." I am the way, I show the way. I show the way to Eternal Life, to mastery of self, to mastery of the elements. You think, "I can control the food that I take into my mouth. I will see that it is pure, that it is healthful, that it agrees with the chemical constitution of my body." You attempt to control your situation in that respect. You think, "I shall make this home what I desire home to be. I will choose the colors, the furniture and the decorations to suit my taste and my needs." Thus you control your environment. These are but outer symbols of the control which we hope you will learn to manifest over your entire being; for it is for you to resurrect yourself.

You will think, "Now this is too much! I know that since the time of Jesus millions and millions of people have been buried and no one has resurrected himself. How can this be expected of me?" You have in your library a

book (YE ARE GODS by Annalee Skarin) which says in its Preface, "After this book was given to the printer, the author went through the experience called Translation. "There before you stands a book written by a woman living in your time who proved that it is the individual's right, privilege and opportunity to resurrect himself. How can you do this?" "How is such a thing possible," you are saying. "What are you trying to tell me? How can you expect me to accept that I am the resurrection, that I am the life?"

My dears, just who are you anyway? Are you not a manifestation of the Everliving, Ever-present GOD? As long as you think of yourself as a collection of chemicals, atoms, tissues and bones, as "just a human being" of course you cannot resurrect yourself. When you think of yourself as a manifestation of GOD Who never dies, how can you limit what you may be able to do? Perhaps if it were able to do so the baby sitting in a high chair and watching his mother work around the kitchen stove might say, "Oh, I could never bake a cake! I could never make these lovely things my Mommy makes." Yet as the years go by and the growth comes the child forgets his feelings of inadequacy and finds the baking of a cake to be a very simple process.

You are now manifesting in the plane of separation. Remember this and remember that this separation is purely a delusion. Some of you are thinking, "Does he really expect, or does the channel imagine that we shall go ahead and try to do this thing?" Some of you may remember that the beloved students of Mary Baker Eddy expected her to make this demonstration. She was dressed in flowing white robes, laid upon a bier and kept there for three days while her friends and students throughout the world prayed for her hoping to help her. The time was not right, not fully ready for her. Who knows when the time of resurrection may dawn upon you? For Annalee Skarin it has already come.

What will decide when your time to prove your resurrection has come? Several things will decide it. First: how much can you live day by day what we have been saying - that you are not just a human body, operating on a plane of separation, but that you are the Eternal, Ever-living GOD in manifestation? How much can you believe this; how much can you accept it? This is the challenge that I am throwing out to men of Earth.

There will be many who will accomplish this as the Golden Age moves on. Your own soul or Higher Self knows how to do this. Your channel discovered that in her highest consciousness, her Higher Self knows how to do this; but can the human consciousness demonstrate it? Or, to come to the next point; does GOD intend that the human shall demonstrate it in this incarnation? Some human beings will. Enoch did. The same thing happened to Moses, but it was not for the Children of Israel to know. Moses was said to have been buried on Mt. Nebo; but Mt. Nebo was the place where he translated himself. You are thinking there is a difference between translation and resurrection. You are right in that technically for to be resurrected the body must first die; but if

there is no death this is merely a superficial discrimination.

What happened when I entered the tomb? I, the true being of Jesus, left the body in consciousness and hovered over it. It had been my clothing, my coat while I lived on Earth, my vehicle, the carriage wherein I could move about and manifest so that people could see me. I stayed with it; I sent Light into it so that all of the organs, even all of the atoms, might pass through that experience and learn all they could gather from it for their own evolvment; but of myself I hovered over it. I strengthened all the little cells that made up the body. While the heart had stopped, none of the tissue was really dead. When I had fulfilled the symbolic three days, I simply thought the body into a higher vibration and into a higher dimension.

During the four days when I delayed before going to Lazarus, I helped him to maintain the health of the cells in his body, so that when his tomb was opened the body itself was not decayed as Martha expected. Lazarus was a highly advanced soul who has demonstrated again and again in other places, other situations and other planets the power to translate himself from one body to another. He has recently said, "Although I now manifest in a spiritual body, I can lay it aside and go into a still higher dimension." This my brother and friend Lazarus has proven.

Can you accept that you too may have done this in the Higher Self in some other time? I would call your attention to an experience of your channel which was passed over because she thought it might draw too much attention to herself personally. In meditation she came out into the Realms of Light and was commanded to draw her body up with her. She looked down at the body sitting in the chair in the meditation group and said, "Come up." Her consciousness was returned to her body so that she could feel the atoms of the body leaving, could feel it disintegrating, being teleported in translation. Knowing that the time for this had not come she called it all back together. She thought quickly, "This is not for me, not now, for I have work to do." She pushed the whole experience aside with the understanding that the Higher Self could handle it properly when the time came. Is your channel different from you? Indeed no! Indeed no! What her Higher Self knows yours knows also. In each one of you when the time is ripe in the plan of GOD, and you living as human beings in this plane have come to the proper point of love, faith and understanding, your Higher Self and your personal human consciousness will unite so clearly that you will know how to draw the body upward.

Many strange stories are told about me in my resurrection experience. It has been said that I have drawn my body upward and am keeping it some - where to use again on my return to the physical. Where should I be keeping it? Off in space? On some other planet? I do not need to go through all that. If it were the Will of GOD, I could stand in a physical body such as yours right here and now without having to go off some place to collect it and bring it here. For what is the body? Nothing but Light. Its atoms are always changing. It

is never fully the same from one moment to the next. Why use the energy to preserve so evanescent a thing when I can simply think, "I have a body identical with the one in which I was crucified," and by that thought it would appear. Or if I wished I could say, "I have a body on which the hair is pure gold, little fine wires of gold," and I would have it for thought is creative. I could say, "I will have a body as large as a space ship and able to carry people on it," and I could produce such a body. I could take you within me as the whale took Jonah and carry you through the sea of space if that was what was needed. GOD would create such a body for me with the Word.

As you read the story of Lazarus, did you notice how the importance of the Word in his resurrection was emphasized? You, my beloved ones, are representative of the Word. You are the Word personified, made flesh in this your time and place. The Word is the great creative principle of the Omniverse. You are that Word. Your real consciousness, all of your equipment, your chakras, your spiritual centers, all of your being knows that the Word is creative and that your conscious human mind is deluded by this veil of separation. You have to persuade your own conscious mind that these things are so. You have to fully accept them and make your conscious mind say, "I know this is so; I know that GOD is living me. Since GOD is eternal, I am eternal. Not one atom of this body can ever die. It may be translated, transmuted into another form or shape, or transvolved in its own development. It can go back into the Light-Energy Substance of GOD, be called out again to someone else and enter that being for the sake of experience there, but it can never die for it is a part of GOD."

THE ALL-CONSCIOUSNESS OF THE OMNIVERSE is Eternal; it is beyond extinction. Not one atom of those green leaves, not one atom of this fabric, this water, of these rose petals can ever die. They can transmute, they can translate, they can transvolve into something else; but GOD lives them and GOD'S life cannot be killed. No one can kill the little dog which was mentioned here last night. GOD is living it; GOD can give up Hiser life in it. GOD can use someone to help Himer take back the form of the dog into some other form, but no one can kill it because it is Eternal Life manifested.

We can persuade ourselves as human beings that we can kill; we can delude ourselves into thinking that an army kills millions of people or that we could destroy this planet: but be firm in your consciousness that if anything like that happens, GOD has done it using man as Hiser mighty power to sweep away old forms that those atoms may be called forth into new forms for Hiser purpose in working out the destiny of Hiser Thought and Hiser Word within Hiser ALL-CONSCIOUSNESS.

As you look upon each other and upon all men think that each one is the resurrection and the life. Each one will, when he grows to that point, learn how to control his form, his atomic structure, his expression of the "I" which is the Word of GOD. When a little child starts to school his parents think,

"We must begin to put away money for his college education. As he grows up he will become a man and have a man's work to do. He must be prepared for it." To grow, to develop, to unfold, to learn, to take dominion over self, to serve as widely as possible - all this is the destiny of man.

As a common man, I came a son of man to show the way for each of you. Two thousand years have passed, but how many have found the way? I came to show the way of resurrection into fuller life. Some that you will never hear of have passed in that way. There have been those who simply disappeared. There were alchemists who were sought that they might be imprisoned and killed who just were not there any more. They had learned the Perfect Work and they had translated from the lead of illusion to the gold of understanding.

As long as you say, "Of course I couldn't!" then you can't for you have shut the door in your own face. When you say, "Some day all men will," you open the door wide for your own progress. You have then ascended in your thinking to the higher realms. Your thinking expressed in words is all you are. If you think you can, you ultimately will; but you must take everyone else with you. You must not set yourself apart and say, "I can do this because I have achieved." It must be, "All can do this when they achieve." Thus you must open the door for everyone to follow. As one wayshower of the present age, learn that you are the resurrection and the life. Many people think that no one could be saved unless I had died upon the cross; but each one must save himself. My part in the salvation of man was showing the way for man to save himself.

FATHER MOST HIGH, oh, beloved FATHER-MOTHER GOD, we adore thee! We send our love to Thee with such yearning that we rise upward on the strength of Thy love for us and our love for Thee. We know this. We say this that they who listen may hear. Love, love for GOD, love for good, love for the ALLNESS OF EVERYTHING is the lifting power. FATHER-MOTHER, help us to love! Amen.

The Vesper Discourse 3/24/63

LILY OF THE VALLEY

The organ's hallelujahs blessed in sound
The bliss of vaulted space, the mellow light
Which was the church that mystic Easter night.
Enraptured, tuned to praise, we gazed around
On faces, flowers, colors - all earth-bound
Yet symbols born of wakening delight in Life.
Why must these lilies, gowned in white
Soon fade and fall, return again to ground?
The lilies answered, breathing forth The Plan
In perfume made from soil where bulbs had lain,
"Who chooses Life, with Christ accepts the Rod.
The Son of GOD became the Son of man
That you, the son of man, may push through pain,
May bloom in Love, become the Son of GOD."

Have you heard the glory singing
Of the angels and the saints
Round the vaulted heavens ringing
As in light the music paints
• Visions pure, celestial, tender,
Harmonies of love and bliss
Such as man can never render
Till the Christly cross he kiss?

Handel must have heard this wonder,
Listened while the white-robed sang,
Caught the living light and thunder,
Held till all his being rang,
Soul attuned and jubilating
In the ecstasy of sound
Brought to earth, his heart vibrating
To the glory he had found.

Sing; oh, rock and mountain, sing it!
Rolling river, wooded hill,
Bird and beast together fling it
Till the heart of man shall fill,
Swell and burst in mighty chorus,
"Hallelujah! Christ shall reign
King of Kings and Lord before us,
Victory shall ever gain!"

INSTRUMENTS IN THE HANDS OF GOD

ST. GERMAIN: Greetings my brothers and sisters of SOLOGA. I remind you that I am one of your sponsors and teachers, and I come to you in great joy tonight because of the fact that it seems that the real purpose of your organization is growing clearer in your mind.

When the name SOLOGA was first given, it was not fully understood. The thought of the Solar Logos was an expansion of the thought of Jesus as the Christ, as the Word, the Logos, and was given in the understanding of the first words in John, "In the beginning was the Word and the Word was with GOD and the Word was GOD." The Word then seemed to mean your Sun, the Solar Logos; but since that time, you have understood that many Suns are as real, as vital and important in your past lives and your present make-up as IMMANUEL.

LIOLIA which is invisible, and therefore must be taken completely on faith, is also a Solar Logos, the Sun of a Galaxy. No matter how far you go upward, there will be the Three, the Father Principle, the Mother Principle, and the result of the creativity which is the Word sent forth to create, the Son Principle.

In Genesis in your Bible which is an expression of the mysteries that were known at that time by Moses, it is said, "God spoke and these things became." The Spirit of God brooded over the face of the waters and God said, "Let there be Light and there was Light." It is quite immaterial whether this was said in the mind, in the thought, or with a voice. If there were but a mind, it would still be susceptible to the vibration of light. A voice is simply a vib-

ration made audible to your ears. You hear through the organs which your body has developed to receive vibrations. The mind could receive these vibrations if you had no ears, or no sense of hearing. You would then hear directly through the consciousness.

You are well aware that the brain is not the mind. When you lay aside your Earth equipment, you will no longer have what you now think of as a brain or ears or eyes; but you will be conscious, you will think, you will see, you will hear. You will have all of the senses that you have at present and others of which you are unaware. Therefore, the Word was and is the Thought of GOD. When GOD thinks seeing, then eyes can see within the Mind of GOD. When the words, "The trumpet of the Lord" are used, it means a powerful, strong expression whether there is an actual metal instrument or not. The metal instrument is merely a symbol; and in the same way your voice-box and the sounds you make are merely symbols of the power and the activity of the All-Conscious Mind of the ALLNESS OF THE ALL.

The word SOLOGA means the Thought of GOD expressed in existence everywhere. It means the Word of Oneness expressed in living at whatever level you are. You have been addressed this evening by the two highly evolved Entities who ensoul great Suns; and you take it quite calmly as you should, quite in peace, quite detached, and quite unemotionally. You have been called suns by these Suns, Suns of GOD, and therefore, as expressions of GOD, GOD-in-Expression. That should be elementary; and yet the curse of error through the word "blasphemy" which killed Jesus, still is laid upon the understanding of me to paralyze them so that they are afraid to even think that GOD lives in them, let along that Heshu acts through their activities.

Now you have come to a time when you are sufficiently grounded in this thought that you are willing to share it publicly; for this reason we who are your Sponsors greatly rejoice. You have been aware of the physical activity going on in this your meeting place, of the re-arrangements, and the plans for the holding of the public meeting (Our Sunday Vesper Service, 4:30 to 5:30 P. M.). This is more significant step than you realize. Up to this time, you have shared only with those who could sit here the three hours and endure the high vibrations for a long period of time. This was necessary that you, yourselves, be fully grounded, that you be developed as channels for power, and that you be drawn together in a oneness as a group.

Now, we believe that you can allow others to come for shorter periods in the formal plan or organization of a Vesper Service without lowering or diluting your quality. You may be sure that the arrangement and the furniture, all that is going on here, is under the guidance of your Sponsors. You may be sure that every activity is blessed and every bit of furniture, paint, or book, or whatever you will use here, is being carefully magnetized, that those who come here will feel peace, quiet, contentment, wisdom, understanding, welcome, assurance of love, so that they feel like they belong here.

We ask that you undertake a month of prayer for this service, which you

intending to initiate the Sunday of December second. Your channel and leader has been inspired by us to use this date which is favorable to your group for such an undertaking. We ask you to pray for this service, not that it be financially successful, although we know that GOD giveth the increase, or that great numbers come here, although we know that GOD precipitates audiences as well as rain; but pray that that which is begun here shall send forth the Light of Understanding, of Faith, of Love, of Truth, which must go out to prepare for these dear ones who are to come in the future, in that they may find a home, a place to go where that which they know will be welcome.

You are here to prepare a place so that the new generation coming in may feel that they are able to build on that which has already been revealed. This is an important work to which we call you, more important than any one of you has yet understood.

There are many, many wonderful avenues through which these thoughts have come, and yet so many of them require payment or secrecy, or joining this or joining that, and gathering a little here and gathering a little there. It is hoped in time that through the understanding, through the word of you who are here and others cooperating, a working synopsis of all may be brought together as a foundation for young people, a sort of a fundamental basic textbook as it were, a cosmology uniting science, religion, philosophy, self development, character development, and the ease of living, all to be presented so that these young people coming in will say, "Now I feel at home; this I can understand; this is what I've always known," and then you can go on from there.

I realize that I have given you a tremendous responsibility; but understand that it is not yours at all. You are instruments in the hands of GOD just as we are. We all work together on this project. We are praying with you for this month. In the garden Jesus said to Peter, James and John, "What, could ye not watch with Me one hour?" Beloved ones, will you not join us, your Sponsors, in prayer for this project for this month? SOLOGA! my partners in spreading the Word. SOLOGA! Together, we open and let the Word flow.

ST. JOHN the APOSTLE: I am so very happy. You can never know how happy I am at this moment, for that for which we in the invisible have planned for many years is now coming to fruition, the beginning of the expression of the Universal Temple of the Living GOD here under the name of the Word, the Solar Logos, the Word of GOD expressed in the Light of Suns, in the Suns and Sons of Suns. I, John, have spent many hours, laboring in the development of the channel and of the group; and for me this call to prayer is an intensely joyous occasion. To us the time we spend in prayer, in communion with the FATHER-MOTHER is the thing we most enjoy in all of life. To me this call to prayer is not a time for begging; it is a time for knowing. So often, the thought of prayer is a thought of hard work, of agonizing petition, of time to put something over; but prayer is sweet communion, knowing in faith, believ-

ing that GOD will perform Hiser purpose in this plane. Let it be with great joy that you anticipate the work of GOD made manifest in this new undertaking of SOLOGA.

INFLUENCES FROM MANY STARS AND PLANETS

SOLOGO: Beloved children of mine, those who carry my Light into the darkness of the Earth vibration, I am always so happy to be able to speak to you personally. As I send forth these words, vibrations within your etheric, astral, mental and spirit bodies respond and are attuned with the mechanism of the vehicle which you inhabit in order that you may progress as the soul desires in this incarnation. I must continually remind you that you all had a previous experience in my Solar System. I know that this is hard for some of you to accept for it is so new; but as time goes on you will have various confirmations which will enable you to accept this wonderful fact of your membership in the Golden Legion of LIOLIA.

I bring to IMMANUEL a strong emanation. I bring to the Earth, through many messengers of Light, the helpful guidance of the Hierarchy of Sirius of which other channels have spoken and written in the past. I have been coming, as you know, to introduce the other stars. But first, this evening, I wish to dwell upon your closeness to me and our mission together. I am beginning to be clear in your skies. In the winter time I am very bright. This, of course, is only the physical body, the physical manifestation in the realm of the manifestation of the Substance of GOD in the world of form.

You have learned that the ALL is everywhere, that all space is here and all time is now. All you have to do is sit in meditation and think, "I wish to be in consciousness in Sirius." Each of you have had a full expression on various planets. Some planets were more pleasant to you than others. You might ask to see your home and your expression or the people on the planet you loved.

There is nothing to keep you from doing this, my dears, except your very busy lives in which you find so little time for such pleasant ramblings. You are very serious-minded. You take your meditations with a great deal of zeal. You desire with all your heart to reach as high as you can. Sometimes one reaches high by staying where he is. By that I mean, when you over-reach yourself you get in your own way, so that it is necessary for you to spend a year in one grade and let the body catch up with the mind before you go to another grade. Therefore, sometimes it is better to take a little time out for pleasant ramblings in flower-filled meadows rather than driving to climb to a mountain top. I am sure, that you would feel, however, that you had accomplished a great deal if in your meditation you visited the Sun Sirius itself or the planets.

I would like to answer a question which was brought to the group from the recent visitor from New York. The Suns and their names, such as SOLOGO, represents the whole Solar System, such as Sirius including all its planets. You have been told that you are a solar system. It has been suggested to you that the planets in your bodies can be thought of as the seven centers that you

have been learning about, or they could be thought of as the organs of the body. Some might think, "The Sun is the very heart of the Solar System." That might be true; or you might think of Mercury, which in the astrology of your Solar System has always meant your mental development, as the brain, but you know that the brain is not the real thinking mind. You know the consciousness uses the brain as a tool but the brain itself is not the true, Higher Self. I, SOLOGO, give you this name for the Mind, the Consciousness which ensouls the whole system of the Star, Sirius. The Stars who have spoken to you are the Spiritual Highest Expression on the highest level within the Solar System which they control.

Tonight I would speak to you about the star, CAPELLA, which I am introducing to you. In your winter sky you have located Orion, with the two great Suns, BETELGEUSE and RIGEL who have spoken to you; you have found the triangle made by myself, SOLOGO, the Star Sirius, the Big Dog, and Procyon, the Little Dog and BETELGEUSE in Orion. Very close to them you have found the constellation of Taurus, the Bull, with Aldebaran as the eye, and in the shoulder, the Seven Sisters, the Pleiades, where the Purple Pleone is located. You will understand that these winter stars are best known. For one reason, they are very brilliant; for another they are in a part of the sky that is not so crowded with stars, therefore they stand out; for still a third reason, they are the winter stars. In the tropics and the sub-tropics, such as the Holy Land and Arabia where they were studying the stars, the winter time is the dry season, and therefore the sky is clear. These stars are of the first magnitude, and are well known.

The Star CAPELLA is in the constellation called Auriga, the Goat. This can be recognized by five bright stars in an irregular pentagon. Capella is much the brightest of the five. In reality, Capella is very much closer to you than the other stars and hence much brighter. Capella, however, is brighter in its own size. It is a white star with a little tinge of yellow and much larger than your Sun. This would show to you that it is older in ages of expression as a Sun. It has had more incarnations as a sun in the control of a Solar System than your Sun, IMMANUEL-IMMANUELA.

Since there are so many questions being asked as other channels begin to accept the cosmology which we are giving forth through your group, I would like to state that IMMANUEL-IMMANUELA is the highest Spiritual Expression in your Solar System. It is Spirit expressing itself from the heart of the Sun to the farthest possible touch of gravity from the Sun, to the farthest extent of any influence-aura or magnetic current from the Sun. Helio and Vesta are names of advanced beings who live in the Sun itself; but IMMANUEL-IMMANUELA are those who ensoul the whole Solar System. LIOLIA ensouls this whole Galaxy. I hope that this will make things a little clearer to you.

Now I shall give you My great love. I believe that I was going to explain to you again how important it is for you to maintain your contact with Me, not only because in your very name SOLOGA, you refer to this contact which is

a reminder to you of it, but because in keeping yourself aware of it, you will then help to shed forth the emanations which are so important to be sent through me to IMMANUEL-IMMANUELA. Remember, you are Messengers of Light for LIOLIA for you are members of the Golden Legion of the Central Sun. You are Messengers of Light for IMMANUEL-IMMANUELA, for you have had your period of orientation in each planet of this Solar System, and in the Sun itself.

Some of you have brought more strongly influences from certain planets than from others. The gentleman whom you were speaking of, who was so mental, brought out so strongly the influence from Mercury. Some are aware of their influence from Venus, others from the scientists of Mars, others from the administrative atmosphere of Saturn, and others from the expansive generosity and good will of the Father Principle in Jupiter. These have made themselves clear to you. The outlying planets' influence is not so clear as yet, but most of you will understand before you have finished your tour of duty where you are now.

Think of me then. As you look into the sky, find the brightest star. Of course I am not as bright to your eyes as the planet Venus which is the brightest in the sky next to your moon, but I am the brightest real star in the sky. Look at me; think of my name, or send me your acceptance and your joy in being a messenger in my emanations. As you do this you open the flow so that it may pass through you without your conscious direction in the ways that such Scientists of Light as Ixutel or the Angelic Forces such as your Michael and Gabriel will be directing it.

Again, may I assure you that I love you so much more than you can understand, and believe me, my dears, you love me so much more than you know. Some time or other, you will feel this love surging up within you. Now I shall step aside and let the Star CAPELLA speak to you. 11/20/62

REALIGNMENT OF ATOMIC STRUCTURE

CAPELLA: Beloved, shining suns of Light, dynamos, power-houses in your own vehicles, in your soul and spirit forms, as brother-sister suns I speak to you. The particular lesson or advantage which is to be gained by a period in my Solar System is that of an atomic re-arrangement of the patterning of the vehicle in order that you may send forth a great deal of power. One of you here who has had a time in my sun is aware of the time when, instead of taking a part in the exercise, her body was used for giving forth a great deal of power. Another who has had a time in my Solar System has been used all her life in the giving forth of power (although she did not know it).

Many have come from each of the Stars. Those who have been used as power broadcasters, as devices, power-stations, let us say, have been scattered all over the Earth. I would like to give you an idea of what happens; let me illustrate. Perhaps you have been in a store or some place where they have been making keys. Have you asked for a duplicate key and watched the man take a blank and file it into the shape that will be usable to you? Let us say

that you come into a Star System almost like a blank, with a pattern already stamped upon you, but it could be shaped in many different ways. You go to one Star System and you are adjusted so that you can do two operations or unlock two types of doors and finally, after you have been in a number of star systems you become almost a skeleton key that can unlock any door.

A better example of it would be: suppose that there were discs to fit over a lantern or a source of light to throw a pattern on the screen. In one star the disc which you are is cut to receive, to pour out light a certain way. You go to another star and another disc is used and your pattern is re-adjusted to accomodate both discs. You go to a third star, and a fourth, and so on. By the time you have reached the Earth, your pattern has been adjusted in such a way that you can let through it the light of a number of stars; and yet, there will be others to which you will not respond so well.

Those who come into the System of CAPELLA, undergo a re-alignment of atomic structure which makes it possible to push through them an enormous amount of power. You may be sure that an Angel such as Michael and his band have served in some such place, probably in hundreds, yes, thousands of such places in their long evolution; for Michael, you know, is power personified. To mention the name of Michael makes you think of great power, of tremendous force at work for GOD.

Of course, when one attains Starhood, those words "for GOD" are the key to everything. Nothing is thought or said or done by anyone who has attained Starhood without the thought, "This is GOD doing this." My brother PROCYON made this clear to you last week. Often the higher the evolution of the Being so that he goes up to become the Central Sun of a Galaxy and so on, the more definitely he does demonstrate perfect selflessness and utter humility in the knowing that everything is for GOD. That which you learn or undergo while you are in the Sphere of Suffering, that which you suffer, if it is suffering to you, is for the purpose that your bodies or your vehicles may be aligned, may be shaped into the instruments needed for the service in the next place where you are to go.

Each one of you has expressed in bodies very different from those you now occupy, in bodies that are so different that you have not even begun to think of such shapes and such organizations. Do not be startled if you are shown appearances that are different. Sometimes, your teachers will show you a different manifestation somewhat like yourself, so that you may begin to understand that others in other planets have developed in different ways. I am being told that you are aware that some have expressed with furry bodies and different shapes as though the line of evolution in the planet instead of coming from the rodent from which man developed, has ascended from the bear or cat family or something like a bear, a cat, or such animals. In evolving, life takes many forms before it settles upon that which is most suitable to that particular environment. One environment might produce a rodent which would develop into the highest intelligence; others might produce a cat which

would develop into the highest intelligence; or there might be animals or existences with which you are utterly unfamiliar, which would develop the highest intelligence. This you must be prepared for, and until you are prepared for it, you cannot travel as widely as you would like.

I listened to your channel mention the fact that when certain mental vibrations were sent toward her, it caused a sort of wrenching within the mind. This was a quick adjustment which you come to my star to receive, an opening which was very sudden and very noticeable. This was necessary that she be able to give forth my message without strain. She thought this power came from one person, but it was the result of the activities of those who were working with her at the time, as well as the thought that was projected.

Such experiences will be coming to you; many strange experiences will come. Some of them will be a little disturbing, but do not be frightened. Know that they are the first impingement upon your organism of an introduction to a new friend. Always keep your thoughts high. Let your prayer life join you consciously with the Highest you know, the FATHER-MOTHER GOD, the HIGHEST OF THE HIGH. Keep yourself hid in the Christ-Consciousness, in GOD; then you can travel at will without damage. You can never be harmed. You will not be bothered by that which other groups have worried about, the low astral entities. You will be so protected by your consciousness that you will never go near the place where they might express. You do not let your consciousness go there, so you are not there.

Where your consciousness goes there you are. If you put your consciousness in the Christ, that is where you are. If you lift your consciousness to GOD, then nothing un-GOD-like can touch you. This is the reason that this particular channelship has been developed almost entirely through prayer. It was important that the consciousness of this particular instrument be lifted entirely above and beyond that which many who have been studying the gifts of the spirit have been experimenting with and learning about. You, too, have been protected from that sort of experience as much as possible, and you are being lifted. Some of you have sat in groups a long time; you saw your friends receiving various visitors, manifestations, such as trumpet, materializations, Indians, all of the various apports, or whatever the group might be specializing in. You might have sat there and received nothing. This was because you were being protected, for you were to wait until this particular organization of SOLOGA could enable you to lift yourself to the service which you were sent to perform.

I, CAPELLA, your brother-sister Sun, have been appointed to give you this information. I extend this information, of course, to all who read and enjoy the SOLOGRAPH. There are many who began early, many years ago, some who were raised in families where the earlier type of communication was studied. As rapidly as they are willing, they can leave that old vibration behind and move upward. It requires first the step of understanding, "I and my Father are One." It requires the full and complete giving of self in oneness

with the FATHER-MOTHER-GOD. When you have driven this into your subconscious, then you too will be ready to leave the old vibration and contact GOD within the self as readily and as much in reality as you speak to each other in your human manifestation.

Those who have been in contact with GOD, know they have been. No one can tell them that they have not been. People may say the words, but those who have been in contact with GOD know it so strongly that they forget other people's words and go ahead in that which they know. When you have made your conscious contact through, "I and my Father are One", you will know so strongly your life will change. You will be like a rose unfolding in beauty, in joy, in assurance, confidence and ability. You will undertake things you never thought possible before, because you will know that you do nothing, but GOD does that which is done through you.

I have spoken at some length, but it seems that it was an opportunity to tell you many things that must now be given forth in order that we may go onward and upward. I will say to you, SOLOGA! The Word expressed in a Solar System is the same Word expressed in your flesh and in a grain of sand.

THE CUBAN CRISIS

GABRIEL and MICHAEL: coming again to conduct your power broadcast. On Saturday (11/17/62) we told the Group that we thought if your country stood fast they would find the others withdrawing. Before we could give you (our second meditation group) this message, our word is proved. In your news this evening, you have heard that your standing fast and insisting, your threat to accompany your inspection planes with armed fighters, your restoration of the sea blockade or quarantine, and your President's determined stand in his correspondence with the Communist leaders has led to a withdrawal on three fronts. This evening your news spoke of an interchange of letters in which the Russian commander, Khrushchev, had agreed to several concessions. Mr. Castro has been persuaded to let the bombers be removed, and China has been forced to retreat.

Now, this particular situation is not yet solved, but nevertheless, that which we spoke on Saturday has been proved. We said that through the years of the past, if you will examine Russian history you will discover that the Russians have been very clever about getting someone else to fight their battles. They used the Chinese Communists to fight the battle of Korea which was really their initiation. They have also used the Chinese in the aggression in Southeast Asia. They had hoped, perhaps, that the United States would be so frightened by their hold upon Castro and their sending materials there that we would back down. We say we, for we are speaking as one with all of you tonight.

The Russians did not make a stand before Napoleon until he had burned their capitol city. They did not make a stand before the Germans until they were half way through their country. Then, they made such a heroic endeavor

that the Allies accepted them as worthy, not realizing the true character of the leaders.

For this reason, your President was strengthened in his determination, and your country was beamed with the thought to stand fast and to show the mailed fist, to rattle the sword a bit and make a little noise for you see this has shown the Russians that you mean business. They themselves gave the cue when it was told your President that the Russians had said in Moscow, "The Americans won't fight; they will let us go where we wish to go. They didn't drive Mussolini out of Ethiopia; they let him gobble it, so they will let us. India's on the other side of the world from them. We'll take what we can get."

You see by the show of strength, the problem has been solved for the time being. Continue in your faith that this will be so. The Russians will not permit the Chinese to bring the United States forces into full power in India. Russia is realizing that she has now lost the neutrality of India; the friendship of India, for it is as if the snarl of the wolf has shown through the grandmother mask. India has awakened to the fact that the wolf is at her door. She has now been forced to take a stand. Her backbone has been strengthened, too. She is also taking a leaf from President Kennedy's strength and is saying, "I will not agree to even talk until you withdraw back to your line; then we will discuss this matter." This show of strength is what is needed. This now is proved.

You will always have to remember that this is purely on the surface; that there is the hidden treachery still at work. There are the concealments; there is the withdrawal for the present until the power or the strength is such that they feel that there can be no retaliation. But this is not so at the present. If it were so, then the United States would not be here today, for with the first show of force in Cuba, and the first resentment or the first call of the United States forces to the front, Russia would have accepted the challenge. This should be proof to you that the Russians know the United States has the greater fire power, and that to bring it upon themselves would mean their complete annihilation.

You may rest in this, but you may never relax your vigilance, your prayer power, or the sending forth of the Light until the anti-Christ has been driven from mankind. This may give you a kind of surcease from tension, but do not go to sleep. Remember that underneath the fires of aggression, of greed, or lust for power, of hatred and envy are still burning most insidiously. Be on guard, but know that the work which is done in the Realms of Light is potent, and that you are part of it. Always stand by your guns. You are soldiers in the Legion of Light. Do not throw down your guns and go off to the beach for a holiday. Continue to broadcast the Light as long as you live in the Earth plane until the anti-Christ is completely driven from mankind. 11/20/62

FROM GALAXY TO GALAXY

SOLOGO: speaking to my beloved children again. The Light around you is growing. The Light of the Central Sun, LIOLIA, is beginning to reach you

in a greater amount. Gradually this Light will increase until at Christmas there will be a great peak in the outpouring of Light. We have spoken of this several times before; but now we wish to prepare you for the fact that as this added Light comes you will be feeling great power poured out through you. Perhaps as you are at work, you will be aware of fingers tingling, of the third eye area sending forth Light or of streams pouring from your solar plexus, the heart or the throat. We will be using you through this Christmas season as much as it is possible to do so. We know you have to work. We know that we cannot use you to the fullest extent for you must have the time and the energy to fulfill your duties. Do not be surprised that there are times when you feel a little sleepy or seemingly distracted and find it a little difficult to think clearly. Just be happy; let this season be a time of great joy, relaxation, peace and harmony. Do not allow yourself to be disturbed or worried about anything. Do not let yourself be disappointed. (This will apply to Christmas and Easter for several years to come.)

The world is full of wonderful things to enjoy. Let each day begin with a happy song in your heart. Before you ever set foot on the floor, think of a happy, rejoicing song and begin it, even though it is only being sung in your mind. Start your day on the note of joy, of gratitude, of blessings, for this preparatory month for the Christmas season is so very, very important.

Some of you have wondered why they begin so early to sing the Christmas carols or to display the Christmas merchandise. Some of you have felt that it was sad that Christmas was so much commercialized. There are many, many people who would pay no attention to Christmas whatsoever were it not for this commercial expression. The lengthening of the Christmas season gives the Forces of Light a longer time to project through the minds of men which are softened and attuned to higher spiritual things due to the Christmas time. You do not have to follow the commercialism even if you work commercially; you can still have a song in your heart and can still send forth the higher values of the Christmas season.

You are now aware of almost all of the Twelve Stars. We have two more to introduce to make up the complete twelve that are of the necessary ingredients for IMMANUEL like the apostles did for Jesus. There are many other stars that have a great deal to do with the Earth at present, and other groups may be bringing through some of them. You too will go forward to bring through many other stars and many other things that you have not dreamed of. Many entities will express themselves through you to the world of a type that you have not even imagined. At the present time it was important that these Twelve Stars make themselves known to you that their Light might contribute to the beauty and the love of this particular Christmas season.

The Star that is to be introduced to you tonight is named DENEK. It is the constellation, Cygnus The Swan. It is a very large Star of tremendous actual magnitude, but it is so far away it does not seem as bright as I do - I, SOLOGO, the Star Sirius. I am but eight light years and a little more away

from your Solar System. This great Star is four hundred light years away. Of those of the first magnitude that are mentioned in the simple books that are on sale in your book stands only one is stated to be farther away and that is the Star Rigel which is also larger in absolute magnitude. However, the two appear to be of about the same brightness in your sky.

Since DENEb is so large, you will understand it is a highly developed Being. It is now manifesting in blue-white light in its youth and vigor in this present incarnation. It is a Star in which several of you have already had a manifestation, but it is particularly the Star which one of your brothers represents.

Remember, that all of you are power broadcasters from some star or other. I heard you speaking of the words, "from planet to planet, from solar system to solar system, from constellation to constellation". (quotation from the Persian Rosary) You may go on to say from galaxy to galaxy and still on farther, farther and farther. There is no end to that which we can reach if we fulfill the GOD-Self within us. GOD does not put a limit; Heshu does not say, "This far shall you go and no farther." We do not presume to understand how far, for we know that it is so far beyond us that there could be no answer to such a question.

May I suggest then that you dwell particularly in the Golden Light for this next month. Think Gold Light; see Gold Light; draw it to you and send it out. Particularly draw on the name LIOLIA as much as you are calling upon Jesus and Mary in this Christmas season. LIOLIA will be the keynote for this particular time, since it is the new Light of this Central Spiritual Being of the Galaxy that will open the door for the true understanding of what Jesus and Mary wish to bring you. Now I shall step aside and DENEb will speak to you. 11/24/62

TELEPATHY

DENEb: Beloved shining stars, shining in the Light of LIOLIA, I see gold pouring through you, gold streaming in every direction as you sit willing instruments for the broadcasting of the Light of our precious FATHER-MOTHER GOD, LIOLIA. I, Deneb-Deneba, (Deneb the masculine and Deneba the feminine) speak to you as one with you. You have been learning that all space is here and all consciousness is attuned to all other consciousness. Think of yourself now as sitting in my consciousness, for you are in contact with the Consciousness of the ALL, and I am part of that Consciousness. I, therefore, in consciousness surround you so that you are in me. Together we are one in the ALLNESS OF THE ALL.

You may think of your group as sitting in a much larger group of Beings who are with you, a Hierarchy from the Star Deneb, come to help you to feel my Being, to feel the radiations, to respond, to be attuned and to grow under the stimulus. You have heard my Brother, SOLOGO, say that you might be able to forecast what I might tell you by thinking of the characteristics of one of your brothers. You will remember that last week some of you enjoyed a

season of telepathy. You will remember that while this brother is extremely well versed and well read, nevertheless, he has been unable to take a part in some of your exercises; but when it came to telepathy, he was very successful. This, you will understand then, is one of the things that people come to my Star to learn.

You are now in the center of a group of stellar telepaths. The Hierarchy from Denab who are visiting you en masse this evening are all keenly telepathic in every possible avenue. They are at this moment beaming the dissolution of barriers in your mind, in your brain equipment, in your personal physical radio receptor so that you too will be more telepathic.

I would suggest that you who are working as teams, should practice telepathy in little matters about your own personal arrangements. One is away from the house; the other desires something to be done or said or brought home. Let the one at home send out first a thought of Love. Send out like you dial a number on your phone. Send a thought of Love for a minute or two, picturing the one who is to receive the message. Send Love, not sentimental carresses or human-desire love, but the Love of GOD pouring out through the heart center. Know that it is not your Love that is being sent, but the Love of GOD. That will tend to set up the attraction necessary. On this beam of Love project your message strongly, plainly and clearly. You will become much more proficient in this with practice. The more you attempt it and the greater desire that you have for success, the more it will be possible to succeed. Let us suppose, for instance, that A desires B to bring home a loaf of bread. A will see B listening with a smile on his face and feel his response; then she will think, "I will send out the Love of GOD to open the way. GOD'S Love is pouring through me to you, B." Then she will think, "Please bring home a loaf of bread." She will picture the loaf of bread, the kind she wants and what it looks like in its wrapper or package. Do this three times and see if it is not successful.

Of course, the more you desire the bread, the more you put the power of emotion in your desire, the more it is apt to reach the person. For this reason there have been times when those who were dying, and wished to say a last farewell to someone not present, have then been able to project themselves to that person because of the emotion of the desire. You have all heard of this happening. Of course, it is not necessary to get very emotional over a loaf of bread, but, nevertheless, if you needed this and you want it badly and you are very anxious to reach the other member of the team, then follow the direction and send forth your request with power and emotion.

I would like to see you all succeed in this. I think it best to start with someone like your team mate and work at it as hard as you can. While any of you are living in the same house together, you understand you are serving as a team to complement each other, one of you brings one part and the other, another part of the Light needed to bring about a full projection of the Light of IMMANUEL and LIOLIA from your home center.

Telepathy is a natural gift of the mind. It is as natural as seeing or hearing. It comes with the development of the spiritual senses. It is a faculty of the Light. When you travel in the Light as some of you have done in the past, lifting yourself up into the Body of GOD, into the Golden-Light Place, the Realm of Light, then you are telepathic. You do not have to talk, you think and the answers come. When you ask a question, you do not really speak; you just think that thought and the answer comes. If you wish to speak, you can; you can join in the making of music. (You can do this with actual voice or you can do it with the thought of vibrations, or with just the thought of song.

Telepathically, you are adepts when you leave the body. Each one of you sitting here tonight and many others throughout the Groups of Light are adepts telepathically. When you journey in the higher spheres, you have no trouble asking questions and being answered if your mentors desire to answer you. Never doubt that you are heard. If you receive no answer, it is because they wish you to meditate upon it or because they hope the group will find the answer. You are able to hear, to see, to feel, to think, to know in the Higher Selves. If this were not so, you would not be called members of the Golden Legion.

We have explained again and again through this channel that those who are members of the Golden Legion serve under the Hierarchy of the Highest Spiritual Center in this Galaxy, of LIOLIA. We would like to make it very clear that those who are members of the Golden Legion are much traveled, have experienced much, have attained great abilities through ages upon ages, or eons upon eons of experience. Members of the Golden Legion are not struggling to develop and to become this or that. They are serving according to the dictates of the plan under which they volunteered. You are, however, being permitted to dissolve some of the barriers which were put upon you for previous years.

With the coming of this new Light from LIOLIA during this month more barriers will be dissolved. In the meeting last week, you were conscious of how far you have progressed, for each one present here responded telepathically in a most glorious manner. Those of you who were absent, would have done as well. This exercise will be given you again and again. If some of you are feeling any little discomfort, it will pass. It is due to the work that the Hierarchy which is here is performing upon your body.

Entities come to my aura to have the mind opened to telepathic communication, to have the mind enlarged. Your first step, you think, is to learn to talk with your team mate, but this is not so, for you are already in telepathic communication with those for whom you channel. Each of you has had visions; such seeing is telepathic communication. Many telepathic communications are symbols. The words or the sentences to describe it would perhaps take much longer than just to show a picture of it. Sometimes pictures are the most economical means of telepathic communication.

All the work that you have been doing in this group meeting sitting here

week after week to receive from your teachers has been telepathic. This communication is pure telepathy. What is telepathy? It is the touch of the consciousness of one mind upon another. In reality, both minds tune in to the ALL-CONSCIOUSNESS, and then they are in tune with all minds. However, they are also able to select. That is, just as you sit here you might say, "Dear One, I would like to ask you a question," and thus you would select the one to answer. When you are in telepathic communication, you may thus select the one to answer. When you are in telepathic communication, you may thus select the one to receive. Tonight, I have selected you to be the recipient of my telepathic broadcast.

The Light which you send forth is sent by this same source - telepathy - that is your word for it. All that you say, the decreeing, the sending forth of Light, even the thought of prayer - all of these are the same thing - telepathy. The space people tell you that they are sending you a beam. That is their way of expressing that they are sending a telepathic communication direct to you, not diffused, but directly. You have been selected to be the direct recipient of their telepathic communication. Not all space communication is pure telepathy. Some is on a partly mechanical level, depending entirely upon the dimension from which the space brother or space scientist is operating. Telepathy is the fundamental process of communication within the ALL-CONSCIOUSNESS.

Now let us examine your own inner consciousness. Every one of you has at some time or another experienced a seeming mental conversation within yourself. You will be thinking something. You will say, "I think I will do this. No, you had better not; you had better do something else," thus you answer yourself. Sometimes you are not at all aware that part of the conversation that is going on is with one of your Teachers. It seems as though you yourself are answering within yourself; but often if you will examine it you will discover that it isn't all yourself, for there are two levels in the conversation. One is on a lower level in wisdom and certainty in discrimination, in perception; the other gives a wiser answer. Now this may not always be a great Master talking with you. It may be one of your own personal band or guides or someone who stays close to you who carries on this conversation. In reality, this conversation is for the development of your telepathic powers.

What I am meaning to say is, that from the first time you start praying, you are working telepathically. When you watch someone else's face and try to understand what they are thinking, you are working telepathically. When you broadcast a thought by the power of your eye, you are working telepathically. That which is done in consciousness without the expression of the voice is telepathy. Those of you who are now beginning to accept the fact that you are telepathic will know that this ability can be increased. Ten years from now telepathy will be much more common. You will be conversing with each other telepathically with greater clarity than you now speak with the mouth, for often words can be misunderstood, but telepathic communication is extremely clear. There is very little misunderstanding for both minds are wide open and congr-

uent. It is as though the two minds become one and exactly the same. What the communicator feels and experiences and means is what the receiver understands. I am dwelling upon this because I would like to inspire you to undertake your own self-development in this telepathic branch.

Along with the work in telepathy, you will discover an opening of memory, for this too is a matter of communication with the ALL-CONSCIOUS MIND. When you begin to reach out from yourself, when you throw aside the barrier and know that you are not locked up in one little brain, in one little head, according to the outward appearance, but that you are in contact with all the Consciousness there is anywhere at any time, then you will also be aware that you are in conscious contact with all that anyone knows of the future. This cannot come to you in a flash for if it did, it would burn out your fuses, as it were. It must come gradually as you gradually install larger and larger intake and output; for if you take in more than you put out, it is disastrous.

This matter of enlarging your consciousness is going on continually as you hear from Star after Star and Teacher after Teacher, as you open your thought to all races, to all religions regardless of color or belief, as you open your thought to entities in bodies not at all like yours, to minds quite different in mental equipment from your brain, to the varied and the unusual. As you open your thinking in creative imagination to accept all possibilities without doubt knowing that in GOD all is possible, as you throw aside your own doubts of yourself and those things with which you limit yourself, as you are ready to accept as you enlarge yourself, then the intake and the output naturally increases. When you send out Love to all the different kingdoms you have increased your understanding. When you achieve the point where you can send out Love to those who harm you, or to those for whom your country seems to have an unhappy feeling or a sense of discord, when you send Love there really meaning Love and not destruction, then you enlarge your thinking.

The present situation with your neighboring island of Cuba is the most wonderful opportunity for enlargement. Most of your countrymen desire to get rid of your brother Castro, and everything that has to do with him. You have the opportunity to lift yourself out of that and send to this locality and these entities pure GOD-Love. You cannot send this out through a channel which is cluttered with antagonisms, with rejection, with discordant thoughts. Instead it must be the pure GOD-Love sent on the Golden Healing Light. This will enlarge you. Some of you have been thinking of keeping money in circulation by letting the money go forth freely. We are hoping that you will keep Love in this same thought of circulation, for the greatest riches in the Omniverse are to be found in Love which expresses itself in All-Good. Of course, pure true GOD'S Love wants everyone to have all he needs and all he can use wisely, everything of Light, of Love, of food on all levels, of supply on all levels, all these things.

GOD'S riches are beyond the word "infinite" which you say so often. They are all there is. Everything that is anywhere is yours for the whole Omniverse

is yours; but in order to let it come to you, you have to give out, that there may be the inflow. Wisely, not foolishly, not with profligacy, but wisely, let there be a growth of outflow and inflow. How many times have you been told, "The more you give, the more you will receive." Mentally this is so; telepathically this is so. Remember that as you increase your outflow of Love, you are opening yourself telepathically.

It has been a great pleasure to us of Deneb to be able to talk with you this evening, and to share what we do with all who read your publication. We hope this will unlock the doors for many, and that as time goes on, more and more will begin to practice the true use of the All-Conscious attunement, one with each other, all with one and one with All. May we say with you, SOLOGA! For all thought is the Word of GOD manifested in the All-Consciousness of GOD.

11/24/62

As we went into group meditation after this message, the Onlooker was immediately aware of the Hierarchy of Deneb sitting very straight and dignified like Kings in their own right in massive golden chairs placed in a circle around us. Each Being wore a golden crown surmounted with long decorations like spikes or rays. These sharp pointed golden projections were symbols of their Masterhood in ability to receive and to radiate telepathic thought. They answered the Onlookers questions telepathically; no voices sounded and no lips moved and yet each expressed himself with characteristic individuality. They continued this conversation with the Onlooker for some length of time to illustrate telepathy. She learned that each great Being of the Hierarchy is a Director and Teacher of a specific planet in the Solar System of DENEb. All the planets in this System have reached a highly spiritualized state and are now invisible to third dimensional sight. In this state they do not effect the gravity of third dimensional forms and so are not detected by astronomy of Earth level.

The Hierarchy discussed the hand signals which have seemed so mysterious to many who have been impelled to use them. Often the communicator shows the picture of the symbol to be used first. The instrument will mentally see himself making the gesture and then be impelled to do what he has seen. As the flow of communication is established and the instrument gains confidence the sight symbols are bypassed and the impulse transmitted telepathically so that the hands seem to move of their own accord and yet it is all done by telepathic communication through the ALL-CONSCIOUSNESS OF THE ALL. Visualization should be developed for it is a strong power-tool in telepathic communication. Continual practice develops the latent abilities and strengthens the outreach of the communicator. All who sit in Groups of Light at present have developed these skills in many other periods of service and need only to practice with sufficient determination and patience to recall their own special skills.

DIFFERING INTERPRETATIONS OF COLOR

IXUTEL: here to give your power broadcast. With me here are my bro-

thers, El Morya and Kut Humi. We represent the three Primary Rays at the moment. Each one of us have operated many, many times on all the Rays; but at the moment, we are bringing you these three Primary Rays, that of Will and Power, of Love and Wisdom, and of Intellectual Activity.

Do not be disturbed about confusion with regard to the color of these Rays. In differing dimensions and differing spheres, differing forces are represented in different colors. One symbol of this is the fact that the secondary rainbow is opposite in projection from the primary rainbow. Where the red seems to be coming through as though it were the slowest rate of vibration, in the primary rainbow, it takes the position of the more rapid rate in the secondary rainbow. This is because certain prisms (and each sphere is a prism) might be said to be acting at a different angle, or with a different polarity or radius of light activity. There are no terms in your language to express this exactly since your scientists have not yet begun to deal with this thought.

Do not trouble about the colors. If you see a color projected to you, dwell upon it. If someone is telling you they are operating on a certain ray with a certain color of light, accept it, and visualize it with them. With all the infinitude of variety of spheres, of stars, of solar systems, of galaxies, of Spiritual Centers invisible to you at this time of free communication, you may be very sure that you and other groups will be touched by many different sources of color and light. Let us imagine that there stand here ten different light-scientists from ten different stars; to each one of them the same color might have different uses. I am sure you will be able to accept this.

For the moment, as you have all been aware, the Golden Light of LIOLIA and the Violet Ray, which at the present moment is called the Seventh Ray on your level of manifestation, the Ray of Ceremonial Rituals of Unity, are the most important Rays of Light. Of course, you will use your green ray of adjustment, your yellow ray of mental activity, your blue ray of devotion, your rose of love as you have been taught in your group, but do not be dismayed if others from other groups are taught differently, because each group has a different background.

Now I am aware of the passage of time so I shall proceed with what we must do. We are especially to broadcast the Light of the Gold and Violet to Pakistan, the perfected Light of Peace, Love and Unity, that the rulers of Pakistan may discriminate between forces of the Christ and the thought of anti-Christ. They are being bombarded by hypnotic suggestions from those scientists in brainwashing of the anti-Christ who are trying to tell them that you and your friends are against them. They are frightened; they are angry; they are hurt. It is important that we send them much Love, not only tonight, but through the coming days until you see by your news media that their thought has been turned in the right direction.

YOUR SERVICE IS OF PARAMOUNT IMPORTANCE

JESUS: I am your brother speaking to you through this channel. I am

indeed your brother knowing just what you have suffered, knowing just what you would like to accomplish, what you would like to be perhaps better than you know yourself, for the Akashic records are open to me. You are my chosen ones, you among others, to carry the Light which we have been gathering and bringing to this planet, out into the vibration of existence here. I come to you in my masculine aspect today. Although we are one, I am speaking to you as Jesus. A strange experience it is to be so filled with the Love and knowledge of GOD, and then to be forced to tear one's self apart and come into the physical life leaving most of yourself in the Realms of Light, and that one which is like the other half of you in another body whom you in your physical are not able to recognize as yourself. Yes, a very strange experience, and yet one which I was glad to undertake that I might serve you.

You who are privileged to be here at this moment are chosen ones who have been with me many, many times. Each one of you is closely associated with me as an individual in past experiences. As you draw closer into oneness with GOD, as you understand your closeness to GOD, you yourself will find the halls of memory opening. You will be able to see yourselves in lives past. You will find your association with many great, highly evolved Beings to be very clear and dear to you. There will come flowing up from inside you a great blossoming of joy, an outburst of wonder, and you may think, "Well, that's not myself, and yet it has to be." You may be almost unable to accept it all when you come in contact with some of the beautiful souls that you have known in other lives, in other periods of service and other experiences.

Today you feel that you are humble ordinary people, and that is what you were sent here to be. Just as I came as a carpenter's son you have come in a simple, humble position in life, but this is what was needed. It was needed that you come with open hearts not too weighed down with governmental duties, with riches, with ambitions, with abilities and skills, so that you could not forget other things and give yourself fully and completely to prayer life, the giving forth of Light which is your true mission.

I would like to call your attention to Mary, my mother, to how she served so humbly and was hidden in the background, but what a power of Light and prayer she was in sustaining me in my work. She did not know how strong and great the Light was that poured through her. Later on those in the inner circles who had surrounded me realized the extent of her power. She was hidden, but she was the leader of the Church as long as she was in the flesh.

You too have been serving unconsciously as focal points for the Power of GOD to go springing out into the Earth. Whatever you may have suffered in this life, however you may have been disappointed, may feel that you have accomplished little or have not realized the full extent of your possibilities, I bring to you today a message of cheer and joy to tell you that your presence here to send forth the Light which you cannot even see in the physical eye has been of paramount importance to the Earth at this particular time. Without all of those Bright Spirits of Light like yourselves who have had long periods of

development although you are not all aware of it, without their sacrifice in being willing to come back into the Earth plane and go through trials and tribulations again out of which they had earned the way many times in many places, without all of these who have come back at such a sacrifice, the Light of LIOLIA could never have been received upon the Earth, and you as a race would have been crystallized at about the time of Shakespeare or perhaps a little later at the time of the colonies. That would have been the end of progress. This could not be allowed to happen, and so the call went out that we needed people for the Earth, the little planet third in the system of a yellow sun which you call Sol, but which is registered as IMMANUEL, GOD WITH US. You and many others came to my call because you knew me from past experience and you said, "Oh yes, we will come and help you. What do you want us to do?" Together we planned. You came into expression here thousands of years ago. You have lived through life after life, each time shedding the Light that you came to give. It has been a long, long process of growth, carefully watched by the most amazing scientists who knew just when to apply what amount of power and what amount of Light from what far Star or from what Spiritual Center of the GOD-Life.

Always man was growing in his ideas of GOD, but until he had built the emotional body and gained control of it, the mental body and knew how to enlarge it, and the spiritual body he could not hear of these things. If a primitive man began to say, "I am GOD" and to strut about, the whole tribe would reject him. Many people are in your mental institutions because they have taken hold of an idea that was too big for their spiritual growth. They have had faith in it, and yet have not had the balance and the completeness of evolution necessary. You have wondered about the gentleman who took his family into the wilds, thinking he heard a voice saying to go without food, and thus was misled until his family passed away through starvation. Things of this sort come when an idea that is beyond the spiritual development takes a hold of a man before he knows how to handle it.

Each one of you, my dears, have come in this particular life to give out the Light that would help man to build the spiritual body so that he might be ready to receive the thought, "I and my Father are one." Mary's mother, Joseph and his family, and others came to lift the vibration in Judea so that for that time there might be enough spiritual understanding and development that those words could be sown in the thought of man, "I and my Father are one." They have been repeated century after century. People have read them, but they have put them aside and they have said; "That was for the Son of GOD. That is not for me." Now you have come with the ingredients of Light which you and I bring to help others build a sufficiently strong spiritual body, a sense of detachment, of discrimination and balance, so that they can receive these interesting facts about their past evolution and not lose their equilibrium, but still remain humble, obedient servants of the MOST HIGH GOD.

There is nothing one can attain that is greater than that. The highest

Sun Being, the most evolved, seeks only one thing - to serve more fully. Last night in a vision, one of you saw a great Sun Being with eyes closed in meditation and hands outstretched, with all of Himself pouring through the Light which was coming to Himself from a Higher Source. The more we enlarge our ability to give, the more we are lifted, because then we can receive higher, finer, more delicate, and yet more powerful emanations from the ALL-CONSCIOUSNESS OF GOD.

It is so simple, beloved brothers and sisters of Light, so very simple, and yet it seems so impossible to man. Be at peace within yourself. Think "GOD knows what He is doing." All this that seems to be such a stew in the Earth today, is nothing. GOD is working out all the little lessons in every life. On the other side when they leave this body, they will laugh and think, as one of you whom you know remarked, I believe she used a term "I goofed" - they will laugh and say, "Well, I passed this test and I didn't do so well on that; but next time I go back I'm going to hit that harder and I'll bet I'll do better." Just as a child during the long summer may realize that he needs to learn some little bit of arithmetic more fully next year, and may come back in the fall with the determination to dig in; so these things that seem so bad to you become just little problems that you know you can solve in the long, long time that GOD gives you.

I and my Father are one. You are one. You are one with each other. You are one as a group. You are one in me, Christ Jesus, the World Savior and Wayshower for this time and this place in the thought of GOD. As I gather you into oneness, I lift you up and up. Together we proceed into the Realms of Light. Our spirits are healed; tensions are released; we are calmed and strengthened; and we come back again to the Earth plane at peace and ready to do whatever we are asked to do.

My brothers and sisters, just relax in the knowledge that GOD is all there is. No matter what happens, a few hours of suffering on the cross, what was that? No matter what happens, GOD is all there is - all there is to the pain and all to the joy, all to the people and all to the Earth. GOD is all there is, and we are one together in Him. It is as simple as that. He is the Father. He says "Come, my child. Come, my child. Watch out for that little pitfall. Here's another. Don't fall into them. Walk carefully and keep your eyes on where I step, for I will always lead you. I will always show you the way."

I put my hands over each one of you in blessing. I fill your hearts with Love and Peace. I do not ask you to go out into the world as I sent the twelve or the seventy in the body. I ask you to go out in thought, in spirit, in Light and in healing power. I ask you to have faith that what you do is important, for GOD is doing it - not you, not me, but GOD.

Thank you for coming. Thank you for permitting me to give this message to the world. May GOD bless you most richly in all the aspects of your experience.

SOLOGA! Together we serve.

12/9/62

This was Jesus' first sermon at our Sunday Vesper Service given through our channel, Ruth of Miami. In order to use the power of her open eyes, Jesus descended upon her in greater personal vibration and took closer hold on her vehicles than ever before. This was an arduous experience requiring much bodily adjustment but bringing with it great spiritual stimulation and realizations which were almost overpowering emotionally.

There are some who have shut themselves out of the wonder of such an experience by saying that Jesus would not condescend to speak through mortal man or that he is so high in evolvment that his touch would destroy and hence he withholds it. They even go so far as to class those who do receive him as false prophets. However, any one who has experienced this close communion in service can feel only compassion for those who have thus shut their own doors to the most precious experiences open to us while in human expression. Those who have felt this priceless closeness to our World Savior cannot be touched or turned aside by anyone's doubts or denunciations. We know for we have experienced. In our own flesh we have seen and received him. Oh Sweet Jesus, come to us! Alleluia!

ST. GERTRUDE: It is such a joy to greet you as St. Gertrude, one who grew up in the middle ages, and served in the church, all the church there was then, a church which has been home to some of you.

I was under the power of the MOST HIGH GOD from babyhood. No, I did not know this any more than you know it, for one who came into the Earthlife knowing his spiritual attainment could not then reap the value of the Earth experiences which he must build into his soul. All of you and those who are ready to open to the Light of LIOLIA have been serving in the Earthplane for thousands of years helping to bring through the Light at the times when it was most needed.

This is an important time for your channel, more important than she knows. There must be a breaking down of certain barriers within her in order that the full Light which is your group may shine through. She would not willingly hold back anything, neither would you. All of you in the Earth bodies at the present time have a problem of finding the truth about yourself and about others. You look in book after book. You were told this and that about this one and that one, about past lives or future events, and you try to find your way. You have been given exercises by means of which you might work your way back to remember for yourself many things.

Most people, at the present, are much more humble than they realize. In an attempt to keep their feet on the ground they refuse, as they should, any temptation to think of themselves as higher than their physical Light would show; and yet, if the only physical life you ever had had been this one, you could not now receive the Name of LIOLIA with joy.

This is one of the tests applied to those who come to your group. Can they accept this name? If not, they do not belong here. (For some there will

be the necessary opening, the throwing aside of jealousy, of old bonds, old dogmas, old thoughts, old notions, old teachings, old beliefs. You have admired someone; they have taught you something is so. You find it hard to throw that aside and accept something entirely different. You have been warned against the pitfalls of this type of channeled teaching. You know that you are more or less walking in the dark, and you try very hard to keep your feet firmly planted, so that you cannot be thrown off-balance. This is wise; however, it is necessary for each one of you to be willing to accept that you are fully expressing the ALLNESS OF GOD as it should be expressed in your life at this moment in order that you may open to be of more use. You must accept as Jesus did, that you are one with GOD. You must accept it more fully than just saying it. You must try to live it. You must also accept and love the blessed Name of LIOLIA.

Now there have been great men expressed in your history; and you would not be willing to accept that you were they. If someone were to try to tell you that you were George Washington or Abraham Lincoln, you would say, "No, I will not have that; that is not true", and yet, in some life, in some planet, in some solar system or galaxy, you have been greater than either of these or you could not be members of the Golden Legion serving for these thousand of years here for the Earth. This is said not to make you proud, but to make you humble, knowing that GOD has used you thus far and that you can serve Him fully. The barrier that I spoke of that must be broken down is the false belief of the limited life of yourself as you are. This barrier is what keeps each one of you from a full expression of the gifts that you seek, from proper intuition, from telepathic communication in clairvoyance or clairaudience, from the fullness of your healing capacities.

It is this with which St. Anne and I are especially concerned tonight, for the Christmas season should be a time of great healing throughout the Earth. It is a time when Presidents and Governors commute sentences and free prisoners. Should not man also be set free from his sickness? Should not the Healing Light of the Christ flow out with greater strength than ever before? Man is ever more ready to accept it. Then know, my dears, that there is no limit to the healing power that can flow through you now.

I come to you as a teacher of healing, but a teacher of many other things, too. I am part of the band that serves you very closely. Perhaps, later, I can explain to you my true association with this group; but I am as close to it as any one of you are, as deeply immersed in it, as much a part of its aims, dreams, purposes and outreach as any one of you. Believe me when I say that in the next year your healing power will increase as your faith in it increases. You sow doubts in your mind when you think in fear, "Perhaps this is not karmically right." Leave that to GOD. Place the one you wish to heal within the Will of GOD, then pour out the Healing Light; pour it out, my dears, with joy and with faith. Do your best and do not let your faith droop if the patient does not always respond. Let your knowledge of the free-flow of the healing power

through you grow rather than diminish if the healing does not always manifest on the surface.

May GOD bless you in every attempt that you make to extend this healing light to those about you. SOLOGA! I say this as a prayer, that the Word of the MOST HIGH GOD be expressed through us, this Group of SOLOGA, in the healing light of the Christ Consciousness. 12/15/62

OUR NEW HEALING SHRINE

ST. PAUL: I, Paul, speaking through this channel, do now bless and dedicate this gift of love, this box of cedar, reminding you of the cedar in the Temple where Jesus walked, the Temple that David envisioned and Solomon built, that was re-built by Nehemiah and other consecrated Spirits of Light. Let this gift of Love, this box of cedar remind you of the flow of the Healing Light. Let it always call to your heart to open, to expand, to give. We see the Golden Light of LIOLIA encircling, clasping, enlarging and dedicating this little receptacle of Love. Remember that it is but a symbol of the crystal shrine of SOLOGA in the etheric in which all these names are written in Light. I have been there and so have you, for we have lived there to work in the higher planes. I, your brother Paul, do bless this shrine in the Name of the Father, the Son and the Holy Spirit, in the Name of Jesus. AMEN. 12/15/62

This fragrant cedar box was given to us to replace our first cardboard receptacle which was showing the wear of much handling in prayer for those whose requests are kept therein. The new Shrine was a love gift to SOLOGA from Claire Steinert.

REAL CHRISTMAS JOY

MARY: My beloved dear ones, I come to you with so much Love and Light this evening. I am Mary, to whom this night is especially dedicated. Since it is your last meeting before the Christmas Eve, I wish to come to you in strength of consciousness, to touch you with my love, joy and peace that you might feel enlarged and blossom into the Christmas Light, Christmas Joy, and Christmas Harmony.

"Glory to GOD in the Highest" the Angels sang. Oh, let every heart on Earth be filled with glory! Your little human bodies hold you back from that which is your birthright. You must remain unemotional in order to keep your balance and to be good Focuses of Light and good workers in your plane of reference. Do not become emotional about it but let the pure joy of the Omniverse flow through you. Let it make your step lighter. Throw away all sense of burden or troubles or unsolved problems and just be glad. Oh dear ones, just be happy; for it is so wonderful to know that for 2000 years the thought of the Christ has been growing and growing in the consciousness of man until so many people now give their love to Christ Jesus in recognition of the true Christ Spirit and the Christ attainment.

To us in those days birth was often easier than it is today in the human body. Our lives were more simple. There was not the tension; there was not the watching of the many, many television programs which twist the stomach and the nerves into tight knots. There were not the problems of the many bills coming in and how to meet all of these things. One either traded his own work for someone else's work, bought what he had the money for or went without. One did not run up bills. In those days one did not have the financial worries. Sometimes the stomach was empty for many, many, many people. There were illnesses, but there were no big hospital bills or big doctor bills to pay. There was less tension, less of this continuous nervous strain sapping the health.

There was much unhappiness, much pain, much sorrow, much confusion, but in our little town of Nazareth, in the hills of Galilee, there was peace and quiet. We were far from any great center of Roman activity. Roman soldiers did not bother us. We went our quiet peaceful way living simple lives. We had the comforts of life such as they were; we had the good products of the Earth, of the fields. We had the clear pure air, the sun, the outside life, the outdoor activity. Childbirth was easier for us unless things went very badly indeed. It was not hard for me to bring forth my baby and care for him myself that first night. It was nothing for a Judean woman to be working in the field on the day of her baby's birth, to step aside into some little sheltered corner, bring forth her baby, wrap it up, put it on her back and go right on with her day's work. This was natural for us. We did not have the many things that seem to make the bodies of women weaker in these days. I was small but I was strong and wiry, able to do a woman's work and to bear children for my husband.

It was a beautiful night. The sky was clear; the stars seemed closer than ever; the wonderful Star which showed above for the birth of the Christ Child was so bright and full. Its radiance strengthened me and strengthened Joseph. Much has been said about how weary I was. Much has been made of the poor situation, but that wonderful Light from the FATHER-GOD expressed through His Angelic Hosts, through the Star and all of the wonderful Beings of Light who were there to serve me made it a most Holy and wonderful experience. It was so natural, so sweet and so light. There was nothing to remember pain. There was only the big joy of the bringing forth of the Son of GOD; for you remember that the Angel Gabriel told me that he was the Son of GOD. It was only my great delight to endure whatever was required that I might give this child this Beam of Light, a human body in which to operate and fulfill his mission.

The whole night was filled with music. The Angels were heard by the shepherds, but they were singing in every drop of blood in my body. My ears were filled with this joy. My whole being was dancing in Light. The whole experience was celestial in glory. I was the very first to kneel to the Christ Child. I was the first one to give Him my allegiance, to promise Him the full service of which I was capable. As a little human mother, I knew nothing of

my close relationship in the Higher Realms to my son. I only thought of myself as a human mother, and as such I served Him. It was not until after His passing, after His resurrection, that it was made known to the disciples that we were so close in vibration, in Son-ship to the Father.

I come to you tonight as Mary, mother of the Christ Child, to tell you that it is the most joyous experience that can come to any human being to bring forth the Christ Consciousness anew in the life, to dedicate oneself each year anew to the shining of the Christmas Joy, of the Christmas blessing through your life for the whole year that is to come. You who come here in the silence and the quiet of the night to meditate together, to be drawn upward in consciousness, to give yourselves fully each week to GOD and His Messengers of Light, will not find it difficult in your heart to say, "Oh, FATHER-MOTHER GOD, let me during this coming year shine forth with the Christ, with greater Light, greater Love, and greater Joy than ever before."

You have been talking about detachment, putting aside human emotions. Understand, my dears, that emotions are a part of GOD'S Being. He often stimulates your emotions as desires or as a means of stirring you up to a greater effort, or letting your heart reach out to those who need it. But it is true that you must detach yourself from the human entanglements that you may be truly the servant to the Father, for the human entanglements draw us into doing too much, into imposing upon the right of free choice of each individual. We can present, we can love, we can pray for, but we must free each one to live his own life.

Human emotions are often a spiderweb of entanglement. There is such a difference between human happiness or joy and heavenly rejoicing. That true shining of gratitude to the FATHER-MOTHER, the ALLNESS OF THE ALL, for the coming of His Messenger of Light, for the knowing that GOD is all there is, is so different from the human possessive joy in being at the head of the movement, or having the love of someone, or attaining earthly prominence, riches or something of that sort. One of your problems of discrimination lies in the possession of a child and the human longing of a human mother for the adoration of that child. It is so different from the GOD-Love of the Christ Consciousness (expressed in motherhood) for the Christ (expressed in the child).

In your love for your children, for each other, or for anyone, the first step is releasing them into the Will of GOD, loving them as GOD love, giving them the opportunity of free choice. Of course, parents must guide the baby steps and protect them until the child is able to make choices, but the true love and joy of the Christ Consciousness gives the child into the keeping of the true FATHER-MOTHER GOD, and with the child worships the real Mother, the real Father, more as a brother and sister than as Earthly parents.

I set for you who are so far along the Path of Light a little lesson in watching your joy. Ask yourself, "Do I rejoice more for something that comes to me personally, or do I rejoice more for something that comes to others? Am I as happy to see my friends receive as I am to receive myself? Is the joy that

flows through me the joy of the Christ or is it human pleasure in possession of human love?" This is discrimination which you can learn to make now. It is not hard. Be thoughtful; examine yourself. With me, come to the manger and adore, not the little human baby, but the thought of GOD in its expression of immaturity, sweetness, innocence, helplessness, as it expressed itself in all young things. Adore the possibilities, the potentialities of GOD-given growth. All may come into the full awareness of the Christ Consciousness. All may feel the Light of the true Christ-union.

Each one of you sitting here, my dears, has felt the presence of Jesus close at some time or other. Most of you have been blessed by seeing some symbol of Jesus. Those who have not will be given this privilege as soon as it is possible for us to attune your bodies sufficiently. Of course, you are blessed by the memory of the human Jesus and His mission, his glorious accomplishment as a man in giving himself; but you are more blessed by the Christ Consciousness which is within you and only has to be unveiled. A birth is an unveiling. You see, the true thing has been growing within you in the womb of the individuality, be it masculine or feminine, within the center of the being. The birth is the unveiling, so that each time you shed forth more of the true Christ Consciousness, you unveil the true Christ Consciousness within yourself. This is a re-birth of the Christ in you and in the world; for whatever you manifest is manifested for all since all are one and one is one with all.

My chief delight and desire for you is that you rejoice. Carry songs of joy in your heart all through the year, not just at the Christmas but all through the year. I was with Ruth's daughter at one time when she was so happy in the middle of the summer that she began playing and singing Christmas carols. This was her approach to the greatest testing time that came for her mother. She sang through the most intense moment of testing that had yet come into her own life. She sang Christmas carols to keep her spirit high. At that time she was like Paul and Silas singing in the prison. This you can do if you will. This Bright Spirit had been told that her mother had but one chance in three to live. She sang Christmas carols up to the moment that she knew that the recovery was sure. I give you this as an example of what joy in the heart will do. Had she not been inspired to do this, her little body would have suffered a very severe shock from the strain. It was too intense for her, so her own teachers who are still unknown to her put it in her mind to sing Christmas carols.

My dears, my beloved ones, whatever comes to you, take refuge in the great joy of the Christ Consciousness, born anew each new day, each new moment in every heart that will accept and seek it. Oh, I stretch out my hand in blessing to each one of you, in Love in Light! Oh, you are so precious, so beloved, so beautiful, such Shining Sons of the Father! How we Love you and how we thank you for letting us speak in this manner" SOLOGA! My dear ones. The Christ Consciousness is the Word which is the Light of the world.

GABRIEL: speaking to SOLOGA Group #13 in meditation meeting before

the annual celebration of the birth of Jesus the Christ. At this season peace is broadcast in such amounts that all fighting ceases. There are armistices in all places where war is going on. You will remember that during World War II, soldiers facing each other across the trenches sang Christmas Carols together, because the Christ Light is shed so strongly and received with such joy.

You were told to send forth the thought, "Glory to GOD in the Highest, and on Earth, peace, good will among men". There cannot be enough of the broadcasting of this thought, for while there are pauses in the fighting, in the disagreements, yet underneath the fires of aggression still burn. Much has been said in the past with regard to this Christmas season as being a time of great outpouring of the Golden Light of LIOLIA. Gold is the perfected work, the balance of the masters, the harmony attained by enlightenment and understanding. It is as though a good fairy waved her wand over the Earth and put all right in the hearts of men for this season. Let us then rejoice together. Let each moment be a joy, for that joy which the blessed Mary is speaking of is pure Light, pure Golden Light rushing outward to touch every unit of consciousness in the whole Christ Earth.

Beloved ones who so unselfishly give your bodies to this service, can you not watch with us and in your own life be more joyous? When you rejoice, when you sing the Christmas carols, when you are just happy yourself, you are giving forth that which is the very life blood of the Christ Consciousness as a new baby growing and expanding throughout the Earth at this time. It seems strange to urge people to be happy at Christmas; and yet those who bear the brunt of the Christmas season in preparation, in the stores, in the various occupations of the Christmas time, are often too burdened. They are weary; they forget to rejoice. I assure you that if you are tired and you think, "Oh, I am so tired", if you will but start singing, "Joy to the world, the Lord is come, let Earth receive her king", your spirits will be lifted, your weariness be lightened and you will find the day as a problem so much easier to solve. These three days coming, Sunday, the Christmas Eve day and the Christmas itself, are an enlarged Christmas giving, three beautiful days of holiness one after the other, such a golden opportunity for LIOLIA to reach us for the highest Christ Consciousness. Jesus and Mary are at work with all the Hosts of Light, the Golden Legion, the Angelic hosts, pouring out love, peace and joy with every heartbeat, with every activity. Won't you give yourself? Surrender your problems to joy. One does not have to dance or become a little inebriated to release the inner joy. It is for you; it is your right. Fill yourself so full of the Light of Christmas that nothing will disturb you, destroy or take away from you any of the good things of your contact with the FATHER-MOTHER, the ALLNESS OF THE ALL.

REJOICE! THE BRIDEGROOM IS WITH US

ST. THERESA: My dear ones, oh, my beloved sisters and brothers,

kneel with me at the foot of my beloved Lord, Christ Jesus. Kneel with me in joy, in worship, in songs of gratitude and adoration, for after the 2000 years of our working together in the thought of the Christ, at last the pure truth of the message of man's oneness with GOD may be brought forth in all its glory.

Our Jesus is with us in the giving out of this message. Our Jesus inspires us. He touches all who receive this message, opens them as much as possible, as much as they will permit. He goes with us in thought where we heal. As you send forth your healing prayers, He is there to help as much as he is permitted. I go from person to person for whom you pray. I serve as fully as I can, but I always know I take my Jesus with me, for I accept what he said, "Lo, I am with you always," every minute.

Jesus called himself the bridegroom. He said, "Should not the children of the bridegroom rejoice while they have the bridegroom with them?" Should we not then rejoice with such great gladness that even the tears may flow with the overwhelming delight of it, for our Jesus, our beloved Jesus-Mary is always with all of us. This is the wonderful promise to which we can turn every minute of every day or night. Through every breath of our existence we can turn to our wonderful Jesus-Mary, to our blessed IMMANUEL-IMMANUELA, from whom we draw life and strength and to the glorious one who is moving into our consciousness, LIOLIA, FATHER-MOTHER of the Galaxy whose Golden Light is stirring every atom of our being both in the visible and invisible realms.

Oh, I would have you kneel with me in thought, blessed ones, in adoration, at the feet of the fully Christed One, Jesus-Mary, beloved Savior of the World. We do not think of Jesus as a baby. The Christ Child is born anew in our hearts, but is matured, and is maturing in the thoughts of all men. He she walks among us not as a little babe but as the World Savior, and as such, let us receive him with greater devotion and greater consecration than ever before.

Oh, dear ones, can you feel me at your sides? Can you feel my arms about you? Can you smell my roses? Can you feel my strengthening, healing, loving touch? Oh, it is yours; indeed it is yours. I visit you every day of your lives. This particular hallowed group is my particular joy, where I can come so close to you and yet not disturb you at your work. I do not bother you with my presence, but oh, I want you to know how I love you, for you are doing the work that Jesus has asked you to do in representing Him in the physical plane. He blesses you so much more than you know. Rejoice in Him; Oh, rejoice beloved brothers and sisters, rejoice with me. Christmas joy and Christmas blessing to each one of you. In spirit we join hands and become one as we say (will you repeat it with me) the Word SOLOGA! SOLOGA!

12/22/62

GAYLO: speaking to each one and to all. Joy is a great healer. Gayety and laughter blow away more troubles, more tensions, more unhappiness, more psycho-somatic causes of illness than anything we can get out of the

medicine bottle. Fill your life with joy as a health measure. You go to your food stores and buy all sorts of carefully prepared health foods, and yet the greatest health remedy or health food is the Light of joy flowing through your body. This is the reason I brought the name GAYLO to you. Now, behold, how gay, how joyous the Angels are! You cannot imagine a sick Angel, can you? That would be funny, wouldn't it? Angels keep themselves perfect with joy.

A MARRIAGE OF SCIENCE, RELIGION AND PHILOSOPHY

SOLOGO: speaking to my beloved children of Light. Dear faithful instruments in the hands of GOD, brothers and sisters of the Brotherhood of Suns, our own ambassadors and messengers to Earth-man, how grateful we are to you who come without fail to support the Group SOLOGA in the bringing through of the messages that are so important to the Earth today.

You are aware that you are giving through the Word of GOD expressed in Sonship. This would naturally have to have both a scientific and a religious slant, for the Word of GOD is Omni-science. GOD spoke and the worlds were made. GOD thought and the worlds began. GOD'S law operates them, therefore, GOD'S Word must be science; or we might say, science is GOD'S Word, for science is built from the Latin word "scio" which means, "I know". Omniscience means I know all. Omniscience means GOD, the All-knowing or the Omniscient.

One cannot speak of GOD without a thought of worship, of reverence, and of awe which is the true basis of all religions. One goes to church on a Sunday in order to lift himself in devotion, in consecration to higher service to GOD. One goes to church to be inspired, to be persuaded to love GOD more, to understand GOD more, or to become more GOD-like. The Word of GOD expressed through your SOLOGRAPHS serves those purposes. It is to teach man about the Omniverse which is GOD expressing Himself. Therefore, when we talk of the scientific foundation of Life and the Omniverse, we must be talking in reverence and in awe concerning the Creator of all of this.

In SOLOGA, we are hoping to present to men of Earth a proper marriage of science, religion and philosophy. Philosophy has been the stumbling attempt of man through the ages to understand the thought of GOD expressed in man. Philosophers have asked why, what, when and where? They have tried to understand the phenomena of man's life in the Earth, and what principles it expresses, or what principles guide it. In fact, there is not a branch of knowledge of science, of religion, or of any other human expression that cannot be drawn into the whole thought of man for the New Age. For this reason, we express ourselves in sound, in music, in poetry, in art, in whatever way the Thought of GOD pours through us.

In the year which is to come, many, many new plans for man for the New Age will be brought forward. Much expression of GOD will flow through man in all of the various activities of the Mind of GOD. Man will build more beau-

tiful buildings, will express himself in greater mechanical devices for his comfort, in more colorful and beautiful art and theater. All sorts of expression of man will become more harmonious and more satisfying in the year that is to come. This is because of the play of the intense Light of LIOLIA through the consciousness of every man upon the Earth, of every form of life, every patterning of GOD'S Thought within the aura of the Earth.

Tonight I come to bring to you a star which is one of the Twelve. I told you before Christmas that all of the Twelve had been introduced to you, but not all have been brought to the group, or their messages given through for the general public. The one that I will introduce to you tonight came to the Group in one of the private classes and belongs to one of you sitting here tonight. This is the Star ANTARES, the beautiful red Star in the heart of the Constellation Scorpio. This Star can only be observed in the physical in your skies in the summer. At this present time during your night time it is on the other side of the Earth. Were the Sun not so bright, you could see it in the day time, but the light of the Sun obscures it.

ANTARES is a rose-red Star, because it is old in this present incarnation. It is some 250 light-years from you, but it is of a very large magnitude. It is 400 times the size of your sun. It is not as large as BETELGEUSE which is also a red Star, for BETELGEUSE is 400 light years away, and still a little brighter than ANTARES to your sight. This will give you an idea that BETELGEUSE is older, has been a Star longer than ANTARES, and this is so. You will remember that BETELGEUSE told you that such a large star, having lived so long in its present star-incarnation, would have great wisdom. ANTARES is not so old a star as BETELGEUSE, but it is old in this incarnation. I hope you understand this now, that I will not have to dwell upon it further. You know that there may be some children in your family who are but six to ten years old, but who are still old souls, older than some of the older people that you may meet on the street. Now I am sure that will clarify this matter for you.

Again, I must give you all my love. Each one of you is so dear, so precious, for you are my own Light, pouring into the Solar System of IMMANUEL, mixed with the Light of LIOLIA and IMMANUEL, and of the Christ-Earth to express in your plane of manifestation. You are volunteers. You lived in my realm, in my Sun-expression, in perfect freedom and harmony; but you chose to lay this aside, to go to the new Star, the young Star, IMMANUEL, to help in His manifestation of the Christ Consciousness in the plane of the physical in your Solar System. You went from me ages ago. You have been with IMMANUEL in some planet, in some form or other, since this Solar System began to manifest, in order that you might be here at this particular time of crises to serve when you were needed. You are very, very precious to Me. You have seen a mother look at a little child with such love, understanding and perhaps even with awe in her eyes when a little child was so unselfish as to give its belongings to another, for this is unusual in children. You have given up the

freedom, the joy of the Realms of Light, your skills and your abilities in order that you might serve as you are doing now.

Some of you have come here tonight who are tired, exhausted from your day's work, or feeling a little ill. We hope that when you leave you will feel refreshed for your service here. We promised you that gradually, as you are faithful and as you progress, your bodies will become stronger, will become more healthy, will serve you as Messengers of Light need to be served. Understand that each one of you including your channel are undergoing bodily adjustments. Pains will come to you. There will be the adjustments in the head. These must come to all channels, for only as these adjustments are made and the walls or the dampers are removed, can you serve with the fullness of the mission for which you are called.

Be not dismayed by any of this. Endure it for it will pass (unless you find yourself suddenly brought up with a great and strong expression of seeming difficulty that you recognize as being serious and needing medical attention). Call upon your own forces. Ask for their help. Tell them your problems, and then just forget it. Move about in your day's work the best that you can. Be patient with yourself. Be willing to be re-moulded. Be willing to endure, knowing that you serve GOD in such a broad and wonderful way that even you will not understand what you have done until you leave the Earth vibration and can look back upon yourself as you were there.

I say again and again, I love you, my children. I honor and respect you for your sacrifices and for your humble willingness to serve. Sing; rejoice for your mission is glorious. As you do so the hours will pass quickly and you will find yourself free from whatever it is that has been disturbing you.

Now I shall retire that the Star ANTARES may speak to you. 1/5/63

CONFUSION RESOLVES INTO WISDOM

ANTARES: Beloved children of Light, brother and sister suns with me, for you too are suns giving forth the Christ Light on the level of spirituality which makes it invisible to all but those who have full clairvoyance. Nevertheless, you are suns; you are yourself radiant stars giving forth the Christ Light. It is such a joy to me to be able to touch each one of you, to enfold you in the Love which the FATHER-MOTHER MOST HIGH pours through me to you.

Often in your spiritual discussions you have thought that the color red was not a very high color. I believe I have heard such expressions in various circles. People had desired to see blues, gold or lavenders in the aura as evidence of high spirituality. GOD is vigorous Light. GOD expresses Himself in the color red. The blood of Christ is red in your plane. Would you say that this was not a spiritual matter? Were all of the things that Jesus said about His blood low in vibration?

You see, there has been much confusion and much of the human self that has poured through into man's minds. We have been trying to point this out to many of you who are serving as channels or preparing to be channels, that

man's thinking colors the way he expresses what we say. It is hard to bring through most channels words that they have never heard. It can be done, but it requires a great deal more effort. We have to study the channel's mind and find in the channel's vocabulary or experience the extent of that one's knowledge. We can then bring through what the channel accepts, but it is hard to bring through that which the channel does not readily believe. It can be done, but it requires a great deal of energy, and is hard on the channel. For this reason, we try to temper our lesson to what you are able to take in. We will send you to books in which you will find something that will start your mind in the train of thought that we would like to discuss with you. Sometimes if we cannot find the book, when you are reading we will slide a sentence into that reading so that you will think you read that thought in the book. This can be done quite easily when you are in the state of receptivity in which you usually are when you read a spiritual book that you like.

In the past when people were learning to read auras, they found colors charted in certain books that describe the reds as not so spiritual. Those who are angry or lustful often have red mixed with black or brown or with a green that gives it an ugly look. But the true red of GOD'S Life is translucent, a rose-crimson red, such as when you might see the light of the sun pouring through the petals of a red rose. Red is a very necessary component of all Spiritual Light. The pure white Light of the Christ Consciousness, when broken into parts, contains a red as beautiful and as highly spiritual as any blues, violets or gold. Red is a value for one type of spiritual thing while blue or violet may be for another. When Jesus came He often wore a red robe over his long white garment. He has shown himself to Master after Master wearing this red robe. So much has He shown this red that the great Catholic Church which was the only Christian Church on your planet for so many hundreds of years, dresses some of its high church men, its Cardinals, in this same beautiful red. This is a symbol of the spirituality of Jesus, of His willingness to give His very life to you and for you.

You have been told that in the star progressions we begin on the blue and the lavender side and progress through the white, the yellow, the orange and then finally come to the red. You have been told that orange-red, or orange may denote greater wisdom. No matter how old a star may be in its present incarnation, if it is a young star it has not yet attained the wisdom of a Star like BETELGEUSE. You remember, you can tell the age of some stars by their size.

One thing SOLOGO did not tell you about me is that I have a Companion Star. The two of us circle around a common center. This Companion Star is younger in this expression than I. Heshe is of a greenish light, changing from blue toward yellow. The green, you see, would come in between the blue and the yellow. I am drawing this Companion Star closer to me. Heshe is drawing me closer to Himer. Later on as the ages upon ages go by we will combine as the center of a Constellation, but not yet, not for many experiences as

Stars.

I would like to tell you a little about myself as a Star. I am at that point where I am learning to pour out the rose-red light of GOD'S Love, for Love is Life and Life is Love. GOD is all the life you have, and yet you have been told that GOD is Love. Therefore, Life is Love and Love is Life. If there were no love expressed in your being, then there would be no being, for love is the magnetism that holds all together. Love is the magnetic current, the magnetic field. It is the Love of the Christ Earth which holds the Moon in rotation around it. Love of GOD expressed in the Moon draws the water and makes the tides in your particular planetary expression.

Do not fear to wear red. It is a clear, beautiful color. Muddy reds, blackish reds, will not be so helpful to you; but the clear rose-reds which have the spiritual influence will bring you vigor. If you are very tired and you have an active job for the day, it will help you to put on that color, either in costume jewelry on the hand where you can look at it, or in carrying a handkerchief or notebook, or something that presents that color to your eyes. Some of you have not desired the red. For the women, red is extremely important, for the red has within it the masculine strength. Mary, you remember, wore blue, and Jesus, the red. They come to you in those colors. You, then, might need the reds when you need the masculine strength for activity; and you would need the blue when you were feeling the gentle, sweet mother expression, the quiet, peaceful calm necessary for meditation or healing.

I meant to speak a little more of Myself. I am studying at this stage, particularly, to send forth this invigorating Love which is Life to all it penetrates. I am centered in that Sign of the Zodiac which for you through the ages has been experimentally and scientifically proven by esoteric scientists to have to do particularly with regeneration, rebuilding and rebirth. I have come to that stage in my expression where it is necessary for Me too, to pass out of the old misconceptions, for even a being evolved to my level may have those. Yes, my dears, this need for the power of discrimination follows us through to every level.

Be not dismayed if your teachers leave you in confusion for some time, for only by your mulling a thing over, twisting it, turning it, studying it, wondering about it, saying, "Why? Why?" and feeling mixed up, will you finally fully be persuaded of the truth when you find it. When you really make your decision as to what is right after such a time of confusion, then you will stand in strength on that decision. If, as teachers, we tell you too definitely then later on you may decide something else and then you will say, "They told me the wrong thing." If you work at it and work at it and work at it until by your desire and your studious attempts you bring through your own experience from your sub-conscious into your conscious mind and stand upon that, then you will have faith in it. It will become one of the foundation stones of your existence.

Your confusions, which seem to you so troublesome, are colored by your emotions. You are like little ones lost in a forest in the mist and you know not

which way to turn; but if you will just be patient, have faith in GOD and never lose touch with the HIGHEST OF THE HIGH, then the sunshine of wisdom will melt the mist in time. When you are really ready, you will come out through that mist and find yourself in the bright light of day.

This is the true re-birth and regeneration. It would be impossible to know what to throw away and what to keep if you did not study it for some time. If you were not a little confused, if you did not think, "Well, now, this has to be wrong; or is it wrong? Which is right?" and finally weighing them, coming back to your fundamentals, and matching them with what you already have proven until gradually you yourself make your choice, you would not be absolutely certain. Yes, my dears, make your own choice, but make it in contact with your higher self.

Be patient during these times of confusion. Do not give up; do not be discouraged; do not feel hurt. Just write it all off to that day's lesson and tomorrow turn over a new page. Oh, you remember the times when you worked a problem, didn't get the answer, and wadded that paper up and threw it away! You didn't hang on to that paper and say, "Now, why did that pencil betray me; why did I do this thing? Why did I do that thing? Why didn't the paper just tell me the truth?" No, you threw the whole experience away and started over again. You must go back to the fundamentals; you must dig deeper into what you have already been told to do, and finally you will come to the answer that satisfies you.

The Constellation Scorpio sometimes is called the Sign of death, but it is only the death of the useless, the death of the mistake, the death of that piece of paper that you had decided was all mixed up and you wanted to throw it away. Furthermore, it is the re-birth, the coming to the fore of that which you are sure is right. In all this, my dears, cut down to fundamentals; cut out that which hides the bare essentials. Find the skeleton truth first and then you can build upon it the beauty of the true decorations.

I am very happy to have had the opportunity to speak, not only to this group in meditation tonight, but to all those who read your messages in the SOLOGRAPH or who will be reading them in the future. To all I say, I, the Spiritual Being, the Higher Self of that Solar System which to you is expressed by the red Star in the Constellation of Scorpio, am part of the Consciousness of GOD as you are. We are one in that same Consciousness, and therefore can always be in touch with each other. May GOD bless each one of you with the fullness of the Love that is Life, and the Life that is Love. SOLOGA! May we Love man in the Christ Love together!

TROUBLE SPOTS

IXUTEL: At the present time there are, as you know, the two main trouble spots with regard to border wars, to actual fighting. There is the trouble south of China in Viet Nam and Laos, and there is the trouble in the Congo. For the next year you will always want to be sending Love and Light to the

Latin-American countries for they have ahead of them a severe struggle to throw off the Communist infiltration. This should be a permanent assignment.

While Castro's teeth have been largely pulled, neither Castro nor the Kremlin will lose any possibility to advance in any way that they can. The recent crisis with Cuba has alerted all South American countries. The broadcast of the returning prisoners to your city has gone throughout South America. They have seen for themselves the effect of the Communists upon a nation, and they are now more awake than they have ever been before. Beside these three trouble spots, your main concern at the present is the stormy weather in the northern hemisphere. If you will observe the southern hemisphere on a map, you will see that there is very little land that reaches so far away from the equator in the southern hemisphere since large northern parts of the continents all lie in the northern hemisphere. For this reason, winter means much more in the northern hemisphere. Great storms are in progress in Europe and in Asia at the moment. Watch your peaks given you in your present SOL-OGHRAPH 10. While they may not tally exactly with the actual coming of the expression of the storm, they forecast psychic storms in the Earth's magnetic field; therefore, we have given these particular dates. May I warn all persons everywhere that as the Spring comes on, all of the heavy snows in melting will bring great floods. The Himalaya Mountains and Tibet are receiving exceptionally heavy snows. This will mean heavy floods in India. There will be floods in your own country and in Europe. Let us warn those who live on the banks of great rivers to be prepared for such floods this Spring and to protect their lives and their property, for the snowfall this Winter will be unusually deep.

PRA YER PEAKS FOR MAY

IXUTEL: As the long winter ends in China there will be renewed efforts along her borders to overrun the rich agricultural lands to the south. China needs food and room for her teeming millions, but her present leaders are rooted in the heritage of the War Lords and desire power and dominion more than they desire prosperity for their people. The Chinese way of thinking is the result of centuries of customs based on pride and the importance of saving face. So many millions have died from war and starvation that the life of the poor is held to be expendable. Hordes may be eliminated without any sense of loss to the whole.

Russia has been able to hold the leaders in check by promising them industrialization and atomic development. Unless the aggressive character of the leadership can be changed and the leaders be made to see that the world will unite against them there will be a very serious crisis when they finally succeed in making atomic bombs. Until that time the Chinese Communists will take whatever they can by force or by infiltration. Only the mighty Power of the GOD-Light can hold them back.

Already the tremendous pressure of their numbers and determination is

being felt like a spring flood pounding at all dikes and dams in its way. All groups of Light must bestir themselves to build a wall of protection along the borders of China and to speak the Word of Truth and Power to the Chinese leaders and to the people themselves.

All countries to the south of China are in danger. This region is so far removed from the western world and so vast. While the eyes of nations are focused on one point of conflict the build up of propaganda and infiltration proceeds in other areas. That Power which is able to cement fault lines, divert hurricanes and calm tidal waves must be brought to bear with great strength and persistence upon this situation.

The battle for Latin America is now disclosed. Castro's Cuba has awakened all thinking citizens to the great danger to their own freedom. They are like a people who have swallowed unwholesome food and are suffering from indigestion. There will be years of tension during which the tide of freedom will be buffeted by many attempts to stop its flow. All Messengers of Light should project daily to the western hemisphere to strengthen the will of the people to be alert to the danger from within and to resist the hidden enemies which would destroy their independence.

Aggressors usually cause their own downfall by spreading themselves too thin. They seem to succeed for a time; then the indomitable desire for freedom reasserts itself and the oppressor is overthrown.

Thousands of Messengers of Light are incarnated all over the Earth at this time for the purpose of helping man to find his way through the difficult days still ahead. Much has already been accomplished. The planet itself is adjusting to the new vibrations with less disturbance than at first seemed possible. Man who is an integral part of the planet has also responded more widely than you are aware. The work done in projecting Love, Light, Harmony, Peace, and Brotherhood has been most successful. Many great catastrophes have been averted, but there is still much to be done. Our emphasis turns now to the climate of man's thinking, to his political and spiritual progress.

All governments and all leaders should be held in the Light constantly. Man himself must work out the solution to his problems and his needs, but he must also be sustained by Spiritual Light during his time of discarding the old and evolving the new. The great need is for enlightenment and receptivity to the guidance of the Eternal Will to Good which can never be thwarted or destroyed.

Light is flowing more freely through all focal points and instruments and the unity of effort sustained by so many groups and separate individuals throughout the planet is steadily growing in efficiency. The Golden Light of LIOLIA is taking greater hold upon all units of form and consciousness and is gradually bringing about the enlargement of understanding which is essential to the coming progress of the New Age. Together we move ever onward eternally.

GOLDEN LIGHT PERMEATES THE EARTH! ALLELUIA!

EVER ONWARD ETERNALLY

EONEE-EONEEA: Blessed Little Ones, being within my Being, little suns within your Sun and within all Higher Beings of which your Solar System is a part, I give you all of the Love which the MOST HIGH GOD pours through me to you. We are all on the Path of Light moving ever onward eternally. From the time that the spark comes out from the Mind of GOD where Consciousness multiplies Itself in individuation due to the meditation of the ALL-FATHER-MOTHER in creativity it is destined to follow the Path ever onward eternally. Sometimes this path seems to be a spiral. Sometimes we seem to have to slide down before we can climb up again, for there appear to be valleys as well as mountain tops ahead of us. However, no one looking at the Light over the Ages could doubt that the Path goes ever onward eternally. Of this you may be sure. No matter what your sense of frustration or defeat today or this year, or this life, nevertheless you are marching forward ever onward eternally. For this reason I have given you my name as EONEE, E from ever, ON from onward, and EE from eternally, to enlarge your present prospect.

Perhaps you will wonder why I am speaking to you on Palm Sunday. This is the day when that man who most represented the highest that man can achieve was called a king. He was given the honors of a king by a small but very earnest and loving group of people who recognized his divinity. Their shouts of hosanna, their joyous praise, the flowers, the palm branches, and the garments that they strewed in his path were the height of his Earthly glory. At that time they were presenting to man Jesus' right place among men. This symbol did not spread very far just then, but it was very definite and is as fitting and accurate today as when it was first enacted. He is indeed one of the most highly advanced Beings of all who have been sent to Earth to incarnate as men and women. He is your Wayshower, your World-Savior, your King of Kings and Lord of Lords.

Often whole nations have bowed before their king and called him "My Lord", but Jesus is King of all Kings and Lord of all Earthly Lords. To him the people rightfully sang, "Hosanna to the King of Israel!" Israel means those who are traveling the Path of Light, who are seeking attunement with the GOD of all that "is real", of those who are letting the Light shine forth from within, from the GOD-Self, from THE ONE SELF of you and me, EONEE-EONEEA who am both masculine and feminine aspects joined in one as the perfect androgyne able to create and to give forth the Light, able to meditate and bring into being by precipitating the substance of the Omniverse but still conscious of my need to go ever onward eternally.

My FATHER-MOTHER, LIOLIA, the Golden FATHER-MOTHER of this Golden Galaxy, showers the Loving Light of purity and perfection upon you through me, upon your IMMANUEL (GOD-with-us in your Solar System), upon your Jesus-Mary your Wayshower, and upon all who follow that Wayshower. You have seen a picture painted of Jesus at the head of a large multitude of people. His shoulders are thrown back, his eyes are alight, his face expectant and he is marching forward with a swinging step. In the background the people are shadowed and indistinct for they do not have the understanding that he has. Still, they are following; yes, they are following in the way that he leads. Some may stumble; some may wander aside for a moment, but they hear the happy shouting and singing, the hosannas and the allelulias and they hurry on. Some may trip over a stone or fall into some mud, hesitate, try to cleanse themselves, to get back on the path, to hurry and catch up. Jesus sends his loving friends and helpers to guide them back into the Way.

When we enlarge our consciousness we perceive that going ahead of Jesus-Mary and the World Saviors of every planet are the planets themselves. For you this is the Christ Earth, the Being of Light which ensouls your planet and in whom you live and move and have your being. Leading the Christ Earth and the other planets you will perceive the Christed One who is your Spiritual Sun, IMMANUEL-IMMANUELA, so beautiful, so warm and loving, ever striving onward, ever going upward eternally carrying you with him for in him you, Jesus-Mary, the Christ Earth and all the planets of hiser System live and move and have their being.

Just as within you there are centers of Light and Consciousness, so within me there are Solar Systems which are my centers. IMMANUEL is one of these centers; Alpha Centauri is another; Sologo, the Star Sirius which is so helpful to you is still another. Their whole Systems and nine others which I shall not now name to you are parts of my consciousness and my being, and yet in turn I am but a part of the consciousness of LIOLIA. Again and again and again we try to make clear to you the ever-expanding circles of consciousness; the atom, the cell, the organ, the body, the planet, the solar system, the constellation, the galaxy and on beyond other forms of which you have not yet heard. Expanding consciousness is the open door to the New Age through which man will move ever onward eternally.

That ever-onward is a slow gradual process ever upward as well as onward. I am giving you My name to chant because the syllables, E-O-NEE, are especially beneficial in the opening of your inner senses. All through the ages of man's life on Earth there have been those who came into the physical life with their telephone lines open; but so many have come with all the wires cut as far as their conscious self was concerned. In reality they were always guided; they were always led. The ONE SELF, GOD, was always living their life and acting them no matter what the condition, the problem or the state of culture or evolution. The ALLNESS OF THE ALL which includes all of these and so much more extracts from each experience the full essence of good

stored in the moment.

The ALLNESS OF THE ALL is a unity of an infinite variety of unities, a completeness which includes all there is, a wholeness which is so utterly perfect, so utterly sound in its fundamental law and harmony that we must call it the WHOLENESS OF THE WHOLE and therefore the HOLIEST OF THE HOLY, the ONENESS OF THE ONE, that ONE which includes all differentiations.

Thousands of names have been given for this ONE, but all refer to the same Consciousness, the Eternal Giver of Good, the Eternal Lover of all there is, the Eternal Life expressed in every organization and every form, in every process and every function, in every thought formed and unformed. It matters not what your religion is or your language; when you speak of the that which is the Highest which you can conceive you are all speaking of the same ONE.

You use the word "GOD". Do not be afraid of this word. Do not hide it. It is the most common experience of all people everywhere. GOD is all there is of you. Do you want to hide yourself? But you do hide your love of GOD, your worship of GOD. You feel embarrassed to talk about these matters with others. You fear that they will not understand, that they may make fun of you, that they may feel that they are very sophisticated and that you cannot really talk with them if you let them know that you Love GOD. This is the age in which the Golden Perfection of the perfect man in utter attunement with GOD must reveal itself. How can you attune yourself to GOD if you cannot use that word in talking to others? No matter what name you give to the HIGHEST OF THE HIGH you must discuss man's at-one-ment in order that others may learn the way to at-one-ment.

There are some of you who have been meditating every day, perhaps for many years. You may have a special way in which you begin. You may start out, "Beloved FATHER-MOTHER GOD," and the moment you say those words begin to feel the Presence all through your being. It is felt more keenly in the higher levels of the self even though you are praying on the physical level. There are those who have found such satisfaction and delight in this experience of the Presence that they have wanted to withdraw from people or from anything that could ever disturb them so that they could maintain this high level of awareness from morning until night. The dear ones who followed Jesus into Jerusalem wanted to stay with him and never leave him. Earlier in his ministry there had been 5000 who stayed with him for three days and didn't want to go home even then. They would gladly have remained in the warmth of his Love and the radiance of his Light and Glory had it been possible; but had they done so how could the rest of the world have heard his Word?

All of us must have our mountain tops of meditation and Spiritual Light, then all of us must go out into our environment and help others attain that which we have enjoyed. I am speaking to you today in such an office. As EONEE-EONEEA, the Spiritual Center of your Constellation I have come to you to tell you that as you do progress ever onward eternally the way grows

brighter, your sense of Love in the Presence of GOD grows stronger, your own radiance and glowing Light clearer, your understanding of all the hidden meanings more precious, more vivid and more productive.

I say to you, "Come, my friends, beloved little suns in the plane of physical manifestation! Come and join with me in meditation, in prayer, in holy conversation with the HIGHEST OF THE HIGH. Esoteric schools in your language have called it "the Knowledge and Conversation of the Holy Guardian Angel." And yet who is that Guardian Angel? GOD, THE MOST HIGH FATHER-MOTHER is ALL. HESHE is therefore the individuality of each Angel.

Within the One Consciousness, the One Mind, within the Thought of the One Thinker there is an infinite variety, an infinite multiplicity of individuations. From one individuation you may transvolve into another. Within yourself you may transmute the being that you are into a being of a higher, finer quality. As long as you remain in a physical body you are on one level of being; when you have accepted from this experience on this level and in the planes around the Earth all the love, all the understanding, all the growth that you can possibly acquire here, then you will be ready to transvolve into another form. Planets transvolve from highly evolved beings such as Jesus-Mary, your Wayshower.

For months you have been hearing Jesus tell you that whatever he said he was, you are. He is Wayshower to you. IMMANUEL is Wayshower to him. I EONEE, am Wayshower to IMMANUEL. The Golden LIOLIA is Wayshower to me and to others like me. You are Wayshower to that which is within you and around you. Just as Jesus took his little lambs within himself, enlarged them and carried them into the Being and Consciousness of IMMANUEL, so you have within you tiny beings which you in the purity of your life and your thinking, in your joy and acceptance, will take with you on your journey ever upward if they will come with you. Some of them are not ready to go farther than you are now. Your trials, your testings, your pains, your disturbances drive out from you all that cannot endure to go on upward with you. Thus you are purified. You move ever onward eternally in a continuing recurrence of purifying, learning, cleansing, understanding then learning more, cleansing yourself again of that which does not harmonize and gaining more understanding. Always and always all are moving upward in their attunement to the HIGHEST OF THE HIGH.

I know that you are all too conscious of your own imperfections. I do not need to tell you that you have still a long way to go. I share this with you for I am conscious of the fact that even in the shining Glory that the FATHER-MOTHER GOD pours through me I too have a long way to go. My speaking to you through this human body may seem unreal to you, but to me it is just like sitting and thinking. Your thoughts seem to be within yourself, do they not? Once in awhile you try to send thoughts out and away from you but usually you think that your thoughts are you acting within yourself. In like manner I am

thinking you within me. Do you not know your thought thoroughly? In the same way I know you. You do not realize my existence until I make myself known which I hope to do more frequently in the future.

The real message of Palm Sunday is, "Ever onward eternally!" Jesus with the divine simplicity of the daisy in the field, riding a little donkey, the most humble of beasts of burden, with sweetness and love, wearing no crown or beautiful robes, displaying no riches or dazzling retinue moved slowly forward sending out his Loving Light to encompass everyone. He continually projected the invitation, "Come unto me and be comforted. Be at peace. Rest in me." He led them forward into the Holy City of Jerusalem which was the symbol of the New Jerusalem, the Home of Peace, the Bride of the MOST HIGH GOD, the Earth symbol of the sweetness, the joy, the wonder of going ever onward eternally in the blessed company of everyone who so desired to go.

Perfect attunement with the WHOLENESS OF THE WHOLE, with the ALLNESS OF THE ALL must still be sought until we have enlarged ourselves to the extent of the ALL. Until we can do this there is still more road to travel. The road begins within one's self. This is where the "telephone" is located. This is where the hearing ear, the seeing eye, the knowing heart, the Love and the Light are to be found. This is where the Still Small Voice will reach you. Listen within yourself to the MOST HIGH and know that as you do so you are being led by all who have gone on before you into a larger consciousness.

This attunement which you are seeking is the true meaning of your name, SOLOGA, attunement to the MOST HIGH GOD, to GOD the Alpha or beginning expressing Hiser Truth in Hiser Suns and Sons of Suns. SOLOGA means perfect attunement between you and the Source of all Truth. I say SOLOGA to you, beloved ones, for I would gather you in consciousness and have you know that you are within me, held in my heart in the thought of attunement with the ALMIGHTY GOD, in the thought of SOLOGA!

4/7/63

If we were way out in space looking back at our Solar System, we would see our sun as part of a group of stars or a constellation. We are not all off by ourselves; we belong with others. The Spiritual Center of our Constellation is more highly evolved than our Sun Center but less highly evolved than LIOLIA, the Spiritual Center of our Golden Galaxy. We were given the name EONEE at our first contact, but the meaning of the name was first given to Velma. She was standing on a corner waiting for a bus and quietly chanting the name EONEE as we had been told to do. On the vibration of this chanting the meaning, "Ever Onward Eternally" was put into her thoughts. The above message verifying her reception was given us the same week end.

EONEE has told us that we are to be introduced to some of the Brotherhood of Invisible Suns who are serving us as the Spiritual Centers of the constellations which are known as the Signs of our Zodiac. As the Sun enters each

Sign EONEE will introduce the powerful Being of Light ensouling it to tell us what quality or aspect of the self can be best strengthened then.

THE LONG VIEW OF A LITTLE MOMENT

MARY: speaking to you my brothers and sisters of Light in this meditation meeting of SOLOGA. If you could see me now, you would think that there were many of me. You would think it was like standing in a multiple mirror where you would see me reflected many times, for it is as though I as your sister knelt beside each one of you or sat at your knee with my arm over your knee and listened with you to the two great highly evolved Beings of Light who have just addressed us. Yes, we, who are in the aura of the Earth as expressions of humanity and yet as expressions of Spirit, do learn with you from these great Beings. No matter what we might have known in times past their vibrations are beneficial to all of us in the invisible realms who are meeting with you. They stir us and inspire us perhaps even more than they do you, for you, as you say, see through a glass darkly. Your senses are dulled; but to us, the full glory and radiance of these two marvelous Sun Beings, SOLOGO or SIRIUS in Hiser wonderful Golden Light and ANTARES in the rose-red are such a gorgeous display of the Light of GOD, such a marvelous Shining. Let your imagination run a little riot and think of these two beautiful Messengers of Light, such ancient, highly evolved Thoughts in the Mind of GOD that they are worthy to ensoul such beautiful Stars.

Oh, my dears! My dears! It is quite overwhelming that man now has opened his thinking so that he can accept even in a small number the thought that GOD lives in Spiritual Consciousness in stars, in solar systems, in galaxies, in the infinitude of space and of consciousness. My dears, our very souls themselves are enlarged as we contemplate such a magnificent, such a long process of evolvment all within the Mind of GOD. It is so wonderful to know this. It makes it so much easier to meet the little problems of the day. You know, on some of your walls there is a very smooth, shiny paint. When you rub your hand over it, it is silky and soft, but there may be some plaster next to it that is very rough. If you put your eyes and your nose very close to the plaster, it may seem like sandpaper, but if you step way back the roughness disappears and there is only the beauty for you to see. As we look from the long view at the little moment of Earth life, we realize how truly insignificant the little pains and the little problems are. My dears, they are only what you make of them.

Some of you have been hurt in the past. I have heard the conversations by those who have said, "Well, you wouldn't be sick if you were thinking rightly". There are some who have been afraid to go into some church meetings if they had a cough, for fear that some one might think they were not so good a Christian as they should be or they wouldn't have that cough. All of this, of course, is pure misunderstanding. Your problems are your opportunities; you must have them. No matter how perfectly you think, you must have the prob-

lems otherwise you could not grow. The problems come even to those who think they are thinking rightly. Strange as it may seem the very ones who may have looked down on you and embarrassed you or hurt you by their suggesting that your sickness was your own thought or your wrong thinking, have found that as years went by they too came upon some type of sickness that they could not cope with by themselves and by their thinking, or that no one seemed able to cure. Then they have been faced with the decision either to stand by what they have believed and done, or to accept the help offered them by some other source.

GOD works in many ways, my dears. GOD does not just say, "I will work on only one level of Light." Hesse works on any level of Light in which Hesse expresses Himself. If GOD expresses Himself in a plant, and that plant develops a plant desire to manifest a certain characteristic which man discovers is beneficial to his life, why should he not accept it from the plant? Is not GOD expressing Himself in that very benefit to man? It is just as spiritual to accept the help of the plant as it is to accept the help of the invisible world. Oh yes indeed, GOD'S ways for helping man are infinite because GOD is infinite! Whenever something is suggested to you as the right and only thing to do, you have to make a choice; you have to make up your mind, and that is your examination paper for that problem.

Many times, however, we do hold ourselves back by finding these rough places really much worse than they are. We endure and endure and endure, and sometimes we think we have just had enough of this. We come to a sort of breaking point nervously; then we begin to demand something to help us. This is GOD'S way of showing us His way out. GOD is living your life. For your highest good Hesse is maturing you through many experiences. One of these experiences is to learn to bring proper light, harmony and balance into your physical being just where you are. If you eat too much of one thing, it is going to make you sick, isn't it? Too much of any good thing is not good, for then you disturb the balance.

My dears, when the little problems come, first of all, put them in the hands of GOD. Know that you have them for the sake of learning. Then ask yourself, "Now, what am I to learn out of this?" Do not think, "Oh dear, I hope I'm not going to have this, or it's not going to be that!" for you must not fear it. Instead calmly and with detachment, just as you might decide that something is wrong with a shoe and you must fix it - with that same detachment think of the body, place it in the hands of GOD, and ask for directions as to how to fix it. If they are not immediately forthcoming, that means that you must learn something through the duration of that problem, or from the recurrence of it when it is continually popping up in your life.

Remember life is consciousness, and you are supposed to use your good expression of the Divine Mind by thinking about these things. Do not think, "What have I done that is wicked that I must suffer thus?" Instead think, "Now the loving Father has given me this opportunity to learn something of value. It

must be very important and I must not miss this opportunity to learn." Then with your good mind think of the things you have been told to do or of what you might learn from such a problem and reason it out. Ask for help! Always we are willing to help, but we will stand back and let you have a chance to learn.

I was with you in the beginning while you were waiting for your meeting to open, when one of your number said that as a nurse on one case she used forgetfulness as a healing method. Her forgetfulness was to forget to help when her patient needed to try to help herself in order to be healed. We stand back in the same way in order not to smother you with our love. We let you work at the problem yourself. If it becomes too acute or seems to get out of hand and disturbs the mission or that which is important, then we try to move in and help you. Do not fear to ask for our help. In the meantime, while you wait upon GOD, use your own mind. Always remember to treat yourself with Light; always remember to call on your Healing Forces.

Do not be impatient. This is one of those mists of confusion which will vanish for you. Just keep on calling on us, on Maimonides and St. Anne who are especially assigned to your particular groups as healers, on St. Theresa who you know accompanies Jesus and me on so many of our healing missions, on all the other healers you know - Peter, John and Paul the Apostles, Zoser, St. Francis and Queen Xenobia of Palmyra - and on us. Call upon us when you need us. Call for Jesus, call for Mary, or call for Jesus-Mary. Call for all of us if your distress is great, and do not cease calling, for indeed, we will come when you need us.

Sometimes your dear teachers instill within you an odor so that they may direct you to what you need for your health. Again, they give you a sound which is important to you, or a color or a thought. Do you know it is possible for us even to give you a little pain to drive you to call upon us until you have formed a better contact and a better habit?

Do you think Jesus ever attempted to heal anyone without first establishing His contact with the Highest Spiritual Expressions that helped Him? He thought of GOD the Father. When he prayed to GOD the Father, he knew GOD would not fail him, but always there were two things in his mind: One, "Thy will be done," and another, "According to thy faith be it unto thee." These were the two qualifications which he accepted which could mean that he might be unsuccessful on the physical manifestation, the Will of GOD and the patient's unbelief. You have now added another, and that is the thought of the patient's karmic responsibilities and debts to be paid, all of which is really expressed in the idea of the Will of GOD.

My dears, the veil between your perfect healing and what you seem to be now, is so thin. You yourself can tear it apart and throw it away if only you will do what you really know to do more faithfully, more joyously, and with more expectancy of good not only for yourself, but for all those you would so much like to help.

Oh, I do love you, my dears, I am so happy to know something you do not know, and that is how closely you and I work together in the Realms of Spirit to serve mankind in so many situations and so many places. You are my helpers and I love you. I ask GOD'S richest blessings upon each one and I pray that you may open your thought, stiffen your resolve, try a little harder, and discover for yourself your own great development in healing not only for yourself, but also for others. SOLOGA, my beloved co-workers in the Christ Consciousness! Together we know the Life of GOD to be perfectly expressed in each one.

A BLESSED SECRET

JESUS: My beloved sisters of Light, you who are my first expression of the Omniversal Church in this particular vibration, I whom you call Jesus of Nazareth will speak to you today. I claim this privilege. There are many who would have rejoiced to speak with you, but I claim the right since at this time all men's hearts are open to me. Does it not seem strange to you that although in city after city there are many buildings dedicated with my name, dedicated for the service of Christianity, of Jesus the Christ, yet in not one of those is it ever said that I, Jesus, speak directly to you, my beloved ones of Light?

This is a new day for man on Earth. There are but a few of you on this historic Christmas, seven to be exact - a very important number, seven - seven here on the first Christmas in the first Church where I have been permitted to give the Christmas sermon. May GOD bless you in your receptivity. May He bless you in your spiritual perception. May He bless you in your willingness to listen and to receive.

You have been told that this is the age of women. You know that Mary came to you early in your experience as a group. You know you were told that for some time women would be those who would receive this new message of LIOLIA with greater love and greater devotion than men. You have had it explained that this is so because of the vibration of Light which is used in preparing the feminine vehicle, and that this vibration can receive the Light of LIO-LIA in greater sympathy. It is for you whose bodies are attuned to receive this Light to give it forth.

Seven golden candlesticks, seven spirits before the throne, seven precious stars in the sky of the New Age! Thank you for being these seven stars within my hand. In Revelations it speaks of the fact that one like the Son of GOD walked among the seven candlesticks and held the seven stars within his hand. This does not mean of course, that there are not many blessed people living upon the Earth, many receiving and serving where they have been called, and yet you are here. You are here and in time to come this will be a precious memory. These are days of preparation for your group and all groups. This is a time of weaving together the bands of Light among you, and forming a strong foundation. There must be the strengthening of the body, the opening

of the will, the development of the faculties, the detachment of the emotions, the full giving and understanding of self, before you can welcome into your midst very large numbers.

As I, Jesus, walked the roads of Galilee and Judea thousands thronged about me. The early Church was soon beset with controversies, people who thought this and that. Perhaps the most valuable servant to the early Church was Paul, who went here and there as a missionary, and yet he was not able to open his heart to women in the Church. So much were the people of that time overcome by their prejudices, their habits and their traditions. Those of you who are here have shown your ability to leave the old or you would not be here. This is extremely important. We have been bringing in new things gradually, very gently. Some of you left the old orthodox churches for churches that were just a little freer, and now you are here in the air of perfect religious and devotional freedom. Light can flow into you without restraint.

In this group which we are organizing, and through which we hope to accomplish so much, it is our desire that no one ask anyone else what he believes or what he does not believe, or that anyone impose his ideas or his beliefs upon another. Let each one bless each other and say "That which you think now is GOD to you and right for you. That is your way. Live it, and may GOD bless you in it." Let there be in this group no attempt to hold anyone. Let there be no attempt to force anyone, to cajole anyone, to keep nagging at anyone. Let people be free to come of their own choice, because they feel the touch of the Heavenly Father and are led here. Those of you who have come so faithfully must not be impatient for the way ahead is long. The Light will never dim; it will grow and grow.

You are now at the first faint dawn, the first streams of Light are coming to you. What is this new Light? It is the understanding, the realization of the seed thoughts that I gave to man two thousand years ago. All of it is based on the words: "GOD so Loves that He gives," "I and my Father are One," and "I in you and you in Me, and we together one in the Father." All of this you will find in the gospels as you know them, but all of this has been misinterpreted and misunderstood; and now, my sisters, in love and in joy I say to you: The day is coming; the day is breaking. It breaks for you to the extent that you absorb these thoughts and live them. To the extent that in your everyday life you see every act, every thought, every desire, every impulse, every bit of pressure as GOD working to bring about His purpose. Then you do not worry, you do not fret. You take each day as it comes. You wait upon GOD; and my sisters, I wait with you. In the heart of some of you there is a touch of sadness that beloved ones could not be with you here today; but they are with you in spirit and truth, for while the physical individual may be in some other place, the higher spiritual Christ Self is one with the Church of the MOST HIGH GOD, Omniversal throughout the ALL CONSCIOUSNESS OF THE ALL.

I would not speak long to you today. I would say to you, lift up your hearts in joy. You have a secret, a blessed secret that GOD IS ALL, not

understood by many, not fully understood by you, sad to say not fully understood by myself or by the great Sun Beings that ensoul the Galaxy, for if we fully understood it then we would be truly matured to complete oneness with the WHOLE. There is but one sunlight shining upon a plant. This is the symbol of the one truth that is fundamental, that GOD is all there is of you, all there is of me, all there is in any activity or any presence here or anywhere. No matter what seems to happen to you, what other people may say to you or seem to do to you, fly to that rock of sure knowledge that GOD is all there is, and know that GOD is Love; therefore you cannot really be hurt by anyone or anything. Treasure this secret. Treasure the joy of companionship. You walk with angels. You walk with Suns, Sons of GOD and Beings of Light. You walk in the Light of the MOST HIGH GOD, always surrounded, always filled with pure Light. See only this, beloved children at the feet of GOD. See only Love and Light and this will be all that you can hear or experience. If anything else comes into your consciousness, it will be your growing pains, your pains of growing a little more in at-one-ment with GOD.

GOD bless you at this Christmas time. Let the joy of the birth of the Expansion of Consciousness which is yours fill every atom of your being. Last night there was one of your group who saw two mangers, two Christ Childs, two Angels or Beings of Light. Today I see seven. Within each one of you the Christ Consciousness is being born in its fullness. GOD bless you in your quest, for this indeed is the holy cup of Living Water which I offer to you to drink at the fountain of knowledge that GOD IS ALL. GOD is all of you. Enlarge your consciousness. You in the manger are being born in a concept of oneness with the Christ throughout the Omniverse. I am called Christ Jesus, but I am but one small expression of the great infinite variety of individuality within the Mind of GOD, which is Son, Sun or Christ - Christ Consciousness, Sun Consciousness, Sons of GOD and heirs to all of Hiser domain.

Our Father, our Mother, oh FATHER-MOTHER-SON-GOD, Three-in-One, and One-in-All, we lift these dear ones to Thee. Precious pearls of Thy Light! Early fruit on the tree of the New Age! What Thou hast given is holy in our sight. We know Thou dost protect and keep them in the hollow of Thy Hand. We pray that these seeds of Thy eternal Infinitude and Oneness may never be stolen from the good ground of their heart, but that they may bring forth fruit an hundred-fold, yea, a thousand-fold in this field of the Earth. This we ask in Thy name, of MOST HOLY and MOST HIGH! Amen.

Now may I, as you sit in peace and in quiet, call down upon you the Healing Light of the Omniverse. As you sit there in peace with eyes closed, bodies relaxed and hearts opened to receive, know the Golden Healing Light of the Central Sun of this Galaxy, our blessed FATHER-MOTHER LIOLIA, pouring into your bodies whether they seem to be young or old, healthy or tired. This Light of LIOLIA is touching every atom and stimulating it into new joy, new peace, new understanding, closer attunement with GOD, the ALLNESS OF THE ALL. According to your faith, according to your understanding and your will-

ingness to receive be ye healed. Amen.

IMMANUEL-IMMANUELA: Beloved children of Light, messengers from the stars, filled with my Light and shedding it to all around you, I, your Solar Logus, the Spiritual Center of this Solar System IMMANUEL-IMMANUELA, am so grateful to be able to address you this evening. I bring you the warm love of the whole Solar System. I myself have been growing even as you have. I have been realizing oneness with the WHOLE more strongly than ever before, even as you have. I have been drinking in with greater harmony and greater joy the fullness of the Golden Light of LIOLIA, our adored Spiritual Center of this Galaxy, our FATHER-MOTHER for the Galaxy. I have been attuning Myself to the HIGHEST OF THE HIGH even as you have, for that which I do, I lead you to do with me. If you say, "Oh I would like to walk down by the Bay," this is your thought for all of you. Do you not share that activity with every atom in your body? Do you not take the whole body down by the Bay and enjoy the water and its benefits? You do not leave a part of you behind, do you? Therefore, as I come close to the MOST HIGH GOD in my meditations, and as the whole System which is my body is blessed and elevated, so I take you with me, you and all manifestations of life within the whole System.

I have not spoken to you for some time for you have been filled with the great privilege of learning about the highly evolved Spiritual Beings who are my brothers as Spiritual Centers of Solar Systems. You have been particularly served during this time by the great star Sirius, SOLOGO as you know Himer, who is a godfather or uncle or big brother to me, IMMANUEL. I will tell you that every star that you see in the sky affects you and me. There is no Light that reaches you that does not have its little contribution to give you. Every little breeze that comes by and touches you gives you its bit of cooling pleasure. Every little bird that flashes in the sun, soaring and dipping over the water shares its joy with you. Everything about you contributes to your health if you will permit it. The Earth upon which you walk, the trees over your head, all of nature about you sends forth its stimulation, its vibration of Love and good to help you in your balancing of the physical manifestation which you now are.

Every star in the sky whose light you perceive and many whose light you are not aware of because they are so highly evolved that they are invisible, or because they are in the antiverses or interverses or are of the dark varieties - all of these influence you, touch you, contribute to your welfare; but these Twelve who have been introduced to you are the main ones who have been appointed to assist you in keeping the balance within our Solar System. Those of you who have been with the group for some time have been told what stars you represent. A star does not make itself known to a messenger of Light until that messenger is fully ready. If you who have not yet been told of what star you are the special messenger will persevere in your attendance and in your contact with the group, later when your body and your thoughts are ready this information can be given you according to the permission of your own higher

self.

I have come to tell you that ahead of us in this coming year there is a period of tremendous revelation and growth. You know as I have told you before that I am the Spiritual Center of our Solar System. I come always with a spiritual promise and a spiritual message. Some of you have been told that an iceberg displays only a very small amount of itself above the water, that the large part of it is concealed below the surface. You who are sitting here in the group in physical bodies are only a very small part of the real self of you. Mostly you are a spiritual being which is using that which operates according to your own thinking in the daytime as yourself, using that as a vehicle for the broadcast of Light and as a tool or an instrument to accomplish certain important work assigned to it.

Up until the present, man has been greatly occupied with just proving that there was life after death. Many of the groups who meet week in and week out are still trying to prove this fact which you have so fully accepted. There have been those who have spent years proving that space ships were real. Others have been able to accept this so quickly that they have been a little bothered with the constant recitation of sightings for they have said, "We know that; we know they are real; we know they are there. Tell us something more interesting." The last hundred years in your planet have been given to bringing through actual demonstrations of the power of spirit and its effect upon the physical manifestation; but with the coming of the great outpouring of the Light of the Spiritual Center of the Galaxy when you moved into the New Arc of Consciousness on February 2, 1962, thought has taken a little different turn. You are now turning away from just proving after-life and are exploring the way in which people manifest when they no longer have physical bodies. You are now turning to understanding how you yourself operate in the higher levels and how you yourself may contact yourself on those levels.

You may think, "Well surely IMMANUEL-IMMANUELA is the highest Spiritual Self of the Solar System!" My dears, you have been told that GOD is the Highest Self of all. Between me as I am and that GOD-Self there are other expressions of me, so that I may rise higher in my meditations than that in which I manifest to you now as the Spiritual Center of this Solar System, and may join LIOLIA, my blessed FATHER-MOTHER in whom I live and move and have my being, even as your channel joined the Christ-Earth in meditation. I too can go still higher, for as you prayed this evening to the MOST HIGH OF ALL, so do I. I join you in your prayers and you in your hearts join me in mine.

I would recall to you a symbol which was printed in your SOLOGRAPH of how Jesus led a flock of sheep up a hill, how he drew them and your onlooker and observer into his own being, how he extended and enlarged himself, and himself entered that representation of me. This is the first step. Then I carry all of you in my meditations into the highest that I can reach. Yes, you may attain contact with LIOLIA directly and with the MOST HIGH GOD directly; or

you may join hands with me and together we may contact anyone to whom our thoughts reach.

Remember that during this year you are going to practice knowing that you are constantly in contact with the ALL CONSCIOUSNESS OF THE ALL, and that you have but to quiet yourself and desire to open the inner part of you to the ALL-CONSCIOUSNESS to make immediate contact. When a dear student of your channel was in her classes in public school, he wrote a little poem in which he said, "Before I can call upon GOD He answers me." So, before you can phrase your question, or before you can ever go through the motions of establishing your conscious awareness of contact with the ALL CONSCIOUSNESS OF THE ALL, you are already there and Heshe is already opening to you all of the infinite glory of the Omniverse.

Oh, my children, when will you believe this? When will you fully accept it? When will you seek your refreshment and your healing by your immediate contact with the Limitless Light, with the ALL-CONSCIOUSNESS OF THE OMNIVERSE, with the ALL-POWER OF THE OMNIPOTENT, with the ALL-KNOWING OF THE OMNISCIENT, with the complete and PERFECT ACTION OF THE OMNIFACIENT? Oh, my dears, it is just that you need to do this, to practice it. You would never learn to play this beloved organ in your midst if you simply sat and looked at it. You will have to climb upon that bench and use your fingers and your feet to establish your knowledge of it and your coordination in order to express yourself through it, but this of which I am telling you is infinitely easier. You have but to pray, to relax, to lift your thoughts, to accept and know that this is so, for it to be true for you right now.

In the past we have given you many little exercises. These were necessary in the years gone by. In the years to come as the result of your adjustment to the Light of LIOLIA you will find it much easier to open your inner senses. The hardest thing for you to do is to accept that they are opened, for you have been using them and thinking they were your own mental activity. You have yourself been in contact with the ALLNESS OF THE ALL every time you prayed, every time you sang a beautiful song of worship, or every time you spoke of GOD or of Hiser Messenger of Light, Jesus-Mary. You have but to ask and know that you receive the answer. It has been your own fear that you were fooling yourself, that you were imagining things which has kept you from progressing. You have but to accept and to try. Practice gives you control. One who has been driving one of your cars for many years does an easier job of it than one who has just begun. Is not this so? Then, the more you practice the more you will be able to achieve the joy of constant communion with all there is in the infinitude of the Omniverse.

I bring to you the symbol of a great platter as large as you can imagine full of rich gifts - jewels, fruits, fabrics, whatever your heart desires. All you have to do is to accept that this is so and partake of this in the spiritual world. I am not saying that you are to receive a shower of "pennies from

heaven" in the actual physical world. I am saying that all the gifts of the Omniverse spiritually are now yours to accept. They are mine to accept and I share them with you for I, the Spiritual Center of this Solar System, Messenger of Light and Son of GOD, in my Sunship named IMMANUEL (GOD with us), do share with you every good that is bestowed upon me. You have but to put aside from your thinking all of the little irritations, the little problems, the difficulties of Earth existence, for they are all illusions. Truly they are illusory for there is nothing in your experience but the pure Light of GOD unless you, yourself, see something else. Now this is hard for you to accept. You have the habit of being tired, of feeling overworked, of feeling hurt, or of taking upon yourself the distress of others. So many of these habits stand between you and the expression of the perfection of GOD who is your own Highest Self.

I know that I am putting before you a path that it will take the rest of your life to follow; and yet you can so easily travel this path if you will but join yourself in pleasure, in joy, in trust, in expectancy of good with the CONSCIOUSNESS of the ALLNESS OF THE ALL. This is what I too have been working at during this past year. I feel so much strengthened and so full of the Light of GOD that I am so eager to lift each one of you into the fullest which you can express at the moment.

I pray that the FATHER-MOTHER OF ALL, the HIGHEST OF THE HIGH, THE HOLY OF HOLIES, will give unto each one of you the vision of the Purity, the Light and the Perfection which is your true Highest Self, and that you will be led to seek to be at one with this High Self which is truly you. We bless you in both the masculine and the feminine aspects with all that we have to give forth. We give you our gratitude for supporting this message and sending it forth. We give you our gratitude for all the prayers, for all the Light broadcasting which you are doing, and we say you are truly one together and one with us. We Love you! SOLOGA, beloved messengers of Light, who express the Word of GOD in sonship where you are!

OUR HABITUAL REACTIONS BLOCK POWER

IXUTEL: Speaking to those who act as a Focus of Light. You remember that I have been assigned to this planet as a Scientist of Light to help you in your Broadcast of Power to those places in the Earth where it is needed. I am particularly a scientist in regard to the structure of Light as it expresses itself in the patterning of planets; but I have many other possible functions just as you have.

We, who are on the Other Side of Life from you and in the Realms of Light are aware of many past experiences and have at our command many possibilities of instruction and of work that we can do with you. One does not come to the point where he can serve as such a Scientist of Light without a full foundation. I would like to say that I, too, am strongly associated with the healing mission of this group, SOLOGA. I am also one whose power and strength is so great that if you call upon me I will be able to assist you in the physical lab-

or of your body, for I am able to change atomic structure in such a way that I can make loads lighter for you.

I have in mind a very slight, almost tiny woman who was given a very strong need to move a very heavy object at the time of an approaching hurricane. All the menfolk were busy somewhere else. This dear lady, without understanding what she was doing but calling upon GOD, brought to herself the power of the Angelic Forces. Her muscles one would say were quite unused; yet this dear lady was able to lift a heavy cement urn full of earth and its precious plants to the ground all by herself. When her menfolk returned and learned that she had done this thing, they simply could not believe it. Neither could she; but she knew that she did not do it alone. She knew that we from the Realms of Light had assisted her.

It is when you shut yourself off from the power that we have to give you that your physical labors become so hard for you and so tiring. There is no limit to the assistance that you can receive, but you block it out from yourself by thinking the thoughts that you have always had concerning it. You think "I cannot do all of this without it affecting my body. It has always done this to me so it will do it now." In this way you call back upon yourself all of your habitual reactions and forget that your body is completely changing as you come into this new Arc of Consciousness. You do not really accept and use these new ideas.

Remember that I am distinctly associated with this group and that you have every right to call upon me. There have been many times when I have come to you and have tried my best to give you my name and let you know I was there. There have been two or three of you who have been able to receive this, but others have been too concentrated upon the self. Try, my beloved ones, to get out of the way of yourself so that we may help you more for this is our mission. Just as you so yearn to do your work, so we yearn to do ours which can only be done through you with your cooperation.

Now you are well aware of the situation in the northern countries and of the terrible storms that are raging there. You are also aware that Light should be sent to Cuba, to the Congo, to Laos, to the Communist conference that is now in progress, and especially to the President of France who is by his own isolationism holding back a necessary step of unification there. I heard some of you speaking today of the fact that you were aware that the drive to unity and oneness was being felt much more in various quarters. This is going on all over the Earth. Many expressions of cooperation, of amalgamation, of joining together, will be found during this year; in business, in government and in groups of all kinds. Therefore, we want to send Light to this gentleman of France so that he may be with us in the thought of oneness. We still need to concentrate on the stormy conditions and all of those things which we have worked at together. We need to broadcast peace to the winds, the oceans and the magnetic currents.

Many things which other groups of Light are hoping for and wishing for

are not possible until the Earth itself is more adepted and more adjusted magnetically and electrically to the higher Light of LIOLIA. Many people who greatly desire a physical manifestation of Jesus and the landing of space ships will find that first they must enlarge themselves spiritually before these things can come to pass. Again and again they have had hopes for them, and again and again they have had to understand that the Earth is not quite ready because of the spiritual laggards. Let us send forth the Light to reach these laggards.

A GREAT INCREASE IN HEALING POWER

MARY BAKER EDDY: I know that some of you are going to be very surprised when you hear who I am. Maybe some of you have noticed a new picture on your organ. I am very happy that Ruth desired to move my picture from its little corner in hiding out to where you could all know that I am with you. I have been helping Ruth, your channel, for years and years. I first called to her fully twenty-five years ago. I actively went to work in her aura from that time on. I have never been far from her, although she has not known of my presence. I am Mary Baker Eddy.

I am so happy to have an opportunity to speak forth to the world. I am sending through the heart of this channel the great Love that GOD gave me to pour out into your plane of vibration. I am sending out through your focus of Light the healing power which was bestowed upon that group who served with me in my recent manifestation. I have much that I would like to say to you.

I am sure that many of you have heard of the wonderful healing mission of those who have read my writings. You have also heard of many who know that some of my writings were mis-interpreted, that my followers have set themselves on a path which I myself did not design. You have also heard that there was error expressed in the channeling which I did so unconsciously in those days. My dears, you may be sure that when a great new idea comes through, it is always with the help of hundreds of those who operate in the Realms of Light. Although I turned my back in my Earth life upon my Spiritualist brothers and sisters, I did not understand that this was for the purpose of my bringing through one phase of the opening for the New Age while they were to bring through another. You understand that in this city there is a Group of Light who has one mission while you have another. In other cities there are other groups with still other missions. Since I did not know these things, I thought that my mission was the one mission and that all must fall in line behind what I had to say. I was not alone in this for the dear ones of the Theosophists who were opened to new things through my sister, Madam Blavatsky, also felt that they had the one great key to heaven; and those who worked on the Spiritualist level felt that they had the inside track. The truth was that each one of us had a special facet of the new understanding to bring forth.

Many things have been said about me since I left that were unkind and

derogatory, but you may be sure that none of them have been more castigatin or more full of unhappiness than the way I felt when I first came over into the Realms of Light. At one time I made a very violent attempt to contact my followers through my Spiritualist brothers and sisters, just as one who has recently come across the veil has been contacting some of your groups. At that time I was full of my feeling of having made a mistake. Then as I moved on upward to the higher realm where I manifest rightly, as I laid aside the ties with the Earth manifestation and truly became my higher spiritual self, I realized the fact that my seeming separation from the others was a necessary safeguard so that the truth I had to give could be preserved. The healing mission and the Light which is to be found in my writings you are carrying forward and expanding in your messages without realizing it. All of this had to be protected; and therefore I was limited in my expression.

I came to your channel during this week in a private meeting with one of your members, and at that time I was able to break down certain barriers that have held your healing abilities in abeyance. With the full acceptance of me as part of your healing band, your channel suddenly came forward with more of the healing power which is truly yours as a group. I would like each one of you here in the group to lift his hands if you are in position to do so and to sense the palms and the fingers. Just turn your attention to those hands and see if you feel a very fine vibration, a tingling, a quivering or any sense of a strange sensation there, for with the acceptance of the healing power which I opened into the Earth through my teachings, this group has united itself in oneness with the tremendous healing power of all the forces of Light that minister unto the great wide-spread faith in the Christian Science movement.

This may be more than you will be able to understand, but as the year goes by, and as each one of you personally accept the fact that it is not just six, seven, eight, ten or twelve of you here in the physical who are working with the healing, but that there are tremendous forces of healing power channeling through when you work, you will permit more, you will have greater faith, and you will accept more. As you grow in this acceptance you will find that your healing is tremendously more successful. Put aside all uncertainty such as "I wonder if I have enough faith," for you yourselves do nothing; GOD is doing this. It is His faith, His will; I am just an instrument in His hands." Then go ahead with your full heart and do all that you can do.

There is one healing measure that I wish to recommend to you. It is not so much used and yet is of such great power. It is the driving into your own subconscious of the unreality of the manifestation that you are attempting to heal. You may do this in several ways, let us suppose that you have cut your finger, and you would like to find an instantaneous healing. You may fasten your thought upon a well finger, gaze upon that finger and know that it is perfect; then know that the other finger is equally well. You may say, "GOD is perfect and this finger is perfect in GOD. Any thought that it is not perfect is trying to make GOD imperfect, and I know that it is not so." There are so

many ways you can express it in which you tell your own subconscious, your own higher self, to quit manifesting discord and the thought of a cut upon your finger.

I walked with your channel when she had a most marvelous demonstration of this sort. With her permission I am going to tell it myself, for I was there and helped her. Someone had given her a fish. She was cleaning it so that she might serve it to her family. As she was scraping off the scales, the knife slipped and cut her finger. She put her thumb over the tip of the finger and watched the blood drip down into the sink. Then very calmly she said, "Now how do I work at this? I'm learning this new thought of healing. How am I supposed to do it?" She went to get a piece of cloth and a pair of scissors to wrap up the finger. She brought them out and laid them on the table, still holding her finger. She was looking at where she should cut the cloth and then she reasoned, "But if this finger is perfect in GOD, I don't need to wrap it up. If it is perfect right now, I don't need to do anything else but just know that GOD is all there is in that spot." Still holding her finger she left the cloth and the scissors and went back to cleaning her fish. She didn't know when she quit holding her finger. Suddenly she was aware that she wasn't holding her finger any longer. In fact, she had forgotten which one of the fingers was cut, and could find no sign of it. She thought, "Did I dream this? What has happened here?" She looked at the corner of the sink and there was the blood which had dripped from her finger as proof that the finger had suffered injury, and had been instantaneously healed.

Your channel could give you hundreds of such examples from her own experiences; but when she began to try to adjust to other methods of magnetic healing, she felt confused. Now in acceptance of both methods as one we will be able to move forward so strongly with healing through SOLOGA that the Light will pour forth to the ends of the Earth in the blessed Christ Presence. Not you, not me, my dears, but the acceptance of the Christ Healing Power will bring about this blessing. He is the Wayshower. He said to you last Sunday at your Vesper Service, "Where I am, you are; what I did, you can do." It is the healing power of the Christ drawn from the All-Consciousness of GOD which is growing within us in great power.

Those of you who felt a little disturbed this week in any way have been adjusting to this great outpouring of healing power through your focus. This is the reason that the dear one sitting to my right is here this evening, for the strong Christ power which will bring her healing of mind as well as of body and attunement with GOD in Hiser perfection.

I will not stay with you longer, but there are so many things that I would like to say to you. It is my assignment to work with SOLOGA; and has been since your channel first contacted my messages. I am only one of the many who work with you. Do not for one minute think that I am going to take over. Oh no, indeed! I am just one of the many beings of Light who spiritually send forth the power of their instrumentality through this focus of Light.

Know that when you incorporated as a church, you made it possible for you to send forth on a much higher spiritual level, and with much closer contact with the HIGHEST OF THE HIGH. Know that this act of yours as a group has opened the gate to each one of you for much higher development. As the days go by and you achieve the time when you are ready for ordination, then you too will find your spiritual attunement flowing through you with much greater power than before.

I shall be coming to visit each one of you. Since you speak to Mary, the Mother you must not be disturbed if I give you my full name, Mary Baker Eddy when I come to you. I could say M. B. E., but I am better known by the name Mary Baker Eddy and I shall give that to you. If you are clairaudient you may hear me within your mind (as each of you are if you just thought so) and you may feel my touch. I like to come by and just touch you on the shoulder. I am apt to give you a little friendly pat at the base of the neck on your right shoulder if I can make myself felt to you. Perhaps some of you may be willing to read some of the stories of the things that happened to me, for this will draw you a little closer to the thought of accepting me. I am one of your sponsors; and may I tell you that the same ones who inspired me to write my books are also inspiring you to bring through the enlargement of spiritual awareness of what GOD includes.

Oh, I am so happy! How can I tell you of my joy to be able to speak through to you in this free and easy manner. I have held back so long. I have been with you - Oh, yes I have, at every single meeting - even when you were having three classes. When you have private groups, I am always there. I have been waiting a long time to make myself known. I wish to thank each one of you who receive me with pleasure. I will not come to you if you do not want me. I was available to the group where Ruth was five years ago, but they did not want me, so I retired. I would retire now rather than drive one of you out of the focus of this group; but if you will receive me with joy, I will indeed be a true sister to you.

I pour out upon you the Love of GOD which is so great that it heals all diseases and all discord, so great that it holds the planets together and in orbit, the solar systems in their places, provides the cohesion of the galaxies themselves and keeps them in their right movement. This Love of GOD that is so tremendous permeates every single cell of you. May it bless and heal you now, now now! SOLOGA! The Word of GOD is the pure expression of Love and Light in you as you are now.

I AM THE BREAD OF HEAVEN

JESUS: My beloved brothers and sisters in the Life of GOD, ye do verily feed upon the Bread of Heaven, for the truth which you have just heard is that bread. (Our Bible reading in the book of John) The Light which you have just seen is that blood - not material wheat, not a material lifestream, not the Word, the Consciousness of GOD expressed in Light, in the power and energy

of the whole universe. A thought in the great divine infinite Mind of GOD, stirring, acting, full of love and purity, expresses itself in Light. Can you imagine that beam of thought vibrating outward as you have seen beams of light from the sun penetrating your clouds, or as you may have seen pictures of lightning or of electric flashes going out from some source? Can you imagine this beam of light feeding, giving drink to all it touches?

Your life and mine on Earth is but a symbol of what reality is, a symbol of thought. You look at the tree outside the window, and one of you says, "What a beautiful tree." Another says, "I wonder what birds live in it?" A child might say, "I would like to climb that tree." Someone might say, "It would make a lot of cordwood and keep a lot of people warm." There might be a scientist who had analyzed that very wood and would say, "Now the real truth about that tree is, it is made up of the minerals from the soil through the effect of the sunlight. By the interaction of a certain amount of various things, iron, oxygen, sunlight, protoplasm and various other things, photosynthesis sets in and then we have a tree." To him the tree, beautiful as it is, is a symbol of the natural laws of GOD.

In order to really grasp a thing, very frequently we must simplify it. If we begin talking about big names and chemicals and formulas, most of us would get lost, would we not? But all of us are aware of the sensation within our hearts, within our own selves, at the thought of the Presence of GOD in our lives. Each one of you, and I too, have knelt in prayer in a desperate situation, or have cried out from the depths of our hearts, "Oh GOD my Father, help me!" or "Help my dear ones!" and you have felt a response. Things have worked out. You have lived through it. You have discovered the Goodness and the Mercy of GOD.

In this manner we simplify through the symbols. Bread, to primitive material man, means a product of grain, ground, mixed with water and baked, a very definite flavor, a definite taste, a definite process. Before it is bread, you must have the grain. GOD in producing Hiser infinite wonder of Life feeds the soul, the true being of man without grain. He feeds each one with the Bread of Heaven which is Truth, and gives you to drink the very Blood of Existence which is Light. In your body blood circulates, does it not? It moves from the heart outward through the body to the ends of the toes and to the top of the head, to every single cell; so GOD'S Light in some expression and on some level penetrates every single atom of the universe. I said, I AM the bread of heaven", meaning that I, Jesus of Nazareth, expressed the truth, the Christ Consciousness of GOD in my sonship.

I have told you that I wish to teach you how to apply this to yourself. I would like you, each one, in your own heart and in your own mind during this week, to say: "I AM the bread of heaven. I AM the bread of heaven for this age, for this time and this place." Several of you are in a place of business where people come and go. You are the bread of heaven for them. As you walk down the street you are the bread of heaven for the grass under your feet,

for the very atoms in that asphalt, in that roadway, in the air around you. You are the bread of heaven for the little bird who pauses to look at you as you look at him, for you are the Truth of GOD expressed in the pattern of your present living.

GOD said, "I shall make man in my own image." Have you ever thought what that really means? Have you ever really gotten down to the simple reasoning of it? Suppose that GOD had meant: "I will give man a physical body like my physical body." Do you then realize that that body, being infinite, would be so large there would be no room for you? That one physical body would crowd all of you out. Can two of you in your physical body occupy the same space at exactly the same time? Of course you cannot. Therefore, GOD is not a physical body, for if He were since Heshe is Infinite there would be no room for you or for me. Then GOD meant that Heshe made man in Hiser image in some other way than in the physical body. What is GOD to you? You say "GOD is Love." Oh yes indeed, Heshe is! GOD is Light, GOD is Truth, GOD is Life, Heshe is existence, Heshe is perfection. Then Heshe made you Hiser image in those things.

Now let us think about bread. Bread feeds you. Then how does GOD feed you? I said, "I AM the bread of heaven." I was speaking in symbols, for so very often truth can come only to those who can find their way through the meaning of the symbols that veil the power that is too strong for them. I said, "I came down from heaven?" Those who were spiritually minded would then know it was not my physical body, for that body was born of a human mother. Then what came down from heaven? My brothers and sisters, you have sat in your meditation and each one of you has lifted his thoughts above the physical. Then you have come back down. It was my consciousness, my awareness of GOD which came from the heaven of Spirit. Daily you who pray come down from heaven, and daily you bring back from that communion and that contact with GOD the bread of heaven which must feed yourself and those who will permit you to give it to them.

Oh yes, you will find it difficult just as I did! You will find people who will reject and refuse what you have to offer. This is their right; and, as you read in the translation, except GOD brings the person to the table he cannot come for he is not yet ready. Who but GOD and the soul itself can know whether your brother or sister is ready for this divine food on this level? Therefore, be not surprised if it is difficult to call many in to your circle at the present, for the food which you have to offer is Light, pure Light, pure Truth, but there are other ways to feed mankind. You fed all to whom your thoughts went out in the power broadcast in which you just took part. You fed every one whose mind would open; every consciousness from the tiny grain of sand, the rocks, the water, the roses, the atoms in the paper, in the carpet, in the walls, in the very air around you. As you sent forth that statement that GOD is All Life, you fed all life with the truth. You fed the little grains of sand which indeed are often more receptive than the mind of man to the Light of

GOD. Thus you are the bread of heaven.

Now I am laying upon you, I think perhaps for the first time, a very great responsibility and a very great Light. You will remember that we stated in the gospels if you had not seen me then you had no sin. If you had not known this, then you would not have the responsibility of truly trying to be the Bread; but now that you know, let us see if you can remember day in and day out that you are that Bread of Heaven for those you associate with and those you serve. This is a church of the Word expressed in Christ Consciousness as it manifests in sonship. Each one of you are willing to accept that you are a son or daughter of GOD, are you not? That is easy; but to say "I am the true bread of heaven sounds like perhaps a little more than you might be able to stomach.

You will find in the Bible story a little farther on that after that statement was made, many disciples did not follow me any longer. I asked the twelve, "Will you also go away?" Peter, my beloved Peter, said: "No Lord, for you alone have the bread of life." They thought I alone had it, but they had it too; for the Light was pouring from them, the Light of these beloved stars that you have been hearing about, pouring through them as it pours through you, and they were the Bread of Heaven to every stone upon which they sat, to every breath of air they drew into their bodies, to every one they met or touched. They, too, were the Bread of Heaven, but not consciously.

Now it is our privilege, our joy, our wonderful opportunity to explain more completely in words that may not be listened to fully for many, many years that every man brings into his place of living the Light and Truth of GOD. GOD said, "I will make man in my image." Is that truth? Are you then made in Hiser image? Then are you not living Hiser Truth? It makes no difference whether the way you are living it satisfies you or not; you still are living the image of GOD, and that is Truth. Oh my dears, man has had such a narrow little peephole to look out for so long! Now we hope to open for man the broad expanse of the Omniverse, that he may see as GOD sees and know as GOD knows to the best of his ability.

I AM the bread of heaven. That means: I am GOD'S Truth expressed the best that I can in this place and at this time. When you accept this and say "I AM the bread of heaven", then you think "GOD is filling me with food to give to somebody else. Not me, I don't do it. GOD does it. Hese made me in the first place. I am just like a sounding tube for Himer to speak through, or a lamp for Himer to shine through, or a glass that someone else can see Himer through, in me if they are able. Of myself I am nothing. GOD speaketh the Words. GOD is the Bread of Heaven, and Hiser Word is bread indeed."

My beloved disciple John began his story of me by saying the Word was made flesh and dwelt among you. I was with John when he wrote and when he remembered the words that I spoke. I impressed him to make it very clear that the Word was made flesh. You eat the Word of GOD. You eat the Word

of GOD. You live on the Christ Consciousness. Without it you would not exist. The more clearly you are aware of it the more harmonious your affairs may become, because then GOD may pour Himself through you more freely to bless all around you.

I have not yet begun to speak of my blood being the water of life, I will leave this for another discourse. My beloved ones, can you in your heart, lifting your thoughts to our blessed FATHER-MOTHER GOD MOST HIGH, as Heshe expresses Himself in All, in the Galaxy, in the Solar System, in the Earth and in you, can you say: "Oh my FATHER-MOTHER, I accept that you have sent me as the bread of life to those expressions of you who are a little lower on the scale of evolution than I. If you will help me, I will pour through all the food you have to give to them in humility, in love and in dedication." If you can accept this and will renew this covenant with the Father, what have you to fear? If you give only GOD through you, that Light of GOD is so strong around you that all must eventually be proven to be the Will of GOD for your highest good.

My FATHER-MOTHER, oh our GOD MOST BELOVED, we pray Thy Blessing upon each of these dear ones. FATHER-MOTHER, Thou hast given them to me as voices to carry forth Thy word into the Earth, whether silently, spoken or written. FATHER-MOTHER, bless them; bless these beautiful stars in Thy thinking, these sons of Thine as they shed Thy Light. Keep them safe in the hollow of Thy hand. Lead them, guide them and bless them. Amen

BE ALERT FOR "TRUE AND FALSE" TESTS

SOLOGO: speaking to my dear ones of SOLOGA Group 13 and all readers of the SOLOGRAPH. I have been listening to the review that the channel has been giving you of the sense of unity now being brought out in the Groups of Light. This is one of our important projects for the year 1963, the drawing together on the physical plane in closer cooperation all of those who are working to the best of their ability according to their understanding to send forth the Light to all men for the New Age. During the months to come you will be enriched by many blessings which shall come to you from other groups as well as this one. You will find greater recognition for your own achievements and also you will wish to give more recognition to others.

Each new year is the beginning of new understanding and new progress. This year will be a time of greater learning in discrimination for all channels and all group members. Many things that have been spoken through channels in the past have been little test problems on which all of you might practice discrimination. It is a sad thing when anyone feels that every word that comes through a channel must be accepted without discrimination, must be swallowed whole as it were. Many people have placed their faith in men or women and then have found that those whom they had put on a pedestal were just common people with the same problems, the same faults, the same blind spots as all

the rest. Then the one whose faith has been placed in this human being is much disturbed and much hurt.

This has occurred to so many seekers in the Groups of Light. So many have been sure that they have been told from the higher realms things that when the time came did not come to pass. This should be a general learning situation for all. If one whom you trust gives forth a message which does not come to pass then what are you to think? You may think that in some way or other the message is misunderstood, or it did not come through clearly (which may be the case) or it was warped by the beliefs of the channel and therefore not clear channeling. But much more probably it is an opportunity for you to practice your own discrimination. How could you learn which statements was true and which was false unless you were given some that were not true upon which to practice? I am sure you all have had pages of exercises in developing your language abilities on which there were some correct sentences and some that were full of errors. You were to practice your knowledge in discrimination by deciding which were right and which were wrong, and correcting those which were wrong.

The last 2000 years were full of prophecies that did not come true. These were man's opportunity to learn discrimination. Man has a great desire for excitement. He likes to hear some possibility of future disaster that keeps him all stirred up. This seems a very cruel and hard-hearted analysis, and yet man must face his own characteristics. How many of you dear ones - sweet, highly cultivated beings of Light - have looked with great interest at an accident on the street? Perhaps you have even pulled out of a stream of traffic or gone around the block to find out about it? Nearly everyone in the human expression does; this is one of the characteristics of humanity. This can be used to stimulate man in the right way, but man has to watch that he does not fall into this trap of stimulation and thus lose his way.

Look back over the past several years and think of all the dates that were given for certain dire prophecies which have not materialized. Who is to blame for this? Why blame anyone? Why not just write it up as an opportunity to learn discrimination? Go back through the various bulletins that you have and you will find in almost any group of expression, some prophecies that did not come true. The fact that it does not come true is proof that you are being taught to use discrimination.

This is not a useless or cruel exercise; this is hard mental development. You say, "Well, I just can't get it." Perhaps you cannot at first, but keep trying my dears; keep working on it, and gradually the wisdom, the intuition, the contacts with the ALL-CONSCIOUSNESS of GOD will open so that you will be able to discriminate. Each one of you here proved the steadiness of your faith when you resisted the call for an exodus from Miami. This was deliberately planned and sent to you as an opportunity for you to use your discrimination.

Watch these prophecies of doom. Watch and be not afraid for again they may be just pitfalls to keep some people busy who could otherwise be improv-

ing themselves if they attended more fully to the study of spiritual things. For many leaders there has to be something new to say to keep up people's interest. If the interest or the financial support begins to lag, then there must be some other excitement to draw their attention unless the foundation of the group is bed-rock faith and spiritual understanding in the MOST HIGH GOD. It is as though you were in a forest where the undergrowth is very thick, and there are many thorny bushes, many pitfalls, many twisted paths. You cannot see your way very far ahead. You have to turn within and keep on the inner beam in order to progress.

Each Group of Light has been assigned a specific mission; for each Group of Light the problem is to find that mission and execute it. Some are still floundering around not aware of what they are supposed to do. Some have misunderstood their direction. Lessons must come to them, some of which may seem rather severe until they of their own intelligence, reason, and good faith, find their way through the puzzling maze that has been set for their instruction.

Do not be deceived. Turn always to your basics. Remember that GOD used to be spelled G-O-O-D. Remember that GOD is the Primal Will to Good. Keep your thoughts filled with Light and expect only good; see only good, send out only good. Where there is a prophecy of dire disaster, hold that prophecy in the Light and hold the people, the reason, the basic situation all in the Light; for nothing that is prophesied is inevitable. Many, many conditions have been alleviated by the prayer and the power broadcasts of these Focuses of Light working together with the Hosts of Light to assist. Remember that you are impelled to think about these things for the purpose of finding your way and building your strong foundation.

I would like to call your attention to the patriarch Abraham who was the third son in the family and loved and honored all in the family; yet GOD called him to separate himself from the family and go out into a strange land. Abraham acted his faith. He, one servant and his wife Sarah, for many, many years were the only physical manifestation of that faith in GOD which developed a Moses, a Joshua, a David, a Solomon and a Jesus. Your numbers are of no great importance. Your steadfastness, your faith, your clear reasoning to fundamentals is of great importance. During the next year, there will be rumors and prophecies of many dire things. Hold fast to that which you know and remember your Ninety First Psalm. "Though ten thousand fall at thy right hand, it shalt not come nigh thee."

I have come to you tonight to speak about another Star, ARCTURUS in the constellation Boötes. This is visible in the spring time. This is a well known star, a favorite among those who named the stars. It is the only star mentioned in your scriptures. Arcturo is a messenger of Light from that star. He is active in the Earth aura and has spoken to several groups. Arcturus also is a Star represented by one of your members.

Now you will be thinking as members come and members go, "Then will

we still have the representation of the Twelve?" Yes indeed you will, for those members who seem to go are really never departed from you, but in the High Self are always present with you, Beings of Light of the Twelve to you. Furthermore, as one seemingly departs another will be brought on that particular emanation to take the place of the one who has left as soon as it is possible.

Tonight you sit here without several of those who have been with you and who are close to you in heart; but, nevertheless, their thoughts reach you; they attune themselves to you, and their Higher Selves carry back to them some of the inspiration and the vibrations from your group meetings. When they read the messages that come through this evening, they will find them easier to understand because of this contact.

Arcturus is represented by one of your members who at the present time is unable because of her occupation to be with you in the class time; nevertheless, she meets with your channel once a week in this building. She is being trained as a minister, as a bright channel, and as a healer. She is clairvoyant and clairaudient; she receives readily, but she must have her cycles of development just as you do. Each one of you must wait upon GOD that the problems of yourself may be worked out in Hiser good time as laid down in the patterning of your life before you entered this incarnation. Be patient with each other. Send Love and Light to all those who have been in your midst and yet are not with you. Some are yearning greatly to be with you this evening. We of the Realms of Light send them our blessings and know that you send them your love. Let your thoughts dwell upon them for some of them feel much deprived by not being able to be here.

May GOD bless you as you receive joyously and willingly the vibrations from Arcturus, a very great and beautiful Being of Light. 1/12/63

THE BASIS FOR FAITH

ARCTURUS: speaking to my friends, my brothers and sisters of Light, my companions in the upward journey toward at-one-ment with the ALLNESS OF THE ALL. I give you the deep love which long ages of development has made it possible for me to share with you. I am in the later years of my incarnation as a star. I bring to you the calm, quiet peace of adulthood. Many problems that have been mine in this particular incarnation have worked themselves out through the grace of the ALL-FATHER-MOTHER and I come to share with you the calm faith and trust that all is well for GOD is the ruler of all.

This is a difficult attitude of mind to attain. Through much of your life you have been disturbed by many things. You are not alone in this, my dears, for even when one attains the height of evolution permitting him to ensoul a Solar System, he still has to work for calm detachment, for that trust in the FATHER-MOTHER that all is well and all will be well which enables him to meet the situation most efficiently. I like to think of this in terms of your

machines. Some machines are well oiled, move easily and efficiently, and produce without noise the most possible work for the amount of power poured in. Perhaps earlier models, first inventions, had many errors in construction so that there was noise, lost motion, and much inefficiency. The result was that the output of effort was small in comparison with the power needed to run the machine.

In your life, the emotional disturbance, the excitement, the distress, the little irritations that upset you are like the inefficient machine, or like the noises, the friction, the wasted energy which make the machine unable to function so well. When you can look at a problem and think, "Now, this is just a problem; I detach myself from it completely. I will have no emotion about this thing. I'll not let myself become personally involved in it. I will put it in the hands of GOD and know that all is well," then you will be able to expend all of your energy in the best way to find the solution to the problem.

This evening I heard you mention at least two people who are in a very serious physical condition; and while you thought that efforts should be made to help them, you did not go emotional over the matter. This is the result of long training, and long experience in this healing field. Which one is best at first aid, someone who gets all excited and wrings his hands and says, "Oh dear, Oh dear! I can't think what to do," or someone who calmly gets the bandages, the hot water, the ointment or the scissors, or whatever may be needed and courageously goes about helping the person in need? Emotion always clouds the judgment, always disturbs the memory, always makes the action or the decision inefficient. In my aura we learn to put our trust in GOD. We learn more thoroughly that GOD is ALL, that all problems are Hiser problems and that Heshe is providing the solution, that if we will just be calm and patient, relax and listen and put ourselves in tune with the ALL-CONSCIOUSNESS, the answer will be given us and the right thing to do will be told to us.

Arcturus is a name which means faith, trust and clear calm knowledge that GOD is living the highest good in every situation. You are GOD'S hands in that plane of vibration. Heshe uses your mind to think through the problem, Heshe uses your eyes to see, your ears to hear, your mouth to speak Hiser wisdom. Give yourself fully into Hiser hands, and Heshe will provide the way.

May I tell you a little story which I borrow from your plane of activity? A child loved a little dog which lived next door. The mother of this child held her to her heart as any mother would; but the child loved to be next door with the little dog. The neighbor was going on a business trip and suggested to the mother that she let the child, a little six year old girl, ride with them and keep the little dog company. The little girl was very excited about this opportunity and wanted very much to go, but the mother hated to let the child out of her sight. Finally she thought, "GOD goes with her and GOD can help her more than I can help her." Wisely she said to the little girl, "Now if anything happens, just sit quietly and say, 'GOD, please tell me what to do,' and Heshe will tell you."

The little girl and the little dog played together happily in the back seat of the car. The trip was a long one. The first stop was beside a body of water. The gentleman driving the car parked and went into a home on some business. The lady opened the front door to let the little girl and dog out. Quicker than a wink, the little dog rushed towards the water and jumped over a low retaining wall. He loved to jump over sticks that were held out for him, and in his joy, this wall looked like fun. He found himself in deep water with stone walls on all sides so that he could not get out. The little girl and the lady hurried to see what had happened. There the dog was below them swimming out of their reach.

The lady walked up and down the road wringing her hands and crying, "Oh dear, what shall I do?" The little girl went back to the car and sat in the back seat. She said, "Dear FATHER-GOD, I am listening. Please tell me what to do." In a moment, she ran to the lady and led her back to the sea wall. She said, "GOD told me just what to do. I am to lean over and you are to take hold of my ankles very tightly and let me down; then I can pick up the little dog. This is what they did. The way GOD told her of this was to remind her of a little story that had been read to her in one of her picture books, so that she knew exactly what was to be done. She had no fear and expected that GOD would help her rescue the little dog.

We have heard it said that unless we become as a little child we cannot enter the Kingdom of Heaven. A little child has perfect faith and trust that GOD does all things well. I, your brother-sister Star, Arcturus-Arctura remind you that this is one of the lessons which is assigned to all of us - heartfelt trust. Know the utter and absolute goodness of GOD in all Hiser ways. Relax in this knowledge, and walk in peace. SOLOGA! beloved ones of Light. The Word of GOD is a lamp unto all feet and a light unto all paths.

THE SITUATION IN CUBA GROWS WORSE

IXUTEL: You are aware of the terrific weather conditions in the North as were prophesied. You perhaps have heard that the worst weather conditions of the moment are in Sweden, causing the most deaths there. However, the weather is really very severe all through the northern hemisphere. Our heart go out to the sufferings of the many people there. Let us continually broadcast to them the Love which is the warmth of the MOST HIGH GOD to sustain them in this hour. Furthermore, you are also aware of the worsening situation in the Congo, of the continued stress in Southern Asia, especially in Laos and Vietnam.

Perhaps you are not so aware, unless you have been alert, of the intensely worsening conditions in Cuba. Your President has been placed in a very strange position. He is almost checkmated in one direction, in that if he permits the United States forces to straighten out the Cuban situation, he will be accused of aggression, and much that has been done to give the world faith in

the good intentions of the United States will be undone. The Kremlin will be quick to make all they can out of any move of the armed forces of the United States to do anything about the situation in Cuba. However, your President is applying an equally effective weapon, although it may seem to require a little more time to work out the situation. He is leading the way to bring a great amount of economic pressure to bear which may have some restraining influence with the Communist Government in Cuba. He has said that nothing should enter that island but medicine and food.

This is indeed a hard situation for all who are there. You perhaps have noticed that the counter-revolutionists, those opposing Castro and the Communists, are becoming more active and more violent in their attempt to remove those leaders who have brought about such horrible catastrophies in the lives of so many of the Cuban people. The situation in Cuba daily grows worse. There are so many things needed that are lacking. Machinery is broken down. So much that has been called for from some foreign nations has been denied them. We know that this will continue as long as the Communists are there in command. What the outcome of this situation will be is still hidden from us, for the island is still tottering on a knife's edge of balance. Light is being sent there in such strength that we hope the Forces for the Christ will be able to conquer in time. However, we are opposing a tremendously treacherous and powerful enemy. Just how far Khrushchev is willing to go, how much he is willing to spend to maintain his bridgehead in Cuba, remains to be unfolded in the future. Castro will make every attempt to prove himself capable of giving strength to the Communists and thus merit their support.

You have a special mission in the island of Cuba. It is the closest outpost of the strong, recognized, anti-Christ forces. True, you have the anti-Christ ever with you. This racial hatred that prevails in so many places in your nation is definitely anti-Christ. This you know. But you should be concerned especially with this island of Cuba, not because you are personally in danger, but because you have been given this responsibility for your closest neighbor. Therefore in all of your broadcasts until that island is free you should never neglect to send Light, Love and Healing to that area.

GOD bless you in your faithful assistance as messengers of Light as you send forth daily your prayers and your broadcasts of Light. I caution each one of you not to be so concerned with your little personal situations that you forget this larger calling, for your one purpose here above all others is to broadcast Light in whatever form it comes to you. Again may I say; all love and blessings from all of us who are so grateful to each Group of Light who helps us in this great work.

AN ASSIGNMENT FOR 1963

ST. GERMAIN:speaking to the Group SOLOGA and to all who may read this SOLOGRAPH. I remind you that I am very active in the Groups of Light. I go from channel to channel with messages of encouragement, healing and

instruction. I bring to each group, after careful study of the make-up of the group suggestions for the development of the work of that group. Sometimes I implant suggestions in the mind of a member who is unconscious of the contact with me; again I speak through the channel when it is possible and right. I am the Director working under the power of the Seventh Ray, or as you may know it, the Seventh Spirit before the throne of GOD, or as you may symbolize it, the seventh color in the rainbow, the Violet Ray.

I am speaking to you because during this month of January it has been my special mission to circulate among the groups with a message of unity. Sometimes my message has been given through the other teachers of the group, but I have seen to it that each group who receive telepathically should be inspired to open themselves to the suggestion of unity, to the overtures of friendship and love from other groups, to a wider understanding and rapport with each other.

During the past years, since this type of work began to come into use, there have been many lessons to be learned. These have been lessons of human relationships - of living and letting live, of tending to one's own business and letting the other groups tend to theirs, of being so busy about the tasks that GOD has assigned to you that you have little time to meddle in someone else's development. I am speaking in plain terms. I am calling a spade a spade. Adults are often still embroiled in childish lessons which should have been learned had the influences of home in childhood on the character and individuality been favorable. However, this is seldom to be found. Each one manifesting in the physical plane must have his little thoughts of confusion, his errors and mistakes or he would not be balanced and able to remain in the low vibration in which your bodies now operate; and yet you must learn to release each other in love and still cooperate.

This can easily be observed in some nursery school. You will find children who will do their own little tasks and allow others to do theirs, who look on with joy and pleasure at anyone else's accomplishments; but you will also find others who wish to dominate or whose feelings are easily hurt and who are always carrying a chip on their shoulders, or those who must be praised or who wish to be the center of attention. All these things are essential experiences needed to advance. Many of us are not aware of our own little weaknesses. We express them, then others react, and we feel that we are rejected. In reality, our weakness has been pointed out to us by the reaction of others. Thus we learn to live and let live. Each one has all he can do to purify himself. No one has to compete with anyone else but only with what he himself was yesterday. The real problem is "How can I do better than I did yesterday?" When this can be attained, then we will be able to work together in greater harmony.

One most interesting experiment which I observed in a school was when two very bright, inventive, dominating personalities were put to work on a problem together. They were not put off in a room by themselves, but they

were left to work their problems out in the normal situation. The teacher made them understand that she had faith in their ability to work together. She made it a matter of pride for them that although they differed at first they could compromise and agree as a team. What those dear children learned in that experience was the simple thought that everyone has something to contribute, and that two working together cooperatively turn out a better piece of work than one working by himself. This is the lesson for the Groups of Light, that is so important for this coming year. You will find that is being learned and is being used as the year progresses.

Sometimes it seems impossible to work with your neighbor in unity. Sometimes you think, "This is hopeless; we can never get together. How can we be one when the neighbor thinks just the opposite from what I think, and when I am so sure I could not do the way he does." I observed a church meeting. This was in one of your advanced metaphysical centers where discussion of a problem is limited and people, after hearing the problem stated and spending a time in meditation and prayer, vote a secret ballot. This is supposed to result in unity. One person sitting in this meeting and looking about over the group saw such determined faces diametrically opposed to each other in hopes and thinking. In prayer, this one asked, "Oh Father, how can we be one with each other?" The answer came clear and plain, "You do not have to think about being one with each other; you only have to think about being one with Me."

When each one is one with GOD, then all will be one with each other. Be so busy perfecting your awareness of your oneness with GOD and demonstrating it every moment and in every activity of your day that you have no time to worry about what your neighbor thinks or does. Soon you will discover to your amazement that you both are thinking more or less alike and able to work together, each in his own way, and each contributing to the same general path.

I know you know these things. I know all Groups of Light know these things, and yet I am so aware of the truth of a quotation which I overheard being given at the beginning of your meeting. The quotation was from your English poet, Robert Burns who said in his Scotch tongue, "Would GOD, the giftie gie us to see oursilves as ithers see us." Would that GOD could show us plainly our own shortcomings. Perhaps we should say; would that we were able to see where we can improve and to trust our neighbors to do likewise for themselves.

Let us pray that GOD will lead us to closer at-onement with Himer and to a clear demonstration of this. Yes, let us pray as Jesus said, "He that hath seen me hath seen the Father." that when others look, they too may see the Light of GOD pouring through us. When that happens, there will be conscious unity and perfect cooperation, each in his own sphere, singing with joy in his heart his part in the harmonious anthem of praise to GOD. SOLOGA! You and I, shoulder to shoulder, shall see unity manifested among men.

THE WATER OF LIFE

JESUS: My beloved brothers and sisters of Light, I Jesus of Nazareth, speak to you from this body and with this voice. I have spoken to you in your own heart. I have used your minds to contact you. Some of you have heard my voice within you, but have not recognized it. Others have known me. I have been with you each one daily in your thoughts and in your activities, for I AM consciously holding those who love me in my thoughts, in my oneness with GOD.

I am so happy that there are those who are willing to receive me as you do. As I walked the roads of Israel so long ago, for a while there were thousands who followed me eager for a touch or for a word. My disciples expected contact with me. They prayed for it. Many a minister in your churches today on his knees in his study prays for advice and counsel for love and help from me, Jesus of Nazareth. I talk to them; I speak within their hearts. I speak to the little children; I speak to old men and women. I show myself wherever there are those with clairvoyant vision, with developed inner senses to be able to recognize me; and yet people draw back. They keep these experiences within their hearts fearing that someone will sneer at them, disbelieve them, or make fun of that which is so precious to them.

This is a much more common experience than man of today understands. In one way the most unfortunate of all modern groups of people are those who in their eagerness to prove life in the spirit world have placed ranks upon their friends who have passed over. They had classed certain friends, teachers and guides on one level, and others on another; and they have classed people in these same ranks. They have said, "He is in that old Indian vibration" or "She is still listening for knocks on the table." Others have said, "Oh, we could not speak the name of Jesus and say that he spoke through us because if we did, that would be making ourselves somebody that we are not at all." This springs from their great desire for humility but in their attempt to understand and discriminate they have shut me out. I come knocking as always, knocking at the heart's door asking to be received. Will you not receive me?

I have been talking to you about the bread of heaven. You have now heard two different versions (New English and King James, John 6:35-58) of that rather exciting time, when I spoke in a parable to the dear ones before me and told them of spiritual things in material symbols; but they could not understand for the material world was so close and so real and they so much absorbed in it. Always, when you read my words, search for the spiritual, hidden, higher meaning. I said I was the bread of heaven. John said the Word was made flesh and dwelt among us. In that capacity as the Word, the son of GOD, I am the bread of heaven; but so are you, my beloved, for you too are sons or daughters of GOD. This you can accept.

It is only a matter of reasoning, of following through a little more carefully. In our thinking we get an idea of something that is true, and then we stop right there and fail to go on and on and on in our application. Some people

say that GOD is ALL, but they cannot see it in their neighbors. They say GOD is ALL but that doesn't mean the little insect crawling on the wall. They say GOD is ALL but their "ALL" is very limited, mostly including only themselves, and their own affairs.

If GOD is the Whole, the Oneness, if the Whole separates into two, Father and Mother, that Heshe may create through thinking, through the interaction of the positive and the negative, and bring into being forms of power, force and Light, then that which Heshe creates is the Son. Heshe creates it with thought in the consciousness, and whether it is thought spoken with a voice or given forth in a vibration or in Light it is still the Word.

As you sit here, my dears, you are the Word of GOD expressed in flesh. Indeed you are for Heshe said, "Let man be made in My image." Is that not Hiser Word? Without that Word, you would not exist. Hiser Word is you. Whether it comes through me as Jesus of Nazareth, through this one whom I am using, through your voices, through the page of the book that you are reading, or the music that you hear, the Word is expressed in the consciousness, in creativity as the son or daughter of GOD. Therefore, you are that Word, and you are that bread of heaven. This is what we dwelt upon in last week's discussion together.

The verse goes farther and says, "Except you eat of My flesh and drink of My blood." This was spoken so boldly to my dear ones in those days as a test. It was one way of separating those who could understand spiritually from those who could not. All through the history of GOD'S dealings with man, Heshe has set up tests in order to separate those who were ready for some activity from those who were not. You will remember how Gideon required his soldiers to drink and judging from their alertness as they drank either kept them or sent them home. In this way GOD selected those who were valuable servants for the time. In this way GOD selected through my mouth as Jesus of Nazareth those who deserved and were ready for the inner teachings of those last most enlightening discourses which I gave my disciples. Yes, they were harsh words to those people. They were words of insanity, they were words of cannibalism, but you see how absurd that was. Such absurdities have come to man's mind since, but I know that you are able to understand this or I would not bring this subject to you.

The bread is the Spirit of GOD speaking in the Word so that you are fed by the Truth which comes into your life. Now of what is the blood a symbol? You think at once that it is red and it is the symbol of life. Yes, it is a symbol of active, vigorous life; but in reality it is a symbol of Light, for it is Light which flows through your veins. You see it as a material substance of water and chemicals, of food and basic materials, of various organizations of life which have been developed to keep you healthy; but to us it is pure Light. If you could see yourself with the eyes of those who live in the Realms of Light and those who are gathered about you now to partake of this moment, you would see an aura of Light and running through it, streams, veins of Light, as

the Light of GOD enters, circulates, feeds and gives drink to every little cell and every atom within you.

John said: In the beginning was the Word and the Word was Life, the life of men, and the Word was Light. All energy is the consciousness of GOD in activity. The more Heshe thinks the more Heshe sends forth this energy. This energy is expressed in Light. You drink in the Light and that is your Light as well as my Light. Is that so hard to accept? Indeed it is not, for you have spent hours in this very room asking for Light to be poured in upon you and receiving it, being told that it courses through every atom in your body and restores them all. The water of Life is the Light of the Consciousness of GOD. A river of water from the throne of GOD is purely a symbolical term to try to help man to understand how his life comes out from GOD. Plato began to try to analyze the mind of man, and yet he was as a little child trying to understand Santa Claus. Since then man has accepted so many false theories about his own thinking. Just as Columbus had to explore and prove the truth to counteract the false theories which man had accepted about the ocean, so now you, my dears - all of you - are helping to prove and to explore the Truth in the great ocean of GOD'S ALL-CONSCIOUSNESS, of the One Mind that is ALL.

I invite you then to that which you have already been doing. I invite you to sit calmly in Love, gently, without great emotion, without begging, without castigating yourself, without tearing yourself apart over supposed sins, to think and attune yourself to the Mind of our FATHER-MOTHER who is the only Mind that anyone has. You are in tune with this Mind; you are drinking of this Water or you would not be alive. If you did not have connection with this great Mind you would vanish so quickly that we would not even be able to witness it. You would vanish completely from our memory for it is only in the Mind of GOD as Heshe thinks you that you have any existence at all - you or I, Jesus of Nazareth.

As I exist in this spiritual body, which I have used to serve you in this aura of the Earth, I am nothing more nor less than the energy of GOD'S Thought, expressed in a pattern which has been growing and developing over the aeons of time until now I am ready, ripe enough, mature enough to extend my consciousness to enfold all of you and all men upon the face of the Earth in Love, in devotion in brotherhood, to take their hands one by one and lead them up the path of Eternal Life into the hands and heart of my FATHER-MOTHER the MOST HIGH, MOST HOLY, our GOD. I take you with Me, but this is only the first part of the explanation.

The second part is this, that each one of you, following my footsteps, imitating me as Christ Jesus, can do what I do. If I give myself as the bread of heaven to feed those about you, then you can give of yourself, also. If I give my Light as the water of Life, then you are to give yourself as the water of Life. In order to make this more powerful in your thinking, I asked you all last week to continually say, "I am the Bread of Heaven, and I feed those about

me." Oh, yes, I know you forgot. You didn't do it as many times as you wanted to, but the thought is there in your mind and perhaps this week you will work at it a little more. This week you must say, "I am the Bread of Heaven and I am the Water of Life." You remember that I told a certain woman at a certain well, "If you had known Me, you would ask Me for living water. I would have given it to you and you would never thirst."

The water of Life? Life is Light, and Light is Life. The Water of Life is Light! You are the Light of the world. Yes, indeed you are, and therefore you are the living water given to the Earth. Those dreams, those desires you have to serve the living GOD were given you; they were built into you by the One who gives you the wherewithall to serve. You go out desiring to feed someone. Let us say you have a little basket on your arm. In it is bread and something to drink, milk or water. You pass among the poor who are needy and you give this thought, "This is a material symbol of every day of your life." Remember those who are permitted to come into this chapel are those who in ages past have developed this ability to give. Each one of you has given Light, Truth and Love, the best that you had to offer to everyone all of your life consciously; but quite unaware of what you were doing you have been sending forth the wonderful, invisible emanations of the higher Sons of GOD, expressing themselves in Solar Systems, in Centers of Systems and in Centers of Galaxies. This is indeed the Water of Life which you have brought to the Earth.

As you passed by someone that invisible emanation poured from you to them, and though they may not have known it or where it came from, things were thereafter in better balance and easier for them to endure. Because you have thus served, we say to our blessed FATHER-MOTHER GOD: Oh bless these, thy loving children! Pour out thy showers of blessings upon them, that they may water the hearts and minds of men with that Truth and that Light which Thou alone canst give. As we do this, may they be aware of the great and glorious company of Beings of Light of which they are a part, serving in this manner throughout Thy whole Being, Thy Omniverse, most Blessed, most Beloved, most Wonderful, most High, our FATHER-MOTHER GOD. Amen.

THE HEALING VOICE

SOLOGO: Beloved children of Light, I am SOLOGO addressing you. I have had the privilege of coming to you week after week because of my position as introducer of new Stars; the Twelve of us who assist IMMANUEL as a Council Group, a group of elder brothers as it were are drawing closer to the Earth in our broadcasting and sending out more power. Now you will say, "How is this possible, for the stars do not become brighter as we can see them in the sky?" Of course, I am not speaking with regard to variable stars, but we are discussing emanations that are on an invisible level so that you would not know by sight whether there is more emanations coming from a star or not. We are sending highly spiritual, penetrating rays and vibrations to help in the

situation at the present time.

This is your date, November the 10th upon which you were asked to send peace to the whole world. You are aware that in many different places the situation is like a tight rope as to whether or not we can manage to enable the people to walk in peace, for there are so many different groups that are antagonistic to each other and so many who are trying to take something that they want from their neighbors. For this reason, it is necessary that we, the Brotherhood of Suns, send our Light much more strongly than we have been doing. We gather in mind as a Oneness to send our Light in perfect balance to fill out the emanations from IMMANUEL and help the Earth to maintain its balance.

These are very critical days. We have warned you that from now until the first of the year there are many places where war could explode. You have seen some of these crisis met and seemingly dispersed, but others are still building. For a number of years you will find one crisis after another, but during these two months, November and December, is the most dangerous time for some months. October was a very dangerous month but you passed through it nobly, and now we are hoping that the same thing can be accomplished for the rest of the year. Because of the fact that we are pouring through such strong vibrations, when we first move into the aura of your group you may feel great heat or if you are the speaker, the vocal cords may be disturbed by the cross vibrations that we are sending you until there is a sufficient adjustment. If you are receiving us and speaking, as some of you may do in times to come, always have a glass of water handy for the water helps the work to be done within the throat.

Now you have a very special task - The Spoken Word. You are asked to send forth the spoken word; therefore the equipment of your body must be carefully attuned. As you send out your thoughts vocally they are stronger and they project with greater meaning. They are creative. We are preparing each one of you to be able to accomplish much as you speak. A great deal of this is done in vibrations of which you can never be aware. You have to take this on faith, but know that when you speak the Truth, the Word of GOD with power things are produced according to your Word. There have been times when healing has been produced by the Word, by the tone of the voice; but the one healed was not conscious of how this was done. We sent your channel to read every word of the four Gospels and write down just exactly what Jesus said or did in every one of the healings that are recorded. When she finished she thought, "Why did I have to do this? I don't know any more now than I knew before. He reached out and touched someone and he said, 'Be ye healed' but I still don't know how it was done." Now we are telling her and you that a great deal of work was done on the vocal cords and the equipment of the body which Jesus inhabited so that when he spoke, those tones broadcast the creative healing force; and this we are attempting to do with you. Therefore be not disturbed if you know you have nothing wrong with your throat according to your knowledge and yet it sometimes seems to be unmanageable, for we are re-building atom by atom

the equipment with which you speak.

More than once we have healed someone through the voice of the channel. The healing was acknowledged but the channel did not know how the healing was accomplished. She simply rejoiced and gave gratitude to GOD, feeling that it was quite beyond her; and, indeed, it was. We who are your helpers have so much more to do for you than you realize.

You have taken a step forward and upward. You have decided that you will not tarry on the plateau of the "dear departed" or of the message work for the mundane affairs. You have wished to push forward to find the highest touch with GOD that is possible, to learn the truth of the Omniverse, to be taught that which will bring mastery of yourself and your condition. You have not asked to be able to give karmic readings or to tell fortunes as it were. You have asked to know GOD, and to tell others about what you are able to learn. For this reason, we come to you in great strength and power for we know that man of Earth is hungry to know more of his relationship with the universe, his meaning for being, his touch with GOD. We therefore are very grateful that we have an opportunity to speak through any channel into the mind of man.

You have heard from many of the Stars of the Twelve, but there are still two or three others to come to you before the circle is complete. This evening I have brought for your consideration - I am bringing to your conscious awareness, to your thinking - a beautiful Star which forms a perfect equilateral triangle with two Stars that you already know. As the evening progresses, you will find the constellation of Orion rising in the East. You are now acquainted with my brother, Betelgeuse, who is so very wise, and my brother Rigel who is so active and young. They are the large stars of Orion. You are aware that I who speak, SOLOGO, am in the Star ensouling the System of the Star Sirius. Your astronomers call my constellation Canis Major, or the Big Dog. Orion is the hunter who has two dogs to follow him according to your ancient reading of the sky map. I am called the Big Dog. My brother, Procyon, is called Canis Minor or the Little Dog. Procyon is a beautiful white star with a little tinge of yellow in hiser light, whiter than the Sun and very much larger. He is only eleven light years away more or less. I am eight light years, according to your calculations and he is eleven. I am a little older than he, therefore my being is larger. I am nearer to you, therefore my shining is brighter to your physical senses. The three of us, Beutelgeuse, Procyon and Sirius, make a beautiful equilateral triangle in your skies and will be visible to you for the winter months growing higher and higher in your sky as the winter progresses. We hope that you will be able to find this triangle and see each one of us. You have always liked to look at the stars. Sometimes man has thought them cold and far distant like little pieces of ice. Again he has thought of them as his friends but man has never known of the great influence of the mind working in these systems to help the Earth, your Sun, IMMANUEL, and all the planets in your System. We hope that this will

open a whole new horizon of thinking for you. We hope that you will be so happy and so busy trying to sort out man's path upwards that it will lift you out of your discouragements, out of your personal sorrows and help you to move forward more rapidly.

As I was listening to the conversation before you started your Meditation Meeting I realized that some of you do not understand that everyone who comes over into the spirit world, into the Realms of Light, is a very different being from what he was when limited in the physical. There are of course the characteristics of the human mannerisms, but there is the height of intelligence which is recognizable. You would know that someone who was highly intelligent on Earth would not become less intelligent in the higher realms. You would know that they would go ahead and not fall back. This is the point that was not made clear in the previous discussion. The fact that they speak differently because they have gone on is an authentic proof of the rightness of the contact. If they seemed to deteriorate mentally, then that would not be correct.

Now I would like to give you my love, my joy at being with you. Oh, how can I ever tell you how happy we all are that the time has come for Earth man to become conscious of the Brotherhood of Suns, and still higher of the Brotherhood of Central Suns, and to see his own paths of Light up and up and up to eternity, with no end in sight for him. I give to you the love of the Brotherhood of Suns, all that you have yet heard from and the others who are waiting their turn. I give you the love of LIOLIA, my FATHER-MOTHER; I give you the love of my own Solar System and all the planets where you, each one of you, have had your home in times past. Now I shall step aside and let my brother speak to you.

THE PROBLEM OF HUMILITY

PROCYON: Dear, humble, sincere and loving hearts, you who are reaching upward, out of the seeming ignorance and darkness of Earth, out of the material desires, yearning for spiritual progress, for spiritual learning and understanding, I come to you with such love, or I place myself in your hearts, in your minds, in empathy, in understanding and in togetherness, in love for you. I, Procyon, who have lived aeons and aeons of time through incarnation after incarnation in many different forms, finally achieving Sonship as a planet and then as a Sun, come to you still in the humility of knowing that of myself I am nothing, for GOD, the FATHER-MOTHER of all, is all there is to me.

How can one be a king, know he is a king and still be humble? How can one be a leader and march forward at the head of a group and still remain humble? This is one of the problems of adjustment which you are required to learn in your present plane of existence. You are living in the plain of paradoxes, the plane of separation, where it seems to you that two cannot be one but must remain two, where black cannot be white but must remain black;

where one cannot be aware of his greatness and yet remain humble. One of the best examples of such humility was your Jesus who knew he was the son of GOD and yet refused utterly to step out as a king and rule men in a temporal fashion. Jesus whom you follow as your Wayshower once remarked, "Who made me a divider over you?" He refused to counsel with regard to material affairs. His whole being was centered on teaching man to find close contact with GOD.

The New Age man will move forward in this life. He will not be caught in the back-water, the little whirlpools that cast all onto the shore and do not take man forward in progress. Jesus centered man's thought on Oneness with GOD. He who knows his oneness with GOD will not need anyone else to tell him who he was, what he should do, or to give him messages from his beloved ones for they will come and give their messages direct in a more authentic manner than he can receive it from any other person.

Another such humble ruler was your Abraham Lincoln. He came, as you know into a family that had nothing. He was born in a little hut that did not even have four walls - only three. He carried this humility with him even though he became your President. When he spoke the words that your school boys memorize (The Gettysburg Address) he thought that he had failed, so humble was he and so unable to judge himself correctly. He, great soul that he was, limited himself to the thinking of the people at his time. They were not able to understand that they were expressions of the true GOD-Self within. He was still in the thought of man separated from GOD stumbling in the dark and trying to find his way. He carried the burden of uncertainty through the horror of brother fighting brother. And yet, he knew one fundamental fact; that GOD did not mean for any man to be enslaved by any other. He stood on this which he knew and moved forward. Although he was President he felt utterly inadequate; but he knew someone had this work to do, and he did it.

How to be a leader and know that you must lead and still remain humble is your big question at the moment. Knowing that you are nothing of yourself makes you humble. Knowing that GOD alone speaks the Word, breathes the breath, lifts the finger, moves the feet, causes the heart to beat and the blood to circulate, that GOD alone is thinking that which you are, should remove from you any cause for pride. Knowing that every man sooner or later will achieve everything that you ever have achieved or can achieve in time that which anyone else is achieving should keep you from needing to be jealous.

Let us forget the Earth-self, the human self and be the simple clear channel that the GOD-Self may flow through to the glory of GOD - not to the glory of the Star as a star, the Sun as a sun, or you who are suns too in your own right, not to our glory, yours and mine my brothers and sisters, but only to the glory of the All. As you sit here as a group, all of you make up a whole. Let what you do be to the glory of that whole not to the self since you are operating as part of the whole. When you work as part of a symphony, an orchestra, a choir, a club, or a city, let what you do be to the glory of the whole,

not for your own personal pride. Maintain that selflessness of nothingness which you know any separation from the GOD-Self to be. The ancients used to think of GOD, the ULTIMATE, the ABSOLUTE, as a no-thing. This was because their concept of a "thing" was on a level so different from that which GOD truly is, that they could not perceive the actuality of the thing which GOD is. Be that no-thing yourself so that GOD can be ALL of you.

I have come to bring you this lesson of humility, for that is the lesson that I am learning. I follow my brother SOLOGO who is the Big Dog. I am the Little Dog. I am in this way bringing to you a means to remember the characteristic which I wish to impress upon you. If you feel you need more of my quality ask for my Light, my presence and my help. I will try to impress you with what you need to do. I will try to point out to you wherein you are not achieving that which you desire.

In Love, send forth the true Light of the FATHER-MOTHER. In self forgetfulness, let the FATHER-MOTHER alone be you. Be so aware of GOD, hold GOD so much in vivid remembrance in every moment of your activity, that you do not think of yourself or your limitations. GOD has no limitations. GOD will supply your needs.

I know that this is a very advanced state that I am teaching for you. Of course you cannot achieve it tomorrow but you can begin, and you can try. You can remember as often as possible. Gradually it will grow within you. With the forgetfulness of self and the remembering that GOD alone acts through you will come the enlightenment, the illumination, the opening of the skills, the memory of the powers, the ability that you desire. You can then use the powers in the Will of GOD harmlessly. Were you able now to do the things which you desire, you perhaps might cause more harm than good unknowingly. First you must learn to let GOD alone work through you.

My dears, I am still learning this and I am ages upon ages older than you are. I came out as a spark from the Infinite Mind so long before you did. You cannot feel jealous of me. You cannot feel hard toward me because I have suffered and grown, learned and developed for so much longer than you have, can you? Then do not feel unhappy toward anyone who seems to manifest more of some trait that you would like than you do. Just remember that GOD is the one who is manifesting that trait and not they themselves. Love the GOD Power, the GOD Love, the GOD Light shining through them and be happy that you have learned what you have, that your feet are on the path and that you are going forward.

I, your Brother and Sister Star, Procyon-Procyna, would sit at your feet if you could imagine me so, to show in symbolism that the higher we seem to go the more we realize the Allness of GOD and the nothingness of anything else SOLOGA, Beloved ones who are moving forward! The path of Light is full of joy if you will make it so, or full of pain if you turn your backs on the Light. Come upward with us for we yearn to lead you and help you. SOLOGA! We are all in school together learning how to let GOD shine through us. 11/10/62

It is in keeping with the determination of Procyon to teach humility by example that due to mechanical failures of equipment and various other confusions this discourse should find its way to be the very last of the Twelve Stars in our publication. This message contains the key to basic applications of the fundamental statement of Jesus, "I and my Father are one," upon which New Age progress is founded.

In the meditation following this discourse the Onlooker observed many shadowy people sitting on a glassy pavement. No one was using a chair. All were sitting on the pavement so that no one was higher than anyone else. This was a symbol of their feeling of true humility. The pavement and the air were all white with a touch of gold, but the people were like violet shadows to symbolize their self-effacement. All sat like Buddhas in deep meditation. It was explained that the Buddic posture was originally a symbol to remind men to strive for humility but that over the centuries of man's imperfect understanding that meaning had been obscured.

The Onlooker asked what they were doing and if there was a leader. They thought back the answer that whoever first thinks of a project acts as leader until it is completed but he does not think of himself as leading for he knows that GOD alone leads and he is but the tool for the activity. The Onlooker then asked what GOD was performing through them. They were sending out thoughts of Thanksgiving to Earth in preparation for our special day of Thanksgiving. One would think of a type of person then all would concentrate on helping that type, thus sending healing or inspiration to a whole group of people at one time. One suggested those who were only concerned with a big Thanksgiving dinner. All then sent to these people thoughts and feelings to turn their minds from the food to all the other things for which they could be grateful. Another suggested hungry unhappy children. These they consoled and comforted so that they felt loved and fed. In complete self-forgetfulness they sought out the tastes or needs of others and tried to love them as they wanted to be loved.

PRAYER PEAKS FOR JUNE, 1963

IXUTEL: Beloved children of Light who are our messengers and focal points in the physical plane of the Earth's vibration, we who serve you from the Realms of Light must share our joy with you that so much has been averted and so much accomplished. You are growing more useful continually. Since the tremendous outflow of power reaching you from the Central Sun, LIOLIA, at Easter most of you have experienced a general uplift in conditions. You feel better, are happier, and see things more optimistically. You have been trying to build the truth which you have been receiving into your life; under the Golden Beaming of LIOLIA this truth has taken a deeper hold upon you and is manifesting its harmony in your outer life.

Those of you who are alert to the undercurrents stimulating the efforts of the various peoples to strive for a greater expression of GOD'S liberating power within them must be aware of the need to send Light to your southern brothers

who fear the black race and try to hold them in subjection. In the South a heritage of fear has kept the white people demanding a lordly position which clouds their thinking and feeds their egos. GOD is no respecter of persons, of race or of color. To the ALLNESS OF THE ALL each race is priceless; each is the offspring of the MOST HIGH. Each must be given its right to progress. The law of Karma will demand payment from the oppressor. Those who are now fighting their colored neighbors will be required to return to serve them or to suffer like oppression in some other place and time.

There is another element to compound this situation. One living within your borders who has seeming power to attract through the baser motives is preaching hatred for all white men right here in your own country and drawing an ever greater following from among the black race. Let us be faithful in sending Light, Love and Peace to this whole race problem wherever it manifests itself whether in the United States, Africa or any other area.

Your President needs the continual support of your love and prayers. His hand has been withheld that the people of your country may awaken and demand that laws which permit great numbers of little children to be jailed be rewritten and that the Federal Government stand behind its own pronouncements. When your troops moved into Arkansas in a similar situation and the National Guard sent to another State the cries of "Shame" were so loud that it was apparent that the people of the United States must awaken more fully to the greater shame of denying any man equal rights in your nation which is dedicated to freedom for all men everywhere.

It is imperative that your broadcast of Light, Love and Peace be continued with great vigilance and power to all who desire to overrun or infiltrate any other nation for the purpose of imposing the Anti-Christ upon them. Again we request that you speak the Word strongly to all who reject GOD and the Messengers of the Christ who serve you. China whose leaders are determined to prove their power is still the greatest psychic blows of hatred and negativity at the rest of the world even though their outward efforts at aggression are somewhat restrained. Since your nation has been taking so strong a stand against China's entrance into the United Nations it receives a large share of this projection of anger and jealousy.

Continue to send peace to the flow of atoms and magnetic currents within the Earth and its aura that the process of stabilizing may go forward. The greater crises within the Earth's structure have been passed for the time being but still further balancing and relaxation of tensions is needed.

Beside these we call upon you to be continually studying the currents of human thinking and speak truth powerfully to all discord and hidden undercurrents of error in your environment. Let your prayers and decrees for yourself expand to include all others in your environment and in all the Earth.

POEMS BY RUTH OF MIAMI

CLICHE

In modern poetry they say
The use of "God" is old and trite,
Outworn, old fashioned, just not done.
Poor taste to dress inferior words
With reference to Deity
And hope to gain expressiveness
Through crass appeal to
What most men feel too
Emotional!

Hm-m! Quite notional!
When all "they says" are utter nonsense
Men still look up in common sense,
Up to what the sages teach,
For man must grow and man must reach
The highest dream he can envision
Or try again.

As well say it is trite to eat,
Worn out to laugh, poor taste to sleep!
Leave out GOD?
You wipe our man!
What's left to reach?
What's left to seek?

SONG IN BATTLE

Above the roar of battle round the world
 Arises song
Which shall re-echo through the vault of time
 And roll along
To tell how men in agony of war,
 With fiery rid,
While driving evil down the slopes of death
 Have walked with GOD.
A Hallelujah Chorus so profound
It leaves no room on Earth foe
 hostile sound.

TO GOD ALONE THE GLORY

GOD IN ACTION

Green of waves and white of foam,
Ships that sail and men that roam,
 GOD in action!

Little birds that strive and cry,
Cultured minds that wonder why,
 GOD in action!

Rocks reposing on a hill,
Day so busy, night so still,
 GOD in action!

Deer alive to mating call,
Suns and planets whirling - all
 GOD in action!
