

LIFE LOVE LIGHT LAW - LIOLIA ALLELUIA!

EVOLVEMENT IS INEVITABLE

RA-MA: MY beloved children, little ones in MY LIFE, cells in MY BEING, atoms in MY EXISTENCE, cherished thoughts in MY CONSCIOUSNESS, I, RA-MA, speak to you. I come to give you hope and cheer, to tell you that I AM conscious of each most minute particle within this whole galaxy which is MY BODY of physical expression. I AM keenly conscious of you, MY children.

I have been giving you symbols of MY relationship to the One who has been introduced to you as IMMANUEL, the Lord of the Sun of your Solar System. He is part of ME and acts as mediator between MYSELF and you - not that a mediator is necessary for you also are part of ME. Even as you are part of IMMANUEL, IMMANUEL is part of ME. In like manner the cells in your body are part of you. To the cell within your body you are the Father-Mother. Then there is within that cell a myriad of tiny consciousnesses which think of that cell as God.

Man is now stretching upward, yearning to reach as high as possible. It is his reaching above, beyond, and through to the highest he can conceive, which has helped him to receive MY EMANATIONS and MY COMMUNICATIONS.

Beloved Ones, I AM FATHER-MOTHER to the SUNS of this galaxy even as your Sun is Father-Mother to you. The word, sun, and son are really the same. Son to you means offspring of a father and mother. The upward reaches of the Father-Mother-Son thought are infinite. That which the Isrealites thought of as God was a bright spirit sent to be their guardian through the early days of their development. When Jesus came He brought contact with a higher Father whom He called God. This is the one that has been introduced to you as the Lord of your Sun.

Now at the end of the second age and the beginning of a third in steps of higher contacts, you are able to receive a thought still higher - a Father of Fathers, or shall we say a Father of Fathers who was Father to your Father. This sounds somewhat like a family tree does it not? Instead it is really like a stairway. As you climb from one great step of achievement to another, you reach higher understandings and are able to receive within your bodies higher and higher emanations.

May I repeat that which was given in an earlier message to your channel for confirmation and emphasis. The new arc which you are entering is not an arc of space; it is an arc of consciousness. The New Age is not simply a time when the Solar System passes through a certain sign in the sky. It is an Age in which the whole

solar System passes into a higher stage of consciousness, of evolution. This is inevitable. No man can stop it; no man can force it; no man can be blamed for holding it back. No man can be praised for achieving it because it is a gift - a gift of Light which is given to a race at the time prepared for it.

Can any of your children add one inch to their growth? When the time comes they achieve manhood and womanhood, but this is the gift of God in patterning the individual. It is not due to that which the individual has earned for it comes to all alike. So, you, MY beloved thought in the purity of MY MIND, are growing and have achieved a period of blooming. You have come into a higher type of flowering. I cherish you as such. I tend and cultivate you in the depth of MY OWN MEDITATION. I call upon that ONE whom I know as MY FATHER to pour HIS LIGHT through ME to help you in this growth.

Perhaps you tend flowers; perhaps your hands hover over them in love; perhaps you glow in love upon them. So, beloved flower of MY THINKING, I cherish you; so in love I glow upon you. Draw near Me that I may lift you. Let go of the old, the wearisome, the difficult, the discordant. Let me draw you upward into the Light. Did you ever try to lift a child who had grasped something so tightly with its little hands that you could hardly lift it upward? So man grasps not only his physical pleasures but his physical ignorance, difficulties and disharmonies and clings to them in such desperation that WE in power can hardly draw him upward unless he releases that which is only a weight to hold him down.

From MY HEART to your heart there is a strand of light. With this I draw you upward as you are prepared to move. You are ready now, MY Beloved. Be not afraid, but come. Come in your meditations; come in your heart. Lift yourself toward ME and I shall lift you into MY HEART so that you may know it consciously. Always I have maintained and sustained you in MY CONSCIOUSNESS.

The channel is trying to visualize the extent of MY CONSCIOUSNESS. I shall take this as a question and answer it. All consciousness is One. No matter what the evolution, no matter how high or bright the spirit, ALL CONSCIOUSNESS IS ONE CONSCIOUSNESS. At My level of understanding, I am still seeking the HIGHEST OF THE HIGH, the ULTIMATE OF THE ULTIMATE, and drawing down from the SOURCE OF ALL the light to give to MY CREATION.

Since all is one consciousness, when you come into touch with the ALLNESS, with the consciousness of the ALL, you have come into touch with all that is within that consciousness. Know that you Know. I repeat, know that you know! This is the key that unlocks your awareness of that which is held within the infinite ALL-CONSCIOUSNESS.

I leave the channel with MY LOVE to you, to all mankind, and to all units of consciousness within the scope of your understanding. Love - love - such ineffable love MY FATHER gives to ME to pour out upon the Solar System of MY Son, IMMANUEL, and all within it, including your precious and lovely selves - bright shining

stars within MY galaxy of Stars. I love you. I LOVE you. 5/11/62

ONENESS IN SPITE OF DIVERSITY

John, the Apostle: (speaking directly after the above, our first voice channeling from RA-MA.) I, your brother John, would kneel with you in adoration and gratitude for the blessedness of this gift. That One so high, so pure, so perfect, so complete and whole, therefore so holy, should make it possible for you and I on our plane of development to receive His Word is a treasure beyond price. They give me the title of Master, but I with you and with the whole Solar System am also entering this new arc of consciousness for the first time. Therefore I treasure this moment which we have shared together. I know that you, too, will treasure it.

To those who lived a hundred years ago, this would have seemed unbelievable, impossible, quite incredible. But so rapidly do we mature when the exact right moment comes! Oh, my beloved, our hearts are bursting with joy, gratitude and love as we receive the emanations from this great Father-Mother of Father-Mothers, our beloved Central Sun, RA-MA. God is indeed with us.

How appropriate the name which was given us - Immanuel. Jesus was called IMMANUEL because to his disciples he represented God with them. Now Jesus, we his disciples, other great Forces of Light and Angelic Beings stand with you while IMMANUEL, the Lord of our Sun, brings to us the Father of Fathers and is now "God with us" and the interpreter of God to us. No amount of devotion, of giving of self, will repay these Bright Ones for what they have done for us; but we can live each moment as best we know how in this wonderful new life that is beginning to dawn upon us.

I have sometimes called myself teacher; I shall no longer accept that title. I am only brother to you as we sit together at the feet of IMMANUEL to learn of the FATHER OF FATHERS, the MOTHER OF MOTHERS. Together we have a long way to go. Let us stand together in unity.

There is much that would divide us. There are many tests and many temptations which arise out of our adjustment to the new arc of consciousness. Our beloved Jesus told the story of a father who invited many guests to his son's wedding. One was going on a long journey and could not come. Another was building a house and would not leave it. Still another had married a new bride and would not leave her. So man is confronted with situations to test the strength of his convictions and of his desire to move upward. If he can be deflected from his purpose by such things as journeys, new houses and new brides then he is not yet fully ready. Jesus said, "The gate is narrow and few there be that find it." Now indeed has the beam of light narrowed to the Beam within the beam but together, my beloved, we shall find it and rise on the strength of the attraction of this great love that is being poured out upon us.

Yes, we are tempted by many things, by confusions, misunderstandings, diversity of ideas, diversity of reception, many different

names and seeming contradictions. All of these would apparently divide us just as man has been divided into many religions and many sects. But the thought of the new day is Oneness. This is the foundation stone to which we must all cling together.

If today you are told one thing and your neighbor receives the exact opposite and you think, "How can this be? One of us must be wrong," put it aside and know that each has received what he was given for a purpose. In the right time and the right way that purpose will become clear. At the present man is presented with this problem, this next step in the stairway we must mount: Unity in spite of differences, oneness in spite of diversity - one out of many. Opposites must be brought into balance; they must be seen to complement each other and not to divide.

Let no word that anyone may speak, no thought, no seeming appearances, no confusions disturb your firm knowledge that we are all one in God. Cling to this; let this be the rock upon which you build. In any kind of tempest, any trial, any seeming catastrophe or great trouble always return to this fundamental precept that we are One in God, that all consciousness is One Consciousness. Climb your steps in the light of this fundamental Law of the Universe.

As I stand with you, I would pour out to you the most tender and solicitous love of a brother, for it is love that binds us all together as One. SOLOGA! Beloved ones, let us move forward in the knowledge that all is ONE. 5/11/1962

Since the presentation of Jesus-Mary as one and the evident need to express a masculine plus feminine which is not neuter we have found the use of existing English pronouns inadequate. We take our courage in hand and announce that in the future when referring to such beings we will use the pronouns for the two genders combined. He and she will be written heshe; his and her will read hiser and him and her will become himer. We hope you too will have fun with trying these out. One of us thought this could be made into an interesting monogram thus: HESHE.

ALL IS UNDER CONTROL

Ixutel: I would like to speak on a subject which has been recently brought to the fore in your city by the recounting of various prophecies which have frightened and bewildered many. I would like to set your minds at rest. There have been many catastrophies prophesied. Much distress has been caused; much fear has been generated in the hearts of many by these prophecies. Many have practiced their discrimination, come to a sense of equilibrium, and have used the stimulation of these prophecies to make peace with themselves.

Some may say these prophecies should not have been given. That is like a mother who keeps the scissors away from her child for fear that he will hurt himself; and yet, sooner or later, he must learn how to govern the scissors and make them serve him. Through

the ages fear has been used as a whip to drive men to obey will. Tyrants have used fear to oppress and to enforce their will.

Oh yes, there are many tyrants abroad in your enlightened country. You have a democratic government on the surface, and yet how many individuals desire to tyrannize, oppress and dictate! How many wish to put their will, their interpretations upon their neighbors and demand that they accept them! Fear is their weapon even now; and yet fear has its usefulness. Your textbooks say that without a healthy fear you might not protect yourselves. You might do foolish things, fall off precipices or go beyond your depth in many ways.

Just as you have been tested in hundreds of ways ever since man came into expression and through those tests have learned and grown, so man must continue to experience trials and problems. Many ancient prophets spoke of things which came to pass but others spoke of things which, in your physical history, did not materialize. Any prophecy is contingent on so many factors which the man making the prophecy cannot foresee. Even Jesus spoke to his beloved disciples in such a manner that they thought that he would return as a physical king before they died; but this still has not happened.

Are you not aware that the Christ has had his second coming in your heart? Have you not accepted Him thus? Have you not had personal contact with Jesus in visions, in words, in vibrations and in touches? Have you not personally experienced Him? If then Jesus could give an impression which has persisted for 2000 years and has not yet manifested, is it not possible that it is difficult for anyone on any plane to pinpoint the time of any happening? When a seer like Jesus pictures the end of the world, does that mean that all this must come before God's plan has fully materialized?

There have been times of great crises in the Earth's development; such a time is now, and there will be other times. The prophecies of dire catastrophies serve this valuable purpose: they plowed the ground, they shook man, they awakened him from his lethargy and called him to expend himself, as he should have been doing all along, in making peace with himself, in finding his own contact with his God, and learning how to work with the forces within his grasp.

Yes, twenty years ago, ten or even five, we might have said that the Earth could explode; but I, Ixutel, come tonight to assure you that we have things well in hand. There will be the local disturbances which have always been present to some extent. There will be the storms, the earthquakes, the shiftings, but these have always come and gone. There is more disturbance now than you would consider normal. We are so grateful that all the Forces of Light including yourselves by working together have been able to hold these disturbances to a minimum.

No, my beloved, the greatest shakeup will come within the mind of man. The greatest readjustments, the greatest earthquakes, separations, tearing down of the old and building of the new will occur

in the spiritual concepts of man leading toward his further unfoldment. Man must crack the stony tomb in which he has lost himself and ascend into the light of the higher consciousness. It is this which is shaking the old Earth to its foundations.

I would have you be at peace. If you are fearful, we cannot use you as we have been doing so forcefully. I would have you spread the thought of peace; I would have you calm fears. You have heard that it would be said, "Lo here and lo there," "Run this way, run that," "You may be safe here, you may be safe there," The only real safety at any time anywhere is to be found in true at-one-ment, in true Christ Consciousness. I would say to you be at peace where you are, and calm fears wherever you find them.

As scientist in charge of certain advanced manipulations of light with regard to strengthening the structure of the Earth I can assure you that at present all is under control. We see no sudden world-wide catastrophies in the near future. However take this as all other pronouncements. It is safest to be prepared in your mind for any eventuality.

The Grim Reaper does not wait for catastrophies. Hundreds - yes, we might say thousands from a global aspect - pass everyday from the physical expression into the freer, unlimited universe. All have to be prepared to meet this. Having made your peace with yourself and with God you are ready for anything. Having received your life from God and given it back to Him in His service, can you not trust Him to do that which is right for this globe and for all within it and upon it?

The true way to make peace with yourself is to fully accept the goodness of God. Is that so hard? Did not the ancient peoples understand that God promised that never again would the flood be repeated? And has not this group seen rainbow after rainbow in meditation to remind you of that promise? Then stand fast in that which you know and be a column of strength to hold the temple of God in order and peace. Peace be unto you, each one personally, and peace be to this planet in every expression. I, too, would like to use the precious Word, SOLOGA! The power of God holds this planet in order and harmony.

In the meditation which followed this lecture, the Onlooker rose with all the group through the darkness of the material sky into the soft gold of the Realms of Light. There we were joined by many others who blended with the group and accompanied Ixutel to a vantage point for observing the Earth. Ixutel seemed to be twice as tall as we were but we knew this was a symbolic representation of his stature as a scientist. He showed us how the force of light was being applied to hold the ocean floor steady under the shocks of the atomic testing. We were shown the symbology of two great hands laid down over the surface of the Pacific but still the water would spurt up between the fingers. Then the hands were laid over over the mountains, one in South America and one in North America,

but the Earth buckled upward in the region of Mexico City. Thus we understood that something had to give somewhere. We were directed to see the excess shock waves being led off through the Earth northward under the ocean and out through the Polar ice. We were told to visualize all coasts held in light as protection against tidal waves which these shock waves might cause.

Later the whole group was taken still higher by Angelic Forces. This time Ixutel was of our size showing that he knew little more of this more advanced manipulation of light than we did. The Angels took us so high above the planet that we could see the beams of God Light streaming down to stimulate the Earth which was being awakened to turn and twist and shake herself under their influence. We understood that these beams were so spiritual as to be entirely undetectable with our present instruments. We were told that the Earth is feeling the same bodily stresses as a channel may feel when being prepared to receive from higher forces or for a step upward in some way. The Earth is being cleansed, conditioned and harmonized with these new vibrations encountered in the new Arc of Consciousness which we are entering.

On the morning of the day preceding the Mexican quake, Clara awoke to feel the Earth tip and tilt under her and then rock back and forth as if settling back after the initial shocks. She was impressed with several pressing needs at such a time: a pure water supply, proper sanitation, the reestablishment of communications, and proper selection of the most needed articles for the emergency. We thought at first that this had to do with the earthquake the next day. Later it occurred to us that men have always realized these four needs at such times. We hunted for some more spiritual interpretation. If man's being is shaken by devastating spiritual upheaval would he not need to look to satisfying these same needs? He must have the living water of the new truth to drink; he must eliminate the prejudices and dogmas no longer serviceable; he must reestablish his communication with God from within on a firmer basis; and he must select only those things to take with him which will really be of use in his readjustments.

A NEW NAME FOR THE CENTRAL SUN

LIOLIA: I have been sending forth the LOVE which is MINE from MY FATHER-MOTHER in greater and greater amounts all this week. Each of you has been under a constant beaming of this new LIGHT. Shortly you will begin to note an added vigor, a clearer thinking, younger seeming bodies and a higher standard of health than you have ever experienced before. You are MY channels for the LIGHT which I AM sending. This one small group are not MY only channels for I use all whose bodies are sufficiently attuned to be usable. However, you are conscious channels already attuned consciously to receive from ME and prepared in your class groups through gentle steps in the raising of vibration so that you may receive and pass on that which is to come into your place of expression from the very center,

the central thought, the vortex of force of the LIFE and BEING which is yours in this galaxy for I AM yours even as you are MINE. Indeed, I AM you as you are I.

So much thought can be based on that saying of your wise men, "As above, so below." Any thought that comes to your mind can be applied universally through all levels. You may think of ME as a macrocosm, a great Oneness including the whole Galaxy, in which you are a microcosm. Then I am the above and you are the below. But remember that that tiny cell within you is also a macrocosm to an infinitely smaller solar system within it; and again, the cell is the above and that minute microcosm within it is the below. Your concepts and your senses reach neither extremity; no limit in the infinite small and no limit in the infinite large, for all is one. In the oneness of the all, all is accommodated to everything else.

In an attempt to help you understand the relative positions of yourselves, the Sun and the Central Sun, we have pictured yourself as a tiny mite of three inches and your own Sun as a tall Being perhaps a half mile high. Then if you were to picture ME in such a comparison, you would have to put that which had been a half mile high down to the scale of three inches and place ME, the CENTRAL SUN, in the position of the higher.

When it comes to being children of MY FATHER, a SUN beyond MY BEING, again WE are as one. On your level of thinking it is almost impossible for the mind of man to conceive of being one with that which he calls the FATHER OF FATHERS, or the GOD above Gods, or the HIGHEST OF THE HIGH, or that which is completely beyond the reach of his conception. Yet in reality, MY beloved children, you are more one in thought with those above you than you are with those sitting beside you. It is easier to think of the God within you, is it not? than to think of your neighbor who is sitting near you as being within you, or you within that one. That may be a little difficult for you; and yet this is true for all are in all; all is in ALL.

The Oneness of the Cosmos is so complete, so perfected, that it is beyond the thought of the illusion which to you is imperfection. You see yourselves separated from each other by varying ideas, habits, feelings, races, colors, beliefs and emotions. Someone has said something which insults or hurts you and you want to withdraw. This is because you sense separation. When you have risen above the sense of separation you will know that no one can hurt you. What they say that might hurt you they are saying of themselves - not of you but of themselves. You are not to send it back to them for then you have returned their hurt. Instead you will think, "I draw this their hurt into me and transmute it into God's Love. I give it back as love, not as blame, accusation or hurt." On the higher levels Oneness is fully understood. It is only in your veil of illusion that you feel that anyone can hurt you, or that you do not like someone, or that your vibrations are not compatible. If you meditate until you fully understand the allness of everything within the galaxy, you will understand that the one who seems to have hurt you is God,

the Father-Mother, giving you an opportunity to learn to love in spite of outward seeming.

I call you, MY beloved, to a higher understanding of service through love. If you love only those who love you, what reward have you? Your Wayshower asks. He said, "Love your enemies." and man has tried, but he has not understood how. When he has forgiven and spoken words of love, he has patted himself on the back and thought, "I am being really good;" but until he has learned to draw all the hurt within himself, transmute it until there is no longer any hurt, and send it back as the pure fire of holy love, he has not risen to that vision of love which the Mother, the feminine Ray, is to bring to the New Age. This I am saying, not to point out faults, but to give you an assignment, a vision of where you are to go from where you are now.

When your Mother-Thought, IMMANUELA, said, "Come into My heart," She meant deeper into the heart of Love, the true God-Love. This message comes to ME, RA-MA, from MY FATHER-MOTHER and I pass it on to you through IMMANUELA, THE Mother, through Mary, the Mother, to the Mother expressing in you on Earth, for each of you in the spiritual concept is a Mary, bride of the Sun of God and mother to the thought of God. Each one of you through the feminine expression has an opportunity to lead man into a higher concept of Love.

I pour out the Golden Beams of MY LIFE, MY LOVE, MY LIGHT and MY LAW both directly and indirectly upon you, directly from MY HEART to yours, and indirectly also through all those who bring you MY LIGHT through their channelship. LIFE, LOVE, LIGHT, LAW - four expressions of the letter L; from them I shall draw for you a new name to be used for ME. Last week I gave you a very ancient name known to the Atlanteans, RA-MA. Now I shall draw a new name for Earth people from these four words. We will shorten it a bit. Remember it is a symbolic name. To say Life, Love, Light, Law would be awkward and cumbersome. We must make it short and musical. We will say for Life and Love, "Lio"; and for Light and Law, "Lia." LIOLIA. Lio is the positive and Lia the negative. LIOLIA, a soft, sweet name in your language, soft as a gentle breeze carassing your cheek, soft as the touch of MY LOVE upon you.

With this name I give you the four which is a fundamental number for your expression on Earth. You have four seasons in your year, four directions of your compass, four divisions of your zodiac into triplicities, four kingdoms, and four elements. Many fours you will find in your life. Your own group was given the number thirteen. This means the one expressing itself through the three. As the Central Spiritual Sun of the Galaxy, I, LIOLIA, express MYSELF as ONE through THREE, a three-fold flame of FATHER-MOTHER-CHILD. Each step below, each Sun of MINE all of whom have Sons who are Suns, expresses himself in the same one-as-three. This number thirteen, one and three, in the ancient language of your symbology is the value of words meaning Love and Unity. One and three combined make four which is the solid foundation, the rock of union with the Father-Mother.

In MY NAME, LIOLIA, I give you this number four of solid foundation in Light and Understanding, that as we draw together in close, conscious communion, you may know ME without doubt and without fear as the ALL upon which your feet rest, all the life you have, all the love you have, all the light and the very law of your being. To you I shall be that rock, that four. Meditate upon this foursquare building which you are constructing with MY LIFE, MY LOVE, MY LIGHT and MY LAW. As you meditate on this, I shall pour MY LOVE into your heart, MY UNDERSTANDING into your mind, and there shall come into your being LIGHT which is beyond expression in your Earth words. This is MY COVENANT with man of Earth: LIOLIA, I give you LIGHT which contains all colors of the rainbow as seen in MY BEING - a new covenant for man of Earth, a covenant of at-one-ment and understanding. I bid you SOLOGA, meaning, "MY BLESSING rests upon you now"

THE PEARL OF GREAT PRICE

Jesus: I, your brother Jesus, stand with you in this Divine Light of the Central Sun. I worship and adore with you. Is it possible for you to understand how fortunate you are? This experience which you are now having of a conscious contact with the Great Spiritual Central Sun was not possible to my disciples at the time of my incarnation as Jesus of Nazareth. The Earth and the Solar System had not risen to that arc of consciousness where such contact was possible.

I know your humility; but I would quote for you that which was said of my dear Earth mother as they prophesied concerning me at my first ceremony as a baby in the Temple, that she hid all these things in her heart and pondered them. I would not have you take this contact too casually. I would not have you speak proudly concerning it; I would have you remain your same sweet, humble selves; but I would have you consider this contact as the pearl of great price that the man found in a field and sold all of his possessions to buy.

Yes, indeed, the pearl of great price! - consciousness of at-one-ment with the whole Galaxy, consciousness of identification with every unit of consciousness in the greatest macrocosm you can conceive and the tiniest microcosm you can imagine, complete unity with each other! When you love one, you love all. When you smile at one, you smile at all. If you love an Earthly dear one, in that love you are giving to the whole Galaxy. In receiving love from that dear one you are receiving love from all, even from those who imagine they are your enemies. So much is hidden, my brothers and sisters, from the little Earth part of you. You are living in other dimensions as well as on your seeming physical plane. In these other dimensions you know there are no unpleasant words, no scoldings, no criticisms, and no denunciations.

In my time of crucifixion my Earth expression said, "Father, forgive them for they know not what they do." Had the Earth expressions been able to understand, I would have said, "This is the Love

of God expressed to me through these my seeming enemies. This is God giving Himself to me that I may grow." There can be no enemies; there can only be God expressing Himself to you for the purpose of helping you to a higher understanding. You know how small the little things that trouble a baby seem to you. To your higher self you're like the baby; that which seems to you so distressing, to the higher self is completely wiped out by the more mature understanding. by Love and Light.

Now I say to you, God bless the whole animal kingdom; God bless the dear little animal who could not resist the love poured out upon it. (This refers to a tiny dog which usually stayed in another room but insisted on being with the group on this evening, and sat by the channel all during the contact with LIOLIA.) Just as you share in the Love of the Central Sun, so everyone regardless of what you call sin, or state of evolvment is sharing in this same Love of the Great Spiritual Sun. The little one is yourself expressed for yourself, for the only self you have is God who is ALL; therefore you are one with the little one. This little one could not resist the attraction of the ONENESS and you were guided to let it share.

In your thoughts identify with the grains of sand, with the mineral kingdom and learn from it, for it is God speaking to you. Identify with the vegetable kingdom. The eating of the vegetable is a symbol of your identification with it and of its identification with you. When man no longer needs the symbol of identification in this manner, he will no longer need to eat for it is purely a symbol. Identify with the animals and with the unseen servants about you. Identify with each other, with the lower as well as with the higher. Some of you feel that you have taken a great step in attempting to understand your identification with God, with the Christ within; but to really reach the Golden Light of the New Age of the Central Sun you must enlarge your thought of identification to take in all that you experience either in thought or in the physical expression.

I give you all the Love that the Great Spiritual Central Sun gives me. All that I am and have is yours, for I am you and you are I, and we are one in the closest closeness that you can conceive. This has always been so whether you knew it or not. Coming into the Christ-consciousness is merely your awakening to the full truth of what is and has been. SOLOGA, my beloved! Each one of you is MY very Self.

IDENTIFY WITH THE WHOLENESS OF THE WHOLE

LOVARI: (the feminine Ray of the North Star.) In the Light of that ONE who has given you the name LIOLIA, I, LOVARI, am your sister - your sister in Light. In the ONENESS OF THE ONE, I am you and you are I. Together the whole Galaxy moves forward into a greater outpouring of Love from the Heart of the Mighty Spiritual Central Sun. The Galaxy revolves around this Great Vortex of Love, of Life Force, of Light, according to a higher Law which was given to our Central

Sun and which governs all within the Galaxy. Even as your ten commandments were given to Moses, the leader of the people, so the Laws of Harmony and Order within the Galaxy were given to the Central Sun By Hiser Father-Mother. We all respond as one to these emanations. As IMMANUEL-IMMANUELA receives and passes on the Bright Shining of our Central Spiritual Sun, so do we, those twelve sustaining Suns who have come in thought to help IMMANUEL-IMMANUELA make the step upward which is Their right at this time.

The feminine Ray is being accentuated not only by Mary and IMMANUELA but also by all the Suns whose Light reaches you; therefore, you were given this sweet, soft, gentle Name, LIOLIA, for the New Age to bring through the gentleness of the Golden Light in which you are now bathing. WE, too, are bathing in the same Light and so is the whole Galaxy, for it has taken its step upward and is receiving through the Central Sun the higher emanations from the FATHER-MOTHER of that Sun. Therefore I, LOVARI, a Star situated in line with your North Pole for the balance of your planet and on an axis directly opposed to another Star opposite your South Pole, I, who have held that position and have poured into your planet certain controlling and balancing emanations, do call you My brothers and sisters. In the Light of the Great Spiritual Central Sun who is My FATHER-MOTHER I, too, yearn to learn to love, as you are being challenged to do, on a higher level as the Sun of My Solar System.

No one who has been giving forth the WORD has yet been able to understand the full inevitability of the coming of the Mother Ray or its meaning to the New Age. I would have you ponder this for the responsibility is yours. Yes, I call you to a greater realization of the importance of the Feminine Expression. This importance is a fine, high, spiritual thing. It does not mean that women are to take over your society, that it is to become matriarchial, or that they are to become Amazons. Indeed not; but with the understanding of the higher feminine you are in a position to send forth the spiritual Mother-Love to all upon whom your thoughts may rest. Neither does this mean that you have to go around embracing people, picking up after them, or using "smother love." It means that you give yourself in compassion to the radiating through your body without hindrance, without limitation, the Mother-Expression. Neither does this mean that women are now called upon to have more human babies. It means that you take all into your heart as your spiritual child no matter what kingdom, age or level. Have you not seen a dear little girl child mothering her father, hovering over him with a mother-heart and wishing to love him with the expression of the feminine God-Love? There is no one whom you cannot mother in this manner in your thoughts, in the true wisdom of Love, and to this I, LOVARI, call you.

I would have you note that there are eight of you in this group session. Eight is the doubling of four. Eight is also the number used in universal symbology to represent infinity; therefore, your four expanded become infinity. I call upon you to send the Love of

LIOLIA in the Feminine Ray out into infinity. Expand and identify with the WHOLENESS OF THE WHOLE, and know yourself to be truly One with all of US, the Great Brotherhood of SUNS. Sons of the Central SUN. SOLOGA, my brothers and sisters under the Godhead of the Galaxy. We are one with all there is. 5/18/1962.

THE ETERNAL PATH OF EVOLVEMENT

1. I eat! Yea, I take into my body everything of Earth and of Heaven!
2. When I spend concentrated moments in meditation partaking of the food of Spirit, it enters into all phases of my being.
3. After the digestive process, I retire and eliminate that the transmuted portions may pour forth as elixir to the beloved genii and all spirits of earth.
4. I eat of the fruits of nature, even all life forms that come to me as nourishment; for all contains life and is charged with the Divine Essence. After the digestive process, I return to Spirit, the formless, that portion which is elixir to Spirit, and to earth that which must return with the Divine Blessing of the One.
5. This body, then, is a channel of transmutation for earth forms and for Spirit that the balance of Being may Be complete within the Body of God.
6. The cycle is complete!
7. The Excreta is the Elixir and the Elixir is the Excreta!
8. Each returns to the Source through the Eternal Path of TRANS-VOLVEMENT!

Channeled by Madelene of Melbourne 5/18/1962

*Trans means across and volve means round as in revolve, convolvus, Volute.

HIGH POINTS IN MADELENE'S COMMENTARY

1. The body - the complete self. Everything - the positive and negative factors on all levels.
2. Enters all phases - refer to this as a particular segment of nourishment that the workings of the Law be understood in parallelism.
3. The digestive process - a constant action of receiving and of giving out - expansion, contraction - inflow, outflow. Eliminate - a Divine process in the balance of being. Nourishment is nourishment on all levels for all forms of Spirit (both the Form and the Formless) in Heaven and Earth and upon the Earth - all Forms within the Cosmos, the Macrocosm and the Microcosm. This is a Divine action working according to the polarity factors, positive and negative.
4. Fruit - the product of natural step-by-step growth that in proper sequence matures, ripens, and is ready to discharge. There is a refinement that takes place within this Divine process that

results in a quintessence within the realm of Spirit and is discharged into Spirit as elixir. Herein is a three-fold process - partaking, assimilating and giving forth. It occurs simultaneously on all levels of Spirit, the Form and the Formless, and is pertinent to all elements of being, known or unknown. The Divine Blessing is this action - the command to be a living, balancing energy within the cosmic principle of intake, assimilate and emit.

5. The body - a channel through which the balancing process is in constant action.
6. The specific cycle for the process of intake, assimilation and giving forth is constant in life eternal-alternal.
7. The elixir is the excreta for that which sustains life has been transmuted through natural processes whether it is of Spirit Form or Spirit Formless.
(Editor's note: The interchange of oxygen and carbon dioxide between plants and man is a well known example.)
8. Transvolvement - the giving forth of the Life Essence to another or the transfer of the overflow, the fruits of being, to that form which can assimilate it for sustenance. 5/21/1962

WE ARE ONE WITH YOU

John, the Apostle: I come to give you the love of all those who are gathered around you tonight. You are aware of the light in which you sit and of all of those who minister unto you. Are you aware of the hundreds who sit around you as in an amphitheater and who are projecting to you now their love and devotion?

Those who are here feel themselves to be members of the group, SOLOGA, even as you do, for the work which you are doing is operating on all levels. Your work in broadcasting, in healing and in bringing through the messages from the Suns is assisted, yes, participated in by all of us who are here tonight - Angelic Beings, visitors from outer space, from other planets and Solar Systems, members of the Hierarchy of Earth, and teachers and students who come regularly and are invisible to you - all of these feel that they, too, are members of this effort, this work, this group for the broadcasting of Light.

We come, then, to give you our thanks and our devotion to this common work. this service for God. We love you for we know how closely we are united in Oneness in the Father-Mother. We are an organ together in the Body of the All, serving as we are directed to help bring in the new ideas, the new progress, and the wonder of the union of all things, which is now being better understood by man.

I come to assure you that we are one with you. We thought that if you knew we were sending you the idea of Oneness and we felt ourselves one with you, it might be easier for you to understand and feel your oneness with us. I hope you can feel the vibration of the love and the joy, the gratitude and the devotion that

is drawing us all together in the Light of the great Father-Mother, LIOLIA. God bless us all together as we work in this Light for the good of our brothers in all kingdoms of the Earth expression.

YOUR CROWN OF REJOICING

IMMANUELA: I come to you on the feminine ray of Cosmic Divine Love, the Mother Heart of God expressing Itself to you in love and devotion. I come in great joy to bring you comfort, peace, love and joy. You have been told that the Light of the feminine ray is extremely important at this time for the balance of the Earth.

When you comfort someone, do you not make them feel better? Sometimes a child may be crying. You say something funny; the child begins to laugh through its tears and the hurt is gone. Comfort often results both from and in joy. Joy is needed in the Earth at the present time for balance. For everyone who is joyful, there are hundreds who are in sorrow. For every one who laughs there are ten who weep. For everyone who runs in joy there seem to be hundreds who limp in agony. For every one who sings in gratitude there seem to be a thousand who stumble in despair and confusion. For everyone who is happy and healthy there are thousands who are sick, depressed and discouraged. For everyone who feels the Love of God, there are thousands afraid, rejected, lost and alone. Yes, the world is sadly out of balance - too much bitterness, too much hunger, too much pain.

Through the ages those who have made people laugh have been important in balancing the Earth. Very wise men have written books and plays which have touched the heart, but always they have relieved the tense emotions of their dramas with laughter. Those who do nothing but laugh are sometimes accused of frittering away their lives, and yet their happy laughter helps to balance the whole Earth. Remember the planet as a whole is an expression of the Being of God. The planet has aspiritual life, a soul of its own. This soul expresses itself in the moods, the feelings, the actions, the yearnings of the life upon it. Some people have been ridiculed for being overweight. Strange as it may seem, their desire to eat and their satisfaction in having filled that desire is a balance in the life of the Earth for all those who are hungry. Many have responded without understanding this to the need of the Earth to balance the great hunger of whole races, whole nations of starving people with the thought of plenty which they experience.

Watch your own balance in loving. Do not be all too serious or all too funny. Let it not all be hard work, but let there be fun with the work. Let it not all be fun but let some of it be deeply devotional. Let it not all be mental; do take some time out each day for the physical. Let there be a balance.

Do not look down upon any manifestation of life. Moses looked upon man as a sinner; therefore he gave God's Law as that which sinners should not do and as carrying a penalty for every commandment.

Jesus gave the Law from a different angle. He said as his commandment, "Blessed art thou;" because you have done thus and so you shall be rewarded. Moses thought of man as a sinner to be punished and gave a law for sinners. Thus he fastened upon man the state of sinner. Jesus gave a Law of Rejoicing for what does blessed mean? Some of you think it means of God; yet the dictionary says blessed means supremely happy. Why supremely happy? You can find supreme happiness only in doing that which is good. Blessed are those who are happy while being poor for they can receive the riches of God. How can anyone know the tender mercy of being comforted unless they have needed that comfort.

Jesus' Law was the law of happiness, supreme happiness which comes when mankind has fulfilled the expectations of God for him and has earned his reward. Therefore, My beloved children, rejoice! This is given in your Bible as a command again and again. Paul wrote, "Rejoice, and again I say unto you rejoice." Jesus said, "My joy I leave with you that your joy might be full."

I have come to you particularly to ask you to think of yourself as wearing a Crown of Rejoicing. Use this crown. Wear it proudly. Be proud to rejoice. There are some Earth people who are too proud to show pain, too proud to ask help when there is need, too proud to quarrel in public or to appear with soiled clothing or a dirty face. I would have you be too proud to whimper and complain. I would have you proud to rejoice in the midst of any trial. Let it be a matter of pride with you that you can rejoice even while being tested. Rejoice that God has given Himself to you in suffering that you may be able to rise above it and learn its nothingness in God. Those who are tested are complimented in that they are considered worthy to take a step upward. Rejoice in every test; sing praises; thank God that you have come thus far and can prove that you can endure. Oh, there is such power in the rejoicing of man that it breaks down walls, opens prison doors and heals every discord!

Blessed ones who are sitting in the Light of the All-Father-Mother, that One which we call the Highest of the High! Blessed ones! Never has man had so much reason to rejoice. You are privileged above many. Many there are who yearn to be here tonight. Such privileges carry with them responsibilities; but it is really nothing hard which I ask of you. Rejoice in the Love of God which is pouring through you. Rejoice in His Light to which you are attuned. Rejoice in the Life of God which is your Life. Rejoice in His Law which works in you perfectly to express the thought of God for man. I rejoice with you. I bring you My Joy. I impel you to say Alleluia for Alleluia is a shout of joy. It is for this reason that I have given the Group SOLOGA the word Alleluia as a password. I, IMMANUELA, say Alleluia to that ONE we all look to in such love, LIOLIA, My FATHER-MOTHER and yours.

Oh, bless you, My dear ones! Bless you as you receive and open your hearts to the gentle joy and ministrations of that ONE who has

attained such control of power of the Omniverse that it can be used in such gentle tenderness for you. SOLOGA, my beloved! We rejoice together with all the hosts in the Realms of Light. Alleluia! Alleluia! Alleluia!

EXPRESSIONS OF COSMIC RHYTHM AND LAW

LIOLIA: speaking to MY Beloved SELF expressed as that which you think of as yourself. There are not words in your language to use that can bring into your thought of separation the wonderful, delightful closeness of OUR EXISTENCE together. This I am beaming to the Earth through all possible channels. Because I am beaming this sense of closeness and Oneness it will be easier for the hearts of man to open and to cleave to ME and to each other, to recognize the selfhood as the expression of the Divine Self-Consciousness.

I live and you are. I AM ALL; ALL is yourself. I am yourself. Yourself is the ALL. Know this about yourself; dwell upon it; meditate upon it; take it into your consciousness. Drive it down into the subconscious until it works the miracle of opening all the closed doors and letting you consciously understand what it means to be part of the ALL. But even in thinking of yourself as a part you separate yourself from the other parts, do you not? Therefore it is very hard for you to conceive of the ALLNESS and your Oneness with the ALL. This is a seed thought on which you can meditate, and from which you can bear fruit and evolve through the rest of your expressions. There are not years enough left to any Earth expression to extract from the thought of Oneness with the ALL, all of the power and all of the understanding which is yours through this open door.

IMMANUELA has assigned you joy to manifest. I, LIOLIA, call upon you to meditate upon the Oneness of All with the ALL. Let yourself be swept along in the current of the rotation of the ALL. Let yourself be gathered up in the Life, the Love, the Light and the Law. Swing round the cycles of your evolvment, the spirals of your rising, on the wings of the Law of the ALL. You are expressions of Cosmic Rhythm and Law. Do not fight yourself. Let yourself be as the Inner You directs. Now I hear some mother thinking, "Do you mean this for my child as well?" Of course mothers must guide and direct their children in love, but a wise mother studies her child's likes and dislikes, encourages the good, allows the child to make the most of his own inner yearnings, does not destroy the natural creativity by trying to force the child into the mold of her own thinking, her acting or her habits. The wise mother and father say, "What do you really want most? We will try to help you achieve it." It may possibly be that the child will soon be satisfied and turn to something else. Then you will know that it is the child's need to have a variety of experiences, that the child is searching for that which is most harmonious to his being. Do not force yourself into any set mold that someone else suggests, but be honest and sincere in seeking from within that which is truly your own soul

guidance.

Now I shall say something that is a little shocking to some of you who will hear or read this. As the years move forward there will be less and less of outside counseling and more and more of training both children and adults to listen to the voice within. People will not be seeking fortune-tellers, message bearers or those who give readings. From childhood they will be taught those studies, those methods of meditation which will enable them to reach and accept the inner soul guidance. Many primitive people have practiced this. Ancient people who lived in your country sent their young men in an initiation experience out into the wilds to meditate alone until they received some omen of guidance, and from that omen they took their new name and patterned their lives. There are also those, whom many of your people consider heathen, who speak to what they know as God within and ask advice as freely as you would from an earthly teacher or father, and accept this advice about the simplest activities of their daily life. You will find many whom you consider the most primitive operating in the closest rapport with inner guidance. This will, of course, be a slower growth. It will not happen overnight; but it is something in which you are helping, for you are a pilot group learning to receive this inner guidance for yourselves.

One of the ways to use the name which you have been given, LIOLIA, is in asking for guidance and establishing rapport with your own resources of contact with the ALL. When you say the name, LIOLIA, you are saying, "I recognize that ALL is at my command; All knows what I should do right now, and ALL will guide me." Reading the word, LIOLIA backward and skipping three vowels you will find ALL concealed in the name. Many of the mystery schools teach those who are highly developed in hidden languages. Reversal is one of their devices for hiding what they have to say. In the name, LIOLIA, the ALL is hidden and yet revealed.

Because I have the thought of the ALL at MY command, because I receive the highest instruction from MY FATHER-MOTHER, does not mean that I must speak to you in words so profound or ideas so startling, for your difficulties are mostly with the common things of life - with health, family relations, business matters, journeys to and fro, and understandings of the science and laws in operation about you. You have heard it said that the greater the art, the simpler the expression. I come to you in the fundamental simplicities of life. I operate in your heart-beat, the circulation of the blood, assimilation, digestion, elimination, sharing, giving and receiving. The word transvolvement expresses the circulation within ME of MY LAWS and MY SUBSTANCE in infinite varieties of forms and expressions.

Look for Me in the simple things. Find Me in the dearest love, the softest sound, the sweetest moment, the lightest touch. Find ME in the happiest sharing but also in the deepest agony. Again I say unto you, I AM ALL. I would have you say again and again those same words, I AM ALL, for you, too, are ALL with ME, LIOLIA -

All in the closest togetherness possible under the Life, the Love, the Light and the law of the HIGHEST OF THE HIGH. 5/26/1962

THOUGHT IS LIGHT AND LIGHT IS THOUGHT

St. Germain: It is important that I draw near to all Groups of Light in thought and in vibration at this time. The Seventh Ray, the Lavendar Light, the Purple Purity, must be manifested more strongly through all Groups of Light as a simulating force to awaken and to aid in the evolvement of man.

There are groups that spend time seeing everything in violet light. They are helping to call forth the strength of this Ray. Others think Oneness and Unity, synthesis, drawing together, desiring to increase brotherhood, stretching their arms forth to include all, sending out love to join all. As they think these thoughts they are operating under the purpose of the Violet Light of the Seventh Ray. All is Light. Sound is Light and Light is Sound. Thought is Light and Light is Thought.

The flowing sound of the name, LIOLIA, operates in the Thought of Oneness, of Allness, of all included in the ALL and nothing separated or left out. Whether you think of it as light or sound, a symphony or a thought, it is one and the same. Whether you work in a Group of Light, in any of your churches, in a philosophical group, or in a political group which is working toward union, solidification, synthesis, accommodation of each to one and one to each, you are working under the influence of the Violet Light which is an expression of the ALL, and yet an expression of that which is needed to perfect and balance the unity of the ALL as expressed in man at this time.

Do not be surprised if, when you close your eyes, you see some shade of purple instead of what you may usually see. When looking at a black and white picture, a television screen, or even your newspaper, you may see the lines and letters shadowed in purple. It was because of this that you were inspired to use the magenta monogram on the symbol of your Sun. It is because of this that some of you have seen the central part of the sun as lavendar surrounded by golden light. While all light is manifested in completeness at all times, yet for the balancing of the consciousness of man in the New Age the violet must be accentuated.

Those who operate scientifically in the Space Craft above your magnetic structure, and those who operate in the etheric temples of your higher planes, play a great deal of lavendar light upon you. Perhaps you have noticed the deeply golden color of the moon at times during this season. Be not surprised if you see either the gold or the violet as you have never seen them before. Do not be surprised if some day you look out at your favorite tree and discover that the shadows under it are all purple. Do not be surprised if your painters are impelled to use more lavendar than greens or blues in their shadows. Watch for these expressions for they will be confirmation of what I am telling you.

In the beauty of the Ray of Synthesis, I draw you close in the Love which binds us together in the Allness of the ALL. SOLOGA!
You are myself in the ALL. 5/26/1962

HEALING GIVEN BY AN ANGEL

An Angel of the Seventh Ray: In the purpos light in which you stand, I, an Angel of the Seventh Ray, bring you the healing of the Mother Thought of LIOLIA. I place my hands on you in healing. I draw from your bodies all weariness and pain. I touch every atom with lavender and gold from LIOLIA. I bring attunement and blessings and pour them into the consciousness of all systems within systems in your expression. I send them forth on the wings of your prayers for those dear to you along the magnetic tethers which you have established with those for whom you pray. I pour it forth through the strands of love from the Heart of IMMANUEL-IMMANUELA to everyone whose request is in your Shrine, balancing, healing, opening, drawing together, energizing and giving peace to all. In the name of IMMANUEL-IMMANUELA and of LIOLIA, be ye healed, enlarged and enlightened NOW. AMEN. 5/26/1962

I saw this beautiful Angel manifesting in transparent purple light above us and floating downward on the great golden beam of Light which is centered over the Healing Shrine. The draperies were vibrant with movement. The hands stretched over us in blessing. The features wore an expression of comforting benevolence.

I AM THERE BEFORE YOU THINK OF ME

IMMANUEL: (To the Group in Melbourne.) My beloved children, I whom you know as the Father now speak to you in love. I cannot tell you how happy I am to be able to address you through an Earth voice. To some of you this is unbelievable. It takes courage to step out from the old orthodox and scientific thinking and to accept the thought that that which Jesus called the Father would speak through an earthly mouth. Jesus explained it very clearly. He said that when he spoke it was the Father who spoke the words.

You have been prepared in your thinking by being willing to accept your God Self, your Oneness with God, and the words, "My Father and I are one." It takes a period of time to learn to apply this new thought to such an extent that you can actually realize and claim this Oneness at every moment of your existence. If you would think, "I cannot open my mouth and speak by myself. The Father acts in me to speak," it would not be so hard to accept the fact that I can thus speak to you.

You who are reasoning people will then say, "Do you mean to tell me, Oh Great and Wise One, that you have caused me to say harsh words?" My dear children, I have caused the vegetables to grow; I gave you Myself in the vegetable you ate today. You ate of Me. I have given Myself to you as My Son suffering upon the cross. I have

given Myself to you as yourself suffering whatever you have suffered; for what you have suffered I have suffered for you that you might have that experience, and learn and understand and grow thereby. Yes, there is someone who seems a stumbling block and an irritation to each one of you. How could you learn to overcome a stumbling block and an irritation if it were not there? I, as your loving Father, must provide what you need.

Had not the one whose mouth I am using suffered much in this life, I could not at this moment use her equipment to speak to you, beloved parts of My Being for each one of you is a beloved part of ME. I am all that there is within this Solar System. Everything that is here has to pass through Myself to be here, but I am not all there is anywhere. To Me you are a tiny particle of My Being and I am All of you. To another who is higher than I, I am but a tiny particle in that Being but That One is All of Me. I am speaking of My Father, the FATHER OF SUNS, The Mighty Spiritual Central Sun of this Galaxy.

All of those Star points of light that you see in your sky are Brother Suns to Me. They are on the same level of evolvement as I. Some are older; some are younger. Those who are older are wiser and have been able to accomplish more, but They are still Suns visible to you. Each of them is a Being ensouled in a physical form. That physical form is their Solar System. The outer physical form for the Spiritual Central Sun is the whole Galaxy. You, yourselves, are aware that there are other galaxies and you will be able to understand that a still more spiritual and Central Sun in which the Galaxies are merely cells.

Infinity has no end. We are on an upward spiral - ever upward - which has no end. This is to be the pattern of your natural growth. In time, each of you will achieve the position of a Sun to a Solar System; and yet you are already that in a smaller way, for your body is itself a solar system. Each of the cells within your body is also a solar system having within it much smaller solar systems until the microcosms have gone far beyond your ability to conceive with your present mental equipment.

I wish to thank each one of you for living My Life as you have been impelled to do, and for responding to My Will. Yes, even when you thought that you were rebelling, I have impelled you to that rebellion, that through it you might help someone else; for I work on the negative as well as the positive and to Me there is no darkness and no sin. All is growth; all is learning; all is evolvement.

I give you My Gratitude for working with Me and My manifestations up to this point. Now I must ask you to do so more consciously. If I am All of you, I am there before you think of Me, and I am helping before you ask for help. What is left to be done is for you to link your consciousness with Me that We may work together in that which still lies before you.

You have been as children who worked not knowing to what end. Now it is your right to understand toward what you are working. This

I can tell each of you personally if you will receive Me. I can also send you unseen messengers to speak with you even as I have sent the physical messenger of this channel to make this opening and this first contact. Please understand that while the words are pouring forth much more is being given you; for in this Circle of Light I can intensify my contact with you and open you to a greater understanding and a closer communion with Me.

As is our custom in the Group Sologa I will now say to you SOLOGA! Tonight. I will add the word LIOLIA and with this I will mean; you and I are One in the Light of the Central Sun, and We have a work to do together.

5/23/1962

OUR PART IN THE GREAT SHINING

LIOLIA: (To the Group in Melbourne.) LIOLIA! With MY NAME I call you into communication with ME, your Father; for, indeed, I am Father to you as I am Father to IMMANUEL. You are part of MY BEING as well as His. You are part of ME. I am all of this Galaxy and all that expresses within it. You have no word in your language with which I can say that ALL is speaking to you. ALL is now speaking to you. When I use that word ALL I use what you would use as "I". and yet for MYSELF I am not ALL; I am but a part of that which to ME is FATHER. This is a concept upon which one must dwell in order to grasp it on the level in which you are now operating.

Each of you have volunteered to come here as MY Emissary. Each of you brings MY Light into your planet place as well as the Light of other Beings. Each of you has been giving forth what you could of me but now the time has come for the Great Shining. May I use those words again - THE GREAT SHINING. As I speak it thus forcefully it will call forth within some of you subconscious responses which will later come to the surface.

Your part in the Great Shining is primarily to open yourself to let the Light of that which is the ALL of you flow through. Some of you will be saying, "How do I do this?" Some of you are doing it already unconsciously. Others can advance more rapidly in several ways. In the first place, you have to know that you have surrendered your own will for the good of mankind. You do not give your will to ME because I demand it; you give your will to ME that We may work together. You have in your machine shops wheels that mesh together and do work, If one refused to unite with the other, the work could not be done.

There are those who can dramatize for themselves the giving of the will by saying again and again, "Father, I give my will to you," by picturing themselves as putting their hands between the hands of a liege Lord, by prostrating themselves, and by various other acts to show their own selves that they are willing to work with the ALL for the good of themselves and the ALL. Now here is a secret: when you have fully given your will to ME, then your will is MY WILL and MY WILL is your will; there is no longer any separation of wills

for WE are ONE.

Groups of this kind often speak of that which is for the highest good. One who is known to you as the Wayshower said, "My yoke is easy and my burden is Light." When you find the highest good you find the highest joy, the greatest bliss of your being, the great unfoldment, the stepping upward, the expansion, the becoming. But this is not possible until you are willing.

The next step is to give forth. When you are fully willing, you tell yourself to give forth. You say again and again to your body, "Open and let God flow through; let Love pour through me to others." Your consciously saying this, directing yourself and desiring it with your whole being, increases your efficiency as an instrument in the hands of the ALL.

Some of you have wished to work with the White Brotherhood, with the Hierarchy, or with the Ascended Masters. They are all one with you now. You have but to open the door of your conscious understanding to be able to realize this and to receive from any or all of the Forces of Light just what you need for each day.

It is a very unusual thing that I can come through and speak to a group that has not met as a Oneness before; but in reality you had but to receive the channel for you have been working as one together here in this community more efficiently than you know. How can I use words to tell you on your level of MY intense Love for you. As you cleave to your life, I cleave to you. As you cherish the most precious thing you have thought of, I cherish you. You are MY LIFE, MY LOVE, MY LIGHT and MY LAW expressed.

MY BLESSING is now upon each one. I am directing the beam of MY LIGHT to each one individually. I am conscious of every grain of sand at your feet. I am conscious of the most minute microcosm in MY BEING. I am fully conscious of your heart beat, all your conditions and all your thoughts, for they are MYSELF; they are the ALL and in contact with the ALL. When you love one, you love the ALL; and as the ALL I love you.

5/23/1962

EVEN THE DUST IS PURE LIGHT

LIOLIA: I AM speaking to you who are cells in MY BODY, heart of MY HEART, love of MY LOVE, dear to ME as MYSELF is dear for you are MYSELF. I would impress upon you again the importance of dwelling upon the fact of the ALLNESS of the ALL. It is necessary when we open up a new idea to repeat it a number of times until we have become used to it, until we have driven it down into the subconscious and made it part of ourselves.

I would have you meditate upon the ALLNESS OF THE ALL. I would have you join yourselves in thought with all of the Galaxy, for the whole Omniverse is yours. I would have you understand that all is one and one is all, that the same Life Force, the same Energy, the same Love and the same Light pervade every manifestation of existence. I would have you understand and meditate upon the fact that

the Light which is the Life and the Truth of the ULTIMATE OF THE ULTIMATE expresses ITSELF in any kind of existence as its substance.

For centuries your philosophers, teachers and religionists have made a great thing of denouncing the physical or the material, trying to punish and uproot it, belittling it, considering it as the cause of original sin and looking to that which is above and beyond as the only part of the Life of God which is pure and right. As LIOLIA - Life, Love, Light and Law expressed in this Galaxy - as the BEING ensouled in the Spiritual Sun of this Galaxy, I would explain in simple words the fact that that which to you is material and that which is spiritual is one and the same thing. This may be a startling thought and one which many cannot receive.

Light expresses itself on all levels in the rate of vibration and in the patterning suitable to each level. On the level on which your physical bodies manifest the light is vibrating at a slower rate and in a different pattern such as your senses are able to perceive; and thus, that which is pure light seems solid to you and broken up into many various states or substances. In reality these are only different patterns or forms in the thought of the ALL-CONSCIOUSNESS. To you they seem separate and widely different, but the ALL-CONSCIOUSNESS knows that they are one and the same substance, expressions of the same Life Force in a diversity of vibration, form and pattern.

Not one of you who is creative would think of doing the same one creative act again and again all through your life. If you make pictures they will be varied. If you write music, each composition will be different. If you express yourself in gardening your flowers, your borders, the patterning of your beds, your arrangements will differ from season to season and year to year. This is the Creativity of God expressing itself through you.

In deep meditation, the One who is established in a certain place to build a certain situation, a certain habitation for expressions of God, creates with His thinking the various forms and patterns which are to be usable within His Being. In deep meditation Central Suns hold their Galaxies in form and pattern. They use the substance of the ETERNAL, THE ALL-CONSCIOUSNESS, THE HIGHEST OF THE HIGH. This substance is expressed on all levels. It is Spirit. That which you call matter is pure light and nothing but light, the substance of Spirit. That which you call matter is God Himself expressing Himself in that pattern and that vibration which to you seems but dust under your feet. Yes, the very dust is God giving Himself to you.

The planet upon which you live is a BEING alive, flowing, developing spiritually in both Oneness and individuation. The life of this planet being is manifested in the soil, the rocks, the mountains, the rivers, the oceans, the very air and in all the creatures whose state of livingness is apparent to you. The planet sustains you even as you sustain the cells in your body. The

substance of the planet is transvolved from the planet itself into your substance and back again into the planet. The substance goes from tree to animal, from animal to soil, from soil to plant, from plant to air, from air to water, back and forth in continual transvovement. Thus the planet circulates its substance around and around and you are a part of this expression of the creativity of the planet. The dust, material as it seems, is pure light expressing the patterning of the ALL, the substance of the ENERGY OF CONSCIOUSNESS - GOD CONSCIOUSNESS.

I would therefore say to you: do not reject the natural life of your planet. Consider it all to be holy; consider every expression to be pure and divine. Remember that when you are in accord with the Laws or Order within your planet your life is harmonious. When you fight these Laws you feel discord. Such discord expresses itself as distress, anxiety or pain. These are natural devices to drive you back into the proper Law of Order that you may feel the rhythm and harmony of God within your planet.

The planet expresses its natural rhythms in rotation, in day and night, its four seasons, in changes from winter to summer, from spring to autumn and in its tides. It feels the order and rhythm of the whole Omniverse. It responds to the consciousness of the ALL. It is important for you in your Earth manifestation to observe this same rhythm. With the planet when it is dark you rest; when it is light you work. Learn to feel this rhythm in your bodies. Love the physical manifestation as a part of God.

It may amuse some of you if I say that while you have cells within your bodies, I, LIOLIA, have humanity. You are the cells in MY BODY, and when you become discordant my cells are giving ME trouble just as your cells sometimes give you trouble. To avoid this we have to learn how to fall into line with the order of the universe. We have to learn to feel the rhythm of the Omniverse.

In opening contact with you, MY beloved channels of Light, I ask you to pay close attention to your feelings of ME. Each of you will respond differently to MY TOUCH. Perhaps you will notice a sensation that remains with you which you know your body is not generating. If there is pressure in the head or some such feeling, if there is a sensation of lightness or gladness and it persists, ask within yourself, "Is this the contact of the Divine Father-Mother Love with me? Is this LIOLIA?" then if the feeling continues to build up even stronger and remains, you will know that I am beaming MY LIGHT through you, MY beloved channel of Light.

You have been prepared gently, step after step, to radiate MY LIGHT. Man throughout the universe is being so prepared. Throughout all the Solar Systems of this Galaxy, all manifestations of the Light of the Omniverse are receiving MY GREAT SHINING. This means a great burst of new life, of vibrant, joyous unfoldment. I would have you participate to the fullest possible in this growth by consciously accepting the fact that all of you on all levels participate in the receiving of MY LIGHT and the sending it forth. I would

have you keenly aware of your sensations for those are what I am stimulating as organs of reception and contact at the moment. Through your feelings I will guide you into greater unity and understanding of ME.

In preparation of that which is to come to you say, (and I would have you listen carefully for I shall ask you to repeat this with ME,) "I AM ALL in the ALL, through the ALL, with the ALL, and by the ALL." As you drive this precept into your subconscious it will unlock the doors of communication with all of yourself and with all of the Consciousness of the ALL. When you contact one, you contact ALL. When you love one, you love ALL. This is something you have not understood. As soon as it becomes clear to you, you will be able to receive the love of all blended in One and merged. You, too, will be able to merge into any consciousness, in any or all manifestations.

Some have been illuminated with a great flash of spiritual Light. Through the centuries this has occurred to a few widely scattered leaders who have told of their experiences; but for you at this present time this is not to be your way. Your path will be a slow growth in consciousness. Only one at a time out of a world of expressions would receive this great flash of illumination, as did your Earth teacher, the Bhuddha. The Wayshower comes to reveal The Way. There was but one Wayshower when Jesus manifested, but now each member of MY Groups of Light, of MY Golden Legion of Service, is a wayshower. You have agreed to come for this purpose, to feel out your way and by walking in it to reveal to others what they should do.

Be patient; be joyous; be expectant of good; and do not fail to practice in your meditation the enlargement of your consciousness to merge with the ALL. With you I would say SOLOGA meaning: Together We are all in the ALL!

MARY SPEAKS AS MOTHER TO HER CHILDREN

Mary: My loved and lovely brothers and sisters, I, your sister Mary, wish to speak with you for a few moments. Thank you for receiving me. I come in the Light and Love of the Cosmic Divine Mother to pour out the Mother Love upon each one of you. I come expressing the Motherhood of the Light of IMMANUELA and LIOLIA, and also the love of your own dear Earth mothers to you. I come expressing to all mankind the accumulated blessing of all sweet, pure, unselfish Mother Love. Receive it, my dear ones; let it pour through your being to lift, attune, and heal you.

How often as a child Mother healed your little hurts with a kiss, a word, or a diversion. How often Mothers bring healing even to those whose mothers may seem unkind or unloving. The Mother Radiation from God has always been given through the seemingly unwilling body of the mother, through the light radiated from God expressing in the human body.

Now I would speak to you as a mother to her children. I would speak to this group, SOLOGA, and to all Groups of Light. I would have you understand the tests coming to all new Groups of Light as they are established and I would have you find your way through these tests with the least difficulty possible.

Let us imagine that Mother is suddenly called away on an important errand. There are several children in the home. Before Mother leaves she asks them to accomplish certain tasks. She leaves feeling that they are able to do these things and can be trusted. While she is gone they are unable to agree on how these tasks are to be performed. One wants to do things one way, another another way. They begin to argue about methods, soon about ideas, again about Mother's instructions, and finally about the words that she used. When Mother returns, the children are arguing. They have grown more heated. They have begun to dislike each other. There is a quarrelsome discord in the house, and the work has not been accomplished.

I would say to all Groups of Light in Program IMMANUEL-IMMANUELA as now being revealed on Earth to bring through the Golden Love Rays of LIOLIA and raise the Solar System to the new Arc of Consciousness: You have been told that your main work is to demonstrate the words of Jesus, "I and my Father are One," to demonstrate Oneness with God and with each other. Anything which disturbs that demonstration should be passed over and forgotten.

It is true that one channel will bring through one side of a question and another channel will state the other side. You know that there are always two sides to every question. You have heard a great deal about the opposites, positive and negative, black and white, light and darkness, and how they must be brought into proper balance, brought together in equilibrium and reconciled to each other. You have also been told that no one channel can bring forth the whole of Program IMMANUEL for the whole Age of Aquarius. Therefore I as the Mother aspect of your Wayshower, Jesus-Mary, suggest that you examine carefully whatever material comes to your hand for the truth that is compatible to you. Accept what you can and build it into that which you have already demonstrated or proven, that which you have made your own and upon which you have built your foundation.

Use your sense of discrimination; use your logical reasoning; use your adult ability to think. Examine not the speaker, not the wording, not the names or authorities given, but the Truth that is stated. If you vibrate in harmony with it accept and use it; build it into your own growth. Let all the rest go. Don't bother with it. Don't bother to argue with it; don't bother to defend yourself or to quarrel. Just let what you cannot use slide away. You do not attempt to use all the water in a river. If there is a great supper set with many, many dishes upon the table, you do not try to eat everything there. You pick and choose that which is right for you. Do this also with all these messages which are coming through. Do

not be so quick to condemn. Do not pick at the wording or even at the dates given. Do not try to find something to judge. Instead just look for Truth, make yourself one with that Truth, and leave the rest in the hands of God.

As time moves forward, as more and more is understood and more and more matures in your thinking, those little seeming flaws may explain themselves and prove to be the Truth from another angle. If they are not, they will slip away and be forgotten if you pay no attention to them. If you start a war of words about them then you set back the whole program of unification in your own life. Oh, you cannot hold back the Program IMMANUEL. No human being could do that; but you can hold back its expression in your own single life.

Now I am aware that there are many in the Groups of Light who are already operating in this manner; and yet there are many others who are misled and unhappy and who would like to withdraw from the whole Program because they are not able to find their way through the confusion of much speaking and of seeming arguments and contradictions. Let God take care of all that. You are to select what is good for you, build it into yourself, and put all the rest in God's hands. Does that seem too hard to do?

This is what Jesus did as your Wayshower. When He was accused He remained utterly silent. He did not argue and defend His position for He knew that if He did so He would be throwing out on those who had accused Him the strength of His own Power to condemn. Had He done so, He would have harmed them and He would have lost His place as the Highest Expression of God, The Wayshower. His words, "Agree with thine adversary quickly," "Love thine enemies," "Turn the other cheek," "Return good for evil," man has not yet begun to live.

This is the assignment for the New Age; to truly demonstrate Oneness with God by learning how to live at one with your co-workers and with all of God's manifestations in your environment. This is so easy if you will just accept this simple word and apply it. You will be astonished at the joy, the peace, the relaxation, the contentment that comes into your being, the harmony that pervades all of your affairs. All you have to do is to open your heart fully to the Love of LIOLIA and send it forth. Find the ALL expressed in all.

SOLOGA, my beloved ones who tread this way with me! Together we shall follow the path of Light and lead mankind into the New Age.

THE EARTH IS GOING THROUGH CONDITIONING

Ixutel: I am sure by now that you are aware that I lead a band of scientiest who are concerned with readjustments in the structure of the Earth. Just as those who channel for a new Force and are to receive new vibrations must undergo a period of conditioning so the Earth in all of her manifestations, all life within and without, all units of form or consciousness, must undergo readjustments which come with the reception of Light from the Spiritual

Thought of the Central Sun. Each one of you, too, is undergoing this conditioning.

On the evening preceding the first high test failure, we used the bodies of all available channels to send forth the necessary light. There were conditions in the Earth and in the atmosphere which made it important that that test should not succeed. We used all available channels to stop the test, and to have it put off until conditions of which man cannot be aware were right. The Earth going through this conditioning will open to a new life even as you are opening to the new experiences which you describe. Man, too will be receiving many new experiences. Each of you sitting here has made tremendous strides forward since Feb. 4 and the entry of the Solar System into the new Arc of Consciousness. Even greater strides have been made since Easter. Each of you is aware of the new opening of your senses, of the ability to transfer your consciousness from the seeming reality of the physical plane to a higher level of consciousness where you can move freely and instantaneously into far situations.

Our power broadcast tonight will be directed to the area of the atomic tests. May I explain that these tests are in the nature of a stimulation to the planet. Just as the doctor may give you a tonic or a bit of medicine to stimulate your response in a certain way, or just as you must have a certain amount of one mineral to be able to absorb another, so with these explosions, certain shocks are administered and certain spiritual releases are made which will enable the Earth to absorb and assimilate the Light which is now coming to it.

Will you, in these days that are coming as long as the tests are going on, spend just a moment, when it is possible and if you care to do so, in directing Light, Love and Harmony to the spot where these tests are being undergone by the system of the Earth. Surround the place in Light; see it pervaded with harmony; fill it with Love and Peace, that that which must be done shall go forward as though in the hands of the most accomplished surgeon or specialist.

DIVINE INGREDIENTS OF LIGHT

SOLOGO: My dearly beloved children, channels of My Light, I, SOLOGO, Whose Light you bring into the system of IMMANUEL-IMMANUELA, have been with you each meeting although I have not expressed Myself. It is important that you remember Me, not for Myself but that you may better fulfill your mission, for you have come to bring to the Earth the Divine Ingredient which My Light provides.

Let us suppose that you are preparing a dish for dinner. You have put in a series of things; but someone interrupts you and you forget one of the important ingredients. When you serve your dish, you are greatly disappointed for that which you had hoped to be so delectable turns out to be quite tasteless, or even unpleasant because it lacks the one ingredient. As you have been told and as

Ixutel has suggested, there are twelve important influences to reach you from Suns which are brothers to your Lord of the Sun. So far you have heard of three of these: Myself, SOLOGO-SOLOGA whose name you carry; the North Star, LOVARIS-LOVARI; and the Sun in the Pleiades which Peter told you he represents. One of you knows that before you came to Me you expressed in a rose-red Sun, another in a lemon-yellow Sun. One of you here tonight came originally from a blue Sun and still another from a white Sun: and yet all of you have had a period of orientation in My Solar System, in My Being and in the Sun of your present System.

This is no idle flattery or building up of pride; it is a simple scientific fact. You are here with a work to do. You have been doing it unconsciously but you can do it more efficiently with the help of your conscious mind. Each of you are extremely important. It is like the baking of a cake when you blend a few ingredients, then a few more, and finally a few more still. In the meantime you keep blending and blending.

The number of your blending tonight is four which is an expression of your Group number, thirteen; the one and the three added together make the four. You have the masculine influence to balance you and the gentler feminine influence. You are being blended in Light. Each of your bodies is receiving Light from the Suns which the other bodies represent. This same balance and interchange is manifested to the best of our ability in each Group of Light. This is one reason why it is important to be a part of such a Group and to be regular in attendance.

Each of your bodies is receiving Light from your Sun of Origin, from Me, and from IMMANUEL-IMMANUELA. Indeed you receive Light from every manifestation of existence in your environment. In this Galaxy our great Spiritual Father-Mother, LIOLIA, our Central Sun, draws Light from Hiser FATHER-MOTHER, that high invisible CENTER OF LIFE FORCE for all the Galaxies, and sends it on through us. We send it out to others through you. Each Expression of the Highest sends Hiser Light and Love to every other manifestation and they in turn send it on. Thus the Light and Love is transvolved from one form to another circulating like the blood within your own solar system, your body. The Light circulates from cell to cell ministering to all. Each shares, then gives of that which is hiser to give.

Thus We are One even though the self-conscious mind of Earth man is not yet aware of it. We are woven together by the threads of Light which spring from the hearts of all to the hearts of all others, from the heart of one manifestation to the heart of every other manifestation of the Eternal, Everpresent Life of the ALL. Knowing this will help you to demonstrate that Oneness, that Harmony, of which LIOLIA and Mary have spoken this evening.

I wish to ask you to turn your thoughts to the Spiritual Sun Being expressed in the Star, Sirius, as the source of a certain particular ingredient of Light which it is your mission to radiate. As you consciously draw this from Me into your being and shed it forth,

you become more efficient in your mission. Members of other Groups of Light should pray to know those Suns whose Light they reflect. Each should also dwell on the thought of the Sun of their Origin. Forces of Light who love and serve each one will try as soon as you are ready to give you some symbolic scene from your home planet in this first System to help you open your being to this special Light which it is yours to share.

Tonight we have here representatives from Suns whose Light are the three primary colors; red, yellow and blue. We have also one which represents their complete mixture in the white. Thus we have a perfect harmony of certain emanations which are extremely important for the moment to balance the situation before some of the atomic tests may be safely and successfully made. This is opening new vistas to you, is it not? I hope that since you know your part is thus important you will desire with all your heart to consciously participate and consciously do your best.

It is My great delight to say with you: SOLOGA! May We together shed forth the Light of LIOLIA through our Beings as individuals and through our Being as ONE. 6/2/1962

SOLOGA'S HEALING MISSION

The Onlooker beheld the members of SOLOGA as a Group accompanied by many Invisible Teachers and Healers, Forces of Light who aid in the Healing Mission, rising into the Realms of Light together and entering a Temple of Light over the portals of which was inscribed the name, SOLOGA. We were told that this edifice had been constructed by mental science from the Cosmic Light Substance which pervades the Omniverse and has been in constant use since before we were born into this present incarnation. The feature which we were shown was the great beam of Golden Light centered in the circular amphitheater. Held poised in this Everpresent bestowal of Divine Healing Power was a crystal casket with golden corner-posts which contained the names of all who have asked for healing through the prayer efforts of SOLOGA. We were told that work was constantly being carried on to maintain these dear ones in the best possible state of harmony permissible under their karmic pattern for this life.

If you wish your name held in this place of Light be sure to send us your requests. Great healing power is manifest at each of our meditation meetings and is sent to all whose names are in our Shrine.

A CHILD SHALL LEAD THEM

As Velma was meditating one morning and chanting, "I AM ALL in the ALL," as we have been instructed to do, she experienced a phase of development which comes to all sooner or later who press forward to use their skills for all and in the service of IMMANUEL. A WORD came to her very distinctly. The WORD seemed to be one and yet many

words spoken clearly within it as follows:

Remember the visiting minister who told you that trees, bushes, and grass have their roots in the earth but man's roots are in the head. Man seems to be made upside down; but by having his roots in his head he is closer to God and has freedom to go where he wishes as trees cannot. Jesus said, "I am the vine; ye are the branches." (John 15:5)

Man is joined to God through his roots in his head, that is, through the contact of consciousness; and yet he is given full freedom of choice as to where he will go and what he will do. He has a tree of nerves branching downward from the roots in the head by means of which he takes control of himself. Hence, He can walk the broad way Jesus mentioned or he can walk the narrow way of Christ Consciousness as God directs.

We are One with God. It is our privilege to ask Him to enter into our hearts and take over our lives that we may work for Him. Santa Claus is not fantastic. God knocks often at the door of our consciousness desiring to come in through our roots in the head. How does Santa Claus come? Presumably he comes down the chimney or through the top of the house, the head. A mother tells her children to be good because Santa Claus does not come to bad children. We try to purify our lives that they may be fit dwelling places for God.

Children hang up their stockings by the fireplace in preparation for Santa's visit. This symbolizes man praying to God and asking Him to fill his life with the riches of the soul. When God does enter in, man feels the happiness that only a child can know on Christmas morning when he discovers the wonderful things Santa has put in his stocking. Again, a child shall lead them.

PRAYER ALERTS THROUGH AUGUST

Ixutel: May I remind you that it is my privilege to serve you as scientist correlating the data which we gather from conditions in the Earth and directing the flow of power to the proper points, thus helping the Earth establish equilibrium under the new radiations now being received. You might liken me to the doctor in charge of this particular case of planetary readjustment.

Many great scientists from the Realms of Light have been at work both to examine and to reconstruct. We have been happy with the results of our work and particularly with the cooperation we have received from all Groups of Light. Those more advanced among men have proven more receptive (though often unconsciously) to our measures than we had thought possible. We understand that this is due to the rapid adjustments being made in all life in response to the emanations pouring in upon you in this New Arc of Consciousness which we have entered.

As a result of all this, my news is good. The Earth itself is adjusting much more easily than we had expected. We have come through the first great crisis with a minimum of planetary disaster. To continue to do so we must maintain our efforts and not relax; otherwise, when and where we least expect it serious trouble may develop.

To all Groups of Light throughout the planet I would offer these recommendations. Continue to yearn and to strive for a full revelation of the Christ Light within yourself individually and within every unit of consciousness in this planetary area. Continue to open your bodies on all levels for the broadcast of Universal Power to points where it is needed. Study the accounts of disturbances given in your news media to determine the weak places. Do not forget to strengthen their antipodes also. Take note of disturbances in the thoughts of peoples as well as Earth forces.

Send forth the Light, Love, Peace, Harmony and Unity of the Omniverse as you are directed from within. Make this a habit in the daily rhythm of your lives for the rest of your expression in the present Earth body. Help others to open themselves to participate consciously in this application of the Cosmic Laws in your environment. Our next steps must be taken through united effort. May the Light of our Mighty Spiritual Center, LIOLIA, reward you as you persevere in this work together.

BORN WITHIN THE SEED OF THE FLOW-ER

Can one discern minutely the Oneness of the ALL and still discriminate and separate the Life Essence there-in? Who can assume the right to sit in judgement on any other expression of The ONE if his discernment does not include the complete Flow-of-Life-Essence throughout all realms of mind, matter and Spirit. No one can assume this position; yet it is bestowed upon the Flower by the Grace of God.

Anyone who would think this to be a blessing must know the responsibility. Ask not for the Blessing unless you are prepared to accept the Responsibility. Accept well the Responsibility and be bestowed with the Blessings! To accept the Blessings one must accept the Flow of SUPPLY and become a DIVINE FLOW-ER, ONE WITH THE FLOW in AT-ONEMENT.

The Flower is that through which the DIVINE STREAM does Flow. It does not dam (damn) or block the flow in any way. It accepts, assimilates and emits the ELIXIR. THE DIVINE ELIXIR!

The Divine Elixir is in constant change for the constant flow of supply is accomplished through the transcendant transmuting of the process of TRANSVOLVEMENT. Transvolvement is the partaking of the fruits - The Elixir - The Supply - a taking into Self all of Heaven and Earth, All Life, and assimilating that which can be of use and IS NEEDED, and emitting all that is not needed or has been replaced. One may recognize this as Elixir and/or Excreta, or simply know it as Supply; but it must be allowed to FLOW THROUGH for any that would desire to become a Flower (FLOW-ER).

Even as in the physical realm, the Flow-er is concerned with reproduction by seeds; but the seed brought forth through the ILLUMINATED FLOWER is the RADIANT THREEFOLD FLAME. It completely interpenetrates Spirit, the form, and Spirit, the formless. It is completely unaffected by action or reaction but is of its very nature

the catalyst for TRANSVOLUTION. By its very nature it is the most minute within the neutrino and therefore the GREATEST throughout the Cosmos.

TAKE HEED OF THE LAST STATEMENT! He who would ignore or reject any form or formless, even the least, can never know the greatest; for one must be born within the seed of the Flow-er to become one with the Creator. To dam the Flow-er is to damn self. That which is above is also below and that which is below is above. Therefore, partake of all that comes to you for it is instilled with the SEED which acts as a catalyst to transform, transmute, transvolve, that the evolution of all forms be maintained in constant supply.

A SONG OF JOY WITHIN THE HEART

Ixutel: My beloved Brothers and Sisters in the New Light, as you will remember, in previous broadcasts of power I have explained the importance of the tests which are being attempted over Johnson Island in the Pacific. You have guessed that these have been withheld for a purpose. They will not be permitted, there will be things made to go wrong, until all is properly arranged or the right conditions have been set up so that the Earth can best profit from these tests.

You were told in your last broadcast that the tests are stirring, a stimulation, an opening so that the whole planet, the Planetary Logos, may profit by the excitation as a cleansing to give off certain atomic materials - you might call them waste materials - no longer of value in the new condition and may accept the new materials more easily. This is a very delicate matter and is being overseen by scientists of the highest caliber from distant places in the Galaxy - distant because they have been in service in other similar situations, but not distant in reality, for all are one in The ONE.

Have no fear with regard to these tests. It is extremely important that those of you who have been sitting in Groups of Light maintain, through the Higher Self as well as through the self-conscious, a continuous broadcast of peace and equilibrium, of assurance that all is well. This we are putting into this publication, for when the self-conscious reads these words the Higher Selves of those in distant places even on the other side of the world will take note and arouse to greater effort. There are many groups who are still expecting terrible catastrophes in the next few years. We wish you through the word of mouth, through the printed page and through your own sending forth mentally to give them confidence and establish an atmosphere of reassurance. Many things have been prophesied, but the time of their occurrence has been confused. Some have picked up prophecies for a much later time and are attempting to apply them to the present. Many people, including many beings on the etheric levels, have been misled in their reading of time. The actual time is the hardest of all to pinpoint in global or Solar matters.

There are those who can pick up Earth incidents a week, a month, even a year or two ahead with a fair degree of accuracy - perhaps seventy-five percent of the time. There are others who have been accurate many centuries ahead. But this is very difficult, and many people have been prophesying, bringing through their own etheric helpers, without proper timing. As a result, the Earth is filled with fear that part of your continent will fall into the sea, or that great tidal waves may sweep away your homes. Such things are possible in the future and yet may never be experienced at all by this planet if man and the planet with all in it and on it can respond to the new Light. If we can accept the new vibrations and learn to broadcast the Christ Power faithfully, then these things may be completely avoided, the Earth may grow old in peace, and the natural development of life upon it may move from one spiritual level to another without cataclysms greater than those you have been experiencing.

There are those who will find it very hard to surrender their pet beliefs of tragedies to come, of great catastrophes, or of their expectations of sweet visitations. There are those who would like to see Jesus descending from the clouds to their own special church door and welcoming them to a special heaven set aside just for them. All of these things are growing pains and the time is not yet. Again I repeat, the time is not yet.

Be at peace, my brothers and sisters, and let your broadcasts be of peace, of quiet, of contentment, of assurance and of comfort. Let our broadcasts be of these things in our private meditations and in our thoughts whenever we can deliver our consciousness to this beauty and this privilege.

Some of you have allotted time to yourself for meditation. Others have been urged by your forces to be more regular and faithful in giving time to broadcast Light. Do not be irritated by such urging, my Brothers and Sisters. Make the most of any little minute that comes to you. Use it to do the best you can to send forth. As far back as Daniel, people were taught to pray three times a day. One of your brother religions requires prayer five times a day. Some of the ancient religions symbolized the need for constant prayer by flames that were never allowed to die or by wheels that were continuously turned.

In your conscious awareness it is not possible that you give thought to a continuous broadcast from morning until night; but it is possible that you return in mind frequently for a short period of conscious broadcast. This must become a habit with you. When you enter this path, this becomes your opportunity for personal growth and your great privilege for service.

All members of Groups of Light yearn for the time when they will not have to work for a living but can give themselves fully to spiritual service. My beloved, the work of the world must go on. During your working hours there are moments when you can snatch a thought for broadcasting. This is a habit of mind which we ask you to enjoy

developing. We would wish that when you arise in the morning you would think, "I am so happy to have this another day in which I can serve secretly in my own mind so many people who will never know that I have touched them by sending forth the great Love and Peace that has been given me to share." We would hope that this would become a song of joy within your heart, like the trilling of a bird awakening to the morning Sun. We would hope that as your day progresses it would be a secret expression of delight within that you have the ability to pour forth the Light of the Mighty Spiritual Central Sun into those who live on your plane of expression. May God bless each one of you as you try to develop yourself in this avenue of giving.

HE WHO LOVES ONE LOVES ALL

SOLOGRAPH 7

ALL IS PURE LIGHT! ALLEULIA!

FLOW FROM CENTRAL SUN INCREASING!

LIOLIA: (Like a soft, sweet song the word, "LIOLIA," was being repeated. It was very close within and yet it seemed to flow down from the Golden Light of the Higher Realms, "LIOLIA! LIOLIA!") Good evening, MY beloved children of Light, children of MY Bosom drawn close to ME by the power of the attraction of MY LOVE, established in MY STRENGTH and MY WISDOM, growing ever closer to ME as I pour out the Golden Light of MY LEARNING, MY LOVE and MY LAW upon you.

I am gradually increasing the flow of MY LOVE as rapidly as the vehicles of man can adjust and as the Earth Herself can absorb with comfort. Be not dismayed at the changes taking place. Be not troubled by the physical evidences of the conditioning which the whole of mankind is receiving, for they, too, partake of the re-patterning of light flows and of receiver mechanisms.

Do not be alarmed at small physical disturbances, for as you are rebuilt you will feel unusual sensations in the physical body: tingling vibrations, lack of balance, dizziness and pressures which are almost pain in various parts of the body. Those who endure to the end will find the new way of greater freedom and love opening gradually so that in time you will look back to these beginnings and realize what a long way you have come.

Be patient with your friends and neighbors for these emanations are reaching all alike regardless of class, color, creed or state of evolution. All are feeling disturbances, awakenings, confusions and rebuildings. Each will respond as his own individuation is able to receive and to adjust. There is not one grain of sand, one plant, one animal, one unit of consciousness but what receives MY LIGHT and LOVE to some degree; for I, the SPIRITUAL CENTER of this Galaxy, pour forth MY Gift upon all alike, even as your Sun so shines.

My Emanations shall increase as all are able to receive more. Many who are quite unprepared in understanding will experience evidences of their awakening which may frighten them: visions, voices, bilocations, etheric journeys, revelations, precognitions and sensations of blending. Be prepared to calm their fears and give them the wise counsel which they need.

You will feel days of unusual vigor and will be able to forge ahead on those days and accomplish a great deal. Then there will be days when you feel that you must rest, when your body drags and aches and your mind seems cloudy. These are the times when the adjustments are most rapid and strenuous. Wait them out. Do not fight yourself too hard. Some of you are torn between a desire to demonstrate

perfection in every phase of life and the need to rest and take things more easily during this time. Do your best but be guided by your feelings and common sense combined.

Some of you would like to give up your gainful employment to speed up your spiritual development, but this cannot be rushed too rapidly. Be at peace with yourself. Make the compromises necessary to keep your life in balance. Your feelings are the guide which those who love and serve you are able to manipulate in order to help you choose what is wise for the whole organism. Do not fight an overwhelming desire to rest or sleep or slow down in your work during this period of readjustment. Get out of doors more. Try to find the best working balance for the situation in which you find yourself. Continually rest yourself and all of your affairs lovingly in the wisdom of God who lives your life for its highest good.

I shall continue to increase the power of MY Emanations until a peak is reached in your month of August. Your sensations and experiences of adjustment will continue for some time after that in lessening amounts as the present conditioning is completed. Endure what comes with patience and joy knowing that only good can come to you if you move forward on the tide of MY LOVE and do not try to fight your way back to the old conditions and the old state of being.

To those who are conscious channels for thought from higher planes I say: Do not be disturbed if at times you labor heavily under the power going forth during your contacts. I, LIOLIA, seize every opportunity of man's conscious giving to send through the Power of MY LIGHT in greater strength to the Whole in your locality. While channeling, your breathing may be labored; you may have a sense of fullness of radiation which may seem difficult to bear but which will greatly enlarge the power of your transmissions. As a channel you have given yourself to this work. Do not draw back; instead, relax, open and send forth.

Always there will be those Light Scientists working in the invisible planes who will direct the flow to balance properly the conditions of the moment. Do not be disturbed by the seeming excess; be grateful that you are found capable of such transmission. Remember that you are sending forth to a much wider area than the group which hears your voice. Know that you are in the hands of those who love and serve you and who understand just what your bodies can receive, endure and give forth. Rejoice constantly for joy is a device for attaining perfect attunement of all the instruments for greater harmony.

Know that all is well. Keep your thoughts loving. Do not dwell upon error or afflictions but dwell in the Allness of God and His perfection of Good forever expressed in all, for this is the great Light of Truth for the New Age.

Much has been said of attaining full Christ Consciousness. Even I, LIOLIA, have not attained the fullness of this state of At-Oneness with the Father of All Fathers. A certain degree of such awareness is possible to each plane of expression; yet those who claim

it most are often farthest from it. By their fruits ye shall know them. As a man thinketh in his heart so is he. What man does, often makes his words hollow and worthless. To claim Christ Consciousness while bitterness, accusations, fault-findings and criticisms defile the mouth is a dangerous absurdity. Christ Consciousness expresses itself in full acceptance of all for it is based on seeing only God in all.

God has not appointed man to denounce, reject or judge his brothers. Let each be so busy cleansing and lifting his own thinking that he can only sweep others upward in the rush of his own heart's love and joy toward the Highest. Keep your eyes fixed on your own upward way and not on the seeming faults of your brother. You do not have to fight your way up; you accept and love to expand and rise.

MY Yoke is easy and MY Burden is light. The true way, though straight and narrow, when once found is light, relaxed and joyous. Be at peace with yourself. Do not claim for yourself what you cannot claim for everyone else. Let God and your work witness for you. You can only safely be what you are; be that to the best of your ability in the Glorious Light of the ALL. And what are you?

Regardless of all appearances you are the life, love, light and law of God expressed in your plane of activity. This is the fundamental fact of your existence now. Claim this for yourself in the stillness of the soul within and let God be your witness in the hearts of others. True humility is forgetting what you are in the joy of remembering and demonstrating what God is.

With you WE say SOLOGA! Together WE seek the Perfect Word, The Source, The Highest of the High, the Father-Mother of All Father-Mothers who is GOD to us All. 6/9/1962

A GENERAL OUTPOURING ON ALL MANKIND

IMMANUELA: Your Cosmic Divine Mother-Love speaking to you from the Heart of Love. I would have you picture in the symbolism of humanity a great mother seated in a great rocking chair holding all of you in her lap, rocking you, comforting you, helping you through her touch to receive that which has come to you tonight. I would have you know that in thought I pass from chair to chair and from body to body to ease whatever distress you may have felt in your reception this evening. I would not have you say to others that you have received greater power than any at any time. I would, however, say to you that tonight you have each one received what you were prepared to accept to the last limit of your ability to receive.

This may not have been evident to all of you, but you will feel such an added growth in the months to come that you will look back to this night and think, "How much progress we all have made!" I bring comfort to your bodies. I bring adjustment to the new radiations. I bring attunement of all your vehicles on all levels. I sit in meditation and hold you in My Thoughts in peace, in perfect

health, able to receive and able to endure in comfort. In My Thought I would do for you what your own Etheric Teachers are doing. I would run the hands of a mother up and down your spine, over your bodies and out to your hands and feet to help bring into harmony and rhythm the readjustments which your bodies have been going through whether you knew it or not.

That which I do for you as you sit in this Group SOLOGA tonight I am at this same moment doing for all Groups of Light whether they are in meetings or in their own homes; for this which you have been receiving has been a general outpouring. Not only will these which We call Groups of Light be receiving it, but all mankind, regardless of race, color, creed or condition, will be receiving these same high vibrations, stepped down and adjusted to their level. There will result a great growing in the consciousness of man. Those who are not able to understand will feel a time of confusion and a great yearning to seek and to know. The years to come will see a great opening to the ideas which so many groups of New Age thought will be trying to spread throughout the Earth.

I shall always be with all to comfort, to heal and to guide. If you hear of distressed conditions, in your thought place them in My Mother Love at once. Do not enter into the distress; do not take it upon yourself; place it at once in My Mother-Love and leave it there. Then send forth the enlightenment of Atonement which it is yours to give on the higher planes. SOLOGA! All the Love that you can imagine is yours in the ALL, now. 6/9/1962

On this particular evening the power which some of us felt was terrific and almost terrifying. While channeling I could hardly get my breath and my body seemed to be struggling. I was impelled to stand in between messages and hold up my arms with hands palms outward to send off the excess. Others felt the same thing in varying ways. Our bodies seemed to adjust, for while we know the same intense power is pouring through, it has not been so disturbing since.

THE ETERNAL LAW OF GIVING

LIOLIA: MY beloved children, I bring to you the depth, the sweet tenderness, the fulness of the Love of the Father-Mother of All Father-Mothers, the ALLNESS of the ALL, the HIGHEST of the HIGH. You are to ME MY very heart beats for I love you with the completeness of the Love of the ALL.

It takes some repetition for the mind of man to bring the thought of ME into full conscious awareness. Again and again I must say to you that I love you so that you, too, may open to pour forth the Love of the Holiest of the Whole to those about you.

Light descends through those who can receive and send it on. You are aware of receiving the Light of the Christ through Jesus-Mary and of radiating it as The Word to those who listen. You know you radiate the Christ Light in the spoken word, in smiles, in songs, in deeds, and in the actual process of letting light in its pure essence as energy flow through your bodies to their environment.

We may consider your Earth symbol of a power plant, sending out energy along cables. As the electricity leaves the power house it is of very high voltage, too great for any of your houses or places of business. It passes through transformers at substations and is stepped down and led away in smaller voltage through smaller wires. This process continues until just the right amount for use enters your home in the harmony of correct balance.

The Allness of the ALL, the Great Spiritual Center of the Omniverse, is the powerhouse for the Whole. Its energy expressed in pulses, vibrations, waves and patterns of these combined is received by Its Suns, and there transformed and stepped down for radiation to the next level of Suns of Suns. Gradually it is divided and modified by each Great Being of Light through which it passes until it reaches the level of manifestation where you operate. Your mechanism for living is attuned to it and adjusted for its reception at your level. You then absorb and assimilate it. You are maintained by it; but by the Cosmic Law of Universal and Infinite Radiation you cannot retain it, for it is being thrust through you by the great pressures of radiation from higher levels of vibration. You, too, must radiate to all about you and to the lower levels within you.

This is the Eternal Law of Giving which is the basic principle of all manifestation. Any manifestation must give to exist in harmony. Existence is the expression of the giving of that existence to its environment. All being gives by virtue of its existence. Giving is the basic nature of existence. At first glance this may seem untrue, but first glances never see the depth of the Whole. Consciously or unconsciously you and all other expressions of the existence of the I AM have always given. If you had not you would have exploded with the inner pressure of the Incoming. Your own physical body is the everpresent symbol of the Omniversal process - inflow and outgo.

When the self of any manifestation tries to retain, to withhold, to keep for itself, then the balance, the rhythm of life is upset and the self knows unbalance, discord, and pain. It becomes nauseated with the surfeit of its retentions and must open and send forth to regain its harmony.

Do not be afraid to release and send forth for always there is the pressure of the Eternal Giver to provide the inflow to replace your outgo. The process of giving itself generates attraction for the receiver. The more the giver gives, the more the giver loves. Love and Giving are synonyms for the Energy of the ALL-CONSCIOUS. Life, Light, Love and Law are synonyms for the same all-embracing Energy of the Infinite Eternal Thought moving in creativity through the Omniverse.

Always there is the open channel, upward and downward. Always there is the rotation, the transvolvement of Cosmic Energy from one form or pattern to another. Always there must be the receiving and the sending forth.

You, as representatives of man entering the New Arc of Consciousness for the coming Age, are learning to participate consciously in

this Cosmic Rhythm of the Omniverse - breathe in, breathe out; drink in, give forth; eat, digest, eliminate; receive, reflect. Your conscious choice to participate fully in this activity on all levels of your being and in all facets of your expression brings you into better attunement so that the flow is easier and hence attended by the natural bliss of Universal Satisfaction of Purpose which is the only true pleasure of existence.

SOLOGA, MY Own, MY Beloved! Together We All give forth the light of the ALLNESS of the ALL. 6/16/1962

ENTER THE LIMITLESS LIGHT OF THE WHOLE

IMMANUEL: Beloved children of My Thought, Beams of My Shining, I hold you in My heart as One with Me and in Me. I would ask you to meditate on your own Oneness with All within this Solar System. I would have you remember that you are parts of a great whole or Macrocosm, a Heavenly Man, which appears to your physical senses as this Solar System. You see it from within with the limited vision proscribed for you as the boundary of activity on the present plane of your manifestation.

Some of you are developing your ability to shift in consciousness from one level of vibration to another. When you accomplish this you pass from the limitations of the seeming material laws of your usual level of experience and in consciousness enter the Limitless Light of the Whole as expressed in the seemingly physical manifestation of Me on My level of experience. You then enter a Realm of Light so free, so unhampered and so full of joy and wonder that you understand even in the human self-consciousness the Light of My Being which is the fundamental substance of this Solar System.

In this Realm of Light you understand that as you think so you are. Whatever you think, you manifest. You may give yourself into the thoughts of your Companion in Light (your Teacher) and travel or manifest as he/she thinks for you. You may then bring back to the human self-conscious level a deeper understanding of the truths which we are now revealing to this Age of Man.

On this day when you approach the morning you have set aside to honor your human father, I would have you enlarge your thinking of Fatherhood to the thought realm as well as to the physical. Shall we ask, "Why is Father to be honored?" You will answer, "First of all for his part in giving us our very existence in these bodies in which we operate." Next you will remember all his loving acts of devotion and sacrifice, his kindness and protection. You will be warmed by the love and sustainment he has poured out upon you, often to the last limit possible to him in giving. He has provided you with a climate in which to grow; and however restricted that may have seemed it was as your own soul directed it or it would not have been.

Each of you, whether in a feminine or a masculine body, is still a father in thought to all that you create, all that you give forth from yourself. Your thoughts are your children. You must be both

it most are often farthest from it. By their fruits ye shall know them. As a man thinketh in his heart so is he. What man does, often makes his words hollow and worthless. under God for many ages past. Does it seem reasonable that I should now confine my activities to one group or one type of expression?

When communication with the Higher Realms at this time was planned by the Higher Councils of the Golden Legion working under our Galactic Spiritual Center known to you as LIOLIA, many methods were tried to open man's mind and stir his imagination in preparation for the long range goal of opening him to the Central Sun and his relationship to the Father-Mother of Suns.

Man with his desires and his possessiveness jumped to conclusions in line with his nature, his habits and his prejudices. In those first days man tried to bind us with a set of his own concepts of etiquette and to formulate laws of conduct to govern us as well as himself. He attached certain teachers to certain mediums as they were then called and considered his own sense of what was true propriety as binding upon us. To help man accept communication in any form and to open the way for the greater concepts to come, we followed his dictates patiently for nearly a century for the time of our heightened opportunities and activities had not yet come.

Each channel who opened in those days had volunteered to come to help bring through the first broad awakening. However in attempts to secure their organizations and their own work and in fear for their financial supply, they allowed their minds to harden in their man-made limitations so that we could no longer spur them on to the higher opening we wished for them. This had been anticipated and others had been sent into incarnation with openings timed or programmed to meet this need for more adaptable minds.

The result is, of course, an unfortunate conflict between the larger concepts which the stimulation of the Light of LIOLIA makes possible at present and the older man-made customs now hardening into dogmas. No Universal Spirit has ever limited his services to any one individual or organization. If any one has thought that any of us have spoken through such a narrow allegiance, let him reorganize his thinking on a less self-centered basis.

Certain teachers have labored long and lovingly to bring through to man certain streams of thought exclusively through a facile and compatible channel. This was usually a "crash program" to get the material out as quickly as possible. But even they had many more projects under way at the same time. Some lesser guides or primitive spirits may attach themselves exclusively to one human expression to progress in the service of the one vibration; but the older more advanced vortices of God's thought know that they must give as widely as possible. Just as you have experienced Jesus appearing to every member of your group in different aspects in the same meditation period, so we may impress all minds who are open to us at once.

The mistake made by the group who rejected your channel from further participation in their "secret" lessons because I named myself as Zoser speaking through her is therefore understandable if seemingly foolish in the light of the broader concepts now being given to man. I suppose in any large human family there is always

some child who desires to hold the father or the mother for himself alone, and even puts his own ideas or desires into the mouth of the loved one. We are sorry to awaken anyone rudely, but all most sooner or later recognize their human errors and accept them as natural and perhaps unavoidable as part of man's training in discrimination.

May I repeat: Never at any time have I said to or through anyone that I would limit my service to God and man through one channel, one group, or any one organization. It is my duty and delight under God to serve as widely as possible, in as many ways as possible, and to shed the healing Light of the All-Father as far as possible by every means at my command.

SOLOGA, my beloved partners in the service of the All! Let us move forward, all groups as one, in a combined effort for the uplift of the consciousness of man. 6/16/1962

ALL MAY REACH UPWARD AND RECEIVE

LIOLIA: speaking to MY beloved children of Light, heart of MY HEART, love of MY LOVE, MY OWN, MY VERY SELF. I pour out upon you the Love, the Light, the Life, the Order and Harmony of the HIGHEST OF THE HIGH, Who is MY FATHER-MOTHER and WHOM I refer to as the FATHER-MOTHER of all Father-Mothers. I bless you, my children in the Wholeness of MY Holy Light. I give you MY Gratitude for living MY Life and pouring through MY Love and MY Light into the environment where you serve and where you are MY messengers of Light.

I would have you know that you are in a very unusual situation; for as yet no other group on the face of the Earth has been used to channel MY Thinking consciously. MY Light has gone forth through many through the sub-conscious; but it is for your group to send forth MY Word consciously. You may ask, "Why is this so? How does it happen that we who are such a small and seemingly insignificant gathering of people in this small corner of this great planet should be the ones to bring this forth?"

I have been listening to the prayers from Earth as I listen to every thought and every word expressed by all living MY Life. I have heard the prayers coming from the voice that I am now using. This particular one accepted the stimulation of My higher vibrations, the call of My higher Light, and began with the prayers of the heart to reach upward and ever upward, desiring to know the seemingly unknown. I have been spoken of as That One About Whom Nothing Can Be Said. But Man used these words to refer to the Highest he could imagine. In reality he has always known a great deal about this One. In his development and unfoldment man has learned that God is Love, that He is Light, that He is Life Eternal, and that He is Law and Order. He has learned still more: that God is Omnipotent, omnipresent, omniscient - all power, all presence and all knowing. But still the call was sent forth to come up higher.

This call was broadcast to everyone upon the Earth plane. Due to a succession of experiences this one whose mouth I am using was

singularly responsive to new impulses and free to explore new avenues. In thought and prayer this one heart kept yearning and striving upward, calling upon THE HIGHEST OF THE HIGH and THE ULTIMATE OF THE ULTIMATE, in such devotion, such willingness to give all that all might be brought to men of Earth at this time.

One morning in answer to the soaring prayer of the heart a great beam of Love poured down from THE FATHER OF FATHERS and THE MOTHER OF MOTHERS through ME, LIOLIA, through IMMANUEL-IMMANUELA, straight toward the heart that was calling and calling. Those who guarded the physical expression realized what was about to happen and knew the power would be too great. They quickly moved the body from the point of contact. Still the yearning heart did not stop but kept speaking and reaching upward trying to gauge the strength of its call so that the answer might be such as could be borne. Again and again and again the Light from the FATHER-MOTHER of all Father-Mothers struck down through ME, LIOLIA, and through IMMANUEL-IMMANUELA to tune the body to that height which would make it possible for the message which is now being delivered to come through. The one who did this approached without fear, willingly giving herself that man might find the way to contact the very highest possible. This is the reason that you are now able to hear MY Word spoken to you in the Earth vibration.

It is possible for each one who hears this message or reads it to reach upward and receive even as this channel did. The first reception of this kind was more than a year ago. During all the time of service in other groups, this higher Light was pouring through the one who is speaking and opening the channel so that this word of encouragement to all men might be given.

Yes, others have been in touch with the FATHER of Fathers and MOTHER of Mothers, have brought through the Light of the HIGHEST and have shed it into the Earth, but this has been done unconsciously just as you have unconsciously given forth the Light of LIOLIA from your very childhood; for you are MY Golden Legion sent into this planet place to radiate the Light of the Spiritual Central Sun of this Galaxy.

Many throughout the Earth have served thus. Where the heart was so desirous and the body could be so attuned I have brought to those who could receive it higher emanation of My FATHER-MOTHER. I would not have anyone feel superior or inferior to anyone else, for each of you are MY dearly beloved Life expressed in your plane of habitation. All are dear to ME regardless of age, education, evolution, cultural advantages or thoughts of the heart. All are precious to ME and all are of use.

I would say unto you, "Accept ME in all about you. Accept ME in the sand under your feet, in the grass, the trees even in the thorn bushes, in the animals and in each other. Accept and do not reject." If you reject and denounce, you reject and denounce ME. If you criticize and tear down you are striking at ME. If you strike at your brother you are striking at the Life of God expressing through him.

I wish to give a strong and stern word of warning. When you send forth words of denunciation and rejection, spoken, written in letters, or howsoever given, and you sign those letters "for Christ Jesus", MY Dears, what are you doing; what, indeed, are you doing? Do you think that Christ Jesus in the name of the Father would so authorize you to tear down and destroy?

This I say not as a rebuke but as a word of instruction to you, MY beloved children. If you desire to reach THE HIGHEST OF THE HIGH, it cannot be done in bitterness toward those who are in reality your very self or toward ME as expressed in someone else; but only in Love, in Light, in acceptance, in finding good and encouraging it, and in helping each other to grow.

How I love you! Oh, how I love you! I send MY Love on beams of Light from MY Vortex of Being, from MY Heart to your heart. You send the Love out and it returns; so in the transvolvement of Love and Light together you draw close to ME and I to you. Even as the Sun shines on all alike, so I would have you send forth MY Love to all alike. If you feel that you cannot love someone yourself, then send them MY Love for I love them, and thus together We will heal both you and them.

I say with you: SOLOGA! I speak of the Solar Logos as the Word expressed in MY FATHER-MOTHER. I speak of the Alpha and Omega, THE SOURCE expressed in MY FATHER-MOTHER; for together you and I are cells, atoms, in this great ALLNESS OF THE ALL. Again, I must say that I love you. 6/22/1962

WHEN YOU CONTACT ONE YOU CONTACT ALL

Mary: I come to you as a sister, loving you as a sister and working with you in the bonds of sisterhood in the Christ Light. We have often worked together. I would tell you of the fact that each of you and others who are not present with you, many throughout this wide world, have been very closely associated with me in the work of the Christ.

I have been the leader of a band of World Servers, and you are all my brothers and sisters in that band. We have worked together not only in this planet place and this Solar System but in other places and other expressions of the great Universal Life Force which pervades the Omniverse.

We have sometimes been called a band of Comforters. You mentioned this evening the coming of the Comforter. You were discussing whether or not Jesus would come in a physical form and how it would be possible for him to come on a material plane and still be seen by every one at once. My dears, the physical plane is the plane of limitation. Jesus comes continuously to all who will receive him on whatever level they can accept him. Jesus comes into the heart for only so could he be with everyone always, and that is his promise.

You have been taught concerning the Christ within and you know this. You know that he asked entrance into your consciousness. The picture of the Christ knocking at the door and being shut out is a

one-sided picture, for Jesus also knocks through the superconscious and through the subconscious. Jesus in the Christ Consciousness is with you, within and without, within and above, within and all around you. Jesus as the Christed One in the full Christ Consciousness is as close to you as your life is close for he is one with you, for he is All in the ALL; and so are you. You need only this one step of conscious at-onement with the ALL to understand that in God when you contact one, you contact all; when you speak to one, you speak to all; and when one speaks through you, all speak through you.

At the moment I have given you the name of Mary. I might, on the other hand, say with you: I AM THAT I AM. I AM ONE with the Father-Mother God, and as such I speak for ALL. I am therefore speaking for all who have contacted mankind, visibly, from the physical or from the higher realms, whether their names have been given or not. As I speak you are in contact with the ALL, whether expressed through the great leaders and religious teachers, through the Bible, the White Brotherhood, the Hierarchy, or those from distant planets or stars. For the mind of one is the mind of all, except as you, in your physical manifestation and selfconscious limitations given you to enlarge your own individuations, try to separate yourself in your thinking from the ALL.

I call upon you, my dears, to send forth comfort into the minds of men. As you send out light and love in your daily prayers and meditations, in your broadcasts of power three times daily, send out this thought, "Comfort ye, comfort ye, comfort ye, my people, comfort ye! The Holy Comforter is with you. He abides with you now and forever." Send forth such words in your power broadcasts that they may reach and comfort all units of consciousness in this, our field of service. Through myself I give you the blessings of all the Hosts of Light, of IMMANUEL-IMMANUELA, LIOLIA, the great SUNS whose Light you have come to give, and of the FATHER-MOTHER of all, THE ALLNESS OF THE ALL. May all bless you and may you share in the blessings of all, and share the All-blessings with all. SOLOGA, my beloved ones, brothers and sisters on the path of Light, comforters together with me!

ANCIENT SECRETS ARE NOW OPEN TO ALL

Kut Humi: I, too, am your brother - just brother with you. Some have called me World Teacher. Some have assigned me the post of Teacher along with my Elder Brother, Jesus. But I would have you know that we together are one in the Allness of the All, and one with you and with all.

I come especially to make something very clear and to give forth a message to all Groups of Light. As you know things have been changing very rapidly in all expressions of the life of man. During the life of the senior citizens the automobile and the airplane have changed the whole face of civilization. So many new things have

come. Do you realize that since the writing of The Secret Doctrine through Madam Blavatsky, the coming of Spiritualism, Christian Science and other expressions of New Thought a hundred years ago, the whole outward manner of man's living has completely changed?

Early attempts at understanding new things are always more or less incomplete and not fully grasped. As man digests an idea, he begins to apply it, to widen it and send it forth. Many then take hold of it who are not fully prepared, so that new ideas often bring in their train both misconceptions and misapplications. The thought first given must have time to bear fruit in the life, to mature and mellow the life and enlarge it.

When psychic phenomena first were made manifest, each person hoped to prove himself great in all occult gifts bringing through the amazing or unusual to startle man. Many displeasing and discordant things arose. Some tried to seem so much greater than all others and so attempted to tear down and belittle the efforts of those they hoped to supercede. There was much jealousy, much fakery and many misunderstandings.

It was thought that a teacher having manifested through one would not speak through another and it was not considered good manners to expect such a visitation. The early Spiritualists, channels, mediums or instruments considered their teachers theirs and theirs alone. When channelship progressed to the point that man was willing to receive Jesus it should have become apparent that some teachers were teachers of all.

Who would attempt to limit Jesus? The Pharisees wished to, but Jesus continued to eat with publicans and sinners. Jesus healed on the Sabbath Day. Man-made laws could not bind him. As soon as man has taken hold on a new thing, he has desired to copyright it, hoard it, hide it in a cave, collect it in a museum, or crystallize it in a dogma or doctrine. The early Jews thought that God was just for them. Peter thought Jesus was only for the Jews. But you know differently, and Peter awoke to the fact that Jesus was for all.

Now is the time for those who look toward communication with the higher realms to understand that just as you cannot limit a friend to speaking only to you, so you cannot limit a teacher to instructing only through you. Before the modern organizations which have sprung up in your country had been conceived in the mind of man, I, Kut Humi, and my brothers, Morya and Dwal Kuhl, with the help of still others, tried to give to the West some of the wisdom of the East, some of the heretofore secret wisdom of the mystery schools and to share it openly with all mankind. We spoke then through one known as Madam Blavatsky, and we have since spoken again and again through many others.

Because of a recent misunderstanding and a recent occurrence, I, Kut Humi, request that this be published. I have as World Teacher been interested in contacting leaders of every Mystery school and every group which has tried to bring through the new teachings. Ancient groups that have been revived have known me as a contactee and

a teacher in their inner circles. In fact there is none to whom I do not come, unconsciously if they will not receive me consciously. How else could I be World Teacher? Could you limit a World Teacher to one organization? Now this is very important, and I would have it known that where this has been attempted it was a measure of expediency no longer necessary.

Many of the ancient secrets held inviolate throughout the ages, are now being given forth to the general public. They are the basis for man's upward progress. They can be had for the mere payment of enough money to purchase the books or lessons. Some will swear you to secrecy and yet those same secrets you may obtain freely from other sources. The whole matter is in a state of flux.

As is so often the case, the new makes the old seem a little absurd and ridiculous. Have you not laughed at old fashions, perhaps an old hat that you have discarded? Has it not seemed very funny to you? Old ways of doing things and old customs are often a source of amusement. Sometime you will look back and think about today, "Wasn't it funny how we tried to put restrictions on ourselves and other people when God shares all with all? The sun shines on all alike."

I wish to state that many plans have been made before the leaders of a group were ever born into their present incarnations. Many openings, many types of work have been chosen before the birth of those now taking part. I wish to state that I, Kut Humi, agreed to speak through this channel and to be sponsor of the Group known as SOLOGA before the channel came into incarnation for this life. It was I, Kut Humi of Asia, who gave this channel the name, "Ruth of Miami". This occurred over four years ago; I have been speaking to and through this channel ever since.

I wish to caution those, who have mistakenly put forth the thought that I would not speak through others, to be aware of the fact that all of us misunderstand our directions at times. Sometimes we are allowed to continue in these errors for a purpose, but now the time has come to correct some of them. Beware lest you encyst your organizations in a hard crystalization which will limit those whom you would like to lead into the highest possible. All of this is said in the greatest love for everyone who has given himself so fully that he has been a channel for my voice or the voice of other invisible teachers.

How we love you! How grateful we are for all that you have done, for the wonderful leadership that has gone forth throughout the world to open the minds of man to the new ideas, the new learning, the new understanding. Arise, my brothers and sisters, in the light of Sun and shine this great brilliance of the Mighty Central Sun of Spirit upon all alike. Jesus said, "Cast not your pearls before swine lest they turn and rend you;" and yet what did he do? He gave the word of God to all alike and because he did so he was crucified.

How grateful we are that we can give the Word to all alike through your group SOLOGA without being rejected. How grateful we are

that the group SOLOGA has been founded on the principle of no rejection, no rejection. God bless you all and God bless everyone whom your light touches. SOLOGA, you who are channels for me! I give forth to you the Word which is given to me, the WORD of the ALL.

BE STRONG IN THE CHRIST WITHIN YOURSELF

LIOLIA: speaking to MY beloved, MYSELF expressed in each of you speaking to the heart of you, to the soul of you, to the subconscious, the superconscious and the selfconscious, to the whole of you on all levels saying, "Awake! Arise in the strength of the ALL" Be at peace in the knowledge that all is well. As you know that you are one with the ALL, you will gradually release your anxieties, your worries, and be at peace within yourself. You will understand that all of the knowledge of the ALL is yours to use all the time.

If there is a problem, sit down quietly and declare as We have been teaching you, "I AM ALL in the ALL, through the ALL, with the ALL, by the ALL. I am in complete and accurate communication with the All-Consciousness of the ALL. The knowledge I need to solve this problem is mine now." Then think through your problem as peacefully as you can. Consider it from the standpoint that God is ALL, that He is working for your highest good and impressing you with the right thing to do. If you do not receive your answer at once, forget it and go about your work. Then again before you go to bed at night make this same dedication, the same affirmations and rethink your problem. Soon as you cling to the OMNISCIENCE, the ALL-KNOWING of the ALL, as yours the right answer will manifest itself.

If you think, "I don't know enough; I cannot decide this with my own knowledge," put that thought aside and think instead, "I may not be able to do this with my knowledge, but God knows what is right and I will use His knowledge for He will give it to me." If you feel closer to the Mother thought, then think of Her as giving it to you. Continue to claim that this knowledge is rightfully yours, and soon you will be so sure of what you are supposed to do that you will be able to move forward.

WE have told you at length of your relationship to US. WE have explained fully again and again how you are a Sun, a Macrocosm for many smaller suns and solar systems within you, while at the same time you are a microcosm in the larger Sun expression, IMMANUEL-IMMANUELA of your present Solar System, in ME, the Spiritual Central Sun of the Galaxy, and also in ONE STILL HIGHER, the ALLNESS of the ALL, the FATHER-MOTHER of all Father-Mothers.

If you have been meditating upon this you have gained some confidence, some strength, some courage to forge ahead. If you have not done so it is because while you have listened and liked what you heard you have not yet really made it your own. You may ask, "Well, how do I do this? How do I make it truly my own?" This you

have also been told, but WE know the need of constant repetition.

You make it your own by continually affirming it, saying it, thinking it, meditating upon it, chanting it until you drive it down into the subconscious where it can take hold of all your activities. At first as long as you hold it only in consciousness and reason about it, it is not truly your own. Until you have sung it over, and over, held it to your heart, applied it, lived it, chanted it again and again, and thought of it in the face of all seeming adversities, you have not truly absorbed it, digested it and made it your own.

As soon as you can absorb fully the thought that you actually are the ALL in the ALL. with the ALL, by the ALL you will begin to manifest the power that is rightfully yours. You will begin to take dominion in the small things at first, in the things close at hand, in things having to do with your bodies, your daily life, your affairs, your relationships with others. Gradually the power that is yours through the selfconscious contact with the ALL will begin to manifest itself in your selfconscious, seemingly physical life. This is a goal to be achieved through growth. No one can guess what he will be able to do a year from now if he uses this thought fully and completely in every activity of his living.

I do not wish to bore you or our readers by dwelling too long upon this same idea; but I am well aware, through aeons of personal experience as an individuation within the ALL-CONSCIOUS, of how one hears a thing, sets it aside and forgets it. He may think, "Oh, that is good! I will do that." When he meets the problems of the day he doesn't try too hard for he doesn't know how to go about using that which sounded so helpful.

Much of life on the physical plane is habitual reaction. Happiness is an attitude of mind, a habitual reaction built up by the choice or the will of the individual. Positive thinking is the same, a habitual attitude of mind built up through practice in meeting the various problems of life. Each of you is learning to be strong in the Lord within himself, to contact the Christ within, to stand strongly upon his own feet and be independent as a Son of God.

The thought, YE ARE GODS, is growing in the mind of man. It is one thing to say it, one thing to accept it with the mind, but quite another thing to live it. That is the step that I am attempting to explain to you, that you may know how to go from where you are in your thinking to the actual application in practical ways.

Sometimes it seems that the body hurts and the problems are so great that we are dazed and unable to think straight. We sit down with our hurts instead of with our God Consciousness. We sit down with our worries and our anxieties or our tears instead of sitting down with the thought of communication with the highest we can reach and from that high source drawing the power that we need, the knowledge, the Presence, the wisdom, the love, the light, the understanding of the law of the universe.

First of all before you can progress in the intricacies of the Law, you must build these fundamental understandings into your being.

Again and again I must say to you, "I love you. I send my love through you to others." I must repeat this until you begin to live it. Again and again I must say to you, "We are one. Together We are the ALL. You are MYSELF and I am yourself," until you begin to realize and use this knowledge. Repeat morning, noon and night and in between whenever you think of it, "I am ALL in the ALL, through the ALL, with the ALL, by the ALL." Make it a little song; make it a chant; rejoice in it. Think how glad you are that it is true. Live on it, feed on it, magnify it, expand it to include everyone. Then say, "WE are ALL in the ALL, through the ALL, with the ALL, by the ALL," and rejoice that everyone you know, whether they know it or not, partakes in the wonder of this Allness. When you have truly begun to live this into every fiber of your being, you will see the unexpected fruit it will bear in your life.

Again let ME repeat: tenderly I draw near to you: tenderly I draw you to ME. Open your thoughts, your heart and your life to receive the fullness of MY Love and Light. SOLOGA, beloved ones who are MYSELF! In the ALLNESS of the ALL there is no limit to what We can accomplish together.

ANY WORK FOR CHRIST IS HEALING

Mary: your Mother in the Christ Light, your sister in the service of the Christ, speaking to you the Love that the Cosmic Mother of all mothers pours through us to each other. My beloved, I would speak to you with a plea for greater attention to your healing activities. I would ask you not to forget to pray each day for the healing of the world.

So often when we come to God in prayer it is because we are in dire need. We do not think of asking for healing unless we are in pain and driven to ask, or unless someone we hold dear is at their wits end. We put off asking until there is a great crisis.

For your family and those you hold very dear, see them in the Light each day; see them in the Thought of God, maintained and sustained. See all of their affairs working out for their highest good at all times. Put them in the hands of God and leave them there.

Remember that God is manifesting His Life through each one regardless of the seeming circumstances. Remember that God is living each life. Declare this and put your faith in the fact that God is living it for the highest good of all concerned. Ask what you will but be sure when you ask it that you say, "Thy will be done," and put it in the thought of the highest good.

No one knows a sufficient amount concerning another, even though it be his own child or nearest relative, to know what is really for his highest good. We must therefore operate while on the physical level on our faith in God. We must stand on our knowledge that God is all, that He is good, that He is love, that He is living each individual, that what is true for us is true of others, and that the Life, Love, Light and Law of God are expressing themselves in the life which is the object of our prayers.

Very often the anxiety that we feel for our loved ones retards their progress and ours. Fear is a blanket around us which stops the upward flow of love and request and the outward flow of Light in healing. Tension with the thought, "Oh, I must heal this person!" will be the same sort of blanket, and will defeat your prayers for others so that they cannot reach out for help. Fear as to what is coming to the Earth will hold back your broadcast of light power of peace and harmony. When you send out God's power and light and your decrees for good, you are healing as well as when you put your thoughts particularly on comforting bodily ailments.

Any work for Christ or for God is a healing work whether you are aware of it or not. Your good thoughts in your meditations go out to the Earth in healing whether or not they are so addressed. Your thoughts of joy and contentment go out to balance the thoughts of the opposite, so prevalent in your world. Your thoughts of satisfaction heal thoughts of hunger, of starvation. Your thoughts of joy heal thoughts of sorrow and despair. Your thoughts of hope lift all mankind. Your own yearning for God spreads itself outward and communicates this same yearning to others. All this is healing. This you perform as members of my band of World Servers.

I know you are very busy and some of you who hear or read this message will not have thought of themselves as healers; yet all who think good thoughts are working in this healing mission. For Jesus, to live was to heal. He communicated his thoughts of health and good to all who could receive it within their karmic pattern. As more were willing to receive, more could be healed at once. Jesus said, "Greater works than these shall ye do." He meant that while he stretched out his hand to heal one, you will stretch out your thoughts to heal a situation and a race.

Let us for the sake of practice think how we can help in the thought of those thousands who are without sufficient food in certain areas of the world today. You have been told that the true food of mankind is the Universal Life Force being radiated to all. Many people have proved this for varying periods of time. Many are beginning to realize now that man who advances does not need as much material food as man who lives a primitive life. You can help the hungry by thinking, "All are fed in the fullness of God. All are fed and are filled by the Life Force of God. God through His Spirit is maintaining the thousands upon thousands who are hungry, even as Jesus fed the five thousand with a few small loaves and fishes." Had these people been ready he could have gone still farther and fed them without the loaves and fishes until they no longer could be hungry. He himself was fed in this manner when he talked to the woman of Samaria at the well of Jacob.

Others have been so fed. Perhaps recently you have heard of someone who could eat only liquids for a period of time, and yet seemed not really hungry. This one was being fed through the Spirit, the Life Force of God. This is a demonstration which man of the future will make. You have heard that when some of you pass from this

life into the life to come, you may desire to eat at first with the memory of Earth food; but soon you discover that in the spiritual state you are fed by the Life Force of the Universe and no longer have to eat material food even that which might be expressed on a higher level.

I would not suggest that anyone attempt to make this demonstration over night; but with your thinking of fulfillment, of satisfaction, of being fed, sustained, maintained and perpetuated by the All-Consciousness of the Omniverse, you will find that gradually you will not care for so much food. You will heal yourself of your Earth appetites; and as you send out this thought, you will help to feed the thousands of hungry people on your Earth. Would that not be a great healing?

Oh, yes, my dears, there is so much that we can accomplish with our healing thoughts. It was said, "As a man thinketh, so is he;" but also, as a man thinketh, so is his world. My dears, examine very carefully your thoughts of the world, for as you think about it, so will you discover it to be in your own experience. Will you join me in a little greater effort in the healing of the Earth? I know you will for you always have done your best as you saw it. SOLOGA! May the blessing of the HIGHEST of the HIGH comfort and enrich all your days.

THE EVOLUTION OF THE LORD'S PRAYER

"Jesus said: I am the Light that is above them all, I am the All, the All came forth from me and the All attained to me. Cleave a piece of wood, I am there; lift up the stone and you will find me there." From THE GOSPEL ACCORDING TO THOMAS, Log. 77

FOR THE PAST

Our Father who art in Heaven,

Hallowed be Thy Name.

Thy Kingdom come.

Thy will be done in earth, as it is in heaven.

FOR THE PRESENT

Our beloved Father-Mother God, living in perfect harmony in the Heaven within us and without,

Your Name is Holy in our hearts for we worship and adore You.

Your Kingdom is come for You are always present everywhere.

Your will is done in Earth for You live Heaven on the Earth. You alone are the Ruler of All for You are THE ALL.

FOR THE FUTURE

Father-Mother-Son-The All, living through us the perfect harmony of Heaven on Earth, The Name is Wholly Expressed for we live it and become it.

The Kingdom is come for in us the ALL is fully manifest everywhere. The Will of the ALL is done in all for we exist only by the Law of the ALL.

Give us this day our
daily bread.

And forgive us our
debts as we forgive
our debtors.

And lead us not into
temptation, but de-
liver us from evil;

For Thine is the king-
dom, and the power,
and the glory forever.
Amen.

(Matt. 6:9-13)

We know You feed us with
every good thing, both
material and spiritual.

We know You give us Love
to replace our mistakes.
You live all our lives
for the highest good;
therefore there are no
debts - there is only
LOVE.

We know You lift us
through problems and
tests to the understand-
ing that Good is All;
therefore we fear no
illusion of evil, of sin,
sickness or death.

We rejoice in knowing
that You are All There
Is, All of ourselves,
All of the kingdom, All
of the power, and All of
the glory forever. So be
it. Amen.

THE ALL feeds all
with the Limit-
less Light in all
its manifestations.
The ALL is Love
and knows only
good.

The ALL is Light
and knows no il-
lusion of separ-
ation from It-
self.

ALL are the domi-
nion, the kingdom,
the power, and the
glory forever. So
We see it; so be
it. Amen.

EARTH CONDITIONS ARE BETTER

El Morya: Beloved ones, I bring you good news. Through the work of the Forces of Light and your own endeavors in all the Groups of Light, disasters which were expected for this weekend have been averted. We are so grateful!

The Forces of Light are growing stronger and stronger. The Light is spreading in the thoughts of men in the most unsuspected places, even in what would seem to you the most backward. Channels of Light which we can use are opening, and the power of LIOLIA is pouring through so freely that conditions in the Earth are much better than has been believed. This is great news. You were prepared for the worst; but now we can rejoice that the readjustments are going forward so peacefully. You have had your part in this; and we who work, directing the power from the All-Consciousness into the Earth at times and places of crisis, wish to thank each one of you for all your faithful sending forth.

No, I do not mean that we can rest on our oars, or that our efforts are to be relaxed. The critical time is not wholly past. The great heat, the great outpouring of Brilliant Shining will continue and have its peak some time in August. The Earth, however, is responding to the thought of all beamed to every microcosm within Himer. We are so grateful that we could have a part in this. We wish

to tell you again that Legions of Angelic Forces have been at work to see us through this crisis. Their singing, their rejoicing, their sending forth in concentration, their outpouring of the power as directed, has averted what could have been a great tragedy. We must still continue with the projection as we have been, but now we can do so in increased joy and faith, knowing that so far all has gone much better than could be expected. 6/30/1962

SPACE DEVICES OPERATED BY THOUGHT

Plutana: speaking to you from Space Ship # 1260 stationed above your city. I have not been allowed to contact your channel for some time although my thoughts have been with you who are interested in us and with all who look to the skies for evidences of our presence, and who send out your love to us, your brothers and sisters just outside your belts of radiation and your atmosphere. While we are on one level of operation and you another, we have been as happy as you in the success of our work together.

Remember that we work largely in mental areas. Our mental science has developed to such an extent that we can change dimensions by our thinking. We can change dimensions only for our own bodies and consciousness, but we can also change dimensions for those things which seem material to us. There have been those on your plane of vibration who have done these things, also. Your Bible reading this evening (John 6:15-21) told that Jesus lifted every atom of His physical body into another dimension and disappeared from the sight of those who tried to make Him king; it also mentioned his ability to lift up the whole ship and the people in it and transport them to land in an instant.

Those of us who are advanced scientists are able to travel in this manner. It is because of this that we can operate our craft in such strange performances as you have observed: right angle turns, reversals of direction, sudden disappearances, and tremendous speeds. All of these are operations of thought rather than of mechanical instruments. You who are working in your group to advance your own ability, to raise your consciousness into higher dimensions, are learning these skills. It is true that on higher levels you have already developed them but you are learning to bring them down into your physical plane of manifestation so that gradually the science of Earth people may be advanced.

Now you are wondering if we are considering appearances in your sky. I will have to tell you that on the whole it is still not safe for us to do so on the level of your physical manifestation. We send in certain experimental devices to test your magnetic currents, to explore their readjustment, to discover the breaks in continuity, the periods of confusion, the disturbances, and to forecast the possibilities of the future. We are keeping a close watch. We have made hundreds of maps, diagrams and graphs, and have used all the paraphernalia of the scientist to record occurrences. We have been plotting new airways around your Earth.

You have been told that recently there have been many sightings. Most of these have been other mechanical devices. As yet no manned craft are entering your atmosphere on the physical level of vibration. This will continue to be for some months yet. If all develops to the very maximum of good expectation, we may be able to enter your sky in the late fall or early winter. All this must be determined in the future for, as you have been told, the peak of adjustment must come in your August period. You may not feel this at all, for your bodies and all the Earth are responding so much better than had been expected. However, the currents within the Earth and in the atmosphere are too turbulent and too disturbed for our safe entrance.

We still continue to support you with our healing beams, our meditation, and our science to the best of our ability. Be of good cheer; be comforted. All seems to be unfolding smoothly and in the divine order and harmony of the universe. I bring you the love of all in this ship. You will remember that Doctor Hannibal assigned me especially to your group for this contact. We have stood by meeting after meeting while Dr. Hannibal in his identification as St. Germain has brought you our messages. Now that the adjustment to the Rays from LIOLIA has been made by your group and your channel it is possible for us to speak to you more directly; for this we are so grateful. We wish to congratulate you on the progress made, and ask you to send out your thoughts to us, that we may begin to establish communication with each one of you. Oh yes, we will in time; we will.

We pray that God will bless each one who hears or reads this message. We pray that you may feel the love vibrations we are sending you. We pray that you may be opened to closer contact with your brothers from the Solar System. SOLOGA! We are all one in the ALL.

WE BUILD A CITY OF TRUTH

All that is new or startlingly different is sure to be rejected by many who do not understand it. Some require time to adjust to the new. Some fear to leave the security of old established ideas and wait for time to show the real truth of what is being unfolded for the future.

All groups of Light have met with various rejections. This is part of the business of introducing new thoughts which may disturb before they are digested. Since all of us have experienced this and know the fact that rejecting others is often an unconscious admission of inability to assimilate the advanced ideas, why then must we also reject each other?

The man who claims he never makes a mistake is making one at that moment, for this is a place of manifestation wherein we are limited to such an extent that errors must be common to all since they are the device by which we learn. Why then must we be forever

pointing out each other's errors instead of spending our energy in earnest effort to correct our own? Is it possible that some do not realize that the search for errors in others is the evidence of their own negative thinking?

We of SOLOGA do not publish lists of those whom we accept, for we accept all as having truth from which we can gain sustenance. We are not criticizing anyone for his errors; we are loving all for their truth. We desire to encourage each one to step forth and do what he can, for only by doing can anyone grow. Long ago it became evident in the school room that when the teacher forces his way upon the student the result is stultification of the individual powers and originality. When the teacher suggests goals and lets the student explore his own ideas and abilities the results are delightful and the student unfolds depths which the teacher has not perceived.

We are always grateful when anyone tells us of his receptions which are verifications of what we have been given; but we do not feel the need to hunt for verifications of others or to justify ourselves or the Word as given to us. We place it all lovingly in the hands of God, content to let Him separate the tares from the wheat in the harvest of Time-to-come. If we should seek human witnesses or confirmation, we know their judgements would be based on their approach which might not be the approach which God has particularly appointed to us. Therefore, with Jesus we are content to let the Father witness for His Truth in His own way.

We turn only to the Father-Mother God for judgement or guidance. We do not try to tell anyone what he should do; let him turn to God for guidance and grow as his own soul leads. Neither do we accept the right of anyone or any organization to dictate to us or to anyone else what we shall think or say, how we shall word our messages, or under what framework we shall operate.

We do not take the responsibility or allot any of the precious time which God has given us for pointing out what might seem to be errors in others. We place ourselves and all of you in the hands of God, knowing that in the New Age each must be free to discover his own errors under the guidance of his own soul or Higher Self.

We do not seek acceptance from anyone. We give you what has been given us to share. Whether you accept or reject it is your business. This must be so from a practical standpoint since as yet so few have accepted IMMANUEL and LIOLIA with sufficient love and faith to be able to channel for THEM. Blessed are the many who have accepted THEM, and have felt the witness to the truth within their own hearts.

Other groups feel that they are appointed as coordinators. With great gratitude we gladly leave that work to them. We ourselves must limit our publication to putting forth the Word as it is given us; for the vast storehouse of the Wisdom of the ALL awaits man's entry at this vital hour.

Let us not be led astray by the Sanballat and Tobiah thought of the present (Neh. 6:2-3) which would seek to keep us from building

the new city of Truth which is our common task. Instead of striving among ourselves for supremacy of authority, work, or power, let us use all our energy in trying to remold ourselves in the pattern of the humble, giving Christ, whose love for all is so far beyond any puny effort we have yet been able to demonstrate.

Let us rise above our personal, human selves, and drink in the Glory of the Radiant Light of the Omniverse which it is our privilege to bring to all men both of today and tomorrow.

Ruth of Miami, 8/1962

REST IN THE STRENGTH OF LIOLIA

LIOLIA: My beloved children, MY gentle Beam is playing upon you now. MY Love is tenderly searching every nook and cranny of your being. The Power of MY Light is reconstructing and rebuilding. The Strength of MY Life is sweeping from you all the fatigue, all the worry, all of the anxieties, all of the hurt feelings. Open your bodies consciously to receive.

Notice your sensations; feel the Beam of Light which I am pouring into the light which is you. Feel MY Love, MY Maintenance, MY Support. Draw the Light of ME strongly within. Consciously draw in the Light which is descending upon you and again ascending outward through you. Draw it consciously into every tiny microcosm within your own sun-being.

My children, you are existing on a plane of illusion. The great illusion of the plane in which you now live is that of separation. You are bringing through the thought of Oneness to this plane. You are spreading through the word of mouth, through your prayers, through your meditations, through your sending forth, the great Word of the ALLNESS OF GOD, and His Creation as ONE together in the ALLNESS OF THE ALL.

This is a realization from a higher plane. To bring it into the plane where you now live and broadcast it must necessarily bring some reaction. Your Wayshower said, "I come to bring not peace but a sword." By that He meant, "I come to bring a truth that will be upsetting to those who have planted themselves solidly in the illusions of the Earth and cling to them as realities." The thought of Spiritual healing is upsetting to those who feel that they must cling to material science and material remedies. The thought of interplane communication is upsetting to the orthodox scientists who desire to weigh and measure or prove by "controlled experiment." Metaphysical truths and metaphysical phenomena are beyond the grasp of the material-minded man who separates himself and his world into matter which is real and spirit which is a fairy-tale.

Many of those who come into groups of Light and their work have come in their dreams of greatness, their jealousies, their angers, their hatreds, their self-aggrandizements, and have tried to propagate these under the authority of the name of Christ Jesus and Program Jesus. They furnish an opportunity for man to develop his discrimination. "By their fruits ye shall know them." Examine again

and again the fruits before you accept the message. Examine the truths of the message before you accept the messenger as humanly a messenger of Light. Remember that all are living the Life of God. All manifested in your Earth Plane are living the Life of IMMANUEL-IMMANUELA, and through them MY Life, and through ME the LIFE of THAT WHICH IS still higher than I. When you can come under the WILL, the LOVE, the HARMONY, the ORDER of the Omniverse and live in acceptance and cooperation you can be used for positive work. While you still cling to the old negatives, the greed and jealousies, the racial prejudices and pride, the old doctrines and dogmas, the selfishness, the self-centeredness, the Light of God still uses you as a channel by means of which others may develop their knowledge and their discrimination.

Beloved ones, love your enemies; do good to those who hate you and despitefully use you. "Rejoice and be exceedingly glad, for great is your reward in Heaven, for so persecuted they the prophets which were before you."

Beloved ones, rest in MY Love, for you have experienced it. Rest in the strength of MY Protection as you have experienced it. Rest in MY Rule, for you know that GOOD governs. Rest in God, in the Highest that you can reach. May I call attention again to the name I have given you, Life, Love, light, and Law. Rest in these. The Life, the Love, the Light and the Law of the HIGHEST OF THE HIGH shall reign in the Earth plane. Make no mistake about that.

The stone which the builders rejected has become the head of the corner. Worry not about your rejections. They will come; they must come to all who bring through to the physical plane that which is above and beyond the concepts of the majority. Be grateful that you have attained sufficient Light that you are worthy to suffer rejections. Jesus was rejected 2000 years ago by the same type of thought which rejects you today. Jesus was rejected to the point of death. You will be rejected to the point of strengthening you in your own faith in what you are doing, in your faith in God, and in your ability to meet such situations in peace and love whenever they arise.

Beloved, there are only these remedies for anything that comes up in life where you are at present: the Life of God as expressed in all existence about you, and the Love of God expressed in every experience. Instead of examining the experience to see where it may hurt you, examine it to see where it may strengthen you. Try to find the Love of God hidden in the depths of the experience. See the Light of God sent out to you from all around you and through you to others.

The first time you began to lift your thoughts into a Higher Realm, you were taught to surround yourself in Light. Never neglect to fill yourself with light each day. Surround your work, those dear to you, your home and all that you have time for such as your city, your State your Nation, your Planet with the light of the Christ which is the Word. You who bear the name, SOLOGA, the Word

extracted from its very Source, should remember that the Christ is the Word. Walk boldly in the Christ Light and fear not. Walk strongly in the Light as a group.

The fourth and final remedy is the Law, the Order, the Harmony of God. If you are trying to discriminate, ask yourself, "Does this thing which I am considering contribute to the order and harmony of my life or of other lives?" If it does, it is good. If it does not, it is not for you. Let this be your signboard to help you direct your feet into the proper path for you.

The world is full of hearts yearning for a higher truth. Waste no time over those who cannot accept you but go rapidly on to those who can. Leave the tares growing in the wheat for the Lord of the Harvest; they are His business. Continue to sow your seed and leave the rest to those who can see the complete pattern of unfoldment for the whole galaxy. Be at peace, MY children; be at peace.

Let Me repeat: whatever the problem examine it in the light of these four basic principles which have been given for constant association and memory in the name, LIOLIA. In this way you draw close to the Spiritual Center and Sun of the Galaxy; and you make it possible for ME, LIOLIA, to reach your self-consciousness with MY Life, MY Love, MY Light and MY Law and to carry forth the pattern of MY Attainment in your individuation as your soul has desired for this experience. Again, let nothing disturb the peace in the center of your being. Remember, the dwelling place of God is within you. Keep that place calm, serene, and fit for THE HIGHEST OF THE HIGH. SOLOGA! MY beloved children in whom I am most pleased! 7/7/1962

MARY CHANNELS FOR IMMANUELA

Mary: speaking to you who are my beloved. I come again in the Love of the Cosmic Divine Mother. Two times in succession I have addressed you. Did you by any chance have the thought that the channel was only speaking her own thoughts? Perhaps you might realize that by this time her thoughts for me might now be exhausted. Let this then be confirmation. Three times in succession I have come to speak to this group. In your SOLOGRAPH I shall be speaking through you three times in succession. I underline the number three; for I believe that as a group you have been given the instruction that, if anything important must be decided, you shall ask three times and if three times you receive the same answer you may be sure you are right. I believe you were told that these should be on three separate days and perhaps at three different times of the day so that you could not feel that you yourself were bringing the answer.

I do not feel it necessary to come to the defense of this group or any other group of Light. I do not feel that any channel, who is sincere and doing the best to bring forth that which comes after the honest prayer and the dedicated life, should have to have confirmation from any other channel or authority driven through from the Higher Realms. Each channel has the right to stand erect in the

presence of God and let the Word flow. Having given out what has been given you, examine it with your own discrimination, and then put forth what you feel you can give to the world with sincerity from the depths of your soul being. When you have worked as a channel in many past lives, as each of you sitting here has done, that which comes to you and through you brings with it a feeling of truth and of authenticity.

Speaking in the Light of the Mother, IMMANUELA, I channel Her thinking for you. I come to you with Her message. I am sure that I am doing that which is right. I have faith in IMMANUELA and in myself, for the communication is clear and open. I ask you, therefore, to have this same faith in that which comes to you.

Each one of you is sufficiently advanced to know that if someone comes to you (as did those dear ones 2000 years ago who had filled themselves with the loaves and fishes and so desired to make Jesus a king) and whispers from the invisible, "If you will just put out what I say I will make you the King of the Earth," you would say, "No, I know you are not the kind of spiritual contact that I am seeking. Jesus is my Wayshower. When they tried to make him King he lifted their thought to the Bread of Heaven, to a higher realm, and to the Fatherhood of the ALL."

If someone came to you and said in your mind, "Put forth what I shall give you and I shall make you the greatest world leader so that all nations will come to you for advice," you would say, "Oh, no! There is something wrong here." You would not receive or give forth such a message.

You are aware that the thought of the New Age is to bring forth unto man his Oneness with the All, his Sonship in the Light of the Father, his Christhood which is for each one equally, not for one more than the rest. Remember that Jesus said, "He who would be greatest among you, let him be your servant." He also said, "Those who make themselves the greatest in the earthly kingdom shall find themselves least in the Kingdom of Heaven." Yes, indeed, your prayer for discrimination is being answered within you as you study, meditate and reflect. You would not be in this group; you would be in one of those who reject instead of among those who accept, had you not trained yourself in discrimination through many lives.

You are on the point of awakening to a depth of understanding and a breadth of knowledge that will make all of this which seems to disturb at times quite insignificant and immaterial. Oh, my dear, my beloved ones, you have learned to lift your consciousness completely out of the Earth body, to retire to the Higher Self, and to drink in the Light of the Lord of the Sun. IMMANUEL-IMMANUELA. Some of you have gone farther and visited other Suns and there strengthened yourselves. When you come back into the self-consciousness of the little Earth, you do not forget what you have accomplished and what you can do.

When the Earth body seems overwhelmed, bring into it the strength of the Light which you have experienced on the higher planes of

vibration. Bring the higher self down into the self-consciousness. Yes, excuse me, the channel is thinking, "Oh, dear! When my High Self spoke through me I was almost ashamed to let this be known." Yes, the channel feared it might be judged as personal pride or a setting of self above others.

Someone has said, "Those who talk most about humility know it the least;" but this, too, is a trap to satisfy those who lack humility. Jesus washed his disciples feet; He kneeled before each one and did the most humble service possible to Him at the moment. But it is possible to be so desirous of being humble in the old way that you hold yourself back.

I would say to each one of you: find your proper balance between humility and strength. Know yourself to be a messenger of Light; stand strong on what you know is right. But remember that those about you have exactly the same right and give it to them.

Again, the whole thing resolves itself into the four great Words: God's Life, God's Love, God's Light and God's Law. I hope each one of you have been singing the beautiful name which brings these four into your mind, LIOLIA. I hope you have been praying with that Name. I hope you have been remembering the four principles for which it stands. They are so fundamental that they are like the four corners of the City Foursquare. They are the four sides, or the four corner stones, the four directions - Life, Love, Light and Law. Stand firm in them; in peace ask for guidance; in strength put the Light of the Christ strongly about you and move forward. Do not let the Sanballats and Tobiahs of today keep you from building the City of Truth which you have come to construct. SOLOGA, my beloved, my brothers and sisters, workers in my band of World-Servers! In the Light of our common Father-Mother, IMMANUEL-IMMANUELA, in the Light of the Father-Mother Sun, LIOLIA, SOLOGA! Let us send forth the Word from the Alpha and Omega, the Source of All, and fear not, for the Word is a two-edged sword able to protect those who give It forth.

ORDERS FROM THE HIGHEST INNER CIRCLES

El Morya: You will perhaps have noticed that day after day the atomic test in the higher atmosphere has been delayed. It was important that it should not take place on the same day as the very large explosion in your desert. It is still important that you send light to this situation. Regardless of the letters sent by many, by scientists, by Groups of Light, to your President, the matter is more or less out of his hands.

Orders have gone forth not only from the President but also from the High Council in charge of this Solar System and they in turn have taken their orders from a Still Higher Council in close harmony with the Spiritual Center of the Galaxy. If the tests are completely cancelled the order will come from the highest inner circles of the Golden Legion in response to a decision of LIOLIA. If the tests go on it will be because, after having fully assessed the

data gathered by Scientists in the Realms of Light and sent in for this purpose, it is evident that such a test will be helpful rather than harmful.

Checks and counter-checks for balance are of value. When your government first was established under the present constitution, three departments were set up to provide checks and balances for each other. In the handling of this test situation, some channels are impressed with one thought and some with another that the balance may bring exactly the proper action at the proper time.

You have been told that each is to stand on that which he receives and go forward in faith. These other channels have done and are to be thoroughly commended for it. However, you have been used as a check and a balance to hold down fear and to explain the need for such a test if it does finally go through. Be at peace, therefore, among yourselves, but continually send your light to this region. This we have emphasized for several weeks now. Daily, if possible three times a day, send your broadcast of power to the area that we may use it to hold back or delay the test if necessary, or that we may properly contain it and use its stimulation for the greatest good if it is permitted. This is one of the reasons why you had to be organized and sending forth your messages from the first of this year.

I have come to you session after session. I have not wished to say anything concerning my own position and yet perhaps it is necessary to secure your complete cooperation. You will find me listed in literature which has been circulating in your country for a number of years as working under the Manu on the first Ray, as one in charge of the distribution of power in our planet at the present time. I work in that division of Light which gives great vigor and strength. Red as expressed in the ruby is the personification of power. In addition to other global activities, I have come to you session after session to stimulate in this group the strong desire to cooperate in this matter and to impart an understanding of the importance of your mission.

You have been asked to broadcast power even before you worked in the healing ray. This is because through the power that you send out, the healers may work to heal not only those dear to you, but also the situations of importance in the Earth. I hope that these few words will bring home to each one of you the great privilege you have in taking part in this exercise. May the HIGHEST of the HIGH, the Glorious Shining of the great LIOLIA bless each one of you as you faithfully carry forward this mission. 7/7/1962

SPEAK FORTH THE WORD OF COMFORT

Mahatma Gandhi: When one in the Realms of Light finds a group functioning as sincerely, as devotedly and unselfishly as this group, one cannot resist the opportunity to come with the problem closest to the heart. You have known me in your life in your magazines and on your television screens. You have seen me in a body shrunken

from self-denial, walking the streets of India to lead my people in the way of spiritual evolvement. You will recognize me as the one who was called Mahatma Ghandi.

I come to you with an appeal. To whom else could I go? To whom else but the Groups of Light, opening their hearts to all, opening their love to include the very sand, the primitive races and those who have despitefully used you, could I take my appeal with greater hope than to you.

You have heard or read of the unhappy situation of millions of people all over the Earth today. You will have feared to look fully at their conditions for then you could not go forward in peace and relaxation to do the work you must do. I do not ask you to paint in your minds the horrible conditions of deprivation, of starvation, of oppression, and of despair. I ask you instead to send forth the word of Comfort, of Enlightenment, of Brotherhood which you can give.

Your group has been told to speak forth the Word. Every channel in contact with the higher realms of Light has been given the same command, the same inner urging, this same desire to Speak forth The Word. Beloved ones, be so busy speaking forth the Word that you do not have time to bemoan and bewail the misery of others.

Let us for the moment think of the case of an accident on your streets. Which one is of the greatest help in such an emergency: the one who stands by wringing his hands, weeping, and saying, "Oh, isn't this awful?" or the one who, having prepared himself with some knowledge of the need, goes through all the steps which you have been taught and calmly acts to bring as much comfort and healing to the situation as possible?

The Word builds; the Word materializes; the Word revolutionizes. My brothers and sisters living in the age which I understand, send forth the Word! I do not mean that you should publish more bulletins or mail them by the millions. I mean consciously speak the Word wherever you are into the air and into the ether. Send it out. I am speaking with force and with authority for I have led a nation to freedom.

Some of you work in places of business all day and think you have little time. As you prepare the body for the day speak forth the fact that God's Life as being lived in every human being for the highest good. Say forth through the mind or through the voice: God loves all; God feeds all. From the exhaustless riches of His infinite substance all draw every needful thing both material or spiritual. All are fed by the Bread of Heaven which is as infinite as the ALL. Speak forth these words with power and authority.

People are always saying, "What can I do about this? I am just one. I can write to the newspapers but who pays any attention. I can write to the President but maybe he doesn't even see it. It's all in the hands of the politicians and I can't get to them. I have no money to buy their votes or give them privileges. I can't even get their ear. I can write letters but unless there are many, many of us they won't pay any attention." Every American has thought this

at some time or another; he has felt powerless. My dears, you are not powerless; you have great power. You can sit within the four walls of your own private room and send forth such power and such light that the world will be shaped to your thinking. This is one of the laws, one of the principles of the Omniverse which you must now begin to understand.

Oh, I wish you could see your light as it shines forth. I wish you could see how you radiate and scintillate and sparkle. I wish you could see the beauty of the growth which you are making. I wish you could see the unity of all who are here with you. Yes, you and all who are here with you send forth the Light so powerfully that it is a great comfort to one such as I who desires so deeply to ease the burden of so many millions of suffering, oppressed, downtrodden, confused, sick, primitive, ignorant and unhappy people. May God bless you with all His fullness as you respond to the call of man in multitudes for comfort, for peace for love and for light. I believe you say SOLOGA! meaning together we work; together we send forth. Peace be unto you in the Name of the Solar Logos. 7/7/1962

ST. THERESE OF THE ROSES

St. Therese of the roses,
Precious Little Flower so fair,
Helping all who seek your guidance,
Ardently your love you share.
St. Therese of the roses,
Lost in service to the ALL,
Help us blend ourselves in ONENESS;
Guide us that we do not fall.
Gentle Angel, be our teacher;
Help our eager hearts to love;
Show us how to humbly share Light
Flowing through us from above.
You're the little Flower of Heaven
Giving all - all that you are.
Thank you, bless you, St. Therese!
Please ever be our guiding star.

Words by Barbara Moss

LOVE

Deep within dwells an Abiding
Presence
Just as a tree clings to barren rock
And reaches down for sustenance
So my soul has found Thee
O my soul, a captive of Love
So overwhelming and powerful
It begs never to be released.

A PSALM FOR THE NEW AGE

1. Blessed be the Name of the Lord, our God of righteousness; He doeth all things well.
2. Blessed be the Name with which the Earth and all upon it was created; He established it for His Glory and His attainment.
3. Blessed be the Name -- the Name of the Whole One forever; for He is ALL-in-ALL for all.
4. His Kingdom is without end; His dwelling place is within us and without.
5. He reveals Himself through all that exists; all being is Himself expressed.
6. His Limitless Light pervades the Omniverse; He lives all for the highest good of all.
7. Blessed be the Name of THE ALL; He is the Source of all thought, energy, and Light.
8. Blessed be the Name of the Lord, our God, forever; His love prevails over all.

(Spoken by King David

PRAYER ALERTS THROUGH OCT. 10

Ixutel: Conditions in the Earth are much quieter than they have been for some time, but there are still stresses and strains which need the support of all Groups of Light in the physical manifestation and all Scientists of Light in the Realms of Higher Vibration.

As long as the Soviet Union or any other nation is exploding large atomic devices we need to work to contain the shock waves which are more dangerous than the radiation. Continue to send Light, Love and Peace to all test areas, comfort and awareness of God to all oppressed peoples, and see the liquid gold of the Light of LIOLIA pouring into every fault line, annealing and welding them so that they become strong.

The fault lines are like chimneys through which the excess power may be released and yet it is possible to strengthen them so that the flow of power may be harmless. Earthquakes open those places which have grown too dense or ossified to permit an easy flow. The Higher Self of the Earth is working in deep meditation to heal these areas.

The greatest problem is the disturbances caused by the distress and the destructive thinking of man. Man's thoughts are much more destructive than his mechanical devices; therefore it is especially important to speak to the consciousness of man. Tell of the peace, the love, the light and the plenty of God. Urge acceptance of God and His infinite goodness expressed in every life. See man fed by Light instead of starving for lack of material food. Think plenty for all everywhere expressed.

Calm the fears of your neighbor, Cuba. This is at present the most disturbed spot in your hemisphere. Hold it continually in light. Send healing to it as you would to a dear one who is ill.

The magnetic currents in the air are still disturbed. Accidents in travel and transportation will continue with lessening frequency as the autumn passes. During your hurricane season send peace to the area where such storms generate whether there is news of such disturbance or not. The time to quell a storm is before it starts. Again, the following are dates of peaks of stress in the areas given:

Again we thank each one for his faithful service in the broadcast of power to the areas indicated. You are often laboring "blind" as it were for you cannot receive adequate reports of the need or of the results in your news media. Moreover, certain occurrences must be permitted and are therefore not to be included in your dates. Preventive treatment should be given daily to the Whole Earth and every unit of manifestation included in its great complex of life.

HEALING TECHNIQUES

Various techniques for healing which we are eager to share with you have come to us either individually or in our group meditations. The Forces who help us are continually changing their approach so that the mind may be challenged to its greatest cooperation. Visualization has been stressed and affirmations and acts have been

dramatized to stir the emotions and lift the feelings toward acceptance of the Everpresent Healing Power of the ALMIGHTY.

We have been told to see a vortex of light whirling in any wound or disturbed area and know that it is removing all that is discordant and rebuilding normal tissue and functions. See this vortex pulsing downward to a point at the center of the trouble and then back outward in tune with the heartbeat of the individual if you can sense it, or in tune with your breathing. See the light whirling downward centripetally as you breathe in, and outward centrifugally as you breathe out. If you are hoping to open closed passages or remove cholesterol or hardening, see a device of light like a plumber uses to open clogged pipes -- a "snake" or a "rotorooter". See this spiral screw of light whirling through tubes and throwing out all accumulations not in accordance with the patterning held in God's thought of perfect man. Both of these have been proven to be very effective in healing cases which the doctors considered extremely serious.

One evening Barbara was feeling fine until she sat down in class; then she was suddenly very tired. In meditation she saw a skeletal drawing of the spine in light and round it very fine lines of light were whirling up and down in a spiral to encase it. We were told that this is an excellent treatment for weariness. It can also be used as a preventative when you know your day will be overtaxing. In another meditation in class, she saw a whirling cylinder of light with a small vortex entering it at an angle. She was told that it was a tool. We learned that we can place anything to be healed or to be created mentally in such a visualization with excellent results.

Since Clara is a nurse, her thought always turns to healing. She was told to see a vortex or orange light turned upside down on the head as a cap. As she practiced this she was surprised to see a dark spiral running down through the patient's body and out through the troubled area. At times the spiral was darker than others to indicate the seriousness of the discord.

In our healing activity we stand in a circle around our central shrine for our healing prayers and treatment. Our invisible Leaders have asked us to make contact for the free flow of the healing power around the circle by placing palm to palm as we join hands. Sometimes our hands are lifted by a common urge toward a high point in the center to dramatize reception and again they are extended to a common point as if our arms are spokes in a wheel. Sometimes we are told to place our palms on the spines of those standing next to us in the circle; this is surprisingly comforting. We have been instructed to hold the Shrine (the box which contains the requests for healing) in the right hand with as many touching it as possible and the others pointing to it with the right hand, and to hold the forefinger of the left hand upward above the head in the symbol of the Magician as shown in the Tarot. The magician consciously draws down the Life power of the Omniverse to heal and to create.

We have found that while set affirmations are often used with great success, in time they seem to wear out or no longer stimulate

the desired results. A spontaneous flow of declarations of faith and gratitude seems to be much more effective and perhaps convincing to the subconscious. One evening when the channel was leading the healing prayer she began to declare with strong emotion her faith in the ability of God and all the Forces of the Healing Service to heal instantaneously, June heard Joseph, Mary's husband, saying, "Yes! Yes! Yes!" with great power and conviction. We are always aware of Beings of Light who act with us concertedly in any exercise we are assigned.

If you should find any of the above suggestions of especial help to you we would be happy to hear from you; or if you have a favorite technique which you wish to share, we hope you will tell us about it.

We invite your requests for healing prayer and treatment. Healing is an important activity of every group meeting and is also sent out daily. We offer a short healing tape on which Jesus speaks a loving healing message through our channel. (This tape is not available at present.) However, this Sologra Healing message, given by Jesus, has been transcribed and is printed in this Volume II. You will find it on Page 120.

We are much embarrassed to have lost the address of Selma C. Hephinger. Can anyone help by giving us this address? We are grateful to be feeling more vigorous than for some time. The build up of power and the necessary adjustments seems to have leveled off somewhat since August 9. We are also very grateful to Barbara Moss for undertaking some secretarial assistance and to Wayne Taylor of Melbourne for his valuable assistance in transcribing tapes for us. We are so very grateful for all of you who continue to support us financially. Without your help there would be no SOLOGRAPHS. We are also very grateful to all of you who share your copies with friends or speak of the SOLOGRAPH to your groups. Most of all we thank the wonderful ones who continue to support us with prayer, recommendations and gifts even when we have not answered your letters. How marvelous you all are and how we love you!

ATTAINING CHRIST CONSCIOUSNESS

Jesus: My brothers and sisters in the Christ Light, I, your brother, Jesus of Nazareth, speak to you this evening. I have felt a yearning in your hearts to draw closer into the Christ Light, to be able to reflect more of the Christ in your daily lives, to come into the enlarged Christ Consciousness and to attain the healing power of the Christ thought.

I have come to speak of this to you. You will perhaps remember that when I spoke of John the Baptist I said that no man born of woman was greater than he. He came preparing the way. He came as a voice crying in the wilderness to prepare for the understanding and acceptance of the message which it was my privilege to bring to man.

The saddest bit of my experience in an Earth body was the

Knowledge that I brought to my brothers and sisters of Earth an understanding that was too advanced for them. Because of the vibrations of Earth at that time they could glimpse only a little of my meaning. They could however, understand the message of John. For a thousand years prophets had been shouting at them, "Repent and turn to God with all your hearts." But the men to whom the prophets spoke were unable to receive the message in their time. By the time of John the Baptist the vibrations in the Earth and the Light shining upon it had risen to a point where at last they could begin to receive his message.

In the nearly 2000 years since that time, men have been living in the message of John the Baptist rather than in the message that I came to give them. When asked if he was the Christ John said, "I am not he." He put the Christ apart from man. He put him on a pedestal unobtainable by man. My mission was to speak of a Kingdom of Heaven within and of the Christ within.

When you read my words always remember that I was not speaking so much to the physical man as to the spiritual man. When I said, "I am the bread of life," I meant the Christ within which is the Eternal Bread of Life. It was impossible for those listening to me there to understand the spiritual meaning of my message, for they put God and Christ, the Son, so far away from them that for any man to claim his sonship was considered a crime worthy of death.

Down through the ages since that time, man has been living under the message of John the Baptist. He has been putting the Christ apart from himself. He has been identifying himself with the lower nature. He has been saying, "I am a man born in sin and I cannot attain the Christ. I am not He." But my message was different. I came to tell you that I and my Father are one. When you have fully identified yourself as a son of God then the Christ consciousness is yours for that is what the Christ is. The Christ is a Son of God.

There are various levels of son-ship. IMMANUEL-IMMANUELA is a Son of God expressing the Christ to the fullest extent of a Sun. LIOLIA is a Son of God expressing as the Spiritual Sun of a Galaxy. But you and I have not yet attained that high rank of sonship. We are still manifesting on a lower level as man in the aura of a planet, and yet we can manifest the Christ.

In certain hidden inner circles of certain Protestant denominations, teachers have tried to instill the thought of identification with the Christ; but people have shrunk from this idea, thinking, "Oh, no! Oh, no! That would be a type of insanity, I would be making myself that which I could not be. It would be a sort of Napoleonic complex or even blasphemy." Thus they reject advancement.

The one who identifies with the Christ Consciousness attains the healing power of the Christ. As long as I as Jesus of Nazareth identified with the Christ Consciousness as a Son of God, the healing power of the Christ flowed through me. Many people have said, "Oh, why can I not heal this trouble as Jesus did?" The chief reason is that they have not identified themselves with the Christ Consciousness.

At the present time man is greatly puzzled as to how to do this. Some are claiming that they have attained Christ Consciousness when indeed they have not.

There are several ways to work at attaining Christ Consciousness. It is not for foolishness that I have continually inspired this channel to speak of me as a Wayshower, for I said in plain words, "I am the Way." How can you hope to find the way that I am if you will not let you show you the way? I am your Wayshower. I came to explain how you can do the work that I did. If you will again undertake a thorough study of the four Gospels, the four stories of my life, great light will be opened to you on what it means to live the Christ Consciousness.

Those who give forth discouraging criticisms and cross words, who tear down instead of build up, do not have the Christ Consciousness no matter how much they may claim it. Some of the Christ Light may shine through them but only a little until the Christ love is more fully manifest in them. The Christ Love must be attained for Love is Light and Light is Love.

Then there must be a clearer understanding. Very clearly I told you that some will say, "The Kingdom of God is here or it is there;" but I explained definitely that the Kingdom of God is within you. I did not say just within me, Jesus of Nazareth. I said, "The Kingdom is within you." When you have understood that the Christ is within You and you have aligned your life with the Christ Light, your thought with the Christ Thought, then you will be able to do the Christ Works.

To help you realize this I would ask you occasionally, continually, daily, hourly or whenever you can think of it to say, "I AM the Christ Light. The Christ dwells within me now. I only have to understand and accept this to bring it forth. The Christ Consciousness is the only true consciousness there is. All else is illusion; it is the veil that hides the Christ." Determine within your own beloved hearts to tear off this veil and find the Christ within you. When as you were in the kindergarden of your school you had to learn again and again by counting and by repetition, by actual experiencing, that two and two are four - just as you had to drive that fact down into your being before it could fly to your mind and hand for instantaneous use - so you must fully accept and drive down into your being this fact that as a son of God you live the Christ Consciousness.

My dear ones, it is all within you. You have but to tear aside the outer husks that cover it, to get down within yourself and find it. Seek contact in any way that you can that will open for you this kingdom within you where you have dominion with the All in THE ALL, in your own true Christ Consciousness as a son of God. Remember my words, my beloved; for the past 2000 years man has set the Christ apart saying, "I am not He," therefore he is still living in the thought of John the Baptist. Now in the New Age, in the new Light of LIOLIA, it is possible for man to understand what is meant

by the fact that as a son of God he lives the Christ.

For you who are manifesting by the choice of your soul in these early days of the outpouring of Golden Light from LIOLIA, not such complete revelation of the Christ may be possible as will be possible to those who manifest several centuries later when all have adjusted more fully to the Great Golden Shining and when more of this wonderful new light has been received. But you are my representatives, my wayshowers to others. May I therefore hold before you this vision and this goal; and may I again say unto you greater work than I did shall you do if you will but find the Christ within, and open that he may enter into full expression in your life on all levels. SOLOGA, my beloved! In the wondrous Light of the Solar Logos, in the wondrous Word of the Alpha and Omega, I say unto you, "Follow me and I will lead you to a full understanding of the Christ within."

After the preceding message from Jesus, the Onlooker was taken to the Mount of Transfiguration where she beheld Jesus and Mary standing together. They appeared to be nothing but pure white light glowing with the radiance of spiritual beauty. The onlooker was told to take off the veils that hid her own light. She looked down to find herself dressed in layer upon layer of coat-like garments. The outside one was black and heavy. She could see that underneath there were many more of gradually lighter hues but underneath them all there was the same pure white radiance waiting to be revealed. She began tearing at the coverings and dropping them under her feet or casting them from her to try to uncover the light beneath.

Perhaps this will explain a very troublesome passage in THE GOSPEL ACCORDING TO THOMAS, Logia 37:

"His disciples said: When wilt Thou be revealed to us and when shall we see Thee? Jesus said: When you take off your clothing without being ashamed, and take your clothes and put them under your feet as the little children and tread on them, then shall you behold the Son of the Living One and you shall not fear."

The clothes evidently refer to the error thoughts, the prejudices and false beliefs, the negativity and materialism which darken and weigh us down. In one vision a dark brown was clearly used to symbolize ignorance.

"Mary said to Jesus: Whom are thy disciples like? He said, They are like little children who have installed themselves in a field which is not theirs. When the owners of the field come they will say: "Release unto us our field." They take off their clothes before them to release it (the field) to them and give back their field to them." Logia 21.

Here the field represents the state of material thinking which does not belong to the children of God. They have to take off their clothing of illusion, separation, and error in order to give back the field of mammon and return to their own spiritual property.

"Jesus saw children who were being suckled. He said to His

disciples: These children who are being suckled are like those who enter the Kingdom. They said unto Him: Shall we then, being children, enter the Kingdom? Jesus said to them: When you make the two one, and when you make the inner as the outer and the outer as the inner and the above as the below, and when you make the male and the female into a single one, so that the male will not be male and the female not be female, when you make eyes in place of an eye, and a hand in the place of a hand, and a foot in the place of a foot, and an image in the place of an image, then shall you enter the Kingdom," Logia 22.

Through the Divine Providence this manuscript was kept away from the revising Church Fathers until man was ready to understand its meaning. The two, matter and spirit, must be made one as can only be done with the knowledge that all being is Light in various rates and patterns of vibration. The lower must be replaced with the higher to enter the Kingdom of Heaven.

LEGIONS OF ANGELS ASSIST US. ALLELUIA!

LIFT YOURSELF INTO THE REALMS OF LIGHT

LIOLIA: speaking to MY Beloved Children of Light, members of MY Golden Legion who have served in many places in this Galaxy, I greet you in the warmth of MY Golden Shining, giving your Life, Love, Light and the harmony of Law, pouring out upon you the joy of perfect order, perfect harmony, perfect understanding, perfect light and perfect love.

You have been absorbing more than you realize. There are the words that come to you which you can understand. As you re-read the messages which I have given your group to share, they will sink deeper into your understanding and will become a part of you. But you will be absorbing much more than these truths that have been spoken. You have been absorbing the actual vibrations, the Golden Light of MY Life, for Light is Life. The Consciousness of the ALL expresses Itself in the Energy which is the Life-Force of the Omniverse. Your lives are expressions of that Divine Energy. I cannot say this often enough and in sufficiently numerous ways that you may fully grasp and understand it.

If your life seems threatened by an illness, a pain, a fear, or a catastrophe, think: My life cannot be threatened, for I have no life but the Life of the ALL - the infinite, everpresent Life of the ALLNESS of the ALL - and Its Life can never die. It can be changed from one form to another but It can never die.

When you sit in your group in meditation, lifting your vibrations as high as possible so that you forget the physical you and soar into the Realms of Light in complete coordination with your Higher Self and leaving the physical body still sitting in your chair, you have, in a way and for the moment, made the transition into another form. Should this state continue permanently, your body would pass through the change called death. You do this, however, for only a short period of time; you come back quickly into the consciousness of the body. This does not frighten you; you know that all is well. You enjoy your little trips into the Realms of Light to another place, planet or star. You feel very grateful; you feel very happy that you have developed to the point where you can do this.

That which you call death - the leaving of the lower vibrations of the physical body - is the simple soaring in this manner on a more permanent basis so that you do not return to the body. If you have enjoyed the flight, the freedom, the light, the beauty of what you have seen in the Garden Within yourself or in the Higher Realms in the places you have visited, then you can know that when that which seems to be your life in the physical is no longer needed you will simply experience this same release into the freer world.

If pain seems to disturb you, have no fear; quietly ask those Invisible Forces of Light who love you for release. Immediately pour the Love and Light of the All-Consciousness into the places that seem to need it. That which is paining you needs Light; it needs to be thought of as being cleansed and healed by a vortex of light operating there - the healing Light which I pour out upon you abundantly.

Imagine a housewife cleaning a receptacle. She puts in water and some cleansing material, then she begins a circular motion. Round and round her hand goes to cleanse, to get rid of that which should not be there, and to restore perfect order. That is a simple symbol of what must be done in the case of any seeming discord. Think of the Light of LIOLIA centered in that place of seeming trouble; then see it whirling in a vortex. If it seems easier to you, think of the pure white light of the Christ whirling there. If you feel very weak, picture yourself filled with the red radiance, the crimson glory, of the First Ray of Power and Strength often pictured in the robe of Jesus. He came in the masculine form to represent the power which is personified in the red ray and in the red stone, the ruby.

If you need love, think of the love of LIOLIA reaching you through IMMANUEL-IMMANUELA and through the most loving Forces of Light which you have ever encountered. Think of them pouring their love into you and through you and rejoice in it. If you are confused and cannot see your way clear, if you are distressed because you cannot understand something, call upon the Light of LIOLIA to illumine your understanding. My Son, Jesus, your Wayshower, said, "Ask and ye shall receive." I come to strengthen and repeat that promise. Ask of ME that which will lift you and you will receive it. Ask for understanding and you shall be given it. Again and again this cry has come up from the Earth, and again and again man has been given that for which he asked.

If your circumstances seem discordant and disorderly, do what you can in the human way to take steps, but always ask to understand the Law of the Universe which seems to have been broken. When you have gotten out of order and out of rhythm and harmony with the Universe, ask to be enlightened as to the cause. But I must remind you that we have warned you that this is a distressing time for the bodies of people on the Earth plane. It is the hardest time of re-adjusting to the new Golden Shining spiritually mentally and physically.

Be of good courage; hold fast; do the best you can. Do not be alarmed by the little pains, the little sensations, the distresses, the weakness, the seeming inability to study or to think straight. Get out of doors as much as you can; get as much rest as you can. Drink plenty of water and juices; eat lightly; and keep yourself cheerful. Be joyous; do not be impatient. Sing, be glad, be grateful and give your mind, your spirit and your body the best climate possible in which to make these adjustments.

Remember that it is not only you who are going through these adjustments, but also all of those who are expressing in a physical body on your plane of vibration in the Earth's aura. Yes, not only you, but those in the etheric realms have their adjustments to make also. It is easier in a way for them, for they understand a little more clearly what is going on.

After all, My dears, this is a very simple, scientific matter. You have had one set of vibrations; you were born into that set, grew up in it, responded to it and became more or less definite in that pattern. Now that must be changed and it is a difficult thing to readjust the body. Each of those living on the Earth today is being raised in vibrations so that the new truths which you and other Groups of Light are able to give forth will fall as good seed in acceptable ground and bring forth much fruit in the coming century.

I wish to bring again to you the assurance of MY great Love for you and all mankind. I wish that you could understand that, just as you all love the dear babe in its basket, that little one that can do nothing more than eat and sleep, make little sounds and grasp your finger, as you love that one with infinite tenderness and compassion, seeing in it no evil whatsoever, so you are MY babes in the Word being reborn and feeding on the milk of Truth for the New Age. To ME each of you is MY lovely, precious babe whom I tenderly nourish and whom I draw unto MYSELF with the infinite Love of the Father-Mother, of Father-Mothers who are SUNS of Solar Systems - a love so great, so all-encompassing, so Divine that there are no words to describe it in your language. You can only feel it with your limited capacity for feeling, imagine it with your limited imagination.

I ask you to draw into your mind that you are so loved and so cherished. I also ask you to draw into your hearts everyone whom you meet regardless of religious understanding, of condition or state of being. Primitive or evolved, good or bad in your judgement, sick or well, rich or poor - they are all alike to ME, for the Earth plane now is a nursery for the newly born into MY Light, MY Golden Shining for your particular arc of consciousness and plane of polarization.

To you I send strongly my Light of readjustment, of strength, development, at-onement, and above all of Love and Healing. I bless you now with the blessing of MY Father, the INFINITE ALLNESS OF THE ALL, and I say unto you: Joy, peace and love be yours. Put all other thoughts aside and sing, revel, in the possession of these three: joy, love and peace, which are yours as MY Gift to all. Just as the Sun shines upon all of your planet and the rain falls upon all, so the Light of MY Golden Healing Love falls upon every unit of existence in your planet-place. For all I send forth the same love, the same harmony which you are trying to envision as your own.

With you I say SOLOGA! Remember when we say this word we say the name of God three times. When you say it you mean IMMANUEL-

IMMANEULA, LIOLIA, or THE HIGHEST OF THE HIGH. When I say it I mean the ULTIMATE OF THE ULTIMATE, the SOURCE, the EVERPRESENCE in your consciousness.

FEAST ON VIOLET

Violet: (an Angel of the Violet Ray) Beloved friends, beloved brothers and sisters in the Christ, I come to you as your Angel on the Violet Ray to tell you a little of the science of violet light. Your higher selves understand the uses of this light and the reasons for its coming to the Earth so forcefully at this time. The higher selves of all, the Inner Councils of the Golden Legion, the Forces of Light all have understood the importance of Violet Light in the present crisis.

You will remember that you have in your rainbow the visible colors of our Son divided into separate functions and separate powers. Man is just beginning to understand the value of color in many different applications, in treating diseases, in bringing harmony into the life, in commercial uses and in adding so many advantages to modern man.

One of your wise men once said, "Color is the suffering of Light." He was wiser than he knew; for just as you yearn to be one with each other - as each one of you who has loved a human being more than himself has yearned to be fully one with that being, or as some have yearned for God as did David when he said, "As the heart panteth after the waterbrook so my soul longs for Thee, oh God!" - so the rays of colored light yearn to unite and become one in the pure white completeness of perfect unity and adjustment.

Through the ages upon ages of development your planet has had the wonderful greens. For your adjustment and healing you have had before you in all the vegetation, the grass, the trees, the fields and the forest, even in the shore waters, the green which always kept before you the unconscious stimulation to adjustment. The Earth vibration is one of adaptability and fluidity, of change where the soul finds greater ease in adjustment.

Many experiences are given each human being who manifests on Earth for the purpose of developing adjustment. You have learned now to go from climate to climate, from city to city, from nation to nation, from thought to thought, from one ray of light to another, from one stimulation to another and adjust to each. At home you have one atmosphere or one vibration; on your streets is another; in your place of business still another. In one friend's home there is one vibration; in another place that you frequent there is a very different stimulation. You are constantly adjusting.

The green is the color of adjustment and the Earth is the place for learning how to adjust rapidly to many differing emanations. Many opportunities are given you for discrimination which is a type of adjustment in understanding. You find your own way, adjust to higher truths and attain adaptability to new and ever newer understandings. When the Light is broken up into colors there is that

thought of being torn apart, of separation, and yet only thus can one learn to discriminate between or use the component parts that make up the whole.

Our beloved Jesus spoke of the past age as one of saying, "I am not he," and thus putting the whole white light of the Christ apart; therefore it was an age of suffering, of discord, argument to the point of blows, cruelties, persecutions and wars. Now you are entering the return path to unity.

In your rainbow you have the various common color divisions of your Sun Light. The red is the short slow wave length of great power. Following the red each color vibrates faster and with a longer wave length proportionately growing in intensity of speed through yellow, green, blue and violet. The tints of purple are most rapid and have the longest wave length of all those which you can perceive. If you had thought of this you might perhaps have understood the implications of so much violet, for as you raise your vibrations to a greater speed you come into harmony with the highest color you can see, the violet.

There are available to you charts and pictures which make it clear that in the very long span of vibrations measurable by man the colors you see are very close together in vibration. Sound vibrations are much slower and far below any light that you can see. Infra-red is lower than the light which you see but the ultra-violet is above the range of your perception. As you develop and come into the higher manifestation, you will be able to see wave-lengths both longer and shorter and discriminate colors or mixtures of colors which you have never been able to see before. There will be many reds, many yellows, many of each color, many more than you now have and many combinations which will be most subtle and inspiring.

I would advise you to study any books available on the uses of color. The violet ray we have explained again and again is to bring you into a higher vibration, a higher form of oneness. Now this will seem very strange to you, I am sure, but if when you sit down to meditate and you are going to say, "I am one with the Allness of God. I am one in the One; I am all in the ALL," - if before you say this, before you chant or sing it, you will spend a moment feasting your eyes on some shade of violet that attracts you, then your inner self will open more quickly to the thought which you are trying to drive down into the subconscious. I suggest that you purchase some small thing, a little rug, a stone, a table cover, a scarf, a picture, a vase or something which has some of your particular choice of purples violets or lavendars; put it in your home where it catches the eye and where you see it so often that, as you become used to it, you hardly notice it. Even then it will fall through the eye upon the subconscious. This will help you in the lifting of your vibrations, and in your realization of Oneness, of Unity. It will help you to synthesize your thinking and come into the pure white Christ Light.

outward again in centrifugal action to the limits of what you might think of as your aura. This continues as long as you manifest as an individuation in the Thought of God. This is the spark of you which first came out from God. During all your manifestations in various expressions of Spirit, formed and formless, this same balance of rhythms of motion, inward-outward, has continued. This is the activating Power of your life.

Think of your self as such a point of light. Think of it as radiating out in all directions - beams pulsing outward in every direction from this center as a heart beats and sends out life blood. Now start all that whirling. I know that this is hard for you to conceive for so much of mankind thinks in two dimensions. You are visual minded. You think of what you can see drawn on a piece of paper. You think of a thing whirling as you would see it on a flat surface or perhaps somewhat three-dimensionally as a vortex.

Can you imagine a pinwheel as in fireworks sending sparks of fire in every direction; then can you start it whirling in your mind's eye until the light forms a sphere? This sort of action produces the spheres of the planets and the Suns. They express the Life Force of God in rotation with the centripetal motion drawing inward and the centrifugal throwing outward in the constant pulse of the Thought Energy of the ALL.

This is what you really are, MY beloved. You see yourself as a body of flesh with hands and feet, a manifestation in the physical. In reality you are a pulsation, a center of whirlings within the Mind of God.

The Limitless Light of the ONE or of the ALL, the HIGHEST OF THE HIGH, is the substance of the Omniverse. By thought THAT ONE who is beyond MY Conception even on MY level as the Spiritual Center of a Galaxy, THAT ONE who is truly the ALLNESS OF THE ALL, by directing His attention to the substance of Himself and by the strength of His thinking sets up all these various pulses of vibration which become the rhythmic expressions of His Creativity. This is a universal law of being. The whirling inward and the equal amount of whirling outward continues as long as the Thought of God centers itself in that individuation within itself.

This explains why man is the Bread of Life to the various kingdoms of the Earth, for man brings into the Earth a higher type of radiation than the other kingdoms can express. Minerals need the radiation of man for their highest possible evolution, for their development into simple plant expressions. Under the influence of man, his radiations and his culture, plants have developed their perfume which is their highest expression of God-Life. It is in the exchange between man and animals in the domesticated state, that animals prepare themselves to move upward into the human kingdom in the most primitive existence.

Thus when Jesus said He was the bread of life, He was again the Wayshower. Man at that time could not accept this truth. Jesus did not attempt to say to them: Just as I am the bread of life, so are

you also; for the thought of vibration was completely unknown to them and they could not understand the laws of light.

Now with the coming of the great Light of LIOLIA man is ready to progress upward in his consciousness, in his understanding of the simple laws of thought and of the preeminence of the creativity of thought. Man is now ready to understand and accept the spiritual explanation of that which is the life of all. The life of man is literally Light, although not quite in the form that you see in the various manifestations of fire and electricity which have lighted your homes.

If man were to burn with the fierceness or the voltage which you use in that which you call light, he would no longer be able to manifest in the physical plane as man. Nevertheless, he is light just as surely as the electric lamps which you have darkened for the purpose of reaching and perceiving your own inner light. Light is all of yourself; light is your food, your strength, your breath, your drink, your healing. It is then of great importance to you to understand these laws of light and to use the light as you have been doing.

We are grateful that you are willing for us to demonstrate these laws upon your bodies; this you learn to use them through personal experience and can share your learning with others. I, LIOLIA, give you all MY Love and MY Gratitude for the sacrifices which you have made in coming into the Earth plane with its error and illusions, its seeming pains and sufferings, that you might bring through to your less fortunate brothers the True Light which lighteth the world of men and the laws of the universe as man in the next age will learn to understand and use them. SOLOGA, MY beloved heartbeats of MY Heart, rhythmic pulses within MY Being, SOLOGA! Together we shall learn and apply the great Cosmic Laws which will give man dominion within the ALL. 7/21/1962

RHYTHM IN ATOMIC FUSION AND FISSION

Hilarion: I want to say just one short word. You will remember that I work in the Earth vibration under the Third Ray of Science and Intelligent Activity.

I wish it to be printed in your SOLOGRAPH that atomic fusion and atomic fission are the rhythm of the vortex. As light is compressed in the center to make a point of power, the process is like atomic fusion. Then as the reaction comes in the rhythm of the universe that same light springs outward and you have atomic fission as in the Sun.

There has been broadcast through the land a feeling among certain types of thinkers that atomic fission is wicked. If that were so, God would not have established the Suns for they exist by atomic fission. The great light, the heat, the radiation of our Sun is the simple process of atomic fission working through helium.

Atomic fission may be used advantageously by man for many peaceful purposes. Some things can be accomplished more readily by atomic

of high advancement have volunteered to incarnate among those you would call primitive in order that they may be channels of Light for their locality.

I would advise all Groups of Light to put aside personal comparisons or comparisons among Groups. I would ask that each one go forward as you are led, that each speak as much encouragement as possible to every other group and that no group be asked to be recognized first in anything. Remember that Jesus said, "Those who are first shall be last." Many who set themselves up to be first and claim to be first shall find out that others of whom they have never heard have been doing greater work than they. There are those in this group who have given out power and light all their lives quite unconsciously. One of you was given the symbol of her soul as a very ancient and wide-spreading tree; and yet she chose to incarnate humbly to stand in a busy flow of life and send forth the Highest Light into this area. She has stood at the same humble task in your city for years and years. Many are thus quite unconscious of what they have been doing. All who are working as power centers have been giving forth all their lives and in many previous incarnations or they would not now be attracted to such groups.

Beloved ones, may I again give you the gratitude of the Forces of Light surrounding you for your cooperation. The work you do is much greater than you know.

COSMIC LAWS OF RHYTHM

LIOLIA: My beloved children of Light, your heartbeat is the rhythm of the Cosmic Consciousness of the ALL. Your life expands and contracts in this same rhythm. This is one of the laws of the universe, the law of rhythm. You are aware of certain rhythms in your planet: the rhythm of rotation expressed in day and night, the rhythm of the seasons and the tides, the rhythms of music and many others.

Primitive people often feel rhythms before they understand music, poetry or story telling and express it in drum and dance. Rhythm is fundamental to all existence. The pendulum swings far to one side and then back to the other in such a definite rhythm that it can be used precisely to keep accurate time.

Rhythm exists through out the Consciousness of the ALL. As your heartbeat is a definite pulse sending your blood out and forcing it back again and again through the length of your physical lifetime, so from God there is a rhythm of sending forth and returning. These rhythms have an infinite variety of period and character. Some rhythms have to do with planetary orbits around the Suns. There are other rhythms into which the comets fall; there are others which govern the movements of Suns and their Systems, and still others directing the expansion and contraction of Galaxies.

Man has become aware of a great rhythm from the Mind of God which he calls involution and evolution. That which is sent forth

from God as pure light works itself downward into the various levels until it finally reaches the lowest possible vibrations; it then begins its upward climb in evolution. This is one of the most definite and far-reaching cycles of Cosmic Rhythm. You, MY beloved, are on the evolutionary path; you have come upward through all the steps from the tiniest microcosm through various forms of mineral, plant and animal life to your present state of development.

Just now you are serving in the human kingdom. However, that is not necessarily of your own evolution; for many have come to serve as volunteers in certain places and ways on a much lower outward manifestation than they have attained spiritually.

All moves outward from God in one type of rhythm or another. Since the Consciousness of God expresses itself in infinite variety it's needs must be developed in many forms of rhythm. I am sure you will be able to notice examples of this principle wherever you look. Watch for the rhythms expressed in your own life: the three meals a day, your habits of sleeping and rising, the various things you do at certain times during the day or week recurrently. Notice the rhythms of life in all around you, in the flowers, the birds and the little animals. Ponder growth and decay, giving and receiving, coming out from God and going back to God, coming into physical manifestation and returning to the Realms of Light.

You have been given a technique for healing in which you see a vortex of Light whirling about the spine as a sort of helix around a core such as you would find in a generator. Tonight I would have you see a vortex in a little different form of activity. When I speak of a vortex you think of light whirling like a tiny whirlwind, do you not? Often you have seen a little whirlwind in the dust with its point on the earth and the wider whirling at the top. The Point of Light within the Mind of God mentioned in The Great Invocation is the center of the Cosmic vortex of light and energy.

First Light, which is the true Being of the Cosmos, is compressed toward a center by a whirling motion. The whirling begins on a wide, open circle. It gradually whirls faster in smaller and smaller circles until finally it compresses all the power and light involved into one brilliant spot. Such action brings forth a reaction. That which has been compressed tends to unwind and spring back into its original state; thus the opposite form of circulation is set up and the power and light whirl outward. The action reaches the limit of its outward whirling, reverses itself and whirls inward again to the compressed point. This rhythm of action and reaction continues.

Think now of yourself as the point of Light which is the God or Christ Self within. Think of this as the Thought of God, His Life Force, His Energy which He Himself compressed into a powerful point of Light within you. He did this by establishing a vortex of power, a whirling in His Light. He whirled toward a center with what is known as a centripetal motion. By the compression of this whirling He established the Power of the Life Force which expresses itself as you. Having compressed itself into a point, it immediately whirled

outward again in centrifugal action to the limits of what you might think of as your aura. This continues as long as you manifest as an individuation in the Thought of God. This is the spark of you which first came out from God. During all your manifestations in various expressions of Spirit, formed and formless, this same balance of rhythms of motion, inward-outward, has continued. This is the activating Power of your life.

Think of your self as such a point of light. Think of it as radiating out in all directions - beams pulsing outward in every direction from this center as a heart beats and sends out life blood. Now start all that whirling. I know that this is hard for you to conceive for so much of mankind thinks in two dimensions. You are visual minded. RHYTHM IN ATOMIC FUSION AND FISSION

Hilarion: I want to say just one short word. You will remember that I work in the Earth vibration under the Third Ray of Science and Intelligent Activity.

The great light, the heat, the radiation of our Sun is the simple process of atomic fission working through helium.

Atomic fission may be used advantageously by man for many peaceful purposes. Some things can be accomplished more readily by atomic

fusion. Both are natural processes within the body of God and must be learned and understood. Were this not so, man could not have produced them.

This will be hard for some to accept because they have not yet understood the meaning of the fact that God is All. Let those who cannot accept this announcement of mine meditate upon the ALLNESS of God. Let them push this fact to its ultimate conclusion and they will see that man can produce nothing that God has not already produced. SOLOGA! In the light of the SUN, the LOGOS, the SOURCE, I would bring you only the Truth. 8/11/1962

MEDITATION ON THE LORD'S PRAYER

Ixutel: speaking to you who are my coworkers, my partners in the great work of Light within your planet. You perhaps have read of the fact that the Russians are now to initiate another set of tests. Do not let this disturb you. It is true that they are fearful and therefore are driven by their fears to the point of being a little too zealous and overbold, even dangerously so. But in their last series we found them responsive to the Light which all groups sent forth, and we are sure that with that opening and with your steady, faithful service we can again contain their experiments.

As I assured you from the beginning, not one bomb could be exploded without the permission of the higher echelons, the inner councils of the Golden Legion under the Mighty Guidance of the Spiritual Center of the Galaxy. This you can depend on. Have no fears, my beloved. Through your group I would send forth this word of reassurance to all who read your message, and to all whose subconsciousness is responsive to the word that I speak upon the Air of Earth. Be not afraid. God is the ruler. This planet and all upon it is the expression of the Thought of the Divine All-Consciousness. Within Hiser Thinking, all is done for the highest good of all.

You spoke a request together in your prayer: Thy will be done on Earth as it is in Heaven. May I assure you that God's will is done on Earth, and is done within you. Where is the kingdom of heaven? Did not Jesus say that the kingdom of heaven is within you? If the kingdom of heaven is within you and God's will is done there, is it not done in Earth? Is not Earth itself a great center of consciousness within the Being of the ALL? Is not the planet itself a growing expression in the plane of evolvment, one fit in consciousness to provide a home for all life upon it and within it? Is not the Earth a great macrocosm having within it many microcosms, having within it also the kingdom of heaven? If therefore God's will is done in heaven it must be done in Earth.

I would like to take a moment to meditate upon that wonderful prayer which the Master, Jesus of Nazareth, gave to you. "Our Father": the source of all, the ultimate Source, the complete All-Consciousness; that which knows all, sees all, is omnipotent and everpresent; that which thinks us and maintains us. "Our Father who

art within us and within all, closer to us than our bodies, closer than our very life. Our Father who art in heaven: Our Father who lives in such perfect harmony of existence, perfect balance, perfect rhythm, perfect love, light, glory, peace, knowledge, completeness, all that is truly heaven. This wonderful perfection of Being lives Hiser heaven within us.

"Hollowed be Thy name." Holy art Thou! Oh, how we worship Thee, how we adore Thee, how we love Thee! "Thy kingdom come." We know Thy kingdom is come now for it is within us, and within every expression of existence, every I AM being. Thy will is done in Earth, in us, in the All, as much as man can conceive of it being done anywhere.

"Give us this day our daily bread." We know our Father feeds us with Hiser bread of life, gives us the substance of Himerself, the Limitless Light, for our food, gives us Hiser Spirit for our breath, gives us Hiser very Life-Blood in the pulsing rhythm of the heart beat of the Omniverse in the vibratory vortex of our beings. Oh, we know our God provides us with all we need materially and spiritually.

"Forgive us our debts as we forgive our debtors." In the ALL-NESS of the ALL we know that God is Good, that all is done for the highest good of all; therefore there are no debts and no trespasses. Teach us so that we may fully understnad that Thou art all and there are no trespasses of Thyself against Thee. Help us to accept this and give only love to others.

"Lead us not into temptation, but deliver us from evil." We know, our loving Father-Mother God, that you do lead us through temptation and beyond it, until we can see that in reality there is no sin, so sickness, no disease, no evil and no death. We know temptations are tests of our understanding and opportunities to practice our spiritual skills. Thus we see, attain and share in the wonderful glory that is Thine. We become a part of Thy Glory. We become an expression of Thy power. We become one in Thy kingdom. For all this we thank you, our wonderful Father-Mother God, now and with every breath, with every particle of our existence. Together we say to You: ALLELUIA! ALLELUIA!

My dearly beloved partners in the work of God in this plane, when one fully absorbs all the truth in that prayer, when one understands the Cosmic, Limitless Light, the great power, the wisdom, the omnipresence of God, no small thing like man's puny atomic explosions will disturb hiser thinking. Nevertheless, you will understand that you are part of God's governing of this place; and you will in the light of all that you know give yourself faithfully three times a day to just a moment of projecting light to the place where these tests will be held. Until you hear that they are finished, my dears, be faithful in this. Remember: To those who are faithful in a few things I will give to rule over many things.

CALL NO MAN BAD

Mary: I come in the love of the loving Heart of God. I come to give you the love of The ALL, to pour out the golden healing love of the Father-Mother God. I come to tell you that love is light and light is love. All of this which the great Father-Mother who is the Central Sun of our Galaxy has told you about light is true of love as well for love is a synonym for light and light is a synonym for love. Both of these are synonyms for life. Life expresses itself in light and love. Love expresses itself in life and light. Light expresses itself as life and love. All are one and the same.

My beloved, you cannot love enough; for always when you open yourself to loving you enlarge yourself so that you are capable of loving more. The only difference between the microcosm and the macrocosm is the amount of ability to send forth life, light and love according to the Cosmic Law of the Onniverse. The more you love, the more love will be given you with which to love.

Many times truths are told to you and you accept them in your heart. You say, "Oh, this is true! This sounds good. I know this is a fact." Then there comes a time of stress and strain and you forget to apply what you have accepted. In reality you have not fully accepted a truth until you apply it. You do not fully apply it until you use it so completely and unconsciously that you actually become it. Just as you learn that two and two are four until it slips out and you use it unconsciously, so you must learn these laws of love, of life and of light.

As long as there is in your thinking anything that is not great love, you are not accepting God's perfect love for yourself. When you have fully accepted the fact that God loves you, you must also accept the fact that God loves everyone even though to you they may seem to be very bad indeed. May I say for your sakes that those who seem to you to be bad men are still God expressing Himself on that level for a purpose. For this reason Jesus said: Judge not. Call no man bad, my dears, no matter what the outward appearances, no matter what your human law or your human viewpoint may say. True, according to what you know and according to outward appearances this may seem very evil; but you do not know what is written in the Akashic Records concerning him. Neither do you know how God has suffered in the life of this man, given Himself as this man so that the individuation thus expressed may learn and progress, or that someone else may learn through his act of supreme self-sacrifice. There have had to be Judases or there could not be the Resurrections. People have had to be the destroyer as well as the builder. Man has had to experience before he could discriminate.

Sweep from your thinking any judgements concerning the one who seems bad to you. When you find yourself saying, "Oh, that's a bad man," place him and all of his affairs immediately in the hands of God and leave him there, and know that God loves that identity within

Himself as much as He loves you. This is what Jesus was explaining when he told of the shepherd who had lost one of his sheep. He left the ninety and nine safe in the fold to go back out into the dark and storm. He searched and searched until he found the lost one. How he rejoiced that it too was safe again with the others. This is also the meaning of the story of the prodigal son.

The Father loves all regardless of the outward seeming. The Father sees into the future, sees into the past, and knows what the sum total will be when all the ledgers are balanced. This no human person can know; therefore Jesus said: Judge not! Only love! Send forth love, my dears.

Jesus has come to each one of you in many and various ways. You have seen him; you have felt his presence; you have studied his words; you have seen his symbols. He has come to you as an expression of the Love of the Father, for God so loved the world that he gave Jesus unto you. Jesus came as a personification of loving and giving. He has come into your heart with Cosmic Divine Love. I, too, have touched each heart, and filled each life with the love of God. It is for you to understand that you have this love within you now, and that all you have to do is to live it.

Pour out God's Love on all around you and love doing so; rejoice in doing so. Find the greatest fun in life in loving others no matter who they are. Make a joyful game out of loving everything and everybody, every manifestation of existence. Again, again, and yet again as the Cosmic Divine Mother sends me, Her messenger of Love, I have touched you with the fullness of Her Love. I have blessed you with Her Love. I have told you of Her Love. I would have you realize that you have it, and having received it find your greatest satisfaction, your greatest growth in giving it forth.

This is your mission: to radiate the love that is light and the light that is love to the greatest possible amount of which you are capable. I declare unto you that the more you do this, the more you shall be capable of doing it.

SOLOGA! my dear, dear brothers and sisters in the Love of the Cosmic Father-Mother of All. I embrace you and draw you together as one, that as my heart beats with the rhythm of Cosmic Love, I may draw you into the same rhythm and that together we may radiate this Love which is the Spiritual Bread of Life for the Earth.

LOVE WITH WISDOM

Kut Humi: your brother in Light claiming the privilege of speaking to you. I could not stay away during the fine messages of love and light which have just come to you. You know that at this time I am spoken of as one who holds the post of World Teacher. You also know that I operate in this place of divided light particularly under the Ray of Love expressed in Wisdom.

Love without wisdom is not true love. Love without wisdom is usually self-gratification. The father or mother who unwisely

lavishes too much upon a child, gives to the very extent of giving, often finds that when the limit has been reached and there is no more, the child turns against the parent and is quite unappreciative in his failure to understand. The parent has given all of this because he, himself, got so much gratification out of the giving.

How many parents unthinkingly have chosen gifts which they wished that they had had in their childhood, without finding out what the child really wanted! How often in the process of loving we fail to understand the needs and desires of others! How often children have no idea of the true likes and dislikes of their parents! How often the parent fails to realize that the child is a separate individual with very definite tastes of his own! How often love is either "give-me-this or give-me-that," or "How much fun I will have watching his face when I give him this!" Thus we rob the child of his opportunity for growth through making his own choices and of the pleasure of earning or building things for himself.

Very often love is extremely selfish. A selfish love is not a wise love. Love with wisdom knows when to hold and when to release, when to give and when to permit the loved one to give, when to share and when to ask for sharing. Many times some in a family have borne the deepest of troubles without sharing when the rest of the family could have grown in the shared experience. Love with wisdom is what I would have you seek, teach and share. Sometimes frank words are the most loving. A doctor often has to hurt to be able to heal. This is very hard to accept and to demonstrate. All wise parents finally learn that love without wisdom can be as harmful as no love at all.

I would have you know that all knowledge, all understanding, all love, all wisdom is yours. You have been thrilled with the new concepts which are being given you. The riches of the Consciousness of the Universe are now yours to explore. When members of a meditation group can progress to the point of seeing the things you have seen, of going upward into the Realms of Light, of taking from the Cosmic Consciousness the lessons which you have learned - when you can move out into the actual body of God experiencing with the inner senses The Limitless Light which is the substance of the being of God and learn of the true Bread of Life - then, my beloved, the whole Omniverse is yours.

May I call to your minds the old statement of the Earth philosophers which you have heard again and again, "All space is here; all time is now." We like to add to it, "All knowledge and power are ever available." This is the truth for the God consciousness within. Your group has found its pathway in the developing of contact with the God center within you. As you enlarge this contact, become more fully aware that it is true and desirable, and grow in security in the use of it, then truly all the knowledge of the Omniverse is yours.

If that which is the center of your being is a point of light within the mind of God, then surely you have a direct contact with

the knowledge of the ALL and there are no limits to what you are now ready to learn. Perhaps I should say that that is so only relatively, for as long as you remain in a human body there are human limits. However when you move out, and as you do, into the higher consciousness, then the limitation is only that of your evolution in the higher consciousness.

Neither you nor I expect to be able to understand the laws of the Omniverse and all their intricacies, their mysteries of hidden being, with the power and fullness with which IMMANUEL or LIOLIA understands them for we have not yet become Suns in Solar Systems; and yet relatively we can bring into the Earth plane all the knowledge needed at this time to answer the questions in the mind of man.

Someone has said that when man can formulate a question he is ready for the answer; therefore all your questions may be answered, and furthermore the concepts, the basic principles, the fundamentals can be given you upon which the scientists of the future are to build. You should dwell upon this seed thought: All time is now; all space is here; all knowledge and power are ever available; yes, always available here and now.

I bring you the tremendous accumulations of love poured into your group and through your group by the literally thousands of Light Beings who use your group and your meetings to enlarge and drive through the power needed in times of crisis in your plane. Know that you are loved beyond your possible understanding. Know that so much love is poured out upon you that the riches of it are inconceivable. Be healed by this thought of love. No Earthly rejections, no Earthly confusions, disagreements or antagonisms can have any meaning when you understand the tremendous Cosmic Love which is yours now. Think how much you are loved; realize it; accept it. Take it within and then share it wisely with others.

Together we share the inexpressible Love of IMMANUEL and LIOLIA; but beyond that we share the almost inconceivable Love of the Wholeness of the Omniverse. If you can but give forth a little of this love, you will have made the place of Earth brighter and better for having lived in it. SOLOGA, dearly beloved sons of God! Together we shine forth, not with our own light, but with the ineffable Light of the Love of THE ALL.

7/21/1962

In the meditation following, Julio experienced a theophany which stirred us deeply. He expressed it very simply: I moved upward on a path of violet light on and on until I reached a place which I felt symbolized eternity. There were eight or ten paths branching off in all directions. I took one; I do not know which for I sensed that all would ultimately lead to the same place. Finally I reached a place where there was something so marvelous, so wonderful that I could not describe it. It was very large, without any color, without anything, and yet so very beautiful that I

knew it was the presence of God. I felt that it was He, Himself! I fell to my knees and with my conscious hands opened my chest and and begged Him to fill it with His Love. And He did.

THE PLANET EARTH SEEKS ATTUNEMENT

The Logos of the Earth: Dearly beloved thoughts of God who have come to serve in My physical manifestation, I greet you in the Love of the HIGHEST Whose Light and Law have established us in form and pattern according to the Primal Will to Good. I love and cherish you as you cherish the eyes, the ears, the hands and feet which serve you so faithfully. In deep meditation, I hold you in Thought to carry you upward with Me as I reach toward the enlightenment and adjustment for which I am striving. I seek the greater attunement with the MOST HIGH for which My Heart hungers.

You are part of Me, one with Me and one with each other in Me. Together we are one with all in the Omniverse. Together we are to the ALLNESS OF THE ALL as one small cell of your body is to you. Together we are climbing the stairs of evolvement from step to step as God matures His Image in us. As I go upward, you are taken upward with Me. If I reach a plane too high for you because you are not willing to step upward with Me, your own being chooses to find a more compatible vibration where the Fire of Spirit is less hot in its maturity and where you may develop at a slower pace more compatible to your individuation.

Each being must seek its own best climate for development. Each being has the Eternal and Infinite Ages in which to express. No matter how it may seem to you in your present flash of physical incarnation, all is simply the All Consciousness of the ALL maturing Himself in infinite variety of form and experience, in infinite combinations of pattern, rates of vibration and systems of order.

Through the Ages men have thought of Me as Mother because they understand that they are nourished from My Being. They have thought of Me as feminine because I receive from the Sun the radiations that make life possible on My surface. There is so much that they have not known. Except in the plane of seeming separation where you may learn that there is no separation, Being is androgynous like a magnet which has both a positive and a negative pole. In association with others, if one desires to give the other receives. The giver is the positive or masculine and the receiver is the negative or feminine. Thus it is possible to be cooperating with one entity in the feminine aspect and with another in the masculine according to need. At the Christmas time of giving gifts, in this larger sense you are both masculine and feminine for you both receive and give. A neuter would be one who does neither; but such a thing does not exist in the larger truth of Cosmic Law since existence can manifest only in the rhythm of giving and receiving.

Having assessed the needs of the soul seeking communion with Me, I present myself in the masculine or the feminine according to

the needs of the seeker. I touch the minds of all for all consciousness within My aura is attuned to Me consciously or unconsciously in the varying individualities. Just as a cell is attuned to the general mood or tone of your body, so you are attuned to Me.

I remain in deep meditation to maintain you to the extent of My power; and yet it is not I who do this but the Cosmic Consciousness of THE ALL Who meditates through My seeming separation into individuation and maintains Me as a maturing image of Hiser Wholeness.

You have now matured in this same manner to the point where you can conceive of Me as a Spiritual Entity of sufficiently evolved to ensoul a planet: and so I AM. You are now beginning to join consciously in My meditation of union and devotion in that you say with Me: We are ALL in The ALL, through The ALL, with The ALL and by The ALL. The understanding gained by building this Cosmic Fundamental into your present selfness will open to you the ability to receive and grasp the Light and Wisdom of Cosmic facts. These are pouring into My Consciousness from all the more advanced Entities ensouling Solar Systems, Galaxies, Universes and other expressions of Cosmic Consciousness. Each lower form is part of the body of a higher form. All give to all within themselves; thus all receive from all both lower or higher in evolution or vibration.

You are using the Greek term, Logos, to more fully tie your thinking to the sacred wisdom of the ages and its Spiritual Authority. Jesus was the Word, or Logos, expressed in man. The Word is a shorter term for Son-Consciousness which means being conscious as a true Son of God. With each age or development words change. Now you are seeking Christ-Consciousness hoping to attain the spiritual powers, gifts and understandings which Jesus came to exemplify. You Call him Christ Jesus. Such a title is also correct as applied to our Father-Mother, the Anointed One who has been established as the Spiritual Consciousness of our Solar System. It is correct to say Christ IMMANUEL and Christ LIOLIA; likewise it is proper to say Christ Earth meaning the higher spiritual Selfhood which ensouls this area of our Solar System.

Men have called Me many names in many languages. Let each one speak of Me and to Me as he wishes and as his own language and understanding dictate. To the ancient Romans I was Terra, a feminine name, because they were so predominantly masculine and needed the feminine for balance. It would seem sensible to use the name most meaningful in your own language since you have incarnated in this expression and desire to make your communications to this culture as meaningful as possible. Earth is a simple name without need for inflection to show gender and thus very suitable for the new concept of the balance of Holy Two-in-One. By whatever name or symbol you think of Me never doubt that the reality is much greater than the word used to express it and the living of the unity between us much more important than the word used.

Know that My Meditation concerning you is deep, lasting and holy. Know that I maintain you by My Thinking as harmoniously as you will permit and as our common growth through experience requires. Know that My love for you is full and strong and My Joy in you is of the Divine. Know that I join you in every prayer that is ever uttered by mankind. SOLOGA! Through the All-Encompassing Light of The ALL we unfold together in the Divine Image. 8/21/1962

Following this Julio saw a beautiful feminine figure robed in light climbing up a stairway of light. He knew this was a symbol of the Christ Earth.

As observer for all, the Onlooker followed the assignment given which was to seek the point of light which is the God-Self within. She found herself on a polished pavement encircling a large pit from which great, hot flames were soaring upward. Suddenly the flame caught her and tossed her upward into the Realm of Light. She saw a heavily robed figure of gigantic size seated in deep meditation in the posture of The Thinker. The figure was composed of the soft light, gold light of the Body of IMMANUEL with its contours clear in brighter, whiter light. As the observer knelt before this Higher Self of the Earth she seemed to be sucked into the Great One with a sudden snap. She shared thus some small part of the meditation. First she seemed to go down a passage into the Earth to where the Earth Spirits or Genii, great beings something like the fairy-tale representations, were working skillfully in precious stones and metals to keep a proper balance in their distribution within the structure of the Earth. In another place beings like dwarfs or trolls were laboring in the same service with the baser metals. One was producing a great vein of lead. Another ran his hand proudly through a bin of fine grained iron ore. Another time the observer participated in a meditation where Christ Earth was seeing the wall in Berlin removed, peace established between East and West, beauty and joyful cooperation replacing the present tension. The Earth was constructing a beautiful and ideal city in the etheric above Berlin and trying to place it down over the present site. The Earth was also painting the island of Cuba pure white and then painting in a free and happy people upon it.

TESTS IN DISCRIMINATION

John, the Apostle who called himself "that disciple whom loved." I thus identify myself to you so that there can be no mistake in view of what I am about to say.

I wish to state in very plain words that I am not in incarnation in a physical body anywhere at this time. There are those whom I am overshadowing whose lives I can influence. These are to be drawn close to the message of Jesus which I recorded through my overshadowing. Each of these is to be of use in bringing deeper understanding of the Christ message for the New Age.

Parents sometimes feel that their children are incarnations of me. I am sorry that there is this misunderstanding. I could name for you a dear one living in your city who has accepted the thought that each one of her grandchildren is one of the Apostles. This is the work of a mischief-maker I am sorry to say. Examine the light. One who is subject to alcoholic excesses and other difficulties of character equally great is not apt to provide a climate for the development of the highest New Age thought.

Those children who are to develop and apply what we are bringing through together are now coming into incarnation. Their babyhood and childhood will be overshadowed by those of us who have undertaken to guide them later on. Just as Jesus is not now in incarnation but is spiritually present with everyone who calls upon him and in the form of the Christ-Consciousness lives within the heart of all, so we, the Apostles who were close to him then, are in the same spiritual manifestation to do our work from a higher level. There is not now any one of the Twelve in incarnation at present and there will not be. We would come if Jesus came. If he does not come during this period we will not. Each of us has come in the past age some several times but each of us now will be working from the Higher Planes.

This will not be received gladly by those who cherish the thought that someone they know is one of the Apostles or that they have found a truth other than what I have stated; but you need not worry about that. All you have to do is to give forth without fear. Even though everyone reject or desert you, the truth will be spread. In the years to come that which is untrue will fall away and only the truth will remain.

Remember that the dear ones of the White Brotherhood speaking through channels and giving the thought of the East to the West have often been misquoted. Those of the West who entered wholeheartedly into accepting the wisdom of the East have felt that the Eastern Masters were to be placed above Jesus; but this is an error, for Jesus was the most advanced and oldest soul second only to IM-MANUAL who was sent to this planet to serve man. Jesus said: They will say, lo here and lo there; but go not after them. So it will be said of the disciples also. This is one of the tests that have been given to the new channels and leaders arising at this time. Will they accept the thought that they are some great one or will they hold fast to the integrity of their own selfhood. If they be deceived they are not worthy to go forward under the Word as expressed in LIOLIA.

Some have said that Jesus is in a Syrian body at this time as a militant soul, a fighter and a military man; but you would know that this could not be true of Jesus of Nazareth. This is another Jesus who led a rebellion in Judea before the coming of the Messiah. This veiled or confusing statement was first given by a Master Teacher as a test for training students in discrimination.

The problem is: Will man be able to weigh the truth with the false? Will he be able to see with the inner eye, judge by the fruits or by the fundamental basics of God; or will he be misled? Will he follow the error of someone he thinks knows more than he or will he learn to think for himself? In his pride will he accept a place and a name greater than he really is? These are the tests. Man, whether leader or follower, will have to face these same tests. May God bless you as you meet them and guide you into the true Light.

7/21/62

From the Gospel According To Thomas: Log. 51. His disciples said to Him: When will the repose of the dead come about and when will the new world come?

He said to them: What you expect has come but you know it not.

Log. 13. His disciples said unto Him: When will the Kingdom come? Jesus said: It will not come by expectation; they will not say: See here, or See there. But the Kingdom of the Father is spread upon the Earth and men do not see it.

FIND ALL THE WONDERS WITHIN

LIOLIA: coming in great love to you, MY children. The love of MY Heart is pouring out over you in golden light, penetrating every particle of your being on all levels, filling you with the Light of the New Age, coming in such love, such joy, such gladness of giving as I would have you reflect in all your days in all your affairs and to all whom you meet.

I have been coming regularly to your group. This must be done for some time yet, for I must pour forth into the Earth planes through you who are open to MY emanations that light of conscious awareness of ME as thought, as mind. Through the years gone by various organizations, various churches, have referred to the ALLNESS OF THE ALL, to the HIGHEST of the HIGH, as infinite Divine Mind. The Limitless Light of which you speak is the energy of this Divine Mind expressing itself to the higher inner senses with which all men are equipped but which have been allowed to atrophy or be hidden in the preceding age of material enlightenment.

From the time of John the Baptist until now, material science has gradually been revealed to man. This was necessary first for he had to know the laws of light of electricity, of atomic structure, of sight and hearing and of his own anatomy before he could understand the truth which is now to be given him. All of this was a preparation. John the Baptist said, "Prepare ye the way of the Lord." Many who are living on Earth today do not yet fully understand this. Many are still living back in the old middle-age thinking and doctrines. Some are living in thought that was new to men from three to five hundred years ago.

Do not be alarmed or dismayed if many cannot understand what I have been pouring forth to you. Many different voices must be heard. Many must find the way to reach the beam of the Limitless

Light, to contact that which is open to all men, to develop their inner senses for the sake of knowing ME as the reflection of God for this Galaxy. Many will find it hard to accept another name for God than those which are given in the Bible. Nowhere in that ancient and sacred book will you find the word LIOLIA as such. Immanuel is there and you will find the words Life, Love, Light and Law of which the name LIOLIA is built. You will find the words, "the Sun of righteousness" and indeed I, LIOLIA, am that for this whole Galaxy, for all the stars that you see, all the Solar Systems within this swirling Light, this vortex of power within the mind of the ALLNESS of the ALL, which you know as the Milky Way.

There are many who have not dreamed that there is a spiritual, invisible center around which this Galaxy rotates. There are many scientists who will say: Perhaps this may be so. Let us see if our astronomers can find it. My beloved, I cannot be found with instruments; I can only be found in the way you are working, through the pathway within yourself.

Each of you who sit here has learned to some extent to pay attention to those hidden senses. Many of the people on the street consider those who listen to the inner voice as bordering on insanity or moving over into the realm of fantasy without their feet on the ground. You who are members of the group of SOLOGA know how wonderfully your feet are grounded in the strong foundation of the Limitless Light, in the All-Consciousness of the Eternal Life of the ALL. Only those who have experienced as you are experiencing can know this wholly. Do not take the confusion of others, their uncertainty or their rejections personally as any sort of criticism or dimming of your light. You can rise above all this; you can soar into the actual Truth of Being, into the higher Realms of Light. You are in two worlds at once. You have one manifestation in the physical, but your higher self, that part of you that lives eternally in the Realms of Light, is strongly in touch with you.

May I call your attention to the explanation of Jesus when he said concerning the children: Their angels do always behold the face of my Father which is in Heaven. You have attained awareness of the touch of God upon you in visions, in vibrations, in thought, in experiences, in words heard within you. You are in close touch with your higher selves, and your higher selves living always in this Realm of Limitless Light are always aware of the true-state within the Being of God.

When you sit in meditation and raise yourself, leaving your body in the chair as you have done a number of times, and let your consciousness soar upward, you then have transferred the center of your consciousness into the higher self. Those of you who are regular and faithful have become quite adept in this. Some of you have had outstanding experiences which are conscious awareness of the HIGHEST of the HIGH, of that which is truly God to all everywhere. This experience is open to all. Just a little more yearning,

deep prayer, growing in giving yourself fully into the Will of God, and you will find yourselves springing upward in the soul manifestation, knowing that which before was hidden from you.

All of the Omniverse is just waiting for you, MY Beloved. You are on the verge of a great period of growth and enlightenment. I am so full of joy for the progress that all MY children in all the Groups of Light are demonstrating as they stand on their own inner leading and guidance, find their way into the secret gardens of their own hearts, and make contact with that heaven which is within our Father who dwells within the Heaven within.

My beloved, how can I make it plainer; how can I say it in words of fire, in words sweet as honey, in words that will attract you, that will draw you to ME? All you have to do is to let go of the old; throw it away; open yourself completely to all that is new, that is flowing through now, and give yourself fully. Play the game of finding all the wonders within. Do not hold back; do not say, "This is unbelievable," but say, "I know I can do this. Oh, I am so grateful that I have learned how easy it is." Open your imagination; open yourself to growth, to advancement, to the wakening of the God Self within. Just a little more effort is needed on your part. May I repeat the old words of your Holy Book, "Draw nigh unto God and He will draw nigh unto you." May I rephrase it even more positively, "God is drawing very near you! Will you not draw nearer to Himer?"

My beloved, I know you are still a little confused. It is so hard, is it not, to take the values of the great world that you cannot see. It is hard enough for the thought of a young person to evaluate those who are of higher culture and seemingly higher advancement in learning and abilities, or those who take part in ruling the nations. It is difficult for them to find their way and their place in such a world. Then suddenly you have spread before you the Inner World and your own dear teachers, those who first contact you and lead you in your opening. As you draw nearer to Jesus and the beloved ones whom you cherish, you discover that they are right here in your consciousness. Then suddenly you are told of that which is God to you, your Father-Mother, the Father-Mother of your being in this Solar System, IMMANUEL-IMMANUELA. You wonder, "Oh, have I now found God;" but before you can get fully into that thought, you are being told of one still higher, LIOLIA, the central Spiritual Life Force for the whole Galaxy. You think, "Oh, now I have found Himer; This is God," but you are told, "Go still farther, still higher until you reach the ALLNESS OF THE ALL, the ULTIMATE, for God is the Oneness of everything that is."

So long as your astronomers can find galaxies beyond this galaxy, then there must be a being who is larger than all the Galaxies put together. This being is perhaps part of a still larger Being. Let us go together, MY beloved children, into the Inner Temple of the Heart. Come with ME and let us kneel together and pray to that One which is The HIGHEST OF THE HIGH, The LIMITLESS LIGHT, The SOURCE of ALL.

SOLOGA! We shall walk onward in the Path of Light until your way becomes clear before you. Together we shall send forth the Truth of the Limitless Light into the centuries to follow, into the Age to come. Glorious is HISER NAME, our Father of Fathers and Mother of Mothers. Together we give all the glory, all the praise, all the honor to that ONE who is the ALLNESS OF THE ALL. 7/18/62

THE SCROLLS OF TIME ARE OPENED

The Karmic Angel, Lu-Ro: Beloved ones, my brothers in the Christ Light, each serving the Lord of Lords in this planet place and in Program IMMANUEL, opening the thoughts of man to the higher consciousness which you call Program Jesus, I would address you as teacher concerning your work.

Always at the beginning of a New Age, the Scrolls of Time are opened, the Book of the Future is unlocked and glimpses of the path that man must take are revealed to lie planted in the hearts and minds of man until they mature and bear fruit. From time to time such glimpses will be given you to share with others. They have already been given and already been rejected in many places. As your work attracts greater attention, as greater numbers become aware of the messages you are sending forth, there will be those who feel that you have the Light and others who say that you are teaching that which would deceive and mislead. This, my brothers and sisters, is a work of your free choice.

We are prepared to walk forward with you as far as you are willing to go. As long as one of you will try to progress and send forth the Light we will stand at your side. Be not alarmed, be not dismayed if that which you receive is different from that which others may receive. That which Jesus gave forth was different from what the Jews had already learned. Jesus brought forth the true Light not only for the age which is past but also for the age which is to come. The Light of the Future now gathers around the glorious form of Jesus - Mary, the Christed Wayshower, who will draw closer and closer to man in the New Age until Heshé becomes as familiar, as dear, as well-known, as any of your own human dear ones. This is the task in which I would assist you.

When we open the past as we are doing for some of you we bring you little Karmic pictures of your past lives. Although you have not known me I have been serving you in this way for some time. We help you to bring into your present physical manifestation the strength of the lessons which you have learned through the ages. Before you came into this incarnation there were certain pictures, agreed upon between the Lords of Karma and your own soul, as keys to open for you your inner abilities and skills. These Karmic pictures flit before your eyes. You wonder about them. Sometimes your teachers give you information about them. Again you are left to wonder because the mind explores the meaning of what you see. The doors that have been closed are opened; the locks that have been

rusty are oiled, and at last you are able to open the storehouse and use the gifts laid away there.

Some will say, "Well, I have been told that I knew this or I could do that. Why can't I do it now?" My beloved, no civilization is like any preceding it. No experience of yours is exactly like any preceding experience. That which you learned in a preceding life was of value to you then in the way that you did it but to carry it through into this life might simply hinder you in your present task. Let me illustrate. Suppose some one with a long life of ages upon ages in many different places has learned to do one thing in a hundred different ways. When he comes into this life and attempts to do that one thing, each of those hundred ways will come pouring forth and he will not know which to use in the present. Each of the many ways will get in the way of the others. Can you not see that this might be more of a hindrance than a help?

Suppose that someone had learned all of the sciences and all of the arts and in times past has been proficient in anything you can think of, He may have been a great artist, a great musician, a great actor, writer, minister, poet, speaker, king, administrator, soldier, doctor, teacher - on and on we might list his achievements over the ages. Suppose that he manifests in this life with all those great skills and interests clamoring to be used. Do you not see that the plane in which you live is so limited that he would be continually stumbling over his own great skills? He might use one art for a short time and then another and another and never really accomplish his mission because he had not limited himself enough to find out what it was.

If you will meditate upon this you will understand the wisdom of your own soul. Your soul has chosen what you are to do in this life with the wise counsel of the Lords of Karma, of those it sought to be its invisible teachers and of those to whom it prayed for help. Each one of you have discussed what you would do in this life with that one who is so dear to each of you, your Master Jesus. Do not forget that when you speak of Jesus, you are also referring to his feminine counterpart, Mary, who is united as One with him in the perfect blending of one Being to serve in the masculine or feminine form as needed. We know that this is difficult for you for you have for so long called upon Jesus. You feel torn, for if you call upon Mary you may be neglecting Jesus. Remember: if you call upon one, you call upon all.

When you call upon Jesus you call upon Mary, upon IMMANUEL, upon LIOLIA, in fact upon the Father of Fathers and all the mighty Spirits before the Throne, upon the Golden Legion, the Angels and all the Lords of Light in whatever category you may name. When you love one, you love all; when you call upon one you call upon all.

To go back to the soul's plan for yourself, your work - no matter what else you may determine to do, no matter what your seeming occupation and position - is to broadcast the Light of the Suns at the beginning of this New Age. Each one of you comes to give

forth the light of a certain Sun as well as the Light of IMMANUEL and LIOLIA. Each of you is a delicate, finely-tuned instrument. As you go through life you are attuned again and again just as a piano must be continually retuned. You are tuned to send forth that emanation which is most important at the moment.

A certain high intunement is necessary to consciously receive from LIOLIA. There are some who have received the name and others who are unconsciously tuned to give forth the Light of LIOLIA. Those who have accepted the name, who have spoken it, sung it and prayed it are highly attuned to that particular vibration. In order not to disturb this tuning, others who have come to you before may not be in sufficient harmony with this high tuning to be able to address you for the present. Some who may be attracted to your group may not yet be ready for this attunement. Therefore, do not be unhappy about those who come and go; only be grateful that there are those who are able to be tuned to the whole so that the group can function in bringing forth this light.

This is what you have come into the physical to do. This is why you return again and again. This is why the messages, the vibration, the healing, the experiences, are so attractive to you. This is why you have been held such a length of time at each meeting so that this attunement could be made as rapidly as possible. Believe me, if this could have been done in an hour or so and a pleasant social time included afterwards, this would have been done for you; but it must be done just as it is. Whether your numbers are one or one hundred makes no difference, just so you meet as a group faithfully with whichever ones of you are able to endure these vibrations and can be attuned to them.

I am aware that there are those here who have not felt this vibration before. Do not be alarmed by what I have just said for you may be sure that no vibration will be sent to you more strongly than your body can endure. Your own forces of light are strong around you. They sift the emanations that come while you sit here and screen out through their own bodies of light all that are not right for you. If it is not possible to attune you as yet, if more work must be done to condition your body, you will know this and feel that you should wait until you are more ready. This is not a matter for you to feel concerned about. Please understand that it is because of your own choices, your endurance and your willingness to give yourself wholly to the channeling of the light.

That is your mission - to channel light. No matter what words you use, what activities you carry on, also no matter in what way the light comes through, whether in words or in invisible vibrations conveyed in the aura, the touch of the hand, the kind deed, the smile the social adjustments and associations, or in the quiet broadcast of power in your group or in your own meditations, the giving forth of Light is your mission.

I desire to underline for you the importance of several things First, be not dismayed at those who cannot accept your truth as yet;

lift yourself above that and walk in peace and love in the Realms of Light. Second, be alert to your own Karmic flashes of memory. Each one of you have had them at various times, some more than others. Meditate upon them, dwell upon them; think of them before you go to sleep at night and when you awake in the morning. You may find yourself knowing the meaning or the interpretation in time. Then third I wish to underline your Karmic mission to give forth the Light of your own Sun, of IMMANUEL, and of LIOLIA.

I, the Angel Lu-Ro, promise you that I shall be by your side to give you strength. If you turn your thought to me, I shall appear in the inner vision. If you will seek for interpretations, I will give them to you as soon as can receive them. I am on call at any meeting any time. This I promise you. I count it a great privilege, a great joy to say to you and with you, SOLOGA! Together we serve the Spiritual Centers, the Suns, the Word of God, the Source of ALL. Together we live for this one purpose, you and I.

THROUGH THE AMETHYST TRUMPET

The Angel Violet: Beloved ones, picture me, your Angel on the Violet Ray, poised above you, sending forth these words through the amethyst trumpet which I create with my thinking. Think of my robes of violet light pouring down over each one of you and over this habitation, enclosing it. You sit in the power of the great golden beam which is always focused in the center of the room whether you think of it or not. As you sit in the power of that beam and partake of the violet light, picture these things, for they are sources of power to you.

The power which you broadcast you yourself do not pull up from the Earth, draw down from above or radiate outward. You simply open your body as a channel for the light of the planets and Suns whose emanations play through you into the Earth and all upon it. Each one of you is a channel for at least three Suns at the moment; The Spiritual Central Sun of the Galaxy, our Lord of the Sun, IMMANUEL, and that wonder Sun from which you came most recently, SOLOGO. These rays or emanations are being thrust or driven through you with great power as you open your thinking.

It is not yourself that you give; it is not the power of the group; it is not a power that we build or hold or command. It is the outflowing power of God to which you open and which you let flow. As you let it flow you are raised in vibration; your channelship is enlarged; your thinking is clarified; your body is healed; your vehicles are attuned.

All is well with each of you; but if you should feel some uncomfortable sensation across the back or through the chest where the power is flowing, do not be disturbed by it. You desire to serve and to be attuned. The seeming feeling of unease is merely the adjusting of your channel, the opening of the cells in the body that you may fulfill your mission more efficiently.

SPACE TECHNIQUES ARE LARGELY MENTAL

Tucari: I who address you am your brother in Light, known to all those who have at some times called themselves space groups, or who now think of themselves as groups of Light. I have come to you before on the beams of electronic devices from space ships and from centers of broadcasting on Mars and other planets, speaking under the name Tucari.

I have been permitted to come to you because I, too, have lifted my heart and my consciousness to receive from the great Central Sun who has named Himself to us, LIOLIA. All through this Solar System are serving, as you are, to bring through to their levels of expression the Light of the New Arc of Consciousness. Upon these new seed thoughts, new truths, basic fundamentals, all of us regardless of our planet homes, our mansions of Light or our place of service must build for the progress of the whole System in the New Age.

You think of yourselves as desiring to progress upward and reach the higher scientific levels which we, your space brothers have attained in order to construct and operate our space ships. We also think of progressing upward in mental sciences and in contact with Spirit so that our service to THE ALL may be greater.

This progress is on a Solar System level. Someone is saying, "Then we will never be able to catch up with you." My beloved brothers and sisters, together in the higher planes we meet, as your angel said, upon a cloud or in the Realm of Limitless Light and we are one. Whatever level of manifestation we have accepted for service, we all seek growth, evolvment, and higher understanding to share that all on that level may progress.

You have been told that our science is largely mental. You know that we do use some mechanical devices but mental dominion is easier on our plane of vibration. We have volunteered to incarnate in this plane for the same purpose that you have been told is yours - to bring through the emanations of the higher Beings of Light. We serve mechanically, mentally and spiritually.

Much understanding concerning our mechanical devices has been given to groups such as yours. In preparation for this evening, I looked upon one of the books offered you for study and saw there some diagrams which will give you hints as to our mechanical operations. Your men of science are very eager for this instruction. Some have been greatly disappointed or lost faith because we did not give you directions for the building of space ships such as ours, for other scientific advances and for healing techniques which would alleviate the suffering on the surface of your planet. Since our techniques are so largely mental we cannot do this until man has come to the point of accepting what Groups of Light are bringing through at present. There are those who always will be turning backward to the knowledge of which they are sure and which has the foundation of acceptance among peoples for some years of time.

I am sorry to tell you that we are more or less at a standstill

until the Earth and the men upon it have adjusted to this new Light. Until the Light has vibrated around and through the brain, the nerves, the spine and the chackras - all the equipment of man - and until he has adjusted to it he could not understand the next steps necessary. Men of science on your Earth will come forward with the most astounding new and intricate devices which at present they are unable to understand. By that time their equipment on the physical level - in the brain and in the body - will have adjusted to the Light (which is consciousness) which you are now receiving.

I wish to thank each one of you for giving yourselves in support of this very advanced expression of truth. I wish to thank you for your courage in accepting it, for allowing the self within to vibrate in harmony with your mission here. Without the channelship of your bodies this thought could not be given to men of Earth as quickly or as clearly. Fear not for the future of this Truth. Fear not it will be spread; it will be recognized; it will open the door for that which is to come.

I give you the love and thanks of all who are tuned in from the space ships located on duty around your planet. I give to all Groups of Light greetings, salutations of joy, expectations of great good, congratulations for the good work already done and for the crises past, and hope that all in the future will be as well performed.

Could you but hear it, there is a mental call coming out to you from all of the space ships saying: SOLOGA! SOLOGA! as a salute to men of Earth for their acceptance of the Light of our Solar Logus. Oh, we love you, our brothers and sisters. We pour out our love, our efforts and our thought into the work which we do together.

DO WE SHOVE JESUS OFF INTO THE SKY?

LIOLIA: speaking to MY dear ones, MY beloved children of Light sons of Suns, for you have become that which you must be at this time, sons and daughters who are Suns, MY sons and yet Suns, for each of you is both son of man and son of Sun. Even though you sit in the present time in the female expression, nevertheless you are the offspring of the HIGHEST OF THE HIGH in all Hiser expressions. You are My offspring because you are cells in the body of MY great Galaxy. You are the offspring of IMMANUEL-IMMANUELA for you are cells in the body of your Solar System, your Heavenly Man. You are indeed sons of Suns; and as you read in your Sacred Book, you have become whatever is necessary to be Sons of God, shining lights giving forth the Limitless Light of the Omniverse. That is what WE all do; WE give forth Light.

All is pure Light. Everything about is nothing but Light. It is very hard when you are so used to thinking of things as wood and stone, as flesh and blood, to think of them as pure Light instead. This is what is meant by taking off the outer clothing and revealing the real person underneath, revealing the Limitless Light, the True Image revealing Hiser Self in the Image. Light reveals itself in that which is Light.

It is necessary for thoughts like these to mature within the mind. The visions which you have been given you should all take into meditation. Do not just put them aside but think back over them. Each one of you should write down what you have seen, Keep a notebook in which you record all that you see and your best explanation or interpretation of it. Go back over it all again and again. Take it into your meditation periods and ask for enlightenment until you have gained every possible nuance of meaning.

Before you begin to read the sacred Word of the Bible of the past, or of the Bible of the future which you are helping to bring forth, pray for enlightenment. Think: Father-Mother, ALLNESS OF THE ALL, enlighten me. Open this door to my understanding; or claim affirmatively: I AM the All, therefore I know All because The ALL is the All-knowing. I know all I need to know now. Either method will open for you the door to understandings which have been yours in the past. It is your right and heritage to know and to understand.

You have accepted the Dear One, the Bright Spirit, sent you 2000 years ago. In the majority man in the Christian world has accepted Jesus to some extent. You have accepted Jesus as understanding the truth, as being a great Master and Adept who came into the world bringing greater knowledge and greater powers than those around him.

You have come into the world under limitations. This you did deliberately for it was necessary that man receive instruction and example from those who were utterly like himself. Jesus came in with such great advanced powers that no man thought it possible to be like him; therefore as the ages passed, man put Jesus farther and farther away until even in your day you know of many who shove him off into the sky and will not admit or permit his possible return without the pomp and heraldry of an earthly King who must descend from the sky with such convincing pagentry that they will be justified before all unbelievers. But Jesus is a Universal Spirit always present in the heart of all whether they are conscious of him or not.

You have accepted as proven that Jesus speaks the truth; therefore you can receive with joy these words of Jesus: I AM THE ALL. Now you are to send forth these words. You are to speak them to the world; but it is not desirable that the world should find anyone in this Age to put up in the clouds away off from them. The idea of the present is to be unity rather than separation. For this reason those who are to give the truth of the New Age have agreed to lay aside their various abilities which they have gathered to themselves through the ages past, and to come into the manifestation of the Earth life as common, ordinary people doing that which other people can attain unto, giving forth the truth in simple livable paths of evolvment.

Your lives are to be of the common people. I say this to all Groups of Light who are sending out the truth as revealed to them.

Jesus meant to be so, desired to be so, but the people saw in him something so much higher, so much finer, something so perfect, that always they have said, "Oh, Jesus - He was the Son of God. He was perfect. We can't do what he did."

For this reason, beloved ones, you have come into the world with many little faults and failings. Your imperfections are to be clearly seen by those around you so that they will not be looking at the adept or the master, but will see nothing but the Word which you give forth. Anything that you put forth of yourself for man to look at and thus detract from the Word is a hindrance. If you say: Look! We are doing all these wonderful things, then you are calling attention to yourself. Do not spend your energies in personal propaganda; spend them in sturdy construction. Think: I, myself, am of no value except as God uses me to send forth Hiser Light. Then let everything you do or say call attention to the light and not to the human individuation.

You are to hold forth before the eyes of men the radiance of the Sons of Suns and the Suns above Suns, of the ALLNESS OF THE ALL. You are to send through you so much love, so much light, that when people come into your presence they will not be thinking of you, but they will be thinking of the wonderful peace and love which they feel and of the good God so near and their oneness with Himer.

This is indeed a difficult assignment for human beings. Have no fear for the Word; just speak it forth. Let it flow from you physically, from you mentally, from your mouth, through your smile, through your life. Just give it forth; be it; live it. Do the best you can to offer it and let God take care of the increase and the harvest. An age is a long period of your time. The harvest of what the Groups of Light are now sowing is not to be fully reaped for hundreds of years.

Now is the sowing time. Now is the time of Great Shining, the time of Great Radiance, the sowing the seed of the Limitless Light. Send forth the Light; oh, send it forth, MY beloved! Join ME in consciously sending forth MY Light. MY dears, if they were to imprison you for the rest of your lives, if you sat in a miserable jail cell from now until the day of your passing, and you did nothing but send forth The Light, you would be glorious servants of the All for that is what your world needs.

Oh, may the ALLNESS OF THE ALL in Hiser perfection of beauty, granduer and radiance, bless you every moment of your expression as a sacrifice in the world where you now manifest. SOLOGA! In the three-fold Name, the Father, Mother, and Son, we manifest the Limitless Light.

ANGELS ARE GRATEFUL

The Angel Raphael: I, the Angel Raphael, come to you for the purpose of leading your power broadcast. We of the Angelic Forces are so grateful to you that you receive us without question and

that you do not doubt our coming and our messages, that you do not doubt the channeling of our power and our thoughts. The Angelic power has made itself felt in the Earth but man has not been ready to receive it in great amounts. Now we can come closer to you and for this reason I am here.

You are aware of the fact that there have been disturbances in the mountains of Mexico and South America. Because of the great concentration of Groups of Light along the West Coast, in the fault lines there have been strengthened; but in the Latin American countries there has not been the sending forth, and for this reason the Forces of Light have been pouring all they could there. The antipodes of these mountains if you will trace them on the globe are a line drawn through the trouble area in the far East, Laos, Viet Nam, and central China in the great basin of hunger, dissatisfaction, oppression and starvation. The people of China have hidden from the rest of the world those tragedies and catastrophies that have occurred within their borders. Little has leaked out of the earthquakes and famines which they have been undergoing. It is the difficulty there which has erupted in the earthquakes on the opposite side of the globe.

During the period of the Russian test explosions it is very important to contain that area in Light. You have been told again and again not to fear the explosions. A great deal of anxiety has been expressed over disturbing the belts of radiation. I think it expedient now to give forth (whether it is accepted by man at this time is of little importance) that the one test which your country has made in the higher realms had its advantages, for before the magnetic currents could be properly shifted into the new paths, there had to be the stirring of those various belts of radiation. You will observe now that this test has had no serious effect upon the Earth. The barrier of radiations it has set up will challenge man to create better shielding devices for the astronauts and protect them from harmful conditions in deep space.

Rest assured that no test will be permitted by the Inner Council of the Golden Legion, by the Hierarchy of the Solar System or of the Galaxy, which would be harmful to the Earth. If a test is permitted it is because good will result. Rest in this and be not disturbed by those who as yet can not accept our word in this. There are many who will read this who will realize that it is word from the higher realm and will accept it as in line with the over-all rulership of God. I, the Angel Raphael, have come to confirm it. Others may say, "That is not what we have been told," or that is not what I feel."

My dears, each one is given his own message to give forth. Let everyone speak his own message without fear and without doubt. Then leave the message in the lap of the future; for no message is given unless it is within the purpose of THE MOST HIGH. Rest in this and be at peace.

ANGELS ARE MOVING DOWNWARD IN LEGIONS

The Angel Gabriel: I have visited your group before and you have sent out my messages. It was my privilege to come to you and announce the birth of the Christ Consciousness in the hearts of men, the birth of the opening of the self consciousness to at-onement with the Father. Now it is my privilege to make another important announcement which it was impossible to make until this time when the Light of LIOLIA has reached such a glorious outpouring into the Earth. Angels are moving downward in Legions to pour out the Light through themselves, to assist man, to spread Light in all dark places, to bring to man the knowledge of his sonship with the Father. At certain times of great outpouring the vibrations are such that we of the angelic kingdom can come in great numbers on the beam of Holy Light from the Great Centers of Spiritual Being.

Now you are receiving a great flood of radiance from your own Sun, IMMANUEL-IMMANUELA, from the Spiritual Center of the Galaxy, LIOLIA, and from ONE without and yet within, seemingly more remote and yet still closer, THE ALLNESS OF THE ALL, THE HIGHEST OF THE HIGH. During such an outpouring, we, the angelic band, can move closer into this lower vibration and can manifest ourselves more readily.

When Jesus was born great hosts of us were seen and heard singing in your sky. When Jesus was asked if he would not save himself from the death which he knew was approaching and go into Greece where he would be accepted with such joy and honor, he answered, "Do you not know that I could now call upon my Father and He would give me legions of angels to fight for me." Now, my beloved ones there are Legions of Angels at your command. We are moving in by the thousands. Those who are clairvoyant will be seeing us. We will come closer and closer. You will have our fragrance, our music, our gentle touches, our strength, our light, our presence with you in your homes, in your groups, and in your churches. Be alert, for as sure as you are living in the physical you will be entertaining angels unawares.

This is the time when angels shall be seen ascending and descending upon man who are sons of God. That does not mean men who think they are so good that they might possibly be one of the elect. It means upon all men; for man is nothing but Light. He is both Son and Sun of the Father-Mother God, and he is now to see angels ascending and descending upon him. Look for angels in your sky and in your trees. Do not be surprised if you see angels with or without wings, as tiny or as towering forms, for they manifest in the form best suited to their assignment and your need and use for them.

Your part is to watch for us, to listen for us, to open the door to us, and to call upon us. Do not be afraid to ask for an angel for we live for no reason other than to serve. Never have we had to go through that which man must endure in learning. Never have we had to descend and work our way upward through the morass

of error that encumbers man. We were born of pure light and the Father's perfection to manifest to you. Call upon us, my beloved. If you do not what can we say? Call upon us for we live but to serve.

You will be hearing of angels of many names, many colors, many attributes, and many different expressions. Heretofore you have heard principally of the four, Michael, Gabriel, Raphael, and Uriel. You have added the Angel Violet in your recent experience, and the Karmic angel Lu-Ro, each being different in office. Many others will come to you. Do not be surprised if members of your Groups of Light find angels introducing themselves to them personally so that they may have the joy of bringing to their group the acquaintance of other angels. Do not reject anyone who brings to you the name of an angel for we wish to contact personally as many as possible. Of course it is hard for us to impress our presence upon those who draw back, doubt, and will not receive word of us from others or from their own higher senses. Yes, my beloved who read this message, it will be easier for you to see us if you can accept what you are now reading.

I bring you the blessings of the angelic expression of God, for when one speaks to you all speak through that one. I stand as the mouthpiece of all the angels who declare: Blessed are you, for you live at the time of the Great Shining of the Mighty Central Sun, our beloved Spiritual Father-Mother, LIOLIA. SOLOGA! from all the Angelic Band. Like the Sun, we shine; like the Word, we go forth; like the Source, we give.

SPACEMEN SEND ROBOTS TO THE EARTH'S SURFACE

Travol: I am your brother Travol, co-captain in the space ship stationed above your area. You have heard this space ship spoken of frequently. My co-captain, Plutana has spoken to you often.

I come this evening to assure you that we are doing all we can for the Earth. We have not visited your group as frequently as we would have liked, for it was important that the body of the channel adjust to the vibrations of the Central Sun, the Sons of Suns, and Angelic Forces before we brought in any cross vibration to disturb the conditioning. We contact some of you with beams touching your bodies. Others do not need these beams; they have accepted us with sufficient faith in us, in God, and in themselves that we can communicate through thought transference. We can also communicate through the higher self and take a light cooperative command of both brain and nervous system so that we can deliver our messages.

All of you will sooner or later act as channels for us, in some function or capacity. You are our brothers and sisters in Light. You have volunteered to come into one vibration or accepted assignment there, while we were assigned to this. But when we leave our physical forms we meet as equals in the Realm of Light, knowing each other as equal in the Light of the ALL. It is true that

in the human manifestation, we in the space ships have advanced conscious mental science higher than yours. It is true that we have devices that your scientists have not yet discovered, but this knowledge will come to you in time. However, our science is not that of destroying the atom. It is creative rather than destructive. It is that of drawing from the Limitless Light, from the substance of the Omniverse, from the Live Force of the ALL, that which is needed and the creating through the power of the mind the devices which we need to operate in your level of manifestation.

We have told you that we work with the mind, that our directing of our devices is largely mental. We have told you that we have been sending devices into your atmosphere. Recently someone saw one of these devices and was startled to observe around it what appeared to be robots. I wish to confirm that this is so. At the present time it is not wise for us to come into your material plane in your material vibration. The electro-magnetic lines of your Earth are not yet sufficiently composed in the new paths; they are still confused. It would be like trying to take one of your little boats into a great rapids or whirlpool where the water was flying every which way among rocks and currents and sure destruction. Because we deal with these forces we manifest on your level by the use of them when they are more settled. Therefore we must come into the thought of the channels clairvoantly.

Recently we gave the impression of our presence with a group in retreat. We were not there on the physical as you would see us physically. We were there on our physical level which you could only see clairvoyantly. We are with you often in the same state. I stand here in your midst. I am seven feet and two inches tall. My hair is black and so are my eyes. My skin is a little darker than yours as though I had been sunburned. I am slender. I wear this seemingly metallic garment which changes with the light as I move like your changeable silk.

We use light consciously to make materials. We use light to clean materials. In our great ships we do not have showers of water; we use light. If you were to visit us, you would step into a cabinet where light would completely cleanse your body and your clothing, and would attune your higher self to the body. You would be refreshed with this light.

You who are growing in understanding, are learning in the material level to reach upward and bring down what you can of the science of the future to use in your everyday life. You should begin to draw down light to use in this manner. Do you not sometimes take off a garment and hang it in the air? The next time you do this, sit a moment and see it cleansed with light. See light, pure white or with a little blue in it, glistening and gleaming as it pours through your garment. Then when you take it down test it, look at it, smell it and see. Practice this. It is something you will have to attain, an ability which you can manifest, and which the man of the

Future on Earth will develop.

I am saying this not only to your group but to all groups and to all individuals. This is a possibility open to man of today on the Earth's surface. But just as you need to accept LIOLIA to be aware of the Legions of Angels, and you have to accept yourself as One with All to open to your fullest, so these acceptances will help you to use light in cleansing yourself and your home.

Would it not be much more pleasant to be able to sit and see light cleansing your dishes and doing the work that you do in the laundry or with your vacuum cleaners and your scrubbing mops? Oh yes, the time will come when man will paint his house with Light. He will sit in his yard, look at his house and think it the color he wants it; it will become that color. Then if he wishes to change it tomorrow he can do so as easily. This is the path upward for man's science. He has first to explore this dead-end street of atomic fission before he can find that there is no way out. When he has come to the limit of that street he may then retrace his steps, or his children may take him by the hand and lead him out of that blind alley and show him the way upward through mind.

What a joy it is to us to be able to tell you these things. It was not possible to tell you many things until your acceptance of our Spiritual, Central, Invisible Sun, the Father-Mother of the Galaxy, our glorious, adored, LIOLIA. Now that you have so fully accepted the Golden Light from this, our Father-Mother, it is yours to give forth the advanced learning, and to show the way even though it be but a pointing finger to what man will accomplish in the future.

You have been told that when you speak to one you speak to all, and that when you hear one you hear all, when you receive from one you receive from ALL. Know then that you receive from all in this space ship the love which is so wonderfully ours to share with you. Remember we are stationed over all critical areas. A large gathering of forces are above the starvation area in China. Had we not been feeding them with the Light of the Life Force of the Omniverse, many more thousands of them would have passed away from the realm of physical manifestation.

Yes, we are on the job; we are faithful night and day all around your globe and you can count on us. All of us together say, SOLOGA, and to us that very word is like an Alleluia, for it is sending forth from the heart our glad shout of exaltation for the wonderful giving of the Greatest Giver, THE HIGHEST OF THE HIGH. SOLOGA! Together we give!

THE EXPLOSIVE SITUATION IN CUBA

The Archangel Michael: I stand among you, my brothers and sisters, as a Tower of Light serving under our Sun IMMANUEL. I lead the Angelic Forces under the thought of Will and Power. I have been with you often in your meetings and I have served with you in

your broadcasts of power many times when you were unaware of my presence.

I come to speak to you tonight because you are in such an important position in the battlefield of the present between good and evil, between love of God and denial of him. You who live in this area have the opportunity to send Light, Love and Healing with great power to that neighbor of yours, the island of Cuba. God loves all; all are his children.

You were discussing the problem of good and evil. Perhaps the best way to speak of evil is to say that evil is that which denies good. Error or a lie denies the truth. Sickness denies health; discord denies harmony. One of you had a vision of a third of the Northern Hemisphere as a great crater. This was because the people there have been forced by their governments to deny the presence of God, and since God is the only Life, the only Substance, the only Existence you were shown this part of the map as a place of nothingness. Unknowingly the people have denied the existence of any thing in that place. When they deny God they suppose that they are denying a fairytale; they think they are being very courageous and worldly-wise. But he who denies God denies his own existence.

You are here in great power in your city. You and your sister organization Mark-Age, all the churches of which there are a great number in Miami, and all of those praying people who, it may surprise you to know, much outnumber those who do not pray - all are sending forth prayers that God will work things out rightly in Cuba. You have been chosen to be here at this time for the purpose of giving special attention to sending out Light into this area.

Now the situation in Cuba is serious. It is as though it were all balanced on a fence. A little push one way could mean war; a little push the other may preserve peace. You are doing all you can to push toward peace and you are not alone, for the Legions of Angels and the Golden Legion of the Forces of Light, more than you have ever dreamed of, have gathered here from distant places in the Solar System, in the Galaxy and even from other Galaxies to help in this critical time in the development of the Earth.

We know how important this particular spot is at the moment. You will know from your news media and from your own common sense that the man who is at the head of the Cuban government, Castro, has suffered greatly. He has been forced between two fires, the push of the Communists and the sufferings of his own people. He has had to hold the power or be destroyed himself. He has gone from one evil deed to another so that his crimes have weighed heavily on his own conscience. His nightmares are terrible for he sees the faces of those for whose killing he is responsible. This has driven him close to the borderline of insanity. In fact there have been times when his own confederates have kept him locked in a room away so that he would not destroy them as well as himself.

It is of course to be feared that the dear young men who are

so eager and so patriotic, so anxious to free their motherland and the people who are undergoing so much suffering at present, may cause an explosion. It is to be understood that they would wish to fight. They have staged a token incident; they have shelled the city of Havana and escaped without harm. But this has resulted in the coming of many Russians.

Up to this time Castro and his Cuban people were not willing to admit any large number of Russians, but this shelling of Havana frightened them into accepting aid so that many Russians and their equipment have come supposedly as a defensive measure. It is a terrible measure filled with menace for the surrounding peoples and for the Cubans themselves. You may be sure that now that the Russians have firmly planted their foothold there they will not relinquish this island. They have a stranglehold on Castro and his confederates and they will not let go. Therefore in our prayers it is important that we send love, peace and caution to these patriotic young men who are so desirous of cleansing their homeland.

Now there is a danger which has been spoken of to other groups as well as this, that should the young men attack Cuba, the Cubans might shell Miami with the thought that Miami is the base of the Cuban attacker's supplies. There are many wealthy Cubans who have brought their money to Miami and are perhaps furnishing the purchasing power for the arms and small boats that may have been purchased here.

Castro does desire to wipe out Miami because it has received and sheltered so many who opposed him. They have deserted and taken away their wealth. He blames his weakness and his present situation on them. In his mental illness, he has felt that Miami and the Cuban people here are the cause of it all.

Castro's own people and the Russians themselves are anxious to keep him from doing anything rash. If bombs were to drop on Miami, there would be no time to decide where they came from. Instead the whole thing might blow up all over the world. This is the reason why it is so important that you, my dears, do what you can in the sending forth of Light.

You have done beautifully; you have grown more than you know. Your bodies have enlarged in their ability to send forth the electricity or Light (electricity to us and Light to you.) You are like those little devices, the fuses which you screw into your boxes, some fifteen and some twenty. If you want more electricity you put in the twenty; if you want less you put in the fifteen. Your bodies have increased in their ability to send the light through just as though you had been made over into a device to send through a greater amount of electricity. This is the best way I can explain it to you.

We have spent a great deal of time and effort in developing the power that you have. We ask you to use it as much as you can. Now we know that it is very tiring to you in the beginning. We know

that at first it seems to you that to send forth the power through your mind is one of the hardest jobs you can find in your day of work, and that to do it for a minute or two seems almost exhausting. We have asked you in previous times to send forth Light three times a day if you could. Now, knowing the crises and how difficult it is, and knowing that you are better equipped to send forth, perhaps you would be able and willing to let your mind send forth the Light more frequently as you go about the duties of your day. Even though your hands are busy, you can send forth the great strength of the Omniverse through your thoughts.

Remember it is not your own power you are sending through; it is the Omnipotent power of the All-Consciousness of the Most High God. This is the substance of Light; this is the only power there is. If you send forth any power at all, it is the Power of God, not your power or anyone else's power, not the power of some invisible etheric being, of some angel or some Master from the great Hierarchies, for their only power is the Power of God. All they do is what you are doing. If you feel great power coming from them, it is because they have a great capacity to send through the Power of the Almighty God. When you feel the great heat of the Sun Beings, that is their capacity to send out the Light and Love of the ever-present, the all-knowing, the all-powerful ALL.

As you send the Divine Power through, you should always say, "As I send this power through me I am refreshed and replenished." In this way you will direct your subconscious mind not to permit itself to give of the power of your own being which is the power of God necessary to hold you in your present pattern. Thus you will not be depleted by giving.

Now you have been told of the wall of light which you must hold between your area and Cuba. You have been told of my presence in helping to maintain this wall of Light. We have been contacting all Groups of Light telling them to see Cuba held in Light and in the Love of God; thus you are being given much help in this work. If you could see the map of the United States or the globe of the Earth from the etheric planes, you would see great streams of power and light pouring into Cuba, for now your government and people are being alerted to the danger. They want to help you just as you have wanted to help them.

Your president has known of this. He has been advised of the full situation. He is a wise man receiving intuitively his own directions from the etheric. He listens to his counsellors but he will make up his own mind; he will do what he thinks best. Both he and Krushchev know that a war would wipe out both countries. Neither of them want war; they want most of all to dampen this explosive situation.

The United States is now being put to the test to see how it will stand up under constant tension and fear. Has not the United States supported the Chinese Nationalists in the island of Quemoy

and thus generated fear in China? Has not the United States and its allies established strong bases almost as close to Moscow and thus put this tension of fear upon the Russians? Now things are perhaps in a better balance.

Cuba, too, is a sacrifice. Cuba enjoyed much tourist trade before the rest of South America became so accessible. Many people of Cuba began to grow rich, greedy and pleasure-loving. They catered to the tourists who came to Havana to throw aside the conventions of their home towns. Throughout the island the common people were left in poverty. The money was used for the pleasure of the rich and not for the building up of the general standard of living. Therefore, Cuba has this Karma to pay.

In the process of the coming of the Russians, Cuba will be an example of what can happen, which will cause the rest of the Spanish-speaking countries to watch more carefully and be much more anxious to stamp out the encroachments of Communism within their own borders. For this reason I say Cuba is a sacrifice. Let us therefore send Love and Light to help. Let us strengthen our faith knowing that God governs. If this island is a sore that must be cleansed, if this is a cup that Cuba must drink, then let us say, "Thy will be done but if this cup may pass from us, oh Father, let it be so."

Because of the saber-rattling from Cuba and Moscow, the strength of the United States and its courage and determination to act have been underlined. The bluff has been called and Krushchev and Castro know that they dare not provoke the United States to war unless they are willing to suffer oblivion themselves. This they do not want any more than you do.

Be assured that the Golden Legion, the Logos of the Earth, of the Sun, IMMANUEL, of the Galaxy, LIOLIA, and the Thought of the Most High God are holding this planet and this place steady. But you, my beloved, are like the missing piece of the puzzle. You have your own little niche, your own work to do and only you can do it. SOLOGA, blessed Suns of Light! I, Michael of the Angels stand with you in the Word of God to fight for the Truth. 9/18/1962

Following this message, in the vision of the OLlooker, the whole Group was taken to Cuba as One in the body of Jesus-Mary. From the etheric plane we observed conditions in the island. We saw light being poured in from the prayers of the Roman Catholic Churchmen, the Pope, the Cardinals, and other seats of Catholic power. Light was also coming in from all the churches and people who pray for the freedom of the Cuban people. From the Groups of Light, from the Hosts of Light, and from the Suns great beams darted down until the island was almost ready to glow; then a wave would wash over it cooling it off, and more Light would be sent. We felt very peaceful about it all for we knew that all was being done that was possible. We also understood that our faith that this was so would help.

Next we were taken down into the island. We saw Castro drinking a great deal. We were told that the soul of the man who fought for the independence of Cuba had left when under pressure the human self chose to deny God. Another entity had moved into the body. In the island there was weeping, hunger and a sense of people being in a daze. There was trouble in the hospitals for they lack good nurses and doctors. So many doctors fled when Castro began to oppress the people. So many children are unable to go to school and are confused. No matter how much light is sent those who are unwilling to receive can put a wall around themselves and shut it all out.

Everywhere we went Jesus-Mary gently touched, comforted and healed all who could respond. We felt the tears of compassion in His eyes. The prisons were so full of suffering and fear. They have free choice and cannot be healed if they refuse the Light. Furthermore there is a Karmic debt to be paid.

SEND LIGHT STRONGLY TO ALL GOVERNMENTS

Ixutel: Again we bring good news. The Christ Earth, the Glorious Spiritual Entity ensouling the physical planet has taken a tighter grip on its own physical structure. The Light of LIOLIA has been accepted by the Christ Earth and all is well. There will still be the problems and the opportunities for growth expressed in weather and shifts in the electrical currents and in the outer layers of the planet. These must continue for they are the cleansings which throw out the denser atoms and make the planet able to respond with greater understanding to the Voice of Divinity speaking the Word to His image in the form.

You will have noticed some lessening for the moment of the violence in storm activity. The aggressive thought of the anti-Christ has been turned in upon itself somewhat as the force of its thinking boomerangs against itself. Certain troublesome powers will be occupied with their home disturbances and the strain of fear will react unfavorably upon the health of certain leaders. There will be an urge to the settling of home problems throughout the world.

During the next few months Light should be sent strongly to all leaders and governments that God's Will and the healing Power of the Christ Earth may be manifest in them. As peoples prepare for elections, send out Light and Wisdom that the right individual be chosen according to the purposes of the Christ-Consciousness maturing in man. Watch your news media and be faithful in sending Peace, Love, Light and Harmony to all trouble spots. Listen to the voice of your own Higher Self and direct power as you are instructed from within.

Our science enables us to note the flow of electrical or psychic energy and to then predict certain trends and their general climactic points. Always send forth in utter calm and detachment letting the Light flow through you effortlessly and without emotion

or personal involvement. Be as emotionally and mentally detached as the nozzle of a hose releasing the power of a greater source to cleanse or to give drink to the thirsty lawns and gardens.

The great opening of men's hearts to the thought of Thanksgiving in your country will prepare for a renewed outpouring of the intense Golden Light of LIOLIA which will reach a peak during your Christmas season. Much occurs which does not reach you through your news. Many of the crises are psychic storms in certain areas and are not detectable by those whose thoughts are open only to the catastrophic conditions in the physical plane.

You must be faithful and know that your outpouring is rightly directed. Should the disturbance be controlled in the indicated area but break out in some other, the Light you are broadcasting will be deflected by those who know and will be used according to the cooperative thought of IMMANUEL and Christ Earth and transmitted to the new area through the scientists of the Golden Legion. Do your part faithfully but be at peace in the Omnipresence of the Divine God-Consciousness.

A N N O U N C E M E N T S

We wish to express our deep gratitude to all who have sent us such loving and appreciative messages and for the generous gifts of financial support. As our mailing list grows it takes more to supply all those who are eager for the Word which has been given us to share. We are so grateful to those who have responded to the call of Spirit and sent us their tithes and love offerings. We have no other source of supply for our activities except the gifts from God through you.

We have been asked to give permission for reprinting. May we state that our material is a gift from God to all and we are only too happy to have you use it in any way that will spread the Word.

* * * * *

When the Cuban situation began to come to our notice, several very dear friends sent us messages of concern over our safety. In the course of the ensuing meditation and prayer for guidance for the group, our channel received the following message which must be shared.

WHO, OH WHO CAN SEE THE LIGHT IN DARKNESS?

Little Sun of Mine, just hold the Light around you steady. When you hold it for one you hold it for all. Your Sun, IMMANUEL, has received great enlightenment. Now comes the application of that new insight in the conditions of Hiser Being. Now comes the time of seeming withdrawal and the eclipse of seeming darkness when you must act on your own, the seeming retreat of the Presence so that you may find and know yourself.

No cloud of illusion can hide the path when once it is found. No one who holds to the God within, who has found and become the

Way, shall lose the inner contact with the Presence.

Be not dismayed by the problems you find as you turn the pages of your textbook of experience. Hold fast to the knowledge that you have and send out your Light into the darkness.

Who, oh, who among you can see the Light in darkness? Who can perceive the Holy Revelation that there is no darkness? How could man learn to tear away the veil if there were no veil to tear?

Blessed children of Light, walk in your own Light. Light your own candles and keep them burning for the darkness of testing cometh to all and to each. Where can you prove the brilliance of your own Light except in the darkness?

Be of good cheer but give. Give! Shine forth in the glory of your own knowing that others may find their way through you. When I speak to one I speak to all and to each. Find me within you and within all else.

I AM ALL THAT EXISTS! Find ME within and without. To those who find ME thus there can be no darkness at all for their vision has enlarged to see the Life-Light in everything that exists. To those who know the Infinitude of Light then the seeming darkness itself is also Light.

Go in Peace, my child of Light, secure in the knowledge of Infinite Love and Goodness.

COSMIC RHYTHM

In endless rhythm and ceaseless flow,
Through Cosmic Light where atoms yearn,
From intricate patterns the ages show
Come whispers of infinite Love that turn
Out from God to the embryo
To live in the thoughts that seek and learn.

To live in the thoughts that seek and learn,
Goes Love, to weave - as sympathy spun -
The fabric of Brotherhood, to burn
The flaws of flesh. Its climb begun,
Thus to God does the mind return,
Who knows, "My Father and I are One."

Who knows, "My Father and I are one,"
Up the mountain of pain must go,
Submerging self in transfiguring Sun
Of service that only the summits know,
Offering Love 'til Life is won,
In endless rhythm and ceaseless flow.

SOLOGA HEALING TAPE (MESSAGE)

JESUS: My beloved child of GOD, rest in the Lord. The Lord thy GOD healeth thee. You are now in the presence of GOD. Rest in your seat and be at peace, knowing that GOD is with you now. GOD is all there is. You are a cell in His body. He is all of you and you are a small part of Him. You are His beloved child, a thought in His mind which He is maintaining.

GOD is ALL-CONSCIOUSNESS. He speaks the word of His thinking and we become. He maintains us with the depth of His thought. Not a hair of our heads but what he knows, for He is thinking every cell, every particle of all of our beings. He maintains us with His thought. Rest in the peace of understanding that GOD is thinking you.

GOD is Omnipotent; He is All Power. GOD is Omnipresent. You never can be absent from the presence of GOD, for He is ALL PRESENCE. He is your presence. He is the presence of every one else, and of every thing. He is Omniscient - All knowing. He knows every part of your body as you know your hand. He knows all of your affairs, all of your condition better than you can possibly know yourself. He understands your troubles. He understands your sickness, your frustrations, your unhappiness, your disappointment, your discouragement. All of these things are within GOD. He knows them. He knows what you desire for He knows the thought of your heart.

GOD heals you. He pours into your body the healing power of His own health. God is the only healer. GOD pours the fullness of His healing power through His Word, His Christ, and the Christ attends you. The Christ comes to you as the Comforter. What you must do is to self-consciously accept the Presence of GOD with you now, the Word of GOD healing you now. Be at peace. Be filled with joy for GOD is with you. Be filled with gladness for GOD is healing you. Know that all is well with you. All is well with you, with all of your affairs, all of your problems. GOD is moving through them to adjust them now and to bring about in His time the proper solution for your highest good.

You are GOD'S beloved child. He loves you with the greatness of His love. He is the very breath you draw into your body, the healing oxygen, the pure air. He is the very blood that flows in your veins. His is the heart-beat that keeps you alive. He manifests His warmth and love in the sun that provides life to the earth and gives you food, to maintain your earthly bodies. GOD alone is the healer. Others may be messengers, carrying His healing power, His healing faith and His healing word. But GOD'S power, GOD'S faith and GOD'S word are all there is. You do not have to depend upon the weakness of the physical voice that is speaking to you for you can depend on GOD. You depend on GOD'S faith which is a gift as free to you as the air you breathe.

GOD'S faith is the only faith there is. Use it. Say to yourself, "I am in the presence of GOD. I move forward into the center of His being. I step into His perfect health. I step into His perfect health by standing in His perfect faith that all is well with me. All must be well with me since I am the expression of GOD. GOD'S Life is the only life I have. I manifest all of GOD'S health now, at this moment. GOD'S Love is the only love I have ever known through any other human being or through myself.

"GOD'S Love is infinite, poured out upon all without measure, equally, given as the sunshine is given and as the rain is given, to heal and to bless. I rejoice in the love of GOD which surrounds me with every good thing. His mercy is boundless and I live in His mercy. His health is perfect; I move in His health. His Light is eternal, enlightening my day and my night. With His All-Knowledge I know. With His All-Power I operate. In His All-Presence I live and move and have my being. Therefore, knowing His love, knowing His wisdom, knowing that His will is done, I place my will within His will that He may work out in my body and in my life that which is for my highest good at this moment.

I rejoice in GOD, my Father, who healeth me now. I accept this healing with all my heart now. I move forward in the constant knowledge that this healing is never absent." His healing power is as permanent in your life as He is everlasting. You have but to stop and establish in your thinking His presence and His healing power ever with you to be able to draw the harmony, the peace, the perfect health into your manifestation.

In the faith of GOD accept this so fully that it drives the thought of health and the healing of GOD into your subconscious, that your whole body may receive and accept and rejoice in the Light of the ever-present healing Father. See the Light of GOD pouring through your veins and arteries in the place of your blood. See it cleansing, purifying, re-building, and harmonizing every little cell, every organ, every tissue of your being. See Light whirling in a vortex at the place that needs this healing. See it spinning round and round. Know that it is the light and the life-power of GOD cleansing, throwing out all that should not be there, re-building, putting perfect tissue in the place of that which has been damaged, bringing strength and vigor and alignment with the perfect pattern of GOD'S thinking for that part of you.

Whenever, during the day, the problem seems to present itself again, let yourself think of this Light whirling in the places where it is needed. Build within yourself the ability to imagine this Light and to see it, the Light of the ever-present healing GOD, operating to bring you back into perfect harmony with His perfect thought of you. GOD'S Light flows without anything to hinder it in your being now, for He is now present with you. GOD'S Light heals. GOD'S Life invigorates.

GOD'S Light, Life and Love flow through you to attune all of your being, to put you at perfect ease, to give you comfort, and to bring you into perfect harmony and health. Accept this Light with all of your being. Know yourself surrounded and permeated with the Light and the Love of GOD. Know that GOD'S Love is the warmth in your body. Know that GOD'S Love holds every particle of your body together in its attraction, and holds you in the Being of GOD. Know that the very fact that you are alive is proof that the Love of GOD is operating in you to manifest the thought of GOD for you as best as can be done with the difficulties you have in accepting perfection.

Cleanse yourself. Cleanse your own thinking. Ask yourself, "Is there someone who has hurt me?" Then send love to that person. "Is there someone I think is not quite right or good?" Then see all the good possible in that person. Enlarge it and let the rest of the manifestation go completely from your thinking. Wash it away in a flood of GOD'S love to this person. Let GOD'S Love manifest in great strength, pouring through you to all about you. As you do this, your own heart and mind will be cleansed, and you can receive the healing flow of GOD'S Love to every part of your being and your affairs.

Give Love. That is the true meaning of forgiveness. As we "forgive", we give "love for". Pour out the Love of GOD through your being to all about you in great gratitude that it is yours to use. Rejoice in the fact that GOD'S Love is yours to use. Rejoice that GOD'S Love is healing you now. Accept His perfection.

Accept His will for you, knowing that His will for the world is perfection, harmony, love, growth, expansion, moving forward, that it is freedom, freedom to achieve the highest good that is possible to you at present. Know that this is true for you now, and give thanks, be glad, rejoice in it. Say, "My Father whom I adore, I turn my whole being over to Thee. I give all of my affairs into thy keeping. Since Thou knowest that which is wise and best for me, I find my greatest freedom to move forward when I move forward according to Thy plans for me. Obstructions vanish when I come fully under Thy will, and the free-flowing power of GOD takes over and manifests in all outward affairs. In great gladness, in thanksgiving I come Under Thy will, accepting for all of my being Thy healing power now, accepting Thy faith as my right to use in all of my affairs, knowing that as I work in Thee I cannot fail because I work not for my own selfish pleasure but for the giving of Thy Love and the pouring it through myself into Thy creation.

As I work with Thee, all falls into place. I am blessed; I am healed; I am perfect: I am filled with Thy heavenly harmony in every aspect of my being, because I accept Thee in the fullness of Thy great love and Thy great healing power pouring into my life and into the lives of all about me. Because I accept all of this for me, I accept also its flow through me to

others. With all my heart I rejoice. Every cell in my body rejoices in Thy healing light, blessed Father. Every bit of me says, "Alleluia! Thank you, Oh GOD, for healing me!!"

THE LOVE OF GOD

The love on our realms is more highly expressed. You have chosen, in coming into the physical, to limit your capacity and your tides. Love keeps your planets in orbit. Love keeps the solar system, the galaxies, the universes, the omniverses in perfect synchronization. It is the Love of the Father, for each and every cell within His Being. Know that each and every cell is living. Every living thing around you is an example of God's love. Your flowers are a beautiful portrayal of God's Love. What is nature but an expression of God's Love. All the vastness, the beauty of the blue sky, pleases you because love pleases you.

You are born into this earth, this way of living, with great need for love. It is the longing for the fullness of the love that you have left behind. It is the great longing to recapture this completeness in the knowing of the Allness of God's Love. Everything that happens in your life, whether it seems to you a tragedy or wonderful occasion, is an example of God's Love for you. It helps you grow; thus you blossom into the perfection that you are trying to achieve. You become at one with your Father again, completely and wholly as you were (as a spark of Light) when you came out from Him.

God's thoughts are beautiful. Are you not all God's thoughts? You exist as long as He thinks you. And remember, dear ones, that all of God's thoughts are beautiful. Therefore you must be beautiful. Your neighbor must be beautiful. All of the people around you must be beautiful. Know that the inner being is God's perfect Love.

I leave you all flooded in the glory of perfect Love. May you feel this comfort, this warmth, this satisfaction. May we all learn more, accept more, and live more of God's Love. SOLOGA! My beautiful beings.

IT'S TIME FOR ME TO GO MY WAY

"IT'S TIME FOR ME TO GO MY WAY", so let me leave a smile
 To cheer the weary traveller..who walks a lonely mile
 To sing of spring in wintertime..to all who come along
 Life is made of many moments..slowly passing by
 I cannot hold this moment if I try
 IT'S TIME FOR ME TO GO MY WAY..so let me leave a prayer
 And love to live eternally..though
 IT'S TIME FOR ME TO GO
 MY WAY...

THE ROYAL ROAD

Walk the Royal Road, My son,
 If Life for you has meaning.
 Death no more shall bring upon
 That blot in the Path of seeking.
 Invoke His Light of Holy Love
 On every atom of thy being.
 Purge with Flame from Above
 Every aspect of thy thinking.
 See no form not Perfection;
 Hear no sound of evil tinkling.
 Feel no motion of imperfection;
 Taste no fruit of Satan's making.
 Bless thy world and ask for Grace
 To do His Will and seek His Face!
 As echoes ring out loud and clear
 Adoring hearts yield up a tear
 That bathes the Soul in Holy Water
 And lifts it closer to the Father.
 Thus lost in Thought deep down in Joy
 One voice for all bespeaks this Joy
 With prayerful praise in loving thought
 And asks that we, His Sons, be taught
 Then bursting hearts with Love do sing
 And arrows of Light 'round Heaven fling
 For thus we set the stage for God
 To lift us up, each step we trod.
 His Light and Love descends in Power,
 A rainbow colored Spiritual Shower!
 Ensouled in Bliss and Healing Rays
 Each one thinks thanks for God's pure Ways,
 But filled too full to hold this Host
 Each Grail sends forth where needed most
 The Light that lifts and Love that heals
 And hope of Dawn 'cross Heaven steals.
 The Service ends with final hymn
 And souls move closer to Holy Shin!
