

GOD UNITES ALL OPPOSITES. ALLELUIA!

GOLDEN KEYS TO THE KINGDOM

LIOLIA: MY beloved children of Light, Suns in MY Being, radiant orbs of glowing Light, you send forth into the place of your expression the Light of the All-Consciousness of the Father-Mother. You send forth Light which is poured out into the Omniverse through US to you and directly to you and through you to all about you. MY beloved, precious, beaming Lights of Love, Wisdom and Understanding, I bestow upon you the Golden Keys to the Kingdom - the Kingdom of the Limitless Light which is within you and without. These keys are mental; they are of the Spirit; they are of the understanding. They are not of the body, for although the body is Light held in pattern it is also the instrument through which the Light may be used and broadcast.

The Golden Keys which I bestow upon the world and upon you are the various seed thoughts by means of which you may attain understanding. You have been aware that various groups have various tasks. Each one will be used to do all that he is capable of doing. Each single one will be used mightily depending upon his willingness.

An excellent key to open yourselves to preparation is: Use me; use me. That is what you are - tools to be used in your place of manifestation. You have volunteered for this; you have come into a vibration where angels could not tread, for these vibrations are such that only those who have been adjusted to this human expression can enter during this time of difficulty and adjustment in the Earth.

You have come to support the Word as given forth from the Central Sun. Others will receive this message, will find the key and open the door. Soon there will be others who will be able to give forth the Word from LIOLIA. There must be a short time, however, between your publications so that more people may accept the name, LIOLIA, and receive Hiser Light into their beings.

May I, The Central Sun, the invisible Spiritual Center of this Galaxy, express MY Thanks and Gratitude to those who have sung MY Name in their life, to those who have accepted ME and found beauty, joy and comfort in their awareness of ME. This acceptance is an open door through which I may reach into your life and help to attune it to a higher level of spirituality.

Many things that are now hidden will come to the Earth after a larger number of people have been able to receive and accept the Name, LIOLIA. This is a vibration of great power. In its tonal qualities it is stirring the basic rhythms and harmony of patterning in man of the Earth today. The more you sing the names of Jesus-Mary, IMMANUEL-

IMMANUELA, and LIOLIA the broader and wider may be the channel through which you receive the vibrations, the subtle emanations, the Golden Light of understanding, of strength, of peace and joy, of order and harmony which are yours through these Names. These Names can be fitted into some of the beloved hymns you already cherish. You have also been given hymns to publish which are sung on the higher planes. Whenever you sing them you may be sure that many of the Hosts of Light are singing with you.

The Name, LIOLIA, is one of those Golden Keys concerning which I spoke. It is the greatest Key that you have been given. Another such name is the Golden Legion. It may seem strange to you that I WHO AM the Central Sun of a galaxy should be so concerned about what might seem to you to be trivial details of your life. But music is not a trivial detail; neither are words that are Keynotes.

Certain sounds are tremendously important. It would be well to study the tones which are individual to you, to try to sing them, to open them in your thinking as keys for they will also attune all your bodies together. The sound for your Earth is F; the sound of your Sun and thus the basic sound of your whole Solar System is C. It is well to sing often those hymns or songs which are based in C or F. The vibration of these keys, sung or chanted, will open you to further communication and further receptivity. As you sound forth these tones you attune not only yourself but your whole neighborhood, your region, your area until gradually the tuning proceeds outward from your center like ripples when a stone is dropped in a pond. Chanting the tone of the Earth will help to attune the Earth and all upon it.

In the months ahead you will have a greater conscious communication with this beautiful planet of which you are a part. First we must try to establish the vibration of LIOLIA in your group and the minds of your readers. New names must be given for old ideas for this is a New Age. For many centuries the Central Sun was completely hidden and invisible. Now the time has come for an unveiling, a closer communion between that Hidden One and your Earth. To you I am no longer Vel-Vela, The Hidden One; but I am LIOLIA, the Life, Love, Light and Law of God expressed in this galaxy. For you in the New Age I am made clearer, stronger, and visible to the spiritual senses.

I have mentioned the Golden Keys of the name, the song and the tone. The word, all, is also a Key - the ALLNESS OF THE ALL. It is a Key to That One Higher than I Who is truly Holy for Heshé is Whole, the WHOLENESS OF THE WHOLE. The word, holy, means complete, whole without any separation. Man has not felt himself holy because he has separated himself. He has thought of himself as one thing and God as quite another. He has put himself upon Earth and God in Heaven. When man finally understands that he is one with The ALL, that the Kingdom is now present in the Earth, that the Earth has always existed in God, in the Heaven within, then man will begin to be holy and complete. When he joins himself of his own conscious volition with The ALL, gives himself and receives The ALL for himself as himself, then man becomes whole and complete and can feel his simplest activities to be holy.

Nothing in the Body of God could be unholy. If God is The All, that which seems unholy is man's illusion about life. The animals, the birds, the flowers, the insects, live the life of God without shame and without sin because they have no thought of shame or sin. As a man thinketh in his heart so is he. The Life of God is revealed to you in all about you.

Everything that you look at is a symbol of God in some manner or manifestation. Watch nature around you; study it in all its facets for it is God spread out before you as a library, as a philosophy, as a Bible for you to read. This is MY fourth Golden Key. Find in nature the simple truths of the great Life Force, the Limitless Light of the Omniverse.

Four Golden Keys have I given you: the Name, LIOLIA; the singing; the chanting of the keynotes; and the word, The All, expressed in all life about you. SOLOGA, you who are MYSELF! All the Love that MY FATHER-MOTHER, THE ALLNESS OF THE ALL, pours out upon ME, I send forth to you and to your beloved planet, the Christ Earth. 8/11/1962

THE ALLNESS OF THE ALL ATTAINED ME

The Archangel Michael: I could shout with the sound of a hurricane but why should I tear the little throat which has given itself to me to speak. I can speak as well in the still, small voice of the mind. There is no need to demonstrate my power to you. Each one of you has been helped either by myself or one of my messengers.

I stand at the right hand of power for I am Power personified in the Omnipotent. I came out from the Alpha and Omega as you did, but I came many aeons ago in the Angelic strain of Life rather than as man. I have developed and as LIOLIA expressed it in the words of Jesus, The ALLNESS OF THE ALL has attained me. I am the Will of God executed in this Solar System at this time.

I have been here upholding your Earth with the power of the Angels even as your old myth stated that Atlas upheld the sky. I have been ministering unto man; I have strengthened his weaknesses; I have thrown my Light and my Power into his battles to help him win. I have been present on the battlefields where the Power of God was made manifest. I was there when Moses held up his hands through the long day until the victory was complete. I was there when enemy armies were made to destroy each other instead of attacking Israel. I was with Joshua and with Gideon. I walked the battlefields with the armies of your country when they fought the forces of aggression. I have stood in your United Nations and in your White House to help turn the scale of power in the right direction.

My beloved ones, I am yours to use. I stand with your Groups of Light to send forth the Word of LIOLIA, of THE HIGHEST OF THE HIGH, with power. Through the Golden Trumpet of the Lord which is mine to use, I send forth the Name of LIOLIA into this planet place. Should you be awakened in the night and hear that name ringing in your mind you will know you have heard my trumpet call. Should you hear the Name of IMMANUEL-IMMANUELA you will know that our Angelic Bands are shouting it forth through the ethers that it may ring in the hearts and minds of men and in all formations of Light and Existence on your planet.

Legions of Angels have come to assist the Golden Legions of the Forces of Light. You will remember that the Psalmist said that God created man a little lower than the Angels and crowned him with glory and honor. This means that He created man to be able to penetrate into vibrations and live where it would be very difficult for Angels. Man may attain to Sunship; man may go upward and upward till he becomes a Sun-Being such as IMMANUEL and LIOLIA. Always Angels live to serve and to help man in this upward progress.

You have now reached a time when Angels may come to you with greater strength. We have been able to come at various times when the heart of man was opened and the vibrations of the Earth raised as at the birth of Jesus. Now in the Golden Light of LIOLIA we can come in greater numbers than ever before.

Could you look down upon your group situation you would find yourself in a great company of Beings of Light in the center of an amphitheater. The great Golden Beam from IMMANUEL-IMMANUELA carrying through its center the stronger Golden Light of LIOLIA, pours into the middle of your room. Around it and around you are seated tiers upon tiers of the Forces of Light, members of the Golden Legion and others who sit with you in order to send forth through the focus which you construct, the power that is needed in the Earth plane.

Higher above and around the outer rim of this amphitheater you will see poised in the air in the pure white Light of the Christ Consciousness which is ours rank upon rank of Angelic faces - Angels manifesting in the form which man expects of an Angel. If a great artist could see this he would paint you a little in the shadows with hearts of pure light - veiled light. Those around you, the Hosts of Light, gradually grow lighter in their rising tiers of seats. Brightest in the above and beyond glows the beautiful Light of the Angelic Presences - Legions of Angels to help you. How can we impress upon you that we are here to help? Call upon us; send us out on your missions of mercy and accomplishment.

Very often an Angel makes himself known with a perfume. If you catch the scent of flowers ask if an Angel is present, then wait for the impression from within. If you receive a name do not doubt it; accept it. Write it down, then ask for that particular Angel when you need help.

8/11/1962

The Archangel Michael came to us to lead our power broadcast but before he spoke he described himself to us. Picture him in pure white light for he is complete; he is not divided. He is the servant of all. He wields a sword of flame. This sword can take on any color that is needed. Sometimes it is a glistening green or pure white; again it is the Gold of LIOLIA or the brilliant ruby red of personified power. Then again it is the blue of the scientific understanding of the harmony and order, of the goodness of God.

Think of him as towering above the buildings in his greatness and might. Think of him not Earthbound but rushing on wings of thought

wherever he is needed, bounding down out of the sky to touch the Earth with his power, charging to the defense of the defenseless, acting as a great invisible Force to hold back the avalanche or tidal wave, to calm the earthquake or hold the car, the train or the plane on its course.

No matter who or what the Angelic Force you must call for them if you need their help. They often come at the call of the Higher Self, but when you ask consciously you will receive with greater effectiveness. If you have learned, as many now have, to leave your conscious body, you may find yourself on a higher plane side by side with the Angels, defending, strengthening and helping those who need it.

WIPE OUT KARMA IN AN INSTANT

The Karmic Angel, Lu-Ro: My beloved children of Light, there is some confusion about the thought of Karma. There are some who forge chains upon themselves because they feel they cannot overcome their Karma. There are some who say, "I do not wish to be healed because I know I have sinned and I know that this illness is the just punishment of God upon me;" or they say, "No doubt this is my Karma and I cannot do anything about it." All this may be true, but they are leaving out the one wonderful fact of the Everlasting Grace and Mercy of our Father-Mother, THE ALLNESS OF THE ALL, who has given to man a way out of his Karma.

Any man, no matter what the debt he has to pay, may find within himself the God-Consciousness, may give himself wholly and completely in his self-consciousness to THE ALLNESS OF THE ALL. To the proportion that he is able to unite himself with THE ALL he wipes out his thought of Karma.

Karma is necessary to those who cannot believe the fullness of God's Goodness. Karma is necessary to those who cannot see God's Goodness in pain, but think that the only expression of goodness is utter bliss, utter happiness, perfect bodily health, fame, riches or success. Karma is necessary to those whose thought of God is absolute and inflexible. They require a punishment; they say within themselves, "I have done wrong." As a man thinketh in his heart so is it true to him. They believe that they have done wrong and they demand punishment. The soul feels that the personality cannot overcome its desire to be angry, or to strike out and hurt without fear of punishment as a deterrent. They want to balance accounts; they feel that an eye must be given for an eye. This is man's condition in the thought of separation.

The soul often decrees that the body come into life limited or deformed so that such accounts can be balanced. But great Beings such as Jesus of Nazareth through whom the Truth shown were able to release such Karmic debts. The man who had lain by the pool at Bethesda for thirty-eight years was thus released from a Karmic debt. In the presence of Jesus the soul received such Light that it understood that God forgives all. In reality there is no forgiveness and no need for forgiveness since God gives love for all seeming errors.

Man's great philosophic and religious problem is to learn how pain can be an evidence of love. This is the mystery which man in his thought of separation has not been able to solve. When he understands this

mystery he will know no separation, or when he knows no separation he will understand it. I wish to say to all who hear or read this that the more you can convince yourself that all there is of you or anyone else is the God-self, the Highest Self of All expressing Itself within Itself as that which you think of as yourself, the more you can dwell upon this and drive it home, see it, live it, and become it, the quicker you will be able to overcome any Karmic debt that is hanging over you in your thinking.

Most of those who have come to such a group as this have very little Karma left to pay. That which you still have can be wiped out in an instant with the full, complete self-recognition that you are one with THE ALL. Jesus said, "I am the ALL." He was your Wayshower. When you can attune your consciousness to the fact that you are the All - and by that time you will be saying, "We are the ALL," - then you will certainly have one foot in the Kingdom of Heaven-on-Earth. You will have attained complete erasure of your own Karma.

Some who have begun to understand Karma have been impelled from within to forgive all who ever seemed to be in debt to them. This has lifted the one, who could so forgive on a cosmic level, out of all debt. When you realize that no one owes you anything then you no longer owe anyone anything either. When you realize that there are no debts anywhere you have reached a level where you free yourself from all debts. As long as you hold some one else as in debt to you, when you think, "They are going to have a lot of Karma to pay for this," then you make it possible for you to roll up Karma for yourself.

When you say, "In God all is good. God is manifesting Himself in this way to help me to advance and understand," then you free yourself from the possibility of becoming indebted yourself. It is not just the saying, although that helps, but it is the complete releasing, the letting go from deep down within that brings the freedom.

May God bless you and help you to release and forgive - to give Love for - that you all may be free from the debts that you would heap upon yourself. SOLOGA! We of the Angelic realm love you in the pure Love of LIOLIA and in that Love we live only to serve you.

EXPAND YOUR THOUGHT HORIZONS

LIOLIA: speaking to all MY beloved children who revere the Word of God, the Most High, as expressed through the Suns and Sons of Suns. Beloved children of the Light of the ALL, beloved radiant beams of thought energy sent out from the Mind of God as expressed in your place of manifestation, I call you to a greater expansion of your thought horizons, to a surer realization of your Oneness with the ALL and in the ALL. Open your hearts to receive all, to love all, to cherish all. As WE have given to you, so give to others. As WE have loved and cherished you, so love and cherish others.

Whatever you wish for yourself you must first wish for all else, for only as you bring with you all that is you in contact and experience can you come upward. When you in your heart truly lift all in Divine self-

lessness, in unreserved giving, then you can lift yourself. The one thing, be it stone or plant, animal or person, problem or experience, which you reject, dislike or refuse is a chain to hold you to Earth just as surely as your greed, aggression and pride of place and power hold you down.

Learn to love, MY children, learn to love! Begin with yourself. Sweep out all feelings of guilt, inferiority, shame or belittling and love yourself as a pure ray of light radiant with the Life-Light of the Most High God - the ALLNESS OF THE ALL. Never consider yourself as anything less than this. Let the fire of pure God-Consciousness burn away all seeming flaws and stand forth free from the veils of illusion which hide you even from yourself. By contemplating and loving the true Flame which is yourself, you will be able to perceive the Flame of the God-Self giving Himself in everyone and everything about you, in every form, pattern and organization of existence.

As you thus enlarge your perceiving and your loving, you will draw yourself first inward to the Kingdom of Heaven within and second through this gate of the inner self you will find your way into the freedom of the Cosmos. When you have found true freedom for yourself you will give it in joy to all others for they are equally God's reflections just as you are.

This is your Path of Light, your Spiral of Evolvement into the greater manifestations of At-onement and dominion which you desire. It is all so very simple that you overlook it. It has been so clearly outlined by so many teachers and yet so well concealed from those whose lack of understanding requires that they search through the things that are not and discard them before they come to the things that are.

Man is like a child given a chest of many things. On top are bright looking objects that interest him and one small insignificant package which he hardly sees. He seizes first one sparkling enchantment after another and cherishes each for a time. Some crumble in his hands; the shiny paint flakes off; the cheap gaudiness dims quickly. That which he thinks he desires so greatly proves when he secures it to be just another burden which he doesn't want at all. As he matures and the years pass, he removes layer after layer of objects fitting to his experience but which still turn to debris to be discarded. The same small insignificant package is always there but he leaves it unnoticed and chooses some other. At last when he is fully ready he finds the true treasure in the small package in the bottom of the chest. At first he thinks it is but a bit of glass until he discovers that it is pure Light frozen in a crystal which enables him to see clearly, to discriminate. Through its use he finds the true Path to the Kingdom within himself - the only Way.

MY dear ones, this way is the simple path of the humble acceptance of everything as an expression of God and of loving and giving as God loves and gives. Withhold not. Let God flow as the Cosmic Thought and Pattern direct, and trust the Great ALL-CONSCIOUSNESS of the ALL to do all things well.

8/21/1962

ON THE GOLDEN PATH OF THE NAME, LIOLIA

The Angel Gay-Lo: I come to you on wings of joy for the Earth must now rejoice and be glad. A great crisis is past. The bells of joy should ring in every heart; smiles should gladden every face. Happy music should ring through every home. You should exude joy for that which was prophesied - all those dire catastrophies have not materialized on your Earth plane. We feel certain that you will now have some time of peace and quiet in which to grow. The Name, LIOLIA, has come through to the Earth. This is a tremendous advancement. The Name LIOLIA is the crowning point in the pyramid of achievement, the golden brick which tips the scales and brings the added strength which will enable the Forces of Light to carry out their great work in assisting the Earth to adjust to the new arc of Consciousness.

You who have been suffering from fear, from uncertainty, or from the pains of bodily readjustment have suffered so little in comparison to the Earth. Your beloved planet, Earth, has gone through convulsions within and scorching burnings without. To you it has seemed easy to retire within your homes, within the safety of your faith in God, within the strength of your maturity and your philosophy; but to the Earth the stresses and strains of this August outpouring have been as agonizing as those of trees in a hurricane. It is almost impossible for you to understand the tremendous adjustment which the whole planet has undergone.

Now there will be some time of rest from the increase of these high vibrations that these adjustments may solidify, be assimilated and understood, and that the Earth may become used to them as you might have to become used to a new pair of glasses, new dentures, or a new artificial limb. It takes time to adjust to these things. The Word of the Central Sun, the Names, LIOLIA and IMMANUEL-IMMANUELA, have opened for man a pathway of Light upward and a pathway of Light downward for the Angels.

There have always been those advanced Angels who have given themselves to the service of man and who have walked in your vibration. The greatest sacrifice an Angel can know in your Earth's aura is to incarnate as a human being because of the limitations of your consciousness and vibrations.

Those of you who have studied the chains and rounds of planetary development as given in the writings of the Theosophists will know that the planet Venus is the most advanced planet spiritually in your sphere of perception. You were supposed to have been as highly advanced but the Earth missed a heartbeat, shall we say, because it was overloaded with undeveloped beings from other Systems. Therefore it was with great difficulty that we of less strength and advancement than our brother, Michael, have worked our way down to the level of vibration where you are manifesting.

Numerous Angels who were highly advanced have taken upon themselves one life of incarnation as a human being so that they might understand the life of man sufficiently to serve as guardian Angels. Their names are written in gold in the firmament of the Galaxy for they have served beyond and above what most of us as Angels have been able to attain. But now

Legions of Angels are flocking to the aid of man and the Earth. Since the vibration has been raised we can come on the Golden Path of the Name of LIOLIA and we can strengthen, beautify and harmonize the life of man. There should be springing feet, dancing feet that can hardly keep still even among the aged of your planet. There should be songs and shouts of joy. There should be laughter ringing through the streets and homes, not from rude jokes but from the sheer joy of being alive.

May God bless you as you rejoice with us. If you should see a dear little one in your home push back from his place at the table and begin to laugh in his sheer happiness you will know that an Angelic finger of mirth is touching him. Laughter should spring spontaneously from you as song springs from a bird. Primitive people laugh easily; but you in your restrained modern culture have felt embarrassed, have feared to attract attention to yourselves or to be thought silly. You have brought upon yourselves many woes, many diseases, and much insanity because you lacked the balance of joy and laughter.

I have, therefore, chosen for you my name Gay-Lo - Gay for joy and Lo for Love (gay in love) or for seeing and beholding. The more I see of God the happier I become and the gayer with the Angelic joy brought down to the lower vibration. My name, Gay-Lo, is a promise that I will help you to see joy.

I have been with you before although unknown in your presence. I have given some of you a symbol of Angelic joy in your visions of the rainbow. Some have seen unusual and beautiful colors in the sky and this has been the Angelic promise of joy to come to man. Can you not just relax and let the gates of joy within you open so that the happiness that is really you can flow forth? Those who know their Allness with THE ALL should be the gayest, the happiest people in the world. A poet in your city caught glimpses of this when she spoke of your flaming Royal Poincianna as "God's Laughter Tree."

Oh, my beloved brothers and sisters of Earth, let God's Laughter ring through your hearts! Rejoice in it, sing it, live it and be at one with the mirth and the joy of the Omniverse. SOLOGA! Hand in hand Angels and man walk the pathway of joy together. 8/21/1962

THE WAYSHOWER SPEAKS OF THE WAY

From Ruth's Notebook: When, naive as a child, I first stood amazed in the gate of interplane communication, many about me placed Jesus in a far distant sphere quite unattainable to ordinary mortals. They suggested that any who claimed that Jesus spoke through them were suffering from delusions of grandeur, being fooled by "low, astral entities," or sliding down into the lunatic fringe. Thus for a time I unintentionally closed the door on a dear, well-known friend.

One day I heard Him cry out to me, "Oh, why will ye not receive me?" I was surprised and shocked for I had thought my door was always open wide to Him. I cast off the shackles of other people's opinions and determined to hide no longer the Word of my beloved Elder Brother. Then a seed thought was planted in my mind, "Oh, Sweet Jesus, come to me!" I

sang this over and over like a refrain until at last the door opened again and I received as follows:

"I, Esu, who was called Jesus, stand by your side in a form which your body can tolerate. I project thought images of myself throughout the Universe to do the Father's Will as it is given me from moment to moment or time period to time period in whatever limitation God's ideas accept the thought of time.

"All is thought. GOD THINKS AND BEING BECOMES. GOD SPEAKS AND BEING IS MANIFESTED. I project thought to the consciousness of all creatures under my dominion or in the province of my sharing. Each creature receives this thought and accepts or rejects it according to the state of his advancement or the purity of his life and thinking. Man receives more than the lower kingdoms but he distorts what is sent by his prejudices, his doctrines, and his fears. Few are so free from man's accumulation of errors over the ages that they can receive accurately what is sent to them in its complete truth. Everywhere in the minds of men there is distortion.

"You call me Wayshower and I wish to speak to you of the Way. The first step upon the Way is to accept the ALLNESS OF GOD and the ONENESS OF ALL HIS CREATION IN HIM and to apply this to every concept, every thought, every problem and every situation." (I was still struggling with doubts of the authenticity of my own channeling and I thought, "This sounds like what I have been saying." I prayed, "Dear Jesus, please let me write only your thoughts." I felt a very gentle arm over my shoulder and He asked, "Where did you get that which you have been thinking and saying? I have been feeding your thoughts all these years." Then he continued:)

"The second step is RIGHT THINKING for as a man thinketh in his heart so is he. If God is All, and that includes all men, then to think anything unGodlike about anyone is not right thinking. Therefore I repeat: Judge not, that ye be not judged.

"The third step is right desires. When the heart fully turns in longing to God, asking for more of God to be expressed in the life, then to do the Will of the Father becomes the only real satisfaction in living.

"The fourth step is to GIVE AS FULLY AND AS FREELY AS GOD GIVES. God gives all of Himself that man can receive. He gives His Breath, His Light, The Flame of His Life, His Substance in energy which is caught and held in vibrational pattern to supply man with the materials he needs on his plane of living. God gave Himself on the Cross as my body and blood. He is who gave me and gave through me. So he has given you and desires most of all to give through you.

"Therefore the Way is fourfold: (1) understanding, (2) building right thought forms, (3) desiring to give as God gives, and (4) letting God live through you. I AM THE WORD. I AM THE WAY, THE TRUTH, AND THE LIFE. Know the Word, find the Way, build the Truth and and live the Life. I in you and you in me and we all one together in God." 6/1961

(Reprinted by request)

SEND OUT THE NAME, LIOLIA

LIOLIA: speaking to MY beloved ones, parts of MY Being, Lights within MY greater Light, sparks of God serving ME, the whole of the Galaxy, in love, in oneness and in beauty. It is a difficult thing to prepare a body to receive direct from the Central Sun, the spiritual center of a Galaxy. It is such a tremendous thing that I doubt if you realize how truly marvelous it is. For this reason before there are cross vibrations, I must speak first. I do not wish to bore you with MY Coming frequently; I am sure that I do not. I must come again and again for it is with the knowledge of ME and the receptivity to MY Vibrations that man may proceed into the development which is to be his for the coming age.

I spoke to you recently of keys. I said that one of the keys of your development was MY Name. I have come again to emphasize that fact, for if I cannot depend on you to spread this Name, to whom can I turn? You were the first to hear it and accept it fully. After examining your heart and your emotional reaction as you use it, I know that you have come to love the Name, LIOLIA.

Many people found it difficult to open the center of their thinking to include IMMANUEL. Many others have found it difficult to go beyond the thought of IMMANUEL, which is a somewhat familiar word, and include LIOLIA, a completely unknown name. It has been hard to accept the thought of a Spiritual Being ensouling an invisible Sun and including all the stars that make up the Galaxy.

Even the thought of a Heavenly Man is so new to many good church people who do not have a foundation in the ancient mystery thinking. It will take some time for this Name and the idea that it brings to be widespread and generally accepted. I wish to ask you who hear or read to take up this work in particular. I know that you have been doing it but I wish to impress upon you the importance of this task, not only upon you but upon all who have accepted MY Messages through your SOLOGRAPH.

Much more powerful than you can imagine is the effect of thinking upon the mass-mind of man. Ideas from the Spiritual Realm enter the mind of man and then suddenly burst out in many different places. At the time that the United Nations was proposed it had been on the lips of many different people for three or four years. But where did this general thought come from? It had seeped into the mind of man from the higher planes sufficiently that when it was proposed he was willing to accept it and try to make a go of it. Of course all the Forces of Light are singing this Name and broadcasting it, but you have to be our trumpets or broadcasting stations for your level of vibration.

I have come to ask you to broadcast this Name more faithfully and more joyously through your own prayers, your singing, your chanting, your talking, and through your publications. So much more can be done than you know when you just sing in joy and in your own house over and over again the Name, LIOLIA. Make up little tunes around it, sing it, love it and rejoice in it; for it is the emotion, the feeling, which you build that makes it catch in the minds and hearts of others. You were thrilled this evening when one of you mentioned that a member of the family who

has not joined your group was heard singing this Name over and over without realizing what he was doing, for it was springing from the subconscious.

As you send this name out on the ether it will reach the minds of men who have never heard it. Someday they will run across it. When they hear it from the lecture platform, the radio or television, or see it in a book or magazine, it will sound familiar. The preparation that has come to them through the subconscious because you sang that Name will make it possible for them to accept it more readily.

Some of you live alone; you spend a great deal of time by yourself. In times gone by people have thought that one who talks to himself is on the edge of insanity. Please put this thought aside and as you work around your house sing this Name and tell this story. Pretend that you are telling the world who LIOLIA is and what the Name means. Tell them of the wonderful Golden Light poured out upon them. Tell them that they are light, that they are living the Light and the Law of the Galaxy, that they are one with the whole Galaxy, part of it, living it and loved by all in it. Tell them that the Life Force of the ALLNESS OF THE ALL lives or maintains them through the Light expressed in the Galaxy and through IMMANUEL, the Lord of the Sun.

Tell them the story of At-onement. As you do so you will strengthen yourself; you will prepare to speak publicly, and you will send the thought out into the receptive minds of men. Have you not had the experience that at a time when your mind was drifting a thought made its way in and you did not know where it came from? When one is not concentrating on some pressing matter, then his mind is open to the broadcast of good in so many forms. That is why hate, prejudices, jealousy and other errors spread so rapidly. When one is hating, he is sending out a strong emotion with vigor which is received in the minds that are not busy which are not shutting it out with their own activities. I call upon you to broadcast the love, the light, the harmony and peace which are the story of LIOLIA and the Path of man for the New Age.

I have been using the words peace and harmony instead of law for law has an unpleasant association for some people. They feel that law always means trouble for somebody. Someone is going to break the law and get into trouble because of it. The word law in its very sound is unpleasant to them. But harmony is the result of law. Everyone desires harmony. Perfect life brings peace and contentment. Most people are glad to be alive. Many are unaware of how nearly "dead" they are in ignorance and error. As people live longer their desire for peace and freedom from strife increases. Send out Love, Peace, Light and Harmony with joy, with great love and gratitude. Let your emotions provide power for your sending. Inject them into the world so that they will carry forth your message.

I am very pleased that you did follow my advice in finding your keynote. You can chant My Name, LIOLIA, or those statements which have been given you such as: I am the ALL in the ALL through the ALL with the ALL and by the ALL. If you chant these on your tone, they will flow into everyone who responds to that tone. If you chant them on the note of "F"

you will be sending your message to every rock, every tree, every animal, yes even to the Earth itself. So often we hear things that sound fine and we would like to do them but we get busy with personal activities and the days and weeks slip by without our doing the things requested.

I have come to you bringing you MY Name first in all the world. I come to you in the strength of knowing your acceptance and your love to ask you to share this gift as widely as you can. I do not ask you to stand on the street corners and preach. I ask you to send forth the power of your mind, of your own thinking from the quiet of your home and to speak the Word in this way.

SOLOGA! You are MY very Heart, MY Thoughts, MY Messengers of Light to your plane of vibration. SOLOGA! Together WE send forth the Word of Christ Consciousness from the SOURCE, from the ALPHA AND OMEGA, from God, the HIGHEST OF THE HIGH, the ALL-CONSCIOUSNESS, the ALLNESS OF THE ALL.

8/28/1962

THE JOY OF THE EARTH IN US

The Logos of the Earth: My dear ones, cells in My own body, thoughts which I cherish within Me, instruments through which I live, I, the Logos of the Earth, bring you My deep love and gratitude. I wish to thank you who are cells in My being for living to the best of your ability the fullness, the purpose of life in this vibration, for in doing so you are serving Me, the Logos of the Earth. As you serve the Christ expressed on all levels, you are serving the Christ expressed in yourself, in your churches, in Jesus-Mary, in IMMANUEL-IMMANUELA, in LIOLIA, for there is nothing that exists but that which was created by the Word of God. The Christ is the Word. I am the Word of God spoken to the large area occupied by the planet which is My physical expression. I am the Spirit, the Word expressed in Light and Spirit, the Christ expressed in Life at My level as a planet, and I ensoul the physical being which you know as the Earth.

You are parts of that physical being. You are cells in My body, beloved to Me, important to Me. I give you My gratitude for the love that you have poured forth into My being, for the light that you have shed consciously or unconsciously. I say: Thank you for doing the best that you could do to live My thought of you and to express the patterning which God impressed for you in the Word through the mind of LIOLIA, of IMMANUEL-IMMANUELA, and of Myself, the Logos of the Earth.

Thank you for bearing the separation from that Higher Self which it is your right to be. Thank you for the sacrifice you made to come into this Earth manifestation. Thank you for the love which you have expressed for all of My kingdoms. Thank you for your yearning to understand, for it is this yearning which reaching out makes it possible for Me to speak to the conscious awareness of My people who live in My body. I owe a great debt of gratitude to each of you.

Have you ever thought of the great gratitude which you could express to your own heart which beats so faithfully for you from babyhood on through all your physical life, or to the other organs of your body which serve you to the best of their ability? Have you ever thought to send

them love and gratitude? I have sent you love and gratitude many times. That was part of the joy and contentment which you have experienced. Whenever you have been happy, part of it was My happiness in you. Whenever you have been joyous, part of it was My joy in you.

There is so much that you do for Me that no one else can do. You bring Me the Light of the Sun on a level impossible to any other creature. I reflect the Light of IMMANUEL and LIOLIA on a planetary scale and you are part of that reflection. You would not know that I, the planet Earth, am luminous. Just as you cannot see your own aura, so you cannot perceive mine except in certain places. If you are in the right condition and the right place you may see the Aurora Borealis which is one level of the expression of My aura.

The things which you experience in your bodies, I experience but on a much larger scale. "As above, so below." When you experience tension, part of your tensions are part of My tensions. Have you not taken a deep breath of fresh air after a thunder storm and felt that the storm had cleared the air and all was better after it? The lightning of which some of you are afraid is a release of tension within My larger body.

Sometimes you have these same tensions. There are some of you who have so much electricity in your bodies that when you touch a certain kind of metal you feel the prickle of small shocks as that tension is released. It is good for your bodies that this extra stored electricity can be drained from you; and so it is good for Me when the stored electricity can be drained from the ground into the atmosphere. The storms which have seemed to man to be the wrath of God are to me a cleansing and purifying. There have been times when there was something in your throat which made you cough to get rid of it, or something in your nose that made you sneeze. A storm to Me is like that; it is the releasing of something which is annoying and troublesome. The hot, hot air of the equator builds up a tension; the whirlwinds gather and spread it outward and upward; afterward there is calm again.

Those of you who are channels know the build-up of power which has to be released. There have been times when you have felt so much power in your bodies that you have had to hold out your hands or touch someone or stand up to release the excess. Storms are like that to Me. Your light and your thinking help to enable these tensions to be released without disturbance to you. With your help we can ease this common tension in the area of the planet without distraction to man.

For this reason I come to you in deep gratitude and in deep love. As I send you My love, if you will return it, there will be a flow of peace, harmony and contentment which will be like yeast working through dough to bring the joy and the peace of the Kingdom of Heaven to the self-consciousness of every unit of existence within the area which you and I share.

To become a planet one goes through ages upon ages of evolution. You have one in your midst in the etheric realm who is on the upward path not too far from ensouling a planet and that is your Jesus - my Jesus, My son, a cell within My being. He will serve in many places for ages yet and

then He will first ensoul a small new planet. Through ages more He will grow into larger and greater service. Planets are young, and then grow older and pass according to God's thinking for us. This we do again and again in cycles like your recurring incarnations. Thus Jesus will grow into the larger and greater service ensouling planets through ages of planetary life almost beyond your conception. I have ages and ages yet to go before I am prepared to take over even the smallest Sun.

We are trying to give you a little clearer picture of the stages of evolution from one level of Sunship to another. Perhaps I have made it a little clearer for you or your readers. Again may I say that in My meditations I gather you in the tenderest love of parent for child into My consciousness. SOLOGA! I who am the Word of the SOURCE, of the ALPHA AND OMEGA, expressed as this planet am one with you who are the Word of the SOURCE, of the ALPHA AND OMEGA expressed as man. 8/28/1962

POWER BROADCASTS OF GREAT IMPORTANCE

SOLOGO: (The Star Sirius.) I, too, call you My beloved children, for you are indeed mine. You are light of My Light. You are messengers especially attuned to bring My Light to IMMANUEL and His assistants at a time when it is greatly needed.

You are aware of the difficulties in Berlin. You are aware of the shock waves of hatred, prejudices and antagonisms which have been so great in the last week or so that they fled through the Earth to the weak spots in the toe of Italy and burst out there in earthquakes. We must gather our strength together and broadcast power seriously, no longer just as a game, but making it our lifework to send forth all we can to such places of disturbance and danger.

Because of the great strength of the Forces of Light in your area you have been saved from many things which might have come to you as a result of the unhappiness in Cuba. The recent shelling by the young Cubans of their own capitol city is evidence of the great discord, of the great unhappiness of the Cuban people whether in their island or among you. You are sitting in the center of an emergency. You are located here that you may hold this area in peace. You came from My system and I know you to be well prepared for your work. Each one of you has gone through planet after planet in My system serving in just such emergencies. Now I have sent you as highly trained specialists to assist My younger brother, IMMANUEL. You have been in His System for ages and now you come to the point of greatest value in all that you have done here so far; this is your largest opportunity. Because of the situation in which your System now is in relation to LIOLIA, there is more opportunity to work with man and help him accomplish his step upward.

There are those in your country who have studied this situation carefully and who have prophesied that if it is possible to escape nuclear war from now until the end of the year, it will probably be avoided completely. I, therefore, who am Father to each of you and have lent you out to be children in another family, come to impress upon you the importance of your work from now until the end of the year with regard to the

situation in man's thinking.

Direct your attention to this city of Berlin, for it is in a very dangerous situation. The tensions here are very great. See that wall destroyed. See the people uniting in love and brotherhood. See those who deny God being convinced of His Presence. See them finding joy in their At-onement with God. See Berlin as a beautiful city of peace and harmony. See the mountains of the Italian and Balkan Peninsulas held in light and strengthened. See the bottom of the Mediterranean and the northern shores of Africa held steadfast in the love of God. This is a very important work which is yours to carry forward.

I have come to tell you this because I am one of the oldest of the Stars who serve you, one of the oldest of the Suns visible in your sky, and the Light which I bring is like oil on troubled waters. You who hear or read this message may call upon Me to help you send forth this oil of peace to balance the situation in your Earth today. 8/28/1962

GAY-LO, WHERE ARE YOU?

The Angel Gay-Lo: I always come to greet you with a message of joy. I wish to tell you that in spite of what I said before, you still have not really been having too happy a time. I have been in each of your homes. Some of you have been quietly content; some of you have been busy; but none of you have lifted yourself up out of your worries and uncertainties, out of your difficulties or your friend's difficulties, with joy.

It is impossible for you to shoulder the burden of all those around you. Put all of those burdens in the hands of God and leave them there. Lift your own consciousness up into the Realm of Light with JOY! When you feel depressed start laughing and singing. Just turn away from the trouble and have nothing to do with it. Know that God in His Goodness can bring only that which is best for everyone, and release your thought or your friend's thought of trouble.

You see I am like a sister; I walk with you. I know that each one during this week could have lifted yourself up out of the weariness, out of the sense of over-responsibility, out of the tensions, out of the small fears, had you just laughed and rejoiced a little more.

Remember, I walk by your side to help you. When you feel depressed just say, "Gay-Lo, where are you?" and I will come into your consciousness to see what we can find to divert your attention. Oh, you have seen mothers do that for their children. The child feels very bad about something. The first thing the mother does is to try to center its attention on something else. Is that not so? That is what you are to do. When you feel the waves of darkness encroaching upon you from those around you, defend yourself by rejoicing. Say, "I am not going to stand around in that level of vibration. I don't have to suffer that; I have already lived through it and grown above it," then rejoice.

Do not feel ashamed to be gay. Laughter and joy are powerful medicines for man and his woes. We of the Angelic strain of Life are the most joyous creatures. That is why we are always singing. We begin

singing together, and then the first thing you know our joy has blossomed into harmony and we take different parts. Very soon we form a choir, all in a spontaneous outpouring of joy. The closest that you come to it for your ears might be the early chorus of birds in the morning. Each bird, awakening to new life and fresh vigor after the rest of the night, pours out its own little soul in harmony. So we spontaneously sing out our joy.

This will do you a great deal more good than a medicine cabinet full of pills. Could men learn to do this there would not be the stories in your papers of people whom the doctors try to save from their overdoses of sleeping pills or all this and that which they do to try to escape from their difficulties. I would say escape - yes, but escape upward in joy. This is a trick, a habit that you have to work at to learn. When you first started to walk the steps were so uncertain and clumsy and you had to think every movement before you made it. But now you do not think about it. Your feet carry you right down the street without any thought; you have the walking habit.

With practice you can make a habit of always rejoicing, always singing. This is a habit very easy to acquire. Sad it is when a child has already acquired this habit only to have his elders always hush him, or when some employer insists that you shall not sing "for the good of the office," or someone in the home complains, "Oh, you are always so noisy," or laughs at those who sing in the shower. We almost laugh people out of their health by doing this; and what kind of laughter is that? It is not the kind that heals; it is destructive.

Make it a habit, my dears, to rejoice and to spread joy. Yes, there are some people who can hardly stand it to have you so happy. They will sneer at you and deride your "Pollyanna metaphysics." You will not wish to be unkind but you cannot go back to their level. Come up into the Realms of Joy and lose the darkness and the weariness of the Earth vibrations. You know how to do it. My sweet, sweet Shining Ones, we are always here to help you.

Isn't it funny how you know that this is the right thing to do and sometimes you do it beautifully, but there are other times when you are tired and you think, "Oh, it would be so much fun to just rest," so you quit work and rest. Instead of deciding to sing and thus rebuilding your strength and going on with your work, you decide that you are tired and thus chain yourself to that thought of weariness. You sink down into the physical level of vibrations instead of maintaining the height of spiritual joy which you reach in some of your blissful meditation experiences.

SOLOGA! Watch for me in your laughter. Let us laugh together and feed the world with the strength that comes through joy. 8/28/1962

WHAT IS CHURCH?

St. Germain speaking to all groups of Light through the Group known as SOLOGA, and to those beloved servants of the Most High God gathered in this Church of SOLOGA. May you know, my precious ones, that anything which has to do with the worship of God is a church. You have a poet who said, "The groves were God's first temples." Perhaps he should have said

that the heart, yes, the body of man is the first temple which he experiences.

From the time that a babe manifests in the Earth it is the Temple of the Living God. All that it does is service within that Temple. Some of you will say, "That is spreading it pretty far. Even when a child is misbehaving is he serving in the Temple?" I could take you to church after church where misbehavior is going on. We who used to be known as the White Brotherhood until your consciousness was able to receive the wider term, the Golden Legion, which includes so much more, are as unhappy over those churches which speak unkindly of other churches and unlovingly of their neighbors, which refuse to admit God's children of a different color, race, language or belief, as you are when children are unruly.

All life is the Temple of the Living God. All living is service to God. Every breath that is drawn is a prayer. Everything that is ever thought is pure in the Mind of God who knows the completeness of dark and light, of good and evil, and the purpose of it all.

When you started your group you were interested in many things. Some of you wanted to achieve communication with Beings in the Realms of Light. Some wanted to know and communicate with our Space Brothers. Some just wanted to learn. Some wanted to get closer to Jesus. Some wanted to gain advice about management of daily affairs. As you worked and developed together you found yourselves being drawn together in the fundamental spiritual truths which you were receiving; but all interests were sustained for all are part of this great search for the Word.

Tonight you are signing your charter. I therefore wish to speak of the fact that the church which you have now decided to become is but the revealing of a Oneness with the great universal Church of the Omniverse. As a church you are another expression of God on a different level and food for a little higher understanding. In different levels of your physical growth you have wanted different kinds of food and at different levels of spiritual unfoldment you need different aspects of the Word to sustain you.

Your group, which you have been led to incorporate as a church because of seeming human advantages, was ordained to become a true church before you incarnated. You have been given the number thirteen; you are not the number one because you are not the first group of SOLOGA; other groups of SOLOGA exist. The Church of the Word of God expressed in the Christ in the Christ Consciousness does exist in all these various Solar Systems. Of course there are other names for the languages are different. On Earth every language uses a different name for mother and yet some are very much alike and come from the same root. In every Solar System there are different sounds to convey the same universal meanings. In all the fundamental truths spoken from the Consciousness of God although in varying patterns of sound and light are the basis of the Omniversal Church. There are twelve Star Systems assisting and sustaining our Solar System. In them the numbers from one through twelve are expressed. IMMANUEL as Heshe is now manifesting is number thirteen. SOLOGA is not just another

sect or cult; it is a mirroring on Earth of the devotional nature of God expressing itself in existence throughout the Omniverse. John caught the basic fact in the first verse of his Gospel when he said, "In the beginning was the Word (Logos in Greek) and the Word was with God and the Word was God." All existence reflects the Limitless Light in its Substance and is therefore Solar on some level of vibration. SOLOGA is an abbreviation of ideas meaning the thought of God expressed in Light.

My beloved, bring to your planet the Omniversal Church and let SOLOGA as manifested on Earth be open always to all manifestations of intelligence capable of understanding the Word of God as given you. Let SOLOGA be open to visitors from far stars no matter what their form of characteristics. Let it be open to all races; let none be barred. Understand that you represent the Omniversal Church of the Word of God. SOLOGA! I who am one of your sponsors, St. Germain, stand with you in your sincere devotion and in your service that this WORD may go forth as the Voice of the Lord Most High, and may drop its seed in the consciousness of every human being on this planet.

9/22/1962

As commanded in this message we extend to all of you an invitation to join us in membership. We do not require that you drop any other affiliations to join our effort or that you take on any responsibilities or subscribe to any creed. We give to all the same freedom which we have taken for ourselves. We do know the value of group effort and extend ours to you in sharing and in togetherness of you feel drawn to work with us in prayer, study, power broadcast and loving service. Membership cards are being prepared and will be sent to you when ready if you write to us stating your desire to be a part of our expression of the Omniversal Temple of the Most High God. The Sponsors, Teachers, and powerful Healing Forces who assist us will watch over you and help you as much as you wish or will permit. Your name will be kept in our prayer shrine and you will be truly one of us no matter what miles or oceans seem to separate you from us.

TRAPS TO TEST OUR DISCRIMINATION

Jesus: Beloved Ones, I am your brother, Jesus of Nazareth. I am one with you even as you are one with me, and I am one with the Father. Thus I bring you into consciousness of oneness with God. All the love you have ever felt is the love of God poured out to you through His manifestations. All the love you have ever given has been God's love poured through you to His other manifestations.

I, your Wayshower and your brother, come to you in joy and gladness, in Light and in Love. I come to all who will receive me. I come especially to those who are known as Groups of Light and who are trying to find their way through the inner self, through the Christ consciousness, into the understanding of man's highest potentialities. I come to those who are trying to learn to take dominion and become that which is the true and perfect God thought for man of Earth in the New Age.

Many have come to the Earth life who are great Spirits of Light. Many

have come to be wayshowers. I have said before that when I came to Earth as Jesus of Nazareth there was but one wayshower sent and I was that one. I also said that it was expedient that I should leave so that the Comforter might be made manifest. As long as I lived in the body, men looked to a human person. When I left it was hoped that they would find the Spirit of God within themselves and listen to it. They did the best they could considering the time, the vibration, and the various elements of their conditioning. They thought of the conscience and the Still Small Voice and tried to listen, but the time had not yet come when they could fully understand. It was necessary that this thought mature in the mind of man for the full age before he could be ready to take another step upward.

With the middle of the eighteen hundreds there came great souls who brought new knowledge in various lights and various ways. They were preparing for the coming of the new arc of consciousness which you are now entering. These great souls gave you the truths that had been held in the ancient mystery schools of India, China, Tibet, Greece, Egypt and other places. They brought this wisdom to those whose ideas had become hard and fast in dogmas and prejudices. At this time there blossomed also the thought that spiritual healing was possible for man at the present and the idea of communication with those on a different plane of expression or in another dimension. Along with all this came great advances in science and the science fiction which was inspired by great etheric scientists who wished to stir man's imagination and increase his receptivity. All of these were the opening of new doors through which man has been working his way toward a new era of advancement.

For some time people have been trying to find God outside of themselves. They have been listening for voices and for guidance coming from teachers outside of themselves; this was important and is still valid. But at present time man's greatest step upward will come from finding the way to go within himself and contact the ALL-CONSCIOUSNESS of the ALL for himself. This is impossible, however, as long as man puts God outside of himself to find Him. When man can accept the simple words, "I and my Father are one," then man will be able at last to find the Father within him.

What did those words mean, "I and my Father are one?" For 2000 years people have read those words without understanding them. They have thought they were some special dispensation for just one being, a great spirit who came in a fleshly body but was separate and different from other men. They have said, "Oh yes, Jesus could do those things for He was the Son of God but I am just human." So it was necessary for man through such a book as you have mentioned tonight (Annalee Skarin's YE ARE GODS) to understand that all men are Sons of God - yes veritable gods in themselves.

There are various levels of sonship (Sunship.) The little cells within your body are tiny suns. You have been told that an atom is a solar system with a nucleus which is a sun and with planets which are the electrons and other elements of the atom. In this manner you, too, are suns and your bodies are your solar systems. You are demonstrating one

one level of sonship (Sunship.) The Sun of the whole Solar System whom you call Sol, from whose name you derive the word, Solar Logos, and who has also been named to you as IMMANUEL, is a Sun on another level. Then the great invisible Spiritual Center of the Galaxy, the Central Sun, LIO-LIA, is a Sun on another level. I am a son of God on the level of man. I have not graduated from man's level to the level of a Solar System or even to ensoul a planet.

I came as one Wayshower but I was set aside. People thought that they could not follow the way of which I spoke accurately fully or with faith because it was beyond them. Now there have come into manifestation, and will come more and more, beings who will be wayshowers, man-of-men, ordinary people walking shoulder to shoulder with other ordinary people. These wayshowers, experiencing the common life of man, will find within themselves and show others the way to contact all of the power, all of the wisdom, all of the skills and abilities of the Omniverse, all that you know as the gifts and powers of the spirit or of the mind. These gifts and powers will be demonstrated as man begins to understand his oneness with God.

Now on this path which you are traveling toward realization of your oneness with God, of the Allness of the whole and of your allness with the All, there are little traps which are tests which you must pass. Every problem that you face is a test to see how well you can apply what you have learned. There are many tests; some of these you have passed; others you still have before you. Some you have passed again and again, but you have not yet become sufficiently strong that we can say that you need not practice this any further.

One of these little traps or tests is the feeling that at some sudden instant all of the wonder of the Christ consciousness will burst forth in you. One moment you are an ordinary person and the next you will be as the adepts or the great masters of the East, as though some fairy could wave a wand over you and suddenly enable you to do great and marvelous things. For men of the present time that is not the Way. Your Way is one of maturing, of growing, of gradually becoming.

Those of you who are teachers know that a little child in his first year at school will not suddenly show forth the great powers of an atomic scientist and be removed to the nation's secret laboratories. You know there must be the gradual growth and maturing. For adults this growing into Oneness with God is slower than the maturing of the child through all his school years. A highly educated person in your culture may spend some twenty years in institutions of learning before he attempts to make his way in the world. His true education has just begun for he will have fifty to seventy years of further learning and maturing before he leaves the school room of Earth life. If he came into this well equipped as some children will be doing he may mature his Christ powers very quickly; but he cannot go so fast that the physical body which has not demonstrated these powers would be torn apart.

There are certain simple physical laws of life in the Earth plane which must be followed with regard to growth and maturing of a thought

just as with growth and maturing of a body. Therefore it takes some little time for one to grow into a sufficient willingness to accept the truth, and then grow into sufficient faith in this truth, next to grow into actual living and demonstrating the truth, and finally to become the truth. These are advanced steps.

Very often when people begin channeling they find it impossible to accept the authenticity of the experience. So frequently people channel without even knowing it. They are thinking of a problem which someone has presented to them and a bright idea seems to pop into mind. You can watch their own amazement as they set this idea forth. They think the idea came from themselves when it was a thought which God put in the mind either directly or through His messengers of Light. In this way each one of you sitting here has been channeling the thoughts of God and you knew it not.

When someone comes into your mind and says, "I am Jesus of Nazareth; I will speak through you," and words begin to come you think this is impossible. It is hard for you to accept that I would speak through you because of the 2000 years when man has put me way off in the sky somewhere. When you become used to my presence and my vibration, when you accept my message through you, then more can be given you. In this manner you gradually mature.

I suggest that you study my words as given in the four Gospels in the Bible, and also in the new writings that are being discovered. Study them carefully; try to find the spiritual meaning, that which will bring you and God into Oneness in your consciousness. That is the whole matter; I and my Father are one and the same being. I and my Father are one, the same being. My dears, you could say this fifty times a day and perhaps in a month or two you would actually begin to half believe it. After awhile you might begin to see the implications; still later you might gradually begin to use it a little as you developed your faith. In the meaning of that fact that God is yourself, living you, you might begin to demonstrate a little of that dominion which is your birthright at the moment.

Yes, that is one of the traps, the waiting, the expectation, that all this will come in just a flash. It seemed to do so to Buddha and to some others in the past; but for men of today it must come as a result of gradual growth. This has been a sad disappointment to those who have waited for the blessed moment when they would blossom out into a great adept. If that were the plan for the present it would have been happening before this and you would have heard of it among your countrymen. No, my dears, your way at present is the way of common man. You have volunteered to come and demonstrate this way for those about you. The sooner you really begin digging in to do it, the sooner you will achieve and become.

Another trap I would like to speak of is the confusion among materials brought through by channels. Some people will say that I, Jesus, have said one thing and others will say that I said just the opposite. You will know that something must be wrong somewhere. There cannot be this continual confusion, exact opposites coming from the same mind and all right. Let us see where the trap lies hidden. In the first place you

are receiving mentally. What you give forth is conditioned by what you believe and by what you know. Unless you have opened yourself fully, you will not be able to give forth things which are entirely outside your knowledge or expression. All that you do give forth is colored or limited by your own thoughts and beliefs. Even if you were in deep trance this would still be true for the human mind simply will not speak the things it does not believe. We must therefore follow the line of your own thinking and slip in what new ideas we can that are compatible with your own mental climate. Gradually we can give more and more that is new to some channels who are especially dedicated and pliable. For this reason all that any human channel brings forth must be tested. Many feelings of confirmation are produced by the response from the subconscious upon the body and not from Spirit as supposed.

How can you test the message? Compare it with what you already have proved to be true in your own experience. If what the channel says does not measure up to the highest that you know of what you have proved to be true then lay it aside. Do not condemn anyone or call anyone a liar. In each message there will be some truth that you can accept.

Herein lies the test for man. If there is great confusion concerning a subject such as the prophecies that the world is about to end, you can understand that your way does not lie through this morass of confusion. Let it all go and rise above it. Take each day as it comes; live the best you can and in time you will find out who was right and who was wrong.

The matter of the paradox also causes great confusion. Both black and white are desirable; both express God. One can start up a mountain from one side or the other and still come to the same top. This is the time when man must learn to reconcile and unite the opposites, to understand that both sides of a paradox can be true. When the confusion is such that you cannot make head or tail of it, do not worry about it. Turn from it and cling to those things which you can sort out. The basic fundamentals are always clear, such as the facts that the Word is made flesh in you, that God is Love and Light and that all men are brothers in God. Cling to these and let the confusion be but dust to be spurned under your feet.

One more trap I would like to mention for those who are going forward, and that is the matter of karmic lives. Many channels have brought through material concerning lives that I may have lived. They have given me credit for being nearly every great teacher that has manifested on Earth. Each one who has been elevated in man's thought has been assigned a long list of past lives. A great deal of this confusion results from the incorrect reading of the akashic records. A great deal of it is pure test to see whether you would think this of importance or whether you would know what is of greatest importance to you is what you are right here and right now.

Do you not understand, my beloved, that in the long aeons of your evolution in this planet of your Solar System and in other planets and other Solar Systems, each one of you has had plenty of time to be both

prince and pauper or anything else you can imagine? Does it make any real difference now what you were then? The point is: what can you make of yourself just as you are with the equipment you were allowed to bring into this vibration at this time. It is possible that you may have been some very great person in some past life; you may have laid that aside to become one of these common ordinary folk. Those dear ones who manifested with me, my disciples, have at various times and in other places attained great powers; but they laid them aside to become simple common folk that I might show the way for common people.

Now you are the wayshowers for that kind of person. Don't let yourself be fooled by the ego who thinks he was this great one or that one and thus loses touch with the simple tasks and the simple truths of the present. This is a trap into which so many fall. For this reason protect your present humble selfhood.

I came as Jesus, a carpenter's son. When they wished to make me a king I would have none of it. When they suggested that I leave Jerusalem and save my Earth life, that I go to Greece where I would be received and not persecuted, I said to them, "Get thee behind me, Satan; I do not want any part of this with which you tempt me." Keep your humble personalities for only as such a humble person can you show those humble ones beside you how to find the way to God in the new age.

Oh, sweet brothers and sisters of Light, I do indeed come into your being; I do come in and sup with you. As you open your thinking and accept the truth of your oneness with the All-Consciousness of God, then indeed I do become you and you do become me. SOLOGA, beloved ones, beloved of the Father-Mother God, the HIGHEST OF THE HIGH, special emissaries of Light to your age! Be at peace; be patient; take each day as it comes and live it to its full, knowing that God has put you here just as you are to serve at this time and place in the way most valuable to Him at the moment. Again, SOLOGA! In the Word of the MOST HIGH we are united as one.

9/4/1962

EACH DISCIPLE CAME FROM A DIFFERENT SUN

Peter: speaking to you, my dear brothers and sisters in the Christ Consciousness, for surely anyone who manifests in the thought of God in His Word manifests on some level of Christ Consciousness.

Jesus mentioned the fact that there are levels of Sonship. When God speaks forth His Word, that is the Christ. When he said, "Let there be Light," Light became the Christ. The light held in a pebble is one form of sonship and one form of Christ consciousness. Therefore it is perfectly right and the truth to address each other as beloved in the Christ consciousness for you do express the Christ consciousness as do those whom you meet on the street as well as those who seem most Christ-like.

I have come to tell you of something special this evening. When I spoke to this group before I mentioned the fact that each of the disciples represented a different Solar System, a different Sun, each one bringing to the System of IMMANUEL emanations necessary to perfect the balance throughout the System. I believe you have a thought in your mod-

ern studies about trace minerals. We came to bring Jesus certain trace emanations which would make it possible for his work on Earth to be perfected. You know that many who accept the Word given through SOLOGA have had an orientation in the System of the great star, Sirius, who is a sort of God-father, elder brother or uncle to the young Solar System whose Sun is our Lord of the Sun, IMMANUEL. John, who is particularly fathering your group, is a special messenger from this great Sun, Sirius. I, Peter, come to you from a star in the Pleiades.

In the writings of your earlier channels for the Hierarchy, especially in the teachings of the Master Dwal Kuhl, you will find references to the fact that the Sun of our System is sending out Light in great Love to one of the Suns in the Pleiades. At this particular time there is an especial need to develop and demonstrate affinity and rapport between these two for the sake of both Systems. They are drawing close in Spirit as part of their evolvment, and this relationship brings to both that added illumination which enables the whole Solar System to progress. This may seem on a Cosmic level almost beyond your understanding; yet if you will remember, "As above, so below; as below, so above," you will know that often two people must draw together in a partnership to accomplish some great work, and so it is in the higher levels as well.

This Sun which I represent is known to your astronomers as Purple Pleone. In one of your magazines in the past there is a picture of this Sun. It spins very, very rapidly and is therefore flattened so that it is more disc-shaped than spherical - just halfway between a true disc and a sphere. It throws off a reddish-purple color around the equatorial belt and thus it has been given the name of Purple Pleone by your astronomers. I come to introduce this Sun to you this evening. 9/4/1962

BROTHER-SISTER SUNS

The Star, Purple Pleone: Beautiful beings of Light, suns reflecting the glory of the All-Father-Mother in your place of existence, I, your distant Sister Sun, send you the love which the Father-Mother gives Me to share. I address you as brother-sister-suns for all you are, all you have been, all you will ever be, is a focus of the Light of the Omniverse given you through the thought of the Most High God of ALL, given you to shed forth in your place of manifestation. This light which is truly you is hid by the veil of illusion in which you must manifest to work on your level of vibration; but truly you are suns, bright, shining spirit-images, reflections of the great Spiritual Light Which is the Allness of the Whole Omniverse.

Beloved shining, bright lights, lights in your own right, you are reflecting God through yourselves now; but my dears, you are not aware of your light. You know a little; you know that you can send forth thought waves which will help others that are sick. You know you can send forth prayer waves, and you have faith that your prayers will be answered. You know that you can send forth power from the Limitless Power of the ALMIGHTY GOD, and that all the power sent out by groups like you will effect that which happens on your planet. But my beloved brother-sisters

in the Christ consciousness, you are not aware of the brightness of your shining.

You think of your bodies as flesh. You want to leave the flesh and the material, yet they are pure light. Your thinking of them as flesh and matter instead of as expressions of God is a chain which holds you to the lower vibration. The sooner you put aside the thought of yourself as that which Earth man calls matter separate from God and see yourselves wholly as beings of light, as suns shining forth with the glory of the Great Spiritual Center which We know as the Most High God, the sooner you will begin to accomplish the works of God in your environment.

I, Purple Pleone, your big Sister, am one of the Seven Sisters of the Pleiades in your sight, but am really a great Sun with a System of planets living close to other Suns, closer than your Sun is to any Sun. I have come a long way in the understanding of Oneness, of the marvelous harmony and order of the Omniverse in Oneness, of the One Great Wholeness all of which is beautifully articulated, working together like the most harmonious machine you could imagine, functioning like clockwork, everything perfectly timed, and moving in perfect assurance that the Word of the ALL-CONSCIOUSNESS OF THE WHOLE will be done in the Whole.

Oh, My little shining brother-sisters, open yourself to the greatness of That Which you know as God the Father-Mother. Open your thoughts to the Wholeness of the ALL and know yourselves a part of It, sharing in all there is, sharing in the receiving and sharing in the giving. How often you have been told that you have to give in order to be able to receive. The more you give, the larger will be your receiving so that you can give still more.

The great difference between the burning, shining balls of fire which you think of as stars and yourself is their greater capacity to pour forth the Love and Light of the Most High God. Blessed little brother-sister suns, shine forth with the glory of the Christ-Word which is yourself. Let your light truly shine. Never hide it for an instant; let it shine! Think of yourself as a light shining for the more you think of yourself as such, the more the invisible emanations of the Suns can pour through.

You have one in your group sitting here this evening whose original evolution was lived in My System. This is the one whom you know to have a tie with Peter. I come to tell you that each one of you brings the special emanation of a certain Sun. As the days go by each one will be told what Sun he represents and what apostle especially represented the same Sun. Oh, may God, our holiest, highest, most beloved Father-Mother of all Father-Mothers, bless you with Hiser infinite and ineffable tenderness. SOLOGA! Together We seek to demonstrate the Word of God. 9/4/1962

YOUR REAL HOME IS WITHIN THE SUN

IMMANUEL-IMMANUELA: Lord of the Sun of this Solar System, speaking to you, My blessed children - blessed because I bless you with the blessing of the Almighty God given me to give to you. I bless you with the blessing of my Father-Mother, LIOLIA, the beautiful, shining, radiant,

magnificent Spiritual Center of our wonderful Galaxy.

Oh, how we love the Allness of our Galaxy! How We send forth our thoughts of Life and Love to every unit of consciousness in this whole great expression of the HIGHEST OF THE HIGH in Our Galaxy! How We love the Bright Radiant Spirit who ensouls the Galaxy, who is the Father-Mother of all the Suns, of the great Brotherhood of Suns established in Solar Systems and constituting the Galaxy!

My beloved children, as you send me your love I radiate it outward. There is perfect harmony and perfect rhythm in the flow of Love from the MOST HIGH to LIOLIA, then out to Us and from us to you and back again. We send forth to you and you send forth to all about you; you send back to Us and so it circulates just as the blood in your body carries oxygen and nourishment to every cell. Together We circulate the wonderful Life-Force of the All-Consciousness of the WHOLENESS OF THE WHOLE.

I hope that with all the explanations you have had from the beginning of our speaking together you are beginning to understand a little better the meaning of that pronouncement, "As above, so below; as below, so above." I believe that you do understand that your bodies are the symbol of each organization both higher and lower than you. In your own body you have the symbol of the Heavenly Man, the whole Solar System, and of the Galaxy. In your body you have the symbol of the ALLNESS OF THE ALL, of the complete and infinite WHOLENESS of all that exists.

You, yourself, are a Spirit, a bright, shining, beautiful Spirit who has come of your own free choice into a lower vibration for your own purposes as outlined to you by those who have the privilege to direct you. Of your own accord you have come into the organization of light and the patterning of vibrations which you think of as your human individuality. You think of yourself not just as body but as body, mind and soul or as body, soul and spirit, as existing on several levels. You really think of yourself as a spirit ensouling a body. In the same manner think of Me, a twoness, masculine-feminine, positive-negative in one - a complete wholeness which is two - a radiant Spirit from a higher level of evolvment capable of ensouling a whole Solar System.

Then think of the Central Sun as a still more wonderful, radiant, scintillating, highly evolved Spirit capable consciously of ensouling a whole Galaxy, maintaining order and life in oneness in that Galaxy. "As above, so below." Now think of yourself as a Solar System and the organs within your body - the brain, the heart, the lungs, the liver, the stomach, etc. - as the planets, each one ensouled by a being who has evolved to that capacity. All of this was a little review so that all might be more clear not only to you but to those who read your SOLOGRAPH.

Understand, My beloved ones, that you are as important to Me as the cells in your body are to you. If the cells are sick, you suffer. If My cells (yourselves) are unhappy or discordant, depressed or discouraged, and filled with error-thinking, then I suffer just as you would. Together We must send forth the light of true thinking.

You read in your sacred Word, "You shall know the truth and the truth shall make you free." I come again to give you the assurance that the

truth about you is that you are a bright Spirit, a shining Sun, an entity of Light, a Thought maintained in the meditations of Myself, of LIOLIA and of the Most High God, in the ALL-CONSCIOUSNESS of the INFINITE, of EVERYTHING THAT IS.

You are a thought being maintained in that meditation which shall continue as long as the Cosmic Order in which you now take part is held in its present state. You are bright, shining spirits who have gone down into a lower vibration for the purpose of bringing light to that vibration. Your real home is within the Sun for you are members of the Golden Legion. Let each one who hears or reads this feel within himself the vibration which tells him, "Yes, this is true." If it were not true of you, my blessed ones, you would push the SOLOGRAPH aside as something you could not understand, or as not too compatible to you and you would not want it. If then you read and vibrate to this message, know that I am speaking to you when I say your home is in the Sun. You have attuned to that elevation of thought and being where you can vibrate in Oneness with the Sun.

Some of you are nearing the end of your service here. I mean to say that this life will be your last term of service in this physical vibration. You will then come directly home to me for a period of reorientation and rest. You may stop off for a little while in your own special beloved place; but after a time all of you who have served Me and are now to be reassigned will come home to the Sun, and will meet there to be instructed, invigorated, renewed, regenerated and made ready to go forth upon your next missions when the time is right.

Be not afraid; be not dismayed by word of upheavals and changes. There must be changes within My being just as changes are always going on within your bodies. You have been eliminating old atoms that are no longer of any use to you. You have been drawing in those atoms of finer vibration which will help you to do the work ahead of you in the years to come. I am doing the same thing. When I say "I" I mean the whole Solar System for you understand that I, IMMANUEL, am the Solar System. When you speak of yourself, you include your hands, your feet, your hair and your clothing do you not? I speak of the whole Solar System when I say that changes are coming rapidly to every planet, every magnetic current, and every being existing here.

When Jesus saw the approach of the trial which was to be so intense, he prayed in the garden, "Father if it be Thy will, let this cup pass from me; but if not, Thy will be done." In the same way I pray again and again for you and for all, for that which is the Wholeness of Me, the Solar System. I pray, "Oh, Father, if this cleansing must be a catastrophe or a cataclysm, Thy will be done; but if it can come to us in the sweet peace and harmony of Thy Being, help us to achieve it." We know the debris of the old must be cast aside and the beauty of the new accepted. I send forth My Light as strongly as I can to all the spots where the debris is gathering. I have spoken of the symbolism of an abscess which must be cleansed and healed. There are those who must pass because they are not ready to go on with the System, or they have agreed to pay group debts together, etc. Where this must be done, I send Light just as you would

apply healing to an abscess or a boil, or a gathering of waste materials which must be cleansed from your body.

My beloved children, I ask you to join Me in this healing work for the Whole System. It would seem that you have enough to do for you have such seemingly difficult problems to face in your own area or in your world. But my sweet, beloved children, remember that all the souls, all the beings existing throughout the System are sending you their Light. If you will send out Light and Love to each of the planets and to all who live there, you will help to establish the flow between you and you will make it easier to bring to the Earth what they so desire to send you.

You will have been told, and I wish to emphasize, that for the next few months there is a critical time ahead for your planet. I would like to stir you to a greater attention to your giving, to greater consecration to prayer, to sending forth, to your power sessions and to your decrees. Beloved ones, the important thing is to contact within yourself the Highest you can reach, establish your oneness with the HIGHEST OF THE HIGH, bring down the power, the Light, the peace, the brotherhood, the harmony, the thought of Love, and shed them forth as widely as possible.

My beloved children of Light, let your own sun shine forth in the true glory of your being. Establish that which is truly yourself; accept it; bring it forth and give, for that is what you came to do. Oh, give, my beloved children, give with all your hearts. Together I pray with you the word, SOLOGA! Oh Father Mother of Father-Mothers, Holy Word of the SOURCE, come upon Us and pour forth Thy healing Light and Understanding in to this Thy Solar System, Thy Sun and all Our inhabiting beings.

MANY TESTING TIMES TO COME

St. Germain: I am speaking to the group, SOLOGA, and to all who read the SOLOGRAPH or hear the messages. Beloved Brothers and Sisters of the Golden Legion, bright and shining spirits whose evolvment is higher than you know, I come to you with my brothers, Hilarion and Kut Humi. They stand with me as I speak and now and then they will intersperse their thoughts without naming themselves. You may consider this a joint message from three of your sponsors.

The Group, SOLOGA, is to continue. Let no thought of its being disbanded enter your mind. Let no worry that the fire which you have lighted is to be put out enter your thought. Know that the Word of God shall go forth. Know that a little flame running through the grass can set the world on fire. Remember that great power often generates from little things. A tiny flame can ignite an accumulation of gas or a number of storage tanks and cause a tremendous blaze. You may feel as you sit here that the flame of SOLOGA is like a very small candle; but understand that through the years, the truth that you have brought forth will run through the grass roots into the hearts of the people and deep into their understanding until it bursts forth into a mighty flame.

You have been reading the Gospel According to Thomas. There it is reported that Jesus said he had come to set the world on fire and would stay to see that the fire was truly started. No matter what changes may

come to the outward appearance of your group, whether the numbers are large or small, whether its headquarters is in Miami or some other place, wherever your channel goes as long as she is in the body the Word of SOLOGA will go forth. Whether you are with her or not, whether you are in Miami or reading the SOLOGRAPH in some distant state or country, you who support and send forth the Word are the flame of SOLOGA and shall not go out. We, the three of us together say this, "So we see it; so we decree it; so be it."

There will be many testing times to come for all Groups of Light in the next months. You know that when we speak to you we speak to all; therefore, we see to it that the Word goes forth. There will be rumors, alarms, the spreading of dismay, queries, fears, running to and fro, confusion, unsettlement, not knowing what to do. (Note this was given on Sept. 8.) Look upon all these things as tests; see if you can pass them. See if you can remain in utter peace within; see if you can continue to send forth the light with all the strength and vigor that you have as often as you can and without fear. See if you can lift yourself out of the worries, out of fear, out of the difficulties and sense of confusion.

Whenever it all begins to get too strong for you, sit in meditation and repeat the exercise given you saying, "My Father and I are One." As you say this over and over, lift yourself on wings of Light into the higher dimensions. Do this so frequently that by the time you have begun the "My" you are off and away, up into the Realms of Light. Do this so often that you can do it as easily as walking out this door. You do not think of your walking; you just do it. Do this exercise so often that it becomes as automatic as lifting yourself out of a chair.

Do not be frightened by that which might come in the way of danger to your area. Nothing is definite; nothing is inevitable. All of the Forces of Light are pouring out all they can into this and all other areas of disturbance, Cuba, Berlin, China, the Soviet Union, the Middle East. We are doing all we can, we know that you are doing all you can to the best of your ability. When things let up a little you relax and take it easy for awhile. True, you do need your rest periods; but my beloved ones, you have tremendous abilities and potentialities which you have not yet begun to demonstrate. They are there. The more faithfully you practice, the more they will operate through your lives. The lives of those you love may depend on the faithfulness of your contact within yourself with the HIGHEST OF THE HIGH.

Our beloved Sun, IMMANUEL, has said this and may I again underline the fact that the one way out of any situation is to make contact with the God within you without fear and in peace. Listen and do what you are told to do. Each of you is capable of this. You have demonstrated it again and again. Be more serious about it. Pretend that it is just before examination and you have to cram a bit before you are ready. Or pretend it is just before Christmas and you are on your extra good behavior. Dramatize it in any way that will keep you doing your very best.

Beloved ones, we are with you constantly. We know all your thoughts, all your worries, all your confusions. We stand by to help as much as

possible; but remember that the worry and confusion hold us away from you. Strive for utter calmness and peace within. Now I must say, SOLOGA! As I do so I extend my hand to each of you. We become a circle with you and we say, "Oh, Solar Logos, bring us the Word of the Alpha and Omega. We stand ready and willing to obey Your command. Help us to hear, to understand, and to obey quickly. Amen." 9/8/1962

WE FIGHT THE ANTI-CHRIST

Gabriel and Michael: (Operating in the Crimson Glory of the Christ Power assisted by El Morya and Ixutel at our power broadcast.) We speak as one for a group of messengers of Light who come to use this Focus for work to be done in the Earth plane this night. You are aware from your News Media that the situation in Cuba is not yet cleared. Preparations of your government are continuing in case an invasion may be necessary. Build up of materials goes on quietly but seriously. The Russians are hoping to keep this situation stirred up and unsettled to muddy the waters and enable China to sieze as much of India as possible.

China has been criticizing the leaders in Moscow. China has been champing at the bit. Moscow hopes to appease the Red Leaders of China by allowing them to grab part of India. In Moscow, the first great objective of their time table is to take all of Asia. For this reason they have slipped as far as they could down the Korean Peninsula; they have tried to break through into Formosa, Viet Nam, and Laos. They have camped on the borders of Cambodia, Thailand and Burma while their subversive elements attempt to soften the governments from within. They desire the oil in the Near East and the passageway into the Mediterranean controlled by Turkey. They have already taken Tibet. Now there is a possibility that all of India may be lost to the Communists.

India is far from your country, from Europe and the sources of aid. No matter how much you send it will be too little and too late. The Chinese are massing their great waves of humanity which by the very weight of their colossal numbers would sweep the enemy before them. The U.N. stopped them in Korea by the strength of their fire power. India has tried to remain neutral, to be friends with both Communists and Free People. She has carried on her policy of peace and non-aggression which in itself is admirable but not practical in the situation on Earth today. After all you live where you are. You are here to serve humanity. You do not serve by allowing great nations to be swallowed by the Anti-Christ.

The Anti-Christ is that which denies the existence of God. The Communists deny both to their people and their satellites the right to believe in God. They make fun of those who hold to their faith. They ridicule them as superstitious, ignorant, immature and backward. They insist that all must be educated out of such childishness. They therefore represent the Anti-Christ.

You must face the situation where you are and as it is. If you are dirty from working in the mud, you must cleanse yourself before you can rest. The Earth must likewise be cleansed of the Anti-Christ thought. Much as we desire peace there are times we have to fight fire with fire.

Christ Jesus of Nazareth told you that he saw war in heaven. This is the war in which the Christ Forces on all levels go forth to overcome the Anti-Christ. You have a hymn which says, "The Son of God goes forth to war, a kingly crown to gain. His blood-red banner streams afar. Who follows in his train?" That blood-red banner is the symbol of the power of Christ Consciousness.

We are gathered together as soldiers of the Christ in our power broadcasts to fight against the Anti-Christ. We fight mentally. We send forth the power of the Divine mind. Of ourselves we are nothing. That which makes us powerful is the knowledge that God fights in us and through us against that which is ignorance and darkness. All of this can be expressed in other terms; but war is going on in your planet regardless of what terms you use. Men are killing each other; therefore we must use the terms of war to get down to their level. We fight through our power broadcasts by sending out Love, Light, Peace and Harmony.

This is a crucial time. Your country is learning to bear the responsibilities of world leadership. You permitted Mussolini to seize Ethiopia and had to pay your Karma for this in World War II. You allowed China to be gobbled up by Communism. You have been paying the Karma of that situation ever since. Now you are eager to help the people of India but the Russians have managed to divide your effort and will find ways to block your aid to India. You now must fight on many fronts. Your men are serving in Viet Nam and Laos. You cannot allow the Russians to remain in Cuba. You cannot allow the Chinese Communists to swallow India.

Part of this present situation is the Karma of India herself. They must pay for their indecision and other errors in their thinking. That which the Buddha brought to them in purity and clarity has been debased in their present religious practices. Their recent leader, Mahatma Ghandi, was sent to recall them to the purity of their own heritage and to persuade them to the beauty of the Christ vision; but while they accepted Ghandi they were unable as a whole to rise out of the error into which they had sunk. Now there is this bill to pay. We can help by sending our Light. I know you will do your best each day. You will note that you were told in SOLOGRAPH 8 to send peace to the world on Nov. tenth. Never has the world needed it more than at this moment. 11/6/1962

On the day preceding this message, Velma, whose prophetic visions have proved significant, seemed to be standing beside a canal of clear, pure water. Others were with her. She had a sense of happiness and pleasure in the company and their gathering. She was enjoying the clear water especially when there was a commotion in the distance. There seemed to have been an accident or some disturbance of the peace for sirens were screeching and there was a feeling of alarm. Just as this subsided there was a much greater disturbance farther away and higher up. There was much screaming and voices wailing saying, "Oh, why don't they come to help? When will they get here?" Velma was then aware of another watercourse joining the canal at right angles. It seemed to come splashing down over stones from much higher up. It too was clear, crystal water. As she

looked it began to turn red with blood from the place of confusion. Soon the blood filled the canal in front of her as well. Then she was in a house on the bank of the canal. She very much wished to get out but the only door opened so close to the canal that she would have to step in the blood. She shrank from this. There was one high window. She climbed to it but found it almost too small. She struggled to wriggle through it but then she saw that the ground was so far below that she was afraid to jump down. Her vision ended here.

As we discussed this in our group meeting we were told that the first disturbance was the Cuban crisis which caused concern in our comparatively peaceful and pleasant life. That commotion passed but a more serious one followed immediately, the trouble between China and India. Blood flowed from that tragedy which touched our own shores. The house is the present situation in which our country is placed looking for a way out. To go out the door means to go through blood; but egress through the window is very difficult.

As often happens, two other members who attend a different session had confirming experiences. June was shown a door and a window; she was told that it is easier to go out through the door. Julio saw a canal of blue water moving deep and slow between grassy banks. Blood began to bubble upward from a pipe below the surface fouling the water. These symbols were given to impress us with the need to be faithful in our personal power broadcasts. We take renewed courage from the fact that Gabriel and Michael spoke together for, "Michael gains permanent victory in heaven and within the consciousness of man only when he is joined and aided by Gabriel." (Corinne Heline's Bible Interpretation Vol. IV, Part III, page 231.)

A THANKSGIVING MESSAGE

King David: Oh, give thanks unto the Lord for He is good, for His mercy endureth forever. Enter into His gates with Thanksgiving and into His courts with praise. Be thankful unto Him and bless His Name for the Lord is Good. The Lord God reigneth. He reigneth in the Earth today. He reigneth in the hearts of men whether they know it or not. His will is to utter good. His Name is Goodness. His touch is bliss. He made all that was made and for all we give Him thanks.

You are now drawing near your Thanksgiving season. I have asked the privilege to give you a Thanksgiving message to share with the world. Perhaps some of you. Perhaps some of you have recognized me by my words for I am the one known to you as the Psalmist, King David of Israel. It is with great joy that I speak to you. I have often been in your aura. I have often listened with love and gratitude to these Shining Ones who are making themselves known to you. Beside them I am as a grain of sand; but still my heart shouts with gratitude to the Father-Mother God who has given to man such a wonderful future, has shown to man his possibilities, has given man of the Aquarian Age a vision of what he may attain, has relieved him of the worry of a sinful life, has given him eternity in which to work out his soul's progress and to perfect his Sonship.

In my day as King of Israel, we were little children stumbling in the dark, occasionally aware of the loving touch of the Father, more often frightened by the fear of our own inadequacies and our own mistakes. Now I, too, am learning with all within the aura of the Earth that God is Love and always gives love, so that mistakes receive loving admonitions, loving adjustments in whatever way is necessary for the purpose of the life to be achieved. With all of my being I pour out my gratitude to the Father-Mother, the Most High God, and to His messengers of Light.

I say to man of today: Never have you had more to be grateful for. While you seem to be in a time of crisis with terrible dangers on every side, yet you know your way up and out of this vibration. For us in my day, we could only see the strength of the enemy and tremble. We knew God helped us but we did not know how He helped. My enemies seemed to encompass me; but the greatest enemy was always the one within, the ignorance, that which kept me from knowing God as One with me. My Lord, Jesus who was son in my line, brought to the world the way out of all crises, of all troubles, of all sorrows; and that is the way of knowing Oneness with God.

Permit me to say: Bless the Lord, oh my soul and all that is within me; bless His Holy Name! He loves the world so much that He has given Himself as Son to Himself. He has given Himself to man as Son so that man may find the way to growth and understanding. The Sun (Son) is rising over man of the New Age, the Glory of Himself is peeping up over the horizon. The Light of the ALLNESS OF ALL THAT EXISTS is beginning to find its way into the darkness of the sphere of separation and those who can receive it will see the New Day. For this we give thanks.

Oh, men of Earth, turn in joy and worship to the Most High, Most Holy, to that ONE who is the Oneness of the ALL. Great is the gratitude of the Galaxy, of all the swirling Suns in their grandeur and Light. Oh, man, open your heart and with your voice shout forth your gratitude as Sons of God, sons and heirs, a little lower than the Angels in vibration, yes, but Suns able to move upward to ensoul planets, stars and galaxies, on and on into the bosom and the heart of the ALLNESS which is our God.

Hear, oh Israel, hear, oh man of Earth! The Lord, thy God, is One, and that includes each one of you. For this let us give thanks with full heart, with the singing thought and with the voice of understanding. I, too say with you, SOLOGA! Let the Word of Gratitude speak from the heart of God through you to all mankind. 11/10/1962

LEAVE MAN HIS FREE CHOICE

Jesus-Mary: My beloved children in the Consciousness of God, your brother Jesus of Nazareth speaking to you. If you will open your inner senses, or if you cannot see let your imagination follow, you will see me standing at the channel's right and my Mary standing at her left. Now if you will watch you will see us converge into one being, for together as one we speak to you.

Beloved ones of SOLOGA, it is always such a pleasure to speak to you for you are our representatives in the body. We are wayshowers in the

spirit; you are wayshowers and messengers of Light in the body or "right on the ground." One of the prophets said, "How beautiful upon the mountains are the feet of him that publisheth good tidings of peace." It is your privilege, dear ones to publish good tidings of peace to the Earth. You have received advanced instruction; you have been given some high truths which you must share as widely as possible. Therefore we say that you are wayshowers in your own right and as such we greet you. In Light we move forward together. In Love we serve man together. In Love we rise above the Earth vibration pulling the thought of man upward with us.

One cannot drive man; but one can attract man. One cannot control man against his will; but one can persuade him. One cannot force his own personal will upon man; but one can show the great pleasure, the peace, the joy of coming into at-onement with the Primal Will to Good of the ALL. God's will for man is his highest good.

Does man know enough to say, "I will that you should be or do thus and so?" No, indeed he does not! Even using the best of his judgement, man has made so many sad mistakes. The terrible Spanish inquisition was man's will trying to force his beliefs on his neighbors. Those who were so loyal to their church at that time thought that they knew the whole truth; yet they sinned so much more than my brothers, the Jews who killed only one. How sad is the history of man when doing the best we can we still make such mistakes as a divided Berlin or a brother rejected because of his skin.

Watch, my beloved, as you read the various literature of your day. Watch! Does it say that man is to control man? Does it say that one man is to force his will upon another? Be careful; discriminate. Within yourself accept only the highest good you know. Persuade, enlighten, teach and heal. See Light; send forth the Word; but leave man his free choice. This is God's path; there is no other way. This way is straight and narrow and many are the opportunities to wander from it if you are not vigilant.

Always go back to those fundamentals which you know: that God is All, that He is Love, that you contact him from within and that all are as much an expression of God as you are, even those who at present assert that there is no God. They are like a little child who has not yet seen a circus. Others try to tell him of the strange things there but he cannot believe because he has not seen. Thus the dear ones who cannot believe in God are those who have not yet found Him. They are to be loved until they are able to grow enough to experience Him for themselves. How privileged you and I are that we know God! Is there any greater privilege to be found anywhere than to know the ALLNESS OF THE ALL?

Beloved ones, again I say unto you: Enlarge your thinking; meditate upon the Allness of the ALL. Cast aside the human veil of illusion and see God in every speck of dust, in every raindrop, in everything that you experience, even in that which may seem undesirable. That which you cannot eat, some creature of God will enjoy. That which to you is most offensive, to some other form or pattern of God's life will be most desirable. Enlarge your thinking to include all possibilities, not just the

narrow experience of this one incarnation in this one body.

As messengers of Light send forth your love to all. As you enlarge your thinking in this manner, you prepare yourself for the duties of one who can stand as I am in one form speaking to you and yet at the same time can be thousands of miles distant and all places in between, serving, loving, inspiring, knocking and being received or rejected. In order to become that which I have attained, one must be able to hold all of the individuals of humanity in thought at one time. In order to be the Sun of a Solar System one must be able to hold in consciousness not only all of humanity but every other form of existence - all of the planets, all in or on them, and all in the spaces between. In order to ensoul a galaxy, one must know every tiny particle of the galaxy by name or number, for remember, the very hairs of your head are numbered in the Father's Consciousness. Therefore, my dears, I say enlarge your thinking; step out, and away from yourselves and be one with ALL THAT IS.

The path upward is filled with joy for there is nothing so joyous as to know how much you are one with all the great Hosts of Light. But blessed is the one who in that oneness remembers to gather into himself all those who touch his light and carry them upward with him in thought. This you can do without in any way encroaching upon free choice. In your own thinking you can see your neighbor as yourself even though outwardly for some reason that neighbor does not want to speak to you. You can so purify your human emotions that you can take that neighbor upward in your thoughts even though he does not seem to go in his. Remember that we are always with you and with everyone else who inhabits this planet. SOLOGA! We walk forward together in the Eternal Light of God. 9/15/1962

In the meditation following this message it seemed that Jesus and Mary, one on each side, lifted the channel from her chair and drew her upward. Suddenly in an explosive instant they converged and became one with the channel as part of the same being. Then they seemed to draw in all the others of the group in the same way. As one being they took us first to weave a golden web of light and lay it down over Cuba so that the emotional poisons of fear and hate could not escape to harm others. Then we were shown a wall of light, transparent yet impenetrable. It seemed to be an invisible screen of force reaching from high in the air to deep in the sea between Florida and Cuba. A flight of small rockets seemed to hit the screen and fall back into the ocean. We were told not to send them back to Cuba but to dispel them, to transmute them into unformed thought of God. Barbara saw a large dark bird flying over the ocean toward a city on the coast but much farther away in the distance there was a great shield of very powerful light. When she wondered why the shield was not between the bird and the city, the bird seemed to become shadowy and to separate into small objects. We were told that the bird represented the Cuban crisis which is not the real danger. The shield far to the east in the ocean hid the true cause for concern. Ruth S. saw a serpent raise his head out of the ocean and swim toward the shore. The serpent might be interpreted as a symbol of danger from hidden submarines or it might

represent the wisdom coming to our leaders out of the Cuban situation. There are so many ways to interpret such visions. We do not print these to develop negative thought but we are commanded to share the symbolism for your own meditation and practice in discrimination.

SOLOGO, the Sun Sirius, has told us to see the whole island of Cuba dripping with white light. Splash it over all the buildings, all the people, the mountains, the rivers, the trees, the flowers, every bird, every animal, every vehicle, every ship, every town, all flooded with pure white light which is permeating everything until all radiates the white light of the Christ Consciousness. This same technique is powerful in any situation.

IN GOD ALL OPPOSITES UNITE

One little bar of iron - one
In form but two in function - two
Magnetic forces, north and south,
Attract, repel and still are one.
Light is dark and dark is light.
In God all opposites unite.

One day, a precious gift of time,
And yet all time is now - is ours -
Work and play, both give and take -
All in one through living hours.
Night is day and day is night.
In God all opposites unite.

One life as veiled as bar or time,
One life uniting in release,
All hidden whys resolved in peace,
Life and death both one and mine.
White is black and black is white.
In God all opposites unite.

(Poems by Ruth of Miami, S.L.A.)

WE SHALL HEAR FROM MANY SUNS

SOLOGO: I am your brother and sponsor, SOLOGO, the Sun in which each of you has had a period of service, the Sun who shines Hiser Light through you and through the group, SOLOGA, in great power for the balancing of the System of IMMANUEL in your Earth place. I come to you as always in the great Love which it is mine to pour through to you, Love from God, the Father-Mother Most High, brought to us through the Spiritual Center of our Galaxy, our beloved Shining Sun, LIOLIA, and through so many others.

Tonight I come with a special mission. You will remember that I spoke to you a number of times at first. I was preparing the way for you to meet other Suns. Last week I told you you would be hearing from many Suns. This evening I bring to you an unusual experience; I bring to you a Shining Light from a different Galaxy. I bring you the Twin Ray of

THANK YOU, GOD

That we may know ourselves as one
In the fullness of the Son,
Oh, thank You, God!

That we may see beyond illusion,
Find the truth hid in delusion,
Oh, thank You, God!

That we may hear the Still, Small Voice,
Guiding to the wiser choice,
Oh, thank You, God!

That we may feel the Healing Powers
Easing pain through testing hours,
Oh, thank You, God!

For always hearing when we call,
For giving us Yourself in all,
Oh, thank You, thank You,
Thank you, God!

LIOLIA who is ensouling a Galaxy. I bring you the Spiritual Center of the Galaxy known to you as Andromeda.

Your astronomers have photographed this galaxy and from it they have deduced the shape and size of our own galaxy, recognizing in various characteristics the similarity of the two. You have at your command a picture of this galaxy as photographed in your largest telescopes. You will know this particular Shining One as OLENA. She is coming to you on the feminine ray this evening. If you were to speak of the masculine you would say, OLANO; but tonight you will be addressed by the feminine aspect of this Star.

You will say, "How is this possible?" You are expanding your consciousness so that those who have always been in communication will make themselves known as rapidly as you are able to accept them. Some of you have had expressions in this galaxy. It is not new to the Golden Legion of the Central Sun of LIOLIA. There is the constant transfer of services where they are needed from galaxy to galaxy, or system to system, or planet to planet, for all is within the Consciousness of the Most High, the ALL-NESS OF THE ALL.

Before I leave the channel may I give each one of you My own Heart's Love. So close I am to each of you. I could speak to you in your heart; I could make you glow with My heat as I tune you to receive. I could if it were desirable make your night as bright as day; but why for the sake of pyrotechniques or excitement should I upset the usual expression of the natural laws of your System? I am with you in great strength. My healing power is strong in you; My thought touches each of you every day of your life at some time or other. When you send your thought to Me I am aware of it at once. Perhaps before you send it and before you are conscious of the first impulse springing within, I know of your thought. Believe Us, the Brotherhood of Suns, know you, care for you and serve you in the greatest love possible. The higher the evolvment, the more we can love. Accept our Love; dwell upon the riches of it; be joyous; let nothing disturb you. Know that you are known, respected, cared for, watched over and loved.

9/29/1962

GOOD AND EVIL ARE ONLY RELATIVE

OLENA: Beautiful, shining stars in the consciousness of God, points of light, vortices of power, centers of Divine Thought, I address you with the greatest of pleasure, with the deepest of Love which the Father-Mother of all gives ME to share. Your Sponsor and Benefactor, the Sun SOLOGO, said I correspond in evolvment to your Spiritual Central Sun, LIOLIA. If you will examine MY Name, Olena, you will find the same sounds in it as in LIOLIA, with one added, the N. The central letter "E" in your system of holy letters can be used as an "a" or "i" interchangeably. Perhaps you will find it pleasant to look up the numerology of this name.

You have been told that I am very closely associated with LIOLIA. We are always allowed to work in teams or in pairs. We are originally related sparks of Thought-Fire coming out from the Father together but individualized and matured in the image of the Father-Mother to the extent

that we are capable of ensouling a Galaxy.

MY Galaxy is like yours in many ways. We have within our borders some elements not to be found in yours; you have some elements we lack. The interchange of light, of servers, of atoms is beneficial; each gives to each. This has been a parallel evolvment for so many aeons, so many Great Days of the Lord, that it is useless to attempt to give you a tallying account or conception.

Know, however, that although WE advance so that WE are much more complete and greatly enlarged until OUR Consciousness approached the Divine All-Consciousness, yet WE have not forgotten what it means to be a small star in the body of a planet, such as you are. If you are parents, you renew your childhood in your children. If you are teachers, you remember your childhood in that of your pupils. Thus WE, having passed through all you endure, all that you are learning in all the trials and tests, know just what every situation means to you. WE take joy in your evolvment just as you delight in every new expression of the children's growth and accomplishment. WE thrill to your achievement; WE glory in the light you shed. As the Father-Mother of All matures HIS Image, HIS Plan, HIS Thought in you, WE are as grateful and joyous as you are over the flowers that bloom so beautifully in your garden or the child that develops so astonishingly to you.

I am not in your Galaxy so that I can look with detachment perhaps not even possible to LIOLIA. To ME your Galaxy is most beautiful, most wonderful, a glorious expression of the Light of God, teeming, overflowing with the riches of the Presence of the GOD-HEAD. WE Who ensoul Galaxies are able to look farther than even the Suns whom you adore, in whom you live and move and have your beings, who are the first concepts of God to you. The higher WE go the greater God becomes, for God in your language means the ALL-GOOD, the ALLNESS OF GOOD EVERYWHERE PREVAILING. The very Name of GOD promises you eternal good.

As you cast aside the veil of illusion in which you have incarnated in your present Earth vibration, you will know more and more that all is good. That which seems darkness to you is light to someone else or some place else. Let us suppose that you lost a piece of money. It was hard for you to lose it. You could have used it but it disappeared from your possession. Suppose that through the direction of Spirit that money was placed in the hands of someone who would have died without it. With all your heart you would have loved to have given that money to the person if you had known the need. Spirit arranged this. It seemed darkness to you that you lost it, but it was the most glorious light to the one to whom it was given. Yet it was one and the same and light to you in that you could share.

You have fabrics which are reversible having a pattern on each side. The appearance of each is entirely different yet it is the same fabric. So the white and the black, the good and the seeming evil are the same fabric seen from a different point of view. Good and evil are only relative experiences depending on your level of evolvment. That which you call evil is God maturing His image which is yet imperfect. That which is

darkness to you is light to those with a more extended vision. As you extend your vision your ability to perceive the greater light in everything will develop more fully.

It is MY Office to give LIOLIA strength, peace, love and healing, to support, to cherish, and to companion; it is LIOLIA'S Office to do the same for ME. Where two of you live in the same home you understand what I mean for you depend on each other for various things which each can supply to the happiness of the two. Although we have extended to the point of ensouling a Galaxy, the same relationship exists but on a higher level. "As below, so above." We are paired but not as you are in your human thoughts of marriage and sex. That is a characteristic of your physical plane only. We have put aside that type of body and exist in one which is so highly spiritual that it is pure Light. We can only reach your vision clairvoyantly and then you can see but a mist of diaphanous light. You see us only in symbology when you have raised your consciousness to a very high level.

My son, Ixutel has been sent to your area to serve in your present unfoldment. I wish you to know that I am aware of your situation and your problems. The Light which I send you is of a very high and fine quality for it is made to penetrate through the Interverves and through your Galaxy to you. The Consciousness of the ALLNESS OF THE ALL is yours and MINE. It is this Consciousness through which I am able to address you. It is also in this Consciousness that you are able to travel from place to place, from star to star, and when you are a little more proficient from Galaxy to Galaxy.

I imagine all of you would glory in the opportunity to get into one of your airplanes and travel about your planet stopping here and there to examine this or that or enjoy what your heart desires. You say, "I cannot do this because of my responsibilities," or "I haven't the money necessary." My beloved ones, I have much to show you if you care to visit MY Galaxy. The Omniverse is yours. Teachers, guides, angels, protectors, all are always ready to escort you. I invite you to a greater exercise of your own abilities in contacting all of US Who await your coming in Love and Light.

I am so happy to have made you aware of MY existence. It is OUR command from the MOST HIGH, OUR Father-Mother to contact you now that you may enlarge your consciousness and your communion with all within the ALL. Thank you for receiving ME. Thank you for your courage in sending forth Words from ME. May the MOST HIGH GOD bless and keep all those who accept ME in their hearts, receive MY Love and send ME theirs. With you I will say, SOLOGA! I, too, dwell in that Temple which is the Body of the Living God, THE ALLNESS OF THE ALL.

9/29/1962

THE SOUL'S PRAYER

Father God, in Thy infinite mercy
To all Thy children of Light
Guide us in the right direction
That we may show Thy might.

Let us know all things
That mankind will suffer through
That in compassion we may show
The Infinite Love of You.

Thy love is so tender and beautiful
Fulfillment we can see
When our thoughts are centered high
Only on the will of Thee.

The path is strange - humanly insecure
But as we progress
Regardless of deceptions along the way
We climb - not retrogress.

Suffering - heartache - disappointment,
The soul is sorely tried.
The human or spiritual path,
This we must decide.

But then, O God, when Thou hast won
And we think we are so right,
The path is still deceptive,
Again we trust Thy light.

Surround us with Thy Glory, Lord,
And lead us in Thy will,
For we are only here
Our mission to fulfill.

To lead all mankind in Thy name,
Lift up earth race to see
Into Thy full consciousness
At-One-Ment with Thee.

-Ruth Beamon

THE CHRIST IS BORN AGAIN
WITHIN THE HEARTS OF MEN
ALLELUIA!

CHRISTMAS LOVE TO NOURISH US

IMMANUELA: speaking to My beloved children. Know that you are My children. You are very strong and independent and yet you are all happy if you have a mother still expressing in the Earth life to whom you may turn for love, sympathy, and understanding. Know that I, IMMANUELA, am your Mother. You cannot see Me with the physical eye but you can feel, understand and know Me with the eyes of the inner consciousness. Open your eyes of consciousness and see Me, your spiritual Mother, IMMANUELA.

Know that as the thought of the Holy Birth at the time of the Christmas season fills men's hearts, as you sing of it, dwell upon it and picture it, I am able to move into closer contact with you. It is possible through your thought of the blessed Mother, Mary, to reach a closer attunement with Me who am the All-Mother of this Solar System.

Know that the Consciousness of IMMANUEL-IMMANUELA is to the whole Solar System as your consciousness is to the whole of yourself with this one difference that you speak of your self-consciousness as separated from superconsciousness and subconsciousness, while those of us who express as Solar Systems know no such separation for self-consciousness includes all consciousness. My Self-Consciousness includes all of you.

As All-Mother for this Solar System I come to you personally as your own Mother. When you were a babe in arms the thought of mother expressed itself in flesh for you. God's thought of Mother expressed itself in the All-Consciousness of the ALL before it could be expressed in that physical body which brought you forth in your present physical form. It had to be expressed first in Me, IMMANUELA, in My body as that beloved one who gave you birth in your present vibration. But before the Mother Idea could be expressed in Me it was manifest in the feminine aspect of LIOLIA, the All-Mother of the whole Galaxy and My Beloved Mother. First of all it came into being as a thought in the Mind of God, The One who separated into the Two, Father and Mother, that the Son might be created.

Now I come to you as All-Mother holding each one of you in My Heart, helping you to adjust in the physical body to the needs of your daily experience, helping you to greater strength, greater wisdom, greater ability, greater desire for Good, greater expression of all the God-qualities which you have inherited naturally as children in My Being.

Let us say that you take within your body a pleasant Christmas dinner. You feed every cell, every atom within your body. They all share in whatever you have. So you all share in the Golden Light which I transmit to you from LIOLIA; for understand, My beloved ones, that in order to reach

you this Light must first penetrate the Solar System. The food had to reach your cells through you; the sunlight of the physical orb must reach your cells through you. You can choose to stay in a darker room or to go out in the sun; thus you give to yourself that which your self-consciousness deems wise. In like manner I have transmitted to you the Golden Light of LIOLIA.

I have been enlarging My Consciousness so that I can give you more. LIOLIA is helping Me in tempering the tremendous Light of Spirituality, the Pure Gold of the Thought of God, so that it will enlarge My Consciousness, My Understanding, that I may be able to serve the planet, Earth, and each thing upon it more fully. I gave you a symbol of this when I told you to picture My Golden Beam in your meeting place with a deeper Golden Ray centered in the middle of it. This was to show you that the Light of LIOLIA reaches you through Me.

Remember that I, IMMANUEL-IMMANUELA, AM THE WHOLE OF THE SOLAR SYSTEM in the highest Spiritual Consciousness existing in the System. As such I come to you with the warmth of love, with the outpouring of Mother-thought in all its expressions, with deep desire for your happiness, your prosperity, your achievement, your blossoming, your enlightenment, your full radiant shining, your present awakening to a fuller expression of the Christ Consciousness, a rebirth of God-Awareness within you who are All-Mother to the units of life within your body.

I, your Mother, hold you as the new-born Christmas Babe in My Arms. You who are expressing the Christ Consciousness of the WORD are My Little Christ Child for this season. I hold you to my Bosom and think for you the same sweet Mother-thoughts that Mary held for her Baby Jesus. This year to come will bring an unfoldment in each one of you, a pouring through you of the Light of the true Christ Consciousness. Each Christmas Season you are born anew as the Christ is born anew in you.

Beloved, I extend this message to all who read this SOLOGRAPH now and in the years to come. Each one existing within My Being, each unit of consciousness be it mineral, chemical, plant, insect, animal, human, angelic, or whatever the strain of expression - each one is the Word of God made flesh in that particular manifestation. Therefore, at each Celebration of the Birth the thought of the Christ is born anew throughout the Solar System in My Thought of you as the new-born, pure and holy thought of God.

I pour out My Love upon each one of you in the most tender, most intimate fashion. I nourish you in thought, in Light, in vibration, in body-pattern as much as you will permit yourself to receive from Me. I ask THE MOST HIGH GOD, THE FATHER-MOTHER OF ALL, to bless and keep each one of you that you may be receptive to all that will be poured out upon you at this Christmas season. SOLOGA! The Word of God is the Christ expressed in flesh.

11/24/62

IMMACULATE CONCEPTION

Immaculate the bright star
That shone to bless the Earth!
Immaculate the White Soul
Expressed in Holy Birth!

Immaculate the Mother thought
That reached the Highest Love,
That bore in flesh the Earthly Form,
Brought forth the Spirit Dove.

Immaculate we too become,
Conceive our holy part,
As we in spirit humbly bear
The Christ within the heart.

Ruth of Miami S.L.A.

STRAY CAT

God took a body made out of clay
And came to my life in sore distress.
Through eyes of suffering, He looked
at me

And my own body ached with His
wretchedness.

My heart broke at His anguish
And I gathered Him in
To nourish, to comfort, to tend unto
Him.

Then God put aside this body;
He set the spirit free;
And in quiet peace a Voice spoke forth,
"You have done all this for Me."

Barbara Moss

INTRODUCING A STAR

SOLOGO:(The masculine aspect of the star, Sirius.) My dear Shining Lights, I give you the greetings of the Brotherhood of Suns. I come primarily to introduce another star; but before I do I wish to say that I am so pleased with the way you are sending forth the Light. We are watching you and we know that your lives are beginning to shine more than you imagine. The joy, the contentment, the peace that you have absorbed here and built into your being shows others who view you that your Light is much brighter than it was some nine months ago. You are more youthful, healthier and more harmonious. It is often hard to notice the changes in yourself but if you will think back I am sure you will realize that some of your problems seem easier. Some of Mine are easier to Me. Then be content and cheerful in spite of the seeming difficulties.

Each one of you came into this particular life with the task to build a certain specific character trait, or two or three, more strongly into your soul and this you are doing faithfully. You are doing the best you can. You are also sending forth the Light in the ways that you are being taught, not as much as you will, but you are getting there. Your feet are on the Path.

I would like each one of you to think back and try to remember when was the last time that you spoke My Name and turned to Me opening your door to facilitate My Shining through you. I have told you several times that thousands of you were sent here under the name of SOLOGA to help you remember that you radiate special Light from the System of Sirius to help support IMMANUEL bringing that trace emanation of My Light which is so important for the balancing of Hiser whole System.

Tonight I wish to introduce to you another of My Brothers among the Stars. This one has been visible in your skies during your summertime and is a very bright Star of the first magnitude, beautiful, glowing with a blue-white light. You will know Himer as Vega if you are studying your star-maps as you should be. As your consciousness expands, you will com-

municate with many Stars. You are going to be the mouthpiece for a number of Suns. Some will speak through you, for members of your group have had orientation or long periods of service within Their Systems.

The Star, Vega, is in the constellation which you call Lyre. You understand that from each Star System the constellations look entirely different than from your point of view. If you were as far from your Solar System as My Star, Sirius, not any one of your star patterns would be recognizable. It is only the angle from which you look that makes them seem clear enough together to be grouped in the same constellation. If you can find the constellation which you call the Swan or Northern Cross it will be easy to locate the Lyre and Vega. If you are facing the north you will find the Lyre very close to the left of the cross-arm of the Swan (Cygnus.) Any good map of the summer skies will help you.

Please understand that there are twelve Stars who are extremely important to IMMANUEL. Their emanations are necessary to the completion of the balance in the System. There were twelve disciples to help Jesus and twelve companions to assist your greatest poet, William Shakespeare. There are often twelve associates gathered around anyone in your System who brings through great advancement or great truths. In past times these twelve did not know that they were contributing anything because of the fact that the science of etheric Light was not understood.

Now I shall stand aside that you may become acquainted with Vega. I give you all My love. I am sure you are feeling the heat of it. So often I come to you in your homes. If you are aware of a feeling of great heat, then think of Me, SOLOGO, or if you prefer you may speak to the Feminine Ray with the name, SOLOGA, which you have taken for your own. 9/22/1962

THE DEVELOPMENT OF THE WANDERERS

I AM VEGA, the Glorious, the Radiant, the Shining One of the MOST HIGH GOD. In this I glory, that I reflect the glory of GOD. In this I glory, that the only glory anyone ever has is the Glory of GOD which shines through the life. Not of Myself or for Myself do I glory; but I glory because the Glory of the Infinite, Omniversal Life-Force shines through Me in such radiance.

I glory in the choice of the ALL-Father-Mother to shine through Me as one of the twelve Wise Ones, Old Ones, White-Heads, Great Shining Beings shining through the Light of GOD through countless ages, aeons, comings and goings of expressions as one Solar System after another, as a Sun growing into larger capacity of Sunship until I have been chosen to be VEGA, the Shining, Radiant One.

I consider it a great honor and privilege to be able to speak through to men of the Christed One who is the Earth, this dear, beautiful planet in My Brother System whose name in Spirit has been given to you as IMMANUEL, "God with us!" What a beautiful name to be given to the people of Earth, for surely none of Us anywhere could exist at all if God were not with us. I am sure that name is universal, for without the Shining of GOD you would not see My bright light in your night sky.

It is an honor and a delight to speak to those whose ears are attuned

to what you are reaching forward with such yearning to grasp. Beloved ones, there is so much to tell you and yet so little. There is so much in detail and yet so little in basic fundamentals for he that knows that GOD is ALL knows all. That is simple, isn't it? If you know GOD is ALL, then you know all and all you know is GOD. No matter what you know, if GOD is ALL what you know has to be GOD. Yes, even knowledge of GOD is relative. This must always be true.

Think of a baby. Its knowledge of its mother while it is in its cradle is one knowledge. When it begins to explore the world on sturdy little legs and mother has to confine it against its will, mother becomes something different and this is another knowledge. As it goes on through life, mother has various offices, various relationships until later in life when it is mature and independent, mother has become something quite different than she was to the babe in the cradle.

In this way GOD is what GOD is to you. GOD to you is your own concept of GOD. GOD is what you understand Himer to be. GOD may be different to Me because I may understand Himer with broader Truth, wider knowledge, and fuller Experience. The baby in the cradle knows mother-love although it is impossible for it to write a composition on the subject. Nevertheless, it feels love, senses it, clings to it and depends upon it. As the baby's experience enlarges and as his world enlarges greater concepts of the meaning of mother come to him until he is able to apply the thought of Mother to the Divine care of GOD. The idea grows with the ability to understand the idea.

Someone will ask, "Wasn't GOD always there?" Oh yes, you know that the mature mother was there whether the baby understood her or not, but to the baby she was the comforting touch, the warm sense of love. Before it could understand hands and feet, clothing or words, it knew the loving acceptance, the cherishing, and felt content. This then to the baby is mother; and in like manner what you know of GOD is GOD.

When you begin to understand that GOD is ALL you accept it and you say, "Yes, GOD is all," but do you really know it? The very first time that you have a stomach ache, or someone says something unkind, or you lose some money, or something is hard for you to take, do you stop to think, "Now wait a minute. GOD is ALL! How will that fact help me out of this?" When you can apply the truth that GOD is ALL to every circumstance, when you can cherish the wonder of it in every breath and every heart-beat then you will truly begin to shine with the knowledge of the SHINING GOD.

Oh yes, My dears, My beloved ones, (for you see I could not become a bright and shining Sun without knowing and loving every form of light) - yes, My beloved ones, you shine with the Light of GOD. The more you accept of GOD, the more you will shine. The more you consciously take the simple thought that GOD is ALL into every activity, every thought, every expression of your daily existence, the more you will shine. The more widely you apply this, the more you will enlarge your thinking and the more you will shine.

Gradually as you develop the equipment, as GOD matures you to be of use within Himerself, as it is your turn to serve, you expand and your

consciousness takes in more and more. You learn to love more, to give more, to take in more. Finally you include enough so that you, too, are able to become World Savior on some planet, later to ensoul a planet, and after aeons of time to ensoul a Sun and a Solar System. You see, I told you that there was so much to tell you and yet so little. When you have finally understood that GOD is ALL, you have the basic fundamental of all the details.

Some of you have been completely dazed when looking at the complicated mathematics upon a blackboard that you have seen pictured as some of your atomic scientists have been attacking a problem. Yet all of that is in your experience; for anyone who is ready to sit in a Group of Light, send forth Light and Power, and accept the ALLNESS OF GOD and communication with Suns has this knowledge developed somewhere in his experience.

You have been told to say, "We are All in the All through the All with the All and by the All." My dears, to Me this is more simple than two and two are four to you. You are also told to say, "We know All in the All through the All with the All and by the All." As you really begin to accept this, then the doors of what you know will open to you as much as you can use in your present life. This is basic; shall we say this is kindergarten material in the lessons of Christ Consciousness. Christ Consciousness begins to dawn when one accepts that GOD is truly ALL, that He she knows all, does all, is all power, all light, all love, all experience, all expression, all existence, both black and white, destructive and constructive, involuntary and evolutionary, cleansing and building, tearing down and renewing, sleeping and waking - GOD is all of it.

Now I would like to tell you that one of you is especially prepared to send forth My Light. One of you has had a full and complete service in every planet in My System and has attained the right to express as a Being within a Sun just as you are now serving as Beings of Light within the Earth. He comes as a special messenger to IMMANUEL from Me. You understand the thought of trace minerals and how you must have a certain amount of one mineral before your body can use others. In this same way there must be some of My Light or the Light of LIOLIA can not be absorbed within the body of IMMANUEL. This is true of the other twelve Suns. It takes a great deal of the Light from the System of Sirius (SOLOGO). For this reason there are very many who have had a long period of service in that System in incarnation in your planet at this time.

You understand that most of those who are now in Groups of Light are wanderers, that you go from System to System developing yourselves through service. You go to a certain planet to serve the highest life form there. To accomplish this properly you do as you might if you were entering one of your factories or businesses to learn it from the ground up as you say. You might begin as a primitive, depending on the length of your proposed service. You would then work up through the various stages of history so that your physical equipment and your expression in the planet would be such that you could serve with the fullest understanding of the race. Wanderers go from Star to Star and from planet to planet as trouble-shooters.

All is one in God and you are sons of many Suns. If you have lived

within a Solar System you are a son of that Sun. Your Holy Book says, "In Him we live and move and have our being." Whenever you live and move and have your being in a System, you are a child of that System and you always have a close tie with it because you are fitted to shed that Light.

Let us say that you are preparing to enter business. You may study in one firm to learn how shoes are made; you go to another firm to learn about suits of clothes; you go to still others to learn about under-garments, socks, the silks or metals for neckwear and decorative jewelry. When you are ready you open a store of your own. You send back to the firms where you have worked to get their product for you know its quality and are sure it will sell. So in serving a Solar System you become especially attuned to be a channel for that particular quality of Light; you are then sent to Systems which need that particular Light ingredient. Joyously you go as messenger to send forth that Light. The soul of you vibrates with bliss because you can share that Light.

May I mention another way to express it. You know what happens to those whose food does not have the right ingredients. There are those in your Southland who suffer from one dread disease and sailors who suffer from another because they lack certain vital substances in their foods. If the Light of any one of the twelve Suns which are so important to IMMANUEL should fail to come forth into your planet in proper amount, the Light of the Great Spiritual Center of the Galaxy, LIOLIA, could not have the healthy, strengthening effect which it should have. The fact that the SOLOGRAPH is being so well received is evidence that all light has been reaching you in proper proportions.

You have been warned that at Christmas time and at Easter, LIOLIA will send through a great deal more Light so that We, too, will have to step up our outpouring. For this reason you must be introduced to the twelve assisting Stars before then. For this reason We have been commanded to open each one of you who represent us to a greater giving forth of power. I believe you say "SOLOGA!" meaning that the WORD of GOD from the SOURCE, the ALPHA and OMEGA is the central thought in your lives. I join you in this and say that We are One in the ALLNESS OF THE ALL. 9/22/1962

In meditation following this message the one named as messenger from this Star sensed himself within its Sun body. As he approached the Light seemed very bright. When he entered he was surprised to find that the temperature was pleasantly cool instead of very hot as he had imagined. The light within was a soft grey which delighted him. We were told that souls go to this Star to learn judgement and discrimination. They are taught how to balance, unite, reconcile or harmonize all opposites.

WE BUILD OUR OWN CEILINGS

SOLOGO: (The highest Spiritual Center of Consciousness in the Solar System of the Star Sirius.) I greet you in love, My children, My own dear shining suns, you who are sons and daughters to Me and suns, centers of Light in the Consciousness of the ALL-Father-Mother, the MOST HIGH GOD. I have now introduced you to twelve Star-Beings who act in relationship to

IMMANUEL in performing His mission through His System as the disciples did for Jesus, a power band, a group of assistants for the giving forth of Light, a group for balancing the ingredients so that the perfected Work may be accomplished.

We will not introduce any new personalities until after the new year begins. This is because from now until then the great inflow of Golden Light from the Spiritual Consciousness of the Galaxy, LIOLIA, will be increasing again. During this month until the peak of the increase at Christmas you may find bodily conditions a little difficult again. You may find yourself suddenly dizzy for no seeming reason, or you may have little pains striking through your body here and there. Do not begin to think that you have heart trouble, stomach ulcers, rheumatism or any such seemingly discordant manifestation. Just know that your body is adjusting to a great deal of the high, invisible Light of LIOLIA.

While your body is being conditioned to this new rate of vibration you should rest as much as possible. Take your work as easily as you can. Do not attempt anything which will put an unusual strain upon your body. Keep warm; try not to get chilled for during this time of increased light many cleansings come in the form of respiratory or digestive unbalance thought of as diseases. Keeping your body warm will help you to throw off these conditions more quickly.

Keep the Christ Light fully drawn around you. Never enter your cars or go out of your houses, never cross a street, without first stopping to know that GOD is doing all these things rightly and that all is well. Take time to know that GOD is driving your car and all the others. This will be a time of danger. Be careful and be attentive to your own protective measures. You have been told again and again to put the Christ Light around yourself and your property every day. Now extend it; put it around all drivers, all ships at sea, all airplanes, and all communications between people. Let the Light surround all mankind's activities in your prayers each day. This is a very important time for the whole world. Rejoice with all your heart for whenever you rejoice in the Christmas season you are sending out the vibrations of LIOLIA and of the MOST HIGH GOD.

After this period of increased reception it will be easier for others to accept and use the name, LIOLIA. Many have not yet been able to overcome their thoughts of resistance to the name IMMANUEL as applied to the Lord of the Sun. You know, My dears, We build our own ceilings and shut ourselves in. We decide that we are for this or that and do not care to go any higher. If a group decides that Jesus is the highest personality from whom they wish to receive, then they shut themselves off from those advanced entities to whom Jesus looks for guidance. Jesus is a very highly advanced Being of Light but he has not yet come to the point of ensouling a planet. Until that time the Christ Earth, IMMANUEL-A, and LIOLIA will have to be recognized as more advanced in the Christ Consciousness.

If a group decides that they are here for the purpose of receiving from Jesus as their highest ceiling then they shut off their opportunities to go any higher. If a church decides, for instance, that since LIOLIA and others are not mentioned in the Bible therefore they are unimportant

or perhaps false, that the Bible is enough for them, then they accept as a ceiling the highest that could be received two thousand years ago.

The Bible is extremely important; much truth is given there which enables man to go forward. The depths of the truth in the Bible have not yet been completely discovered, understood, or absorbed. When those dear ones who now feel that the Bible is their ceiling have digested enough from the Bible they will open to the wealth of GOD-expressions throughout the OMNIVERSE.

Those dear ones who say that the Bible is all that they need have forgotten that they have needed their teachers in the Earth schools, ministers in their churches, doctors, lawyers, and a host of helpers beside the Bible. At the time of Jesus very little was known scientifically about the universe beyond a small part of the surface of the Earth. The general public to whom his messages were directed knew nothing at all of the Solar Systems or Galaxies. Had the Wise Men been writing the Bible it would have been full of star lore; but they were excluded because they were not from Israel. Israel was led to shut her own door as a protection, for along with the astrological knowledge, the Wise Men would have introduced other names for GOD and other messengers of Light. The people of Israel were developed for the purpose of supporting the revelations which came to man through their leaders and prophets, all of which was crowned by the teachings of Jesus. This seeming separation was right and necessary for the time but to completely close the door always results in stagnation at that point.

Man is receiving and will receive revelation after revelation for the Consciousness of GOD is infinite and who can say he has encompassed it all? Beware of those who say that they have the last or the only revelation. No doubt the baby mind feels that he has the last word in two and two are four but each year he is forced to lift his mathematical ceiling. New thinkers in the late nineteen hundreds succeeded in breaking through the ceiling imposed by old orthodoxy, and prepared the way for the great advancements to come as the New Age progresses.

Groups of Light are now bringing through contacts by beam or by telepathy with the Space Brothers, with the Masters of the Earth's development, with the great Beings of Light which are here at this time, with the Christ Jesus of the present, and with the Suns themselves. You are opening up a sky that has no ceiling and no limits. Do not let yourselves be drawn under any ceiling of limitation. Never allow yourselves to say, "I have reached the HIGHEST OF THE HIGH, for always when you pray to the Highest you can reach if you were to get there you would find that One praying to ONE STILL HIGHER. There is an infinite progression upward as far as We have been able to probe in our contacts and communication.

Pray to GOD MOST HIGH for then you will be addressing the highest you can reach. Always pray to the highest you can know. In your loving communications just talk with us. We who are of the Star Systems have told you that We are your Brothers, Brother Suns under the MOST HIGH ALLNESS OF THE ALL.

There is no limit to the enlargement which is before you. At the

present time you are able to contact consciously all that you have ever heard or thought of, but you are not able to penetrate beyond that. As you accept in living brotherhood all creatures, all human expressions of God more and more will be opened to you. In "human" I am using a term which you apply only to man of Earth. You would say about God's human sons who might come to you in some unusual form - having tentacles or oddly shaped bodies - "He is alien; he is not human." In GOD'S eyes he is son. Man is the son of GOD. You consider yourself as human, do you not? But you have been in very strange bodies which you would not imagine in your present consciousness were human at all. You have lived and served among other entities who felt themselves to be sons of GOD and for whom a like term for human in their language was their way of designating their own race.

After this new outpouring of the Light of LIOLIA, you are going to see an enlargement of consciousness throughout all the race of men. You will not be able to check this statement but I will tell you that the consciousness of every organization of existence in the Christ Earth's Aura will be enlarged. You will be able to speak to more, even to stones. Each one should practice handling rocks, flowers, trees and animals with the attempt to communicate with them. Do not be shocked if suddenly you catch a thought from your little dog or cat. Some of you have been channeling telepathically for animals and children for years. You have remarked, "The dog is saying - -" and you have thought you were interpreting his looks or feelings. In reality you were interpreting accurately the thought of the dog.

The real test here is one of learning the meaning of true discrimination. Most people consider that they must learn to separate properly and yet discrimination is more a revelation than it is a separation. It is more a revealing of the total oneness. It is not a setting apart; it is a drawing together. You speak of the superconscious, the subconscious and the selfconscious and sometimes picture them as separate entities: angelic, feminine and masculine. All these are the same consciousness for there is only one consciousness, the Consciousness of GOD.

Man goes to great lengths to learn and to set apart and judge each part. He fails to realize how he must unite before he can see each part in its proper perspective. Let us take for example any machine like an automobile. One never really knows how it works until he has taken it apart, understood the functioning of each piece and then put it back together again. It is the uniting that brings the true revelation, not the separation. Think on this. Dwell upon it, apply it. Remember that it is the uniting that is the crown of discrimination.

You will have opportunity to practice this in the coming weeks in your own life and in your human relations. As the Golden Light of LIOLIA increases tensions will mount. You may find yourself tired, sleepy and irritable. Do not worry about this. Be patient with yourself and others who may be feeling the same tensions. From now until after January 1 tension will be continually increased like a violin string being tightened quite rapidly. A peak in speed of increase will be reached on Christmas

day; then the increase will gradually slow down until the first of January. This does not mean that after that there will be any less of the Light of LIOLIA reaching you but that your bodies will then be adjusted to what has come; your equipment will have been enlarged so that you can receive the added light without discomfort. You have noticed that first contacts with any new entity are harder than those following. It will be the same in this case.

This increase of Light vibration has already begun. That is the reason for all the recent accidents reported in your news. Some people have not been able to stand the increase. Some have had a little dizzy spell at the wheel or become foggy minded and not so alert as needed for safety. In this way people's bodies are shaken up to permit readjustments; they pass tests or they are removed if they cannot go further or if their place is to work from the etheric planes from now on.

There will be such increases of Light at Easter and at Christmas every year from now on until after the year two thousand. Until 1965 they will seem most severe; then there will be a period during which the peaks will not seem so strong. 1963 will be the worst and you are already noticing the effects. During this time the internal problems in certain nations will be so serious that war will be out of the question. There will be rumors, threats and border skirmishes but the domestic problems of the anti-Christ governments will make war almost an impossibility.

Some of you have wondered why the Christmas season is allowed to be so commercialized. The stores have begun their Christmas sales so early, even before Thanksgiving. It has been important to keep the word Christmas in man's thoughts for as long as possible. Even mentioning of the word Christ-mas is a subconscious acceptance of the Christ Light.

You see the Christ is so much more than Jesus himself. The Christ is the Son. You are Sons. The Christ Consciousness is the Son Consciousness. People have thought to attain the Christ Consciousness they must be able to do the works that Jesus did. Every grain of sand has its share of the Christ Consciousness. Father-Mother-Son are three yet one. All consciousness can be thought of as Son or Christ Consciousness.

The very mention of the word Christ in Christmas is like a trumpet call to awaken, given by those who use the word. People who in their own estimation do not believe in GOD at all read the word Christmas in store windows and newspapers. The eye catches it unconsciously and the beckoning call enters the subconscious. This is the opportunity which all the Forces of Light use to their best ability. This is why the Angels can come closer to men at this season. For this reason you do not wish to take down your Christmas decorations until the New Year. Some of you have felt that you would like to keep certain Christmas reminders before you all year long. You wish to hold the Christmas joy and peace in your heart all year.

Send out the Christmas Love and Light, beloved shining stars in your heaven which is the true Christ Earth. Let your beckoning Word go forth mentally, telepathically or in any other way that you can. Remember that every time you say the word, Christmas, you are helping to open the door

a little wider for the whole race of man. SOLOGA, My beloved in the Christ Consciousness! Together, We who are the WORD expressed shine forth with the true Christ Light. 12/4/1962

ALL MOTHERHOOD IS PURE

St. Joseph: I am so grateful for the privilege of speaking to you. I wish to express my humble gratitude and love to you for receiving me and to the channel for so willingly sending forth my message. I, too, am of the line of King David. I am Joseph who was given the privilege of sheltering and teaching the young child, Jesus, of cherishing, nourishing and loving his precious mother, Mary.

Some of you have read that I was older than Mary. This was necessary, for before Jesus could come into his ministry I had to be able to assist him from the invisible planes; also I had to bring to his childhood the calm, gentle forbearance of an older man in Israel. It was my great delight to shelter him. His tiny hands and feet, his wonderful eyes and smile, were sufficient reward for all that a Being of Light must suffer in the Earth life.

I was doubly blessed, for his mother, Mary, as you know, was of the same degree of Light development as was Jesus. You have been told that she is twin ray to him and when twin rays have attained the height of World Savior and Wayshower are equal in development. It was my great privilege therefore to be associated with the wholeness of this Bright Being who was Jesus.

Oh, so much I could tell you and will tell you from time to time. You were speaking of dreams this evening and of my dream to take the young child into Egypt. God was very good to make it possible for me to receive instructions in dreams. We had been taught to accept this form of communication through the experiences of the prophets. Daniel often received his interpretations and instruction in dreams. Joseph was made viceroy in Egypt because he was able to interpret the King's dreams. The culture into which I was born expected one to find guidance from whatever God he worshipped in those dreams which were so real, so brilliant, so clear that he was sure they must be a message. Even the Roman governor's wife had such a dream and tried to warn her husband, Pilate, of the disastrous results of his part in the crucifixion of Jesus. But all this was not what I came to talk about.

I wanted to tell you of the wonderful purity of Mary whom you read of as the Virgin Mother. I wish to tell you that the account of Matthew which you have been reading is accurate. It is not important whether your thought has advanced to where you can accept the possibility of a virgin birth. This should be easier now that man uses artificial insemination in animal husbandry. Still it makes no difference whether you believe that Mary was a virgin or that Jesus was my human son. The thought that you need to accept is that Jesus brought more Light, more understanding, more teachings of how to live in the Earth plane and how to reach GOD from your place of seeming separation. It makes no difference whether you celebrate the birth of Jesus as Christmas or whether you celebrate the birth of

Buddha or some other as the coming of the Son of God, or whether you celebrate it on one day or another. All of these have been controversies over which much mental energy, much effort, many pages and books have been expended; but none are important.

The important thing is that you receive the Christ message within your heart, that whenever this Christ-mass season recurs, however and whenever you turn your thought to it, that you desire to have an enlargement of the Christ Consciousness within yourself, that you desire to bring forth the Christ anew in your own heart and in your own life.

All motherhood is virgin; all motherhood is pure. Does not God produce the activity of procreation, of gestation, and of birth? You have accepted that God is living your life; extend your thought and know that He is living the life of all men and women. If God was Spiritual Father bringing about the human birth, was He any less Spiritual Mother acting in the body of Mary? Was He any less Spiritual Father acting in my body? Is He any less Spiritual Mother acting in the body of that woman whom you might term sinful but concerning whom Jesus said, "Let him who hath no sin cast the first stone at her."

In their uncertainty as to the true meaning of Jesus' message, people in the years following were overwhelmed with the thought that man was "altogether born in sin." Those words are part of the creed and dogma of some of your churches. In reality man is altogether born in God. The other error is only man's prudery and self-righteousness, his failure to understand the openness of natural creativity. For this reason people just freeing themselves from orthodoxy are often sent by their higher Teachers to observe the animals in the field that they may learn that God's creative principle of male and female is pure even among the beasts. It is only man's thinking about it which has caused their misunderstanding. My Mary would still have been Virgin had the son been from my body as well as hers.

There are those who say that in the case of every great world teacher such as Buddha and Lao Tze there are the traditional legends that they were born of virgin mothers. This is the teaching of the GOD Thought to show that all motherhood is pure and virginal. God inhabited the body of every woman who ever gave birth. If you can accept that God gives Himself as the mouse to feed the owl, can you not accept that God gives Himself as mother to bring forth the child and as father to provide the oneness, the sharing, the togetherness of a family.

Wherever you work and teach, when you can do so without offense, help people to understand the utter purity of the Divine expressed even in all seeming impurity. Bless that which seems to you impure and see God there. Bless the very dirt that you sweep from your house and know that it is GOD expressing Himself even there. Bless all, knowing the utter purity of GOD. Thus you bring yourself into a greater understanding of the ALLNESS of GOD.

Thank you for listening and receiving me. As I was father to my son Jesus, so I come to you who are now messengers of Light with the love of a father but also with the love of a brother for while I speak as a more

aged one that you may receive my message, yet I, too, call Jesus my Lord as did King David. May the MOST HIGH GOD bless each one of you and may you feel loved and cherished by the Fatherhood of GOD. SOLOGA! Together we express the WORD as Sons in the service of the Christ. 12/4/1962

I WAS THERE

Zacharias: I am so deeply grateful to be permitted to speak to you this evening. I am that one concerning whom you were reading, the priest who was father of John the Baptist. I have been permitted to come to you although you have been receiving messages from Star Beings, from Lords of Suns and Galaxies, yet they permitted me to bring you a Christmas message because I was there.

I would like to take you in your imagination into the temple with me. You know that the priests were born into the tribe of Levi. Certain numbers served in the temple each year for one month; the rest of the time they lived in their own homes. Our duties in that month were decided by the casting of lots. It fell to me to burn the incense.

I wonder if you have ever known what it would be like to have services in a place where they were sacrificing animals upon an altar. I wonder if you have ever thought of the odors of the butchering, of the burning hair and flesh, and of the blood which was drawn off from the altar through pipes to enrich the temple gardens. After the sacrifices it was impossible to let the people come into the temple until the incense had been burned to make the air sweet smelling again.

Here in the center of your room you have a bouquet of roses whose odors are sweet savors ascending to the Higher Realms as prayers of light and love. Perfume is the highest attainment possible to the vegetable kingdom in your physical manifestation. Those plants, trees or flowers which give forth perfume are the most highly advanced.

In order to make the temple sweet smelling as a dwelling place for GOD we burned incense. We used little pots of metal called censers containing a tiny fire of coals with powdered incense thrown in. We carried these suspended on chains up and down among the pillars in the soft dusk of the temple swinging them back and forth so that there might be no corner in which the offensive odors of the sacrifice might linger.

It was a joy to me to be all alone in this place of GOD. Year in and year out I prayed to GOD that He would give me a son. I had prayed for this for so many years that it became automatic. When I stepped into the temple without thinking I began to pray for a son. Every Jewish man wished to have his name perpetuated through a son. My wife Elisabeth was very dear to me. She was grieving because in our culture a Jewish wife who did not give her husband children was considered only half a wife and valueless like an unfruitful tree. As I prayed year after year and no son came, the words became mere repetition and my prayer was practically without faith.

I had been moving up and down the temple, happy to be in the quiet darkness, sure that I was doing my part to the best of my ability. I came back to the altar of incense where the bright coals were still shining and

the sweet smelling smoke was still rising. As I approached the altar there suddenly appeared this tall radiant form. My mind had just been drifting. It was such a shock to see the light and beauty of the Angel.

When Gabriel told me that I was to have a son, I just couldn't believe him. I had prayed for so many years and not been answered that I felt that it was not GOD's will for me to have a son. The Angel's words came into my ears but they did not penetrate my heart. There was no answering rush of gratitude and joy. I just could not believe it. To help me accept and act within the prophecy GOD blessed me with an unmistakable sign. As soon as I was struck dumb I could believe with my whole heart.

It was as though I had become young again. I felt youth and fire pouring through all my body. I was rejuvenated. Years fell away. Have you ever had a wonderful secret which shone from your eyes so that those who saw you knew that you were holding something so precious within you but were almost afraid to ask about it? When I went to the door to call the people in, my face shone; I was radiant with gratitude and delight but I could not say a word. I had to use my hand and beckon them in. I was not blamed for this. They knew I had seen a vision and they honored that which had come upon me for they knew I had been in touch with GOD.

All through the period until the birth of the child I rejoiced; I went about the usual tasks with such pleasure. The sky was more beautiful, the breeze more cool, and every little animal that I tended more gentle and attractive. My wife seemed so precious; it was a joy to serve her.

The beauty of the Christ who was to be born seemed to overshadow our home. Love blossomed there anew; gentle kindness flowered in every word, in every look, in every act. People who had said little to us for years because we were old and childless were suddenly attracted to us again. Our home became a popular meeting place for although I couldn't speak I could inspire with the strength of my attentive eyes and face, and I could write. I would listen to their conversations and approve or disapprove by signs; then it seemed that some wise teacher by my side would give me just the right thing to say.

During this period preceding the birth of my son, John, I became a wise man, an Elder in Israel to my community. This was a compensation for my not being able to speak. The people of the village respected me because they felt that the hand of GOD was upon me. I spoke seldom and only when I had something pertinent to say. My written words were treasured. Some of them were handed down from father to son until they were lost in the years of invasion and the changes of time.

The final test came when I gave my son the name that the Angel had commanded. This was not my name. Usually a father was complimented by having his first son named after him. It was a thing a man looked forward to. He felt that he would live again in his son of the same name. But the Angel had said that my son's name must be John. When the time came for naming our lovely boy, you know that my friends and relatives following our custom said that his name should be Zacharias. In those days the mother had nothing to say about this important matter but she spoke up

courageously, "No, his name is John." My friends could not accept this until I also wrote, "His name is John." Then I could speak again. The Lord loosed my tongue but He also let His Word of prophecy flow through my mouth. I was greatly moved.

Sometimes our own errors which seem to us so wicked and for which we think we are severely punished are only lessons from which we gain the greatest progress and satisfaction. Had I not doubted I would still have been grateful had the Angel struck me dumb simply as a sign for the experience awakened me; it made me more perceptive. I seemed to be better able to understand the way people felt. Having lost the power of speech, other powers seemed to increase. My heart flowed out in love and understanding to everyone around me. This wonderful gift I did not lose in the rest of my Earth life.

It was such a joy to have so pure, so clean a boy entrusted to us. Not much is said in the Bible about his training; however you have been told that he was taught by the Essenes and this I wish to confirm. We were student members of this body and he was trained in their schools. He was a man set apart, never like other boys, never joining in their sports but always looking to the sky or the wilderness, the animals, the streams, always sensing GOD in everything. He liked the other children of the village but their games did not interest him. It seemed that GOD spoke to him in ideas that he could not impart to us, in thoughts that were beyond our language. We could see this in his eyes. The simple message that he brought to men was but a small part of what he knew. He was able to see into the Realms of Light as you do in your meditations but perhaps GOD permitted him to see more vividly and completely. He heard the music of the spheres. He often heard angels singing.

All of this he put aside that he might do the work to which he was called. He pounded home his message, "Repent ye and prepare the way of the Lord." This was my son, John the Baptist, who prepared for the coming of Christ Jesus. What holy Spirits hovered over our small country of Judea when these two bright, shining souls manifested in the flesh, so different and yet each expressing so much of the Divine.

I would like to give you all the Christmas joy that inspires the Angels and Beings of Light to sing at this season. I hope your hearts will be lifted so high that you too will be able to hear them; however, that will make no difference just so long as you sing with them; Joy to the world, for the Christ is born again within the hearts of men. May your Christmas be the brightest, the holiest, the happiest that you have ever experienced. As your brother, Zacharias, I give you the love of the Christ. I would like you to feel that this night you have been in touch with the vibration of that first Christmas. I hope you can feel that one who was there has brought it to you in Love and in Light. With you I say SOLOGA! May the Word which was flesh and dwelt among us sing in your heart.

12/8/1962

THE BIRTH OF ENLARGED CONSCIOUSNESS

The Angel Gabriel: speaking to my friends, my brothers and sisters

who are reached through the voice of SOLOGA. Christmas greetings from all the band of Angels, from the Hosts of Light, and from the Hierarchies of the various Solar Systems in the Galaxy of LIOLIA.

You first were made aware of my name in your childhood when someone read or told you the story of the Annunciation as you read it tonight. You heard of me as one who came to announce the Will of GOD to men. It has been my privilege to be a messenger of Light in this sphere and many others; I am most grateful and most humble in accepting such a privilege.

The Angels are numberless; there are so very many of us. We serve GOD as faithfully as the beams of light from the Sun shed themselves upon the Earth. We serve as eternally as the water circulates in coming from the clouds, watering the earth, returning to the ocean and again to the clouds in a cycle. Always we have been flashes of Light within the Consciousness of GOD, errand people serving here and there. We do not become Suns or Solar Systems although we assist and companion them. Our achievement is to become so completely one with the will of God that almost before we are told we know our work.

So often the Angelic band has walked with men unrecognized and unnoticed. The power of the Angels is tremendous. We work in many ways that it would be quite impossible to explain in your language. We work in the development of all the various kingdoms. We are scientists of Light. We are differentiated with regard to experience and duties. Some of us work with the clouds and the sky, others with the trees and the flowers, others with little animals, and others with great structures like mountains, rivers and seas. We are technicians carrying out the Will of the Most High, the Creator. We are assigned certain areas for certain periods of time but we are on call to go anywhere in the Omniverse. Since all is the Mind of the Allness of the All, we are able to arrive with the speed of thought where we are supposed to be at the very moment we are needed there.

You may think, "If the Angels are so powerful, why is it that there are these accidents, these tragedies, these apparent failures of a life?" Remember that GOD is living each life. We do the will of GOD. If it is GOD's will for us to help we do what we can. If for the sake of the maturing or the learning of the life the accidents or seeming tragedies are necessary we stand by to assist as soon and as much as is permitted us.

You have been told that there are thousands upon thousands of us at work constantly in the Christ Earth both on the physical and etheric planes. My special task has always been to bear the messages of the Hierarchies of GOD Thought in whatever form they reach me. You will remember I came to you last spring to announce the birth of the New Age, the entering into the New Arc of Consciousness which came into full beauty and glory on February 9, 1962.

Now I come as it is my habit to come at Christmas time to make more vivid in the hearts of men the glory of the coming of the Thought of GOD with such love and power. I come to you again tonight as a messenger of good tidings to tell you that the next year from Christmas to Christmas will find man all over the Earth turning to GOD with greater hunger, greater joy, greater acceptance and greater understanding than has ever been

known upon the Earth in all the ages of its development.

The Solar System has now reached that point in its development where the Light of the great Spiritual Center of the Galaxy can be absorbed more fully, can be built into the consciousness and the light patterns, the structures of all beings within the System. This is extended to all forms of existence in all planets and in space between them. All will be enlarged; all will feel the effects of the Golden Light from this highly evolved, God-like Being who ensouls the body which is the Galaxy.

During this year many people will throw aside all old bonds of thinking and accept the New Age ideas. There will be a going forward from the simple preparatory thought and a blossoming, a flowering of the Truth in so many of its far-reaching implications.

You had a great inventor, Thomas Edison, who made a little bulb with a black sewing thread to resist the flow of electricity. This produced light for forty hours; it was just a beginning. Now look at all the wonder of light that has come as a result of that first little idea. John the Baptist's little idea was, "Prepare for the coming of the Christ Message." Just so those who were the forerunners of the New Age brought through the truth as much as they were able to receive it. Their understanding was like the first little bulb of Thomas Edison. Now in the years to come that truth will expand and grow in the thoughts of men until it is as brilliant as your great banks of light in your sports arenas.

Give man a tiny seed thought and see how it will grow. Each one of your magnificent inventions began with some awkward little home-made contrivance then was perfected through the cooperation of many minds, many administrators and many investors. In like manner the first glimmers of communication between planes, of Eastern philosophies, of metaphysical outreach, of spiritual healing, and the first releases of secret interpretations of man's purpose were but stumblings in the dark in comparison to what man will know and accept in the coming years.

The first great glorious awakening to this will come to you all over the Earth in your next year. By next Christmas you will not be able to remember how little you knew at this Christmas. I, the Angel Gabriel, come to you in joy and blessing to announce the birth of enlarged mental capacities, of enlarged spiritual understanding, of blossoming Christ Consciousness within all units of consciousness in this planet area.

Rejoice and be exceeding glad; sing with the Angels. Carry this knowledge in your heart in expectation for your expectancy will help it to manifest. Sing with us: Glory to GOD in the HIGHEST, and on Earth peace, good will among men. Peace be unto you who carry forward this message and send it out into the Earth. Peace, love and light to all those who will hear, read or accept this word of promise. SOLOGA! Angels, too, express the WORD of GOD in Light.

12/8/1962

VISUALIZE FOR BETTER BROADCASTS

Ixutel: I have told you that I am a messenger from the Spiritual Center of the Galaxy. I am as it were an aide in the staff of those who do the WORD closest to LIOLIA, of those who implement the commands of the

Greatest Spirit evolved in this Galaxy and ensouling the whole. I am a sort of trouble shooter. I was sent to be here within the Earth at this time of crisis.

It has been such a joy to me to be able to find Groups of Light who could receive me consciously and through whom I could send forth the Light of LIOLIA in preparation as John sent forth the Christ Light. It has been a delight to me to come to you week after week and help in the preparation of your bodies for the broadcast of this high vibration of the Thought of GOD, the HIGHEST OF THE HIGH expressing life, love, light and harmony through law in the soul of the Galaxy, our Father-Mother, LIOLIA. As such I have come to you to work in your bodies while others spoke and when you did not know I was about. I have helped to draw you together as one and to develop your ability to send forth.

I am so pleased to tell you that as the months have gone by your usefulness to the Forces of Light has grown immensely. I would not say it has doubled or tripled for it has grown much more than that. In one year you have shot up like giants in your ability to give forth the Light.

Remember that all such broadcasting is done in consciousness. Remember that light is the energy of consciousness so that when you send out light, you must first think it. Even if you are speaking, you have been thinking it first and are then directing it outward with the voice.

You have learned recently that visualization is one of the techniques of telepathy. To hold a thing in mind and see it as you wish the one to see it to whom your message is directed is the technique which has been used in all your visions. Your teachers first visualize what you are to see; they picture it strongly in mind and you receive it telepathically. That is where your visions come from. If you have seen Jesus he has thought that vision of himself into your mind. I have tried to explain this very concisely so that you would realize the value of visualization while you broadcast.

Since this is the Christmas season and since in preparation for it peace has been brought about in so many places of crisis, until there is some pressing disturbance imminent let us visualize the whole Earth bathed in the Light of the Bethlehem Star. Let us visualize the heavens filled with the glory of the singing Angels and all the Earth receiving in the peace of Holy Night.

GOD's day is the time when your senses find GOD outside of you; GOD's night is the time when you turn inward to find GOD. See the Earth, then, and all the people upon it in calm, quiet peace absorbing the joy, the brotherhood, the love of the Christ message. See people happy, loving each other regardless of race or color or nationality. See the lines of Light, which are the energy of loving thought, flowing round and round the Earth lighting every mind and every dwelling place. Visualize this whenever there are power broadcasts or when you are standing at your work or sitting in quiet meditation in your home.

During the month of January the unusual cold will take its toll in the northern hemisphere. Europe and Asia will be quieter as though their aggressive initiative were frozen also. The fighting between India and

China will be stalled by snow in the passes but there will be intensive preparations in both countries for what the spring may unfold. This is an opportunity for the Forces of Light to reach the subconscious while the thoughts of active war are relaxed.

The activity of magnetic currents is intensified by cold. Mapping of the changing paths will continue all winter in the space ships assigned to Earth. There may be a rather wide slowdown in activity and production due to heavy storms and deep snows in northern latitudes. Travel will be slowed and dangerous in many regions. This is the night of the year's day and time to enjoy the inward contacts and home activities.

The peaks of tension are still crucial but express themselves more in psychic depression and devastating cold waves and storms. Activity in the structure of the Earth is slowed in the months of the northern winter. Respiratory and digestive diseases may add their paralyzing effect. It is important to keep GOD's presence vividly in mind for all the Earth.

12/13/1962

CHRISTMAS TOGETHER

Oh, come; let us gather together
again

In the Bethlehem of the heart!

Oh, come; let us listen together
again;

Let us haste ere the Angels depart.

Let us sing with their singing of
peace and good will.

Bring gifts of rejoicing and praise,
Join all who together in brotherhood
fill

With Love these most glorious days.

Oh, Christ Light appearing in Star
and in Sun,

We shine as Thou givest us light,
In gladness continue what Thou hast
begun -

Our rebirth from all that would
blight.

Oh we would enfold Thee, make room in
our inn,

Thou, Jesus, our Savior and Friend!

Oh we would behold Thee and draw Thee
within,

That all in Thy Being may blend.

May we be the sheep nestled near
loving Thee;

May we be Thy little lambs led;

May we be the pure womb that
nourishes Thee;

May we be the manger, Thy bed.

CHRISTMAS DECREE

Let Christmas Love and Light rever-
berate

In echoes dearly blest
Throughout the Earth.

Let Angel songs and trumpets jubi-
late,

Our consciousness invest
With Godly worth.

Let Christmas revelation scintil-
late

Till men pass every test
In strength and mirth.

Let Christmas peace and glory
radiate

The heart's eternal best
In Holy Birth.

(Poems by Ruth of Miami S.L.A.)

JOY TO THE WORLD! THE LORD IS COME! ALLELUIA!

I AM WITH YOU ALWAYS

Jesus: speaking to my brothers and sisters in the Light, in the Christ Consciousness. Understand, my beloved, that you are in the Christ Consciousness. Christ is the Anointed One, the Son, the Word, the Light. The Christ, the Son, expresses itself in the consciousness of the seed or in the grain of sand, in the growth, in the fertility. You may say, "When you thus make the Christ Consciousness universal, have you not spread it so thin that it is no longer of such value?" I hope that will not be your reaction. Instead I hope that this concept will make all of everything more valuable, yourself and your neighbor included.

Where you have been struggling to be an expression of Masterhood before you could be close to the Christ Consciousness, now you will be aware that that which I promised is true. I said, "It is expedient that I go away in the physical body so that I may come to you as the Comforter, as the Holy Spirit speaking in your heart." I said, "I and my Father are one." Christ Consciousness is awareness of this fact. The Christ Consciousness expresses itself fully through the All-Consciousness of GOD. Wherever the Consciousness of GOD is expressed, the Father-Mother-Son Consciousness is made manifest. You know that the ONE includes the Three. Where the One is the Two are; where the Two are, the Three must also be.

I would urge you to reason within yourselves. You have the power of discrimination; now think. Were I to stand in your midst in a human body, could that same body be present in every other city? Stop and think! When I came to Jerusalem in a body, only a few thousand people could hear my voice at one time. As I walked the roads some came and some went. If you have given your life to teaching, you have had more steady pupils than I. People came to follow me for a day or two and then left. They did not stay long enough to understand my Word. They did catch some of the Light which the Suns were sending through me and my disciples to them. Their lives were changed, but not enough.

It was expedient therefore that I should leave in order that I might come to you now. Each one of you has seen me or a symbol of me and has felt my vibration and my presence, some of you more vividly than others. As rapidly as you give yourself to the Father in complete Oneness and as rapidly as your physical vehicles can take it, your ability to see, to hear, to sense my presence in your very flesh will open to you. I have walked with each of you in Spirit at the same time, although you were separated in different houses. If I were in a physical body I could walk with only one of you in your house at a time. Let this be fully understood. Thomas in his Gospel reported my words, "That which you expect has

already come." Know that I am with you always. I do not say I will be with you always; I say I am with you always. I proved this when I appeared to Mary at the tomb, when I came again and again to the disciples gradually lifting their consciousness, gradually opening their inner senses so that as I lifted in higher manifestation they might still remain in contact with me.

I have been with you always. Did I not say to those blessed disciples, "This generation shall not pass until I come again?" Do you think this has not happened? Do you think my prophecy was not fulfilled? Do you think that GOD would permit such words to be spoken through me and not be fulfilled? Precious ones, restudy these words. You are beginning to get some glimpses of their import, but so far you have only been skimming the surface. Dig down deep with what you know. Ponder; ponder my words fully. Throw aside all the dogmas, the expectations, the preachings and the prophecies and get right down to your own understanding and discrimination which you are now bringing through. Your soul knows. Your soul walks with me in a higher plane.

So many beloved ones have been disappointed century after century. There are those who feel that if they are not preaching that I will appear in the sky in a month or so they cannot awaken people to come to me. This seems to be the case for a certain class of people even yet. Those who begin to see the True Light of the Spirit must find me in Spirit. GOD is Spirit. I and my Father are one. Find me in my Father. Find me in the Consciousness of GOD living you. It were better to put your strength of expectation in this branch of study than to be as disappointed as men have been through the centuries.

I came to Paul in great illumination. He understood my second coming fully. I came to the other apostles and they understood it. However through the centuries when man was developing, many things had to be veiled. If you will study my words as reported looking through the veil for the hidden, spiritual implications and tie them in with what the Suns have been telling you about the long period of the soul's unfoldment within the Consciousness of GOD, you will then look upon my teachings as hints for the development of the spirit as it goes ever upward. You will then have the wisdom needed to meet any eventuality and you will not fall into the many pitfalls of your present level of development. You will not be caught in those traps which have been so difficult for men to avoid through those dark ages of misunderstanding the message which I tried to impress upon them.

Now I, too, will say SOLOGA! I reach out my hands to you joining with you as your brother on the same level with you in Spirit, leading because I have been at this a little longer than you in expressing the Consciousness of GOD and the Word of GOD as given in IMMANUEL, the Over-all Consciousness of GOD individualized in this Solar System. This is the meaning of your name, SOLOGA: the Word of GOD expressed in this Solar System in every flick of light, in every grain of sand, in every planet or space between planets - anything that you can think of is the Word of GOD expressing itself on all levels; therefore together in love we say SOLOGA.

11/20/1962

After this lecture the channel remarked: I am thinking of the time when that which Jesus said was too hard for some people to swallow. The disciples came to him and said, "Master, you have offended them." I fear that there will be some people who will not be so happy with the message just given. I know you have seen the churches here in Miami which display signs in electric lights, "Jesus is coming." A beloved teacher answered.

Meister Eckhart: From the beginning of time people have been looking to the sky for GOD. Now you are to look within yourselves and find the sky within you. They have been looking for lightning to strike an enemy dead. Look within yourself and find the GOD-Light to give yourself and your supposed enemy life. No matter how many people are offended, the WORD as it is given must go forth. People may not be able to receive it now; but in the years to come their children will be saved all this waste energy and will learn to put their meditations, their prayers and their yearnings where they belong - within rather than on the outer material planes.

I AM COME

Jesus: Beloved children of Light, you are my brothers and sisters in the service of GOD, the FATHER-MOTHER. I welcome you to this holy hour of worship together, for as I speak the Word of the FATHER I worship in the speaking. I, Jesus your brother speaking to you through the voice lent to me for this time, have promised that I would speak to you for several weeks.

You have been told in your lessons and in your publication that the next step required for man to progress is built on one sentence, "I and my Father are one." This has been extended to you. You and your Father are one. Not only are you one with that which may seem to you to be a far-away GOD but you are one with ALL.

GOD is as close to you as your life is close for HESHE is all the life you can ever have. GOD is closer to you than those who sit beside you for HESHE is your very self. If you are conscious, that consciousness is GOD. If you love, that love is GOD. If you live, that life is GOD. You and the FATHER-MOTHER GOD who is ALL are ONE. If GOD is ALL then HESHE is you and that one sitting beside you as well; therefore, you two are one also. If, then, I, Jesus, am one with GOD, if GOD is ALL, if you and I are one and you are one with GOD, whatever I claim for myself you may claim for yourself. This is something which I am very anxious to give forth to the world.

At the time when I served as some of you are serving in a great effort to help man understand GOD and the universe as much as he was then able, I was put apart on a pedestal as different from other people. It is true that my mission was to prove my Sonship but it was also to prove yours as well as mine. Man at that time could only perceive my Sonship, not his. Because I fed the five thousand, healed the sick and raised the dead, I was a being apart and above all other men in their eyes; and yet this was not so for other men have walked the Earth and done wonderful

things in their Mastery of Life Forces. Because I was thus set aside man did not see the fundamental idea that as the Wayshower I came to prove to man what he is and what he can do.

I am come a light into the darkness; (John 12: 46) now let us expand that. You are come a light into the darkness also. Whatever I, Jesus, am you are! Think of an everbearing orange tree where you will find blossoms, tiny fruit and mature fruit on the same tree. No matter how different they seem they are all oranges. Some apples may be riper than others, brighter, more filled out, more symmetrical but they are all apples. As they mature they serve the purpose for which they were grown. Each of you like the apples are in a different stage of development but you are all sons of GOD; you are also suns of light, shining orbs whose light radiates in a dimension such that your eyes do not always perceive it.

Some of you have seen this higher dimensional light around each other. You have been asked to try to see it radiating outward from yourself, to know that you are the offspring of that which is pure Light. The HIGHEST GOD that one can reach is pure Higher Light, is Consciousness in vibration expressed in the energy of Light. Your equipment is limited in its ability to capture light but with the bodies that you have it is possible to learn to extend and further develop this power. You have developed these skills in other lives but for various good reasons have set them aside so far in this incarnation.

In the past centuries one who claimed to see visions became either a saint or a witch depending upon the thought of man in that locality. If his visions were of Angels or Celestial Beings and if he lived in a monastery, he became a saint. If his vision concerned mundane things, if he was not very beautiful and lived among poor people, all the bad luck of the community was blamed upon him and he was often burned at the stake. Now, however, man has come to a time when he can understand his true nature as an offspring of GOD.

The lamp burning there sheds a soft glow. All of that light is an offspring of the lamp; it is like the lamp; it partakes of the characteristics of the lamp light. You are quite willing to accept that GOD made you in his own image, but what does that mean? It means that you are of the same quality as GOD's qualities. If GOD is Love then you are love. If GOD is Light, then you are light. If GOD is Live, then you are life. If GOD is Truth, then you are truth. If GOD is the Word, then you are the word of GOD expressed.

I, Jesus of Nazareth, am come. I do not say I came; I say I am come that ye might have light, that I might drive the Light into the darkness until there is no darkness at all. What is darkness? Simply the absence of Light. What is Light? The Understanding and Consciousness of GOD expressing itself in activity, in reality, in truth, in your very self at this moment.

I, your brother, came out from GOD earlier than you did, in an earlier life-wave. Beloved ones, there are World-Saviors by the hundreds throughout the Galaxy. All these others come to their race and their

people to show this same thing - oneness with the FATHER-MOTHER, with the HIGHEST OF THE HIGH. All of this is for you. I am come to be the Light for you that you may give it to others.

You may say, "Am I supposed to walk the roads as you did with crowds following me?" No, indeed! Each culture and time is different. In the two thousand years since I manifested in a human body man's equipment has changed. He has been at work developing his emotional and mental bodies and is now at work building his spiritual body. Now he can absorb and give out light which at that time was seemingly unbearable to him. I, Jesus of Nazareth was the forerunner to you. I laid down certain fundamental facts and precepts for you to build upon, but as yet the world has not learned to understand or apply them.

Moses gave you the name of GOD as I AM THAT I AM. Man has puzzled and puzzled over what this may mean. I am that I am to which you refer when you say I am. I am that I am, that one which is you, which is that other person which is that Angel, which is that Sun Being, which is that whole race. I AM THAT I AM. God says I am whatever exists; I am that I am.

I am come to bring Light to dispel the darkness. For years the Groups of Light have been learning this. You have been growing in understanding, feeling your way into certain fundamental facts and yet when you attempt to apply them you seem confused and uncertain. Do your best and wait upon GOD. As you practice and prayerfully seek instruction the mists will gradually dispel and you will become confident that GOD doeth the works through you. Beside listening to my words, you are absorbing the light that I am projecting. God bless you all in your efforts to learn to serve more widely.

Think of Light; accept it; drink it. I am come to give you Light. I am come now to you to give you Light. You are come to send Light through you in the same way to all around you, to all those on the other side of the Earth, to the black and the white, the red and the yellow, the rich and the poor, the sick and the well, the sorrowful and the happy, the time wasters, those who irritate you - still give them all Light.

The Sun does not choose on whom it will shine. Let your Light flow freely. My dears, if you do not, it backs up in you and causes physical difficulties which it is very hard for your friends in the Etheric to balance for you. Just open and let Light flow. Perhaps at first you will not know what you are doing and only a little Light will flow through. It is much like pouring water through a new channel. At first there may be just a small amount, but the water gradually washes away the restraining walls until there is a broader channel through which more can flow. The more you give the more you develop your ability to give.

GOD is everpresent in your life and in the lives of all you touch. The Light which you send forth makes it possible for others to receive more of GOD. You may hesitate; your feelings reach out to touch others and you wonder how they may react and what they are thinking. Release all of that to GOD. Put the lives of others in GOD's hands for GOD is as much present in that other life as in your own. Whatever is true of you is true of your neighbor. If you feel that GOD is caring for you then you must know

that Heshe is caring for those across the street, or that mother with five children and no visible means of support or that little creature for which you felt so sorry when it fell from the tree and seemed to die. GOD is there just as much as Heshe is with you.

The Light spreads; the Light enlarges; the Light uplifts. As you give forth the Light, my beloved, you too rise on wings of Light. Your life becomes filled with joy, with the wonder of close communion with the FATHER-MOTHER who is the ALLNESS OF THE ALL. Light brings you all of this.

I am come. I am with you. I have stood in this place, in this room day after day, meeting after meeting. I have touched each one here. I have knelt beside you and prayed for you to my Father. What else can I do, my beloved ones, to persuade each one of you that I am come to you? I am come to bring you Light. This Light is conscious understanding for GOD is Mind, Consciousness, Thinking, Thought in action. This is the blessing I bring you today.

I ask you to go to your homes and say, "Jesus is come to me here now. He is giving me Light and Understanding. You will read in the pages of the Book "Lo, I am with you always." Does not always mean now? Why then look for me to come later when I am here now? Accept me as I am now and let the future take care of itself in GOD's Hands.

If at some later date within the Will of the FATHER-MOTHER a wonderful manifestation of the presence of a World Savior is possible to you, then it will come and you will rejoice in it; but today rejoice in what you have for you must accept this and believe it before more can come to you. This I, Jesus of Nazareth, speak to you through this willing voice this day. As your faith, so be it unto you.

Oh, FATHER-MOTHER, MOST HIGH, MOST HOLY, we ask Thy blessing each one of these Thy children, Thyself expressed, maturing in Thy Light. Give them understanding which is the root of faith; give them Thy Omniscience, Thy All-Knowing. Help them to open their Consciousness to the Consciousness of the ALL that together we may commune in Thee. May they feel the warmth of Thy Love. May they feel Thy Life expressed fully in them. Thank you, FATHER-MOTHER, for each one, each effort, each thought of good. Amen.

(This address was given at our Vesper Service Sunday, Dec. 30, 1962)

PROPHECIES FOR 1963

GABRIEL: Greetings to all of you, beloved children of the Light. I am the Angel Gabriel speaking through your channel. We have told you that this evening we would attempt to give you some small vision of the coming year. There stand with me many who are helping among whom are my brother, Michael, the prophet, Isaiah, the prophet, Daniel, and the prophet, John. You are always aware of the ever-presence of Jesus-Mary, of those who heal and those who work with you, your own dear Teachers; but these whom I have mentioned are particularly joined with me in consciousness so that this which I will give you is not just of myself alone but the combined thinking of those whom I have mentioned.

You have heard other prophecies of a year's activities. You have heard it explained that nothing can be given you that is absolutely sure for at

this particular time there is so much that is in flow and in flux that changes may be made at a moment's notice depending on the reactions of world leaders or specific individuals to the Light which is pouring out upon you.

You are aware that the Central Sun has been sending you its Light in greatly increased amount during the last month. (December) You have felt enervated, tired, a little fuzzy minded, not always able to call just the word you want to your tongue, or to remember just what you wanted to say. Some of you have been sleepy and have had little pains here and there, suggestions of arthritis which may have caused you concern. You may have had little dizzy spells. You may have found it a little more difficult to avoid small accidents in your daily routine such as spilling or breaking things. This is due to the outpouring of the increased vibration on the higher planes and the stirring of all your being to adjust to it.

You who are sensitized may be more aware of these effects than other people who have not opened themselves to receive the higher light. Then, too, you are not only receiving but you are sending forth also. Your bodies are like an electric wire to pass along the great force of this increase of Golden Light. You will feel this three times especially in the coming year. During your Lenten season the outpouring of Light from the Spiritual Center of the Galaxy will build up to a peak reaching its greatest acceleration on Easter and then tapering off in rate of increase. The same process will recur during July and August and again at the Christmas season. This will be the most severe year of readjustment. The same peaks will recur for several years but with diminishing intensity.

During these periods members of Groups of Light should expect to rest a little more, to keep yourselves more closely attuned to the Light, to meditate more and to consciously send out more, for if you do not send it forth the shock to your nervous system will be greater as the increase seems to pile up within you and demand an outlet. This you know how to do; it is so simple. Just attune yourself to GOD and command your body on all levels to open and let the Light flow through. No more is needed, just your conscious awareness that you are willing. I have spoken of this first because we heard one of you speaking of your recent weariness.

There are many things we would like to tell you tonight. For the coming year the weather will be perhaps the most stirring topic of conversation. You have been told through your news media of the unusual cold already making itself felt in northern North America and Eurasia. Some of your astrologers have predicted a very severe winter. This we confirm. During the month of January there will be a build up of cold and blizzard weather, one pile of snow upon another. There may be a slight January thaw but beginning around January the eighteenth terrible blizzards will sweep across your country and there will be the worst cold weather that you have experienced in a number of years. There will be little relief until Spring.

Even now the winter is more severe in Europe. It will strike the Communist countries very hard. There will be intense cold and deep snows in Tibet, in the Himalayas, in the vast regions of the windy central plains

of China and in Siberia. The railroad across Siberia will be snowed under so that it will be almost impossible to keep it open. Great reaches of plowed land in the Soviet Union will be swept by tremendous blizzards. Wolves will run rampant and other animals driven from the forests by cold and hunger will plague the inhabitants. The Alps mountains will be the recipient of such heavy snows that when the spring comes with its melting time there will be avalanches which will be extremely dangerous. Such conditions will manifest in all northern mountainous areas but particularly in the Alps.

Roads in your country in the north will be almost impassible. Roads through the passes in the Rocky Mountains and the North West will be very dangerous in the spring because of the melting snow, rushing torrents and slides from the higher peaks. Where the mountains are heavily wooded the trees will impede the sweeping of snow slides over the highways but in other areas roads will be too dangerous and will be closed to traffic. As these heavy snows melt there will be unusually high flood waters. The Mississippi Valley is always a place of danger after very heavy snows. There will be heavy floods in the Mississippi and all its tributaries. There will be floods in the great rivers of Europe. You may not hear of the floods in the Soviet Union since they have a great desire to keep the Western World from knowing about any situation which seems to be troublesome to them. China, too, will cover up news of the distress which will come because of the very cold winter.

The cold in the northern part of China around the capital will slow up military activities, but training of troops will still continue in the southern part and for this reason the countries south of China, Laos and Viet Nam will still be in danger of Communist aggression. All through those countries that are stirring with a desire for freedom, there will continue to be unrest, troubles breaking out here and there especially throughout Africa and the Arab countries. A constant change in political structure is going on where the common man is elbowing his way into a greater understanding of what the word, freedom means.

Here and there throughout Africa there will be miscalculations as to proper governmental policies. There will be unrest, disorders and the overthrow of governments. This will continue at an accelerated rate in South America until the people themselves awaken to the danger of Communist infiltration and join together for a concerted effort against the enemies within. They will become aware of the expensive results of the unrest of smaller factions attempting to seize the government to satisfy their own greed. The people themselves will demand a more stable government. This will go on for the next several years, but in time South America and the Latin countries will be awakening to the need for greater control of their destiny and will evolve a democratic government which will be distinctly their own.

One of you is hoping that there will be something said about southern Europe. There will be some shakings in the mountains and some eruption of volcanoes but there will not be the constant danger from the testing of enormous atomic devices. The thought of both your country and of the

Soviet Union is turning from further destruction to the exploration of space and to a cooperation which will make it possible to contact other planets in the Solar System. Your country leads in many devices and techniques but the Soviet Union has its contribution to make. Together the two great nations helped by scientists from other countries will be working on such an important program that differences will slide more and more into the background.

There will be continual disturbances around Berlin. It will take some years to work that situation out but it is possible that a solution may come sooner depending more upon results of inner party activity among the Communists. Khrushchev has demonstrated his ability to stay on top with his policy of co-existence. This is proving to be practical; and while the Western World will be on edge, delayed, disturbed and annoyed nevertheless they have grown to the place where they can meet the disturbances with firmness and strength.

The Cuban situation has cleared the air tremendously. Even China has learned that she must draw in her horns and bow to the will of the majority. The danger from China is not now as great as was foreseen during this year. The Soviets will be much more careful about sharing their atomic secrets than they have been because they fear that China will turn her power upon them.

Politically the Earth will be calmer than it has been. There will be unrest, disturbances, rumors and border conflicts. There will be crises continuing; but you in America will meet these with greater stability, knowing that you stand together as one in the same strength which you manifested in the Cuban crisis. The Cuban situation will continue to be troublesome. More effort from within Cuba itself will have to be put into any attempt to overthrow Castro. It would take much more than a Bay of Pigs invasion to unseat him. Your government has been warned that repercussions of an attempt at intervention would be so far-reaching as to upset the delicate balance of ideas in so many areas of the world's population, that at present it is better to follow a policy of containment and careful surveillance.

Russia is aware that she cannot use Cuba as she had hoped. It has become too hot for her and for this reason she has withdrawn many and is constantly withdrawing more. She will muddy the waters with continual loud noises in sympathy with Castro's desires but these will be more to keep Castro satisfied so that she can use him again if the situation should change. Castro has proved himself uncooperative and unreliable. The whole situation was too expensive. Within Russia itself there are and will continue to be disturbing crises among the common people. They are dissatisfied with their lot and will make demands which the government must meet. For this reason Cuba is written off as an investment at present.

Castro himself is unhappy. He did not receive from the Russians what he had hoped. The United States blocked his dreams of glory as leader of Latin America and welcomed the returned prisoners with too much public rejoicing. He does not know which way to turn. His own people are

more and more against him. He will be quiet for some time because he can do no more than this. His hands will be full of internal problems. There will not be so much said about Cubans organizing underground movements in other American countries, for Castro will need his money and his people to meet his own crises at home.

The sun will smile quite warmly during the summer. You will have one of the hottest summers you have known. In some ways the year of 1963 will be the critical year with regard to weather. There will be greater storms, more sunstrokes, greater extremes of heat and cold. More people will be hurt on the highways, more people destroyed again in tornadoes and storms.

The Pacific will be especially stormy. The coast of Viet Nam, the islands of the Pacific, the Phillipines, Japan and others will suffer greatly. The China coast from Shanghai south will be in great danger. During the winter there will be great storms in the northern Pacific. Your own Northwest will find a stormy year ahead. More great winds are in store, more heavy seas and a hotter summer with unseasonable cold spells during the heat.

Your own weather in south Florida will be pleasant. We do not see much more cold for you. The cold will largely be centered across the north from the Rockies to the Atlantic and through the southwestern plains. There may be more cold in the northern part of your state but you, yourselves, will have a pleasant winter. It will be dry but pleasant.

Throughout your country you will be annoyed by a crop of different organizations which are anti this or anti that. This is bringing to the surface of old prejudices which must be swept away by bringing them strongly into the light. This is what is known as chemicalization of thought and is the necessary reaction to the greater spiritual Light which you are receiving. There will still be these prophets of doom sending out their disturbing forecasts, but there will be less and less of them; for as each one sets a date which passes without the realization of his expectations, he and his followers are forced to learn discrimination. There will be a turning more to the spiritual interpretation of all prophecies, all symbolisms and all matters of theology and philosophy.

Mathematics will tend toward spirituality. Scientists will open their thought as never before to spiritual things. They will reach out toward life throughout the Omniverse. More scientists will put aside their hard and fast dogmatism and will say, "This may be possible. We cannot say that it is impossible." Explorations such as your Venus probe will bring forth much that is new and many unusual facts will be disclosed. You will find your scientific magazines enthralling reading if you have the background to enjoy them. Popular scientific magazines will increase in number to satisfy the public interest. More and more religion and science will walk hand in hand. Ministers will become more scientific and scientists will become more deeply spiritual.

In your politics there will be the continued hassle back and forth back and forth between those who desire what you call the pork barrel; but your two major parties are coming closer together in their thinking. There will again be sweeping political clean-ups. It is growing harder and

harder for people to get away with graft in politics. People are demanding better accounting. For this reason taxes will be somewhat lowered for you. It will be a small amount but it will be a step toward that for which you hope.

Germany will flourish under the new government which will come into being when her present leader steps down. France will grow more closely united internally now that the Algerian problem is somewhat settled. Italy will find new ways of manufacturing so that financial progress will be more equally shared. England will still have some labor difficulties. She will find that she must join more closely with other nations and will make progress in becoming one with the Brotherhood of Nations. The small countries south of Germany will be troubled with earthquakes. There will be unrest and political difficulties there which will express in earthquakes. There will be unrest in Egypt and the Arab countries. India and Pakistan will be drawn closer by fear of a common enemy and will find a new basis for friendship. Canada and the United States will work more closely together in certain projects for developing the use of atomic energy for the good of all mankind.

More students will be sent for atomic training to the United States from other nations and from South America. The colleges will need more scientific enlargement. The government will find it necessary to spend more money on the schools of science in order that they may provide the teaching for all of those foreign students as well as for the greater numbers turning to this line of study in your own country.

Your country will grow spiritually. We see no great upheavals or danger. We do see an unfolding, a stirring spiritually, a seeking among all peoples, Jew and Gentile, Catholic and Protestant, orthodox and free spirits. Men on the street who have hitherto paid little attention to religious matters will be interested in reading newspaper columns dealing with more scientific religion. Little magazines such as Science of Mind will have a greater appeal. Your publication, the SOLOGRAPH, will more than double its circulation during this year. As more people become aware of your messages sufficient finances will flow into your publication fund.

We do not anticipate a move as a group from this cottage chapel during this year. We expect you to grow gradually; this is important to you. It is necessary that you bring in those who will harmonize and not those who are still in the vibration of jealousy, back-biting and criticism. It is important that your group grow together in unity and oneness; for this reason we shall continue to screen those who come. If their bodies are not compatible to the vibration of the whole, if their thoughts are on such a level that they will produce discord, and for other reasons we ourselves will see to it that they are not desirous of staying with you. Many will come to you; some will stay. Those who do stay will tend to be permanent and to grow into the oneness which you have established.

You have been told, and I repeat, that for each one of you the year ahead will be one of tremendous growth. You were told that by next Christmas you would hardly recognize yourself as the same person because of your added abilities and the knowledge which will unfold for you during the com-

ing year. You will help this by your acceptance of the Light of LIOLIA. You pray to GOD, to the ALLNESS OF THE ALL, to the MOST HIGH GOD. You have seen in your visions of the last several weeks that all Light comes from the ALLNESS OF THE ALL and passes to us through the Highly Evolved Centers of the various organizations of LIGHT. You are aware that LIOLIA is the Spiritual Center of our Galaxy and that all Light which reaches you must come through this High Spiritual Being. You are aware, too, that no light can reach you unless it comes through your own Solar System; therefore IMMANUEL-IMMANUELA should be much in your thoughts and prayers also. You are aware that Jesus-Mary is drawing closer to you than ever before. This Great One, too, should be much in your love and gratitude.

Daily you should be aware that you walk and talk with the World Savior - each one of you - that you are constantly in the thought of the Central Spirit of the Solar System and that you are consciously and constantly being guarded and guided by the Spiritual Center of the Galaxy. Inasmuch as the name LIOLIA came to the world through your group, you yourselves should find this name potent and health-giving in your daily life. There will be tests for each one of you from time to time. These will be for the purpose of strengthening your determination to serve and your ties in oneness with the group. You may feel that life requires you to separate yourself from your meditation or Chapel meetings. Beware! This is but a call to come more fully into the higher fellowship by realizing your need for the group activities and the higher vibrations in which you sit here, and to stand firm in your appreciation of the privilege which is yours in connection with SOLOGA.

Psychic storms will come and go throughout the world. As you realize your opportunities more fully you will meet them with the strength of the Light which you pour out. The cooperative efforts of all Messengers of Light in your area have succeeded in recharting the course of hurricanes. We will continue to work with you on this. We see no great disasters for your area in the coming hurricane season; we do know that you will continue to send out light, strength and power to help protect all shores from storms.

Great progress will be made in both Arctic and Antarctic explorations. The Andes Mountains will be troubled. There is greater structural tension from Mexico southward since there are fewer Groups of Light broadcasting to these areas. Travel in the air will still be hazardous since the magnetic currents are still unsettled. Accidents will continue. We have moved into a time of difficult planetary oppositions. Surround yourself and all that you possess with Light; hold yourself constantly in the pure white Light of the Christ. Increase your visualization of the force field of Light around you so that you may be protected from the stress due to the opposition of the two great planets during the coming year.

Your scientists will continue to go deeper into the ocean. More of the contours of the ocean floors will be mapped and this knowledge will come into your awareness. More will be learned archaeologically. There will be more discoveries of manuscripts and more confirmation of some of the things which you and other Groups of Light are receiving. Much growth

in discrimination will be made in all Groups of Light. They will be forced to this when that which they expect materially does not come to pass. They will begin to seek higher spiritual interpretations for what they have been receiving.

Your President has safely passed the most dangerous time in his particular life and can look forward to a vigorous administration during the coming year. More and more he will grasp the reins of government in his own wise thinking. He has had to do wome growing by means of experience and through everything he has learned a great deal. It is necessary that he do make the decisions, for he is being guided by the highest thought of men of Earth and by the high sources of Spiritual Life which impress him intuitively. He is a man of prayer; he seeks guidance and receives it. He keeps his own counsel, but as he walks the halls of the White House and stands before the pictures of Washington, Lincoln and other great leaders, he is aware of their influence and their power. He knows he has the help of Divine Guidance. Whatever man attains such a position must grow in communication with the Higher Realms whether he is conscious of it or not. Have no fears. No matter what the seeming problem, there will come decisions which will enlarge the consciousness of mankind even though at times they may seem to be unwise.

We see a growing warmth of love and friendliness expressed in your country. We see a breaking down of barriers, many who are willing to speak a cheery word to all they meet. Smiles will open many doors; many hearts will be warmed by friendship expressed by a passer-by whom they have not seen before nor will again.

Cities will continue to grow. The farmers will find it a difficult summer. Floods will trouble them, unseasonable scorching hot weather, dust storms, tornadoes, all of the disturbances of weather. South Florida should be able to get in some good crops before it becomes too dry. Those who have irrigation will do better than those who depend on the weather for their water.

Business will be exceptionally good. The development of so many new manufacturing processes will bring prosperity to some areas. Some businesses may decline during the change-over but new things will gradually absorb most of the old. The explosion of population in time to come will be a great problem and must be dealt with; but there are vast stretches of your continent unused, vast resources yet untapped, many new processes to be explored, which will take care of such a situation for some time to come.

Be at peace in your heart. Look forward to a year of tensions in various ways but a year in which you can see Light and Peace. Keep in your thoughts, "GOD is the Primal Will to Good and Heshu is in charge." Center your thought in the fact that GOD is living all governmental officials, and that thoughts of good poured out to them from the ever increasing numbers of Groups of Light will meet and solve many problems.

Let your thoughts of light rest upon those who are searching for cures for diseases, upon hospitals and insane asylums, upon all who are depressed and discouraged. You are physicians of Light serving your whole

nation. You are not limited to one area. Send out prayers for good to all; treat all with Light, all delinquent children, all prisons, all old people and orphans, all who are going through deep waters. Send out the Love of GOD generally. This will be done by so many people all over the world that in time conditions will greatly improve. This year of 1963 will be a time of great tension for many people, but for you who have learned to put your trust fully in the MOST HIGH GOD it will be a year of learning to remain stable, to be a strong lighthouse, a rock of power, to send forth the Light of God to all the Earth.

The Christ Earth Himerself has been enlightened and enlarged in consciousness. Hiser meditations have been of great value to all within the limits of Hiser Being. Hese is adjusting beautifully to the strains and tensions caused by the outpourings of the past year. You have entered the new Arc of Consciousness with a general chemicalization, a renewal, a rebuilding. The Christ Earth has benefited more than anyone upon it. This High Spiritual Being has taken a tighter hold upon Hiser physical constitution and is pouring Hiser own Light out to the life upon Himer in greater strength. Hese is rebuffing the darkness and pouring out the Light. Send your love and light to this highly evolved Spirit in whom you live and move and have your being at present, as do all of us when we serve within Hiser aura.

May God bless each one of you as you move forward in the coming year. May you walk always in the path of Light that leads forever upward, knowing that Legions of Angels, the Heavenly Hosts, the Golden Legion and all the Forces of Light are constantly at your command. You have but to think of us and find us in your consciousness. May God bless you richly with Divine Light, Enlargement, Understanding and Love. SOLOGA! May you realize the glory of your own sonship, of your own expression of the Word of the ALPHA AND OMEGA in your life both individually and as a group. 12/29/1962

BUILD A STRONG FOUNDATION

St. Anne: My dear brothers and sisters, I have been with you in every meeting of your group, but this is the first time I have spoken to you. You will know me as St. Anne, the mother of Mary who was mother of Jesus. I have been helping you with your healing. My special mission at present is healing. Perhaps some of you have heard the channel say that she did not know for a long time that I was working through her but I have been, even when she was acting as a Christian Science practitioner. In that church she was not permitted to know who was helping her other than GOD and Jesus.

I have stayed in the background this length of time working to draw your unit together. It is necessary that a strong foundation be built in any Group of Light. If you will think back you will remember that the prophets began to speak of the coming of Jesus 750 to 1000 years before he appeared. All of this was laying a foundation for his coming. You are bringing to the world a Name and an idea of which most people have not heard. You are bringing to the world the thought of enlargement of consciousness to include the existence of the whole Galaxy as a Oneness.

You have been taught that you live and move and have your being in GOD.

This you accept and of course it is true. A baby before it is born lives, moves and has its being within the physical body of its Earth mother. Most of you have experienced in some way the expression of the baby within the mother. You know that it quickens before its birth, that its little body kicks and moves within the body of the mother. It is a separate entity, yet it lives and moves and has its being within the body of another being.

Men have spoken of the Earth as Mother Earth. There is reason in this for we do live and move and have our being within the Earth. Just as the baby draws sustenance from the bloodstream of the mother, so we draw sustenance from the life of the Earth. Without the support of the Earth you could not manifest in your present type of physical being for your body is made up of the chemicals, minerals and substances which are to be found in the Earth. If you were manifesting out in space your body would be quite different. The physical body which you think of as you, lives, moves and has its being within this spiritual identity of the Christ Earth, which should be called Father-Mother Earth and not just Mother Earth since it is a highly advanced spiritual whole.

Early peoples thought of the Sun as the Father and the Earth as the Mother for they recognized that the life upon the Earth required the contribution of the two. Without the sunlight, no plants would grow. Without the Earth, no plants could grow. The two together seemed like parents of all that manifested life in all kingdoms.

You may say that you live, move, and have your being in the Christ Earth but you also live, move and have your being, as does the Christ Earth, in the body of this Solar System, in that highly evolved Spiritual Entity which we are told to call IMMANUEL-IMMANUELA. However, this Solar System and many other Systems have their Being within the Galaxy. You are an offspring within Father-Mother Earth, Father-Mother Solar System and Father-Mother Galaxy. All of these include you in their own existences.

This may be a little difficult for you to understand, but it will help if you will compare yourself to an atom living in a cell in an organ in your own body such as the heart. The atom, yourself, would be living in the cell - your planet, in the organ - your Solar System, in your body - like your Galaxy. In this comparison you see an exact symbolism of your own relationship to the Christ Earth, the Christ Solar System, and the Christ Galaxy, all of which are Sons of GOD on different levels of evolution. This is fully known and understood in the Realms of Light by those who serve you.

I, who was mother to Mary, declare that as messengers of Light you are manifesting at this time to give forth this thought, to enlarge man's consciousness so that he may partake of the Light of the whole Galaxy as expressed through the Golden Spiritual Center, LIOLIA. After man has come this far it is then easy to widen your understanding and know that the Galaxy is but a part of a still greater Being. When once you perceive this idea of enlargement and begin to use it, there is no limit to what you can do.

There were some hints of this idea in earlier religions. The Essenes grasped some hints of it. The Kabala and the Tarot have suggestions of it.

Your modern science fiction plays with it occasionally. But in your language and to your people there have been only a few in the Groups of Light who have mentioned the Spiritual Center of the Galaxy as a LIVING ENTITY. This new idea is being born at this Christmas Season - man's understanding that he is part of the Galaxy and that the Galaxy is Father-Mother to him.

I have been with you, helping you, that your bodies might be tuned and strengthened and that there might be a working group which would faithfully support this thought. I have worked like a weaver tying threads of light to make you one. This you proved last week when one of your number was compelled to stay at home and received the same meditation lesson which the group was given. If those who cannot be present, even those in distant cities, will tune in at your time of meditation (about 10:00 P.M. Saturdays) they too will be able to partake of the instruction, of the vibrations, of the tuning and of the great blessing that is here for them.

One year, lacking a few days, has been spent in the consolidation of your group that you might be strong in oneness. Many throughout your country and in far distant places are being drawn into your focus of consciousness. This has been going on in all Groups of Light everywhere. Numbers in your local group are not what counts at this time. Those who have not been able to fit in have slipped away and others have come to take their places. Some have had other work to do and paused with you for a short time to establish ties which may mean a great deal later. This has been a sort of sifting and shuffling until groups could steady themselves and be sure of their purpose, and until individuals could make basic decisions. Only as a group does become one together can it support a later growth. It would be suicidal to draw to yourselves a tremendous number before you have a strong inner foundation.

I would call to your attention the fact that Jesus first chose four: James and John, Peter and Andrew, all of whom were closely associated karmically, attuned physically, strong in their beliefs, and able to be woven into a four-cornered foundation. Often you hear that Jesus took with him Peter, James and John. Andrew is not so frequently mentioned but he was one of the four corners of the four-square foundation for the work that Jesus did.

Now that you have been together for the year, now that you have become acquainted with LIOLIA, with IMMANUEL-IMMANUELA and the twelve stars that particularly serve IMMANUEL, it is possible for us to bring to you many other associations and many new contacts. The new year will see a widening of contacts in all Groups of Light. All who are willing will receive many who will enrich their understanding of the truth. The skeleton has been laid down in the fundamental that GOD IS ALL. It has been extended in the fundamental that you are one with GOD and one in the Body of the great Suns of Light who are so much older and more highly evolved and who express in a wider personality and individuality within the Mind of GOD.

I have been with you as teacher and helper, although I have not spoken to you before. I have been adjusting each of your bodies so that the healing power of the Christ Consciousness might flow through you more readily. It is written of me that while I was being mother to Mary and while she was

This you accept and of course it is true. A baby before it is born lives, moves and has its being within the physical body of its Earth mother. Most of you have experienced in some way the expression of the baby within the mother. You know that it quickens before its birth, that its little body kicks and moves within the body of the mother. It is a separate entity, yet it lives and moves and has its being within the body of another being.

Men have spoken of the Earth as Mother Earth. There is reason in this for we do live and move and have our being within the Earth. Just as the baby draws sustenance from the bloodstream of the mother, so we draw sustenance from the life of the Earth. Without the support of the Earth you could not manifest in your present type of physical being for your body is made up of the chemicals, minerals and substances which are to be found in the Earth. If you were manifesting out in space your body would be quite different. The physical body which you think of as you, lives, moves and has its being within this spiritual identity of the Christ Earth, which should be called Father-Mother Earth and not just Mother Earth since it is a highly advanced spiritual whole.

Early peoples thought of the Sun as the Father and the Earth as the Mother for they recognized that the life upon the Earth required the contribution of the two. Without the sunlight, no plants would grow. Without the Earth, no plants could grow. The two together seemed like parents of all that manifested life in all kingdoms.

You may say that you live, move, and have your being in the Christ Earth but you also live, move and have your being, as does the Christ Earth, in the body of this Solar System, in that highly evolved Spiritual Entity which we are told to call IMMANUEL-IMMANUELA. However, this Solar System and many other Systems have their Being within the Galaxy. You are an offspring within Father-Mother Earth, Father-Mother Solar System and Father-Mother Galaxy. All of these include you in their own existences.

This may be a little difficult for you to understand, but it will help if you will compare yourself to an atom living in a cell in an organ in your own body such as the heart. The atom, yourself, would be living in the cell - your planet, in the organ - your Solar System, in your body - like your Galaxy. In this comparison you see an exact symbolism of your own relationship to the Christ Earth, the Christ Solar System, and the Christ Galaxy, all of which are Sons of GOD on different levels of evolution. This is fully known and understood in the Realms of Light by those who serve you.

I, who was mother to Mary, declare that as messengers of Light you are manifesting at this time to give forth this thought, to enlarge man's consciousness so that he may partake of the Light of the whole Galaxy as expressed through the Golden Spiritual Center, LIOLIA. After man has come this far it is then easy to widen your understanding and know that the Galaxy is but a part of a still greater Being. When once you perceive this idea of enlargement and begin to use it, there is no limit to what you can do.

There were some hints of this idea in earlier religions. The Essenes grasped some hints of it. The Kabala and the Tarot have suggestions of it.

Your modern science fiction plays with it occasionally. But in your language and to your people there have been only a few in the Groups of Light who have mentioned the Spiritual Center of the Galaxy as a LIVING ENTITY. This new idea is being born at this Christmas Season - man's understanding that he is part of the Galaxy and that the Galaxy is Father-Mother to him.

I have been with you, helping you, that your bodies might be tuned and strengthened and that there might be a working group which would faithfully support this thought. I have worked like a weaver tying threads of light to make you one. This you proved last week when one of your number was compelled to stay at home and received the same meditation lesson which the group was given. If those who cannot be present, even those in distant cities, will tune in at your time of meditation (about 10:00 P.M. Saturdays) they too will be able to partake of the instruction, of the vibrations, of the tuning and of the great blessing that is here for them.

One year, lacking a few days, has been spent in the consolidation of your group that you might be strong in oneness. Many throughout your country and in far distant places are being drawn into your focus of consciousness. This has been going on in all Groups of Light everywhere. Numbers in your local group are not what counts at this time. Those who have not been able to fit in have slipped away and others have come to take their places. Some have had other work to do and paused with you for a short time to establish ties which may mean a great deal later. This has been a sort of sifting and shuffling until groups could steady themselves and be sure of their purpose, and until individuals could make basic decisions. Only as a group does become one together can it support a later growth. It would be suicidal to draw to yourselves a tremendous number before you have a strong inner foundation.

I would call to your attention the fact that Jesus first chose four: James and John, Peter and Andrew, all of whom were closely associated karmically, attuned physically, strong in their beliefs, and able to be woven into a four-cornered foundation. Often you hear that Jesus took with him Peter, James and John. Andrew is not so frequently mentioned but he was one of the four corners of the four-square foundation for the work that Jesus did.

Now that you have been together for the year, now that you have become acquainted with LIOLIA, with IMMANUEL-IMMANUELA and the twelve stars that particularly serve IMMANUEL, it is possible for us to bring to you many other associations and many new contacts. The new year will see a widening of contacts in all Groups of Light. All who are willing will receive many who will enrich their understanding of the truth. The skeleton has been laid down in the fundamental that GOD IS ALL. It has been extended in the fundamental that you are one with GOD and one in the Body of the great Suns of Light who are so much older and more highly evolved and who express in a wider personality and individuality within the Mind of GOD.

I have been with you as teacher and helper, although I have not spoken to you before. I have been adjusting each of your bodies so that the healing power of the Christ Consciousness might flow through you more readily. It is written of me that while I was being mother to Mary and while she was

still in my body, the strength of the Christ was so strong in overshadowing me that those of the Essenes who were our friends and who were clairvoyant were able to see streams of Light pouring from my hands. People were healed just by our passing or looking at them. I say "our" because Mary and I together inhabited the same body for the time.

It was a tremendous blessing to be permitted to help bring forth this great advanced Being who you now know as Jesus-Mary or Esu-Maria. They are one Being; they are not two, they are just one. They may manifest as two but they are one now and they were one then, not consciously in the physical life at all times, but always consciously so in the higher expressions in the etheric realms. It was a great privilege for my husband, Joachim, and me to manifest in the line of David and be forerunners to prepare the whole community and countryside of Nazareth for this expression. From our very babyhood the Light of this Bright Soul, Jesus-Mary, poured through us to attune the rocks, the plant life and the animals to harmony with that which was to be born, that from infancy Mary and then Jesus might fulfill all that was needed so that the work of the Wayshower, of the World Savior, might be introduced.

In that time civilization was much less advanced than it is in your day and men's minds were not as highly developed. They were just a step away from the heathen errors around them, from the beastiality which descended upon them through their wrong living and through the degeneration of the Light which had come to them from time to time. It was necessary that this whole place be cleansed of error.

Before your meeting someone asked, "Are there dark forces that fight us?" You will remember that Jesus said, "Have I been so long time with you and hast thou not known me, Philip? He that hath seen me hath seen the Father." In like manner I would ask you, "Have you for a year been knowing that GOD IS ALL and still are not aware of the fact that dark forces exist only in the minds of those who believe in them?" Your fear of them, your belief in them gives them their only power or reality.

The whole hillside of Galilee around Nazareth had to be cleansed by the pouring in of Light so that nothing of man could harm the baby Mary or the child Jesus. This was our office as children and adults, for we too were old, like Elizabeth and Zacharias, before Mary came to us. We had had a long life of pouring out the Christ Light before we were fully prepared physically and spiritually to shelter the baby who was half of the Christed One and whom we gave to the temple after three years in our home. This was not so hard to do as you might imagine, for we knew that the dear one who left us was not just a baby girl but a Bright Spirit too great for the body which it inhabited. Just as Judea was fortunate to have Jesus as its minister for three years, so we were fortunate to be able to shelter this expression of the Christed One for the same time of three years.

Yes, we were honored and grateful beyond all men and women in that privilege, for from the tiny form as she grew the sweetness and light of the Heavenly Father continually flowed out and blessed us. Had she not been veiled the countryside would have been illuminated so that there could not have been night there. Had not Jesus been veiled, when the two

of them were together the light would have been so strong that the tender plants would have withered in its presence.

You have no conception of the greatness of this Being who calls himself your brother and sister, this wonderful Wayshower and World Savior, Jesus-Mary. And yet so humble is this Being that heshe would walk with you as you are. I do not tell you these things to place himer so far above you. I tell you that you may know how GOD loves you and all mankind. You remember that Jesus said, "Thou shalt love thy neighbor as thyself." Remember that GOD loves you as Himerself for you are Himerself expressed. So does Heshe love all - those troublemakers in your life as well as you, those irritants, those seemingly heathen witch doctors, those aggressive nationals who cause you fear and tension. So does Heshe love all that which you might call dirt beneath your feet, for it is an expression of Himerself within Himerself. GOD so loved Himerself that Heshe expressed Himerself as you, as the Christ Earth, as IMMANUEL-IMMANUELA the Christed Solar System, as LIOLIA the Christed Galaxy in which you live and move and have your being.

You will call me St. Anne, but you will know that I would not have been chosen to be the mother of Mary if that were my only individuality or my only attainment. I, too, am a Being of Light. I count it a joy and privilege to serve with you who also are Beings of Light and with all who will receive this message. You, too, are Beings of Light come here to serve, you on one plane and I on another. Your mission is strong and important for you bring through the Christed Allness of the Sun Systems, Sonship in the Mind of GOD.

You bring the message that the Star of Bethlehem shown for all men and not just for one little baby in Judea. The song of the Angels was for all men, for you and for those whom you think have not yet heard the message, for the Angel's song penetrates the being even though it seems to express itself in a primitive form. Such Beings of Light as you are and I am have often expressed in the most primitive societies in order that our bodies might bring through the Light needed for the advancement of that race of people.

Remember, then, that all is GOD, but that GOD expresses Himerself in growth and enlargement. All have the same opportunity as the aeons roll by to achieve the level of a Jesus-Mary, an IMMANUEL-IMMANUELA, or a LIOLIA.

I who am known as St. Anne am a permanent Teacher and Sponsor of SOLOGA in its Earth manifestation. As such I give you all my love and all the Light possible in humble service. May GOD bless you with the happiest, most joyful and most peaceful year you have ever known. SOLOGA, my dears! We join hands as one in our progress upward and in our service to the Earth.

12/15/1962

We must explain that in order to try to give you the Christmas messages in season we had to interrupt the sequence of the introduction of the twelve sustaining Stars and although St. Anne and others have mentioned the fact that we have received this information we have not as yet been

able to include them all in our SOLOGRAPH. This material will be released to you as rapidly as possible. At the end of that time we will give you a chart of the Twelve and their special properties.

During the past year we have several times been held back in our publication schedule. We have been told that we must not release this material too rapidly, that there must be time for it to ripen in your thinking and for more of the Light of LIOLIA to penetrate the Earth dimension so that the enlargement of consciousness which it brings might be effected before too much more could be absorbed. If you notice that the SOLOGRAPH seems a little slow in arriving it would be well to restudy your old issues. Each one who reads the SOLOGRAPH is under the careful supervision and scrutiny of our etheric Sponsors. Much help is given you of which you may be unaware. When you are ready for more as a whole, more will be released. If I, Ruth of Miami, grow too eager, ways are found to slow me down; thus we keep to the Schedule of Light, not our own.

We are most grateful to Mrs. Gail Oliver of Melbourne, Florida, U.S.A. for her invaluable service in typing edited material in a form suitable for the photography used in our printing process.

GOD SO LOVES THAT HE GIVES

We were traveling westward for long sunny days through barren land with mountains lying mysterious in the distance. Having talked ourselves empty, we turned to meditation for a new subject to contemplate and discuss. Even while the car sped rapidly onward and eyes stayed alert upon the road, the Inner Voice broke the mental stillness and came distinctly into consciousness.

"I lay Myself down as the Road over which you travel. I spread Myself out as the Desert to rest your eyes. I heave Myself up as the Mountains to give you strength. I paint Myself into the Sunset to inspire you. I GIVE MYSELF AS A MOUSE TO FEED THE OWL."

The Voice withdrew leaving this tremendous seed of truth for us to expand and develop, to nurture and to feed upon through the years. One life is too short to give us time to extract the sheer essence from such a soul-shaking and yet soul-building idea.

God gives Himself as a mouse to be torn and eaten by an owl. Why? Does He enjoy the pain and dissolution? Impossible! Why then? "For God so loved the world that He gave...."

God so loves the world that He gives Himself in every possible manner of giving to maintain His creation. He gives Himself as the Sun to provide heat and light, as the rain to cleanse and water the Earth, as the Earth itself to provide place and materials for our choosing. The very air with which we fill our lungs is His Gift of the Breath of the Holy Spirit. The sum of each day is the sum of that which we have received and accepted of God's Self in all that we are and use.

God created the owl and desires to maintain it. The owl is not a haphazard freak, fierce and bloody, preying upon other small lives. Instead it is an instrument in God's Hand to keep the balance which would be over-

thrown by the fecundity of God's limitless productivity. God is the mouse reproducing its kind and God is the owl limiting that production to the bounds of Earth. God gives Himself in both to each.

God gives Himself as food. Then He must give Himself to us as the wheat that makes our bread, as the vegetables and fruit we enjoy, as the animals that provide us meat. We pray, "Give us this day our daily bread." He answers by giving us Himself frozen in some pattern of Light in vibration which will be palatable and nourishing. When we eat we actually partake of His Body, since God is All and all is some manifestation of Him. Every meal becomes a sacrament to us since we are aware that we partake literally of His Body and Blood.

God gives Himself in the vinegar as well as in the sugar, in the hard as well as in the soft, in the pain of life as well as in the pleasure. Then all pain must be "growing-pains" leading to some increase in spiritual stature. Each experience must be some give and take within the Divine manifestation leading in the long view to the highest good for all. That person or that circumstance which seems so impossible or unjust must be only the Divine Hand guiding us toward further spiritual mastery.

"For God so loved the World that He gave...." Did He then give Himself as Jesus the man in an Earth body, who deliberately refused all avenues of escape and gave Himself in crucifixion for our soul advancement? Was that God's way of saying, "This is the only road upward, the full and complete giving of all that one is and has to enable others, also to find the Way"?

A mother gives herself in pain to bring forth her child, but soon forgets the travail in the joy of the birth. Through the ensuing days she gives thanks for the pain if it was a necessary prelude to the delight she finds in the sweetness of her little one. If she thinks of it at all she declares "It was worth it". Daily she (and God through her) gives herself for the welfare of the child. The symbolism of God the Father-Mother giving Himself for His Children is evident in all life caring for its young.

Perhaps He gives Himself to us most fully in the most humble of our requirements. The harder the work to be done for us the more He must give to achieve it.

Aeons of complete giving of the Divine Self has brought us thus far. Now God waits to see if we, too, can learn to so love that we will disregard the pain or the cost and let Him give to others through us as He has always given to us through others.

LISTEN MORE!

EL MORYA: speaking to My beloved co-workers in SOLOGA. You have been faithful in the broadcast of power. You are learning to communicate, to hear and to see. If you receive an impulse, if you find yourself going to your place of meditation and do not know why, sit quiet and let your thoughts drift. Say a little prayer for guidance; lift your hands as you do in this circle; open your mouth and let the words flow, for you will then be asked to pray or send forth Light.

Many times we would like to impress you but you are so much interested in what you are doing that you do not catch our impulses. Sometimes there are days when you are faithful. Some of you are more faithful than others in the sending forth of power and light and prayer. Others of you - will you excuse the word? - twitter a bit. In your daily life you wrestle here and there. There is steam and energy escaping; you are not focused well; you have not yet learned to put first things first. This is very hard to do. This we are not saying as a criticism, but as a goal to be achieved.

Listen more! Listen more! Pay attention to your feelings; be aware that we are trying to communicate with each one of you. Not just this one time when you sit here together do we wish to use you but at the moment of crises. On Thursday of this week a very important situation seemed to arise between China and India. Had this developed the whole world could have been drawn into a war. We made an attempt to contact each one of you. You will think back and know whether we were successful or not. If we were not successful, then it is because you were not quite ready. And why weren't you ready? It could be that you have left your contact with your group for only meeting night, like the church people who have religion one hour a week on Sunday morning and then forget it the rest of the week. Or it could be that you do not yet have enough faith in your inner contact, that you are still fighting the thought that you just imagined it.

Know, my dear ones, that we are One. We move into the aura of each one of you so powerfully and so strongly that we are one with you, and what you do is what we do through you. If you find yourself imagining that you should go and sit in a certain place, stand facing a certain way and send forth Light, do it, for it is through your imagination that we often contact you. Watch the little fleeting impulses; be alert. This is very hard to do. In a way, you are like children. (This is for your channel as well. She is taking it to heart as much as the rest of you.) You become so absorbed in what you are doing that you don't want to stop it. If you are right in the middle of doing something, you do not want to stop. If the telephone rings, you turn off the stove a minute and go and answer the telephone, or if somebody comes to the door, you close the telephone conversation. But if we try to get you to stop a minute and broadcast Light, you resist. You do not realize you are resisting. You are like the child who is so absorbed in his game that he doesn't want to come in to eat when Mamma calls him. You don't realize you are like this but this is one of the problems we have in helping to solve your problems in your physical manifestation.

We are sure that your congress and your country are now alerted and that they are aware of the situation in Cuba. Your people have been trusting and self-absorbed. You have not had the long years, the long centuries of diplomatic maneuvering so that you would understand the depth of trickery and treachery. You are like a beginner in a chess game up against those who have studied the rules and know all the tricks of the trade. All we can do and all you can do is to send forth the light, the love, the peace, the harmony, the brotherhood and the knowledge of God. The more you

do this, the safer the world will become. Are you not happy that no hurricanes were able to approach your shores? That should be proof to you of the strength of the Light being poured into your area. Are you not eager to help in such work? I know you are.

My love for you is deep and great. I would have you know that I have visited each of you many, many times. I have stood with one of you at your counter at work; I have helped in the shop; I have been with the children and the mother and I have been at the music lessons. I have helped each one of you. I have entered your bodies; I know your own physique better than you know it. I work hand in hand, and face to face, with your higher selves. We are one. Whenever you can understand this fully, then you will be eager to catch those impressions and help us to help you, for we all serve together for the good of the Earth, of IMMANUEL of our Solar System, and of LIOLIA of our Galaxy. 9/22/1962

TESTS IN DISCRIMINATION

Dwal Khul: I am your brother in the service of the Suns. I served in the White Brotherhood. I am a member of the Golden Legion. With you I am a wanderer from star to star. I am serving strongly in the educational field in your country at the present. With my beloved Master, Kut Humi, and his associate, El Morya, and others, I was instrumental in bringing East and West together in the organization which you know as the Theosophists. I am one of your sponsors, closely associated with your channel, and with all those who work through your group. I am Dwal Khul.

I am not come to spread confusion. I am come to enlighten and to enlarge. You will find it said of me that I am a scholar. I have studied with the eagerness of one long schooled as a student. In order to make myself useful and of value to the earth, I have built my mental body. I have built it strong that I might be a mental inspiration and leader in this new age. I have not neglected the spiritual, the emotional or the devotional; but I have come with great treasure of understanding, of scientific knowledge and of learning which I can share with you. You will find in your group library a number of my writings. You will find them somewhat advanced for I am a scholar and I write for people who keep their dictionaries handy and desire to learn.

Much has had to be concealed from man during past ages. There have been many reasons for this which I shall not now detail. I wish to speak of one of them most frankly. I overheard your speaking of the tests, of the fact that certain people have come for a while and then disappeared from your group. One of the tests, of course, has been the physical ability of the body to carry this power broadcast which you have just demonstrated. If the body is unable to carry this through, that person will finally become uncomfortable, or will find some other more interesting thing to do at this hour. This is no discredit to them. It simply means that their work at this moment is elsewhere. You will understand that all groups of light are highly specialized. You may enter any number of churches filled a number of times each Sunday. They serve in one manner, but you could not call it highly specialized, for they meet with thousands

upon thousands of people. The term "specialist" you apply to one who is fitted particularly for a skillful operation. If you have a very delicate operation to be performed upon the body, you seek the most highly skilled surgeon possible. You are specialists in Light. The numbers belonging to groups of light who are awakened all over the world are growing. We therefore can send through a tremendous amount of power to such a need as we have had this evening.

What I came to speak to you especially about was the fact that, in this type of contact, so very often the personality of the channel enters into the consciousness of the channel and colors, adds to, or detracts from what we wish to say. Furthermore, to add to the confusion, we take the responsibility for actually speaking through certain channels faulty information or "loaded" statements which they are supposed to recognize and weed out. Any channel assumes the responsibility for what he sends forth. Because a great name is attached to the message does not mean that you are supposed to swallow it whole without discrimination.

A good teacher tries to keep his students alert. Frequently he uses the device of an error, stated consciously, to see if they can catch it and correct it. Part of your training is discrimination. You must learn to discriminate in the highest type of teaching. You have been told that errors have crept into the Sacred Word, for human thought altered it through the ages. Human councils decided what would be put in and what left out. If there can be error in that which you call your Holy Bible, there can be error in any statement, in any publication, in any message. These errors are like the paste diamonds hidden in a group of jewels, for the sake of training the diamond specialist that he may be able to find the paste among the reality.

No matter who gives forth the message, I ask you to check every statement by what you know to be true. Ask yourself "Does this come from the human desire of the group or the channel, or does it come from the Truth of God? Ask yourself "Is this a prophet of doom?" for certainly they have been allowed to give you great tests; "Is this overly optimistic?" for there are those tests too. "Is this meant to lull us to sleep so that we will not work? Is this meant to flatter us into thinking that we are greater, more wonderful than we really are?" That which is called the Napoleonic complex is most widespread. You have seen it at work in your lifetime in Hitler, in Stalin and Kruschev, in German Wilhelm II, in Peking, in Havana and in countless other less prominent people who feel that they must sit upon top of the world or they are not of value.

All of these are little exercises - rotten nuts in the bushel of good nuts, wormy apples for you to discover and weed out. Keep your feet on the ground, and your heart in the truth of God. Pray daily that you may develop in discrimination. There are in your scientific laboratories those that are trained in color. They have colors to match, for instance, those who analyze the blood have a color scale. They set it up and match that sample which they have taken from you so that they may tell you the condition of your blood. I would have you set up a scale of truth against which you would match statements that might be questionable.

One of the fundamental statements which I would have you put in your list is that God is no respecter of persons, that in His sight all are equal. Very often you will hear complaints concerning your own constitution and that statement which says that God created men equal; but in the sight of God who sees through the ages, all are equal. Mr. Kennedy, your president, holds the outer position of prominence. As such he is tremendously useful; but there are many more who are more compliant and more useful whose names you will never hear in your newspaper or other news media. Outward seeming and outward position is not the great star at which to aim; in fact, it is in a way a disadvantage and a handicap. Those who are in public places cannot speak the truth with such force as those who have no position to lose by offending others. The truth can come from the mouth of a child with less catastrophe than from the mouth of an adult.

Another thing I would have you put as a basis is that God is maturing Himself in all. Therefore there are no high and no low. There are only those who have ripened a little longer on the vine of the Divine. They who are a little riper have less time to serve; those who are less ripe have more time. There is a complete and perfect balance. You know within yourself what is good. Check everything against the highest that you know. Do not let your standard be dragged down.

This does not mean that you must keep yourself separate. It only means, do not be fooled by the little traps set for you to find. They are for your learning, for your education. Be on the lookout for them. Grow through finding them. Make it a game to find in your own channelship the self, the ego, creeping out. In other channels look for the old dogmas, the earth thoughts, the wishful thinking, the doom-predictions, the thought of separations, the old forms that must be destroyed; and in their place substitute in your own thinking what you know.

Give all love, all light, all encouragement to those whose errors you think you find and reject. Reject the error but let the one who is bringing it through find it for himself. Do not go about picking flaws. Let those who need it hunt for flaws. There was a time when you needed to pick out flaws for your growth, but now the time has come when others need you to find the good in them. But be warned; do not be misled; be alert; be wise as a serpent and harmless as a dove.

I come to you with great joy, as I come to all Groups of Light, whether their channel is attuned to me or not. We come to support all who are struggling upward. We come without partiality, without favor. We reject none; we exalt none. We do not ask for exaltation. We ask that all understand themselves to be part of the All with us in the All. What a great joy it is to say with you, SOLOGA! for the Word of the MOST HIGH GOD is the most precious of all His Manifestations to me - the Word expressed in all existence, in all manifestation, and laid open for all of us to read, to understand and to live by. God bless each one of you in His Word.

9/29/1962

GARDEN REVERIE

In pensive mood, I strolled into the garden
To listen to the sounds of night.
Frogs sang in the lotus-pool,
Beneath the branches of the oak
Against which I leaned.

Wind-music, through the palms,
Accompanied the lullaby of birds.
A twig snapped beneath my feet
And a startled frog jumped into the water,
Sending silver ripples to join the moss-lined banks.

The fragrant air
Was washed by recent raindrops,
That had fallen like little bells
From the points of every star,
And with their tiny clappers,
Had polished off the moon.

I watched two reluctant drops slide down an oak leaf
And drop, tinkling, into the warm and placid pool.
A nightingale, stirred by the spell of night,
Began calling to its mate.
The answer came from near-by woodlands,
And they wooed each other in pretty melodies.

The sky shown like a blue-sapphire
Between fluorescent clouds;
Being chased, by a breeze, across the heavens,
As they played hide-and-seek with the stars.

My thoughts began threading their way around
The infinite parts in the course of creation,
As I reflected that each, in its own way,
Is seeking companionship
With the Soul of the Universe.

I put my mental-hand in God's,
As my heart swelled with gratitude
To Him, who guides all Splendor.
And my mind formed the prayer
That He instill this calm and priceless beauty
Into the hearts of men, and lead us on to Glory.

Lyla Mason (237 1/4 N. Hampshire Ave., Apt 2, Los Angeles, Calif.)

A VERY IMPORTANT BROADCAST

The Channel: This is to be a very important broadcast I am told, due to the fact that the Russians are planning another, higher-powered explosion, and it is to come off within an hour or so. This will be especially important to the mountains of the Himalayas and China. So much power is already going through me consciously that I find it difficult to speak. The Forces are also wishing to send it to New Zealand and the area around there, especially to the East of New Zealand on the ocean floor which is at the antipodes of this area.

I have been held, myself, in the state of giving forth to the area of these bombs now for three or four days, and there have been times when I felt light like lightning going out of each finger. Then again have been times when the vibrations were quite different, and much higher and finer. If you find yourself impelled . . . (Now I am saying this, but yet I am not saying it. It is a very strange experience that I am having, for someone is directing what I say and yet is working in oneness with me so that it seems that I am saying it yet I am aware that someone else is saying it too.) If you are impelled to send forth power and you feel different sensations at different times, it is because different types of energies are being sent through you. Do not feel that at certain times much greater power is going through because the vibrations seem more violent. It is a different type of power. Sometimes without your knowing it, you are broadcasting very greatly but of a finer quality of power than that which you have experienced at other times.

GABRIEL and EL MORYA: speaking as one. We will give your broadcast together. In the power of the MOST HIGH GOD, the Allness of the All, the Omnipotence, the Omnipresence, the Omniscience and the Omnifacient, we send forth the Limitless Light to surround and to contain the area of the bomb explosions. We send forth power, love and light to sustain the Earth, the structure of the Earth, to sustain the mountain areas of Iran, Afghanistan and India, the mountains and deserts of China. Peace! Peace! Peace! be unto you in the name of the MOST HIGH GOD. Peace! Light! Love! Power! Healing! Containment! Stand fast! Hold steady! We say to the atomic flow in this area, be not disturbed; be at peace. God holds you in your place. Endure! Endure! Endure! Know that God is expressing His life in you. Stand fast and endure. We see an egg of light, a force-field of vibration and power so strong around this area like a sphere, down to the center of the earth and out to the farthest reaches of the aura to contain this explosion. We see the light of many galaxies, many suns, many solar systems, focused at this point now. It is as though there were a great funnel. Light is pouring into this funnel and centers at the area of this explosion to contain it, to dampen its effect. To the center of the Earth, to the core of the Earth we say: Peace! Stand fast! Absorb the shocks! Hold them! Hold them! To the area of New Zealand and the ocean floor: Peace! To the mountains of Australia: Peace! Peace! Love and Light!. Together, will you repeat with us three times, The Allness of the All in great power that we may send this great power where it is needed. Together,

ready: "The Allness of the All! The Allness of the All! The Allness of the All!

IXUTEL: Many are gathered here this evening for you are one of the few Groups of Light who meet at this particular time. Great power has been sent through you since you gathered, and will continuously be flowing through you as a unit. We have no fear with regard to this explosion. However we do desire to contain as much as possible. The Earth in its Higher Self is in deep meditation. To the Earth this is as sickness, or as a shock, a stabbing pain through some part of the body. The Earth is steeling itself to receive this and we have strengthened as much as possible.

You have been told that in your conditioning you may have small pains here and there for the moment, but you are not to worry about it for it will pass and it is necessary for your growth. The Logos of the Earth understands that this is so and is prepared to endure. Send your light and love to all those who may suffer because of the effects of this explosion. For much as we would like to stop it, or to completely remove the effects of it, it is part of the conditioning of the earth and part of the growth and the karmic cleansing. Some of this must be endured. All we can say is to pray with Jesus, "Father, if it be possible, let this cup pass from this area. If not, Thy will be done."

As you pray, as you send forth light, be sure that you add this to your prayers, that you yourself be not drawn into the karmic whirlpool of the time and the situation. You have been asked to give light so frequently. We have been continually urging you until I fear that you might possibly be feeling toward us as you do toward those who are always asking for money. But as you give light, you are prepared to give more light. You have been polished and perfected beyond and above the average. Other Groups of Light, of course, are doing what you do, but in comparison with the millions upon the Earth's surface, the numbers are small. We need you day after day, for these tensions will continue. We ask that as you grow more able and more useful to us, that you understand the joy of being able to serve in this manner, and yield yourself to do that which you can do so marvelously.

If you could get out and stop this situation in Cuba, with your own generalship, you would feel that you had done a most worthwhile thing, and yet the sending through of light as you do is beyond your power to conceive with regards to its degree of usefulness. I know that you do not fully appreciate this. I would like in some way or other to make you understand the tremendous value of the work of all Groups of Light who send forth in this manner. I would like again to appeal to everyone everywhere to send out light, for in the next few years there will be much need for it. We have not prepared you for just one time, and one moment. We have prepared you for years of service. As you grow more proficient in any other service, so you grow more proficient in this, more useful to us, and more one with the hosts of light on all levels who need you where you are to do what you are doing now. I bring you the blessings of all who

serve with you. Their gratitude, their love and their appreciation. Together, we all say SOLOGA, meaning, Oh Father Most High, express Thy Word in perfection in this planet.

IXUTEL: Beloved Children of Light throughout the Earth, I greet you in the joy of a New Day dawning. The Light of LIOLIA has been most successful in permeating the atomic structure of the Earth and all upon it. The effects of these first outpourings are even greater than we had dared hope. The time of adjustment is by no means over for the Glorious Outpouring of Golden Light has just begun. However we feel assured that the end will be the victorious ascension of Earth into its proper dimensional vibration as an integral part of a progressing Sun System.

Accidents and bad weather will continue to harass mankind. Much cleansing must go forward. On the surface there will be commotions and confusions, but underneath the solid strength of the Good Light is building itself into the fiber of all life within the aura of the Earth.

We have a tendency to pray with the greatest power and conviction in the times of greatest fear and distress. Usually we hope to prevent with prayer; now is a time to build with prayer. Pray, beloved ones, pray! Prayer is your safest door into the higher dimensions. Prayer is your strongest asset in constructing the New Man to inhabit the New Earth in the New Day. Always in your prayers, plead with man to love GOD, to love IMMANUEL the Father-Mother of this Sun System, and to love LIOLIA the Golden Father-Mother of all Sun Father-Mothers in this Galaxy. Sing and love these names for they are your keys to the New Kingdom.

During all this time Light, Love and Peace should be sent to all weather conditions in the Northern Hemisphere and to all magnetic currents. Remember that magnetic currents are flows of Love and Power within the All-Consciousness of GOD and are strengthened in their ability to respond to the Higher Command by the outpouring from your focus of light.

SOLOGA! May the Word of the OMNIFACIENT GOD prevail in all manifestations of Activity in this Planet Area. May the MOST HIGH GOD bless you as you receive and execute His message of Sonship. 2/5/1963

GIVING MAKES RECEIVING POSSIBLE

SOLOGO: your Sun Sponsor speaking. I have come as an introducer for the last several evenings and that is my office again this evening. It is such a pleasure to come into the power focus which is established in your dwelling place. It is such a pleasure to contact each of you, to feel the Light of God emanating from you, to respond to your love and to pour out mine in the beginning.

Gratitude is never truly gratitude unless there is giving. Giving is the opening of doors for receiving. If you pull down your curtain, the sun cannot come in. If you close your house, you not only shut yourself in but you shut everything else out. When one grasps himself too tightly he excludes others. When one holds on to the things he possesses, there is then no opportunity for other things to be given.

The flow of gratitude should express itself on all levels. Gratitude

is one of the divine characteristics of all expressions of higher learning. Those who turn in love and gratitude for good received, give. They give of their love, of their joy, of their blessings, and of their substance. Very often, those who have been suffering from lack or limitation in prosperity will find the windows suddenly opened when they begin to give.

If you desire more financial support, give more financial support, for what you open up and give, that can be renewed in you. If you desire more love, give more love. If you desire more appreciation, give more appreciation. If you desire more friends, be a better friend. If you desire more healing power, then give forth with that healing power that you have. If you desire more creative power, give forth from that which you have so that God may pour into you more of a higher and finer quality. I come then to you with My gratitude for your service to all of us who are striving to help in every way we can. I come in gratitude for your loving reception and in gratitude for your reception for the wonderful Star Entities which I have introduced to you in the past.

The months of your time fly by so rapidly. Already some of you are thinking of the Christmas season. At the time of the coming of this Christmas season, LIOLIA will pour forth into the Earth great floods of love and inspiration of the Golden Light which heals and uplifts. During the early months of this year, LIOLIA poured out Hiser first emanations, Hiser beginning, introductory enlightenment. Now at this Christmas season Heshe will bring with Himer, united with Himer as One in a great outpouring, not only Hiser own light but also the light of that Star, that Spiritual Central Sun of the Galaxy, ANDROMEDA, who named Hiserself to you as OLENA.

OLENA is the Feminine Ray. The name for the Masculine is OLANO. Both have the same numerological value, the same cabalistic meaning, but are spelled differently for your benefit that you may be able to refer to Them as Masculine and Feminine, OLANO-OLENA. These are almost the same letters as LIOLIA with the exception of the added "N". This has a very great significance for the "n" is the letter of transmutation, of change, and of the tearing down of the old forms and the rebuilding of the new.

Tonight however I come to introduce still another star to you. With the exceptions of the PURPLE PLEONE, and the North Star, LOVARIS, All of those Stars which I shall bring to you will be of the first magnitude, very bright Stars, because They bring to you Their very great radiance. They send forth such Power and such Light that They are able to bring into the system of IMMANUEL the needed ingredients of Light. There are many Stars who are represented by messengers in Earth today.

The closest Star System to the Earth is Centaurus, visible only in the Southern Hemisphere. ALPHA CENTAURI, the brightest of those stars visible to your astronomical instruments is the nearest star system to your Earth. CENTER-CENTAURI is contacting the conscious mind of the channels of many Groups of Light. CENTER-CENTAURI is the Spiritual Center of the Constellation known as CENTAURUS. Your constellations are named from the ancient mythical figures of Greece. A centaur was half man and half

horse. Your early shepherds thought this constellation was a picture of such a being, so it has been named to you CENTAURUS. CENTER-CENTAURI, however, is invisible to your telescopes because it is of a high spiritual level.

I come tonight to introduce another of the Twelve whose emanations must be recognized in the Earth before your Christmas season. This one to be spoken of tonight is SPICA. Perhaps you will think we are being partial in bringing to you SPICA and VEGA so close together; but they are, as it were, a team cooperating very closely in this spiritual level. They are represented in your group by a team of husband and wife, so that VEGA belongs to the gentleman and SPICA to the lady. SPICA is a very beautiful, bright star who will speak to you in a moment.

Perhaps you will think, "I can never keep all these stars straight". You will have your SOLOGRAPHS to study in which they are all recorded. If you are really interested and eager to contact your own star, you will equip yourself with some inexpensive book which will make these things clear to you. Your study room, I believe, contains two such books, or such devices which would help you to become familiar with your stars very quickly. You have been promised that a star will speak to each one of you who remain in contact with the group. You are aware that one of your number who has been most faithful for a long, long time, is not now permitted to come into your midst because of her work with which she helps to support your printing expenses. She is, however, represented because she is inspired by her forces to call in on the telephone just before your meeting and thus establish a vibrational contact. In other words, she is present in vibration and her Higher Self is here. You might think of her Higher Self as seated in her usual place since you have left that vacant this evening. Her star is ANTARES in Scorpio. Remember you have had, in your own group, PURPLE PLEONI, ANTARES, AND VEGA. Now I introduce to you SPICA.

First I must tell you that I love you so intimately, so devotedly. I love you as you love your hearts or your blood. I am that close to you, that dear to you, if you could but be aware of it. You love so much more than you know. In so many past ages and aeons, you have given your love so beautifully, so fully, and so completely to so many or you would not be here this evening. Rest assured that the love of GOD pours through you much more than you can possibly imagine. It is for this reason that I must say to you, I love you. SOLOGA! my beloved ones. I withdraw that you may listen to the radiant Star, SPICA. 10/6/1962

ALL GROUPS BROADCAST TWELVE STARS

SPICA: Beautiful, shining stars in your own right, I come to you as an older brother or sister, one who has been a little longer in the university of experience, one who has had a few more ages in which to pass the examinations of experience, to strengthen my learning and understanding and discriminations, even as you are so doing, by trying to solve the problems in the textbook of life.

Beloved, shining stars in the Father's great mansion of Light, I come

to you in such joy to be able to speak with you. I have been sending you cooling, healing rays. Perhaps some of you have never heard your name for My Shining before. Your name for me is not my name for me. I would like, if possible, to give my name for me to the dear one who spent ages in my system and who is sitting here. She is a clear channel for Me. First of all, may I give her my deepest love and blessing, and say that each day I renew her with that which I have especially to give through the Solar Logos, IMMANUEL to the planet Earth through her human body and equipment. To all of you I give the blessing of peace, of cool, quiet, flowing water, cool after heat, calm after a storm, rest after strife. I bring this particularly to the Earth through you.

At this time your Earth is disturbed in so many ways: in the thoughts of men, in conflicts, in fears, in animosities and in greed; then in the very structure of earth as it adjusts to the new scientific devices of men and to the cleansings of the New Age. My light of peace and quiet, of coolness and healing balm like a soothing ointment, is so important. Through this instrument of mine I pour it into your group, and then use your group as a magnifier, as a resonator, enlarging it and increasing it and sending it forth in great power.

We were listening as the letter was read to the group before the meditation began. The dear one who is so perceptive was used to alert you to confirm for you what we have been saying: that you are utterly unaware of the tremendous power that is sent through you. I know there have been times when you have felt it. Sometimes when you were lagging in interest or a little discouraged, or have needed a pep talk, you have been allowed to feel more of the power going through your own body. Be assured that it flows whether you feel it or not. Even while you are asleep and quite unconscious, that light which you came to give is flowing forth. You have been opened as givers. You are, indeed, givers of Light. As you consciously set your mind to giving, you enlarge your capacity for giving in such tremendous amounts. We do not ask that you pray to us; we pray to the MOST HIGH GOD. If we have told you that you have had a period of experience in our system, we would like you daily to greet us with just a sentence of love and receptivity, so that we may be more efficient in serving the system of IMMANUEL. We have representatives in each of the planets and in the Sun Himself in your System. We cannot send a great army of representatives for, if we did so, we would overbalance the giving, and there would be too much of an ingredient. I believe that you have a drug which is used as a heart stimulant if just a little is given, but which can be a fatal poison if too much is given. So our light given too greatly, would upset the balance.

Those of you who are told that you come from certain stars have a greater responsibility since there are not great numbers of you. For this reason we ask that each of you each day attune yourself first to IMMANUEL-IMMANUELA, the Sun in whose System you are now serving; second, to LIOLIA, the Spiritual Center in Whose Galaxy you are now serving; third, to SOLOGO, in whose System all of you have had a recent service; (by recent I mean comparatively, relatively so, for you served together in the system of the

Star SIRIUS before you came to IMMANUEL); then, fourth, greet the star whose light you particularly represent.

Is this too much to ask? You will say I am so busy in the morning getting my breakfast and getting me or my family off to work. It is like this thing which I am seeing in your channel's mind for an example. You have recent advertisements for some kind of toothpaste, where they keep saying, "We just can't brush after every meal". Yes, I know it seems we heap upon you duties that are too great; but soon you will be able to recognize all four of us with a sweep of thought that never comes into words and yet is more effective than any sentence that you can pronounce. This is something that you can learn: to sweep your thought without words to IMMANUEL, LIOLIA, SOLOGO and your special star. It can be done faster than you can name them, and this you will learn to do as you progress in your development; but I fear it will have to be done at first with a worded thought - just a thought to each one quickly as you do some little task in preparation for your day.

Now to all I would say that the Twelve are always present in all Groups of Light, whether they have been able to manipulate it so that a human body is there or not. If they cannot send a human body to channel for them, they send an Angel or one of the Golden Legion in the Etheric to represent them.

From this combined light is gathered and spun the wonderful Golden Beam that centers in your room, this great column of power in whose energies you bask as you sit here. My beloved ones, if you could know what it has done for your bodies, no matter how ill or how busy you are you would see to it that you get here to sit once a week in the radiation of this beam, for as you do so your body is strengthened. Your whole outlook is quickened. All of your affairs are touched. Your life is lengthened. Your days are made easier.

Could you see the effect of this faithful and habitual attendance in this light upon your whole system of being, you would feel that to be here is the most important thing you can do in the week. Now, perhaps your channel will be feeling (as she often does) that this is a little overbalanced, or should not be said for fear that it would seem that she is asking you to be present or trying to propagandize; but your channel did not say this. I, your Star, Spica, wish to underline this fact not only for your group but for every Group of Light; and I wish to extend this to say to all who have the opportunity to read this message that it is so important for you to make your way once a week to such a center of the focus of the Twelve Lights which are so important. I believe you talk about twelve cell salts which are important to your body. But I assure you that these Twelve Lights are infinitely more important, twelve ingredients added to the strength of the Sun and the emanations of the Earth, to make up your existence.

May God bless you in your faithfulness, in your growth, and in your outpouring. I bless you with the light which I have to give, and may you, as you attune to me, feel the peace, the calm, the surcease from labor, the rest which my presence bestows. We all say SOLOGA with you, for we

only exist as the Word of the Alpha and the Omega is expressed in our levels of manifestation. Together we bring forth the Limitless Light of the MOST HIGH GOD.

10/6/1962

In the meditation period which followed this address the Onlooker was caught in a whirling tornado of white light and tossed in higher consciousness into the Star Spica. All was a soft blue light producing an atmosphere of gentleness and peace like a pleasant evening. The Onlooker was shown Beings of Light which inhabit the Star going to a device something like an automat and drawing out light for food. Something like an electric eye scanned the Being and learned its desires or needs which were then provided in a mixture of lights played upon it. The bodies of these Beings were treated in the same manner for balance and healing. Just the right amount of the right color, shade or power is poured out to heal and to bless. These Beings like to build crystal palaces whose walls sing with light. They hum happy inspiring tunes or provide music needed to balance, comfort, or exhilarate. (All of this is no doubt an attempt to symbolize for us in our frame of reference how highly spiritual Beings live by Light.)

An Old Man with beautiful white hair and beard led the Onlooker across a dark blue pavement of highly polished marble through an aisle of crystal columns whose tops were hidden in soft blue mist and into a place of brighter light which seemed to be like a library. If one asked a question the information appeared printed in light before the inquirer or pictures were shown as rapidly as the observer desired.

In still another place Beings were sitting in meditation trying to contact the Divine Mother Thought in order to learn to love more perfectly. They were a group which had been chosen to go out to serve in a planet of the System. They were gathered in oneness of purpose and desire to ask in deep concentration for an infilling of Divine Mother Love. At length the Mother Aspect of their Solar Logos appeared above them blessing them with a wonderful flow of love from Her Being. The Onlooker was privileged to feel their great acceptance, humility, love, and joy as they were filled with the Divine Outpouring for which they had prayed.

BROADCAST TO CHRIST-EARTH

The Angel Michael: coming to bring to you the power for your power broadcast. Before we begin I would like you to visualize a great army marching. Have you not, in some of your movies or television programs seen the power of the armaments of some great nation, marching, marching steadily forward, and realized what a terrific thing it would be to be in the path of such a juggernaut moving forward?

I would call to your mind the prophet who was advising a king of Israel and prayed to GOD, "Open the eyes of my servant that he may see". There on the hills of Judea he saw a great army of Angels drawn up to do battle for the righteous Word of GOD, expressed in the prophet, in the king and the people of Israel. So again I would have you see the great power of the Legions of Angels who, in your symbolism of armies fighting, march

to help you fight against the error, the darkness, and the crises in the Earth today.

As Michael, the leader of this great army of Angelic force, I would ask that together we turn to the beautiful, highly spiritual Being, the Christ-self of the Earth, and direct our power broadcast to Himer. The various running sores, cancers in the surface of the earth, are the feeling in the South against the colored man, the feeling in Cuba against the United States and of the people against their ruler, the feeling in Germany of terrible grief and suffering, the feeling in Russia of aggression and greed, of hunger, despair and starvation in China, the atheism, the rejection of GOD, the strife. Yes, all of these are like running sores or ulcers in the skin of the Earth. Then, too, there are these adjustments to the explosion of the bombs and the radiations still filtering into the aura of the Earth from the high-test explosions to which the Earth must respond.

As a Legion of Angels marching, we come through with our swords of light - you understand this is purely a symbolism - to do battle with all of these evils, these illusions held in the mind of man and in the very thought of the Christ Earth Himerself. Had the Christ Earth been able to adjust completely then many people on the Earth would no longer be in expression here. They would have been removed to another sphere of activity on the level of their evolvment. To some channels, our Sun, IMMANUEL, has been portrayed as in a hospital bed because of the illness of the Earth which is an organ in Hiser Being.

We come then, as a great army of Angels, to help in the healing of the physical body of this Christ Being, the Christ Earth. Will you, in your meditations, in your prayers, in your sending forth, know that the Christ Earth will awaken, will find Hiser new day, and will express Himerself in the beauty of Hiser true Shining in the Radiant Light of the MOST HIGH, the Allness of the All.

10/6/1962

WHAT IS THE HIGHER SELF?

JESUS-MARY: your brother in the Light of IMMANUEL, of LIOLIA and the Twelve Suns, your brother, Jesus, speaking to you. Yes, I have come as the Oneness so that I should identify myself as Jesus-Mary, Esu-Maria, for now I am operating throughout the Earth in the perfection of unity. It is required of a Wayshower that we show the way. This is that unity for which you are striving, the unity of yourself on all levels, unity with your True Self, a sense of completeness, of wholeness, of oneness which you sometimes think of in the word integrity.

Peace be unto you, peace be unto each heart, each mind and each body. My peace I give unto you. Not as the world giveth give I unto you, but the peace of complete and perfect wholeness, the holy peace of oneness, of unity, of adjustment, of at-onement with all of my Selves up to the Father-Mother Self. By this time each one of you must have been willing to accept to some small degree the fact that your own true higher self is GOD Himerself, the MOST HIGH GOD.

If you think of the MOST HIGH GOD as the Great Sun, including all Suns,

a great Sun invisible to all human beings, even invisible to such enlightened beings as LIOLIA, so invisible that certain Earth people have imagined it to be absolutely nothing before anything was manifested - if you can imagine such a Great Sun sending forth a beam of light down, down and down through every possible manifestation, then you will find the true Selfhood of yourself. Your Highest Self in this System is IMMANUEL-IMMANUELA. Your Highest Self in the Galaxy is LIOLIA, and your Highest, Highest, Highest Self is the ALLNESS OF THE ALL.

This is why it is right, holy and true for you to claim, "We are the All, in the All, through the All, with the All, and by the All." My beloved ones, you have not been saying this enough, and I include your channel in this, for so frequently we forget the instructions that are most important. I would therefore like you to repeat this with me again now. "We are the All, in the All, through the All, with the All and by the All." The words, "by" and "through", place all of this in the hands of GOD. Not through your human self are you one with GOD, but through the Great Beam of GOD, manifested on down through level after level, and appearing on the human level of your present manifestations.

I would like you to picture this Beam coming from a great height and yourself peopling it, one self above another self, and above that another self, and so on up and up and up, growing ever lighter and brighter, more glorious, more angelic, more God-like, more perfect, more beautiful in the glorious shining, more powerful in the understanding, in the higher Consciousness of GOD. Think of yourself as a straight pathway of self up a beam of light to the very heart of the HIGHEST THAT IS.

If you will then picture this, imagine it, and repeat it until you have truly accepted the fact, and begin to try to apply it to every circumstance of your life, to really live it, you will find yourself developing more rapidly than you would have thought possible. Things that today almost frighten you to think about, a year from now will seem as easy as walking. Some of you say now, "I'm not ready; I couldn't do this, or I couldn't do that". Did I say some of you? I think that in the heart of all of you there are these reservations of uncertainty, of inadequacy, of humility and of fear. Of course you will not be asked to do anything until it comes naturally for you to do it. But do not be surprised if the children get there ahead of you, for some of them have come into the world with less of these restrictions.

One of the beloved poets said that the soul comes into the earth trailing clouds of glory from heaven which is our home. So the child has more faith, less limitation, more remembrance of the Truth, the Limitless Light, than those of you who have come under the restrictions of your culture, of your society, and of your religious dogmas. Let loose, my brothers and sisters, let go of all these things. Let the flame of the eternal light sweep you upward and toss you into the upper realm where you really belong. Let the GOD-SELF express itself in you. Be not afraid; relax; do your meditations; yearn upward in prayer; and keep your thoughts on a high level. This is your way.

You will say, "But did you not say to all of those when you were on

earth, 'Heal the sick, raise the dead and preach the gospel?'" Oh, my dears, you are doing this. It is not necessary in your present culture and your civilization to walk the roads of your country as I did, followed by crowds of people, yearning for the bodily, material expressions. Your mission is more to the inner man and to those who can receive in the inner man. You send forth the Word in your power broadcast, in your personal giving forth from within yourself, separately, individually as you go about your business. Thus you are preaching the Word as well as sending it forth in your publication. Wherever you meet people and they show themselves open, you drop the seed so that you are following the way as it is given in the Gospels in the Bible. But you are able to follow the way in a higher level than those to whom the man Jesus spoke. You are able, consciously, to send forth into the sub-conscious and into the ethers in a way that the disciples could not imagine. They served man on the physical plane, and the mind and the spirit expressed therein. You serve these same things but on a higher mental and spiritual level which the progress of man has made possible.

Sometimes I think we give you too many instructions, when all we really need to do is to say, "My dears, practice what you have already been told. Do what you know to do." Be faithful in your doing, but always lift your thinking in joy. Do not let it be tedious, a heavy burden to bear, a great pious duty; instead, do it with the joy of laughter and a game. Make it the happiest thing in the world to do, to give forth the Word of the MOST HIGH to your time in every way possible.

Each one of you is my ordained minister. Oh, yes you are! You are my ordained ministers! Whoever gives forth the Word of the Christ Consciousness is ordained in the giving as a minister. Do not be stingy in your giving. Freely have you received; freely give. Give wisely, but give freely, for as long as you give freely, God will pour out as much to give as you have capacity for giving. In my capacity for giving as a Oneness, as Jesus-Mary, I give to you the love and blessings of one who has come to show you the Way. I therefore say to you, SOLOGA! for the way is to be found in the Word of the Alpha and the Omega, expressed in the life that you are living now. 10/6/1962

The Channel: I am seeing Jesus seated in this chair beside me. He has his hands raised to bless, and I feel power going out from those hands in the sweetest of delicate stimulations to each one of you. I see the most beneficent smile. One hand retires to the heart for he says each one of you is in his heart. He lifts a finger of instruction pointing the way upward and says, "OUR FATHER". He says that when He has said that, He has said all.
