WE COME TO EXPERIENCE

Living life spiritually and yet realistically is what we want to express in the physical. Seeing situations in the spiritual Light, but being able to apply practical rules without disrupting the balance is work!

With our children we should not definitely say this or that is wrong, "don't do it". A system such as this would cut off all the experiencing the child needs. They must be allowed to experience as much as possible. We, as parents, have to apply a positive attitude. Since the society we live in says such and such is wrong or immoral, to go against it is going against the Laws of man. We can teach this to a child but we must warn them that the consequences of opposing these laws are for them to face.

We should, as well, remind the child that since he incarnated into this particular society, he chose the laws himself, or he would have incarnated elsewhere. It is far more rewarding to use the environment for good and gain strength from it, than just rebel against it, because it disappoints them.

As parents we need to create a foundation of beliefs from which the children can springboard. We need to create a basis they can build from, yet not filled with too many confining boundaries. We must, as much as possible, leave them free to form their own opinions. This way they will feel free to experience yet be secure and confident by the environmental limits. We need to make our children strong yet pliable.

YOU ARE GREAT BEINGS

PAUL: Good evening, good evening, good evening and indeed it is good this evening. In the midst of emotion torn peoples, not only in your country but throughout the world, (the racial riots you have had in your country, the wars, the skirmishes, the battles) it truly instills a great feeling in us to see such a focus of Light. It is so strong and so beautiful. When there is so much trouble, it is as if you were a refreshing oasis in the midst of all of the involvement, even for us. You realize that we are over here working with the energies, the great karmic imbalances that are thrown out into the universe. We are working with the great pockets of negativity, strengthening the Light, trying to bring the Word and the Joy. I'm not painting a dark picture. Understand that it is a busy picture and it is just very refreshing, an upliftment, to find such joy instilled in the soul, to see such a beautiful Light as your focus tonight.

For the newcomers, shall we say, I am the spokesman for this group of Sologa. Yes, yes, and I see what you are thinking to yourselves. Yes, it is I that meters out the reprimands when necessary. True, I'm not too heavy on praise but none the less, you know how much you are loved. You know how much you mean, each one, to the Father-Mother God and to us working over here.

Jesus takes such joy in working to and through the Light Groups. Working with so many of the ministers and the people can be very rewarding for Jesus also. The inspiration or the comfort that He gives is so fequently attributed to another source, or just not recognized as an influence or contribution at all. We have so much here to give us joy that is rewarding in our way of life. I'm not saying that all our joy, happiness or sadness depends upon you on the planet earth, but I am discussing only the realms in which we do deal with mankind on your planet. It is truly a great meeting, a great fellowship and gathering that you have this evening. Jesus would almost never allow Himself to be alone or in just idle conversation with friends. Jesus was very much aware of His responsibility and the time element and the need to impart as much of the wisdom as He could. If you, today, could only understand more of the love and the understanding, the compatibility and the oneness that Jesus felt with mankind, people would not tend to hold him so far above but know that He is one with us. He is our Brother.

If the apostles would try to convince Jesus to dally or to delay in a place in order for him to rest; or if they would try to convince him enrout to somewhere that he must stop and rest and tarry for awhile to feed the body and relax the mind as they would say, Jesus would always manage to have a gathering. People were always there, they were always following. If they stopped on a deserted road for five minutes, within that time there would be a gathering of many people, come from where we knew not.

Jesus was always giving of Himself. He could not, for personal reasons

or desires, tolerate not giving of Himself. This is where Jesus found His reward - in giving to all of the people. At every opportunity He would extend His love and the love of His Father-Mother God. This is why, when hanging on the cross and being crucified by these people that He loved and tried to help, Jesus could look toward Heaven and say, "Forgive them Father for they know not what they do". It was the love He felt in His heart for all men. He recognized the Divine within every man, and worshiping and loving GOD the way He did, He could not help but love every living Being. Jesus was ridiculed for consorting with harlots, robbers, murderers and all types of the undesirables. Jesus saw the Divine within them. He saw that spark of Light that is the existence of GOD within each and every man, If GOD were not within, if that spark of Light should diminish, you would no longer exist. You live only as long as the Light of GOD is within you. You live only as long as you are a living thought in the mind of GOD and when that ceases, you would cease.

Jesus saw the Divine within and could understand the overall picture of what the earth was and what was happening. His heart-ached that these people were enmeshed in the negativity, that they were so down trodden because they had come to rely entirely on the physical. They not only no longer saw their connection with the Father-Mother God, they no longer saw anything of greatness in themselves. Oh, yes, His heart did ache, as His heart must ache now for your people that think life, Life in all of its reality, is nothing but getting up to the alarm clock in the morning, going through a daily routine, coming home, having dinner and going to bed to wake up to the alarm clock and start all over again. Oh, my heart aches. I say, My GOD, My Father-Mother God, Allness of the All, oh, pity these people. How can they possibly continue to breathe the Life, the Breath of GOD, having such a limited, such a very, very small concept of what Life is all about. You are the great Beings that GOD created when HE created mankind. This may be repetition but I will go over it again and again. You are the greatness within. You are the image the GOD created and did HE not say that we were created in HISER image? We know this isn't physical - this is GOD within. This is the greatness, the Love, the wanting to give, the reaching out. This is what GOD gave us. Yes, GOD gave us. If you take pride in your country, what has been handed down, the freedoms that you stand for and the rights that you stand for, how can you possibly not see the majestic heritage that you have been given by your Creator.

The great philosophers have said, "GOD made us free thinking souls" and that you are. If you had not this greatness within you, do you think GOD would have you as a leader of all living things on His planet?

You have heard the expression that genius is a breath away from insanity. I must tell you that greatness, greatness, on this scale takes but the weight of a breath or hair to turn from greatness into a lust for power. There's a difference. Remember that the G in greatness stands for the giving, giving of self. Jesus fulfilled the Commandments given to

Moses by which the Jews and the Israelites lived. He came to fulfill. The apostles asked "by what laws do we live now?" He said, "Two: Love the Lord Thy GOD with all thy heart, with all thy mind, and with all thy soul and Love thy neighbor as thyself." Do you know why He added the "love thy neighbor as thyself?" He added that because of this planet. As you have had in previous lessons, separation is one of the big lessons afforded by your planet. Separation. Mankind considers himself separate from GOD. Mankind considers himself separate from his fellow man. Mankind considers religion separate from science. Mankind considers children separate from adults. There is no separation! There can be no separation of any kind in GOD. All is one..... No separation between you and the animals, the elementals, the flowers and the trees. There is no separation because you are all manifestations of GOD on different levels. You are all expressions of GOD. You all live and create and express beauty by what GOD has given you. Hear! Hear! Take a mirror to mankind. I would hate to compare and see who creates more beauty, the little elementals in the flowers kingdom or mankind, the supreme beings that they are.

You can create beauty everyday in everything you do by making it a positive and joyful gesture of living. This may seem like a rerun of many other lessons to you but I want you to think of these things. I want you to bring these to mind. You forget. You become so enmeshed in the details of teleportation, the influence of the Seven Rays, how many different planes of existence there are and who were you in 1708. GOD is all that is! GOD is all you are and now is forever. Now, all time is now. What you do, how you live this moment determines what the next moment will be and what the next million moments will be.

GOD has given us so much. So much. We have the ability to create beauty that no other living thing in any form on this earth can create and that is with the soul. Have you ever heard someone say, "That is a beautiful person"? It doesn't have to be a glamorous woman. They say, "That is just one of the beautiful people". This is Light within and what is Light but a higher more fuller expression of Love. Your common denominator with all living things is Love. The numerator, or the outer way of expression may be different. One may walk on all fours and bark and the other walks upright and makes eloquent speech. But you are all Love. That is the composite that you are. You cannot deny this. GOD is Love and we are One with GOD. We are co-creators with GOD. You may step back and say, "This is a tremendous responsibility." Why is this a responsibility to you? It is the GOD within that shines forth. It can only be a joy to you to release and express what is there and not worry about trying to force it in the different little pocket holes that you want it in. GOD is Love and GOD is all things. You are Love and you are all things. Ah, you forget. You forget. Because you live in a physical world and the demands made upon you are many. Demands with families and others with schedules to keep, things to do. This is not your whole life. Perform-

ing these functions and these acts is not life. Life is what you feel, what you put into these functions and what you can get out of them that is Life. The reality of life is loving, and giving and what you can see of GOD in all things. That is reality.

I must say Yes (you might say I'm eavesdropping as it were - I pulled an expression out of the back of the mind of your channel that is excellent and makes the point I want to make) - where your thought goes your energy flows. You must remember when you become so absorbed in the daily, petty, grievances and the little problems, that where your concentration goes your energy flows. You magnify that which you are trying to obliterate. Don't become one with a trying situation. Remain apart. Remain what you are. Don't become one with it.

GOD bless you. Someone says I get wound up and could go on all night. I suppose this is true. I have said enough, for the time being.

Think of what you are. Think about what you possess and you cannot feel anything but that you are millionaires.

May GOD's blessings upon you be ever more abundant and may you always carry forth this Divine Love and Light as you wind your way up the many, sometimes steep and difficult passages of life.

POWERBROADCAST: Sologa group # 49

First we are to become attuned with the auro of the one to the right and to the one on the left of us. In our attunement we consciously encircle the group and extend out so that we are actually blending our auras into one forcefield. All are inter-blending and each has some of the colors of all the rays. It takes a perfect blending to make the white light which then becomes the pure White Light of the Christ. Within the colors are the elements of each of our beings, making a balanced broadcast through our physical bodies of the energies that are being sent by Those who have come to broadcast us.

Let us all raise our hands and be conscious of the fact that we are transmitters sending the power, the love, the peace and all the energies through this focus. We need not know what this is -- just the conscious knowing that our physical beings have blended to become a transmitter of the power that is to be sent out to the world through us this allows the expansion and the power to be doubled, tripled, multiplied far beyond our comprehension and far beyond the physical number here in this room.

We need not know where this is going. It is enough that we have come together and are lending our beings to coordinate the two worlds that have been separated in man's mind. In experiencing this, we know these two worlds are closer than man's mind recognizes. This knowingness goes out into the ethers and is there for all people. They partake of it to the greatest of their ability and at their time of need. It is placed into the ethers for all in any time of need.

THE PATH TO THE LEFT LEADS ULTIMATELY TO THE RIGHT
THE LORD OF THE SUN: Be not sad. Be not dismayed. Wait upon
 the Lord with patience. Out of chaos comes order. Out of turmoil comes
 peace. When a lamb is lost he must have a reason to return, a way must
 be made to return.

Often times when one travels the left road for a time he does not know
 it is the wrong path. When he first makes the turn into this road the
 shrubbery, the scenery, the land-marks look similiar to those on the
 road he intends to take. The paving is the same. As the traveler journeys
 further along on the left-turn-road many things look familiar and encourag-
 ing.

It is only when he reaches the end that he discovers his sought after
 or hoped for destination is not at the end of this roadway. Now and only
 now will he turn back to seek another roadway for his journey. Now and
 only now he knows it is not the route for him. Now and now only will he
 be sure never to travel this way again. Had he gone only part way he
 might always wonder if he should have continued on this left-turn fork.

He might search again for the left roadway not knowing that his true
 destination would NOT be at the end of it.

There are a few who would recognize the landmarks as not compatible
 with the roadway to their desired destination. Too frequently our free
 will interferes with a careful charting of the journey. Too frequently,
 (once we begin our trip) we are almost oblivious to all things around us.
 We have a one-pointed aim to reach the END of the roadway. We are
 too busy concentrating on this goal to really look at or to notice that the
 signs along the way are strange and out of focus with the original planned
 journey.

Thus it is with life. We meander into strange pathways of life that
 lead to frivolity, self agrandizement, possession gathering, often self-
 annihilation.

It was never planned that we travel the journey alone. A Co-Pilot
 has been provided to guide us down the lonely and arduous pathways,
 always directing our feet to the right turns. However, many souls are
 too prideful to ask help along the way; too prideful to admit their mistakes;
 too prideful to ask for help along the way back. They seem to prefer to
 stumble and err (often seriously) before they can admit that they are not
 master of every situation. Sad is this plight of the dear ones who do not
 ask for or seek the Greatest Navigator of them all.

When the traveler on life's journey returns to the original starting
 point and then executes the right-hand-turn another lost lamb begins the
 journey home. When the traveler seeks for the help of his Creator along
 the way there is much gratitude and rejoicing of the Heavenly Hosts.
 The Heavens ring out in songs of Praise and Joy.

"I have put my law in your inward parts, and have written it in your hearts; I AM your GOD, and you are My people." (Jer. 31:33)

KEEP ABREAST OF THE SWIFTLY MOVING TIDE OF COSMIC EVENTS.

AAKLON: Beloved sparks of Light: Though still manifesting through the shell of a physical body, you no longer are the same. The difference becomes daily more and more apparent. Let yourselves take on the 'Armour of Light' for without the protective shield you may not be able to fulfill all that is required of you as your responsibilities increase.

Much is required of those who tread in the Light. Know you not that others wait for some sign which can point out the direction for them? They await your recognition of their need and the spark that can 'light' within them the smoldering ember anew, so that, once more, they may know the purpose for which they are here.

The cavalcade of Life marches on. Do not remain within the limiting boundaries of yesteryear. Keep abreast with the swiftly moving tide of Cosmic events so that you may graduate from the Earth level into higher dimensions of life. Are you content with outmoded methods that may keep you stationary, or are you ready for vaster fields of endeavour? Opportunity is the open door through which you can progress on all levels. Do not allow any opportunity that presents itself to 'slip out of your fingers'.

Be ever alert so that you may recognize the 'signs of the times', for these are her now. Be as a watchman in the night lest you be found 'asleep' at your post. Then, who shall awaken you if all slumber at the gate of the entrance to Higher Mansions?

It becomes increasingly more and more imperative to stem the tide of negation whether it be in expression of daily duties or in the scope of world-wide activities. One begins with himself. Once error is cleansed from the pattern of the outer consciousness, one then sees through a brighter 'porthole' the light on the 'other side'. Recognizing the light of another helps to raise that one a bit higher, enabling him to free himself from the shackles which bind him. As one becomes free, he desires for others the same freedom. Thus there can be a 'chain reaction', one helping another until all are as brothers in the family of the One Father-Mother God.

Let your Light shine to brighten not only your pathway, but also to show mankind the way out of self-imposed darkness into the Light and the freedom within the dawn of the Golden Age.

TEACH ME TO LOVE

There was a time when, in my daily prayer,
 I asked for all things I deemed most fair
 And necessary to my life, success,
 Riches, of course, and ease and happiness;
 A host of friends, a home without alloy,
 A primrose path of happiness and joy.
 Ambition ruled my way. I longed to do
 Great things, that all my little world might view
 And whisper, "wonderful".

Ah, patient God
 How blind are we! Until Thy Shepherd's rod
 Of tender chastening leads us on
 To better things. Today
 I have but one petition, Lord:
 Teach me to love. Indeed,
 It is my greatest and my only need.
 Teach me to love, not those who first love me,
 But all the world; with that rare purity
 Of broad outstretching thought, that bears no trace
 Of earthly taint, but holds in its embrace
 Humanity; and seems to see
 Only the good in all, reflected, Lord, from Thee.

Teach me, Father, how to love the most
 Those who most stand in need of love. All that host
 Of people who are poor and sick and bad,
 Whose tired faces show their lives are sad,
 Who toil along the road with footsteps slow
 And hearts more heavy than the world can know.
 People whom others pass discreetly by,
 Or fail to hear the pleading of that cry
 For help, amidst the tumult of the crowd;
 People whose very anguish makes them cold and proud,
 Bitter, resentful, stubborn in their grief.
 I want to bring them comfort and relief;
 To put my hand in theirs, and at their side
 Walk softly on, a faithful, fearless guide.
 O Savior, Thou the Christ, Truth, ever near,
 Help me to find these sad ones, doubly dear
 Because they need so much. Help me to seek
 And find that which they thought was lost; to speak
 Such words of cheer that, as we pass along,
 The wilderness shall blossom into song.

Ah, Love Divine, how empty was that prayer
 Of other days; that which was once so fair,
 Those empty baubles that the world calls joys,

Are nothing to me now but broken toys,
 Outlived, outgrown, I thank Thee that I know
 Those much desired dreams of long ago,
 Like butterflies, have I had their summer day
 Of brief enchantment, and have gone. Today
 I pray for better things. Thou knowest God above,
 My one desire now -- TEACH ME TO LOVE.

GROUP WORK

Beloved, all are one in my sight, all are a part of the whole, all are needed to make up the whole and now is the time when all the many, many groups all over this world will unite and take part in a vast operation. No one group is greater than another and no one individual is greater than another and yet each one has a vital part to play.

This vast operation is the linking up of all the light bearers all over the world at this specific time.

The greater the darkness the greater the Light to counteract the darkness. There can be no segregation of groups at this time; no withdrawing, no petty envy or jealousy can enter in to spoil the unity.

Let there be a great uniting in my love, and close working together in my perfect harmony and unity, a pooling of all that is best and a casting out of anything which might cause disunity. Love unites all, so let love have full play. With me all things are possible.

Concentrate on the positive, all the best in each other and in each other group and ignore all else.

There is a common denominator; work on that. Every group has something to give to the whole, so none will be alike, but all are to be interwoven in perfect harmony into the perfect pattern.

These are tremendous days. Keep on your toes and miss nothing, and bring perfect unity and harmony wherever you go, realizing that there will be much chaos and confusion to clear away all the dross, but you are not to become part of it. Stand apart and do the work I have appointed you to do in perfect faith and confidence, and in peace and stillness.

Given through ELIXIR

LAW OF CONFIRMATION

All is law. If it were not so there would be nothing but chaos, or confusion. What about this law of confirmation, or "prove me now," as your Bible states? You may read, study, learn and apply what you learn, and if you glean a truth, how do you know it is Truth? Did you prove it? If all is run by law it must prove itself. If what you believe cannot be proven, how can it be truth to you? Now, of course, that does not mean it is not truth, but for you it cannot be truth unless you prove it.

YOU ARE A TREMENDOUS FOCUS

IXUTEL: Beloved beings of Light, We extend our gratitude to you for having convened tonight at this hour of need. There has been great activity on the Inner Realm this day, and the need for prayer was urgent. Everyone of you who are gathered here tonight have come in answer to a knocking within your heart, a call that was sent out. There were others who would have come but for some reason were not able to be physically present, but they are contributing through their consciousness. We are drawing upon as many as possible, not only within this area, this focus of Light, but all of the Light groups, especially in this country. Wherever there is a gathering or any one in sincere prayer at this time there are those on the Inner who are constantly on the alert to utilize the prayer-power force. It is needed now more so than ever.

Events are transpiring at a rapid rate. It is as if a torch or flame had touched a mound of inflammable material and ignited an under-current that was seething.

Beloved ones, know the power of prayer. You will know it more from this time henceforth. It is necessary that each one of you devote as much of your (so-called) time as possible to this endeavor. We do not expect or require one to discontinue his daily services, for we know that is a part of your experience and life in this embodiment, but we do request that the consciousness be turned to whatever condition or situation requires assistance.

You can, as Beloved Paul did, pray continuously. You can give out a great deal in prayer in that way (no matter what you are doing) just by turning your attention momentarily to the sending forth, or to be willing instruments (or channels) through whom Love and Light can be poured through. We do need your consent to know that it is your sincere desire and that you have willed it. Thus you are willing channels, willing receptacles for the outpouring of a tremendous influx of Love and Light in and through you in your area.

Picture the Love and Light being sent continuously for the upliftment of your brethren and the Earth planet and especially now in this present situation in the racial integration condition and also the government, the preparation, as you would call it of the candidates for presidency of the United States. So much depends upon the outcome of the elections this fall.

The conditions that are on the surface seem to be bettering as far as the war situation is concerned. This is only a surface appearance but can be the beginning of great strides toward a more peaceful action between nations and peoples. A great deal depends upon how much work it or can be done on the Earth planet by the workers, and that depends on the amount of assistance that can be given by the Light scientists and Those on the Inner Who are ever alert. We on the Inner are as busy (if not more so) than many on the planet. However, we do strive to do our very utmost for the planet and every situation.

Great assistance is being given all of the Light workers, especially at

this time and especially since the end of last year (1967) in the readjustment of their physical bodies and the reassembling of atoms in the structure within of their former bodies. This is very much needed for there is such an acceleration of rapid changes of every molecule of structure within the physical bodies as well as the structure of the Earth Body. Everything is being stepped up (so to speak) and each one would do well to apply himself or polarize the attention, the outer consciousness to what is transpiring. This would assist the individual in his own readjustment.

It is true that many of you are going through severe tests and trials, and our heart does go out to each and every one of you, but self-pity is very damagin, (if that's the word) as you know. Do not allow yourself to be weighted down through self-pity or anything of that sort. Know that you can be victorious and come through every test and trial. You may think that you are being tested and tried, but dear ones, those who are not in the Light, those who are not in the stride of the Cosmic flow at this time are going through a greater trial, more severe trials and testing which are indeed overpowering. So they do need an extra measure of Love and Light sent to them and prayer for their purification, for darkness is fast enveloping many of them. They do need help. Although they do not understand or realize what is transpiring, many of them inwardly know that they must resort to prayer and ask for a higher intelligence, a Higher Being to lift them, for they are not able to do much of anything for thems elves.

So do not 'weary with well doing', dear ones, but continually give and send out, for as you send out Love and Light, the amount of Light is increased in your own force field. You become a greater and greater, and a brighter and brighter shining Light not only for your own evolvment, but also for those around you and those with whom you are working. Thus you can be a greater light and of greater assistance to mankind and to the Earth planet.

So continue, dear ones and inspire others (that you know within this area and even those who are not in this area with whom you commune through correspondence or by the printed word) to also give forth the greatest service they can render, for this is the beginning of the end time. The Cosmic clock chimes and the hour is at hand.

Our Love is ever with you. The Light that is given us for use is constantly being sent out to all on the planet and to the areas where there is the greatest need. So never feel that you are along for there is always someone on watch. There is no 'slumber' in our work as far as the work of the Earth planet is concerned, there is always someone on watch, no matter what the time of the day or night. Truly there is no 'time' to let slip by. Sologa!

BITS OF WISDOM

The measure of a man is not the number of people who serve him, but the number of people he serves.

REVELATIONS - 4TH CHAPTER

SANANDA: Glory be unto the Father, the Son and the Holy Ghost. Glory be unto thee, My Beloved Disciples of Light. Light shall be thine heritage. Light shall be thy Glory and Love and Life shall be with thee unto Life Everlasting. Thou art, indeed, blessed among those who are Disciples of Light upon the Earth, not because I have chosen to speak to thee, but only because thou hast chosen to speak unto thine own souls, and because thou has chosen the pathway of Light wherein thou shalt be admonished and instructed in the greater glories of the Kingdom of Light, the Kingdom of Heaven and the Kingdom of thy God.

I AM Thy Wayshower, Sananda, Jesus, the Christ Who had elected in my humble way, to bring to you and to all of the world in which you manifest, enlightenment, instruction and interpretation of those Truths and so-called mysteries which have been hidden from the minds and souls of men for centuries upon centuries -- that they may be brought forth in greater effulgence and power so that ALL may see and partake of Light and Life Everlasting.

In order that we may proceed with the manifestation which I have promised to you, we will go immediately into the elucidation of that which will be brought to you from your innermost awareness, and not from the external words which I may speak. They will only be an interpretation of the written word, and in order that you may find the complete interpretation of that which I will give, it must come forth from your inner chakras and sanctums of your hearts. I have promised you that I would take you on a journey through some of these mysteries which have been obscured by the fog and error which has crept into the attempts of interpretation of the great Revelation which I gave to my Beloved Disciple, John, upon the Isle of Peace, or Patmos.

I have given you some of the interpretation of the beginning of this Revelation, and have progressed to the second and third division. However, so that we will miss nothing and that your memory will be refreshed, I shall review briefly that which I have given you in order that we may proceed with smoothness and directness to the interpretation of the succeeding manuscript.

In the second and third lessons, or sermons, which I gave you upon the subject, I spoke somewhat upon the meaning of the Churches which are designated therein. In order that you may have a clearer understanding of this I will briefly present the modern meaning of the so-called Churches which were established at the time this Revelation was given. I gave you part of these, and will finish them without further delay.

As I told you, these Churches represented the attributes of man in the physical body. You have listened to another interpretation which is essentially correct, in regard to the chakras, or divisions, of the seven bodies of man which I spoke about in my former discourse to you.

The Church designated as Ephesus, connotes Creation or your existence. The Church of Pergamos designates your consciousness, your sub-conscious and conscious mind. The church designated as Smyrna, connotes thee go or the individuality of each entity that comes into embodiment upon the Earth Plane. The Church of Philadelphia connotes and designates the Wisdom which is available to all mankind and which is generated by a particular chakra of the body which I will not go into because you have had much enlightenment upon the chakras of the body.

The Church of Sardis, represents the reason of man or his ability to analyze a situation which confronts him, and to make a decision which will encompass all of the other attributes which he has.

The Church of Laodicea, designates the judgment of man, how he may judge between right and wrong, or a course of action which is necessary for him to take in his physical embodiment.

The last of these designations is that of Thyatira, or the Universal Love of the physical entity which can be attained in the physical body to a certain limited degree. This, as I have given you before, includes all types of love, whether it be the love of your fellowman, the love of the sexes, the love of a mother for her child or a father for his child, or whatever it might be, is a part of the all encompassing Universal Love of the Cosmos. These Churches are not in the sequence they are given in the Scriptures. As I have informed you, they were not given in the sequence in which they were recorded, and this is the sequence in which they should have been taken as a recorded manuscript.

I desire to give you this tabulation that you may write it down as such. I gave you considerable detail in regard to the attributes of these various Churches. I told you that each of these so-called Churches which were in physical form and were established after my ascension, represented these attributes. Each Church had a certain amount, let us say, of these attributes which I had attributed to these various assemblies. They all, of course, had their deficiencies and their faults, as was given to the Beloved Disciple by me in the recitation of their manifestations and emoluments. Therefore, this is an introduction, so to speak, to that which follows or what has been written as the fourth portion of the book, entitled, "Revelations."

As we go through this book, we find that each and every verse in it, each and every word, is a Revelation. It devolves upon me at this particular time as your Teacher and Wayshower to try, as best I can, to bring you the modern interpretation which you may apply to your everyday life. It will be of value to you as you contemplate the various phases of existence in your physical flesh as well as in the so-called heavens above you. It is possible that, in my ardor and enthusiasm to bring you a correct interpretation of these matters, I may dwell too long upon one particular phase. If I do, it is only because it is very important, and one upon which, you should meditate in order to gain the ultimate instruction which it contains.

Let us begin with -- "the door which was opened in Heaven." Who opened this door? Was it opened by a Guardian Angel, by the Heavenly Hosts, or someone in the Heavens who had the power to open a door in Heaven?

Contrary to the accepted interpretations, this door which was opened in Heaven, was opened by the physical entity, known as John, My Beloved. He opened this door by his own volition.

Now I desire to dwell a moment upon the opening of the door. There is no power in Heaven nor Earth -- there is no Ascended Master in all the Realms of Spirit who can open the door for you. YOU, My Beloved Disciples, are the ONLY ones who can open the Door to Heaven, wherein you will be caught up in spirit as My Beloved Disciple and Revelator was caught up in Spirit. Let me impress upon you that you cannot be caught up in Spirit to the Heavens unless you first open the door wherein you may enter the Heavenly Realms where these Truths are revealed to you.

If I give you nothing more this afternoon than this One Message, it will be important for you, and I desire to impress it upon you very forcibly: THAT YOU MUST OPEN THE DOOR, OF YOUR OWN VOLITION. First of all, you must be WILLING to have the door opened that you may be taken up in spirit to see and hear the revelations that come forth. My Beloved Disciples, all of you here within the sound of my voice have opened that door in that particular manner. I wish to commend you exceedingly for the effectiveness with which you have opened your doors in order that you may be caught up in spirit to receive the revelation and baptism of the Holy Spirit which comes ONLY from the Spiritual Realm. It comes to you in proportion that you have opened wide the door of your hearts and souls to this revelation.

Now, when the door is opened, as related in this story, John saw a throne, and One sitting upon the throne. It has been erroneously interpreted that I, in My physical body was the one that he saw sitting upon the throne. In a sense, it was, for it was the Christ sitting upon the Throne of God. This includes all of those Saints who have made the passage into the Spiritual Realm who are veritably Christs within themselves, within their own heritage.

It is possible that in the consciousness of my Beloved Disciple, He saw my features revealed. Of course, he had been with me and was conscious not only of my physical form, but the Christ within me and within his own Higher Self or Oversoul. As we proceed with this interpretation, it will NOT be as conventional, and as, perhaps, orthodox as most of the interpretations have been.

Let us consider the rainbow which encircled the Throne. It was a very beautiful sight for the Revelator as he beheld this rainbow of seven colors over the Throne of God. What does the rainbow symbolize? The rainbow symbolizes the seven heavens. Let us repeat this again for your consciousness: THE RAINBOW REPRESENTED THE SEVEN HEAVENS with their divisions and various manifestations. It is not necessary for me to repeat there are Seven Divisions in the Heavens, or seven conditions. They are not lines of demarkation, but conditions of the soul after it has passed the gates of transition which you have called death.

Let us see what is meant by the SIX which is represented here. Why not seven? Now we must go way back to the Creation. The Creator created Earth in six days and He rested on the seventh. Therefore, there are six divisions of the Heavens which are primary, or lower than the seventh. The Seventh Heaven is...the Heaven of Rest or the Heaven of Ultimate Achievement, wherein the soul becomes ONE with their Creator and surveys and encompasses and has knowledge of all creation. So the six is mentioned here. This represents the six lower Heavens which are beneath the Seventh, or the condition of the soul in the Etheric Realm.

Now let us carry this explanation into greater detail by bringing another factor into it which is the representation of the 24 Elders. It has been projected there are Seven Divisions in the Heavenly Realms -- which is correct. We can divide them still further and get 24 divisions. We arrive at this by multiplying the six divisions by four. These planes blend, so to speak, and are designated as the seven main divisions of the Heavens. These are representative of the Throne -- the Elders who are seated upon these Thrones, the ones redeemed into Glory. They are manifesting upon these various Realms bowing down, so to speak, before the Throne of Christ, the Throne of God,

praising and glorifying His Name forever and forever wherein there is no imperfection, but complete perfection.

There is, however, an exception to this which is symbolized by the Four Higher Realms of the Heavenly Sphere which John saw as FOUR BEASTS with eyes in all of their bodies: The symbology of the four is the symbology of the Four Higher Heavens wherein ALL SAINTS have eyes, and all inhabitants of the Higher Realms are looking down into the preceding realm as well as down into the physical realm of Earth to monitor, so to speak, what is transpiring below.

There is another symbol I would like to discuss. I am referring to the word, SAVED which is in your Scriptures and which has been so grossly misinterpreted by the well meaning ministry and priesthood of the Earth. YOU ARE not saved until you have reached the Fourth Spiritual Realm, which is the beginning of your salvation. Our Beloved Master who comes to you, has given you something upon this subject, but not in this specific manner.

If you will meditate upon it, you will find it all ties together. Our Beloved Novano was not specifically saved until she reached the Fourth Spiritual Realm wherein she attained to a state of Universal Love. On the Third Plane she was working with those individuals in the lower realms, and also with those of Earth who were coming to that particular realm.

So My Beloved Ones, the pronouncements from the pulpits of your land must be examined. (Perhaps, I am treading upon dangerous ground). I desire however, to bring you Truth, and nothing but the Truth that shall be everlasting and which shall glorify my Father who is in Heaven, and also you, upon the Earth.

YOU ARE NOT SAVED UNTO EVERLASTING LIFE UNTIL YOU HAVE COMPLETED YOUR PHYSICAL EMBODIMENT and have passed into the Fourth Spiritual Plane. Now, this does not mean that you are not entitled or designated to attain this Realm when you pass through the gates of death.

There are thousands upon thousands who are symbolically saved in their physical body before they pass through the gates of death and who will go directly to the Fourth or even Fifth Spiritual Plane. However, they must pass through each of the other planes -- the first, second and third, in order to gain experience and knowledge of the manifestations and conditions that exist in these particular realms.

So, My Beloved Disciples, there is much to this Fourth symbology, that it would take a long time to bring it all to you. What about the Sea of Glass which is before the Throne of God? This is the great sea of God Consciousness which is before His Throne and in which all souls must be baptized before they shall reach the Higher Four Realms of the Spiritual Dwelling Places. This sea is smooth as glass and can be easily negotiated IF the physical body has submitted his will to the Will of The Father who is represented on The Throne which John saw -- the Christ Spirit. The Christ upon the Throne is the Will of God which is manifest in All Creation and in all the Spiritual and Etheric Realms.

The Glass before the Throne is the Consciousness of God, or the Creator, or the Essence of Creation. Now let us proceed and see if we cannot find the interpretation of the balance of this chapter.

What does the LION represent? The Lion roars, and the thunder and the lightning which is spoken of, is symbolical of the Power and the Glory of

The Father, the Creator. It is a Lion, not in the sense of devouring, altho this can be denoted also if the conditions are not conducive for the sustenance of the soul.

The Lion represents the Power and Glory of the Heavenly Realms and the Essence of Creation.

".....The second Beast was like a calf." Why a calf? In order that the Spirit may retain its entity and its status in the Spiritual Realms, it must become gentle as a calf, and nurse, so to speak, the milk of Salvation which is available to all who will come to the sustaining Light that they may partake thereof. The gentleness of the Father-Mother God will nurture them and protect them as a calf would be protected by its mother.

"....The fourth beast was like a flying eagle." The eagle flies above all creation. The eagle is a symbol of superiority. It is above all and its eye is ever peeled, so to speak, watching over the Heavenly Realms, and in its representation of the Holy Spirit, soars above the Heavenly Realms and the Earth Realm. It watches over all, caring for God's children everywhere in the eternal reaches of the Universe.

These are symbols which have been interpreted by the orthodox and unorthodox in various ways. It has been interpreted in ways far from the original meaning intended when the Revelation was given.

Of course, it would have been impossible to have given even an inkling of the interpretation which I have given you today in the time when this was written on the scrolls from which it has been transcribed hundreds and hundreds of times. Some of the original words are missing, and some of the words have been changed. In general, the Book of Revelations has not been altered by any scribe except in a very inadvertant manner which was almost unavoidable considering the many hands through which it has passed. It has not been deliberately changed, as was some of the other Scriptures by some of the early leaders of the Church, notably at the Council of Nicea.

Now, my Beloved Disciples of Light, I hope that I have given you the essential features of the interpretation of this particular passage which has been so mysterious to all down through the centuries and modern times.

As I have said, the primary reason that I am giving you this information is for your edification and instruction for the thousands who shall be exposed to its interpretation, and who shall meditate upon it and thereby will be able to live a better life close to their Creator with more of the Holy Spirit radiating in their souls in their earthly and etheric existence.

MATTHEW 13:18-23

PARABLE OF THE SOWER

The parable of the Sower speaks of the mind of man and compares it to the Earth. Jesus explains the seed to be the word of the Kingdom. The reference to the wicked one, being unfruitful pastimes, erasing all the good thoughts. The stoney places are the prejudiced minds. The thorny Earth is the unconcerned mind, much too lazy to think, and wrapped up in the superficial things of life. Yet the good ground is the mind that is fertile to all thoughts, for if the seed is good, it will flourish and bear fruit.

SUSTAIN THE LIGHT BY RAISING THE CONSCIOUSNESS IN PRAYER
IXUTEL: Greetings from the Etheric plane, from the Hosts of Heaven, from the Cosmic Forces centered around your Earth Planet in these crucial times.

We continue to send the Light to and through you to all mankind. You assist us in performance of this upliftment for all by consistent daily attunement; by frequent raising of the consciousness to project the flow to all mankind. As time goes on the daily attunements and the value of your prayers become even more essential for the stabilization of the planet. Your wish to aid in this crisis will increase your consciousness, but your daily practice of attunement is needed to sustain this consciousness. As you progress spiritually you will discern the urgency of our call for more prayer power, for more group meetings to be used as a focus and transmitters of this power. Frequent pauses for prayer during the daily routine of work should become as second nature to all the Light Workers, as well.

For what else is of such importance than the Eternal soul of man. Moth and rust and the evil forces are corrupting all things of the material world. All things that are not of Divine Order will pass away. But the soul will remain revealed in it's impurities or in it's perfection. We implore you to remove the outer coverings from mankind and look beneath to the real person. As you become more proficient in determining what is hidden under most exteriors you will long to find a way to release these children from their impurities. Know that there is one ultimate way to assist them. The first step is in the use of prayer and of the Cleansing Violet Flame. This sacred privilege has been bestowed upon the followers of Christ.

As well as assisting the masses, do not neglect the governing bodies of the world. Much can be done with the Violet Flame in the areas of leadership and the formation of governing policies.

Surround and envelop your president, his cabinet, his advisors, with the Transmuting Violet Flame. Surround and envelop the House and Senate with the Cleansing Fire. Permeate the Governors, the House and the Senate of every state with the Cleansing Transmuting Flame. Do not neglect government at the local level. It is equally important to give them assistance with the Light and Love. As you consciously touch each one, with the Light his leadership abilities are enhanced.

Whatever nation you live in, whatever the governing body, touch the leaders with your Loving Thoughts through the Transmuting Violet Flame of GOD. This is the fiery flame spoken of in the Scriptures. "Let all the angels of GOD pay Him homage" Of the angels he says "He who makes his angels winds, and his ministers a fiery flame". (Heb. 1:7). "For that day dawns in fire, and the fire will test the worth of each man's work" (I Cor. 3:13-17).

It could not be told then that the Cleansing Fire could be used through Angels, through other Great Beings, and through many dedicated beings expressing in the form and likeness of mankind; nor that the Fire was even

a cleansing process. The masses could not have understood the power of the seven Rays and the magic of the seven colors. It can now be revealed to all who are eager to learn of the mysteries mentioned in the Bible.

Be careful when you send out Light and Love that you are protected at all times with The Violet Cleansing Flame and the Blue Cosmic Wall of Protective Fire lest ye receive back the negativity that was cleansed from others.

As you share and reveal this mystery of the power of prayer, pray that another lost soul turns to his Source. Pray that he or she will become dedicated to the Christ and become, in turn, a willing prayer channel.

A LESSON IN POWER

MALCOLM (A SPACE BROTHER): GOD created our bodies and our minds for his service and for His glory. When we use our minds, our bodies, for anything but His Will, we short circuit the body and this goes against every unit of our being, creating in us misery, and unhappiness.

We simply were not made to use the body in any other fashion than in Service and Love. We were built as a dwelling place of the Holy Spirit. In the beginning GOD gave us warning of what would happen if we disobeyed His Law, thereby breaking the circuit. Having done so, set mankind on a cycle that had to be corrected through the coming of Jesus Christ, who spliced the broken line between GOD and man, who has taught us how to control and use the electrical energy of the GOD-HEAD. Jesus in overcoming has shown us how to redirect our power to conquer death and illness, how to use the current and voltage of our bodies correctly according to the Laws of GOD.

Is there a maniac that is any worse than a person deeply involved in sin (the misuse of GOD's energy)? The negative electrical flow of current in their bodies damages the brain and causes insanity or a form thereof. The greater the resistance (allowed by man's free will) the smaller the current which can pass through. Electric current, when it encounters resistance, gives rise to heat (blown fuses, faulty rewiring, open lines, and voltage leaks), taking the forms of unhappiness, uneasiness, feelings of persecutions, and unknown fears.

Observe the ravages of body as well as soul when one goes against the Laws of GOD: mental distress, moral decay, the ill health and slavery of drinking; malnutrition, obesity, skin diseases, premature old age, utter confusion of mind, wasting away of body and mind, destruction of all that should be beautiful, plus the burning out of the spirit. As the mind loses complete control it is like the unleashing of an electrical storm until the body, mind, and soul seem to be completely destroyed, leaving behind a shell in a world of darkness, demons, and fear.

The power of the circuit breaker (the electric light switch) should be controlled by our Christ selves. The rectifier (Christ) recharges our batteries. This is Universal Law in action that can be proved by observing the body of a Christ-like person and observing the body of one who is other-than-Christ-like.

Anger, uncontrolled temper and hate reap havoc upon individuals and nations. The Laws of Forgiveness and Love are written for our own protection. They never so much hurt or destroy the one they are directed against as they do the sender. Such emotions and feelings being against the Laws of GOD, therefore have nothing in common with the GOD-Within.

Use your lower bodies created for the dwelling place of the spirit to test the Law. Test it for one day, one week, one month, and finally for a year. Prove it! Start by living it one day at a time.

Begin your day with a prayer asking GOD's direction. Ask HIM to be able to live a better life for just that one day. Ask HIM to set in motion right thinking. Ask HIM to remove the blocks of the dark forces as they set up resistance to change. Ask the Mighty I AM presence to raise your potential difference (energy measured in voltage). Ask your I AM Presence to remove the resistors that reduce the direct current flow which has brought your life to a stand still. Ask your beloved I AM Presence to unite your free will (the electric transformer) insuring to that of the Christ self continual positive flow, thereby making this vessel fit for the indwelling of the Holy Spirit. BITS OF WISDOM

Jesus' sole desire was to help man to know what he could become and then teach him how to accomplish it.

You, an individual alone, must do the climbing into the higher mansion of your own conscious awareness.

Truth which was revealed yesterday, is the foundation for further truth that will be revealed today.

Your very uniqueness is your crowning glory.

LAW OF DISCRIMINATION

In the Name of the Holy of Holies shall this law be given, i. e.: the law of discrimination. Within each man is the All Knowing One, your heart center, where you feel, rather than know the truth of a thing. You need never ask of anyone, "What do ; you think?" It does not matter what he thinks. What do you think? That is the all important thing.

For the answer, search your heart. It shall always give you the answer, the reaction to a given action. How does your heart react? You have heard a great speaker. Well, did you feel the truth of his words? Did what he said touch your heart? Did your heart react in oneness, in acceptance? Or did you begin to question, "How can that be?" "I do not accept this!" "I do not believe this!"

You will answer your own questions if you will listen to your heart. It is your only true guide; it will not err, for you will be true to your own being, or your God, Jehovah, within.
