Editorials are very frank opinions of an individual who may or may not be right, but the opinion of that individual is supposed to make one think. This we have discovered from our research of other Editorials. In keeping with this, we of M.I.N.D., have written our opinion in the same vein; so beware, this is an attempt to sway your thinking!

Now Friends, the subject under consideration is one of grave concern. It is the influencing of you and the removal of your right to think for yourself.

(Please Sir!..you in the back row...sit down! I don't care if you don't want to think for yourself, you MUST, you know; and I am going to tell you what to think!)

Think about all the people who tell you what to think! The person who really thinks independently for himself, is neither subjective nor objective, but a fine blend of both. This rare individual listens to the Heart, where truth rings a bell, and then looks to the mind for objective analysis of the truth speaker. Knowing that if truth is used to reach a goal of evil, it is the most dangerous of all. Individualism seeks the goal of the person who has rung the heart's truth bell.

Truth can also be used to overwhelm. This will close off the mind for some time to come, as people hate to have so much to analyze that an important clue might be lost. This often is the method of one who does not wish to lie outright, but wishes to have confusion result in rejection of truth. These are the same methods that have been used in the U.F.O. field for quite some time. Truth has been sugar-coated, thrown out in overwhelming lots, and generally made confused and objectionable. Why? You know, and so do we. To know the truth about the U.F.O., its occupants and their motives, is to know and remember what all this Earth-living is about, and what is to come. If one knows and remembers, it is impossible to control his thinking.

The truth, the REAL truth was given to the pioneers of the Saucer field in the time after Arnold. These brave people came back and told all who would listen and believe.

Contactees said these craft are of other planets. The occupants look and seem to be just as we. They must be more advanced in

in science or they could not have come here. They have offered to help us understand their culture and beliefs, and are willing to tell those of us who want to understand about the scientific advancement of their culture. These occupants have said that they too, believe in one God of the Universe, and that they respect His desires for them and His creation. They also said there are those who are just as advanced scientifically, who do NOT worship one God, nor do they respect His wishes.

The pioneers in the field told anyone who wished to know, and many did. These people of Earth who had met and learned to know the occupants of these spacecraft, relayed the truth to the best of their understanding and ability. They told of suggestions which they made, and "suggestions" is exactly what they were. "It would be best if you do not war over such foolish things as land and money, which have no real value. Instead, learn to know the value of yourselves and the reasons for the present conditions upon your planet. These conditions are improving, and you can and will be as advanced as we are, if you learn to know yourselves, and learn to know your enemy." But to the U.F.O. pioneer, who knew the value, it was a great message. But to others, hearing it second-hand, these suggestions were hardly exciting. Many who listened to the experiences and accounts of the early contactees thought it was too much like what had been told them by religionists for centuries. Excitement did not lie in their realm of the possible, so the truth of the pioneer was largely ignored, or garbled and twisted out of proportion. Secrets, which were for the proven few, and all manner of false but more exciting fairy tales came forth to sugar-coat the truth. Pioneers were forgotten and ignored, if they tried to bring the thinking back to the original truth. These people counted no contactee worth his salt, if he did not tell a bigger tale than the last one, giving an opening to fabled exploits of publicity-seekers with no actual U.F.O. experience. The true contactee told of the honest way in which the space-visitors spoke to him, and tried to get this across to the people of the Earth. Many became

Editorial (continued)

obsessed with the greatness of the message, and tried to deliver it in their own various ways. All tried to the best of their ability. Many of them aroused enough public interest and curiosity to inspire deeper research. When the space-visitors began to realize the impossibility of relaying their message in its original form without distortion, they suspended contact in some cases, and in others withdrew it completely. Those who had been temporarily disconnected knew the reasons, and they know why they are waiting for further word from them now. The true contactee is sitting back, waiting for the charlatans to burn themselves out. They know that when this occurs, they will be recontacted. Many have been already, although they do not say so. For it is useless to tell people whose minds have been filled with the mud of false references and fairy tales. They will not hear the truth but will distort it to another dimension and make a status symbol of knowing a more phoney and 'way-out explanation to confuse those who really desire to know the truth.

This then, is all the Earth has to turn to for answers. The realistic provable truth is still available. But there are kooks around who want to sound important, and in order to do so must drown out the pioneers' voices by bigger words, more dimensions, more secrets that never get told and by more loud brash claims. If you seek the truth, return to the pioneers which you have ignored and forgotten. Your salvation is with the truth, and it shall make you free!

Truth is a fine blend of reality and faith. The truth can be proven, and given the opportunity, it will be. The men who know the truth will tell, and have told all they know, in simple rational language. Give these people the respect they deserve, and ask them to recommend writings, speakers and works which match up to the information they have been given by their saucer contacts. These pioneers are not old and backward and useless. Far from it! They tell the same truth each time they speak, because it has not been accepted yet. There is no reason to tell more if the people of the saucer field must be continually reminded that they have not yet understood and used the information already available. Learn to understand that the people of other worlds are just that ... people! Some are taller, some smaller, some smarter, some not.

They have various motives for coming to Earth, and not all of these motives are honorable. These people look much alike and their craft are alike. It is unwise to expect another person to be of good intent, just because he is more scientifically advanced. Know their culture, know its motives and goals, know them as you have learned to know the intentions and cultures of Earth. It may be a good and honorable visitor, but like anyone else, his goals may not be the same goals you have chosen. Don't assume the space people are all superior beings. Know for sure, before you respect them. Just as the people of Earth generally are good and kind, honorable and trustworthy, the space visitors are generally so as well. But the ones who are not, can fool you with the truth, if you do not know the goals of their culture.

It is not enough to ask if they believe in One Creator. Anyone as advanced as these people knows there is but One God. But this does not mean that they respect His wishes or follow His master plan, if they do not, then they have come to Earth to try to make themselves Gods in your eyes. Unless you stop being so gullible as to accept them without asking whether or not they follow the master plan of the Creator, you will find yourself admiring a human who thinks he is just as good as the Creator, and who has no respect or desire to worship anything but himself.

The pioneers tried to tell you that the people they met were good, but that these people told them of others who were not. You did not want to hear that, because you would be unable to think of it as exciting and heavenly out there. Most places are heavenly compared to Earth, because they know and face the truth to keep it that way. If they did not admit evil intent, then they could not defend against it. Sure they are advanced and know the difference, but you of Earth do not, and it is time you ask the pioneers, and others who are aware of the truth, to help you know.

The Space visitors have told them and have taught them to be discriminate.
NOW YOU MUST LEARN TO BE AS WELL!!

WHAT M.I.N.D. IS ALL ABOUT.....

We received a letter from someone the other day who wanted "free samples" of what we here at M.I.N.D. center, are all about. It seemed a fair enough request. I wish it were so simple to explain it..... Well, here goes!

What we are mostly about, it seems, can be likened to the story of the blind men and the elephant. It seems each of those in the field has come in contact with this immense Saucer subject and like the blind men each has come in contact with a different part; though all are related and go to make up the parts of the "elephant", we at M.I.N.D. realize no one has the picture of what the whole "elephant" really is. In fact most are not even in a position to realize that they just have each, a "piece" of the crittur, much more to know where it fits in. We say everyone with a degree of reservation only, because our investigations have shown us that most of those in the Saucer field are telling the truth. The ones that aren't will soon expose themselves as the "elephant" takes his entire shape, for their "phony piece" just isn't going to have a place in making up the whole "elephant". Our piece of the "elephant", here at M.I.N.D. could perhaps best be described as the HIDE. That part that holds the whole beast together.

For instance, you have been told that the Space-craft come from other planets; there are real people on them who speak to some Earthlings, and in a tongue that the contactee understands. We of M.I.N.D. verify these facts. How? Well, we ourselves have seen their craft many times and have exchanged conversation with them in a language which we have had no trouble whatsoever in understanding. Our communication, though telepathic in nature is nonetheless real as we have been very successful in establishing pre-arranged sightings and displays before many witnesses. This, we feel should bear mute evidence of our mutual association and cooperation with them, although we are happy to trot out on request not only signed affidavits by these witnesses but also other strong evidence by way of proof. But on with the important things we wish to share with you.....

You have been told that space visitors do not wish to frighten or otherwise panic the people of Earth, and will not make themselves generally known as realities until more people here understand their ways, customs, and cultures. (Also their sizes.)

Well, this is true. No body wants to suddenly find him or herself staring up into the face of an 8 or 9 foot giant no matter how much he may smile in friendly greeting, until such time as they know a little more about such human sky-scrappers. Can't say as I blame you! For though the majority of space people who are seen are of a more nominal vertical span because they are hand-picked for just such "emissarial" missions to the Earth, (that is a word, isn't it?) the time is soon coming when the large economy size will be visiting us, also. Are ya ready?

The contactees have informed you that the space visitors claim there is no war or other form of hanky-panky on their planets. Fine! But they also state that there are those of evil intent in the universe outside of the warmongers of the planet Earth. In both cases they have spoken the truth; for the war they fight is conducted from their space-craft in the skies over and far out from their respective home planets! You see, there are two forces in the universe....it isn't all sweetness and light out there as we would like to think! No, it isn't over land and money that they fight. Something far more precious is involved. A certain something we of M.I.N.D. have been taught to call the "CHARGE FORCE". This will be explained in some detail a bit later, but first, please understand that evil in the universe outside of our own immediately limited planet, has not been eliminated by mere scientific and mental advancement. Quite to the contrary. More and better tools of war have in many cases been the result. Those of spiritual advancement as well as scientific progress are having one hellish tussel even at this time, with forces equally developed scientifically, alone.

The evil of such as these has been pushed and held in check for the most part, at the far reaches of the Universe, but occasionally it manages to slip through to cause misery in large amounts before departing or intercepted by the protective forces of the craft of those of Light. It has only been held there by complete understanding of its goals and long acquaintance with its strategy. YOU of the Earth could open the way for its return to this part of the Universe

by simply sticking your head in the sand like an ostrich and blinding yourselves to the fact of its existence!

Want to know more about these evil ones? Alright. They are an immense group of people who are so advanced mentally and scientifically that they feel themselves as independent of the Creator's wishes and neither honor nor respect His Universal Master Plan which includes the good for ALL! Even with the full awareness that God is an actuality, and the undeniable proof of it, also, which they have been shown, they so desire to be worshipped for their own inferior abilities that they will kill and destroy without mercy in order to hold control...just as do evil forces on Earth! THIS, then is your full Armageddon...and the Gog and Magog forces are hard at it! Now about this Charge Force thing that they are fighting over; the GOOD side of this well nigh incredible space battle, are interested in assisting the Earth through its birth pangs into the New Age so that it can join the Intergalactic Federation of the Worlds and live and work together in the Master Plan of God for the collective good and happiness of all men...regardless of their planet or personalized cultures. The OTHER side, however, desires in anyway they can to break through to the Earth and viciously rob its people of the Charge Force, or soul-power vital energy that their creative efforts and cooperative enterprise has been storing up as a planetary race, for thousands of years! How would they accomplish this? By simply coming here in a great show of power and pageantry so that you in your ignorance not knowing what it is your being exposed to would go into emotional traumas of relief thinking that God had at last sent great angels of deliverance for the planet and its peoples! All they would need to do to begin with to make it easy on themselves to vampire this precious creative force from you would be to put on a big circus and outward show of having pity and compassion on you of this poor suffering Earth and you would be putty in their hands, giving up this precious life essence of your beings in great surging invisible waves of your beings in great surging energy...energy that no machine even in their technology has ever been able to produce synthetically! THEN, when they could no longer deceive you as to what they really were in their natures, their only re-

course would be to make life a hell on Earth beyond your wildest night-mares. In you acute misery you would then give up what remaining soul-force you had left. That, done, they would then raze the entire planet with fire from mammoth ray weapons and leave the horror of the remaining remnant of humanity for those of the GOOD forces in the Universe to take care of....a project which would take about a thousand years or so! In the meanwhile, the evil forces would be about their hideous business of doing the same thing to other planets...and not having to deal with quite as much of a threat from the good forces for the simple reason that part of the ones who would oppose them would be busy cleaning up the mess of suffering humanity that they in their mercy could not leave to their terrible state...even though brought upon themselves through at a prior date in time, refusing to accept un-pretty facts about the way things were in the Universe! Not a pretty picture to be sure...let's all wise up to the truth and see that it just doesn't happen that way!!!

Earth is the last store-house of charge-force in this part of the Universe, They have great plans for it. The first part of their plan has succeeded, for Earth has been under an unnatural condition (the frequency barrier) which was originally the fault of the evil forces. Under this condition, Earth has not been able to either evaluate nor remember the past. Ecclesiastes tells you there is nothing new under the Sun and it is so right. Those of evil know this very well and make their plans while waiting for the cycle to complete itself. The "wheel within the wheel", spoken of in Ezekiel, refers to the tiny wheel of Earth which is for the present locking in all the charge force of the people of Earth, because of the frequency barrier. This charge force is actually a part of the planet which is acting like a huge magnetic "bank". At the present time due to the barrier, neither the good nor the evil forces can enter in directly in relation to the Earth, therefore the charge in the "bank" cannot be tampered with to any great extent. It cannot be removed, directed into the Cosmic plan for the overall good of all man-kind, nor can it be drained away by the evil ones to use in furthering their purposes.

If all this charge force of Earth is not directed toward understanding and following the Master Plan of God before the barrier is gone, which is not far away according to our space-friends who have been observing its decline via their instruments, for thousands of years. (The big reason they have been seen down through the centuries, by the way). At that time both the forces of good and those of evil are free to come to the Earth...one to try to defend it...and the other to make its people worship them for a crust of bread! Armageddon in its entirety is but a dream-vision of what COULD happen...it is not yet a reality in full, nor does it need to be! You should know this however; there exists in the Universe a great Mother-craft, the name of which, in English means "the Four Horsemen of the Apocalypse, and that there also exists another Mother-craft which is stationed at the edge of the Universe, with a name which translates as "Wormwood". (I refer you to the Revelation of St. John, in your Bible!) We do not tell you this to bring fear, for the TRUTH will make you free. Free to do your part to prevent the entire fulfilment of the Revelation of Armageddon from ever coming to be a reality. As a free-will being of God,... the choice is up to you and others such as yourself! Which will you have? Complete freedom and happiness...or terrible slavery!

Learn to understand the truth and use it. Eliminate the false convictions and restrictions which result in your loss of the charge force; the creative vital energy of your being that you use (or mis-use) every day in expression of your abilities, enthusiasms, and reactions to others. In other words, charge force is released through emotion! Emotions of love and creative expression that are in line with the true harmonious ways of the Creator's Master Plan cause a replacement of the charge force in even greater amounts than originally expended. (Which is why the evil forces are forced to vampire this force from others as they do not produce emotions or works that are in harmony with the Plan.) Be wise... learn the ways of protecting yourself and make the Earth such a fruitless trip for the evil ones of space that they will find no reason for coming here when the barrier is gone and the Earth becomes open. Remember. The charge they are interested in which would make worthwhile their own expenditure of charge, is the

vast amounts that would be released to them if you were so ignorant and foolish to worship them as gods...not the relatively piddling amounts that they would have to work to get from you by making life a living hell on the Earth. They have, at present every reason for coming here, for the foolish uneducated Earth people would for the most part greet them as gods and deliverers; a program of deception that they have been cleverly working at for a long, long time... even BEFORE the barrier came to be. Some people are near perfection in the Universe, but most are just as we of the Earth. Those who HAVE attained this high estate of being remember the things which THEY had to face and overcome. They have passed this vital knowledge on to the Earth before. But, because of the mind-closing effects of the frequency barrier which closed off our racial memories of long ago, we have forgotten it, and those of evil on THIS planet, have served as gh tools directed from afar, by the dark forces of other planets, to keep man in ignorance of the terrible threat to their heritage...that of a literal Heaven on Earth for all! Let us not endure the threat of ignorance of this dark force any longer. The Earth is the ONLY planet that does not understand this danger, (because of the limitations of the unnatural artificially produced vibration or frequency barrier of the planet) and is the only "key" that could unlock the pit of hell and let it return to Earth to plague and torment those who have thus far kept the evil ones at bay! Virtually check-mating their terrible plans, those of space who are of light and love and who have not only scientific advancements to do away with all our diseases and human limitations in general, but are very spiritually advanced as well, and offer to us the grand invitation to join the Federation of Worlds in a Cosmic brother-hood of love, cooperation and harmony, they, the forces of GOOD in the universe, wait upon us to understand and make a way and a place for them to be with us; for that is exactly what their feeling towards us is and the way in which they express it, "BE WITH US!" Are we to turn down such a grand and wonderful invitation...cheating ourselves of a heritage that has been prepared for us from the very beginning? NO!!!

THE PRAYER TO THE LORD

That which quickens
the Spirit hath no
man as Author

O Lord God, Father of my being,
With reverence do I salute Thee,
And in awe bear witness of Thy Hallowed presence within.

Thou art my King; may Thy Will be shown unto me
That Thy Way be done through me—
Yea, Lord, make of me an able servant in Thy Kingdom.

Strengthen me in trust, and sustain me in faith
That I might the better partake of Thy Substance each Day.

Increase me with patience, O Lord, that I might grow
In tolerance and wisdom, quicken in fortitude, and
Magnify Thy Holy Name in Love—helping those whom Thou
Givest me, and forgiving those who in mortal weakness
Take of me.

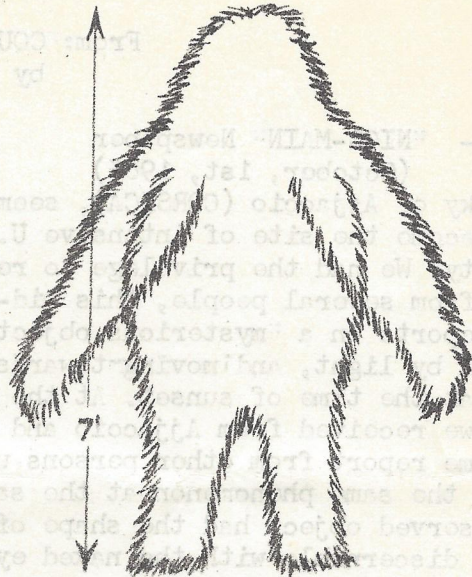

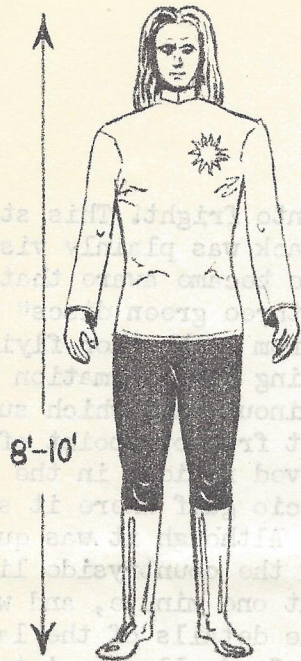

Keep me from the snare of self-righteousness and the folly
Of judgement, that I become not unworthy to receive
Forgiveness for mine offences unto Thee and Thy Children.

Strengthen me, that I yield not to the guile of The Tempter,
The unpledged portion of my being, and shield me from
All that would make me lesser in Thy Sight and in Thy
Service—Yea, Lord, guide and confirm me in Thy Way
Of Righteousness,-----

For through infinite Grace of Thy unwarranted Mercy
Is Thy Kingdom come unto me as it is to all Thy Children,
With inherited authority in Thy Name and in Thy Faith,
That I might fulfill on the Earth Thy works wrought
Of Heaven, and bear testimony in manifestation of Thy Power,
Glory and Truth forever and ever.

MAY THE BREAD AND THE WINE— EVEN CHRIST, BE MY PORTION!

AMEN - SELAH!

INTERNATIONAL COMMENTARY

From: "COURRIER INTERPLANETAIRE"
by Sir Mec Tercreest

FRANCE- "NICE-MAIN" Newspaper
(October, 1st, 1965)

"The sky of Ajaccio (CORSIKA), seems to have become the site of intensive U.F.O. activity. We had the privilege to receive from several people, this mid-summer, reports on a "mysterious object" surrounded by light, and moving towards the Earth at the time of sunset. At the same time, we received from Ajaccio and Antibes, the same report from other persons who observed the same phenomenon at the same time. The observed object had the shape of a disc, hardly discernible with the naked eyes, but the one observed the day before was seen at such a close range as to be frightening in size as it moved along and scared the people who witnessed it. There were, at this early time of morning, a few fishermen at the Napoleon Wharf, and their attention was suddenly attracted by a pale green light which was at first seen as a disc-shaped object until such time as it became more discernable as it moved closer to the Earth. Then the line of the craft became more distinct and so large that these men were really frightened in spite of the fact that they were rugged men, as their occupation demanded they be, and hardened to most every kind of danger or unusual incident. I saw two or three of them flatten themselves down on the pavement, arms covering their heads as if they half expected the thing to smash into them", reported the witness who managed to keep his composure enough to remain standing and observe all that took place. (though as he admitted, trembling all over, himself) Collective hallucination? Surely not! This same object was observed by two other persons from Ajaccio whose names are: Mr. Roch Chelos and Bernard Milano. They came to tell us their story of the incident, which they will remember for a long, long time. From Mr. Roch Chelos statement, here is the story as we heard it: "Nado, (Bernard) and I, left in our car this morning with our guns for a hunting trip. It was 5.30 A.M. We were driving toward the Tavera Mount to watch the wild pigeons in their path of flight. I am definitely sure of the time, as I looked at my watch when suddenly a large luminous green track of light appeared in the sky. Our surprize

changed rapidly into fright! This strange green luminous track was plainly visible. All of a sudden we became aware that it was formed from "three green discs" perfectly separate from each other flying in formation. Preceding this formation was a small white luminous ball which suddenly cut to the left from our point of observation, and moved rapidly in the direction of the Ajaccio gulf where it suddenly exploded!!! Although it was quite dark, immediately the countryside lit up like day for about one minute, and we could even see the details of the landscape, perfectly. Gradually the intensity of the light diminished until all became dark once more. Everything we had been witnessing was gone. Nado and I looked at each other. We were speechless. We had just shared the most amazing and frightening time of our lives! We will never forget that morning of September 30th 1965!"

In confirmation of his incredible story, Mr. Roch at a later date, made some sketches of the event. Even at that time he was still frightened by what he had seen. Numerous testimonies of people from 40 miles around came in later to reinforce his amazing story. It would seem obvious that some form of strange craft unearthly in nature truly do exist!

CANADA—

MONTREAL- "La Presse" (French) Aug, '65, London (AFP)-- A mysterious object following an irregular trajectory was observed by Londonian vacationers yesterday morning, above the Island of Wright. This object was quiet and going at varying speed and was surrounded by a yellowish-orange halo of light. It was observed for a period of ten minutes before it vanished in the Northern sky. "It was not a plane... certainly not a missile or a star...nor was it a satellite" concluded the man who was one of the witnesses of the phenomenon.

AROUND THE SAUCER MOVEMENT

Being now, at least to the Saucer field has a few advantages which we are quick to take advantage of.

No we do not in any manner mean to attempt judgment. We mean to remind those of you who are accustomed to it, what a swell group of advantages are available.

We do this by telling you about the nice people we have met since we came into the Saucer field, (officially) in June of 1965.

Met Gabe Green of AFSCA and he was very helpful to us in every way, as was his beautiful wife Helen. They both saw our innocence and were grand advisors. To speak of gratitude is hardly enough. Here is some news about them; Heard they were planning a convention in Reno Nevada in the Spring.

Met Dan Fry and his wonderful wife, Tahalita. The only thing to say of this pair of honest solid people is that they deserve everything, also; love, respect, and gratitude for keeping reason in the field of the U.F.O. They are showing a slide program of their trip to the pyramids and Europe. See it and get acquainted with them both. Attended the Convention of The Sons of Jared, at the old Embassy. It was held early in the Fall. Clete Godfard and Tex Wilsie, directors of that group were the source of introduction to so many people in the Saucer movement; it would have taken much longer to know the people in the field, if it were not for them and their kindness.

Another convention held of recent was in the Blarney Castle annex. It was not restricted to the subject of Saucers alone. Lots of variety in this one. The mansponsoring it was not limited to a strict program of events, as he is a Reverend, and combines his belief in Saucers with his work. Many people who were authorities on the subject were there, and lots of interesting discussion resulted from the wonderful enthusiasm.

One of the bright memories we have of this convention, concerns a young red-head named Mary Ann Francis. She set a certain group of single males in the M.I.N.D. organization to straightening hair and tie. Rare to find so much beauty and brains in one so young.

A fine man, prominent in the field, Sir Anthony Brook, who is from Mary Ann's original homeland, England, was a delightful surprize visitor there.

Michael X and his wife Violet Barton are two other people we have met and learned to value for their clear thinking and honest evaluation of all New Age subjects that they encounter. News about them and their Futura Press publishing house, is the fine way in which their fascinating book, "The Incredible Search For Dr. Halsey", is selling. Don't miss it!

We met Mr. Van Tassel sometime before we came into the movement; another prominent contributor in the Saucer field and one of the first pioneers in the movement. We liked him and his wife a lot and very much appreciated their courtesy and patience with two strangers who asked many questions and took up most of their day, I'm afraid.

Orfeo Angelucci, is one of the quiet pioneers in the field, telling his experiences with good judgement, and waiting patiently for further information to add to his already valuable contribution. We were delighted to meet him and learn of his work IN Saucers.

Met a wonderful woman; she has a true gift of knowing the truth, and the ability to read the inner person before a word is said. Inis Hurd...or "Mother" Hurd to all who know her! She lives in Long Beach, and is a must for those who are really searching.

Heard the tape of Sidney Padrick who took a saucer ride, January 1965. One of the best tapes I ever heard! Too bad that later it was written up in a saucer publication (dated October) which did not seem to be printing the same story which we heard from a tape made shortly after he had the experience. It seems "expert", by re-wording changed the original values somehow. It may be that this is what happens; a person has an experience and tells the simple truth as he understands it, then the "experts" who never had the experience but know all the words, get it so confused that it is hard to recognize as the same experience. The original version is on a tape owned by Mr. O.B. LaVoie, who would probably be willing to sell you a copy. Mr. LaVoie is an old timer in

the field and a friend of Truman Bethurum. He informs us that Truman is in Arizona for his health, and would very much appreciate a visit or a letter from his old friends. Mr. LaVoie can give you the address. Write us if you wish to have this information and we will pass the letter along to Mr. LaVoie so that he will know.

Have received some fine papers for a time from a nice lady in Yarnoll, Arizona. Dorothy Thomas. She is honest in saying that the Saucer field has been infiltrated by Kooks who offer nothing of value to the public, these days. She would know, having been around to know the difference between now and when it first started. You should visit her and see Yarnoll if you get a chance. It is beautiful country...and so full of New Age people.

Spoke on the phone to Mr. Ray Palmer, the publisher of "Search", "Flying Saucers" and "Forum". Seems to be a clever fellow and made talking business a pleasure.

Some of the nicest people we have we have met in the publishing field are Morle and Goldie Gould. They print the "Cosmic Star" newspaper.

Come to think of it, there is just no end to the nice people we have met in the Saucer field and those of general New Age interest. If you are looking for the reason that these people were chosen for this field, you might look to the kindness that radiates from them towards others. The Saucer field is not the place for anyone looking to get rich. It is a field where one remains if they wish to help to give hope to the people of this planet, Earth. These leaders of the Saucer field practice what they preach and give help and hope to any who need it, to the best of their ability. That, my friends, is what they have in common that made them right to be chosen as contactees and workers in this movement. That, and an open mind not trapped in ego. The only rewards they ever expect from others is to be respected in their sincerity. Belief is up to you after you have heard their story. Those we have met and those who we have yet to meet in this work, deserve all that the public can offer them by way of support and encouragement. They have kept alive a truth. A truth vital to this planet...and that, my friends takes hard work...and an unselfish Heart.

One not discouraged by ridicule of the ignorant, nor the press of hard times.

Hats off, to them, I say...and may they continue to serve the truth successfully.

SPACEMAN OR MONSTER?

We have been told by our space friends that the low and unnatural vibration of this planet Earth would have such a radical effect upon some inhabitants of other worlds that the effect would be destruction or at best mutation of their physical bodies from too long an exposure. Now don't jump on me and tell me you know of space people living upon the Earth in perfect comfort; I said, of SOME planets. Other people from space can come and walk the planet for a period of time, unaffected by the vibration. However, these too must sooner or later correct their immediate vibration by artificial means in order to use the full power of their minds and remain healthy.

Those we are most familiar with who can endure the vibration without a space-suit set to maintain comfort and naturalness are the Venusians and the Saturnians. They cannot remain indefinitely; however, anymore than can any people of space to whom this Earth's unnatural vibration is both foreign and unhealthy, so to speak. In case you are not familiar with it, there is a slide picture of a tall Saturnian in existence that many people in the Saucer field have a copy of. M.I.N.D. organization is in possession of one also. You will notice, (should you should be fortunate enough to have a copy) that the Saturnian is carrying a device with him that best resembles a sling-shot. This device is of a metal which vibrates at the normal rate of his own planet and by putting it between his teeth and setting it into vibration like a tuning fork so that the nerves in his teeth carry the impulses upward into his brain, he is able to keep his mind from being overly affected by the unnatural vibration of this planet. This man, who is tall by our standards is in reality one of the shorter people of his planet as they are picked for contact missions to Earth so as not to cause alarm.

The inhabitants of planets which would not find comfort on the Earth are in the majority at present. This will not always be the case, though, as the Earth's

strata is gradually coming into greater alignment, and before too long not only will it be possible for people of other worlds to come here easily and be with us from time to time, but also the minds and bodies of the Earth inhabitants are due for a vast improvement when the frequency barrier finally is no more. Even now, Earth people are used to it and function very well in it as a whole, but as the earthquakes and volcanic eruptions gradually settle and realign the Earth's strata, more and more abilities and physical changes show. Have you noticed how tall and smart kids are today? One day soon, the Earth will again be in a natural harmonious vibration, its proper state, which it had before certain happenings took place which affected not only Earth but the entire solar system to some degree. When this happens, there will be no restriction upon those visitors from space who wish to come here, no matter what their origin. I assure you, that day is not far away. For the present, though, it is not possible for extra-terrestrials to walk our planet without special preparation and even this limits their time here. To stay longer would mean the closing of their higher mind channels and the subsequent loss of their greater human faculties. E.S.P. abilities and the normal reasoning power would be lost to them in very little time. Glands would be drastically affected also. The brain of man is bio-electromagnetic in nature and thoughts can be interfered with in the same manner that a car radio cuts out when the vehicle passes under high tension wires.

They have told us that sometimes a ship will crash upon the Earth and the occupant will be exposed to the Earth's vibration with no way to leave and no way to let it be known where he is, as the frequency barrier restricts his natural means of communication, which is telepathy. The space visitors which become trapped in the vibration of our planet, (through no fault of their own,) rapidly begin to mutate mentally and physically which usually but not always results in their death. Should they survive, however, they are left very deficient mentally and physically, resembling an ape-like caricature of a human being with long shaggy hair; the result of their glands going haywire and becoming over active. (It is a known medical fact that many women of Earth, even, begin to grow hair on

their face as a result of being allergic to ETHER!) Being oftentimes eight to ten feet in height, they present a rather formidable appearance to anyone who might by accident, see them. Such is the effect of the Earth's unnatural vibration which we here at M.I.N.D. have learned to call the "Frequency Barrier". On the opposite page of this paper are drawings which will help you visualize the appearance of these outerspace unfortunates who become victim of this condition. The truth of the matter is that the Abominable Snowmen, Yeti, Big-foot Monster, and Sasquatch, of Tibetan, American, and Canadian legends are completely accountable for by the foregoing information! These creatures are elusive and are usually found over faultlines where their remaining faculties of instinct guide them, as the vibration of the planet is the least harmful to them in these areas as it is less intense due to gradual and more or less continual resettlement of underlying strata. Saucers are many times seen over the area of faultlines, also, as they from time to time make an all-out effort to locate their unfortunate brethren... and happily, sometimes are successful, for once they can get them aboard their craft, they can restore them completely by use of beneficial vibrations.

Before me, as I write this, is a clipping from NewsWeek, dated August 30, 1956. We have duplicated the drawing for you and the meat of the article. It happened in Michigan. It seems a 7-foot hairy monster attacked a girl while she was parked in her car with her mother. She had a black eye as evidence of the incident. Everyone scoffed and laughed at her as she claimed her attacker had long black quill-like hair and must have weighed in the neighborhood of 400 lbs. On the opposite page you will find a replica of her drawing describing it. I personally think that in light of the above information, her story is most likely true. It certainly is very possible that such an event could have occurred. Those of other planets who are affected by the barrier would look as she described, and if you compare her crude sketch to the more accurate and detailed one on the page done by one of our artists

here at M.I.N.D., you will see immediately why I say this with such conviction. Not only would those affected by the barrier look as she described, for the most part, but they would be apt to act with an almost animal-like ferociousness in their efforts to get help or otherwise make contact with their fellow human beings. Being neither able to communicate nor excite an attitude of helpfulness from another, their near-animal instincts would suffer from terrific frustration and react accordingly. It is no wonder, therefore that the girl reported that the creature also banged her head against the door. (Had it have been vicious in nature and not just very strong and upset, it would have killed her...but being BASICLY human, its true nature was not that of a killer animal.) Besides, they are just not that aware of the fact that they look so fearsome that they might, in trying to get attention for their plight, be killed instead of aided! The average height of males in the universe is 8 feet. To suddenly come face to hairy face with such a hirsute goliath would make it a bit difficult to be objective and think in terms of pity, would it not....especially when we could in no manner explain or even fully accept its existence! Under the circumstances, I think the girl drew a remarkably objective out-line of it, don't you! A book on Abominable Snowmen, (its title, by the way) and all related monsters, written by I.T. Sanderson, is just the thing to give you some histories of sightings and even relationships with these creatures, our space-folk, who have been stranded and reduced to pathetic beast-like existence. Consider how horrid it would be to have so much mental advancement and then suddenly be retarded to such a sub-human state. As I stated earlier, it is the desire and occasionally the accomplishment of the Space people to find and pick up these people. When they have been found and returned to their natural environment, they, as I stated before, return to normal, both mentally and physically. The trick is to find them, as they will generally remain over a fault-line or Earth pressure area, as it assists them and comforts the upset condition of their bodies and minds. But they learn early, just as any animal does, it is best to avoid man. Therefore they hide in caves and only come to populated areas of the true human, when hungry or otherwise in need that they cannot meet from their

cave environment. Thus we can account for the incident of the girl in Michigan

If any of the readers have ever seen one, or know of anyone who has, we would appreciate hearing from them. Please include the date and the area. If you are really interested in this as a part of the U.F.O. picture, for that is what it is, we recommend that you read the books which give the histories of these unfortunates. This will help you decide if we are right when we tell you that this is the result of the vibration of the Earth in its unnatural state, which has affected and continues to affect these unfortunates who have crashed here upon our planet from time to time over the centuries. The same effect was experienced by man of Earth when the unnatural vibration of the planet was at its highest degree; the period of the cave-man. We of this day and age are almost out of this condition and someday soon there will really be the great New Age for the people of Earth; that day when the vibration will once again be normal. For now, let us each in his own way do everything possible to help prepare for this time and a very good way indeed, is to REALLY put our Heart where our mouth is and make a living reality of the Golden Rule to everyone we meet...whether we agree with his personal realities and concepts or not. Remember! Heaven on Earth starts from within the Heart of each one of us. Let's take a leaf out of the books of the books of the unselfish folks in the Saucer field, and the New Age workers in general. After all...the Golden Rule begins with each one of us, doesn't it?

THE NEW AGE HAS STARTED!
BE A PART OF IT !!!

In May of 1965, I went on a European tour of six nations as International Representative for AFSCA, and the "DIVINE PRINCIPLE" movement, of which I was a member at that time. I also went to France at that time, which is my native country, where my mission was primarily to meet Prof. Alfred Nahon, President of "The Courier Interplanetaire". This is the only French newspaper dealing with U.F.O.s and New Age accounts on the Continent. Prof. Nahon happened to be on a 17-day lecture tour, which started from Geneva, and ended in the city of Nice, in the southern part of France. I was fortunate to spend a day with him while he was resting at Juan Les Pins, on the French Riviera. Prof. Nahon and I exchanged our latest information about U.F.O. activities in both countries. He informed me of a newspaper account of a sighting that had just happened recently, only 95 km. from Juan Les Pins, in the pre-Alpes mountains. I postponed my trip to Paris that I had scheduled to meet with another UFO enthusiast there, and went instead to the locale of the reported sighting. There I met with Mr. Jean Masse, whom I found to be a very level-headed and stable farmer who had lived in the area a long time. He told me he spotted the craft just two days before, as he was checking some work early in the morning, in a remote area near a small forest. He was quite angry at the French Air Force, who had tried to make a fool of him by claiming that what he saw was a new type of experimental helicopter. His description left no doubt in my mind that he had witnessed a landing of an extra-terrestrial spaceship. This craft left behind three indentations in the ground, which are the standard characteristics of the ball-type landing gear, photographed as being part of certain types of UFOs.

I will bring to you other international news and comments in forthcoming editions. Next month MIND IN ORBIT will focus on Germany.

Words exert an almost infinite variety of influence, yet all words are compounded from four different basics, and each serves its own particular purpose in creating, sustaining, and progressing our physical world and environment via the feelings and thoughts put fourth by each individual. (Truly, we are all a very involved part of each other!) These master word basics have in common: TIME SPACE, PROCESS and MOTION. All words are formed from different combinations of these four basics, PLUS a specific quality of meaning fitting a given category or area of reality. For example, the verb "CAN" infers both a TIME sense, a SPACE sense, and a PROCESS sense; for when we say "I can..."; what we are conveying is "I, from a starting point in space, am able to accomplish through a PROCESS of some form of action, a manifest result in a certain period of TIME. From this, it may be seen that the word-idea "CAN" is comprised of three of the four basics, plus a specific quality of meaning fitting the category of ACTION and INFLUENCE. The rest of the meaning is derived from the specific PRESENT and FUTURE aspect of "TIME", and the specific employment of "PROCESS" (The latter basic in this instance taking the form of action and/or influence. Nouns, such as "HANDLE" being material objects, have but one basic, that of SPACE. The rest of the meaning is the result of specifically applying to the category of INNATE FUNCTION, a quality of SPACE. The word "HANDLE" as used in the verb sense, however, contains not only a SPACE basic but a MOTION and PROCESS basic as well, for it is an ACTION involving all three. It lacks the TIME basic, however, as its inference is that of "SPACE" effects or results, rather than that of any sort of intended "TIME" consideration relating to either the past or the future. Here are a few more words partially analysed showing their different combinations of basics: LOVE...(S.T.M.P.) HATE...(S.T.M,P) FIRE...(S.M.P.) HEAL...(S.P.) SCOLD...(S.P.) HURRICANE...(S.M.P.) TENT..(S.) KNIFE...(S.) CUT...(S.M.P.) (verb sense), and on and on. Try some of your own... it's FUN!
