

Current World Situation – Al Fry

As Glaser fans may recall, in Comprehension Text #4 he spoke of the Visitor Atom and its ability to fix and adapt to any situation or problem.

Unknown to the majority of earth dwellers, the Visitor Atom was revealed to the major players of the spirit world in the guise of a logger living in the northwestern part of the United States. For billions of years various competition games have been taking place between various angelic sons and daughters of god. These rebels have been ignoring the original sacred rules and the results have been chaos for eons. Everything from blown up planets to continual wars has been hard on all the various life forms that the rebel spirits have used. Spirit riders on we horses is how its mentioned in the scriptures.

Comp students will remember Comp #2 and how the Cmind had its powers stripped and was in the void. And how the Cmind had to lower its powers to mate with the animal female human. For the Cmind to act in the physical they had to attached themselves to the animal man and where illegal riders.

All lessons have and ending and exam period, however the Visitor's identity was recognized around the turn of the century as our class draws to a close. Rather than come as some new god with fearsome clout and ability, the Visitor (the chosen one) came as a normal human who tapped into the awareness he needed from moment to moment. This eliminated the coercion factor that would have been present had fear and rank been present.

As it is the rebel spirits can stand down and stop playing all these oppressive domination games or face some new rules. The prime god of old (The Bmind for Comp Students) was very lenient and failed to apply fast action karma or boomerang laws hoping his children would see their shortcomings and errors and repent after some time. Comps students will remember Staff Study One that Glaser put out. Under the upcoming New Kingdom rules the boomerang laws will act swiftly and spare no one.

The whole Creation, except this universe we are living in, runs on laws of exchange and reciprocation. Meaning you serve Creation, and the Creation serves you. The rebel spirits who have brought on confusion and chaos to various part of our universe have tended to be selfish parasites. With earth on the brink of destruction this game will no longer be allowed. In the upcoming New Kingdom (The New Perfection) we will serve each other without the past money entrapments and motivations....or we and our selfish spirit riders will not be around to enjoy a body. (Maybe back to the Void for 6.5 billion years; Or in the Void forever; or in the Void for a while and then into non-existence) Who knows for sure, the point being made is that the rebel spirits (The Cmind) have had 6.5 billion years to judge themselves. As Comp Two clearly points out some of these spirits may find themselves in contempt of the Entire Creation.

As this is written, the spirit realm has had several years to hear about the upcoming rules and to observe the Visitor Atom, the Chosen One's sincerity and abilities. (If you call the Visitor Atom chosen, or just helped by the Bmind into his awakening?) The dark side leaders, or the Cmind rebel spirit leaders have blocked and hindered this awareness from being recognized by virtually all humans. Even the most dedicated and sincere Glaser fans with Comp four understandings have been blocked from advancing to Comp. Five. Remember the last thing that Glaser wrote in Comp. #4?

These major C-minded players are down to the final hours of choice. As might be expected. The Truth of this scenario has been carefully hidden for eons in the reflection we live in. The major players of the dark side have brought in thousands of confusing beliefs and system. What will be a huge awaking for everyone that are left to clean up planet earth, will be when everyone realizes just how deep into the reflection we truly were. And when the complete Comprehension of the power of a Visitor Atom's love, compassion, understanding and most importantly, his ABSOLUTE TRUTH that saved us from self-destructing and brought us into the New Perfection of Beauty. Everyone will be on their knees with tears of Joy and Reverence by their own choice. All minds in balance living in a world that is balanced between Light and Darkness. Amind, Bmind and Cmind coming together as One Mind under the direct supervision of the Visitor Atom.
