Definitions*

DAILY PROGRESS REPORT

Topic studied: Language

Name: Rob

Date: 7 Jul 82

Positive comment: I am glad that language was covered in the beginning. I think it will help me to understand more completely what is being taught. A precise language is much easier to work with in this area where no precise language existed.

Negative comment: not observed.

Have any misunderstandings or confusions been left unresolved: None

DAILY PROGRESS REPORT

Topic studied: lec. Theory on Basic Telegrams Name: Rob  
Date: 8 Jul 82

Positive comment: Telegram process is broken down into  
small, simple, easy to understand components. I like  
to receive complex information in small pieces

Negative comment: I have none.

Have any misunderstandings or confusions been left unresolved: NO

If so, what? \_\_\_\_\_

Suggestions: \_\_\_\_\_

DAILY PROGRESS REPORT

Topic studied: Practical

Name: Rob

Date: 9 July 82

Positive comment: I come to a new understanding  
that the ideogram is truly automatic and  
the other components are not always.

Negative comment: \_\_\_\_\_

Have any misunderstandings or confusions been left unresolved: NO

If so, what? \_\_\_\_\_

Suggestions: \_\_\_\_\_

DAILY PROGRESS REPORT

Topic studied: Practical Exercise

Name: Rob

Date: 12 July 82

Positive comment: I think I am progressing. Down from 6 tries to three.

Negative comment: I am having a problem with vocabulary. The simple association between up and down motion to wavy was difficult.

*discussed  
handles 13 July 82*

DAILY PROGRESS REPORT

Topic studied: Forming Ideograms

Name: Rob

Date: 13 July 82

Positive comment: I came to a new understanding that the ideogram is a representative. That the simplest ~~and~~ ideogram can mean lots. And on large one not carry a clear signal. A and B is <sup>carries</sup> equally and sometimes more information.

Negative comment: None

DAILY PROGRESS REPORT

Topic studied: Forming Ideograms

Name: Rob

Date: 13 July 82

Positive comment: My new understanding is that the simplest ideogram can carry volumes of information. That the ideogram is just a representative of feeling/motion.

Negative comment: \_\_\_\_\_

Have any misunderstandings or confusions been left unresolved: NO

If so, what? \_\_\_\_\_

DAILY PROGRESS REPORT

Topic studied: Inclinmatics

Name: ROB

Date: 15 July 82

Positive comment: Can't work through Inclinmatics  
Being tired and not sleeping makes ROB a poor  
viewer.

Negative comment: Damn it!

DAILY PROGRESS REPORT

Topic studied: Ideograms

Name: ROB

Date: 15 July 82

Positive comment: I found the double ideogram to be as simple<sup>to feel</sup> as the single. After I made the first single line the ideogram did not feel complete. I quickly drew the other line which completed the ideogram and added more feeling motion.

Negative comment: None

Have any misunderstandings or confusions been left unresolved: NO

If so, what? \_\_\_\_\_

I had very little AOL in the last two sessions  
I have also been able to label the overlay. I don't yet  
understand how that is happening but I will wait for  
the answer.

DAILY PROGRESS REPORT

Topic studied: P.E.

Name: ROB

Date: 17 July 82

Positive comment: One terrific lesson in the  
symbolology of idiograms. My drawing  
did not look at all like the feeling motion  
that accompanied it. Let my subconscious  
take over did not try to control the drawing. NEW

Negative comment: understanding that I can switch from  
conscious to subconscious control and then back  
again. It is not as hard as I imagined to get  
a clearer signal by letting it happen.  
No negative comment.

DAILY PROGRESS REPORT

Topic studied: P.E.

Name: ROB

Date: 19 July 82

Positive comment: I learned that arithmetic impact can produce valuable information after the impact has gone. I do remember that the information that correctly identified the site was a very vague impression, no feelings associated with it. I learned that

Negative comment: drawing multiple ideograms comes naturally and is still unconscious whereas I believed it was more complex. I also learned that a wavy line does not always mean water.

DAILY PROGRESS REPORT

Topic studied: P.E.

Name: ROB

Date: 20 July 82

Positive comment: Ideograms can be showed down  
and still carry meaning. I believe I have  
attained a new level of tolerance for this  
signal.

DAILY PROGRESS REPORT

Topic studied: Multiple Ideograms Name: ROB

Date: 27 AUG 82

Positive comment: New understanding A's and B's can  
be completely abstract such as "lines". Function  
is a S-S signal and betrays aesthetic impact.  
Aperture can begin wide open. Time is the  
solution to closing the aperture.

DAILY PROGRESS REPORT

Topic studied: Multiple Teleogram Name: ROB  
Date: 30 Aug 87

Positive comment: LEARNED to let the structure  
control the session and not to play  
"what is it?" only to be concerned about  
structure.

Negative comment: I should have stopped on  
the high in the morning.
