DAILY PROGRESS REPORT

Topic studied: Session procedure
& experience

Name: Deb Nardozzi

Date: 4/10/83

Positive comment: I feel I'm making progress.

Negative comment: I have to verbalize +
objectify more. The chalk on
the blackboard on tape drives me
crazy as does the noise of the purifier
My jewelry is distracting

Negative comment: I MUST LEARN TO LET GO. I MUST
LEARN TO VERBALIZE. I MUST BE PATIENT.

I MUST NOT FORCE, OR TRY TO FORCE THE
IDEOGRAM, I MUST NOT GET DISCOURAGED. I
MUST HANG IN UNTIL THE CONFUSION WORKS ITSELF

Positive comment: It is all starting to
come together now. I must keep
my pen on the paper. Air is
not a good medium for objectifying
ideograms. I did a sketch ←

Negative comment: I must stop I have been trying to HOZ
my ideograms and when I do that
I am wrong. I need to let go more.

Topic studied: Multiple Ideogram

Name: Deborah A Nardozzi

Date: 21 June 1983

Positive comment: I really feel good about multiple ideogram
sites. I feel much more involved with the sites.

I think yesterday I had an aesthetic impact.
Though I didn't realize it at the time - when I
saw the site though my feeling of the beauty of it
was the same feeling I felt when I was working the site.

Negative comment: I need to stop storing data
for further analysis and verbalize more.
I'm sure to be wrapped up in how good
it feels and will have to discipline myself
more - tomorrow

Topic studied: Multiple Ideogram Name: Deborah A Nardozzi
Date: 23 June 83

Positive comment: I really felt great about the
last ideogram. I had a water
building interface and was
absolutely positive that there was
nothing (no land) between the building + water

~~the~~ fortunately I got so
excited at the strong positiveness
of it that I tried to analysis -
I had to know - had to figure out
how this interface came to be or was.

Positive comment: I'm getting lots of signal that
I need to get in structure & you
must have B's to get stage 2's. If
you don't get A's call for coordinates
& try again. If an ideogram starts
to go into a self correct
check for negative space. - Especially
if your first one has correct
feedback.
