9.30.

3.25 (2)

For some time there has been the awareness of having attention tied up at other places - as if RTs being an inflow, there is some sort of correlaries as an outflow.

3.0 (1) (PW).

Sort of fixed attention in the EU.

I LFRD. guess just spotting them would asis them.

OK.

They seem to want to be called "Fixed units"  
LFRD.

Well, if they are fixed - then something must have fixed them. A shock - a theta shock. LFRD

2.75.

(there's an electric charge here, very rapid).

I guess, spot them until LFRD - ES etc.  
See list.

10.33.

2.7(2)  
3.2(1)

1. LFBJ Locate an incident  
that could have caused  
fixed beauty. LFBJ 3.0.

1. yes

2. 1957

3. —  
4. still going on.

5. —

6. Seoul.

2.9.

7. -9

I exteriorized - which was  
great. extreme beauty of  
the moment. Cog - awareness  
then cutoff - blackness - RR.

A-D - certainly a 2.8  
beautiful experience - but  
there is a hang up in  
it - lgh.

S.O.S?

S.

1. yes <sup>E/S</sup> Black -

2. 1820 (m)

3. —

4. 70 years.

5. Ugh LFBJ. 2.6.

6. fire.

7.-9.

I'm sitting in a room -  
a fire in the fire place - Spain?  
vast halls + corridors -

in a chair thinking -  
a vision - seeing exterior  
some beings -

stock -  
extremely beautiful -  
sense of well being -  
Sound - voices -  
hearing -

? -

2.5.

A-D.

2.7.

Spain  
Unification success -  
sense of well being

reflecting on deepest goals - suddenly ext- other beings in room.

ok - 2.4.

then closure - blackness. later death.

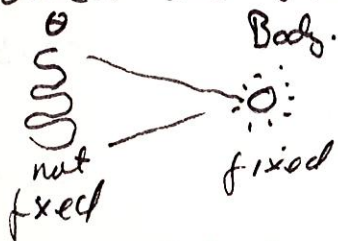

Σ or S?

S.

Σ/S?

1. yes.
2. 1503.
3. -
4. 30 years I left.
5. yes.
6. - Div III dying - no.
- 7-9.

well - exterior with percepts could see body as fixed

sense of both - yet from the fixed - it seems

the stress of tension between the two generated blackness of the not fixed -

A-D.

the fixed slugged me -

sort of a cog here: fixed = no motion = blackness.

non-fixed = motion = perceptions -

an attempt to fix beauty = blackness.

cos -

here - there's a compulsion

1. 2.2.
2. 27 billion years ago.
3. yes
4. 3 universal units
5. yes 2.3
6. many fixed points - I could occupy several simultaneously. 2.2.

spatters of fixed point -  
(a node) pts to fixed  
points

a theta tends to hold on  
to fixed points - take  
them away he holds on  
harder - hardest is uncon-  
sciousness. In this incident  
one can capture a  $\theta$  this  
way -

I'm being dragged by  
my fixed points -  
to an implant node!

Implanted to not  
perceive black waves -  
between frequencies -

its like a meos synthesizer  
lots of fixed points at  
once - what ever  
level of randomness  
one has it can be  
exceeded - each time

(5)  
the  $\theta$  withdraws <sup>its</sup> ~~his~~  
flows - too much =  
hypnoid states = fixed  
points then can be  
laid in -  
white field.

Seems like me -  
colored periphery.

Earlier incident  
more to.

- 1.
2. 95 quadrillion years ago
3. -
4. sidereal time?

- <sup>looks up.</sup> fixed points -  
implant time again -

the concept that there  
is nothing between  
fixed points,

ag! fixed  
points are centers  
of no motion between

motile points - (sick real)  
all physical  
(M)

Blackness seems to be the noise between two wavelengths or series of wavelengths - for instance the boches  
sleep ← → hypnotic  
less random other random

have to read 880

log.  
no gis yet.

A-D  
yes -

Can go into black nodes without fear now!

(M)

its ok to have blackness - its only non-random of less random points.

(M)

ngi.  
Erased? yes

(M)

ngi.
