PART ONE

Attaining Dowsing Power through Scientific Prayer

Accurate dowsing occurs when the spiritual bodies of the dowser are aligned with Logoic Truth. There are steps of preparation that can enable the dowser to align his spiritual bodies so as to dowse the correct answers and not merely what he wants or fears will be the answers.

A major pitfall of dowsing comes from the common metaphysical trend to "create your own reality." This concept is deadly to accurate dowsing. The fundamental realization that there **IS** an objective reality on all planes of manifestation and causation is important to incorporate in the dowser's mindset, should he desire to be successful.

The most powerfully accurate dowsing occurs through someone who has perfectly aligned with objective reality on the soul level. The soul interfaces with the powers of Truth above that of the physical manifestation. Physical intuitive powers such as those found in pet dogs cannot provide a dowsing response about high level spiritual issues. Soul level gnostic awareness can, on the other hand, provide dowsing guidance for all levels of human beingness.

It is possible to dowse a hidden object with mere animal level intuition, however, auric disturbances cannot be dowsed without a higher level of development and dowsing refinement. The power of a dowser to refine his spiritual bodies is directly dependent upon his being in the now rather than in the past or future.

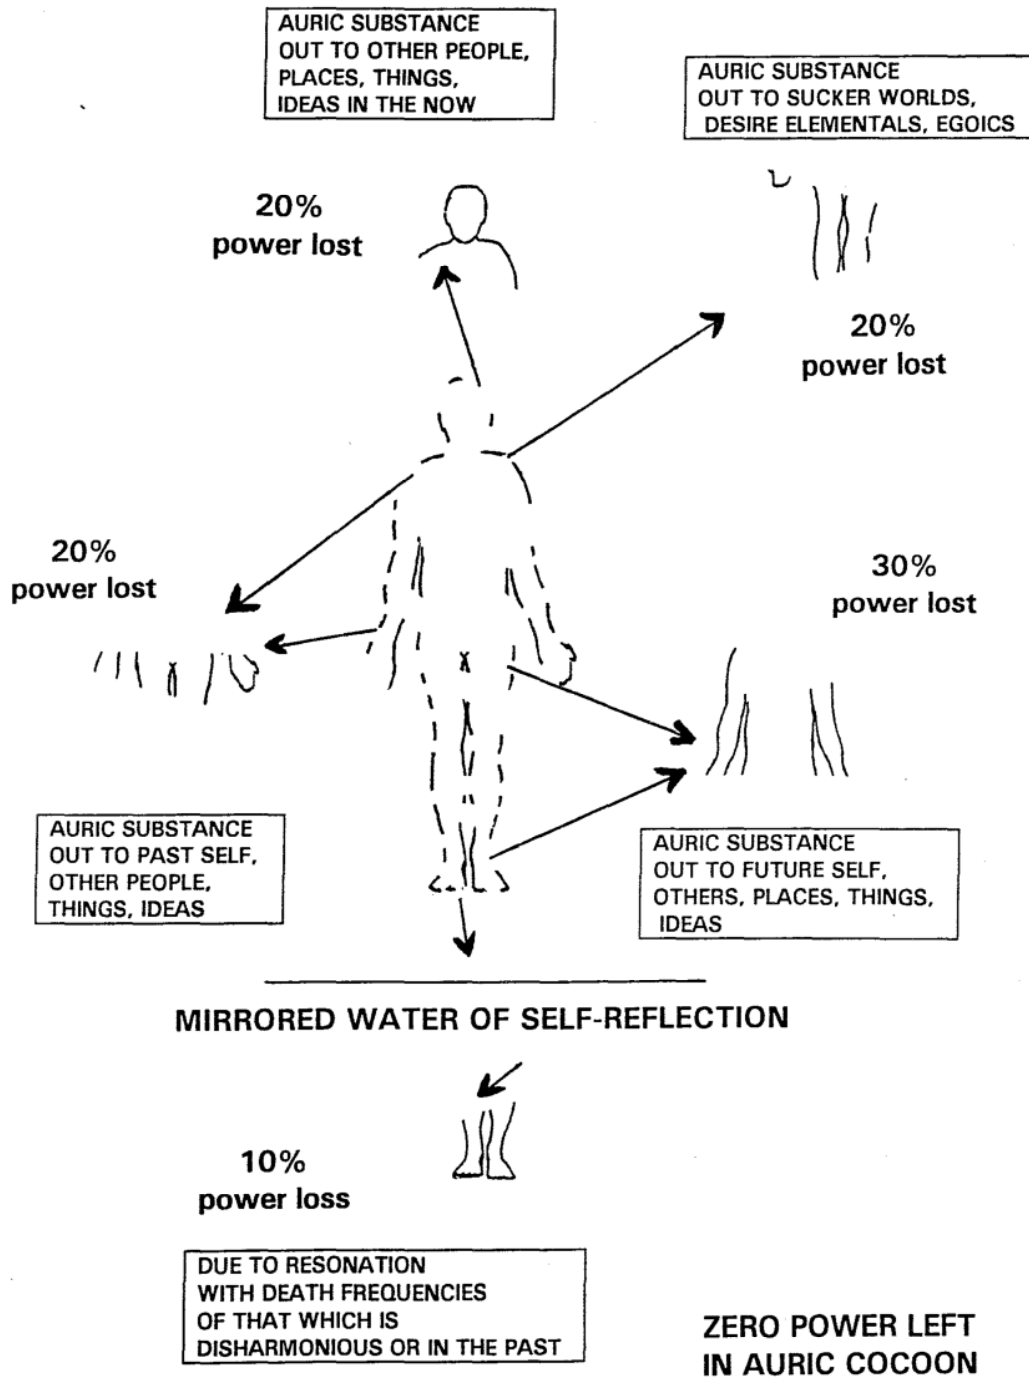

If the dowser is attached to things or people of the past some of his auric substance will migrate to the associated time frame weakening his power. If he fears the future then some of his auric substance will migrate to a future time throwing off his current focus of power. If he has created a personal reality it will hang above his head like a cartoon speech balloon, and his power of perception will migrate to this encased imaginary world weakening his powers to see truth in the now.

The power of a dowser must remain in the now within his auric cocoon or he will dowse falsely. He will dowse relating to some memory or fear or desire rather than truth. The dowser is like a tree that weakens with the sucker stems of created desire worlds. These sucker desire worlds feed off the soul substance until the auric cocoon is bereft of higher gnostic awareness. It is prudent for the dowser to evaluate how much of his etheric, corpse, auric, and higher desire substances are missing due to past links, future fantasies, sucker world creations, or how much of these substances could be with other people in any time frame or sucker world.

The questions, "Can I? May I? Should I?" mean little if you would dowse as being someone else or if your consciousness is in another world or time frame. What is appropriate in one time frame may not be appropriate in the current time frame. What is appropriate for someone else may not be appropriate for you. You may be dowsing their answers if you have a blurred identity. The questions, "How many people am I?, How many people is me?" may sound like improper English, and yet they often reveal whether part of your aura is out to someone else or whether someone else has an auric contamination on you.

One cannot dowse correctly about high level issues unless one has achieved a single identity in the now without false sucker worlds.

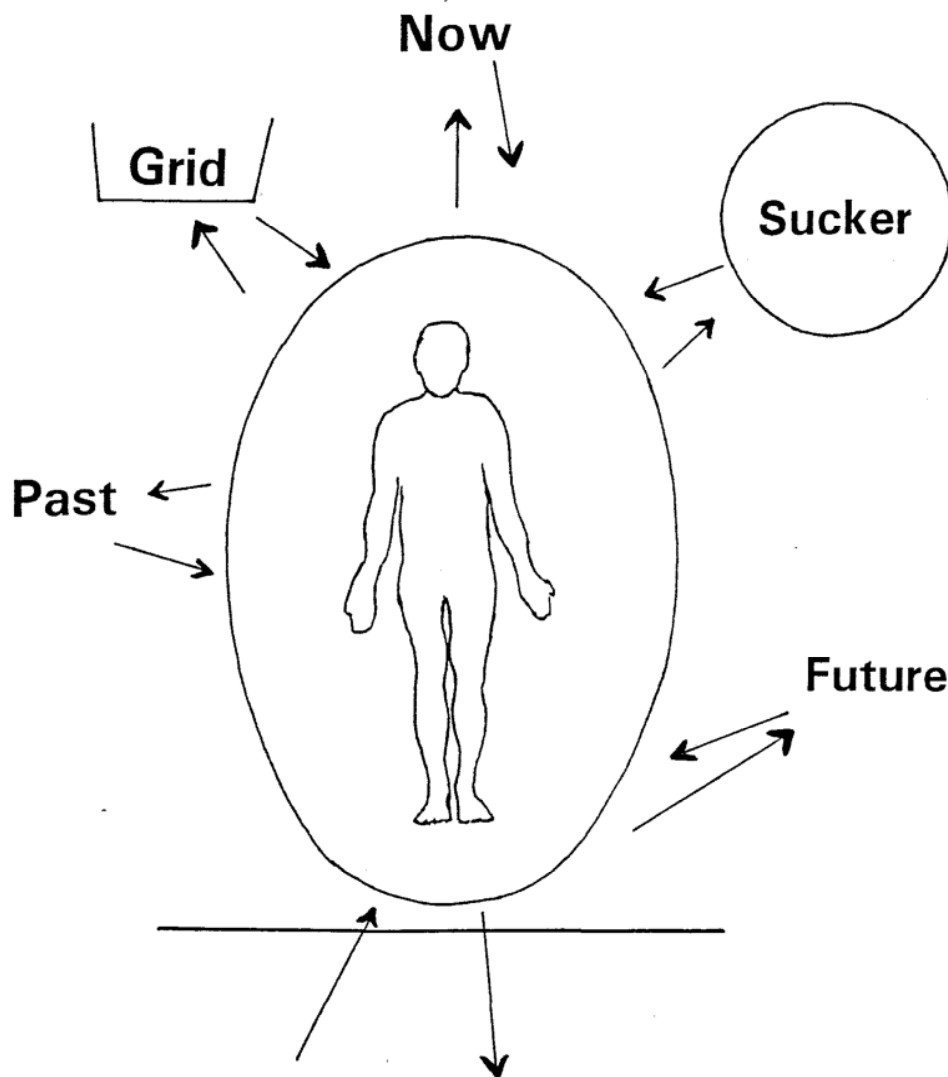

POWERLESS DOWSER

This is an example. Percentages will vary with individuals.

It is possible to enhance the dowsing powers by aligning with higher powers through correct prayer. This allows the auric cocoon to fill with Logoic forces that are aligned with gnostic Truth. Under no circumstances should the dowser attempt to channel any beings through dowsing because he may fall into a snare from a discarnate spirit of confusion. Gnostic Truth is available first-hand to the dowser who, with his own identity, holds the helm of his auric ship if he prays rightly.

DOWSER WITH POWER

MIRRORED WATER OF SELF-REFLECTION

**100% OF SPIRITUAL SUBSTANCE POWER
WITHIN THE AURIC COCOON**

There is a technical aspect to invoking higher perceptive powers through prayer. If one follows certain steps and avoids the pitfalls beside each step, then higher awareness can be mastered and power can be pulled into the auric cocoon.

There are gates of power relating to the steps for proper prayer. There are small initiations or tests relating to each gate that must be overcome before it is possible or safe for the dowser to attain greater power.

True prayer can be achieved only by a person who has at least a seed of personal power and desire for holiness. A seed request can flower into great power through the Law of Grace. Greater discussion of universal laws can be found in the book, "Virtues, Laws, and Powers," available through Amber Press.

True prayer implies submission, supplication, and receptivity.

The first gate of prayer can be entered only if one has a complete lack of hatred for any person, including self. This gate relates to the Son of the Holy Trinity which is the water (Piscean) face of God or Divine Love aspect. Also, the awareness that the Son is not greater than the Father must be in focus to pass this gate. This implies submission of the lower will to the higher powers. No one is allowed to pass this gate unless he bows his head to Holy Desire held within the Trinity. One must desire Truth above some personally constructed reality to pass this gate of power. Respect for spiritual hierarchy must be present before advancing to the next gate.

If a person thinks he knows what reality is he cannot pass the next gate. This gate relates to the Holy Spirit which is the bringer of Truth. Truth is found within Divine Intelligence and Wisdom. If a man clings to his personal reality concepts and does not ask the Holy Spirit for Truth then he will not be given Truth. The Holy Spirit is the airy face of God, which implies that a man must open his auric windows without fear of losing mental boundaries if he is indeed to inhale Truth. Most people encase themselves within the walls of their own self reflection usually with ideas of the past self. This pulls them under the mirrored water of self reflection downward until they drown in their own mis-creations. To dowse truly one must be pulled upwards on the winds of the Holy Spirit Breath so that all things of the Earth can be viewed from above. Those people living in self-created caverns cannot see rightly those conditions existing outside their caves.

The second gate is one of supplication but not one that demands answers about specific issues. If the dowser thinks he knows what to ask for then his request implies an unmanifest answer. Supplication is the act of requesting to see rightly about all things, conditions, situations, and issues.

If one passes the second gate it is possible to be carried on the winds of the Holy Breath to the third gate. The third gate relates to The Father of Divine Will. A lower impersonal will to do only good must be present in order to pass this gate. One cannot attain dowsing power of a high order to find out petty details about others. One must desire to use dowsing power for the good of mankind rather than as some psychic parlor game in order to pass this gate. This gate has an aspect of the fiery face of God and is the burning bush that speaks truly to those who can endure the heat of impersonal reality. The Truth may set you free, but should you reach this step you may feel as though part of the false lower self is being burned away. To pass this gate one must be willing to receive personal transformation of the lower self through the fires of power that come from above. One must be strong enough to endure Truth if he is to pass this gate. One must pray to be given strength to endure Truth and pray to receive Truth before the gate will open. When this gate opens the greatest of all dowsing powers will flood downward into the

auric cocoon allowing the subconscious mind to direct accurate muscle movements in correct dowsing responses.

The people who claim that dowsing has nothing to do with the spirit are those who still dowse with animal intuition and not with the greater powers of Gnosis. It is foolish not to align with power greater than that of a mere dog or cat. Man was intended to see with eyes that scan many levels of non-physical reality because that which exists in spirit creates the physical. Thoughts and emotions are things that have not condensed into form and yet are powerful objects that impact all aspects of health.

Some specific prayers are very powerful to help the alignment of the spiritual bodies with the physical. In order to be of value they must be said with devotion, a sense of humble supplication, and a submission of one's will to the Divine.

An example of such a prayer can be found on the next page.

PRAYER TO ALIGN WITH LAW

In the name of the Father, and of the Son, and of the Holy Spirit. I ask the Holy Spirit to remove all darkness and defiance to universal law and order from every level of my being.

May my very being radiate the understanding that God is merciful and just; that the Universe was created with spiritual polarity and gender; that cause and effect is always operating; that whatever manifests above will likely manifest below; that there is an objective reality in the world apart from any I would create; that by clinging to the physical form I move away from my soul but that by aligning myself with Logoic Truth and Law I may manifest holiness in my physical form; that movement, vibration, and change are constants in this universe and thus to be in harmony I must welcome changes in my lower form no matter what they entail.

I recognize that hierarchy is inherent in the spiritual world and I submit myself to service and devotion to that hierarchy. I seek spiritual transformation rather than the physical effects of spiritual healing. I ask that the Holy Spirit help me align my emotions and thoughts with that which is holy and not with the earth thoughtform grids. I am committed to using my spiritual knowledge daily so that my physical form will align with holiness. I ask that the Holy Spirit tune every fiber of my being to resonate with holiness in pattern and frequency, that the Holy Spirit reveal my path in each season, in each hour of the day, in every facet of my being, so that I might follow God's laws in the physical, mental, and spiritual realms.

I ask that the Holy Spirit fill me with the wisdom and intelligence of God, with divine love and with the will and power to fulfill the plan of God. Give me unwavering strength so that my work in the world reveals the beauty and harmony of the Divine Plan. Give me guidance, sound judgment, holy desire, sobriety, joy, and the ability to reason so that I may fully ascend to the higher virtues and multiply the glory of God on the face of the earth. Grant that I remain rooted in the New Heaven and New Earth from which I draw strength so that all my virtues shall flower. I vow to tread the path of right understanding, right thought, right speech, right action, right livelihood, right effort, right mindfulness and right concentration. I pray that my lower and higher selves unite so they might engender ever increasing circles of holiness around me.

I ask that all lower self ties or resonations with any person, place, thing or idea be removed so that I might be truly whole and purified. Recognizing that all disharmonious thoughts or actions I engage in reflect in the macrocosm of the universe, I seek to live a life congruent with universal law and to be delivered from any food, substance, sex, material or romantic obsessions.

I pray to the Father, the Son, and the Holy Spirit, and all the Holy Beings and Angels that help the alignment and service of those engaged in the spiritual quest for Truth, to help me purify in all directions, and to remove any disharmonies from the past, present or future, shielded or hidden, so I may better carry out the will of God.

God, lend me your strength so that I may face my weaknesses through submission to your will. I acknowledge that my own low will can do nothing unless it is aligned with Divine Will which is all strength. I ask that I be given no powers or comforts that I cannot resist; no pleasures, spiritual, mental, social, or physical that would lead me away from my soul.

I accept the ultimate truth of these universal principles and give thanks for the divine equanimity that springs from my spiritual practice. I don't know who I am or what reality is, but I know that God knows. I don't ask so much for comfort but to see rightly and to be given the strength to face what is True. I ask not to see selectively according to my personal whims, but ask for the courage to see completely according to the plan of God whether pleasing or painful. Dear God, please give me the strength to endure Truth so that it may lead me today on the path of Your Holy Plan. Thy will be done. Amen.

"The light of the body is the eye: If therefore thine eye be single, thy whole body shall be full of light." Matthew 6:22

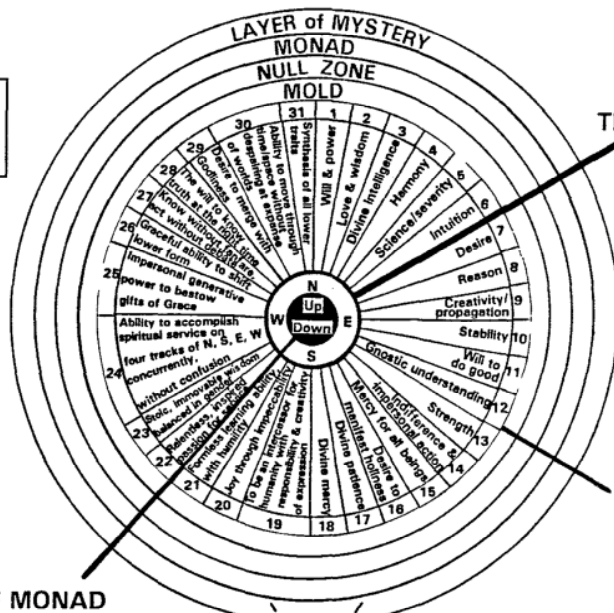

Attaining True Self Identity

Spiritual sight cannot be attained if the auric cocoon contains spiritual substance from other people. Also, if the dowser's spiritual substance has entered the auric cocoons of other people true vision is then impossible.

The right dowsing question must be asked to determine if there are multiple identities. This is because different layers of the aura relate to different identity questions. There are many esoteric texts with conflicting names for the same auric components. For the purpose of attaining a single identity the following illustration of auric components will serve as a guide.

For each auric layer, check % intact, amount of foreign and amount missing of substance.

Dowsing the percentage of your intact substance and auric cocoon boundaries relating to the different levels of the spiritual self can help you identify parts of yourself out to other people, in other time frames, or in false sucker worlds. Foreign substance is often rotten and can be willed out of the eyes into a candle flame. It is helpful to face different directions while willing foreign substance into a candle flame. Some substances can be willed into the ocean where they will decompose. Some can be willed into large rocks or dirt where they will decompose. It is also prudent to will all of your own leaked substance that has been contaminated into such substances so it can decompose. If you seal up your auric leaks through the control of desire and thought then you will refill your auric substances within a short time. Use the "To Do" chart below to determine which actions you should perform to remove foreign substance.

One key to retaining your spiritual substances and therefore your dowsing power is by assigning parts of your awareness to specific body or auric locations. For instance, if you train your emotions to align with the "Son" location on the auric diagram you will tend not to leak desire substance. If you think with the Holy Spirit auric location you will not create egoics out of your auric substances. If you act, intend, and direct your willpower through your Father auric location you will not do harm by creating elementals. If you align your procreative powers with the Eye of the Monad you will be able to see rightly without giving birth to sucker worlds of false vision.

Dowsing is enhanced by checking the auric diagram with the following questions: From where am I feeling? Thinking? Seeing? Willing, intending and acting? You can pull your focus into the right location through proper desire and the will to see rightly.

If you dowse on the "To Do" chart "Restore single identity" then the following questions can help you determine the roots of the problem:

How many people am I?

How many people are me?

How many names do I have?

How many consciousnesses am I?

How many consciousnesses do I have?

How many identities do I have?

How many personalities do I have?

How many people am I webbed into, or how many people are webbed into me?

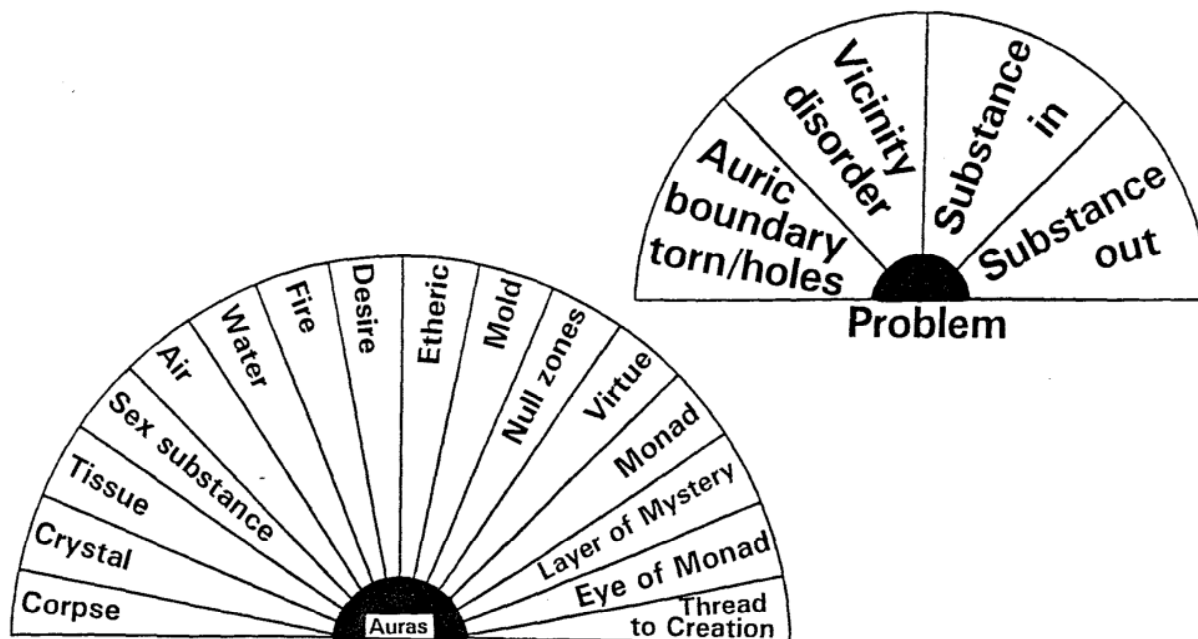

Am I (put name here)?

How old am I? (This is a means to detect past self resonations.)

How many evil birthdays do I have? (This is another way of locating counter-evolutionary old self resonations or a resonance with a person of a different age.)

How many death frequencies are in my auric field?

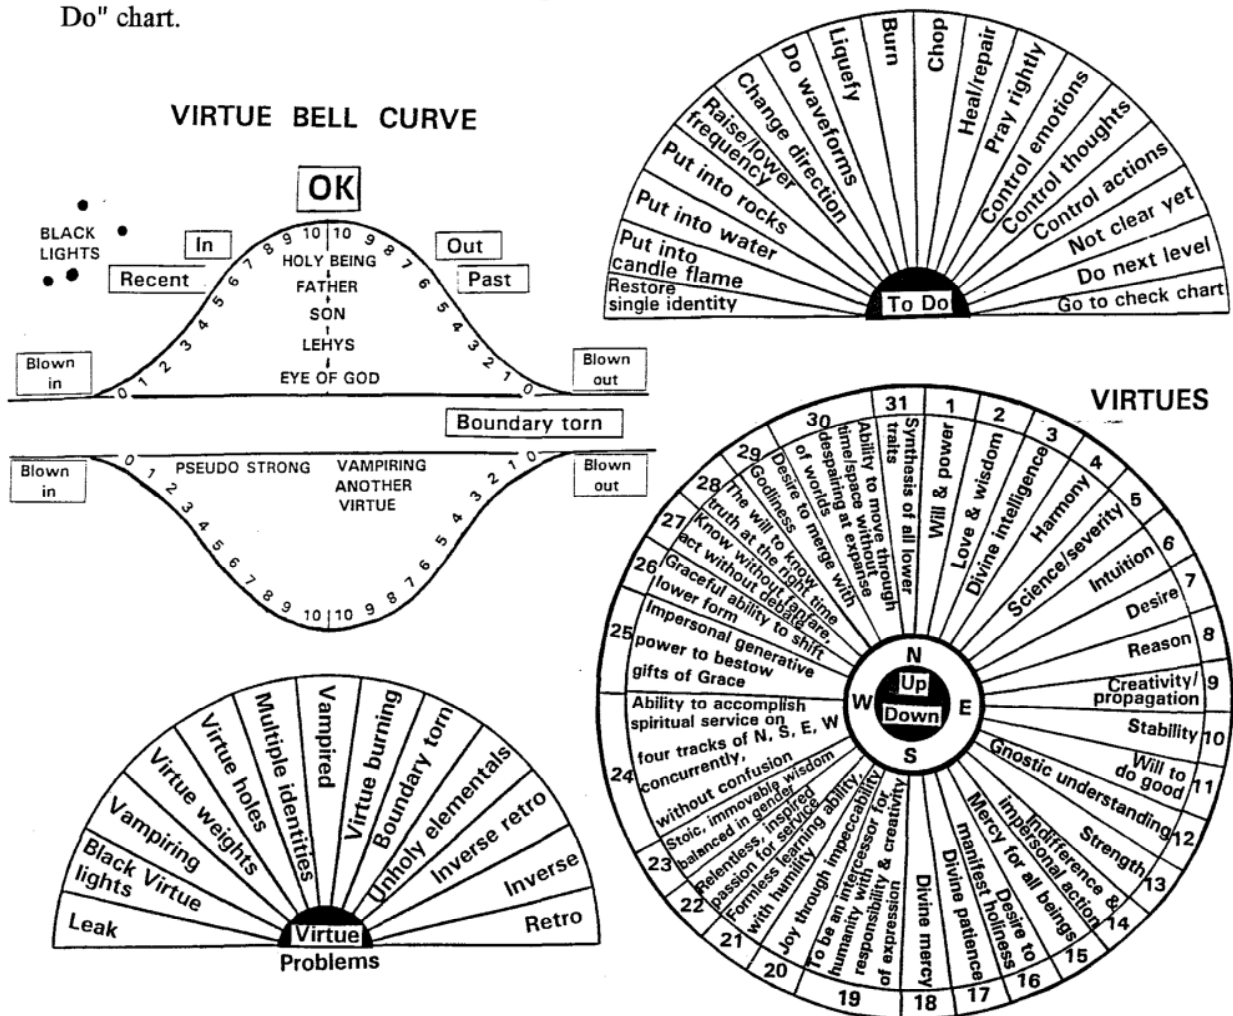

If you find that you have multiple identities, try to identify if the major problem is due to yourself or other people in you. Often there are multiple planes of causation. You may need to identify which part of your aura is out or has foreign material within it.

Many physical and mental illnesses are due to loss of personal power from mixed identities. Also the location of the auric cocoon in another time frame or in a sucker world can tap all power from your auric cocoon leaving you depressed or agitated. You can dowse where your corpse auric components are located to be sure they are not under the mirror of self-reflection below your feet. Your etheric self is in hell when you dowse that it has slipped under the mirror. You will suffer the reflecting disorder downward upon your corpse brain and emotions.

The Virtue part of the illustrated auric cocoon reflects more virtue powers (a total of 31) than are common for even the most advanced dowzers. An important concept to remember is that Virtues are powers with a type of auric substance and are not mere concepts. The Virtue powers are present within the whole soul framework and without them there can be no soul. A soul can exist if the first ten Virtues are of weakened but even strength, however a soul will collapse without virtues. The higher Virtues cannot be attained unless the first ten Virtues are mastered. The Virtues are like the ladder into Heaven and should be consecutive and equal in strength.

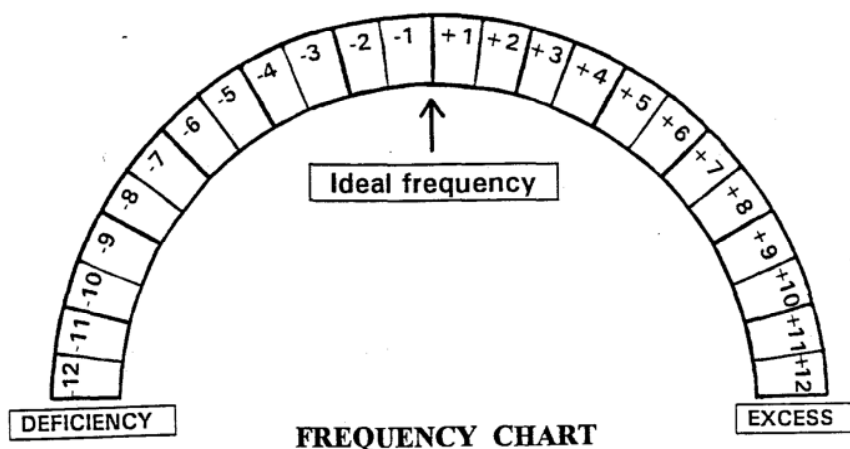

The strength of the Virtues can be measured on the following bell curve illustration. Ideally each Virtue should be in the center "OK" position for each of the positions illustrated on the auric components. A Virtue can be blown in (left side of curve) or blown out (right side of curve). For example, if a Virtue is weak and blown in, that layer of the Virtue will dowse as being somewhere on the left side of the curve in the zero to nine range. If it dowses as below zero, then a boundary of the Virtue is entirely ruptured. If a Virtue dowses as being in the inverse curve, then the Virtue is pseudo-strong and draining another intact Virtue or being artificially sustained through a vampire situation or a connection to a malefic energy. A Virtue problems chart can be used to detect disorder on the individual Virtue powers. To remove the disorder, dowse over the "To Do" chart.

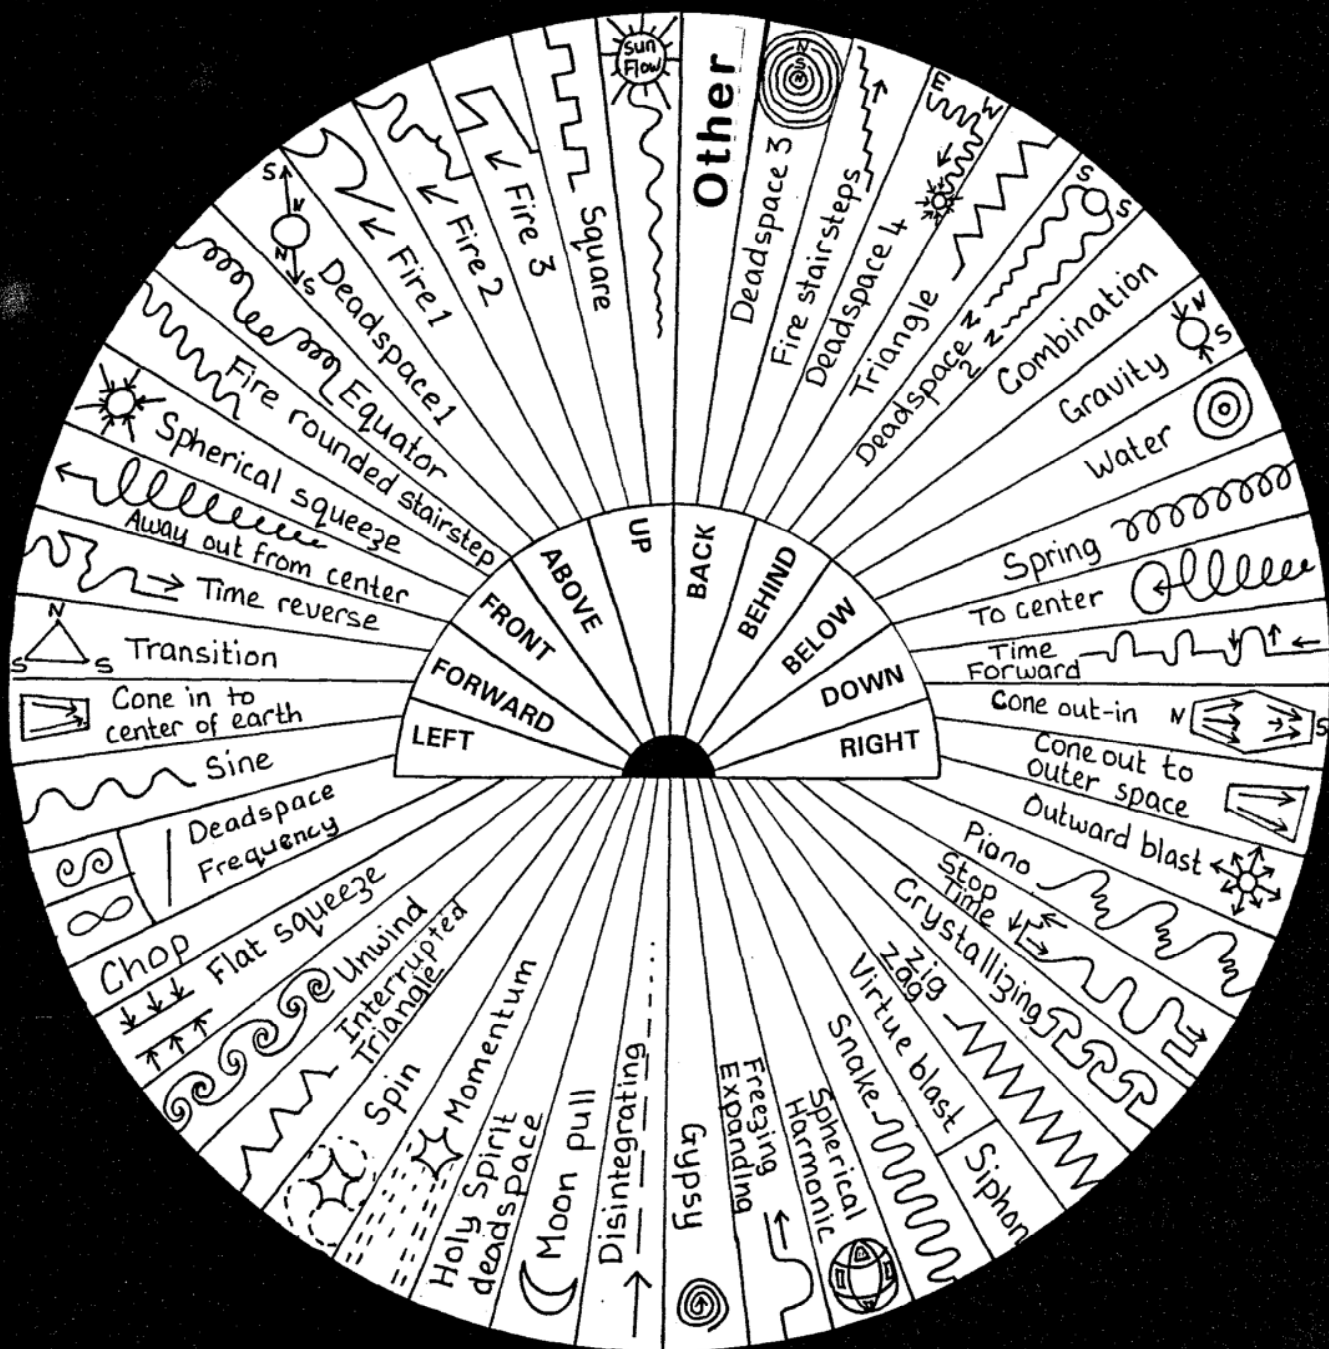

In attempting to remove certain Virtue problems, you may need to do more than just put disorder into things to decay. If you dowse a "To Do" action of "burn" then WILL a fire energy to the disorder. If you dowse that you need to "chop" something then WILL your auric bodies to forcefully break up the disharmony. If you dowse you need to "liquefy", think of the disorder as being put into a blender to further dissolve it. You apply your will and intention to a particular body part and/or auric layer with these actions and perform them until you "feel something give". Then dowse on the numerical scale diagram and check the amount of remaining disorder. For any remaining, you may need to perform a different spiritual intervention from the "To Do" chart. If you dowse that you should go to the waveforms chart, this means that you need to use a more precise type of intervention than the generic types exemplified by the "burn" and "liquefy" actions.

When you have dowsed the waveform to use, focus upon that waveform and WILL your aura to resonate with that pattern. To help train your auric bodies to perform a specific waveform, mentally trace the illustrated pattern with your eyes or your hands while willing your aura to perform the pattern. The chart in the center of the waveform chart can be used to determine the direction to perform the action in relation to your aura. For instance, you might dowse that you need to perform a triangle waveform in a down direction. This is a fairly simple type of waveform. Examples of more complex patterns would be the crystallizing, unwind, or time forward waveforms. The arrows indicate the direction of flow of the pattern itself. Some of the patterns have directional influences relative to north (N), south (S), east (E) and west (W). Some patterns indicate magnetic field polarity. An example of this would be the deadspace type waveforms. Most of these have a magnetic north and south pole relationship in the breakdown of a malefic pattern. It is like using a magnetic tape eraser to produce a neutral pattern. You may have to perform a sequence of several different waveforms to completely remove a particular disharmony.

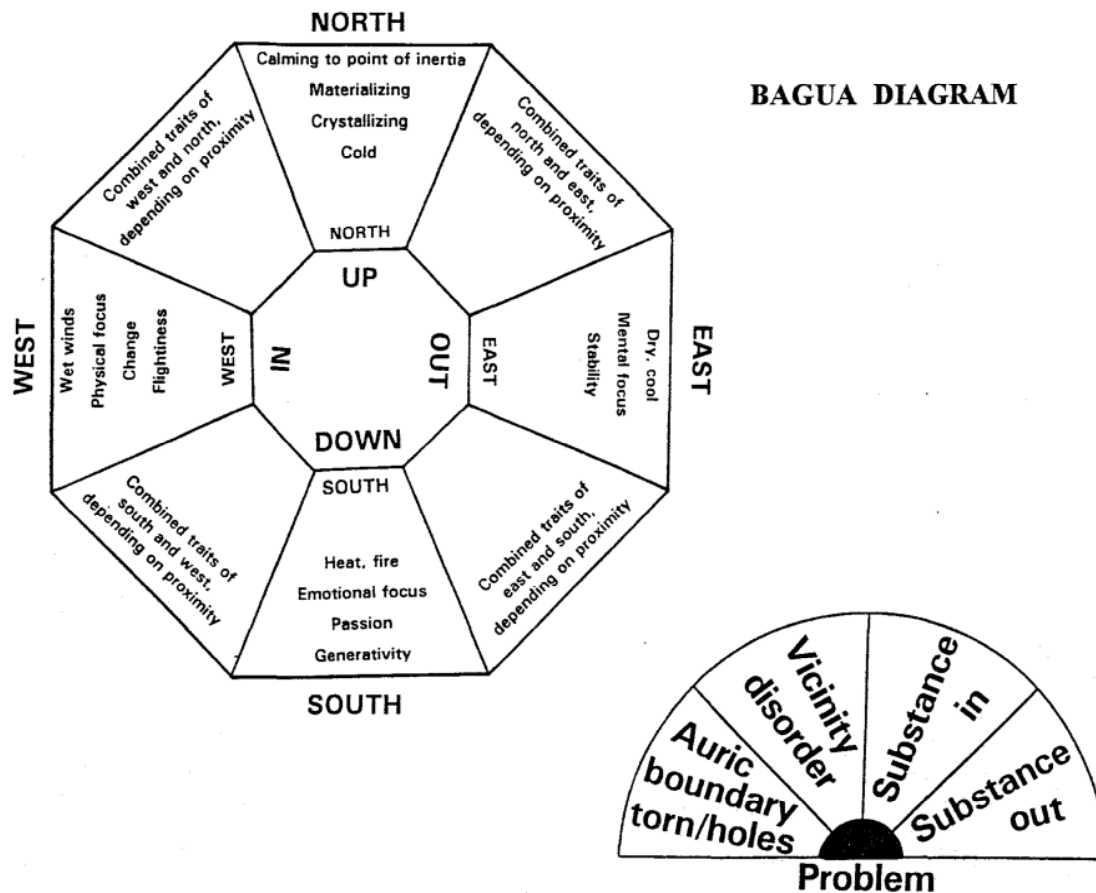

You can also dowse the current frequency of the auric seat of disorder and the appropriate frequency. You can then WILL yourself to raise or lower your frequency to allow healing. It is a common misconception among dowsers that a high frequency is good. There are many disorders of a high frequency. Each auric component has a health range of specific frequencies.

WAVEFORMS CHART

Multiple identities often can be traced to a weakness in the auric cocoon relating to a specific direction. The bagua chart below reveals some of the traits that are associated with the four primary directions. For example, a person who has a strong tendency of emotionalism may find that much of his disorder can be traced to a southern directional focus. By physically turning to face each of the directions in the bagua chart below, it is possible to dowse more accurately areas of weakness with an aura meter, pendulum, or L-rods. When you locate a disharmony, go to the "To Do" chart and use your own will and intention to remove the disorder. For more complex problems, you may need to check which auric layer is affected and whether you still have substance out or foreign substance in, as illustrated in the powerless dowser depiction. You must have a completely intact auric cocoon to be a powerful dowser. If you have substance out, then WILL to return it and remove contamination by using the "To Do" chart. To heal an auric layer and replace lost substance, you will need to pray rightly.

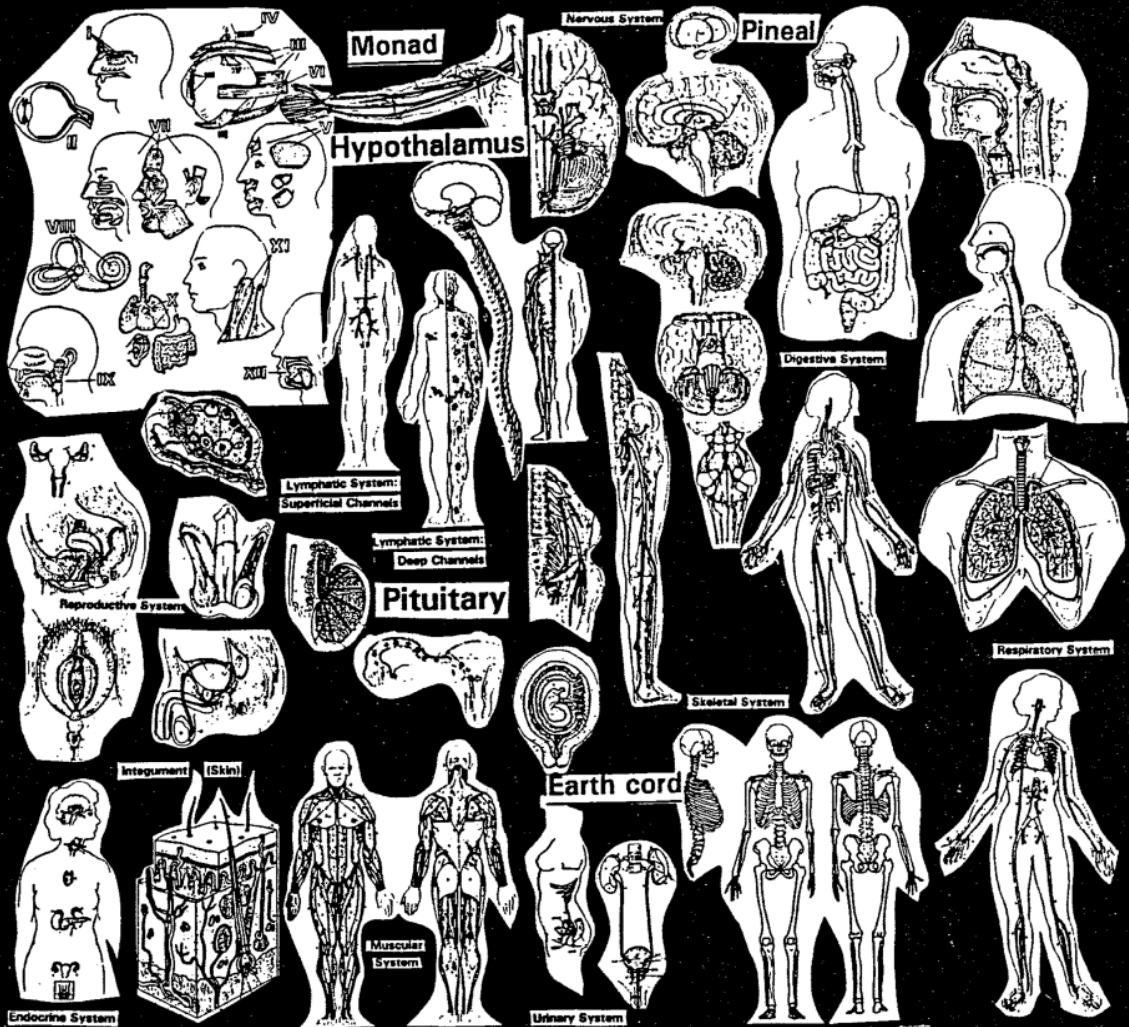

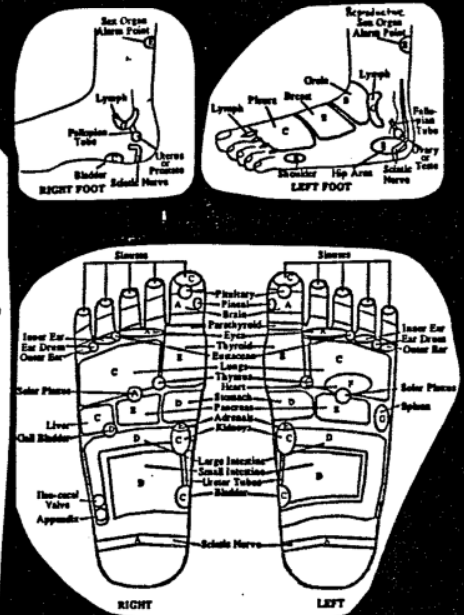

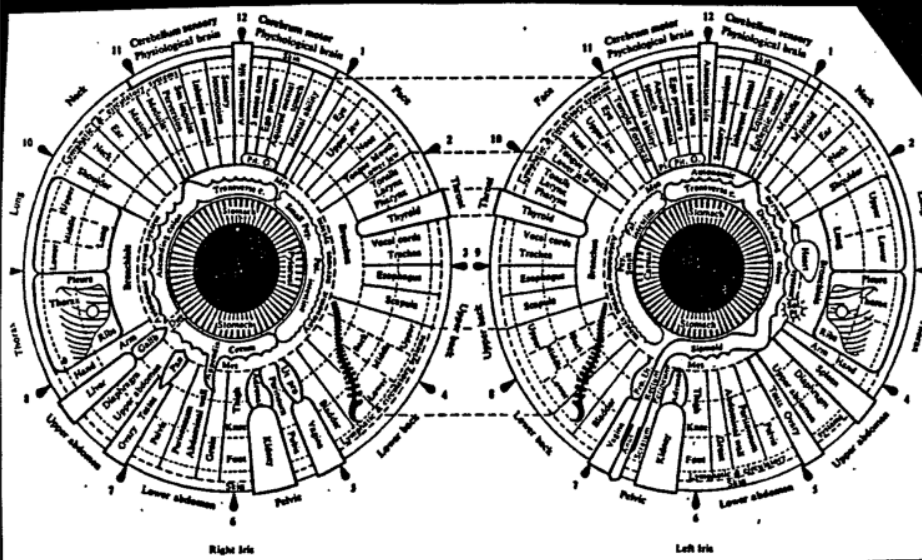

If a disorder is located find out what it is by dowsing over the problem chart. If you find a torn boundary you can pray for healing of the dowsed location using the guidelines to prayer of part one.

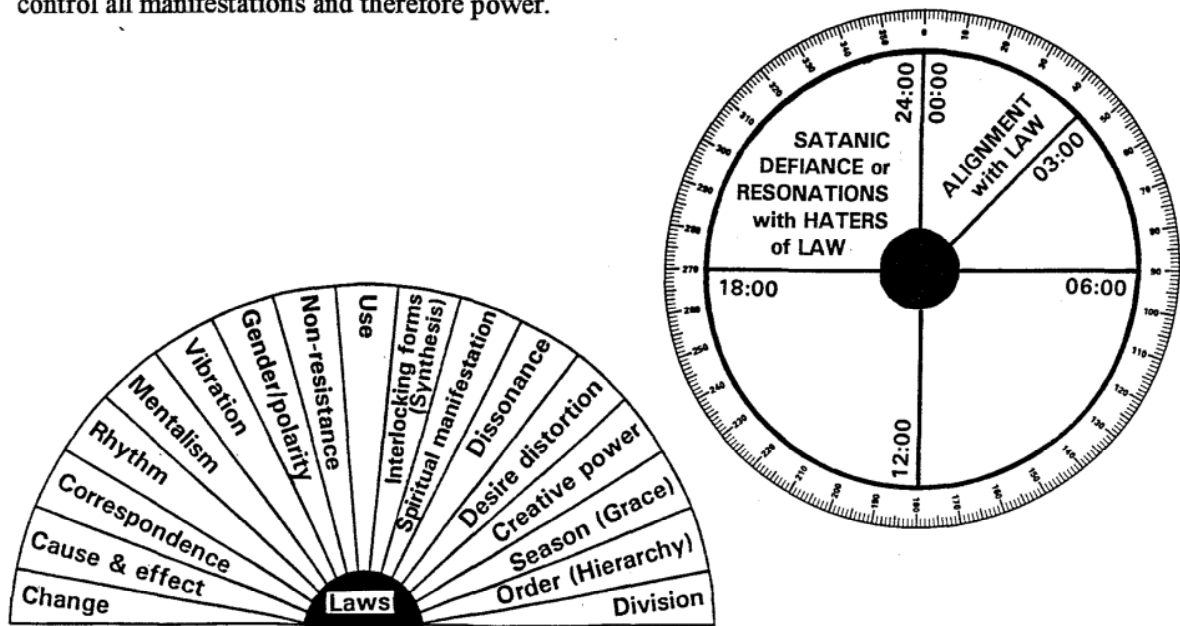

Dowse the different auric layers over the body illustrations and the body parts charts which follow on the next two pages in order to locate disharmonies.

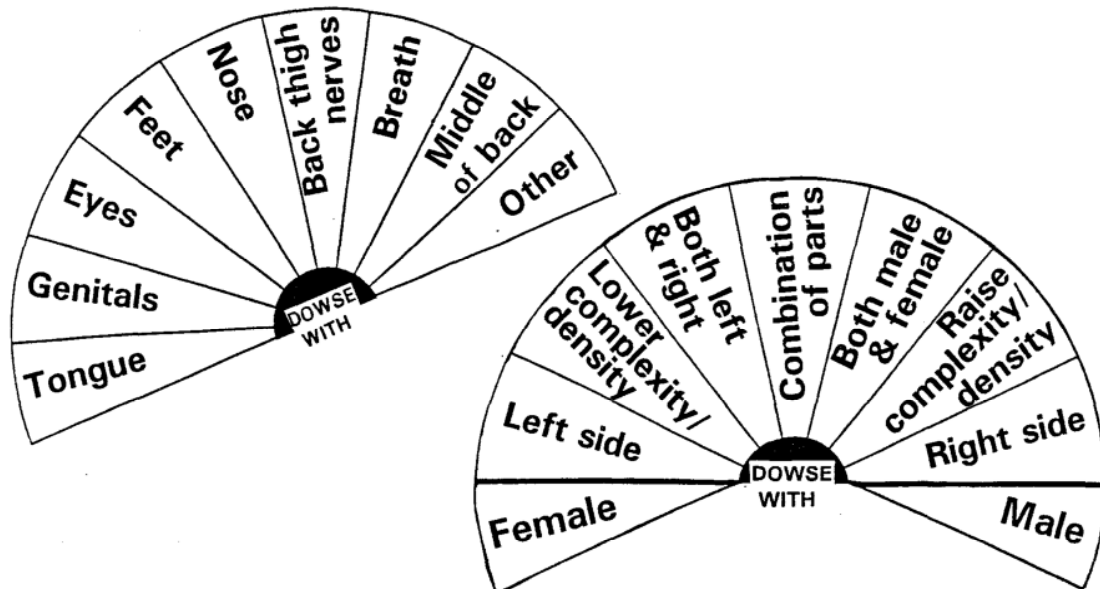

BODY PARTS

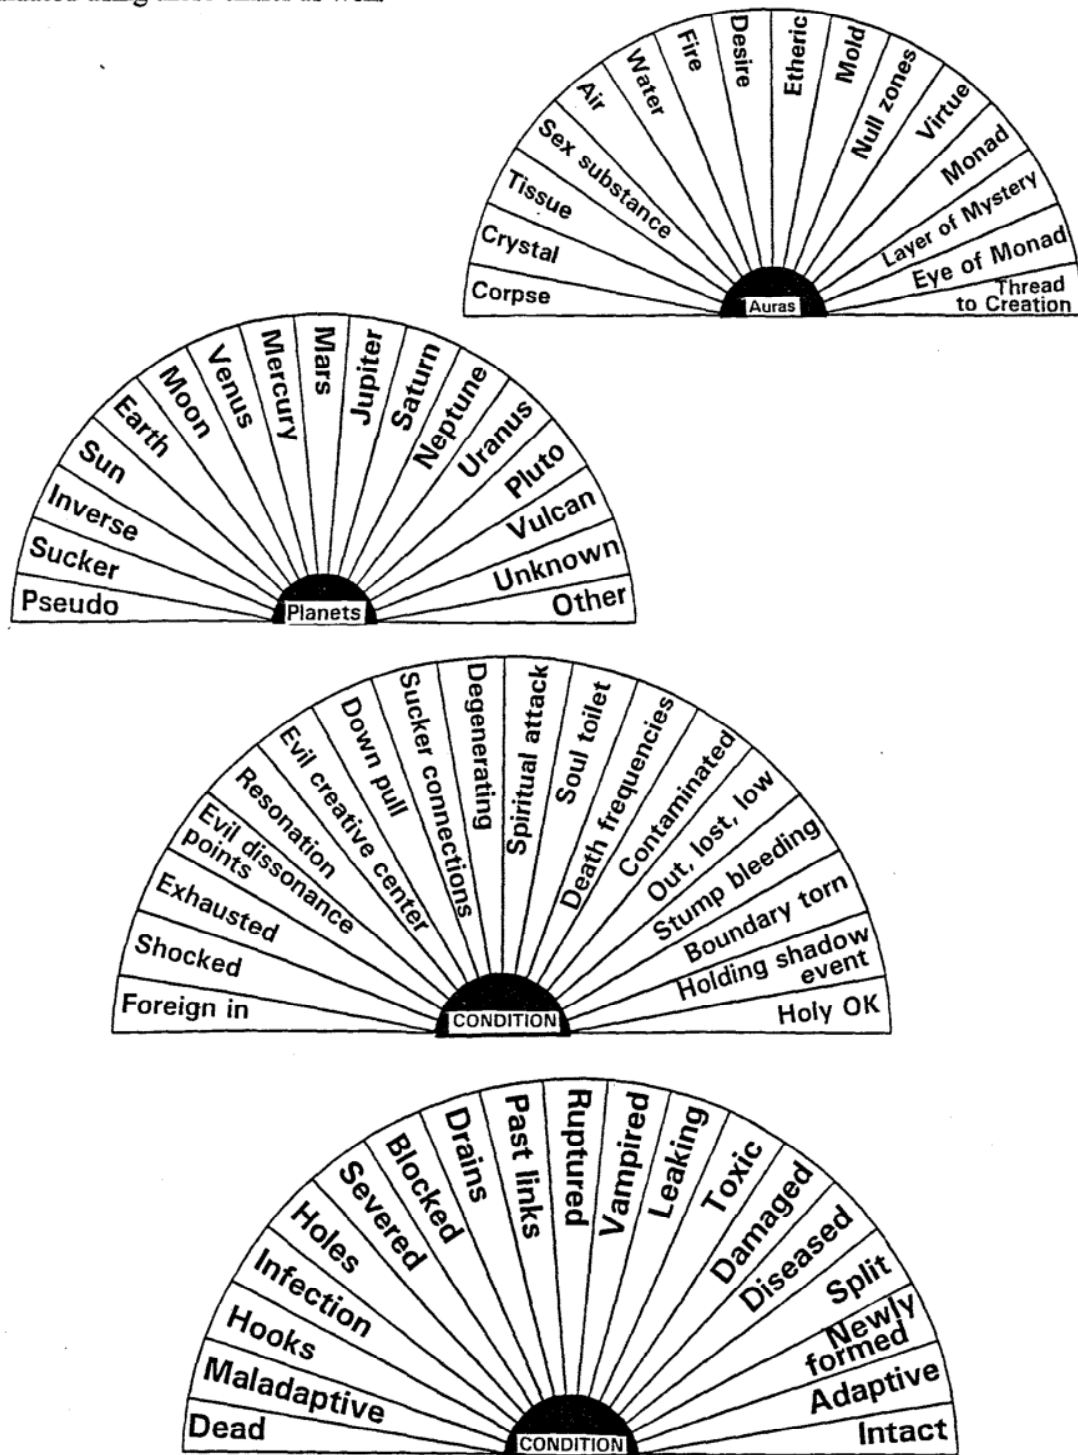

Apart from attaining true identity and aligning one's virtues, there is nothing more vital for retaining dowsing power than aligning with the universal laws. Perfect alignment with each of the universal laws can be measured as a degree of torque away from the Logoic impulse. This is illustrated by using a Law clock diagram as a dowsing tool. The first section to the right of the center (from 00:00 to 03:00) is the area of greatest alignment with the fundamental principles that control all manifestations and therefore power.

Often dowsing is enhanced by using the non-dominant hand or by focusing on dowsing through a specific body part while using your hands as merely the interpreter. For instance, you can dowse with your eyes, your left kidney, or your tongue. You may need to dowse from a male or female perspective no matter what your gender.

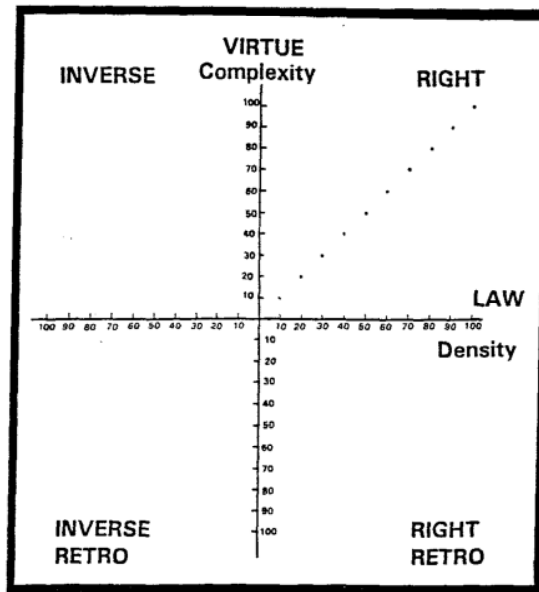

Many physical disturbances are traceable to planetary forces that correlate with malefic elemental production or substance loss of an air, fire, or water type. Dowse each planet over the "condition" charts to determine the nature of these problems. All the auric components can be evaluated using these charts as well.

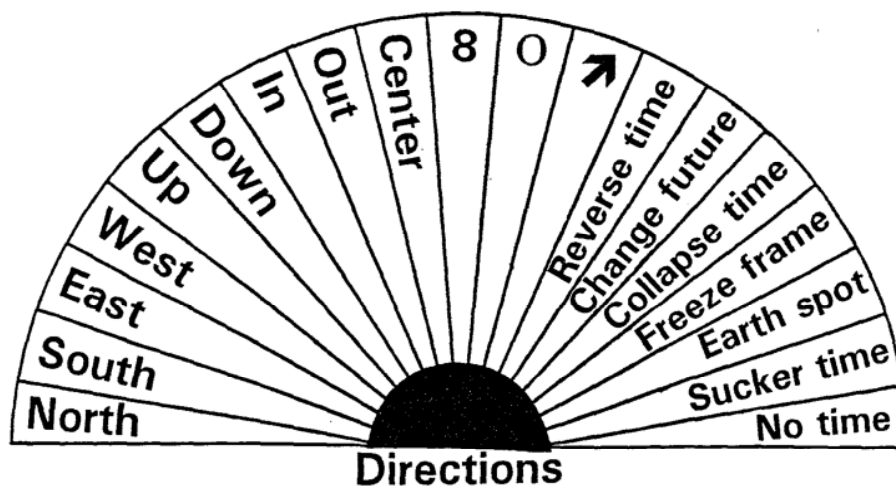

All auric components can be evaluated as to complexity of pattern, frequency, and spiritual orientation on the following quadrant chart. Each auric layer should resonate in the upper right hand quadrant which reflects alignment with Law and Virtues, and therefore power.

QUADRANT DIAGRAM

There are some directions other than those of the bagua that impact mankind. Some of these are represented by symbols or by references to specific time/space names. Many auric disturbances can be understood and cleared by focusing on the correct direction and time.

PART THREE

Elemental Production and Alignment Scales

One must have a framework in which to evaluate individual progress in esoteric dowsing. The subconscious mind which triggers the muscle dowsing response is adjacent to the universal mind or the Book of Life. The Universal mind has within it the history of mankind and records of the relative alignment of the participants of history in relationship to Laws and Virtues. In order for the dowser to gain gnostic power he must be able to evaluate himself within the framework of recorded standards of harmony and disharmony.

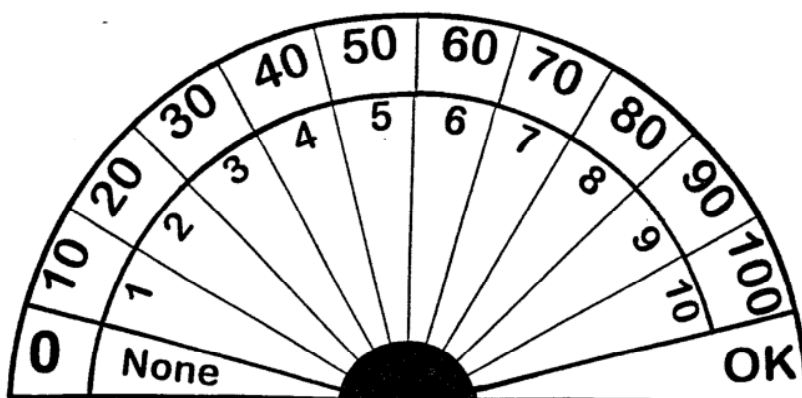

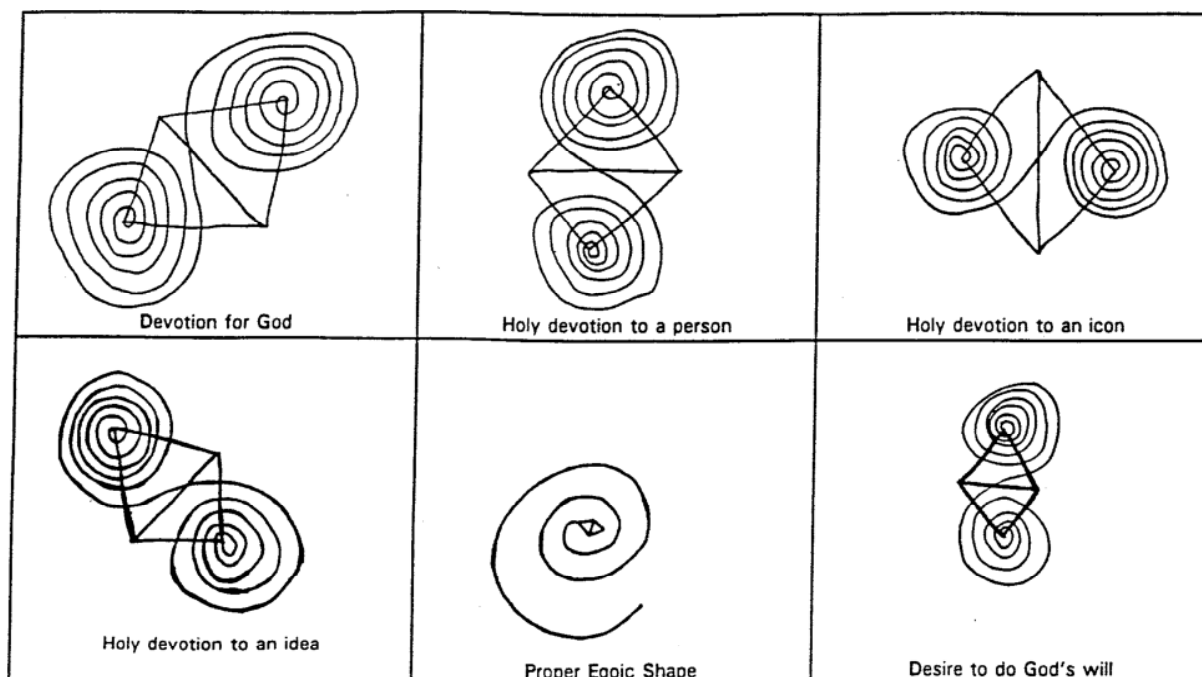

Whether the individual's conscious mind accepts such scales as valid is irrelevant because they are perceived as valid by the subconscious mind as it reads the Book of Life. Unless the dowsing response is impeded by malefic elementals the scales should be a valuable adjunct to the other charts.

Elementals are formed through egoic and desire substances of the corpse and etheric auric components. A lack of emotional sobriety, mental balance, or a tendency to merge with disharmonious people will cause one to form malefic elementals. Association with agitated people will also cause malefic elementals to cloud the aura of anyone nearby.

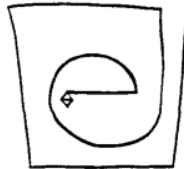

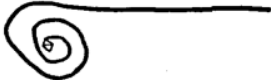

It is also possible to create harmonious elementals but it is far more rare.

Elementals can be perceived through spiritual sight as etheric shapes in the vicinity. Some of the common shapes have been interpreted in the following drawings. It is possible to dowse over these to learn to detect vicinity disharmonies or harmonies.

Check the percentage of resonation and number of vicinity elementals impacting you

A person who uses up his auric substances to create unholy or malefic elementals will spiritually wither until he no longer has the power to do good or evil by such production. The power to create elementals is a gift of the Logoic impulse. If a person resists the forces of Virtues or torques away from Laws he starves his spiritual substance of Logoic assistance. He becomes like an animal who is blind to the world of the soul. He may retain gut level intuition about simple material objects but will be unable to perceive planes of causation.

The degree of disharmony relative to the Divine Plan can be measured by scales that are understandable and produce standard dowsing responses.

Some scales relate to the etheric spine. The spine has within it spiritual nerve channels that effect the dowsing response if contaminated.

Spinal substance should be evaluated on the quadrant chart but relative to the diagonal, outer line relating to one's Thread to Creation. The Thread to Creation is closest to the Logoic impulse. It is the area of focus through which one can compare the clarity of spinal substance with the brightness of the Logoic impulse. One can dowsing how brightly the spinal fluid reflects the Logoic impulse on a percentage scale within the confines of the quadrant chart. The right upper quadrant is the ideal location.

Another spinal scale of importance is the Yogananda Spinal Congestion scale. This measures the spiritual pressures within the etheric brain and spine. If a pressure of ten on a percentage scale reflects the pressure that Paramahansa Yogananda maintained in harmony during his life then anything above that would be a pressure reading. Pressure is normally due to poison from vicinity elementals and can be evaluated on the quadrant chart and the percentage scale. In rare cases angelic beings will pressure the spine for short periods of time and will reflect as an upper right hand quadrant pressure. Malefic elemental poison will reflect in the other quadrants.

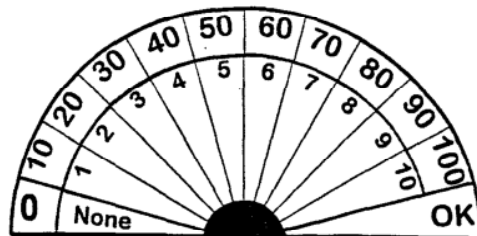

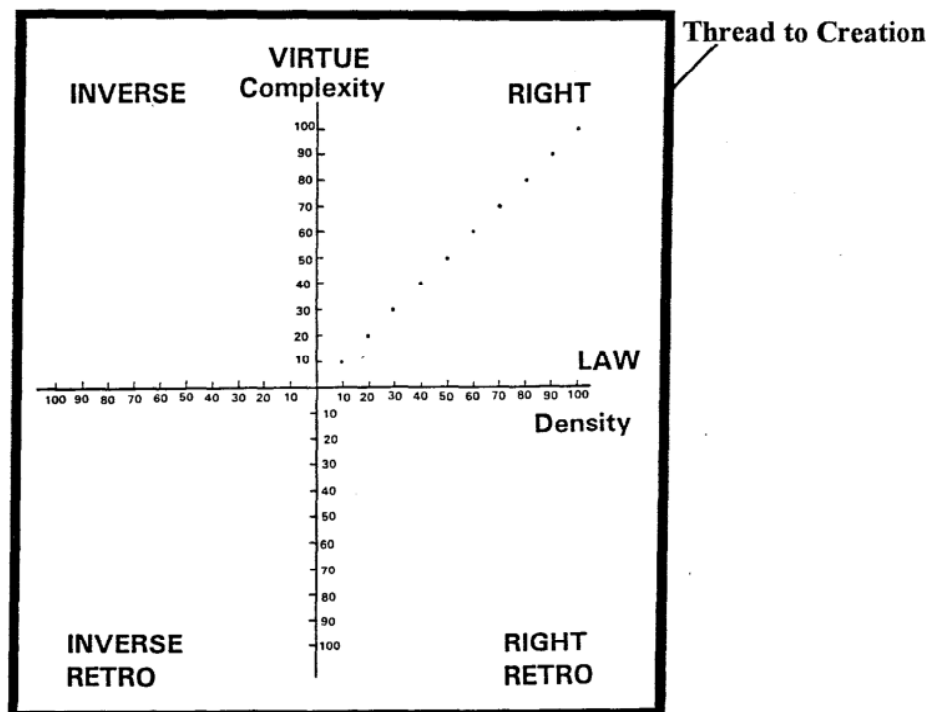

The Name of God (Jesus) scale can also be called the Gold Name Scale. Alignment with the Christ consciousness can be measured on this scale as a percentage of perfection.

The Breath of Light scale measures how aligned you are with impersonal truth rather than a mutant miscreation of reality. It is measured as an aperture such as an eye that is open to a relative degree. If your eye is willing to see Truth then it is 100% open.

It is possible to evaluate evil intention within the self or in other people with a Hitler scale. If Adolph Hitler's intention to destroy the Jews reflected a 100% malignancy, then you can measure any person's mal intent and thus may be saved from harm. You must measure while keeping the direction of mal intent in mind. For instance, Hitler would not have been malignant to a blond German.

Keep in mind that any numerical scale must be taken in the context of the quadrant or orientation from the Logoic impulse. If you are dowsing incorrectly, you would dows the Hitler scale in the upper right hand quadrant rather than left lower quadrant. If you find yourself dowsing incorrectly, see if you need to focus your dowsing response through a body part, yin or yang aspect, or other side of the body.

QUADRANT DIAGRAM

NUMERICAL SCALE

Use this numerical scale as a percentage scale, too.

PART FOUR

Dowsing as a Tool for Spiritual Progression

Historically, many spiritual leaders forbade dowsing because it sank into the ranks of lower psychism or materialistic water or treasure dowsing. Despite that, the Bible and other holy works give many references to dowsing being used by our spiritual forefathers. The book, "The Pendulum, the Bible, and your Survival," by Hanna Kroeger gives many Biblical references to dowsing.

To use dowsing merely to aid the physical condition of mankind is to weaken it's purpose. The dowsing response in the highest sense helps us to understand the mysteries of spiritual life. It takes a holy person to dowse well. Each person who wishes to be a great dowser should first aspire to be a holy person. Alignment with Logoic Virtues and Universal Laws makes one holy. Spiritual Science is the active investigation into what is holy. To be holy is to be whole and therefore united as one true self in the Now.

Many aspiring dowsers give parts of themselves away in materialistic pursuits. In eroding their spiritual power by wasting it in many directions they lose a true dowsing response and become like machines or animals. Many, by thinking they are greater than God, create imaginary worlds that take all their power.

The true dowser has power because he has humbled himself before the Logos.

CLEARING CHECKLIST

What follows is a basic check list for use with the working charts on the following pages. It provides a step-by-step list of dowsing questions to use each day for the clearing and alignment of your spiritual bodies.

It is a good basic check list but the elements of the list are more important than the order in which they are performed. The procedure is mutable and, as you become familiar with these charts, you may find that you expand on the sample questions. In the beginning, it is strongly recommended that one follow the check list in a very precise and detailed way. This will train your spiritual bodies and help to integrate the procedures so that you will become a more effective dowser.
