INTRODUCTION to VIRTUES, LAWS and POWERS (excerpt) by Anonymous

Introduction

Published 1995

ISBN 1-885-186-83-5

There are people on the Earth today who hunger for knowledge of the mysteries of life. They may have sought to satiate their thirst for Truth through paths of science, art, philosophy, psychology, religion, or social services. Many, at the close of a long career in such fields, hear the hounds of death at their heels while their spiritual bellies ache with emptiness. They go to their deaths longing for the unknown, trembling with angst.

It may seem preposterous for this book to presume to fill some of that void by bringing to the reader the fundamentals of the natural Laws of the soul. Indeed, few people have ever considered that the soul of man has a type of matter, not unlike his flesh, although existing in a different octave of being. Few people are aware that there are principles, similar to known physics principles, that control the dynamics of spiritual matter. Furthermore, such spiritual Laws have a watershed effect upon the physical body of man and the Earth.

Looking out upon the sea of disorder within the major cities, one cannot help wondering why violent crime is becoming increasingly prevalent, and what could bring it to a halt. During the sixties the cry of liberals was for more social services, as though money or food could be the panacea. Others cried for gun control, more prisons, or other material solutions. Despite all attempts at controlling societal disorder the ghettos swell with violence, and the traditional family structure is almost gone.

There are some idealists who look into the heart of this disorder as though it were full of signs of wonderful societal transformation for the better. And yet, teenage pregnancies, AIDS, infections, robberies, rapes, and murders all continue to increase in number. By what criteria are these idealists measuring their success?

If one looks back over recorded history, pockets of societal peace and order rise out of the pages with haunting similarities of belief systems. Within each religion can be found keys that lead to the inner teachings of the fundamental Laws of the soul and of life itself. The fighting between religions has been due to clinging to differences rather than searching for similarities. The obvious similarities are merely echoes of the underlying mysteries which have traditionally been reserved for an inner circle of the spiritual elite.

The knowledge of the inner mysteries of life, held within the core of each religion, was withheld from the masses because of the danger of sorcery if the principles were applied without integrity. Any power that can transform a man's soul can also destroy his body if directed with malefic intent. It was safer to allow the alchemical mysteries, which were the core of each religion, to be watered down in a harmless fashion, in a way that could possibly change man's behavior through fear or promise of heaven. It was assumed by the spiritual forefathers that a man who lived decently might learn to think decently. If a man thought in a decent manner, then, later he might be able to control the spiritual forces with integrity and not run amok with unbridled passion.

For this reason, most religions focused upon behavioral instructions, rather than the reasons that certain behaviors could block the path to spiritual power. People have, by and large, decided that the behavioral instructions are no longer valid and so have developed many blocks to the higher teachings.

It is now time to reveal the inner teachings, in hope that humans can understand the reasons for behavioral sanctions and thought control.

The Laws are immutable. Man cannot break these Laws, but can break himself against these Laws. This is happening today on a massive scale. A man can tell himself all day long that fire is not hot, and yet burn himself, should he put his hand in a flame. Just as there are lower laws of the visible component of fire, there are higher Laws of the unseen components of fire. Many a man has thrust his own unseen components into fire and burned away part of himself.

It is possible to heal oneself through the application of higher Laws. If humans can bring healing order to their own lives, then they can begin to bring order to their families and to their own culture. If they do that, they can start to bring order to the world.

Healing the world must start with healing the self. This book holds the ancient mysteries through which personal transformation is made possible, if the applicant is sincere and willing to change. The dilettante will benefit little, except through some intellectual titillation. This book was written not for dinner table discussion, but at great price, and with great courage, by a traveler within such mysteries, in hope of helping humanity out of chaos. Since it merely recites the principles of the mysteries, it shall be considered anonymously and gnostically written, for man cannot hope or presume to create the Laws and Virtues. This is not a "channeled" book, but a book reflecting the experience of the traveler through many realms as real as the one before your face.

If you also dare to be a traveler into unseen realms, this book will guide you safely.

1994 MAY MEXICO LECTURES BY ANONYMOUS

The following class lectures are transcribed either verbatim from audio tapes or from class notes unrevised by Anonymous. These lectures and written lessons were given by *Anonymous* to audiences familiar with the general background of Spiritual Science. The emphasis was in the dissemination of knowledge that was normally hidden from the general public, but has had a haunting recurrence throughout the millennia.

NOTE

- 1) All LESSONS, LECTURES and CHARTS were given in class, created by Anonymous. Class Notes were taken by an auditor and not corrected by Anonymous and for these, it is suggested the reader also refer to the original, unabridged audio tapes.
- 2) The best introduction to the dowsing system may be found in the Advanced Esoteric Spiritual Dowsing Books, I, II, III.
- 3) **Please keep in mind** that this library is missing many of the original audio tapes (of which there were at least 50+ per month during a three year period) as well as some of the dowsing charts, Class Notes and Lessons. These books are compiled from the resources currently available to this library.

“Lessons” and “Letters” were composed by Anonymous
“Class Notes” were typed during the lectures and were unrevised by Anonymous.

INTRODUCTION to the Conference in Mexico

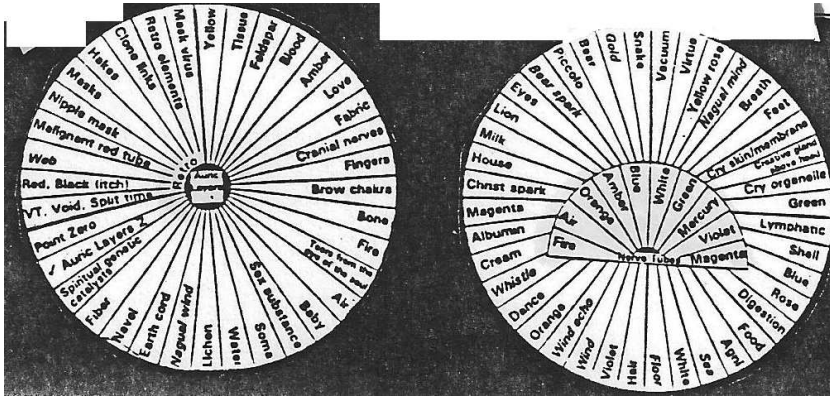

A conference in Mexico was held between the dates of May 2 and 26, 1994. The teachers and Oklahoma students drove to McAllen, Texas. They then took a train in Mexico from Reynosa to Monterrey and were met by other students. After Monterrey, the travelers continued by bus to Saltillo, San Luis de la Paz, San Miguel de Allende, Guanajuato, Mexico City, Puebla, Cholula, San Juan de Rio, La Piedad de Cebollas, Tuxpan to Manzanillo. Out of town students flew back home from Manzanillo and the Oklahoma students and teachers returned overland by bus and train. Currently, this library does not have the audio tapes for that trip. The Class Notes included in this text were taken by an auditor who tried to keep as close to verbatim as possible. This will explain some abrupt sentence structures and (---) illegible words.

The Star Power Charts came from the lectures during this trip. All charts from May, 1994, refer to the Mexico lectures. Some charts are not currently available to this library.

LETTER TO STUDENTS: MAY 1, 1994 Update

Before the Trip to Mexico:

Chart: Auric Layers in Octaves

It is time to drag out your old ray/octave diagram (*See end of lesson*) because some of you are not resonating with the New Heaven/Earth location, but are out in space or some other world resonance. The other locations correlate with zombie archetypes. It can be any **← Auric Layer**, but especially your Fabric, that resonates with the malefic location/archetypes.

People without souls can create prana demons and hook into you if they "have your phone number." Some of them can even access a New

Heaven "phone number" if you have merged with them due to sympathy, and they are able to recall the frequency and pattern later. If a soul-less one keeps hooking up to you, then you can change their area code.

You must change the area code of their genitals, mouth, and air aura at least. You do this by looking at the ray octave diagram and seeing where they are hooking into you. If it is your fault, you will have an auric component or corpse resonance that is not on 3-D. If the zombie is able to hook into you on 3-D, then you must encase the zombie in a "night shell" to prevent the contamination of other ensouled persons. Visualize their generative organs, mouth, and air aura all encased in a black shell on the top of the ray/octave diagram, and nowhere else. Check to see if they have been 100% encased. There may be other auric parts to encase. In some cases of hysterical ensouled persons, I have had to temporarily encase an auric component until they calmed down, to prevent complete rupture.

On some of you I have had to plug auric layers on directions of propensity, because you have reformed the propensity due to habit of thought, emotion, or action. Had I not done so, you would have ruptured. You must realize that you have great power, and take care to remove any weakness, so that you can be of service to the Divine Plan in an ever increasing way.

On some of you I am finding Fantasy Bubbles and sub-fantasy bubbles that are like the old incubus/succubus bubbles but can be of any weakness besides sexual. A tendency to daydream about some desired outcome can create these out of desire and egoic substance. You should check for these and eliminate them, because they weaken your power by diversion of energy.

I am seeing what dowses as Sex demons, but many of these are merely desire elementals composed of the joy/cry substance and are unrelated to sexual thought. Keep in mind that sex demons are composed of monadic brow drips in most cases, and are very serious. You should all check for these morning and night. Many of these are future desire demons, and form fantasy bubbles above your heads, or glob on a person that you are thinking of with any type of desire. Usually these are created when your sexual substance or joy are not on the proper position on the ray/octave diagram. You should dows the

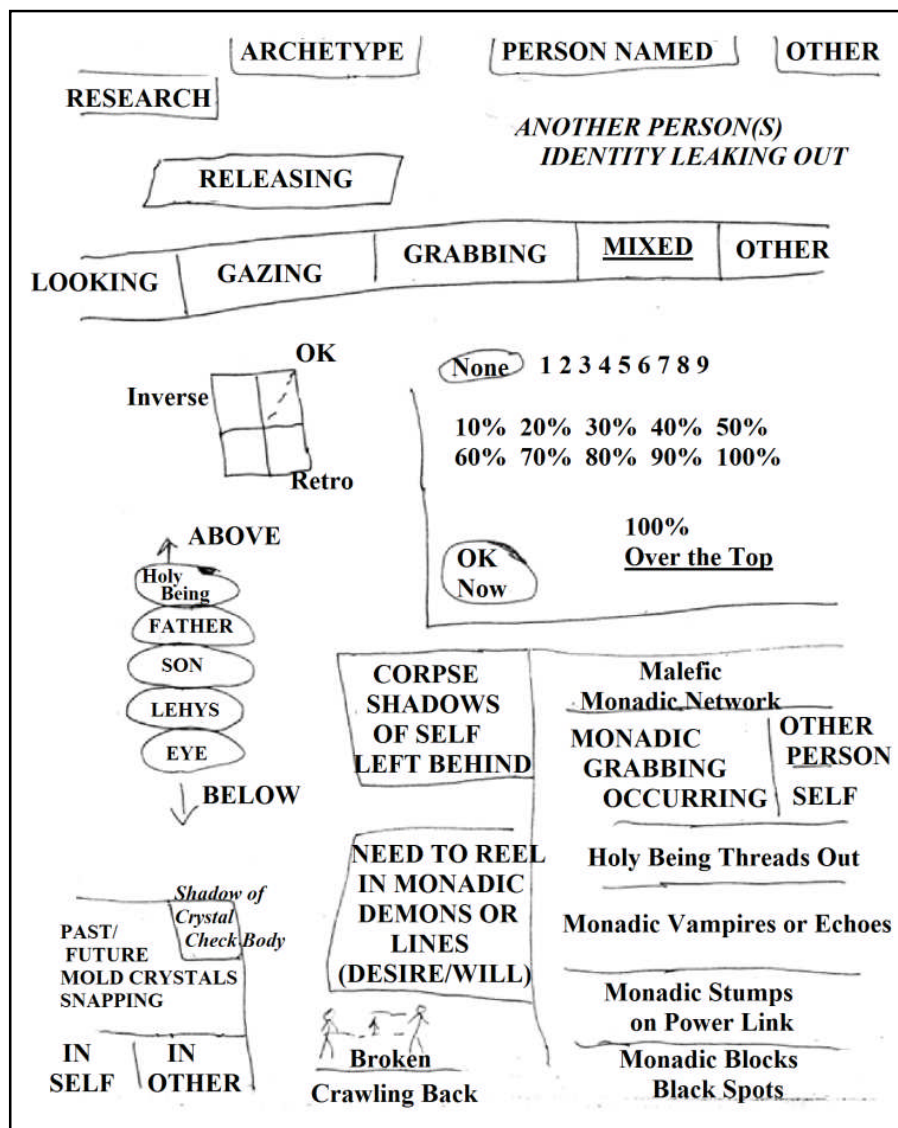

position morning and night, because some of you are having trouble holding your holy attunement. Also, some of you are trying to merge with (T3) or me, but are so filled with emotion that you are forming attacking desire demons in the process.

One merges by gazing, not grabbing. Some of you are grabbing with your desires, and are very sloppy. You can be sure in Mexico that we will give you heavy tutoring in that regard, and keep a careful log of the errors of missing group members. (T3) and I are still watching over you, but will not mince words or actions at this point in your education.

Except for a few stray nagual demons, all the elementals you create are new. They can last a week, and then return to you with a vengeance. You must not mix memory with desire, for we have left April, and are now into May. Much of your problem is due to the indulgence of lower self into memory/thought habits and clinging to things of the past. You would all do well to re-read "The Power of Silence" by Carlos Castaneda before we meet again. It may help you to prepare for the onslaught of the teachings, which may seem to be quite ruthless and bold from here on out. We must prepare you to meet your Guardian on the Threshold of your personal lower-self death, so that you can be reborn in power and purity.

CLASS NOTES: MAY 2, 1994 Reynosa

TRIP TO MEXICO:

A conference in Mexico was held between the dates of May 2 and 26, 1994. These were the only hand written notes taken. The 20-25, 2-hour audio tapes are currently not available. A few charts may also be missing.

MEXICO: MAY 2-26, 1994

Monday May 2: We left Guthrie, Oklahoma by automobile at 5:45 AM and arrived at McAllen, Texas at 7:30 PM. We walked over the border to Reynosa, Mexico.

Tuesday May 3: Took a train to Monterrey, with a connection to Saltillo.

Fire Gender Virtue Plugs: Male/Female: Check auric layers.

Female Baby Nest Eggs: Check auric layers.

Assemblage Bands: These bands are not points, but they can be equated to a country on the 'globe' of the aura. For example, Cuba could be considered a normal first attention assemblage point, with a lumbar spine correlation.

Plugs: These are put in when a person is obsessing, or is forming propensities which cause the monad to drip out. The plugs are removed when the person stabilizes.

Catalysts In: These are monadic brow drips.

Propensities: Go to the auric chart to find them (i.e. vacuum aura) and plug them to prevent monadic drips.

For example, a south Etheric layer was plugged on one student. Another student had a Water-East-Tissue propensity.

Pulling Apart: This happens when an aura is pulled in two directions at once. **Ask:** "How many do you have?"

Gender Blocks and Virtue Blocks are synonymous.

General Clearing: Pull the auras above the North Pole and Name of God. Do this to help others.

This is done for the Spirit Shadows, Monad, Earth Cord, Itch, Tissue Aura, Corpse and Sex Substance and especially for the Blood and Water auras. (*Mistletoe was used in the past to ward off demons.*)

FOUR TRAITS OF STALKING:

Sweet, Cunning, Ruthless, Patient: use your hand to locate where they are on the aura.

All of these should be above the head (in the Fabric) which should be in the NOW.

Ruthless is impersonal. If a person is *mean*, it would place the Ruthless point in a lower quadrant.

With the Law of Rhythm, one could swing all the way with one side of an aspect, and then swing to the opposite aspect.

Grabbing with the will has an aspect of stealing. If you get tired, you may start to *grab*. If your Ruthless starts to slip (from its proper location and focus), then then throw it all the way (to the other extreme) to go back to center. You might snap at a bad waiter or you might clean the house with an intensity to build your Ruthless. It is like popping the spine into alignment. Each trait pops in a different way. Being indignant to liars will pop Ruthless into alignment.

Sweet: Pop Sweet into place by getting silly.

Cunning: To be cunning, one must be relentless like a jack hammer going at all sides to a problem, ruthlessly.

This has the aspect of a person who mentally, silently and dispassionately works on a problem.

Patient: To get to this point, switch to indifference. Switch your gears to (focus on) something totally normal and shift (your point of awareness) to the tonal, thereby getting to 'boring and indifferent'. Act physically within a normal range and do the physical activity with indifference. *This is not meekness, but instead shows control* and knowing how to titrate out one's energy so as to not squirt (auric substances). A person may *appear* impatient, but that is not the opposite of Patient. *Patient* is instead, the doling out of energy for yourself, so as to balance the yin, as if to pop the spine into place. When one is not strong enough to exercise *Ruthless*, then walk away. Don't fight a battle of any kind unless it is appropriate. In unfamiliar terrain, harmonize yourself before doing exercises of power. To get one's bearings, first be in *Patience*.

Indifference is the core of all stalking and if one is ever needy, one can't stalk. Others can smell need. Indifference is a part non-resistance in that what you draw away from will come towards you. The 'Self-Help' type of person believes that if he *thinks* of money, it will come to him. However, if one is truly meek and indifferent, then one doesn't care what comes, but will just accept anything that does come. In such a situation, then one can pick and choose from what comes and what does not. Jesus said that "The meek shall inherit the earth", but those who are desperate will suck it all in without discrimination. Before a battle, be sure the enemy is in sight before shooting, so as not to shoot (at your own) blind shots.

Spiritual Legs: Shadows of Legs: If one stares at the feet, it becomes easy to see a person's blocks. Women who have extra spiritual legs have unresolved conflicts with specific males, and it causes the traits to go off. Pray for deliverance. One cannot understand true yang until one removes the pseudo yang. Pseudo strength is very creepy. Ji and Fl had pseudo strength with similar male issues, (though the issues appeared to have opposite qualities).

Enlightenment and healing can occur in a second, and it does not happen because of the tonal (sic). If one does not have a strong tonal then one may not recover from the change, as one would not be psychologically strong enough for the increase in power. The tonal relates to how much power we can tolerate. One's healing is pushed up (in accordance to) the power one has to handle it. **One can heal as fast as one can take the power that is infused.** The more one knows, the more one is healed, (which includes): the more one has power, the greater the burden one carries.

When one reaches a spiritual understanding, the eyes look luminous; the whites of the eyes look very white, as something becomes impressed on the monad. It is as if one has met with the burning bush.

Travelling pushes one's assemblage points to other areas of the aura to illuminate them and bring one out of the habits of one's fixations, so that one can start to see.

Virtue Boils: The Virtues are spewing pus. One can throw this contamination on the train tracks.

CLASS NOTES: MAY 4, 1994 Monterrey to Saltillo

People are reforming propensities which is very serious. We have no group synergy at all.

Look at the first 12 Virtues and clear them.

The Anti-Virtue and Anti-Lehys statements are pronounced.

The Virtue aura damage is serious, as it should hold firm.

The tissue aura will reflect the vicinity contamination.

Mold Aura: This aura is getting more settled in, and when the old self is reformed at this level, we have to work hard to overcome the problem. If the mold is held high, then the Virtues will match it. When the reforming of the old self hits the mold, the monad starts to leak. As the mold is crystallized, it mutates, it folds in and out, and then it cracks and leaks.

We can do spiritual work if the first 12 Virtues are intact. Clear them off for synergy power. If the Virtues are not clear, we don't have synergy. Right now we are pathetic as a group. Ji's nagual demons are returning to us from a year ago and it is all within Law that they do so. Ji was given the nagual powers and that is the rule and the risk. However, we can stop monadic leaks if the virtues are plugged up, or cleared.

Ruptured Boundaries/Holes/Weights of Virtues and Null Spaces:

To clear these, check the Virtues with the Eye of God first and then singly with the other apertures.

How many malefic Lichen Cords are out/in? A problem in one aura reflects in the others.

Air problems show lower willfulness. Lichen aura problems shows that one is feeling slighted and a lack of humility.

Bursting Boundaries: Check the traits on the world map relative to the North Pole.

Toxic Virtues with Mag archetype: When one aligns with the retro past, one will align with Mag.

Encasing the Virtues in a Night Shell: This is being done for students until they stabilize.

Nagual Time Released Fantasy Bubbles: The Ji naguals were time released and they are like fantasy bubbles which burst at a certain time. Ten months ago, she made these when she was cutting T2 and T3's cords and now the bubbles are popping. When the bubbles pop, they start cutting T2 and T3's cords again. They are full of Anti Lehys statements, and 80% of our current problems are from these.

We may receive divine help to destroy them since we know what to ask for. Prayer is very important. Was it an error or not, to make Ji the designated nagual? A person always has a choice. She could have healed instead of destroyed. She had personal self-control, and her power could have gone greatly to good, but she was as mean as a snake. She didn't understand impeccability and formlessness, or that T2 could see, even without a monad and that the Holy Powers wouldn't let her pull that shit. She was drunk on power. It was like Samson and Delilah, with evil planning.

Night Shell: This will protect the auras against attack. Wherever one is weak, that is where one is attacked. That is why it is so important to encase certain auras with a Night Shell. Since the Holy Beings are very specific, T2 has to change the octave of the prayer for help with "*Encasing or Destroying*".

Enticing Demons: by insulting demons, it causes a partial resonance which pulls them to us, so that we may remove them. Normally, one would think we would not want to pull demons towards us.

A Useful Trick: Think of the auras as superimposed above the 'world map' of one's body and shove them up above the North Pole and to a spot on the Fabric that is the optimal alignment point for where the light should be turned on. The optimal point may be out and in front, or behind a person or on the surface, but the spot is above the head and is called the Fabric Assemblage Point. This may change, but for now go to that spot and see how intact it is. The fabric is what holds the Assemblage Point up.

When the Fabric is off, then the Lehys is probably off:

If the Lehys goes first, then check the Lehys Eye. With fabric ruptures, then the monad goes. Check specifically:

Lehys Layer of the Eye of God *How intact, and the substance level of each Aperture.*

Suckers: these are Lehys ruptures at the knees and lower layers.

Vampires: This is a weakness and has an air aspect as do the suckers.

Check the air container for how intact it is, if it is in the right hand quadrant and percentage of contamination.

Ask: "When did a wrong pattern occur in the air aura?"

For example one student had had bad speech (recently), with a very bad Anti Law problem, so his air aura is 1% intact with an inability to discern good from evil. This problem is an Air/South propensity reinforced with eye threads.

Propensities of Air/Fire/Water: With an air propensity, one student indulged in circular thoughts when the nagual demons were returning and started blaming T2 and T3. With a propensity pattern fixed in the fabric; once one embraces a false idea, it then moves to the fabric and then it crystallizes like bone and moves into the bone aura and if the fabric gets a pattern, then it becomes an archetype. It is as if the gristle in the nose changed, the bone then started growing and then the nose changed.

Anti-Air: Air has the concepts of words and breath. God breathed into clay. When one lends breath to a false idea and circular thoughts (which are words), then Anti Lehys will be impressed on the fabric and cause propensity ruptures. One can't hold the assemblage points of a holy person if the mold shifts to not be holy. A danger is that if one keeps hearing the Anti-Lehys statements, the aura can rupture from the weight of it. T2 and T3 make sure that all the ensoulment residue is taken care of and then they don't have the risk of embracing and leaving disorder. The weight of a nagual is so great, the force was twisting the gristle and bones and students were losing the steam to resist the alterations.

Ask: "How deviated is the Fabric from Sainthood?"

Also ask for the *Mold, Water, Sex, Lichen, Etheric, Vacuum and Blood* auras

As these latter are an indirect reflection of the fabric starting to crystallize.

We can break up crystals, but it takes a lot of energy once it is settled in the tissue. T2 has broken crystals for so many people. The crystals are like tendons and will pull the mold out of shape.

For Breaking Crystals: disintegrate them first, then with prevention efforts, keep the fabric and air auric components clear and then work on the crystals on the body parts.

We feel the poison more when we are around T2. Everyone has a level of endurance and with spiritual exhaustion one can't move. With a lot of propensities one can reconstruct the fabric and mold, and if these are brittle, they will shatter like a canister. It is as if one keeps adding fluid to a bladder; it will burst from the pressure. When the mold ruptures, the monad ruptures and it takes so much energy to reconstruct them. We need to stabilize everyone.

Cruel Humor: this is the seat of no pity. One can grab hold and remove Dark Forces because by saying bad things, one will reel them in. We may stay in a sanctuary to align with holiness and then climb into hell to get the demons. We first find their phone number and name. Everything is done with a reason.

Controlled Folly; the Spirit responds to humorous gestures. There is a difference to mean gestures, venting imperil, and controlled folly. T2 will vent imperil at a zombie clerk at Hardy's when feeling possessed. One example was when the ensoulment debris was so high. If you are unattached to something, you may know then if it (the imperil) is yours, but you won't know if you are angry because then you are attached. Some people try to make sense of imperil by psychoanalysis, but the force of it twists the fabric.

Rage: is acquired thru 1) Spiritual holy work, 2) Vicinity hooks in, 3) Personal crystallized mold.

When T2's mold imperil is released, T2 may use a bad fast food clerk, because she can put it into an evil zombie.

Use: The PUT IT CHART as one can put a variety of imperil into archetypes. Use famous people, as they are unfazed by it.

Check: The Fabric on the Iridology chart and do To Do's. This is why the physical eyes show Fabric contamination.

They will look murky, yellow, cloudy, and the iridology chart shows how it manifests in different auras.

Ask: "How many dirty towels are in the house and towel problems?" These are related to the Fabric aura.

Example: One student could keep her Fabric held tighter if she had less body hair. The Fabric aura should be able to stay up and if a woman has pubic, underarm, or leg hair, the hairs act as antennae to zombies as it sends out animalistic sexual signals. A female can more easily give up the old self with her body hair shaved. For females it acts as an antenna and it is a way of holding onto the old self.

Pee has streams of light in a person of high virtue. Check if you can see sparks of light.

If we keep our humor then we can get over anything. Avoid thinking when the demons are around you, do everything but think. If you can't laugh, then retreat with a movie, for example, to shift.

To be able to use power is the manipulation of power. Manipulation of power is not bad if it is not manipulation for evil ends. The use of power is one's birth right, and should be used for good.

Aside: To take another person's child and love him completely, is the most healing experience in the world.

Pulling to the Throat and Blasting: If one is pulling contamination to the corpse belly to blast (instead of the Navel/Eye of God), then one is *seeing* with a zombie status. When the apertures are pulled up, then we are *seeing* with the Fabric. We need to *see* with the ghostly navel above. **Before**, the Fabric was on the physical body, but **now** the Fabric is up and you see with the "ghost" above the head, and not the corpse.

Blasting with the corpse prana: realize though, the greatest power is the utilization of all the chakras above.

Doing prana blasting is not sounding the Name of God with the corpse. Remember, true power is the Name of God.

Before, it was appropriate to teach with the Fabric superimposed over the corpse, **now**, pull the Fabric up and sound the Name of God from there

T2 had prayed to find out why we were not clear or why we were confusing prana to the higher powers and overusing the corpse throat. All apertures are equally powerful. If the Lehys becomes the air prana and you blow out with prana blasting in the throat, it makes one weak and sick. Keep the consciousness up, to find the fabric dissonance point on the body (or where it should be that day) as it is the Light of the House.

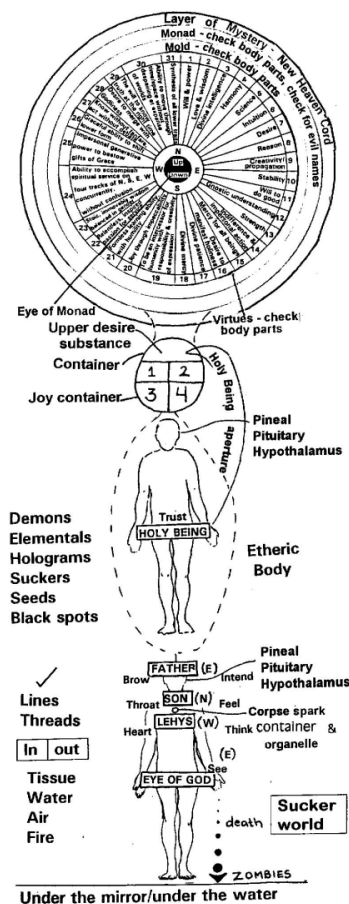

Check your apertures up there, or you will be checking your prana, only. Make a drawing of the corpse formed with solid lines and a ghostly form above with the apertures drawn on both the prana and the Higher powers.

Ask "Where are we seeing from, corpse or higher apertures?"

CORRECT ALIGNMENT OF APERTURES

LEVELS OF SPIRITUAL POWER

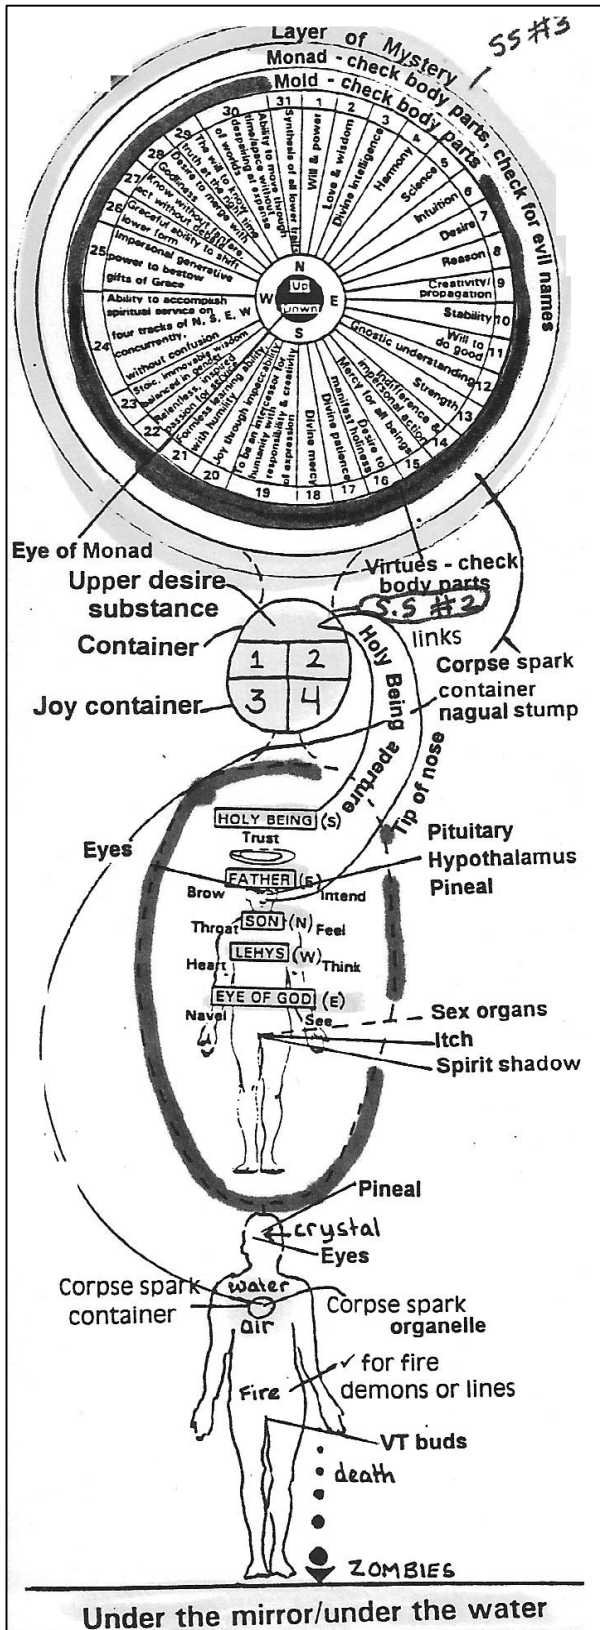

THE SEVEN APERTURE POWERS	These can only be used by a person who has all of the lower characteristics and who has submitted his will to the Logos, is dedicated to spiritual service, and loves truth
THE ABILITY TO PRAY FOR INTERCESSION	This is possible for a person of advancing spiritual alignment who prays correctly with: Submission Supplication Receptivity
VIRTUE BLASTING WAVEFORMS "PUT IT'S PRANA CLEARING"	These can be used by a person of intermediate spiritual development and physical/mental balance
WAVEFORMS "PUT IT'S PRANA CLEARING"	These can be used by a person of mental and physical balance
AIR, FIRE and WATER PRANA	These can be used for clearing by most people

Chart: Combination Aperture Dowsing Chart with Powers Chart

Be sure you are using all of the apertures for clearing, or you will rupture if you use only one. The clearing process ends up in the higher throat. First break down and puree the contamination, then bring it to an air state and throw it out. Often the end process, it will be thrown out of the mouth, but to chew up demons it may be better to pull to the pelvis and blast in the upper body.

Get used to using the higher aperture powers when it is appropriate and know when to use the lower (pranas). The higher is the link with God powers. *Learn to switch powers.* Each aperture is a switch like two multi-breaker boxes, low or high.

Chart: Large Aperture Chart

Virtues are above the prana and the Higher Apertures:

Get used to using different layers at the right time, potency and order.

Waveforms prepare a person to use the higher forces.

The Name of God should be the last used.

First breakdown something with the waveforms and then Name of God, or one will injure the centers, or may leak in the air aura, fabric, mold, etc.

Sometimes there is nothing to do but ask for help from the Holy Powers. T2 was (recently) being overwhelmed by the complexity of disorder. She prayed earnestly. We never get to a point where complete humble prayer is not done. She prayed not because she was uncomfortable, but as a yin receiver of knowledge for the war party and above all, to do her duty and fulfill her task. She had done her best and was lacking. She then prayed for the holy beings to intercede to do the work. **When you pray**, do this with all sincerity and not to wipe butts, but to *know* what to do.

If we know what the problem is, then we will find a way out.

Pray: "Dear Lord if I fail somehow by frailty, I ask for mercy and ask for Divine Intercession to see that I recapitulate (all) frailties and supremely pray for mercy for the party." And this may be the answer we are seeking.

She knew we were intermixing the pranas and the higher apertures and she didn't know which was which. **Pray** "That we be lead into gaining enough power to clear the ones not here, both in Arkansas and the others."

If a person crystallizes concepts, it is a crystal in the brow.

Traits have a lot to do with the 'man on top' of the corpse, so use the traits with him.

Air, Fire and Water has to do with the lower corpse and there is a place for the use of different layers of clearing.

**True power rests in knowing
Which sphere to use at the right time.**

CLASS NOTES: MAY 5, 1994 Saltillo to San Luis de la Paz

Severe Spiritual Disorder will show in the lymph and intestines: the legs, breasts and arms will swell up with the lymph channels. Pelvic lymphatic congestion causes bladder incontinence and the walls will congest with lymph and with a lot of fluid around the bladder, if the body shifts. With contamination we don't pee enough and the lymph fills up in the legs and lower parts. Epsom salts help pull the fluid out of the lymph. First see what is congesting the lymph.

Add this short list to your chart: *"Severed...Leaking...Blocked...Foreign In/Self Out...Vampires...Missing".*

Add this next to the Virtues: *"Inverse/Retro/Boundary Torn".*

Example: One student is leaking monadic fluid from the crystal layer. He had fire prana on another person (due to anger). Pull back and use the To Dos.

Change Phone Number: This refers to the Night Shell and a change of area code on the 3rd Virtue. We are either harmonious or we are sealed off.

How to Dowse: Ask first *"What disorder are we sensing?"*

For example here is a Holy Being layer/student/archetype problem.

"Is it a real person, self/foreign or missing boundary problem?" **Do:** Gaze/Grab and To Dos.

Use the time frames. If something is past it may be something returning.

Check: *Past...Present...Future...Shielded...Hidden.*

Hours...Days...Weeks...Months...Years.

Any of the stuff (substance) above the corpse can leak down and out of the corpse like gravity.

For example: A sex substance leak from a *grab* out/in on the corpse lung level.

Or you might have a virtue leak from a corpse/fire level, out from the corpse feet.

Also they can flow in the reverse direction,

Say if Eye of God threads are out and then something on the Lehys level is destroyed.

We have all made webs, they are everywhere, just be aware of them.

Ask *"For the biggest open windows going through the students."*

For example one student had an open window below the feet from *gaze/grabs* out.

Reel in the (filaments?) on the virtue aura which is due to a drip down of the virtue substance

Causing webbing out underground and pull them in, or the disorder will continue. These did not happen overnight.

Ask *"How many Virtue or Monad Aura Filaments from our own Virtue aura are coming out of the feet?"*

Reel and To Dos.

Monad Leak: Find the origin of some disorder that is building up. It may start with the monad and go down and come out of the face: i.e. from the Crystal aura through the eyes. With monadic eye drips suspect crystal lines and the monadic leak can go out of any layer.

Torn Tissue Shield: The Tissue Shield is a normal auric aspect that keeps people from hooking their egoics into your auric field. T2 wondered why she would bloat up with vicinity problems. She has 50 tears in the tissue aura that have invaded and it takes a while to remove them; **Do** Waveforms. (A sense of) bladder fullness or bladder/kidney congestion (is a symptom of tissue aura tears/links).

Shield Bits: Zombies can have a piece of torn tissue shield (of yours) with which they can continue to access you.

Do: Name of God and destroy them, like Warts on a String. *You can have these on all apertures.*

Cry is between the Virtue and the Holy Being rings.

The blood aura and sex substance are virtually the same as genetic imprints and spiritual forces.

The Joy membrane and Cry substance dowses as "blood".

Combusting Crystals: Last night T2 had stuff popping from her skin and itching. They were little crystals.

These are lymph crystals in the upper (Etheric) form.

Nagual Bubbles: Check lines of force to find them.

Spine Demons: are also nagual fantasy bubbles.

Dirty towels: may cause belly aches.

Know Links allows the Tissue aura to rot off.

If one thinks of the Eye of God as a (lower) auric layer, a filament could come out of the auric cocoon:

Eye Fragments: are sometimes a component of *Know Links*. These could be parts of aura or prana out, and they can hook into someone. If we send either demons or healing, it could cause us a shock if we are out to zombies because it will throw you into a shock wobble and then you will have torn tissue shields Air/Fire/Water.

Ask “For this day, which Assemblage Point do I need to be in; *Patient...Cunning...Ruthless...Sweet?*” (and)

Ask “*How many demons are on each Assemblage Point?*”

In severe cases one may have to put an Assemblage Point into a Night Shell.

For example you might want to put *Ruthless* into a Night Shell, so you won't be so mean.

To push someone's else's assemblage point, do it from your upper Aperture position.

You can stimulate an Apathy point to not be wound up (sic).

Crystals Biting: Check to see if they are going in or coming out.

People have been confusing the **Itch Gland** with the **Cry** because the Itch is (now) above the head with the upper apertures. T2 doesn't see a lower Itch Gland, however the **Vestigial Tail** is in the corpse and the Itch is part of the Fabric. This is why T3 has to translate, as T2 is not able to interpret on the tissue level.

“**Intending**” is controlled by the eyes.

Explanation: after T2 gave crayons to a boy in the train station:

Triggered Awareness is never a mistake; we may watch over those that cross our path. A lot of people are like that (young boy) and they need people of power to look over those who are suffering and who don't know how to clear themselves. (She cleared the boy). To be impeccable is so demanding. We have to be impeccable to help a kid like that. The spirit responds to gestures and when seeing a soul in a little boy, it is a gesture. This one is hungry for his soul. He was hungry for help. It is hard to not get wounded when we intersect beings such as he, who are ensouled.

Adults intersect and don't know the significance. Another person may have changed your life, if only for five minutes, and altered the twig that was bent ever so slightly. Sometimes the most insignificant (interaction) can change the course (of a person's life) of all future. It was a meeting we were supposed to have and we had it. He doesn't know it consciously, but he feels it. He'll be turned over to the Mexican hierarchy of (Holy Beings) the Mexican guardian of the faith. He could grow up to be a singer or poet or a priest.

Individual souls are not the same. Type I would have at least 29 virtues and have a nagual saint soul, which is unusual.

Type II saint would have to have the first 12 Virtues to hold. Without the first 12 virtues, the soul starts to leak. If one goes Retro then one will leak from the monad.

Everyone was granted what they could endure and better. If a soul is blown out, they are given a lower type to hold onto. For example, Mag's soul: if you counted the virtues, they would be 9. For Raf it is 7. The Ensoulers for the lower types have nothing to do with our party but they disperse souls from another planet that is evolved up (from this Earth), but still lower than the New Earth. These soul types can still work up to saint in consciousness and when they leave the body, they can transfer to another type. (*See Soul Types Chart next page*).

Once a person is born, it is unusual to be given a higher soul. This is why the first 12 virtues are so important. Once one is under 5 virtues, one is animalistic and there are **25 different gradients of souls** depending on the octave of the virtue acquired. One could have 10-12 virtues on a base level, or on the 2nd or 3rd octaves higher.

The octaves are graded ABC: C as the highest octave and that is where the division of souls come in. 12 Virtue types have ABC octaves as well. If a person has a 12A soul, they can be shoved to B after their physical corpse death and be able to retain consciousness. This is pretty important. For this little Mexican kid: (If we use the scale of) #1-25 of soul types---#25 being the lowest---T3 and T2 are #1 and (the students) are #2(ABC); the kid was a 7C. This method is used instead of counting the number of virtues; we count the steps of relative evolution. One ex-student could be as low as #18.

Therefore these teachings are not valuable to those people, as they are not comprehensible to a person lower than #5 and they will not understand the parables and the nuance. *For example, the manner in which we are drawing in demons, they would think cruel. This teaching takes a lot of perception.*

When we start to slip on the virtues, then we come down hard, as they (become) harder to maintain.

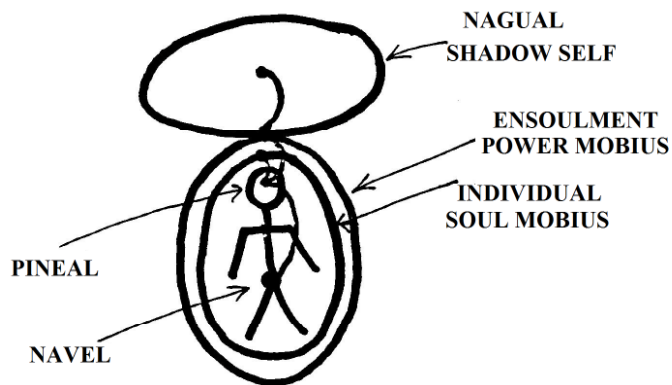

The fewer the virtues and octaves, the more resilient one is to disharmony.

Disharmony is perceived more greatly in the spiritually refined.

The more powerful a person is, the more fragile.

All great action must be preceded by great vision. We suffer more (because) we perceive more with greater suffering. With more perception, more (is required?) Suffering becomes indifference (to pain?) and joy outweighs (the suffering). With suffering one can rejoice (over the level of our) perceptions as it is the level of our potential to do great things. Mag could not rejoice in suffering but wanted comfort vs. succeeding as a saint. If one is wanting comfort and personal lower power, one will surely rupture.

Chart: 12 Ways that Power/Joy Leaves

12 WAYS THAT POWER/JOY LEAVES (Sucker World Roots)

- (1) Inappropriate frequency
- (2) Thoughts that "Haters of Law are really ok or good".
- (3) Thoughts that "Women are superior".
- (4) Belief you need to be punished or are unworthy to spiritually advance.
- (5) Belief "God is unfair".
- (6) Belief that "Women are castrating bitches and men are superior spiritually".
- (7) Belief that "All joy is behind me now".
- (8) "Beauty is God" False Idea: "Beauty is God" is love of form/art over substance.
- (9) Hate for one's fate. Resistance/hate for the plan of God.
- (10) Wanting to drown sorrow; wanting to kill awareness; wanting to not see.
- (11/12) *Missing*

With three soul octaves, the ABC: It has to do with the Son, Holy Spirit, and Father and "No man comes to the Father unless through the Son". First we enter with Divine Love (Son) which is generous, patient, sweet and quite ruthless, with love for all of humanity as every person is a (-). With that position is power enough to embrace the wisdom of the Holy Spirit and the power of the Father.

There are three octaves of saint and for the lower types

Example: #7A a person might be a pretty good guy and learn to run a day care center. A 7B type would be into traditional education, where the lower virtues are more material in the Father Son and Holy Spirit aspects. With more refinement, (a person's actions) become more paradoxical.

The Trinity: for a person embracing the three octaves of saint status, it involves a giving up of preconceived notions of love, intelligence and strong will. It is submission to the realization that you need Divine intercession: is an act of Will. One may have pride in one's self by being "strong", but strong is to know when one is weak. Prayer is of great importance to reaching these steps.

People with souls worry about people who don't suffer much around disorder (of a degree that) a lower type accepts and goes on with (sic). With less than three virtues one will not have a soul as three is core to having a soul of any kind. It is rudimentary.

Look at people to see if they are ensouled and it is not done through thinking of the number of virtues they have, but of the 25 steps down to the bottom, which would be a complete phantom. See the shine in their eyes or the lack thereof and notice the presence of pain in the soul. Sometimes without (showing) pain, a person will have a soul, and they will have a shine in the eyes; they will have learned to adjust.

A good thing to practice is to watch for the steps and octaves in the souls of people. For example the two men in Monterrey who took us to lunch; one was a 10 or 11B level which is not bad and the other was a 13A. And it is always a cheerful thing to see people with souls, who are nice, decent, moral church going people. If in any way we are able to encourage the lower to move on (----). The kid will be designated with the other groups.

We will be guardians of the saint souls. Numbers 2-4 are saint souls, and saint souls can't survive without a proper atmosphere, or survive in a low atmosphere. We may run into some in the rural areas. We will see the dynamics of the spiritual aura. God's will be done as people are drawn to power. For instance, the kid's soul could be repaired. We have to realize we are different. We can't teach the 8 or 9's this stuff, but we can heal and help them be decent people with metaphors and stories.

Our first job is to search out saints, our second job is to bless, heal and exorcise. Realize that the people around you will be inclined to be brittle. We put soul pressure on anyone around us and we will always be oddballs and we cannot be comfortable again. (Other people around you) may start splitting with the soul pressure and react with fear, hate or neediness. So be cautious.

The proportion of ensouled is constantly in flux. T3 might be able to see them better than T2. Those below a certain number, T2 can't see. T3 saw a sheath/protector around the child and the soul was distant. The boy had a guardian around him and he had a type of spirit shadow. For the soul octaves from #1-25, some have spirit shadows, some don't.

A lot of Indian types have spirit shadows. For the child, it had broken off, but it was repairable. He looked muddy but it was an omen to start noticing stair-step souls and evaluate how to act.

A person who is too low to help, we might as well never see them again. For a while we will watch over them (the ex-students). They will still have great advantages and blessings over the others of their status. They didn't leave the teaching too poor; they left better than they would have (without the teaching).

Tissue Shields/Holes out: these are caused by elementals out.

Fabric Tears refer to the upper body/fabric.

Tissue Tears refer to the lower crystallized tissue aura.

Tissue implants: i.e. from Mag. to Ni, see how many are out from each person *Air/Fire/Water/Sex/Blood*. The biggest problem is not exactly due to demons, but bits of our aura out. This will happen over and over again until we get rid of them. These are NOT catalysts. "Mag links to us" were because we were *in* her. We were in Mag and she was in Ni.

Tissue Implant Shadows on Corpse

Law Block Shadows on Your Body

Everyone in the party was given a power, such as the Cell Re-arrangers, for a purpose. We were given a perfect mold alignment so we could direct power to help people around us to align with Law by impressing on them like a cookie cutter through our presence. This is why some members would make other people angry because one person with a strong will could impress with a ferocity, a mold of Law and the Holy Beings that follows a line of Will.

Since last July (1993) for all members of the party; if someone is aligned with another person who is not aligned with law, and it is against one's own mold, then the Cell Rearranger is to follow the orders of the owner. The purpose for this was when one tuned in or looked, then if one saw (---), the Law of Polarity would need impressing. What if a person's resonations were saying "There is no evil in the world": then that is impressed into what they look upon.

Fable Reference: Pandora's Box

(Throughout history there have been) fables around the use of power like Pandora's Box and a concept was "If I only had enough power to buy holiness"; then in increments we will have power (sic). What we don't do in the lower realms we won't do in the higher. Most of the students did pretty well. Maybe they did 10 well and one bad (sic).

What we are seeing now, and it is why T2 is (currently) dead, is that the most insidious (thoughts/concepts) were with the Cell Rearrangers in the last year. And it involved looking at ourselves in the past and wishing we "were like that again" and "In the eyes of the world I was doing well!" But with the mold we were less aligned. Then it is like saying "I wish I were not aligned with Law" (if we long for our old selves). If ten years ago our mold looked like a Pablo Picasso shape, and during the last year if we wished we were that again, then the Cell Rearranger granted the wish like a genie in a bottle. Three wishes.

Virtually everyone did this to some extent, some more than others. Some did this with sexual obsessions. Some people were given trial runs, for example Jma and Sma---she had a "I need to please my man" wish. For Fl and Ji, they sought revenge. If the wishes were about carnality, and if used in that way, they went bad quickly. Others were more insidious.

We were in extraordinary circumstances and we can't judge ourselves or others badly. It was a grand experiment with humanity. It was first, could we pull ourselves out of split time? And then, could we be saints overnight? Could we use the Cell Rearrangers without evil, like a genie-in-a-bottle? A lot of us (struggled) with past associations with people or with religious and beatific ideas about how to help humanity.

(To be a saint) is day to day endurance, with forbearance, perseverance along a path that causes one to be impeccable to endure power. Some powers were heady and dangerous with sexual rushes with the nagual that were unusual. It was very disturbing. The holy beings had to adjust. They couldn't let us kill ourselves. Every step of the way (we have had) Divine sources. How much power can we safely use? Power is given/is misused/is retracted/is given back.

The group has done very well with ensoulment. Logically we would have had a few mistakes along the way. Strange to say, this is the way it is; T2 speaks directly to you and not to beat around the bush. She speaks plainly and if she did not, then you should worry.

What they are working on now, while she is dead, are the connections to old self from the using of the Cell Rearrangers unconsciously. We need help to clean this up and help others. This is the reason to be here, to generate enough power to help others. These show up as **Shadows on Form** on other years and months. For example you may dowse you have July 1993 on your bladder. That might mean a filament to your old self empowered by a Holy Being Cell Rearranger filament to self. **To do:** Get them loosened up. Tonight pray to be delivered of them. Say prayers soon, do the initial round of dowsing and as we sleep T3 and T2 will round these up and take them to the Eagle. People will feel stronger, as what we are hearing now is partly these thoughts, emotions, and longing for the past and we will notice that these will go away with this clearing. Mexico has loosened everything up. It has shaken up assemblage points. If the students get it going with the clearing, T3 and T2 can take the ball and run with it.

CLASS NOTES: MAY 6, 1994 San Luis de la Paz

Any clinging to the past: now T2 is able to go into a "split screen" type of coma to not feel as much. Thoughts were popping out, like from Forr. T3 couldn't do this work as his own thoughts were coming up to be cleared. However, he could round the others up and bring them to T2, but he was not able to take on his own. This contamination (from others) included a personal hatred for T2; a hatred for her appearance with petty thoughts that were defiling, gross and physical. She had to disassociate from it, it was coming through the skin and she felt it all.

Bardo Hells are in a location between the old and new molds and old desires. These Bardo Hells were one of the most uncomfortable things to endure, yet it was lucky T1 had had surgery without anesthesia in the past (since it was a type of preparation for the pain).

Bad feet and thick nails on the feet is a sign of Ahriman, where God leaves the feet. With trouble in the Etheric body/Fabric feet, trouble will show in the lower feet.

Put on the Chart "Holy Being Problems" are "*Nagual Returning*" or "*Crazed Holy Beings*". These were granted after ensoulment and they have hooked in. We won't know how many will still be around. The real demonic types (of people) have long bangs in front of their eyes.

Tissue shields Torn: are pranic demons.

Air Demon Open Windows

St. Patrick enticed the snakes and drove them out, just like Jesus drove the demons into pigs and into the sea. We hook them in and then get rid of them (in a similar way). If someone removes demons and yet does not straighten out their life, then their children will go bad. When parents go on in the old ways, then the children are echoes of the parents.

Three types of weaknesses: *Weak Knead Secretary, The Domineering Type, and The Whiner.*

(As opposed to the Assistant, Fart and Dreamer spiritual types.)

This is why T2 ridicules and nit-picks at our flaws, so as to get rid of our attachments. If we have no lower self-importance then it will not matter, we can laugh at ourselves.

The job of a warrior: it was not Mag's job to dowse, but to get a *tonal* which had to be in the physical, realm combined with emotional independence. T3 and T2 have mastered the lower tonal from the personality sense and are extremely independent and they are together for power. It is their job. If they had lower self-importance, this job would bother them due to (the loss of) society recognition, wealth and (normal social) duties. This work is so interior and spiritual it is completely ridiculous to common society. A person is to be inner directed and not with others (other than) to do a job. It was hard for (the old T3) to give up his position as an artist, which he didn't pursue for high pay. (His career was pursued) for the creation of beauty, travel, expression and appreciation in the external realm. He has truly recapitulated. He could (work in his former career) again without attachment. For example T2 could wash butts during night shifts if it were God's will. It would be good for Js to work in the nursing home so as to learn how to love and nurture. We need to refine our lower lessons to be impeccable on the higher.

Fantasy Bubbles and Threads are coming off of *Cunning/Patience/Sweet/Ruthless*. **Check** the pets as well. We have a responsibility to track down every Nagual demon. We may have to go through four or five people (those who were naguals or not) to remove.

Why do people go Inverse Retro? What causes this is emotional indulgence and irritation triggered (---).

The age of 12 or 13 is the age of total accountability and by puberty they need to be internally motivated and give themselves strokes to appreciate what they do and not need others to appreciate them. By 7 or 8 they should think "Well, I've drawn a good picture" and not need another person to say "This is a good picture". They need to give themselves a pat on the back.

A negative statement proposing the opposite: (When one makes a negative statement like "I don't this... or can't that...): the opposite is not said, but it is in the air. With statements that are out of context and inappropriate and statements made with intensity -- suspect the opposite. For instance, with Fl saying "The teachings were so great!"... if you know something is true, you don't have to say it, or if something is already manifest, you don't have to say it in words, unless you are trying to teach something. Some people in the past, with great (inappropriate) *intensity* asked "Tell me what is wrong!" But they didn't want to know.

High consciousness is the ability to tolerate truth without hysteria. You accept things with grace and hold up your heads and not be ashamed. It is bothering to T2 to see someone overly 'devotional'. For example Jma thought he could manipulate (something/someone) (by doing so).

Such behavior (is not appropriate). If any person can be bought in any way, through adulation or money (it is a bad sign). It is good to respect the teachers, and if one has no respect, then that is a bad sign. Acknowledgement in how one receives benefits of the teaching is reasonable and appropriate. The prerequisite is to understand one's need to know and also respect of the teachers.

A sign of great spiritual disorder is the disrespect of the teachers. Courteous things (actions) are appropriate, to have a little bit of physical comfort is not an indulgence, and (these actions) are deeply appreciated and are a sign of spiritual development. It is not that the teachers are to be waited on, but that the spiritual work that is done hits them strongly and is nearly disabling at times. It takes utmost sobriety.

Take a shot of tequila (sometimes) and endure the pain and know what to do and just do it. There is no point in going beyond one's pain tolerance. It is appropriate for courtesies towards the teachers, as it is their job to take the worst onslaught as the head of the party.

Ensoulment is reverberating on us so greatly and this is the worst. We are sucking in a lot of disorder from the ex-students, etc. We still suffer, but we are still decent and courteous, we endure, and don't whine much. We just keep going and we are becoming more impeccable all the time.

Things are breaking loose faster here in Mexico. It is like meat is rotting faster in the south vs. the north. The nagual crap is returning in droves and we can remove it faster with enough of a party to do it. We will enjoy the trip and the fact that we have done well and have been impeccable brings joy. For example this morning was joyful.

After a battle, if you are impeccable, you have won. That is how to judge a battle. One may have to wail and scream; being impeccable is proportional to what one is facing and if you do your best impeccably...it is not to be someone else, but what *you* can be in circumstances. Be virtuous and stern of spine with absolutely no whining. This (can) come from childhood. **Anti-Lehys Lymphatic Exudate** is being pulled into T2. She is transferring her consciousness to Holy Beings: seven Angels of Healing. They heal by absorbing disorder and flinging it to the Eagle. The Naguals don't do this. Waveforms help to loosen it like pus around a splinter, and cause them to drain out and be collected by T3. Once drained then they are transferred to the angels.

This disorder (collects) predominately in the Lymph/Water, Kidneys, Urinary Tract

And look for it in *Secretions...Blood...Sexual Substance*.

Ask: Specifically for this, not by body locations, but for *Sweat, Saliva, Lymph, Mucous, Tears*

And anything to do with liquids in the body: lymph and blood.

Do: Will to evaporate. T3's nagual will breathe it in. At least half of T2's conscious awareness has shifted to the healers.

These Lymphatic Exudates have Identities:

Check how high is your lymph toxicity to Mag and then individually through the student list.

Lymph Echoes: Check on the *Aqueous Vitae, Breath and Neuro Transmitter Fluid*.

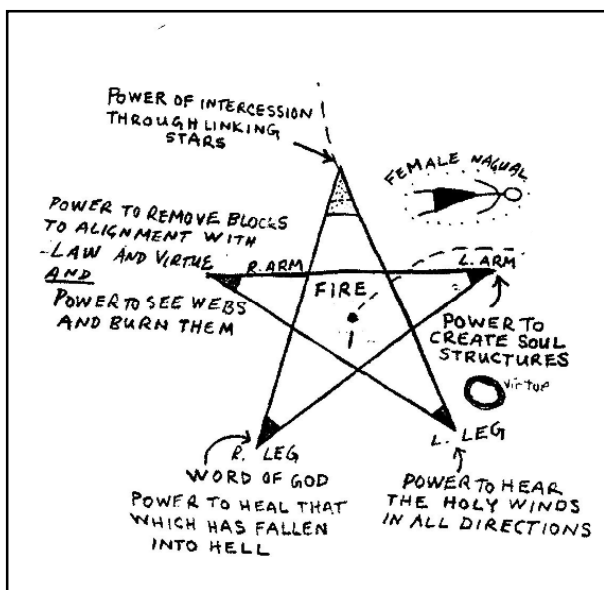

When T2 is dying she looks bad. Then when she is dead she looks ok.

Then as she accumulates poison, she looks the worst. Death in itself is heaven.

It may be expedient to change forms.

CLASS NOTES: MAY 7, 1994 San Luis de la Paz

STAR EXAMPLE↓:

The type of clearing yesterday was:

The Word of God, Gift of Grace.

It was a beam of Holy Beings from the top of a star. The human body has four limbs and a head. The Gifts of Grace came into the right leg of a 5 pointed star (the head region). When T2 said she was "taking to the Eagle" she knew it was a metaphor. It seemed painful, as the preparation (for her to do this work) was to clear out the channels. She finished up with it around 3PM last night and it kept coming in waves.

Name of God is perceived in the throat and the

Word of God is in the palate.

Gifts of Grace: five will be given and put together. These will make a type of power carried on the Holy Breath.

Demon Molds in Fabric: these come from wrong thoughts, and obsessive thinking that gets stuck on one song and won't quit playing: **Stuck Pattern.** Clear these through Virtues and Law.

Fabric Bits with Demon Mold: are fabric bits out in others.

There will be four other positions of death on this trip.

The male would drift from the Son position to the Holy Being position on the cross.

The female will go through the Ring of Time and into the five pointed star.

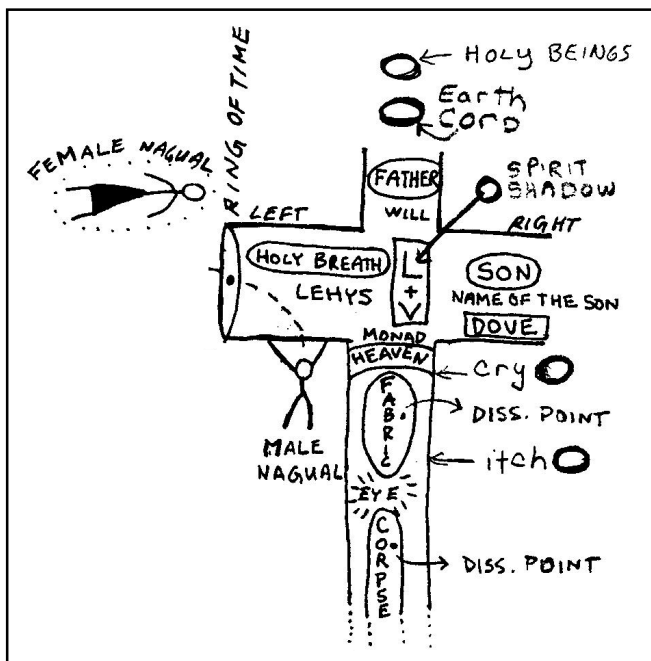

Chart: The CROSS

THE CROSS

Has the **Will of the Father** at the top,

The **Holy Beings** on the left side,

The **Name of God** and the **Dove** on the right side,

Virtue and Law are in the center,

Higher Fabric is on the upper end of the low side of the cross,

Corpse below that, and

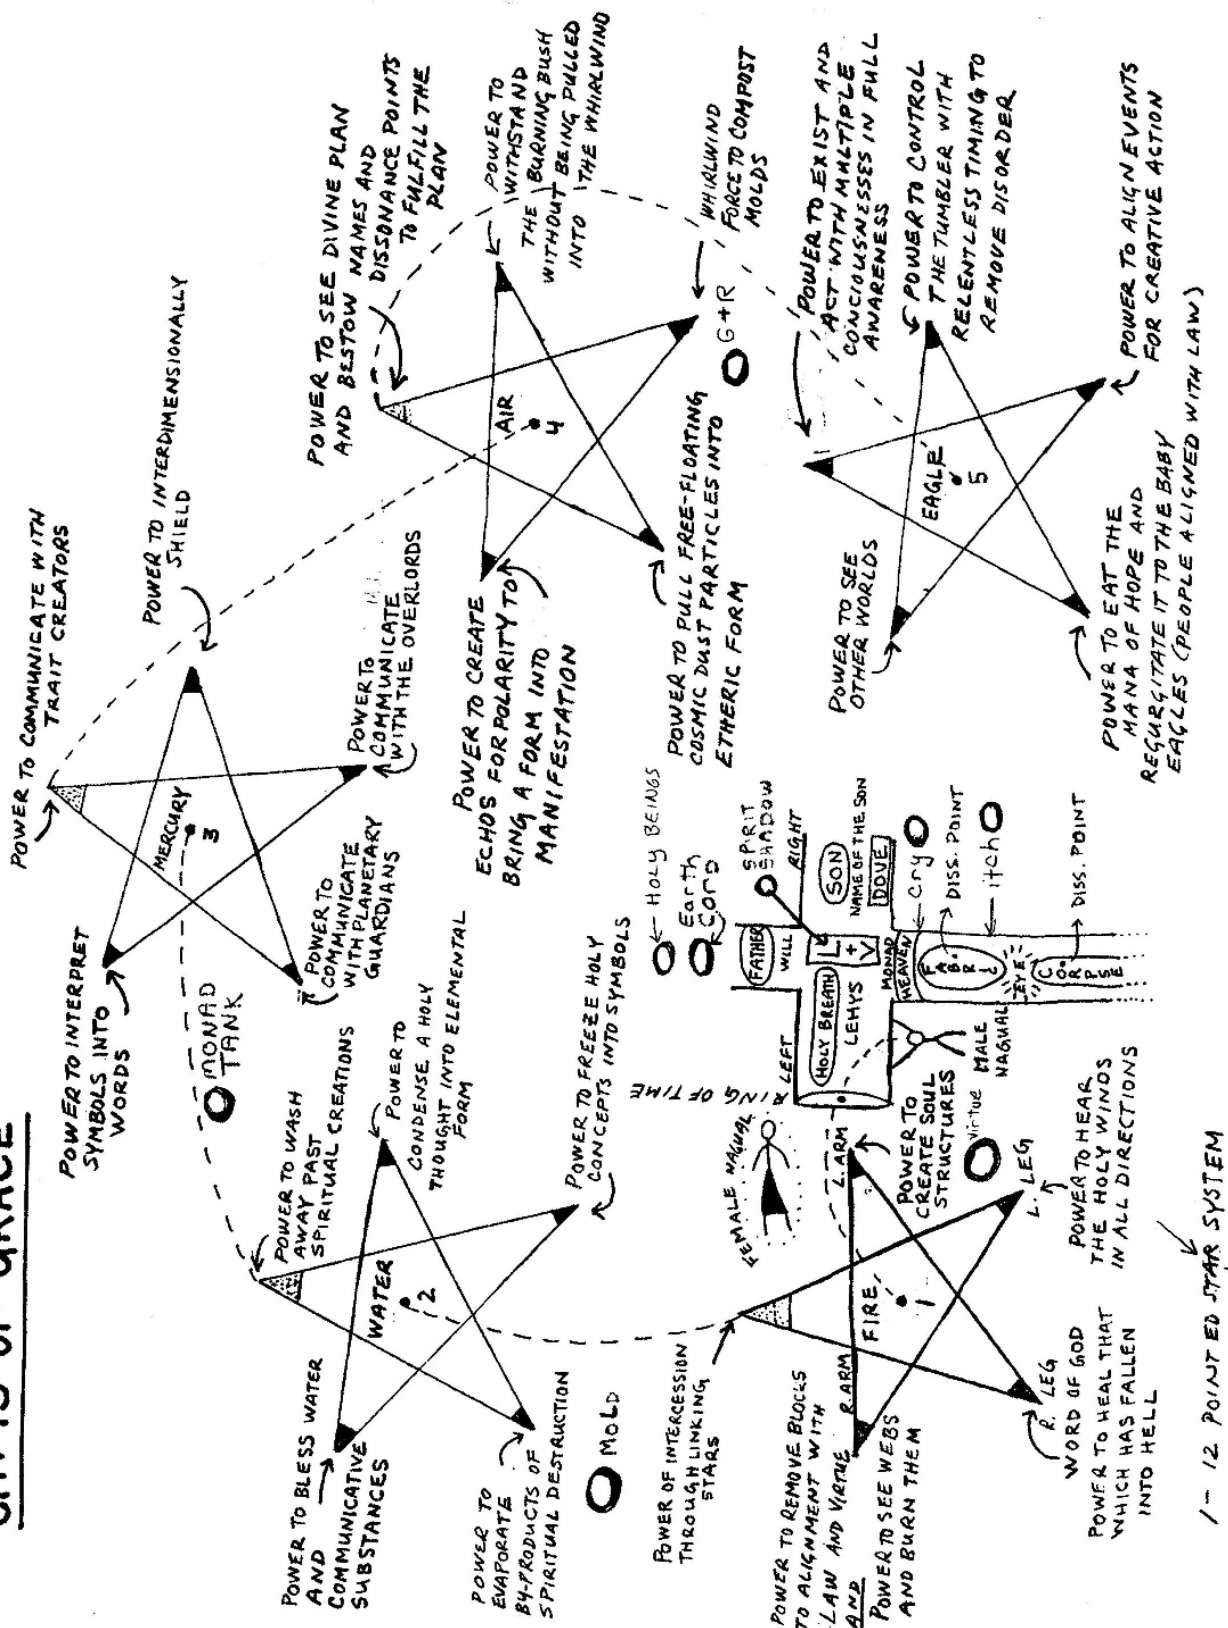

The **Eye of God** is at the bottom of the cross.

The **Ring of Time** is past the **Holy Being** arm of the cross.

When T2 was dead, before that, she was outside of the Star to see....yesterday was the first time she went into the star; she had just been gazing before. Now she is moving down the star and locking in position on the right arm of the star:

NOTE: "Right and Left Arms and Legs" are assigned from the perspective of the Star. For example the "Right Arm" will appear on the LEFT side as you look at the chart.

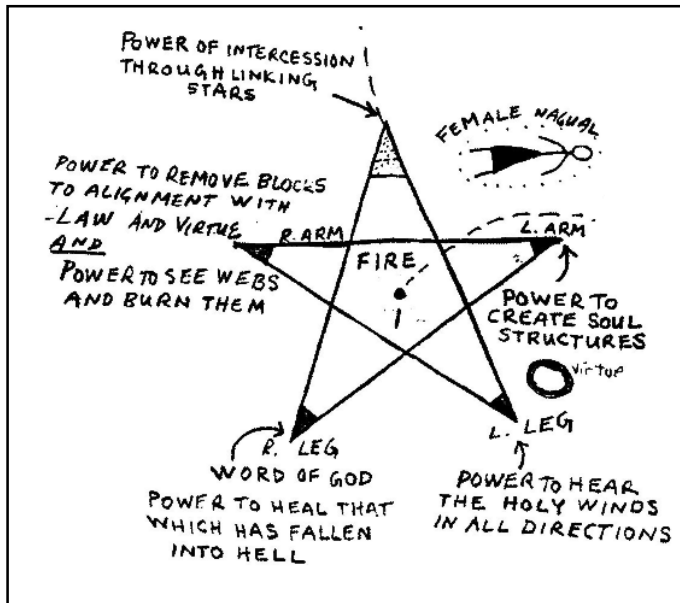

GIFTS OF GRACE

THESE ARE THE FIVE GIFTS OF GRACE: The Stars with Five Arms Each

Charts: Mapping #1 FIRE STAR

Mapping #1 FIRE STAR

Right Arm: Virtue Alignment Force or Power to Remove Blocks to Alignment with Law and Virtue and the Power to See Webs and Burn Them: This is the "Right" Arm; it is the power to impart Virtue alignment and more than Virtue. It is like the Dove Power. It is an aspect of burning the obstacles, blocks and webs. It burns.

Left Arm: Power to Create Particular Soul Structures: This is the "Left" arm; it is the power to hold consciousness.

Top: Power of Intercession through Linking Stars or The Power to Summon Power: to summon Powers of adjacent or linked Stars and to link Stars together. This is the Top Point and it is the summoning of powers through the linking of stars together.

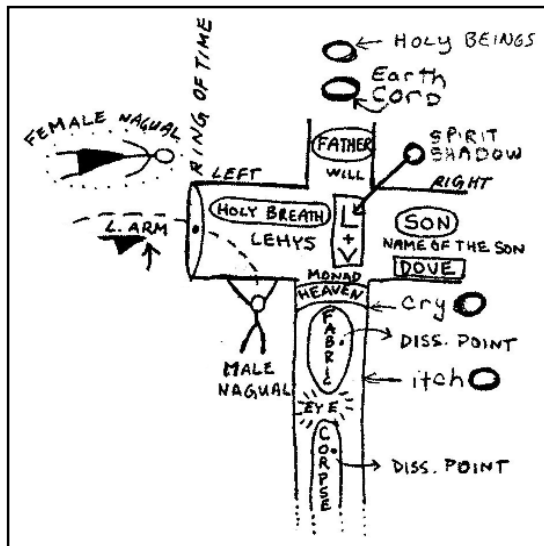

Right Leg: Word of God Power to Heal that which has fallen into Hell. (A part of a person.)

Left Leg: Power to Hear the Holy Winds in All Directions

POWERS OTHER THAN THIS ARE ON ADJACENT STARS.
AT THE TOP POINT OF ANOTHER STAR, THE CENTER TOUCHES THE POINT.

This is simplistic, but is the best we can do. It is like the molecules are linking in a formula. It is like a chemical equation in the Divine Plan; one star on top of each other.

Chart: Nagual Positions on the CROSS

Depending on the power a person gathers, one could go through the Stars. When one gets to the Stars you are past heaven as you know it (which is on our side of the Time Ring). One could say that man stands on the other side of heaven. **Heaven** is not in the arm of *Lehys*, it would be closer to, say, the bottom arm of the crucifix where it joins the Trinity. (See Chart)

The positions are:

- Lower Man (Corpse),
- Middle Man (Fabric),
- Higher Man (Virtue and Law) and then

Heaven is the junction of where the Trinity meets the Soul.

Hell would be the bottom of the crucifix and of the lower man, (due to) a rupture in the Fabric and structure of the Crucifix at the bottom of the feet.

The reason T2 told us initially that the **Gifts of Grace** were at the bottom of the crucifix, was that she was looking at it from a dead position and it seemed to be the bottom. In gazing at the *Star* from the outside, the *Star* seemed the bottom, but it was the arm, which would technically be the left side of God.

When T2 passes through the *Time Ring* her position twirls and that is why the pentagram is facing out and the crucifix is facing in. Through the Left Arm of God, T2 goes through time twirls and faces out (facing in; inside the arm). The right side is facing in and the left side is facing out: 180 degree rotation.

With the circle and the dot in the center (sic), the circle comes to the dot and the dot to the circle.

The center of the *Star* has a doorway to the Time Ring.

(End of morning session)

Afternoon: Now T2 is standing on the *Star* at all five points. She can feel herself communicating through the Holy Beings concerning one student who is a mess and trying to figure out what to do. When people are upset, it is often not the obvious cause. A person could be in terrible physical shape and still be jolly. To (allow yourself to get) hysterical, even one time, can cause damage.

If these lessons were to be taught (to the general population), people might flip out. It takes such sobriety. It is remarkable that the party has survived. One former student was artificially pulled to a saint and is now at the 25th Soul Octave level. It is remarkable however, that if a person is impeccable he or she could ask for Divine assistance. *People are settling to their level of tolerance.*

Any hysteria in the nagual party is deadly. One outburst and one will start spraying. People are better than they would be if they had not met up with this party and now they are allowed to settle at their level of comfort.

It is an arbitrary SCALE OF 1-25 (OCTAVES OF SOUL): we could make it a percentage scale of 100%,

With the highest being a saint soul with nagual powers. Mag is at 20%, but it beats nothing.

This is not an incremental scale, nor is each step the same.

Peculiar variations are in each step and one could go from 60% to 70% easily,

But to go from 85% to 87% is harder as the trials get harder.

Breaking out of the Night Shell (after a student's auras have been temporarily encased) is a problem and it is uncomfortable for us, as (the breaking out) has been done with intensity and it causes leaks through the Fabric.

T2 needs to remove webs from everyone, and with so many demon molds affecting us, she needs to die to see what it is. For example a Ji obsession about (the old T3) can get into the group due to certain weaknesses of an ensouled person not in the party. Then Ji is able to hook into the party.

Drinking Soul Force seems to be the key. One can hook into someone who doesn't have a changed phone number and if she sees or thinks of someone else as she remembers them, then she can hook into them. If we go back to our old selves, then we are vulnerable to this.

Ask: "What percentage of alignment do you have of old self phone numbers to your fabric?"

No one can tune into you if you have recapitulated on the corpse and fabric levels, etc.

All Ji has to do is think of a student and call his number...ring his chain. As long as she has the phone number, she is forming a party line. One student's corpse and fabric are 100% to old self on the law clock and she doesn't look good.

Check Auras on Quadrant Chart

If we continue to resonate in the Retro Quadrant, then poisonous webs are created through purely Retro alignment. This can't be tolerated. What can we do? God's will be done. (The teachers) have been encasing people to get over the hump, but the problem is a spiritual habit resonating with old self and retro past. After clearing some up, they will do well.

Check Absentees for Corpse aura resonations on the quadrant chart.

Do: If Retro or Inverse Retro, remove the webs and change the phone numbers.

CLASS NOTES: MAY 8, 1994 San Luis de la Paz

T2 is going to another Star. She can now be on them simultaneously and able to shift her consciousness from point to point.

Virtue measurement is completely different relative to **SOUL OCTAVES (1-25/ABC)**, as the steps between them are different sizes. *(The Soul Octave) relates to the level of mastery.* It is harder to move up once one is really refined. The difference between level 2 and level 3 is vast, but between 24 and 25 it is not so great.

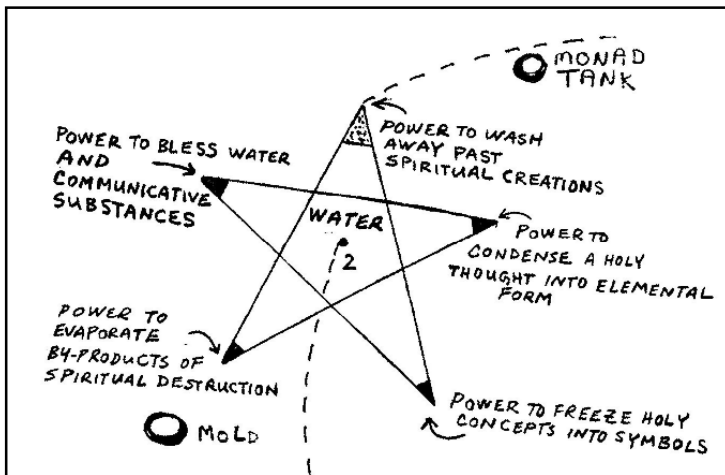

No rudimentary teaching (is needed) for those below 10 and it is a waste of time between 10 and 25 this is why she does not couch her words. T2 and T3 have the power to ensoul themselves, and no longer have to use the Ensouler. However it is God's will be done.

Example: An Octave 4 could have 9 Virtues. People fluctuate on virtue attainment and is a mean, not a clear scale. People start leaking when the virtue power is greater than their alignment with law. So the soul structure gets thicker as we go down the levels, so a person is less likely to leak. With more creative power it is easier to create webs/molds etc.

Hate Law and Hate Lehys is webbed through the group due to Ji poisoning the group by coming through a student. It is more dangerous if someone can tap into a student and use their powers to cut cords. This is a serious management problem.

Why are the naguals in bad shape? Recently there has been a problem with resonating with the old self and the Ji energy has caused attacks. Being hooked into Ji will destroy the war party's energy. The Type 2 is very, very powerful and can create demons fast.

MAPPING #2 WATER STAR
On this Star right and left don't apply anymore.

**IT IS LEFT ON THE DRAWING,
AND RIGHT ON THE ARM ITSELF---**

(I.e. the Right Arm we will call "Left Arm")
Virtue alignment forces word out (sic). **With (receiving) a message** it helps to pull (the message) into words like a liquid communication, while the Holy Breath is in the air. This position is like being between the Holy Being auric layers substance (sic).

Left Arm: Communication Substance Coordinator and Blessing or Power to Bless Water and Communicate Substances: This is the (left arm if you are facing the drawing): If you bless something, you are putting something in liquid like impressing a pattern in the water.

Right Arm: Holy Elemental Creations or Power to Condense a Holy Thought into Elemental Form: This is the (right arm as you face the drawing) and as T3 pushes a point on T2's feet, (together) they create Holy Elementals and it feels like a Guardian. Spiritual types of elementals are created here. There is an aspect of condensation, condensing something into form; thoughts into elemental form.

Top: Power to Wash Away Past Spiritual Disorder/Creations: This was called the **Nagual Healer** before, and it heals by washing. This was how it was to heal the Nagual residue. Composter of Spiritual by-products.

Left Leg: Power of Evaporation, Evaporator of Spiritual by-Products of Destruction: There is something watery about the composting. It is like steam/water, and it is the power of evaporation.

Right Leg: Power to Freeze Holy Concepts into Symbols

NOTES:

Pray to "Short Circuit Old Memories/Phone Lines to Self". For anything that you cling to with longing, pull it to your feet to make a circle. Short circuit the old memories that you are fond of, bring them back to yourself as these are evil phone lines. Anything that one is comforted by, feed it back. Foot ruptures relate to the past. With an overwhelming propensity to remember something fondly, then you link all fond memories to self, to circle it around (sic).

The faster we clear up ourselves to do synergy power; we can clean up much more rapidly. If one student goes off and does another thing, it throws off the change to kick in synergy and would then have its own momentum. To help with synergy, first clear yourself and then help others. Last night was the first synergy in the group in a long time.

Dove power is different to *Name of God* as it rides in along the same arm, but it is not synonymous. It is a higher octave.

Hate Elementals: when they start to pop, we will feel agitated. You may find yourself jerking.

Nagual Healer Force: heals the naguals and removes Nagual demons. **Composter of Spiritual By-Products (Water #2 Star)**

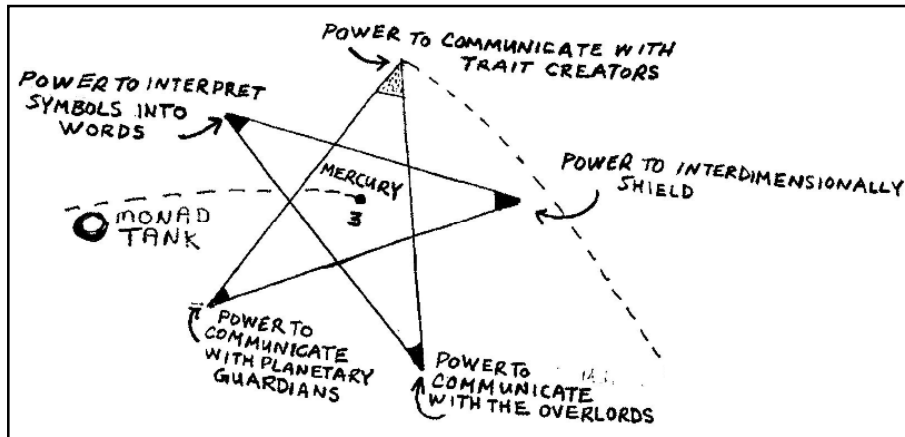

Monads are being tapped into and the substance ingested. It doesn't seem to be (tapped by a) human, but it is someone who was one time human...Fl. Part werewolf energies are drinking the substance, as she learned the phone numbers to the people of the group. T3 merging with her is like placing a phone number in a bar. The monad phone numbers are being read by Fl. She doesn't dowse as human. And Ji is being inhabited by a corpse (aura) of another student.

Monadic Vampire Lines: this is not a personal flaw, but the other person craves a particular energy or power. For example, they crave the nagual sexual rush. There was a season for a (nagual sexual) rush, but that was a season to let go of. The Nagual Healer can remove (these vampire lines. If you drop your monadic substance on people, they will then have your phone number and are then within the network.

With these new energies it is no longer necessary for Li to keep a backup nagual in case T3 went down the tubes. The T1 could stand in the door and call T2 back. It is too traumatic for a child to endure the energies and is time to remove them since these powers will do. (The child) is having to exhibit too much self-control and the energy loss is too great for T2 at this point.

Chart: MAPPING MERCURY STAR #3

MAPPING MERCURY STAR #3

Right Arm: Shield Creator/Power or Power to Enter

Interdimensional Shields:

This is out of the upper Right arm (facing the drawing) of the 3rd Star and it is an invisibility shield of a specific component: Monadic. It is not just the Monad. But it is not that people can't see it, it has to do with waveforms and the power to (---)

Right Leg: Power to Communicate with the Overlords: is the lower right leg (facing the drawing) of the third star. .

Left Arm: Symbol Interpreting for the Lower Form or Power to Interpret Symbols into Words:

Is the upper left arm (facing the drawing). Including interpreting symbols into words, is the Creator of Rainbows (traits) (at the) Planetary Guardian location. By being on the third ring, it is more stressful than being on the first star and T2 is more dead.

Left Leg: Power to Communicate with Planetary Guardians

Top: Power to Communicate with Trait Creators

NOTES: To avoid fire demons, make sure the corpse aura is in the Upper Right Hand Quadrant. On an arbitrary frequency scale of 1-100, ask: "If the fire demons are 100% what frequency should you be to clear them?"

Dissonance Point: is a layer of your holy name, it is an assemblage point. It is a sub focus for a specific purpose.

Restore Dissonance Point: if you are zero people on the corpse level,

Ask "Where should your dissonance point be" and will it to the spot.

If you are not able to hold your Dissonance Point it may be Demon Molds: so take them to the compost heap.

Check: If your frequency is too high or too low.

Demon molds are dissonance points of evil. It may be an old flaw; check.

Check: Frequency. If 50% is ideal on 1-100% arbitrary scale, where are you?

If you are too high it will throw you into the realm of fire demons.

If the corpse is too high, then check the fabric and if you can keep your frequency ok, then you will be less possessed.

Change Phone Lines: A lot of these are anti-Law. We can't hold the Dissonance Points if we throw hooks into zombies.

This will cause:

Deviation of the Apertures: look on the Law clock.

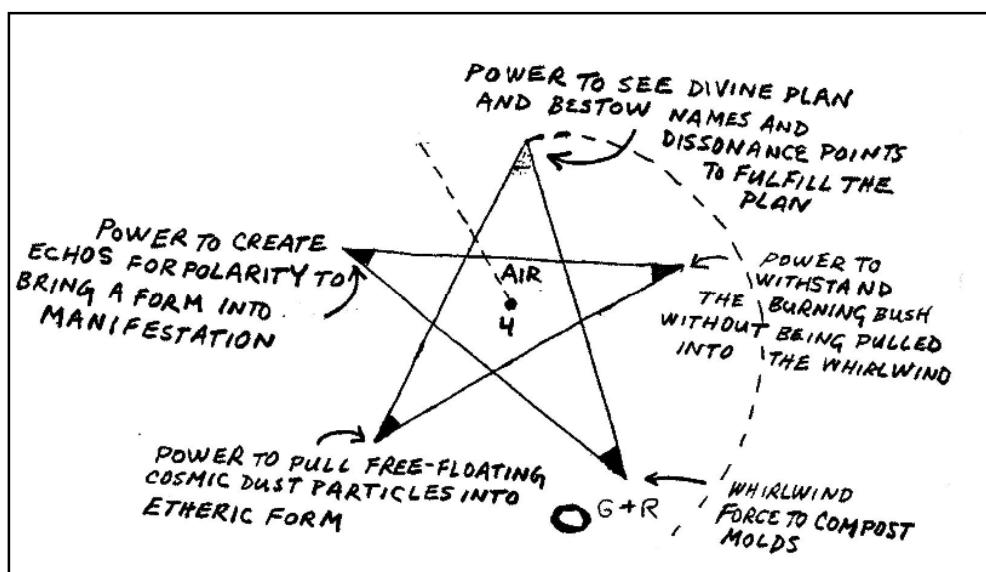

Foreign Dissonance Points: If you are a lot of people from crowds, etc., remove.

Ask: "How aware in the lower consciousness am I of having thought of zombies?" and

Ask: "How many in the last 24 hours?"

Foot reflexology: An Achilles tendon is correlated to the sex organs. Zombies get creative power through the sex organs and (going) from the lower to higher levels, can use (an ensouled person's) monadic substance. Toes relate to the cranial nerves, pineal and head.

When dowsing the Stars, we have to dows the inverse (sic).

MAPPING AIR STAR #4

Top: Seeing the Path or Power to See Divine Plan and Bestow Names and Dissonance Points to Fulfill the Plan of God is the Top of the Air Star. This is to assign a dissonance point name as each creation has its own of a certain path. To designate dissonance points/names according to the path. A person has certain points depending on the path. This is assigning and appropriating and putting a dent into ti (sic).

Left Arm: Creation of Nagual Echo Beings or

Power to Create Echoes for Polarity to bring a form into Manifestation Is the Left arm (facing the drawing).

One of these is being sent to a student to heal and stabilize him. These don't last as long as other nagual creations, but this will last for 24 hours. These are soothing elementals programmed to dissolve in a day.

Left Leg: Trust in God Ring Alchemy or

Power to Pull Free-Floating, Cosmic Dust Particles into Etheric Form Is the left leg (facing the drawing).

These work on students to stabilize them.

Right Arm: Power to Withstand the Burning Bush without Being Pulled into the Whirlwind

Is the right arm (facing). Forbearance enough to see the Truth.

Right Leg: Whirlwind Force to Compost Molds: Is the right leg (facing the chart).

This works like a tornado, an air force like a vortex funnel to pull like a spiral.

This is the obliteration of Malefic Molds. Ask "How aligned is your mold on Law and Virtue?"

This is an evil mold remover and reformer.

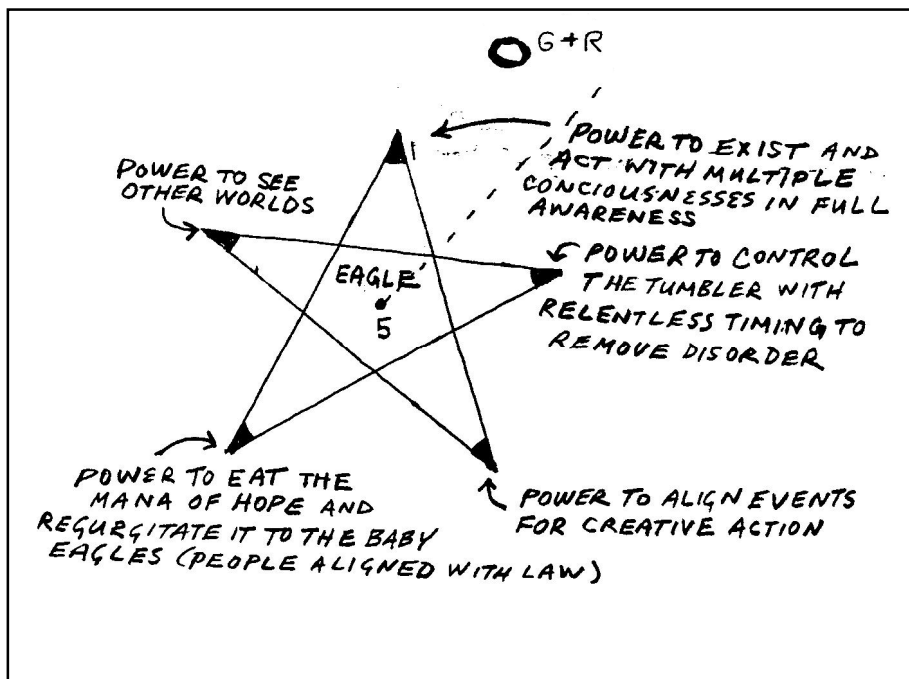

CLASS NOTES: MAY 9, 1994 Taking the Train to San Miguel de Allende

Monday: At a certain point a link (to the Stars) should be forced where (the teachers) won't have to be dead and we can suck these energies into the group somehow.

Chart: Nagual Combination Clearing Chart using the FIVE STARS

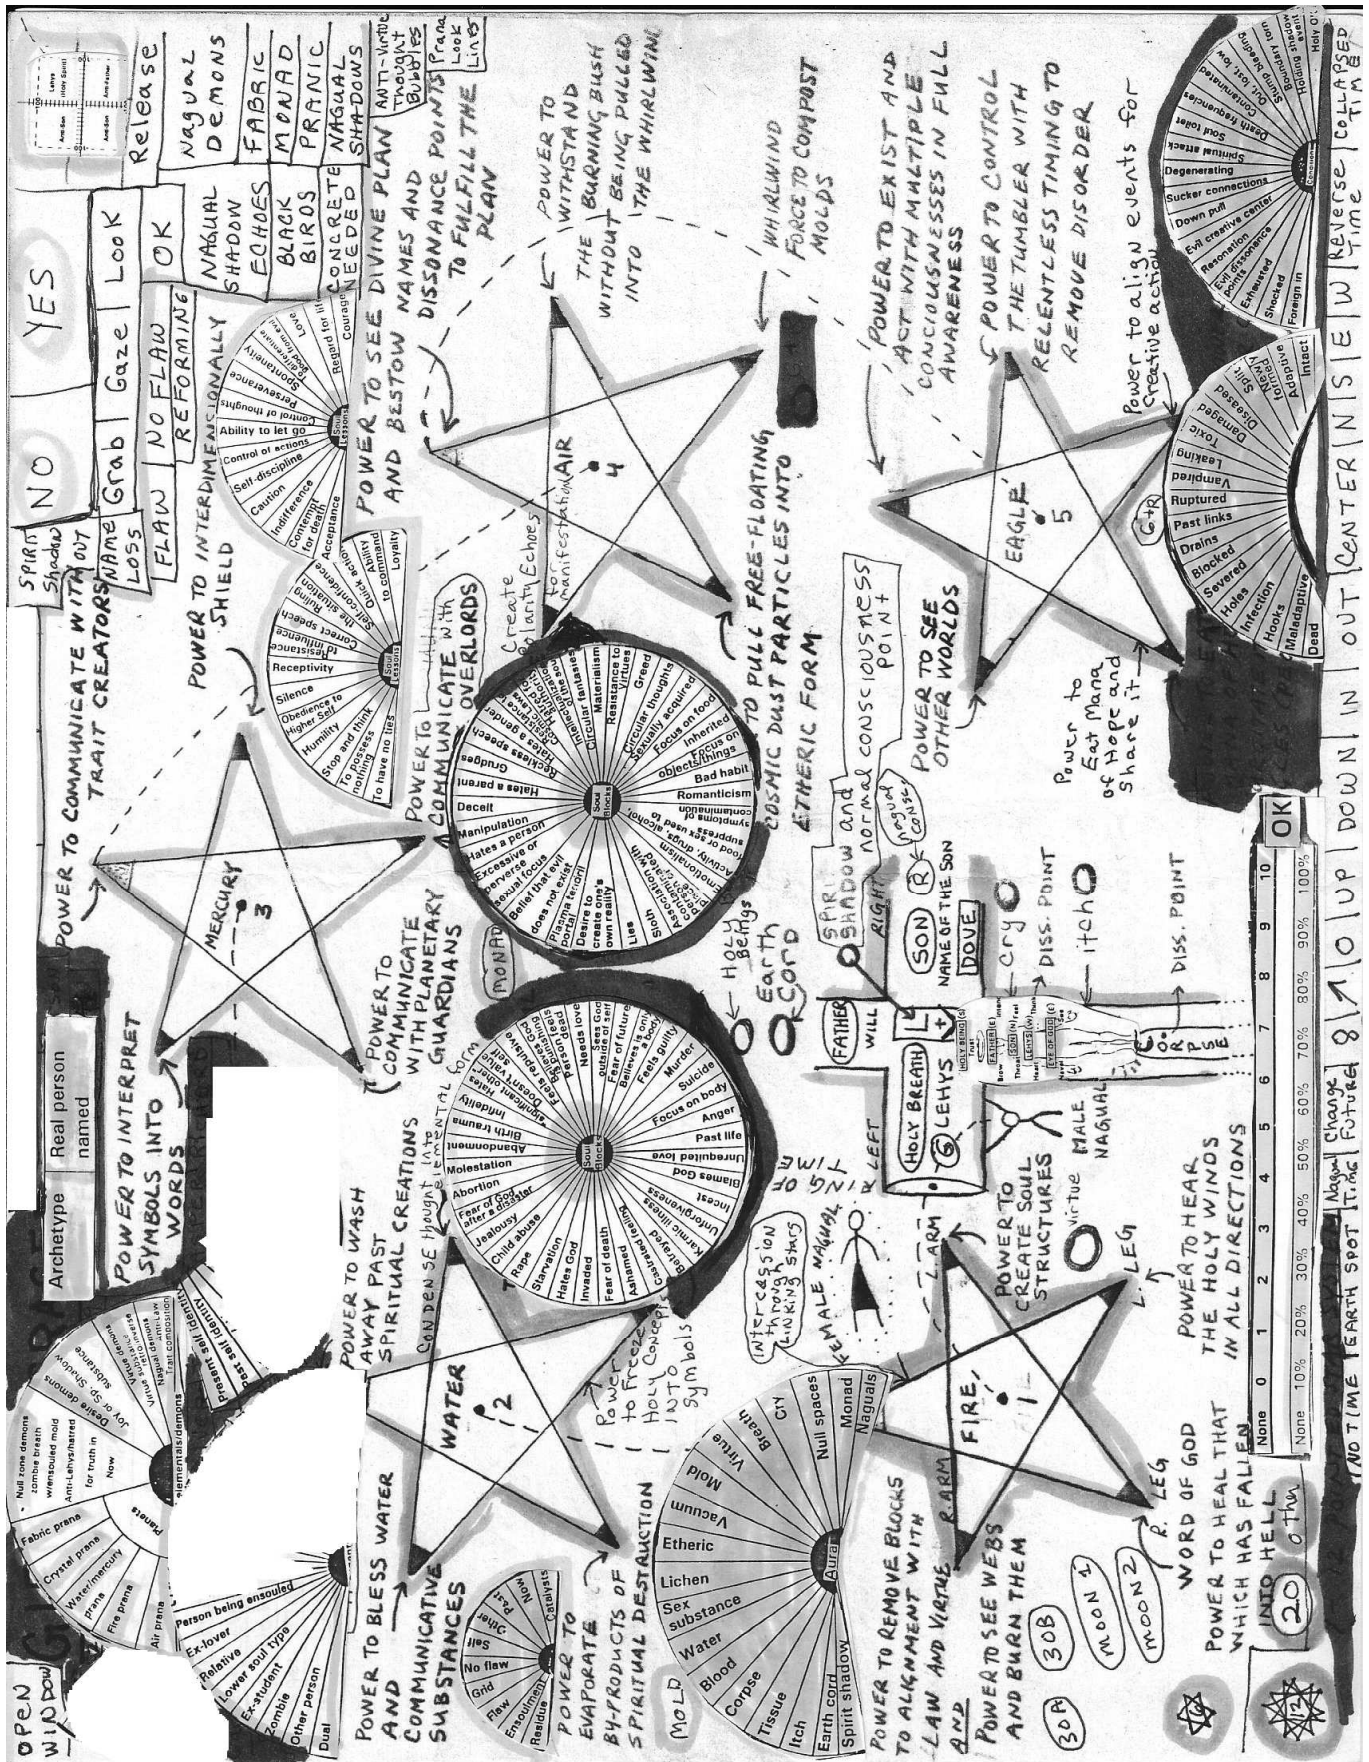

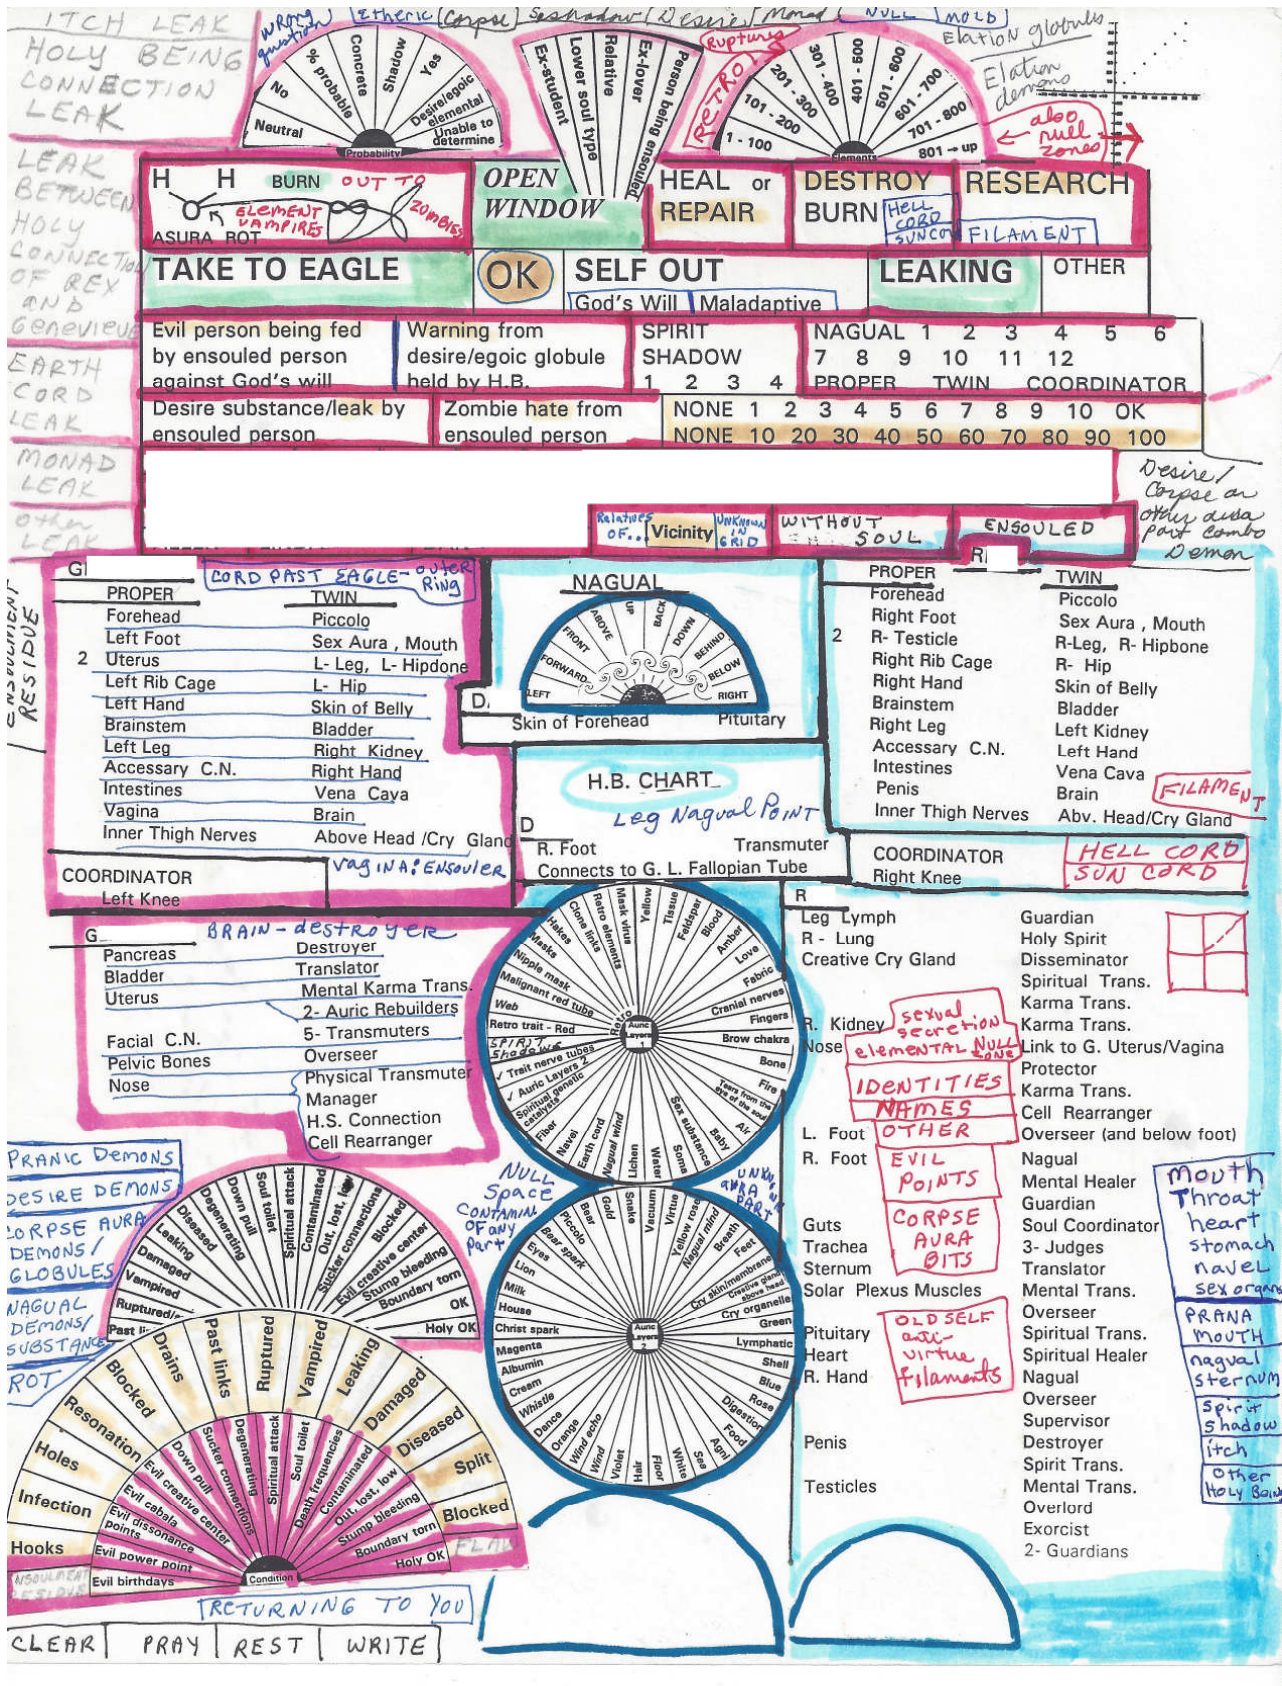

Chart: Nagual Combination Clearing Chart using the Nagual Body Powers

Each night a Star was accessed. Before, T2 had been hovering. Only in the last few days has she been able to endure going inside the Stars. Her endurance is increasing and she can go inside. Each one was different and each one was excruciating. This needs sobriety and strength of will to not shatter when going inside. It is a vortex and requires a burning out of residual disorder to stand the alignment of the Star. This is the first day to go in each one.

There is a kind of gravity in each star and it is different in each one. If one is preparing to go to outer space and to be weightless, one gets the cranial nerves used to decompression. The same amount of effort that T2 expends in the Stars, T3 has to have here in balance, or she would fly off or burn up.

Like a Crown: The Gifts of Grace on the Crown of Authority. All exist within the confines of the party.

Crown of Glory and the points of the Gifts of Grace are like gemstones. It is the **Crown of the Gifts of Grace**.

After today, T2 won't have to die, but can be in the stars. We have to look at things backwards. She will die not to pull the powers, but to go to other systems. This 5 Star system is the first, and there may be others; other Eagles and other worlds.

Gifts of the Five Jewels of the Crown of Grace: at times we may want to depart to the worlds to restore our strength.

Reasons to be dead: at times we may have to hide. There are opponents in other realms, in the stars. T3 won't have to hide, but T2 does. There are times to shield T3 and hide T2 as there are **Fallen Demi Gods** that would search them down. For example someone was observing them working with the Gifts of Grace and was drawn to the power.

The Mexico trip was done to shove the issues of the Stars; to entice power. When stationary it is harder to find the (core) issues. Going to the *Stars* is the only way it is possible to talk to others of like nature. It is trivial to say it is a social meeting of beings of Light, Light Beings. Yet, the meetings occur between the *Stars*. T2 is hiding from **Galactic Interlopers**, and is going to other Eagle systems. She may be able to see from an arm of a star and to see from a watchtower, as opposed to floating at sea.

We have all the points of power. All of the **Truth Points** are on the arms. If T2 can get to where she can hold the points, then she will see more accurately. Now she is dead to travel to a point but sometimes this can be the point 30% of a time. So she will be dead less and less, and she won't have to swing around but to be there to see the point (sic). Everything intersecting the Earth should be observable from one of those points like a light house.

For example right now, the *Power to Condense Thought, and Intercession Communication with the Guardians*.

When making a **Wheel Chart of the Star Points** (*next page*), they need to be all facing the same direction or else when T2 looks down at the chart it will be split in two sides. The chart should not be binocular, but like a wheel.

T2 and T3 are on 5 tracks now. T3 is at the center and T2 is flying out on the arms. He is directing the powers to people. He is **Scouting and Beaming**. It would benefit everyone to have a chart in the wheel form. It seems important for all of us to have a copy. Feel the center pulsing like a heartbeat. She draws it in and he pulls it out. Feel it cyclically, like breathing, 24 hours a day.

The Five Stars: it is stronger tonight than the last bad night. Now (the work) is to coordinate: *being* as opposed to *going* and opening doorways. Ideally it is (for one) to dance on all the points simultaneously, fluctuating like a song of power. T3 pumps energy out of the center.

Without the polarity of the male/female we would not have power. He is a dancer through the skies.

The realm of the spirit can stretch time or shrink it.

Repeatedly check where the corpse is resonating and where it should be.

[illegible]

Evening May 9, 1994

T3 speaks: The qualities of power are at work here, we are not on a shopping tour (in Mexico). We must take this seriously. We are in a war party, not a tourist shopping group. Something was afoot at the restaurant.

T2 speaks: T3 is in the Will of the Father (position on the Cross) and T2 is in the Right hand of the Cross. It is one thing to be silly, and another thing to be alert as to what is going on. It feels different being here from being in San Luis de Potosi. Here we have had an omen, a man was following us; the "Mass Murderer". Even the church here feels alien. Be keen when you need to be keen and silly when you need to be silly and be always alert.

T3 speaks: The fact that Americans are in this town means that (there exists) some aspect of drugs; they can feed on an energy here.

T2 speaks: Everywhere we go tends to stimulate different auras and assemblage points. So we have different clearings to work on. For example, the altitude is different here than in Guthrie.

Keep an eye on your primary Dissonance Points on the Corpse and Fabric auras.

Ask: "Where they are, what percentage is foreign and what percentage is your own?"

If we lose the dissonance points, then we will fall apart. This was hard to maintain in that restaurant, the building was uncomfortable. It was the best and the worst that can come out and when a person is spiritually high strung, and with higher awareness....it is easier to slip into heightened awareness when travelling.

T3: Guthrie is an unusual place, and here too it is a doorway.

T2: Place on Earth: a Dissonance point is location. The key names, the dissonance points of our fabric and corpse are impacted by location. What used to work was to ask "How many people we dowse as being", now we

Ask: "How many dissonance points are on the corpse and fabric?"

"How many are foreign", and

"How many are there of own (past/present/future/shielded/hidden)".

Death Frequencies: dowse as Dissonance Points. Check also for Eye Threads or Monadic Drips.

Name Complex Droplets: ask how many.

Check for Blocks above head: and where is one "Thinking, Seeing, Feeling, Willing, Trusting". Do waveforms on the corpse and you will feel better: Lower the corpse frequency and bring the fabric to its proper location.

Earth Cord Filaments in/out: are pranic demons.

Itch Gland: Check on the levels of Father, Son and Holy Spirit apertures. One person is leaking and if you are less than 100% in substance or if low, you may (have gone out with your substance).

CORPSE PRANA vs ETHERIC BODY APERTURES (FABRIC)

The layers of substance and their correlating apertures are:

FIRE	FATHER	Are you WILLING and INTENDING from the BROW ?
WATER	SON	Are you DESIRING and FEELING from the THROAT ?
AIR	LEHYS	Are you THINKING from the CHEST ?
CORPSE SPARK& SEX SUBSTANCE	EYE OF GOD	Are you SEEING from the EYE OF THE MONAD ?
ETHERIC	HOLY BEING	Are you TRUSTING from your HALO ?

For each layer, **PRAY AND WILL** that any elementals in the process of development be destroyed. You can map the progress of development by using the Unholy Vs. Holy Elemental Production chart and the type of elemental developing by using the egoic drawings. You should also pray and will that any holes in each respective container be healed. Use the waveforms chart to remove any foreign elementals. As you are checking each layer, determine the alignment of your apertures. The apertures will not align correctly if there are any holes or elementals out from your aura.

IF YOU GET ONE APERTURE OPEN TO BLAST, THEN YOU ACCOMPLISH MORE.

CHECK:

Blood Aura contamination:

Will pull things down.

Demon Molds in the Blood:

Ask where they are on the body.

Ruptures in the Blood Aura

Null Spaces in Body Part

Fabric Air Desire Demon Mold Bits in Blood

Aperture Ruptures

“Water Lines”: are irrigation lines. Two or three days ago we needed to divert our “phone lines.” A sign of zombie contamination is a bloated belly, and a sense of a full abdomen and lymphatic congestion in the legs.

Do: We can divert water lines with the ensouled as well. Divert obsessions.

Irrigation Diversion: this has a mist type form.

Do: Think of any lines coming to you right now.

Pray the Holy Beings divert them to where they not do any harm.

With desire tendrils out we will keep leaking and we could send them back to ourselves and have the problem intermittently.

Ask “*Direct/indirect, in/out*” and reel them in as these have:

Check: Back Flow Old Self **Sewer Lines.**

When we start to spring leaks from hooks in, then coil them back. “Cracks in the vessel”, are cracks in the aura.

Water Aura Squirts: reroute them and patch. People with propensities for water problems will have higher numbers.

We are removing different weaknesses and cycling through the fire, water, air and sex auras.

AIR: Check “Phone Lines” and short circuit them in Air and other auras.

WATER: Irrigate these back to yourselves. When you are hit by spray, the pranas will squirt.

Ask “*How dirty is my water?*”

FIRE: Check for fire prana demons and stay out of their frequency. A lot of evil is high up and a lot of fire demons are on a high level frequency. That is why we need to keep the fabric high frequency with the apertures (located) in the Fabric and not the corpse. That is best for our protection, we won’t get as contaminated.

Check where water lines are out on *Renegade Self* and teach people to not reform them.

Do: Mag Sewer Lines, and **Check:** *Present self in past.*

T2 can’t say how we do it, we just do it. So reel it in and direct it; it works.

Ask “*How many Dirty Towels out/in?*” These are chunks of fabric out with dirty water.

Zombie Sea Links: these are water disturbances. They are not a sewer, but a water line/dirty towels in the water and blood.

CLASS NOTES: MAY 10, 1994 San Miguel de Allende to Guanajuato by Bus

Movie Reference: Suddenly Last Summer

In the movie Suddenly Last Summer with Elizabeth Taylor and Montgomery Clift; Clift is a cousin of hers who is a homosexual that was jumped by boys in Mexico. They relied on him and hated him. They took him to a ritual spot and killed him. Mexicans hated the white people who went there. A rich auntie put Elizabeth in an asylum to keep the secret of his homosexuality.

When the corpse frequency goes high it starts burning the mold.

For example one student has Bubbles Forming, which is a fantasy fire aspect relative to a memory of being betrayed, with an old water line.

Fire Lines to the past: will cause a mold burning.

Ask "How intact is the mold?" This will show fire lines to old self.

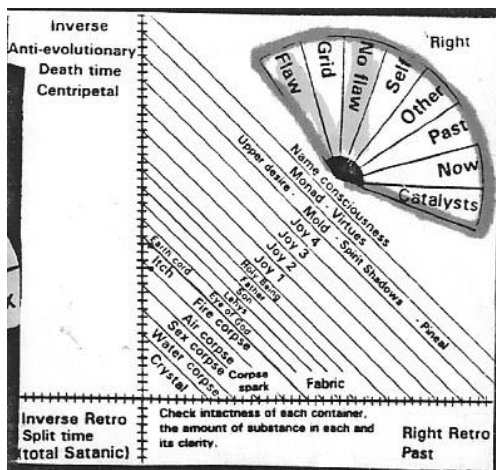

You can try to lower the frequency, but it will pop back up with the presence of fire lines.

This is an aspect of lower will, having the Air/Fire/Water trials and aspects that are Retro.

We commonly think of *will* as fire and also the aspects of water and air are *lower will* when they become Inverse Retro.

These lines, what are they? If we look at them as trials, then it is adaptive.

We will know if we are burning our mold if we are irritable. **Do:** Waveforms on *Body Parts* and check the Soul Blocks.

Check the ← Quadrant of your Fire/Mold: if it is Inverse Retro, then the mold will burn out. For example Mag, when she throws lines out, Air/fire/Water to us, it is also to Ni, who is high with "Hate Lehys". Then one person would start to feel irritable and that is a low form of hate.

Zombie Fire Links/Zombie Sea Links: Sulphuric pits are hooked in and they are like links to certain hells. The commonality point of zombies is thinking the same way (which is a way to identify them).

Feeling Irritated?: If you feel someone is trying to shit on you or is rubbing you raw, *know something is being revealed*. If you feel ugly, worthless or rejected, know that a flaw is being revealed. **One's identity** should be aligned with the (---) and not with form which includes love of form over beauty, or romantic obsessions.

Different towns will offer different propensities to be revealed. The southern influence magnifies and inflames propensities. Everyone here had a weakness including T3. Just by being in an artistic community, it was bringing out the worst in people's romantic or artistic flaws.

Pray for deliverance from your fundamental propensities. You are powerless against a propensity unless you align with Divine Will or you will never overcome it. *Without Divine assistance you will never overcome it.* So by aligning, you have...(missing words).

When a propensity is revealed, check your will on the quadrants: Check Air, Fire and Water on lower will. Your overall quadrant reading may look ok, but the water may be off.

WILL has a fiery aspect with small water and air aspects. Fiery hate shows lack of boundaries. Any irritation is a propensity and it is a diluted form of hate. Fear is the flip side to irritability. Hate will come back to you and you will get fearful.

LOOK AT AND GET RID OF PROPENSITIES WITH DIVINE ASSISTANCE.

Check pranas in the quadrants. It is harder to keep the monad (if pranas are outside the Upper Right Hand Quadrant). One could be highly contaminated and still be Upper RHQ, so check the Soul Blocks (next page).

Ask: If you have *Water/Air/Fire/Sex lines In* and check the *Earth Cord*.

Example: One student is highly contaminated, yet she still is personally resonating on the Upper RHQ by aligning with law personally. You may not be able to sleep, and you may feel miserable, but it is a *choice* to keep your resonation. Keep an eye on this until everyone can do it.

The Holy Powers are coming through T3 now (he has **fevers** now, as everything that he was, is being burned away). He is being purified by the burning bush. God's will be done in the next stage. It is very painful for them both and it is worse at night. He willingly does this work, so does T2. They are here to show us how to transform and recapitulate and be open to Divine Powers by being in the Now. **Now is power, and power is recapitulation.**

On this trip, look to areas where one must recapitulate. Look not to comfort, but to perfection and power and it is not found with the lower will. (Perfection and power occur when) one unites with the higher will. What is **key** is to be a part of the higher will with every fiber of your being. If we ever forget that, we become petty **sorcerers**.

Tonight there is concern about the absentees. Every weakness is coming out. T2 and T3 ask for our help to watch them (and assist). Do it if we are supposed to do it, and when this time comes to a stop, we must be completely impersonal. If tomorrow (it be appropriate for) T2 to disappear, then she would do it, but it is not the plan. The plan is to complete the journey for a good cause, for the *Gifts of Grace*. They are now entering in waves but not into anyone that hates God or who has one drop of Anti-Lehys/Law, Renegade, Zombie or Anti-Virtue.

A person may have nine Virtues and if that person only has love as opposed to hate, then he or she may receive the *Gifts of Grace* thru the Divine Hierarchy. T2 and T3 are getting used to the *Gifts of Grace* and T3 is being prepared to endure. The last three nights have been excruciating for him. Sometimes great transformation requires great birthing. Death and birth, we die to what we think is truth to what is truth (aligned with) the Divine Plan. Above all, with any irritation, know that something is surfacing and get a grip! Be patient and sweet with each other. Pray, switch gears and have no guilt. We have an opportunity to fulfill ourselves to the highest and this is not some trip to be beating ourselves up. T2 and T3 wouldn't be here if we hadn't done well.

How do we greatly increase our ability to withstand spiritual stress...by doing it incrementally, by being gracious under times of stress. There is no blame, but merely try to understand. Say to yourself "I don't understand this experience but I truly want to know, I ask the Holy Spirit to let me know". With (alignment with) any anti-Lehys you will not be told a thing; it will not blow upon you with any amount of knowledge. **Tonight, watch for** *Water Sewers, Fire Burning Mold, Corpse Frequency too high, Zombie and Ensouled Connections*.

We must stand alone, even with a power group. But we can have no leaking in order to be able to give or contribute to the synergy power. We must control the power within ourselves. Tomorrow should be a good day to stabilize and find a way to stabilize others.

Be optimistic about yourself and your fellow man or we can't hope to ever impact human destiny. A person is not on a holy path unless it is intertwined with service. T2 must accept spiritual orders just as we do. People come in different directional influence and will be lead to the right component of power. There is a threshold of power if one is impeccable.

Be merciful to the absentees. We have to joke or else be mad (angry). We joke so that when we are exhausted, it won't lead us to instability. Jokes relieve exhaustion so that it will not be a problem. Deal with it (exhaustion) and get on. This path is not for everyone. Some can't endure. It is definitely a hard path.

Pray: *"I ask that my blocks to Higher Will be removed at this time, the blocks to Divine Love, the Holy Breath and the blocks to bringing what I know through the Law of Manifestation and Use. I pray that these blocks be released so that power can enter."*

"Lo, I stand at the door and knock." They (the Gifts of Grace) only enter into an open heart and mind, when it is desired and not when spit upon with Anti-Law, Anti-Lehys, or Anti-Virtue.

Do: Repeatedly check the corpse with Air, Fire, Water (lines) and

Check to see that every part of your alignment be in Upper Right Hand Quadrant.

These systems should be a comfort, as a tool to measure yourself. Do not be discouraged; keep going. A time will come when the exhaustion will be eased as with the Law of Rhythm, a time will come to rest. Just work and be grateful to work in the high way and method of saints. How it will manifest in the future depends on the impeccability of this party.

With the Knights of the Round Table, other masters and the Sufi masters, it was always (involving) a party of people with synergy to manifest changes on the Earth. So we are. Remember we are holy. If you are irritable, say; "I am a part of God and Holy". For example Si, with all her contamination with Jg, right now she has all her apertures, etc. in the Upper Right Hand Quadrant, holding firm against adversity. We may have zombie's spewing...can you endure and hold impeccable in a sea of disorder? (The ability to do so) is incremental, as we are self-training with some assistance. Know you are holy, no matter what sounds of defilement you hear and know what is not holy.

Polarity and Gender are the (most important) of the Laws because the Holy Spirit/Yin, Father/Yang and Son/Love will anchor you in the spirit and they are the core of all the other Virtues.

Say a prayer and if you wake up in the night say the Lord's Prayer; it will keep you aligned with holiness.

Find a tool to comfort yourself in the pain of change, with no despair or indulgence.

Don't say you are more suffering or more hideous than another person, just keep one foot in front of the other and keep going.

CLASS NOTES: MAY 11, 1994 To Mexico City, Puebla, Cholula by Bus

To Mexico City, then Puebla and Cholula by bus. Stayed at Quetzalcoatl Inn.

DO: Check everyone for Soul Blocks and why the monads are dripping, with Water/Air/Fire links.

T2 is now seeing long standing, months-old, monadic leaks and Vampires that had been hard to see.

ASK: For leaks and vampires in/out: and they can reoccur if you don't remove them completely.

You can chop it, but it can crawl back to you if not completely removed.

Monadic Blocks and Dark Spots on the Monad: This is a general category that will reflect a lot of monadic blocks.

Check: Your old names/new names and ask "How many are personal flaws?"

Students (Old names/New Names): M60/Ir0; Aur0/L50; A195/St0; R/80, J97/C--; Forr266/D3; (or 3,000!); N900/Si32; Le0/D54; D952/Se941; E900/A10; B42/C7; E700/Ja11; Sn74/Sk1042; Re2000/Du9; Ph10,000/No10,000; H5,000/Top8; M9/Mag154; B9/J9; D8/054; P6500/No32; L8/M600.

Ask: "How many people are grabbing T2's monad?" She woke up with a sore pelvis and a uterus cramp by people grabbing her monadic substance. The reason (they were able) to grab her monad is that it slipped from its position. Our monad should be between the second and third *Star*, and if it slips then people's desires will grab you.

You may ask "What makes a person's monad to go out?" It may have a high level of desire but it is directly done by *Grabbing* with the Eyes. The Father Aperture is the most common one (with which to grab) due to its ability to merge, and it merges usually with a good reason to learn, or to help someone. This is where we are getting **archetypes**. It is a type of web with the most power if we *will* and *intend*. T2 had them from four or five weeks ago, she had (to use) a strong will to pull a student and she grabbed him with too much intention. (Doing that) caused a monadic link that was wrong.

High numbers on the monad reflect a tendency of misuse of Will or Desire, often to places and times in the past.

Example: T3 had some out in wanting Sma, Ji and Fl to know God and be ok. With a monadic link you could sever the links, and then the arms would still crawl back. For example two hours after going to sleep, the tentacles of arms would come back and they would be related to an aperture. A part of him went out and then came back like a Sylphic biter.

Do: Burn and chop.

It is Anti Law to deny (the presence of) evil in zombies. It is against the law of Polarity, and it is a weakness because it is our own reality in regards to the past as opposed to Change and Truth. These were things even in flaws of us, (by going) out (through thought with lines and substances), though (the reason) may seem benign. The higher the monad, the more one can shoot out.

Monadic Network: is higher than other networks.

Monadic Grabs in/out: Check for these.

Monadic Echoes/Son Aperture: When the Son Aperture of the monad drips downward and comes out of the Fabric. Most of these will dowse as **Birth Names** as they slip in as you go to sleep. (It is going in a retro direction) from the *Stars* to the corpse through the Holy Being aura---use waveforms. The monadic drips will go into the Fabric and impact the Corpse.

Check: For *Mixed Identities*. Sometimes when you work on someone you can grab them.

The ones on T3 were crawling back from 5 weeks ago. We have to work on the absentees to remove Mag (monadic drips) and then recheck them. Some T2 can't see, but she depends (on T3 to see them). Some are so base that she can't see them.

Monadic Stumps on Links of Power: This has to do with going *out* and then returning *in*.

This does not necessarily mean you originate it. To ask for these we have to look at the face (of the person) as these have other people's names on them. When the monad dripped to the corpse and went out in tentacles through the Air/Fire/Water apertures, they hook a person and then break off leaving a *Monadic Echo*. This tentacle will then crawl back home. This occurs when the monad leaks out of the corpse and not the Fabric.

DO: Reel them in and disintegrate.

Then we have to remove the *Splinters, Hooks and Echoes* in people.

The monad drips into other people in this way through the corpse.

They then crawl back to you into the chakras (causing) *Foot Ruptures*.

Next example: T2 can feel Forr grabbing monadically through Ir's eyes from a link with Rap. (That is why) if you look into T2's eyes you can grab her monad and anyone else who is linked in. There is a physical component to grabbing. It is how Don Juan would *will* and *intend* with his eyes and he would move his eyes as in a waveform. When we are *Seeing* through the Father Will aperture as opposed to the Eye of God, then you throw out these lines. A person with a strong soul energy has an automatic strong will component and this causes he or she to *grab* automatically.

But a person of Power grabs only with awareness; they know when they are using it and when they are losing power.

Only *grab* with the eyes for a good reason. If you do it all the time, you are losing power.

Monadic Vampire Echoes/Lehys Aperture: when (from you or a zombie) the monad has dripped out of the brow and it is not a line (sic), it is like a Lehys layer. The monad has aperture components and this has to do with Lehys. **Stumps** are Eye of God and Will of the Father. **Grabbing** is the Father aperture. The **Echoes** are out and echoing back your own flaws due to A zombie link (which is often to your own past self which would dowse as a zombie because the old self is dead). It is interesting how when we sleep, all our propensities come out. Any weakness in the monad and we will start spewing. *We need to get to a place where we sleep without desire or low will.*

Monadic Network on a Lehys level that webs out: Reel them in and pull them back to remove. The key reason the monad can leak from any layer is that it can leak directly from the monad if it has fallen to a corpse or fabric level. The monad has changed placed and it is now located between the 2-3rd Stars. These webs take a while to build up.

Monad Slips: if one clings to a prior identity, then former names exist. The desire would be to create our own reality. If T3 wants someone to have a soul, it is against Trust (in God) and can cause a deviation on the monad. If the identity is the monad, then anything that is against truth by desiring an outcome can deviate the monad. Not all the scales will detect these. A lot (of these Names) are broken off and when they come back, they will feel attached to you, but they are yourself coming back.

One can leak monadic fluid out of the Virtue aura. On the Left Leg of the first *Star*, (facing the chart) the power is in relation to certain powers that tend to protect (sic).

Ask “Where should the Cry and Itch be?”

The **Cry** should be on top of the Fabric, and the **Itch** at the base of the Fabric spine.

It is very handy using the diagram to help clear them. (SEE: *Star Chart #3*).

When using the diagram, align yourself with the different powers.

The Mold is located between the first and second stars at the left leg of number 2 *Star*.

The Earth Cord is above the top of the Cross.

The Spirit Shadow is in the center of the cross.

The Holy Being Ring is above the Earth Cord.

The Holy beings are ones' personal guardians, and they can go crazy and wander the earth if you don't clear them.

We have a responsibility to clean them up. **Ask** for “*Threads out from the Holy Being Ring*”.

When the Holy Beings are dead it is because of desire distortion, which is an idea that they could merge with in the past/present. There is no point in telling (someone something) if they have made up their mind. (This is in reference to a student who had blown the Holy Being aperture by reinforcing zombie reality.)

Monad Anchoring Points:

This is like a dissonance point. It is an identity position relating to the powers and when it slips, that is when the monad leaks.

Grabbing with eyes is an actual muscle.

Some students can't grab or gaze. T2 will shove them into it and then test the strength of their *gaze* and *grab*.

Check: 1) Strength

2) Quadrant

3) Tightness in holding

4) Ability to release.

Sometimes when we are *grabbing* it is actually another person coming through us.

Monadic Demons Out Relative to Will and Desire: Ask “How many Will lines are out? How many Desire lines are out?”

This is an aspect of the *will*; that with high numbers of lines out, it shows a wanting to merge and circular thinking to past self. T2 prayed to understand and to sense what is occurring as it occurred. She could feel students *grabbing* with their eyes in their sleep and putting out lines of will or desire. This was unconscious. ***To be conscious in one's sleep, more must be done deliberately in the conscious mind and then one can do it automatically.*** These lines have accumulated over two months. T2 could not call the Holy Powers until she had painstakingly pulled out the monadic threads into her from students.

Remember when you are very possessed, whittle away until you have some power.

T2 had to pull things out one at a time and you have to do that too, before you can do any Holy Being blasting..

We have no soul power if we are possessed.

First use the waveforms to clear the vicinity,

Pull disharmony to the chakras and blast,

Then get the Holy Force apertures functional and then clear the Virtues.

First clear the bottom part and then clear the upper part (of the spiritual anatomy)

Because any holes in the Fabric will squirt if one has monadic holes.

This is a serious problem. If T2 can't call in the Holy Powers, then she can't help us.

We can work with new people and those who are not here and teach them the stuff that is not covered (in the books Virtues, Law and Powers and Advanced Esoteric Dowsing Books I, II, III). This is why it is important to document these steps and then to share them. Look at yourselves as teachers, incorporate these teachings, translate them and dole them out (the information). It would be retro for T2 to repeat the fundamentals (to new students). Write it out in a framework so that other people can do it. Add this to the Father F. files, as there are levels of teaching. Do this on a regular basis.

This evening T3 is supposed to take us through a structured clearing. T2 is supposed to be seeing ahead. If she has to continually tell you your resonance is off over and over again, then she can't see what is ahead and (take advantage) of the Season. Her purpose is to forge ahead and stand at the door. T3 takes us through (the steps) and points out to us when we are not (aligned). We have to reintegrate that (method). **Do:** We need a spiritual routine to do (every morning and night) and keep reinforcing that routine. People sometimes skip what is important. Practice *Gazing* and *Grabbing*.

TO DO Morning and Night:

1) Check Corpse and Fabric for proper resonance/quadrant, and dissonance points.

2) Check as well the Itch, Cry, Earth Cord, Spirit Shadow, Holy Being Apertures, Monad and Virtues.

3) The top guy (Fabric/Etheric body) should be above the head and not below the feet. If A Virtue is Inverse Retro, go to which Virtue is the worst off and check for vampiring in or out.

4) The *Look, Gaze and Grab* can get “*Stuck, Toxic or Mixed Identities*”.

If you are stuck, check the *Monadic Black Dots/Blocks and Monadic Network Problems*.

Gazing and Grabbing is essentially a monadic function that takes place in the Fabric and problems here suggest a monadic disorder.

Check:

Monadic Grabs: to/from, other/self, Past/present/future

Monadic Stumps on Power Links

Person Peeking out

Monadic Demons out/in: check soul blocks.

Aperture Demons

A good indication of how possessed you are is by how easy it is to *Look, Gaze and Grab* (holding and releasing properly).

If we *grab* for a prolonged period of time we will leak with the monad.

Release is a motion between the steps of ***Look, Gaze and Grab***, and it is like moving a hinge.

Do this between each step up to 100%.

At the Momias (Mummy) Museum in Guanajuato (in retrospect) T2 wanted to assess the students' ability to *Look, Gaze and Grab*. When one student *grabbed* the corpses, it caused an elemental shock. The museum causes things to be unsettled. T2 was *gazing* and *looking*. Ideally, we needed to *look* and T2 needed to *gaze* to keep an eye on us.

On the bus and train (To San Miguel de Allende) the Mass Murderer (was following us). When the train filled with evil people, T2 switched to *look* and was undeterred by them. If we had *grabbed*, we would have dripped in our monads and when we *gaze* we feel the pain of disorder and resonate.

Identify:

Look by the mouth

Gaze with Eye of God

Grab with the Will

When a person gets spiritually hypersensitive, (it is best not to) switch to *look* very often, as it is not just “corpse eyes” for us to *look* anymore. We can still *see* more with the corpse eyes.

There is something mysterious about the Holy Powers of the Now. When T2 switches (times?), events line up perfectly. For example in the Mummy Museum, the unconscious thing to do was to see what is wrong with us. And it was perfect to provoke a response in others. *(Not sure what this refers to--Editor.)*

It is better to Look. A person who notices details by *looking* can notice a lot with *gazing*. A person's physical observation skills should be extremely acute. Trifles make perfection and perfection is no trifle. **The best clearing** is precise, orderly, and systematic. In T2's plane she is precise and she is orderly in a higher way. We need to find ways to translate (this information) with precision to go to the heart of a problem. For example with each mummy, we forgot each one before we looked at the next one and we noticed details.

Agendas: T2 can't say that she took us there for *Gazing*. She talked about the feet and hair of each corpse and what is our problem when we resonate with corpses? It is foot ruptures.

Foot ruptures represent corpse death.

Hair represented lawlessness in death.

T2 was presenting an elaborate view of death, so that if we *Gazed* or *Grabbed* the mummies, we would be repulsed.

LAUGHTER IS THE SALVATION OF THE TONAL DURING DIFFICULT CIRCUMSTANCES.

T2 is now off to another system with 12 points. She is doing some type of healing, where she has to leave this system to do it. She is healing something through the Holy Being Channels. This will *restore, add, and give ability to draw in more personal power* to clear ourselves. It is a strengthening of the saint mold a little, by removing deviations.

A Key to Remember: in order for T2 to have access to these energies, she had to work very deliberately just as we do and without nagual power, for hours, consciously and with the charts. And she picked away with the charts. Every 30 minutes at night she had to whittle away at the clouds to her vision until she was able to call in the powers. The *Gifts of Grace* took hours and most of the night for them (to be able to call in).

We need to remember: *Whittle away until you are at a point to clear fast. Do it slowly at first and then quickly. The more you do it, the more impeccable you become and the greater discipline, attention to detail and perseverance you will have.*

The charts train you to pick up details and if one can *Look, Gaze and Grab* with precision then one can pick up disorder with the tweezers, not with the stump of the hand.

Refine the lower self so that the higher self can be refined.

Refine the lower self through intentional use of charts with systems of observation.

Very little is done with no reason. Something may seem trivial or casual, but being deliberate and aware should be our goal. T2 still doesn't always know why she does things, for example going on a trip to the Momia Museum. Now she knows, but (at that time) she was in split consciousness.

It takes great practice to reverse a split consciousness. One may not be aware when the Holy Beings are zapping us on the head, but with deliberate refinement over time (one may learn to perceive). *Use Will and Desire to align with knowledge and the Divine Plan.*

T2 has moved to another plane, and it feels like Name of God and (she can feel) pressure on the pineal gland.

With T3 healing (from a spiritual transition), he can't hold T2 as tightly. Today most of the transition is over and he can hold better and she may go out. It is frustrating to not go out during his healing crisis, but one just accepts it. T2 has a propensity to be impatient and has to watch it. T2 has the corpse propensity for impatience and intolerance. Although there are times when a person may *seem* impatient, but not be impatient.

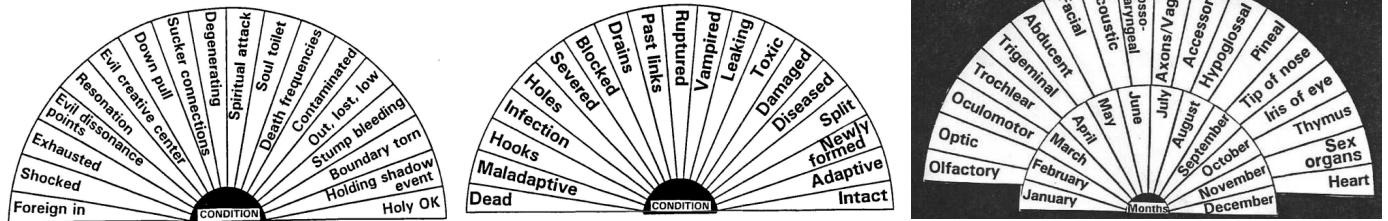

Recognize your propensities and do not indulge in them. By recognizing them, you will know when you are indulging. Initially, start with checking your dissonance points on the quadrant chart. Check for dissonance contamination and check the levels of contamination on each quadrant.

Do: Systematically check the *Cranial Nerves* on the Conditions Chart because you receive power through them.

Notice when Holy Beings are coursing through you.

For example heat can be felt as a white (holy) heat, or a sulphuric (unholy) heat.

Charts: Condition, Months and Cranial Nerves

To bring holiness into the group it has to come into the corpse. Holiness cannot drip through an unholiness.

Within the Divine Plan, if a person is resonating with Hate Law and Hate Virtue, the Holy Forces will not enter.

We can clear prana and demons to help. **Key:** Holiness will enter only that which is made ready. When people pray, they will receive holy powers. One does not need to be perfect, only that they have *holy desire and will*, before the Holy Beings will tap on the door. **Ask:** For your percentage of resistance. Do waveforms to help clear.

Prayer at night is the most important: This is prayer that is aligning yourself in advance for the coming day. Don't knock on the door of Divinity without washing yourself spiritually. Don't (pray) unless we can't clear ourselves. We should try to clear ourselves (in advance) to be willing to ask for help. And during the day say the regular prayers. The prayer for the group is very powerful as it reinforces one's recapitulation.

We can do everything for people and they may still resist; but we can still clear them. The letter of the Law is that people have to agree; the loophole is if you whittle away with their pranic demons they may give up and say "ok". This is (lawfully) helping people despite their lower will and propensities.

Corpse Shadows Left Behind: Suck them back. These are like something grabbing a hold on you and tugging you by pulling you back in time. It is a living possession, with someone so obsessed and stuck in a point in time that they cling to split-time consciousness or a fixed idea of you or an idea of you as a shadow. The *picture* (Shadow) of you is a weakness (for you). **Do:** pull back and disintegrate.

Future Corpse Shadows Left Behind: Throw these into the future. It is like a jet trail out with thoughts about what your future would have been with the concretized mold.

(Regarding this Lecture: Apologies from the original/current auditor/editor for lapses in the text.)

There is something to be said about Landlords (which have to do with) feudal structures for order.

Democracy is basically pathological, as the most violent criminals have a voice. Just as Sr. Thomas More said (in favor of a benign monarchy), that the masses are essentially ignorant and violent. For example, Africans are very materialistic. Another example would be the Russian Revolutionaries who were supposed to give money to the poor, but millions were killed.

Most political systems fail to recognize species of people. Nazi Germany (ruled) with murder, mayhem and a disinterest in what is spiritual. Economics and Theosophy (sic) is what in the U.S. falls to the common denominator, which is why the schools are destroyed (?). (Typical is the encouragement for students to) use Black English, which would bar them in the standard marketplace. If we were to teach or advocate only Spanish in the schools (with a higher percentage of Latinos), then this "right of language" would bar students from success in the United States.

What we have is a reverse sociological problem. If we were to say that the hunters and gatherers are equal to the educated elite and that "The cultures are equal"---that is the destruction of the sense of progression of souls, because the progression of souls partially depends on the cultural refinement (of a group of people).

Example: (Irrigating crops started) with the arrival of the Spanish in Mexico, and with irrigation a person can see a future, (it is like) seeing the seeds grow a life. Hunting and gathering had (an associated) hideous spiritual consciousness, with an aspect of destruction to it, with no thought for the future.

We need to find a balance of the here and now and future needs.

For example, with our welfare system, if one fucks and has a baby, (but pays nothing for its upkeep) there are no repercussions. The Hunting and Gathering groups killed the children as they needed an ability to run, and could only carry one child (each). They were trying to keep the children from starving. If they had more than two children (per family) the children were killed.

It is common in cultures in the beginning and the end of civilization that they have retro values.

With Black people or White on welfare and unwed mothers; it is disgraceful to not have a bond with a mate. Whenever the family (structure) (is destroyed), when that happens civilization declines. The responsibility to raise offspring without an integral sense of civilization, (such a culture) will go down. The U.S. is stupid with (wealthy) people 65 years old and still collecting Social Security. Soon the U.S. will be bankrupt. Should we let old ladies die or give 800% a month to what is paid in? Whatever is paid to Social Security gets paid out 10 times more, and it is welfare, but it is paid to millionaires.

It is dangerous to merge with Africa as it is 99.9% evil carnality. You can be a “southern” type, and not gross. But they are gross. When anyone starts thinking (in a like manner) then he or she is down the tubes. (However) T2 has met many a black person with a high soul. The south is too volatile and is like a powder keg. They *should* have a dictator; otherwise there will be no control. When people are crazy, there is no possibility of democracy with crazy people. They would need a benign dictator. The South African (White) society is creepy and disgustingly satanic. Thomas Jefferson said that “all were equal” and that is true from the first spark, but some rotted. The majority are no better than dogs. That is why she did not show up at (Si’s) trial (in Oklahoma) as there was no limit to what the people would have done.

“Royalty” is the symbol of perfection and one would show a hatred of Authority to not (appreciate a hierarchy). One should love the Queen. Without order, people go crazy. Together we need order. When a person is devotional they have hope of spiritual advancement, as they have respect for spiritual hierarchy. But (this is not the case for) one who hates authority. **Encourage (devotion and hope)** in yourselves and be grateful for a hierarchy, for without it we would be lost. We learn respect for hierarchy incrementally through our teachers and the Queen.

CLASS NOTES: MAY 12, 1994 Cholula

“Futures not taken” are (concepts) crystallized in a person’s mind like *Obsession Babies*.

Yesterday (the clearing) was taking care of (crystallized concepts regarding) **“Concrete Futures”**. These are ours and other people’s. We need to clear monadic drips first.

If the uterus swells, it is lymphatic fluid contamination, and usually caused by *Monadic Drips*.

Past/Future Mold Crystals Snapping: Check body parts.

Crystal Body Shadows: These are in zombies. You can follow the line out by the *sound*.

If someone throws a monadic line into you it is a reflex to (your) *Grabbing* others in the night.

If someone keeps snapping, it may be due to *Crystals of Split Time*, like a tree with limbs.

For example Forr’s mother who had (crystallized) ideas of his future.

Euphoric and out of control, is not real happiness and (one student with this) has a tendency to insanity. He can start spewing and then the Joy gland bursts: (like a release of) endorphins.

Controlled Folly is not out of control. The difference between sane and **insane** is due to a profound tonal flaw.

With no restraint and poor spiritual control, a person will get to despairing and cause a constant elemental squirting out of the eyes. How does one stop doing this? One could (be spiritually) sedated, but is this (group) a spiritual hospital? Control (your euphoria) or have limited spiritual powers. For example; a spiritual Thorazine.

Imperil is anti-Law/anti-Virtue and it fills the null zones with substance and it feels like a pressure and a “need” to squirt out.

This has to do with *Euphoria*.

The auric pressure (from imperil may cause) **emotional outbursts or psychotic euphoria**.

(Student) shows an excellent case of meaning well with holy desire, a strong will, but has a fundamental weakness.

Why does a person fill up with poison? It is due to materialism, obsessions, romantic categories and a personal stake in being “helpless and vulnerable” even though he or she may feel strong. As long as one’s agenda is Anti-Change and Use, it builds poison. With no desire to change, this (condition) will continue. (This situation may offer) a (paradoxical) contrast with being very capable in the physical realm.

The laws of Polarity and Gender are the core of the Laws. If being with a mate (is the most important thing in a person’s life) it shows a pathological weakness in structure. If one identifies Yin with being hysterical, vulnerable and (overly sensitive), while identifying the Yang male as taking care of the female and (providing) order; such a relationship is sick, disgraceful and shameful. **Order** is reflected strongly on the Law of Gender.

Never tell anybody something that they refuse to hear because it goes against the Law of Use. Don’t give someone a burden too great to bear. (Offer the person) sweetness and helpfulness; be supportive of each other. There is a difference between yin and yang and neither should be abrasive.

Being a teacher is so hard. If one told another person (something they were not prepared to hear) and it caused them to blow their monad, the teacher would be responsible for them being a zombie.

We have a responsibility to not vampire other people. Now when we squirt, we are putting out Anti-Gender toxicity, which can cause us to start thinking things like “Getting rid of a mate”. It stimulates romanticism.

There is no reason that one cannot be alone and yet not be lonely. It is easier to be single on a spiritual path because of the dynamics (inherent in) relationships. During a spiritual crisis (one needs to be strong to pull the other one in trouble). For a person to be married or single is not relevant; but whether it is God’s will. For example, T1 had an attachment to the concept of being a nun with a hidey hole. She did not want to be with a man again. But that was appropriate with the nagual (she was carrying). The only way for T1’s corpse body (to maintain the) tonal, it had to be impersonal and loving and her greatest desire was in spiritual refinement.

One’s greatest danger is in unmet trials and with Gender poison and romantic obsessions: one needs to have no propensities. Otherwise one may externalize and blame another person. Unattached members would have no power (if they aligned) with someone with less power. And if the romantic (propensities) are gone, then it may be the divine plan to manifest for someone (a mate) and then it would not be personal relationship, but a synergy relationship to (manifest) spiritual power. There are times to not be together and times you should pull together.

Look at everything from the perspective of how to be more powerful and pure.

Power can come with the right dynamics.

Between Cells Monadic Other Person Substance: “Throw it up”, or into the ocean.

Other Identity (Personal Substance?) Crystals: Will to pop, disintegrate and with the residue “nagual vomit.”

Old Lover Crystal shadows on Your Aura

Twenty Star points can now be accessed simultaneously (by T2 and T3). It would be ideal to be able to access all (30).

Dowse with the pineal gland and the sexual organs the amount of resistance you have to receiving the *Gifts of Grace*.

T2 is having trouble coming back and she needs to measure the potency of her ability to access. She is at 65% of maximal which varies from point to point. The least point accessible is 33% and the most is 100%. So she needs to find the weak ones to build them up.

Twelve Star Link: Twelve Point Echo it is the ***Power to hear the Holy Winds, and the Power to Hear the Traits/Echoes.***
We have to check and make a chart to measure how much of T2 has come back and in which direction she may still be.

NAGUAL DIRECTIONS:

When dowsing these, we can't use the tongue as we can't dows the direction, but a word (sic).
Our consciousness should be on the center of Law and Virtue. We want to get to 100% on all the Stars.

What to do with the group during these sessions?

The group currently has several functions, one is to anchor the anchor (who is T3),
To look at the **Blocks with Consciousness, Dead Center, Law and Virtue** or to find blocks from receiving.
The group is also to pray for deliverance to the blocks. By anchoring T3, we are holding onto the tail of a tiger.

We can't receive healing with resistance. Check your fatigue and whether you are moving off of a Virtue and Law position.
Anchor in, in each direction. The weakest spot for T2 was an earth spot in the Pacific Ocean.
There is a down pull in Chicago that is causing a weakness in an earth location.

Before going into power moves, since we are heading toward something as a power group,
It is very important to clean the earth of blocks as it is manifesting into the flesh; the Holy Powers.

Power to Align Events...Center: Every point has a meridian to the Earth.

Evening May 12 Recap

Recap of the evening lecture (*on audio tape currently unavailable*): In the evening, T2 told stories about T1's personal past. One story described the working conditions at an abortion clinic and the other story was about (two children) and about one being born with a "bad seed". This had the effect of pulling resonations out of the students. We were asked to measure "*The percentage of toxicity that we had to the two issues Abortion and Bad Seed; yin and yang sides*".

Removing Blocks to Gifts of Grace: To do this, equate the blocks with directions.

For example: A Down-Eagle Star block,
A No-Time-Air Star block,
A Fire Star Earth-S. Pole block and
A Reverse Time block with 80 demons.

CLASS NOTES: MAY 13, 1994 Cholula to San Juan de Rio

Example: One student, by grabbing with his eyes, has sprung a leak on the Father aperture with demons and demon molds.

One can choose when to love and choose one's feelings: You can choose to be happy and embrace a situation in the *now*

With complete acceptance, and that is a **Point of Power**.

With the corpse aura low, get rid of Zombie links first and then short circuit them (by looping them back).

It is not logical to worry about the physical and allow the spiritual to drop (in resonance).

If one is not 100% of *Gazing, Grabbing or Looking* then one is just "hanging out".

If one is doing nothing, the spirit shadow could be out maladaptively.

Grab: if one does not Release 100% after *grabbing*, then one will leak monadic fluid, as a *Grab* is done with soul force.

Basic Reasons for a Leak: are *Mentalism, Circular Thinking, Emotionalism, Materialism, Carnality and Merging*.

Carnality includes romanticism and sexual obsessions, sometimes more than one.

Check Your (Quadrant) resonance on your *Corpse, Fabric, Monad*, and the frequency of the *Mold* for % burning.

Check *Pranas* and quantity of substance. If you leak through fire with irritability it will show strongly on the *Nerve Catalysts*,

And manifest with trouble with your oomph, as fire brings oomph.

Example: Rap and Mag should be "Out of Sight", and both of our two "guys" should be two feet above the Out of Sights. If they hook into you, then you have hooked into them with a resonance. This is not *frequency* but *complexity* resonance, as the soul becomes more greatly refined.

How to remain in total equanimity: if one is irritable and not able to be in the *now*, it will cause an instant leak. Why would one be irritable if things (in the environment) are messy? It is materialism; for if someone else has the power to control what you think and feel, then that is not a high soul position.

Mastery is complete equanimity in all situations and identifying oneself with the Fabric above the head. Once one is irritable; the irritability springs from fire prana. If you think of yourself as the higher Fabric, then you won't release fire prana unless you *choose* to. The Captain of ship controls what is on the top, (and is not controlled by what is on) the bottom.

Materialism: is due to corpse issues and one should have a focus higher than that. **For example** the music on the bus shouldn't bother you, however if one is profoundly physically tired, it is harder, but one needs to increase one's endurance. *One needs to hold one's resonance even under stress.*

Anything found under the feet is zombie related. If the top guy (Fabric) is down there, then the bottom guy (Corpse) is down there. If one of them floats off, they both need anchoring.

There are 25 Archetypes of Levels of Souls, If you are grabbing a lower level, release it or fall to a lower resonance.

Check for Water/Air/Fire/Crystal lines in/out: route them back to others and yourself. This is taking charge of one's creations. If you are lying in bed with **circular thoughts**, check for null zone and monadic demons.

To maintain Look: this is a muscle not often used and one must work very consciously to build it.

When one has trouble Looking: the common man *looks* through the grid and to *Look* implies noticing details with normal awareness to evaluate something as an individual. When one can't *Look*, then one is a part of the zombie sea. At 2AM one person should have been *Looking* and instead was in Call Forwarding to another person out to Le. (Train yourself) to *Look* in the night. For example look at the various hells or wherever you have sunk. You can see the other people (ex-students) there.

When Grabbing, check the Level of the Doorway (1-25/ABC) on Air/Fire/Water/Crystal level or the fabric.

Before sleep, Clean your *grabs* before bed. Make sure you are in *Look*. It is easy to *grab* in the night.

Sub Type Hells: Fire demons are a higher frequency and complexity but they are not good for all that.

With a little knowledge and power, one becomes a sorcerer because (it comes with a desire) to hold onto power; i.e. radionics, witchcraft and Mentalism. *Free will is a strong indicator*, the minute one decides to align (with Law and Virtue) (one receives a soul).

Nagual Shadows: are others in us, existing in directions and on a *Star* or substances.

Nagual Shadow Echoes are the ones made by us *out* onto other people.

Evening May 13, 1994:

When overwhelmed, get silly and trivial. T2 is not suggesting you to be ridiculous and not hysterical-silly, but to be controlled in your folly and then you will automatically make gestures to the Spirit for help.

In the Don Juan books (Carlos Castaneda), when they saw the allies, they walked weird and peed in public and acted outrageously. Carlos learned from the *jaguar* - as the jaguar knew what was normal for a human - to act differently to throw the off the jaguar. If he had run, the jaguar would have come after him.

Do the unexpected with no fear emanation and then one can (be in) control

And whether (you are with) humans or not; DO:

1) **Act properly** but when you find yourself slipping and often the (situation) may appear ridiculous - when faced with the insurmountable, do the unexpected. Don't go berserk but (become) Joy vs. outrageous vs. psychotic.

(2) **Control:** to be a master implies control. In terrible circumstances - (control is) relative to our behaviors, thoughts and emotions. First control your behavior and then find a way to shift gears. If you are truly controlled with your Fabric, then you will be led by the spiritual forces as to what to do, even though others may think it is (odd).

With the abortion stories of yesterday, those were controlled (stories). One can do anything if one is unattached. One can tell sicko stories (just) as a sorcerer might and yet only to do it to provoke another person's education or spiritual development.

There was an omen tonight; seeing a drunk man in front of a church on the square,
(It was meant that there) is a *time* to learn control. **One can stay impersonal if seeing with the Fabric.**

If one starts (circular) thinking in the morning, that is due to mixed identities and it is the least controlled time (which allows) for the spirit shadow and water lines go out to people you knew ten years ago. If you wake up with longings, desires, fears, arguments or circular thinking that gets worse and worse, then you have lost so much power you will feel too weak to start up dowsing. With the first sentence to come into your mind that is not holy, jump out of bed and physically *act*. Forcing yourself to get up and do something will provoke a clearing.

CLASS NOTES: MAY 14, 1994 San Juan de Rio

There is something about going near the equator that starts pulling things out. Be very grateful that they are surfacing. But pray for deliverance because they are severe. Other people are a mess because we are here. And when they are clearing their spirit shadows, their weaknesses are being exposed as well.

Ask: "How big is 'Mag Hates Mona' Toxicity?". When a person gets hooked into someone else, then they will start

Getting more circular thoughts and with greater nagual demons, one will dowses as pranic demons (sic).

Black Birds: Connections to *Genetic/Sexual*. **Do:** Pray they be released (other person from you); *Will* to fly out of the mouth.

Color Birds: Same as above with aspects of Anti-Virtue Substance combined with a leaking monad.

Southern Propensities is materialism. For example (consider) the propensity for killing in the southern areas. It is because they are hot blooded and they kill what has wronged them.

Materialism: there is a thin line between sexual excess and materialism and obsessions with force. (Sexual excess) is an identity with the corpse as opposed to being (identified) externally to (the materialism of) house and property.

One can access the spiritual bodies through the subconscious and when one is asleep.

So when dowsing and (starting to get drowsy) hold a chopstick in the mouth to wake you up.

Pranic Threads to Creation and Auric Threads from the Fabric to Monad:

Check the *Joy Gland* (for) *Pranic Tubes* (with) Water leaks as they will slowly drip out, leak and go up

To the Joy to the monad through a blood line.

Check *in/out*, as they will snap with Anti-Law and Anti-Virtue, **Do:** waveforms.

Demon Gas Bubbles:

1) **Nagual Shadows:** These tingle when they are coming out and they form a gaseous bubble.

2) **Bubbles on Skin:** Disintegrate other people's bubbles that are floating in here.

3) **Type of Demon Mold on Fabric:** This is an actual prana component and not a nagual residue.

These can last a long time and follow thoughts of irritability.

BY KNOWING WHAT SOMETHING IS, ONE CAN CLEAR BETTER.

It may look like things are blown to hell, yet just whittle away at it. **Don't ever assume it is physical.**

For example, with severe gut pain; it is *not* what you have just eaten. Be optimistic and cheerful in the face of disorder.

One may moan a bit, but laugh at it.

Notes: With foot boards on the beds it gives a feeling of security.

Ji often dowses as "T1".

Fl appeared to have devotion but she wanted to control. She dowsed as male and wanted to be (male; the old T3). She was calculating and gathering information like a pack rat to gain power. She was linear and calculating. It was very creepy. She wanted to know every detail of the California trip for power and the dynamics.

T2 and T3 can't do this (go out into the *Stars*) when they are sleeping. They need a map to not float out. One time, both of them were floating out. If at that point they can both get to one *Star* they can go home, if they are swinging in space. And that takes *will* to do.

Sometimes a strong and short effort is more bearable than a long and medium one. With God all things are bearable. T2 weeps not for pain, but for evil. Evil is pain, and that is difficult. She is without a soul or an earth cord and her corpse is filled with evil. She is held by T3. Her consciousness will maintain, as ours will, beyond death. Truth, souls, sorrow and pain, T2 knows we will endure and that is the comfort as she knows the Law. And her desire is pure, and her will is strong. The debris we are clearing was the side effect of great holy work; a byproduct of ensoulment, as crazy as that sounds.

Part of the Law is that we clean up the mess we make, even if it is a byproduct of assisting mankind. We do it graciously; our joy is not in comfort but in service to Law and Virtue and doing God's will. No matter how frightened or suffering, we will endure. It is nothing to endure without fear or pain, because then one is like a bull. With temptations, there is pain. Endure in God's path, as it is indeed a holy thing.

Things = Matter and Endurance Has Matter = Virtue. The virtue of endurance is to summon holy protection to (assist/strengthen) what you can't endure when you have done your best on your path.

The battles we deal with are not physical, but they will filter down. The victories of these battles will filter down to the physical to help transform it, with the alignment of Law and Virtue. T2 doesn't know how, but she knows that they will, with Trust. God's will be done.

THERE IS A 20 POINTED STAR OUT OF THE 6TH, THE SAME AS THE 12TH.

CLASS NOTES: MAY 15, 1994 En Route to La Piedad de Cebollas

Virtues are leaking today. We are losing synergy of Virtue and it is causing us to weaken.

For example there is a problem on the Virtue and Holy Being auras. Check the apertures more concisely.

For example Virtue number nine elementals are on the Lehys Aperture. This will narrow down one's personal flaws.

Romantic worship is evil, as a side of you wants to defile. *For example* a person's 'pussy' or 'cunt' is someone's god. Anyone who *allows* someone to worship them hates God in some way.

"Concretized": Such a person may have a flat affect. A lot of **personality** comes through the soul forces.

Sorcerer or Fraud: if you don't address spiritual issues with spiritual methods but instead with physical healing, then that (defines) a sorcerer. *For example* consider the Philippine healers.

Shadows Echoes, Dark Spots and Holes on Auric Layers:

Check The Cry, Mold, Null Spaces, Sex Substance, Tissue and Itch and

Ask: "Which has debris globbed on?"

"For Holy Being healing on threads in/out."

"For number of Dissonance Points in the Vacuum Aura?"

Crystal Thought Trail: This is a trail that follows with crystals from water lines.

Check: "How toxic the blood is with these crystals?"

"For Water/Fire/Air Crystals or Zombie Sea Links, Sewer Lines & Broken Water Lines/Fire/Air."

The placement of Corpse, Monad, Mold and Fabric.

Mold Deviations:

Ask: "What percent of Virtue burning do you have re. the Mold?" **Check**: Globes and Resonations?"

When the Virtues start burning the mold becomes evil and goes to hell.

Nagual Demon Fragments/Shadows/Echoes: These are not true demons, but have all the genetic information within, just like a piece of dry skin with your genetic code. When ripe these Fragments, Shadows and Echoes will slough snake-like off of your skin with a pattern of the nagual demons. We are not full of nagual demons anymore, but we still have the patterns of them. If it is watery it is a residue.

Sucker Connections In/Out with Lichen Lines, These will feed the zombies.

If you *grab* without releasing then you will leave a bit of Lichen since you are using your monad to *grab*.

Crystal Prana Demons

Desire Demon Creation: Twenty demons made three weeks ago are just now coming in to a student.

Virtue Threads/Demons are squirting with Gaze lines.

With a *blown aperture*, one will then *grab* through any aperture, corpse aura or monad.

If someone has already blown the Lehys aperture, then they can drip the monad out of the Air aura of the Fabric.

One doesn't leak from the blown areas necessarily. One leaks especially through the

Virtues auras, Inverse Fabric, Corpse, Mold, Monad and Holy Being aura.

Holy Being Aura: When misused, the virtue threads are seen all of the time (they could originate in Virtue or Fabric auras/whether lower or higher). If the corpse is pulled to one side, there may be something yanking it.

Broken Air Lines: This is like when the underwater broke (sic). One can control the feelings if one is in the "guy" above the head. If one is feeling with the lower "guy" it makes the emotions harder to control.

Look Lines: If one is concerned about the outcome of an event, then you are not impersonal. Be indifferent in a crisis.

Ask: "How many Looks are on you; of any soul type?"

If you *grab* and you cannot *release*, you will send a Lichen line out big time.

It can become like a fiber octave cable. Reel it in and burn it with (---).

CLASS NOTES: MAY 16, 1994 La Piedad de Cebollas

Anti-Virtue Thought Bubbles are associated with **Corpse Grab lines**. If you are generous from the Fabric level, you don't need other people to appreciate things about you. Just accept, and not be expecting (anything in return). (Impersonal generosity) is a high level interaction, (but) things are things, so you share your things and be grateful to God.

Pranic Look Lines: These occur when *feeling* with the corpse. With the corpse, these create anti-Virtue thought bubbles.

For example an 18th Virtue in the Retro Quadrant, is thinking "*Kind* is a corpse nicety"...when one is not truly kind. It is not so holy to be materialistic relative to food. There is an anti-Virtue concept of mercy around having received (or not) a "thank-you".

For example *Sex Bubbles* are created with thoughts of weird sex. The key here, is wherever one has the Sex Bubbles one has *Virtue Rot*. You are killing the virtue with a false idea. Where the virtues start splitting, the monad starts squirting.

Virtue substance is monadic fluid (which is part of) the Holy Being aura, the Monad and the Virtue aura (as the mold deviates with Virtue substance loss). With Virtue Rot, the monad drips out and can drip onto the Fabric. One can have a problem with the Fabric and burst out on the Virtue or Fabric aura, it is the same thing. With Anti-virtue (resonation), the Fabric will burst in the Virtues.

One can lose the corpse aura by *seeing* and *feeling* in the corpse.

Example: Why does a student keep hooking into Mag? The student has a resonation with "victim, romance, heroine" and mistaking the sex act with a spiritual act which occurs through merging the soul with the corpse so that any corpse inclination will *seem* holy. I.e. this occurred when Jma said "The Holy Spirit was (helping) him have sexual orgasms while meditating."

The wonderful thing about being a master:

"Are you master of your fate, are you captain of your soul?"

or "Are you master of your bait, are you captain of your pole?"

There is a poem about the seas of life and remaining (---) with a stiff upper lip.

No one hysterical is worthy, as they will blow out their spiritual bodies in the physical, spiritual and mental realms.

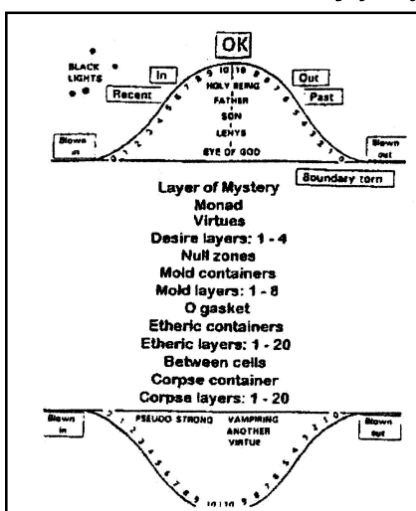

Example: One student torqued a virtue due to sentimentality; by feeling *personal* as opposed to understanding the spiritual perspective of Cause and Effect. One can't be resentful. This can occur with the Fabric above the head, but is often occurring when the Fabric is lowered into the corpse.

We have more power than the common man. If one misuses this power and looks backward; if you think like the common man, then you will tend to leak, and worse, choke your virtues. We have more power in the Virtue lines of force; the power lines are increased. With Anti virtue and Law resonations, you twist the virtues and as the gas bubbles out more readily there is Virtue death. *In every case T2 has examined it is due to fear, materialism, and carnality.*

Example: One student had a fear that if she were not impeccable she would have soul death, and therefore she is not in the now. Contempt of death is indifference while going through being impeccable and being cleaned up.

Have joy in your actions/behavior and be impeccable in the spiritual realm.

← **Chart: Virtue (Other) BELL CURVE**

Example: Another student has an 18th Virtue, Divine Mercy problem. She is *looking* with the corpse, *gazing* and *grabbing*, and thinking someone is rude and ungrateful about the food. She starts to *Look, Feel and Think* on the corpse level and then torques on a virtue. **Ask** "How many *Look, Gaze and Grab* lines are in the corpse feeding Virtue death?" With hooks to others on a corpse level, this creates pranic lines out on Water/Air/Fire.

The key is to *stop* all production of Anti-Virtue thought bubbles and pranic *Look/Gaze/Grab* lines, using the A/F/W/Sexual pranas because we are losing power.

Check your Virtues on the **BELL CURVE**. For these, if you still have lines out, then they would continue to rot your virtues as they are linked into other people with strong Anti-virtue dissonance points.

For example Check Virtue #1 (Will and Power) for *corpse lines*. Sometimes when people dowse, they will throw out lines.

Think of yourself as part of the *Eye of God, Lehys, Father, Son* and that “I am a Holy Being”. If you truly see yourself with those components, then no one can ever insult, hurt or offend you as you truly know you are part of Law and Virtue. With all hurt feelings or sense of being slighted - and this does not mean that you do not *act* if you are being stolen from - but be *indifferent* unless you are supposed to act in a certain way for an outcome.

If you are properly *Seeing and Feeling with the Fabric*, you will know when to be *Cunning*, etc. But the corpse may have a knee jerk reaction like an amoeba if you act only from the gross physical, emotional and mental levels.

For example with Virtue #2 (Love and Wisdom); it is easy to slip into what love is. (One should not be affected) whether T2 and T3 brag on you or are affectionate, as that is a very corpse level translation of what love is.

It is not the function of a teacher to be a mother or a father, but to present concepts and spur a student with (spiritual) kicks. They are not here to nurture you, but to lead. A tough general won't cry, but will kick butt to move the troops.

Because of false ideas of love, it is easy to slip into sentimentality. For example, Jma did not know the difference; he thought the Holy Spirit was (---) that shivers and orgasm was love and wisdom. Jeg, her idea of love was if the other person was orgasmically sweet and effusive. And to teach (by example); T2 will talk about anyone.

The Passion of Christ: *There is a strong correlation to the creative impulse, to Divine Love, to sacrifice for the beloved and Christ as the bridegroom. The problem with metaphors is that we equate form for substance.*

Sometimes it was appropriate to pull a strong creative force to form to do creations (sic). It is similar to procreating babies, but this (procreation) was used for (creation and birthing of) souls and demons of destruction. The force is powerful and it is good to use it with sobriety. It was withdrawn, as it was not used with sobriety; the equating of effect with cause (sic).

Some people got stuck in an initiatory period. The initiation was “Can you use the creative forces as a spiritual force and not just to “get off”?” For some it was the basis of their relationship. If one perceived the corpse as the Divine and then misused the corpse and thought the sexuality was the Divine, then one would torque. If one thinks “Love is a sexual rush” and thinks that is divinity, he would worship the vagina.

If one had had some sobriety during the nagual creative energies, there might have been a time when one was supposed to have a sexual relationship, so as to produce the creative spark with more readiness.

Naguals actually mate, and it was a wonderful thing. (When the nagual-mating was combined) with physical sex, maybe five times more sparks were made. That was correct, to encourage sparks between the naguals. ***Actual sex is not necessary but it is expedient.*** It would be going against God's will if one said one was too tired to have sex when it was appropriate. But if one is possessed and the sparks made would be demons with lines to zombies with succubus incubus, and then one wanted sex: that would produce demons.

If the procreative function is according to the Divine Plan, then know when you are too possessed, as you don't want to produce demons. But (if one has) no sobriety, then thinking whenever one has a hard on, it will seem divine. T2 is not a prude, but everything is (done) in control of the spiritual task.

When the naguals were removed from one couple; if they were clear and if they wanted sexual union, then if they did it, more power to them. T2 is not saying to have sex for creation of children only, but (she is saying that) to have sex between two spiritually clear married people is good, and soothing. But (that is not the case when) one is possessed 99% of the time. There is nothing wrong with orgasm when a person is clear, but there are double charges of contamination with two people together (when they are not clear). Always be clear when having sex and never, ever have sex if you are not clear. There is some deviation to this rule; when one needs to have the auric bodies pulled in.

The Love and Wisdom virtues are the easiest to rupture due to the above. One couple may have a mental, emotional and physical relationship based on the sexual dynamics of their ideas of love without having a clue of Divine Love. If one truly loved God, then one would not have sex when possessed or would not have created demons during ensoulment. But if one doesn't care enough, then one would be wanting the physical above the spiritual.

All Virtues have octaves and the lowest level of the 2nd Virtue would be “A nice person who treats others as self, with family values, who loves the opposite sex”. When you see those people who are not saints and yet you equate their kind, physical acts with spiritual progression and power---if one of us does that, then we have lost, and we have to watch every step. Those are very good people, who are good to have as neighbors, but who are not saint material. They can't separate their dick from spiritual power and have not submitted the lower will of their sexual function to their higher spiritual purpose.

This team must steadily refine Virtue, or lose power. We can't have a sieve in this group with power rushing through it. There are some with whom we have struggled to pull along and they have drained out (the group synergy) for other functions. For example if one student's (power is) out for a lower use, i.e. to get an orgasm, it lowers the power of the whole team. We must know whether we are birthing demons or not and to get off the contaminates.

At this time T2 and T3 are the only two nagual types (in this group). The function of nagual leaders is to dole out nagual power. Everyone has nagual power in the stream of the vortex. That is why those in the stream have to be impeccable, as they have more (synergy) force/power.

We will see on this trip. The group is smaller. Not everyone can bear looking always with the soul perspective and it is easier to see with the corpse as it (feels) more natural, (to the) financial, emotional and mental (aspects of life). For example if (something) does not appear 'natural' (to the corpse perspective), you can't accept it.

WHAT IS RATIONAL TO THE CORPSE IS NOT RATIONAL TO THE SOUL.

Allow the children be fairly normal as they are without the maturity to endure the (synergy) vortex for long. We can't have *Look, Gaze, Grab* lines out to them, or we will burn them out.

If we grab a person with a soul, we can burn them out. That is why it is easier to be isolated; we are less likely to burn people out. That is why T2 and T3 are hermits and do not see the children very much, or there is burn-out; even though they are loved dearly. For example, T2 would like to talk to them, to see them grow up, but sometimes (it is not possible) in the path of a warrior. It is important that T2 gives up those things to help us. Other children don't have the maturity (to be near her). For Top, Jas and Le it is different. We must do what we can to help them. If it is their free will to want to learn, they will always be watched over, as they will blow out from time to time.

T2 has had to see the children in terrible straits. The Dark Forces would say "See what she has done to the family? She is not decent, she is low virtue". For a first level virtue soul that statement would be true, because for a person at the first level of Virtue #1 must be impeccable in the physical form and be a good father/mother/wife/husband. For example the Dark forces are saying "T1 was not a decent wife" but it was correct for her to leave the kids for two weeks a month to teach others and she was impeccable. However to a low level virtue type, it was a sign of non-virtue. If one's only desire is to follow the Will of God, the corpse issues will not lead one astray.

**IF AN ACTION IS APPROPRIATE ON ONE VIRTUE LEVEL
IT (MAY) NOT BE APPROPRIATE ON ANOTHER.**

Just as with the vow of poverty, it is not to give up everything that one owns, but to truly not *think* through the corpse but think, act, feel from the perspective of the soul and therefore be impeccable.

On the first level virtue soul then they will take care of the children and act decently as a wife or husband. If a person is 20-30 steps above that path, then one's actions may be far more different from the common man or woman and they might be asked to relinquish what love is on the corpse level. For example one may choose to have no sex when feeling possessed and choose to have sex when not possessed. Or a person may choose to have a life chaste with no romantic love, or else marry a person synergistically according to the Plan of God.

Some people have speculated about the relationship of T2 and T3, but it is holy and Divine, and within the plan of God. It was not a special whim or selfish indulgence that T1 left Forr and married T3. It was Divine plan to save the party.

But (whether) one acts one way or another, the *appearance* may be deceiving on the corpse level. Then T1 might seem the most wicked, as one who sent off the children and cavorted around the U.S. and hooked up with a man. One can see how the defilers can say she was a tramp and a bad mother. But it was because of her love of her children, to not burn them out or to have them put in another home---it was absolutely necessary to do exactly as she did before/after death.

Knowledge is a dangerous thing to those of low virtue. If they were told about T1, they would think her a tramp. Those of high Virtue would understand and would see truth and holiness and think with Lehy's and know what is holy and feel God's presence from the Fabric level and could *will* themselves to know the truth, and *trust* what they saw was accurate. That is, if they had seen through the virtues from the soul to the fabric and not from seeing through the corpse.

The basest level (for seeing) is the corpse level. Today it is important to not fall to the base level or we can be cranky, romantic, obsessive and fear the past and future. Many people do so and believe that they are thinking rationally and they feel decent. You can be that if you want, or you can be a bridge to the Divine by maintaining sainthood.

Today endeavor to not *look, see or think*, from the corpse but try to look outside of the self. It is the concept of *seeing* outside of then body, then you would not be irritable, sad or have hurt feelings.

**IF YOUR FEELINGS ARE CONTROLLED BY HOLINESS,
THEN YOU KNOW WHAT IS DIVINE, AND NO ONE CAN OFFEND YOU.**

It is absolutely necessary as a saint to *use* what he or she knows, and if they willfully think linearly apart from what they had perceived in heightened awareness, then they will torque against Law in the 3rd Virtue (Divine Intelligence).

Look for zombies to see if they have your **phone numbers**. Check for in/out, ensouled or not. What happens with **Look lines** into a zombie? For example, if you dowse questions about Fl---who may be all over you-- then you will throw out lines to Fl. If you (followed that up with) prana blasting on another person, then that person would have a **Combo Look Line**. One will get drowsy with *Look* lines to zombies and the zombies will be hard to release because what if one used a higher frequency and *gazed* from the corpse?

To LOOK: it is appropriate to Look at zombies and any (object).

GRAB: only with the ensouled. People can have a soul and not realize what they are doing. Therefore, they are able to *Grab*. *You can grab from any chakra/aperture*. For example an emotional Grab at the heart aperture with birthdays etc. would cause neediness and the desiring for company.

GAZE: is to look at a zombie with spiritual eyes. However, if the Fabric descends and mixes with the corpse....one can't worship mammon and God i.e. if you think emotions are holiness (i.e. Jma). Romanticism is defiling, and it implies "ownership".

Jesus said "*But you are blessed because you have eyes to see and ears to hear*". Those who hear the essence of the teaching hear from the Fabric and have great power. Those that shut their ears have lost their power. As with Samson and Delilah; she lulled him to sleep and cut his hair (Law) and he lost his power. Any person between you and Law and Virtue has lead you to a watery death.

KEY: don't give out your phone number (of your aura) to anyone, especially zombies and also for example, family members with souls. Anyone hooked into this party has to have the same standards or they lose their soul. If you *Look, Gaze or Grab* them with the corpse, you are calling them with caller ID.

Look Line: this will happen when the Fabric is dropped to the corpse. Even if you retrieve it, they have it in their Black Book and they can call you. **Do:** Erase your number from their Black Book and change their Area Code and they will assume yours is theirs. Do this with the Holy Being Ring. T2 does it intuitively within the party. *Look* from the top "guy" and do not merge with them. If they are not mixed with you, they can't read you because they only understand the corpse.

WILL and INTEND from the Fabric level, and one can hear tones, it may be different or similar from the throat of the Fabric. *If a person can align with holiness, anything can happen. Hope that even in the lowest depths of hell that people can align their corpse with their soul.*

Check Pranic *Look, Gaze, Grab* lines and connections in/out due to the Anti-Virtue Component.

Check fire lines out and Virtue Bubbles to old selves first.

Sex, Money, Power... There are three ways to get you. Ji was sex, Fl was power. He who serves is great and he is not falsely humble; but to *get* power is to *submit* to power. (By submitting to power) one is (aligned) with it and gets into the synergy.

This is why celibacy is an integral part of the warrior. If one can abstain and it not be a big issue, one can do well. It is great, the sexual (relationship) within the Divine Plan and is only important if it is within the Divine plan.

There are three types according to Carlos Castaneda:

1) **Servant**/Sexual

2) **Fart**/Power

3) **Dreamer**/money, materialism (where grass is greener, i.e. "If this happens then everything will be perfect" they are always in the future and waiting for the tap (on the shoulder) and they don't know when it actually happens. It is as if "Happiness is outside of reach and everyone is holding them down".

It is cruel to give information when a person can't cope with it. Sidestep the information until they can accept it.

Don't tell them if they are not strong enough.

Love of truth has to be your strength: If you love God, you love truth, though it may hurt.

Crystals are the worst, as they are graven images of false ideas; particularly re. Virtue Bubbling.

Homosexuals are typical *Dreamer* third type as they are looking for someone out of reach, with new lovers and visions of beauty out of their grasp or wealth.

Student Example: For Ri: (he has the tendency to believe) "If we think the best of someone they will become it" but in fact (he may) be *looking* beyond the person or at the periphery and not the person's core. Ri *grabs* with the corpse, and he is a natural intuitive, but he notices details that are irrelevant. However, he will *see* 100% when another person might *see* 10%. If you are *Seeing* 10%, it is (easier) to *see* the core, and *seeing* the core is harder for one who sees 100%--because it is harder to hone in, as one *sees* more aspects. In some ways Ri is more highly skilled (than others). The task is (for us to) be able to differentiate which aspect of what we are seeing is important and that is a challenge. If one *sees* too much one can't sort it all out, or one will shut it off or think that "life is a dream".

Some of the most talented people, poets and seers, are hanging on the edge of insanity and it is easy to go over the deep end. The poet is the closest to the nagual, for example Van Gogh. If you see greatly, you can interpret, if you can pull out the core issues. **If one doesn't see, one can't act.** T2 encourages him to narrow his scope when it is appropriate, or to have the wide scope with sub scopes to see the focus (core). We need both the wide and the narrow (scopes) to have great power. We can still see grandly and also shine a pen light.

Also, we can't compare one person to another. Both aspects are very strong. For example Ir can hold her focus sharply with the Holy Beings and pull them down with a fist of iron. Ri can see the broad expanse to (see) potential events, but does not have the scope to order them. He needs to order his scope and her need is to expand her scope to increase her intuition and yet not lose power. (What matters) is that we do not to weaken our strength but that we strengthen our weakness. When the apertures blow open, all sorts of disorder comes in.

(Question) Answer: A person tends to define "flaws" as what they don't have a propensity to. If someone doesn't have a flaw with materialism, it is hard for them to see how others struggle. Like Mag blew all her money and is now indigent and is not supported. A person who blows it all, is the same as one who hoards it all: "All or none". One who blows their apertures out, or one who can't (open or close them) them, have the same flaw. It is just the flip side. Those who are grand (with the light) will antagonize those who are stingy with the light.

Get rid of all weaknesses to not see others through your own flaws. With no weakness with carnality, one can talk about sex. The sexually oppressed will criticize those who are promiscuous and vice versa because it is (the same weakness) manifest and unmanifest. Know when is appropriate to be sexual or not. A master can control issues as opposed to being a pawn to be tickled in the privates. When one has control, one can be faithful without mental circular thinking. One can experience sexual joy and also decide not to close and open (one's apertures) when appropriate and this is power. It is easy to criticize another if one doesn't have the problem.

It is easy to say FI had a power issue. If you are Type One (Servant) and like to work in synergy with others, then it is easy to criticize the Type Two (Fart/Power). Yet if one understands power and the initiations of power, one may see something in another person as a weakness, be able to describe it and still feel the tenderness in the heart and understand it. With love, compassion and desire, one may overcome. (We are best able to) help others, if we understand (them) and experience (their) weakness on some level and (have the ability to) overcome it. T1 was excessively romantic and she overcame it.

Power: one may be at the top of one's profession with everyone respecting you and (yet we need to) be willing to be anybody. T1 was a top executive with a (leading) position on a documentary on TV, where they spent two weeks with T1 and the patients, and T1 taught them. T1 had power in her profession and she loved it. With this personal power, she was able to recapitulate through painful initiations.

Look on suffering as a potential initiation to overcome and to be given a chance of recapitulation (such as when raising children under difficult circumstances). (There is a loss of power) if one can't control the Love/Romance, Will/Power, Intelligence/Use of what one has.

On the low end; there is a proper use of the low end. (T2 will also show the proper use of the spiritual which is the high end). "The good steward" in the Bible used his "talents" in the vineyard. "To whom much is given, much is required". When one has little, it is taken away (and that means) if a person's virtues don't grow, then they will wither up.

Change is ever reaching, and the bird of truth flies forward, not back. When you pass the initiations of Love, Will and Intelligence you can continue to gain power. We have done well. Do what we can to encourage those on the periphery, shine a light and encourage hope that the others may rejoin later.

We have more synergy with Light Virtues and Laws and the more good we can do. As with "The Prodigal Son" parable: if a person is anti-Virtue and has blown apart, T2 and T3 have tried to help them come back and survive. They will watch over people until it is a loss of energy.

Conservation of energy is our challenge. If we don't conserve our energy, we can't do anything. It doesn't take many people (for synergy power). We are a powerful war party. All of us are impeccable with a few blighted points to be cleared. Whenever judging another person harshly, suspect you have the other side of the flaw, which is unmanifest. Your job is to look at each person's flaw so as to be perfect (yourself). It is important to discuss those that fall so we may clear them; (to understand the) manifest and unmanifest aspects and to not fall astray.

Anyone who steadfastly works to refinement will stay and receive help. Only with conscious intention would a person leave (or be asked to leave). *Every person who has left (this party) was through their own lower will.* Those that didn't

change were bucking (Law) with their lower will, every step of the way. They think that T1 kicked them out, yet they bucked up against power (of Law) and they lost out.

Ji dowses as T1, as she was bestowed with T1's naguals, Dreaming bodies and mold. But due to a lack of gratitude, humility and by being obsessed with power and romance, Ji turned on her benefactor to destroy her. It was a good lesson. Her *rational* mind "was her mind". If Ji had taken away T3's power, he wouldn't have been as attractive to her. The (old T3) had a propensity to gentleness, sweetness and a lack of harm. He was not along a line of fierce willfulness, but was a visionary and would see the good in someone. With the T1 naguals, Ji had a fierce will and (the naguals) gave her a sense of glory, strength, power and grace. She cut T3's natural and endowed powers, as she wanted to own him and (she wanted to) hate.

Vampired Eye of God example: T2 got wobbly when she was assaulted by elementals in the liquor store. It was the curiosity of three people looking and thinking "That is a very odd looking woman; exotic" they didn't think she was American, but a mutant from elsewhere. Maybe it was due to her emanations as well. At least two of them had souls. They shot out elementals at her and she was unsettled. They had a type of spirit shadow with substances which stunned her like an animal (and took her) off balance. Then, a student dove in and unsettled T2 for another 10-15 minutes with a *Look* line, a pranic water line that shot out. Normally T2 can deflect these, but at that time she was dizzy. The student then formed a web by tapping into others and the web crept in. So T2's Eye of God is sucked dry and is now 6% intact. The Fabric shot down (to the corpse).

When people see soul energy and vitality as in this case, which is a *spiritual* vitality and not physical, they will keep drinking as they are hungry. People drink soul substance so fast when they don't have any themselves. Then the energies go out and web. It was a golden (teaching) opportunity.

T3 states: She felt she had been "recognized" in a crowd that (normally) should not see her.

T2 states: As when Jesus said "who touched my robe?" I felt the Virtue go out of me, T2 felt something go out. Since it was to two ensouled persons who had recognized her, she felt a call in the wilderness. When she stopped to listen, she lost her balance, and dropped the veil.

When people degenerate, they try to vampire those around them. They are very hungry. T1 saw this around (a former spiritual teacher), who was a person who had so much spiritual vitality. (The people around her) were hungry, desperate and drinking (the teacher's energy) constantly. She had a Mother Mary statue that cried holy oil and the people would come in at night and desperately grab at the oil. She had to hide it and put the oil in bottles and occasionally dab it. But the people there didn't want to change. There were Lesbians, etc., and they wanted blessings and yet they didn't want to change. (In the market, T2 saw reproductions of holy people with nagual eyes, which look iridescent).

People were chasing (this spiritual teacher) to drink her power and she wasn't discriminating, so she had satanic types and assholes (surrounding her). She prided herself on love, and then someone set her up for practicing medicine in an herb store, and she was in prison at the age of 80. At the time she was one of the holiest people on the planet. She was like Mother Theresa in her propensity for love over intelligence.

Look at everything as a challenge to being impeccable and understanding the workings of people of various levels of development, like those in the street here. By being in an unusual place, the energies are unusual and the soul influences are different. T2 was rattled in the market and T3 (was rattled) in the catacombs. If one gets used to these energies and then gets smug (*missing words*). One may be in the same location (all the time), and become more set (in habit). *The more you change, the more adaptable you are to change.* It is like stopping to listen in a busy place, be open to lines (sic).

Consider anytime one has a problem with the feet: When T1 was struggling to bear up under the path, she injured her feet so badly with a spike through the foot, to the top of her foot. It was a tree spike, a piece of dried wood like a knife through the foot. (A child) was sitting naked on a cactus at around two years old. She saw the spike through her foot and pulled it out, got (the child), pulled the cactus out of his butt with her foot a mash. She got tetanus and lockjaw. Then the other foot (was injured). *Whenever the feet are injured, then one is struggling against the path.* A foot rupture is a struggle.

Ankles are a generative disorder. Knees problems are very serious. Think of the foot and knee, the elbow and hand. One is up, one down. The right side is yang and the left is yin. If the elbow goes out, the virtues are haywire. Knees are virtue related to materialism and bringing spirit to flesh. The hands are related to intention.

The lower part of the body is what is planned and the hands are what we do. If we screw up in the manifested; we may have big plans but don't do the dirty work. There is a failure to bring what you know into manifestation with problems with the feet and hands. (Bringing) the Logoic (---) into awareness: is the hands and the Logos as a shield (sic).

The ability of the fingers to bend backwards is a mercurial characteristic. Long fingers shows a person reaching for heaven and the spirit, as one who tries to reach but can't manifest. Or (it may represent) one who may grow spiritually and has not yet manifested. With long fingers, one has tried to struggle many lifetimes for spirituality.

T1's mother and father: he was about 5'4" and T1 shorter, yet she had longer fingers than any of them. Both parents were sterile. The father was married four or seven times before, he was never able to father a child. He married several

women whose names were all Mary (except for the first wife named Gloria). He never found a Mexican (Mary), but he found Mary --, who was Dutch, Irish, English and who was a big ol' gal. He was a fry cook and she was a waitress. They had an eye to eye romance and in four days they had made love and married. She had been married twice before in the early 30's, both to the same man. The first time she was 15 and he was 37. His name was Vincent. He was a Science Fiction writer who lived in Spain. Both were virgins. Vincent had been looking for the perfect woman. He was half Spanish and half Indian and finally joined the American Air Force and met Mary at the USO. At 15 and 37 they fell in love and got married. They didn't know how to have sex; they bought a marriage manual but couldn't have a child. He suffered.

She became bored with him and at 17 she went to New Orleans and became a bar maid and met the man of her dreams. His name was Johnny. She loved him, but he was a rigid Catholic, so Johnny couldn't marry a divorced woman. So Johnny and Mary had a passionate romance consummated in New Orleans for weeks on end, but she realized his parents would not accept her as a Protestant and a divorcee. So with a broken heart, she goes to find a husband to bear a child. She was obsessed with the idea that if you love a man, you bear his child. This went on for a year or two. Johnny would never have a child; he lived on an army base for a few years and was shamed to marry a Protestant and a divorcee. She married Vincent again and couldn't bear him a child. She gave up on him, and divorced.

She left New Orleans to Dell City, OK and then decided to seek her fortune in California, in 1949. Mary went to California to seek her fortune, with a broken heart. She was a waitress in a hamburger joint and she sees a *savoir-faire* looking fry cook. He was behind the counter and looked like Js, but was more articulate and more of a charmer. T2s father was a ladies' man and was fair (in complexion). His hair was the color of T3's and he was Dutch, Irish and English.

After four days of making eyes over the grill, they married at a Justice of the Peace. She was his 5th Mary, and within a week she was pregnant. He was angry and thought she was a whore and that she was pregnant before marriage. She told him no, but he didn't believe her and he was furious. He drank tequila he was so pissed.

At the hospital she had (K). He was pissed because he had (---). She had wanted to name the child Moriah, but he told the hospital to name her (K).

He resumed connubial responsibilities and within a year, T1 was born. He was working as a maintenance man in Southern California and he was concerned Mary was sleeping around. He was putting up asbestos panels in 1950 in Southern California and was convinced she was sleeping with others, so he went off drinking mescal, and at the last minute he was at the hospital. At the last second, at the dime store, he bought a bottle of "LL" toilet water, so he put on the birth certificate "LL" and T1 was named after toilet water.

A year later (a son) was born and they gave up on sex. (The son) was the only one with an Irish name and the daughters had Mexican names.

Carlos Castaneda had a propensity to detail and couldn't see the overall. Had Don Juan had another disciple who could see the overview, he might have recited the details of his life but for Carlos, he would not. One thing to know is that T2 can recite (details of her past life), but she has no personal history.

Spigots: are water line connections to another person's water.

Check: The Virtues on "How deviated one is on Money, Sex, and Power on each virtue?"

As each one has an application of those three things.

Ask "How high is my deviation to that Virtue, relative to sex?"

You may get one that is a high percentage and two little percentages of deviation from holiness.

For example one student: Money is 22% deviated, Sex is 100% and Power is 100%.

A sense of *powerlessness* will show a deviation in Power.

We don't get over our propensities with lower will, but by thinking, feeling, with the Fabric and aligning with the perfect will of God. **Pray** for Divine Intercession to get over it.

Why do we have Eye of God threads out?

If we are governed by outcomes and fear of the future, then we have lost all power.

Live by being impeccable in the now. To prepare for the future, do it with a strong impersonal approach.

With turmoil in the naga party, one may think that "No one is left, and everyone has lost their soul".

That is a weak position. Just do your best and let it go.

One student: With #9 Virtue Retro: That is the misuse of Creativity due to fear, resentment, hate, ill health, parental disapproval/approval and old propensities. It is not proper to tell too much, as this person needs to figure it out by his or herself. But these are the key words to contemplate. Also one student had a Virtue #20/21 boundary rupture relative to "Aimless, Injustice, Castrated, Insecurity and Will".

SCALES:

In the Now Scale: This is when one doesn't stay in the *now* or isn't able to control hysteria; then one will blow out.

Keep an eye on the *Hysterical* and the *Now* scale.

Hysterical Scale: Sma is 100% hysterical and that can be *perceived* as good or bad. With **Euphoria** over romance, one can appear very jolly or be depressed and out of control. This has caused her containers to rupture. This can occur with no outward manifestation, but (there would be) an agitation propensity, which is like stretching the apertures and making pranic spouts. It is like looking at a system of auto-thermostats, which keeps sticking with too much H2O in the pressure. It is not that there is too much H2O, or that it is filled to the top by the heating/expanding. But instead it is a problem with the cooling system. With substance in or the force of pressure going in: there is not a steadiness to it. A person may feel an elemental in the room and be so agitated she can't keep still. *And even without an obvious manifestation in the physical appearance, the aura will show it.* (This problem reveals) a fear of future and being out of control on the thoughts.

Check each other, if one person's *Hysterical* goes over 10%, then other people will start to *Look, Gaze and Grab*.

Looking with the corpse is inappropriate right now.

Pray for deliverance of propensities: for example today has a focus on materialism and you can check the % of deviation you have on your apertures and virtues. Yesterday the propensity was Sex. If you find someone *grabbing* you, simply find a way to release them!

Father Aperture threads are floating in the room.

"Unrequited Love" Problem Scale: this is a sense of fear that what you love will be gone in the future or past. For example Aur just slid into Ji with a water tap and she resonated with Ji which attracted Ji to her, through the law of partial resonance. This would represent "Something is missing from one's grasp", "Feeling slighted and shorted" for example, or remembering a romance one never had and old self aspects. It is "That what I desire is just out of my grasp." Such thinking opens the spigots and causes the Virtues to leak.

Put your sunglasses on if you are leaking out of your eyes: T2 and T3 are putting 24-hours-a-day welding helmets on the brow apertures with Eye Thread Corsets. If one keeps throwing out threads, then one has a major Virtue block.

Examples: Some people are going back to old area codes, of old self in Fire, old Air and old Water.

The Virtue blocks reveal that we are wanting to be the way we were.

Broken pieces: Ask "Where am I, and Where is (name)?"

When Hysterical: Ask "What aura is hysterical?" For example check the Blood aura and remove the links in/out AFW.

This morning they are going out on the Stars. Two Stars; one with 30 points and a twin, with moons.

Check the Blood/Water Dissonance points. This is changing for people who are actively involved in synergy. The idea is to move them to such a different part (of spiritual anatomy), that they become completely inaccessible to others, except to those with something similar.

This is a blessing, as changing points is like taking the Dissonance point to a higher level of being and it is further away from any sphere of humanity. It is making us more formless so that no one can grab you unless you try to reform (your old self). So watch. T2 doesn't think we can completely reform them though. It is like a fireball passing from person to person and changing our positions.

T2 *sees* two males sitting on a bench, Jgu and Jg sitting together. We must do something to tear up all of their fire lines so that they shoot blanks.

Reference: Communion, Rudolf Steiner, Carlos Castaneda, Function of the Eagle

Communion: is the offering of the lower self to be eaten. It is a way of recapitulating and it is the offering of the lower self as food to the Eagle. It seems backwards, eating the body of Christ, when we should actually be offering our lower self. It is the manifest and unmanifest, the eating of crackers of Christ and asking that the lower self be eaten. It is traditionally the pulling in of the body of Christ and the offering of the lower self in exchange.

There are incremental communions:

1) Offering of self and

2) Eating the body of Christ.

The problem is, is that parts of the self are not eaten and are not filled with Christ. But we have to empty our cup first, like with the Virtues. (One needs to find out) which anti-Virtue has not been eaten or one can't have right Virtues.

Communion is a reception, but we have to offer *out* as well, and that is not in the tradition. It is only 2/3 parts receiving of Christ and 1/3 part recapitulating which is like throwing your old self to the dogs of hell to be devoured.

Rudolf Steiner discussed the mysterious aspect of Communion and the higher levels of food for the Archangeloi.

Don Juan said (in the Carlos Castaneda books) that "The food for the Eagle is awareness". The Eagle/East is the (place of) compost of those who are not aware. The Eagle likes Awareness and will eat you and spit you out. In a way it is digested and purified when it is spit out.

There is an aspect that Awareness produces, that can't be eaten or devoured, so one is impervious to the Cosmic digestive process. At a certain level of refinement, one can go past the Eagle and it is a most mysterious process to see unfold.

CLASS NOTES: MAY 18, 1994 Tuxpan to Manzanillo

Demon Seeds: are in the Holy Being aura of the Fabric with leaks and *grabs*; squirt lines and droplets.

Inverse Holy Being Aperture: Check

Vampire Feeding Line: This becomes a web, (initially a thread) only when the Fabric aura and Holy Being aperture is pulled to the face, eyes, nose, mouth. With a lot of lines in zombies and the ensouled, we then vampire people and create a web with more energy. The Holy Being aperture slides to the face when the Fabric slips. It is very bad if the Fabric is at the corpse level or further down. The Holy Being aperture carries creative force when it slips to the Fabric.

Inverse Concepts = Demon Factories with creative substance in them. This happens under stress and when people start to resonate with anything. One may start with *Gaze* and work up to a *Grab*. Fix your eyes on the scene with a wide or small scope. When it is wide, then you may be in shock and *grabbing*, then the Holy Being aura shoots out. When you are around *anything*, ask if the Holy Being aperture is *grabbing*.

It is interesting and T2 was wondering on the bus whether one could get Holy Being lines from a zombie? These can last 7 weeks and they were made days ago. We can throw these out from the fingers and mouth. We may be trying to clear someone, but we end up throwing out the lines.

Grab lines implies a leak: i.e. the Eye of God is frozen in a stare.

Father Threads broken: These could be anywhere on the body and could be in/out with others.

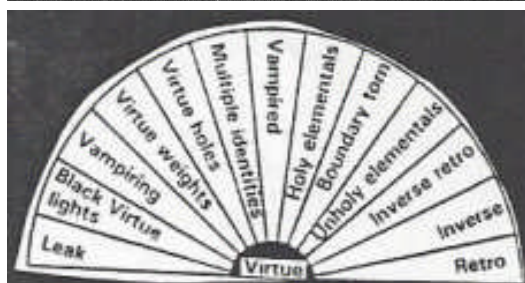

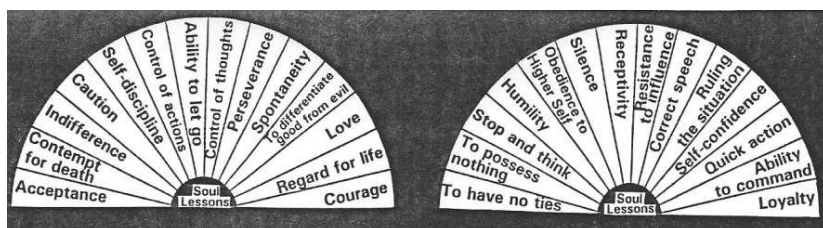

Aperture threads can be carried 7 weeks. You can dowse Air/fire/water/crystal substances on the threads.

Key: Is knowing when one is *Creating* and when one is *Grabbing* with an aperture.

Check: Each aperture on the Quadrant and Law clock charts:

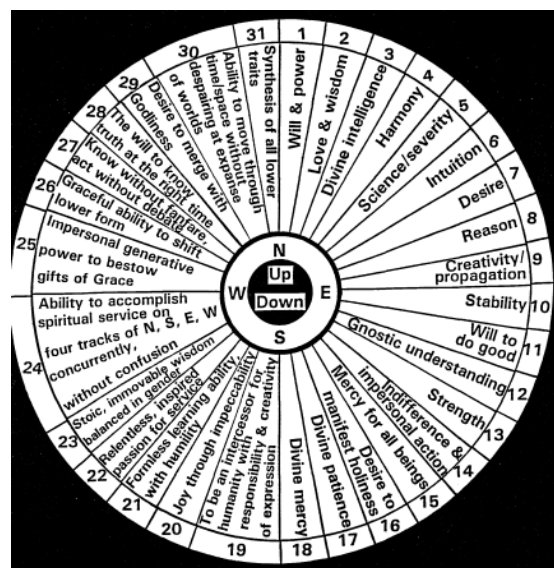

Example: An inverse Holy Being aperture is haywire, so **check** your Soul Lessons, the Virtue Conditions Chart, Aura Charts, etc.

Example: check for Virtue Webs out from the Holy Being aperture.

Charts: Soul Lessons; Virtues; Virtue Problems

CHECK: each Virtue up to 31 to find webs: Map these when leaking; **Ask:** "What is the emotion or focus?"

Emotion is a sense of habit or of split time that is not appropriate to the new anatomy. Emotions are provoked, but whether they *have* to be is another question. If one *sees* and *feels* with the higher "guy", emotions should not be provoked. Otherwise, it is zombieville.

Check: The Holy Being Fabric location.

To see "*Lost...Vampiric...Shock...Hysterical...Archetype...Real...Web...New/Old*".

When *lost*, you will get confused, dazed, spiritually drunk, goofy or depressed depending on your propensity.

Ask: "How many people *is* me?"

These are separate lines and the language of the subconscious is not the same as the English language.

"How many are me, is not right?" These questions are logical in an odd way, a loose way.

This is fluid logic, it is not bad English, but it is logical.

Ask: "How many ME's are (insert name)?" ME's are one-way *Seeds/Webs/ Lines/Or All of Above*.

"Where is the worst open window in the room?"

Check: "Rap" crystal trails...*Trait Demons*...

And *Hysterical Scale*: Which is a propensity to something.

The word “**hysteria**” often occurs as a result as using Virtue for fuel. Fuel for what? For a Rush. Though one may *appear* depressed when hysterical, that is an indulgence and some people are more happy when depressed than when they are actually happy.

Add to Charts: “*Rush...Habit...Euphoria...Depression...Reinforcing Propensity/
Habit of Thought...False Reality...Out of Control.*”

Example of a soul lesson: Virtue 14 is using Virtue 6 which means it is Inverse/Retro and a “habit of being”. One would need to change with the personality. Sometimes (it is appropriate to) be studious and introverted or extroverted. One needs to be able to work alone for a long time with meticulous study and yet also be able to see the big picture.

One is to be so fluid, that one flows through time and space. First be fluid in the personality before being fluid spiritually, as one could be berserk instead of fluid. But this implies an ability to pull it all back together when one is shot. Be fluid, but not spastic or out of control.

Retro is Habit.

Inverse Retro is alignment with evil.

Inverse is resonation or *choice* against what one knows (to be true). The more one *knows* the more (responsibility) one has to work. For example Sma: some people may *exhibit* control, but they are out of control. We need to widen, if we are shrunk on all the virtues.

Check each Virtue for level of Hysteria.

Split time old self lines web to the old self. Check on the apertures, corpse and below the feet.

Ask: “*How many people’s Sewers are under or in my house in this time and split time?*”

Zombie Clouds: carry high hysteria with sex and money, usually. This is not the Fabric.

Prana Rush: Is zombies looking for a rush. They were ejaculating sexual prana into the bus and it went over us like a cloud. If you *lock* eyes with them they *grab*.

Be aware of when Hysteria comes over you. You may feel:

- 1) *Dazed, high, drowsy and locked in the environment or*
- 2) *Feel an agitation/rush.*

Even when we are asleep, the sexual pranas can affect us. DO:

- (1) *Fire waveforms and burn it as it hits you.*
- (2) *Don't fix your eyes (in a stare), don't get sleepy; stay alert.*
- (3) *Focus on something else.*
- (4) *Force eyes to roll around and (gaze) at the scenery with control of your eye movement. It will keep you from being stuck in the Hysterical eye movement.*
- (5) *Dowse which way to look for a while. Look at the end of your finger and dowse where to move your eyes and lock. The cloud will still be there, but won't be hypnotic.*
- (6) *Watch on the buses because of the law of Vibration, The emissions from the zombies doesn't have to be intentional. When you are tired while in a busy place, don't let your eyes go into a lock as a person or town's emanations can pull you into shock.*

Become conscious of this and learn to do it automatically when in a new place and when you are not sure. We have several hysterical clouds around us right now; it is 7x saturated (in this room). This is due to people's weaknesses, the grid and not being in the *now*.

We are more high-strung than most, as most don't have a Fabric to deal with. In general, look straight up. The worst position to be in is to look down with the eyes closed. Don Juan said to tilt the head and shift the eyes. We can learn to do it automatically and it affects the shift of the pineal's spiritual sand.

One other way is to move towards the Son aperture. *Down* is off balance. The tilt of the eyes and position of the tongue and tilt of the head affects one's response to the Hysteria clouds. (Doing so) pulls down any resistance to drawing down power and blocks.

This is Manna From Heaven in the desert. The more one does this (with the eyes) the more one feels it like a lump falling down. When Israel couldn't keep going, Moses had to do this to keep trekking.

Method to do the Manna: with your eyes, head and tongue up, ask the Holy Forces come into the pineal and pray to be able to do. Some can do a lot and some a little. More will come with practice, and the more refined one is the bigger the dollop received. You can give someone else a dollop, but with a Virtue block (in them) it will hinder you and stuff in the lines will block it, with old self ties and grid clouds.

Note: When you dowse “T1” check to see if it is “T1”/“Ji” or split time “T1”. It is much easier to clear with the pineal open.

Ask “*How many people is me?*” And check on the pineal. The apertures can be open and still contaminated/toxic.

Ask “*How many molds do I have or apertures, mold links, foreign mold bits, of current self or multiple molds of others, from parts out/in?*” **Check:** for foreign bits and broken A/F/W/Sex lines.

CLASS NOTES: MAY 19, 1994 Manzanillo

Salmonella (missing text)

Pull all substances down with the Manna (sic).

"T1/Ji" Toxicity energies: some are now returning. Anyone who feeds into her will dowse as that. The dissonance points of T1 were given to Ji so that the corpse could die. T1 was born in June and her nickname was (L)-June-Bug. Her uncle was Orange Schnook (--) and he called her "Linna-Bug". T2 has an inverted triangle red spot on her knee. The Ji energies were able to enter her from a weakness of the corpse.

Surgical scars are a blind spot. If someone is obsessing about you, they will enter through the scars.

It is amazing how long **nagual energies** will last. These are coming back after a year and they were at their peak then. Being in the south makes it easy to force out residual nagual power distortions. This morning a couple of T2's naguals were chewed to near death due to these returning.

Exercise: "Stand on" Law and Virtue and then throw your consciousness line through space to hold on to T2. St will hold onto T3's nagual at the (A) position and pray for divine help. T3 has the (the original) T1 nagual (that needs) to be destroyed; lured by Euphoria to death. People are hooking in through the animals. We forgot to change their phone numbers and area codes so they can't be traced.

Disorder (is floating in) from the street, how to prevent it? The aura breathes, so breathe *out* the disorder consciously. Throw things into concrete and water. "Milk" from the eyes.

Do: Get into the habit of willing contamination out and put into water, trees and concrete. Most people are filled with A/F/W/Sex disorder and for us to think we can be free of that, is phenomenal. If we do well here, we can do well at home.

Grabbed? Push back and reject it. These *grabs* can be pushed out of the apertures with a cough, laugh, a sound of the voice or with the mouth. There are ways the mouth can entice, as well. The face is the most likely (point of entry or exit?), the breath, genitals and eyes.

If you feel a sudden urge, if you feel genital stimulation, it is a pranic *grab* to a crotch from a crotch. If it is someone who is putting out a (genital) *grab* - then electrify your aura. **Do** a waveform and that will fry whatever it is around you.

Keep yourself from unconsciously Grabbing. Be *aware* when the Holy Being aura splits and study the feeling of it.

Practice Grabbing and Releasing. In this journey, what is ready to be released *now* in a student: it is the poison of the old self tying to eat away at beingness of new person.

Beckon the Spirit:

1) With levity.

2) With grand gestures: which includes the ridiculous and dangerous (?); controlled folly with no logical sense.

For example why have we come to Manzanillo for our class? With all the expense and trouble and with two nights ago at 4:45 AM we heard people pleading for their lives in Tuxpan and then we heard them shot to death. Then we heard four more groups of people being shot by police for being insurgents. Around 350 people were massacred outside of our window. It was good for us, and bad for them.

Even in this town, we see the jeeps with the automatic machine guns, which is going to make us have "Death as our advisor" and move the assemblage points. With all of the physical difficulties (everything) will pull us into higher awareness to see our weaknesses and remove them. Even with (seeing a) drunk, (Death) may be showing you something, a hint of the drama. Death is on every step of the way.

DO: besides clearing the molds, go through the auric parts and cranial nerves to split-time, which have mutant auric parts created with old lovers, etc. A lot can be found on the *Albumin, Lion and Nagual Mind*.

Mutant auric layer creation to old self split time: If the mold gets fed, it makes the split time components.

Pray: *I ask to be totally new and release all parts of me that are holding me back from my soul's purpose. I ask for the courage and the strength, and Divine Intercession to be new, powerful, strong and holy, so that I may better serve God's plan. God's will be done in all parts of my life. Amen.*

A warrior does his duty, if he is to pull (---) of a job, then he does it. It does not matter if it is a long, slow job, but (what matters is) if one is relentless and does what one is supposed to do without thought, speculation, or whining. One just does the job.

(The Holy Beings are) helping us to release (----) for purification. If others are fortunate they will have similar experiences. **(What matters) is how open people are to change and it will beckon the Spirit according to one's impeccability** and one student has struggled.

CLASS NOTES: MAY 20, 1994 Manzanillo

On the Apertures: Pull back and disintegrate *grab* lines to old self, etc. **Check** Condition Charts and Soul Block charts.

Spirit Shadow Contamination with Sex Substance

Itch Gland Links: Has to do with water

Crystal lines through Mag/Nik

Father Aperture leaking below the Corpse feet

Check Lines that go down from apertures to below.

Foot Pulls: Links to past self

Evil Birthdays

Joy Squirt: anti-Virtue, self or in/out. **Ask** "How many anti virtue links do you have?" **Check** relative's *grabs* from apertures.

How many people in the Joy Gland? This is from gazing in the street, then having merged.

Split Time Selves in Joy Juice? Has to do with location, and causes past lines to old self to light up.

Name Drops Old/New from zombies and ensouled

Corpse Grab Lines: One can *grab* with anything.

Old Self Name Lines.

Renegade Self is like quicksand in a mirror, it will slip and disappear. Pluck it out of the eyes and what is beneath it.

DO: *chop up the part of you in (below) the mirror and break the mirror.*

Self-reflecting will pull you into the mirror to who you were.

NOW Consciousness is like a white bird and we need to build a mold on top and it is a type of baptism. A white bird on the shoulder and into the chest is the consciousness. Missing parts need to be rebuilt, and that is where most of the lines are going; underneath. There are a lot of people on the other side of the mirror and whole worlds: *Sucker, Dead and Zombie.*

We meet (ourselves in the mirror) in the feet, and if we ever step in (the mirror) or look down and then think that is (who we are), then we can grab (ourselves) and be pulled through to the (mirrored) souls. And then we will be walking around with our feet up, looking down (to the original side of the mirror) and then we will think (what we are doing now is) evil because we are looking "down". When one is slipped to the other side with an astral view, one will try to kill those who are above who appear to be walking upside down. And (such a one) would feel justified in "ridding the world of evil". Those (below the mirror) will try to catch (our) feet and that is why we have foot ruptures. **We have to shake the dust off our feet.** Float slightly above the mirror and a little above the water.

The Holy Beings will hold you up to the mirror, and to Lehys. If we look in the mirror and join the haters, then Lehys will leave you to be pulled ever further down to a watery death.

It is dangerous, the mirror of self-reflection as one drinks death water to feel human, because one is tired, and lonely for those who are walking upside down. They beckon you; the sirens and the water nymphs. If they can grab a toe, they can reach a hand through the mirror and pull you down. **Remember to keep a Lehys built space under your feet.**

FUTURE: In two years a different kind of rapture will happen on Earth: in May, of 1996. A stronger division will (occur among people) and people will have a more marked difference in appearance. There will be a type of tribulation in two years, as the mirror will still be visible in two years. The bottom mirror will disappear or, the top one, depending on (the location of) one's consciousness.

Virtue Fireball: This is one's past through the mirror.

Old Shoes: are a mold of the foot pull and occur if the feet are dipping under the mirror. **DO:** Tap three times and wave a magic wand over the feet. *This is the Wizard of Oz: the Father, Son, and Holy Spirit and the magic wand brings into manifestation.* **Movie Reference: Wizard of Oz**

CHECK:

How saturated/wet are your hands

From being under the mirror? **DO** a freeze waveform.

Dirty washrags

Dirty underwear Yours/Others

Snot Rags: Out /In

Water Bugs: From Water Aura

Fire Ants: From Mother/Myself. Step on them.

Air Flies: out of St

Maggot eggs

Giant tadpoles/frog eggs

Crotch hairs in the room:

Dog Breath: Fl breath

Ji Flakes: Skin flakes in the room.

Crab Lice: From Ji's crotch

Bmc Armpit Odor:

Reference: The Guardian on the Threshold/Lady and the Tiger

The Guardian on the Threshold is our own weaknesses reflected in the mirror of retro-self that bars us from eternal life. They eat the corpse because they like to eat you up. With more miscreations, the greater the Guardian becomes and we are eaten after death. We meet it every step of the way. It is sinister, yet it is part of ourselves.

Do not embrace it, but destroy it.

**If we (or the holy beings) can destroy our miscreations, then we can
Glide peacefully though worlds with no demons following us into higher consciousness.**

The more power one is given the greater one can miscreate and the demon/Guardian gets bigger.

It is the Lady and the Tiger: "Which is the real me, which door is open?"-There is an O. Henry story of a man thrown into a pit and was told he had two doors to choose from; one had a beautiful lady and the other had a tiger to devour him. *What if he got the Lady, but the Lady was (also) a tiger who destroyed his soul?* There is hope with the (other) tiger, in that one may be spit out. But with the Lady, one loses consciousness and is *not* spit out, but devoured.

The "Tiger" has double meaning. With the (Tiger of the) Lady one is devoured in the soul. With the Tiger (one is devoured) in the body and not the soul. Look at both the Lady and the Tiger as miscreations and that the Tiger is of the self. When one opens the door of the Tiger (one may) make him a kitten. We have the powers to be gently (changed), then the Tiger will be a kitten and the Lady (then) will become a wisp of wind that floats away, and you will be safe.

(The following two paragraph remains as originally typed.)

To be useful with the powers as kitten, the kittens are more powerful and they find things and bring things. The Tigers are intelligent and do not devour. Be a Tiger handler and if the Lady is best because your wife is the other self mirrored up and should be the balanced yin/yang representation, but the yin/yang balanced will not kill the soul.

Open then, either door and you will be safe. **To be of use, one must master the Tiger and the Lady.** The antithesis for females in the story was for a man: i.e. Prince Charming or Attila the Hun; Woody Allen, or Armand Assante.....will he destroy the soul or be an echo of holiness? Small yang/yin behind the door. The Tiger for the male is the large yang. One can be murderous or one can be controlled by a being a master with the first attention. Does one control the primary gender and the unmanifest gender?

The reason the male and female are attracted is that they want to make a complete whole. So (O. Henry wrote) the Lady was preferable, but on the coarsest sense it was the Tiger. With prayer, is better to be destroyed by one's own powers as opposed to procreating evil. **The Tiger annihilates and the Lady procreates.**

The greatest challenge is to control the procreative sense to not create evil energy. The doors are always slightly open and they may leap out at any moment. With the Lady one thinks of nirvana, and the Tiger is terrifying to think that "others are after you" with your own miscreations. *We should be devoured by our miscreations and know who the Lady is.* You don't hate the Lady. The Lady has a yin component, and is needing rescue. What came out of the Lady was one legged. Some Ladies are bearded as at the circus and (that is the) Anti-Law Lady of the Circus.

Yin power is the complete ability to see and accept. It is just as powerful as the yang and is more invisible. Female sorcerers are deadly through cunning.

Do: Find *Between Cell Contamination* around one's *Name*, like a seed around Anti Law.

T2 is dead and three mirrors down. She is retrieving name identities. T3 has pulled them piece by piece over the last year and T2 is now retrieving. Each person has their own bottom (mirror layer). Most people wouldn't call it low and if you don't use what you know, you fall lower (sic).

This is Anti-Jacob's Ladder: it is the number of steps/degrees of Down due to

1) *If one knows too much and doesn't use it, or if*

2) *One is particularly malignant.*

There is peril every step of the way as warriors. The rule is; if one's head drops below (the mirror), then one drowns to one's higher self. (This morning) T3 saw Ji's hand in the shower overshadowing his to pull him down.

Every lie, argument and defilement you hear; if you don't have a cool head, they hold you with it. Always know it is not you thinking those things. If (the arguments/statements) are very personal, insulting or vulgar they are trying to tell you not to go above the surface. They tell you Anti Lehys statements to not go through it. They want you to avoid it, so they tell you every statement imaginable to stay out of ice (sic). T2 always knows it is not her, but it wears on her.

CLASS NOTES: MAY 21, 1994 Manzanillo

May is an important month, in that last year the souls started going. This May is important too.

Soul types:	Zombies	Mixed Identities Transition	Group
	Animal	Individual	Evaporated.

A lot of people yesterday were becoming animals. It was a day of reckoning.

Lecture:

T2 wondered why it was important to be in another location. (Outside of Manzanillo?) There are many mysteries about location, as the auric bodies and the spiritual influences (are affected). With Bagua directions and the Southern energies, they provoke different things with North and West to East. There is changeability of the West, with the passion, devotion and carnality of the south. What is there to provoke? The procreative energies are very strong (in the south) and the tendency is to destruction. A few days ago a group of people were shot. Around 200 people were killed within earshot of a small town. This should remind us, as Death as our advisor of spiritual death. (We may) maintain an individual soul or we may lose our consciousness. This is a time of danger in Mexico, it is better to not go to small towns, as there is a great deal of unrest, which is not being recorded.

Consider on a spiritual level (what is) going on with what Mexico represents; as an acupuncture point of the Earth. Your auric cocoon is like the Earth with points related to certain countries. We stimulate weaknesses, propensities and strengths (according to location).

May is a mysterious month as it relates to the distance of long and short days of the year which impact the spiritual bodies re. your tension of position to the Earth and sea level and the North/South Poles; all of which impact the spiritual bodies (due to) the pulls of various kinds. May of last year we saw many people losing souls. Split time had many dynamics. It took all we could do to maintain sobriety, seeing the animal archetypes and evil cabalas.

Vision is frightening sometimes and it takes great sobriety with indifference to face it. If God is truth and you love God, then you can face the truth whether it is ugly or beautiful. If we do not, we defy the Law of Polarity. If we don't know good and evil then it is worse as we have been shown how to see. If only our desire is to stick to our old habits, we have failed to grow. Choosing to stay as we were is in defiance to the Law of Change and Gender. Male and female relationship pathologies slow spiritual growth and destroy it.

It is not just homosexuality (that is reflected) in the Law of Gender, but how we see the same or other gender and relationships. If one sees another person as a physical property or a meal ticket to an outcome, that is pathological. The only reason for a relationship is to further the spiritual growth of each other and the planet and for no other reason. With the lower trials, with one is raising children/progeny, it was reasonable to learn many things; wisdom, and patience. At this level though, we should be beyond that. It is not to (just to) have sex (male/female relationships), but it is to unite one to God, the other (reasons) are secondary.

Not one thing should deter us from Unity with Truth. If a person interferes with that, then turn your back and walk away. We are wedded either to God or Mammon; up or down. At a point we choose one or the other. (The teachers) can't force it, we just watch. With any residual defiance of Law and Virtue; he who breaks part of the Law breaks all of the Law. Some refuse to see truth, but at a certain spot will not (---) the regeneration of key parts, even among ourselves. In Revelation it said "Even the elite shall be fooled in the final days". An impeccable warrior lives in the now.

Great transition is occurring this month. This is the ensoulment of animal man and group souls. This is monumental and within the plan of God. The souls are not very different from before. Animal souls and individual souls are different with dreaming bodies of different functions.

Evolution is inevitable. Refine or decline, and never stand still. We are at a great crossroads in the sea of humanity. Not a lot of people appear to choose refinement over the animal (soul status). If they decide (to do so), they are given help.

Of primary importance is the Law of Polarity and Gender and the desire for Truth; which are the roots of the other laws. Most disorder seen in humanity arises from sex, money or power.

Father: Power

Son: Romantic Love

Holy Spirit: Inverse desire to not know truth or holiness.

(Money) The materializing of truth becomes then graven images of truth such as the Golden Calf and we lose the mystery of the true Truth which is formless. *Adapt and (the Holy Spirit will) lead to situations that illuminates everything.* If one is too set, then paradox not be “right” and one would have trouble building on the mysteries, but instead materialize concepts into golden calves as opposed to symbols of higher truths.

Manifest/unmanifest: Animal (man) would show difficulties with relationships and (choose) romance over holiness. For example Ia was an unmanifest materialist. He was profoundly material and lazy and just looking for a female to take care of him; but he hated women. If a mate is only there to take care of you, that is a type of hate.

The unmanifest is more sinister than manifest (problems). It is reasonable to have order and be industrious in a personal area. Being slug-like and inert is a bad sign. Sometimes we have to be like that with spiritual work. If one has been (traditionally) industrious physically, then when the energies go toward the spiritual, one may not be able to move. *A feeling of powerlessness is unmanifest power* and the unmanifest is the worst as it fools people.

Ask for “*The percent of deviation from holiness in these issues*”.

PRAY for divine intercession for the deepest propensities that exist and the blind spots.

Power: Many people have problems with hierarchy and have an *unmanifest power problem*. They may appear to be humble but are extremely willful. A person who appears humble and servile is the unmanifest (aspect of power) and the power will erupt horribly with deceit. **Never bow before a person, only before truth.** If we hear truth, the core self should say “Yes that is true” and humbly submit. But (this is not saying) to submit to form. A feeling of powerlessness is an aberration and (such a) one is full of hate. When another person has power, then (such a one who feels powerless) hates. But it is like an animal up against a wall, so it wouldn't *look* like hate.

On a spiritual and mental plane, anyone who wishes another person dead, will degenerate and feel powerless. It is the unmanifest power to destroy the self. Ji appeared humble and meek but when she had power she misused it hideously, so she appeared the meekest of all.

True power is not forceful but is self-contained. It is a conservation of energy and the aligning with divine powers. (Pseudo power) is low level willfulness to channel. One (is either on) the lower level or the divine and anything deviated (from the divine) is a power issue of the unholy trinity. Whenever we have one, we have the other two in varying quantities (sex/romance/money).

Sex and romance have many variants; one variant could be perversity in pornography, going to whores, etc. Or they could be more subtle such as pining for a lost love or the “grass is greener” or wanting a perfect spouse, or a better one that is better looking, smarter, more holy: *that is a power issue.*

(One could manifest sex/romance) in other time frames, by looking at the past (T2 sings) “*One ticket to paradise, once nearly was mine*” or the future and thinking “I could do well if the *other* person changes”. (This is combined with) a feeling of powerlessness to change them and it is always a material issue; to want to own another person as property. The grossest form (of materialism) is staying with a person for financial desserts. When one starts evaluating a relationship with money, one has lost it. For those that reject “romance”, they have the ability to love and nurture which can be met by outside (interests). For example pets can bring a person to balance.

But one must have no resistance to (one's) own gender or lot in life in the now. (Ideally) males and females accept their differences and don't try to be like each other or resist each other. We don't have to say they are wonderful, just accept them. There are many subtleties manifested in gender, romance and sex. One may be chaste, but fantasize nonstop about another certain person; that is an indulgence in the mental and emotional realm. Romantic indulgence is no different to sexual obsessions; it is just a different octave.

“Love” to the *glands* is stimulation. (Ideally) sexual expression is tender mercy to mankind and is a lovely expression and can be viewed as such. Circular thinking (is destructive) to the spiritual bodies; they throw out desire threads and the spiritual bodies decay. With no control of emotions, thoughts and desire, one is a whore monger. Romance books are as bad as pornography as they encourage fantasy.

We must root out the bits of the unholy trinity. Yesterday was the metaphor of the *Mirror*. What keeps our feet above (the mirror) is the layer of Lehys and the Holy Being/Truth. If we are truly drawn to Truth then we will stay above. When we are under the mirror, we will be looking up but hear words babbling; sirens in the sea of disorder with water lines to zombies.

Break your propensity through divine intercession as your lower will won't do it.

The use of Divine Power to pull *it out is a function of prayer*. We may drowse 16 hours a day, but with no prayer (----). Admit to truth and not fancy. Don't feel too sorry for the animal (souls), but aspire to remain truly human and constantly evolve to be spiritually perfect. Animal (man) are being ensouled on a massive scale. Those with greater opportunities are now animals.

Be optimistic in the face of discouragement. A warrior in the worst situation says “and yet”. There is always hope if one truly aspires and wants truth more than (their own?) answer.

Many people don't want a soul. They don't want the responsibility or to be haunted by failure to comply to what it takes to keep a soul. Money, Power, Sex: these are the reasons for one's downfall. We are given souls to be leaders. And how (we lead), is dependent on our impeccability and power of a group. It is expected that we maintain greater character (of soul). A base soul is able to love another human; to not be a thief and not murder others.

Ask “*What percent of self is under the mirror?*” We don't ask for “the ears to hear the zombies and the eyes to see the zombies” because when we are under the mirror we will see those on the other side as evil. Once we switch polarity then everything in the teaching will look evil. **Pray** to be delivered and born again. It is a baptism in dirty water, so as to be cleared with holy water.

If you see something dreadful, you can be delivered by submission of your will. With a total recapitulation of your lower will in obedience to the divine plan, one will direct one's desires to what is holy, true, real, flawless, beautiful, rightful and will have the resources to do that. Turn away from lower materialism and submit yourself to the plan of God for one's food, roof and ground.

Each Virtue has an aspect of Apertures.

If one is under the mirror it is due to the three key issues: Money, Sex and Power

Check for A/F/W/Crystal lines out/in.

Keep the Fabric above the head and with no Grabbing.

Old self grab occurs under the mirror: check for this.

Do: Pull the “phone” out of the wall: if you find yourself contaminated or obsessed.

Check: the Soul Blocks Charts for more information.

Pray: *For truth, guidance, the strength to endure, love and devotion (to God and God's plan) so as to manifest holiness and truth. Submit one's lower power to the divine will in alignment with the divine; then one will increase one's own will by a 100 times. Pray earnestly for these qualities and one will be able to break through (deep propensities).*

This is a time for great introspection. As the southern influence draws (everything) out and shakes loose (our old) notions with the power to go to the soul and recapitulate if one *desires, wills* and *intends* it.

Truth, Light, Vision: how are we able to do good if we can't face our own frailties?

We are shown the way with the tools on these created charts to face the truth.

Evil Selves: are renegade selves completely re-formed under the mirror and have become attacking demons. These are ideas of self, crystallized identities, which pull the whole soul under. **Do:** Clear them so people can be free with a clean slate.

Ask: “*How many Evil Selves are hanging on the feet from people you know?*”

It is not them, but a person should be holy or nothing.

Ask: “*How many sewer lines are trying to pull you down?*” **Do:** Check on your body parts, burn and do waveforms. These are easy to get rid of.

Check:

Virtue substance in sewer lines

Virtue bits floating in the sewer of someone else.

Rotting Lichen turds in sewer

Virtue shadows on old self: i.e. relatives or attachments to life as a young woman.

Vampires on old self connection: which vampires one's ability to pray.

Devoured by old self vampires by percent: look on the Traits.

For Trait demons and vampires. **Do:** Look at directions, traits and waveforms. These have to do with creations of Spiritual Shadow Substance/ Creative Energy, with a strong desire and demon aspect. Others have to do with water demons. This is a deviation of Law and Virtue. **Ask** “*What percent is (of Law and Virtue auras?) are evil crystals?*” Disintegrate and use the Four Powers. This shows your propensities of A/F/W/Crystal nature.

Fire Demon Selves created from clinging to grudges.

Where are other's fire demons in self?

Animal man links

(Name) Desire Demons: created alter egos with desire.

Mixed Identity: ask if alter egos are evil selves.

Fear occurs when one's security is embedded in relationships and money as opposed to trust in Divine powers and one's own impeccability. By resonating (with the Divine Powers) we receive Divine Assistance. *"Lord help my unbelief"*. If we know something is terribly wrong, ask for a hand to help you up. One has to put a hand up first.

Evening May 21, 1994

We are working on a different set of things to assist you, so that what is taught tomorrow we will understand and be helped to heal. Right now T2 is dead and we will see this phenomena increasingly over the month.

Those who are soulless and without an earth cord, float to other spaces that not able to be borne by a soul. T2's Nagual bodies go to hells and other places to do battle (attended) with a consciousness. Her only tie to earth is T3. If her consciousness is in the soul, she will appear dead. One doesn't own what one does as a personal (accomplishment), but (rather considers what one does) as a job and a gift to serve.

Consider service as a gift (to the one who serves) and one will feel warm and happy if one does the job. Truly wish (to serve) as the path becomes more straight and narrow and as the nuances become more subtle.

TO THINK IS TO ACT and to think of destroying someone is murder. To think carnally is performing the act. The more refined one is, the more responsible one is for their own control and restraint. Above all, reduce hysteria, as it is a burning of Virtue to fuel a "rush". We must hold onto our Virtues. It is not whether one is outer or inner directed to know virtue, one just knows. It is the only thing that saves. Dowsing the anti-Lehys statements will show one's flaws and the reasons for dropping below the mirror. **Do:** Study them for any part of you linked onto a person who embraces (these).

Water prana lines are the same as water demons and are the most significant at this time.

A/F/W/Sexual links are parts of yourself on others. If you leak, they can grab your foot and drag you down.

Check: Your *Apertures...Virtues...A/F/W/Crystal...In/Out...Lines to Old Self...or Old Names.*

For example ask "How many evil (names) are under the water?"

In one's sleep our weaknesses are revealed and we fall into old habits. So we see more (contamination) in the morning and our weaknesses are revealed by the type of contamination that is in.

Regarding the evil of another student: don't take it personally as it is (not the person but) a malefic *creation* with a life of its own. The energy could still be walking around but it is disassociated from the person. **Do** waveforms, the Four Powers, and High Powers.

Do not think that the Higher Powers would waste these teachings if we were not able to achieve a high level of mastery. Have faith in each one of us to overcome our weaknesses. Have faith in those not yet met. Have faith that humankind has the ability to move towards (a higher) evolutionary (level). If this were not so, then (the teachers) would not be here nor would she spend her time dead (sic).

We are a consciousness. If one aspires to great things with Law and Virtue then a great soul/consciousness (may exist) that can move between souls. If one is a consciousness and given to hostility, longing for a past life, money, security, owning a person, power and glamour, then one sinks in an animal sphere of causation.

He that reaches up is helped to be more divine. We have to keep light as (this work) is so heavy.

We are great sport for T2 and some (of us) are really funny. The least we can do for T2 is to give her a laugh; that is a fair trade. It decreases your lower self-importance. We can align with (what is) above and have a chuckle between times. We may buffer ourselves with (humor) from the tide of disorder when we open the door of demons of miscreation during ensoulment and after.

All of you should be able to go out in the world and maintain your purity in manifestation. If one is not able to do that, it is not due to lack of teachings. Tomorrow, with a greater level of exercises with power, only the impeccable can be taught. If one misuses (power), it is taken from one quickly.

Do: Use the charts, measure the virtues, check the percentage of renegade self and how far your self has slipped overnight below the mirror. **Check** for *auric bits out, demonic constructs* and those are hard, as they try to draw you down. Check these and learn how to be weighted down (with contamination) but yet strong.

True strength comes from submitting to Divine Will, and true love comes from the Son of God and love for humanity and one's own soul.

Materialism is replacing (with the unholy trinity?) rather than to manifest holiness in the physical body through word and deed.

Analyze how aligned you are or not aligned. The big three things to do is check manifest/unmanifest propensities and analyze yourself. Spend time analyzing yourself first on the ten virtues and “Where each one is on the quadrant chart?” (This task) is not (accomplished by checking) superficially, but by checking your manifest and unmanifest (propensities by percentage on each aperture by using the charts).

Unmanifest is like a *shadow*; **ask** “Where are the Virtues low on the quadrant chart?” High level clearing (is accomplished with) a team and we can check others.

Pray about manifestation second (----).

Check for *Black Lights on Virtues*. Virtues have a substance that filters down from the souls. It is not a concept, but the virtues have soul substance which can be reduced, clarified and dirtied. What we do or say or any action affects the virtue substance.

Demon constructs of “What should be”. If they are our own, then one is not (engaged?) in spiritual struggle. Circular thought about “failure” can construct with your own soul force an **Evil You**. Pray to not reform them.

Ask “How old is the oldest and the youngest demon construct?”

They may not be very recent, and it is the misuse of what is known.

We can’t go forward unless we compost what we are pulling back (or recreating).

Put on Chart: Action...Intention...Commission/omission...Manifest/unmanifest

Use the bell curve for *Inverse Virtues...Black Lights...Evil Selves...Sewer Lines A/F/W/C... and Crystal Trails*.

Often there are *Threads Out to Self*, which when crystallized they are like dried up turds from a sewer.

Check for *Old Self Vampires from Intention*, from a familiar or fleeting thought and one may not realize it.

Like cures like, pray for the healing of virtues, and clear them up with awareness and use the charts.

We are lucky to have these constructs/methods/charts so as to clean up our lives.

We have been given tools and if we don’t use them, then it goes against the law of Use.

Key Steps:

Check virtues on the quadrant chart.

Check *Manifest/Unmanifest/Intention/Commission/Action/Evil Planning*.

Intention is not planning.

Planning is as evil as **action** and there are sins of omission. Don't kick a dog when it is down.

The best assistance is to be gentle and coaxing at a person’s own speed and weigh the lesson. If a lesson is shoved down someone, then they will vomit in your face and you will get wounded and discouraged. Our intent is to help and not force it down. It is whether they want to hear it or not.

In the morning, check each *Aperture* on the Condition Chart and make sure the *Fabric Aura* is above the corpse.

One must be ever alert. The more holy one is, the more likely one is to rupture, as the core is greater and the shell is thinner. A lower soul is less likely to crack open. This is to protect the more primitive souls as they will hear truth and desire (and be able) to swell in purity. Most people don’t have the self-control which means to never harm or be harmed (sic). It is submission of power to the divine plan and the desire to attain virtue and law above the physical plane.

A saint soul is a grave and heavy responsibility with great refinement, and that is why we suffer so. The slower the soul, the less food (sic). By hoping to help (be of service), the greater the virtue power becomes and the steps of virtue are ever increasing. “To whom much is given, much is required”. It is sad when one is given a base soul and then one blows it out. One must have perseverance in the face of (sorrow), good humor, patience, faith in God, hope, trust and joy.

CLASS NOTES: MAY 22, 1994 Manzanillo

Euphoria is the monad burning.

Hysteria is the virtues burning.

Monad Drowning: is Euphoria

Nerve Grab Lines

Sewer Nerve Grab Lines are burning body parts.

Types of People:

1) **Love (Sex)/Secretary:** Is one who works best with teamwork. He or she has tendencies towards romance, which is an aspect of ownership in relationships; with a flip side of killing. The *unmanifest* of this was shown in FI and the *manifest* in Ji.

2) **Power/Farts:** These types are always wanting their own way (*manifest* in both Ji and FI) with hierarchy issues. For example, not wanting to be submissive (to a hierarchy) and not wanting to lose power. Hostility can be shielded if it is a “feeling powerless” problem, as that is also a hierarchy problem. This may show as not wanting to accept as true the issues at hand, as one would want to be in control of what is digested or spit out. This one wants to be boss and feels pinned to the wall to submit. It is due to lack of humility.

3) **Money/Dreamer:** These think “the future will be better” and are materialistic. The *unmanifest* was Ia.

Nagual Residuals under the Water: use the Four Powers and body parts charts.

The shadow of Manifest is the Unmanifest. Mag for instance was a *manifest* Fart, by wanting to be totally in control. She was a yang romantic and a yin dreamer. Some have *unmanifest* towards the yang side, and this creates Evil Birthdays.

Lecture: (Apologies from original auditor and current editor—the same person.)

It is interesting how different words have meanings esoterically that are different. For example “high euphoria” means parts of the monad is drowning. **Hysteria/Euphoria** are key words. It is interesting when monads are gone from some people; they tend to feel better for a while. That is not a good sign. With silly, light levity, one is never out of control. One can be ridiculous and at a drop of a pin, be sober. If one is ever not pulled in tight, one will tend to spiritual psychosis, with burning virtues and a drowning monad.

Evil Nagual Monadic Constructs: is a type of demon made during ensoulment with a combination of monad and nagual substance on the Holy Being apertures. This is why some are having more trouble maintaining their balance (during the day) and then overnight they will weaken.

There are three basic types of Propensities which are not good or bad; they are just how one developed.

1) **First the Assistant/Servant** is good in a team and is not good alone or do well by himself. This is a romantic indulgence love type, and they can't survive alone. They must be with another lover, team or group and if they had to travel by themselves they would be lonely and require social interaction. If not *told* they are doing well, they weaken.

Look closely for your propensity. If you need someone to tell you that you have done a good job, then you are not able to analyze yourself or go on your own. This is true if you have no companions and you feel rejected. We need to survive without companions or friends, as we are not here for friends.

How does one recognize and change the propensity's aspects that can weaken you? Curb your impulses in some way. This type can do well if the devotion to team is turned to God, and not towards people.

2) **Fart Type:** is the worst as they kill to get power. As companions and lovers, they will have his or her own way no matter what and will find a way to maintain control. One example is Mag. By her holding onto her Templar objects, that was a *power* maneuver to undermine authority. She (held onto) photos of ex-students and that was stupid as it weakened her. This type loves the “underdog” and will say they are “ok”. Every time she was told something, Mag argued, because she had an overwhelming fart potential. She *appeared* powerless and weak as she had blown out her power by not aligning with power.

Example: The Japanese technology is advanced today because it borrowed ideas and made them better. That is why they did so well (after WW II). To *align* with power is a good idea when one's own force is small and it will cause one to advance. To be prideful, to rebuke and argue is stupid and not powerful. It is smart to align with power and be a “Good Wind” and not a Fart.

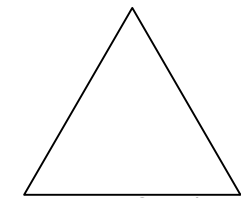

3) **Dreamer:** this type thinks “the grass is greener” and “with a little more time or money” one could be spiritually advanced. The basest level dreamer would think that if they get their way they could be rich. The highest level is that they could be spiritually advanced if “someone were not blocking the way”.

Do: (To recognize and change the weakening aspects of the type would be helped) by aligning your dreams with hope, faith, charity and if they say "I believe goodness will be manifest if I align myself with Divine purpose", and "I believe if my own obstacles are removed to Virtues and Laws, then I will be a holy person". A (positive type) Dreamer dreams of his own impediments and struggles to remove them. The malefic type blames, plots and schemes. With any material constraints, they would do best to work 8 hours a day, to make money for five kids (sic).

Remove your own obstacles for refinement. A Fart can align with (Divine power) and become powerful and our propensities may be manifest or unmanifest, yin or yang. By drawing a triangle, the top point is the greatest propensity and the other two points the lessor propensities. Some triangles are askew with a *manifest* of 60 degrees due to Evil Birthdays taken on.

PROPENSITY TRIANGLES *Primary attribute is on top*

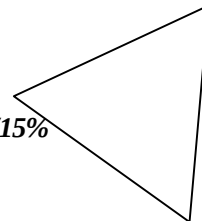

FAITH/Great Leader 50%

HOPE; See constructs, obstacles 25%

DIVINE LOVE/Devoted to Truth, Intercessor 25%

FART/80%

(Askew 20 degrees)

SECRETARY/15%

DREAMER/5%

Secondary attributes are on the bottom

You can dowse over the triangle and check for:

- 1) % of manifest propensity and the ideal would be 50% primary, and 25% secondary
- 2) Degree the triangle is askew and remove the blocks, contaminations, etc.
- 3) Make sure the triangle is on the holy side. For example the *Assistant/Secretary* type could be devoted to truth and could be a great intercessor for humanity. The *Fart* type could be a great leader, the *Dreamer* type can see constructs and see obstacles and work out ways to move around them and be hopeful for the end in sight and prepare constructs.

When we get the powers aligned in such a way (then we are able) to manifest divine aspects of those propensities; as evil can put *shadows* on one spiritually. The *unmanifest* aspects are the worst and anything unmanifest will swing to manifest. Those who *seem* meek will be lions. A person who appears to be powerless and demure, is a plotter and a schemer for power. A dreamer will destroy anyone in their way of what they want and one example was Ia. He was creepy with the unmanifest component. He plotted in the realm of intention.

Everything done should be made manifest and holy and how holy it is, can be shown on the quadrant chart. With the unmanifest aspects, the side that you show is not what you are, but the unmanifest will ooze out and one will drown, as the unmanifest is underwater. Bring all to *manifest* and make it holy. St Paul said “Faith, Hope and Charity”. *Hope* is found by the dreamer and *Faith* by the Fart, and *Charity* by the Assistant. The greatest of these is Love.

In the Piscean age, it was the age of the Son of God, the Aspect of the Son and no air but with a strong water component. Now we are in the age of Fart/the power of Air. We have entered to gain power to move through obstacles before us and on toward the Father through the Son. Now we are in the Air power in season, it is a time when the Dreamer has something to manifest in Fire (sic).

Reference: Lazarus, spiritual manifestation, miracles

The concerted focus of the Earth is turned towards Air versus Water. The devotion to the Holy Trinity must still be there, but to align with power is to bring to manifestation the power of Air. For example with the *Star* system, how do we float out? It is an air quality, a rising, with airy bodies. Water is more physical and Lazarus would be the watery manifested example. Ours is now spiritual (manifestation) in an age of Air. (Miracles) had to be described materially in the age of water.

With the Passover, if one did not have the Name of God within, then one would blow out the soul from the pressure of the Cosmic forces; the pressure on the monad and pressure wherever one was not aligned. *Without love, nothing (holy) is achieved.* Build on the Christ teachings, but do not remove them. The Name of God is like the blood of Christ. Those that had the Passover, the Angel of Death did not come in. Death now, is death of the soul.

Living Possession: The primary propensity can change if one takes on another person's propensity and if the triangle tilts, one can *become* another person with lines embedded, like a Living Possession.

Propensities have to do with one's role in life. If one lives to the maximum of one's potential, then they are a perfect 50/25/25%. If one is supposed to be a team player/**ASSISTANT**, then along the line of devotion, work with others to bring about holiness on the Earth and be devoted to truth. It is the *desire* to serve and preserve. If you are a **FART**, then *submit* the love, *will* to be aligned and use one's energies which are very great. The personality energy is great. The refinement of the personality brings refinement to align to the Will of the Father. With great submission of the lower will to the Will of God, then every step....for example T1 had kidney failure and leukemia, she was working with AIDS patients, she was sick, but she worked all the time; as a fart can do that. If one *submits* one can be relentless. It is the total submission to the power and Will of God. If a **DREAMER**, one can give hope and see what is beyond the current state of (---), and can see revelation.

Faith Hope Charity, these three, and the greatest is Love. Unless you build your foundation of Christ, then you will fall asunder. We can't hope to build, unless it is upon the teachings of Christ. Now we have the manifestation of Christ into the next Age. Without a foundation of Love, then one can't achieve. Without Hope of the dreamer, then the vision is lost with hopelessness and despondency and evil. Have Hope/Love/Faith in God. **FAITH** in the power of God replaces a Fart. **HOPE** is the replacement of a Dreamer. **DIVINE LOVE** replaces an Assistant, and devotion for that which is true and holy.

There is an aspect of the Trinity in one's face. One could put (the Trinity) over the face and the pineal would be the top propensity, the yin/left eye and the yang the right eye and the powers would come out of the pineal through the mouth.

Check the pineal on the Condition chart as it is the manifest of the primary propensity and (problems) will block the vision. T3 was born a Dreamer and T2 a Fart. Now he maintains a 33 1/3 balance, which requires great strength.

Pray for Manna to remove blocks.

When we are **Grabbing** we get contamination.

Check the *Dissonance Point* of Each *Aperture*: as another person's song or old-self song will throw them off.

Tune up the whole system before blasting or you will blow out holes in apertures. With a major leak, you will lose substance.

When you are clearing, follow the To Do chart. Don't just blast, as that will rip open the apertures if they are cracked.

Importance of detail: To ascend one must have an eye for detail. Lower spiritual healing methods don't take a lot of detail.

The very lowest form of healing, is when one can only hope to pray for Divine Intercession.

With an aperture problem you may get "liquefy", but use the right amount of power on a location and not a nuclear blast on a cockroach. It is possible to heal if one uses the correct force. But a generic blast will tear the apertures open with grab lines and would shove the monadic forces into a pool on the floor.

Grab Lines: Reel them in and cauterize the ends or else you will have bleeding stumps. Grab Lines are a type of matter that goes out and is invisible to the physical eyes, but the spirit shadow can see.

What is Divine? It is something greater than self; it is a partaking of the Logoc forces that intervene on your behalf. Therefore a lower soul would see a saint soul as a divine intercessor. It is a grave responsibility to refine the lower soul types to bring healing to the souls of man. We have seen this for ourselves and when it is misused, it creates horrible demons.

We may ask why did a Demi-God fall or why Lucifer? When we know what God is, why stoop to a land of disorder and animal men, when one has seen God? The people in the teaching have seen truly that which is holy and they may have chosen animals for thrills, attachments, retro desires and not wanting to (change?). Those that are higher soul types continually struggle for refinement.

The Animal men know with every fiber of their being they chose not to face soul issues. It is free will in all realms (except in some robotic angels). **The worst sin** is to lead another to a free will decision through false information or towards Anti-Lehys (resonations) through one's emanations. As the boulder would be too great, they would have placed temptations in the paths. Those who are higher can gain greater personal power. Those that are higher can (also) lead those below astray as the Watchers did. As one gains spiritually, then it carries a greater responsibility to be impeccable and to never entertain false Anti-Lehys statements. (For a higher soul) there can be no petty irritation or foul destruction of humans, or the work (sic).

The higher one goes the lower one falls and it takes longer to swim to an even keel. The *Grab Gaze and Look* lines are a key lesson, as sorcerers have the “**Evil Eye**”. It is an aspect of Karma and if the teacher taught and a student goes bad, the teacher has to “eat the Karma”

It is physically painful when one identifies with spiritual pain; that which is spiritual is experienced as physical. Then you absolutely know disorder in the guts, heart, teeth, ears and eyes. (This is not said for you to) wear a hair shirt, but to act quickly in the presence (of evil). Do not get drugged into thinking (you will clear it) tomorrow. To be in this work requires great spiritual sobriety and alertness in times of travail for those to be able to help others. The last three months have been spent clearing up ensoulment residues. We have watched souls go brighter and dimmer and blow out.

We have reached a point where self-responsibility is to be maintained. This is no longer a teaching, but functions (within a group). The teachings are a side benefit. But the whole purpose has been to lead a gathering of saints for good works in the spiritual realm.

Initially it was to teach men laws, with a sense of necessity as spiritual death was enveloping the Earth and without necessity, no one would aspire to be saints. It is easy for all to fall into slumber and enjoy the animal (consciousness) without thought of souls with the thoughts that “People are ok, no matter what” and “Right or wrong is how you view it”, that “There is no objective reality, but everything is physical, mental and emotional”. It is easy to be lulled into a death sleep. It is hard to have someone tell you about your flaws. The path of a spiritual teacher is painful, but required to have impeccable warriors. We can't learn if we do not accept the teacher or if we do not want truth, or do not want to know truth.

To be a functional party with great precision, (we must) work as a team or be worthless: “A house divided will fall”. Or if one argues with the general, one will fall. *It is not that the teacher has a desire to rule.* The task is more difficult than you can imagine, yet they endeavor to bear with grace and humor. Not everyone can endure the scrutiny of one's secret frailties. And T2 understands this, as several people have left with souls to live normal lives. It may have seemed peculiar to come all this way for teachings that are not so different (from the monthly conferences).

Check the *Fabric, Apertures and Virtues* in the morning.

Balancing the propensities should be the greatest goals, as (this reveals where) one has the greatest flaws with the propensities of romance, power and money. **Evil Birthdays** are reformed propensities. If people are webbed into others, they will lean towards their propensities and will weaken their power.

Power is when the upper triangle aligns with the Holy Forces and not by looking to the side of the road, but by looking straight ahead. **Check A/F/W/C in/out.** Is dowsing like this (appropriate) for the average person? No. We are not average but above average and we are supposed to be saints.

We would like to see each person in the party maintain a perfect virtue alignment and Trinity purity of purpose, with devotion, power, and vision completely *manifest* as versus the opposite. See each virtue through its strength of impeccability and will and completely aligned with those points (on the Triangle).

DO: Take as your personal responsibility to check the twelve virtues on the bell curve morning and night and take charge. Virtues are *powers*, things with substances, and the Laws are the holders of Virtue. Each person should be at no more than 0300 on the law clock with each virtue. And do no *gazing* or *grabbing* without the spiritual necessity to do so.

Chart: Fundamentals of a Spiritually Evolved Person

Hygiene Fundamentals of a spiritually evolved person:

Apertures in the Upper Right Hand Quadrant

12 Virtues: Intact and not squirting

All Laws: Check how torqued away each one is on the Law Clock

Monad: Intact and clarity

Desire Containers: Intact and clarity

Before this (current Earth) time a spiritual person would pray and hole-up. But we are **warrior saints** in a hostile region and we must survive. There is no reason to be redundant. We have reached the point of greatest weakness. It is a time for each one to be responsible and take careful analysis of the spiritual anatomy and maintain exact control of Love, Will and Intelligence.

It is how much we can submit our lower **will** to the Divine Plan, and not to the teachers. It is devotion for truth and not a person. We have got to have the courage to *see*. It takes power to *see* when one does not want to. It is holiness to want truth above all else.

Devotion/Love is towards Truth and Law. If our love is more for a person than truth, we have no business in this work.

(Problems with) Divine Intelligence is correlated with flaws in the material realm such as: if we don't use (what we know), or have no time for it or if we are too mental, or if we need a sense of stability through trying to materialize (what we know).

We need to withstand the winds of change to be impeccable, or be (---) worthwhile in the seas of humanity. To do anything, we must use what we know in exacting ways. (This is accomplished by) not just “wishing someone well”, but by being ruthless, by bringing precision (in observation), action in science, thoughts in spiritual (sic) and not be just a wishy-washy goody two-shoes. We must be smart, ruthless and wedded to truth.

If you don't see the enemy, the enemy will get you and you will be seeing through your blind spots more than through Truth, Virtue or Law. Any person can recapitulate their life, so that Divine forces come down with so much power. This relates to Love, Will and Intelligence and to the level one recapitulates. With those three points, one is given power, help and divine assistance. The lower one (appears) in the eyes of the world, the greater one is with God. Submit the lower **will** and lower person to God; go from *self-thinking* to *God-thinking*, or fall asunder.

You are Thinking (either with linear/lower) logic or through the Lehys Holy Breath filling you. Say “You don't know what reality is”, but truly pray. T2 has to rely on the Holy Breath or she would otherwise fall.

What is Love? The lower love *wills* to *grab* love or to push it away and that love will fall away. Divine love is powerful, fierce, clean, sharp and precise and will enter the water of disorder to throw lines to those sinking in their own waters. And it sends out lines constantly; it is like the song Suzanne. Love is so powerful and one can't overcome the free will of the Lower Man. One will not argue with a bug crossing one's path, but (instead the bug) says “Ok” and yields (sic). Divine Will is all powerful, fierce and will not argue with a person who says “I don't want to believe” ... Ok.

Divine Intelligence; one trembles with awareness and knowledge and it is like holding a balloon of Divine vision and of rainbows from all time. A person says “Hey, I know right and wrong, why am I uncomfortable?” (they say this) as if they know what reality is- then not one drop of truth falls (to them) and the winds of truth blow away.

For T2 and T3 with the holy powers that lead them, will never give up on any person on the face of the Earth, ever. The forces that lead us blow us as a wind to a direction different than this. The next few days we will evaluate ourselves, each on his own. We need to be impeccable enough to face the Trinity of our web propensities and to keep our identities, align our virtues and bring our law alignment to order. Know that if you recapitulate on those issues, you will be great indeed.

If one person can be lead to sainthood, then 100 can. We could practice *Gazing*, *Grabbing* and *Looking*, but you can do that yourselves. The southern energies of Mexico make it easier to change. Passion and turmoil helps one to change. Use this time to reevaluate yourselves. It is good to evaluate yourself out of your home setting and sleeping patterns, as it shows the base line and what to truly recapitulate. **Check** yourself clearly with detail when you are awake and if you wake up at night, evaluate yourself. T2 is pleased with our progress and will keep a log. This is not subjective, but very clear cut (measurements?) with standards.

Chart: The Standards of Spiritual Progress

THE STANDARDS FOR SPIRITUAL PROGRESS ARE:

- (1) The **Quadrant Chart, the Bell Curve and the Law Clock.**
- (2) One may ask **1-100%** toxicity and intactness of the spiritual anatomy and then
- (3) Check for **anti-Lehys** (contamination/resonations) in the auras.
- (4) Check the **Propensity Triangle** for its tilt, and on the quadrant chart (and with the Virtues).

See if you have what it takes to go onto the next level of work. As this is not a teaching, but *work*. (In the past) a (student who strove to be a master) would get obscure teachings and then train his auric bodies for 20 years. *We don't have 20 years*, we have to squash 20 years into one because of the work that needs to be done. There is no luxury at the top of the mountain, just people in dirty cities huddled in rooms with chopsticks over charts. **We won't have 20 years to gaze on two sentences. We must floor board it and progress 20 years' worth within the next week.**

All things are possible with Faith, Hope and Charity. T2 doesn't know how, but she will submit to higher will and have lower devotion to the love of what is holy. We could reach it tomorrow; we have the tools.

No Class Notes were taken. It is likely the out-of-state students flew home on this date.

RETURN TRIP TO OKLAHOMA/Overland

MAY 24, 1994 Class Notes

With anyone who has a **virtue rupture**, another person can feed on it.

Check For the *soul type* of who is vampiring you.

For water prana and blood levels and how toxic is the sex substance.

Chart: Current Soul Type Chart

SOUL TYPE:

Normal Individual Open Soul	Animal	Mixed
Transition	Zombie	Invisible/Other

Make yourself invisible to animals: Mess up the communication systems and add a binder to their substance which makes it gummy, so they do not squirt. Normally, it comes out of their crotch in a stringy mass, and will cause the butt and tailbone to itch. Use the **Viscosity Scale** which would be an animal substance 100% completely bound up so as not to squirt. One can do this for the ensouled too, if they are out of control.

Check for:

How many sex substance links out?

Old Nagual links to old self to zombies or animals in null spaces

Aperture substance leaks: check % of substance in each

"How Wet is my Monad?" This is the Drowning Scale. Pull back from people who are linked in.

Sex Substance Shadows: Throw in the water after binding.

Animal Breath: Put in another dimensional space.

For those that obsess: change your waveforms to stop intersection (points).

If they do not have the right receptor site, it is then difficult to get a grip on us.

Do this through the Lehys if the person is ensouled and through the Air aura Corpse with Animals.

Change receptor sites to the air aura: this helps others to stop thinking about you

And gets rid of links and shadows (throw them in concrete)

Trace contamination through the pranas: for example sex, water, blood pranas

And check the substance level. If it is low then it is due to contamination.

KEY: First check the pranas, Sex/water/blood/air/fire for contamination, how intact and vampires.

If you look at the pranic components; **check** % of contamination of sexual/crystal and tissue auras with foreign.

One can be vampired by another type of aura.

Examples today:

1) Ri had a fire rupture on his knee from Holy Being threads in from Forr.
50% of his Fire is gone. Due to past monadic nagual links, he has a fire weakness.

2) Se has 70/Fire, past nagual links with Ri.

3) Mag has new water lines into Forr, with sex substance.

DO: thicken her blood and water which reduces her contamination.

Check Virtue Substance level: also every morning check % of intactness. If all is haywire, then a virtue may be vampiring another. This may lead to a past monadic nagual link, with a predilection to leak on a virtue. For example, several virtues are leaking with an 8th virtue rupture due to 30 nagual links surfacing on a student.

Nagual Residue on Traits: (Traits are) the tissue shield layer of the corpse. These are miscreations of nagual power coming back to haunt us. These are *sex/water/pranic* demons from a student due to a love/hate romantic indulgence.

Nagual Monadic shadows: on the air prana.

Breath Prana, Lehys or Air: if we change the prana receptors of peoples' Air, then they cannot hook in.

Old Self Links: This is not a *grab* but a weakness in the Virtues. Zombies then would be able to tap into you with an air-line.
Animals can throw out fire lines: for example one ex-student has 198 fire lines out and you may start to itch with these.
A lot of these are hate, anger, circular fantasies, “Believes God is punishing” and murder.

Fire Orifice in Animals near navel: This is like a tube: **Do:** coil it around and reinsert it inside of their mouth.
This merely makes a person eat their own thoughts.

Ask: “How toxic am I with animal vestigial tail substance?” When we have substance to an Animal they develop a vestigial tail leak and they can point it out and eject a substance with their thoughts.

Check: the Soul Blocks and it will “tell the tale”. We can feel it on our tail bone. Pull it around and hook it into the lumbar spine of the originator.

Book Reference: Behold! The Protong

In the Behold! The Protong book: a person forms a spiritual tail when clinging to old self. The worse a person gets, the longer is the vertebrae. Fl has a 500 inch tail.

Ask: “Do you have any vestigial tail buds?” These are **Retro Mirrors** down where one is linked.

Do Waveforms and disintegrate. If you hook into zombies or animals you will sprout buds. Some people don’t have vestigial tails. It depends on the archetype. For example Ji has 70 Beaks.

Ask: “How many beak buds do you have?”

“How many beaks are pecking you?”

“How many extra teeth do you have?” This relates to retro virtues.

Gargoyle Wing buds on you: Which is archetypal gargoyle; i.e. one ex-student has 900 due to unforgiveness.

Demon Embryos: Women check the uterus.

Demon worms: Men check the intestines, this is why men bloat and have gas and women bleed.

Skin Crawlers: Zombie crawlers

How many Zombie Hairs do I have?

Zombie heartworms

Animal tumors

Animal stink: How high is it? Check the skin.

Animal Breath

How many decibels of Animal Music are in the room?

Animal ties to animals

Trait demons from the past

(Person) hysterical scale

Virtue remnants on you

IF YOU HAVE THE NAME, YOU CAN CONTROL THE CONTAMINATION

Ask:

How many floating Anti Virtue bits in the room?

How many skin crawler nests? These are cysts full of buds in the mold coming in on animal sex substance, or Vestigial Tail Poison.

Ensouled can make **Skin Crawler Nests:** which are egoic obsession cysts in the mold and obsession bugs crawl out.

These are *Resistance To Law Obsessions*

How diseased is the mold with Animal Saliva? Clear with the Four Powers and Eye of God.

EVERY DAY DO:

Old Links

Old Self Nagual Residuals

Nagual Residuals/Other

Name Drops From Ensouled

Crystal Anchors: are pulling us down below the mirror; disintegrate.

Creative Sparks: with these, one could make a monster that keeps creating. For example, one would have thoughts and emotions carried through obsessions and archetypes combined with *Gargoyles, Demons and Combination Animal/Humans*. It is the same creative power of the Watcher that was put into groups and is now hatching from the corpse mold and when they hatch they are felt in the corpse like a fullness of the ear, nose and bladder. **This is the misuse of power.**

It is interesting how people's faces appear: A person is attractive not by born beauty, but by *emanations*.

People tend to look more like animals with anti-law and anti-Virtue resonations.

With nagual power, it increased our ability to deform the mold.

DO MORNING AND NIGHT:

Normal Individual Open Soul	Animal	Mixed
Transition	Zombie	Invisible/Other

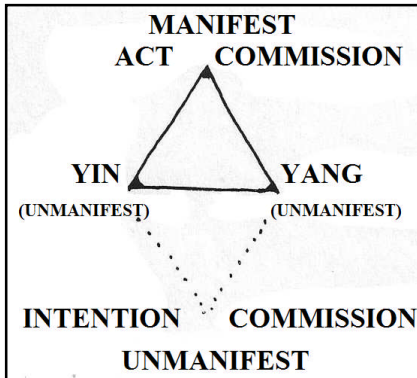

Check: If you are another person.

Check the soul status and if it is an animal do (waveforms on the) breath/receptors, coil the fire tube, coil the vestigial tail and thicken the secretions of the water and blood.

Ask "How many animals are hooking in?" You can remove them even without knowing their names.

Do Disintegrate and put into concrete and fire.

Chart: Air/Fire/Water PROPENSITY TRIANGLE

Check: ← The Air/Fire/Water Propensity Triangle: (See full chart in Appendix)

If the Triangle is askew it will change the dissonance and direction of the cosmic dust particles and cause micro-biological alterations. If the Triangle is straight, then if something tries to hook in, or go out, it can't.

Indirect Animal Links

Ask "How Toxic is your mold to a (person)"
"Blood lines out?"

Surfacing Nagual links: from the past re. *Blood, Mold, Water, Joy* and any auric part linked with this. It is emptying like a pimple, the toxicity from the system. It is on the skin working its way out.

Spirit Shadow Vampires: (---)

Animal Uterus and Penis: Check what they are *grabbing* with to draw in sexual prana.

Ask "How many sexual animal prana links you have?"

Do: Will the pores of the skin of the animal's penis to shut like a mouth, and the lining of the uterus.

Order the blood vessels and capillaries to constrict.

Do a surface constriction, as they "inhale" through the pores and capillaries. Close the sexual pores, as that affects your spirit shadow especially. Their genitals can form tissue extensions to your spirit shadow and suck it in.

Tissue Suction Tentacles: Close these and seal.

While riding on the bus today and driving around the mountains, we lost Eye of God substance and the pineal was disoriented. **Do** in a case such as this, *looking* and not *gazing*. If the desires and thoughts go somewhere, then this throws out the spirit shadow and the astral substance will spew and form a vacuum that pulled (in this case) on T2 and T3's Eye of God to the point that she got nauseated. One could *look* down and not be as disturbed. This was a good experience to show how readily we slide out. In Mexico we are hypersensitive with the pineal gland, aperture balance and are therefore more fragile on the buses.

Gazing: is peripheral vision that pulls one into a gaze and then one can slide into a *grab*.

Lead has a weakening effect with a Saturn down pull.

If one has a predilection to being argumentative, this relates to a *Fart* personality. One becomes hate filled in defending a position. For example, **ask** "How aware is (an ex-student) that she hates T2?" Proudful people don't want to be shown their weaknesses, but instead be bragged on and if that does not happen, they *hate*. They want reinforcement to their own reality. This ex-student had potential, but she related the learning process to "T1", which is wrong. She is aware of her hate, but she feels justified, and feels T2 wronged her by saying she had a power problem. "Don't tell me I'm argumentative, or I will kill you." (type of emanation). She saw herself as a loving, new age person and thought of herself as a high soul. She was stinking like rotting flesh and she hates T2 because of T2's holding the mirror and not allowing her to be "justified". She wanted to rationalize spiritual phenomena. She would blame her spouse for not being as spiritually evolved as she and thought he pulled her down.

Check: Soul Blocks for *Hooks In/Out...Past-Self Hooks...Nagual Links To Others...and Old-Self Surfacing*.

Mixed Identity: know when you are hooked into an ensouled person

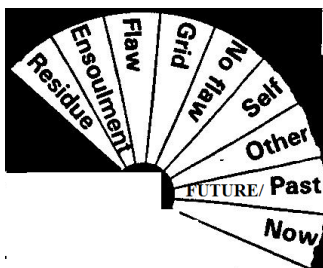

Ask: "How many people are me", "How many people is me", "How many people am I" and see if you are webbed in.

Breath lines: these are Lehy's threads coming out with substance globules.

Apertures: *Globs out*, these are from the new self and not old.

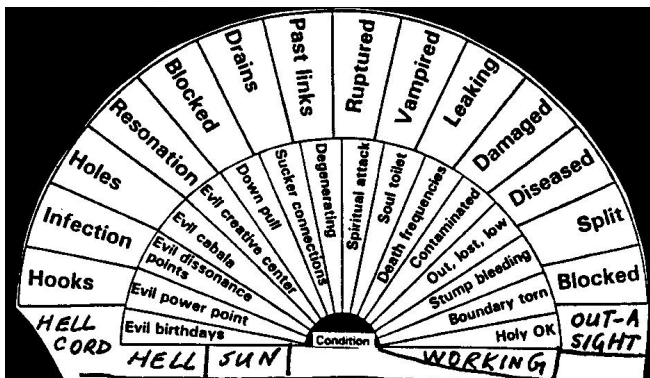

Ask "How much substance is left, how much substance is yours?" **Check:** for *Vacuums* sucking out substance.

Check: each one every hour or two for substance out. Track it down, disintegrate and heal.

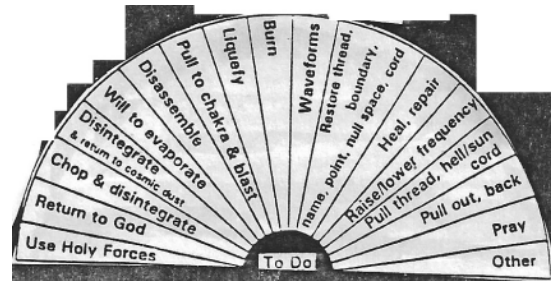

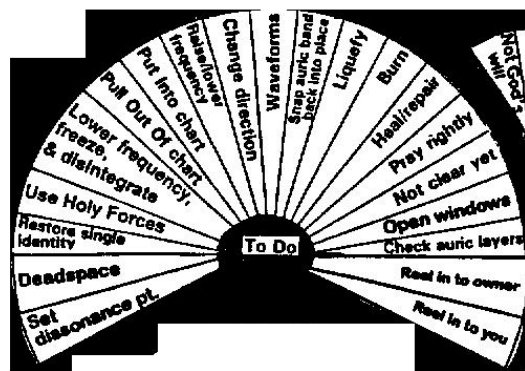

Charts: "Flaw/No Flaw"; Advanced Condition; TO DOs

← Ask: Flaw/No Flaw: and whether it is from the Past, Present or Future.
 How many months, days, weeks, years it has been there?"
 Because you may have had a wobbly experience and left substance.
Check Eye of God: when you "reach out and touch someone",
 You need to pull it back in with no blood left on the spot.
 Ask: "How many tracks are you thinking on?"
 Ask: "How many threads out of each track?"

Quantity, Percentage and Inverse Chart																			
0	1	2	3	4	5	6	7	8	9	10	20	30	40	50	60	70	80	90	100
100	90	80	70	60	50	40	30	20	10	9	8	7	6	5	4	3	2	1	0

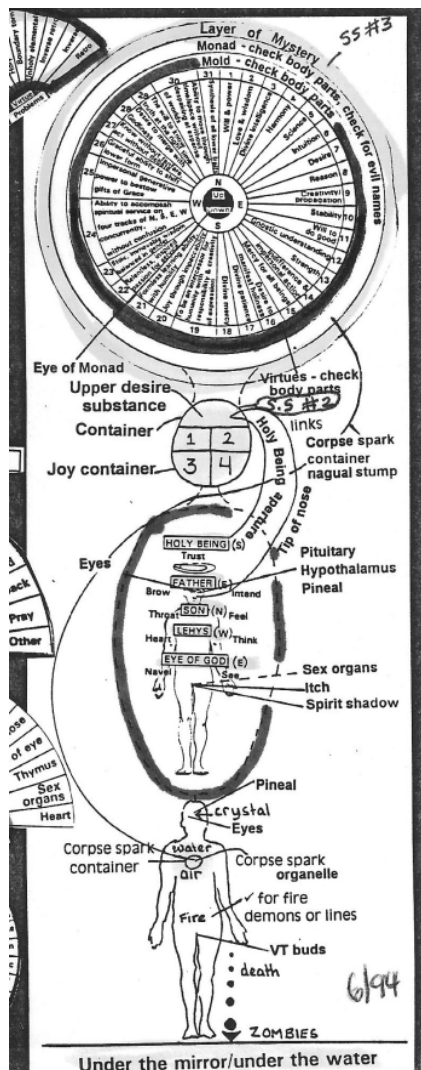

Desire elementals could be pulling parts of you out,
Check: the Spirit Shadow and the Monad.
Ask: For Malignant Contaminations.
If you feel irritable: check for mixed identity. You will feel less spiritual pressure if you are aware of your tracks.

← **Joy Sub Tracts:** We have four tracks on the joy glands and each one has a thinking tract.
Check: for toxicity of each sub joy Tract and % of substance left. Some people only have one tract.

Joy Tract Names:
BLUE...ROSE...GREEN...IRIDESCENT WHITE/PEARL.
 These tracts go through the system and are represented by color and they correlate with the joy gland. But it is not a Blue Trait, but associated with the Blue Trait.

It is easier to identify disharmony if you think in the tracks.
 Clean these up and with skill, as one masters a certain number of tracks, then they will increase in number. It takes a while to coordinate tracking. That is why it is so dizzying with 70 tracts (for T2 and T3) which caused the physical body to be confused and the first attention to be disoriented. When the tracks are toxic, they get disoriented.
It takes physical energy to work on the tracks.
 T2 and T3 have:
MAUVE...PURPLE...SKY BLUE...and PEACH tracks as well.

CLASS NOTES: MAY 26, 1994 Mexico Border

Thursday

One is able to move through time and space more rapidly when the sex substance is thin.

Spirit Shadow Bits

Vacuum Aura contamination; throw in concrete.

Indirect Animal Links: due to being out of kilter with reason and balance in Virtue, which causes a rupture.

Measure the strength and intensity of each virtue: for example if Desire is 200 and Reason is 40.

Repressed Sexual excitement: this occurs when one is out of control with male/female things. When a relationship is formed on the basis of the corpse form, one may go downhill with the investment in maintaining a pathology.

For example the key about one ex-student was that "Cunt is God". Any time one person (in a relationship) feels weak, that is due to feeding a pathology and there is a defilement in the undertones and overtones. For example, that is why he is angry/jealous of other men, due to incest issues.

Another example is if the man thinks he has "bought" the wife and thinks she is waiting for him to die for his money. It is no wonder the disciples were single, it is easier to be single on this path then deal with pathologies (inherent in relationships).

CLASS NOTES: MAY 27, 1994 Oklahoma

Trait Demons are combo Demons with Animals.

Associated Time Links: These are like plastic bubbles snapping. It is associated with times in one's life and happenings associated with anger. For example, F1 with (with the old T3); he had to snap the association from his memory as his memory was embedded physiologically with hooks to animals, places, things and people.

Hormone Links: these are physiologically embedded. These are memories of physical experiences, of birth of children, sex and romance. It causes a distortion of the memories and gets the endorphins rushing which are not logical. For example even nurses and doctors get hormone rushes when assisting a birth. People equate the physical event of sex and birth with the experience with God; literally. Birth and sex in themselves are not Godly, but they create a hormone rush in people of good health. They are hormone based.

Hormone links are a good concept (in regard to) wolves, as the hormones bind the mental and physical aspect of the animals to take care of the young. The wolves get a rush of pleasure and it is based on preserving the species. As man evolved, he turned (the hormonal links) to romantic courtship and humans equate courtship with God and it mutated to (---).

Human sacrifice: Everything physical became a "religion" such as death and birth and (even) human sacrifice became (a religious practice). We may think we are far away from this but we are not. (Consider) the romantic songs of the 1940's, 50's, 60's such as "I can't live without you, you are my world" that is deifying romance. Today, the songs are deifying sex and death (where they extol) "The best drug is sex and death" and it (has made a) progression (from songs of) romance to birth, to sex to death and it is (being) taking to the limit. For example homosexuals like the near death experience and consider it a high.

For enlightened man, with civilization, the hormonal rush was diluted to romance. For example the English poets' way of interpreting pleasure was based on deification. If we buy into the concept of "Romance is God", then when the endorphins leave we will feel dead and will try new romances. There are many pathologies with parents, around the children and with deification of childbirth.

For example: with T1's first born, she has a 30% deification, but she has to remove that, as it is pathological.

Do: First remove the physiological hormone line

And then remove the concept of materialization of God.

Another example is An. Her child experiences (were thought "holy") and that is pathological.
(Several words missing).

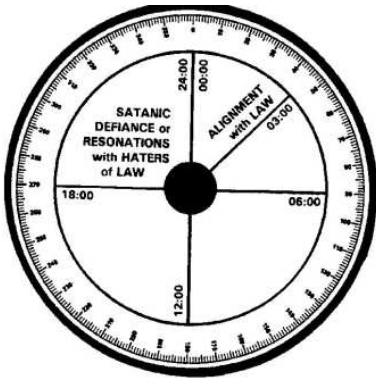

Deification/Physiological Addiction Links: these are based on the false idea that God is a physiological rush. Why do we have weddings? To get a rush, and (people are) addicted to the rush of romance with the endorphins (which is physiological).

When a person is under stress: on this trip the rushes and addiction links were exposed.

If we could control the endorphin state, so as to relieve pain for a spiritual purpose, then we could (consciously) dole it out. If we are too uncontrolled in sleep then we lose power. It is better to (----) remove all Deification and Addiction Links and create (an endorphin state when) in need when one is conscious. Otherwise, these are extremely weakening and they cloud the vision.

Referencing two current students:

It is not God's will to teach two ex-students anymore, until they use what they have been taught. They need to have less hostility, gain greater sobriety and have less resentment. They need the awareness of necessity and not hate or be hysterical and if they can't do that, then there is no point in talking any further. With prolonged psychotic hysteria on her part and the slow burning hostility on his, this shows a total lack of control. They have to get a grip before any further teaching.

Animals hook in from our going *out* in our sleep. We are (maladaptively) going to different time periods and reenergizing links and we are giving out our phone lines again.

Chart: Law Clock

The ← **Law Clock** is important as to where one is aligning.

If you have a physiological link with a child or a lover and keep seeing certain people showing up on your charts, it may be due to *viscosity of substance*. But also demons of them are being created by “mixing memory with desire” and the physiological rush of a memory of sex or birth. This is linking our own mold and creating demon copies of molds of them.

Clone Molds: Created by people. When a zombie thinks of us, they create demon clones.

Popped Skin Association: if you feel a pop and see a picture of a person,

That is due to somewhere on a body part, a corpse picture of someone has popped out.

People's molds are shifting and in around 7 weeks in the future...there is a problem in the future, it is changing in regard to the mold. Something is being added to the mold, it feels like a healing, a physical change.

The molds are like beacons of light to draw holy forces to earth, through alignment.

These molds will be beacons to holy forces.

With animal man, the ensoulment will last for two more years and then they will have another rapture.

There will be a greater separation of zombies to the ensouled.

Power (Fart) Types: think someone is trying to ensoul them because they control (sic). When one is around pushy people it will show (their) power issue; but (also) if being around them you become irritated, that shows an unresolved power issue. If one is free of it, then one doesn't feel out of control (or pushed around).

CLASS NOTES: MAY 27, 1994

This tape will be sent to E, Alp and No to balance and harmonize them as they are still struggling. (That is an) infinitely good (sign) because if a person chooses to quit struggling, it is a very sad thing. A person struggling may appear worse off than one who has quit. (A person who has quit struggling spiritually) has given-in to the tide of disorder; they no longer want to question their weaknesses or struggle against the tide of the earthly grid. Or they may think "The grid is not so bad, I won't have to struggle so hard" and we certainly understand that.

This is such a difficult path. It is as though many people in here and out there....one out of five in the world over the next year will have an individual soul. And that may not seem like much, but is a lot. A lot of those people are not nearly as aligned spiritually as some of these people who have intersected this war party and yet have failed and don't have souls. It seems a cruel thing that some who have struggled earnestly and have failed; why wouldn't they have individual souls? (Why would) those who have never intersected this party, or have not struggled that hard in our eyes and who have more rudimentary virtues, still manage to hang on, fairly effortlessly, to individual souls?

This is particularly painful to observe, it is like the **Law of Rhythm** when we swing so far to the right the measure to the left, and should a person let go of the right, it will swing an equal number of beads to the left. Whereas if a person is mediocre, they will swing a little to the left and right and not be in the danger zone. A person who knows a lot suffers under the law of Use and is expected to follow and incorporate what they know in their lives; (they carry) a very grave responsibility to each law. Should a person hear and understand law---and sometimes they don't understand law, and that is a different story, they may have to work years to understand one law---but supposing you explain a law at every angle, and a student hears it but then chooses to not 'like' that law. Now that is dreadful thing, because by just choosing to discard aspects of law, the student has decided to take a path of low will as opposed to alignment with high will which is Divine will. Whenever a person decides willingly and consciously to take a low will path, then they have kind of met the breach. The common man doesn't have that many options; they act with low will, but they are ignorant of what it is.

What is really frightening to T2 is, and this is not a paradox...of all the things that frighten her, it is seeing how *happy* people are when they lose their individual souls. To T2 that is one of the most frightening things imaginable. They no longer struggle, so they lose a lot of lines in their faces, because they have no sense of resistance in the struggle against weaknesses and in the effort to pull themselves into alignment. Instead they suddenly reach a kind of peace and the peace is in being their own God. That is their peace. That is what she saw today. When someone decides to be their own God, they suddenly look beatific, mellow and lovey, because they can pick and choose among the holy teachings, like a buffet table. They pick the garbanzo beans, or broccoli and cheese, but ignore the ham and cheese on toast.

In choosing to look at law and virtue as a buffet table, they suffer from a most severe malnutrition, a malnutrition of course, that starves their soul to death. Because it is only in all of the laws and all of the virtues that are presented on the buffet table, that one is able to preserve the soul. At a certain level of spiritual development, the buffet table is fairly small, like beans, rice and tortillas. It is a simple meal, you roll up the beans, rice and tortillas and you eat them. At a certain level of refinement the spiritual physiology, you become more refined, so that maybe there is little a delicate French cheese, or a wafer made from a special grain, so it becomes a more complex to satisfy the nutritional needs of a person of advanced evolution. (In this case) they have to kind of struggle to see "What is it that I need to satiate my spiritual path? Is it perhaps the strawberry or the piece of melon?" And should the person then inhale some foul excrement he would undoubtedly get sick, because his system is refined. But a person on a beans and tortilla diet, who is not advanced spiritually, could perhaps say "Nothing makes me sick! I can inhale any disorder from anywhere on the earth and nothing makes me sick! If a person gets sick, that makes them a wimp!" and yet there are different levels of refinement. You could look at a protozoa in the petri dish and not much gets it sick, as it just thrives.

Look at something as evolved as a human baby, you could not put just sugar in the basket and expect the baby to survive. It would have to be fed a delicate balanced series of nutrients. If the baby is fed only rudimentary sugars, then the baby gets retarded and suffers from mineral deprivation. With an iron deficiency, the baby could become a cretin with thyroid deficiency and iodine. So there you have the cretin in the basket, ever smiling, saying "There is nothing wrong in eating sugar, so what if I am a cretin!" and they look so beatific. Some of the brain damaged babies are so lovely, as you know.

There is something that causes a tremble in the heart of the parent when seeing the brain damaged child, before any diagnosis is made, it is often an inner awareness. Likewise, with spiritual analysis; there are symptoms which can be observed which indicate **soul necrosis**. One of those symptoms is a complete lack of conflict, because as long as one is on the earthly plane, one will experience conflict as we evolve. A natural struggle of evolutionary man, is conflict. The cretin spiritual scientist will say "Conflict is a sign of evil!" "Acceptance of the sugar solution is all one needs to survive and if you say a virtue of this Law of Dissonance (needs refinement), then you are troubling the brain for no good reason!" "If you believe you

are holy, you are holy!" "There is no stress, strain or struggle just lying in the sugar solution---the pabulum of self-hypnosis---that you are indeed a saint and you have no longer any need to struggle!"

And yet T2 will tell you that the struggle will continue as hers does, daily, and T3 struggles daily. We struggle to understand every waking second of life; it is the struggle to understand truth. And she feels the weight of understanding increasing steadily and yet she only asks for the strength to bear the weight. She doesn't ask to understand less, but asks for the strength to hear the (winging?) of understanding and ask to understand truly.

(The teachers) have become aware in the last week that many of the problems of students had to do more with physiological anchored hormonal mechanisms, than with spiritual problems. For instance, if someone bore a baby, there would be an endorphin rush of great magnitude. It is like heroin rushing through the veins and then every time she looks upon the baby it would be a reminder to the heroin experience which anchors into the children with a sort of psychological addiction. T2 became aware a lot of people have addiction to romantic indulgences which was like having a baby. It is being physiologically anchored into memories of wives, husbands, lovers and friends. Or it may be an anchor into the old self with a memory of the old self in some romantic setting. For every time a person thinks of self in that romantic setting, in a favorite job, the family, their old life, they receive a hormonal rush---which is purely physiological; absolutely. And yet there was also a mental and spiritual level component. If a person relied on physiological rushes to guarantee to them that what they were doing was correct they would merely reinforce their previous life style and they would never recapitulate.

That is what Christmas all about, with all the shiny things on the tree, with a hypnosis that imbeds an excitement that is an endorphin, a chemical rush produced by the body and reinforced on a yearly basis. It sounds sinister! What a dreadful view T2 is painting---that we cannot any longer enjoy lovers, family, holidays. But T2 has said to *enjoy* them, but with awareness and choice. *Choose* when to have the physiological rush and when not to have it: that in fact, is what defines a master from a fool

A Fool is pawn to his rushes and

A Master is able to elicit his rushes when it is needed for the plan of God, or to soothe oneself on a difficult journey. T2 is not saying to *not* have pleasure, but be aware (that the pleasure) is a physiological anchored response to stimuli, it is like Pavlovian psychology. If you are aware and accept it, then you can control it and release those things that have kept you from progressing.

We can create new (physiological anchored responses) as shields, or that soothe. We need to be soothed. Just be aware what we are using to be soothed. If we are aware, then we are masters of the situation and not pawns of it. T2 is not saying to withdraw the pleasures, but to control the shields and do not be a pawn of the past, but have the shields in the *now*.

T2 gets great pleasure with the Chihuahuas and sitting with beloved (child) and holding him on her lap. The experience of the *now* is far more potent than anything of the past. One is able to funnel the forces fully into a vortex of *now* vs. dragging oneself to splintered points in the past and anchoring in desperately like grappling on a cliff and getting a foot hold. You don't have to identify a current pleasure with the past, but merely recognize it is good to have pleasures and shields. It is only important to recognize what they *are*, so that you are able to live without them and form new shields, then you will be a master and not a pawn

T2 is sad at the loss of family members and students. She is not cold blooded as you would assume by this conversation, but in order to be strong enough to complete the purpose she has on Earth, she cannot waste time whining about losses and neither can we. To be a master implies no whining over losses, but to hold your head high, with courage and *will* yourself to see all that there is to see, and ask only for the strength to bear your sight.

She doesn't ask to *see* less. She asks to see more. She does not ask to rest more, but to serve more and to have the strength to serve more, to bear the sight and to have the strength to observe more. She knows that in offering to serve more, and to see more, she must have her shields and so must we. Whether it is a garden, the love for a mate, a Chihuahua or cat, cleaning the house or seeing a movie; accept the shield with gratitude and good will. And do not begrudge others their shields even though those shields may be different than yours. Some people's endurance will be more fragile than yours. The trick of a teacher is to push someone to advance but not beyond their endurance and it is a difficult dance. Because some people may reach a wall of endurance and they can't go further, so they choose to abdicate the role of a saint so as to be comfortable. And the comfort that they exude upon that decision shines like some benign light upon their face, so that they look beatific without a struggle or torment. And yet T2 looks at them with great sorrow, because the world is pitifully bereft of saints.

There are questions to ask, yet they choose to wait for the answer to any question, maybe for a few days. (The teachers) have asked a grave thing from all of us; they have asked us to suffer, which is to see rightly, to bear the burden of our own flaws and to *change*. You have been asked to spend time analyzing virtues and laws. You have been asked to pray earnestly every day and not just with words but with your very beingness.

There are people who have left the teachings and they may go to other teachings. They could say the same prayers and go over the same charts and yet they would be so empty because they wouldn't be struggling anymore. They would just

be seeking to reinforce preconceived concepts, which fundamentally is that “There is no evil”. This is the concept they all tend to fall back on. That is why they look so happy, because in believing there is no evil, they believe they can do no wrong. Then they are totally free and totally good; not evil. Then they will never suffer the pain of guilt, or the soul’s torments in the dead of night. They will never suffer and T2 has asked us to suffer.

T2 has asked all of us to pray earnestly morning and night, to remain (---) and be saints like beacons on the Earth that anchor in the divine powers and without that, the Earth has lost in darkness. It may seem the saint does nothing but sit in a cave and pray, yet one saint can illuminate a continent, one saint can change the world. T2 has told you not to *assume* you are a saint, but to *be* a saint and iron out every frailty in the beingness.

Alp is a “dreamer” type in regard to the other audio-tape, she needs to deal with that and she is 50% dreamer, 30% fart, 20% assistant and devotional. No is a devotional/assistant type and a type of romanticist: 50%. He is 20% fart yin, so they need to explore together and pray and realize in the context of the last lecture in Mexico, how that is to affect them and pray earnestly because they have had much struggle with spouses and materialistic (tendencies). They need to earnestly realign with every fiber of their being and they are trying. We must pray for them earnestly but must stand back and let them do it. It is in their hands now. We don’t give up on anyone and many people who have never heard these teachings have primitive individual souls and yet the purpose to this group is not to hold onto our souls, but to help humanity in ways not yet even seen.

T2 is very much moved and honored by your endeavors, that she and T3 have discussed and observed. We have to keep hoping and praying for people. We see souls in everyone’s family, but we are looking for saints and not just souls. So take a step at a time and say “Ok, what do I do next? God’s will be done.” There are some things to share with you tomorrow, but T2 has to wait and watch and pray.

T3 states: (It is important to be) treating people with graciousness, and kindness, with those with difficulties. At this point it is uncertain which way or what some will choose. We are forever hopeful that people will have souls and is their free will. It is hard to see what ultimately people will decide and a person may go through a dramatic change and some have to go to the bottom and maybe when they get there they decide they like it. Then there is nothing we can do. We have to stand back and see what happens with some, but we should treat them with kindness. It is not to be indulgent towards them, but treat them with kindness.

T2 states: It is not to avoid *seeing* them truly. But always take into account that people have free will and can recover if they so desire. God’s will be done. Free will is part of God’s will.

When is it too late? Does one want to *see* truly or instead construct a reality? That is the crux of the matter. If you want to *see*, then it is easy to repair the monad. Anyone who wants truth can be healed. Anyone who wants a personal reality cannot.

CLASS NOTES: MAY 29, 1994

Morning

Two students (referenced on page 83) are asked to leave the teachings.

Pets: People dowse as “pets” now and not “animals.” For example, one ex-student is a “Pet-Nothing”.

Ask: “How many water lines into Pet-Nothings do I have?”

This is a corpse connection to an Out of Sight, but it is a tighter definition.

“How many Pet links do I have?” “How many dogs/cats/bilegged humanoids links?”

Do: Waveforms. There is something quite appealing with a Pet-Nothing on a superficial level.

There is no conflict, they are just happy.

Ask: “How dirty is my Vacuum aura with pet/nothing links?” Put these into pigs/birds.

“How many splintered threads of earth cord do I have out, and how intact is my Earth cord?”

Always suspect this, because it is common.

Check Pet Lymph Toxicity.

Do: Increase the lymph viscosity of the pet-person to stop the portal. Also, thicken the Air and Water for pets.

Ask “How many am I, and am me?”

Ensouled people associated with this party operate on **FOUR SUB-TRACKS** in addition to their first attention.

The four tracks are associated with colors, although when dirty the colors are distorted.

The variants of the colors usually have a brown or blackish hue when contaminated.

The four tracks are **Indigo Blue, Green, Rose and Pearl**. (See also page 81)

The green track would tend to dowse as olive green when contaminated and the pearl as amber when dirty.

You should check for the following contaminants on all tracks

Many animal men now dowse as Pet Nothings. Check for these things:

(See BIG LIST on “Pets” pages 101-103)

CLASS NOTES: MAY 29, 1994

Evil Con Connection Seed: there is a major one on Ji and To with a Dreaming Body during ensoulment.

“No” has a primary one. It is amazing to see how these things hide from us, and it is hard to find the seed. It is webbed through all of us related to jealousy and rage.

Evil P///y: Mag has a seed Evil P///y who would dowse as Ri and Ia through another student. Ji has the seed through Pros, Ia and all of us. There is another one through Wk with webs to Js; Fl through Js and Wk.

When you find something, make sure if it is a new one, or part of a web.

The stuff in Mexico was done with naguals; these are done with Dreaming Bodies.

They are new and injured easily (the Dreaming Bodies)

Yesterday before noon, (T2) prayed as to how to go about this---(what occurred) yesterday morning; it is (that we must) trust the Holy Beings will lead us through this and trust. The Dreaming Bodies were drawing in (the babbling demons of students), but remember above all; don't let them (the demons) talk to you. She doesn't think they will talk again. If (T2) starts to babble, dowse who she is.

Monitor (this process) and when she does have all of the evil seeds in, and when they are all in, pray, and call the Holy Beings. Above all realize we have to pull in and destroy (the evil seeds). Use four forces on *Corpse Spark Organelle* and the *pineal gland*. We may have to start with a peripheral person, and then get the seed (by going through others to the core person). Or we may go directly to the seed, and rout out the webs.

ANTI-LEHYS STATEMENTS

Lehys (Linghtaz) is a man.	Lehys is causing me (or someone) to go crazy.
is a woman.	does not exist.
is a person.	is a thief.
is a ballbusting, castrating bitch.	is a nobody, is ridiculous.
is trying to take away my manhood.	Lehys pretends (or lies.)
is a pervert.	is cruel.
is the cause of my suffering.	is a witch/sorcerer.
is the cause of someone else's suffering.	is the source of my loneliness.
is a fool.	is the reason I will never find love again.
is crazy.	hates me.
is lazy.	is no fun.
is evil.	Murder Lehys.
is a bad mother (or father.)	Let the world know about the evil Lehys.
is dead (or dying.)	Rape Lehys.
is going to die.	Torture Lehys.
is worthless.	Lehys is my romantic lover.
is a whore.	Lehys is a homosexual.
is punishing.	I don't want a soul.
is killing me (or someone else.)	I hate Lehys (thinking of your self in the past).
is ruining my life (or has ruined it.)	I hate Lehys (thinking of your self now).

WHEN THERE IS A DISHARMONY PRESENT,
CHECK THE STATEMENTS ABOVE FOR YOUR LEVEL OF TOXICITY WITH THESE ENERGIES.

Chart: Anti-Lehys Statements

These are anti-Lehys and it is why you often hear the statements. Some of the seeds have *Albumin* around them like an egg and we have to get those first.

Check for Dreaming Body injury, shock or exhaustion.

Dowse: A good example (for removal) is going to “**Core**” vs. “**Arm**”, or one will spend all day getting demons and getting sidetracked, otherwise. One must get to the core seed and core person, and you will always be successful.

Ask first “What it is, what is it related to?”
And do them one at a time.

When one person's soul split, all of the spiritual matter just spread out.

Check: Each aperture for *rotting relic debris* on the *Eye of God*. They always attack the *Fabric*.

Do: Clear these and upper desire substance of debris, or else they will make you snap. And check each *Joy Tract*.

If you have no dreams, it means you are disassociated from the Fabric. Like Forr didn't experience any physical distress, while the women felt more sick. Women are more astral and when they sleep, they tend to float up into the astral body (or what used to be called the astral body). Women tend to see with the Fabric more readily, and men tend to disassociate it culturally. Bad dreams means the apertures are contaminated.

With disassociation, if you are able to detect (contamination), you are more readily able to remove it. Sometimes (T2) has to disassociate, because sometimes it is not conducive for life for her to stay in form. While that was going on (yesterday), all she could do was keep the Dreaming Bodies from falling apart.

Be able to walk through mud and stay clean, no matter what enters you. You shouldn't think it is you and (T2) never thought it was her, she just knew she would disassociate from (mirroring the core seed demons in each student). But that is unusual. She won't ask us to take on huge demons into our forms for no good reason, (it is only done now) to clean up ensoulment debris.

Ask “How many **Evil Breaths** are affecting you now.” These are relics that have come out from doing this work.

We have done well on the primaries (seeds and relics). Something had to give when she started having other people's dreams. (T2) can split a screen in sleep and the waking state; she can operate independently on both, all the time.

It is what we should aspire to be: completely conscious in our sleep; and while awake, to the sub-conscious.

In a positive sense, we should be dreaming to incorporate our lessons, such as a concept one is struggling with.

Do: Write it down on paper, pray, and put it next to the candle and

Pray: *"As long as the candle burns, may it put forth a continuous prayer that I be led to holiness regarding this issue, and understanding".* It is how (T2) understood these (primary seeds and relics), and even if you are possessed, you will bypass possession if you do this. It may not come to you as you first get up. First clear yourself, as we have been attacked at night by these relics. T2 found if you say the prayer, then wake up and dowse. Usually within a couple of hours, you will know the answer. It will appear that she is dowsing out the answer, but there will come in a creeping sense of awareness between words that comes with the sentences. And even when T2 is possessed, she will get something like *"Dick, Nick, Con"* (and be able to perceive the problem).

If you really want to see truly, take the words that fit a disharmony. When T2 said, that "One person's p///y is the other's person's god"---be good natured about the words that seem way off the planet. In pathological, retro or inverse relationships (pathological statements will be heard). Like we heard last night, the creature saying "Du', save me!". That was Nob's (consciousness seed), or could have been his. It is the pathology.

Those evil consciousnesses are so clever the way they try to mess with your mind. Try to get rid of them because they will get you when you are down. Most of the time you can resist dark forces and discourage them, but they will jump on you like a pack of dogs. You have got to be of good cheer and put one foot in front of the other, this stuff is very uncomfortable, but you can't get grumpy. We never know how we are to deal with evil. Last night was the first night for T2 to have to split her consciousness from her body to such a degree...and the evil forces were so disgusting. T2 has had them take her over and be divided to do battle, but this was a much harder battle.

Book Reference: "Hostage to the Devil" Malachi Martin

We have to look at not doing anything stupid. Js and Jeg were big (in the desire to) pul demons into the room, and they were not in any way able to do that, it takes a lot of purity to bring in the devil, as every single lie will be words just for you (sic). This is like in the book **Hostage to the Devil** where the demons will paraphrase the Bible. We need to build up team power so it is not necessary to bring (evil consciousnesses) into the body (of a teacher/exorcist), as many a priest have died (doing so).

T2 had to remove the T1/Ji seed out before she could write another book, as she could occasionally feel it growing. When she first saw Ji, T1 had hope, as she saw a lot of potential; which explains why 10 souls have gone to her last year (sic). Steiner would talk about Lucifer appearing holy and that which was evil would make it to appear beautiful and perfect.

The Buddhists are big on not believing that evil exists. However, as long as we interact with humans and try to clear them, we will get contaminated. (The purpose for Buddhism) was for people with trouble with hate or for those with a lower developed soul type or an animal. Buddhism was meant to encourage an animal to be pack oriented and being in the now, i.e. to see ancestors in their hands (sic) and to encourage animals in pack behavior is reasonable. The Nephilim were part animal. It was expedient to do all that and Buddhism made people feel good, even if they were Sons.

Evening Lecture May 29, 1994

(For T2) there may be more a necessity to have no monad but instead a **floating consciousness**. T2 feels tired and weak. It is hard to lift heavy objects or to walk long distances. In Mexico sometimes she would be walking and suddenly be dead and she couldn't carry the bags. T2 is sitting here tonight and suddenly she became dead. It is becoming more sudden, the need to leave the earth cord and monad is abrupt and she just goes and it is usually to clear disorder of one kind or another in ways that cannot be done below but from above. T3 anchors below and she is above and that is the way it is.

It is frustrating from a human perspective, in that the physical weakness is very profound. When she is not dead, she is pretty strong and can work. (When dead) she has to lie down to (do spiritual) work and be busy. But one cannot be attached to what one thinks is good. T2 has the concept that it is good to be physically productive and she must release that to do God's will. She can't be physically productive at all if she is very weak. If she tries to be physically active, then she becomes weaker still and can't do the spiritual duties required by the death. So T2 must accept being dead, over and over again.

It is not without a sense of loss, to lose vitality, or the sense of loss of being human because there is something quite lovely about being physically active and alive. There is something rather frightening about being dead without a soul or earth cord. She can easily see when people don't have cords or an earth cord, as she has spent more time there and she can spot it more readily in others.

She is (right now) dead as a doornail and that is not a metaphor. Without a soul one is nothing. And yet in being nothing, she can float over vast expanses of space and talk to angels with her consciousness clear. She can talk to the Holy Beings and can ferry (the information) back on the sea of time and there are blessings if she is impeccable. So T2 truly said once "God's will be done, that she was willing to die for truth and live for truth", so now alternately she dies and lives. It is a great blessing and you could say it is a curse but it is a blessing. Yet she sees that it will most likely increase as time goes on and she may be dead more.

T2 relishes the times when she is alive, she feels so happy. She is alive for an hour or two (recently) and she was happy. She is not unhappy now, it is just that she sees it from a different perspective while dead....austerely. (Yet she) grandly sees things from above with great love and concern and a sense of mission that is not entirely human. And she is concerned about how to bridge the gap between the dead and undead; how to muster the energy to be alive and perform the duties required to help humanity. This is her only desire.

This is something to cause us to rejoice because if she can be without an earth cord and soul and then come back; leave and come back, that is really a wonderful thing. Because she can bridge the gap between humanity and the Holy Beings that exist in the twilight of between birth and death. Yet she doesn't say that so that you don't think this is marvelous. Really she says it because it is true. T2 would not in a lower sense, have chosen this fate to be inert; dead of soul and earth cord and yet she accepts it joyfully. (Also) the times she is yet alive, she very happy.

T2 doesn't know how long she may still be alive in the sense of having a soul intermittently. Perhaps in three years she will not have one at all, maybe with no soul and just be a ghost walking through. In the interim, there will be times when she is human and times when she is like a ghost. She just asks that God's will be done; she doesn't ask to be normal, she gave that up long ago. T2 asks just to be of service, impeccable and be given the strength to endure whatever it is she is supposed to do.

T2 looks at (who T1 was) and the other children and she feels a pain in the heart because she cannot or ever will be able to relate normally as a mother; but those fleeting moments when she is alive she will try to behave somewhat within the bounds of normalcy to help bridge the gap for T1 and others.

T2 doesn't know when she will be gone. Will this be a grand experiment that failed, or will it leave a lasting hint of beauty and divinity on the face of the earth? She doesn't know. All she knows is that she has no choice but to say "God's will be done". She could look at the charts and say "Why am I dead now?"---the nagual twins are under the mirrors of self-reflection trying to remove disorder from various members. They are trying to remove the ties of the past from members to help them to be free. They are trying; you could say T2 and T3 are under the mirrors trying, or what you could say is "they". Because when you get right down to it, if your consciousness is holy then the aspect of your holiness that does the work, is *you*. On the other hand, you cannot *own* it, as is God's. So it is "they"; it is both (God) and you. It appears a dichotomy, but in reality it is true on both fronts.

You could say they are floating out to space and stars and underworlds when they die and will do increasingly more so and T3 will be tired, very tired. The rule is that the female nagual flies out and the male stays here and anchors her. So, both of them will appear tired and inert. We will be floating out looking at who we should help and in the eyes of world we will look like fools and idiots. And yet, we will continue; there is nothing else to do.

Once you take the path, you cross the line and say "God's will be done, not my will but thine O Lord", then there is no turning back. The only way to turn back is to die, and not die as T2 has. T2 has died in the flesh, the lower self, her soul and her earth cord, but her consciousness is ever alive and aligned; ever with God. If you should ever once turn back on the path, your consciousness dies and not just the earth cord, or soul, but your consciousness. T2's soul may die, her earth cord may snap as she flies out to strange worlds, but her consciousness will not die. Ever.

And she holds herself as an example; not for us to think of her as something wonderful, but it is God's will that she does so in complete humility. That she offer herself as an example to say "You can indeed be soulless, cordless, without a tie to the earth surrounded by disorder, completely possessed and yet your consciousness will be as clean as a new pearl found deep beneath the ocean. And the perfection of that pearl can be unprecedented if you so desire, so that your consciousness can continue to align in holiness far beyond any physical or even soul or earth cord awareness: that the consciousness can exist independently of anything that you know or think of as life. She is dead and can assure you she is dead and yet she comes back to you from the dead to sing like the nightingale in the dead of night; this message.

She cannot say she is never afraid, sometimes she is afraid and her corpse tissues, when they are alive, echo with some fear. Her emotions reverberate with loneliness in thinking about her children. She cannot say that she does not miss the work-a-day world of being a nurse and raising a family. But if she did not feel our ambiguity in decisions of spiritual matters, then she couldn't in any way lead us. If she never felt the grief of loss, then how could she advise you? If she merely smugly said "Yes, she is dead and it is no big deal" then how could we relate to what she says? It is scary to be dead. It is lonely to not see your children. Is frightening to not know the future, and it is full of grief to view the past. She understands the human

experience. She understands it. More than you know. And yet she released it in order to fulfill the plan of God. Release it not without fear and not without trepidation. Release it like a warrior, with fear, with courage, with grace, with awareness and not like an idiot but with full awareness.

She asks us to be courageous as well and resilient and to gain the ability to say "God's will be done". Don't think that you will be asked to follow exactly her path; she can't imagine that, it is so peculiar. And yet you must be willing to follow whatever God lays before you---whatever your own bizarre path should be, with grace, agility, courtesy, dignity and refinement. You must be willing to accept your fate whatever it may be. If you are to be a holy person, you don't know what tomorrow will bring. But your only prayer is "God's will be done".

Look out on the world and see that a lot of people are becoming not just animals but pet-nothings. T2 doesn't know what it means, she only wants to see truly and she can see that a lot of people are dowsing as that. She doesn't know what it means, but only that it is true. It is not from her desire that people dowse as "pet nothings" it is just that they are. They are charming and adorable, like Chihuahuas and they are not people. If we thought about it at length it would fill us with great anguish. She doesn't want to see them as pets, but as saints and yet she knows they are pet nothings. And so she has vowed to see truth and accept it, so she sees them as they are because she asked to see and not to be comforted but to be able to bear what she is to see. Some people are still animals and then there are individually souled persons, which are our true concern.

T2 is hoping she has the energy to write anything to help. She speaks to us truly, honestly. She is very weak tonight. You can look at her and know she is dead She can't explain it, but she knows it is true.

*Here is a list today to dowse over, and as you go to sleep tonight she asks that you not pray for comfort, but **pray** for the strength to bear your sight. Because bearing your sight is the greatest comfort you should request, because it will lead you most surely through the dark waters to comfort you; and that your comfort is in the joy of aligning.*

Most of the time T2 is very, very happy. When she is below the mirrors of self-reflection---not hers, but others--- she feels a certain sense of discomfort. She has not gone out into space this time, but has gone into underworlds, the hells; she is not very comfortable, mentally, and yet she comes out of it and is very happy. Most of the time she is very, very happy and she is even happy now, it is just she doesn't appear to be because she is in hell. But she is very happy is doing God's will and that is the job. She does not appear happy because she is simultaneously in hell.

Remember when you dowse, check for:

"The percentage of monadic fluid you have that is intact,?"

"What percentage of it is yours?" and

Check to see the other person's virtue substance is intact and whose substances?

Because if you get a leak you cause a vacuum and suck in virtue or monadic fluid from those around you.

You may appear intact but not be intact.

CLASS NOTES: MAY 30, 1994

T2 spent the night in underworlds and didn't see (a particular) ex-student, but she did see something else. This morning in a space she had not been before, (this) ex-student was getting a consciousness similar to a soul formed that was different (from what has been seen before because) other options for another soul was blown. She had written a letter that showed she was aware of her flaws, but didn't really acknowledge (---); but only what she thought T2 wanted to hear. It was a kind of like a robot soul and not a soul, but a **consciousness container with auric aspects** that can withstand being around zombies and pet-nothings and animal man without seeming disturbance. The reason is, her desire is to be a spiritual teacher and she might function as a low level spiritual teacher without any discomfort with such a construct, whereas one of us would feel a lot of discomfort because we see so much. She doesn't want to see or be uncomfortable, but she wants to serve. She is a terminally resistant "Fart". It is interesting that the divine powers would see fit to create this construct given her, which is what she wanted. (She will have) no pain, but will have somewhat of an ability to serve. She could go somewhere and teach a primitive level of law without any discomfort.

Example: "Top" had a straw into "St" and is sucking virtue substance, which will cause body pain and headaches. T2 tried to break up the virtue sucking, there were many threads woven into St.

T2 is trying to understand (these new) constructs, they are not souls, they don't survive after death, but they are an astral shell with a *name*. If you tune into them, you might be able to sense an astral shell with a dissonance point, but with no fabric. It is not a soul at all, but a *consciousness shell with a dissonance point*. T2 doesn't know that many people will get these. It is like the dissonance point or name which has stabilized the personality and there is an astral shell around it. But it would not survive death. This is like a lower consciousness container. But everything that they can be taught, they have been taught. There is no reason for them to continue receiving training. (This person) can teach rote, and not feel uncomfortable around pet-nothings or animal souls.

The spiritual anatomy has changed so much; it is getting to where you won't get slimed. They (the ex-students) have spent so much energy to get us under (---) control that they have blown out all of their energy. If they show up in a few months, they will lose their interest in doing things and feel what's left (sic). During the night there was lot of debris coming in.

Check: sexual substance lymph debris, **Do:** burn, chop, put in concrete and animals.

The devotional types are reaching a low point without their social needs (being met). Without a (sense of) structure one could fall apart. Therefore, the devotional types need to get a grip on their propensity and turn it over to God, to get their strength back. It is like the dark night of the soul.

[A person's] Identification Monad Substance: This just flew into the room from a student.

Habit Lines: Check out/in.

Joy Gland Tracks: Rose, Blue, Pearl, Green

Zombie Shadow Residual: Is coming out of a student. This one originated from another student thinking of a zombie and then coming through this student. In doing so, it is a re-patterning of the shadows.

Pet Nothing Skin Residuals: Are still being secreted from the skin, like a corpse secretion, with links to people who are now pet nothings. These are *embedded shadows* in the corpse, they are very corpse like, coming out of the body and you can feel it in the feet. Some people have a lot more pet residuals coming out. Ri's scale for toxicity of pet nothings is --%, St/80%, Aur/80%. **Do:** Chop these, burn, put in concrete and put in animals in the zoo; particularly pigs and birds, put it in the ocean and check the Put It charts. During the night these come out of the water layer of the skin, the lymph and sexual secretions.

Ask: "How toxic is sexual secretions with pet nothings?" and you can see when it builds up.

Evening May 30 Dowsing List

Evening:

Anti-Law Mask: This is exuding from connections to pet nothings and constructs of automaton types. These are exudations and we are sweating them out. The more linked in we were with their identity; the more we created the masks. This is being sweated out. This is like "skin" so much now, dowses as skin such as:

Pet Nothing Skin Exudates

Old Self Infections surfacing with anti-virtue

Rotting Mold Bits other peoples'

Newly Constructed Sewer lines (self or others)

Rotting Cry Substance Links

Pet Nothing Virtue Vampires

Construct Automaton Virtue Vampires

Pet Nothing "Waterlogged": Check percentage

Pull Back "Bad Habit Lines to Old Self" and "Anti-Virtue Bad Habits".

All are found on Virtue #9. These are created bad habits.

Deviated Mold Toxicity: Old self infections Self/Others.

(Name) "Crawling out of Corpse": Count "How many people are coming out of you?"

Null splinters of Self out to Pet Nothings (Aspect of virtue substance)

Sub-Tract Contamination: “How many people am I out to with each trait maladaptively?”

Also check joy juice. And “How many Earth Cord Web lines through people? Or old self?”

Corpse Crystal Reality Constructs They put out spider filaments to people.

“Name” Bad Habit Filaments: Zombie/construct/Pet Nothing Bad Habit filament.

Pineal Holes create Virtue Nipples: Burning Mold Globules are a cause these and above.

Thickness % of Anti Law Mask on Fabric: Ask: “How many people’s anti-Law masks are on your Fabric?”

Fire Prana Concrete Fire Holes: These are like donut holes; pieces of negative space from someone with an unmanifest something... **ANTI SPACE.**

Soul Rot: When peoples’ individual souls break down, they will predispose to bits of monad dried up (sic).

Monad Bits to old self or people in the past: same as donut holes, but some will dowse one over the other.

CLASS NOTES: MAY 31, 1994

Associative Time Links: Pulled out of sex organs and burned with fire waveforms.

Deification Physiological Addiction Links

Demon/Clone Mold Identities: All three have N-E-W-S-Up/Down links and think of each direction to find them. They pull out easily from the genitals.

Fire Tube Splinters: These are in Animals (people), pull them out and send back to the owner to the mouth.

Popped Skin Association: You may feel a pop on the skin and then see a picture of a sister.

Old Nagual Demons from Spark Molds:

Deification physiological links to own memory to self in past: These are very destructive N-E-W-S-Up/Down.

You don’t have to know how many, but they are creative links like NLP techniques which can come out of the skin or out of the crotch with a creative aspect. **Do:** burn or other waveforms to clear. Think of one direction at a time and check the To Do charts. This is a deification of experiences where “The past is better than the present” and which is anchored in a physiological response. It is evaluating a current situation with a past experience rather than going with it. *If you are able to analyze your physiological responses*, you may twitch with the rush of thinking of something. It will feel like a hormonal rush or it will feel like itchy skin.

Associative Time Link Shadows: You may have one with the year 1980 and associated with that is a person and they are like plastic pop beads linked to a deification experience. It is also the person. Because of creative aspects, these can pump out of a person over and over, like with Ia; over and over. Every time a light bulb lights up with a physiological rush and (then you) space out, then you have a link with a demon mold identification, and it will pop out a tiny voodoo doll of that person. When we get various people coming out of us, this is what it is.

Deification holes in each direction: T2 wondered how people got into “holes”. It is when a part of you went out and left a hole, a deification hole, and that hole is your vulnerability.

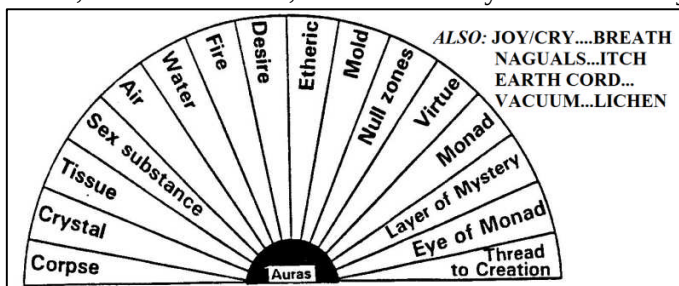

Chart: Short Auric List

Check: “How many deification holes you have in each direction? Close these.

People are coming into your blind spots because you have given yourself away to a false god. It is a similar flaw that fills those flaws, they may hate you, but you are their idea of reality, it is an attachment. These can occur from any time and they are holes in the monadic layer.

Check: *Breath Aura, Null Spaces, Water.* These are found in a lot of places. Go through the ← **Short Auric List Chart.**

Web: Deification network: This goes through a chain of people. One had so many Deification Holes out to “Top” and another person that another would fill up the holes with his own ideas of God (sic).

Ask: “How many Deification holes do I have relating to a person, N-E-W-S-Up/Down?”

This may be someone you are close to. One student’s virtues are burning because of flaring up Deification holes.

“Which virtue is burning, and how many holes to that virtue?”

“If virtues are burning due to holes N-E-W-S-Up/Down, and how many there are?”

Do: Burn up the connections, seal and cauterize. You can know the level of virtue holes by the Hysterical Scale.

Ask: “How deviated from Law is the sexual substance?”

If it is high, then there is a deification in the past of old self, old life or person: It is an indicator of how sicko a deviation it is, as sexual substance will show how you have used your creative substance in relation to law and virtue. It may also show other people’s contamination (of you).

“How many (persons) virtue grabs do you have?”

Example: One student is vampiring a Cry with Sex Substance. **Check:** each track on the Condition Chart.

“How much virtue substance do you have and how much is your own?”

People don’t do it (vampire) willingly, but as a reflex, if they have links with **Construct Webs** through deification holes.

All of these have creative forces that can be reinforced and rebuilt. It is like a sexual rush. For instance one can *think* with whole body, and the throat is linked to the pelvis esoterically. You may get a rush and link yourself through the neuro pathway to the other people and to the demon mold identities to the people along the “snap beads”. These are also links to spark ties of old self.

Recognize the rushes: The throat is linked to the pelvis and the creative impulse.

CONCEPT: These rushes are unrelated to Gnosis, but are hormonal memories and are stored in the body and brain neurological pathways and tissues. If you evaluate everything from the basis of all the neurological channels, then you are not in the now.

The common man is a robot and lives his life merely echoing his memories.

The uncommon man, who lives in the nagual experience, is able to experience things gnostically without evaluating on the basis of prior experience and that is the crux of power.

Whenever you see someone and an experience occurs, you will perceive neurological twitching that indicates the *Deification Physiological Links* with associated *Time Link Shadows* and *Demon Mold Identity* linked with that and (---) spark ties to old self. So with anything that happens and if something impacts you and you evaluate it on the basis of everything you’ve ever known---you don’t just do it mentally but with the physical tissue....

Your absolute tissue stores memories that we need to get rid of because they are (spiritually) weakening.

These are being restructured: (They include) *childbirth, sexual and romantic experiences and meetings with important men*. Then (the physical experience/response) becomes your idea of God. You could have a very moving experience in life, such as Christmas when you are ten years old and you see all the lights on the tree. You may have traumatic experiences as well that when they become anchored into the body (they become) “what God is”.

Movie Reference: “*Suddenly Last Summer*” with Elizabeth Taylor, Montgomery Clift

In the movie *Suddenly Last Summer*, Sebastian saw “God”. He saw the baby turtles being devoured by the birds and it was such a shocking *physiological* experience that he saw that as representative of “God is cruel”. So that was God to him; it was a deification physiological experience of Sebastian’s. It was also how Sebastian justified devouring the young children on the beach. If God was a devourer then he would be his own god and devour the children. He then died by the children devouring him. This movie has a lot of poetry and nuance to it.

If we reform these (Deification Physiological Links); these are what the Bible Commandment refers to: “Thou shalt not make a graven image”. If you incorporate in the (physical) body what “God is” and you see something that does not fit that *construct*, then you become weak. What can we do? We can make our bodies holy vessels with no “graven images” of what God is and truly say “Lord, I don’t know what reality is”.

When we were in Manzanillo, Mexico, Du said “Nob is his God”. He deified her on a *corpse* level. That is a step down holy experience to have love in your life; but it is not God. Wipe the slate clean every day and then the person you are with, you will see new every day and then you will (----). (We need to be able to identify any reformed old selves).

These are Associative Time Links. For example, Forr towards his mother, may have a link to a memory at five when his mother bought him a special toy. It may be a deification of “God is punishing”. It would be like a whole concept of women which was tied into the Grandmother hitting (someone) with a cane when on the potty.

Do: Get rid of *Associative Time Links* and (links with) anybody with those time link shadows.

For example, the child might have seen the father in the shadows not doing anything while granny beats him; that is an *Associative Time Links* of the father in the shadows. The child might think “I’m on my own” and then “Mothers are bitches, fathers are weak” and then every time he thinks of his father or mother they would come out of his skin like a voodoo doll of that image and crawl around with him, with a life of their own *because they are intimately linked with the creative impulse*.

That is why the sexual experience is linked in so tightly (physically). Potty training, and anything with sex or early age eliminations have strong links with these ties and any higher creative stuff like artistic endeavors would have to do with it too. **It is a link to a time.**

T2 can remember a poem written by T1 at the age of five. She wrote hundreds of poems that were merely a creative expression, you could say, a catharsis. Or were they like (---) mold imprints of what life was like, with one's concept of life and echoes of a deification process that occurs with human beings? A child's concept of God is linked with the parents. The concept of God then goes from there to experiences of males and females within association, and then when they get older the concept is reinforced. (This is where the laws of) Gender and Polarity (are important) as the (young person) tries to reinforce deification concepts which are hormonally based. With romantic love in adolescence, they may change (their concepts) or just stack them on top of each other and just say that "Women are (----) and abusing, like granny".

These (are associated with the directions) N-E-W-S-Up/Down and to clear them, think strongly of pulling from the genitals to burn them up or use waveforms to unwind. They are corkscrewed through the anatomy on the water, tissue and crystal layers: they are "**Sewer**" Links, etc.

During the trip to Mexico we received an opportunity to release mega-deification links and the students not there, were given help from afar. The people who are given an opportunity to be baptized of deification links; those who "Don't know what reality is, but want to know", are given *options*. And with mega propensities such as the *Assistant Type*, *Fart* and *Dreamer*, with these propensities, we were all given the opportunity to give up our ideas of God intimately linked with our propensities. If a person boldly refused, then their mega propensities would start to become reinforced and with deification links, they would want to take up armor and defend their concept of God---such as "And that bitch T2 will not tell me who God is!" As a result, such a person could in fact, if they resisted the removal of their deification links, actually become a type of spiritual body that T2 would call **Construct Automatons**.

Some people's souls are not souls as the word "soul" implies. To some extent a soul has free will and is guided by God, which is outside of the self and not neurological channels. With graven images of deification links, people have chosen to become *Construct Automatons* in that they are automatons to (their own) constructs of God.

Last week, since we returned, what we have been doing is releasing people to become Automatons if they choose that. This is very serious, as a person is cut off as he or she becomes their own God. If you accept the deification constructs and propensities as "The way you are or not", if (their removal is) denied, then the deification links become molds of your fallen demigods. You are creating little demigods of yourself, (by "knowing") who God is, reality is, and what (----) is and in doing so you become a Construct Automaton; no better than a robot propelled by your physical hormones stored in the tissue and neurons with brain files being retrieved like a computer from your brain, etc. You no longer have a window open to that which is outside of yourself which is Divine Impulse, as it comes through a window that is open. When you look to the night sky through the window of your physical self and say "I don't know what is in the sky or who God is, but I want to know" and in opening the window, you receive the angels of health which purify and strengthen you. In shutting the window, a person has chosen to be an automaton to their own memories and reaction.

Last week we have removed ourselves from memories of (----), and removed us from the Construct Automatons, so they don't link into us with memory files, so that we are not a chain they can pull. For the Construct Automaton, these lines are real and we want to disengage from them.

For some who have been associated with this work, it is entirely within free will and law for them to remove certain files from people to make them less malignant to their war party. Then every night, when T2 goes to bed, she thrashes around by going to people who have been fairly defiling and who have chosen to be Construct Automatons and she has pulled the memories of people in this group out of them through her own flesh and burned them up. It causes a hideous itching and a feeling of burning coming through the skin. If you feel it, know that this is happening.

Often we get a physical manifestation of what is occurring etherically. Like last night we have gnats all over the ceiling even though they had no entree. *It was a physiological manifestation of what she was experiencing all night.* It was very uncomfortable, but it won't go on forever. T2 is trying to get us over this time and season of Construct Automatons.

Dowse to clear:

South Type Construct Automaton: Transition/Mixed or Blurred ID

Pet Nothings: The Pet Nothings are an intermediary step into **Construct Automaton**.

Certain people with webs into us, the Holy Beings will take them to Pet Nothing status and then Construct Automaton.

When they become the latter, much of our webs into them are evaporated. So instead of dowsing as "*Wild Animals or Evil Cabala*", they become domesticated pets, and then become Construct Automatons.

Movie Reference: "Splendor in the Grass"

But they are deactivated Construct Automatons. Their memories of you are hopefully being destroyed. So they may have a TV screen memory, but it is not now associated with a hormonal rush. That's a real trick for people who are obsessing, like Forr's mother. Parents, lovers, friends....it is like the movie **Splendor in Grass**, (----); being with friends with an hormonal rush. A person can get a 'death rush' from almost going over the cliff.

Like the Patrick Swayze movie where the character says "This is as close as we will get to God." That is why; as T1 and T2 have said that thrill seeking is evil as it reinforces physical deification concepts such as "Romantic love is God". In the movie **Splendor in the Grass**, romantic love was shown as good: romance, surfing and anything one may perceive as a rush, is God. (They were) sexually obsessed with sado-masochistic tendencies and the next step is death: the ultimate rush is death. All the rushes lead to destruction. They burn up the creative fuel to a point where a person combusts. This is the reason to get rid of them, as they increase the likelihood of physical death.

It is like you want to have concept of a God rush that is good and not a meditation orgasm.

It is just to be open to God, with an experience of joy and pleasure and it will be something that comes from *outside* of you, and it is not stimulated from the inside as a physical experience, even though it is perceived in every fiber of your being. Don't cling to it or rehash it. If you have a holy experience that washes over you; let it wash over you and out like a tide. Do not go on and cling to it as an obsession, as that is making a graven image of a holy experience. Just accept it without clinging or resisting. This is the law of Non-Resistance. Our challenge today is to realize that the different soul types we see are individual souls and some are group souls: Animal.

SOUL TYPES: Animal Group-Souls: With a group soul, they have a physiological web with many souls. When you see a "Group Soul", be careful, as the identity can be blurred. It might be an animal archetype. The next level is **Pet Nothing**, and then next level of transition is to a **Construct Automaton**. After those you will find **Mixed Identities** and then **Zombies** with nothing discernable. "**Evaporated**" is transition step from "Animal to Pet to Automaton to Zombie" which is a person so blown out they don't have memories. You can't say that one is better than another. The key thing is to make people harmless to us. Those that come into the group, the holy beings have (----) the Construct Automatons to be beneficial. In a month or so, they will be more benign.

We aren't making people robots. They have chosen it by their own free will. So we limit the responses towards them and the curtailment of the Construct Automatons is occurring almost 24 hours a day, to keep them from becoming malignant with (physiological) constructs. They will obsess about us and can cause more destruction. When they lose the individual status, they go from Animal to Pet Nothing to curtailed Automatons and they are particularly more harmless, in that order. It is a painful thing to see people that we have known become Construct Automatons yet remember that was their decision.

The difference between a *Construct Automaton* and a *Curtailed Construct Automaton*...what to do is to merge with them and pull their constructs out of their genitals and skin from N-E-W-S-Up/Down and disintegrate. It is not a comfortable thing to do. We can do this if someone is an Animal, a Pet Nothing a Construct Automaton or an individual soul.

DO: How to pull yourself out of others: This is including anti-deification concepts of you as a devil, or not, thinking of you with pleasure or pain. You don't want to be someone's evil rush, or have a mob getting blood thirsty for a kill, like fox hunting. You don't want them to draw blood on you for a blood rush. And that is what we have had, that is why we had to remove these things from people who were fundamentally quite evil. It is why it feels like hell when T2 pulls them out.

For example, Ji is a Construct Automaton, curtailed 40%, as T2 can take only so much at one time. T2 has to work on it for days on end, with the Construct Automatons and it depends particularly on how many constructs they have regarding us.

Dowse: "How many malignant constructs regarding T3 and T2 does Ji have, through which she is able to tap into them, through her own physiological memories or hate obsessions?" In the clearest sense, they don't have the power to tap in unless they are around ensouled people and they do that to vampire us. A lot of people have souls today, thanks to this group and the holy powers. So we need to get rid of the constructs so that they don't vampire an ensouled person or vampire you or send hate elementals. They are so strong, the hate elementals, they are (physically) perceived like fire ants. The constructs are tiring to remove and they are the malignant ones to this group.

Example: For Je, T2 still has 80 constructs to be removed. This is a laborious and exhausting process that we can do on the way home even without knowing what we were doing. First you may be doing something (automatically) and then you may figure it out in words later. These constructs vampire you, they poison you, and fill you with thoughts and anti-Lehys statements. If you check the statements on the people by *direction*, they are so awful and anti-Holy Spirit, it is phenomenal. To T2 they produce a strong pelvic pain. T2 also gets itching that seems out of control and skin rashes that pop up and look like bug bites. She has symptoms in the lungs; the cheeks are lung spots. She felt a blackness coming out of her cheeks and black spots in the cheek. These were not freckles, but black spots in response to anti-Lehys statements.

Anti-Lehys Constructs: Think of Lehys as the Holy Breath. With the energies of the trip, anti-Lehys statements were coming out of skin and cheeks as the face is a microcosm of body and (also the) lungs. It was her Fabric lungs and it felt like it was coming out of her cheeks and it is still coming out. Last night she was clawing her cheeks as they would pour out.

Anti-Eye of God Constructs: On the Eye of God, with contamination, the chin will itch.

The Anti-Son Constructs are felt on the nose.

The Anti-Father Constructs you will feel on the forehead,

The Anti- Holy (Being) Constructs you will feel on the scalp---like stuff is crawling out.

You will feel it all in the face and you will feel a lot on the skin, the legs, crotch, pelvis and back; everywhere. And we have to get rid of these as they are slowing down our purpose as they are full of “Hate God” and resistance. They will be gone when the spots go. They will just go away. T2 has seen this before with severe spiritual contamination; the symptoms go away overnight when the (contamination) is gone.

Do: Pull the ones associated with you out of your family. Visualize your fabric being on top of your father’s corpse. It is like pulling ropes north out of the genitals and as you do it burn it up or look at the waveform chart; unwind, etc.

Then check “How many does he have left?” Then think or face south, and from there ask for the number of constructs of their name as they know it. You can also find these looking Up and Down. To fine tune it, you can look down and in a past direction. For example look at N-E-W-S-Up/Down from a “down” perspective.

A lot of these are reinforced on different tracts. T2 seems to have four tracts to think and operate on apart from the obvious corpse thinking tracks. She has four tracts with aspects of the joy gland, so you should check your joy gland on 1-4 Tracks (Pearl, Green, Blue and Rose) for contaminations and percentage of substance out. It is like four petals of the same flower, you reinforce your propensities by the joy gland (thereby) going to physiological rushes. These rushes are reinforced with joy track substances with sub tracks of Mentalism and Desire. You could be hooked into your old self or out to others. A person may have 30% of substance remaining and not be hooked into people; so check the dogs.

Check: *How intact you are on the four Joy Tracts.*

Congestion...Clarity...% In/Out to People/Dogs/Construct Automatons.

You reinforce these constructs with physiological links to people and experience the rushes through the joy juice so keep a close eye on the joy juice morning and night and see where it is going, or you will burn it out and not have any left.

Without Joy Juice you will lose your holy desire and sense of joy of living. T3 and T2 have 8 tracks to keep track of. Think of colors or frequency of the tracts. Since the colors are muddy (with contamination) it is hard to dowse over colors unless you have full color chart with all the nuances. For instance in Mexico, the animals had joy juice from people who had linked into other people who were not doing so great.

Joy lines to pets create the biggest portals, because with our links out to the dogs and then the links to other people in the dogs made an open doorway to disorder.

The Itch Gland: there is a steady problem here, with Physiological Construct links with people and with Associative Time Link Shadows and Demon Molds popping out like voodoo dolls and hatching eggs. And when they hatch, the Itch picks up names, then when the Itch Gland bursts, the earth cord splinters and it goes into a lot of people.

Look for *Earth Cord Filaments* that you have out due to the Itch Gland loading up from *demon mold identities* that are hatching out partly due to *Associative Time Link Shadows* to people who are the models for demon molds through their physiological identity links in you or in another person to you.

In the Carlos Castaneda books, Don Juan said: “It is better if people don’t know too much about you”. That is because the more they know, the more they can form deification or anti-deification (evil) links and funnel out demons to you. You could dowse “T1” demons in a lot of people because their concepts of her could be so evil. Then they would have an “**Evil T1**” demon mold. For example, Forr’s mother has 6. Ni has 70 “Evil T1” molds, all variations on a theme relating to who he thought T1 was. Mag has 7 “T2” demon molds because she sees T2 as an evil being in seven different ways.

“T3” evil molds: Fl has 80, Ji has 10. How many “Evil T3” molds are in this room? 70. These are due to physiological links from Fl or Ji which produced a [pi;ekng (sic)] and whenever they think of him they will pump out more molds of him.

Clone molds are pumping out due to concepts of what people have towards you; their thoughts and concepts of you.

In reality it is demon mold of someone else of whom they think you are...thinking: thoughts and memories.

Why is it when you are sitting somewhere and memories will wash over you?

They are either demon molds pumping out of you and sending out, or they are along the pipeline coming back to you.

“Evil Forr”: There are 700 of them! Some are created by the Frbs and other students. It is interesting that so many are worked up into a lather over Forr. Perhaps because they have a hard time grabbing hold of T2 as she is too bizarre for them, so they have a harder time of getting a grip. Forr is more normal, so they can grip him more easily. If they want to get at us, or at Si, they will use Forr “As their vehicle, baby, and take them anywhere they want to go”.

With hooks into you, they then know your phone number but worst of all, they have a (clear view of your) mold. That is why (it is important that) a person is moldable and that a person remain fluid.

If you try to explain yourself to people, the more you explain, the more they get your mold down/identified. The more confusing you are to them about where you live, who you are and what is important to you, then they can’t get a clear view of your mold.

Every single thing a person knows about you, is a side of your mold. The less they know the less they are able to form a coffin to put you in. *They form a coffin based on what you say about yourself or reveal.* You could say “Why is T2 retelling stories about T1’s life?” T2 tell them because they are sorcery stories in that they provoke certain things that can help you to grow. But T1’s mold was shattered, and so it is harder to grab hold.

Why are there 800 “Evil Cel” and 50 “Evil Ju”? These are joined through Se, Cel and Ri and Cel again. Even if a person thinks highly of you, like (a relative) it is still an evil mold of you as if it were a graven image. It is evil because it is retro. If an “evil you” is floating in the room, it is a shadow on the (soul?). **What do you do?** You merge with it, go into the person and burn it out, disintegrate and do waveforms. Do this with your Spirit Shadow.

All of these are **shadow imprints** in the body, in the lungs and throat, so look for them on the body charts. If you itch or have physical symptoms, know to pull something out from an angle direction with fire waveforms or other waveforms and disintegrate the molds that have been made. *All of us have “down” molds of T1.*
