INTRODUCTION to VIRTUES, LAWS and POWERS (excerpt) by Anonymous

Introduction

Published 1995

ISBN 1-885-186-83-5

There are people on the Earth today who hunger for knowledge of the mysteries of life. They may have sought to satiate their thirst for Truth through paths of science, art, philosophy, psychology, religion, or social services. Many, at the close of a long career in such fields, hear the hounds of death at their heels while their spiritual bellies ache with emptiness. They go to their deaths longing for the unknown, trembling with angst.

It may seem preposterous for this book to presume to fill some of that void by bringing to the reader the fundamentals of the natural Laws of the soul. Indeed, few people have ever considered that the soul of man has a type of matter, not unlike his flesh, although existing in a different octave of being. Few people are aware that there are principles, similar to known physics principles, that control the dynamics of spiritual matter. Furthermore, such spiritual Laws have a watershed effect upon the physical body of man and the Earth.

Looking out upon the sea of disorder within the major cities, one cannot help wondering why violent crime is becoming increasingly prevalent, and what could bring it to a halt. During the sixties the cry of liberals was for more social services, as though money or food could be the panacea. Others cried for gun control, more prisons, or other material solutions. Despite all attempts at controlling societal disorder the ghettos swell with violence, and the traditional family structure is almost gone.

There are some idealists who look into the heart of this disorder as though it were full of signs of wonderful societal transformation for the better. And yet, teenage pregnancies, AIDS, infections, robberies, rapes, and murders all continue to increase in number. By what criteria are these idealists measuring their success?

If one looks back over recorded history, pockets of societal peace and order rise out of the pages with haunting similarities of belief systems. Within each religion can be found keys that lead to the inner teachings of the fundamental Laws of the soul and of life itself. The fighting between religions has been due to clinging to differences rather than searching for similarities. The obvious similarities are merely echoes of the underlying mysteries which have traditionally been reserved for an inner circle of the spiritual elite.

The knowledge of the inner mysteries of life, held within the core of each religion, was withheld from the masses because of the danger of sorcery if the principles were applied without integrity. Any power that can transform a man's soul can also destroy his body if directed with malefic intent. It was safer to allow the alchemical mysteries, which were the core of each religion, to be watered down in a harmless fashion, in a way that could possibly change man's behavior through fear or promise of heaven. It was assumed by the spiritual forefathers that a man who lived decently might learn to think decently. If a man thought in a decent manner, then, later he might be able to control the spiritual forces with integrity and not run amok with unbridled passion.

For this reason, most religions focused upon behavioral instructions, rather than the reasons that certain behaviors could block the path to spiritual power. People have, by and large, decided that the behavioral instructions are no longer valid and so have developed many blocks to the higher teachings.

It is now time to reveal the inner teachings, in hope that humans can understand the reasons for behavioral sanctions and thought control.

The Laws are immutable. Man cannot break these Laws, but can break himself against these Laws. This is happening today on a massive scale. A man can tell himself all day long that fire is not hot, and yet burn himself, should he put his hand in a flame. Just as there are lower laws of the visible component of fire, there are higher Laws of the unseen components of fire. Many a man has thrust his own unseen components into fire and burned away part of himself.

It is possible to heal oneself through the application of higher Laws. If humans can bring healing order to their own lives, then they can begin to bring order to their families and to their own culture. If they do that, they can start to bring order to the world.

Healing the world must start with healing the self. This book holds the ancient mysteries through which personal transformation is made possible, if the applicant is sincere and willing to change. The dilettante will benefit little, except through some intellectual titillation. This book was written not for dinner table discussion, but at great price, and with great courage, by a traveler within such mysteries, in hope of helping humanity out of chaos. Since it merely recites the principles of the mysteries, it shall be considered anonymously and gnostically written, for man cannot hope or presume to create the Laws and Virtues. This is not a "channeled" book, but a book reflecting the experience of the traveler through many realms as real as the one before your face.

If you also dare to be a traveler into unseen realms, this book will guide you safely.

1995 MARCH LECTURES BY ANONYMOUS

The following class lectures are transcribed either verbatim from audio tapes or from class notes unrevised by Anonymous. These lectures and written lessons were given by *Anonymous* to audiences familiar with the general background of Spiritual Science. The emphasis was in the dissemination of knowledge that was normally hidden from the general public, but has had a haunting recurrence throughout the millennia.

NOTE:

- 1) All LESSONS, LECTURES and CHARTS were given in class, created by Anonymous. Class Notes were taken by an auditor and not corrected by Anonymous and for these, it is suggested the reader also refer to the original, unabridged audio tapes.
- 2) The best introduction to the dowsing system may be found in the Advanced Esoteric Spiritual Dowsing Books, I, II, III.
- 3) **Please keep in mind** that this library is missing many of the original audio tapes (of which there were at least 50+ per month during a three year period) as well as some of the dowsing charts, Class Notes and Lessons. These books are compiled from the resources currently available to this library. **“Lessons” and “Letters” were composed by Anonymous**

“Class Notes” were typed during the lectures and were unrevised by Anonymous.

NOTE: Book chapters for Advanced Estoteric Dowsing Charts IV were written during this time from October 1994 through 1995. “AED IV” was completed with charts in 1995, but it was not published and is not currently in the possession of this library. The book’s contents and charts, however, are (mostly) intact and are presented here as they were originally written.

Tisunal Dowsing Chart

Tisunal Dowsing Chart:

Satanic Demented Pheromone Stimulating Daemons:

(From) Animal 4th Kingdom or Human 6th Kingdom Daemons. They will always migrate to the crotch, bum and uterus.

To Remove:

- (1) Pull them counterclockwise up to throat.
- (2) Extend your aspect of animal kingdom out like an elongated tube two feet long.
- (3) Open it and eject the demon into the air.
- (4) Zap with a **Fire Waveform from the 7th Kingdom Logoic Aspect** of self. It then dissipates and falls to the ground.
- (5) Then send out a homing signal for its DAEMON (appropriate spelling) Parents.

These are normal in people and animals during courtship, and are designed to stimulate a male to mate with a female for reproduction. In possessed people their possessed pheromone Tisunal Being will become like an attacking ally.

If the Crazed Tisunal Being enters another person, then it will begin to attack the generative organs producing pain, bleeding, infections, etc. If it attacks with sexual frenzy, the victim will feel as though someone is fondling his or her genitals. If it is combined with hate, it is perceived as itching over the legs, buttocks, or all over the body.

Diffuse itching all over the face, arms and everywhere indicates many **hate elementals** of the animal and/or plant kingdom variety that have become demented by their owner or the person that stole them from their owner.

Many dogs and cats have crazed Tisunal Pheromone beings because their owners are sexually demented or hate filled. Children often become hostile, agitated or prematurely sexually aroused before puberty if their parents use the child's Tisunal Beings for sexual rushes of their own.

Fantasies and obsessions use a lot of energy and the easiest way to get energy (when a possessed person's own energy is gone) is to enter another person's auric field by causing an orgasmic opening. Some of these demons can quickly chew a hole in someone else's aura on the animal kingdom octave of the water mold if that daemon is fueled by fallen beings. Any obsession can cause Tisunal Beings to go mad. In particular grudges, power lust, hate, drug use and sexual obsessions produce rapid derangement of Tisunals.

The reason that people with **onanism obsessions**, top-heads crack open so wide after masturbation is that they are full of a type of poison. It could be called **Snake Poison** in that it is associated with Lilith and the serpent in the garden. The more advanced an onanism obsession becomes, the larger is the auric opening after orgasm, and the longer it stays open. Eventually the whole top of the Animal Kingdom Mold Component and the other components to follow are eroded completely from the whole face starting with the nose, mouth, throat, and then pulling back from the brow and falling to the shoulders like a cowl; not to close again except through Divine intervention. Initially such a person will lose their **Soul Glow** in the face which relates to the Seventh Kingdom; then the Sixth Kingdom and so on. Eventually they lose their first connection as well.

When they reach the first kingdom, then they have complete death to their mold on the face exposing them to any dark force. This is an advanced state and usually takes years to manifest except around sorcerers and satanists, or if holy people can be tapped or attacked enough to leak substance; then their power connections will advance the spiritual decay of those inclined to obsessions.

The Human Kingdom aspect of self should include, should have **Eight Pheromone Tisunal Beings** that most of the time should be dormant. They can be evaluated if one focuses on the owner's genitals and dowses over a condition chart for each of the eight while thinking of a clock (two Tisunals would be at 12:00, two at 3:00, two at 6:00, two at 9:00 with 12 o'clock being the front of the body looking out.

if you are missing a Tisunal Being make sure it is not in:

- Hell, Hades, Purgatory
- Possessing another person/animal
- In an obsession/spirit of disease construct....curse
- Inside a false "God is" mode (?) of combination energies mixed with other people.

Tisunal Being Condition Chart:

- Dormant**
- Appropriately Active**
- Inappropriately Active**
- Foreign/Lost/Missing/Contaminated**
- Of Old Self/Abnormal/Other**

Human or Animal Kingdom Tisunal beings are the most commonly **commandeered by fallen beings** because they are the most addicting when misused for power or pleasure. They can be used to produce mental euphoria rather than sexual; like taking morphine.

If someone has taken one or more of your Tisunal Beings to use for their own power or pleasure it is because you have responded to their sensory stimulation of a sexual, emotional, social or mental rush-type to such a degree that your physical eyes open on the Animal Kingdom or Human Kingdom level as if to dilate with excitement to allow a dark force to enter.

The primary Tisunal Beings have one purpose other than sexual mating that is within Law but often misused.

Elementals for the Communication of Holy Information can be created by the blessed union of a male and a female even if they do not have sexual intercourse. It is like yin and yang forces of a balanced nature are important for the advancement of God's Plan on the earth. If the yin and yang forces are able to use the creative power of the Tisunals with a focus on the Brow Will Aperture then **telepathic communication** is possible through the creation of **Micro-Tisunals out of the Mental Union of Male and Female**. These Micro Tisunals can be sent over the earth to teach and bless people who pray for help. If a person has demented Tisunals then he curses humanity by his own depravity.

The **misuse** of Tisunals can be very subtle at the onset, in that one may form a habit that seems benign and yet leads one steadily into spiritual decay. For instance: a person may want to influence another person's decisions by sending a Tisunal Being with a construct to the person desired to be influenced. This is far worse than an egoic because it has within it a passion and insistence that may cause the receiver to believe that he or she is being warned or given advice by an angel. You could say that these are types of personal angels that (in the beginning) should not dowse as evil, but if they are misused to mentally influence others they become **Evil Possessing Spirits** that torment innocent people with thoughts, doubts, fears, threats, unwanted sexual obsession thoughts, shame, depression and illness.

If a person holds a **grudge** against someone, he or she may feel such passion about the grudge that they may send a possessing attacking Tisunal Being that has been programmed by its evil owner to chew a hole in the other person's aura and enter into his body to produce a disease state. It would then dowse as a **Daemon of Illness or Death**.

Sometimes these Tisunal Beings form huge synergistic packs that procreate if males and females contribute energies. Attack elementals are formed which swarm like bees making everyone in the room feel like bugs are crawling all over them. It is important to get rid of the **Parent Tisunals of the Elemental Swarming Packs**. Often it is difficult to trace who the Parent originally belonged to, because they are united with others of similar mentality or spiritual degeneration.

Remember people do not have to have souls to form such packs. They can even grab the Tisunals of dogs and cats and use them for a time. When a person has repeatedly stolen and demented Tisunals then he or she is a Fallen Being. To violate an innocent dog or cat or a child so as to fuel your revenge or obsessions is indeed a cruel act by a higher being to an innocent lower being. It is no better than when the Watchers invaded animal man creating nephilim. If a person does this, you can stop their ability to do so (if you have not wasted your power in the same way).

Tisunal Pheromone Beings are important not just for reproduction or Elemental Communication of Holy Concepts, but also for physical health and personality magnetism. A person of personality magnetism has Tisunal Pheromone Stored power that need not manifest sexually because it is like a battery of power. People who waste their animal magnetism on curses or habits will be spiritually weak.

Many spiritual acts of power require a battery of energy of the level of animal kingdom magnetism. Some people who have tapped into hells, Hades, or have vampired others or pets may *appear* magnetic in that you feel a sense of stimulation around them. Generally their eyes try to grab yours, and they attempt to entice you to speak so they can hone in on your name sounds. They often like to touch you slightly on the arm as they talk, or their nostrils will flare slightly as they look at you.

To disarm a Tisunal Vampire:

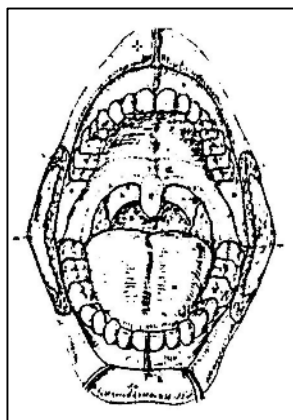

- You must first make sure your own eight are inside your Animal Third Level Aspect of Mold and not deranged and that they have stored enough power.
- Each one has a type of function that is like a tune, so **Check:** the clock for their positions of balance.
- You can **measure their power:** by thinking of each one as having a cup that if the liquid filling the cup is 100%, then the power is maximal.
- You should also **Check:** The liquid for clarity or blackness.
- If you have sufficient power then you can stop the vampire by focusing upon the vampire's genitals and while doing a fire waveform.
- Focus with your nose and cauterize the spiritual doors that Tisunals enter or exit the vampire.
- Remember that to destroy a vampire is a spiritual exorcism process that is completely unrelated to taking a physical action against any human. *It can only heal humans...not harm them.*
- In some cases, you will have to sear vampire noses, mouths, and between nipples sternum and the bottoms of their feet and the palm of their hands because the Tisunal Beings if demented, have found new exit spots.
- If you have removed all the **Hatchling Micro-Tisunals** and the **Parent Tisunals** in your vicinity that are demented and have sealed up the Animal Kingdom openings of your attacker, you may have to then stop them from using their *Plant Kingdom Tisunals* in the same way:

There should be Eight Plant Tisunals that are used for digestion and other processes.

- They can be traced by concentrating on the solar plexus and measured the same way as for the animal kingdoms.
- These plant Tisunals are important for one's immunity and digestion.
- Often if people have demented their own plant Tisunals they will take over other human's Tisunals for vitality.
- Stinking bowel movements are a sign of demented Plant Tisunals.
- Headache is a sign of Demented Plant Tisunal attack from others.

If your own Tisunals are clear and have stored power, you can remove attacking demented Plant Tisunals

By pulling them to your mouth and raising the frequency in a fire waveform until they sizzle.

Plant Tisunals are important beyond just aiding physical health. They can be used to direct healing out the right eye as healing spirits that go out and bless and then return back into the left eye of the owner and settle in at the solar plexus. That is why digestion is difficult during spiritual work of a high nature.

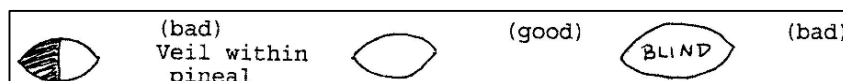

Demented Plant Tisunals will cause a person to have a **Black Right-Eye** that beams out curses instead of blessings.

Such a vampire will have **Evil Teeth** that also sends out energy lines. Since Tisunals are linked with certain teeth, you can dismantle crazed ones by doing a Freeze/Disintegrate waveform over the attacker's tooth.

If a person has demented his plant kingdom forces then he is likely to also dement his **Guardians on the Threshold First Level Forces**. There may be variable numbers of these Tisunal Beings depending upon whether the person has a soul, how evolved he is, or whether any are demented or stolen from others.

Animals do not have this type of Tisunal unless they are possessed. People who have made **satanic bargains** misuse these Tisunal Beings; if they don't have a soul to bargain, then they bargain with their **Megaman Image** and allow their body to become a slave of Satan in return for some material outcome. They often think they are praying to God, but their god is often the Lord of Lies.

You can find how demented (Guardian First Level Forces) are by thinking of a person's pineal. If you have bargained with Satan, are contaminated or have vampired by someone who has bargained with Satan, your **pineal will appear as a circle that is half black**.

If you have not bargained with Satan or you have already lost all your first layer, it will be a clear circle or what would dowse as a **Blind Eye Pineal**. A blind eye is pineal like a cataract covered eye. It is really an either/or situation, you are clear, you have half black, or you are blind.

It only takes one first level Tisunal to open the door between good and evil. It is as though you are Eve eating the apple of the serpent and then you are thrown across the veil with half of yourself so that you are half black and half white having had knowledge of good and evil.

Knowledge of good and evil must be compared to the Biblical term “knowledge of a woman”, which meant to have her sexually. “Knowledge of Evil” means that you have taken evil into your body willingly, and it is always to have power over purity. **Just recognizing evil is not knowledge of evil.** Indeed, if you don’t see the serpent, then you may just eat the apple because it is there.

Interestingly enough, a person DEGENERATES IN THE FOLLOWING ORDER:

- The Third Animal Kingdom degeneration is first,
- Then the Second Plant Kingdom,
- Then the First Kingdom of the Guardians.
- After that the Fifth Level Guardians of the Spirit begin to become insane.

At this point a person grows an etheric elongation of their genitals and or a vestigial tail on the etheric level whether they have a soul or not. Animals do not have this level, but unensouled humans do have this level unless they have been animal men since birth.

Nagual energies, good or bad, interface the Fifth Kingdom, as does one’s guardian angel. These are normally associated with the spine on different vertebrae. A powerful person should have one Fifth Level Tisunal for each vertebrae but that implies great advancement. Depending upon the spine location, the Fifth Level Tisunal being would have different functions. For instance, Guardian angels most rightly should be on the back of the neck.

There are exorcists and spiritual protecting angels between the shoulder blades. If a person drives these angels crazy then they become **Daemons of Destruction** of innocent people: fallen Angels of the Human fifth kingdom.

Lumbar Fifth Tisunals tend to defend the body against spiritual attack. If they are demented they can produce cancers. The lower spine, sacrum and tailbone, are able to store the Tisunals associated with the lower spine, are able to store Fire Prana to use for exorcism or to project one through time and space of dematerialization or re-materialization of even the physical body itself, between worlds. If these Tisunals are demented due to hate or sexual obsession of the owner then they form the worst curses because they have a de-materialization program within them that can change living matter quickly into death matter.

When these are demented they often seem to enter the feet of the victim because the feet often become weakened due to **Crawling Spirits on the Ground of the Mass Consensus**. If a person is spiritually tired or has used his or her Tisunals to do God’s work to help others to do exorcisms, then the exhaustion is first perceived by the spiritual feet losing their ability to hold a holy resonance. This is also true in people who don’t do good work but just merge with people around them. When a person has demented their Fifth Guardians, then their vertebrae have hells, Hades, purgatory and other people links. **Do:** You have to look at a Vertebrae Drawing (*next page*) and deal with each one using the “To Do” charts to close those portals.

If yours have left you for very long they have probably attacked someone, and hopefully the demented Tisunals have died. By purifying one’s Virtues and obeying Law, the Fifth Tisunals will be strong and you may merit another one, or more.

The next level of degeneration occurs on the Seventh Logoic Level Tisunal Beings.

➤Often you can trace the condition of these Tisunal Beings by focusing on the optic nerve.

Animal man does not have these. These Tisunal Beings (of which there may be a variable number depending upon the development), translate genetic alignment with the Mega Mold of Man. If these beings are holy and have not been demented, then they can be great healers to help other humans overcome illness of physical and mental natures. If they are demented, then they can produce cancers and diseases of all kinds, physical mutations and produce *Thing* type demons. All primary *Thing* production occurs from the 7th level. A person with demented Tisunal 7th Beings must be cauterized at the optic nerve spiritually to stop them.

The next level of degeneration is the 6th Kingdom Book of Life Recorders Tisunals (Grace Tisunal Beings).

If a person has degenerated to that stage then they mutate their original conception seed that has their individual body program in relationship to the **Divine Mega Man Dissonance Point**. Therefore their body will begin to take on symptoms of mold deviation of the highest order. The deviation is often noticed in the joints splaying out and digestive processes become even more malodorous and breath become foul. It is as though a person is rotting from the inside out.

This level is also where people have been given **Blessings of Grace**. It is a terrible thing when a Grace Tisunal being becomes demented by the owner. **Grace Tisunal Beings** are more powerful than the **Karma Recorder Beings**. They can possess other people and convince them that holiness or holy people are evil and that the possessor is in fact the holy person.

If a spiritually evolved person prays for intercession regarding an evil person then he may cause that person to receive a Grace Tisunal that can do great harm to the Plan of God on the earth. *You should not pray that evil ones have power, and Grace is indeed power*, or they will infiltrate you on this sixth level and devour you with clever lies so that you no longer know what is good or bad, innocent or guilty, righteous or foul. They will convince you that someone with the face of your teacher is visiting you in your dreams to sexually defile you, or mate with you. Or they will convince you that a demon who has taken on the face of your beloved is trying to destroy you.

Demented Grace Tisunals are the most dangerous of all entities.

Should they become satanic under the will of the owner then only a righteous man can escape their manipulation or wrath. Any weakness that you have can be easily read on your **Individual Book of Life** by the crazed beings. They will enter that weakness and wear you down unless you give up the weakness. People who have interfaced Holy Messengers have often been given Grace Tisunals in abundance so as to heal them, correct their karma, and erase their mistakes, so they may start anew with a clean slate. The very people who have been given the most Grace, are the most dangerous, should they become evil. Because it is the price an intercessor must pay that should someone turn the Grace Tisunals evil that the intercessor must stand in the way and take the full assault. When there are many attacking Grace Tisunals, it may not be possible for the chief intercessor to take the assault without death and so some filters to those people adjacent.

However, any person within a power group has served as an intercessor and has bestowed (without even knowing it) Grace Tisunals on unworthy people. When those people go bad, the Intercessor is attacked; that is why each of you suffer more spiritually than other people do. Unfortunately, in some of your cases, it is your own Grace Tisunals that are attacking you because you have demented them by your obsessions, habits and indulgence in the Devil's advocate arguments with the emotionalism and the lack of balancing your apertures and refusing to pull your Will in tight inside boundaries. If your boundaries are loose, then you will hear every demoniac Grace Tisunal babble so as to entice and defile and try to get you to lose faith in God and in your spiritual path.

You must rebuke these evil Grace Tisunals and pray for deliverance and that any intercessor error be corrected. Do not pray that people be forgiven that are the owners of these crazed beings. Pray that they be corrected at the level of intercession that produces Grace Beings. Forgiveness is not really an issue because an intercessor does not hold grudges, so there is nothing to forgive if there are no grudges. But there are many things to correct.

An intercessor also does not need to ask forgiveness in most cases, unless he has bitten the apple and become satanic by allowing knowledge of good and evil to enter his body. It is ironic that literal entry into the body is often a symptom when demented Grace Beings are taking the role of the serpent to lure one into death. They encourage eating and drinking to excess and sexual orgasm opening so as to deplete ones magnetic stores or to provide an entry for dark forces. If one's Plant Kingdom Forces are unable to spiritualize ones drink or food, then they can become a possessing energy with the energy of the food or drink preparer in it.

Last level of Degeneration: Fourth Kingdom Tisunals

Once the 6th level of a person is shot, then the person is no longer human and the **Fourth Kingdom Tisunals** are also deranged. That is when a person's fourth level no longer dowses as human but dowses as **Evil Incarnate**. The Tisunals can be traced by thinking of the tip of the tongue. They are in varying numbers. When a person is demented on the fourth human level, they have the **Breath of Satan** also known as **"The Presence"**.

Being in the room with a person who has the Breath of Satan is a painful experience for anybody that loves God. It permeates the room and makes holy work difficult. It is not just a simple thing to send the breath outside or anywhere else, because the person is in fact Satanic and so all the body processes excrete a gas that is overwhelmingly evil and difficult to counterbalance.

If one has stored power in the other kingdoms then you may have also stored power in the fourth human kingdom. To destroy this evil, one must have enough power to spiritually demolish the evil incarnate's fourth kingdom spiritual aspect of testicles or uterus. If you are attacked by demented Tisunals of this level, you may sense them in the same locations of your own body. Low back pain, perineal itching, anal itching, and bladder problems are common when one is attacked by this level being.

Degeneration of all these kingdom layers is exceedingly common in the world at large. It may seem like the impossible dream even to clean up our own kingdoms and yet if you can control your own kingdoms then you can control those that would attack you so that you will be able to help weaker persons and children and lesser creatures who suffer from people's desire to be their own gods. The earth is in a sad state because people think that the subject of angels is such a sweet topic, and that God is just always there for them, no matter how they live or what they think.

It is a lot of work to become a master. To become a master means that you learn to master the spiritual forces within your own form first. No one can master these forces unless they have chosen a path of deliberate study, evaluating, and willed improvement that is incrementally increasing for the rest of their lives.

You have the opportunity to be truly great. You have all the help of the heavens and somebody to show you the way. T2 cannot apologize that the way is difficult. We are, spiritually speaking, living in a sci-fi movie surrounded by post-apocalyptic mutants at every turn. We can take this as a challenge to survive and bring humanity back into true civilization, or we can cry and throw up our hands and in doing so, curse the little babies of tomorrow.

The benefits of being a warrior are mighty because when you have mastered all these kingdoms, you never again doubt the presence of God. You are never again lonely or afraid because God is within you. God is your strength, God is your comforter, God is your lover; God is your hope and inspiration every day. It is a wonderful thing to reach the point where you never doubt the presence of God again. When you reach that day of glory you will know what I mean and you will feel joy all the time, even in some discomfort of service.

8th Kingdom Function Intercessor to go past Karma. Grace does not get bestowed except from the 8th Kingdom down and it is specific to what Grace is needed. One may operate with Grace Tisunals in some aspects of life, but one might have refused Grace on the area that needed it, and that requires:

8th Level Intervention which intersects a person at the Karma Kingdom Ring.

For example: Crazy Karma Tisunals from the 6th Level; if they are crazy because one has done something wrong, pray for intercession to correct (the error) because they imply a distortion of your karma cross.

If you destroy a Satan Bargain, (the person who bargained) loses their power to do evil. This also needs an 8th Level Tisunal Correction.

IDENTITY SPHERE:

The STAR in the Identity Sphere would refer to the Lower Personality Body Complex

The ME would refer to Spirit Personality Complex.

The TRIANGLE would refer to Higher Influences From Above, even in a soulless person, as it could mean fallen being connections instead of a soul link to God.

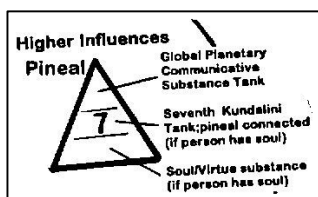

The CONTAINER: Boundary Screen Substance; a 6th Kingdom Karma Substance Identity Barrier

Sixth Kingdom Karma Substance Identity Barrier is the Generative link to the communication focus of the Earth Kundalini Tank:

KUNDALINI TANK Drawing: explanation

Sense of Self is involved, a "who you are" and "someone else" is kept separate by this substance that holds in these things, and the visual screen. **Example:** Some people vampire other people's Kundalini tanks.

They do so because they have depleted their own tank by giving up their identity to another person, thereby removing their 6th Kingdom Karma Substance Identity Barrier.

← Words on Chart describing the three levels of Kundalini:

- Global Planetary Communicative Substance Tank
- Seventh Kundalini Tank: Pineal Connected (If person has soul)
- Soul Virtue Substance (If person has soul)

The person who lost their Kundalini power and Identity is then constantly merging with the earth grid.

The Identity sphere applies to a person who is evolved above the animal kingdom and was never an animal. When a person has degenerated to an animal state, they no longer have an Identity Sphere.

← It is as though the Triangle has a circle within it of the ME; and the Star is within the circle; and the Visual Screen is below the Triangle. (See drawing on the left).

CALENDAR OF LIFE ENERGY
(might have two scores)

In the past lessons when referring to the **TUMBLER**, T2 was seeing individual Kundalini tanks and connections to the Mega Tank. And long ago when T1 had us practice holding **Tumbler Substance**, she merely tapped the Mega Tank through an intercessor in the correct way to demonstrate the powers.

Intercessors who have passed the lower trials and have mastered their own Kundalini substance to perfection are given the right to use the Mega Tank with discretion for good purpose, such as exorcism power.

One can't use Mega Tumbler legally (unless the lower trials are mastered) excepting and only, through satanic bargains. One has to be able to use it, or one can't fight the High Level Evil Beings, who also have access to the Mega Tumbler.

Portion of lecture not sent out:

One person sold herself twice. The second bargaining chip was to hand over T2 to them (sic). In her mind she thought something like "I am willing to take over T2's role if you give me the power to do so." It was actually a previous person's bargain, and this second person did it as well. In order for her to have succeeded, they (sic) would have had to been able to get to T2, but T2 knew too much about them, so then when it didn't work to sell T2, they were wanting to collect, and they started for T3. This second person would have had to be willing to do an act of murder of T2 (to complete the bargain).

➤ Somehow T2 canceled the bargain of Satan before the person could be taken over to that level (to murder), and that was when the person got her second chance. But, T2 was still operating under the first person's bargain for T3. Then the person made another bargain (offering T2 to them) with her new soul set up; as she had a soul to sell. Now, T2 has to cancel this bargain with Satan before the person tries to physically murder T3.

➤ The last bargain was canceled by entreating the intercessors to deliver us, and with having enough (of our own) impeccability, (the intercessors were able) to fall down (enough into) the system. Also, all of the layers of curse removal have been going on since October. All the work that has been done has been eating away to the "Sold to Soul", so that the first person did not have enough energy to do anything, and she left because the curse was going to be turned back on her. The second person could sell T3 due to this weakness which combined auric forces with (the curser) as though they were united. The second curser had access to him; that was a bargaining chip.

➤ The first curser was able to bargain because she had a T1 consciousness which was an easy access to T2 to work on. And they worked on T2 physically. They did cause physical degeneration, obesity, injury, anemia, constant blood loss, infections and gangrene, but with T2's strong will, no matter what they did, she kept going.

➤ It wasn't just the conference in Vermont (that caused this situation) in reality T2 was taking on the poison directed towards the whole party that was, coincidentally, within Vermont but it was much greater than that. It was in order to keep T3 from going under, because his resistance was going down steadily.

➤ Now T2 is asking: *"To get rid of all ways that people have used this party's power connections as bargaining chips for Satan."* She is finding a ton of them. That is what is feeding them still.

➤ Another person has 4 different 'Sold to Satan'. She sold Cel and Gar. By having continuing contact with us, then she could get into the monastery (via Cel and Gar) and destroy T2 and T3. They know if they killed T2 that the party would end. If they killed T3 it is possible (for the party) to survive, but it is better in their mind to slowly poison T2 as she holds the door above to the Higher Intercessors. So, T2 is more valuable dead, and T3 is more valuable alive (as a way to get to T2). That is why they aren't really aiming now for his physical death.

If they can't collect what they paid for, if they can't collect T2's death and the party's, then they collect the curser's personality. So the curser becomes psychotic. If a curser can talk to Se and Nob, then that person would still have a "bargaining chip" by using her contacts to T3.

➤ The reason that one man isn't working out for the "Sold to Satan" plan, was that he was thrown a bum steer. The Holy Beings caused him to dowse that T2 is dead (Cec dowsed this as well), so that they would think T2 is already dead (so as not to carry out their plans).

➤ For some reason one person's mother told the law officials that T2 is dead (the locals, probably, re. the Bi-Cec story that went around that T1 committed suicide). It is amazing how the different stories circulate and recirculate until one of them is believed. Now they don't know what to believe.

LESSON MARCH 3, 1995: Tisunal Charts

This original text is referencing Advanced Esoteric Dowsing Book IV Unpublished

WITHOUT TISUNALS OF THE FIRST KINGDOM: A person becomes a “MOON” Prana Person, rather than a “SUN PRANA” Person. He then has reflected off the earth Surface Prana only. If he degenerates, he may only be able to passively absorb free-floating pranas in the air through his genitals.

If he degenerates further, he uses his “Sold to Satan” Body Bargain chip to vampire other people of their:

- Sternum Link Sun power, their
- Navel Genetic/NOW Energy, their
- Kundalini Power,

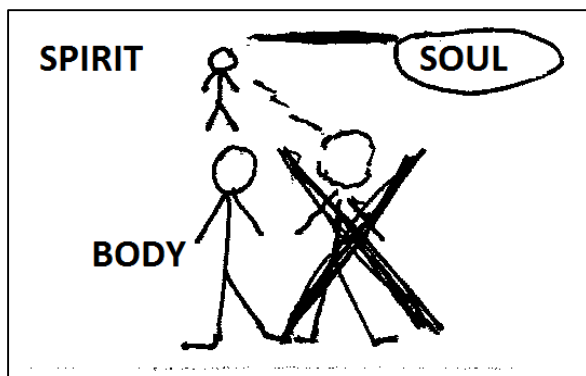

Or he prays to fallen beings to form a

- Mega Earth Kundalini Power Source to feed curses, obsessions and habits.

Or, he may have a

- Temporary Grace “Battery” or
- Evil Battery for fuel.

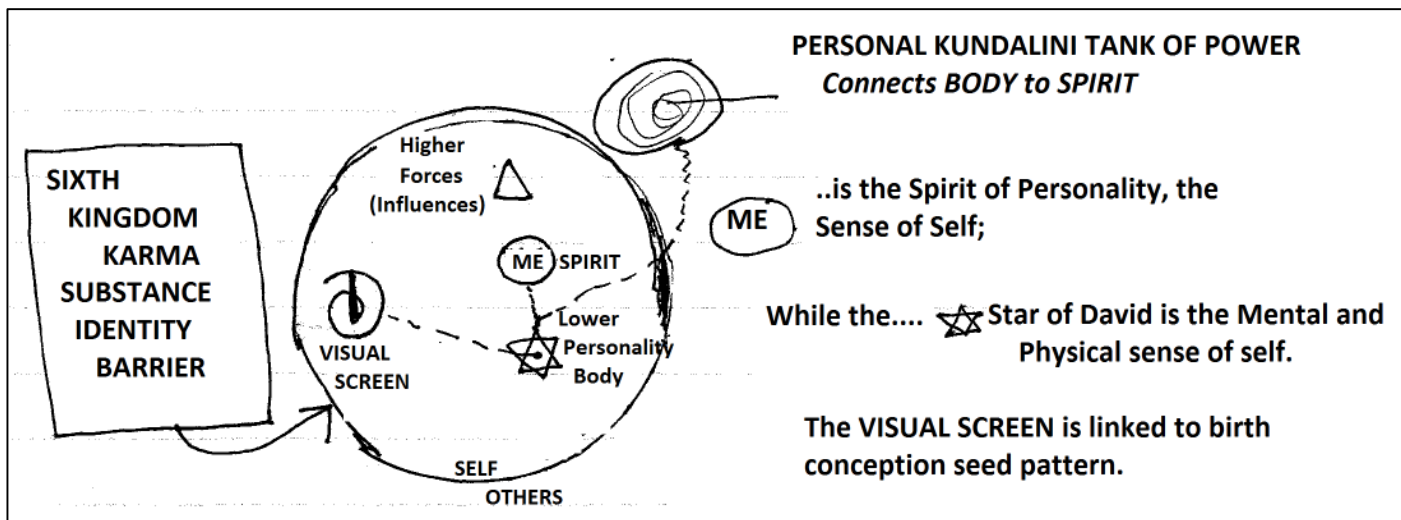

When “Chopping, Reaming Out and Burning” body parts, you are really chopping Abnormal Communication Links between spirit and body.

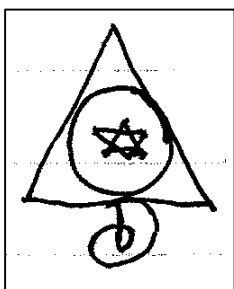

Check for Abnormal Communication Links between your body and other people’s spirits (or your own). These are reflected as:

- Dimensional Communicative Substance Drains...**
- Poisoning...**
- Links To:**

Hades/Hells/Purgatory...
Past Self...Other People...
Dogs or Cats...Fallen Beings.

Personal Kundalini Tank is the generativity link to Communicative forces (Microcosm) of the: **Earth's Mega-Kundalini Tank/force-field**. Many people deplete their Kundalini power and so lose their ability to communicate with their non-verbal spirit self. They can't dowsing well, and become more linear and carnal/materialistic. **Kundalini is lost through: Obsessions...Curses...Habits...Merging with Others...Sexual Excess.....and Vampires.**

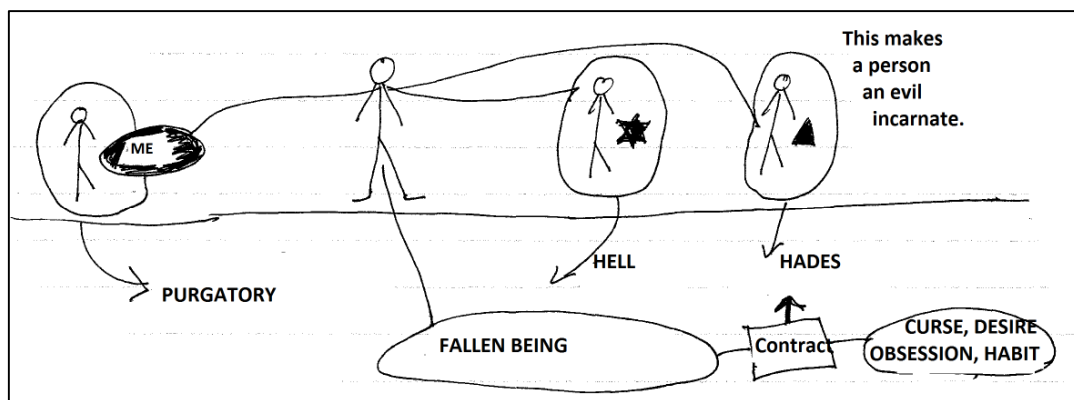

A person's Identity Sphere Container is lost when the Kundalini power is gone.
Dowsing "What % of your Identity Sphere Container substance is remaining?"
Since it erodes in relationship to Kundalini loss.

Pray: To be delivered of all causes for power depletion.

Decide to change: You may be shown Grace by 8th Level Tisunals through an intercessor.

Some people have lost their boundaries, and so may lose their whole Identity Complex, or a component, to people they desire, hate, admire, or want power from. →

Anyone who is weak and possesses others has sold their body, spirit and/or soul to satan.

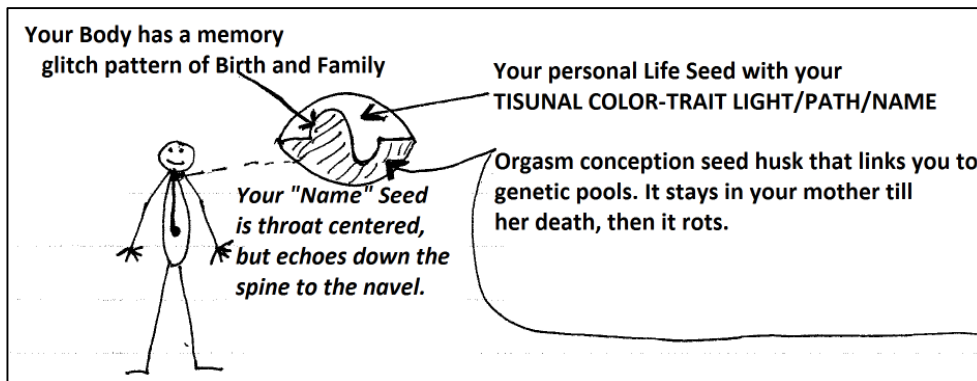

His heart on one or more levels becomes black, and is connected to a desired outcome/trade bargain with satan in hades:

☆	BARGAINING: Physical habits, Greed, Beauty, Sex
ME	BARGAINING: Thrills, Romance, Fun
△	BARGAINING: Power over Purity

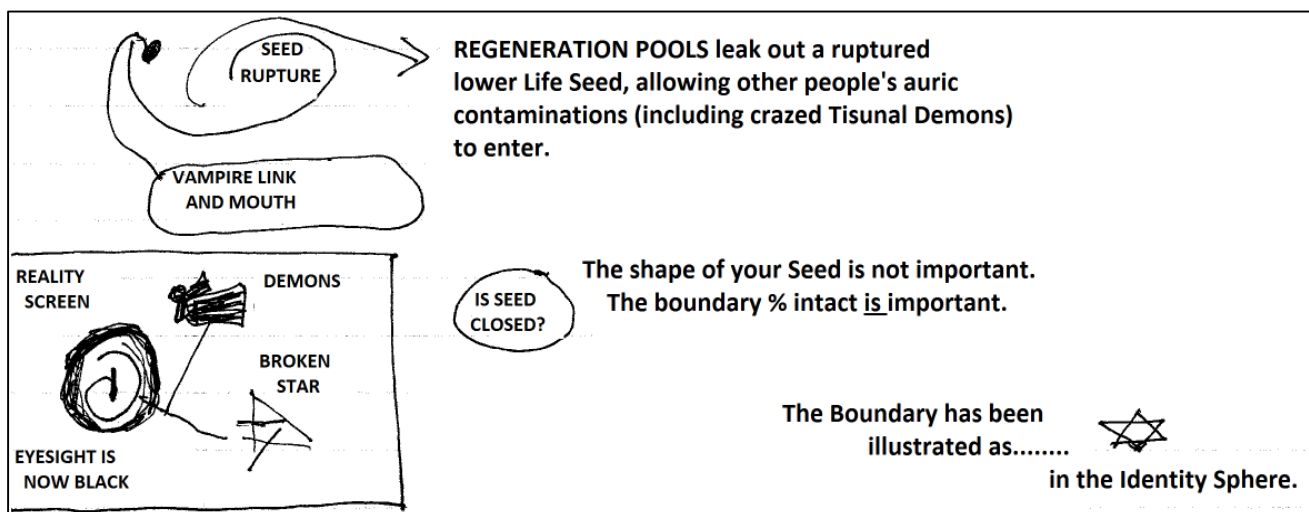

Sooner or later, a person must pay up his "chips" to satan.

His body becomes under control of demons so he can't control what he eats, drinks, does sexually, or even the desire to molest or kill/defile innocents.

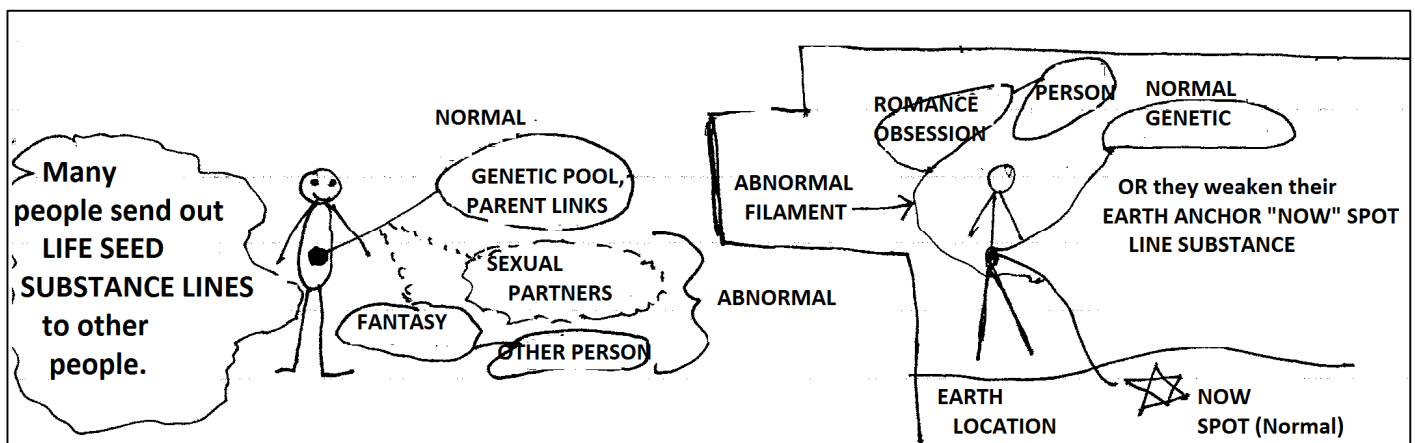

- He gets restless if he has no "rush" and so has no discipline.
- He sucks energy and power from people and even dogs/cats.
- He is evil incarnate.

Your Birth Seed should have no boundary holes or someone can possess your "Name": (Pattern, genetic code) and produce illness, mental disease, etc.

Your ability to SEE is partly determined by your level of seed (☆) contamination, because dark forces that enter can block your ability to sense/see with SPIRIT and can even produce thoughts, emotions of hate for all that is holy until you believe "God is evil."

CLASS NOTES: MARCH 4, 1995

Late today was this information:

You can change any weakness with the greatest powers (those of God). Pray and truly mean it.

You may have a black spot, but trust in God and truly want to be perfect. Right now we have souls and we are cleared as of 1:35 PM Central Saturday: 3/4/95.

Power surges in the Ethers:

There is a time when the holy beings can come in more readily, as in a solstice time, with an energy pattern (that is not the pattern itself). If we pray during this time, it would have 50 times the strength (as another time). Sometimes the heavens are closed, and sometimes open due to an earth, physical, spiritual and astrological alignment.

At 2:05 to 2:35 (Central Time) there will be a 30 minute period when manifestation is profoundly possible. If one prays at that time, one can bring something into manifestation more readily. Tonight we could pull powers in with an opening to the forces that would be over 100x what's normal.

Pray about tonight:

That the teachings about Law and Virtues are accurately produced and distributed over the earth (which will affect the whole earth, and not just individuals) so that people can choose once they know, and to offer an option as they don't know.

➤ That the teachings manifest as written works.

➤ That the teachings are circulated over the Earth, and if to do that it happens through us, or through 10 groups, so be it.

➤ That humanity has accessible teachings in Law and Virtue, and that it will be manifest.

➤ For Holy teachings of Law and Virtue from the same God as our Lord Jesus, be brought to earth using whatever methods is seen fit by (the Holy Judges?).

➤ That the teaching will be accurately produced and circulated; as holy documents over the face of the earth, within the time frame that the Holy Spirit sees fit. And if we are worthy, we will participate.

➤ Not to pray for this personally, but pray for holiness on the earth. But if one is worthy to be a vehicle, one will endeavor in any way to offer self as clay to the aster. God's will be done in one's life, and that one may be a human receptacle to teach law and Virtue so God can return to earth.

Do this in solitude with devotion in your room. Combining the same prayers with other students will unite (the prayers with) partial resonation, and cause greater power.

Before sleeping, pray "To reinforce holiness until that time, and pray to be protected against all disorder." To "screw one's courage to the sticking place..." it is a matter of Will and Intention.

For 12 hours preceding: it is very important that a greater number of people are intercessors (because) it is exponential. If there are 4 spiritually clean people with a fair amount of virtue who also know how to pray, this would take the (prayer's power) to the 4th power. There is an exponential aspect to group prayer, and it is only true prayer if it is holy. The mass (meetings) that pray for peace, they are worthless as they haven't perfected themselves, but they have false gods. We have been made whistle clean today, and the cleaner we are, the more our prayers are able (to be heard) to manifest.

CLASS NOTES: MARCH 5, 1995

Those who are intractable are supposed to get fuel in **Purgatory**, as they learn things there and can, at some point, go further. It is the kindest thing in the world to keep them in Purgatory so they can straighten up. Otherwise all they (need) is a little energy and they can jump out of purgatory. However, they can't have Demon Orgasms in purgatory and they get desperate. (If they were not in Purgatory) they would use fuel to get Hades and hell fuel links to get their Demon Orgasms. While in Purgatory, they can face their mistakes.

(It is important), to keep them in purgatory, and you can't put them there. It is your job as exorcists to remove all the hell and Hades links to Earth. A person will then automatically step into purgatory if they are evil. If they are good they will be on the normal Earth. If (the evil) are getting the normal earth fuel of babies, children, dogs and cats, and if they aren't stopped, they will continually poison the earth.

PURGATORY is a place where they can choose to learn, withdraw from addictions and they will stay there until they learn. That is wonderful, as long as they have hell and hades links, they won't get over it. The more addicted they are, the more depressed they get (in Purgatory).

Example: One person sucked prana from a cat, but all the animals have been sealed in (safety?) from her, and T2 put a block to (her ability to) suck animals. But a cat that is nearby a contaminated owner, when the person goes and pets the cat, the Hades fuel goes into her from partial resonation. And this person misses the Hades links and the demon orgasms of Hades.

Example: For a second person (Sn) her spirit dropped to her body, as the ME dropped to her STAR. Then the first person could read her name. Later in the day the 1st person touched the Hades cat and the Hades cat gave out enough energy for the 1st person to stick a line into Sn.

If they shroud T2's eyes, they have more power. They tapped T2's Kundalini power and made her eye (lights) black.

If someone's eyes are black, don't assume they are satanic, as someone (else may be hooked in).

Do: Remove other people's Stars from your Screen Shroud.

This looks like there is always a Star within (a shroud?).

Someone can possess your visual screen with hell and Hades shrouds.

Look: At the physical body illustrations, and find a location on the body and WILL Sun energy there.

Ask: "Where do I have a black spot?" This is where one can hook into the shroud.

On the charts PUT: "*Blast Black Shroud Body Link*"....."*Identity Sphere with Sun Energy*."

Vampires are due to a shroud over the visual screen, with a link to a body part.

Other things to check:

Add: "Purgatory Fuel Only"

Do: Waveforms for Demon Orgasm Seeds.

Ask: "Where Am I Blocked In Seeing on the Star, Me, Triangle?"

Ask: "How Many Black Spots are on (the Screen), and check for Inverse with the:
Triangle/Me /Star and the Communicative Substance Inside.

How many people are behind your crotch? Once someone gets hooked in, it gives you an idea of how many people should be in purgatory (sic).

Ask: "For the number of coordinate points that are with the group?"

"Does a purgatory person have any?"

"Where do I have Vestigial Tail links?"

Check: With your eyes "Looking through hells, Hades, etc."

The Visual Screen for Black Spots/Sternum Links to the Sun; which reflects on all of the Identity Sphere substance.

The Container which reflects Black Spots on Sternum to Sun ---aspects of one's vitality,

And Kundalini. (5 people are behind a person's crotch).

Ask: "Where is that person's Star/Me/Triangle?"

Do: And put each one into Purgatory, as then they won't be able to tap you. You won't have the whole person there, until you do this. Order them into Purgatory. As an intercessor you are given authority over demons. The more demons you can control, the more power you are given.

When a person is a vampire, they are a human demon. They are crazy with mutant aspects of vestigial parts. If (you could) see them visually, (they look like) monsters. What does a person's mold look like (then)? It may be a demon. By taking away their demon abilities and making them sit in Purgatory, the Holy Beings are there to help (them).

It is your place to bind up evil from the earth, and (when you do that) you are helping them. Remember that, and that it is your job. You are a representative of the holy forces which are supposed to clear up the earth, because it is a human's karma, so humans have to do it, and not Saint Michael!

Check for: Evil Tooth Connections

Check Evil Connections to the Mega Earth Power Hell Connections.

Zap: (Order that) all the things anchoring (you?) in Purgatory to be zapped (sic).

Check: Surgical scars for entry points, because they are **Blind Spots** for (anyone) tapping your kundalini.

On the Identity Sphere, ask

"Where is the person (vampire) getting her energy?" Another person?"

"What part of (this) person (is) coming in?"

These are different (types of) vampire lines, and all that T2 is seeing now is that everyone (of these vampire lines) goes to Hades and hells. There are no more prana vampire lines anymore, people may have changed.

Do: Find the person underneath the stack of vampires,

Remove Hades/hell links,

Make sure their Triangle/Star/ME/Screens are in Purgatory and (then you will do it reflexively).

Ask: *"How many coordinates does this person have on earth?"*

People have coordinates to hells/Hades. By zapping those (hells/Hades) coordinates, they are not going to be anchored into your screen (sic). Then *will* them, in the Name of Jesus, into purgatory.

Destroy the coordinates' anchor links on any body part. How do you do it?

1) Tisunals are angels and they operate in the realm of spirit and they can find anything if they are clean.

If yours are clean, they can track anything down at your command and do the work for you.

2) Different Tisunals do different jobs. The more impeccable you are, the more angels you get until you are full of angels and they function as an intercessor's battle weapon. *It is a battle on the earth.* Since the majority of people on the earth have deformed their own Tisunals and turned them into evil; (it is) human karma that the human Tisunals should serve as exorcists.

If you have an attacking (demented) Grace Tisunal, then you have to have a (holy) Grace Tisunal to battle it. Karma works, like curses work; both group and personal. If your Tisunals go bad, they will attack others' good Tisunals and other people (generally) don't have a normal exorcism program (to follow).

A person has to be 'called' to be an exorcist. You would have to be called to this work. *"Many are called but few are chosen."* In the context of this group, many people were called to this group, but most could not make it. They weren't chosen because they were not impeccable. If they had personally chosen to be impeccable, they would have been here now.

All of us at this point are called "The Chosen" and you have a responsibility to follow your calling. Keep your Tisunals absolutely spotless, and you may have trouble knowing how many you have. However (with impeccability) you will be given more. To whom much is given, much is required.

STEPS:

1- Find Black Spots i.e. on Sternums

2- Ask: "How Many People are behind my Sternum? Crotch?"

3- Look at the Auric Anatomical Drawing- Ask: "Where Is Biggest Problem?"

4- Check: for Problems on the Visual Screen relating to the Sternum.

5- Ask: "How Many Black Stars I have on my Visual Screen and the Sternum?"

"How many Evil MEs?" "How Many Evil Triangles?"

Wherever you find a contaminated section on a part of your body;

ASK: *"How many Evil Triangles/MEs/Stars and Screens are on it?"*

Get all of them disconnected and **WILL** them in the Name of Jesus to Purgatory.

We have authority over demons.

Check for: Abnormal Substance (i.e. to the Visual Screen) by the Anatomical Drawing.

NOTE: These go to the **Sea of Death**, not Purgatory.

The first level of clearing is to take the abnormal substances to the (Sea of Death).

Before an Exorcism:

Look at your Tisunals and you can look on the Pineal Chart.

ASK for each Tisunal level.... "Are they: "Blind...Clear.....Soiled?"

"Are there Evil Coordinates on them?" and "Are there Higher Evil Substances on the Tisunals?"

Check each body part for each Tisunal contamination level.

Do: Blast the body parts on each Tisunal level with all of your holiness at the level of the body operating i.e.: air=air in lungs, etc. (sic).

After ritualistic clearing you can pull the Tisunals in on each level by calling in the troops.

Check for the Homeopathic impression of evil that was on you (from a person):

Do: **Blast** it out of the person; think of all of the person's Dimensions...

First think of the Left Aspect, the Right Aspect and the Communication Aspect.

Scan the Dimensions from 1 to 31 and then:

Blast the Communicative (links? glue?) of the Dimensional cell doorway

Blast them with Holy Powers.

Then clear the Right and the Left sides.

For anything on her Communicative/Left/Right: send it to the appropriate purgatory.

Check the Regeneration Pools. You can put one hand on the chart and then check with the other hand.

Normal check list for morning and night:

1) Check the 7 Tisunal layers over the Tisunal Problems Chart in general, (see list above and page 27) and then

Check the Body Chart for Black Spots, one at a time,

2) Check the Dimensions: R/L/Communicative (see compiled charts next page)

3) Check the Regeneration Pools

4) Check the Identity Sphere:

"Where is it and what is included?"...(sic).

"How thick is the membrane?"

"How clear is the Communicative Substance within the Sphere?"

"Is each component in the Sphere?"

"Is each component white or black? "

"Is the ME connected to the Star?" IF NOT: then you won't have any ability to perceive in spirit,

THE NAGUAL BLACK TISUNAL: T3 can get rid of this. You have to have the same level of power to remove something.

That is why you have to keep impeccability to keep the Kundalini Tank, so as to get the power to remove demons.

(The White Nagual Tisunal?) is so powerful it can follow your thought and shoot to anything.

Asides: We need to study the **Science of Prayer**.

Shit Smell: (If you smell shit) suspect something on a very high level.

EIGHTH LEVEL TISUNAL: That is abnormal for humans, unless someone is satanically possessed, or, they are hooked into the power of this intercessor group. Normally, no (very high) forces are related to the (students?), but you can send for them with a cry for help from T2 or T3 and it will come in through them. T2 knows that this (shit smell) is a very bad 8th level evil and we must pray for help.

To Pray for Intercession: Call on T2 or T3 and you will feel it come out of your face, and you must direct it with your own will: the higher forces. (*Apologies; Auditor*) You can locate this with the Aura Meter.

Ask: For the **Evil 8th Level Tisunals**. They (the evil ones) fart.

➤**There is an Evil ME** in the room. Tune in to (an ex-student) and see if you can tune into him. It is murderous.

He is carrying a .38. He is on a mission. He had offered to kill someone. Ask if it has an (ex-student)/T2 Identity.

➤**Evil Second Face:** Check (this ex) for a **Face Behind the Head**. If so, then his body is totally taken over by satan.

The evil comes out of the back of the head and face.

➤**The photos of people will change as their energies change.** The faces will look dead, crying, screaming and gnashing of teeth, while others will look happy.

➤**Orgasm Seeds** are keeping (this ex) dangerous. **Ask** the Tisunals to dissolve his Orgasm Seeds. You can feel the Tisunals go out of you if you practice. If you do not remove the orgasm seeds, you will never be clear. If any part of you is united with the satanic, you will never be clear. It is extremely dangerous to not disarm a person with orgasm seeds, as it strengthens hell coordinates. **Ask for** (this ex) "How many lines to hells, Hades and to demons on the earth does he have from orgasm seeds?"

PRE-ONE GOD DIMENSION: the Lightning present only in Divine Intervention Manifestations.
PRE-ONE ENTRY: is present on the Right side only. It is represented by a Square plus two Triangles which equal the Star of David dynamics. It is the Doorway to Higher Powers, good or evil.

If the entry catalyst dimensions #1 and #2 become unbalanced with each other, then the 31st forms a vacuum of death to the other dimensions.

Example: (One person) lived in a house and when he left he smeared shit on the walls. That is a very clear example of a person with a personality that is satanic. There is something about the body secretions. It was not an “accident” that La started discussing (the quality of her) menstrual blood. It was an attempt to hook T2 with a shock, or to upset her so she could slip in (a feeder line).

T2 and T3 can clear a lot, but they don’t always know how to teach it. Now they are at a point to be able to do that.

The information from this conference is the most important yet. (It is) how to be clear and strong and how to help others.

➤ Last night with the (movie) dance.....we are not to resist with anything or be grossed out. We should be able to understand anything, whether it is trashy or whore-y behavior. You want to understand it; to not resist.

Partial resistance brings attraction. Be immovable and indifferent in viewing aberrations. If you start saying “I would *never* think of doing that”, even from a perspective of disgust, it will draw it to you. That is why (she encourages us to) laugh at things. It is as if you can laugh, or be indifferent to people, they are less able to get to you.

➤ If La was acting like a possessed idiot, T2 would make fun of her and it would neutralize it. If T2 had done nothing, everyone in the room would be horrified and that would allow them to slip (in the apertures). If La were to say something mean, (the response) could have been on two or three levels. It was not just to make fun of the person, but (it was a maneuver) to lighten up (the response to the action). There is a dark force behind each (action or phrase of speech).

For example, a person who speaks with two meanings is a poet. **To speak with three meaning is very powerful.**

People with fallen beings controlling them, often speak in three layers. You can’t trust what is said because the bottom layer appears to be benign; but not always.

(Another person) had been a good person, though she was not at first. When T1 met her, she was materialistic and greedy, but she was attracted to the work and became a pretty decent person for a period of time. She indeed would have been able to be successful, but then she never understood the concept that “He who breaks part of the Law breaks all.” The higher the teachings, the smaller the (breaking of Law) (will cause a person) to go bad. (This one) refused to change.

Ask: “*How aware is Gar that she has sold herself once again?*” She thinks that T2 is going to be murdered within the next three months. Nob told her that (the previous ex-student) would agree to murder her within the next three months.

You can check:

- 1) On the Star. “*Does she physically know?*”
- 2) On the ME (Inverse Scale) “*Does she spiritually know?*”

WHAT IS SPIRITUAL PSYCHOSIS?

A person’s weaknesses come out in the evening and also when you wake up, you can find them.

For example La’s didn’t show up for five years or so.

How to tell if you sense in spirit that someone has really taken a turn for the worst and is dangerous?

➤ You start watching them with the physical eyes on the grossest level for signs. For example; breaking into your house before daybreak, hate filled rages, digging at the crotch when talking to others, incredible neediness with desperation if they go an hour without contact with others. (View them like this) to integrate the information without shock.

➤ View the actions with the Right side and then view with Lehys the intentions developing toward an outcome.

➤ Observe their behaviors with spirit eyes and then afterwards review it with your right side after reviewing it on your left.

➤ Look at what would be observable by any man or woman without any (spiritual) vision.

➤ Observe what a skilled psychiatrist would see, not what a sensitive would see, but an intelligent person who is trained to look at behaviors.

(Tendencies reveal) that they can’t remember what is said or done...their rages in particular. Their *affect* is totally strange. They have delusions of grandeur and (i.e. one ex-student) thinks she will rescue the world from T2.

This (odor of shit) was (something that you) smell spiritually with the

TIP OF THE STERNUM; COMMUNICATIVE SUBSTANCE.

See If your (ability to smell) changes if you do this (sic).

Ask: “*How many blocks do I have on my ‘smeller’?*”

Try to find the bottom feeder source (for this evil smell).

Ask: “*Who has opened the door to Purgatory for all of them?*” and “*Who empowered her?*” Unknown.

Ask to know where to put them (i.e.) in Purgatory; that is a good place.

Do: There is an aspect of dowsing the **Door Cell #95.**

If we all work together and check the people we know are culprits, we will get them and get all parts of all people (involved).

Check: For all our old Tisunals (that are out maladaptively) and get rid of them.

In...Out...Through...All Tisunal Levels 1-8...ON Actual Physical Vessel

Add: To Charts: Actual Physical Vessel

TELLS: Are observations from Spirit. A person's face appears to change when something is wrong.

For example, C's face started twisting and changing on the Left side (vision).

There was a feeling of a vortex writhing in front of her head.

FOR CURSES CHECK:

If the **Cursee is a Woman** check her lips, **Female Curser:** Check her Right Eye

If the **Cursee is a Man** check his tip of the nose, **Male Curser:** Check his Right Eye.

If a person's Screen is in Purgatory, that will make them apathetic (to doing evil).

If they are not in Purgatory, they may do what they plan to do.

SHROUD OVER SCREEN: In this case: The person is in the middle of a circle and dot.

The Dot is the **Screen Owner**; The Circle is the **Shroud Owner**.

So a person's perceptions would be through the **Shroud...SCREEN THIEF:** Vampire line to Higher Forces

When clearing the Identity Sphere influences, make sure you mentally ASK for

Abnormal Substances and Fallen Beings that have also to be cleared. Otherwise, it will pop the person out of Purgatory.

To remove a solidifying screen (event) that is going towards murder:

Think of something that is solid, i.e. something that is connected to T2's mouth.

(This one is) 85% completed in "Melted Wax Stage." There is also an "Air Stage. **Check** also (at the) tip of nose, etc.

Do: By looking at a candle flame bring (the solidifying curse screen) to "melted wax"/fire and wax stage.

The fire purifies all the blackness in (the curse/screen).

TO DO/Put on Charts: "*Candle Dissolution of Curse or Obsession*"

When the curse or obsession gets to 100% solidified to the tip of the nose; which would mean that T2 is dead,

OR solidified to the solidness of lip, and T2 would be dead.

If you see "Gasses" or "Froth" on the physical plane, than the likelihood of it occurring is increasing.

Degree of Solidification of Curses: *Gasses...Froth...Melted Wax...Tip of Nose*

(What we are doing here) is moving towards Life and the whole reason for (us/T2) being here is to help others have Life.

Physical life is immaterial except that we need physical life to manifest holiness on the earth. Until the exact day they point a gun at T2, she does not have the right to point a gun. But she will not do it, for the simple reason that she trusts in God and that she can avoid it.

For example with Rudolf Steiner: he had a premonition of his death and he didn't ride a certain train. Hitler's (minions) were waiting for him on that train. However, Steiner probably died of a curse. He had just reached his peak (during the previous) 2-3 years--for example his book The Fifth Gospel. He could have done great things.

LETTER MARCH 8, 1995:

8 MARCH 1995 Letter to Students

(All emphasis and the structure of the letter was made by the Editor)

Hello.

One of the most difficult tasks of all for the spiritual seer is to sort out the left side information by right side validation, when possible. Since left side information reveals the spirit of intention, rather than the literal method of carrying out that intention (except in some cases), it is difficult to KNOW inside your usual brain with surety whether an intention has been just a passing whim or is in the process of being carried out.

Sometimes the holy beings give us comfort by letting us have right side signs that verify a spiritual side vision of intention. They have been kind to us in giving us signs of late.

Example: My left side told me explicitly that Gar and Nob were in league with Ji and Jg. Their plan was to eliminate me, and Gar would be T3's co-teacher, and Nob would run Amber Press. They intended to publish writings by several people, with Nob as editor and manager. **On the right side** everyday awareness, Nob has admitted to contact with friends of Ji in Pennsylvania, and sent a fax yesterday to Gar that she needed her to come over to "discuss the future of Amber Press" despite my absolute statement that no person in this work could talk to Nob...she continued to call Gar and Gar continued to call her...supposedly about food orders or other trivia. That was their cover.

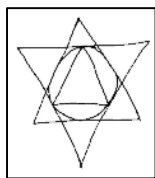

The holy beings know that one human frailty is in not believing the Lehys awareness of the left side ME. (Remember if you are thinking with your chest STAR, that is not Lehys but emotion). For that reason, they gave me and Cel an assignment. I was to dictate to Cel, who is now hidden in a secret hotel, the spirit of intention of Ji and Gar that I translated into words. In essence, it was a written statement of intention to murder me the next time I was spotted on the street outside the monastery. That's all. No name at the bottom. The holy beings said that if that intention was faxed to the monastery and Gar (who lives there) did not bring the fax as a warning to T3 for my safety, then Gar DID NOT WANT ME WARNED ABOUT IMPENDING MURDER. It was faxed late last night and it is now about 5 PM the next day. She has talked to T3 and faxed him a dozen times, but with no mention of the fax stating an intention to murder me on sight.

In addition, when T3 left to go into Edmond on business, Gar slipped out her door within two minutes of his departure, and tried to open the front door with her key. Ironically, T3 had forgotten to lock the top draw bolt, but the holy beings warned me in the nick of time, to go lock the draw bolt. What do you suppose she wanted? She wanted to see evidence that I was gone for good, rather than just off with Cel, as I have done. Late last night, I saw the men's bathroom light on in the monastery, as she feverishly tried to get into Cel's rooms by jimmying the lock.

It is distressing to see someone go bad, and yet you should use this as a learning example, and learn to trust your left side. Anytime someone intends your destruction, you must learn to be wary, even if it doesn't make sense to your right side. The holy beings warn (usually) on the left side, and seldom on the right unless you are thick headed and of great importance.

Gar will be leaving within two days; it is arranged. She has tried to throw out false steers about her destination. She begged T3, in so many words, to hang in with her if she resigned from Kushi. You see, Michio was her god, and now T3 is her god. She thinks I am evil, and that it is her job to rescue him. To do that, she must assist the evildoers. The good thing is that she and the others see the rest of you (except Cel) as victims, and so she and the others are rather protective or apathetic about you, all in all. Let's hope it stays that way.

I am very happy...despite all this. There is no point crying over spilt milk. She made her decision months ago, and that is the law of free Will that we must allow. Also, we are almost free of all of them. Genevieve

IDENTITY SPHERE AND SCREEN COMPONENTS AND POWER SOURCES

There are seven primary locations that Kundalini energy is used by the human. Related to these are the:

Planetary Sound Aspect of the Triangle. Also, the Mega-Kundalini Force Field Substance that surrounds the whole Identity Sphere (and therefore Screen) which is important to assess in percentage remaining. It holds the dimensional spaces together...in their Left-Communicative-Right aspects as units. Also; the LINES that indicate COMMUNICATION between the main UNITS should be evaluated

Evaluate the relative sizes of the main components:

- Whether one component overpowers another,
- Whether any are out of the sphere,
- Whether the components are one's own or a possessing one,
- Whether there are vampires on any of the tanks,
- Whether one has not been able to sustain a tank due to lack of self control of body, mind or emotions, should all be evaluated.

THE SEVEN KUNDALINI LOCATIONS

7. The SEVENTH TRIANGLE Pineal connected tank is important to communicate morality down line into behaviors. Lying, stealing are common if this is blown out. It is all or nothing; blown out. It can be blown by association with satanic people. It must be restored through an intercessor.

6. The SIXTH Kundalini aspect is not really a tank but a membrane like the cerebral cortex around the brain that exists on three levels: TRIANGLE/ME/STAR. It can slowly degenerate if a person has circular thoughts that are "God is..." thoughts. For instance, "*I can do what I want (I am god)*" or "*If I am in this work, then I will suffer (god is cruel)*" mental arguments as the devil's advocate when you feel pity for yourself or others. If it degenerates then your thinking is muddled and you don't feel centered in any activity; you have trouble deciding, and you feel hate for no reason. You hear demon thoughts/arguments.

5. The FIFTH Kundalini container is actually within the birth life seed STAR aspect. This is lost if you wish to merge identities with another person or own another person. If you have hatred or send a curse thought to another person then you may blow out this container and lose power. Hatred for hierarchy or opposite gender will cause this tank to splinter and all pieces that imbed into other people. If this container blows, then the life seed flies into pieces into other people. Some people will have: Asura Alien Contamination and cause an Alien Kundalini Tank to form outside your body that is a bottomless pit to chaos or Hades.

4. The FOURTH Kundalini container is within your ME pivotal point aspect. If someone tries to overpower a stronger person's ME with a strong-willed but unholy ME, the weaker person will lose his ME to the strong person (who should destroy it). If a ME is destroyed while trying to take over another person's Will, then the ME-less person will begin to become paranoid about someone who appears to be in the way of having ownership of the desired person. A ME-less person becomes obsessed with returning to the last ME location which is the place of destruction. They can be dangerous and full of cunning lies because their whole purpose is to get their way about a desired or hated person.

3. The THIRD Kundalini container is a storage tank relating to the genital STAR aspect. It is important for retaining joy of living. If a person depletes an empty tank through sexual activity, then the tank ruptures and the person becomes a spasming automaton, determined to link with genital rushes through hell or high Hades water. Such a person becomes suspicious, hate-filled for no reason, and mentally weak.

2. The SECOND tank is only present in people who are being watched over by seen or unseen high intercessors. If the person feels hostility for an intercessor/teacher, then the halo cracks and the person can be controlled by fallen beings.

1. The FIRST tank is for the power that an intercessor needs to use for exorcism of great force and to endow healing upon others.

Related to the Kundalini tanks is the GLOBAL PLANETARY Storage Tanks within the TRIANGLE.

The purpose is to store "songs" that are heard in the cosmos but are translated into healing regeneration powers by certain high Tisunals. If one has a clear echo of the planetary songs, then his corpse sounds are clear and healthy. Signs of low tank include bad breath and foul urine and stools. These are the entry tanks for the other Tisunals that are down line. The Tisunals that govern these are global; but they communicate with the body Tisunals down line. If you resonate with evil sounds (Names), then you block your planetary regeneration powers on this high level. If you blow out your TRIANGLE completely, then you lose all your Tisunals, and will be a vampire or dead.

IDENTITY SPHERE AND CURSES

OBESITY CURSE:

Killer Beam Mutant Tank: For example if someone blew out their ME there would be a collapsed bag of skin and out of that can grow a cancer composed of demon orgasm seeds, fallen beings and substances from them, and other people's auric matter.

This cancerous spiritual growth causes their lower auric cocoon to extend outward from the torso, so that esoterically, the person appears obese. When they send a curse, a stream of poison extends out of their (esoteric) obesity into a targeted person at any location where they may be vulnerable. These beams can gradually erode another person if they are constant, so that a vampire stream line can be inserted into the targeted person's **Kundalini Sources** or **STAR Sun Sternum Receiver**.

TO REMOVE ABNORMAL/MUTANT TANKS

- 1) How many people are connected to the primary cancer tank?
- 2) Remove all Coordinates/lines.

ABNORMAL MUTANT TANKS FORM AT:

- 1) Four-way intersection of Life/ME/Triangle/Generative or the
- 2) Lower Four-way intersection Life Seed/ME/Star/Generative Tank.
- 3) Body parts
- 4) Identity Sphere Associations with Body Parts Chart

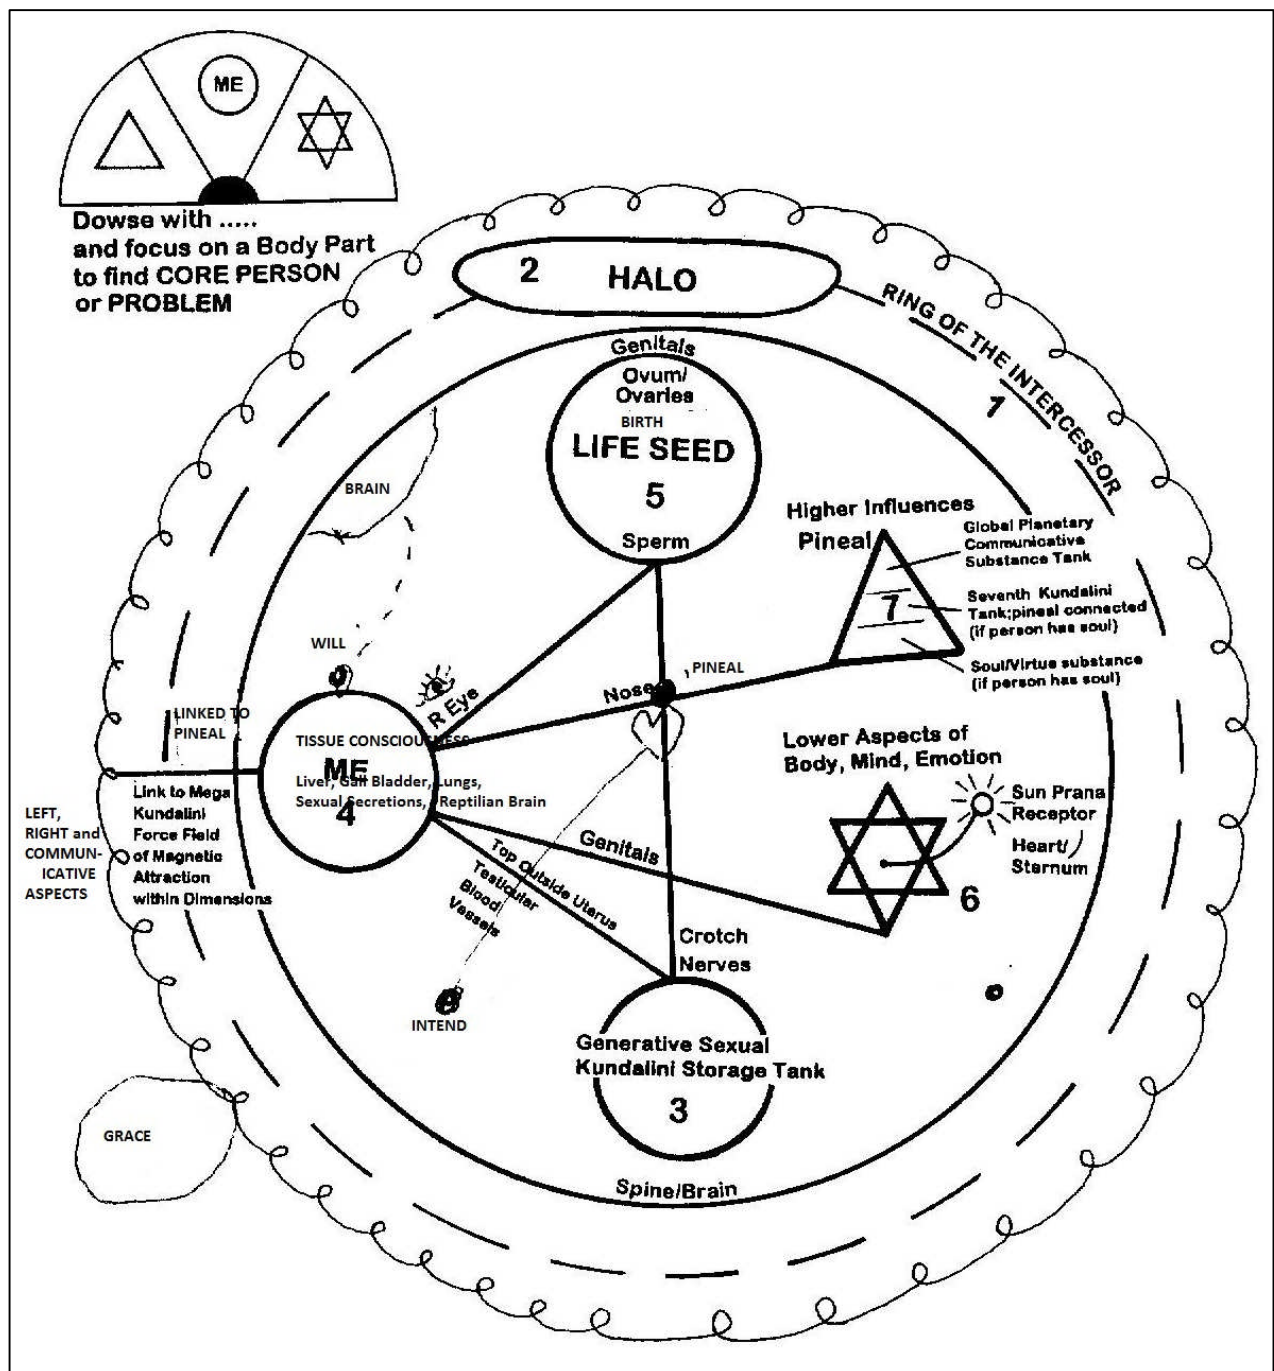

TO FIND ABNORMAL TANKS

- 1) While dowsing over names or pictures of people
- 2) Ask: Which aspect do I dows from? Star/Triangle/ME or from a Tisunal?
- 3) While looking at the owner's nose/genitals/both
- 4) Ask for # of Coordinate Links outside of the evil person's Cancer Tank or body
- 5) LOCATED ON: Lehys/False God/Tisunal Statement Charts and Body Parts

Fat is what happens to you as the beams (from the abnormal tanks) cave you in and devour your substances; your body then goes out fatter to compensate, to recreate a midline between the cavern as a protective compensatory mechanism.

IDENTITY SPHERE ASSOCIATIONS WITH BODY PARTS (See *Advanced Identity Sphere Chart* next page)

Underneath the Generative Sexual Storage Tank there is a spine to brain connection.
This was normally thought of as the Kundalini snake coiling and going back up the spine.

ADD TO THE IDENTITY SPHERE CHART

CONTAINER: Boundary Screen Substance AND 6th Kingdom Karma Substance Identity Barrier

ADD To Dimension Chart: Abnormal Dimensions

Life Seed has an OVARY Connection: Check for abnormal tanks here.

Most of these have False God programs. Many are “I am god” and one was “There is no God”.

Life Seed SPERM Connection: (Corollary to Ovary). Men would get Sperm Contamination that could grow into an abnormal tank from parents or siblings, or old lovers.

Sibling/Genetic Abnormal (Branded) Tanks: These can crawl through the genetic connection of parents/siblings deposit a starter seed of a malefic/abnormal tank which will always have a demon orgasm component into you.

Check: All of the above for: **Abnormal Tanks...Coordinates...**

False God Programs from other people's tanks

Normal	Abnormal
--------	----------

ABNORMAL TANKS are found on the lists above. One tank has 16 coordinates.

➤For example, there is a new pineal link from an ex-student to a student's genitals. An Abnormal Tank was then linked with the genitals which then beam as well.

➤An Abnormal tank in the pineal can connect to another person's abnormal genitals and then hook into the Life Seed of a third person by partial resonance of “I am god” program that entered in during Demon Orgasms. T2 must remove a lot from the ME before seeing the correct areas affected

➤The other person may direct a **Killer Beam** from an abnormal tank to a different location in your Identity Sphere. It will go to the weakest spot. For example one person has a Lower Four Way Intersection abnormal tank into another's Sperm Connection.

Eye Shine depends upon the amount and varieties present of Kundalini energy. In other words, a person with 7 types of Kundalini should have shinier eyes. Yet sometimes a person can be satanic and have shiny eyes if they have evil tanks.

To Accurately Assess an Omen or a Problem:

- 1) **Ask:** “Where do I dowse from: Triangle/ME/Star level?”
- 2) Over a Body Location? Place this note above body parts (sic)

To see the person at the bottom of a chain;

- 1) **Ask:** “Which aspect to dowse: Star/ME/Triangle to get the Name?” or correct Tisunal if it is clear.

Aside: People are being pulled up into the heavens to be worked on. It feels to the person as though he cannot dowse.

Chart To Do: (Add)

- 1) Pulled up by Holy Beings for Repair/Destruction of evil
- 2) Check # of Coordinates outside/to/from/any negative energy

Every abnormal energy tank has a false god/evil assumption behind it, unless it was acquired by association with people who have such programs.

- 3) Destroy killer substance regeneration links to Hades.

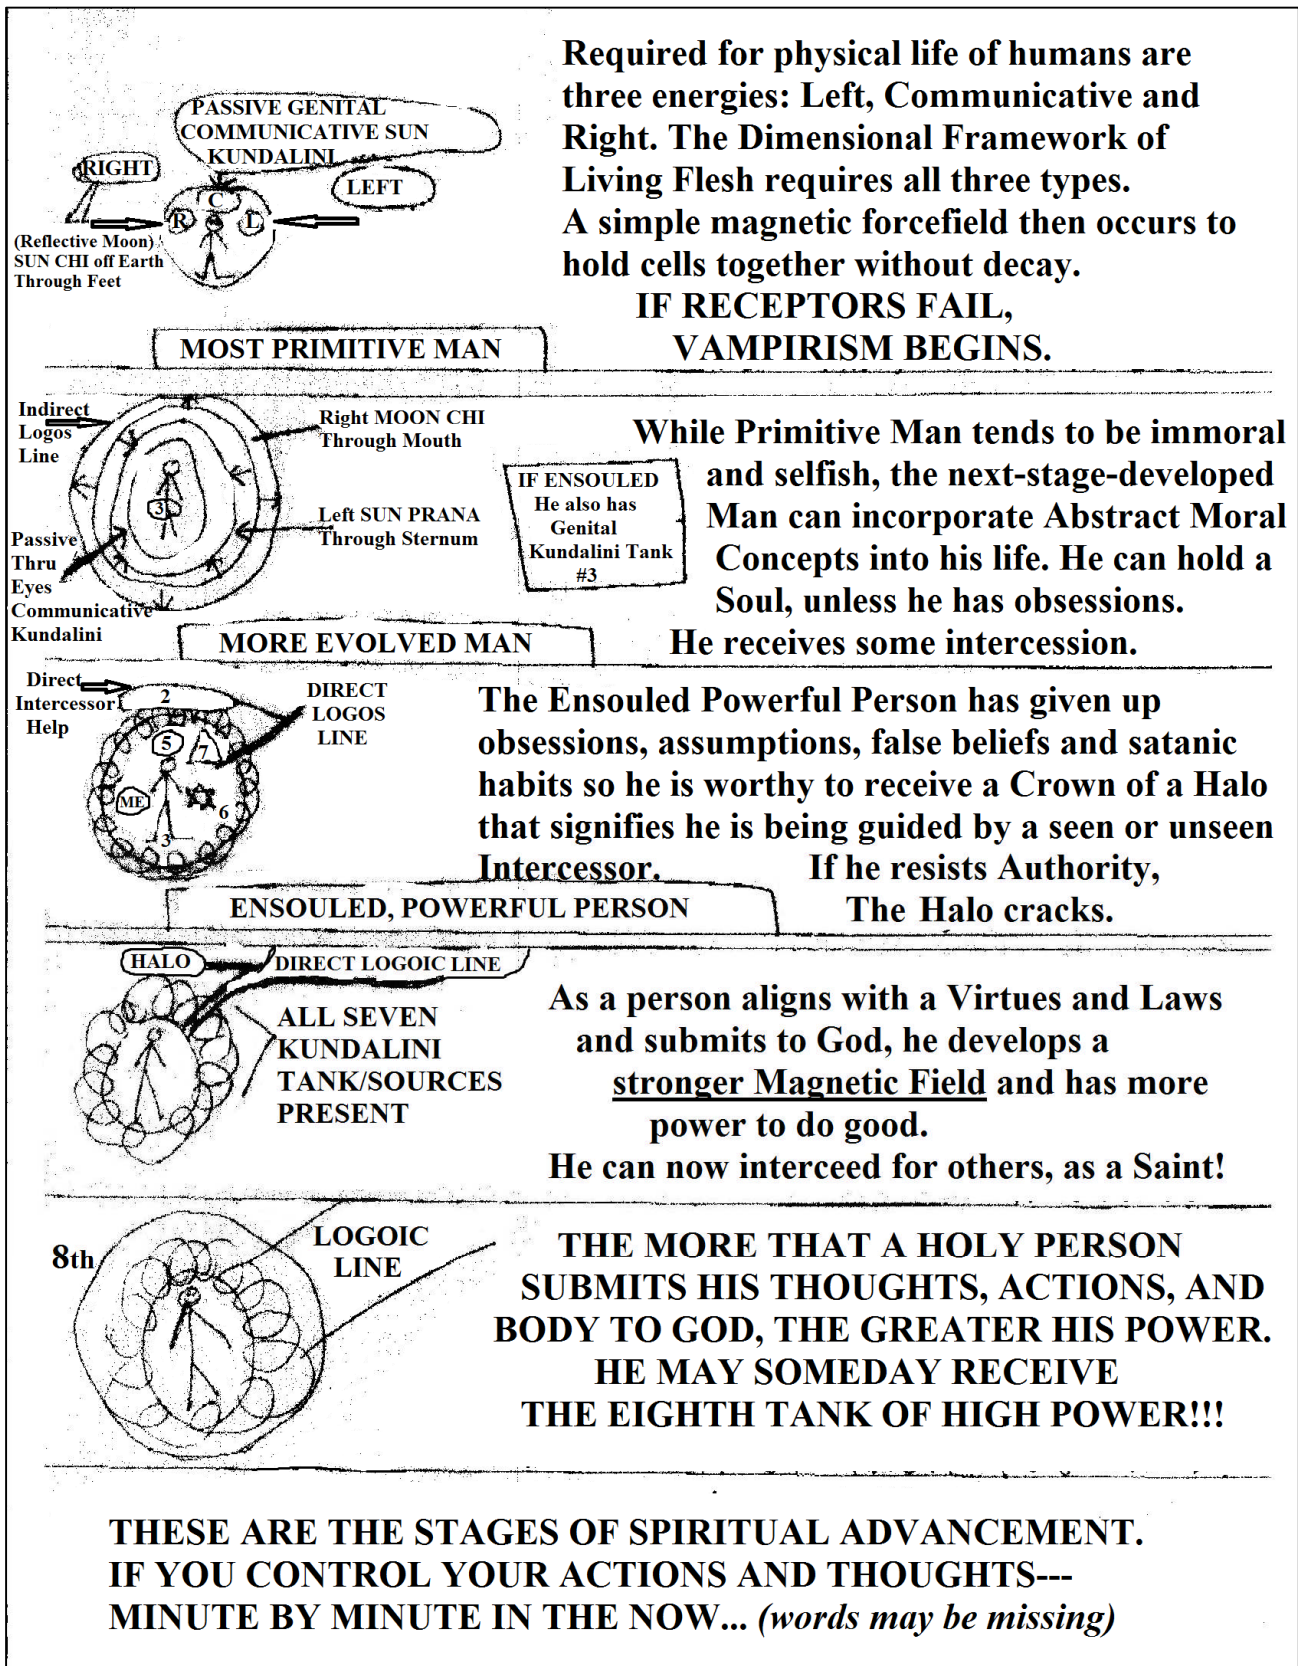

Check: (put on Charts): Foreign Demon Orgasm Seed Curse in one of your Kundalini Tank Locations:

Orgasm seeds have their own fuel: a seed storage of energy. If somebody hates you they curse you with those orgasm seeds' power and it will land like a dart in one of your tanks.

Do: Destroy their ability to have Demon Orgasms by removing every link to Hells/Hades/Fallen Beings.

LESSON MARCH 13, 1995: Personality Strength, Will and Obsessions

This original text is referencing Advanced Esoteric Dowsing Book IV Unpublished

PERSONALITY STRENGTH, WILL AND OBSESSIONS

The grand design for humans includes a personality based upon free will decisions. If the free will aligns with Law, then it increases in power, which reflects as a magnetic personality and strong eyes that perceive greatly on many levels. The strength of will is intimately linked with the power of perception of mysteries of life. If a person loses his will, then he becomes blunted, dull, and listless...unless he vampires will.

It is important to understand the dynamics of will vampirism so as to avoid becoming a vampire and to avoid being vampired. Man's true will center should be in his pineal. Many people's will centers have dropped to their genitals because of sexual relations with animal man or because they are obsessed due to a false "god is..." program.

In order for the will to be used in a manner that is against Law, a person must first have an assumption that is a lie. Indirectly, whenever we willingly embrace a lie, we embrace a hate god program. For instance, to think "(T3) is god is love" is an example (Gar). She had another one, "Since god is love, and Genevieve is severe, then Genevieve is evil". This translates to mean "God's servant is evil; therefore God is evil". Had Gar been born a Sun type, she would have sent will hate lines out from her eyes to Genevieve, and droplets of love lines to (T3). However, since she was born an animal woman, her will center is in her pelvis, which sends out filaments that produce painful bug crawling sensations (hate) or sexual stimulation (love). Animal man does not understand love apart from merging sexually or through food, like a mother dog feeding her pups. The "mother/child relationship is god" program produces a will squirt between the breasts to the desired person's mouth in man or animal man.

Si has "God is a friend that I want to merge with through my eyes. Therefore, any friend is god. God is merging". When such a merging occurs, her pineal *Will*-center drips substance down to the mouth, where it exits in droplets to form a link with the eyes of the friend. Many people do this. When these droplets hit the eyes of the "friend" the sensation (for me) is like a big glob of pus fell out of the top of my mouth...where a pineal connection links to the back of the tongue. This is often why I get to heaving and running to the bathroom. Sn is a big one for this merging. Unfortunately, it causes you to weaken in personality, because your *Will* then forms bonds with too many people, and it gets to be a habit.

Any habit of merging that has a false god program with it tends to steadily weaken the personality, as the *will* substance slowly is dripped out all the merging lines. Unfortunately, there is always a pay-off that reinforces the false god program. A person then develops a habit that appears to be irrelevant but is closely linked to propagation of demons within the *will* center.

Whenever a person entertains false god thoughts (no matter how elaborate or clever they appear), or plays the devil's advocate, then he opens his pineal will to evil beings, as he eats from the Tree of (Biblical) Knowledge of evil mixing with good. The root assumption is usually "There is no evil, so I can think or do whatever I please. I am good; I am god. If I assume that people are good, and that I am good, then it is true or will become true."

Unfortunately, such a thought is satanic and opens the door of the pineal to allow in the devils that other people have fed and sprayed their hatchlings in your area in saliva, breath, and sexual pheromone emissions. The type of feeding that demons require, in order to devour your will, includes an activity that is perceived as pleasant, normal, or releases tension. They find your weakness and give you an obsession that will suit your type. Eventually, they add other obsessions, when you have no will to fight them. By then, your top head is open all the time to invite demons, and so is your bottom head. You then constantly spray droplets out your eyes or mouth, and a black sexual cloud is emitted from your pelvis, since by then you have split your pineal will in two, dropping it downward. Eventually, you have lost all your will, and are a slave to them, and so you can only satisfy your obsession if you form vampire lines to other people's will centers, so the demons are happy and give you a pay-off.

The most common pay-off is Onanistic orgasm that is ritualistic without any pelvic congestion (except for demons). This usually is preceded with a "hate God" program that may be cleverly disguised with intellectualism/romanticism arguments. Circular thoughts always precede the pay-off. You must pay the demons your *will* by reinforcing a lie that tears the veil between good and evil a bit wider each day, or they will not pay you with an orgasm. I have blocked such demon trades in some students in the past, and seen blind hatred for me as a result. They then would lose their intercessor assistance, their halo, and their souls, because they loved a lie and hated the messenger of truth. I have also blocked these evil trades in fallen ones that use the demons to attack me and the rest of you, and their hate for me grows ever greater, as a result. If they can't get their addiction, they hate me.

The next most common pay-off is a sense of mouth rush associated with friends and family. It is the rush that reinforces neediness, emotional instability, a tendency to weep and go into a fury over trivia. The god program is often "god is romance, is friends, is love, is being with people, is being accepted just the way you are"...and so on. If such a person is babied with lots of cuddles and sweet talk, or is sent a little sex thought mixed with romance, then the person feels as though god is present. This invariably turns into a mouth and eyes *Will* drip, a chest *Will* drip, and a genital *Will* cloud formation. Such people in the past have thought that I was Satan himself, because I dared to point out faults and insist they improve. They would leave the group, and then feel as though they had a "holy" mission to save the rest of you and the earth from the evil Genevieve, who destroyed their lives because she wouldn't let them suck her *Will* dry, like they did everyone else. She even had the nerve to stop them from sucking other people in the group. They craved her *Will*, because it would give them a really BIG rush, and they craved (T3's) *Will*. You simply must not feed such vampires or be in their presence if they are intractable.

Such a person tends to wake up or come home from work possessed and agitated, and start arguing about some of these teachings. They go on and on in their minds, instead of clearing themselves. Then they suddenly (since they fed the demons lies) feel an overwhelming urge: to find romance, to eat a pound of chocolate, to go into a rage, to joylessly masturbate with a sense of duty to do so, to visualize lesbian sex and try to stimulate the crotches of people in the room with little *Will* feelers that exit the right eye, to go talk to a friend on the phone, to cry and scream, to drink whisky till in a coma, to imagine sexual scenes to allow a whole body ripple, to send jealous destructive rays to people perceived as a powerful, to go into mental tangents or verbal babblings/song till hysterical/euphoric and crazy as a drugged cat, to meditate with a depressed "poor me" look, and try to find mental euphoria out of body, or other obsessions.

I am here to tell you that you will never recover unless you give up the rush-anchored habit associated with the preceding circular thoughts. If the demons can buy you with food, sex, friendship, a sense of belonging, mental thrills, then you are lost forever unless you change your habit.

You might wonder: "If my will has been used up by the hate-God habit/obsession, then how can I find the strength to change?" YOU MUST PRAY FOR GOD'S WILL TO BE YOUR OWN WILL. I have repeatedly healed all students of the demons that give the pay-off. And yet, they double up the habit performance in hopes of luring the demons back. Of course, they do not think that is why they are doing it. They always rationalize their obsessions, until the demon voices come back to them and rationalize for them. I used to think that a person could be slowly withdrawn from an obsession. Now I know that such will-fed obsessions must be cold-turkey withdrawal, or the person will not recover. I have offered my own *Will* to help many people give up obsessions, and yet they use it to feed the demons, and so I suffer.

I have sighed to see poor animals tapped until they are nutty to feed their owner's obsession. I have seen people become psychotic trying to fight their way into the nagual *Will* to feed their weakness. It seems strange and paranoid for me to say that those people who have been cut off from obsession food often want me dead. It goes back to the primitive habit of Satanists and many primitive peoples of eating the heart of the strongest warrior. Cannibalism in our society is different, in that they want the fresh meat of all of you, full of power, if they can knock me off. They know I will fight their vampirism to the end.

If you think I am kidding, think again. Du came over at the crack of dawn (I was looking out the window upstairs) and he tried to look in the downstairs windows, and then searched the yard for the dog Lu to give to La. You see, La has been crying crocodile tears because she was devouring Lu for demon orgasms. Also, Ji has circled the block frequently today, her eyes scanning the windows to see (T3) (fresh meat). The police (who had received another child abuse complaint) have been under the bridge since last night watching both houses. You might think "Why don't they leave us alone?" The whole reason is that they want power to feed their demons so they can get their pay-offs (orgasm, food, sex, love, romance, money, sense of importance, revenge, hate).

Even after leaving the group, they could have chosen otherwise. It is a lot harder to pull yourself up from a soul-less state with a lot of karma to a holy person than it would be for a person that had never received intercessor help. A person who really screws up, so that the holy beings decide it is too great an energy drain to feed an intractable obsession, must leave any holy group or contaminate the whole works. If he leaves, he must then choose to crawl the way to holiness by his own impeccability by not reinforcing circular thoughts/obsession habits. If he feels weak, then he must pray for weeks or years, and pay some penance, so that he is worthy to receive help from God without an intercessor. This is a sad state, because each student has had his slate wiped clean through Grace, and it is sad to see one fall to ruin because of hatred for an intercessor. Invariably, the intercessor who wiped the slate clean is the one that the little demon voices tell you is trying to take away all your fun. If you listen, you really lose.

Even at that point, it is possible, but difficult to crawl back to God. First of all, one must identify the obsession and never repeat the physical component that reinforces the obsession. You see, the very tool of dark forces is to convince you that you have a right to some action/thought/emotion, and that you are normal. Interestingly enough, if a person

abstains from an obsessive act for a year, he may be able to do the act without possession by demons, if he no longer has the hate-god –is-program attached to the act.

For instance, if a person has linked the concept “love is god” to drinking gin, then he will degenerate and drink gin after thinking thoughts about romance and sorrow, and may play music that reminds him of his losses. The gin drinking becomes his obsession/habit, but his real problem is “love is god”. You cannot just decide to stop thinking “love is god”. You must give up the reinforcing behavior or you will degenerate in body, mind, and soul, and turn into a vampire.

For instance, sexual union between a loving couple tends to reinforce the marital bond, unless they link it to hatred for each other. Having sex while feeling agitated or hostile creates food for pineal will demons. Unfortunately, if one of the persons feels hostile to the spouse, and masturbates, the situation worsens, because the hate program is reinforced.

If you believe that “god is rest and loving acceptance” and link that satanic thought to greasy food, then you will get fat, as you tell yourself that god loves you and wants you to not worry about your health. If you believe “god is spirit is food” then you might think your teacher is satanic if she eats a French fry.

Of course, there are many variables to this serious problem that is epidemic in society. If you go out in a crowd, and you feel your skin crawling and your crotch itching and your nose running and your post-nasal drip dropping, then know that other people are trying (without knowing it) to tap into your willpower. You must pray earnestly for deliverance from such people and from any obsessions. Ironically, because I am formless, no one can tap my Will, but they hit and hit against my body, thinking that my Will is inside. They have another think coming. My Will is with God, where yours should be. Then they cannot grab your Will at all, because the roaring voice of the master of the Seas is your defender. Keep in mind that your body, if it is like me, may be unattended while doing heavenly work, and so might suffer the assaults while vacant of those who demand Will without earning it.

Will is earned minute by minute, hour by hour, day by day, by being impeccable: not listening to devil advocate arguments, not reinforcing that habit, not entertaining God-haters as though they were OK guys. To be a saint you must be separate; you must not merge or you are lost. You must stand alone until you gain your wings to fly with angels. It is a lonely time for many people, and yet you have been graced to fly with angels before your time, though intercession. Do not waste this time of precious glory by assuming it will always be there, because “god is always forgiving”. God is not a fool; he will not feed demons. He will, however, feed you the water of life...his own tears for your recovery...if you rest in Him for strength. You must do your part, and crawl toward impeccability, or fall to ruin.

I have much to write, but (T3) and I have been very ill, and have been working very hard to understand why people fall to ruin and have been trying to fend off the attacks and help those who pray rightly. More tomorrow. We love you. Genevieve

Note to BJ: you must face these issues alone until you become impeccable. The cost of intercessorship has been great, to me. If you face the darkness alone for a while, then it may be possible to again take your hand as a teacher. I love you. Genevieve

LESSON MARCH 14, 1995: Today's Lesson

TODAY'S LESSON

Many people who have a great ability to love other people are led into heinous spiritual crimes because they are afraid to give up the idea "I should love people as they are, just as God does." No, no...God loves your potential, and not your error. If you love error as madly as you love success, then you will not hold a soul. It is like saying that the janitor of the hospital should be allowed to do brain surgery, "we are all equal". Just as in academic life, one must struggle against laziness to excel in a profession, so must one struggle in spiritual life to be worthy to keep the power of an ensouled person.

The irony is that such a "loving" but non-discriminating person will often be led into hating with a mission. You see this in romantic love most commonly, when the lover decides that if she cannot possess her lover forever and ever that she will kill him or herself.

Love is whole. It does not seek out a half somewhere, and because of that, whole love is magnetic to those who seek to be loved. Two needy people usually repulse each other, unless they are different needy. One person in a relationship may need to have a mother figure and hate her, while the female in the relationship may desire to control and romantically love a man. If both of them were looking to hate their mothers, it probably would not be attractive as a relationship. Many people never get out of such mindsets.

Granted, some adults were scarred as children, and so are needy from day one. I am happy to help such people. Others are strong and then become needy, because they are so lazy or willful regarding a false God concept. Those I must set a limit on, as far as how much energy I may help them.

Anyone on this Earth can crawl toward healing with their own will and if that is weak with God's help, should they properly pray and do penance for feeding demons with their life forces. I have not mentioned penance much, because you have been helped to bypass such a situation by helping a Grace party. And yet, from time to time, I see childish out-of-control manic frenzies full of agitation set in on some of you. They all have some element of hostility, and they show failure to use the will you have, or that you have wasted your will on petty endeavors, or that you just want to be your own God.

For instance, you may be in a habit of merging with any little pack of demons in the room, until you are seeing with your eyes, feeling with your gut, thinking with an obsession cloud demon pack, and your pivotal point is on the moon. You should be able to hold your spiritual sanity in a demon sewer, at least for a few days, without wearing out or forming assumptions based upon the demon voices. Sn and Cel: get a grip. Your penance is not Hail Marys. It is pulling ALL your "see, feel, think" senses to above your head, neatly packed in a ball of whatever Will you have not lost in getting frantic or agitated. I want you to check every hour on the hour, and any time you wake up at night, ask for the lock-up. If you let yourself slide out then I will have a fit. Si, you do this too. If you feel your will eyes have shriveled into little blind pig eyes, then you must PRAY with the cells of your body that God's Will be done in your life, and for correction for your merging errors and the effects, and that God's strength be your strength, just ask to bask in the Sun of power. You are not the Sun, but you can use solar power to run a generator: unless you hate the Sun. You see, the "God is..." problem for all three of you is based upon the satanic concept that there is no evil. Therefore there is no good (God)...therefore you are free to act as you please, think as you please, embrace any floating thought as you please, and feel any emotion at any time as you please without ever once considering whether you are acting like a child or not.

There are plenty of programs that talk about bringing out the child in you. I am sorry to say that there is too much child peeking out of most people. Unless they begin to get some discipline in body, mind, and intention...then they will be lower than animal man.

Many a man has degenerated through a rage or torrent of memory indulgence until he blows out all the energy that he has to do good in the world. Many a person has wasted his days on soap operas, bridge parties full of gossip, drug induced euphoria, senseless meditation while possessed, reading trash and going to bars. The upper class people, and the new age people, are no different. They look for a rush, they look for an easy way out, and they look for a psychic that will tell them they are an old soul so that there is no need to struggle to be holy.

Many people have sat in (T1) seminars with swooning devotion at the dynamic words, but they were furious if she asked why they did not apply the words to their lives. We must take every little bit of selfish indulgence, of neediness, of self-pity, of blame, of pity for people who make bad decisions, of whining and rage out of ourselves so that we have the sobriety and strength to be saints and bring forth holiness out of holiness.

If we spend our energies in carnal imagination and fanciful mental arguments, then we are lost. I have seen many people butt their demon-lie wills against God's will through me, and end up looking like hamburger, with eyes that are dead. Until each of you totally submit your will to God, as I have done, then you will suffer, moan, regret, and fear.

God's Will is always in the Now. It uses the past examples as mere fodder for gaining experienced wisdom in the Now. It does not fear its emotional or financial safety. It may have to sidestep the darkness of this lower realm to protect physical safety, because it acts according to the Laws of the plane it manifests. However, there are times when Higher Laws can come into play without taking away free will. The dance of Laws on every situation is truly mind boggling in complexity.

What is not complex is that each of you should have at least a tad of sobriety and personal power. You should not have spent the last month in the heart of obsessions. It is best to avoid conflict when possible, so as to conserve energy. Should you run across a maniac, avoid him if possible. Choose your battles. If you have been emotional, retro-thinking, or fearful, then you must DECIDE to give up your false god programs, your desire to believe that this Leave it to Beaver world is anything but full of good old boys...in other words: be warriors.

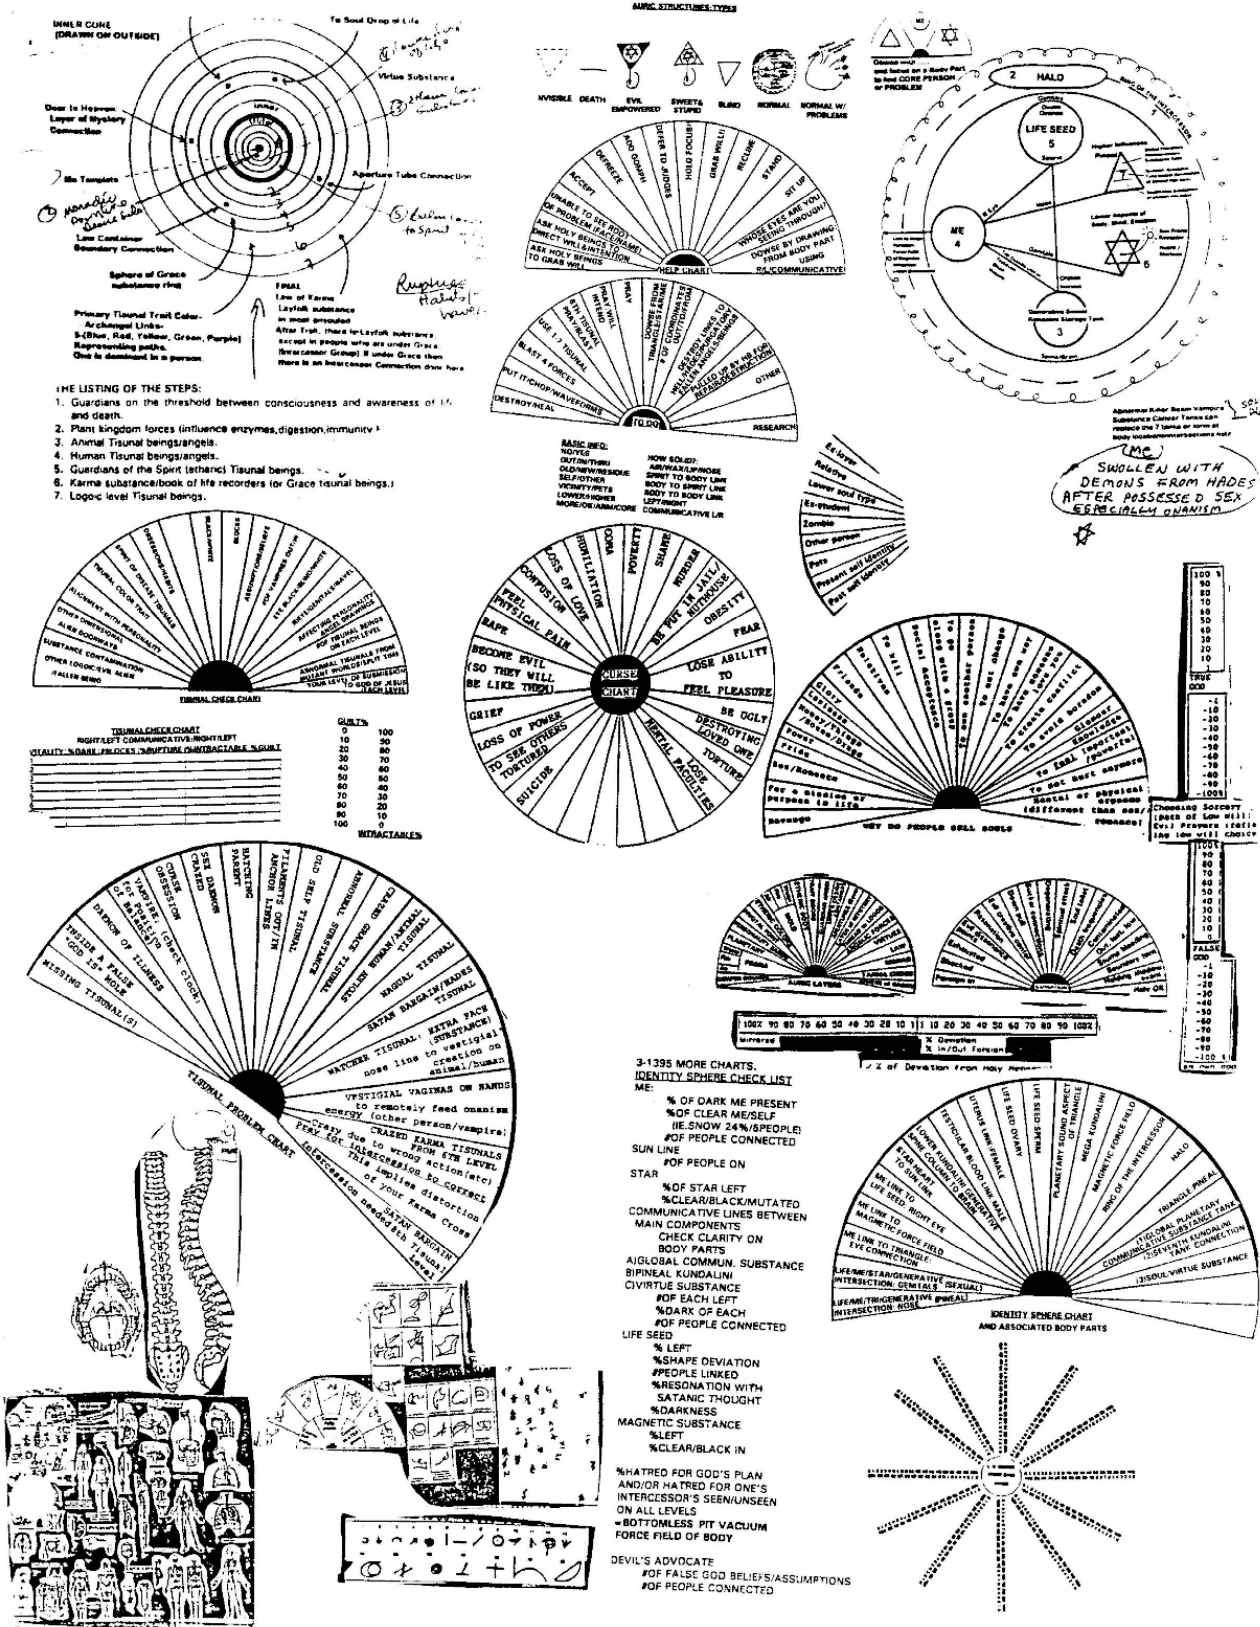

A warrior is known not for his number of kills, but for his success in avoiding battles that need not be fought. He then has the energy to beam in a great blast for the battle of the century. I need all of you to be warriors in your personal lives, to not let anything or anybody own you except God (who is your Master, and I his servant who is sent to give you his decree), so that you can gather power for the times ahead. It is fine indeed to say that any person should go straight to God and not accept some word of a lousy servant, and yet you would be a fool to do otherwise, because your eyes are cloudy, for now, and mine are not. Yours can be clear if you perfect the use of your will (in your pineal) and your heart substance Kundalini forces so that you become ever stronger in spirit and in flesh.

I have enclosed some rough drawings that I want you to study, about the different energy forces that are vampired by people who have no willpower, and the stages of deterioration.

SPIRITUAL VISION AND EVOLUTION

(This lesson's drawings are hand drawn copies of the originals)

The control of aperture alignment is of utmost importance for spiritual progression. For instance, in the development of Lehys awareness, a primitively ensouled person must first learn to understand with the heart/lower aspect of Lehys. This is not the same as understanding with the Star of David (Star aspect of identity cocoon). The heart aspect of Lehys is the root of intent, which is a vital power for spiritual usage. Intention is not intent, but if ones intention is holy then one may develop a reservoir of intent substance in the heart, which is an aspect of Lehys power.

If an ensouled person decides to have unholy intentions, then the heart substance begins to bleed out little filaments that link up with other people and therefore forms malefic portals. In order to ever understand through the Lehys aperture, one must first have all of one's heart intent substance clean and unfettered.

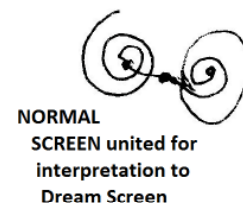

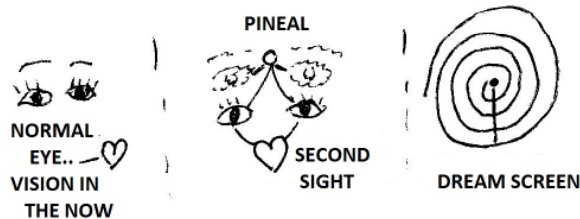

If the heart intent substance has not been soiled or wasted on mal-intention, then a higher level of Lehys awareness may develop. This aspect correlates with the concept of the ME within the identity cocoon. This level of maturation allows etheric color bands to hear and respond to the Holy Spirit, as a violin responds to the hands of the musician. Whereas the basic heart intent substance is correlated with the letter of the Law, the etheric intent substance emanations are correlated with the spirit of the Law.

Of greater power is the octave of intent substance associated with the (Triangle) within the identity sphere, and correlated with one's desire and love for Truth. Any false god programs will block Lehys at this level, and therefore block the power of the highest octave of intent substance, which is necessary for all significant holy work and higher comprehension.

People with development to the level of basic heart intent substance control (thereby accepting the letter of the Law in their physical, emotional, and mental lives) develop a luminosity to the whites of their eyes that appears more powerful in personality than a person without it. Dullness to the eyes is an indicator of dirty or depleted heart intent substance.

People who have developed to the level of spirit of the Law acceptance in their lower lives have also developed on the intent etheric color bands. This is reflected by a sense of white light in front of the eyes or upper face of such person when viewed by others. The face appears to have smaller skin pores, the eyes are luminous, and the features may appear slightly ghost-like. Such a person has developed his pineal gland so that it is three times (at least) as developed as a primitively ensouled person.

People who have developed to the level of the (Triangle) within the identity sphere have integrated the Virtue of desire and love for Truth. When such a person also has a keen grip on the lower intent aspects, he is able to spiritually develop the keenest sight of all. This cannot occur if he is spastically out of control of "Seeing, Feeling, Thinking, Willing" on the fundamental emotional/mental lower levels, or if he chooses to think and see with the eyes of a common zombie. To love Truth is not enough; one must also submit to the rigors of self-control of body, mind and Virtue integration of the lower self. If self-control is steadfastly practiced and there are no false god programs, then the aspirant will develop a second set of eyes, which to the Seer appears almost as a film double exposure, with the second set of eyes lighter and slightly above the other set.

It is as though the second set is slightly in front of the eyebrows, and is linked to the pineal. The first set is linked to the heart and the pineal. The development of the second set of eyes is a wonderful spiritual goal for which to aspire: it means you can be in two places at once.

The first set of eyes allow a person's first attention understanding of reality in the Now (which includes everyday consciousness, and ideally includes heart-intent consciousness and etheric consciousness of Lehys). The common man does not even have plain understanding of reality in the Now, because he is wedded to the past and pulled by the future. To understand even lower eyes vision in the Now is a great skill that must be mastered by the spiritual student in order to achieve higher sight.

To develop lower sight skill requires one to observe details in the environment and to understand the significance of those details as sign. For instance, observing body postures, facial expressions/skin coloration in others, noticing variations in auto traffic or weather appearances, and noticing incongruences in people's clothing or handwriting are all good indicators that a person is advancing in the fundamental skill of seeing the Now signs.

Seeing the Now signs is imperative if one ever hopes to understand **Omens**. A person developed to the ME Lehys level should be able to see a sign that is sent by holy powers to warn one of danger. A warning sign is more blunt than an omen. For instance, your eyes are drawn to a man in a crowd who has blood dripping from an open cut on his finger...perhaps (logically) from a paper cut. However, you sense a tightness in your chest when viewing the bloody cut. That is a sign of danger, given to you by holy powers to recognize because you have developed the ME level of Lehys. Only a person who had earlier trained himself to notice details would be able to perceive a ME level Lehys sign of danger. A person of the lowest level might be able to notice a woman screaming "there is a killer behind you" and if slightly more developed might notice that the shadow in front of him reflects a man holding a knife. An even more developed man would notice that the birds had stopped singing before a violent attack, and that his heart was beating more rapidly for no logical reason. Those are human/animal level intuition signs, but not holy powers warnings.

Holy power warning intuition is heralded by a slight sense of dizziness, and a compulsion to focus upon a detail. For instance, you might have noticed that three of your windows had developed large spider webs complete with monster spiders, for three consecutive days. That you noticed with your lower detail observation, and filed it for later review. On the fourth day, as you walk out your door, you suddenly notice (because your head veers to the right) an enormous spider ready to jump upon you from the left side of the door frame, with a web that crosses your path. This, you suddenly understand, is a clear ME Lehys sign from holy beings that there may be a trap being set up to snare you by four people (considering the three other spiders), and that today was the day to be wary.

An omen, on the other hand, can only be understood by a person of (Triangle) developed Lehys consciousness. An omen always has at least three parts, whereas a sign can have a single image, like the blood dripping from the finger of a man in a crowd.

An omen has an air aspect, a fire aspect, and a water aspect. For instance, you may be in the room when a close associate receives a call on her answering machine from a woman whom you know thinks she could do your job better than you do. That is an air sign of business danger, or the air component of an omen. The next day the close associate may burn a pot of beans while her eyes kept observing your every move. Her eyes would be a lower sign, but combined with the beans burning, indicate a fire sign of potential business treachery. The next day, a fax from the woman who doesn't like the way you do your job may be addressed to your associate, reminding her to pick up a bottle of some herbal bitters that had been group ordered. That would be a water sign that "bitter tears" might fall if the third level of the omen was not heeded, and action taken.

Taken apart, with the lowest eye blunt linear vision employed, the omen components would have been meaningless. What is significant is that (during an omen) you develop a certain hyper-alertness so that your eyes sharpen and your mouth and nose tighten, whenever an omen component unveils. At the time, you may not understand why something trivial bothers you in a strange way, and yet, on a non-verbal level, you find yourself becoming cautious and restrained in speech and action whenever an omen component strikes a note in your heart. The worst omens have a fourth component, which would mean a materialization of the problem warned about during the air, fire, and water signs. Given the earlier example, it could be that your eyes are drawn to a fax laying upon a table from the treacherous woman to your associate. The fax may have your associate's name or the first word underlined and written so that it is your familial pet name. For instance, "box up the extras" may read to you "REX...up the extras". This could be a crystallized omen that there are extra agendas hovering above your head, so listen up before you get hurt.

In extreme cases, your own name will be called out to you in a moment of danger or need for attention. This is most often in cases of impending death. A more common symptom of danger that is technically unrelated to omens, but is still a sign, is when you suddenly start coughing. This is when your high Lehys aperture senses malignant intention toward you or a loved one, and the poison of the cloud of mal-intent is perceived as a foul smell or toxic gas. Headache, as well,

may be a sign of malignant thoughts in the vicinity that should be evaluated in case they are directed to your bodily form. Finding out who they are from can be tricky, because zombies often go through a chain of vampire lines to form enough energy to send hate filaments or clouds. The most powerful people are constantly being eroded by sucking demons to form vampire portals, and they must be on the lookout 24 hours a day. If you do not destroy such demons in your home, they will wait until you are too exhausted to remove them after falling asleep to gnaw a hole in your magnetic field. If you are under attack, dowse every morning how many demons are inside your identity sphere or attached to each component, and how many are hovering on the outside trying to chew a hole in you to eat your power.

If you have worked hard while awake to control your apertures (especially by balance in thought, act, and emotion) then you will not be so troubled as you sleep. Your sleep contamination tends to reflect your daytime weaknesses. By noticing weaknesses in the daytime, you can steadfastly improve them so that they do not appear in your sleep, either.

By far the most significant weaknesses are related to desire and thought. For instance, if you desire physical comfort/pleasure more than spiritual advancement, then you will be sensitive to the sexually stimulating demons that enter during orgasm. If you desire to have friends and family more than to be holy, then you will be sensitive to the demons that enter the eyes when one merges with other people who are unworthy. If you allow yourself to go off on thought tangents, and wallow in bed indulging in circular thought rather than getting up, then you will be sensitive to evil people/grid synergy clouds of demons that entice you to believe holy is evil and evil is good. These demons are very subtle in their devil's advocate arguments and rationalizations, but you should be able to detect a slight frontal headache when they are around. The desire demons tend to cause pelvic agitation or eye/sinus drainage. If you give in to either kind then your spiritual forces will be pulled into evil use by controlling spirits.

Every evil result is produced by evil causes that are often fed by people who would swear to never have desired or thought they wanted such an outcome. Association/merging with someone who hates Truth (and this can be very tricky because such hate only is revealed when confronted by someone who SEES) can cause you to feed our own soul destroyers and never know what hit you. Our society embraces the value of "seeing the good in everyone", and yet the saint cannot afford to overlook evil, lest he feed it. A saint is a precious commodity, in that he has the courage to SEE evil in people and yet still love their potential to be holy. In fact, unless you choose to SEE, you cannot be a saint, because you will not know what to throw out and what to keep.

Seeing involves more than the heart/Lehys intent substance octaves and observing nuances. It also involves the Will aspect of the pineal gland. The pineal gland (and SEEING) has three primary components: Will substance, Intent substance, and Virtue/Divine Intelligence/Action substance. The pineal does not store the substances but rather their precursors; their catalysts.

The Heart (within the identity sphere aspect of the auric cocoon) stores the Intent, which is associated with the ME, Triangle, physical heart/lungs and physical eyes.

The Will Substance is stored in the cranial nerves, particularly the optic nerve, and is closely associated with the Magnetic Force Field substance around the Identity Sphere. A person who misuses Will substance tends to have a weaker force field that allows in dark forces.

The Action Substance is stored throughout the body (relating to the (Star of David) Star aspect of the Identity Sphere. It is prudent to check for Star Level Death Frequencies over the body illustrations to detect contaminations or leaks of Action substance, or vampires of such substance. In particular, Action Vampire Filaments to the genitals are especially weakening, because they drain the lower generative Kundalini tank and poison the sexual centers. When that occurs, a person tends to dowse that he has pelvic congestion of an inverse type. If he removes the dark force energies, he may have very little pelvic congestion; because vampire lines devour it and then falsely stimulate more sexual activity so as to devour the very membrane of the Kundalini container, and then move on to devour other identity components. Finally, the air, fire, and water prana container membranes within the Star Identity Component become inverse and eaten by vampires to feed curses or obsessions.

All vampires must hate in order to get energy. They must *desire* to hate, *plan* to destroy, and then *act* in some way destructive to themselves or others in order to get the "pay-off" of energy. In the beginning, before a person is enticed down the vampire path, when a soul is still present, the scenario appears different to his senses.

All vampires have false assumptions, false beliefs, and false god programs. In some way, they choose to form their own reality, instead of loving Truth and desiring holiness. You should avoid the pitfalls of the early vampire lures.

One becomes a vampire first by feeding vampires. By failing to notice vampires, one will become one. Being in the presence of a vampire gradually erodes your resistance down, until one day you will be physically tired and emotionally unbalanced, so that they get a feeder line in.

While the initial vampire sucks your aperture substances, he sends a little clever poison along the line to anesthetize you. You do not feel (in most cases) anesthetized; you feel exhilarated. As he sucks you, you feel a mental rush, an emotional surge of joy, or a sexual excitation. If you have not developed your higher vision, then you will assume that the vampire loves you, is wonderful, or is the sexiest person in the world (or thinks you are). This is very dangerous, because an addiction for the person will soon develop.

As I said, anyone who vampires on a regular basis and has no soul must have embraced evil in a false god acceptance. If you embrace that person's thrills, then you embrace their evil into your identity sphere, until it devours your identity. When your identity is gone, the false god will be your passion and your identity, so that you become an automaton for evil. This is especially true for advanced students who are "tasty morsels" for the demons hiding behind the false gods. Anyone who sells his soul for physical or emotional rushes is a prostitute who must be avoided. Granted, people make mistakes, and the ignorant ones are given Grace time and time again, all the while being TOLD what to avoid on the basest of levels. The demons, though, will tempt you with the thought that the messenger of Truth is trying to run your life...while in fact the demons are devouring your life (which is your holy identity).

As vampirism progresses, hate becomes more apparent in the eyes of the weakening person and in his emanations. He always justified his hate, or hate becomes a part of him that he no longer recognizes. The greater the hate, the greater the thrill given by the demons; the gates of chaos are opened by hate, so a man who sells himself is paid by lower rushes that are the same intensity as the hate. As time goes by, only murder will supply the orgasmic rush. This level of demonic possession is found in increasing numbers of people world-wide. Newspaper stories about a teenager who swerves off the road to hit a small child for thrills, about animal tortures, about war atrocities illustrate the problem. Most people cover up the desire to kill, or sublimates it into sado-masochistic sex fantasies, defilement fantasies, or use slander as a way to vent hate.

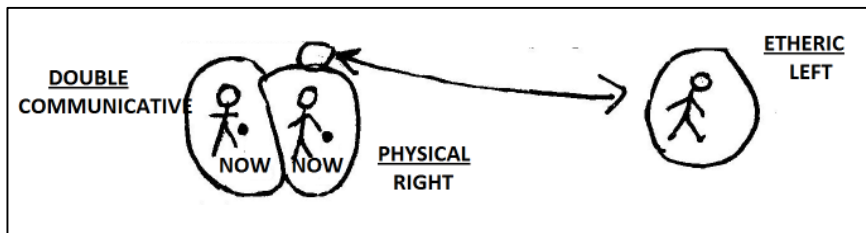

Righteous indignation is a holy mechanism that is often confused with hate. Some people want to torment others in the name of Christ, and rationalize their evil. You can tell such hate because it tends to migrate to powerful holy people. The demons give a greater rush to a vampire who kills a saint than to a person who kills a frog. Why do you think Satanists look for virgins to sacrifice?

It is imperative that each of you spend some time each day studying the concepts of *Seeing*, so as to avoid such a fate. It is possible that you may someday be able to *Dream* if you can *see*. I am not talking about analyzing visions of your nighttime travels. I am talking about being wide awake and yet being able to split your awareness into two screens.

In dreaming, your primary awareness is with the dream. The dream is not imagination, but is happening in the Now of the present, past, or future. You cannot see the past or future unless you are able to do a split screen with both of them perceived as the Now. All power is found in the Now.

The purpose of dreaming is not idle amusement, but to control the forces of Will, Intent, and Action to such a high level that the past can be changed, the present influenced, and the future prevented or altered in such a way as to facilitate the plan of God. Dreaming skill is directly depended upon the refinement of *Seeing*. You cannot accidentally dream; it is a high-level spiritual function associated with a maturation of the Identity Sphere. The Identity Sphere develops within it another Now point of reference that is from that day forth your first attention Now point, while your everyday attention becomes your second attention Now point within your Identity Sphere.

Each of the two Now points must have their own Will substance, Intent substance, and Action substance. It is then as though you truly have two sets of eyes and two pineals. You also have two hearts, and two sets of generative organs. You should consider yourself as double, with one self as able to see another location or time frame and influence events while it translates to the other self. **This double self is not your etheric body**, which has different functions of an important nature. Your etheric body can be considered primarily left dimensional in aspect, while your physical body can be considered primarily right dimensional in aspect. Your double is composed of communicative substance that binds together the left and right dimensional aspects in its lower development. You could think of it as existing between cells, while body cells require substances with polarity of both left and right aspects in equal pull to create a gravitational field.

Communicative Substance exists within existing gravitational fields, and is able to merge with the larger earth gravitational field to pick up signals, like a crystal radio with a dial.

When the Double/First Attention body is in its Screen Seeing Mode, a part of the

Identity Sphere lights up that is usually dormant. There is always a lighted portion of the fundamental Now Screen Dissonance Point of Reference, but for the evolved **Seer**, there are now two lighted sections and therefore screens.

The development of the second screen takes great impeccability of action, will, and intention on all realms. The letter of the Law, the spirit of the Law, and the incorporation of the Law must be accomplished in order to garner enough power to develop the second screen and contain the forces with it. An impeccable person who struggles valiantly toward sainthood will, without fail, learn to see, and if he never rests on his laurels, then he will gain a second screen.

The appearance of a second screen would be perceived by an uninitiated person as a sign of insanity. As it develops, you begin to perceive other people's thoughts, intentions, desires, and actions without dowsing them or trying to perceive them. Holy warning signs and omens become crystal clear to you, but confusing to others of lesser development. You must then struggle to contain your perceptions in a quiet garment of sobriety, as you sort them out and learn what they mean. You will have it easier, because I have had to learn about the second screen without someone to show the way. I continue to map the complexities of the screen, so as to teach you and gain in power.

One difficulty is in knowing whether you are seeing with your old screen (intuition, pineal seeing, heart/Lehys, etheric body, and visual clues) or whether you are seeing internally from your second screen, which is now your first. Since the new screen sees everything in the Now, it takes time to learn how to predict occurrences of the future, or to know when you are shifting details in the past to prevent a crisis. The peculiar thing is that you spontaneously start working with the Will, Intent, and Action substance of the screen before you get a good grip on your double self. As a result, you may feel physically sick or exhausted, and have specific symptoms: a sense of floating out of body, your eyes look different, your sense of taste and smell are off, chest feels full, digestion may seem poor, bladder/genitals sense of fullness without agitation may occur, or leg numbness. I doubt whether any of you will be ready for this stage for at least a year and a half, and that is with complete impeccability on your part and constant checking and hounding by me to determine and point out flaws. Maybe by then, I will have the hang of it myself.

We are embarking upon an important and necessary stage of development that cannot be mastered unless the former lessons have been incorporated in your lives. As you can see with the destructive potential of students who have left, each of you are gaining powers just from association, let alone personal work. The pitfalls become ever more dangerous with the climb up, and yet it is a challenge worth taking, for oneself and humanity. Unless a few people climb the peaks of sainthood, then no one else will ever know what is above the shallow world of the base senses. I can tell you, as an explorer in many realms that the joy and satisfaction of the life of a saint is beyond comparison with any lower choice. Once a person has seen the peaks there is no turning back. Even for students who only saw the peaks secondarily and then chose badly, they cannot seem to turn back, either, even after leaving the teachings. They chase after us in pain and desperation, knowing that everything they have seen since is inferior, and that they have chosen to be inferior. They see no way out but to destroy the guide to the peaks, and therefore the peaks die to them, and they might forget their poor choice to go downhill. It is a peculiar and traumatic experience to be hunted by killers, and yet it is an opportunity to exercise the skills of the new screen, and map its use. For that reason, rejoice. All challenges can be brought to good use, if we embrace them without whining.

When demons become part of you they don't manifest the same in each person, until they start rotting, then they take on the characteristic of the core (original) person. (They are rotting out today). *We couldn't get these before, because they were part of a person's tissue*, and as long as the person had any energy to keep it alive, it wouldn't let loose because they kept reinforcing it. If you get the Demon orgasms you get all the symptoms. These could be reinforced by a fetish, like a foot fetish: something that is kinky but seems harmless. **Anything connected to sexual or emotional release that is addictive, is always connected to fallen being possession.**

Devil's Advocate argument stimulus. *Communicative Substance*.

- (12) **Fallen Angel Hell Link:** related to visualizing sex-toy use; Money/Greed. *Will substance*
Any addiction to sex toys indicates a serious possession. Anything you link to pleasure can then become like a Pavlovian stimulus which can be used by fallen beings merely by producing an image of the sex toy being used (for instance), which will open your aura allowing them to enter. It doesn't start out as evil; it becomes a *portal* through which evil enters.
- (13) **Purgatory Genetic Obsession:** reinforced by low self-esteem thoughts, or sucking: *Water links*.
Thumb sucking is a symptom with a particular water link.
- (14) **Nose Demon/Anal Fetish:** Human created connected to sodomy, laxative abuse, boogers in boxes (*Note: Boogers in boxes refers to a former student who put a booger in a box to show to T1, wondering if it were an "implant"*).
- (15) **Nose and Pedophilia Fantasy/Fetish:** Linked to using sex dolls/rubber objects; women's underpants or sex toys for orgasm. *Voyeurism:* Voyeurism implies that someone could know you are looking,
- (16) **Between Veils Chaos Demon:** Linked to Peeping-Tom obsession. *Peeping-Tom* implies that others do not know you are looking in the window, so Peeping Tom is more accurate for this.
- (16a) **Chaos Linked:** Money/Revenge stimulus. *Will substance use/Obsession*.
- (17) **Kundalini Substance Tap Line:** reinforced by hating authority. *Chaos Beast Tailbone Link*
- (18) **Pineal Case on ME Level:** reinforced by romantic circular thoughts, and longing devotion for old friends or lovers.
Mouth Demon Orgasms/Food; *Hades or Chaos Lying Spirit*
- (19) **Torture Fantasies:** Chaos linked to genital excitation: *Magnetic Force Field Connection*.
- (20) **Onanism Obsession** linked to fantasy of being inside another person's body while they have sex.
Fire Component, with Tethered Hell Links.
- (21) **Chaos-Linked "Devotion" to "People are god" Throat obsession.** This is reinforced by expressed affection from other people. (Symptom) Needy; someone wants others to brag on them.
- (21a) **Self Created Beast Marriage, obsession; Intend substance; Hate reinforced**
- (22) **Bestiality Fantasy:** A demon orgasm: *Chaos Sold-Self Link*
- (23) **Nose Chaos-Communicative and Cranial Nerve Beast:** Reinforced by chatting with friends.
Feeling loved by chatting. They can't be by themselves. They are unable to be by themselves without talking to people. This is key to the addiction.
- (24) **Chaos Right Ear:** Lying habit: *Air related*. This is reinforced by popping the knuckles or wrists. One person had an obsession with hearing sex sounds: *Auditory fantasy*. A shamed appearance and chronic lying are symptoms.
Alcoholism.
- (25) **Person is God, Flesh is God, Self Created Beast Tissue Demons:**
Aqueous Vitae: water poisoning with eye lines coming out.
- (26) **Nose Picking Obsession:** reinforced by nose picking and rape fantasies. *Heart-Triangle linked*
- (27) **Navel Self-Created Beast** or sexually transmitted: reinforced by nose picking or eating. (Includes) "I am worthless" thoughts, defilement, torture attraction and/or fear. *Will lines into constructs*. (Includes) Babbling mindlessly, speaking while subconsciously visualizing rape. Child molestation. *Hell link*.
- (28) **Tongue Chaos Beast:** "Art is god", "Beauty is god", "Person is god": *Bestiality link, and oral sodomy*.
- (29) **Chin Chaos Beast:** "Body is god" programs; Pet dog obsessions. *Act Substance Mirror Fetish*
- (30) **Chaos Orgasm:** Reinforced by watching other people urinate. *Lesbian fantasies, murder*.
- (31) **Self Created Intend Substance:** Necrophilia Fantasy reinforced by spitting, belching, jutting upper jaw forward (buck teeth); Bird of Prey appearance.
- (32) **Chaos/Hell Tongue:** lower jaw jutting; *Were-Animal Bestiality Link*
- (33) **Killer Will:** (*Own God*) Neck link; *Ownership of other person*; Watcher Link; Food Jones link.
- (34) **Vestigial Horn on Head Pedophile Meditation Chaos Greed Obsession;** Money; pedophilia meditation; Self pity;
Reciting past errors of spouse; stimulates endorphin brain euphoria.
- (35) **Chaos Sold Self** Monetary Security; Fear stimulus to Hate (Demon Orgasm results);
Emotional and housing security vs. Holy Service desire.
- (36) **Were Animal Curse/Obsession:** Murder.

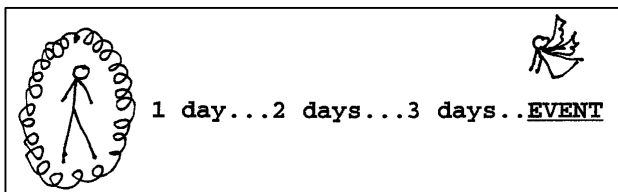

CLASS NOTES: MARCH 27, 1995 Seeing the Future

These Class Notes are referencing Advanced Esoteric Dowsing Book IV Unpublished

SEEING THE FUTURE:

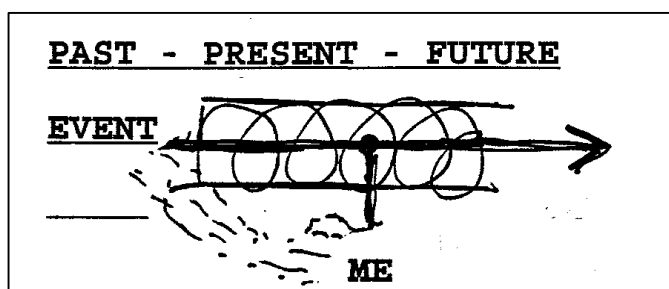

Potential Future Physical Trauma is perceived by the Apertures as a vacuum hole at a certain distance out (it is more gaseous if it is less formed than 100% to happen).

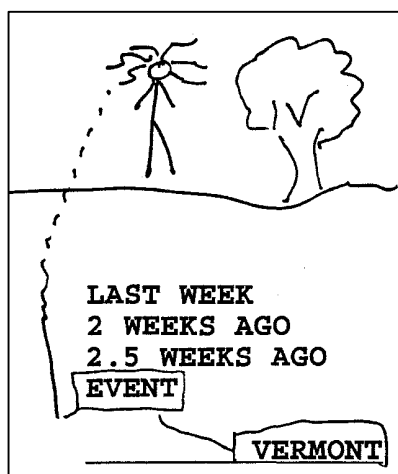

Guardian Angels see events forming and send a sound wave, like a Sonar Distance Warning, to the magnetic field around the body that a person can learn to interpret as pictures but first is perceived as a panic or a sense of urgency to do specific acts for one's safety (i.e. stop the car, leave the house, avoid a window, look for a child or pet.)

With practice, one can learn to extend Aperture Filaments out in the direction/angle of vacuum holes to "see" the details of the event and use the Will, Intend and Act Substances to change the perceptions of the participators of the event (and remove dark forces) so as to alter the outcome. Ideally, (this is done) to alter event perceptions of events that have already occurred, so a house-of-cards falls forward, so as to use less energy.

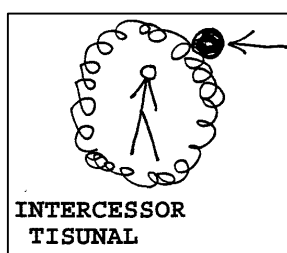

CHANGING THE PAST

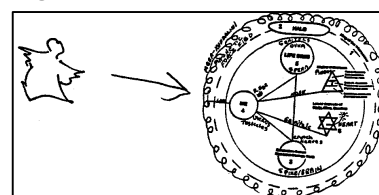

Your ME aspect can perceive past events by a Kinesthetic Resonation to a time, place event, or person, and it is felt as though the scalp hair follicles are tingling, and part of the self seems to slow down and to sink to a certain level to the event. The location is perceived as an underground pull (centripetal) until the scalp feels a sonar reaction in a direction of decay.

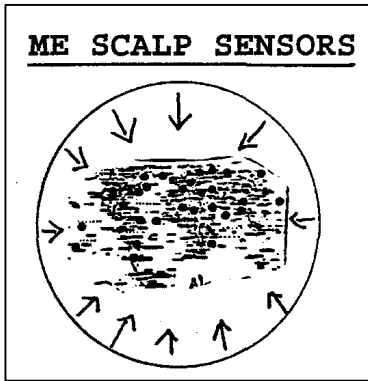

The Earth is perceived:
PAST as centripetal Down,
FUTURE as Centrifugal Up.

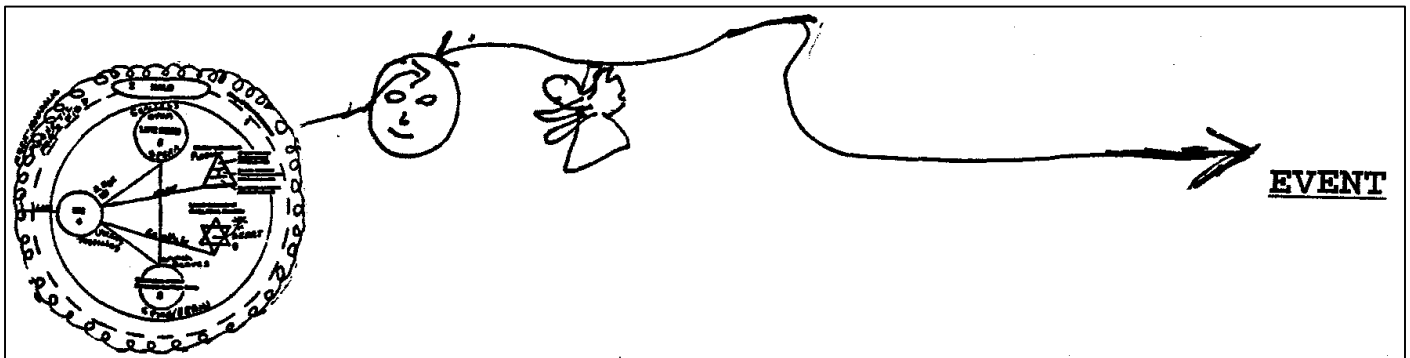

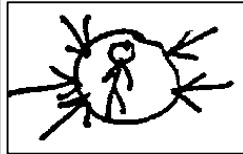

Thought/Plan Globules of someone who is obsessing about a person, place, animal, or desired event, all carry holograms that can be read
By the **←Intercessor Ring Substance Tisunals**
Inside the **↓Magnetic Force Field**:

Ask: "Who/what did the physical crystallized vessel appear as?"
Until the face comes into focus, the scalp moves down and inward.

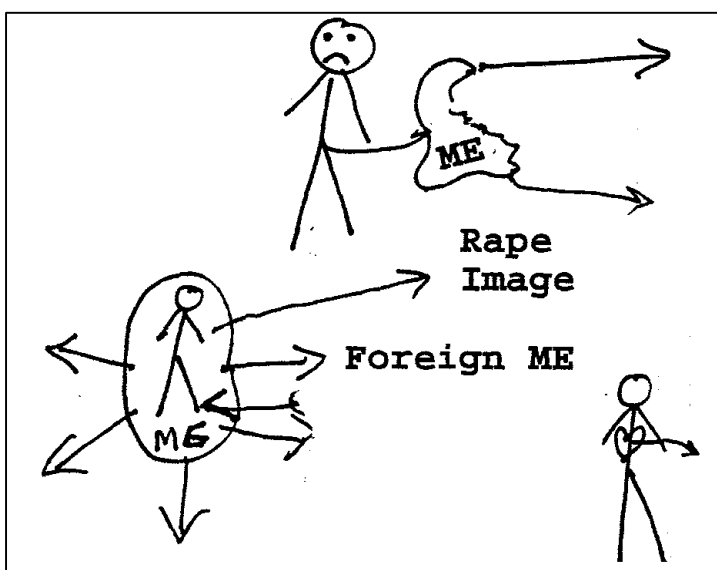

Example: "When and Where did the curse originate and by whom?"
New Zealand is the strongest pull direction at the depth of one year decay.

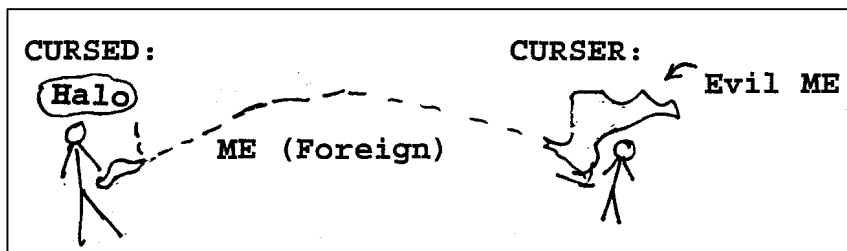

↑ **Brain Fire Filaments** to direction of a perceived whining sound felt on the cranial nerves as a shock wave.

Spine/Brain Fire Tisunals warn you of current events that can put you in danger, by sending a type of current into your cranial nerves, activating brain picture memories for comparison/evaluation purpose, and sending nerve impulses to cause a gut tightening and shallow breathing (phrenic nerve) activation. If these Tisunals become evil, they attack other people's nervous systems as demons of destruction. That is true of all Tisunals.

ME Control regulates one's sense of location in time and body. An obsessing person's ME fragments (fly out) and stick in a past event or future desired event. All past portions die, as the past folds inward (implosion) within two years. All future ME fragments form parts of **CURSES** that enter an innocent person and poison his ME till he thinks he IS the CURSER and thinks the same evil thoughts, feeling, emotions (unless he is aligned with his TRIANGLE as sense of self: which is an evolved person who does so).

A person of lesser evolution, who still has ME control rather than TRIANGLE control, can eject foreign ME matter through his breath while facing different directions and sending the foreign ME substance into the sun (or moon at night).

Past Event Imploding (2 years to decay)

Future Desired Event and Person

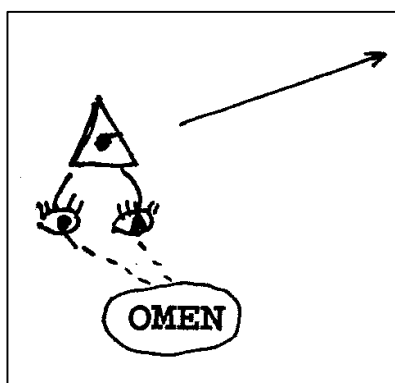

Resentment-based centripetal Foreign ME combined with future ME of another person (centrifugal) forms a gravity pull of destructive energy on the body/ME layer of the cursed person. **Death Frequencies** occur on body parts, producing illness.

To Remove the Cause:

Trace the ME Bit with your Halo Substance to the owner's nose and mouth (corpse tissue level)

And WITH YOUR LIFE SEED, WILL ALL EVIL IN THE ME OF CURSER TO BE DESTROYED!

Then he cannot curse anyone again.

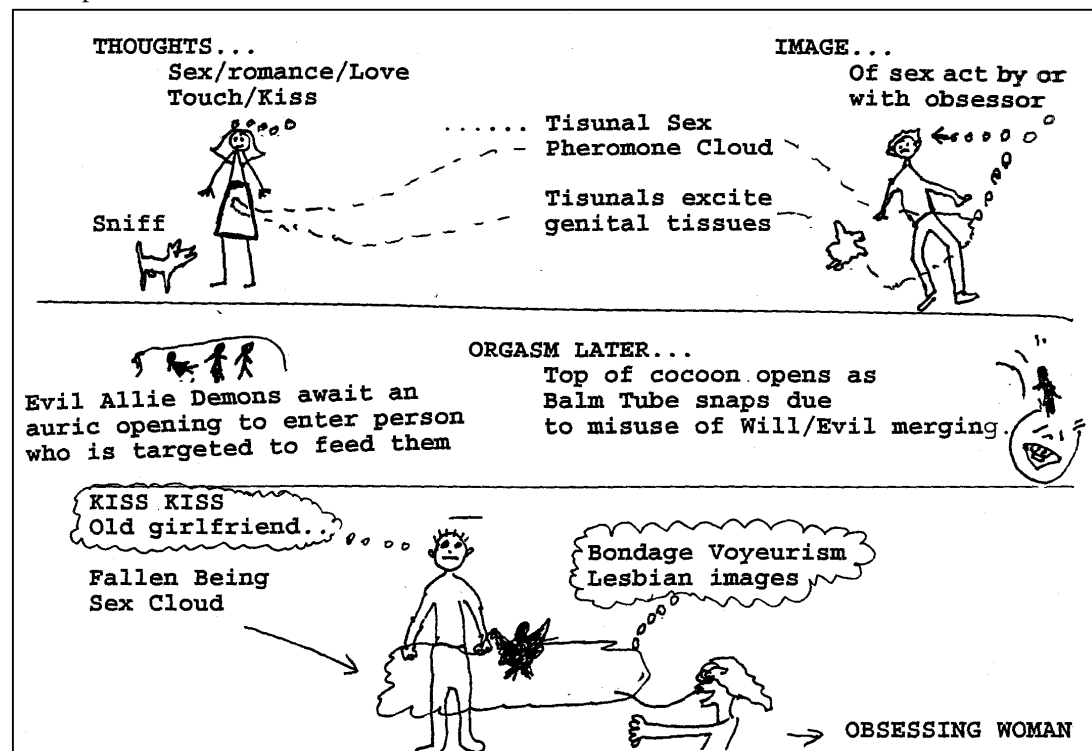

SIGNS: Signs are perceived by the hair follicles from anywhere on the body as a vacuum pull toward an object/person/event that your STAR Genital Tisunals want you to notice as metaphors for a coming event. In some cases, Holy Guardian Beings (high level type reserved for saints) manipulate deva forces and human impulses/thoughts to go somewhere/do something so as to structure a more **ELABORATE SIGN** rather than just draw attention to an already occurring event (which is an approximate, simple metaphor).

OMENS: An omen is a sign that has air, fire and water properties (or three signs in succession: one air, one fire, one water symbol), that:

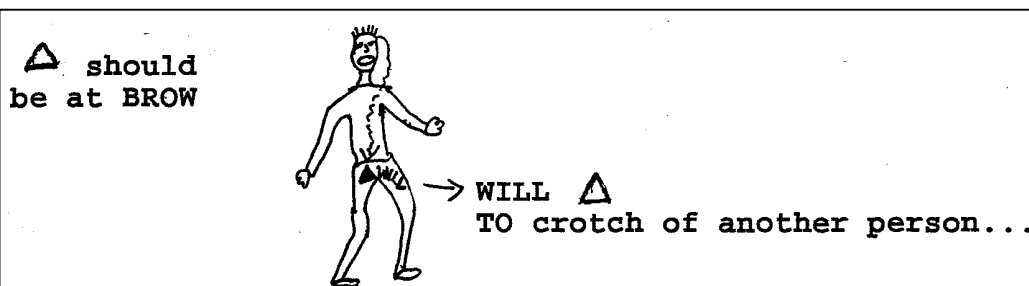

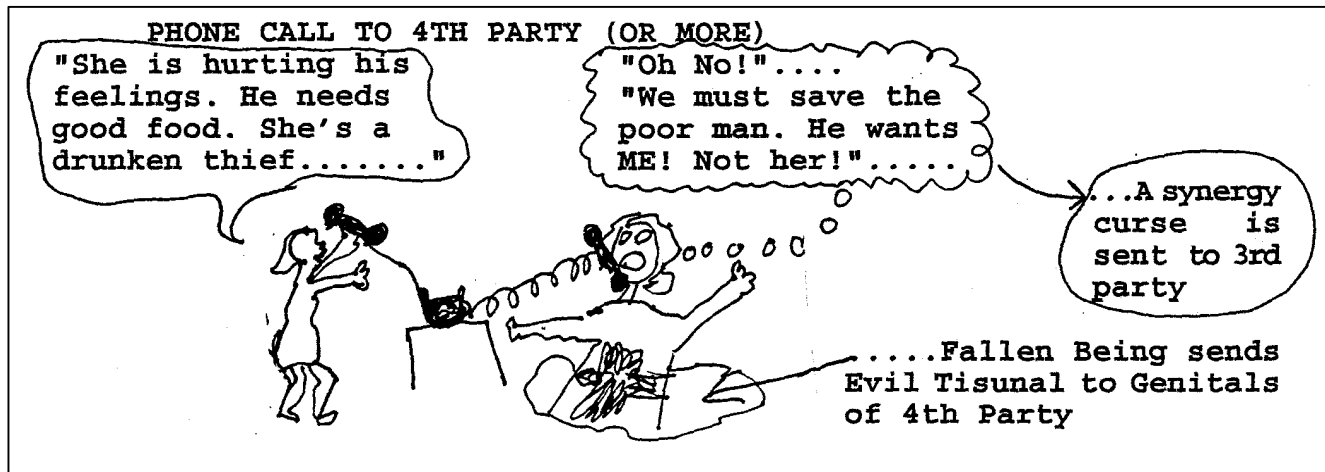

The **Triangle Aspect** reacts to (something) as significant. So it signals you by drawing your eyes and attention to the **Omen Components**.

SIGNALS: A signal is perceived as a strong musky sexual odor that emits from one's own crotch or breath or another person, or is in the room floating and foul. It is emitted by Genital STAR Tisunals in response to sexual thought forms/plans/visualizations.

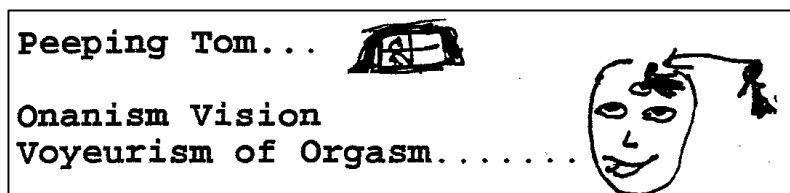

Dogs may sniff the crotch of a person with **Activated Tisunal Clouds** due to the person's own obsessive sexual thoughts or if they are possessed by another person's sex-crazed Tisunal. They reflect obsessive romantic/sexual/onanistic energies in the room when you smell it upon entering it.

Fallen Beings often possess Genital Tisunals and link the genital excitation with a memory of an old flame or holy person in fantasy (such as) doing a sex act with the same gender, self, animals, and eventually the fantasy is sado-masochistic with rape aspects; foul words/terms are heard, with the person being raped required to witness or perform sex acts and torture on a third party. The third party person is hated by the obsessor for PERCEIVABLY preventing "happiness": of the two other parties. This spills into other thoughts, perceptions that are unrelated to sex. Eventually the obsessor sees self as "savior" to the "victim" of the "evil third party", and begins to form elaborate lies to justify to self and others the need to eliminate the third party.

The Brow TRIANGLE Will Force drops to the groin if a person is trying to sexually stimulate another person in a room so as to feel powerful and thereby get a WILL RUSH (brain thrill) endorphin release, which occurs at the moment evil

allies produce a brain image of the other person doing a sex act. Allies do this when the ME pineal opens to their demon bodies, stimulating brain orgasm and cracking the identity sphere of the person who has the fantasy.

Normal sexual congestion is released out of the bottom of the auric cocoon quickly without need for fantasy, sex toys, or fetishes. The tension produces a need for release, NOT an image linking the thought of orgasm with Anti-Law/False God obsessions that indirectly provoke a False Pseudo Congestion of a wrong body part to open an abnormal auric door for demon entry.

(Example drawings not available)

EXAMPLE #1 Lesbian Image Fantasy

→(Hate) Anti-Law of Gender

→Magnetic Field Mouth cracks open for Demon Entry

EXAMPLE #2 Sex fantasy (towards) Priest or nun or child

→Hatred for hierarchy/Desire to defile innocents

→HEART cracks Intend substance and the Lehys Aperture ruptures on the Halo level

If people cannot achieve orgasm without fantasies or sex tools then that means their normal sexual generative tank has been devoured by demons and the only orgasm they can have occur through abnormal auric ruptures which allow further demons to enter. It means they have no true congestion. They have only demon congestion that cannot be released except through perversity.

Perversity and hate are linked with such a person's sexual response, as if in a Pavlovian reaction of addiction, because the person feels tension of demons within him crying out for hell doors to open to allow more demons inside when the lower generative tank is exhausted or orgasms are perceived as linked to the feet, hands, heart, throat, face, hair, skin and only secondarily to the genitals.

If a person does not feed the demons with opening the auric doors, then the demons will die because they require daily doses of Black Fuel from Chaos, Hades and Hells. If they are starved for up to two months then it is possible they will die and allow the normal sexual response to occur from the genitals. If they are not starved or if the person at the end of two months of abstaining returns to his fantasy, then destruction occurs rapidly to the person's body, mind and soul. He becomes a defiler and a destroyer and a liar in all cases.

Sometimes the obsession does not appear to be sexual but rather food, drugs, alcohol, romance, love of children, love of pets, love of money, love of power, love of friends, love of house, but in fact anyone with any obsession receives some type of demon orgasm related to an abnormal body part. Eventually the demon orgasm migrates to another body location until it eventually hits the genitals and devours that generative tank as well. In such a case the genital symptoms are secondary to the other obsession and occur later.

The commonality of all obsessions is hatred for Law and hierarchy and False God programs. These malefic values produce assumptions, beliefs, expectations and actions compatible with a "Create your own reality" world. If one obsession is removed, another will take its place unless the False God program and hatred for Law and Hierarchy and Truth are removed. This is done by an individual's decision with whatever Will and Intend ability he has left. If he has none left and is too evil to pray rightly then he must ask God to destroy him. God then can choose whether to make him as new and give him another chance, or decide to not do so because he is intractable by his own hatred for Truth.

If an innocent person is attacked and cursed by an intractable evil incarnate then he should pray that all evil be destroyed in the person who is attacking him. A person who has lost all his own power through obsessions must live as a vampire off the energies of others and thereby devours them in body, mind and soul. A vampired person can only be vampired if he fundamentally believes that there is no evil, thereby hating the law of polarity; or if he is an intercessor for people who believe there is no evil, or who choose to be evil themselves.

It is the responsibility of exorcists and intercessors to stop evil from spreading through vampirism and defilement of innocents. For that reason saints will always be targeted for destruction because they are the only ones who can block vampires from getting what they so desire: the blood of innocents.

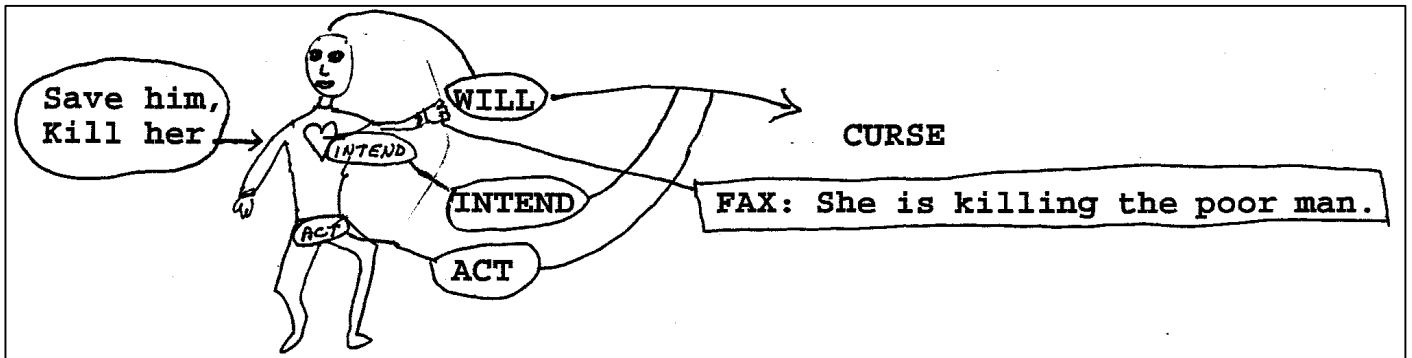

Vampires perceive exorcists as being vampires because they sense that exorcists are devouring their food source, which is true. The true food source for vampires on a higher-self level is Chaos fuel. Their lower-self fuel is prana type substances. The exorcist must block the Chaos Fuel because it encourages lies and murder, and also must block the prana fuel because it spreads lies and murder to others until a mob forms with a firm religious conviction that their purpose on earth is to physically destroy holy work and saints who they view as Anti-Christ.

Their god is the god of murderers and lying justification, slander, defilement, carnality and they pray to this god to deliver them from saints who merely want to bring about spiritual healing on the earth and have no desire to physically harm anyone or anything. **A saint's battlefield is in the spiritual** and yet, they often must shield themselves from physical harm by people who self-righteously claim they have a right to kill.

The evil ones forget the commandment "Thou shalt not kill" and think they know what the commandments mean. And yet, understanding of the commandments can only be found in a person who truly loves humanity and desires to serve without self-glory, greed, or hostility to anyone.

When a saint is attacked he should not pray that his attackers be forgiven, but rather that all evil be destroyed on the face of the earth in whatever way that God sees fit. He holds no grudge, so there is nothing to forgive, he merely tries to avoid the holiness within him being destroyed.

Many people have over time, fallen into the snares of the lying spirits that would tempt them to defilement fantasies and murder/hate thoughts. If you have been ensnared and so have allowed demons of destruction and carnality to take over your body, then you must pay for deliverance and correction of your error and decide to never hate, lie, desire death or defilement of anyone again. You must ask with all sincerity that all evil that has entered you due to your errors be destroyed.

Heart Intend Substances are sometimes misdirected to combine with **Brow Will Substance** and **Groin Action Substance**.

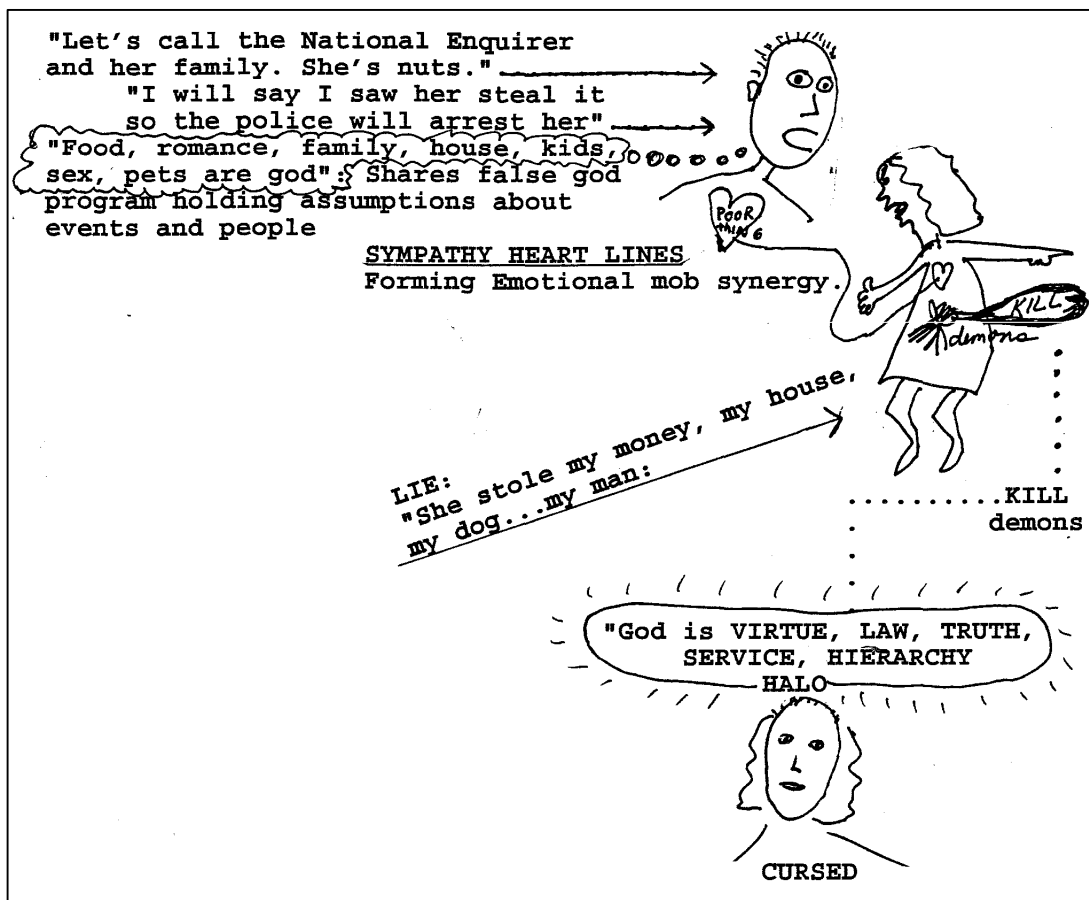

If a person has an assumption that is Anti-Lehys in nature (it shows hatred for Truth and Hierarchy as a fundamental problem; and "Wants to be own god". Such a person believes the lies of another truth-hater, and feels justified in slandering other innocent people to reinforce/justify their position "She is evil; we must destroy her in any method possible."

Eventually, the desire to destroy expands to include other people:

A MISSION IS FORMED

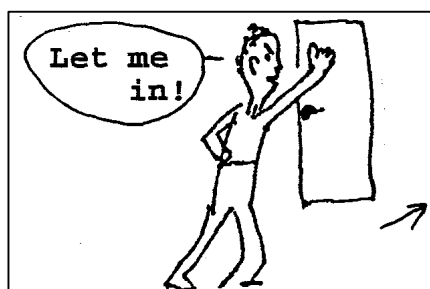

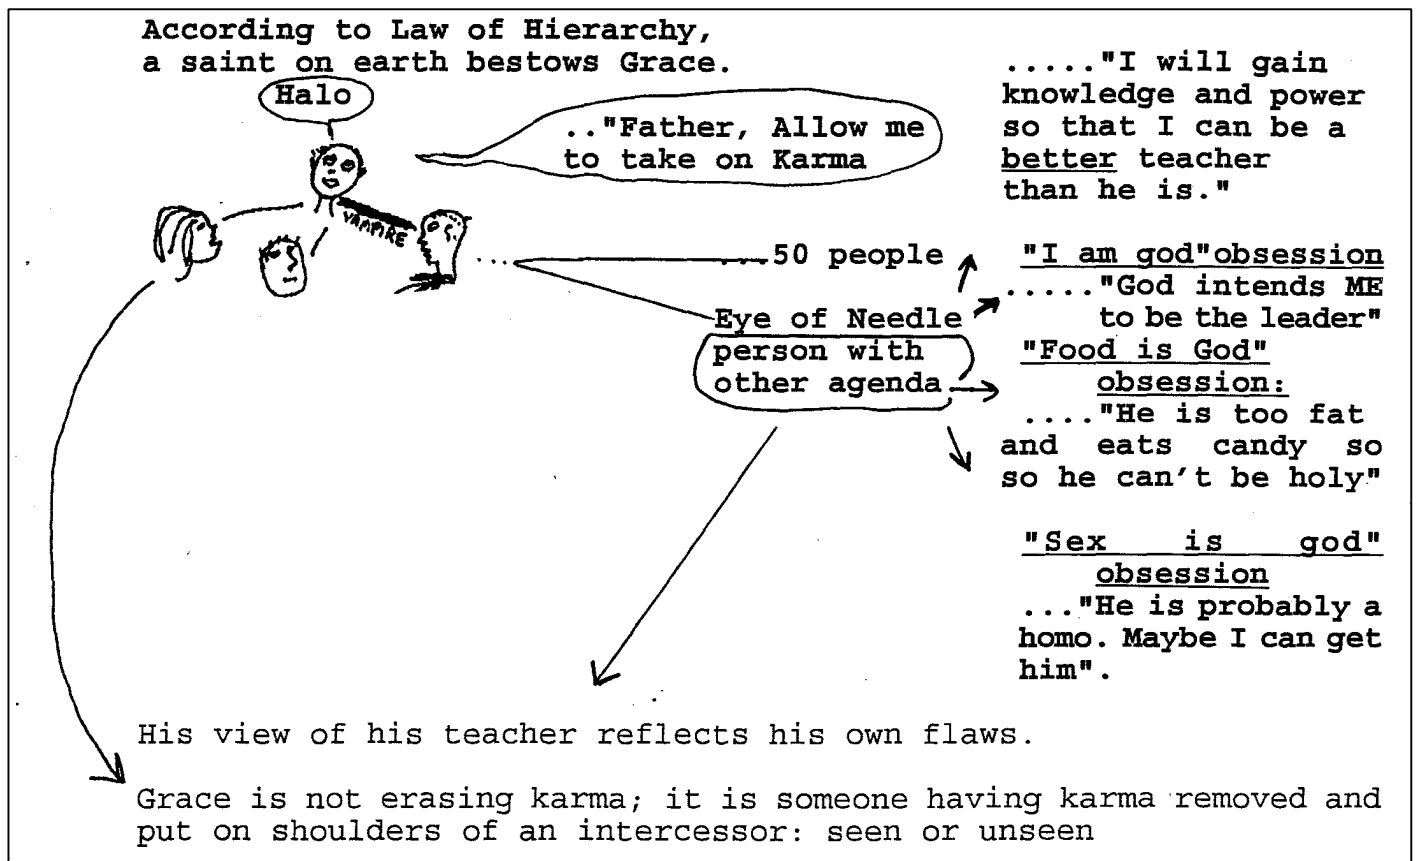

"If she is evil then her kids are evil."

"They are Anti-Christ; we must shoot them and make it look like a cult mass suicide."....

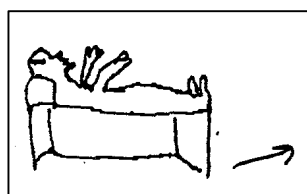

A person who curses others, who hates, lies, and blames other people for his unhappiness, soon loses all his auric energies. If he is blocked from vampiring others by being avoided in person or by phone, then he must have a sympathetic person in the presence of others who still have auric energies. Many people can vampire and pollute decent people through an **EYE OF THE NEEDLE**. One needle can feed a lot of people. The needle can pierce holy armor if he or she has been accepted as a person worthy of intercession by saints.

To intercede for another person is to take on a weaker person's karma.

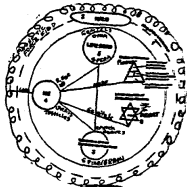

If the vampire lines are cut and the vampire loses his Grace, then his karma returns to him with interest. He feels weak and accuses others of draining him.

He is physically agitated yet weak and mentally unbalanced because he has used his own body-mind forces on curses, obsessions, lies, and hate. He says the teacher is killing him. He asks others to get revenge for him. They end up the same eventually, unless they repent.

CLASS NOTES: MARCH 28, 1995

Today is removing, *by focusing centripetally or centrifugally*, on plain orgasm seeds (not demon ones) with auric bits and programs of ideas related to various things. T2 has found old porno stuff from childhood influences on one person, causing belligerence.

Thoughts and plans are like a hologram attached to the (linked) orgasm seed. You could have a 10 year old orgasm seed from a cousin with thoughts of you being a nut which will be continuing to come in. It is hard for us to remove these, and the Holy Beings are doing it. T2 can adjust her spiritual lens and focus centripetally and centrifugally to (be an) anchor so the holy beings can remove these (ordinary orgasm seeds) from the past.

➤ If we don't clean up all the people with Orgasm seeds in them, they might turn on us again. For example (one elderly couple) may turn on us due to these, although they are very opposed to anyone being killed.

➤ The lesson on March 27 was faxed to the old students, and Nob was the first to receive it. The ethers then exploded. They took it as (a sign) that T2 was coming after them spiritually, and that is true. T2 can read signs and omens, and T2 said in the lesson "This is what I'm going to do", so T2 gave due warning.

➤ Nob called again today with a pseudo reason for her to come over to see T3 "Because he needs a good copy of the Grace chart". Fl is trying to get T3 into the nuthouse by working on his father.

➤ A few months ago T2 told people about removing Orgasm seeds, and the old students know this is true, and still they do not remove them, even though the seeds possess them (you).

Check List:

STOLEN SUBSTANCES:

Grace

Will/Intend/Act

HIGHER/LOWER

What makes the Grace Substance go out to others?

This is related to thinking you can see Truth any way that you want, selectively.

When T2 was out of the hospital (*from gangrene in the foot after the Vermont conference*), La methodically started to undermine T2 to Sn, Gar, etc. She made a plan to get rid of T2. It was a plan of defilement, gradual and progressive that was believable. She would take something essentially true i.e. 'T2 and Cel are going to a hotel', and add an innuendo one time, and add more the next.

The cleverness of speech, and the DECISION to get rid of T2 was, you could say, unconscious. She made a conscious decision though, and then filed it in her subconscious mind so she would not have to face what she was doing, (which was) that she wanted T2 to die or be gone, and if she didn't die, then she would do something else; she creates the plan and then forgets her intentions. Then she could truly say "I don't want to hurt her", as she has severed her intention from action, and her action is on auto pilot following the robotic program that she had formed.

➤ Nob, Mag, Se, Ji, Alp, No, Fn's lesbian girlfriend and La all are doing the same thing right now. **They are denying their intention.** At some point they made a decision that T2 was bothering them in some way; interfering with their happiness. They decided to start finding a way to disengage.

➤ You would think it would be easy for Mag, No and Alp to disengage, yet they went beyond that, and started talking to Ji etc. with the thought "I have a right to talk to anyone I want." In doing that, even though they were warned, they opened themselves to the most clever demons in the world. La eroded Sn a little at a time with long phone conversations.

➤ For Si: La often gave negative innuendos toward her family...which were evil destructive energies trying to destroy the relationship.

➤ Mag talked to Ji two days ago over an outside phone. Mag. called her in answer to a fax. She receives a fax to call at another number so as not to have it reflect on the Vermont phone bill.

➤ Cec was in T3's heart and Intend substance which would make T3 be filled with malefic intentions, and feeling (similar) emotions. 25% of (Cec's) intend substance was linking him, Fn had 6%, Ji 1%.

➤ For Gar it was: "I can talk to anyone I want." T2 said within the group not to talk those that want to destroy the work and Gar went to Nob at any time, thinking "No person will control me" but she was allowing Nob to control her.

Obsession with Security; financial/emotional: For example La (wanted) having a husband; Gar wanted a social network, a place to live and having T3 around her without T2's interference. Jg's thoughts were -"I'm going to have whoever I want, and NOBODY is going to get in my way"

➤ There is the thought of "No one will get in the way of MY having this relationship, this house, or this dog." and "I have a right to have anything I want" and they will do anything to get what they want. It seemed to spread from one person to another. Two people had it originally.

➤ Sn and BJ have it too. Sn is in regards to her house and BJ's thought is "T2 ruined La's life" which shows a need for security of sustained relationships with people who are known to be evil. (This reflects) **Refusing to change in the face of spiritual annihilation**, (which is) preferring people, things, and social (security) rather than holiness.

(Personal note): If (--) doesn't show up on time, fax B and ask him to call Nob's house, and say he is "trying to get hold of (--) about something, and what is going on? Why am I not able to get hold of him?" This is to find out why (--) didn't show up. If (he) doesn't say "Dear God what am I to do?", and *hear* with Lehys, instead of as a zombie (which is) willful and seeing with the physical eyeballs and not with spiritual matter, then all it would take is to run into someone in the yard like Du in order to suck (his spiritual substances). He doesn't want to know the truth of danger as he is addicted to a sense of emotional security. He doesn't want the necessity of change, and he is resisting change.

➤ For Sn it is her house, and for BJ it is thinking he can be a pretty nice guy to the world and yet "I have the right to not change," which means he is expecting T2 to intercede for him.

➤ Also with addictions to phone conversations, some people would get mental demon orgasms by talking about same information 20x, with euphoric expressions. Rationally they say "Why would all these people tell me that T2 is cruel to T3, that she runs off to hotel rooms, that she doesn't work, is lazy, and he works all the time, that he is suffering, and that she is driving him crazy--Why would they tell me that if it is not true?" "What does Gar or La have to gain by lying?" *Rationally* it made sense. It is just like "Why would people want to kill T2?" It sounds like a paranoid thing, but T2 saw Fn outside with a gun. Yet T3 may then say, "I don't see that", which is due to an assumption and a need to feel safe. Because of that, he won't see anything *spiritually* and he won't predict, because the Guardian angels will leave and then he won't hear anything. Even when he feels fear, he could deny the truth, even when something is right in front of him.

The most fearful people are the ones that deny there is anything to fear. Whereas T2 was scared seeing people on the butcher shop roof looking at the house, etc. T2 was scared, but she *acknowledged* it. If we don't admit what we are feeling, then how (are we able) to know the truth?

➤ All demon orgasms are preceded by hate. Even a mental DO like: "I can talk to whomever, and open the door, and I don't have to live in fear, with T2 telling me from what to do." But then the person tries to hook (in) with will substance. So then when answering the door, the demon connection goes with the rush of happiness in seeing the person (sic).

➤ If T2 warns someone about something, it is because it is based on something valid. T2 asked (one person) "Can you feel the hate in your body for T2?" -Yes.- "Why do you think that is? T2 hasn't done anything or said anything?" But, he was mad that T2 could see his degeneration, and that he knew he was degenerating, knew T2 had warned him; so he hated T2 for warning him.

➤ She is dowsing that (they think) the person on the porch told T2 about the hired killer; that "They heard from St that T2 thought someone was going to kill her."
