TO DO CHART

QUESTIONS:

- Which AURA has a disharmony that needs clearing?
- What CONDITION is this Aura in?
- Which PROBLEM caused the disharmony?
- Which TO DO or WAVEFORM is necessary to clear?
- Where on the SPINE does this disharmony correspond? (Clear with TO DO or WAVEFORMS)
- Which QUADRANT is it in now? OR
- What PERCENTAGE of the problem remains?→

NOTE: YOU CAN DOWSE ALL COMPONENTS OF THE PHYSICAL, ETHERIC AND SOUL BODIES WITH THESE QUESTIONS.

Check SOUL BLOCKS/LESSONS if you get stuck. PRAY...

FIRST: The SKEWER: Use by allowing your hand (without thought) to point to the answers. Practice makes perfect....

CHART 1) On the Top Left is a list of **AURIC LAYERS** which increase in frequency and complexity as they read from **L to R**.

For example the *Corpse, Crystal and Tissue* auras, make up three different auric levels that represent the flesh body.

Air, Water and Fire represent higher frequencies on the flesh body; *Desire, Etheric and Mold* represent auric levels of spirit;

And the rest refer to higher levels of beingness linked to the soul (explained in Workshop 2014)

Please Note: When dowsing over different words, the spirit automatically responds to the inherent patterns. This is because the words themselves reflect a certain frequency and complexity through the *shape* of the letters and the *sounds*.

CHART 2) The **PROBLEM CHART** in the middle at the top; *broadly* covers the reasons for most spiritual problems.

→For example, when an Auric boundary is damaged it may be due to disorder floating in the **Vicinity**. →We may have **Foreign** auric substances attached to our auras→Or we may have squirted some of our auric **Substances Out** to a person, place, thing or idea.

CHART 3) The **NUMERICAL SCALE** in the middle and below the Problem Chart helps in at least two ways:

You can dowse **QUANTITIES** for example: "How many Air substance lines do I have out to my pet dog?"

OR you can dowse **PERCENTAGES** such as: "For my Air Aura, what percentage of my substance (or problem) is remaining?"

CHART 4) The **CONDITION CHART** on the top right is like a doctor's triage for the auric layers. You could ask for example:

"Why have I lost <20%> of my Air Substance?" And you might get "**Death Frequencies**" which is often auric debris attached to your aura or "**Sucker Connections**" which may be substance links from a person draining your air.

CHART 5) For the **WAVEFORM CHART** in the middle of the page: *When a waveform is needed to clear an aura, Simply see the waveform in your mind and order an auric body to imitate the shape to dissolve the disorder.* **WAVEFORM PRACTICE:**

▶ "See" the "**Square**" Waveform--which is located at the top of the chart---on the coccyx---Looking "down."

(Which **DIRECTION** to "Look", is found in the center of the waveform chart.)

▶ "See" a "**Fire Three**" Waveform---On the top of the spine---Looking "Right"

▶ "See" a "**Fire One**" Waveform--On the nose---Looking to the "Front." **For a more complicated waveform** your sub-

conscious knows how to perform it. *We can trace the design with a finger or a pointer while resonating to the waveform. The waveform will dissolve only the dowsed disorder, not any other auric aspect, because that is what we have directed it to do.*

CHART 6) The **TO DO CHART**, is below the Waveform Chart and it offers several basic methods for aura clearing. Some are obvious, such as "Put into Candle Flame" and some need a little explaining, for example: "**Restore Single Identity**" *What that means is that we may have foreign substance on an aura which causes us to resonate with the person who sent it. The substance carries their "Name" or personal identity. We can ask "How many names on my (body part) and just clear the foreign substances.*

CHART 7) The **SPINE CHART** on the bottom right can be used as a meridian system for clearing if you don't have a body parts chart.

Body Part Charts found in textbooks are also helpful and either chart will narrow the dowsing focus as to frequency and complexity, to locate and remove disorder precisely and quickly. (**MORE Dowsing info. found in the Advanced Esoteric Dowsing Books I, II, III**)

QUADRANT CHART: This chart is something that we can use every day and every time we sit down to dowse.

Dowsing interferences exist in the vicinity, in auric layers, and in our Primary Consciousness- which can throw off dowsing accuracy.

This chart reveals the spiritual sources of our dowsing responses. In other words "Where are we getting our answers?"

Is my answer from a discarnate spirit in the vicinity?...Is my answer because I am resonating with my mother's desire aura?...

OR Is it because I am my own, single identity, within the NOW?

WHAT DOES EACH QUADRANT REPRESENT?

The Upper Right Hand Quadrant: Our Primary Consciousness is meant to reside within this Quadrant along the dotted line in ever increasing increments of power. The CENTER POINT reflects the absolute material realm and as we go out we reach higher levels of spirit. This quadrant represents alignment with the Logoic Impulse of the LIGHT UNIVERSE. (*Explained in WORKSHOP 2014*).

The Right Retro Quadrant. When our Primary Consciousness or "TRUE I" moves out of alignment with what is holy for our spiritual path in the NOW, we might dowse as being here. The Right Retro represents actions, thoughts and desires that are out of time and out of place--they are "retro" to our spiritual path. This is not a terrible place to be, but it retards our spiritual advancement because we are not learning anything.

The Inverse Quadrant represents alignment with the INVERSE UNIVERSE. This quadrant represents actions, thoughts and emotions which are perfectly opposite or inverse to our spiritual advancement. In spirit, we can see and dowse that these actions cause patterns that appear mirrored/inverse to the patterns within the Logoic Impulse in the Upper Right.

The Inverse Retro Quadrant represents an alignment with the Inverse Universe AND it is Retro. It not in the NOW which gives it a contracting, centripetal energy condensing to auric Bodies, *and* it is Inverse in spirit pattern. This is the most malignant place to be because it reflects an active decision to think, emoter and act in a way that is opposite to what we know to be appropriate. Example: Hitler's intention towards the Jews places his consciousness to the far corner of the IR Quadrant and we can dowse this.

WE CAN CHECK THE ACCURACY OF OUR OWN DOWSING BY THE FOLLOWING: Ask "*Where is the consciousness of Hitler?*" It should be towards the outside of Inverse Retro. We can also ask: "*Where is the consciousness of the Christ Jesus?*" It should be towards the outside the Upper Right Hand corner. If you have soft or confusing answers with these questions (*For example if the pendulum or skewer just wonders around, or goes nowhere*), this reveals dowsing interference/s in the vicinity, on auric layers or on your primary consciousness...all of which may be cleared before asking important questions.
