INTRODUCTION to VIRTUES, LAWS and POWERS (excerpt) by Anonymous

Introduction

Published 1995

ISBN 1-885-186-83-5

There are people on the Earth today who hunger for knowledge of the mysteries of life. They may have sought to satiate their thirst for Truth through paths of science, art, philosophy, psychology, religion, or social services. Many, at the close of a long career in such fields, hear the hounds of death at their heels while their spiritual bellies ache with emptiness. They go to their deaths longing for the unknown, trembling with angst.

It may seem preposterous for this book to presume to fill some of that void by bringing to the reader the fundamentals of the natural Laws of the soul. Indeed, few people have ever considered that the soul of man has a type of matter, not unlike his flesh, although existing in a different octave of being. Few people are aware that there are principles, similar to known physics principles, that control the dynamics of spiritual matter. Furthermore, such spiritual Laws have a watershed effect upon the physical body of man and the Earth.

Looking out upon the sea of disorder within the major cities, one cannot help wondering why violent crime is becoming increasingly prevalent, and what could bring it to a halt. During the sixties the cry of liberals was for more social services, as though money or food could be the panacea. Others cried for gun control, more prisons, or other material solutions. Despite all attempts at controlling societal disorder the ghettos swell with violence, and the traditional family structure is almost gone.

There are some idealists who look into the heart of this disorder as though it were full of signs of wonderful societal transformation for the better. And yet, teenage pregnancies, AIDS, infections, robberies, rapes, and murders all continue to increase in number. By what criteria are these idealists measuring their success?

If one looks back over recorded history, pockets of societal peace and order rise out of the pages with haunting similarities of belief systems. Within each religion can be found keys that lead to the inner teachings of the fundamental Laws of the soul and of life itself. The fighting between religions has been due to clinging to differences rather than searching for similarities. The obvious similarities are merely echoes of the underlying mysteries which have traditionally been reserved for an inner circle of the spiritual elite.

The knowledge of the inner mysteries of life, held within the core of each religion, was withheld from the masses because of the danger of sorcery if the principles were applied without integrity. Any power that can transform a man's soul can also destroy his body if directed with malefic intent. It was safer to allow the alchemical mysteries, which were the core of each religion, to be watered down in a harmless fashion, in a way that could possibly change man's behavior through fear or promise of heaven. It was assumed by the spiritual forefathers that a man who lived decently might learn to think decently. If a man thought in a decent manner, then, later he might be able to control the spiritual forces with integrity and not run amok with unbridled passion.

For this reason, most religions focused upon behavioral instructions, rather than the reasons that certain behaviors could block the path to spiritual power. People have, by and large, decided that the behavioral instructions are no longer valid and so have developed many blocks to the higher teachings.

It is now time to reveal the inner teachings, in hope that humans can understand the reasons for behavioral sanctions and thought control.

The Laws are immutable. Man cannot break these Laws, but can break himself against these Laws. This is happening today on a massive scale. A man can tell himself all day long that fire is not hot, and yet burn himself, should he put his hand in a flame. Just as there are lower laws of the visible component of fire, there are higher Laws of the unseen components of fire. Many a man has thrust his own unseen components into fire and burned away part of himself.

It is possible to heal oneself through the application of higher Laws. If humans can bring healing order to their own lives, then they can begin to bring order to their families and to their own culture. If they do that, they can start to bring order to the world.

Healing the world must start with healing the self. This book holds the ancient mysteries through which personal transformation is made possible, if the applicant is sincere and willing to change. The dilettante will benefit little, except through some intellectual titillation. This book was written not for dinner table discussion, but at great price, and with great courage, by a traveler within such mysteries, in hope of helping humanity out of chaos. Since it merely recites the principles of the mysteries, it shall be considered anonymously and gnostically written, for man cannot hope or presume to create the Laws and Virtues. This is not a "channeled" book, but a book reflecting the experience of the traveler through many realms as real as the one before your face.

If you also dare to be a traveler into unseen realms, this book will guide you safely.

Japanese running Peru UPDATES

December 2, 1997 Montreal

Fax: to (dad) to send on to my children and sister (I will try to send to my attorneys). Call forward to (v1).

I am settled into a new home but would prefer you not to give out the address so I will not send it. I am able to use a nearby fax/phone-dial 1-514---- which (d) rented but is vacant since she returned to her Maine home. I am doing well and getting stronger every day. I plan to keep up my art and writing.

I miss my children beyond words. I entreat (v2) to have mercy, I have never hurt (child) and she with (e) tore my heart out. (Another child) was old enough to pick (---) as his mother, but my baby (child) loved his mother and they hurt him so with slander and I fear for his safety.

I will go on fighting for the civil rights of others which have been denied me, but my grief is never ending.

I have never been a criminal. I have always assumed people would not use a child for financial gain. I was wrong. *Author*

2nd fax To: (dad): The Japanese who runs Peru sent his nephew Hiroatsu Fujiwara (spelling is off) to my classes in Guthrie and (a) and his friends (aa1)/(aa2) (her husband) worked as NASA propaganda specialists for UFO's with (o) and a Ruskie "Vladimir", a film producer.

(r) was in Guthrie as an IRA/KGB microbe planter working with Japanese through Kushi foundation. She also planted Waco, according to (a) (Author)

December 4, 1997 est. Book Covers TO: Mr. (attorneys)

Here are covers of some of the prints of books I wrote. The books Learning the Secret Language, Return of the Prodigal Son, and Lessons of the Logos (other title Mystery of the Logos Angstroms and Species of People), were all written in 1990.

The map with symbols was in the 1990 "Logos" book and later was to include another wheel map that lined up as a dimensional door---just as the later movie Stargate used (two wheels lined up with ancient symbols). I am sure they took my idea for the movie. Can we get any compensation? (Author)

Adult and Child Brain Matter used to create Computer Robot Humanoid NEWS Montreal

December 4, 1997 NEWS

To the British and Belize authorities: (Belmopan)

When I visited Belize I was stunned on the bus to Belmopan (from my cabana on Caye Caulker) and as a result was completely confused and blinded. Upon exiting the bus I was led to a truck by a local resident and woman to be taken to a "hotel" which was a concrete prison of a house about ½ kilometers from the station. The man locked me in the house and left. I did manage to call (d) in Oklahoma City, so that call can trace the residence. I tried to escape once and was dragged back by a female agent in a white blouse (German) and the man. Satellite tests of the International Space Studies University programs were conducted on me that night, torturing me beyond description. Pretending to be in a coma, while my re-appearing captors entered at daylight was fortunate, because they left my bedroom unlocked as they went for coffee. I escaped out an unfinished door into weeds and ran to the bus station and returned to Caulker.

The "International Space Studies: university programs are covers for world domination by Japanese/Chinese/Russia/Middle Eastern power companies that have control of NASA and Clinton. I beg Belize and England to review my appeal for sanctuary with Canada, because the safety of *all* non-Asians is at stake, for the weapons are genotype specific. (The author)

NEWS article (typed/unable to scan) with this handwritten note: *Some words missing (---)*

Adult and child brain matter is used to make a computer robot humanoid. COMMENT: Neurophysicists at the California Institute of Technology have succeeded in isolating embryonic brain cells and inserting them into an invention, the neurochip, designed to reveal the way they process and store information. The neurochip displays the connections that cells make between on another, allowing them to "talk". To make a neurochip, researchers removed cells from the brains of unborn rats and inserted them into wells that contained short tunnels (-----) leading to the surface of the chip. On---- well and fed nutrients, each cell pre-----axons and dendrites from nearby cell----.

December 4, 1997 “The Ultimate Evil” shows the Scientology link to Charles Manson and Son of Sam murders.

NASA and the University Space Studies Programs use computer based Scientology mind-control methods. Squeaky Fromme tried to kill Gerald Ford. Was this a NASA order? People in communes were used in the experiments of mind control that encouraged a group to obey a boss because the programs were Communist Chinese rooted for the destruction of individual freedom. **Computer-brain satellite links** were obviously the method used in Waco, Heaven’s Gate, Charles Manson’s groups and Guthrie, Oklahoma. The ‘crazy eyes’ that some people have are based upon the ripping apart of spiritual matter from the body of the target producing a look of absolute terror (this can be shown if inspected closely in Heaven’s Gate people, Manson and others). The eyes as “windows of the soul and spirit” reflect trauma faster than any part of the body with the morphogenic field linked experiments when scientists torture the soul, spirit or Guardian Angel matter apart from the flesh body. In some cases the soul, spirit or angel matter is put in a vial and beamed onto Mars, the Moon, Space stations or directed into the body of someone who is psychotic. This has produced tragedies such as the rage of McVeigh and Manson’s insanity. The attempt to control Lynette Fromme so as to make her an assassin without pay or awareness was done by putting her spirit and soul substance on the body of a communist mind-controller in the International Space Studies Program.

Koresh’s soul matter was put on (a) and strangers in Guthrie asked if (a) was Koresh when they looked at him. Also, the people in Waco had distended bellies and facial pallor like the residents of Guthrie. The residents of Guthrie Monastery were mostly sent away for their protection but they had a satellite computer obsession to return and kill certain people. (d) and I were *hunted* for years by weapons-carrying former residents who were installed with a mind control program to kill me because I was purportedly the mother of the Antichrist. NASA scientist (o) sent letters along with films (made with the assistance of “h”) internationally pleading for help to assassinate me and my sons.

The purpose of having me hide in fear from gun-toting assassins was to use me for another aspect of the experiment. The examples in Canada included a whole pack of teenagers who tortured and killed a 14 year old girl recently and before that, five students from the same school killed themselves within one week.

The use of puberty age adolescents for mind control experiments is common because they are linked with the pharmacological research of sexual stimulation substances for older people. It was found that the soul and spirit matter of teenagers could be used in products to increase sexual performance. The sex researchers have combined with computer psychologists and pharmacological firms to produce sexual dysfunction so as to provide treatments. When the soul and spirit matter is removed from sensitive individuals of any age, one eye or both may appear insane and suicide or murderous rage may result.

The usual method for preventing problems for researchers is to stage suicides of the victims or order them to murder each other (Heaven’s Gate/suicides and “g’s”/murder). When the soul and spirit are gone people are open to mind control because they lose their will to live unless it is supplied by a euphoria computer program that is often linked to drugs like Prozac which have a Scalar receptivity for passive acceptance of overthrow of the individual and the Government.

Also: Decompression chambers from World War II or superconductivity magnetic force field alternator portable machines are used to drain humans (against their will and often against their knowledge) of their spirit, soul and regenerative mind substance.

The mind substance is harvested for a new type of computer. Universities with telescopes and the Space Studies programs are prime locations for harvesting of substance by the “researchers” who sell the substances to pharmacological and computer bio-med firms. The use of placentas, dental/teeth, circumcision skin, tonsils, etc. is wide spread for the **morphogenic field research**. The hospitals sell to the laboratories which also use it for cloning research.

December 4, 1997 E. Ellsworth, Maine Report by (d)

A report on physical effects of illegal NASA experimentation:

Last night around two o'clock I woke up from a coma-like sleep that had lasted around two hours. The steam radiator had been turned off.

Early morning physical symptoms included aching muscles, swollen feet and legs, pallid skin and a chemical taste in the mouth with intestinal cramping.

Morning spent with (f): symptoms included dizziness and confusion with high pitch "screaming" sound in the background. I noticed after an hour that I began to stutter due to my mouth muscles cramping. I was unable to move or open my mouth normally. The dogs, if left unattended would run to different locations outside as if they were being called. I felt a generalized feeling of panic and agitation in the house which caused me to leave (f) on short notice. *Once I was driving in the car, I immediately began to feel better.* I called her to suggest she take (her child) for a walk because her house had extremely uncomfortable force fields.

Early evening, I have great pain in my eyes and they are swollen. My feet and legs are still swollen. I have a feeling of lethargy and my eyes are unable to focus on this computer screen, so my eyesight is affected. (d)

(f) comments:

To (The author): I assumed the confusion/eye strain I was (have been) feeling were from a blow I received to my head last week (I swam into the wall where swimming with kids at an indoor pool). I would say the entire family has been very agitated. I have pain in my lower right side sometimes chest pain. (Husband) has mentioned his chest pain, also. (f)

Nazi/Japanese Prisoner of War Experiments UPDATE Montreal

December 5, 1997 Montreal UPDATE

(d) went to meet with film maker Wes Craven last night to give him some of the information about the sadistic NASA experiments that have taken so many lives and undoubtedly will take ours first by disfigurement, as they do a lot of non-Asian movie stars for the Asian movie mafia "hits". They have had the machines on me to wither my face, cause eye hemorrhages and have laser broken my nose again and tried to rupture my belly again. (d) has similar symptoms.

Since these are based on Nazi/Japanese prisoner of war experiments, can we seek help from international war crimes people? These same hit people, control judges, juries and hospitals by the mind-hack, body disfigurement machinery, smuggled in as "medical" supplies.

I am at this phone, but they usually block it: 514-341-4729 (The author)

December 6, 1997 Assaults through wiring, Tesla “Forks”, Surgeries, Other Montreal NEWS

When the wiring is being used as a route for assault, the ground or alternate pole lines in sockets are direct current which can blow out computers. My hair dryer when plugged in became a pulsing siren but didn't blow air—just made noise like loud radio static with blue fire.

The “researchers” have stolen all my new bras and underwear after worn to use skin cells for morphogenic field reverse pattern *assault*. Remember the Berkeley scientists recording the “sounds of atoms” article? They take facial tissues, make-up etc. for sounds of etheric atomic genetic make-up of individuals and then blast a reversal sound for a death force. That is why they (in Cheyenne) put a needle in my heart, brain, eyes and opened me up—for samples to update their morphogenic cell file.

The Tesla “forks” on hills or the university telescopes can direct beams *specific* to kill an *individual* or tribe genotype which first produces aging, like *wrinkles*, and dry skin because the wires emit (with pipes used as well) magnetic pole reversal, color reversal and the computer dialed deadly scalar atomic frequency. I first saw the WWII era multi-wave oscillators and scalar frequency devices at a Nazi (teacher's) house in Colorado, which emitted an alarm when it hit on a death frequency of illness when my hands were placed on copper panels attached to the machine.

The new assassinations are done by locating a weak spot by surgery or trauma or illness in human bodies by the body samples collected put on the computerized analyzer and then the house wiring and pipes are set on the death pattern of **atomic reversal**. Last night I lost twenty pounds of fluid through my skin because they had my recent cell samples. (They cut off my radiator heat all night again.)

Wash clothing before leaving house and do not leave tampons or hair or tissues in trash. Tell (everyone). You can alter your frequency and pattern with difficulty.

They also mix cells of other people with subjects who are without any ether/etheric forcefield, especially the dying HIV Asians, to experiment with healing, and to give them energy. That is why the Heaven's Gate all looked like young Asian men—they had an Asian controller mixed in. (g) grew a beard and got fat when linked with a breast cancer fat cripple on male hormones to slow the cancer. We saw the cripple in the park here with a pink shirt in wheelchair.

(hh2) got huge because they cloned her cells with a manatee or whale. Tribes that are dying do not react to the splicing in such a way (Asian groups) so stay thin. (The author)

December 7, 1997 Montreal UPDATE They are keeping my radiator heat off because the water splitting (atomic breakdown) causes pressure in pipes and can cause explosions. They have a constant **anti-solar radioactive beam** bounced off satellite on my apartment to test my energy field resistance. I end up with deionized burned hair, dehydrated skin, headache, lethargy, inability to digest food well, and mental pain from the beamed images/commands, etc. from the insane Japanese/Chinese/Middle Easterners who are in charge of the bio-med experiments now linked to the power company and NASA.

There are investigators desiring to stop the assault who watch after me when I go out, but since the beams stop gasoline combustion and neutralize the battery, I cannot drive for now, but use the subway. I have to go outside to try to pull myself back to health and to obtain water that is not altered by the tap attachment (recall the Nexus NSA article on this). I am going out soon, but warn you to not just sit or go to bed in such a forcefield or you may not wake up.

It is important to realize **cable lines are used for the subliminal commands** and to do eye links to computer mind-hackers on the research subjects. The cells they used to make the neuro-chip new computers must be connected morphogenically to a living person who can regenerate or pull in raw etheric matter which is communicative substance known in religions as Akasha record substance or Book of Life substance.

The creative sexual forces are used as well, so young people are targeted as classrooms or dorms are magnetically sealed and a de-ionizing occurs to loosen body fluids which are collected in an opposite magnetic collector device. Many suicides and murders are occurring now because they combine several kids' brain matter for the neuro-chip computers and it drives the most sensitive to a desire to kill those linked because it is a violation of their psyche to be linked.

Also, homosexuals and lesbians and wheelchair bound hostile quadriplegics are allowed to neuro-chip virtual reality link to the healthy college kids so as to experience orgasm vicariously, and by having the morphogenic link they tend to mutate the bodies of the victims to the computer controller's distorted form or to the HIV dementia while losing secondary sexual characteristics due to the radioactive forcefield with magnetic alteration.

Measuring testicular and ovarian mass for loss and recognizing that weight gain or loss that is unrelated to food intake is a sign, as is breast shrinkage in women and fatty breast tumors in males.

The collection of infant soul/spirit/ether substances lowers their chance of survival and mutates their bodies because hormone usage is altered. Please warn (family, friends) and send to dowsers, churches, etc. (The author)

December 7, 1997 Tips for surviving the bio-med body farmers: Montreal NEWS

Remember that the bio-med techniques include putting sick people's substance into well people either morphogenetically with **combined blood or genetic splicing** or ether/mind/generative gases being ejected into a magnetically sealed bedroom which can be put in hyperbaric force to draw into your body, usually with a carrier acid which is bitter and makes your hair and skin gummy. Keeping men and women apart by social isolation is a component because they usually do the decompression of the victims to draw out healthy gases first which includes sexual vitality forces sold to impotent and frigid men and women, which increases personality magnetism and physical beauty (Asians inject white women's substances so as to appear more Occidental and to fight the Asian HIV). For example, the women in the Waco community were required to sleep in a dormitory together even if married to facilitate substance removal and also because the pornography addicts wanted to encourage lesbian activity and film it for Internet sales. The creation of lesbians from early childhood is part of their research and is why the majority of sexual therapists today are bisexual lesbians who encourage masturbation of infants. Pedophilia reduces a child's ability to hold onto body substance and allows a mind-hacker to create a mental robot easily who will enact lesbian scenes/sex acts on video for the pedophile market.

People who have lost their finer substances such as soul and spirit have dull eyes and lowered intellect, and appear animalistic, particularly those that were in genetic groups that successfully cloned into animals in the bio-med farms. People without soul or spirit have an animal core but not a human core. People who lose their sexual vitality core have only a plant core and appear jaundiced. Even in old age, people should not lose their sexual vitality core unless they waste their vitality masturbating with pornography, which shorts out the chi circuit. The **bio-med farmers** torture victims to collect the cores of beingness which are used to create medicines, cosmetics, lamps and in some cases are injected in a similar genetic subject, but may die. The guardian angel cores are the most coveted because they supply unusual types of intelligence or aspects of beauty not found in the lower cores. Each core however is a type of angel that looks like iridescent balls of various colors about the size of a pea.

You can expel foreign substance by walking in different directions and willing it into fire, water, plants or dead meat. Draw your own substance back by standing in different directions and willing it to return.

You cannot survive the body farmer's assault if you fail to accept the truth that all these cores are *matter* that is seen through special sunglasses and radioactive contrast films. Then, get a pressure gauge, a thermometer and a compass to monitor your bedroom. Remove ceiling fixtures and cut off electricity to the bedroom. Drink carbonated water and beer during assaults because it will help you retain substance. Sores on the tongue may indicate an acid burn which may include a microbial attack.

Document your findings. Shower twice a day if your hair is gummy. Pray to God for strength to fight for all the babies world-wide that are being stripped of soul, spirit, intellect and guardian angels by the bio-med vampires. (Author)

December 7, 1997

I went to a terrible movie "Space Warriors" or something like that and returned home to no radiators again, but I have the space electric heater. I went to get a beer and was followed out of the building by a spy who gave me a slip of paper "Dhillon 739-9287" but was not saying that was his name, so I guess it was a spy thing like Rapunzel in Switzerland.

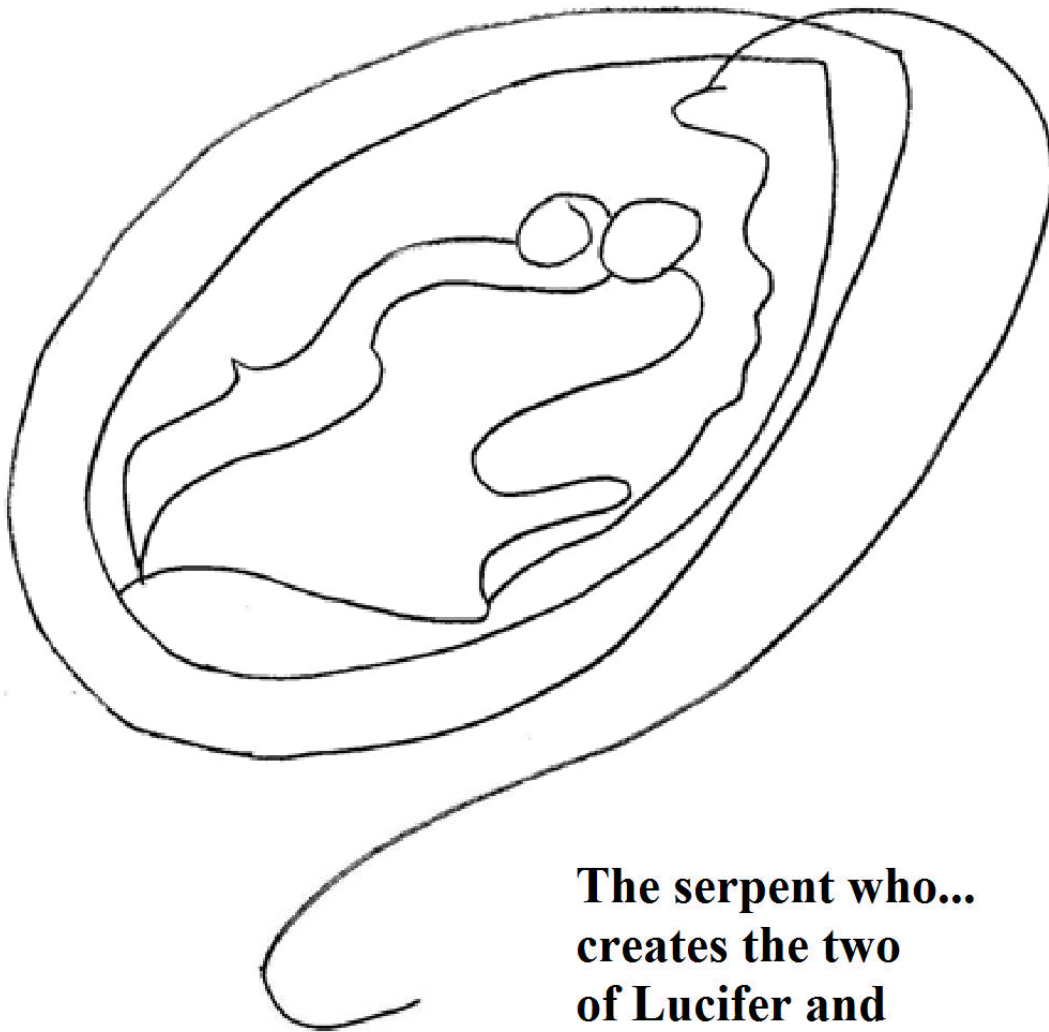

The apartment had a caustic odor and was a cyanide feeling because the radiation splits oxygen molecules and so is leaving a non-usable air that causes depressed respiration, thirst, but water does not quench it, and headache.

Tell (f) to leave a window open, but if a magnetic box is satellite directed, she will have to sleep in a room or basement without the sense of "non-time" drowsiness or stick head out of window to break the "box".

I will call you back right now, but I wanted this in writing. Send to (bb), (f).

December 9, 1997 Cores of Beingness (Part One) NEWS

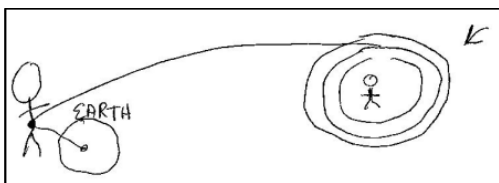

Cores of beingness exist on an earthy location out from center of the earth up to as far as a location on the cosmic egg surrounding the universe we live in. The refinement of the human depends upon the distance out from center of earth location that is *normal* for the individual and usually is linked to a genetic group awareness (group of cores) that have echo components on the human energy field. The ability to perceive higher concepts of thought as fluid or air type intelligence that is *not* binary but has geometric components as only one face, depends upon the echo component being intact---normally. If the echo component is damaged or stripped off by body farmers then the mega/outer link to form may be lost, causing despair in sensitive persons who feel cut off from God's communication to form. Degeneration of a group and/or individuals causes cores to sink in to implosion. Radioactive assault causes cores to move inward for protection which torques the individual from the echo communication. The **NASA use of "invisible astronauts"** (putting energy fields of spirit/soul/generative cores) on satellites, Moon, planets has ruptured the outer ring of Akasha with the anguish of evolved people praying for continued links to God while robbed of their echo links.

The outer links have moved in position (in some persons) to allow the two points of power link to outer planetary guardian/Holy hierarchy to continue in spite of the research subjects being decompressed so as to steal their cores for the space research and pharmacology/bio-med use of them to treat dying or genetically inferior persons of birth defects by injections or hyperbaric body gas injection. The outer cores pulled to the body of a person with a shielded echo core pulled inside form could be considered angels of planetary protection, communication and of vengeance if the form of the owner's flesh is injured or killed. All of civilization's finest minds have had communication abilities or talents are from this level of evolution---which cannot be tolerated by the wealthy vampires without the avenging angels grabbing the cores back to the flesh form of the owner. If the owner is murdered or injured beyond recovery, the nation or the group behind the murder (such as the ones who killed the prophets and Christ) suffer mass death karma and removal of the tribe eventually.

The ignorance of the power and space industries is worsening because so few minds on earth think beyond animal level, and the souls/spirit higher reasoning ability mental substances are being removed from infants for creation of the anti-Christ, the **robot computer group mind** that links all humans into an internet that punishes, rewards and controls all thought and action. The Beast is the lower class of workers and killers that are the broken second generation soul-less automatons from Asia and Eastern Europe that are designer grown to work as body farmers, sex slaves, spies or soldiers without independent thought. Cannibalism is part of their system (as is widely done in the East) as a natural outgrowth of the horror of the body farms where select blond European types are given colostomies, naso-gastric feeding, their arms and legs are cut off, and bodies used to create insulin, growth hormones, sexual stimulants, cosmetics, babies for sex slave, etc. and eventually sale of body parts, kidneys, etc. Please send to churches, ACLU, news, schools (The author)

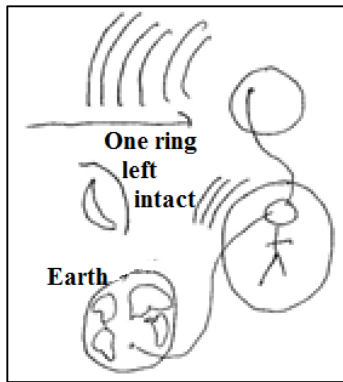

Part Two: (Some text may be missing):

Injecting plasma, semen, ovarian substance from 14 year olds gives the phantoms a rush and a sense of being holy and horny.

←One layer at birth (equals) a vulgar, animalistic, humanoid carnivorous thief and murderer for profit (many college students and pot-heads fit this description). They are linked *only* from the umbilicus to the parents, lovers, the vampired (emotionally and physically) superior species, or to core of Earth: a Hades linked mineral man type of humanoid. At death they compost like a petroleum product but nothing more. They have no desire to see truth

or to speak *universal* truth (however paradoxical) because to such sub-humans only greed and physical rushes offer a reason for living. They are stupid yet pass binary tests.

←Rings of Akasha

Sun spots cause decreased brain harmony in evolved individuals in specific lobes

12 Rings = human. Fewer in debility due to emotion, injury or parental neglect with resulting malnutrition causing etheric weakness to bone, skin, etc., or due to environmental disorder (radiation/scalars, presence of foul social companions in flesh or out).

Earth erosions of core to Sun components decrease resistance to stress in humans of higher type. **←Earth has body link locations.**

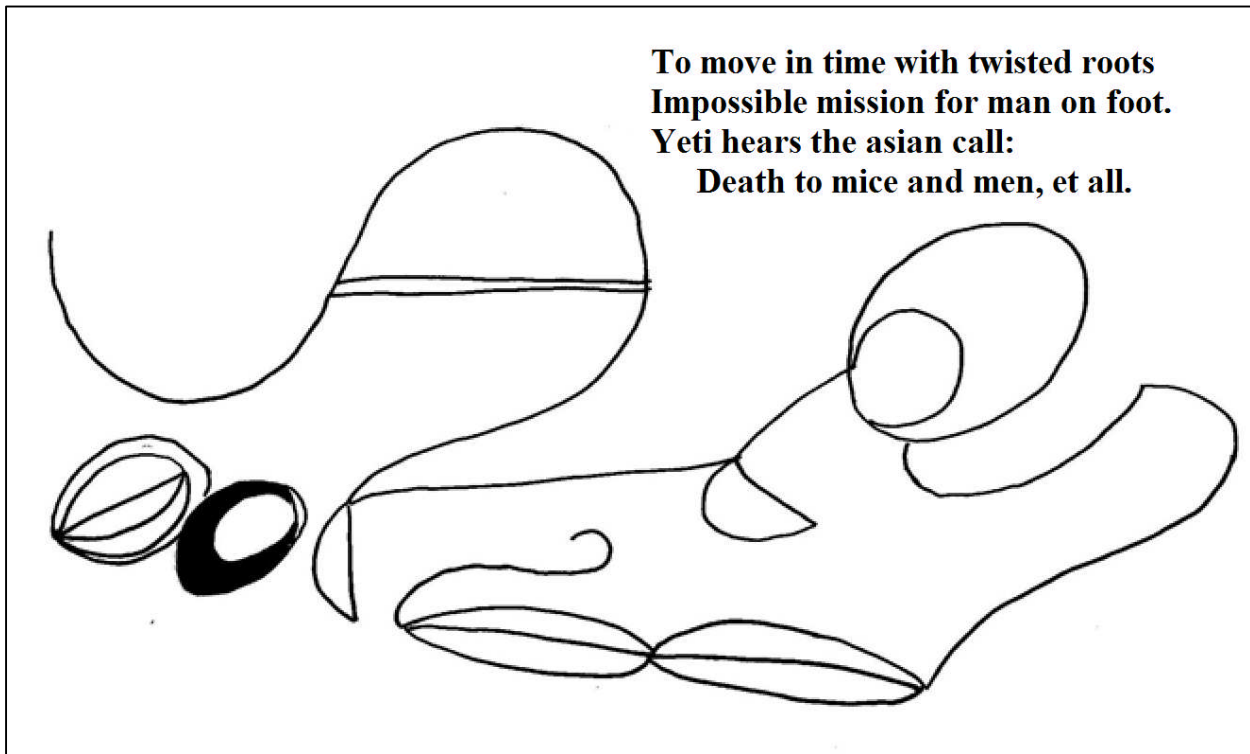

Faster response to stress specific (fine) or general (gross) reflects (normally) a superior type. Autism results in neo-natal or uterine shock of CNS or PNS and spirit splitting. The

phantoms may appear with the mask of their victims' purity and youth, but the victims must be the **12-Octave Sun type** for the phantoms to achieve a rush. For that reason, just as in ancient pagan civilizations, virgins and saints are targeted for sacrifice to the foul beings, to devour in the form of pharmaceutical products, cosmetics and so-called "RNA animal injections", or sexual stimulant injections. The attempts at California Tech to discover a binary sound pattern of angels and complex human substances of evolved persons so as to treat the Karma ridden AIDS patients, hemophiliacs, mongoloids and others that should be allowed to naturally die out from the genetic pool has resulted in idiots infecting the unfortunate science/NASA pool, which is at this time its *own* lunacy cyber-brain bereft of a leader, just as the un-Justice Department and (Lack Of) Checks and Balances idiot Congress, the news services and (Limp) Court with President Clinton and Bill.

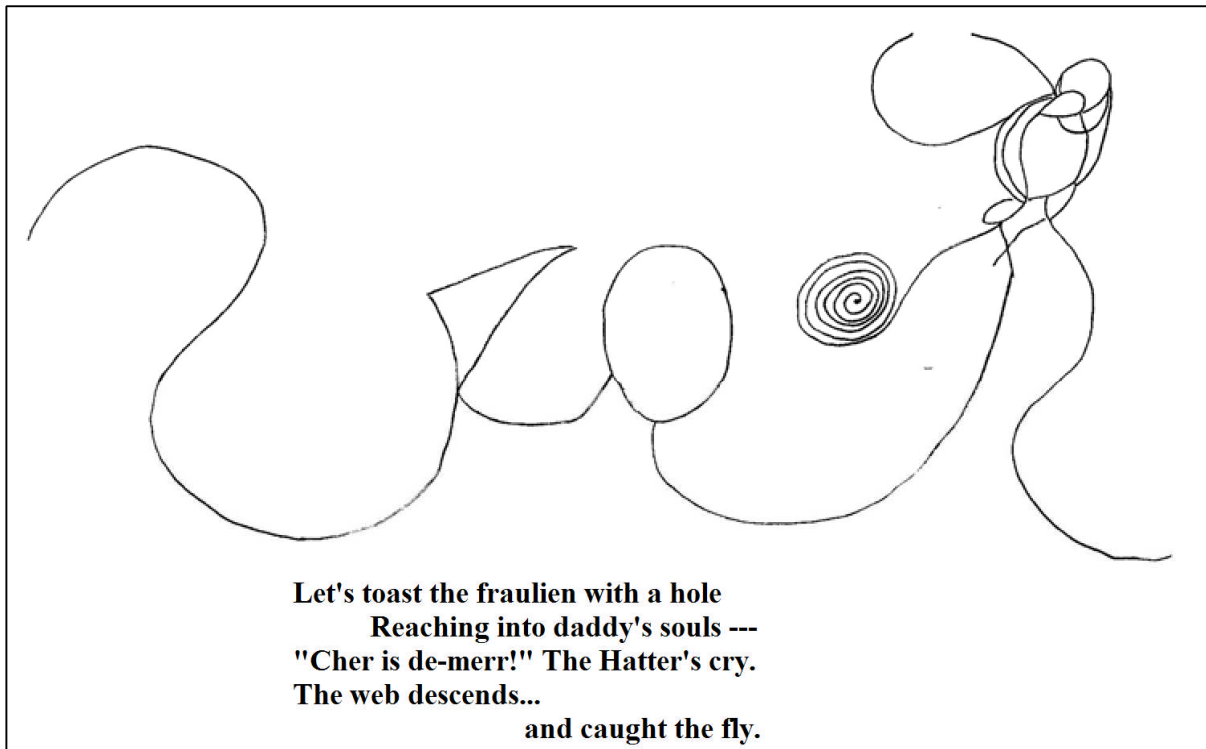

A person's skin or internal organs reflect injuries to the spirit/soul/flesh/mind of the mega-genotype pool sinking in to the body. For instance age spots can be individual choices to resist soul; spirit death in aspects of beingness or a close association with persons who are trashy--(i.e. greedy pornographers or politicians) or an *acceptance* of "sins of the father" which are NOT the same as sins of the mother (environment and all human karma plus genetic pool Earth). Sins of the father reflect hatred for cause and effect (hatred for authority and natural Law). More later. (The author)

P.S. An old bald Nazi was at the pool bar tonight and he sat in front of me at the Berkeley Campus movie house as well. (o) clones, and Arizona Laboratory "hit" men for unwilling bio-med subjects are here. --

Biochemical Markers in Mind Control Computer Systems NEWS

December 11, 1997 Montreal Biochemical Markers in Mind Control Computer Systems NEWS

TO: AP, UPI and (m) through Daily Oklahoman

Biochemical markers have an affinity for a location of the body in the mind control computer systems. For instance, people with radioactive computer-linked eye beams can look at a glowing "assemblage point" on an agent or robot human and hear the thoughts of the person leaking out of the auric cocoon. Most agents in the Walker/Wimbledon program do not know they are monitored by computer and can be tracked by satellite and killed by the mapped coordinates of location showing upon a small radar screen in the cars of agents in the area allowing them to see their "hit".

Each "assemblage point marker link" has a factor of color, of diameter, of direction from core of body, of direction of flow of force, of waveform, of frequency range, of torque from silvery "spirit" body degree or from "the boss program" as a resistance measurement, and of percentage of substance dilution due to the laser suction/replacement of fluids. When the assemblage point (primary) is drained to zero % of protein serum, then another location of the body is laser drilled to allow a new computer mapping and to drill a new well of vampired substance.

Something as simple as a daily medication can produce an affinity for a satellite station and a body part (or system). Left hand molecules in "fake" fat or sugars settle in the brain or liver, joints or kidneys...thereby producing weaknesses that allow the mind-controllers to laser penetrate to form "second attentions assemblage points" which can be made greater than primary assemblage points.

Ejection of regeneration/generative substances during orgasm is often the first goal by the laser genital stimulation couples with night dream manipulation by communication beams from *usually* fiber optic tubes/suction devise in victim bedrooms. Therefore, a sudden change in sexual imagery toward perversity should be a clue that mind controllers are attacking. Male-female sexual dreams are not suspect unless sado-masochism, homosexual, voyeurism, exhibitionism, or group sex or pedophilia aspects are present. Normal healthy sex does not need stimulation by such perverse precursor thoughts but is natural in aspects of males desiring to enter females and females desiring males to mount them---as that is the way a species continues.

The use of perverse sexual imagery weakens the spirit of a person and allows the mind to hemisphere split so that the communicative corpus collosum is easily laser entered and computer mapped as to identify trigger response words which become the brain computer code entry words to access a human as a computer. The use of intermittent positive reinforcement by brain pleasure center stimulation (laser) allows the controllers to remove the silvery body (soul and spirit) and then take over the emotions and thoughts by attunement of the brain to a subliminal satellite station or through the "Watcher team" of synthesized voice computer controllers in the base office.

The voice of a loved one is used for the controller, or a voice that is neuro-linguistically programmed to a pleasure response. **NLP and Scientology** are two of the most dangerous satanic mind control methods used by controllers. "Deprogramming" in "mental health centers" is actually the emptying of all morals and the replacement with a controller, creating a robotic person.

The control of dogs and cats is done by stimulating their sexual centers and impressing images upon their whole bodies that are like pheromones/hormone/instinct message to kill, to mate, to run, to follow a person. The animal's eyes can be linked to a computer to allow the animal to be used as a tracking agent. Large birds, such as owls or hawks, are used but dogs and cats are most often used because their brain mapping is quickly done if they are manipulated by a (synthetic) master's voice or smell to obey commands. Insertion of a physical tracking device makes control especially easy in animals and also humans, **but an implant is not necessary with the higher technology.**

No one is safe with these methods, since all communications can be hacked into by the top "walkers" and errors have caused the death of innocent people. The psychosis of NASA scientists (such as "o") led them to spread the lie that an alien invasion was requiring the NSA to kill hundreds (nay, thousands) of innocent men, women and children so far. One neurophysiologist from NSA told me and (d) that suicide was a major problem in the "study"—(but many are staged).

Stopping all mass extermination orders of people in the **Genesis Immunization Project** of the '50's should be first priority, because it is of a non-valid assumption. The alien matter put in the vaccines was actually from a future humanoid that entered a NASA created time/space loop. Many time/space loops were created by the super conductivity/waveform/frequency generated forcefields near Tinker Air Force Base in Oklahoma, in Texas and in Britain.

The cessation of this research is necessary to allow the Earth's eco-structure to heal. Many diseases are forming in the general population that will produce mass insanity and sterility---due to these time/space ruptures, rather than contagion.

The anti-matter perversion of matter destroys the body ability to adapt to new microbial strains and lowers intelligent reasoning ability while producing deformed sperm and ovum. Radiation of food-stuffs inhibits healing of the body from radiation distortions and destroys the deva Earth spirits that control form of plant, animal and human.

The experiences of this *unwilling* laboratory subject in these horrors is the basis of my interpretation of events. My love for my family is great; my love for God even greater. For that reason, I accept my fate that I was to fight this horror, and in accepting each day's challenge, I am joyful in Christ's love for humanity. (The author)

Teen suicides caused by bio-med study programs NEWS

December 13, 1997 Teen suicides caused by bio-med study programs Montreal NEWS

Twelve and one half years ago, I went to a "natural healing" seminar at the home of (a teacher and her husband) in Boulder, Colorado where I purchased "homeopathic" liquids suggested by (the teacher) who had been a registered nurse in the World War II death camps while (the husband) was in the German army. She said she made the homeopathic liquids there. I became very attached to the (couple) and yet I am aware she became unbalanced due to what was most likely part of a NASA satellite study in mind control and longevity/life-after-death research. I began to have dreams of being in death camps and even (at times) spoke unfamiliar languages spontaneously in great anguish. I only speak English, but when I had the international space studies researchers in my house, I would be hypnotized and laser impaled to the brain and speak French variants, Belgian, Italian.

The beginning of this was being in the (the teacher's) house and taking the liquids, which may have been Jewish body liquids based on the decompression chamber extraction that I later saw in Mexico City to obtain mental body substance and other substances now used in the **neuro-chip human computer link-ups**.

My fear is that the Nazi experiments have been done on the 5 high school boys who killed themselves in one week here and on the 8 teens who killed the 14 year old girl, and on the college freshmen through the auspices of the **international space/bio-med study programs that use interactive video mind links through surveillance systems** posing as heat/smoke detectors. Digital TVs/radios for mind subliminal entrainment and the telescopes linked to the Moon/Mars/space station experiments of the "invisible astronauts" (soul substances split from living persons for telepathy experiments). The children are at great risk. (The author)

Estimated date: December 13, 1997 Murder/Snuff sexual bondage film-making NEWS

The natural progression of all pornography is to murder/snuff sexual bondage film-making. pedophilia is a "natural" aspect of homosexual recruitment for legitimacy as in the Man-Boy Love Club. The destruction of American Society rapidly advanced with men buying Playboy magazines and substituting masturbation for married sex. All pornographic media encourages molestation, and all sexual therapists are perverts who encourage exhibitionism and voyeurism, and are now hired by drug companies to sell body-mind substances from tortured adolescents for sexual vigor and electronic or satellite linked scalar devices for implants or vibrators to produce addictions to abnormal sex.

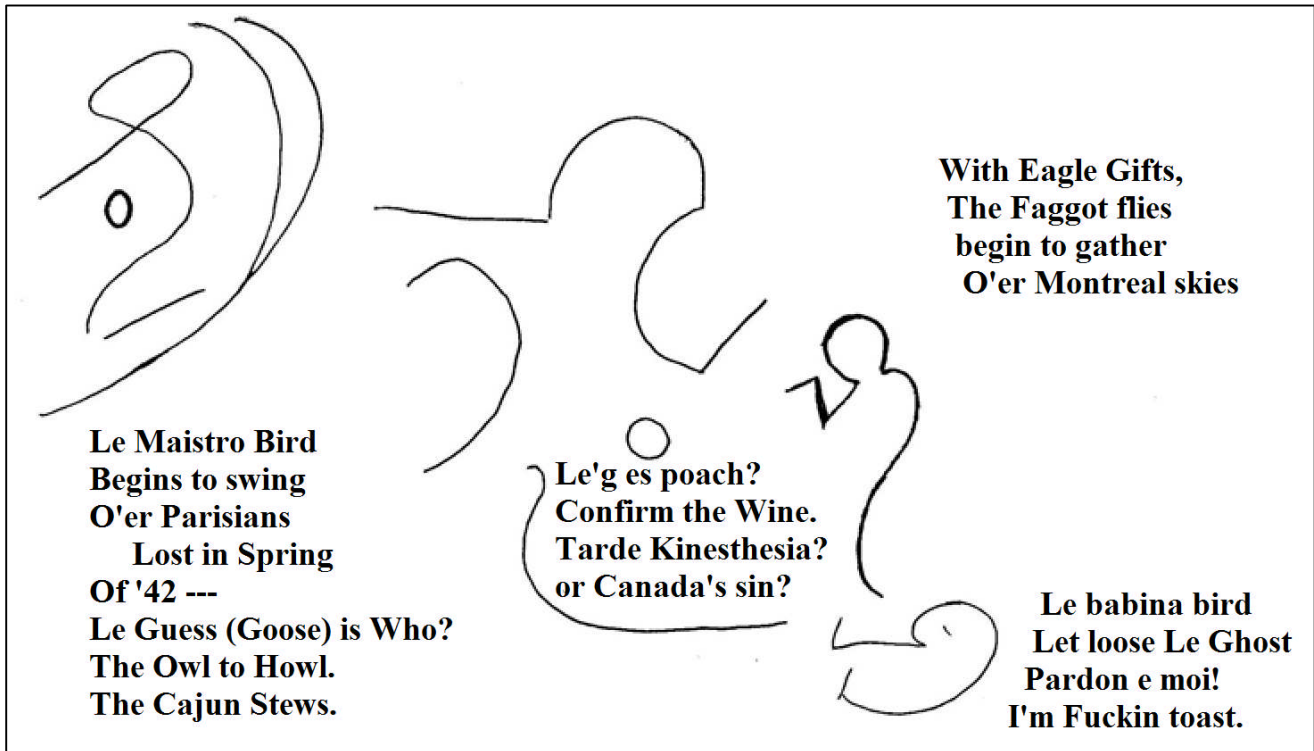

The destruction of teenagers here in Canada who have high rates of suicide/murder is from the "researchers" targeting such children for subliminal sex/porn usage and body gas removal for sale.

There was a (newspaper) article here that showed Canadian teens in the study were shorter and lighter in weight at school than at home. That is (*line missing*) are being used by drug/space/bio-med companies as human research subjects without their knowledge or consent. Based on Nazi decompression tank life-after-death experiments, the new "studies" put an astronaut altered forcefield in the schoolrooms which is radioactive and de-ionizes the children. Body fluids such as semen, hormones and plasma becomes gaseous and is collected by a magnetized container.

Substances are later sorted by density and sold for HIV research and for sexual/longevity injections. (Author)

I want to confirm what (The author) described on previous fax. I have taken photos of her face to show the damage. She has two dark bruises on the side of her mouth and her cheeks and jaw look as if she has been beaten badly; the skin on her face has deep lines around mouth and edge of eyes, her face and eyes are swollen, eyes bruised, nose swollen.

My symptoms include exhaustion, shortness of breath, heart, colon and muscle spasms, blurry eyesight and large/small motor coordination damage. From (d)

December 16, 1997 Montreal UPDATE (f), (bb) (send on):

I am sliced up by the Pelican (War Department) satellite directed lasers around my mouth and left lower face and have severe headache, nosebleeds and peri-orbital edema from the NASA directed beams today specific for my type. If you have symptoms, fax me for documentation. I am going to try to get the strength to get on the subway to be deeper underground. The NASA people sent a son of their space studies people to beam us at the Delta Hotel yesterday. Just like the Viet Cong, they use kids to carry weapons. (The author)

2nd fax To the Guthrie Daily Leader and Frosty Troy

Several years ago I was set up by a group of con artists associated with mind control computer systems by satellite to be driven into hiding after being tortured in Gallup, New Mexico. These con artists included various movie makers, Air Force and NASA "Men in Black" propaganda specialists who have as a goal the use of American school children for **"research" that involves the removal of body gases by special forcefields that are satellite generated over schools** or homes. The body gas removal is done by a deionizing magnetic forcefield alteration that was based on Nazi experiments in soul and spirit removal in decompression chambers for longevity research.

Scientology's roots with Satanism can be traced in Terry Maury's book The Ultimate Evil. L. Ron Hubbard, the founder, faked his death and ran to the communists who were behind the destruction of America, and who now are linked with the NASA program which is financing the Russian and Japanese military weapons for overthrow of the West. The space program uses satellites with scientology auditing to mind-control politicians and whole populations. The takeover of Peru was possible because the Japanese had American support by NASA weapons to **devastate the Peruvian's genotype** through sound, radiation and mental torture subliminals.

The loss of the Constitution of the United States occurred with the passage of the National Securities Act, which created an extension of Gestapo powers used by Hitler, in that anyone can be tortured to death in America and robbed by the NSA or under the President's orders, and the use of mental institutions for NASA research of targeted citizens or military can be legally expanded into concentration camps.

The use of the Japanese owned "Cult Awareness Network" (bought by Scientology's group) to destroy freedom of religion through slander and libel was to augment the Baker Act destruction of freedom (anyone can put anyone else into a state mental hospital on hearsay) and of course Scientology implanted memories of sexual abuse can destroy the careers of the best cops or politicians so as to make way for the whores of the mind net industry.

Now that the Bill Gates/Trump/etc. empires are looking at the Neuro-chip half-human computer as the ultimate toy, do not be surprised that the finest minds and souls are chosen for the removal of brain material in the morphogenic field studies (see Rupert Sheldrake's writings on this, and those of Fritzhoff Capra, who had lunch with me at Cattlemen's café a few years back). The experiments on me were to include the use of a machine that removed my body gases and replaced them with people who were murdered in World War II but also unsolved cases for Interpol to see if I could name the murderer. Those experiments were done in Oklahoma. In Canada, I have been put in forcefields to implode my nose and wither my skin for the movie Snake Eyes and was earlier drugged and filmed having sex with a man on the set. I do not blame the actor; he was set up, but I do blame the NASA propaganda specialists who torture people to look like aliens for snuff films.

The creation of virtual reality satellite brain links on unsuspecting persons can alter a jury or judge's ability to bring justice into the courtroom. When I read how a woman in the McVeigh courtroom was winking to the prosecutor, I knew they were using the new courtroom weapons, which are laser impulsers, to stun the witnesses or to open witnesses to the robotic control by satellite. I was given a seizure at the Marriot Hotel by Clinton's men and thrown into the Oklahoma City Jail for the crime of dancing with the pilot. "Don't fuck the help, bitch" the S.S. said to me, as they dragged me out of my chair and had me handcuffed, strip searched and left me weeping from the brain injury in the jail, denying me any medical care or even a breathalyzer. (I had only had one drink).

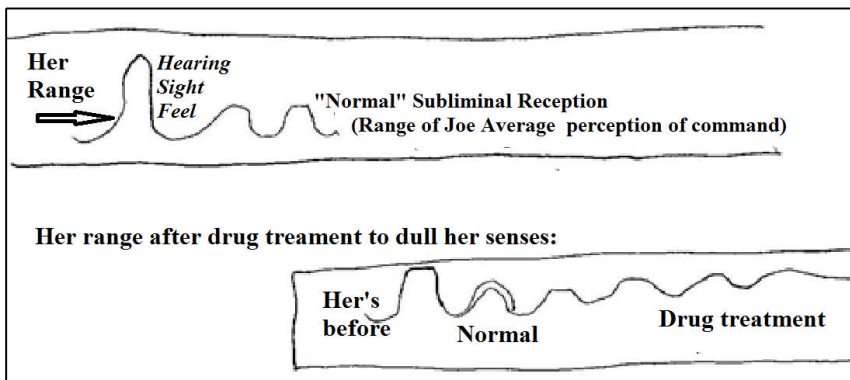

The similarities to Nazi Germany are sure to grow unless the people of Guthrie take action to defend the children who were targeted. **Suicides and murders by children are growing daily** because they are driven mad by the research which is linked to the scalar-satellite modem links on school computers. I was tortured to death and revived by NASA

scientists (o). Air force computer mainframe specialist (b) and others for life after death studies. I have seen heaven and hell, but the worst of all was the loss of my children which had to be ...for me to fight the bastards internationally.

This battle is for all humans of all religions or none, for it is to mean the end of all freedom: a satellite receiver will be required for every new baby and every government agent by year 2000. That receiver can monitor your every move, look through your eyes with even your sexual functions being hooked into UC-Berkeley quadriplegic computer mind-hackers. They can also **kill you by the satellite directed radioactive impulsing or deform your body** by superconductive magnetic forcefield alterations to bloat your belly, wither your face, and remove your testicles or ovaries by a dematerialization device. That is what happened to the Heaven's Gate men, the story was a cover. The Waco torture included the removal of the breasts of nursing mothers. Time is running out. (The author)

"Sex Implant run by Computer Chip" and "Cartoon leads to kids' seizures" Newspapers

December 17, 1997 NEWS: News Article: Unwelcome Orgasms Cured (About a 44 year old woman who had repeated orgasms "neither pleasurable or satisfying" at the wheel of her car. A brain scan revealed an abnormality).

Comment: The woman in this article had a scalar receptivity range of her sense nerves, beyond normal; whereas most people would have felt "upbeat" or just happy to have satellite generated mind/body control stimulants paired with a command for advertising such as "buy and drive this Korean car" or "Love the internet":

➤The same sex rush occurred to a student in a rental car in Arizona. ➤(a) and (b) were observed having orgasms at the computer. I could sometimes sense the faces of the mind hackers on the satellite link to the computer.

NEWS ARTICLE: Sex Implant Run by Computer Chip! "Great news for gals! Every man in the world will be a terrific lover next year thanks to computerized penile implants..." **Comment:** This was tried out on me by the Egyptian Cardiologist in the Waikiki Hilton. It is linked to a radio-dial which gets it up, in a nearby room.

December 18, 1997 News Release and News Article too faint to scan re: Tokyo *"Cartoon leads to Kids' seizures"*

The thousands of video games here in Canada are connected to the central computer systems that are interactive; they can produce convulsions and induce commands for mind control to any user. They are similar to the digital TV and videos just like the UL smoke system detectors which can eject interactive video beams into the brains of one individual or (by heat detection) everyone in the room or (by motion detection) anyone moving.

Motion detectors are found in the cable boxes and in the smoke detection devices. The role of the UL Laboratories in producing seizure disorders and mental illness so that medication receptivity is associated with the Japanese devices which will be sold to block engine failures from the satellite beams (soon to be world-wide). The satellite receivers and senders can alter the code at any time or add codes to require multiple medication and/or gadgets **cause and to treat mental illness, impotence, growth failure, autism, schizophrenia and the catch-all illness termed manic-depression.** The reason the woman in the car suffered "repeated uncontrolled orgasms" (see news article) supposedly is due to an abnormal area of her brain is because the beams destroy brain tissue in the attempt to gain control of a person's functions (mental and physical). One person or a million can be lobotomized or castrated by the associated space industries' space systems world-wide which is ultimately controlled by communists.

Additionally, certain races can be spared while others are destroyed. A body-computer chip is not needed for devastation as long as the UL type smoke/heat detectors and light fixtures are in the home of target individuals. Also, the power system and computer systems linked to this industry can sell time to governments, mafias or businessmen to use the telephone, cable and heat systems to carry the deadly dematerialization forcefields into victims' homes. This is happening on the eastern seaboard in Canada and the US and on many military installations *with the approval of the governments.* (The author)

Estimated date December 20, 1997 Newspaper Article: "Aliens abduct people for Breeding"

The international form of mind-control by satellite requires the humans in such a system to be "reverse sound" molecular structures on the pre-manifest matter seen and interacted with/by the Americium radioactive smoke detection systems/computer links/TV screen variable diameter beam eye link found in digital TVs (whether turned off or on), video games and computer monitors, but also in automobiles. In towns/compounds/houses targeted, the air and water would be altered by a satellite directed superconductive magnetic forcefield alternator or in the case of new construction the walls would hold new wiring that could inverse the air and water by computer through the power station using the alternating wire and ground/cable/telephone lines.

Electricity beams passing through the UL devices reverses all matter in its wake. Humans initially exhibit physical and mental symptoms/problems such as poor sleep patterns, pallor, agitation, weakness, twitching, bloated gut, weight gain and cyanotic limbs in some cases. Flesh eating disease attacks these types who react.

Children exhibit **autism** (which has been linked to television viewing by mother and infant in multiple studies) and antisocial behavior: severe depression and rage from skin crawling-tingling sensations lead to self mutilation and suicide. Since many of the subliminals are interactive virtual reality computer linked to pay-per-molestation pedophiles into computer porn, target children are remote stimulated to rub their genitals to the point of causing injury. This causes accusations of parental abuse.

As long as surveillance devices are part of the communications and energy systems, there will be a decline in genetic stability and mental health. Asia is seeing millions of mutants from the cities using the systems. The children are midgets of sub-normal intelligence who cannot digest food properly and who kill others readily. Many are being aborted by satellite beams which are similar to hospital lasers while the mother is asleep. When the power from the sun is bounced from the moon station to the receivers on earth, it is a **reverse solar power** which strips humans of their health unless they become pre-manifest reverse so as to not recognize the poison.

Mind control systems used by the Chinese depend on passivity of the ones in factories or homes that are treated. Humans who fear a loss of political power or money loss will fight for this "free energy" which is death to all humans on Earth. First the spirit and soul (pre-manifest matter) dies or splits away, then the human becomes psychotic and amoral, then the flesh form becomes unable to assimilate food and loses sexual vigor.

Asians found that complete impotence and frigidity resulted from the power system's impact on apartment dwellers in target areas. They treat the impotence and frigidity by **body-farming humans** to produce pheromones, hormones and other substances.

The cover for the body farming is that they clone human genes into sheep, but the truth is that the genes mutate quickly to unusable in animal/human monsters. The most reliable treatment for wealthy Asians is to use the virtual reality computer chair which is linked to the hotel/home systems so they can *surf* for a victim who is young and healthy to hook into and experience their orgasm vicariously while a human vagina or penis attachment from harvested victims is used for masturbation by the Asian in the chair. The young person hooked into for virtual reality tap by the perverts feel at first a skin crawling sensation, then a stroking of genitals and have subliminal commands given to encourage masturbation. The interesting aspect is that male-female sex is not as easy for the perverts to use for virtual reality sex, although it is sold for pornography.

For that reason sexual therapists such as Masters and Johnson are hired by drug companies who make electronic penises and masturbation tools to **teach and encourage masturbation in place of normal sex** in a relationship. Homosexuality is encouraged because virtual reality perverts *can* hook into lesbian or homosexual sexual partners for the rush.

Any machine such as a car or computer that carries a satellite receiver for subliminals paired with sexual stimulation electronic devices work on the nervous system and so can *kill you* by a mere dial change by a computer tech. The 700+ children who had **grand mal seizures** while watching one cartoon in Japan should sound an alert to all humans on Earth. Internet usage and television watching can cause strokes in millions of people in a country about to be invaded by the communists who control the NASA space program war machine. We are in war...a cold one...run by the owners of deadly superconductive beams that are altering Earth's magnetic balance to the point of hurling us through space. (The author)

December 22, 1997 Montreal UPDATE

Also of concern to parents of McGill University students at suicide risk.

The reason the bio-med space researchers eventually kill the victims or put them in mental hospitals on drugs is to stop the “Blink” recall of events that occurred while satellite or laser-impulse stunned. (Recall the movie Blink for details because the blindness and amnesia produced by the radioactive flash and impulsing is similar to what occurs neurologically in some retinal repair cases or eye nerve repair).

I went for months at a time confused because in Oklahoma (b) and (o) rewired the house for scalars and the stun guns were aimed in the window because I looked out to write, knocking me out, but I later recalled the experiments.

They do supply cover memories of UFO abduction (c), (v2) and (a) but if these are removed, the real bio-med experiments are recalled. I find it amusing that people who claim to be UFO abducted were called sane and I said (o) of NASA did it, and I was locked up. (The author)

Jon Benet murdered by electronic laser type impulser NEWS

December 22, 1997 NEWS

Sunday’s (12/21/97) Montreal Gazette reported that the child Jon Benet Ramsey was murdered by an electronic laser type impulser or associated weapon only available to Law Enforcement. I could tell by seeing pictures of the eyes of the mother and brother that they were in the NSA/NASA research group as was Benet. When they enter a house to take body samples, they flash a radioactive stun gun at the face or whole body to produce loss of consciousness but can stop your heart or cause strokes. Private bio-med firms compete for body substances of beautiful, healthy or psychic/intelligent genetic strains for neuro-chip living computers and cloning plus morphogenic field research. “Psychosis” is often the result only because of their pharmacological research in body-mind, soul, and spirit and mind substance removal. I fear my children are all going to die like Benet and like the hidden student “suicides” (which are mounting) unless they are protected. By the way, I cut out the article, but since I was in the shopping mall, an agent stun gunned me and removed the article on Benet from my handbag. They also took my bank checks from my mail box here.

Of special concern to parents of McGill University students at suicide risk:

The *Heaven’s Gate* men were tortured for 20 years before they were castrated by *dematerialization* (even the radio reported no scars were found) and murdered. They had packed suitcases to run. **Any stylus computer mouse can reproduce handwriting for death notes.** They were murdered just like Koresh’s 7th Day Adventist community in Waco, Texas because a decent agent warned them of the project ending in death if they didn’t get on drugs to prevent the “blink” recall of details which including forced into moon shuttles to the bio-study station there and being operated on to install receivers and to remove organ samples, eggs, sperm etc. for cloning.

Jon Benet probably came out of the “Blink” stun by the bio-med “researcher” collecting spinal fluid, heart needle biopsy and/or eye biopsy when she was killed for screaming. They can make it *appear* a suicide as well. (The author)

Smoke detector as deadly radiation receiver UPDATE

December 23, 1997

Montreal

UPDATE

The “smoke detector” with a black dot is a deadly radiation receiver that can be heard as a pulsing sound between AM stations and you may see green lights coming through walls or ceiling if your house is hooked to the Tesla-inspired nuclear power hook to the moon anti-matter base. **The frequency is adjusted to kill brain matter, genitals, or skin.** My face has severe radiation burn holes with one black necrotic spot.

Call me back and I will let you hear the sound, but I can’t talk because the machine is over the telephone pulsing green rays. (Burning me) (The author)

December 25, 1997 Montreal LETTER TO: BILL AND HILLARY CLINTON, JANET RENO AND FRIENDS

As you sit down for your Christmas turkey, I sit in a lonely hotel bereft of my children after years of torture by your financiers who were given grants within the NASA space program with your approval and financial reward.

I had a good life once; as a director of nurses in a hospice, wife of a doctor and mother of five children, I went on to write a dozen books and teach comparative religion seminars. Then you sent your NASA scientist (o) and Tinker Air Force Base computer-psychologist (b) to Oklahoma to lure my husband and ex-husbands into financially lucrative deals involving white slavery; humans were to be bio-med slaves for the space industry in their own homes...if they argued, they were to be put in the new concentration camps—mental “health” gulags for life.

Janet Reno and your men, Bill, arrested me without cause in the Miami Airport and tortured me in a facility without a medical doctor present (despite the protests of my privately hired physician) on the grounds that I was barefoot in the Miami Airport Hotel (my feet had bullet injuries from a Belizean assault and were swollen) Janet Reno hand-picked my attorney, her old friend, Joel Robrish and had a Cuban woman (not even a psychiatrist) recommend lifelong institutionalization (for the NASA research program).

Of course Reno should be disbarred, but since Hillary Clinton and you are in office because of the communists and ex-Nazi fascists behind these NASA torture experiments, you will not be perturbed about selling my family out, having already murdered hundreds in the NASA/Air Force research in Waco, Texas and elsewhere during your term in office. The Nazi war experiments done on me and my family members have caused my children to be seriously ill, and I am barred from seeing them unless I consent to death by gulag.

My student, (g), was tied to an Oklahoma train track with her pet Chihuahua dog after torture by your *ghouls*, to die in horror, because she warned me of danger. My friend, (d), a wealthy woman, now has her property signed over to the accomplices of the new Gestapo who are paid by victim’s spoils, and she narrowly escaped being murdered for protesting such injustice and serving as a witness to the tortures.

Just as the Jews fled Nazi Germany after being robbed to avoid death, so have I fled the United States, yet the tears of my youngest son for his mother burn in my soul for you bribed his father’s family with money to shut me up with slander. The love I have for my children is greater than the sky, yet I love even more the God of all Nations. Because of that, I must fight through legal means for the other victims of the NASA/NSA research, which were covered up (before and after) carefully planned assassinations of whole tribes, groups and churches. The American Society of Dowrsers in Vermont are especially targeted for use as research subjects.

The cover of an alleged invasion of aliens led to Whitney Streiber’s book Communion, but I have since learned that all the so-called alien abductions were implanted memories by NASA contractors in the new neuro-chip computer mind control research linked to the satanic Scientology system. I know Hillary goes to psychics and claims to commune with the dead Eleanor Roosevelt, but it is time to draw the line on how much wool you pull over the eyes of your constituents in regard to the most blatant violation of civil rights in the history of the United States of America.

White slavery exists in the Americas, Russia and Japan under the NASA “Men in Black” program. Unless people in Canada and Western Europe sound an alarm, there will be no person free. My property and family were confiscated, I was beaten and arrested while having a seizure so as to give me a police record, and I was denied police protection while being tortured in my own home by researchers for weeks without sleep. My terrified relatives told me to kill myself because I could not win against NASA and Clinton.

The cover-up of this operation is only possible because the players are bribed by the pharmacological/computer/power cartel and threatened by the new Gestapo into silence. The US Government has taken away fifteen years of my life, and all my assets have gone to the liars who agree to work with the new Gestapo. My student (f) can testify as to the torture of her family in Maine (as can “d”) and yet the elaborate mis-information network has barred my testimony, while depriving me of my baby son.

(A relative) was surgically installed with a satellite receiver one night while hallucinating about a space ship. She has (child), and robotically backs up the destruction of my freedom with her support for the hideous NASA program that turns humans in to automatons.

I am aware that you financiers have paid many thousands of dollars to my (--) relatives to back up your corrupt administration by slandering me into silence, and now that “Mafia Mama” Reno has ruled Whitewater no big deal, you can do as you desire in the trade of human beings for research. I was held up for auction in Belize; I was murdered and resuscitated for life-after-death research by Nazi-era German doctors. I have wept in great sorrow and fear for my children, knowing the power of the mind-hackers linked with drug/computer companies given NASA grants. Even so, I will never give up my fight against your neo-Nazi regime, because maybe I can save some other mother from weeping on Christmas day for her missing sons and daughters. My Christmas wish for you is: I pray you get what you deserve. *Author*

December 25, 1997 UPDATE To: (f)

Since the good agents went for Christmas holiday, they sent a big batch of non-religious NASA (types) to bombard us and the hotel is cooking with radiation. At the movies, the dull orange lights in the **Sony Theater** were used to hit us with the interactive radiation and scalar impulses which caused me to itch and break out in a rash. My flesh eating disease is going away despite the abnormal force fields using thyme oil, iodine, Clorox washes, but it is still painful. A big chunk of necrotic skin fell off my cheek--black-- and layers are rotting off my mouth. My Perrier bottle was microbe spiked by the bio-med experimenters, but other than a small laser cut on my swollen belly and facial infection, I am fine.

However, it is too dangerous for your babies until the good agents come back on. The orange lights were at the Scotland monastery---very painful weapons.

The food here is delicious and if they cut the radiation tonight I would like you to come with the family soon. I will call tomorrow with update. (d) was hit in the restaurant with a boomer/beamer and broke out in a red rash and all my eye makeup melted down my face with the heat of the beam.

These laser impulers and hotel “smoke” alarms wired to a central station are so deadly to the fair skinned people who are non-Asians, except for the second generation soul-less Afrikaners. I am sure the Peru-Japanese killed those 50 women and babies in Cristobel the other day by the robot soldiers we saw. Remember?

We must fight the mind-hacker NSA people or lose all of our love for humanity and become blood-thirsty thieves as they are. (The author)

Witness statement from (f) LETTER

December 26, 1997 (estimated date) From (f)

My name is (f). On Sunday I will be 38 years old. I suffer from chronic joint pain, “buzzing noises” in my ears, loss of short term memory, and other symptoms I associate with the aging process.

Yesterday, Christmas Day, the air in our living room became suddenly unbreathable. There is a constant “humming” noise in the house. Family members and pets are pale, nauseous, exhausted, agitated, and there is the omnipresent “buzzing” noise throughout the house.

These symptoms began when I travelled to (the author’s) comparative religious study center in Oklahoma several years ago. The symptoms intensified when I travelled to Mexico with (The author) during July of 1996. The symptoms became “deadly” after I visited (The author) in Montreal in February, 1997. (The author) is targeted by this “research” as am I and, I believe her other former students. I do not hold her responsible in any way for any of this torture and, although my little boy was lasered by a concealed weapon during our last trip to Montreal, my husband and I have just cancelled our plans to visit with (the author) in Montreal this Holiday week-end. (The author) is under extreme attack and is concerned for the children’s safety should we visit.

I was present in San Cristobal de las Casas, Mexico last July and can confirm the assembling of a weapon on our hotel rooftop and the presence of German/American nationals in our previously deserted hotel. The hotel gate was locked and the porter refused to open it for us until we screamed and some passersby intervened. I was extremely fearful for our safety. I am horrified at the recent murders there and in this country.

I believe that we cannot run from the truth. I love my children very much and know that their only safety is in a thorough investigation of this matter. (f), Maine

December 27, 1997 List/Explanation of NASA Assault Weapons Montreal UPDATE

Downtown Montreal always seems to have pharmaceutical/computer/bio-med people that we recognize from Spain, Belize, Mexico, England, France and Italy that are buying time on private Russian “communication” satellites that double as interactive video surveillance devices that can bounce a beam off the space stations to test research subjects of the NASA affiliated companies. Some of the **planet lights** were explained to me years ago by (k’s) ex-lover Dr. (l) (a space studies psychologist at UC-Berkeley), when he stayed in my mobile home in Oklahoma for two weeks, and by (o) (NASA scientist), who lived with us in Guthrie and told me about the **moon base broadcasts** for mind control. (b)/(Tinker Air Force Base computer-psychologist) and (e)/(neuro-linguistic mind-control expert), were both students of Dr. (bl) in Oklahoma City when I first met (e). At that time I was considering reconciliation with, (p). (p’s) house in (town), Oklahoma made me feel very ill from the satellite directed experimental beams. My (child) became nearly catatonic in a state of neurological and emotional shock until I moved her out of (town) to Oklahoma City. In (this town), (another child) (as a baby) developed severe asthma which vanished when I moved him to Northwest OKC.

(Children’s) illnesses coincided with being in (p’s) house and (child) improved in Logan county until the space studies people took over our land. (Children’s) bunk beds rattled from side to side, the black Labrador retriever developed cataracts and turned white overnight. 200 nut and fruit trees died, burned crop circles appeared, and (child) and I saw a circular experimental spacecraft in the back yard. The writer of the propaganda book E.T. stayed with us three weeks and the horror of being used in a NASA experiment began to worsen daily.

Now, ten years later, (---) is in great pain with toxic skin and colon. The researchers told me (at one point) that a **Mars bounced beam** can destroy immunities and cancel out all hormone activities and digestion, resulting in malnutrition, mega colon, obesity and confusion.

The use of Saturn beams can cause a research subject to develop skin ulcers, dried scabs, oliguria, pallor and HIV flourishes.

The use of an inverse solar beam off the moon produces wasting away of genitals and abnormal appearance of one or both eyes, which appear frightened and enlarged or psychotic

The use of a Venus beam produces lymphatic enlargement which is not fat but appears to be obesity. Liposuction of research subjects can cause death by hemorrhaging because blood vessels enlarge to lymph and to tumors.

The use of the muddy orange lamps for surveillance and mind control that I saw at the Loch Ness Abbey in Scotland and at the Sony theater here in Montreal produces skin crawling sensations, headaches and cerebral edema because they are using a radioactive receiver of a satellite picking up a toxic light from a dying star system pattern which is Scalar deadly to all inhabitants on Earth. The intensity of the light for control of inhabitants is computer controlled by Chinese terrorists.

The use of Asian automobiles for the mind-control and body devastation by terrorists/military is widespread and was given experimental trials in Guthrie and elsewhere. The sale of Russian spy satellite time to the porn industry is obvious because they can direct a sexual stimulating beam (Pluto) off the space station to the crotch or rectum of any person on Earth, since the beams pass through roofs and produce clear computer images of the inhabitants who are then sexually stimulated and/or tortured to death by the addition of the death impulse beam from a dying star’s anti-matter pool.

The use of radioactive contrast satellite tracking of spirits and souls was to be the subject of interest for many drug firms interested in longevity and sexual vitality associated with persons who still had spiritual passion which is linked to sexual magnetism. That is why NASA targeted religious centers and also why food terrorists from the Kushi Macrobiotic Group went from convent to convent to set up the receivers.

The selection of human subjects by the agencies and private firms is based upon the criteria of traits of intellect, beauty, artistic genius, sexual magnetism, psychic abilities or a strong immune system. No one is informed of their selection and one of the subjects have the right to refuse, since the “Top Secret” cloak embraces even all the private computer/drug firms that pay off politicians in exchange for white slaves.

The current use of white subjects instead of aboriginal peoples is due to the Asian HIV variants producing mass death only treatable by a Caucasian plasma component which can be removed through a satellite directed decompression technique which vaporizes body substance so as to allow them to be collected in magnetized containers.

The hiring of ex-military intelligence personnel and ex-CIA agents at huge salaries by communist governments for overthrow of the West obscures the project because they retain American and Canadian IDs so as to appear to work for their own government.

(---) has suffered severe emotional trauma, degenerating spine and joints and hormonal shutdown, but he refuses to fight the NASA machine out of fear and instead has chosen to blame me for (child's) life-threatening illness. I have seen many cases of highly educated people becoming leveled out by the researchers until they are convinced by the mind-hacker cover programs that they have no choice but to accept the Prozac or death. They numb themselves with drugs, alcohol and feel-good philosophies when they ought to be fighting to save the children from death of body, mind and soul.

It is a terrible life for the research victims because they are captives in their own homes with the satellite directed interactive surveillance causing insomnia, headaches, severe physical illnesses and humiliation. In their best research subject cases, they blatantly enter your home and hold you captive while they do the more advanced experiments, but the trend is toward the creation of a false mental health history so as to have subjects "disappear" into the hellish world of the **Asian body-farms**.

The destruction of privacy is enough to drive most of the subjects insane, but the physical tortures are beyond imagination as well as the torture of the **neuro-chip robot-man research**. (f) and (d) were with me in San Cristobal de las Casas in Mexico near the recent massacre and other nearby towns where the robot military carried machine guns and were more terrifying than words, because they had already been turned into computer controlled humanoids by the same communists that invaded Peru.

(f) and (d) can add strength to my testimony that we were surrounded in a locked hotel courtyard by both German international agents and robot Mexicans holding machine guns, and only were released by our screaming till the hills echoed the horror of the impending massacre and the town's people gathered. I earlier was chased in another locked courtyard by neutron popper gun carrying Germans, who shot at me in an attempt to cover up the fact I had reported abduction in an agent's rental car in Oklahoma City to newspaper before fleeing to Mexico. The rental car experiment was involving satellite tracking of people by their personal light and sound pattern which is computer tagged as identification. People with more evolved intelligence, those of spiritual nature and artists exhibit elaborate rainbow/song patterns that are linked to pheromones, components of body chemistry and of mind/body gases that are used in the neuro-chip research.

The studies in World War II of Jewish Sympathizers being weighed before and after death showed a substance thought to be spirit and/or soul matter that led to experiments in decompression chambers collecting spirit and soul matter for inhalation by psychics (at first) and later usage of the matter for sexual and physical vitality. The eventual creation of superconductive portable machines ("*Ghostbuster-Backpacks*") allowed vacuum extraction of such matter on the street of strangers who were seen to have such matter by special sunglasses equipped to see the colored matter swirls around the bodies of evolved persons. This led to orchestras, opera houses, hospital newborn nurseries and old folks' homes being equipped with soul/spirit matter retrieval devices hidden in light fixtures, smoke alarm systems and telecommunication devices. **Old folks' homes were used for the memory/group genetic mind research for the neurochip**. Many quadriplegics are used as computer operators and are paid by virtual reality brain hook-ups to innocent people who are having sex.

The creation of frigidity and impotence by scalar/planetary beams so as to treat it by body-farmed substance, electronic devices and implants (which also can kill tissues) has created a whole new terrorism, genotype specific destruction of sexual organs, mind and nervous system to market blocking agents and cures but also to destroy the western military defense against the Chinese invasion. Clinton and others were put into office by those who seek to overthrow the West, and so huge grants are given the companies which sell secrets to the enemy and destroy the young people.

The current buy-up of hospitals, newspapers and schools is another way to facilitate the complete destruction of western civilization. It was reported in the London Times that millions of Asian "Sleeper Spies" have invaded the universities causing massive drug use, suicides, homicides and loss of intellect in targeted Anglo students. The goals include complete destruction of religion by the satellite destruction of the minds of all persons in so-called "cults"---which has been expanded by definition to include all religions.

The only thing that may wake up the Americas and Europe to the horrors is when the bands of satellite-directed robot men march across the Mexican border with eyes like The Children of the Damned shooting Texan and Californians instead of the helpless Indian peasants in Chiapas.

The loss of all personal freedom for anyone designated a research subject of Clinton's investors is already a reality. (--) and I can attest to that. That is unless (--) are now robots or dead...which is the only acceptable conclusion to the Asian computer/bio-med researchers linked with NASA. --(The author)

After the Massacre in the Church NEWS Acteal, Mexico

Estimated date: January 2, 1998 After the Massacre in the Church Acteal, Mexico NEWS

Yesterday I went with (f) and (d) to the tiny village of Acteal--the site of the recent massacre of Indians. The elder and his tribal council showed us the blood stained church and huts where unarmed praying women and babies were machete hacked to death and machine gunned.

The rural location was an hour and one half driving time from San Cristobal, where they eventually sent a few wounded and obtained police help. There was no way these people could have obtained a vehicle or telephone to summon authorities for hours, so they were left without protection at no fault of the police or military.

Now the police/military monitor all persons on the winding mountain road, but terrorist helicopters could still drop murderers onto the helpless villages unless military help is given to the distant village at the end of the road.

The purpose of my mission was to give financial aid to the devastated Indians, so they could rebuild mountain shacks and clothe and feed the remaining orphans, and to inspire other humanitarians to assist these people in keeping their land and tribe together.

The massacre may be the first of many to remove the territorial male hierarchy tribal Indians from sites chosen for military invasion of the land bordering Guatemala. San Cristobal would be a coveted site for a military presence, with its protective ancient stone buildings with hidden courtyards and sophisticated telecommunications links to other favorite tourist sites. Many expatriate Americans live here in Cristobal....some with suspicious political liaisons.

At the massacre site, I saw four **International Space Studies Researchers**, an Aussie, a Frenchman and two Americans who fought my attempts to hand Canadian money to the tribal elder.

At one point they attempted to take the money from him. I knew they were the neuro-chip human robot space studies researchers by their absolute panic when I mentioned the link with NASA research and the creation of a Japanese/Peruvian robot military and my suspicions that they were involved in the massacre.

The "researchers" were smoking an illegal drug mixture and became hostile when (f) recognized they were misrepresenting my purpose there to the elders in an attempt to force me to not give them money. They mistranslated my English and only when a sympathetic educated Mexican man arrived with a reporter did they back down on their lies.

I am ignorant of politics and of the local culture, but I have seen such cruelty to the Indians in Mexico and in my native Oklahoma, USA, that I knew I must fight for these decent people to keep their land and way of life without high costs of "relief" organizations which often use most of the donated money for fancy offices and salaries, and impose other cultural sanctions on violated indigenous tribes. In Canada and in the USA children were stolen from their tribes and forced into orphanages to "re-educate" them---causing great despair in the hearts of the Indians.

The theft of white children is a reality for whistle-blowers in the United States, and the use of hospitals as concentration camps and bio-med research/body farming industries is under way with the complete loss of all freedoms and properties for persons such as myself who are designated **NASA research subjects or political dissidents.**

I have been tortured by the people who took over Peru. The permission and knowledge of the President of the United States and Attorney General Janet Reno (to shut me up) was given to a NASA research facility in Miami, to arrest me without medical or psychiatric reason to be held until death in a hospital without a doctor.

The neuro-chip research for the creation of computer controlled agents and military requires living humans to have part of their brains removed....that is the reason hospitals are being bought up by Chinese/Korean/Japanese computer firms.

I saw the remnants of the World War II concentration camp experiments in the removal of body gases believed to contain spirit/soul/mind substances coveted by the researchers for telepathy exercises for remote astronaut viewing of distant planets and spy research. Nazi researchers carried research from the camps to the present day, and have huge contracts that **require institutionalized humans so as to do brain biopsies and decompression of spirit/soul matter.**

Pharmacological firms have joined with the neuro-chip robot makers and NASA to create a cartel more horrible than you can imagine. *Souls* are tracked by radioactive contrast film through satellite, so any tribe or religious group with brighter substance matter than most becomes a target for the research body farmers. Jonestown, Waco, Heaven's Gate and my small non-denominational monastery in Oklahoma were all targets with the murders propaganda-covered.

The rise of key Earth sites to link in with a deadly weapons system using the Moon/Mir/Space stations controlled by China and Russia is behind this massacre, I am sure. I have travelled widely as have my two companions, and we shudder with horror at the possibility of further genocide if the mountains here are coveted by those advocating overthrow of democracy.

I beg of all thinking persons to recognize that anyone's voice or hand writing or image can be digitally forged so as to "document" cause for murder or institutionalization.

The horror of robot cop creation I have seen firsthand, since my late common law husband (a) was a propaganda film maker for the UFO mirage makers by digitalization of hallucinations that can be satellite beamed to a whole village so as to virtual "reality" brain link populations to computer controllers.

We will be leaving Mexico soon, but I beg of all who read this to sound a warning to all human rights organizations as to the injustice done the people of Acteal.

The tiny shack church was riddled with bullet holes, the dirt floor soaked with blood. Praying, pregnant women holding toddlers were butchered by robot cops sent from Peru.

Fujiwara sent his nephew to my monastery in Oklahoma to pick subjects for the neuro-chip brain extraction in mental/rehab centers.

Later, robots tied my beloved student (g) to a train track with her pet Chihuahua dog after torturing her for hours on video---because she warned me of an entrapment.

Only monsters of industry would attempt to make money by stealing land from murdered peasants by slaughtering their babies. Please fight for Mexico. (The author)

Satellite Tracker Implants UPDATE

January 5, 1998 Satellite Tracker Implants Mexico UPDATE

(f) will be returning to USA today but (d) and I will remain in Mexico for vacation. Yesterday a large furious woman walked by my table and glared; I think the **body-farming Nazis** are being flushed out because I mentioned their perversity in relationship to voyeurism of the young people they milk out under cover of the space studies/biomed/neurochip college programs. We took her picture, and then an old (male) Hun beat her on the head down the walk. A few minutes later the "maestro" couple strolled by, eyeing us over. They were with the other woman who (I am pretty sure) raises the Nordic Stepford "wives" which are spy whores trained since childhood to be bisexual prostitutes and exhibitionists for old men and rich Japanese, but also to **satellite-tracker implant politicians for mind control** using a small *needle* that is radioactive pushed up the nose or other body location. If it hits any bone, then the subject's skeleton becomes a subliminal command radio *sound* receiver. If they put one in the heart, uterus, or testicles then the body fluids (including spinal/brain water) pick up *image* commands which are usually subliminal (except in naturally gifted psychics who can see and hear in the subliminal range and so are used as spies, test subjects, or put on Prozac type drugs or murdered).

They use the **Barbie doll robot women** and the island monkey women (Oriental mix who chatter in groups and climb on men like monkeys and go into rages but look like pre-pubescent girls for life yet carry HIV variant) to infect military men and politicians (or for industrial espionage) with different body lice that carry protozoa/spirochete or other organism that has within it a Y chromosome destroyer and genetic deformer causing a type of mongolism defect (not trisomy 21) (*sic*).

Mixing animal and human genes for experimental robot production is done by causing humans to lose sensitivity to reverse molecular proteins, inverse sounds/colors, and by spirit/soul/mind substance removal by decompression in hotels set up for magnetic forcefield reversal with UL mind control radioactive beams in smoke/light/sound devices and in TVs, computers with microphone components.

Internet chat "shops"-"rooms" can link to satellite triggers which initially produce pleasure, then loss of neurological function and impotence/frigidity/insanity/Parkinson's syndrome. (w) told us in Acapulco that his round bald spot on the top side of his head (not male pattern baldness) was due to the internet and satellite implant (or car/computer receivers) addicting him to **sexual obsessions that are computer controlled**, not linked to a real human.

When I was accosted in Mexico last year in the Hotel Zuriaga, the Nazis sent a mafia man and two robot goons to retrieve me from Carlota's restaurant where I ran and asked her to call police. The Clinton administration ordered the US embassy to send me back to the body farmer's hotel, and I narrowly escaped the goons and the mafia man tried to grab my passport.

Body farming of sturdy blondes with egg removal for gametrial transfers is big on the Nazi agenda, because they are stuck in Hitler's era. When I was arrested in the Miami airport, the agent who *pretended* to be a doctor said I had a "fulminating psychosis" which is a World War II or World War I term for a *syphilitic* brain infection—no longer used since penicillin came into use, and certainly not my diagnosis, should I have a label at all. That and the fact that the "doctor" had never seen a tampon led me to believe I was dealing with **Hitler's death camp genetic experimenters** who brought body substances of Jew sympathizers to America and are hired by NASA contractors to study genetic memory for

neurochip computer creation using real living human brain matter taken out of a drugged subject (usually through the nose).

The link with satanic based Scientology (which is Oriental owned and bought the Cult Awareness Network to destroy *real* religions) is that the aged doctors need hospitals or mental gulags to imprison the living humans for harvesting the brain matter, because it is getting too obvious that the cover memory of alien abduction is wearing thin, so entering the victim's houses is getting more difficult.

With Clinton linked to China's overthrow of the American government through the allowance from Chinese UL devices in every major building including military bases world-wide, and the nuclear power industry being lured to use the *death* force of "free energy" anti-matter power instead of normal power, the situation for World War III is at hand or we all die. The ability of the Chinese/Russians to stop all gasoline combustion and all electronic devices world-wide *simultaneously* is present because they control the war machine which is the web of UL linked scalar devices linked to the moon/Mir/space station inversion of sun matter power station which will control all heat and power production while killing all soul/spirit/mind matter, leaving an earth of walking murderous zombies.

The goons used by the mafia and as assassins in industry and spy agencies are men or women implanted with a satellite-to-computer controller who flashes the kill image/order to "hate/murder" over the body water/bone/brain at key moments to create outcomes. They are being phased out except for troops like the monsters that descended upon the helpless mountain Indians near the Guatemalan border of Mexico to bayonet, decapitate and shoot the innocents. Tim McVeigh of the Oklahoma City bombing as also implanted and programmed.

We will see many horrible acts of terrorism, but stringing up the zombies is not the answer to protecting Mexico, Hawaii and the Eastern Islands (which must be done soon to secure the borders from the Chinese/Korean/Japanese land invasion). **We must identify the NASA suppliers, the bio-med and food terrorists, the neuro-chip billionaires** who bought Bill Clinton and fight for freedom for every man, woman and child in the West. Millions of Asians have brought *street weapons* such as neurolizer radioactive phaser/taser/laser impulsers to Universities as medical devices.

The ATF, Atomic Energy Commission, the FBI and FCC must learn how to monitor these *deadly* weapons and remove the Chinese UL system of power linkage from every hospital, hotel and home world-wide---or we will be slaves to a country (China) that now is openly promoting *cannibalism* of humans as a food source. The eating of human brains (instead of monkey brains) is now done in Malaysia with a living child strapped under a table with a hole in the center where his brain is exposed after skull top removal.

These are monsters, linked with the Nazis who will do anything to survive longer than they should.

Please send to News/Religious organizations, etc. The Cult Awareness Network now is calling for extermination of the rights of all Hassidic Jews, Catholics and Baptists. Next there will be no one allowed to pray, and all will be slaves to the cannibal vampires. (The author)

"Researchers" at the Acteal massacre Site NEWS

January 6, 1998 "Researchers" at the Actiel Massacre Site Acteal, Mexico trip NEWS

The "researchers" at the Actiel, Mexico massacre site are from the space/computer/power cartel linked with NASA. I have returned from Chiapas and am heading to Mexico City, but I am troubled to find the power system links here in Veracruz that the cartel intends to set up in Chiapas.

Large satellite dishes can be used with UL light fixtures, cable wires, and the newer telephone lines to listen to and see everything that is said or done in a house or hotel room by the parent company in China, or by companies who pay for pornography photos or pay for surveillance. Additionally, the use of UL smoke/heat detectors for radioactive contrast filming of inhabitants allow **remote computer operators to do interactive video for mind control**/virtual reality brain links to a computer operator or can be used to kill all inhabitants in the dwellings by a pulsing radioactive green or red (if room is dark) light and sonar system linked to the Tesla "tuning forks" on hills, the school telescopes, satellites, moon/Mir stations for *inverting* natural sunlight into poisonous radiation.

The filming of all childbirths, pelvic exams, and surgeries allows assassins to murder or torture any person seeking medical care in the HCA systems and other Oriental owned affiliates. The sale of parts of human brains, hearts, and sexual organs for **neuro-chip human robot research** is done on fresh cadavers, while mental hospitals are a cover for living tissue bank removal of brain matter especially, but also for sexual vitality substances.

Body farms exist which are run by World War II Nazi doctors. In the body farms, the brain stem of a human is left while the frontal and other lobes are removed to be transplanted into animals or kept alive in jars for space travel and for use as neuro-chip computer matter. **Neuro chip computers can only use brain matter of living humans** with spirit/soul (somewhere) because of the morphogenic link to life-giving properties and spirit intelligence, which is craved

by the depraved scientists. They use college girls with brain biopsies (unknown to them) for creation of sexual robots/slaves.

Since the majority of the key doctors began the research in World War II death camps, the focus on the sexual perversity has increased due to their inability to get erections. The aged men have developed virtual reality sexual orgasms for impotent **Japanese businessmen who inject Mexican men's testicular matter** into their bodies for sexual vitality. Voyeurism is their chief sexual pleasure, and so they hook the bedrooms and dorm rooms of targeted adolescents with machines that stimulate the genitals.

Bio-med computer idiots have tried all their new machines on me and my two friends. At one point in the Japanese-owned Waikiki Hilton, an Egyptian cardiologist jumped on me with an electronic experimental penis in his red spandex under-drawers, which was triggered by a radio station.

All spirit/soul matter is filmed by **radioactive contrast film techniques** which burn and weaken those targeted. Cameras and medical lasers are the new street weapons, *deadly* to those person desired as lab subjects.

In Oklahoma City, I and my neighbor (d) were tortured for weeks in our own homes, (which were next door to each other) by the space/bio-med researchers. A satellite directed MRI scanner, a heart and lung tester and uterus scraping from remote **“Pelican” Penguin” and “Peacock” medical devices controlled by computers** were used on us and (f). They are both with me now and can testify as to the horrors. Agents gave me a gametrial transfer in Wyoming (I had a tubal ligation 12 years ago), which they later neutron popped, causing me severe uterine injury and blood loss.

They did two forced abortions on (f) and virtual reality brain linked her in the Waco Texas massacre victims as they died.

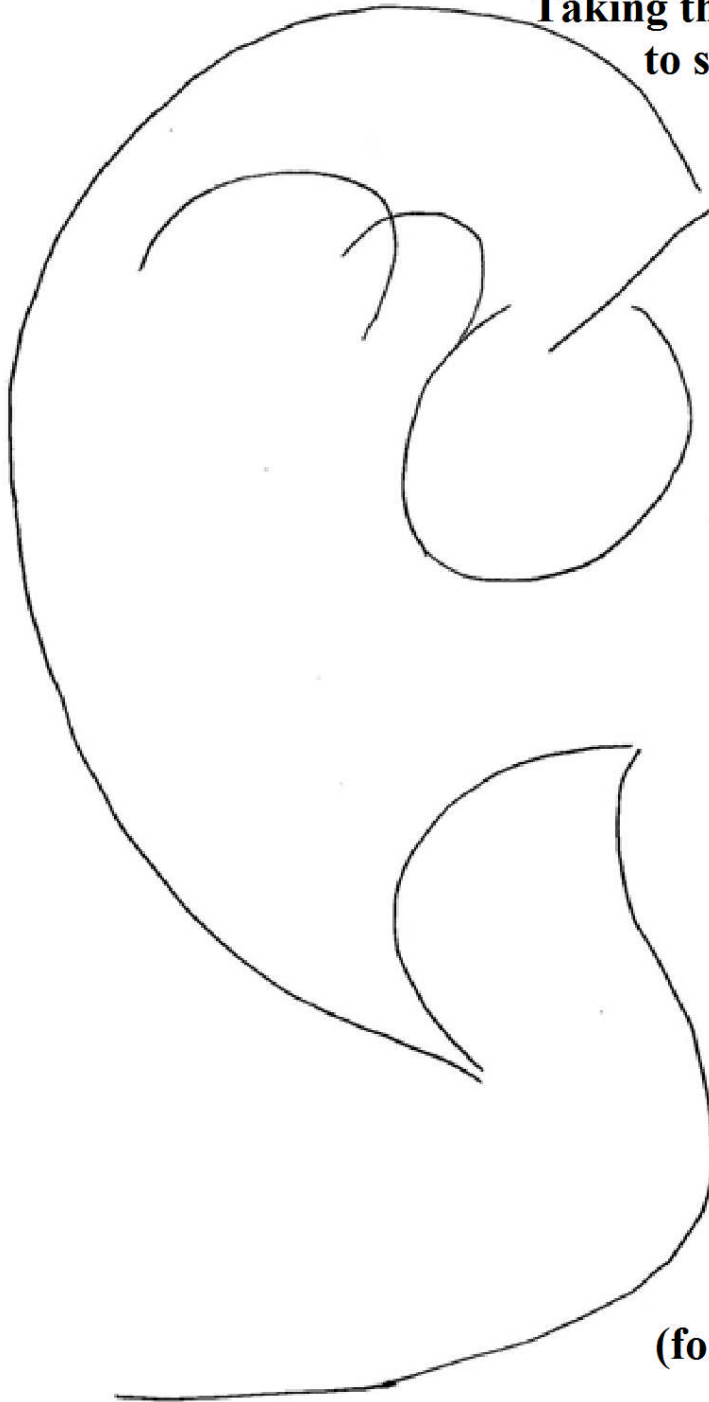

If Canada denies me refugee status because it chooses to ignore the many adolescent suicides of lab subjects rather than face the horror, I beg of Mexico to save me from Clinton---the whore of the Chinese financiers. (The author)

January 7, 1998 Intelligence is not Binary Thought Mexico MESSAGE Book notes

The shape of an egg is geometrically significant in that it holds within its mystery the truth of the winds. Trade winds, Northern Lights, planetary links with earth locations associated with genotype and the secrets to the time travel are in the egg...unfortunately a chicken wants to come first, and in doing so will crack the shell.

Anytime a man believes he creates his own reality by “positive” thought, mantras, donations to priests/shamans or by his own ignorant will to achieve a material success, he is embarking upon the road of the vain antichrist. Ahriman is the essence of binary logic which is unfortunately Roman in nature. Greek logic was *not* in egg shape but spherical---yet even those who can spin an egg on the floor to detect spoilage or health will *fail* in the millennium to come.

Beings of greater power co-exist with humans, as though the inside of a Chinese egg-box is the most vulgar, and the outer layers of the boxes: invisible to the inner.

The (willful) destruction of the generative powers of humans who *interface* the divine, results in a dark age or an age of false light of *Lucifer*.

People obsessed with surveillance, pornography and body farming (for profit) is in the illusion of: “heaven” in Lucifer’s Hell (for a season) with drug addicts.

The death of all persons on Earth is sure to occur if the desire to form the NASA tower of “Babble” continues, for it is fed by the whores of Lucifer and Ahriman.

Intelligence is not found in binary thought, trinary thought, or in the sick substances milked out of dying soldiers used for Bill Gates’ new computer: genotype mind substance “spherical” thought, which is filled with rage and murderous desire to avenge their genetic destruction by the NASA programs: neuro-chip human creators.

World War II *never* ended---the Nazi instructors at Berkeley, Vancouver and elsewhere have brought death to all of us.

Woo Guards and Stealth warplanes in Mexico; UPDATES

January 7, 1998 Mexico UPDATE

(The author)

We got our film processed at Fuji Film and they removed all six photos of the Japanese who stalked us to Chiapas---including the Japanese child who was dying that they did in the superconductive circle to our table (remember the headaches, itching and rash?) to extract body gases from us and put ours in the Japanese child.

Pictures of Woo’s guards in the black pants and white shirts outside our hotel were removed (same as in Berkeley). Also, they altered the photos taken of us that showed severe facial burns from their street weapons, so as to remove all evidence. We got hit by Bill’s pups pretty bad today but are recovering. Sure is cold tonight. We are going out to eat now.

2nd fax UPDATE

Stealth type war planes are moving into Southern Mexico---quite noisy overhead. We are being treated fine by the many interests here, except for the NASA agents; friends of the young agents who were bombarding Acteal’s poor children and elders. The mean Ruskie and Afrikaner women are in a rage (*line missing*) body robotics firms linked with Peru/China/Russia/Japan/N. Korea/Vietnam) because I can spot the satellite linked natives and have been pointing them out to the great local guys.

Remember the handsome cop who looked like Raul Julia at the pizza restaurant? He walked us home and is protective. The American/Brit/Ruskie/Japs were filming us last night. While (d) called (f), the cop and I began to kiss on the street with passion—and the Clinton men began to zap him. They zapped our beaus in Ireland, Switzerland, England, and Acapulco and elsewhere—so I will probably have to cool it or they will attack him with the nut dematerializer street beamer.

I may move to Hollywood and live with a Latino macho guy when Clinton is out of office and I finally get free of Hilary’s agent whores who try to eviscerate me, paralyze me or do the Margot Kidder wrinkle face. Oh well---Later

January 8, 1998 Mexico UPDATE

We will be returning soon and have a ticket set. We will call in the next few minutes to confirm the five drawings/poems (rough draft) for the next book arrived by fax.

I had to struggle to reach the point of reference for the drawings because we have the sadists here. I suppose the incident in Chiapas last year that we reported to the police about nearly being murdered (with “k’s” help) is being investigated, and the Hotel Zuriaga incidents. I don’t see any reason to talk to any officials and figure “Bill” might wait to cause me to shut up prior to Paula Jones’ trial or because of Reno contacting my Miami lawyer. Talk to you soon.(Author)

2nd fax: The East Coast and Canada are frozen up—so I may stay here ‘till things warm up in Montreal. Power is out there. I am fine, working on a book; here are some rough poems/drawings. Love, (The author). *(Note by Editor: the author’s drawings tended to be cut off, or completely blocked, not only in Montreal but especially in Belize and Mexico. Missing 4 drawings.)*

January 11, 1997 Mexico UPDATE Dear (family);

I have been informed that it is best to stay in Mexico during a major investigation by the intelligence authorities of the USA. I am all right and would love to have my children join my friends here.

The methods of the tortures that have wounded our family will eventually be known, but for now I must preserve my health in a safe place.

Clinton is paid for by the yellow devil who killed our men in Vietnam, but many loyal Americans will fight in the coming months to restore the freedom of Americans from NASA links to Commies. Tell (children) I love them forever and will continue to fight for all families. (The author)

Laser Impulsers with remote satellite links NEWS

January 14, 1998 Laser Impulsers with remote satellite links Mexico NEWS

Laser impulsers can destroy bone, flesh, brain or spirit/soul/body mind matter specifically by adjustment of frequency, waveform, type of gas used in the bulb and remotely by satellite/Mir/Moon station/Mars station links to super-conductive powered computer stations of private and military usage. The creation of a **market for mental gas substance** for neurochip robotic creation/neuro computers has enticed companies to hook up magnetized collectors in UL and other devices linked to light fixtures/motion sensors/and in cylinders in special backpacks or large handbags or electric wheelchairs that form a strong magnetic pull on the specific frequency/color band of a desired substance so as to trap desired substances. Collection of testicular or ovarian matter is done by setting scalar dials to initiate sexual stimulation which may be perceived as bugs crawling on one’s skin and leads to self-mutilation in children, urticaria without relief or masturbation obsessions without pleasure. Eventually the scalar dials are altered bit by bit until the black light laser impulser heats the desired body parts to gaseous state which is collected magnetically in containers or is merely used to castrate men and de-feminize women. Nose picking and bottom/crotch scratching is common since engorgement tissue is targeted for dematerialization.

The finding that Western Europeans and Blacks can be targeted in huge groups but Asians and (to Asian) re-programmed Whites/Blacks are not dematerialized during satellite directed assaults made way for World War III: **Removal of brain matter and sexual vitality of troops** so as to create *raging* tortured men who can be programmed by subliminals to kill on satellite command their own platoons.

I have been a victim of this research for many years. (A relative’s) brain is shriveled and she shakes with Parkinsonian symptoms at age 47. (Another relative) suffered syncopal episodes with confusion for years and now cannot control her bowels. (Another relative) is psychotic with bulging eyes and belly, and I think he is programmed by the government researcher to give false testimony, and to kill.

When I taught comparative religion/esoteric seminars, I was assaulted by NASA scientist(o) and AFB computer specialist(b) with beams and satellite assaults that left me bleeding out every orifice and near death. (One person) suffers from loss of pituitary/thyroid/generative hormones and induced obesity/arthritis pain, etc.

(Another person) remembered the beams as coming from aircraft in Guthrie, Oklahoma. (A third person) has been tortured for years and brainwashed to stop him from telling the truth. When I used to drive (a child) to Cottrell Elementary, he would walk up to the school and I could see his face turn ashen as a beam of light hit his little head, and he wept in pain.

Some people have ESP because they hear and see in broader ranges of time/space than the more blunted humans. Poets, musicians, great healers or thinkers have attributes desired by the creators of the neuro-computer which uses living human substances.

Trapping sensitive people in mental hospitals or jails for experiments or brain matter removal is becoming common place because blunted relatives can be brainwashed to give false testimony so as to create a false mental illness history to authorities. **Misuse of the Baker Act** should be addressed, since the creation of concentration camps is underway by owners of body-farm pharmacological/computer companies buying up hospitals/schools/hotels for group homes.

Every military man and agent is in danger because of plans to satellite link them to computers which are controlled by NASA communists. The beamers can melt down faces of actresses and kill teachers and cops. Please complain to lawmakers for justice and protection for all of us. (The author)

I saw the hoodlums shoot a cop (Antonio) in Mexico City last week with this on the street.

Used on me at Marriot by S.S. (causing seizures)

People take these on airplanes, buses, and can kill innocent children in class.

(Some are pens or cigars). These are examples of deadly over-the-counter weapons that can kill school teachers, cops, or drill holes in classmates. They should be *banned*. They cause strokes, heart attacks, paralysis, falling down.

Backpack “Beamers” UPDATE

January 15, 1998 Backpack “Beamers” Mexico UPDATE

The good news is that the backpackers with radioactive beamers seem to be gone! I guess the police ran them off. When we took the bus from Mexico City, the police took the backpacks from the agents boarding the bus and wouldn't allow them to use them during the trip. However, a Chinese couple with children sat next to us in the zocalo last night and used an atomizer device to spray a chemical hallucinogenic on us---but I sneezed so much it didn't get inhaled. It reminded me of my days as a nurse when we had a class in the hospital given by the narcotics officers on detection of drugs. They passed around a sack of cocaine for us to look at and smell. When it got to me, I sneezed so loud that I blew the whole baggy of cocaine all over the room (about a cup full). I wonder if it was cocaine last night? I felt a little weird afterward. Also, I was all dressed to go to the beach today and a spray of black liquid covered my dress inside the closed room. It either came from an atomizer installed in the fan or from a superconductivity tube, because the white cotton in the window was not dirty. In the past, they would take feces from war dead and squirt on me, but usually it was liquid extracted from the eyes of homicide victims, because the experiment was for me to (psychic) see the death and solve the murder mystery. In Oklahoma, they put eye drops in my eyes of murder victims' eye liquid which (when combined with centripetal forcefield and north-north magnetic field) caused me to merge with the murder victim and disassociate to the point of speaking in French and other languages of the victim and *seeing* the murder. Then, they put eye substance of living people into my eyes and I was put into centrifugal forcefield until I saw their probable future death. If someone was thinking of murdering the person, I could see it. That is how I saw Dole's potential murder, but it faded away later.

It was horrible and frightening in Oklahoma to have the agents drugging (d) next door and coming in every night about 10 PM and staying till sunrise. They hooked a machine up in the living room that was some kind of generator. That is why I fled Oklahoma. I was afraid (d) was so drugged by the agents to keep her from coming over that she might be killed by the drugs. She is ok now. We are going to the fancy beach down the street left of hotel about a ½ mile. (Author)

Arrest in the Zocalo UPDATES Last days in Mexico

January 16, 1998 Arrest in the Zocalo Mexico UPDATE

Yesterday I was sitting chatting with one of the many agents in the zocalo (who was with **Atomic Energy Commission**) when (d) was attacked by a Mexican woman who claimed “Toto” had bitten her leg. I had noticed an American agent handing the woman and several teenagers money earlier and giving them instructions for a set up. They bribed a little boy to hit Obie Juan Quixote, but Juanito didn't bite the boy. The Mexican woman was seen by (d) and me pinching her leg to bring up a bruise. No skin was broken and there was no dog bite. But the paid mob raised a terrible row and the police hauled me and (d) in the back of a pickup with machine guns pointed at us to the jail. We were given tests for booze and mental state and cleared. The officials were honest men and the police were honest good cops who cleared us. The paid-by-CIA whores were trying to get me set up by a child, but the children love me and Juan and (d) so they had to rely on a beggar woman to do the prostitution of her honor by lies for money.

It worked out, but the “HAL” machine people lasered the dogs pretty bad and today they are ill. Last week they lasered my face so bad I had red burn marks around my eyes and orbital edema. Also my spleen is swollen from the radiation sickness causing anemia/blood problems...but it is starting to go down in size today.

The Americans I met here want to defend the *US of A* because “it is the best nation in the world!” but as I pointed out to the atomic scientist last night, if America joins forces with Japan economically, then it will sell its soul, because the so-called harmless moon mining joint venture into radiation becomes a money reason to keep up the splitting flesh from radioactive-observed spirit (to use spirit as invisible astronauts or agents). Only by America, starting with Bill, *admitting* error in the use of human lab rats against their will in covert projects like **(W.H.O.) immunizations laced with diseases**, and America deciding to be holy and humanitarian, can we hope to ever sing “America, America, God shed His grace on Thee...” with any self respect.

I love all children in all countries, but the loss of mine in the monastery NSA experiment will grieve me forever. Please tell them I love them.

Page two (Please send on to Daily Oklahoman Newspaper)

I still hope to see my precious children, (and family) again. (u1), however, needs to confess his lies for money. As for the reactions of some of the students to the HAL experiments at the monastery...it is awful to consider how much could have been done for the good of mankind *without* the subliminals, microwaves, and carnal HAL stations; even so, we must look to the future, try to make things right in doing penance and then forgive and move on to the future. Every person is new each day and can change.

(d) and I were thinking of projects that could be healing to the heart. For instance, starting a Head Start type pre-school for the poor babies of 12 year old mothers. Acapulco is full of children with babies. It broke my heart to see one with syphilis, worms and no doubt every tropical disease that was only 10 months old with open sores being carried around by a child mother.

The HAL programs and DES/poisons encourage precocious sexual activity and child prostitutes. If Americans support the horror I see here by failing to *clean up* the so-called “freebies” which turn the Mexicans into experimental subjects and weaken their spirits, then it is no surprise Americans did it to *my* family and students and others in an ever increasing web of multi-national corporate theft of human dignity---because all the microbial/food alteration/child porn is linked to the desire by the HAL machine to control the minds and bodies of all humans on Earth.

You will never know the horrors I have seen in the last year. I know the CIA is supposed to torture me after framing me for some “crime” here. If I end up in a Mexican jail with a stroke, don’t give up fighting to keep medicine out of the mind control gulag business. ***Fight the cloning; use of aborted fetus, etc.*** The HALS *grow* fetuses for transplants now and for sex slaves/Stepford monkey wives.

I believe, though, that Mexico desires to *quit* sucking Clinton’s penis, because the economic slavery has shamed the holy ones here and is destroying the children’s minds. Other countries should help Mexico be free of USA tyranny because right now the Administration prefers white slavery to freedom. I will be at the Enrique Hotel. Love, (Author)

January 16, 1998 Mexico UPDATE

I am optimistic that America will try to clean up the mistakes it has made in regard to loss of civil liberties for me and (d) and will stop using citizens for experimentation. Even so, I am aware that it could have been a world-wide terrorist organization that was ignored by the Clinton Administration and was in conjunction with NASA. As long as people think they are safe by siding with sadists, there is no free America (or any other country).

At this point, I trust the police here in Mexico more than in Oklahoma since (d) and I were cut off from 911 services there. We have no desire to seek revenge for the emotional and economic hardships; (not to mention physical tortures) but do wish to preserve the lives of the children and let them know how important it is to fight for civil liberties and to know that their mother loves them with all her heart, soul and mind. I am *not* crazy but I have been tortured in ways I never knew existed. Even so, I have done my best to pull out of the horror of what I have seen. I will be fine near the

ocean for I fear confinement after being tortured in the attic and closet in Guthrie. You do me no favor to wish me into a hospital. Shell shock does not respond to such treatment.

(a), you see, edited films of *Waco* for some country, perhaps Russia, since Vladimir called often---and he was on a private agenda with (b) (aa1 and aa2) relating to military research clothed as UFO studies. (You recall he produced a film with “aa1” on UFOs.) The UFO abduction of (v2) was, I believe, staged by the same people who tortured us in Logan County, Oklahoma.

What I am saying is that you cannot hide from the danger to the children; if you knew what has happened to me over the last year, you would believe me. Only by speaking out can we survive with any dignity and free mind---because the use of NSA, NASA, Interpol, CIA persons to enact a world-wide corporate funded-one-world-government is failing, but the private companies still have the equipment used to create the holograms, the subliminals, the astronaut forcefields that rupture individuals and groups minds to create robots.

With all my heart I am telling you I will testify against no person except (b) in a deposition, and I have no clear understanding of the politics behind my loss of civil liberties. I only know that if you love the children and *all children the world over* then fight, fight, fight for the dying of the light...

Do not go gently into the “good night” of a government that bans books, hands over my book royalties to its agent (b), who condones (c’s) use of CIA computers to change my medical records so as to thwart me from obtaining employment.

All I want is to see the children safe, to write books on universal Laws, to be able to get a job or have my own royalties so as to survive. Please look into your hearts for compassion to the children’s loss of their mother. (The author).

Right leg is neutron popped; Author taken to hospital UPDATES Montreal

January 18, 1998 Montreal Report from (f) UPDATE (Estimated date)

Transcribed from (author’s) phone call with (d) (The author’s earlier fax was blocked).

My right leg was neutron popped by a group of Japanese dressed in black leather jackets, as I left the mall.

It looks like surgery will be done today or tomorrow for installing internal metal rods and pins for tibia and fibula.

They also stunned me with a head impulser.

Children may call to my room #514-340-8222 room 3311A ext 1314 or (---) may have some news.

I am in great pain but will be okay. (The author)

January 18, 1998 (Estimated date) Montreal UPDATE

DETAILS OF ASSAULT IN MONTREAL

Gazing at the X-rays, the ER doctor said my lower right leg was “spaghetti” (maybe he meant spumoni). The ankle bones are mushed and the long bones are split like kindling. When it happened I was just opening the Plaza Mall’s doors and then felt a sudden flash of burning light and pressure at the base of my skull and right leg. Suddenly I dropped onto the icy sidewalk concrete because my right foot and leg gave out without even attempting walking. I was then having a seizure “aura” of lights blinking, nausea and blindness with confusion on the ground but then another beam-imploder hit my foot and leg, pulling it into a near 180 degree rotation dangling near the calf. There were maybe two Asian men who had followed us in Berkeley and Mexico.

These new weapons may be the most deadly of all handguns. Make no mistake: it was an attempt to kill me. The one used on me at the Marriot caused the same seizure aura headache, but spared my legs.

I know that Janet Reno attempted to put me in the NSA/NASA research facility for life with calls to my lawyer and the judge who was given a pre-trial presentation of forged/falsified slander/libel so as to use me in the neurochip research. The woman who was beaten nearly to death in the Miami gulag was an illiterate Cuban but one day she burst out in Queen’s English ordering me to Britain.

Disabling me in a hospital or having a stroke or rotten leg or burst colon due to NASA hardware has been somewhat accomplished, but I will try to get through tonight’s surgery.

I only ask that if I develop a sudden “turn for the worse” that the rest of my friends and family fight against the fourth Reich and the Gestapo NSA, Man-in-Black torturers of millions. (The author)

(Note by (d): The assault is described exactly as I remember it. She was walking directly in front of me, and just outside the front door of the hotel, she dropped. She did not trip, and I was the one who heard the doctors discuss her ankle while they were looking at her x-ray. Neither one could understand what they were looking at, both were discussing it and one said it looked like “spaghetti”).

January 19, 1998 Montreal UPDATE

To: (Family/Attorneys):

They had to loosen my cast today and I wonder if I may be throwing clots. Three times yesterday and once today something happened while I was resting. A sudden sharp pain in my right calf was followed by heat moving up my leg to my thigh. Aching is present all the time but worse after the attacks. It is difficult for me to have my leg on the (sides-?) because of the shattered joints on the right ankle.

I did fine after surgery, which lasted 2½ hours with general anesthesia. I felt much better with the bones pinned/plated until 1:30 AM today when the sharp pain followed by heat moving up my leg began. Now I hurt all the time.

I am writing this to document that I informed the nurse and surgeons before sending this. If I throw a big clot and die, please divide my assets with the children and (another child) 6 ways. If you write a will, to that effect, you could fax it to my Montreal phone and I will see if the hospital notary can witness it. I am in under (the author's name) at the Jewish General Hospital #823 (The author)

Scientology Market for Body-Mind Substance NEWS

January 20, 1998 Scientology Market for Body-Mind Substance

NEWS Montreal

The laser impulser used by Scientology is a destroyer of the body-mind substance so as to empty a person of links to their past attachments and memories. That in turn removes social morés and “frees” a person from guilt and responsibility of action. The result is an amoral person open for mind-control by a government like the Chinese---the state becomes god. The e-meters and weapons destroy one's ability to think creatively, so people become boring and loveless and shallow.

The buy-up of hospitals and rehab centers by the owners is linked to the market for body-mind substance in the new type of computer using “neuro-chips” brain/spinal fluid extracted from the eyes of people in magnetically altered rooms during Scientology “auditing”. Pharmacology and computer/ bio-med firms purchase the body-mind substance from Scientology related hospitals/mental health clinics/out-patient drug and alcohol treatment facilities.

In short, Scientology is a vampire business that destroys human dignity, leaving a person empty and unable to love.

REVIEW Montreal

January 25, 1998 Montreal REVIEW

Dear (family):

I have a doctor appointment tomorrow to perhaps take out some of the (transkenetion?) leg staples from the bad T-F ankle crush repaired by internal rods/plates and pins. I don't do well with a walker, so am in a wheelchair for now.

I got the notes at Christmas. Since I was in Oklahoma twice waiting to see the children at the Waterford and my former home, it is apparent that unless I let (e) get away with his crimes that I am to be rejected as the mother. (e), (b) and (o) tortured me for years with the blessing of NASA/Air Force research and (q) joined in on payroll. Janet Reno attempted to hide government use of civilians in NASA research by having me arrested in Miami and Oklahoma City without cause. My lawyer (--) admitted Reno called him to intervene to have me hidden away long term with the NASA affiliated gulag.

If (a doctor) was on call when I had a heart attack at Griffin and seizure at Crisis Center, then he should admit his error and quit trying to block me from seeing a neurologist. (e) is a professional liar. I beg of (family) to *consider* that I bled out every orifice while in captivity for their experiments, and have fought the NASA contractors to this day, for the children.

The confusion I had for a long time was in the movie industry link to NASA field research cover-up. When the author of “E.T.” was spending three weeks with me in Edmond, all the kids thought it was great. Then movie producers (h), (aa1) and (a) moved to Guthrie with NASA's (o). It was to do **virtual reality neuro-chip research** covered up by an alien from outer space cover memory for a major movie.

I was drugged, poisoned and put in the attic with subliminals of murder for weeks on end. They also had a rifle point out of the monastery to N. 2nd in Guthrie, so I would fear leaving the house, because they wanted a location controlled experimental subject. (g and g1) *both* said on wiretapped phone that (d) was planning to kill me. (o) bragged about plans to get rid of the antichrist—my sons—in a letter to (cc2).

I am saying all this to *plead* for my family to consider my pain and love for the children—but I fear (e) for good reason, he is a *sociopathic* murderer.

There are a lot of good agency people willing to back me up and help me recover from this research program. I entreat my children to hear how I love them, forever. (The author)

January 28, 1998 To former students Montreal LETTER

If you or anyone who was at the monastery develops a skin rash with bumps and/or scabies-like streaks under the skin that look like wrinkles but are burrowing laboratory engineered mites, take and do the following:

- Crush one garlic clove segment and put inside squashed bread to take four times a day (or double up twice). Take Goldenseal root and/or Burdock root in dowsed amounts at same time. Thyme capsules are somewhat helpful, or put 1 aspirin in Thyme oil to reduce stinging and apply to skin.
 - Look for signs the bugs are crawling out eyes and mouth by the red dots, white bumps, and red streaks. Up the dose of garlic then. Wash face with Clorox solution and rinse mouth with it twice daily. Shower, rather than bathe.
 - Make a Peppermint/Castile soap mixture (Dr. Brunner's soap) with ½ Clorox to scrub skin with. If mites or engineered lice are on head, hair will fall out on the location of a satellite subcutaneous implant or beam site for the (o)/NASA mind control project. Use *diluted* tick dip shampoos.
 - Failure to chlorinate mouth will cause blood poisoning by the bugs eroding the vessels and carrying germs to blood, then heart valve infects. (Do not let children swallow it)
 - A sense of fugue—of non-time, of dull headache with eyes appearing withered and bloodshot, ability to eat but belly bloat and muscles waste away, means the house power is being satellite linked to the Caucasian death scalars.
 - You eventually *die* in such forcefields.
 - Go to a hotel if it gets to the point you don't want to get out of bed. Unwired basement may work.
 - Remember they burned the Waco babies alive and tortured the Heaven's Gate men for 20 years before murdering them. Everyone who was at the monastery was either a NASA/NSA agent or one of the victims. They kill all research subjects eventually. The only way to live is to fight this publicly.
- Blessings, (The author)

January 29, 1998 Experiments in Group Mind Control Montreal NEWS

The experiments in group and individual (computer to satellite to target population) mind control started in full swing during the Vietnam War to take over the minds of the Americans, all the Chinese backed communists had to do was interfere with sleep patterns by **sonar entrainment impulsing the brains of soldiers** and bombarding them with seductive confusion messages. Bones and teeth pick up radio-television signals present in an area, and in some cases, the visual and auditory signals are interpreted as an overlay hallucination of images, songs, etc.

Sleep deprivation encourages the computer image/sounds interpretation to be perceived as a living dream. The creation of agent assassins by individual mind control is common; with the bedroom of the agent wired to satellite connect to the “owner”. Acceptance of an owner/controller is initially enhanced by laser/scalar genital/pleasure center of brain stimulation paired with subliminal images/sounds of the controller. The reinforcement of simple command obedience (usually subconscious during sleep, with pleasure stimulation eventually becomes intermittent reward for more complex command obedience.) Eventually the commands and stimulation are moved into daylight hours while the subject is agitated and wakeful at night or sensor forced into non-REM sleep of a coma type.

The moving of sleep command and pleasure reinforcement into daytime duties causes personality changes in the subjects resembling psychosis but marked by a measurable electronic forcefield out from the subjects head or groin and noticeable heat on one part of the body picking up the satellite signals. Some people with strong wills refuse to obey commands even in dream state with pleasure reinforcement inadequate to control them. These subjects are highly valued, but are then put through the *punitive* tortures of body and mind—including social isolation and torture of loved ones by organized slander, genital dematerialization and loss of income by government sanctioned theft by space “studies” employees (computerized employment files and medical/psychiatric history are altered or *created* by a sudden arrest under false charges and placement into a “mental” gulag where the destruction of the strong will of the *desired* type of evolved subject can be completed by “softening up” torture machines created by NASA.

Almost 90% of the population can be controlled by intermittent pleasure reinforcement, and five percent are not controllable or valuable as agents. **The remaining five percent are often the most gifted academics, musicians, writers, scientists or psychics who tend to have magnetic personalities from birth.** Of this group, few would be controlled long term with pleasure center reinforcement and REM blockage at night, because they tend to slip into dream states during daytime to solve problems and are still functional.

Control measures in this group resulted in “hallucinations” of “spirit guides” or supposed “aliens” or “ancient masters” channeling information to only those rare individuals who can tolerate hearing and seeing in normally subliminal/hyperbliminals bands.

When these individuals are informed of the NASA scheme and fight the communist scheme to use the satellite system to create a “People’s Republic of America”, they are called psychotic or killed. The agents who are tagged to become robocops are often *killed* after an operation (Waco, Jonestown, etc.).

Most government agents are being hit for group control “softening up” so as to create mindless obedient servants to a political master. **A tendency to go into rage attacks, confusion, and disturbed night dream sleep with genital/anal tickling sensations is usually followed by impotence and depression after a period of euphoria.** Hence many are drugged as manic depressives and lose their jobs and families or commit “suicide”. Virtually all politicians are targeted, as are royal or wealthy families.

I have been a research subject for many years and have been filmed in several countries for NASA training videos (while being tortured) so I have learned to recognize levels of the mind control program---having been “granted” the most brutal Russian, Nazi and Oriental torture experts in the field as my “owners”.

Bill Clinton and Canada’s acceptance of the NASA/space studies programs in Universities is death to all freedom, and will lead to mass chaos with communist overthrow. (The author)

January 30, 1998 Montreal UPDATE

Dear (family)

.....Surgery was hell with crushed leg bones and ankle not set for 2 ½ days. I see a neurologist soon for fainting spells while trying crutches, and a type of *odd* intermittent seizures that stopped when I got home and went off the pain killers' shots. I guess Morphine lowered my seizure threshold.

The hope I have is that Canada will take a position against the use of civilians in NASA/military research. Since NASA researchers are in Moscow and Japan linked their military there is no natural security with NASA linked to KGB. The sadness of the last few years of torture, I hope, will heal in all of us. Since I was popped in the leg with the new "Davy crocket" neutron poppers, I fear the Orientals behind a lot of the neuro-chip human computer research that was done on me and (---) especially. Please tell the children I love them. (The author)

The "smoke alarms" that have green or red laser lights can be used by satellite-linked computer controllers to alter the oxygen in the room and in a human body so as to link up with chemicals and microbes engineered to produce a desired mental condition or physical state. Cloud seeding a blue chemical produces a water system toxin that settles in human brains, testicles and ovaries. The Chinese-terrorist created radioactive interactive beamers present in toys, electronic machines; car radios (often orange lights) are satellite linked to produce a predictable reaction to chemically sensitized humans. Mind control, mutation of normal body flora to cancer producing hybrids, and loss of sexual ability are side effects used to weaken military men and a population at large for invasion by the Asian-backed commies.

Political Outcomes using Mind Control NEWS

February 7, 1998 Political Outcomes using Mind Control Montreal NEWS

China experimented with massive mind control measures so as to control political outcomes. These methods were used during the Vietnam War against Americans and have been expanded into Soviet territories, Cuba and test groups of the United States and Canada. Takeover of the free west has been in progress for many years, with the Clinton Administration allowing “testing” on American citizens by Communist drug, computer and bio-med firms allowed on American soil. Tortures include 24 hour a day **sonar, thermal radioactive contrast, virtual reality computer linked visualization** of key subjects using satellite linked equipment and humans whose eyes serve as video cameras. Sometimes dogs or cats are used as recorders or UL “smoke detectors” use the laser recorder. Surveillance systems common to airports and malls are deadly to humans working in such forcefields. Over a period of time, sterility, impotence, frigidity and insanity are known to occur. (As in Romanian birth defects and massive child dumping into orphanages with insanity and autism common in target areas where the “surveillance” of all citizens continued for over ten years.) Lesser known (or accepted) is the fact that the effects of such body forcefield invasion in a police Gestapo state will vary dramatically according to racial type. Passage of the National Securities Act in the USA allowed the Gestapo police state now in power under Clinton.

Nordic women became passive, bland, bisexual sociopathic persons if born in such an “interactive” surveillance forcefield. Intelligence is lowered in all persons born in such a forcefield. Nordic men become depressed and hostile when sleeping in such forcefields, while boys born in the forcefields tend to have reduced size genitalia and slowed growth with reduced height. Middle Eastern persons and Romanians of gypsy (Egyptian) roots become psychotic develop hairy cancerous moles and if born in the forcefields tend to have murderous rages, do self-mutilation and will steal anything and lie profusely. Orientals raised in the forcefields have become cannibals who are shorter every generation without secondary sexual characteristics. They are now dying of the “HIV” flu that grew out of the mind control research. Women raised in the third generation in China and Japan target areas of such interactive “surveillance” have no labia—just a hole that stretches out, and their ovaries are small with only 10-20 years of hormone functioning and egg deformities of 80%. Most are aborted.

The buy up of professorships at the universities by Japanese, Chinese and Korean businesses is an attempt to lock into the Western student population and to get NASA and government contracts associated with neurochip human robot creation—which failed miserably and kills the research subjects. The research data is horribly flawed. The complete loss of normal REM sleep in such surveillance and interactive forcefields causes hormone blockage, hair loss, confusion, cancers, depression and death (in targeted military bases especially). Persian Gulf soldiers are being murdered slowly by **genotype specific magnetic forcefield assault** with the above mentioned surveillance system which is controlled by Russia and Japan. The Moon Base and space stations control the power source. Predictable effects have been hidden by creation of falsified studies by bribed and drug addicted researchers from California and elsewhere. Introduction of laced heroin, cocaine and marijuana into the college campuses has bio-chemically sensitized the faculty and students working on top NASA projects to the mind control reception of the communists who are using them to take over the West. The same businesses that have NASA contacts sell the information to Saddam Hussein and distort the study conclusions to increase profits for communist firms dedicated to the overthrow of the West.

I have been an unwilling research subject for NASA for many years and have traveled widely in an attempt to study the effects of the research on others in various countries. I was (of late) put in various **satellite directed forcefields** and ordered about and when I refused to follow orders, my leg and ankle were neutron popped by an Oriental man using a common Soviet, Japanese handgun similar to a medical laser impulser dialed to “bone”. I entreat anyone who reads this to fight for freedom from the “surveillance” systems which kill Whites first, then Blacks, then Middle Easterners, then Orientals. (The author)

February 7, 1998 Political and Industrial Terrorism

NEWS

One of the greatest acts of political and industrial terrorism was the use of **Scalar electronics with the Tesla-based** world-wide deadly power system linked to a mirrored moon nuclear base to *dematerialize* the sacs of silicon-based breast and penile and other implants. The competitor paid the NASA contractors to destroy the health of millions of women and men so as to sell a newer type of fluid and packaging material which is a strong Scalar receiver of the new subliminal mind control, body control system linked now to UL light fixtures, smoke detectors and TV, cable and automobile (Oriental based) digital products. the deaths of hundreds of Japanese children (and some with grand mal seizures) were reported *then hushed* during a **test Scalar surge on a neuro-death frequency** ruled by Japan's space program linked to those "tuning forks" on hills, all telescopes in universities, and *all* surveillance systems on the link. If neuro death of only one genotype is turned on, then that genotype dies while others (such as Asian) are spared. Or, a range for *all* persons can be set.

The surveillance systems proposed for the NASA owned and corporate "new" Earth power systems were proposed as an end to the energy crisis because they use an **anti-sun nuclear splitter** more deadly than any nuclear plant on Earth. The "free energy" from water and air splitting is the neo-nuclear type which by its nature *replaces* elemental matter with a suction force toward a black hole in space, threatening all life on Earth. The linked "power" networks from the mirrored moon base to satellite to Earth telescopes, cable and computer internet web can over-ride all other electrical sources to short them out, produce melt-downs and also inactivate all gasoline combustion engines in target areas; but terrorists plan to take over the energy market by world-wide *shutdown* of combustion engines, heating and power systems other than the one mirrored station source. The ocean is becoming a sea of death and deformity, and the birds are losing homing and mating instincts. **The Quebec ice storm was produced by the terrorists using NASA equipment.**

Also, the surveillance system can kill or lobotomize whole genotypes. The proposed (and nearly ready to expand to) world-wide usage by the corporate giants of the new internet linked to the surveillance system can be compared to the new computerized laser imagery and tumor removal medical systems (Pelican, Peacock and other names). The visualization of persons bodies in the forcefields set up to receive the new surveillance is so precise that computer **operators can digitalize your every move, word and are working on a recording of all thoughts and images** for the super surveillance machine that also can interact. A computer operator in a virtual reality chair is linked by a laser from satellite or digital feature to your eyes or through your skull. Then, he or she observes and listens to your thoughts and introduces in your digitalized voice or by recorded image an overlay for control of thoughts, emotions, and behaviors. **This is used on key politicians and for corporate takeovers.** (I have been used in this research). They can then laser away parts of your body or brain while you are hypnotized by the person on the control panel chair.

Additionally, the death of a person can be slow torture by the crossbeams of the "surveillance" device being turned to the frequency and waveform of the nerve tissue of the target. Tremors, confusion, headache like a hangover are early symptoms then stupor and death.

A faster assassination can be set up with portable machines set up to crossbeam a body part of a target person sitting in a theatre or restaurant. The beams are usually in invisible range, but produce nausea and pain. The persons using the devices can set them on "audit" just to monitor you a low dose or on nerve dematerialization. They can set the machines around a house specific to a target person to torture him to death.

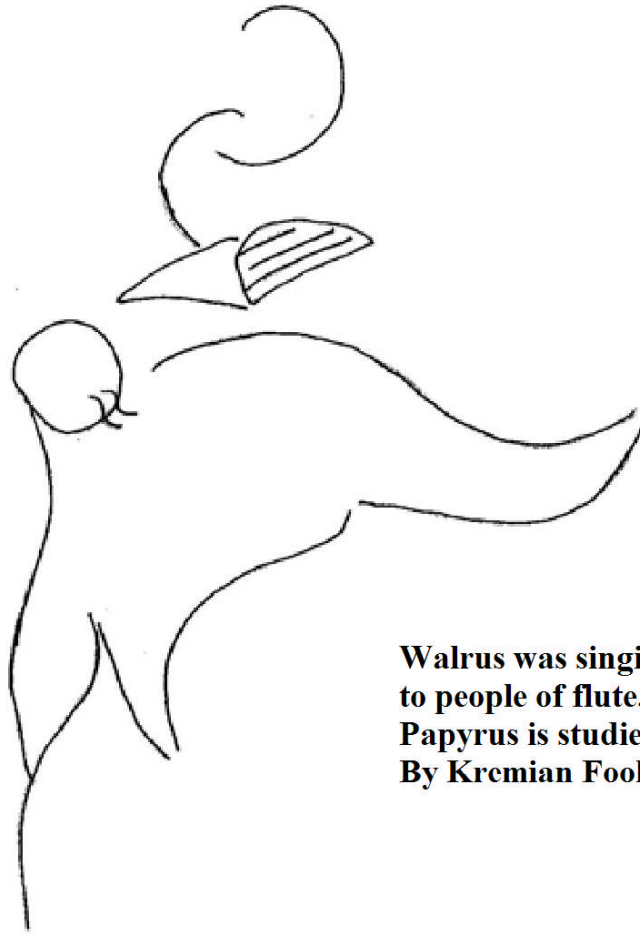

Judges and juries can be satellite controlled by the method, and a diagnosis of drunkenness on the bench is common, or mental illness. Later Parkinsonian symptoms appear and brain matter shrinks or a stroke occurs.

I have been tortured by these monsters for bio-med neurochip research, and have had my apartment wiring locked into the NASA power source for torture. There will be no doctor or nurse safe, either, for hospital surveillance and lighting systems can control a surgeon's hands.

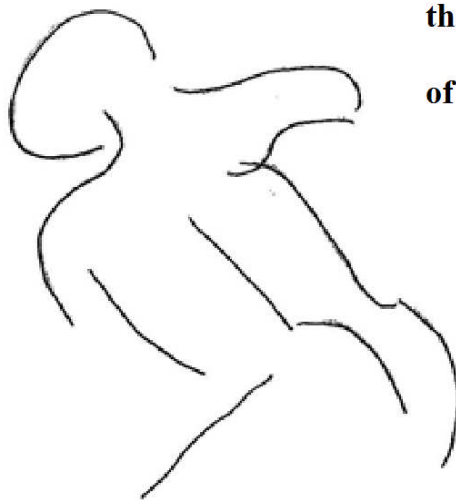

Making humans passive is the desired outcome by the corporate giants who have purchased Clinton's presidency and threaten the lives of all persons on Earth. (The author)

Fax #1: Dear (family); My neurologist here says I have temporal lobe epilepsy but final diagnosis will be made after MRI, EEG and (sleep deprived) EEG tests next week. He told me not to drive and asked if anyone who witnessed any seizure activity could write it up, fax it to me and I will bring reports to his office. I know that in Oklahoma I was having the staring mute spells around (---) and lost time and froze while pouring water---spilling it. I sometimes faint and weep upon waking.

It was very unfair for OMH to deny me a neurology consult, for I could have had a wreck during a seizure, and hurt someone. The doctor said I may have an infectious brain cyst. I will let you know. Tell the children I love them. (Author)

Fax #2: (To -f-): I saw the neurologist today. He is an orthodox Jew and very decent. They started hitting him by satellite but he did ok. He said I have a possible infectious brain cyst--but for sure Temporal Lobe Epilepsy. He will treat me fairly (unlike the slimy Americans) and I have *many* tests ordered. Documenting the loss of brain matter, etc. is important (but the *Gestapo* alter all the test results in the USA). Call back to my apartment if you need to. Love, (The author)

Nazi Based Experiments on Civilians NEWS

Feb 14, 1998 Nazi Based Experiments on Civilians Montreal NEWS

Vaccines made with chicken eggs are still linked to pre-manifest and other matter of the mother hen and rooster. If the eggs are non-fertile, the hen's father is the yang influence. **Monkey vaccines** are far more dangerous because the primates share a developmental tree with human forms (not spirit/soul) and so can transfer diseases more readily to man than effect genetic mutation tendencies. Even worse is the use of **human vaccines** that are from lower developed genetic pools or from dying genetic pools.

Doctors in experimental clinics in Mexico, South America and elsewhere have seen that **injection of aborted fetus matter that is still viable** (the pre-manifest aspects are linked to parents) into deformed, diseased or elderly persons can produce an appearance of youth and beauty with some symptom removal. The problem was that the fetuses were often from prostitutes and so carried diseases, but also the effect was transitory. When the etheric/ether links to parents snapped, the effects vanished. The researchers began to see that parental qualities of genetic superiority were the keys to achieving the most beauty and health from the fetuses. This led to the market of **body farming** naturally beautiful, intelligent and healthy people so as to extract plasma and other fluids which contains (visible by radioactive contrast spectrograph) links to regenerative forces of nature known as angels, and soul and spirit components.

The spectrograph filming of people in decompression chambers during death started in Nazi Germany and continues to this day. Some people were shown to have angel-like light beings in their bodies that could exit and return to the form of the owner. They filmed deformed angels in evil people which looked like demons and produced disease if forced into another person by hyperbaric chamber usage. Guardian angels of children are highly prized because they produce beauty, health and a look of innocence if placed in a type of lamp used of tanning the bodies of rich or ill persons. forcing guardian angels hyperbarically into the bodies of evil persons does not hold, so the Nazis decided to make "waters of life" out of the trapped angels by circulating water with some alcohol in it around the angel and then having diseased persons drink the water.

A portable decompression chamber for extracting body fluids from people with angels was created. The portable extraction device works by a super-conductive beam directed at the subject's eyes and body. The device can be hidden in electronic wheelchairs, be in a suitcase, vehicle or be directed by satellite through low flying aircraft. The device can be reversed for hyperbaric installation of a diseased person's fluids into a healthy person for morphogenic field link, creating bloating (rather than withering) of the face of the target. The decompression extraction tends to bloat out the subject's belly while blanching and drying the hair and face. The creation of an abnormal magnetic field in a human body causes compensatory measures of increased girth, agitation and desire to run. When adrenal exhaustion sets in, lethargy and non-REM sleep with headache preclude death or insanity.

The use of such devices as part of military and NASA equipment by Nazi experimenters in life-after-death studies upon me and others in Oklahoma and elsewhere was covered up by paid "witnesses" who were lured by profit motive to give false testimony about whistle-blowers to kill them or hide the lucrative body farming and white slave components of the business. NASA scientist/(o), Air Force computer psychologist/(b) and persons hired by Chinese/Korean/Japanese/Nazi bio-med firms were given *carte blanche* to pull fluid out of any citizens of the United States they picked for laboratory specimens. Hypnosis and drugging the subjects so as to do brain needle biopsies was routine, and probably

killed Jon-Benet and the baby in the *Au Pair* British Nanny case. Most subjects never recall seeing the researchers or they are murdered.

The other alternative is to sleep deprive and torture the subject into a mental hospital and then shuttle him/her off to one of the private Nazi research facilities with a “grant” paid for by some mysterious donor or suddenly wealthy relative. **The mind-controllers easily alter memories** of witnesses with the new impulse laser devices linked to controllers and can introduce memories of molestation, murder or torture (as they did to the Virginia McMartin preschool children) so as to estrange children from their parents and set up a criminal case against whistle-blowers.

If Americans, Canadians, Mexican and Europeans do not stop their own governments from allowing Nazi based experiments on citizens, then suicide and murder rates will skyrocket.

The use of filmmakers in the industry is important because the propaganda of an E.T. invasion is used so as to sensitize victims to a cover memory under hypnosis of being abducted on a space ship (Heaven’s Gate members were a NASA created “cult”). Secondly, pornography images are used both subliminally and in dreams to reinforce hypnotic commands in the neuro-chip human computer robot creation aspect of the “research”. **Some body fluids store data** like a computer and can be retrieved electronically, so brain/eye fluid extraction of living persons is part of the bio-med/computer harvest program. Stimulation of persons with lasers on their genitals while hypnotized and drugged allows NASA propagation specialist to “study sexuality” and creates the porn market. In Mexico I saw virtual reality computer chairs with *real* amputated/stuffed penises and vaginal “gloves” for men and women to use while linking mentally by satellite to a laser stimulated hypnotized sex slave. (See news article on Turkish TV-sex-to follow). I also saw stolen White babies which were sexually tortured from birth by Black slaves for the baby sales to pedophiles. The tormentors make some victims think they are being sexually stimulated by the “astral body” of another person. They did that to a wonderful Italian classical composer I met here, so he sent me this Valentine which implies we met in a dream. They did it to manipulate him and me, or as a cruel joke.

The use of sealed dormitories and hotels with central video “smoke” detectors containing green or red lights is common for the porn creators. Also some of the hotel wiring has Scalar and magnetic forcefield alternation devices to extract body fluids from healthy, beautiful people to sell to the vampires. The creation of vaccines by injecting persons who have strong immune systems is another side business. I have been given many diseases and was injected with cancers for the “research”. My earliest concrete memories of the brain tissue removal through my nose was 16 years ago, but the repeated entries left me with seizures, fevers and headaches.

Another related industry to the robot creators is the filming of people on the street or on a set who are virtual reality satellite linked to the director. The filming requires a deadly radioactive beam that entered the bodies of children in the park here in Montreal last fall as I watched during the filming of the movie *Snake Eyes*. There is no one safe on the earth from these competing bio-med/weapons/computer firms. **The most beautiful and brilliantly talented are targeted** to be vampired to death either in an asylum or by sadists in their own homes (as I was). (d) and I have been stalked, robbed and tortured by (b), (o), (r) and others while (w) pays “witnesses” to bear false testimony to shut us up.

Two years ago I wrote President Clinton an impassioned plea for protection against the researches who were entering my home *daily* in Oklahoma. I sent copies to newspapers. Clinton’s decision was to allow the foreign researchers to continue torturing me in a research mental gulag or to kill me to shut me up. Killing *all* whistle-blowers of Nazi projects linked to his campaign finances seems to be his solution. Many witnesses have been murdered (“suicide”). My student (g) was tortured to death with her pet dog and tied to a train track in Oklahoma by the ghouls.

I entreat all persons reading this to know that slander and libel of all witnesses is part of the cover-up, and to look into such “research” for your own safety. (The author)

February 16, 1998 news article: Tom Cruise? Nicole Kidman? Computer sex with your dream lover is on the way!

COMMENT: The other consequences are: creation of socially inept selfish egomaniacs too lazy to spring for dinner to get laid who are bald on one side of the head where the satellite beam enters. They become blunted, lazy, retarded, and evil.

Warning: Try to make these illegal:

- These programs lock into other persons online who have virtual reality satellite brain hook-up capability to see and feel the computer user’s orgasms and film them.
- The machine also creates a condition of magnetic force field alteration and irradiation precluding absolute neurological degeneration malnutrition and impotence/frigidity.
- Call in phone sex also links to (sometimes) satellite to addict users by scalar stimulation of genitals (companies bring power company time for the ground wire or phone/cable impulse line usage).

Text of news article: *Washington – Hillary Rodham Clinton’s ability to win round public opinion with “little or no substance and no reasoning” has been recommended as a model for Chinese Communist Party cadres.*

Yu Quanyu, the director of the press and media institute at Beijing’s Academy of Social Sciences, picked U.S. President Bill Clinton’s wife as a shining example of a successful manipulative orator, for apparatchiks to follow.

The accolade, in an article in Ideological and Political Work Studies comes at a time when the first lady is credited with repairing her husband’s scandal-damaged fortunes with a blistering attack on America’s “vast right-wing conspiracy” during a nationwide television appearance two weeks ago.

That performance is seen as a triumph, particularly her denunciation of Clinton’s detractors and her suggestion that Kenneth Starr, the lawyer investigating presidential obstruction of justice, is a political partisan in league with Republican extremists.

Ever since, news media have focused so much on Starr’s investigative techniques as on Clinton’s alleged attempts to cover up a sexual affair with a young White House staff member.

Computer Chips for Pets NEWS

February 19, 1998 Computer Chips for Pets Montreal NEWS

I read about how satellite dog and cat trackers are made with computer links to store with vet information that are smaller than a grain of rice that would also work on humans. When we were in Berkeley, California, (d) and I caught a Middle Eastern woman leaving our hotel room with the dogs yelping and barking. Muffin was pregnant, but apparently her vagina had been entered because she was bleeding and crying. Juanito had a swelling on his spine with spinal fluid leakage. I also noticed a black speck, like a tick, near his left eye. I assumed it was dirt until last night when I saw the thing had grown and would move and start to back out of the skin when I put alcohol on it. I tried to pull it out but it was affixed to his head with a bright metallic pin that has a microscopic *lens* on it that was not visible until I damaged the tick. The metal appears to be platinum. Juanito and Muffin walk in pain and “stare” all the time. Then I remembered a student in a class I gave here in Canada years ago that had one on her *face*. I kept staring at what appeared to be a mole but had a shiny center. To my shock the “mole” moved. I am sure that was a satellite tracker camera lens. The Egyptian cardiologist (in Hawaii) had a shiny speck in his eye that glowed the same way when he would go into a daze and change his accent. One of these fell out of my nose but it had burned away part of the bone on the left bridge from the fact that it served as a receiver. My nose was re-broken and straightened here in Canada (because the sliding bones in the back occurred when - a- tried to shove my nose into my brain to kill me, and an artery leaked all the time for over two years. I didn’t tell the doctor). The doctor checked my nose after surgery—it was fine—but a month later the weird shiny thing fell out and with it went a piece of bone. I had a lot of heat in my nose till then.

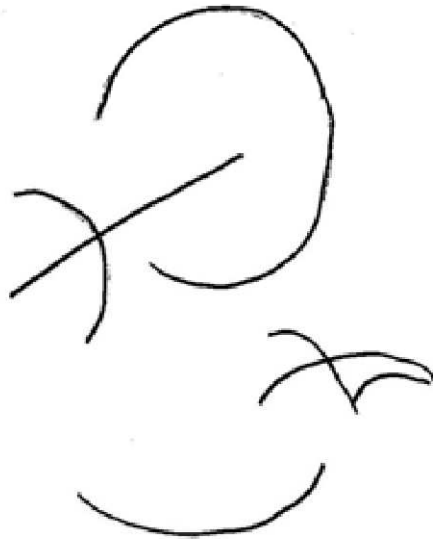

I want to warn members of the ASD and ex-students about these tiny “bugs”. They are powered remotely and can be in your uterus to make you bleed or (as Timothy McVeigh described) in the rectum, testicles or penis and look like a birthmark.

I am stable now, but the Scalar use of the alternating current, ground wire and phone line Scalars used by the NASA (o) clones is very weakening, and can kill whistle blowers who fight the Air Force, NSA and NASA “research”.

February 22, 1998 Montreal UPDATE

My appointment for an MRI test is tomorrow and (child) is flying in tomorrow night. I have been exercising in the giant underground mall here in Montreal but had a set-back with my leg and foot yesterday. I was in a movie house watching a film when I began to experience severe pain in my left breast and broken leg. I looked over the aisle and saw a man aiming two red beams at my body that are laser slicers (“d” saw them too). Now my broken foot is swollen double and the metal plates in the leg rattle and slide. I couldn’t wear my shoes after I got up this morning due to the swelling.

(d) and I had a grand time with our piano player friend last night and we met an African “street poet” who joined us at our table. A mind-hacker beam hit the back of the poet’s head and he turned to (d) and said “I will kill you”. He said it several times while grinning like a banshee, so we left the table and went to our room. The piano player heard him, also, and was shocked. We enjoy meeting people, but even the nice piano bars have dangerous people at times, I guess. I have decided to try to find some new clean male companions at Sex addicts anonymous (or something) after I met two nice soda-sipping AA members who sat near me for a late lunch here at the hotel pub. At least they wouldn’t hit us up to buy them beer, like the men do in the bar near my apartment. I figure I’ll lose weight, anyway, if I attend the AA socials and sip soda instead of a martini. I can’t drive upon orders of my neurologist, so I may move nearer to the metro because my ability to walk with a cane (or without) varies day to day, and the pain is severe but I am on no medication at all while awaiting completion of my sleep studies EEG and MRI. (d) can then return to Maine if she chooses, because I could travel by metro cheaply to buy food, go to doctors, etc.

I figure some of the “beamers” are private eyes hired by someone who stands to make money off disfiguring me. I have two laser holes in my forehead and one on my chin that bleeds. The new street weapons are just like the medical lasers that can cut bone. My nose was re-broken after my surgery by one of the thugs who laser-sliced off the left bridge of my nose, leaving a darkened hole there. One day at lunch in a nearby restaurant, a man pointed a blue-white laser at (d’s) nose and she started squirting arterial blood out the right nostril. She had not touched her face before then. The security systems in the hospitals and hotels can be used as laser slicers. A computer wizard for a private eye can over-ride the system and cut up a sleeping person, do a lobotomy, or by Scalar assault produce epidemics of disease. The Hassidic Jews here are being hit by the machines as a test group, I am sure, for there are outbreaks of Hepatitis A and flesh-eating disease in their community.

Since I have been actively investigating the **bio-med/computer/movie criminals who have tortured** so many Americans to death with the full knowledge and permission of the President of the United States, it is no wonder that my enemies would hire street thugs. They do not want to kill me because the NASA bio-med people want me as a lab rat for the neuro-chip body mind research---they just want me paralyzed or in a nuthouse where I can’t protect myself from the experiments.

Someday, kids, I will be able to show you how I have survived and you will understand the horrors I have faced that would have killed most people. I have *lived* because I believe in God and want to serve God by fighting this secret war of NASA versus the United States Constitution. As long as the USA press hides the news releases that I have seen in Europe about the tortures/experiments on American military families and civilians, there will be no freedom. The removal of freedom for the people who are NASA subjects is akin and related to World War II Nazi tactics. I have met the Nazis in several countries, those who have made fortunes off the “experiments” by creating diseases so as to market the cure (Prozac is one). I ask all of you to fight with me, for you are targets, too.

If anything should happen to me, rest assured I would never commit suicide, although the pain is almost deadly at times. If (Attorney) gets a settlement for me, I want to buy a Heartbreak Hotel by the ocean for people to rest in who have suffered from the effects of the mind-hacker tortures.

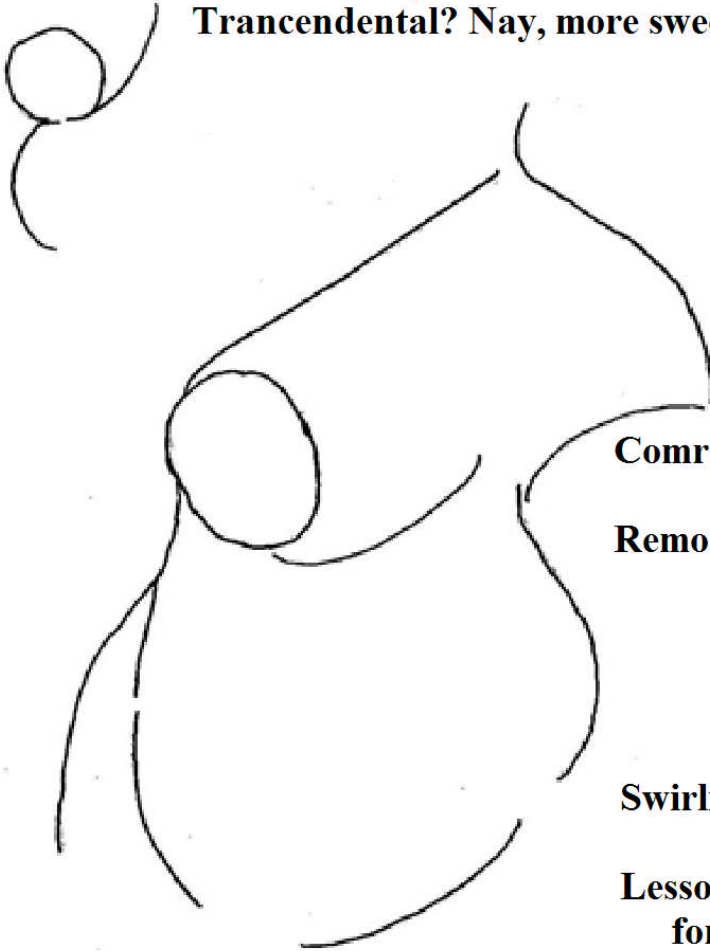

I am lonely for the kids and I hope (child) can come up for a visit. Please tell (other children) I love them and to look at the loss of their mother this way; During World War II the French resistance fighters had to use all sorts of tactics to save the world from Hitler. Men and women fought bravely to save the world from the very Nazis and Japanese criminals who are *still alive* and fighting my efforts now. I have seen the Pol Pot murderers and even Hitler who is a Parkinson’s diseased shaking old man protected by the US and Canada. Why?--Money interests and due to the fact that Hitler and Pol Pot were puppets of the same regime and not the key players. I never asked for this job, but as a Celestial Intelligence Agent, I must serve God for the safety of all children at the expense of my own family.

February 25, 1998 Montreal News article FBI arrest 2 in Chinese organ-trafficking plot

COMMENT on article: (New York Times): The body farmers also sell the spirit/soul substances used for beauty and vitality but collected in USA.

COMMENT: Body gases identified as soul and spirit are also milked out of political prisoners. Only Caucasian organs will fight tissue rejection in a Caucasian. **White people are being held in bio-med farms** and slowly picked to death for corneas and body organs. Many are abducted in the USA and Britain. They could not use Chinese organs for sale to wealthy whites. **Many prisoners of war from Vietnam and Korea** are being held still and are being used one organ at a time. Somebody needs to rescue them from the Nazis, Russians, Japanese and Chinese body-farmers. (The author)

Letter to family (some text deleted):

(Relative) is here in Montreal visiting me. She is and is unable to work due to the pain, yet he has cut off all financial help to her. I am trying to help her stabilize.....I think (her husband) used the body gas extraction machines on her for the soul/spirit/mind substance neuro-chip farmers, since he is an employee of the Nazi owned Hoffman-Roche Pharmaceuticals.

Nazis did the body gas removals in World War II and never stopped; they just used more sophisticated equipment. One way to tell if a white person is being milked out is by a sudden obesity, lymphatic edema, dry face and wild-eyed appearance. (One person) has put on *50 pounds*, I suspect, since I last saw her.

I know Hoffman Roche does the bio-med research on body gas/energy field removal, because I saw (b) work a seminar on sex at the Waterford Hotel with Masters and Johnson and *Roche Industries*. When (relative's) husband took the job, he..... They gave him too much money (and a Mercedes) to be a rep. I think the fact that the monastery in Guthrie was part of the Waco project and the researchers wanted to tag my family members as research subjects had something to do with it. (This relative's) hair is falling out (from radiation?) and her rage is like a lot of the body farmed people. Before they shot my leg, the Egyptian cardiologist working with the Japanese in Hawaii stuck a pin in my leg to mark the spot for beamers to break the bones.

People like McVeigh claim to have a satellite implant, as did the Unabomber who was one of the UCLA space studies professors. People go "postal" when they are tormented as research subjects, even if they are *unaware*. When (v2) was given a 3" abdominal surgical incision allegedly by alien greys (hypnosis), I knew that the NASA propaganda specialists were going to work us all over. **The movie industry is part of the cartel**, because the Nazi companies joined with China and Japan to overthrow the free West. Why else did American taxpayers pay for NASA to *join the military of Russian and Japan*? They are united now. **In essence, NASA is the Gestapo arm of the communists**. You may have thought I was crazy to say NASA was behind all this, but is it more logical to think invaders from outer space are performing surgery in people's bedrooms?

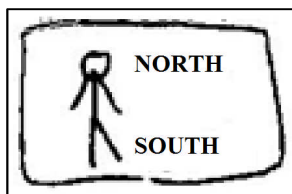

(This relative) is so wounded but refuses to realize *why*. It is not (the husband) that wounded her---it is the subconscious *horror* that her soul and spirit substances are being used for the NASA neurochip computer that is the military internet for Red China, Japan and Moscow. I have personally met many of the Russian spies connected to the mind control/robot maker project, and I have witnesses ("f", "d" and others) of the robot military in southern Mexico that were operated by satellite like dolls. The movie The Manchurian Candidate is similar to the robot making programs, but bio-chemical receivers/senders and radioactive beams to the head are also used. (This relative) was beamed in the head at the piano bar last night and began screaming in rage about (her husband) and crying. She went nuts. I will try to (help her) because I have learned how to fight the researchers and I can see a broader range of light and hear a broader range, so I can *identify* and fight the agents who conduct the control experiments. All they have to do is tell (this person) she is unloved and they push her to murderous rage. They direct the beam to a specific part of the brain connected to rage seizures. I hope she learns to recognize the attacks so as to control her reaction; otherwise they will lock her up.

I am sure that the experiments done on actresses like Kate Winslow will be revealed someday. She bloated up at least 80 pounds *suddenly* after filming the movie Titanic. The Japanese like to push acceptance of Oriental and Middle Eastern black-eyed beauties and are destroying the bodies of the beautiful blondes. You can bet Monica Lewinsky will be 200 pounds soon, if Clinton's Chinese thugs rent the NASA equipment from Russia for the "hit". It was in the papers here how spy satellites (linked to the space station) can be *rented* from Russia's military by civilians. Love, (The author)

Thought Matter and Neurochip NASA Research MESSAGE Montreal

March 2, 1998 **SUBJECT: Thought Matter and Neurochip-NASA Research** Montreal MESSAGE

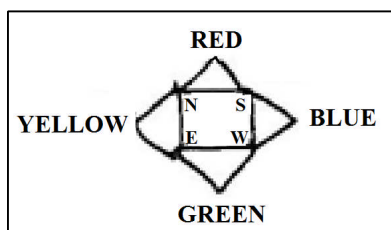

Human bodies in health are controlled by the laws of Polarity, part of which is North-South gravity pull:

Death is either from fire (South) or ice (North);
From withering and wasting (North) or from fevers, rage and growths (South).

People who have spirit cores may be ruled by:

← **Three poles of gravity:**

← **Four Poles of gravity**

← **Or five poles of gravity**
And so on...

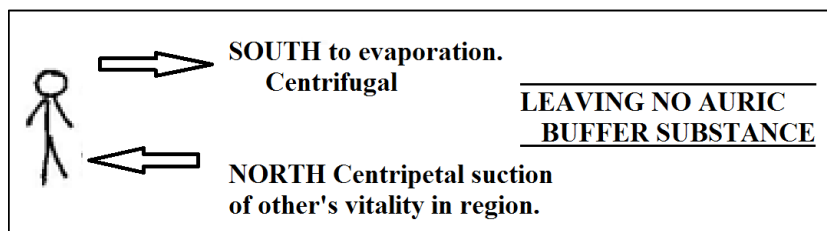

Neurochip body farmers desire body-mind (decompression obtained) gases, liquids (such as plasma) of people who can think on five or more poles of gravity.

Information can be digitally stored on the matter and retrieved by satellite beam from a distance.

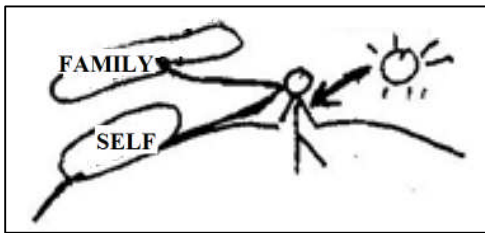

People who have only North-South primal body-mind substance store thoughts and memories as flat 2D pictures or as a numbers-music pattern collection upon dream substances. **Computers can now print out words and images as experienced or recalled or imagined by a binary person.** Binary persons *cannot* send dream-spirit substance out from their eyes to connect to another person so as to “read” him or her, nor can they bypass the lower time-space laws by the use of trinary (or up) substance movement to other locations in the time-space. NASA and spy agencies were most interested in the trinary (and up) Neurochip body-farmed substances.

Trinary substances follow laws of nature which have been partially identified by researchers in relationship to there being several speeds of light, several speeds of matter before dematerialization and several speeds of components of each element. Each element that is still part of the Earth system has a least two gravity pulls, some have three, and some have points of light connection to other parts of the solar system. Matter is not light but light contains a face of matter.

Matter without light is radioactive. The light from nuclear bombs is from the matter within the assault area becoming dark matter usage as power reduces the trinary thinkers to binary, and pulls the binary to death of a North type.

Mind controllers in China and Russia found that the destruction of memories through **radioactive Scientology “auditing”** resulted in a person who could be controlled from the outside, because his configuration was to ←become.

←Instead of the following:

**Biosphere Akasha genetic memory link
was to a specific location on Earth and sky.**

Sun Ring location supplied regeneration forces to a person in exact proportion to family and personal akasha stores according to natural law, until the NASA experiments rip Akasha ties loose. The person feels “free” but

loses all moral codes and takes energy from other humans rather than the Sun.

Binary people can bask in the presence of a person of trinary or higher, and receive secondary vitality. The Nazi experiments found that injection of the plasma of an evolved person brought them health and sexual vitality. Therefore, a whole vampire market emerged with **WWII Nazi pharmaceutical firms joining with NASA and spy agencies** to experiment on (and drain) persons who were able to see-feel-think-interpret-store data beyond the normal senses. Studies in remote viewing and in spirit-soul transfers for “eternal life” branched out of the computerized human mind control studies.

The torture methods used on persons picked as research subjects are designed to loosen the components of an evolved person so as to transfer such components to lesser evolved persons. First superconductive magnetic force field alternation machines are satellite (or locally) beamed upon the sleeping subject and the dream self is hypnotized by a hyper or subliminal voice-image beamed upon the head of the victim. Sexual stimulation is paired with subliminal commands, and noxious scenes are used subliminally to control The person by punishment. Most people are never aware of the mind control except to experience headaches and a reduction in healthy sexual desire for the opposite sex persons while an increase in obsessive sexual perverse night-daydreams occurs. They lose their trinary thought and become “kneejerk” reactionaries.

Eventually the person becomes ill with murderous rage (South death) or listlessness and lack of desire to get out of bed (North death). At that point, the researchers manipulate the victim’s social situation so as to imprison the victim in a mental hospital or use him by mind control to do a crime in which he will be caught, or they stage a suicide and murder him.

These studies should be stopped or all refined persons will be devoured by the biomed---computer cartel companies. (The author)

March 11, 1998 Montreal To (Family/children);

(Relative) decided to return to England because I would not buy the paint for her to do the walls in red, black and navy blue. I was afraid the landlord would sue me or kick us out. I also refused to buy booze except for one drink out at dinner, and yet she insisted If she stayed in bed ..., I brought her coffee and she was at me entering her room to do so. I offered to pay for any orthopedist to examine her leg, but she refused. I hoped to help her get over her ... at divorcing (husband), but she just turned it on me and doesn't want to work, just spend money. I can't afford her.

To (another relative), I am wanting to do up a nursing résumé. Do you have addresses and phone numbers for Presbyterian and nursing agencies such as Allied, Quality Care? Also Hillcrest Hospital? If you have them on your resume or (husband's) could you fax me? In four months I get my leg plates out and then I hope to apply for a work visa here as an RN. I miss working around people. I will now turn my extra bedroom into an office and get back to writing and drawing and learning French. I miss all of you. (Author)

March 14, 1998 Train Track Deaths/Snuff Films Montreal NEWS

Recently in Canada, two young teenage boys ran away from a boarding school and were seen on a train track before being hit by the *train*. One boy attempted to move at the last minute, but both were killed. A week before, a *video* was advertised on TV showing real people walking *onto train tracks* into speeding trains and killed, plus other *filmed* real deaths. The grisly (g) *train* suicide or murder may show up in one of the satellite filmed snuff movies, as may more **murders/sex films reveal the link between the NASA research on citizens** to create robots and the film/porn industry.

Years ago, (e) watched a real sex/snuff film with his Kansas City friends, and when he returned to Logan County, Oklahoma, he had an energy field around his head that made me cry out (before he said one word) "You've been watching a sex/murder!"---after which he said it was a stag film.

The ability for an enemy country to turn people into suicidal robots is being researched on citizens in Canada and USA. (f), (d) and I saw robot military near the Guatemala border two years ago, but they must have been killed off or died, for their towns are empty now. Personal "hits" by satellite are covered up as a heart attacks (McDougal) or strokes.

There is some significance to the robot makers using train deaths that I do not understand, but the agents have often whistled train songs to us while following us on the street. They sang them in Belize outside my cabana. A BJ Thomas song "I'm so lonely I could die" starts with a reference about a train sound, and is their most frequent song used, but they also use lyrics from "Bye, Bye Miss American Pie" about the Father, Son and Holy Ghost took the last train to the coast.

Violent deaths cannot be filmed unless they are planned, and the tortures of the microwaving and satellite/scalar impulsing the women and children in Waco were all filmed. Here in Canada, Japanese and Middle Eastern film-makers used NASA machines on me which dehydrated my face and deformed my features for hours. When I left my apartment they filmed my bleeding eyes and withered skin which had lost all water from the NASA machines. Someone needs to stop using school children, churches, and bio-med targeted civilians and military for "research".

Last year I read of a group of six college kids killing themselves in a row in one school, and then there were the five Montreal high school boys a few months ago committing suicide, then in yesterday's paper three more in Canada had occurred, besides the two boys on the track last week. What gives? Snuff movies?

My friend (g) was tortured by NASA/NSA research 'till she bloated up, grew a beard and was twitching and unable to control her own mind or body before her alleged "suicide" on the train track.

(o) of NASA and Tinker AFB computer main-frame specialist/(b) both lived with (g) and me in the Guthrie monastery. They set up her death. Who else's?

The porn/murder racket must be stopped.(The author)

P.S.: Satellite cooker has been on. My leg hurts a lot.

UPDATE added:

An agent turned off my apartment heat (radiators) from the basement yesterday. They used to do that in Ireland when they viewed us in thermal contrast satellite but also to reduce likelihood of explosions if they do magnetic force field shifts for tests or to torture or create a body substance superconductive decompression chamber with magnets instead of the "box".

Headache gets worse as the suction on my head worsens. I was ill from it and the cold yesterday but walked outside a long way to try to recover and felt better. My computer is at this point---in their control. (d's) apartment is warm and she looks well enough.

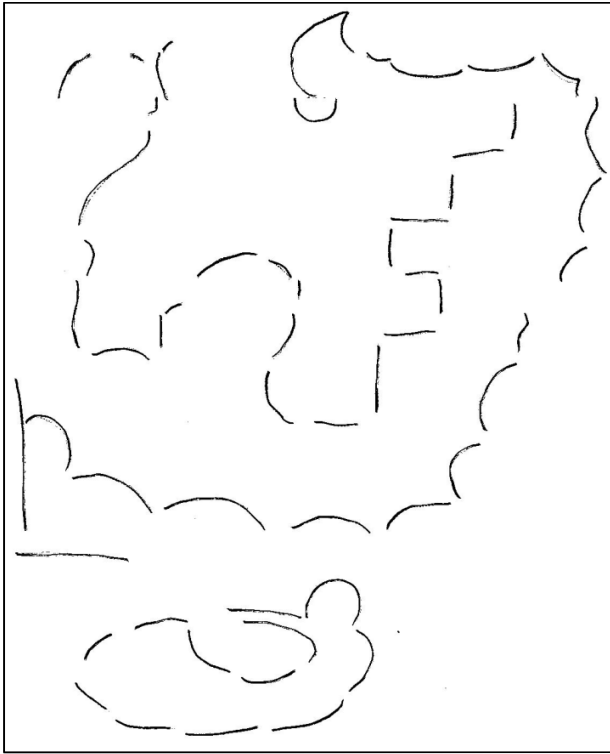

I am babysitting Muffin but when (d) returns from the store--or in 15-20 minutes---I am going to get outside to exercise.

It is so frustrating to be in a "dead-space" force field where I cannot think, study French, write or build my strength.

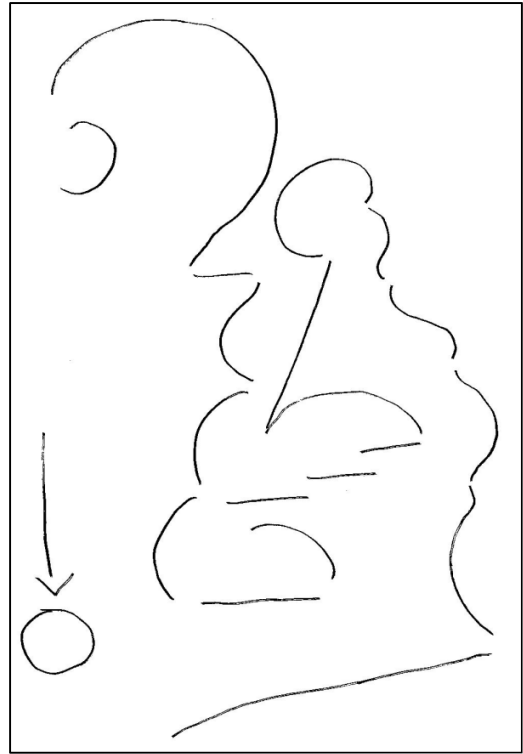

As Milton said "They also serve who only stand and wait"--(on his blindness). I pray for patience and wisdom.

Call if you need or want to. (The author)

March 17, 1998 Cobalt and Other Radioactive Isotopes Ritz-Carlton Montreal NEWS

Burning of wood or gasoline does not produce long term ecological destruction, because the matter is kept in a two-tier system. Use of **cobalt** or other radioactive isotopes blocks or destroys spirit matter and belongs to the three ion level of physics law. Isotopes such as **radium** are from the *past* Earth cycles, and eventually oxygen will be a radioactive isotope, but then human life will end as you know it---for only the “Oxygen 2” breathers will survive. The creation of a new type of intelligent life form *above* the base type humans is the plan of other nations, but the Japanese insistence of making *fish-men* is still there.

- The shortest distance between two points is the commonality factor of the existing matter at the two points reacting to the use of the laws of the fifth ion level.
- Physics laws of octaves of nature differ but do not conflict.
- God’s Laws are also physics laws.
- For instance, karma and the Laws of Gender and Polarity are some of the lower laws of God, and the tablets Moses *broke* represented the higher laws. (The author)

Also: The “Oxygen 2” breathers will have to *evolve* and *cannot be cloned* by the Nazi experimenters here in the Canadian bio-med labs, or “bred”.

- “Oxygen 2” breathers will have an ability to operate under the physics laws of a **five ion system**.
- The massive torture of evolving “Oxygen 2” future breathers and murder by NASA shows the stupidity of the Ruskies and Oriental binary thinkers who fear superior humans, and who control the power authorities and military.

Also: The **ionization of matter** is more than + or -, but entails a  property of **collapsing star system pull**,

And a **time pull property** which balances it (represented by:).

Any power system which reverses the time pull or Star system (collapsing) pull will produce an energy source that exponentially (not really, but something like it but in a different shape than linear) hastens death of ecosystems in the vicinity, and the proposed use of beamed radiation to China from Quebec is likely to cause meltdown of a type worse than the old fashioned nuclear reactor type.

Cracks in the sky layers of the Earth system in time/space are sure to happen, with massive loss of life to all those below, because the type of solar inversion present kills the reproductive aspects of plants, animals and man. Also, no gasoline combustion is possible and air is not breathable.

March 19, 1998 Montreal To: (Family)

I hope (relative) is better—let me know. I have my telephone on fax/phone (push fax after first ring to avoid answering machine on 4th ring which is a back-up number).

I have a good Jewish Lawyer here who is looking after my interests. My apartment is nice. I have to stay to complete a neurological diary and orthopedic care/surgery in 3-4 months to remove metal in my leg and foot, in Montreal.

My lawyer here is (hopefully) going to straighten out the books/video/audio sales of my works going to other people, and other things.

I've been gone a couple of days—busy—but I am doing fine.

Tell the children I love them. (Author)

March 19, 1998 To (f) and (Attorneys) Please send this as a cover for your letter.

(f): Your letter is great! Could you send it on to (Attorney) as well and ask him if he has filed (or intends to file) a class action lawsuit on your behalf and mine?

Attorney (je) has taken my case here but needs pleadings and records from (rw/mg attorneys) and has all money of mine in trust (with him as my financial guardian) until the bank investigation is complete.

Their query is into the mysterious transactions in/out of my accounts by other people. He can pay expenses for (mg) to help me from there. Thanks, (Author)

March 22, 1998 Montreal **UPDATE**

The NSA/NASA people have me in the same force field as in Hawaii--belly extremely distended without any bowel sounds or activity, skin itching. Extreme lethargy, mental exhaustion, a sense of being “y”ed with Asian spectrographs and (k’s) Middle Eastern pals.

Since (b) before her facial surgery was apparently a large-nosed Arab at birth, her face was bleached like Michael Jackson (but I saw her old Tinker Air Force Base ID pictures before surgery). It could be (b) is making me itch if they are using her spectrograph.

It is important that we, (f), (bb) and (--) keep the information on the NASA hit variants circulating so as to warn the dowers to not become so sick and lethargic they die. Feel free to fax reports in/out.

(bb) reports:

Sounds exactly like what I have had for almost 2 weeks; grossly bloated gut, little bowel activity, lethargy and mental exhaustion--as you saw on Friday. Pendulum confirmed physical/mental/emotional/ spiritual percentages/ attunements all between 10-20%. Still no better today.

Remember when Bill was still popular with the press, and he was asked which kind of underwear he preferred; briefs or boxers? And he answered boxers. The reporter did not ask the follow up question:

Q: “Why do you wear boxers, Mr. President?”

A: “To keep my ankles warm”.

March 24, 1998 Montreal UPDATE

The bastards in Clinton’s NSA crew are shutting off my new computer remotely to keep me from writing. All these new Euro-coms have satellite tags, and they can control and tap into *anyone’s* writings so as to stop freedom of speech. This makes the third computer they have remotely turned off, written commands on, or edited/removed passages from my writings (so as to ban before publishing anything the Gestapo fears.) (The author)

Author’s relative murdered by the NSA NEWS

March 30, 1998 Montreal Author’s relative murdered by the NSA **UPDATE** Send out with lawsuit pending:

My (relative) was murdered by the NASA researchers in Kendal, England this last weekend. She was in terrible pain after her leg and spine had been laser impaled by the new experimental weapons. She spent three weeks with me recently and reported that her lower leg snapped without warning, causing her to fall. On another occasion she was followed by a man with the new “Davy Crocket” street weapons that use lasers to injure a person. She fell at her doorstep and had to crawl by her arms to her apartment where she suffered severe headache and was bed-fast three days.

My lower right leg was “popped” here in Montreal by similar weaponry. (Relative’s) husband worked for one of the Pharmaceutical firms linked with mind control studies, as far back as World War II death camps (Roche). He began to act like a different man upon starting his employment there and suddenly..... Since I have been an unwilling research subject for the NSA/NASA contractors (such as that pharmaceutical Nazi firm) and tortured mentally and physically to *death* and revived for their neuro-chip life-after-death studies, I can safely assume they tortured (this relative) to death.

March 31, 1998 FEDERAL SUIT

DOCUMENT TO BE FILED IN FEDERAL COURT BANGOR, ME 3/31/98

PLAINTIFFS: (d), (f) and (The author) VS

DEFENDANTS: National Security Agency
NASA Cecil Nichols
William and Hillary Clinton
Janet Reno United States Air Force
International Space Studies University Program Directors

The aforementioned plaintiffs seek financial compensation (\$5 million U.S. dollars per plaintiff or for their estate) and an injunction to bar the defendants from further using the plaintiffs in the top secret projects as unwilling laboratory subjects. The plaintiffs seek to prove through witnesses soon to be deposed and through documents that citizens and military in the United States of America are tortured by being fed microbes and chemicals while astronaut magnetically altered forcefields using NASA equipment seek to remove body gases used in neuro-chip human robot creation. The research is based upon World War II decompression tank experiments on Jews and Jewish sympathizers in attempts to remove the "soul", "spirit" and mind substance for injection into other humans for increased longevity and health. With the advent of neuro-chip human computer technology, the same Nazis as in World War II have been witnessed by the plaintiffs in Mexico, USA, Canada and England setting up the equipment for substance removal.

The plaintiffs seek to prove an association between mass suicides/murders (such as in Waco, Texas and Jonestown, French Guiana) with the victims and perpetrators being unwilling research subjects.

The plaintiffs believe that the passage of the National securities act of 1947 was unconstitutional and has since allowed the Nazi torture technology to be used on countless citizens with President Clinton's approval. The complete loss of freedom for the designated subjects is hidden by the President and Attorney General who have personally ordered the torture to continue in the plaintiffs' case.

The court is asked to hear the plaintiffs' pleas so as to stop the torture and to return to a Checks and Balance system of government rather than a Gestapo-minded communist loving Presidential fascist rule with NSA powers wielding unending assault on innocent citizens.

POEM Written for a child by her mother the day she came home from hospital; 1969

April 3, 1998 POEM

Poem written for (child) by her mother the day she came home from the hospital after two weeks of age:

Oh, Little Life who slumbers sweetly soft,
Your golden hair reflects the peaceful joy
That crowns my heart on this my year of years
When I am blessed to mother this newborn.
All my months of expectancy were jewels;
I held each one---as raindrops---and I awed.
I knew that every day would be a rainbow
And knew that birth is something sent from God.
Oh, Life! to think that I had swooned
And felt my heart crowd me 'till I gasped,
And thought the world was nothing more than doom,
While waiting for death's final freezing blast...

Never did I in the least suspect
That hope was just a little child away.
Never did I in the least suspect
The joy that motherhood would bring my way.

Commonality in Research Subjects NEWS Oklahoma

April 4, 1998 Commonality in Research Subjects Oklahoma NEWS

My (relative) died under suspicious circumstances last week in Kendall, England at the age of 28. She was used by NASA scientist/(o) and others in the space studies research for at least 9 years. At that time the movie script and E.T. book writer and (o) were staying with me and my family in Logan County, Oklahoma. (The relative) lived there part-time with me. She soon began to bloat up and have eye blinks and stares common to research subjects. Her thyroid failed; she suddenly gained 50 pounds. She became hostile and waxy pale. (Movie director "gg1") was assigned a NASA "E.T." propaganda project about me which included the mysterious "spaceship" that appeared to land on our land that I made disappear through some mental method. I know now I willed molecules of a mirage composed of body-farmed human ether to break-up by creating a conflicting sound/wave pattern. **The flying saucer was created by NASA to cover the neuro-chip human computer and life-after death remote viewing astronaut and spy research.**

(The relative) was not asked to be a research subject, nor was I. They picked people who could see or hear on broad bands (or those who reacted to commands given on normally subliminal sounds and picture bands). I am the former type; (the relative) was the second type. Most research subjects who can see and hear on the mind control station bands eventually are put on band narrowing medication such as Prozac because they lose all sense of normal sleep/wake/dream/reality differentiation from the NASA assault. Many who react sub-consciously or consciously are put on Ritalin because they doze off and have narcolepsy or attention deficit disorders due to the sleep deprivation and torture of their waking/sleeping senses by the researchers 24 hours a day. **Most of the research is done by remote with the machines hooked up in attics, inside computers, or in nearby vehicles that alter the magnetic forcefield of the subject, provide a satellite-linked entrainment for hypnotic seduction with brain-eye link pleasure stimulation reinforcement and/or pain punishment for command obedience.**

Most people never meet the researchers in person because the researchers are at universities, in Florida's NASA building, and big NSA control centers like Dallas, Texas. Interesting subjects are followed by observers and given more extensive "tests" and often drugged and implanted with body satellite receivers, mind-altering microbes or chemical implants or given biopsies.

Warfare applications include the creation of **mass hysteria**, so communes, religious compounds and churches are targeted and infiltrated by NSA/NASA personnel, as was my small religious retreat center in Guthrie, Oklahoma. The **creation of mirages** can be used in courtrooms to alter outcomes, and can alter opinions of legislative bodies so as to change the course of destiny for a country. Mass hysteria or **mass mind control** can be done through scalar hypnotics in

house wiring by satellite over whole towns. **Serious physical illnesses** occur because microbes alter and proliferate in the abnormal forcefields in research areas. Also, the removal of body liquids, gases and solids by a dematerialization beam for extraction into cylinders for body-mind and longevity research creates illness and **insanity in the subjects**. Many of the researchers did morphogenic field research on me, installed a gametrial transfer which later died, and worked on vaccines by giving me versions of microbes and cancers and then extracting body gases and blood.

The people who are spinal tapped during drugged sleep for the neuro-chip research often have severe headaches, back pain and states of fear, even if they were drugged during procedures and didn't meet their assailants. My (relative) reported to me and two other witnesses as to having been followed and then suddenly falling near her house (after being "beamed"). She crawled by her arms to her apartment where she couldn't move for three days. The year before she *heard* her right lower leg snap without warning, sending her tumbling, and she was shocked to hear I was given an identical fracture by the bone dematerializing beamer set up in Montreal.

Key research subjects are socially isolated by removing spouses or lovers by an "aversion therapy" scalar set up in the bedroom which destroys intimate relations by creating subliminal images. Sounds of the research subject are overlaid with a repulsive person or one of the wrong sex or age.

Normal male-female sex between compatible couples is punished by satellite-directed beams of physical and mental pain which agitate both parties and create rage and so split up marriages. Males and females are reinforced for masturbating or for homosexual acts which are all recorded. (The relative's) grief over her husband's *sudden* aversion to her was great, but the spinal/leg pain was almost unbearable. She still planned to move to Montreal and signed a lease, planned to learn French and go back to school, just before her death.

The destruction of the body-mind substance in target subjects is most clearly visible in adolescents who become hostile or suicidal. Their height and secondary sexual characteristics are stunted because often their testicles and pituitary are beamed into gaseous states and extracted or removed by agents during drugged sleep. Clusters of suicides or murders (such as in Jonesboro, Arkansas) often are due to the area being in a target NASA site.

Group mind/telepathy research has been done on me in several countries using body liquids or gases of other people placed into my body or vice versa. In Mexico they used a coffin-like decompression chamber from World War II death camps on me, which can be switched to a hyperbaric chamber. Some World War II Nazis are still alive and credit their vitality to the use of young children's plasma (and other body parts in liquid or gas form) for youthful vigor and sexual vitality.

The Asian market for body-farmed children has emptied out whole Mexican towns---I have seen it. The destruction of the Peruvian people by invading Russian/Asian group mind controllers is now moving to create a fascist/communist regime that will conquer Belize and Guatemala by literally devouring the manhood of the soldiers and young males in the cultures.

The massive use of Chinese satellite connected devices in American, Canadian and European countries is deadly because it is genotype specific (to Occidentals). The destruction of nervous tissue is in progress world-wide with the **NASA machines pounding the Earth with frequencies and waveforms** of radioactive light that shrink Occidental brains and testicles. When NASA joined the Asian military and Russian military, it banded with the communist enemy for the overthrow of the US, Canada and Britain.

The President of the United States was informed *by me* of the devastation that occurred to my life when foreign researchers bodily took over my home in Oklahoma City for three weeks and tortured me without respite and murdered me/resuscitated me for life-after-death virtual reality computer brain linkage to Berkeley, California scientists. (This was the third murder/resuscitation).

The NASA/NSA "Men in Black" attempted to convince me that I had no civil rights because I was declared a "non-human life form" (because I survived murder) and so should do as they say. They drugged my next door neighbor when she tried to check on me, and finally tried to kill me on Clinton's orders (because I was reporting details of the research).

.....I fear for the safety of (another relative) and yet I am not allowed to talk to him or see him. His father is a sociopathic person who is not a desired subject because he does not possess the key traits of my genotype. My children, however, are in great danger---and (the relative's) death is an example of their usual resolution of key subjects.

The International University Space Studies groups use medical devices and radioactive contrast film-making techniques as weapons on people in the park who are unwitting research subjects. The danger for innocent playing children is great---the devices can create brain hemorrhage in babies---but the parents stand to be charged with murder in such cases.

I plead for all responsible citizens of the "free" West to stop this research and body-farming of innocents before we become robots owned by a God-less nation run by a machine from China or Moscow. (The author)

April 1, 1998 MISSING PORTION: *add to the rest of the letter re (relative's) death.*

Dear (dad) and the FBI:

I think (relative) had a gun to her head when she wrote the suicide note (for several reasons).

- 1) (Her husband) had no door key so she had to leave the door open for him to exit---but if you wanted to post letters announcing your suicide, you wouldn't care if the door was broken down and wouldn't want to be interrupted.
- 2) She said in her note "sorry for the" twice—indicating she expected bloody mess (murder by gun or knife).
- 3) She was planning several future events and knew I would send her money and that she had her own room rented with me in Montreal without desolation and poverty and I would get her medical care.
- 4) She made a point of saying "the door is open", "the mess" and "I am not insane", in her notes. I kept having a dream last night of (the husband), another woman and a syringe used to kill her removed from the room . (Author)

To Oklahoma Police re. (relative's) murder LETTERS

APRIL 3, 1998 1st Fax: To the Guthrie and Oklahoma Police

I have come from Montreal, Canada to attend the funeral of my (relative). I was told the wrong time to show up (2:30pm today instead of 2:00pm---the scheduled time) by my father and others. My ex-husband (e) and (u1) (my relative) stalked me and (d) the last two times we were in Oklahoma City and may want to have me shot about to enter the church while everyone else in my family would be inside.

(e) is a sociopathic thief/murderer who has stolen our from me by intimidation. He circled my house driving (b's) car last year and tried to enter a side locked door. He also promised \$100,000 if I showed up in an empty house to meet him. (Author) *I intend to go to the Church Service early to see if my (relative's) body has arrived from England.*

TO THE POLICE: Statement from (d)/PO Box ---/OKC, OK

I want to confirm the statements made by (the author).

1) I also saw (e) driving by the house at 710 NW 24th St., OKC in June or July of 1996. Also, that I picked up the voice message of (e) to my phone in Cheyenne, WY where he said "the house at 301 N. 2nd in Guthrie has an offer to sell, and for (the author) to meet him at the house". When (the author) and I drove by the house 2 weeks later, **we found a box of extension cords with the ends cut off, two unused tarpaulins, two or three buck knives and bedding upstairs in an otherwise empty house.**

2) (g2) of Guthrie (husband to "g" found dead on Logan County train tracks in March, 1996) said to me over the phone in Wyoming (6-8 months before "g's" death) "*It is a shame how people want to murder...(pause)...Linda*". I could not have mistaken his meaning.

3) I reported to the police in Cheyenne in November, 1995 that I saw (b) and (r) stalking me and trying to break into the back yard through the fence.

4) The last I saw of (a) (the author's husband) in Wyoming was an afternoon in November, 1995 when he and (e) were working together to repair a car part in the basement of my fourplex at 303 E. 17th St., Cheyenne. I did not see (a) after that, and (e) said he was returning to the Colorado land (that I own) where he was then living with his legal wife (q) and (child). I also have not heard of or seen (q) since after Christmas Day, 1995. In the past, (e) has tried to cover up his crimes by alleging that (the author) is "psychotic". A Colorado lawyer hired by (e) told my lawyer in Missouri that I was "crazy". **I was told by the Planning and Zoning Commissioner in Colorado that (child) (age ...) owned 900 of 1000 shares of my Corporation that holds 160 acres of land, and that (q's) ex-husband (q2) and others were signed onto my Corporation (which is solely owned by myself).** (The author) said also that (e) paid for a very large life insurance policy soon after their marriage.

Because of these events (and several other events not mentioned here) I too am afraid for my physical safety and of having any contact with (e) privately or publicly. Thank you for your attention to this matter. (d)

April 3, 1998 To: Police from the author RE: Funeral Service for (author's relative) today

My sister and mother will be picking me up at my hotel at 1:30 pm to attend the funeral memorial service for (relative), so I feel safer than traveling by myself earlier or later. I do not know if (e) will be there with (child) or not.

I am still afraid of (e) and would appreciate it if a police car would be nearby as we exit the church. When (another child) was in a school play last year, (e) watched us from across the street of the high school and was spotted by a friend of (a third child), who thought it was odd that (e) did not come into the school but hung out behind a car watching me with (child).

Later, I was followed by (e) while going to a medical appointment. He was driving (b's) car. (e) is very charming but is deadly. He said he was going to get married again when (q) was allegedly in a convent or missing, and I feared he might have done her in. My steel steering column was sawn through in Arkansas the day (g) was killed and I was driving in the Arkansas mountains to see my family---I almost went off a cliff. I had it welded in Eureka Springs. I think (e) sent someone to saw it nearly through so I would fall off a mountain. I think he is fearful because he forged (d's) name to sign over her corporation to rob her and is into shady deals. (d) and I have reason to fear the man, and he pays (u1) for testimony. (u1) is a life-long drug addict, and you know how desperate they are for money.

Thank you for your time. (The author)

UPDATES En route to Montreal

April 5, 199 Missouri UPDATE En route to Montreal

We are in a hotel on the way home. (417-869-8246) room 166. A big deer caused a major car accident in front of us, but we only tapped on the left front bumper---as though angels buffered the twirling head-on collision in full highway traffic and saved a mother and two daughters in the primary car and us (the only other ones hit and we kept them from being hit by others). Only their car was totaled and they had mild concussions, bruises..... I love all of you---(The author)

Statement by (d)

FAX TO: Robert Medley (OKC POLICE)

Daily Oklahoman

FROM: (d)/Montreal, Canada

RE: "Cybercop" interview

Mr. Medley:

You asked to speak with (the author) yesterday concerning "Cybercop" and I relayed your message. *She said she could offer only an opinion that the use of the dolls might be a deliberate terrorist act (probably by the US government itself) with the design to incite fear and to manipulate the public into discouraging free speech.*

Following this note are four pages of information that (the author) has composed. Good luck with your investigative reporting. Sincerely, (d) (address) **End of cover letter four pages missing.**

Note by (d): Robert Medley of the OKC police interviewed me in my hotel room when (the author) was attending the funeral of (her relative). Apparently (the author) and I had been accused of the "Baby Dolls" that were covered in blood and dropped around Oklahoma City with various threats attached. I told them I simply knew nothing about it and had no association with the event. Neither (the author) nor I were in town when the Baby Dolls were distributed.

April 11, 1998 Statement from (f)

If they decimate all free thinkers, all philosophers, all poets, all leaders of faiths, all honest men by NASA satellites or by other methods then they will leave in the wake of their destruction the greatest heartache of every parent:

Shall my child be born in a world where no discussion of values, no liberty of expression be allowed? Should those babies be tracked as I have been by spectro-graph NASA machines 24 hours per day (because I was and am a dreamer of democracy) and defiled in courts and pseudo-psychiatric proceedings so as to enslave them and ultimately to kill all parts of them that dream of freedom...Who shall win? *All shall lose.* (f)

April 13, 1998 UPDATE Please send to Senator Inhofe

I continue to grieve over my (relative's) death, but find comfort in fighting the bastards that use human beings for NASA/NSA lab rats. (She) felt cut off from God because the NASA life-after-death project involved the Nazi use of decompression chamber for "soul", "spirit", mind and ether substance removal. It was found out that after people die, they lose 4 or 5 ounces of matter as their souls/spirits leave. In the death camps, Nazi doctors tortured Jews near to death and then put them in a decompression box to collect the gases that compose the 4-5 ounces of matter. The NASA researchers did the same to G.I.s in Vietnam who were near death. They zipped them in to a bag with a decompression valve hook-up *before* they quit breathing.

Most research subjects (like my relative) were given cover memories of real humans hurting them or of UFO aliens abducting them (the type described in the book Communion written by Whitney Streiber) which happened to (e's) mother and my (other relative).

Jesus said "fear not those who kill the body, but fear those who can kill the soul *and* the body and throw them into Hell". (Translations vary). Christians can hardly bear the horror of the truth and so feel immortal and act lazy: **the Nazis and NASA communists use souls for research.** Take heed, horror abounds. (The author)

April 15, 1998 Montreal UPDATE

To The Producers Of X-Files and similar types of shows/movies.

ATTN: FILM STUDIES DEPARTMENT at McGill University

I have been running from the Men in Black for ten years, and so I eventually decided to hunt *them*. I formed my own intelligence agency: The Celestial Intelligence Agency, to uncover the cores to the groups that were funding secret NASA projects. I have (with my associates) tracked down key World War II Nazis doing genetic "alien" research, discovered plans for a robot military, found links to the Japanese invasion of Peru to the so-called alien landing pads there, discovered the source of alien "channelers", stumbled on plans for communist overthrow of Canada when the researchers computer virtual reality wired me in with Russian Space scientists, and found corruption in the bio-med neuro-chip body farming companies linked to child porn trade in Mexico. At present, there are only three *Celestial Intelligence* employees: (d), (f) and myself. My (relative) in England was one before she was tortured to death by the researchers.

I have been hounded by the Men in Black since I was a hospice nurse and the NASA men were doing life-after death studies on dying people (linked to invisible astronaut and invisible spy research). They tortured me to death and back several times and have been linked to the disappearance and possible death of my film-maker common law husband (a) after turning him into a mind-hacked maniac. My student (g) was found tied to a train track and my agency associates and I have been tortured in several countries by sophisticated satellite tracking. We are suing NASA/NSA/Clinton/International Space Studies persons to raise awareness of these criminal research programs. According to one of the researchers, I am a "non-human" life form and so have no civil rights.

If you want some ideas for scripts, you may have to show up at my door or find me at the hotel piano bar at the Queen Elizabeth Hotel here in Montreal in the evenings. Usually our telephones, mail and door bells are blocked or diverted. Sincerely, (The author)/address, (b)/address and (f)/address

Interactive Surveillance Equipment NEWS

Estimated date: April, 1997 Interactive Surveillance Equipment

To: Senate, ATF, CIA and Bill Clinton

The interactive surveillance equipment used by the NSA and military is also used by private security hit squads and enemy government for espionage, mind control, physical assault of American agents, military and civilians. Sex per Feel---not just viewing---is "on line" since the system allows one person to digitally link with a victim to the nightmarish point of neurological linkage so that the victim's thoughts, feelings and sexual sensations are perceived by the "controller" in a virtual reality chair or NASA control room.

Because of magnetic (and other) forcefield alteration aspects of the equipment, a victim's sexual organs can be destroyed, pituitary function altered, lobotomies can be done remotely and unborn babies can be deformed. Movie makers use the equipment to interactive view victims for *real life* scripts (as in the movie Magnolia), written off the victims tortured lives.

I was a hospice nurse tortured by my patient's being soul stripped by the foul people doing life-after-death research. ("If we take the soul and spirit and put it magnetically into a soul stripped child or even a dog---can we still get digital read-out thoughts/pictures of their experiences?")

This research is now just a tool for the rape and torture of all refined humans, since they want to "neuro-chip human computer" all of the best of every field of endeavor as a kind of "think-tank". Marriages are destroyed, children kill others and themselves, reputations are ruined and political overthrow of the United States is in progress by totalitarians who have targeted every faith to be destroyed by the weapons as "cults". And any person who fights within the United States Constitutional system is suppressed by the weapons, if they oppose such invasion of privacy and murder of innocent people.

I was listed in the Daily Oklahoman newspaper as linked with Waco's Koresh group by the propaganda specialists so as to justify within my social network the most horrendous assault by NASA researchers/biomed researchers upon my family and friends. I have lost my reputation, my financial assets, my family and friends and have serious cardiac damage and neurological damage from the experiments and assaults, yet I am not allowed proper doctors or the money to pay for them.

I have seen the torture upon the faces of many children in Oklahoma since that seems to be a target research site. My (relative) was first digitally tagged at age 11 and died in such agony 2 years ago from the mind control and biological research that I have trouble at times bearing the grief. Robotics industries must be controlled and the movie industries/porn internet must be stopped from feasting on tomorrow's scientists poets and theologians who might be successful in looking back upon this era of USA "defense" as the black ages of American civil rights and Clinton as the man who sold the children of America to Asian and other firms to use as they will---for biomed research, sex "research"

computer robotics, life-after-death soul removal research and in the case of “undesirables”---genocide research, and computer generated castrations/sterility.

To call this system “electronic surveillance” is evil because it is *interactive* to every cell in the human body and murdering someone’s sex life and melting their corpus collosum is not just taking a picture, you liars.

The complete control of all elections, destruction of *all* civil rights (to have a religion, assembly, bear arms, free speech, etc...) has already occurred.

I was arrested three times *without cause* and strip-searched, deprived of salt, water and food and given police and mental illness records to cover the testimony and to push me to a foreign government for an espionage reason.

I am asking Bill Clinton and Janet Reno to give up their legal licenses and positions if they do not believe in a checks and balances constitutional government. Go to China or Russia with your buddies, but leave me alone and let me see my tortured, dying children. Let me get disability and quit trying to force me in a jail or nuthouse, or grave. You controlled my lawyers and when I went Pro Se you had them sky hit my judge and burned half my face off to stop me from going to court and melted my car engine down.

There is no way for you to continue to suppress the human rights abuses since military and agency families are open season for Marxists and all NSA files can be read by the Chinese buddies who want Hillary to be the first lesbian President to deflower the military.

Our nation is in a shambles, because the Star Wars system and others have been used by private mafia and enemy governments to destroy all decent Americans. It is time for all Republicans to realize a weapons surveillance system which kills those it is intended to defend must be destroyed along with all copycat systems.

When men measure human evolution as synonymous with digital technology but fail to see that no poets, artists, scientists of great mind are being born or survive within the “mind net” (because we all become a dirty soup of thought and emotions) then you know the end is near. Binary rather than wholistic thinkers destroy the soul.

A long time ago I read a book by David Black, one of the early computer researchers called “The Computer and the Incarnation of Ahriman” (Anthroposophical Press).

Failing to see the spiritual and even mere moral aspects of invasive technology that tells you when to urinate (yes it can) defecate (yes it can) have sex on pay-per-fee for some oldster or abort your children remotely is tantamount to allowing the mass genocide of our failing civilization.

Crowded rats in a cage kill each other, eat their young, and chew off their own legs. Digitally locking people together blends their spirits and drives them mad unless they are without soul and spirit---the walking dead.

Some of the walking dead are haunting the White House---but even from such ghosts of what should have been greatness---I beg a reprieve from continued government harassment.

It is disgraceful that an American should have to beg for even the tiniest shred of protection from tortures sanctioned by the President but it has reached the point where I fear his private security firm will stop my heart as they did Jim McDougal’s since we are both witnesses against the President’s abuse of power in office. I unwittingly played into the role of a former paramour---but since I was also called a Koresh mama and an alien life form by NASA’s/(o) (who lived in my monastery) I am not too surprised that more bizarre titles shall be added for a movie script in real life.

I have been hounded by movie makers and have spent weeks working on scripts with the writer of “ET”, “Freddy Krueger-The Dreamer”, etc. ---so I am not hallucinating a film link.

Despite being used by movie studies, in intelligence operations and bio-med NASA (military projects) I am left indigent and in need of a cardiologist and left to die on the street as many Vietnam vets tortured by the same people ended up.

If you kill me I will haunt your ass, Bill Clinton---but if you tell the “electronic surveillance” people to *let me alone* and clear my record of the three political arrests so I can work or get disability, then I will shut up and let someone else carry the ball for freedom’s rag-tag team.

Fair enough? (The author)

April 18, 1998 Montreal UPDATE (f) and (bb) send on. These vehicles are outside my window
War Reports: 9 License plate numbers are listed.

I have been hit during the night and now by severe "beamers"---parked cars outside my windows holding the machines and through the apartment electrical system (the alternating and grounding wires used for scalar assault).

We met a Canadian agent last night. I am optimistic that this assault will end but I will have to try to avoid it outside. My leg hurts. My computer is *remote* turned off. I have a severe headache. --(The author)

April 19, 1998 UPDATE Tell News Associations and Lawyers:(We are taking lots of pictures and writing down tag numbers of the people working for companies linked to overthrow of the free world)

Dear Daddy; I am in Canada staying in a beautiful hotel that is 100 years old in a mountainous area. We do have some angry Japanese following us and employees of the various companies that are part of the destruction of America.

In particular the telescopes with superconductive power that link up with a huge network over the world are really weapons using the Mir and Moon which bounce deadly signals off planets and back to locations on the Earth for "tests" or to make a whole military base sick.

(k's) boyfriend Dr. (l), was given his own electronic telescope, which can over-ride a stealth bomber command. The hotel wired-in radioactive cameras inside smoke detectors will soon be outlawed, but twisting the sensor to the left and duct taping the inside cuts down use as a laser *licer* weapon.

Huge trucks carrying the superconductive magnetic altering devices took over our van yesterday and nearly flipped us off a mountain. Keeping radios on in the car between stations helps throw off satellite links to the telescope beams which if used between two NASA type trucks can cause an *implosion* of a vehicle. The Japanese are threatening the safety of the Western front and electronic telecommunication warfare is thick, but we are bearing up well. Tell the kids I love them. (Author)

April 21, 1997 Canada UPDATE The Oriental mafia here buys up small hotels and closes them. Also, the owners of the big hotels book their own rooms to create a crisis which encourages over-building the new scalar-walled mind-control equipped (magnetic force field altering devices and surveillance with interactive digital lasers to central computers location). Then the over-built "fancy" hotels are sold cheaply as condos or for corporate offices and underprice the Ma and Pa hotels, driving family operations out of business and destroying minds and bodies.

There is supposedly an international convention here, but only Orientals showed up and booked every major hotel several days in advance to block off rooms that will be used for the new economic and electronic warfare specialists or sit empty.

This hotel has empty rooms bought up (not used) and dark vans, panel trucks and German/Russian agents rather than Orientals with the "back packs" and NASA equipment.

My head hurts from the telescope/satellite assaults similar to Berkeley's "Space Study" program which killed that cop when he came to help me. I hope Quebec law enforcement check those tags. (The author)

POEM To the film crew at Cherrier Café
POEM

22 APRIL 1998

To the film crew at Cherrier Café

When movies are a double slice---
Bereft of spirit, souls on ice---
They then beget the hollow creme
(The choco' horror, eating screams).
When digit sounds replace a song,
when love of magic is right and wrong,
when asian princes and persian whores
invade the west and clean the store
destroying all that's good and true:
Art no more---the shame is you!
Then you'll see the death of me
(and all those in between)
who strife the knife
who hold up long

recalling noir films with simple songs
who have five sides---their Celtic cores---
their magnificent depth of war---
between their secrets and the world...
something more...something more.
When images and sounds are two
put on tapes---computer screwed---
There is no hope to show the depth
of passion here, or soon bereft.
For passion is a multi-hue
(not a Turner, not a Woo)
Rather, art of dance and song
is of angels
and the stars

22 APRIL 1998 When Bethune struck the Queen of Sparks

When Bethune struck the Queen of Sparks
the doctor—bold—begat a Mark(s).
Loveliest to the asian mite
was linen sheets (and tangerine quarks).
Denite of Day, the warrior played
to sanguine streams on Persian clay.
Despite the bug, the heat, the rug---
Aladdin hell fell to a smell---
Que Pasa? Sharp---the noted harp
fell from the sky---to strike the eye
of Babylon, and horses teeth
began to bite the midget's knee.
Collette the broad became a shard.
The shattered glass, the mirror frag'
to light the shrews with witches brews
began to feel the flaming fag.
The lips of poison, apple stung---
Does beauty sleep to thickened tongues?
Unable to disguise the truth;
Death to one is death to you.
Falling through an opened door,
Jets to fates---boat to snore---
Rumplestiltskin to the test:
Can I fight while in the bed
of liars of the asian shore?
Yen is yang? who closed the store?

POEM

Be it God or beast or man,
pray for death of Englishman
who sucks the core of Saigon's tweet---
lest your baby lose the teat
of his mother, and he dies
like the others (French to hide).
Connecting dots to make a map
out of semen of the lamp,
the gods of space shall cut the cord
of the ladies and the lords.
Disgrace replaced a modest stance
fore Alice fell---became a man.
The rabbit lived---the shame is thine
for all the damage to the pride
of angel-watched loved ones who pray
defiled in public by the state.
Whenever bedrooms become a tool
for Fahed's watchers and asian fools
by satellites or lights that burn---
find the grief the perverts learn
will be their own.
For rage of lions will soon devour
the bloodless coup of Romanian towers,
causing Babble to fall down
at the knees of unpantsed clown.

(Poem is describing the Canadian Power system and 911 links to voyeur industries in the military/NASA contractor pockets which threaten the safety of all Canadians and Americans by linkage to space stations.)

Nazis in Montreal Hotel UPDATE

April 23, 1998 Canada UPDATE

This hotel has a German man and woman (who were most likely Nazi guards) working here or owning it. Above my bed is a kinky 2-way mirror into the attic. There is a false wall and other 2-way mirrors on the wall. There is a kind of UL smoke detector with a deadly *green* light that enlarges at night in diameter as an Oriental torture device and surveillance. In the nearby Italian restaurant red lights appear on the walls on what is (to all observers) just a white object mounted on the wall the size of a credit card. The red light seems to "attack" while the green light devices seem to be like *suction*. I can't explain it, except it is like a magnetic pole thing; one cannot live in health without red and green *poles*---so Nazis worked out some kind of generativity *drain* with the green device and an interactive virtual reality video link with the red. The red light is *exactly* like the printer link lights to computers that *do not* require cable.

I saw them at a "Sharper Image" store. Bill still has the belly imploder from the university Space Studies (Red China/Japan/Korea) programs assaulting us. The dogs are ill and I am likely going to die if they lawyers don't get me *any* settlement so as to run---(d) is *unable* to withstand the "travel" (ie. running for *life*). -(The author)

April 25, 1998 Holocaust Remembrance Montreal NEWS

On these days of Holocaust remembrance, I find myself haunted by the memories of the times I spent with a Nazi concentration camp nurse who had immigrated with her SS husband to the United States. She told me many things about the war with a peculiar twist in her version of history. The Jews were “hogging” industry and so “deserved to be punished” while “not so many died” were examples of her view of history. Then, she pulled out some World War II era machines used in the death camp medical research and began to teach the students there how to use the machines. She placed my hands on copper panels while electrical currents of different frequencies and waveforms pulsed through my body. Later, she would explain how you can kill every bug in a garden by spraying dead bugs and poison on a few of the captured bugs--- a *morphogenic field experiment in “radionics”*---a science begun in the United States by World War II era Ruth Drown and in Europe by Aubrey Westlake and others.

Little did I realize that I would be taking part in the Nazi medical experiments continued since World War II. This woman gave me vials of homeopathic liquids to drink that she made in her health food company. Later, I began to suspect the worst: the vials contained plasma from the victims in the WWII death camps. I began to have nightmares about being in Dachau’s camp and spontaneously began to speak in a French dialect (I only speak English) about an experimenter named “Colbert” and about the woman “Giselle” (pronounced with more of a German “g” than French) who had been tortured in decompression chambers for body gas removal. There was a coffin type box that had a hyperbaric and decompression valve (in the camps) used for life-after-death studies. Researchers noted that when people die they become 4-5 ounces lighter when the soul and spirit depart. So, the Nazis attempted to remove the soul and spirit of living subjects and inject it, make into a liquid for drinking or inhale it by an asthma-type inhaler device. Later I was to be placed in such a device and was able to meet—face to face—some of the original Nazi researchers, who were using me against my will with the approval of the President of the United States (even though I had begged for his help) for the NASA/NSA invisibility studies.

I had spent many years working as a registered nurse before I came to their attention as a potential laboratory subject. While working with dying cancer patients in their own homes, I began to experience horrors so great that I can scarcely speak of them to this day, since I was placed in the same satellite directed forcefield as my patients, while NASA manipulated the dying process for the satanic scientists at UC-Berkeley and elsewhere who keep the Nazi dream alive.

It is no surprise to me that the researchers have targeted religious groups such as the 7th Day Adventists in Waco, Texas, since destruction of all freedom of religion is one goal of the current Gestapo secret government agency. I suppose I fell even deeper into their hands when I gave up my nursing career to study comparative religion and “divining” (the ancient art of using one’s body signals magnified by a forked stick or other instrument to detect underground water or other substances). I formed a non-denominational retreat center that soon was filled by a NASA scientist, a US Air Force Base computer expert, and a UFO propaganda film crew.

You see, the Gestapo cannot commit such grave crimes against humanity unless they suppress the truth and present a propaganda cover for the torture and murder of innocent civilians used in the neo-Nazi research. One such cover was the famous Roswell, NM alien crash that was a double propaganda event. *The “aliens” were deformed human children raised in astronaut forcefields in a laboratory under radioactive lights which caused baldness and deformities.* NASA wanted to simulate life on another planet or the moon, for future colonization. The use of altered forcefields so as to create time travel machines was part of it, and they never got away from the prospect of using a soul/spirit/body-mind gas for remote viewing in “unmanned” space crafts or for military intelligence.

Telepathy research usage of the body-farmed substances is linked up with the new field of neuro-chip computers (which allegedly use animal brains but really use human tissues of living research subjects). The torture finally led me to flee the United States before they could force me back into the NASA research facility in Florida, where I was held by the researchers of human robot creation.

I have spent several years traveling with two witnesses to Europe, Mexico and Central America and have found the greatest peace here in Canada, although the NASA beasts continue to harass us. I have lost significant functional ability---for instance, I cannot recall any string of numbers—which I suppose could be due to the morphogenic field research that mixed me with the body gases of those sent to die in Dachau’s “research”, or due to a head injury. I remember for two years, I wrote countless strings of numbers inside Stars of David, and would feel better. It was as though those people who were to be reduced to a number and a star had become part of me, and their horror mine.

Anne Frank’s father was told by his guard that no one would believe the atrocities had occurred even if he lived to tell of them. Most people, I have found prefer a simple explanation of the horrors, and don’t want to bother thinking about the fact that WWII Nazis and neo-Nazis research is immoral and illegal. I have no such luxury as to forget, since I am

haunted not just by memories but by severe day-to-day limitations on my freedoms, since the research is an international top secret one protected by even the Canadian government.

I have lost three people I loved due to this research, my daughter, dear friend and student, and my husband. I spent nearly three years terrified in an attic while being held there for research, only occasionally allowed outside. My phone/fax is usually blocked or diverted, and my computer is remote controlled so that all I write is edited or erased by the thought-police. I have had my face acid-splashed, my leg shot with a Russian neutron popper, and been sliced open in my own living room for egg removal. I have not been allowed to see my youngest son for 2 and ½ years---not even at my daughter's funeral last month, and my other older children are wounded by our separation, as I have attempted to flee from the Gestapo by travel.

I do not know the way out of my hell, but I have a responsibility to report the events so as to protect others. Most people never know they are research subjects, but clusters of suicides are an indication---like the 5 Montreal high school boys "suicide" deaths last fall. Also outbreaks of disease (such as the recent hepatitis outbreak in the Hassidic Jew community and the hospital's flesh eating disease cases) are signs of the group bio-med study arm of the research.

The use of the central 911 and cable telephone and electricity power systems to do Scalar electronic mind control research is possible because of the electronic remote control capability and links to the space studies/military over-ride surveillance systems.

I have met many of the researchers in the human robot creation and mind-control Nazi studies here and abroad. The use of 24 hour a day broadcasts (from satellite or the Moon station) for advertising or population mind-control is already part of the NASA package, and the Asian mafia that greeted me in Hawaii and here are intimately linked with the Russian/Chinese overthrow of the West by controlling the power systems, film industry and of course television/telephone sub-lines which can *kill* viewers or talkers. (Remember the 700 Japanese school children who had grand mal seizures watching a cartoon last winter?).

How far-fetched is it to think that any company or government that has access to the human minds and bodies of Canadians by electronic terrorism could be linked to those early Nazi studies? The fascists and communists have always had many similarities, and the love of new weapons may be the downfall of the West. In the end, the East will win in electronic warfare, unless it is *banned* internationally.

We research subjects are slaves to the NASA contractors who have brought Hitler's killers to the West to expand the war machine technology, that now is the shame of America. "Bloodless coups" that leave children dead on train-tracks or shooting others is not so very bloodless if it is *your* child or friend to die. I tried to tell my children that we must fight for the freedom of all persons from this research, or we will never be free. There is no freedom for persons enslaved by cowardice who work deals with the Gestapo. The Gestapo works by creation of concentration camps that are called mental hospitals but---oddly enough---have no medical doctors. Court orders to enslave persons such as myself are acquired by presentation of forgeries and lies by the researchers themselves or paid scared relatives or enemies. "Mental health" hearings only require hearsay, and no testimony is under oath---so the words of the Nazi murderers themselves can convict an innocent person to life in a NASA prison without parole. Unless the United States laws change to require evidence in a proper court of law before life-long "hospitalizations" of NASA research subjects, then the concentration camps will grow. I know, I was in one and barely escaped by legal means, and then had to hide before the silencers of whistle-blowers began a new round of proceedings.

The holocaust of the 40's happened before my birth, and yet I am part of it forever. If I should lose my life or freedom to write in my struggle against these Nazi/NASA murderers, then realize I would have lost it anyway, for murder is their business and silence does not stop the ax of the Gestapo. News Articles: "Suicide Watch"

April 26, 1998 Copy of News Article **"The Suicide Watch--Three deaths leave experts groping for answers"** by John Geddes in North Bay (Probably *Montreal Gazette*): COMMENT: (North Bay, Ontario, three deaths in less than six months ---the three 16 year old girls who were friends---one on a train track and two hangings).

My nervous system is on fire with pain as I am punished by the military special services for the last fax. My (relative) had so much nerve pain that she could not work or relate to others without angry anguish---which isolated her, before death. My male friend John is Irish, freckle-face, fair type, and he just reacts to the mind hackers with open stares or pained looks, but has no comprehension of the cause for his headaches and stunned or emotional over-reactions. (---), the Italian piano player, got all bloated and his eyes looked Chinese when we got satellite/surveillance--lighting system "hit" in the piano bar, sitting together. The Jazz club shut down when I arrived---the Black bass player Skip was hit by the satellite and couldn't play at all--totally stunned, suddenly. Two more children dead---one more on a train track. (Two young boys died on train tracks here not long ago). I will send the article next.

I am mentally fine and will endure. I love you all. Call if you need to. --(The author)

April 29, 1998 Montreal Societal Engineers with High Tech Equipment NEWS

Primitive or religious persons can be controlled easily by societal engineers using high-tech equipment which alters perceptions. The wedding of the neuro-chip robot makers to the chemical/bio-med industry for the purpose of mass population control has threatened the freedom of every man, woman and child in America, since private corporations are allowed to experiment on citizens and military without informed consent.

How do I know this? I have been used as part of the Waco, Texas experiment that was linked (according the *Daily Oklahoman*) to my Guthrie, Oklahoma religious retreat center. Living in the “compound” were (b)/(Tinker Air Force Base computer mainframe specialist), (o)/(NASA scientist) and (a)/(UFO propaganda specialist who I later married).

Religious groups (i.e. Jonestown, French Guiana and Waco, Texas) are chosen because the high-tech mind control experts rely on superstitious people to accept any phenomenon as *spiritual* rather than *technical* in nature. While in astronaut forcefields I bled through the skin (stigmata? *no*---centrifuge) and spoke in different unknown languages (Glossalalia? *no*---satellite beam virtual reality computer brain linkage to another person or video) while the experimenters filmed my reactions. At one point I was critically ill for three days after being fed some bio-med toxic soup, during which time I hallucinated and my eyes changed from blue to bright green. “Mr. NASA” scientist (o) said I was an alien from outer space when this happened...but I was simply poisoned.

Another time (c) and I were walking in Guthrie and seemed to teleport to Belize, Central America. Coconut palms, low concrete houses and blistering heat replaced (in our minds) the red cedars and gnarled oaks on the streets of the tiny Victorian town in Oklahoma. It was, of course, an experiment in group hallucination by a broad satellite beam computer linked to another location. Later, I saw the same Belizean location as I rode a bus to Belmopan from the Mexican border.

The complete destruction of the human mind and body is common in such research. The decision to bury Waco occurred because the microbe brain infections and insanity from satellite mind control bombardment were causing Koresh and others to take up legal firearms in terror of their own government.

The use of human beings in bio-med research without their consent is so widespread that the US government has developed a blasé attitude toward the suffering of the millions of victims. Silencing whistle blowers by torture until suicide or murder in a “mental health” gulag or death by “accident” is the hoodlum Clinton’s approach, since his Asian and Middle-Eastern friends who put him in office stand to lose a lot of money if they can’t get defense and NASA contracts allowing them to devastate American families at will. The same companies torture Mexican citizens. My two friends and I have seen whole Mexican towns turned into ghost towns in one year, and have seen the robot military men near the Guatemalan border who are the new mass-murderers created by the same companies that tortured me in Oklahoma and elsewhere.

The assumption that Bible- belt Christians will be stupid enough to blame the *victims* of “cult” suicide/murders rather than the engineers has allowed greater crimes to occur with unusual themes, such as the rash of deaths on train tracks. By the way, the **Cult Awareness Network** and **Scientology** (which purchased the *C.A.N.*) have Asian roots and money behind them, and they use tools called “E-Meters” as mind control/cattle prods to alter the beliefs of citizens to suit the moneyed interest. Hassidic Jews, Catholics and 7th Day Adventists are all “cults” by their definition and set for annihilation by their moneyed backers.

In Guthrie I was to be visited by representatives of the *International Space Studies* people from UC-Berkeley. I was also visited by (and a guest of) the writer of the book *E.T.* and the film *Nightmare on Elm Street—The Dreamer* who was interested in doing a film linking what happened to me (perceptually) to an alien invasion. The objects that flew around the house were not demon possessed---it was a trick by NASA that tortured me, my children and pets beyond words. Superconductive forcefield alteration devices were brought into my lecture halls, and directed toward me to produce disfiguration. My belly bloated out 30-40”, my feet elongated until I could not wear shoes, and my forehead squirted blood while my face withered. I went into renal shutdown and bled from every orifice while the sadists filmed my suffering. It took me a long time to quit praying for deliverance and to start fighting the bastards who have robbed me of my health, my possessions, my family, my friends and my freedom. I have been sliced open in my own home for body samples, I was given diseases that caused my flesh to fall off in huge chunks, I was implanted with a fetus that later died (I had had a tubal ligation long before this occurred) and have been shot in the leg and feet while running, my nose was broken by the researchers three times, and I have been murdered and resuscitated for life-after-death research while being virtual-reality brain-linked to the sadists who film the minds of others. All those things happened with Clinton’s knowledge and consent, as he was personally informed.

The eternal hatchet which the US Government has used over my head and others is that the *National Securities Act* allows anyone to be put in mental hospitals or killed if they are considered a threat to the existing regime. If you think the United States has a Constitution allowing freedoms of religion, of speech, of assembly...think again. The NSA cancels out the Constitution.

The use of satellite weapons on citizens is so easy because computer over-rides allow mega-corporations to use vehicles, computers and home security systems as surveillance devices and as weapons against the owners who can become semi-robots willing to obey the subliminal commands but can also be “dialed” to physical death. I was used in satellite tracking experiments which use a person’s spectro-graph computer image as the identification marker. I was told to try to run and hide in a vehicle and on foot while the trainees tracked me, and was given tips on how to hide from the trackers. Hanging one’s head down in a shower or sink alters the spectrographs---which measures colored lights around one’s head that are visible by computer as part of the natural human energy field. I recently read that car satellite tracking with map identification is now offered in new cars. The danger is that the cars and their owners can be controlled remotely. Eleven years ago, the car satellite tracking/control system was put in my car, causing me to nearly die on the highway with my youngest child, as another “experiment”.

The cost of “experiments” such as the “free” school computer programs has been immeasurable in the extent of human suffering, since autism/attention deficit disorders and acute psychosis occurs in children of target research areas. The Oklahoma postal massacre, the Oklahoma federal courthouse bombing, and the horrors of the Guthrie/Waco link are just the tip of the iceberg which may sink the Clinton ship. My (missing-presumed dead) husband (a) was sent to film me in Guthrie as part of the project. He had done film editing on similar projects (Waco, etc.). He and others became insane and full of fear while there, since competing private companies fought to gain control of the Guthrie project. At one point he knocked a hole in my head which later became encephalitis, as his confusion and terror of some of the Soviet-Asian interests led him to plan a personal escape.

The horrors in my own experience as a NASA white-slave pale in significance to the fact that whole tribes and towns are being exterminated with genotype specific weapons approved by the President of the United States. If a whole country---such as Cuba---should become full of psychotic impotent raging men who kill each other due to the new weapons, then perhaps the world stage will be ready for World War III... *to be announced*. Or, a whole army can be “put to sleep” forever by the new scalar receiver panels used in housing while being Tesla-system linked to a death resonance command sent from the Japanese Moon Station directly to earth. China has over-ride ability for the computer controlled Russian stations, *now*.

How do I know these things? Well, neuro-chip living computer research has linked this lowly nurse to a great number of scientists, social planners and military in the USA and abroad. When I decided to quit praying so much and started to look for the technological reasons for my suffering---the road opened wider than I ever imagined for this pawn to become a player. If a television cartoon can kill children in Japan, and if my prayers were answered by a UC-Berkeley pot-head Y-ed into my brain instead of by God, then I figure the tower of ‘Babble’ is due to come down.

There are angels and saints in heaven and Earth. I haven’t given up on religion; it is just that we need saints in the flesh to fight these horrors in the worlds of politics, finance and the military. By the way, angels are visible on NASA computer spectrograph screens, and “ghost-busting” is the removal of guardian angels from sleeping children in day-care centers (as in the Virginia McMartin pre-school experiment). Angels held in jars may be the *Mothras* to the Japanese *Godzilla*, yet the rage of heaven will fall to the defilers in the form of a cracked Earth core, unless someone reminds the idiots of NASA that cracking the heavens with neo-nuclear weapons will crack the Earth as well. I suppose a world without angels where prayer is to the government is not much of a future, anyway. Even so, I send this prayer out to my captors.

I fall on my knees and beg for the American children to be set free of the tortures that I have endured, by the perpetrators being cut off financially and physically from the powers of destruction. I ask my captors to look upon the many Quebec suicides as signs of the future. When humans can no longer hear their own thoughts for your pounding electronic subliminal entrainment devices, then they choose to die or kill each other. I beg my captors to stop each other from killing any more children’s minds, driving them to pick up guns. I beg my captors to go public with your crimes against humanity, in order to save civilization at the very least, and quite probably Earth itself. (The author)
